Program Design

Provide the proposed school's mission statement in the space below. **(Maximum 200 words.)**

At BRICK Buffalo Academy Charter School ("BBACS"), we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students from East Buffalo neighborhoods have the knowledge, skills and support needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.

Provide the proposed school's key design elements. Provide a brief **(up to 50 words)** description of each key design element. BBACS will work to achieve its mission by focusing on cultivating the three key design elements described below:

BRICK's rigorous and culturally responsive instructional program. BBACS will offer a proven instructional program that maintains high expectations while celebrating student identity and providing the differentiated instruction necessary to ensure student success. BBACS will also offer a longer school day (7:30 a.m. to 4 p.m.) and an extended school year (191 days).

BRICK's Ubuntu cultural program. BBACS will offer a proven cultural program that creates a warm, belonging-based school environment by focusing on culturally sustaining practices, social-emotional development, trauma-informed practices, and positive identity development. BBACS will also emphasize the recruitment of a diverse staff and the use of restorative practices, rather than exclusionary discipline.

BRICK's ecosystem approach to whole child development. BBACS will offer a proven approach to providing families with the comprehensive wraparound supports they need to thrive. BBACS will become a hub for a rich ecosystem of community partnerships that support families, including in the critical areas of early childhood education, workforce development, affordable housing and health care.

Provide a brief overview of the proposed school's academic program in the space below. The description should address any specific philosophical, instructional, curricular, or other approaches the school intends to implement and the rationale for this selection. **(Maximum 500 words.)**

BBACS will provide an academic program that is designed to help students become college, career and life ready – so that they can draw strength from their identity and become leaders in their community. BBACS plans to fulfill this commitment by partnering with the BRICK Education Network ("BRICK") to offer a rigorous and culturally responsive academic program. The BRICK model is an ideal fit for East Buffalo because it has already proven successful in a community with similar demographics. At the same time, the BBACS team also recognizes that it will need to continually find ways to adjust this program to ensure it meets the unique, contextual needs of their students and families.

BRICK's rigorous and culturally responsive instructional program is based on the premise that all students can achieve at the highest levels when provided with appropriate academic support. BRICK schools offer a curriculum that is rooted in high-quality materials that have been independently validated and/or have been shown to produce high levels of achievement in SUNY sponsored schools serving a similar population of students. For example, BBACS will offer a curriculum that includes resources from Achievement First Navigator mathematics, Lucy Calkins' Writing Workshop, FOSS (Full Option Science System) and Amplify Science, Core Knowledge History and Geography, Reading Mastery, and STEP literacy.

BBACS also recognizes that many of its students may benefit from additional support to achieve grade level mastery. As a result, the school will offer an extended school day (from 7:30 a.m. to 4 p.m.) and an extended school year (191 days). In addition, students will receive additional instructional time in the core content areas to ensure all students are on grade level by third grade. For example, Kindergarteners will receive 3 hours of literacy instruction and 80 minutes of math each day. This schedule will allow for students to receive daily differentiated instruction, including targeted, small-group instruction in guided reading, phonics, and math.

BBACS also prioritizes the holistic development of children. As a result, the school will also offer a comprehensive social and emotional learning program. This program includes explicit instruction in the Positive Action curriculum, a research-based program designed to support students to build proficiency in developmentally appropriate social and emotional skills. In addition, the BBACS team will continue to collaborate with families and community leaders to supplement this program with additional content to invest students in the school values and to provide authentic opportunities for students to learn about their identity and their community while practicing social and emotional skills with their classmates and building strong classroom culture. BBACS also plans to provide a comprehensive arts program, including instruction in visual art, music, dance and theater. The BBACS program aligns to a community need for more high-performing schools and a community desire for a well-rounded education. BBACS' commitment to providing families with additional wraparound supports, including in the critical areas of early childhood education, workforce development, health care, and affordable housing, will help families thrive and encourage a revitalization of East Buffalo.

Proposed Board Members

Provide a list of all proposed board members below. The Institute understands that applicants may add trustees to the education corporation's board in the future but expects applicants to have at least four board members at the time of application submission and identify a Chair, Vice-Chair, Secretary, and Treasurer. All proposed board members must undergo background checks and be present at an interview to constitute a functioning board in order for the Institute to recommend the charter for approval.

For each proposed trustee please provide a brief biographical statement (**maximum of 200 words each**) that includes each proposed trustee's:

- Name;
- Proposed charter school board title, if applicable (e.g., Chair, Vice-Chair);
- Current job title/position and company/organization;
- Past job title(s)/position(s) and company/organization (if applicable);
- Educational background including degree(s) earned and institution(s); and,
- Any relevant experience including boards, volunteering, community organizations, etc.

The lead applicant for BBACS is Yolanda Wood. Ms. Wood is a Buffalo city resident and university administrator, and she will serve as the Education Corporation/ charter school's board chair. She is currently the Deputy Title IX Coordinator at Niagara University. Ms. Wood joined Niagara University from D'Youville College, where she served as Chief Diversity Officer overseeing the college's commitment to equity, diversity, and inclusion. Ms. Wood brings significant experience in postsecondary education administration and project management to BBACS' board. An active volunteer within the Buffalo community, Ms. Wood is a member of Alpha Kappa Alpha Sorority, Professional Sisters Working Together, and the Young Miss Buffalo Pageant board. Ms. Wood is a graduate of Medaille College, where she received a Master of Science in Mental Health Counseling, and the University at Buffalo, where she received a Bachelor of Arts degree in Sociology. Ms. Wood is currently pursuing a doctoral degree in Educational Leadership from D'Youville College.

Dr. Takesha Leonard (the proposed Vice Chair and chair of the personnel committee) currently serves as the East Side Medical Director at Jericho Road Community Health Center. In her role, she helps lead the center's efforts to provide high-quality health care services to the East Buffalo community to address the significant health disparities impacting East Side residents. She served on the New York State COVID task force and ran the first free no-barrier COVID testing site in the city of Buffalo. She is also starting the center's first summer enrichment program for high school students on the East Side of Buffalo who are interested in medicine. Recently, she has also gained experience supporting the rising immigrant population in the city since her team helped to directly resettle more than 200 Afghan refugees this year. Dr. Leonard is a board certified Family Nurse Practitioner. She holds a Doctorate of Education in Health Policy and Administration and Master of Science from D'Youville College. She earned her bachelor's degree at the University at Buffalo.

Adam M. Desmond (the proposed Treasurer and chair of the Audit and Finance Committee) is Regional Market Leader for the Buffalo Market at Tompkins Bank of Castile. Mr. Desmond is responsible for expanding the Bank's commercial presence in Erie and Niagara counties. He has more than 16 years of finance and banking experience, including time at KeyBank/First Niagara Bank. His experiences include corporate and industrial lending, commercial real estate lending, and small business banking. He reports directly to John McKenna, the President and CEO of Tompkins Bank of Castile. Mr. Desmond earned a bachelor's degree in Finance from the University of Buffalo in 2005 and a M.B.A. from Canisius College in 2011. Mr. Desmond resides in Grand Island with his wife, Carin, and their two children. He is active in his children's activities and in the community. He is also on the board of directors for Susan G. Komen Upstate NY and was formerly the Vice-Chair of the Board of Directors for Literacy New York Buffalo-Niagara, Inc. He also recently graduated from the Leadership Buffalo program in 2020.

Dr. Ramone Alexander (the proposed chair of the Academic Committee) is currently Director of Inclusivity and Community Building at Nichols School. In this role, he has led the school's efforts to engage in professional learning related to diversity, equity and inclusion and has implemented new programs to support all students, including students of color, to have a positive experience at Nichols. At Nichols, he has experience teaching Algebra to middle school students and a Service and Social Justice class to high school students. Prior to joining Nichols, Dr. Alexander served as a principal investigator in the Graduate School of Education at the University at Buffalo. In that role, he administered Liberty Partnerships, an academic and social support program for middle and high school students situated in the University at Buffalo's Office for University Preparatory Programs. A lifelong Buffalonian, Dr. Alexander graduated from Columbia University with a BA in Psychology. He earned his Doctorate of Medicine from the University at Buffalo School of Medicine. Dr. Alexander currently lives in the city of Buffalo with his daughter Asia.

Chris Porpiglia (the proposed Secretary and chair of the Development committee) currently serves as Vice President and Senior Client Consultant at Manning and Napier Advisors. He is a Certified Financial Planner professional, representing Manning & Napier Advisors in Western New York. As a native of WNY, Mr. Porpiglia is a proud supporter of community causes and volunteers his time through Junior Achievement and Habitat for Humanity, and the American Diabetes Foundation. He is a 2020 graduate of the Leadership Buffalo program and enjoys spending free time with his wife and two sons. He earned his bachelor's degree from the

[1] All enrollment data should reflect *BEDS day information*.

[2] All retention data should reflect students enrolled in school on previous BEDS day who remained in the school the following BEDS day.

[3] An eligible student is one who has not completed the school's terminal grade, aged out of the program or been expelled.

[4] All students who received mandated services at some point of enrollment in the school should be included in this count even if no longer receiving services.

[5] Any student identified as an English language learner at any point of enrollment in the school should be included in this count regardless of current English language proficiency status.

R-01AC – Community Need and Proposed School Impact

a. Community Description and Need

Provide a narrative analysis of the community and target population for the school including:

- A description of the community from which the proposed school intends to draw students.
- Community demographics including available information and/or changes related to the COVID-19 pandemic.

Buffalo, the anchor of the Western New York region, is currently home to an estimated 255,284 residents¹ and has a long history as an accessible hub for our nation’s newest immigrants². More than 80 different home languages are spoken within the Buffalo Public Schools, with the most common being Spanish, Arabic, Karen, Somali, Burmese, Swahili, Bengali, and Nepali³. This diverse city is in the midst of an economic “renaissance” with the revival of downtown Buffalo and a surge in millennial families moving back to the city⁴. However, despite the city’s cultural diversity and economic progress, extreme inequities exist that cause individuals from different geographic areas, racial groups and ethnicities to experience the city very differently. Table 1a.1 below provides a snapshot of Buffalo’s population by racial/ethnic group according to the most recent Census.

Table 1a.1 – Buffalo, NY Population by Race and Hispanic Origin

Identified Racial/Hispanic Origin	Percentage of Population
White alone	47.1%
Black/African American	36.5%
American-Indian	0.5%
Asian	5.9%
Two or More Races	4.0%
Hispanic/Latinx	12.3%

Byron Brown, the city’s current Mayor, has expressed his desire for the city’s resurgence to positively impact all of the city’s residents: “As economic growth and opportunity continues in Buffalo, it’s important that all residents and business owners benefit from the city’s rising prosperity.⁵” However, approximately 1 in 3 Buffalo city residents live in poverty⁶. In 2019 Buffalo also reported the 4th highest youth poverty rate of all major metropolitan cities in the nation – with close to half (47.2%) of its young people living in poverty⁷. At the same time, the city’s poverty rate for White residents was only 9.3%

⁷ <https://www.bizjournals.com/buffalo/news/2019/01/15/buffalo-posts-the-nations-fourth-worst-poverty.html>

compared to 32.3% for Black residents⁸. In fact, some 64% of people of color live in areas of concentrated poverty in Buffalo compared to 14% of White residents.⁹ The median household income in Buffalo hovers at \$37,354 compared to the \$62,843 national average¹⁰. The city also has the highest violent crime rate of any city in New York State - with a rate of 1,042 crimes per 100,000 residents¹¹.

The East Side of Buffalo, where BRICK Buffalo Academy Charter School proposes to open, is an area of particular need. Encompassing zip codes 14212, 14211, and 14215, the East Side reports even greater inequities when compared to the other major districts of the city (shown in Figure 1a.2). Schiller Park, which is 82% Black, is a densely populated neighborhood on the East Side. The neighborhood's median income is roughly 20% lower than the city's median income at \$27,234.¹² Almost 3 out of 4 children in Schiller Park and the East Side live in poverty¹³ and 83% of children live in households receiving public assistance, SNAP benefits, or SSI.¹⁴ Levels of college completion on the East Side also lag behind the city average with 6.2% of residents holding a bachelor's degree compared to 25.8% citywide¹⁵.

The BBACS team has consulted with renowned scholar Dr. Henry-Louis Taylor Jr. to learn more about the experience of residents on the East Side of Buffalo. Dr. Taylor, a faculty member at the University at Buffalo who serves as the Director of the Center for Urban Studies, a professor of urban and regional planning, and an associate director of the Community Health Equity Research Institute, helped provide additional information regarding the historical and present day challenges facing the city's minority and marginalized residents. His feedback has also helped to inform our school's key design elements and program offerings that are described later in this application.

Taylor's original 1990 study, referred to as the Black Buffalo Project, was co-sponsored by the Buffalo Urban League and the Buffalo Common Council, and identified numerous core problems facing Buffalo's Black community.¹⁶ Thirty one years later, Taylor and his colleagues again analyzed statistical census data, city planning documents, policies and State of the City addresses going back several mayors to determine if African Americans have made progress over the past three decades in a follow up study entitled *The Harder We Run: The State of Black Buffalo in 1990 and the Present*.¹⁷

¹⁶ <http://www.buffalo.edu/ubnow/stories/2021/10/taylor-report-black-community.html>

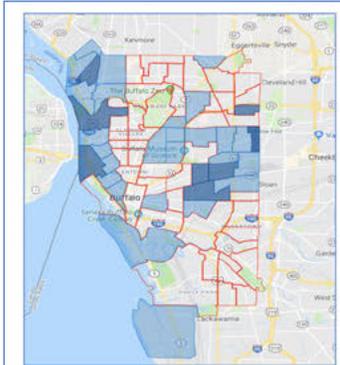

¹⁷ <https://right2thecity.files.wordpress.com/2021/10/taylorhl-the-harder-we-run.pdf>

“When we took a look at Black Buffalo 31 years ago, we felt the community was on a downward trend; we were increasingly locked in the economic basement,” Taylor says in the report.¹⁸ “When we looked at these trend lines some 31 years later, we see no reversal,” he adds. “We see that with some of the critical metrics — the poverty rate, household income, homeownership, employment — not only is there no progress, there’s no change. When we say there’s literally no change, we’re saying that in a lot of ways the situation is more entrenched, more solidified. And that implies that breaking the downward cycle is going to be even more difficult and complex than it was before.”¹⁹

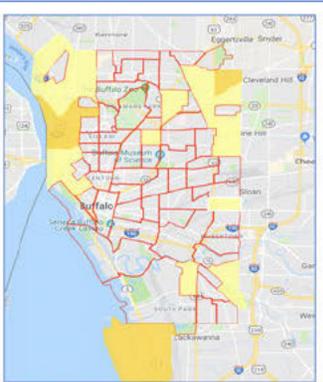

The study found that progress in other parts of the city, funded through significant investment in urban revitalization, has not made its way to the predominantly Black communities in East Buffalo. East side residents continue to struggle with inadequate, substandard housing and predatory land banking practices exacerbated by racial segregation and gentrification. In addition, limited educational attainment keeps many residents stuck in the low-wage labor force or unemployed. According to the study, “The interplay between education and labor market dynamics drives chronic joblessness in Black Buffalo.”²⁰

Taylor’s study ultimately determined that the “...top problem facing African Americans is their poor health” and that the stressors of financial insecurity and neighborhood conditions directly correlate to undesirable health outcomes in the Black community.²¹ For example, excessive pollution and lack of green spaces in East Side neighborhoods contribute to chronic respiratory ailments in many residents. These situations are further exacerbated by limited timely access to healthcare and inconsistent quality of those services for families living in poverty. The graphics below are taken from U.S. Census data and help to underscore Dr. Taylor’s analysis by showing that the East Side of Buffalo has high rates of poverty and significant numbers of school-aged children.

Census Maps of Buffalo, New York

This map represents census tracts in Buffalo, NY. Nearly 31 percent of the population in Buffalo lives below the poverty level. The shaded census tracts represent the following poverty levels:
 Dark Blue > 49% below poverty level
 Light Blue > 35% below poverty level

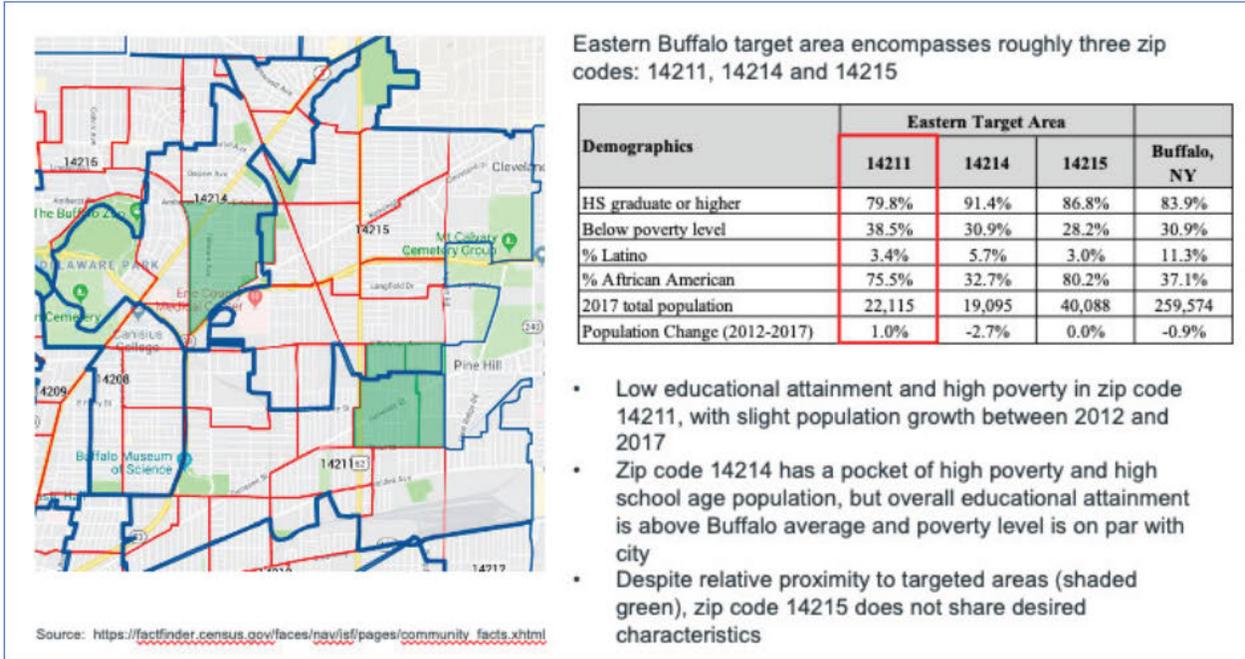

Approximately 60,000 children under age 14 live in the highlighted areas. The distribution by census tract is as follows:
 Orange > 1,400 children
 Yellow > 1,000 children
 Blank < 1,000 children

The Buffalo Public Schools

“Buffalo’s public schools are just as segregated now as they were in 1972, before federal desegregation orders. Buffalo-Niagara is a well-educated area. In fact, educational attainment in the region tends to be higher than the national average. But within the region, disparities are unusually sharp. An adult in the City of Buffalo is almost twice as likely as an adult in the metro area to lack a high school diploma.”²²

In the State of New York, the Buffalo Public School District (“BPS”) is the largest district outside New York City.²³ It currently serves over 33,000 K-12 students in 60 schools²⁴. As of 2019, there were 17 charter schools serving over 9,100 students in Buffalo, equal to more than 21 percent of the student population. An additional 3,300 students attend non-public, mostly faith-based, schools. In the Buffalo school system, over 21 percent of students are English Language Learners, speaking more than 80 different languages in their homes.

In 2015, the Buffalo Board of Education appointed a new superintendent, Dr. Kriner Cash, who is nationally recognized for his work in urban education. Under Dr. Cash’s leadership, the district has implemented a number of new initiatives to improve the quality of education, including the Turnaround Schools Leadership Institute, New Innovative High Schools, and Community Schools throughout the district. The district has also seen slight improvement in academic gains between 2015 and 2019, as measured by the ELA and Math NY State assessments²⁵.

While recent academic progress in Buffalo is encouraging, Buffalo schools continue to underperform relative to other schools in New York. According to the 2019 New York state assessments, BPS reported 24.7 percent proficiency in ELA compared to the state average of 45.4 percent. Similarly, in

²² https://ppgbuffalo.org/files/documents/education/public_education_in_buffalo_and_the_region_buffalo_brief_may_2018.pdf

²³ <http://www.p12.nysed.gov/irs/statistics/enroll-n-staff/home.html>

²⁴ Buffalo Public Schools at Glance 2018-19

²⁵ <https://www.buffaloschools.org/>, Major District Accomplishments

math, Buffalo schools averaged 20.9 percent proficiency compared to the state average of 45.6 percent²⁶. That year, the BPS high school graduation rate was 65% while the New York state average high school graduation rate was 83%²⁷. Each year, *Buffalo Business First* publishes academic rankings of the 96 school districts in the Buffalo-Niagara Falls area, rating the school districts in areas of English, mathematics, science and social studies. **BPS ranked 95th out of 96 school districts.**²⁸ Unfortunately, statistically significant achievement gaps also exist between sub-groups within BPS, further illustrating how some parts of the city’s population are even more undeserved than the overall district data indicates. For example, in the 2018-2019 school year, 48% of White 3rd graders scored at a Level 3 or higher on the New York State math assessment compared to 18% of African-American 3rd graders. Similarly, on the state ELA assessment 46% of White 3rd graders scored a Level 3 or above compared to 25% of African-American 3rd graders. Collectively, these data points help to illustrate the need for additional high quality educational options for BPS students, especially for its African American students.

The Partnership for Public Good found that three-fourths of the variation in achievement scores among schools in the Buffalo-Niagara region could be “explained by their percentage of students with low-incomes²⁹”. Students at majority low-income schools have achieved lower scores when compared on average to their more affluent peers. While the Buffalo-Niagara metro region writ large – inclusive of the more affluent suburbs of Buffalo – reports higher rates of high school completion and attainment of advanced degrees than the national average– there are notable disparities in the educational outcomes along lines of income. BPS, with enrollment of 31,050 students³⁰, reports that 83% of its students are classified as “economically disadvantaged”³¹. In fact, BPS students are “twice as likely to live in poverty than students in the [suburbs of Buffalo]”³². Educational outcomes across the metro region are also closely correlated to income with BPS reporting lower graduation rates and achievement scores than the more affluent districts of Williamsville, East Aurora, and Orchard Park³³. As a result, students in communities like East Buffalo, who are born with fewer resources, face the prospect of attending schools that have not yet proven capable of helping them to perform at the highest levels.

Given the current academic performance of Buffalo schools, the community would greatly benefit from additional high quality education options, particularly those designed to serve the African American students in the parts of the district that experience the highest rates of poverty. Fortunately, BBACS proposes to serve this particular community and plans to leverage a proven national model that has already seen success supporting a population of students with similar demographic characteristics in Newark, New Jersey. The BBACS team believes that BRICK’s track record of supporting students to make significant academic growth coupled with its approach to mitigating the effects of poverty are ideally suited to founding a school that directly serves the needs of the East side of Buffalo. For more information about BRICK’s track record, please see **BPA S02a—Current and Planned Schools** and **BPA S02b—School Demographics**.

- *A description of the specific population of students the proposed school intends to serve.*
- *The applicant’s rationale for selecting the community.*
- *Performance of local schools in meeting the community’s needs.*

- How the proposed school would provide a needed alternative for the community.

School Quality in East Buffalo

BBACS seeks to serve the community of East Buffalo in particular based on our analysis of local achievement data and student demographics as well as our interactions with families and community organizations. We believe that the East Buffalo community in particular is in need of additional high quality schools that can provide the wraparound services necessary to support families and inspire high levels of student achievement.

A recent analysis of school performance in East Buffalo helps to further illustrate the need for additional high quality schools on the East Side. Table 1.a2 shows the recent NY state test scores of several open enrollment schools in close proximity to the target area where BBACS proposes to open.

Table 1a.2 – NY State Test Results of East Side Schools

Collectively, these scores help to illustrate that the traditional public schools on the city’s East Side lag the performance of other BPS schools and are far below New York state averages. Further analysis of the demographics of schools in the proposed location of the school show that these schools also serve a unique population of BPS students—including a higher than average percentage of African American students, economically disadvantaged students, and students with disabilities. Table 1a.3 provides specific demographic data for these schools.

Table 1a.3 – East Buffalo School Demographics³⁴

The data from these schools helps to show that there is a great need for additional high-quality schools on the East Side of Buffalo that are capable of supporting this unique population of students to achieve at

³⁴ <http://www.p12.nysed.gov/irs/statistics/enroll-n-staff/home.html> <https://www.kccs.org/our-history.html>

high levels. In addition, this data further substantiates what we have learned from families and community members during our community outreach. The families on the East Side, and the social service agencies that support them, are invested in the creation of additional high-quality elementary school options in their neighborhood. Our team has conducted ongoing outreach with Buffalo stakeholders since 2019 and that outreach has shown us that there is a unique opportunity to replicate a proven national model that meets the stated desires of local residents.

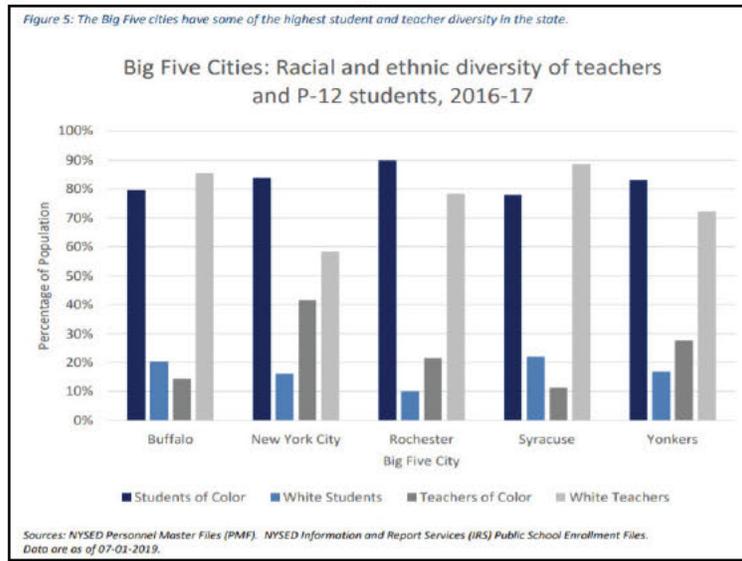

In addition, our team believes that the BRICK model is a strong fit for the East Buffalo community because of the similarities in demographics between East Buffalo and Newark. Many community statistics, including the unemployment and education attainment rates, are very similar to those of our sister school located in Newark's South Ward. BRICK has also served a similar demographic of students, supporting the turnaround of district schools that had 6.3 times the average number of Black or African American students as the state as a whole and 2.4 times the average number of economically disadvantaged students. BRICK was asked to support these schools due, in part, to their low academic achievement, which lagged the local traditional public schools. However, during BRICK's support, these schools made dramatic progress, posting student growth percentiles that were near the top of the district; #2 and #18 of 59 in ELA and #6 and #17 in math in 2017. For more information, please see **Business Plan—Section III: Prior Academic Performance.**

Leader and teacher diversity

Another notable characteristic of our target district that BBACS is uniquely qualified to redress is that few BPS schools employ adequate numbers of leaders and teachers that reflect the diversity of the student populations they serve. While the New York State Education Department's 2019 Educator Diversity Report states that "...a diverse educator workforce is associated with wide-ranging educational benefits for all students—particularly students of color—and for the school environments in which they are employed,"³⁵ teachers of color are underrepresented statewide. In addition, many areas in and around Upstate, Central, and Western New York have experienced declines in their teacher of color population over the last ten years. Looking at the report's analysis of Buffalo specifically, the graph below, Graph 1a.5, illustrates the wide disparity between the city's minority student population at 80% and its proportion of teachers of color at approximately 14%, making the BPS teaching staff one of the least diverse of the state's large urban centers.

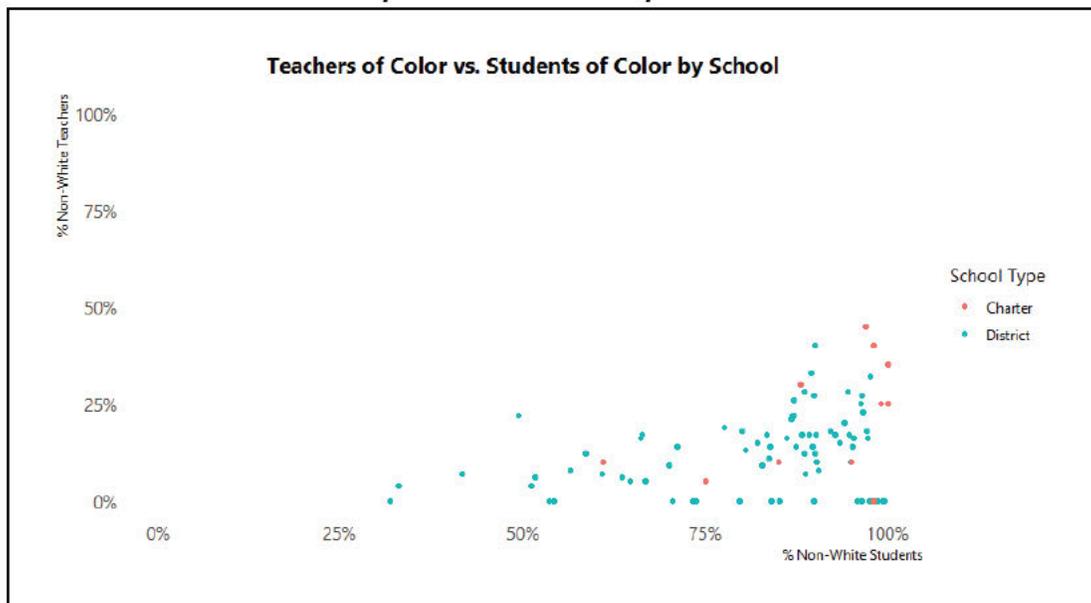

³⁵<http://www.nysed.gov/common/nysed/files/programs/educator-quality/educator-diversity-report-december-2019.pdf>

Graph 1a.5 – Diversity of Teachers in NY state’s Big Five Cities

BPS is not the only district in the area that has struggled to employ a diverse faculty; many area charter schools also have this challenge. As a result of the regional consensus behind the need to employ more diverse teachers and leaders, the Cullen Foundation conducted an analysis of local schools to better understand the extent to which staff and student demographics aligned. Their analysis is presented below in Figure 1a.6. As the scatter plot below suggests, most local schools serve a student population that includes a majority of non-white students. However, Cullen did not identify any schools that had a faculty that was a majority of people of color. This data stands in stark contrast to the data from BRICK’s fresh start charter school, the Achieve Community Charter School, where currently 46 of 56 staff (82%) are black or brown.

Figure 1a.6 – Cullen Foundation Analysis of School Diversity

This is a critical issue as David Figlio, Dean of the Northwestern University School of Education and Social Policy wrote about in *The Importance of a Diverse Teaching Force*, a report published by the Brookings Institution: “This estimated effect is not just statistically significant, but also highly educationally relevant.”³⁶ Teachers of color can be role models who inspire students of color; teachers of color may be able to better link cultural contexts to learning in ways that could benefit racial and ethnic minority students; and teachers of color have been shown to have higher expectations of students of color.³⁷ In fact, in a 2015 working paper by Gershenson, Papageorge and Stephen B. Holt, the authors found causal evidence that teachers’ expectations for student attainment are systematically biased. They found specifically that non-Black teachers have significantly lower educational expectations for Black students than do Black teachers.³⁸ As Constance Lindsay powerfully writes, “Given the evidence of positive effects on students of having at least one teacher who shares their race or ethnicity, state boards of education, other state policymakers, and school leaders need to recognize teachers’ race and ethnicity as markers of teacher quality. Whether purposefully or not, education systems have long defined teacher quality based on what is best for White students. Asserting that diversity is a dimension of quality can disrupt practices that privilege one group of students over another and can level the playing field for teachers and students of color, who stand to benefit most from a diverse teaching force. By explicitly equating diversity with quality, state policymakers can affirm the unique benefits of racially diverse teachers and implicitly elevate diversity as an objective onto itself.”³⁹

Addressing Exclusionary Discipline

The Buffalo Public Schools also has one of the highest rates of student suspensions in the state of New York—a rate higher than other major cities like Rochester, Syracuse and Yonkers. In fact, a 2016-2017 report found that nearly 14 percent of students in Buffalo had received at least one suspension. Once again, there are also notable differences in the ways that different community members experience discipline in BPS. This same report found that BPS was twice as likely to suspend minority students as White students.⁴⁰ Table 1a.7⁴¹ shows the high levels of suspensions in Buffalo and the disproportionate impact on Black students in particular:

Figure 1a.7 – Suspension Rates in Buffalo

⁴¹ Source: New York State Education Department. Unpublished 2016-17 data. N-sizes are less than 100 students for the following groups; American Indian and Multiracial students in Rochester and American Indian students in Yonkers. All other groups include more than 200 students. Analysis conducted by The Education Trust—New York.

Figure 6: Percent of students with at least one out-of-school suspension in the Big 4 school districts

These high suspension numbers stand in stark contrast to BBACS’s commitment to building a restorative and trauma-informed approach to behavior management that minimizes suspension. BBACS proposes using a similar approach to building school culture that has proven effective at BRICK’s fresh start charter school in Newark, the Achieve Community Charter School. While 19% of Black students in BPSs were suspended from school during the 2016-2017 school year, Achieve’s suspension rate has never been above 1.67%.⁴² Please see Table 1a.8 below, which outlines the extremely low rates of student suspension, often zero, at Achieve:

Table 1a.8 – Suspension Rates at BRICK

Discipline at Achieve	2017-18	2018-19	2019-20	2020-21
Total Number of In-School Suspensions	0	0	5	0
Number of Students Receiving In-School Suspension	0	0	5	0
Total Number of Out of School Suspensions	0	0	26	0
Number of Students Receiving Out of School Suspension	0	0	14	0
Number of Expulsions	0	0	0	0

A Needed Alternative

BBACS believes that **the BRICK Education Network model will provide Buffalo families with a high-quality, unique school option that does not currently exist on the East Side.** School performance data shows that many of the district's most underserved students can be found in East Buffalo, where students are more likely to be African American and more likely to experience the impact of poverty. In addition, data demonstrates that these students also do not yet have access to schools where the faculty reflects the student demographics they serve. Students attending BPS, especially African American students, are also more likely to be subject to exclusionary discipline practices, like out of school suspension. Fortunately, BBACS will be able to partner with BRICK to provide Buffalo families with a very different alternative—an educational model that prioritizes building a diverse faculty; provides culturally responsive instruction; focuses on restorative practices; and empowers all families with the wraparound supports they need to thrive.

We also believe that our school will be uniquely positioned to make a positive impact on East Buffalo because our team has a track record of effectively supporting a similar demographic of students to achieve at the highest levels. This track record can be found in strong data points across a wide variety of programmatic areas. For example, in terms of academic growth, BRICK's turnaround schools demonstrated some of the highest levels of growth in their district—#2 and #18 of 59 in ELA and #6 and #17 in math. In addition, Achieve was classified as an “Exceeds Standard” school based on its 2018-2019 state assessment results. That year, Achieve had the second highest student growth percentages in math in the entire state of New Jersey (out of more than 1700 schools). In terms of talent recruitment, 82% of Achieve's staff are people of color—a percentage that far exceeds any of the schools in the Cullen analysis. In addition, BRICK has created a school with incredibly strong school culture without the use of suspensions. As a result, our team is excited about the prospect of bringing the BRICK model to Buffalo because it directly meets the needs of the community—and we believe our team's historical experience implementing the model will ensure the founding of a strong school for the families of East Buffalo.

- *A detailed discussion of the impact of the COVID-19 pandemic on the target community, which may include an analysis of indicators of learning loss (eg., assessment scores, absenteeism rates, enrollment rates, etc...)*

The Impact of COVID-19

It is important to note that the education outcomes and poverty data outlined above were captured before the novel coronavirus (“COVID-19”) shuttered businesses and schools in early 2020. While the depth of impact of the COVID-19 pandemic on the city of Buffalo may not be fully understood for many years, early indicators point to a widening of already persistent economic disparities with devastating impact on both the financial security and health outcomes of the city's most vulnerable residents⁴³. The New York Times estimates that the city of Buffalo is projected to experience at least a 20% decline in revenue as result of the COVID-19 pandemic – numbers that have caused some Buffalo economic and political leaders to make comparisons to the 2008 recession⁴⁴. The closing of businesses and layoffs within the manufacturing sector have already led to skyrocketing unemployment rates across the city with Black residents experiencing the highest levels of unemployment⁴⁵. As seen across the nation,

⁴³ <https://www.wsj.com/articles/black-workers-in-buffalo-face-bigger-share-of-coronavirus-impact-11597570201>

⁴⁴ <https://www.wkbw.com/rebound/is-buffalo-heading-for-a-severe-recession-due-to-covid-19>

⁴⁵ https://www.wsj.com/articles/coronavirus-obliterated-best-african-american-job-market-on-record-11591714755?mod=article_inline

Black residents in Buffalo also experience the worst health outcomes as a result of the COVID-19 pandemic. During the summer of 2020 on the East Side, per capita COVID case rates were 88% higher than the rest of Erie County⁴⁶. When hospitalizations peaked in the Buffalo-Niagara region in April 2020, Black residents made up 21% of COVID-19 related fatalities while comprising only 14% of the regions population⁴⁷. These devastating health and economic outcomes have put even more Buffalo families at-risk. Child poverty levels are expected to rise drastically with reliance on public aid and community resources increasing sharply. In fact, food pantries in the area have already reported increases of 200-300% in the number of area residents who need support⁴⁸.

The COVID-19 pandemic also illuminated the digital divide in the city. It is estimated that before the pandemic more than 60% of low-income Buffalo families had no internet access at home. In addition, for those with reliable access to the internet were often faced with internet speeds ranked among the slowest in the nation⁴⁹. At the onset of the pandemic, BPS estimated that less than 1 in 4 students lived in a home with either a computer or broadband internet services⁵⁰. Such limited access to reliable internet services raises an important equity issue, especially given the significant length of time that the district has offered only remote, virtual learning since the start of the pandemic.

In addition, there are important differences between how BPS and BRICK navigated the transitions to remote instruction. Those differences are perhaps best illustrated by the virtual schedules offered to students during the prolonged closures due to COVID 19. According to the BPS “100% Remote Learning Plan” from the 2020-2021 school year, BPS students engaged with a mix of synchronous and asynchronous instruction during remote learning⁵¹. Individual school administrators also had autonomy to create daily student schedules. For context, Figure 1a.9 provides an overview of a sample K-6 remote learning schedule at a BPS elementary school.

Figure 1a.9 – Sample K-6 Remote Learning Schedule⁵²

K-6 REMOTE SCHEDULE

⁵⁰ <https://www.govtech.com/network/Online-Learning-Amid-Pandemic-Sheds-Light-on-Digital-Divide.html>

⁵¹ <https://www.buffaloschools.org/cms/lib/NY01913551/Centricity/Domain/9804/DRAFT%20100%20reopening%20plan%209.10.20.pdf>

⁵² <https://www.buffaloschools.org/site/default.aspx?PageType=3&DomainID=3837&ModuleInstanceID=110125&ViewID=6446EE88-D30C-497E-9316-3F8874B3E108&RenderLoc=0&FlexDataID=217651&PageID=46564>

This suggested daily schedule provided for 3 hours of synchronous instruction daily in Kindergarten and 1st grade. During this time, students received approximately one hour of synchronous instruction in math and one hour of synchronous instruction in ELA each day. This volume of instruction lags significantly behind the minutes provided during traditional in-person instruction at best practice schools with proven track records of achievement⁵³. By contrast, BRICK offered a very different virtual academic schedule. At Achieve, BRICK was able to provide students with a schedule that was very similar to the regular academic schedule. Students received 125 minutes of literacy instruction and 95 minutes of mathematics instruction each day. During virtual learning, BRICK students were also able to continue to receive planned, differentiated small group instruction in both literacy and mathematics each day. Achieve also conducted daily morning meetings and provided social emotional instruction with students to ensure that all students received SEL support during the pandemic.

Currently, there is no public data available regarding the remote attendance rate for individual BPS schools; however, the district reported that daily attendance hovered around 85% on average⁵⁴. This lower rate of class attendance, when coupled with access to fewer instructional minutes with a teacher, has likely led to a widening of the achievement gaps that already exist between BPS students and their suburban peers. The impact of this transition was also shared by families during our community outreach efforts. Families described significant challenges with the 100% remote learning model – ranging from lack of access to technology to inconsistent attendance by their student to technical difficulties with virtual instruction that minimized instructional time. Some BPS teachers have also described similar challenges citing inconsistent attendance and students that have never been able to log on⁵⁵. By contrast, BRICK ensured that it's virtual program was run very differently. BRICK ensured that all students were able to have access to a chromebook to complete their work at home and assisted families with ensuring access to high quality Internet. BRICK also worked to establish remote learning centers where families could access childcare and ensure their students received support with their virtual classwork.⁵⁶⁵⁷ As a result, Achieve reported a much higher average daily attendance rate during the pandemic—92% for the 2019-2020 school year and 97% for 2020-2021. In addition, BRICK staff members praised the network's response to the pandemic. In fact, on the organizational health survey conducted by VIA evaluation in 2021, 97% of staff indicated that they thought their administrators were effective in their response to the COVID 19 pandemic. BRICK also showed its commitment to providing comprehensive supports to families during this challenging time—including by developing rental assistance and cash assistance programs; providing touchless food delivery service; and conducting coat and toy drives during the pandemic to support their families.

b. Programmatic Impact of BBACS

Describe the programmatic impact the proposed charter school would have on existing public and nonpublic schools in the same geographic area as the proposed school location. Responses should include:

- *A table listing the existing educational options and grades served available to the target population including all district, charter, and private schools in the geographic area;*
- *Information demonstrating a thorough analysis of existing educational options for the community and target population that takes into account disruptions caused by the COVID-19 pandemic;*
- *Analysis of how the proposed school's enrollment plan would impact the enrollment and programmatic viability of the public and non-public schools; and,*

The program of BBACS fills a need of demonstrated demand; however, the programmatic impact on existing public and nonpublic schools in the geographic area will be relatively small given the small size of the school serving only 81 students per grade. By contrast, BPS serves over 33,000 students in 60 schools:

- 10 Elementary (PK-6)
- 28 Elementary-Middle (PK-8)
- 6 Middle-High (5-12)
- 13 High Schools (9-12)
- 3 Alternative/Specialized

Currently, there are 21 Charter Schools in Buffalo with over 9,500 students attending these schools.⁵⁸ By most recent reports, there are currently over 3,900 students on waiting lists for local charter schools. As a result, we do not anticipate a significant impact on the charter sector given the high waitlist numbers available and the demand for charters.

There are also an additional 3,300 K-8 students who attend non-public schools. However, of the 14 private schools in the city with an elementary or middle school division, only four of them are not religiously affiliated. Between the cost of attending these schools and the religious affiliation component, we anticipate negligible impact on these schools.

c. Fiscal Impact

Complete the fiscal impact table in the budget template and include a copy with this response. Discuss the fiscal impact of the school on other public and non-public schools in the area including:

- *Enrollment expectations;*
- *Per Pupil Allocation assumptions using the most recent charter school per pupil aid, contact our office for these figures;*

⁵⁸<https://www.buffaloschools.org/domain/36#:~:text=Buffalo%20area%20charter%20schools%3A, Buffalo%20students%20attending%20these%20schools.>

- Dollar amount the proposed charter school anticipates receiving from each district in per pupil funding;
- Other projected revenue the proposed charter school anticipates receiving from the district (special education, grant, etc.);
- Projected budget for the school district of location (please note the source and year for this figure); and,
- Yearly projected impact as a percentage of each sending district's budget (for districts projected to send at least ten students).

According to the most recent BPS enrollment data, there are 14,204 students enrolled in BPS across grades K-5⁵⁹. In alignment with the best practice of high-performing charter schools, BBACS will adopt a slow growth model, proposing to open in Fall 2023 with grades K-1 and adding a grade each year thereafter over the course of the charter term. In Year 5 of our charter term, we propose to enroll 486 students across grades K-5. This represents just 3.4% of BPS enrollment in the same grade band; a negligible impact on the finances of the local school district.

R-02ab—Addressing Need

a. Mission

Provide the mission statement for the proposed charter school.

At BBACS, we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students from East Buffalo neighborhoods have the knowledge, skills and support needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. **In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.**

b. Key Design Elements

Provide a clear and concise overview of the proposed charter school's key design elements, i.e., those aspects of the school critical to its success. Provide an analysis of any research, evidence of effectiveness, or examples of existing programs that support the selection of these elements. The response should include a brief discussion of how the school will determine if it is effectively executing its key design elements in a way that is aligned with its mission. The response should also address how the key design elements address the specific needs identified in Request 1. If the key design elements for the proposed school differ from those submitted to the Institute as part of the most recent application, or application for renewal, of an education corporation or one of its schools, please describe why any element changed.

BRICK Buffalo Academy Charter School is committed to creating a diverse, equitable, and inclusive academic environment that (1) acknowledges, is informed by, and values individuality and the unique cultures and backgrounds of every student and (2) offers all students full, equitable access to its educational program. BBACS's key design elements are grounded in the four principles of a culturally responsive education as articulated by the New York State Education Department in its Culturally Responsive-Sustaining Education Framework: (1) creating a welcoming and affirming environment; (2) fostering high expectations and rigorous instruction; (3) identifying inclusive curriculum and assessment; and (4) engaging in ongoing professional learning and support. As such, our key design elements, in alignment with our school's mission, will support all students in achieving positive academic and personal outcomes by imparting the knowledge, skills and social emotional competencies necessary to succeed as contributing members of our global society.

The BRICK Education Network team has adapted and adopted the following key design elements after 13 years of serving underprivileged student populations in New Jersey, which are similar in many ways to the demographic we seek to serve on the East Side of Buffalo. During that time, the BRICK team has meticulously refined its model and key design elements based on the successful practices that have led to significant student growth in BRICK's turnaround schools in Newark and its first startup charter school, the Achieve Community Charter School. In fact, in terms of student growth percentiles, BRICK's turnaround schools demonstrated some of the highest levels of growth in the district—#2 and #18 of 59 in ELA and #6 and #17 in math. Significantly, these results represented the first time that South Ward schools had ranked this high. In addition, Achieve was classified as an "Exceeds Standard" school based on its 2018-2019 state assessment results. During that year, Achieve had the second highest student growth percentages in math in the entire state of New Jersey (out of more than 1700 schools). In addition, Achieve's students placed in the top 15% of all schools for student growth in English Language Arts.

BBACS has worked over the last year to embed the principles of culturally responsive education (as referenced above) and broad community input into our current key design elements, which have been edited for clarity since our last proposal submission to the Institute.

BBACS will achieve our collective mission by implementing the following three key design elements:

1. **BRICK’s rigorous and culturally responsive instructional program.** BBACS will offer a proven instructional program that maintains high expectations for all students as they grapple with rigorous work aligned to New York state standards. However, BBACS will also respond to the needs of the East Buffalo community by ensuring that students have access to instruction that celebrates and builds upon their culture to provide students with the additional academic support they need to be successful. As a result, BBACS will offer strategic, differentiated instruction each day as well as a longer school day (7:30 a.m. to 4 p.m.) and an extended school year (191 days) to meet student needs.

At BBACS, instructional leaders and teachers will have the same **high academic and behavioral expectations** for all students, regardless of the student’s race, gender, ethnic background, English proficiency, socioeconomic status or disability, and will clearly communicate these high expectations both explicitly and implicitly to each and every student. At BBACS, everyone involved in the student’s school life will consistently message that students are expected to and can attain high standards in all they do and that they will receive the support needed to do so. This will enable “students to develop a healthy self-concept...[provide] the structure for intrinsic motivation and fosters an environment in which the student can be successful.”¹

The **BRICK curriculum has a proven track record of success in transforming academic outcomes** and will be further supplemented to ensure alignment with the rigorous NY State curriculum standards. Our curriculum will both meet students where they are and prepare them for college and the careers of the future through a combination of rigorous content, strategic assessments, and differentiated support structures to ensure all students can learn at the highest levels. Importantly, our research-based curriculum has supported strong student outcomes in populations with similar educational and socio-economic demographics to the students we will serve at BBACS. In addition, at BBACS, curriculum is not viewed solely as an essential tool for student learning and growth, but also as a means by which students understand the world and locate themselves in it.² Curricular materials used in schools play an important role in affirming students’ identities and their intrinsic value as individuals. Each one of our children is unique and their culture is a significant part of their identity. **We view cultural differences as assets and believe that in order to empower children to capitalize on the assets of their uniqueness and individualism, our curriculum must include representations of who they are.** Ensuring our curriculum is culturally relevant and responsive is paramount at BBACS. In our work creating curriculum maps for each grade and across content areas in preparation for the opening of the school, and in the ongoing curriculum review and revision process once the school is opened, we will examine our curriculum not just for alignment with the Next Generation Learning Standards (“NGLS”) but also from an intersectional and critical, culturally responsive lens to ensure that it is inclusive of culturally relevant themes, learning experiences, and materials. Using tools such as the Culturally Responsive Curriculum Scorecard created by NYU’s Education Justice Research and Organizing Collaborative, we will be able to objectively assess the cultural responsiveness of our curriculum and continuously refine it based on those findings.

In order for our students to be able to rise to meet the level of academic expectations we set for them, BBACS embraces a **student-centered, data-driven approach to instruction** that meaningfully engages students in their own learning and builds the metacognitive awareness and skills to take

¹ Communications of High Expectations-Teaching Diverse Learners, Brown University: <https://www.brown.edu/academics/education-alliance/teaching-diverse-learners/communications-high-expectations>

² Peoples, Leah Q. “Introducing the Culturally Responsive Curriculum Scorecard: A Tool to Evaluate Curriculum.” Metropolitan Center for Research on Equity and the Transformation of Schools, New York University Steinhardt School of Education. 2019.

ownership of their own progress, growth and achievement. Our teachers will use assessment data to differentiate instruction by identifying student needs and then using those needs to tailor whole group instruction and to inform small group composition. BBACS's comprehensive assessment program includes a variety of tools (both formative and summative), including nationally normed assessments and daily teacher observations of students' performances, to support instructional differentiation. Collaborative work, turn and talks, and classroom wide discussions are also crucial components of the BRICK model. These structures allow teachers to engage students in central questions that prompt metacognition. Questions like "Why?", "How do you know", "How did you do/find/discover" all require students to reflect upon what they engaged in, what they learned, and how they might apply it to other situations. Importantly, this is aligned with the NGLS by ensuring that students are not merely recipients of information, but develop the skills to analyze, synthesize and apply information in a variety of environments, contexts and experiences and across all disciplines. Ultimately, our goal is to support all of our students to become independent learners who are empowered by their identities and driven by purpose.

The BBACS team, as well as a wealth of empirical data, recognizes that increased instructional time produces stronger academic performance outcomes, especially for the disadvantaged students that we intend to serve.³ **Therefore, our school will have a longer school day (7:30 am-4:00 pm) and year (191 days); this means our students will receive more than 10% more instruction than their peers at traditional Buffalo public schools.** This additional time on task will leverage the strengths of BRICK Buffalo's rigorous instructional model by providing more time in the day for all learners to take advantage of the enhanced opportunities to meet and exceed grade level standards.

2. BRICK's Ubuntu cultural program. BBACS will offer a proven cultural program that is rooted in the African humanistic philosophy of Ubuntu, which prioritizes interdependence among community members. BBACS's cultural program creates a warm, belonging-based school environment by focusing on culturally sustaining practices, social-emotional development, trauma-informed practices, and positive identity development. BBACS will also work to support its cultural program by emphasizing the recruitment and retention of a diverse staff that reflects the community served. BBACS is also committed to the use of restorative practices, rather than the use of exclusionary discipline.

BRICK schools are warm, nurturing, reflective learning environments where students are both embraced for who they are and engage daily with rigorous content aimed at unlocking their full potential. To be successful in preparing our students to be future leaders, it is not enough to provide them with academic knowledge and skills. We must also provide **comprehensive social emotional learning programming** to build their social emotional competencies, which the Collaborative for Academic, Social and Emotional Learning (CASEL) defines as: self-awareness, self-management, social awareness, relationship skills and responsible decision-making. As a result, BBACS will provide daily SEL instruction to all students at the start of the school day. In addition, opportunities for students to learn, develop, practice and reinforce social emotional skills are woven throughout the curriculum and underpin BRICK's practices, routines and culture. Through our focus on a culturally responsive education, teachers will also learn to make academic lessons more personal and relevant to our students. These adaptations will strengthen student engagement in lessons while also building a positive sense of self in students as they see themselves and their cultures represented in their learning. In addition, our school culture systems, rituals and routines, are designed to further support SEL development by nurturing the critical skills of empathy and self awareness while also ensuring students feel safe and included in their classroom and school culture.

BBACS is also committed to building a community of **leaders and teachers that reflect the diversity of the students we will serve.** Teacher diversity clearly matters in student learning with a

³ Chan, R. "Transforming Schools through Expanded Learning Time." AdvancED, Spring 2012. <https://www.advanced.org/source/transforming-schools-through-expanded-learning-time>

growing body of studies^{4 5 6} suggesting that teacher diversity can make a difference in students' performance and their interest in school with outcomes like test scores, attendance, college matriculation and school drop-out and suspension rates being impacted by the demographic match between teachers and students. In 2015, nearly half of American children aged 5 to 17 were children of color, but almost 80% of teachers were White.⁷ A 2017 study, *The Long-Run Impacts of Same-Race Teachers*⁸ found that exposure to a black teacher during elementary school raises longitudinal educational attainment for black male students, especially among those from low-income households. This study found that a disadvantaged black male's exposure to at least one black teacher in elementary school reduced his probability of dropping out of high school by nearly 40% and raised his college aspirations along with the probability of taking a college entrance exam. As discussed in the previous response, few Buffalo schools feature a diverse teaching staff; while 66% of the district's student enrollment identify as Black or Latinx, 87% of its teachers are white.⁹ By contrast, 82% of the staff members at BRICK's fresh start charter school are people of color. Our efforts to recruit and retain teachers to fulfill this institutional commitment are paramount to our mission and commitment to promoting educational equity. We will continually refine our hiring practices to increase inclusion and yield a diverse pool of highly qualified candidates in order to build a teaching community that is reflective of the diversity of our student body.

Our **safe, secure, and orderly environment founded upon restorative approaches** will create and maintain a school community grounded in mutual respect and fairness, the core tenets of a successful democracy. Through our culturally responsive environment, an array of benefits will accrue to our community in terms of social capital, respect of self and others, cross-cultural communication, empathy, and appreciation of difference. As we promote problem solving, honesty and responsibility, we will give our students ample opportunities to reflect on their choices and consider the perspectives and experiences of others in order to make safe and appropriate decisions. This approach also minimizes the use of exclusionary discipline, which has historically disproportionately impacted minority students in urban areas and caused them to miss out on critical learning time. Our track record illustrates this commitment: during BRICK Achieve's four years of operation, school leaders suspended zero students for three of those years, which is significantly less than local district schools in Newark and is applicable experience upon which the Buffalo team will draw.

This is particularly mission-critical in light of the New York Attorney General's 2020 investigation into BPS after allegations of discrepancies over how students were disciplined based on race and ethnicity. BPS consistently reports extraordinarily high student suspension rates—even among the youngest of students. According to reporting by NPR in 2011, former state senator Antoine Thompson compiled a suspension report that found 1 of every 4 students (inclusive of students in Grades K-3) in Buffalo had received suspensions, four times the state average. Almost a decade later, the suspension rates remain alarmingly high. Again, NPR reporting in 2020 found that from September-November 2019, there were 393 long-term suspensions and 2,281 short term suspensions, including 344 total suspensions for students in pre-K through Grade 3.

⁴ Ela Joshi, Sy Doan, and Matthew G. Springer, "Student-Teacher Race Congruence: New Evidence and Insight from Tennessee," *AERA Open* 4, no. 4 (2018): 1-25, doi: 10.1177/2332858418817528. This finding means that the experimental evidence of racematch effects are not unique to the subset of low-performing schools that voluntarily participated in the Project STAR experiment in the 1980s (Alan B. Krueger, "Experimental Estimates of Education Production Functions," *Quarterly Journal of Economics* 114, no. 2 (1999): 497-532, doi: 10.1162/003355399556052). Instead, these effects exist throughout the state and continue to occur today.

⁹ https://buffalonews.com/news/local/education/diversity-lags-in-teaching-ranks-in-buffalo-area-schools/article_4ffe9ab4-bd81-5389-b721-b21089b34dba.html#:~:text=Two%2Dthirds%20of%20the%20students,of%20their%20teachers%20are%20white.

While the suspension data from BPS puts in glaring focus its punitive approach to discipline, BBACS's restorative practices will support the building of a trustworthy and democratic community where teachers and students work together to create and become adept at specific protocols for classroom and school-wide routines. The BBACS team knows that students thrive in an environment that embeds knowledge of self, self-control, self-assessment, and appreciation for others within their daily school responsibilities. If a student has engaged in negative conduct, BBACS teachers first focus on restorative efforts—helping the student restore his or her standing in the school community through a reconciliation process with the person or people impacted by their transgression. The goal is always for teachers and students to work collaboratively to problem-solve and repair the community, rather than using strategies like exclusionary discipline practices, which have negative long-term effects on student learning and engagement with school.

3. BRICK School Community Ecosystem. BBACS will build an ecosystem of community partnerships to provide our children and their caregivers with concrete support services via established organizations that East Buffalo residents trust and respect. BBACS understands that if a child is hungry, has uncontrolled asthma, or doesn't have a permanent place to live, then they may struggle to successfully engage in school. As a result, BBACS will become a hub for a rich ecosystem of community partnerships that will provide differentiated supports for BRICK families.

BRICK is unique among national charter management organizations because of its deep commitment to **providing families with access to high-quality wraparound services**, including in the critical areas of access to health care, early childhood education, affordable housing and workforce development. Based on our community outreach, access to such services is an urgent issue for Black families living in the city's East Side, as they experience "...higher rates of poverty, suffer from higher rates of lung cancer and infant mortality in addition to increased risks of hospitalization for heart failure and diabetes compared to the white population," according to the 2017-19 Erie County New York Community Health Assessment by the Erie County Department of Health.¹⁰ This study also found that 3 in 5 African Americans living in Buffalo die prematurely, twice the rate of whites, and that "Much of this health inequity is caused by social determinants: high unemployment, underdeveloped neighborhoods, absence of grocery stores and poor access to health care, among others."¹¹

Our partner organizations will offer free or reduced price services ranging from assisting families in obtaining a primary care physician if they do not have one to providing on-site physicals, vision screenings, and dental cleanings for students annually; connecting families with housing counseling services to access affordable housing units in Buffalo; helping families enroll their children in local early childhood education options and identifying any available funds to cover fees; providing access to GED programs for family members who did not complete high school; and addressing families' challenges with food insecurity through access to regional food pantries. These supports are just a starting point. Over the course of BBACS's initial charter term, our team will continue to learn more about our community and their needs and priorities to expand the ecosystem.

BBACS will also benefit from BRICK's deep expertise in providing these services. The BRICK Education Network has had the opportunity to lead two federal promise neighborhood initiatives in New Jersey that currently provide families with services from more than twenty five local social service agencies. As a result, BBACS will partner with BRICK to implement its Promise Navigation System in Buffalo. This innovative system will help the school provide effective case management for all of its families by allowing the school and community partners to share information about students to ensure that all students and families receive the highest quality care and the individualized supports they need to thrive.

R-03ad – PROPOSAL HISTORY

a. Applicant Information

Indicate whether the applicant is a parent, teacher, administrator, and/or community resident as required by the Act, or, if a board chair of an existing SUNY-authorized education corporation, mark “Education Corp./Charter School.” Provide a brief biographical description for the applicant(s), including relevant background experience and education background.

The lead applicant for BBACS is **Yolanda Wood**. Ms. Wood is a Buffalo community resident and university administrator, and she will serve as the Education Corporation/ charter school’s board chair. She is currently the Deputy Title IX Coordinator at Niagara University. Ms. Wood joined Niagara University from D’Youville College, where she served as Chief Diversity Officer overseeing the college’s commitment to diversity, equity, and inclusion. She brings significant experience in postsecondary education administration and project management to the BBACS Board. An active volunteer within the Buffalo community, Ms. Wood is a member of Alpha Kappa Alpha Sorority, Professional Sisters Working Together, and the Young Miss Buffalo Pageant board. Yolanda is a graduate of Medaille College, where she received a Master of Science in Mental Health Counseling, and the University at Buffalo, where she received a Bachelor of Arts degree in Sociology. Ms. Wood is currently pursuing a doctoral degree in Educational Leadership from D’Youville College. She has also gained a deep understanding of local school options as a mother of three children—including a current student at Westminster Community Charter School and graduates of City Honors High School and Olmstead School 156.

b. Proposal History

Describe how the applicant team formed and the relationship of its members to each other. Clearly describe the process that the founding group used to develop the proposal. Discuss any assistance the founding group received from outside advisors (e.g., support organizations or consultants), even if these outside advisors are not active members of the founding group.

The BBACS founding team is a diverse group of high-capacity individuals with a deep, shared commitment to the school’s mission and the Buffalo community, including the East Side of Buffalo. Team members have substantial personal and professional ties to the Buffalo-Niagara region, and welcome the opportunity to leverage their extensive experience in education, real estate, law, community partnerships, financial oversight, governance, and diversity, equity and inclusion for the betterment of the BBACS community.

The origin story for BBACS started with **Antwan Barlow**. A personal tragedy helped Mr. Barlow realize that he wanted to do more to support his community. In 2008, his cousin was murdered on the East Side of Buffalo. In response Mr. Barlow, then a college administrator, felt called to work more closely with city youth. So he started a mentoring program that partnered mentors of color directly with the young men in his neighborhood. Mr. Barlow started mentoring at the Masten Boys and Girls Club on the East Side and at the Juneteenth Festival on Fillmore

Avenue. Over time, he recognized that the young men he worked with needed more than just mentoring. These young people and their families needed comprehensive support to ensure they could graduate from college, access high paying careers, and serve as leaders in their community. They needed a new school choice option. As a result, Mr. Barlow committed himself to creating a new school for his community.

Fortunately, Mr. Barlow has the prior experience necessary to successfully launch a charter school. He developed his skills as a community leader by serving as the Director of Upward Bound at D'Youville College for 12 years. In that role, he was responsible for leading the college's pre-collegiate programs to help first-generation college students earn their college degrees. Upward Bound is one of the U.S. Department of Education's TRIO programs and supports students who could become the first in their family to attend college. Upward Bound provides students with a variety of supports, including academic tutoring, assistance with college applications and the support necessary to access financial aid. Upward Bound also provides students with enrichment activities, ongoing advising and college visits. As a result, Mr. Barlow has developed a comprehensive understanding of what it takes to get city students to and through college. "The success of Upward Bound gave me a glimpse of the effect an educational experience tailored toward the needs of the students in the city of Buffalo could do for the community," Mr. Barlow said. ***More information about Mr. Barlow's background is also included below in section c of this response.***

Meanwhile, the Cullen Foundation was also actively recruiting successful charter management organizations to expand to the Buffalo region. Cullen, an independent, private foundation in Buffalo hoped that recruiting a strong CMO with a track record of success could further its mission of creating more high quality school seats for pre-K through 12th grade students in Erie County, New York. As a result, Cullen connected with BRICK, which they believed offered a strong program aligned to the needs of the East Side community. As a result, BRICK also started considering expanding to the Buffalo region. That's when Mr. Dominique Lee, the founder and Chief Executive Officer of BRICK, and Mr. Barlow connected and realized they had an aligned vision for creating a school with a rigorous academic program, a belonging based school culture and a commitment to providing support services to students and their families.

Mr. Lee had already received national recognition for his work in Newark, New Jersey, where his network had helped to improve several low performing Newark public schools and had successfully founded a new charter school. Mr. Lee had also helped found a Promise Neighborhood in the same Newark community, raising more than \$70 million in federal grants to provide the comprehensive supports he knew were critical for his students and families. In Mr. Lee, Mr. Barlow had found another African American male who had found a way to uplift his community. "Dominique brought together the right partners and stuck to his mission," Mr. Barlow said. "I thought bringing that team to Buffalo could help the people from the East Side make a similar change in their community."

Based on their connection, the BBACS founding team was formally created in December 2019 with seed grant support from the Cullen Foundation. Mr. Barlow was officially hired by BRICK as Buffalo's Regional Director of Operations in January 2020 to lead the community outreach efforts for the school and to create partnerships with local organizations that could help provide critical wraparound services for families. In addition, BRICK network staff members

began supporting Mr. Barlow in the areas of project management, development, and the charter application process.

During Mr. Barlow's two years of community outreach, BRICK also worked to identify additional founding team members who could support his vision to launch a new school in Buffalo. Based on Antwan's past operational experience, BRICK decided to also hire a regional academic leader, Jeremy Esposito, to support a strong launch in Buffalo. Mr. Esposito has the prior charter school experience that BRICK thought could be helpful in launching a new region in a new state. In his last position, he helped found a new region of charter schools and has past experience as a charter school teacher, principal and Chief Academic Officer. Mr. Esposito joined Mr. Barlow to help support his efforts to build a strong local board and to ensure that the BRICK model was adapted to meet the unique needs of the East Buffalo community they intended to serve. ***More information about Mr. Esposito's background is also included below in section c of this response.***

c. List of Founding Team Members

Provide a brief biography (approximately one paragraph including education background) for all founding team members. Founding team members include individuals who contributed to the development of the proposal and/or would play a role in the development of the proposed school. Do not include proposed board members on this list (applicants will submit board member information as part of Request 14 – Governance).

Antwan Barlow, BRICK Buffalo Regional Director of Operations: Mr. Barlow is the former Director of D'Youville College's Upward Bound program and city-wide pre-collegiate initiatives. Mr. Barlow is a former grant director and Western New York lead consultant for the New York State Higher Education Services Corporation College Access initiative in Western New York. He stays active in the Buffalo community through his memberships in Leadership Buffalo, My Brother's Keeper Boys and Men of Color Coalition, and the Racial Equity Roundtable. Mr. Barlow received a Bachelor of Arts in Political Science / Pre-Law from the University at Buffalo, a Master of Urban School Teaching from Cleveland State University, and a Master of Business Administration from D'Youville College.

Jeremy Esposito, BRICK Buffalo Regional Director of Instruction/Superintendent: Mr. Esposito is a first-generation college student who was able to attend college at Northwestern University, in part, thanks to his participation in the Upward Bound program as a child. As a result, he dedicated his career to educational equity and started his career as an English teacher with Teach for America. Over time, he has served as a teacher, principal and Chief Academic Officer for the Knowledge is Power Program (KIPP) network. Mr. Esposito founded the first KIPP school in St. Louis, Missouri, and led the network's expansion from one grade level to six schools serving nearly 3,000 students. Currently, he helps train instructional leaders as an adjunct faculty member at the Relay Graduate School of Education and is also pursuing his doctorate in educational leadership as part of Columbia University's Urban Education Leadership Program.

Dominique Lee, Founder and Chief Executive Officer of the BRICK Education Network: Mr. Lee oversees the strategic direction for two divisions of the BRICK Education Network: its school

portfolio and the South Ward Promise Neighborhood, a collaborative action network of social service providers that provide essential services to support children and help end generational poverty in the South Ward of Newark, New Jersey. In collaboration with Newark Public Schools, Mr. Lee started the BRICK network as New Jersey's first nonprofit school management organization dedicated to supporting traditional public schools by providing comprehensive support services, including in the areas of instructional support, talent recruitment, human capital development, school finance, and facility maintenance. Mr. Lee graduated from the University of Michigan and received a Master of Arts from New York University. Mr. Lee was named to TheGrio's 100: History Makers in the Making list, which recognizes the next generation of African-American thought leaders. He has also been awarded the Leaders and Legends Award for Outstanding Achievement in Early Childhood Education by Programs for Parents, the Russ Berrie Making a Difference award by The Russell Berrie Foundation, and the Young Changemakers Award by the Community Foundation of New Jersey. He is also a member of the Pahara Aspen-Nextgen fellowship program.

Tish Johnson, JD, BRICK Managing Director of External Relations and Communications: Ms. Johnson brings almost 20 years of combined financial, government, legal and corporate experience to BRICK where she leads the community engagement, recruitment, communications and marketing teams. As a former legislative aide for the City of Newark Municipal Council, she was responsible for establishing community connections and relationship management; developing and implementing community programs and initiatives; and analyzing potential policy initiatives. Ms. Johnson founded The Groundwork Agency, a capacity building firm, where she consulted traditional public and charter schools, nonprofit organizations, and municipal departments to ensure they were reaching their potential to successfully impact the communities they serve. She is also a former adjunct professor at Essex County Community College. She is a current board member of the After School All Stars, the I Have A Dream Foundation-New Jersey, and Girls: Live, Love, Laugh, Inc., as well as a proud member of Delta Sigma Theta Sorority, Inc. Ms. Johnson received her BA in Economics from Spelman College and Juris Doctorate from the Georgia State University College of Law. She has also completed the 50CAN Education Advocacy Fellowship, Education Pioneers, and Leadership Newark Fellowship.

Nichelle Holder, BRICK Chief Program Officer: Ms. Holder is the Chief Program Officer for the BRICK Education Network. In her current role, she leads BRICK's South Ward Promise Neighborhood, ensuring that community residents receive the high-quality social services they need to thrive. During her tenure at SWPN, she has helped raise nearly \$70 million dollars to support her community, including by successfully earning the highly competitive federal promise neighborhood grant twice. She also supports the BRICK Education Network by helping to develop BRICK boards, lead fundraising efforts and create strategic partnerships. She began her career at The CityKids Foundation and later became a project director at Communities in Schools of Newark, an affiliate of the largest national dropout prevention organization. As a program officer of the MCJ Amelior Foundation, she managed \$10 million in annual giving. As the first Chief Service Officer for the City of Newark, she led a collaborative effort to develop a comprehensive citywide volunteer service plan. Ms. Holder holds a Bachelors of Arts in English and African-American studies from Columbia University.

Tashia Martin, BRICK Senior Director of Student Supports: Ms. Martin leads the creation and implementation of BRICK’s Ubuntu cultural program to ensure all BRICK schools have warm, belonging-based school environments. As a result, she leads the network’s efforts to implement culturally sustaining practices, its social-emotional development curriculum, trauma-informed practices, and positive identity development. Ms. Martin is a licensed social worker. She is also licensed as a restorative practices trainer from the International Institute of Restorative Practices. She is a proud member of Delta Sigma Theta Sorority, Inc. where she chairs the EMBODI Youth Program. She has also served on the Alumni Board and Racial Justice Steering Committee for Morristown-Beard School, the Student Discipline Policy Steering committee for Newark Board of Education, and the Advisory Council for Imagine, a Center for Coping with Loss. Ms. Martin holds a bachelor's degree in psychology from Temple University and a master’s degree in Social Work from Rutgers University

Shavon Harris, BRICK Managing Director of Central Operations: Ms. Harris has worked as an operations and project management leader for the City of Newark, Newark Public Schools, Believe in Newark Foundation, Newark Housing Authority, and, most recently, College Achieve Greater Asbury Park Charter School. She graduated from Delaware State University and received a Master’s in Administrative Services from Fairleigh Dickinson University.

Mindy Weidman Duchi, BRICK Chief Talent Officer: Ms. Weidman-Duchi is responsible for the network’s talent recruitment and development strategy. She leads the network’s efforts to recruit, hire, and on-board all new staff members. She has also created the network’s performance management system and oversees the network’s efforts to set employee performance goals, establish individual development plans, and conduct formal evaluations. Ms. Weidman-Duchi is a co-founder of BRICK and served as a school leader at BRICK’s first campus. She previously served as Institute Director for TNTP’s TeacherNex program in Newark, hiring and training dozens of teachers for the city. In addition, she served as a Learning Team Leader responsible for training and supporting Teach For America corps members teaching in Newark. She holds a BA from Millersville University, an MA from the University of Connecticut, and an MPA from Rutgers University.

d. Withdrawn, Rejected, or Concurrent Proposals (SUNY and/or Other Authorizers)

Indicate whether this proposal was previously withdrawn from or rejected by the SUNY Trustees. If yes, provide:

- *The name of the proposed charter school(s) when previously submitted;*
- *The date(s) of the previous submission(s); and*
- *A detailed summary of what has changed in the proposal since its previous submission(s) and the reasons, therefore.*

- *Indicate whether the applicant and/or founding team has previously applied or is currently applying for a charter from a charter entity other than the SUNY Trustees (e.g., the Board of Regents). This includes applications to charter entities in other states. If yes, provide:*
 - *The name of the charter entity;*

- *The state where the application was submitted (if not New York);*
- *The name(s) of the proposed school(s) and the date(s) when the application(s) were submitted;*
- *The status of the application(s);*
- *If any members of the founding group withdrew an application for a substantially similar school from consideration by a charter entity, or if such an entity ever denied such an application, provide the reasons for the withdrawal or denial;*
- *If the application was granted, but the charter school is no longer in existence, please provide an explanation; and,*
- *Describe any changes made to the application following the withdrawal or denial of the application evident in this proposal.*

NOTE: Failure to disclose previous applications by the same or a similarly constituted founding group for a substantially similar school to an authorizing entity in any state may result in the application's disqualification for review by the Institute.

This proposal is significantly different from our previous submission to the Institute. As a team, we have reflected on the 2021 application process and realize that we did not adequately demonstrate our collective or individual abilities to launch a school successfully in Buffalo, nor did we submit a strong and coherent application that appropriately responded to the questions within the Institute's Request for Proposals. As a result, we worked to get as much feedback as possible from the Institute, including by scheduling meetings directly with Institute staff members to better understand the gaps in our prior submission. Our team then also worked to speak to a variety of leaders across New York's charter sector to gain additional insights into what is required to run an effective charter school in New York state as well as the unique challenges of operating a school in Buffalo. Based on this research, we refined our approach for expanding to Buffalo, including by clarifying the roles of our senior leaders in Buffalo and how they would be able to leverage specific resources from the BRICK Education Network to ensure a strong launch in Buffalo. We also invested significant time in working closely with the proposed BBACS board to create board committees that could take leadership roles in helping to produce our updated application. Most significantly, it is worth noting that our team has changed our application to focus on launching a single K-5 charter school on the East Side of Buffalo, rather than the two schools named in last year's application.

In the space below, we have provided a summary of the most significant changes you will find in this year's proposal. For ease of reference, this summary is organized according to the feedback provided by the Institute in its letter dated April 26, 2021.

Organizational Capacity

As described previously, the most notable difference in this year's application is our decision to apply for a single charter to open BBACS on the East Side of Buffalo in 2023. The BBACS applicant team and the BRICK Education Network are both committed to creating and

operating high-quality schools. As a result, we have aligned around a commitment to slow network growth. We believe this will enable our team to fully learn all of the instructional and operational nuances of operating schools in New York state and ensure a high-quality expansion to Buffalo. In addition, BRICK has not applied to any other authorizers in New York to open schools, nor has BRICK applied to any authorizers outside of New York. Instead, BRICK is singularly focused on honoring the deep connections it has already made to prioritize launching a successful school that can help support the needs of the East Buffalo community.

The BRICK Education Network and the BBACS applicant team have also invested significant time and resources since the early 2021 submission to strengthen our founding team, our overall organizational capacity, and our local board. In particular, BRICK's addition of Mr. Esposito to the network staff will provide significant support in launching and sustaining the BRICK Buffalo region since he has prior experience founding a new region and opening new schools (as described in his biographical statement above). Both Mr. Esposito, and Mr. Barlow, will be dedicated, full-time, to supporting the needs of BBACS and will be based in Buffalo. Collectively, these two staff members have a combination of local and national expertise that has already helped strengthen all sections of our application. For example, these two staff members have been able to update the organizational charts, budgets and programming based on their knowledge of the local context and past experience with growing charter networks. One related update to our application includes prioritizing funding a partnership with City Year and the Relay Graduate School of Education to create the pipeline of future staff members necessary to ensure high-quality growth. In addition, the team has clarified how each BRICK network team will support the school in Buffalo and how the BRICK regional staff based in Buffalo will ensure those supports are high-quality. For example, Mr. Esposito plans to work directly with BRICK's network academic directors to ensure that the network curriculum is updated each year to ensure full alignment with New York's state standards. Both BBACS and BRICK believe that creating a regional office in Buffalo will ensure that the school will be able to receive significant ongoing support services from the network that are continuously informed by the evolving needs of BBACS.

BRICK has also taken time during the last year to reflect on the prior challenges with the Marion P. Thomas network of charter schools and to leverage that experience as an opportunity to strengthen how it supports its campuses. While some media coverage portrayed BRICK's relationship with Marion P. Thomas as contentious, there is also significant evidence that BRICK was providing effective support to the schools. In fact, during the time BRICK supported Marion P. Thomas, the schools suspended far fewer students and enrollment increased. In addition, students demonstrated academic progress before the pandemic and the network grew a budget surplus rather than a deficit.¹ Nonetheless, BRICK has also recognized the importance of building strong relationships with the local boards of its schools and finding ways to frequently collaborate with Board members. As a result, BRICK has spent the last year partnering with the BBACS Board to clarify what services the CMO will be able to provide to the school and how robust Board committees can provide effective direction for those services and oversight of the quality of services provided. Through this collaboration, BBACS and BRICK revised the draft Educational Services agreement that was shared last year. In addition, at a recent meeting, the BBACS board

¹ <https://newark.chalkbeat.org/2021/3/4/22312622/marion-p-thomas-brick-newark>

reviewed the current draft agreement and analyzed language from specific parts of the agreement that the board chair thought would be helpful in describing the relationship between the local board and the CMO. Each Board committee is also collaborating with BRICK Buffalo regional office staff to create a matrix that defines exactly what support will be provided by the CMO in their area of expertise—and outlining how each committee can provide oversight of those services. ***For more information on this matrix, please see R-23-b Supplemental Attachments.*** In addition, BRICK Buffalo regional staff worked with the Buffalo board to revise the draft Board dashboards that were submitted last year to ensure that the Board was prepared to provide effective governance based on an ongoing review of critical metrics (such as student enrollment, academic performance and cash flow). ***Sample dashboards are included as part of R-23b Supplemental Attachments.***

In addition, the BBACS board has also completed significant additional governance training to prepare to provide oversight of a school in Buffalo. The board received training from FBW Consulting, LLC., an external organization led by Fatima Burnham-Watkins, the Executive Director of Teach for America New Jersey. Mr. Burnham Watkins provided comprehensive training sessions to the full Board as well as individual coaching to the proposed Board Chair and proposed Vice Chair. Her sessions included training focused on ensuring that the local Board was able to review and evaluate BRICK’s history and approach to education; to understand their responsibilities to provide effective governance as Board members; and to understand how to distinguish the role of the Board and a charter management organization.

Fiscal Soundness

Over the last year, the BBACS Board and BRICK network teams have worked extensively with a financial consultancy group with charter expertise, Afton Partners, to update the school’s budget and network financial model and projections. In addition, BRICK Buffalo regional office staff have also worked closely with local charter leaders, including Anna Hall and Michael Good from the New York Charter Schools Association, to ensure that our updated budgets reflect the experiences of other charter schools in Buffalo. Based in part on the Institute’s feedback, as well as areas we’ve recognized as ripe for further development, our team has also prioritized addressing the financial areas mentioned below:

1. **Cash flow.** In anticipation of potential delays in district and/or state funding payments, the BBACS Board audit and finance committee has received additional training on monthly cash flows for charter schools. In addition, the audit and finance committee has held multiple meetings to review and offer feedback on the five year budget projections included in this application, placing specific emphasis on the cash flow across the five year budget term. In addition, representatives from this committee have also helped to support structuring our proposed facility lease so that it aligns to our cash flow needs during the charter term.
2. **Budget mitigation strategies.** The BBACS Board and BRICK Education Network also worked together to identify specific mitigation strategies that they would use to

ensure that the school was financially healthy throughout the charter term. Several significant mitigation strategies were added to the Educational Services Agreement as a result—including a joint agreement between BRICK and the board’s development committee to launch a collaborative fundraising campaign to ensure that the school was able to launch with three months of operating expenses in reserve as well as a commitment from BRICK to reduce its management fee during the first year of the school’s operation and to renegotiate the timeline for paying its management fee if needed. In addition, the updated agreement also names BRICK’s willingness to leverage its financial books to help BBACS secure a line of credit if necessary. To support effective Board governance, the updated Board dashboards submitted this year also include a metric for the days of cash on hand that will be actively monitored by the BBACS Board and BRICK regional staff, to ensure that the school continuously works to avoid challenges with cash flow and builds a cash reserve.

3. **Student enrollment.** Both the BBACS Board and the BRICK Education Network are aware that many new charter schools face challenges with student enrollment. As a result, the team has updated its plans for student recruitment, in part based on Mr. Esposito’s experience helping to support the recruitment and enrollment efforts of another charter network as it added additional schools. Our updated plan includes additional resources being added to student recruitment, including the early onboarding of a Family and Community Engagement Specialist during the pre-launch year who is focused on student recruitment. Based on conversations with the audit and finance committee, the BRICK Regional office will also report enrollment numbers weekly during the pre-launch year and during the first year of the school’s operation to ensure that this critical metric is on track. We also have updated our application to clarify that we plan to initially enroll 90 students per grade during our first year of operation. Since many local charter schools have experienced an unanticipated drop in enrollment because families who initially accept their seats do not fully enroll, we plan to proactively guard against this possibility. By admitting 90 students during our first year, and conducting home visits shortly after students are admitted, we anticipate converting a high number of admitted students into fully enrolled students. This approach—when coupled with our organizational commitment to backfilling—will ensure we maintain an enrollment that is above our conservative budget estimate of 80 students per grade.
4. **Transportation.** The BBACS Board and BRICK also realize that charters in Buffalo have faced significant challenges securing high-quality, predictable transportation services from BPS. We also realize that families who experience transportation challenges, particularly at the start of the year, may elect to unenroll their children. As a result, our team has added significant additional mitigation strategies to address likely transportation challenges with the BPS. These additional strategies are described in depth in *R19- Transportation*.

5. **Separation of funds.** The BBACS Board and BRICK have also clarified that BRICK and BBACS will maintain entirely separate funds in adherence to New York state’s requirements, which differ in this respect from New Jersey’s.
6. **Development clarity.** The BRICK network’s fundraising department has secured two Federal Promise Neighborhood Grants; one in 2017 for \$29.5 million and another in 2021 for \$30 million.² With our previous submission, we reported these grants as evidence of our fundraising capacity on Form BPA S08b, as BRICK runs a shared development department with our affiliate organization. However, these funds are not reflected on the education network’s audits because they flow to our family supports division, the South Ward Promise Neighborhood (SWPN). Our team believes these awards not only demonstrate our organization’s significant fundraising capacity but also our operating capacity as an organization since we have received this highly competitive grant twice in a row. As a result, we encourage the Institute to reach out with any questions regarding our budget materials so that we can provide any additional information that is helpful.

Community Outreach and Support, and Demand for the School

Since the last application, Mr. Barlow has continued to lead targeted outreach efforts to the East Side of Buffalo. As a result, he has now spent approximately two years informing the community where he was raised about his plans to open a new school, collecting community feedback, and updating his proposal as a result. During this last year, he has continued to hold community events and added new strategies to increase community awareness (for example, he sent certified letters to Buffalo School Board members to invite them to community forums, started sending a monthly BRICK newsletter, and even direct-mailed all families in the priority zip codes). These community outreach efforts found significant support for core parts of our model—including our emphasis on recruiting a diverse staff and avoiding exclusionary discipline. We also identified a new key ecosystem partner, the King Urban Life Center, that wants to work with us to develop a robust ecosystem around our school to support the community of East Buffalo. Over time, our outreach efforts have also taught us that we needed:

1. To invest in more staff to serve special populations;
2. To invest in a “Grow Your Own” program to ensure a diverse pipeline of teachers and leaders through a partnership between the Relay Graduate School of Education and City Year;
3. To make sure to orient our staff to the history and needs of the Buffalo community [based on working with Dr. Marcus Watson at Buffalo State and speaking with Dr. Taylor at the University at Buffalo]; and,

² SWPN is the only minority-led organization to be awarded the Promise Neighborhoods grant twice in a row. In December 2017, the U.S. Department of Education awarded SWPN (formerly known as South Ward Children’s Alliance) with a \$30 million, five-year Promise Neighborhood grant to bring partners from across the City of Newark together to serve South Ward families. Since then, SWPN has grown into a powerful, collaborative effort of more than 26 organizations working together to support families and children in the South Ward.

4. To address transportation challenges and parent desire for after school programming, in part, by providing strong before and after care options.

School Model and Academic Program

Over the last year, the BRICK regional team has also held monthly formal meetings with the BRICK network academic team to begin the process of ensuring strong alignment with NY's expectations for schools. During these meetings, academic directors received training on the NY state learning standards and state regulations for elementary schools. In addition, academic directors fully analyzed BRICK's existing program in grades K and 1 to identify specific gaps that would need to be addressed during the incubation period. Our team then met with representatives from Uncommon Schools to understand how their team has been able to build a curriculum to ensure success in both New Jersey and New York. As a result, BRICK's academic directors were able to both identify the specific changes that would be necessary to our K-1 program and to plan for strategic ways to make those changes immediately after charter approval. During these meetings, the team also reviewed NY's framework for providing a Culturally Responsive and Sustaining Education. We then worked with BRICK network culture staff to clarify how our team would ensure that our academic program would be responsive to the needs expressed by our students and families, including by working collaboratively with community stakeholders to begin to create the content for a new social studies unit for our school called "My Home is Buffalo."

In addition, our team has worked to add additional clarity in all sections of our application, including as it relates to matters of curriculum and instruction, by further clarifying the roles of each instructional leader and what specific meetings would be held to ensure high levels of performance (including by clarifying our approach to curriculum development, instructional planning and data analysis) as well as by adding additional information where needed (including comprehensive assessment calendars and course descriptions). Ultimately, we believe this year's submission better reflects our organization's capacity to successfully launch a strong school for the Buffalo community.

Re: Proposal to Establish BRICK Buffalo Academy Charter School – East Campus and BRICK Buffalo Academy Charter School – West Campus

Dear Ms. Wood and Mr. Barlow:

Thank you for the significant time and effort that you and your planning team devoted to the proposal to establish BRICK Buffalo Academy Charter School – East Campus (“BRICK Buffalo East”) and BRICK Buffalo Academy Charter School – West Campus (“BRICK Buffalo West”). The SUNY Charter Schools Institute (the “Institute”) recognizes that this is a challenging endeavor and commends you for the work that you and your team put into developing the proposal.

As you know, after an in-depth review by Institute staff and several external consultants, the Institute determined that the proposal was underdeveloped, preventing us from moving it forward in our review process. Further detail regarding the rationale for the Institute’s decision follows.

The Institute’s intent in providing this information is to communicate some, but not all, of its concerns generated during the review process. Ongoing experience approving, monitoring, and ultimately evaluating schools for charter renewal continues to inform our understanding of what it takes to open and run a successful charter school. This experience provides an increasingly critical lens through which we evaluate new proposals. While the school design and content of your proposal is ultimately up to you, it still must meet SUNY standards and demonstrate a strong likelihood of achieving a high level of student performance such that the school is likely to earn renewal at the expiration of the charter term.

The following list of concerns noted by the Institute staff and external reviewers is not exhaustive but captures examples of some of the most pertinent shortcomings identified during the review process. While the proposed school model presents several promising features, the proposal fell short of meeting the Institute’s rigorous standards for approval. Should you choose to submit a new application at a later time, you should not assume that modifying only the discrete elements referenced in this letter would remedy the proposal as a whole.

To Learn
To Search
To Serve

Organizational Capacity

- BRICK Education Network (the “CMO” or the “network”) will lose a contract with an existing charter school in Newark at the end of the 2020-21 school year. Loss of this contract indicates a concerning lack of capacity with regard to strategic planning and managing stakeholder relationships, which will be critical to successfully open two schools in a new geography.
 - The end of the CMO's contract in Newark combined with the applicants’ challenges in submitting accurate and coherent budget and business plan materials and responsiveness to hearing requirements indicate the applicant group has yet to develop the attention to detail and strategic capacity needed to operate the proposed schools.
 - Loss of the contract necessitates that the CMO reduce staffing from 46 to 28, which includes moving regional staff from the proposed education corporation to the CMO level. The CMO's need to reduce staff by 60%, combined with the challenges in submitting a detailed, coherent, and accurate application prior to the loss of the Newark contract, raises additional concerns about capacity to effectively oversee the startup of two schools in a new geography.
 - The CMO has not fully outlined the impact of the lost contract on its modelling in the form of a new business plan and accompanying budgets, organizational charts, and programmatic planning. Should the applicant apply in a future round, detailed development of these items in light of the changes to the overall portfolio of schools will be critical. A completely aligned application package allows internal and external reviewers to analyze how the proposed schools will operate as well as the overall functions of the CMO.
- The application lacks strategic plans for anticipating and navigating likely obstacles, such as delays in district and/or state funding, transportation challenges, and/or the potential for low enrollment, thereby indicating a lack of understanding of the unique challenges of the chosen district.
- The proposal conveys a desire for two charters in Buffalo to reinforce the growth of any individual school due to the need to scale CMO supports; however, the application does not describe sufficient plans for a second school (BRICK Buffalo West). These plans include the identification and training of a school leader, evidence of community outreach and demand in the West Campus catchment area, and an action plan sufficient to convey to the Institute the school will open in a timely manner. The lack of detail provided in the request for a second charter raises concerns regarding strategic planning capacity.

Fiscal Soundness

- The business plan (BPA S08b - Listing of Philanthropic Support) includes \$29.5 million from a USDOE Promise Neighborhood grant; however, this revenue is not traceable to audited financial statements and is not present in the application narrative as evidence of historical support. The business plan does not clearly address what happened to this funding. Clarity on all revenue streams and consistency within the business plan is essential to ensure a coherent application package.
- Materials submitted with the business plan requests suggest that the CMO and an existing charter school in Newark, Achieve Community Charter School (“Achieve”), lend operational funds to one another as needed, as do the CMO and the South Ward Children’s Alliance. It is not clear from the materials submitted if the parties appropriately record funds transfers or whether the boards of

each organization are aware of or, when appropriate, approve the transfer of funds. The use of intercompany transfer accounts undermines the CMO's financial stability and calls into question its understanding of the financial relationship between CMOs and education corporations in New York State, which necessitates the complete separation of funds.

- The responses to the Request for Amendments ("RFAs") reference a merger between Achieve and an existing high school at the beginning of the 2023-24 school year; however, the responses do not sufficiently address the status of this merger or its impact on the CMO's future capacity. It is not clear if the CMO has the capacity to continue operations in both New Jersey and New York should the merger not succeed or should either location fail to meet projected enrollment.
- The proposed budgets for both BRICK Buffalo East and BRICK Buffalo West necessitate reaching chartered enrollment in order to maintain fiscal stability, which entails a considerable level of financial and organizational risk. It is not clear from the materials submitted if the CMO has the capacity to provide backstop support in the event the schools fail to meet projected enrollment.
 - The proposal's discussion of budgetary mitigation strategies in the event of low enrollment is weak and evidences a lack of sufficient planning for the possibility of enrollment challenges in Buffalo.
- As a general matter, the business plan submitted does not sufficiently detail the financial model of the network and the money flows associated with network operations, school startup, or when the network breaks even on the Buffalo schools.

Community Outreach and Support, and Demand for the School

- The application does not sufficiently address how the founding team incorporated feedback from community input into the proposed school design.
- It is not clear from the materials submitted whether the families who indicate interest in enrolling a child at the proposed schools have a child that is age-eligible.
- While the RFA responses include some reference to participation in focus groups by families from West Buffalo, the majority of the evidence of outreach comes from East Buffalo, calling into question the level of support and demand for the proposed school in West Buffalo.

School Model and Academic Program

- The application narrative lacks detail with regard to the implementation of the chosen curricula. While the proposed academic program references existing handbooks and guidance documents included with the supplementary materials provided, the narrative provided does not adequately address the specifics of implementation in a new state with standards and circumstances that differ from the existing districts of location in New Jersey.
- The discussion of the proposed schools' assessment program lacks detail.
 - The narrative references regular meetings among instructional staff members to discuss assessment data and plan instructional adjustments; however, the narrative does not specifically identify the frequency of these meetings or who on the instructional team will participate.

- The proposal lacks a sample assessment calendar of school-wide assessments in order to determine whether the frequency of assessment administration, data analysis, and instructional adjustments is sound.
- The proposal indicates that curriculum and instruction will be culturally responsive but includes minimal detail with regard how specifically the school intends to accomplish this.
- The course descriptions provided do not include the specific content or standards addressed in each course, indicating a lack of understanding of the academic expectations in New York State.
- While the BRICK model posts learning gains above the average performance of Newark, where the CMO's existing schools are located, that performance still leaves over half of students below proficiency. The application did not provide sufficient detail regarding the CMO's plans for improving overall performance of the academic program and the supports it will implement to spur greater improvement in the two proposed Buffalo schools.

The Institute recognizes and appreciates the effort that went into the development of the proposal to establish BRICK Buffalo East and BRICK Buffalo West and we hope that this information provides you with a better understanding of SUNY's requirements and expectations. If you have any questions regarding the review process, please do not hesitate to contact me at (518) 445-4250 or maureen.foley@suny.edu.

Sincerely,

Maureen Foley
Director for New Charters

Tish Johnson, JD

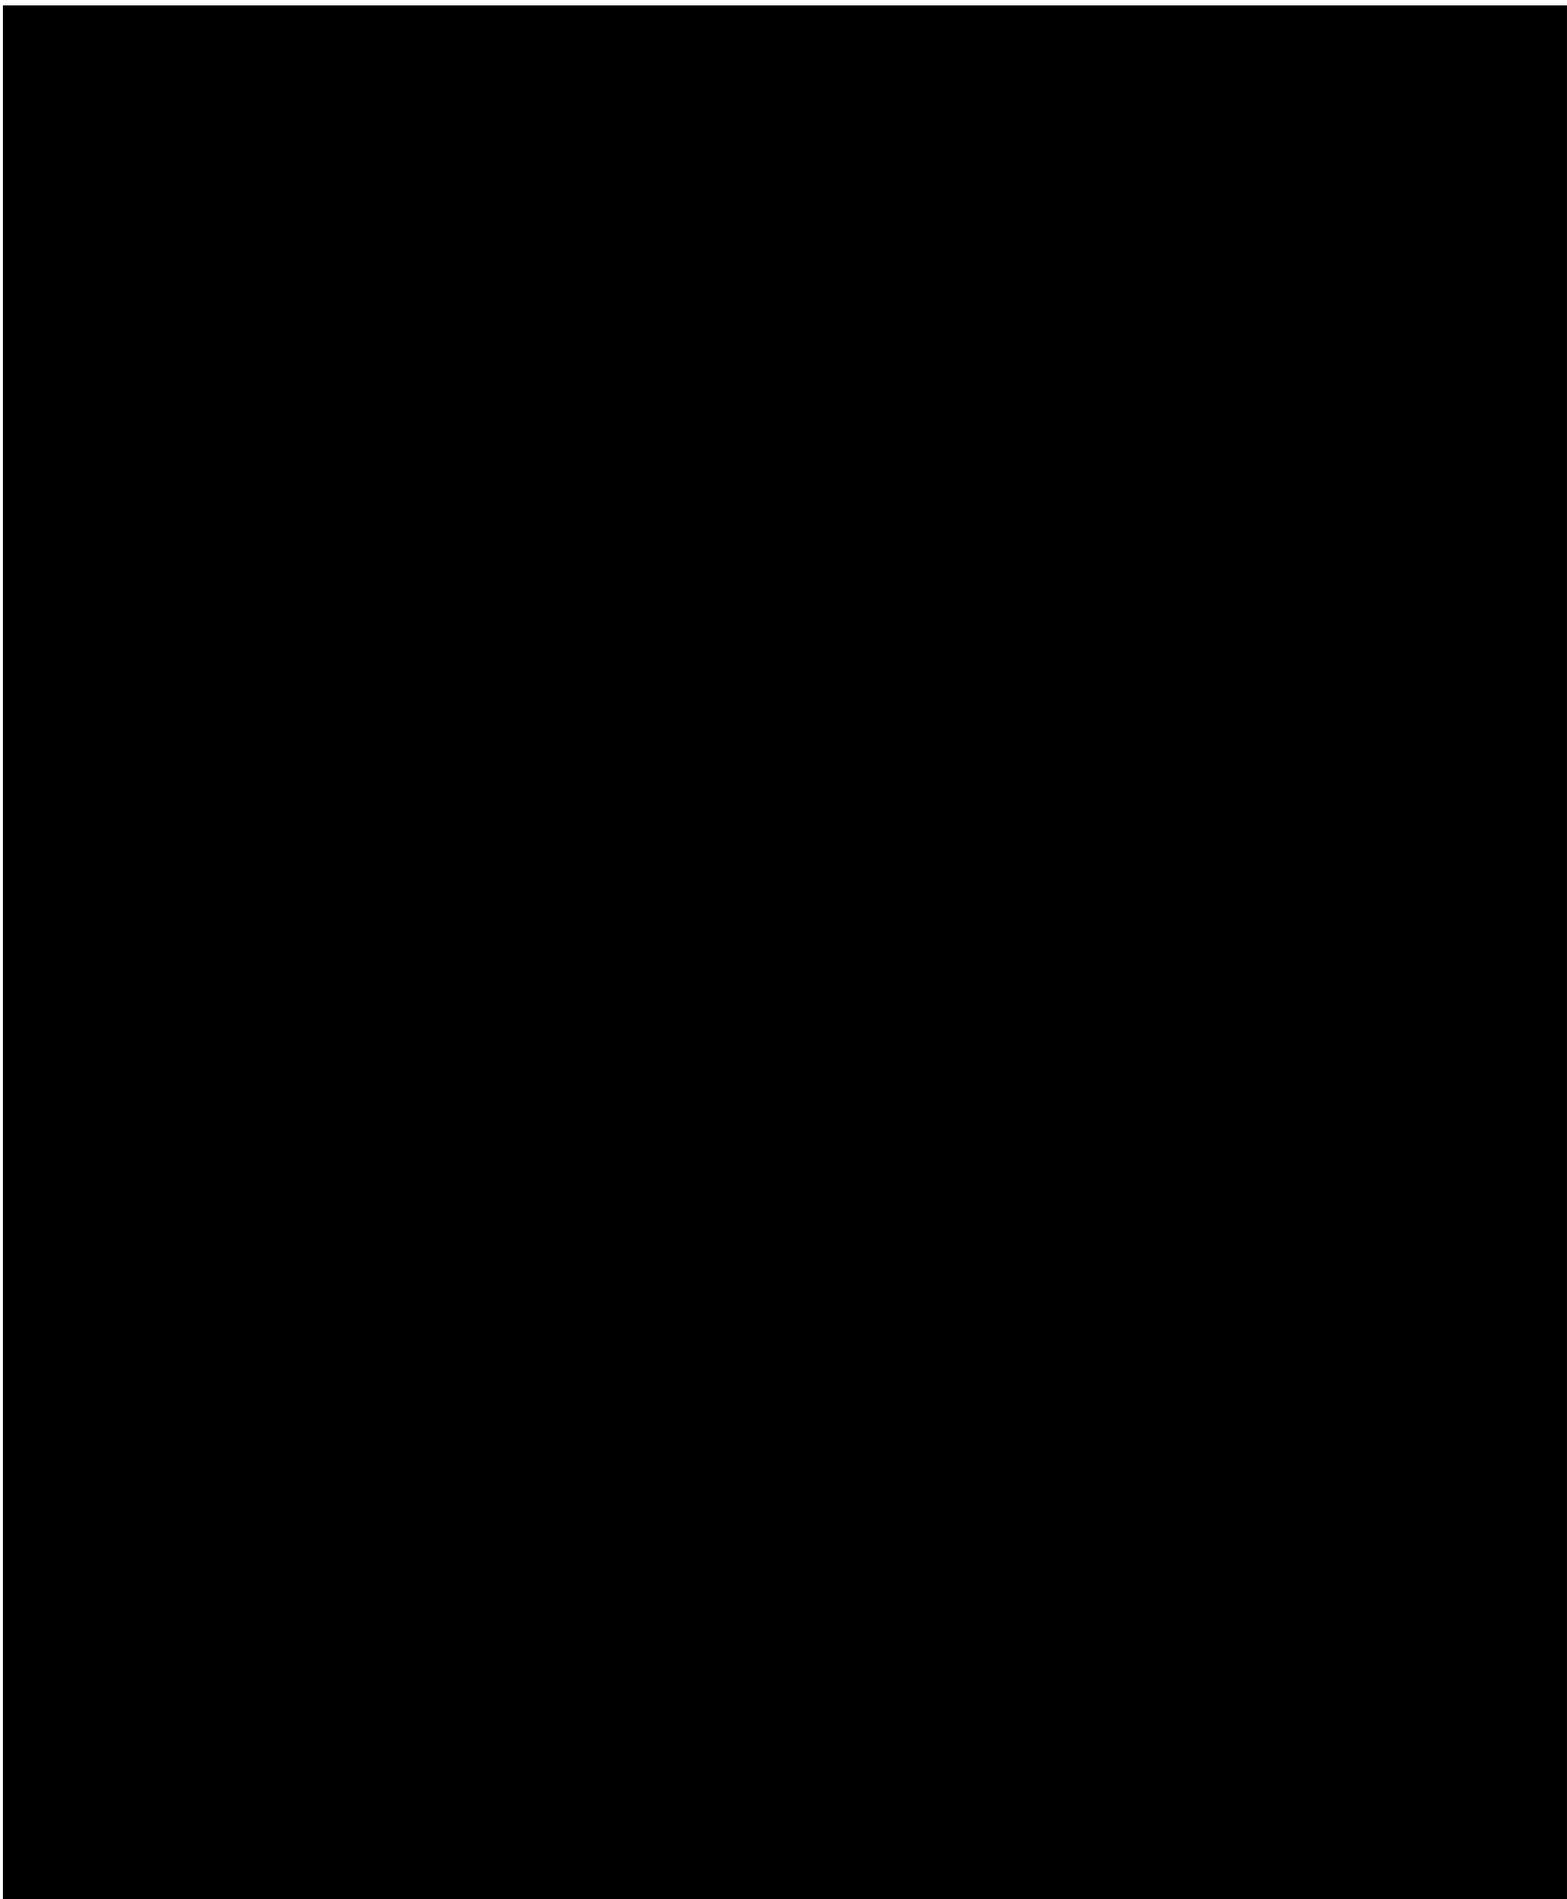

Ms. Tashia M. Martin, MSW, LSW

R-04abc – Community Outreach, Support and Demand

a. Description and Analysis of Community Outreach Efforts

Provide a narrative description of the methods used to inform stakeholders in the intended community about the proposed charter school including:

- *The strategies used to solicit community input regarding the educational and programmatic needs of students and the plan to meet those needs;*
- *The form and nature of feedback received from community stakeholders and the process for incorporating that feedback into the submitted proposal; and,*
- *The extent to which, if at all, the proposal incorporates community input regarding the educational and programmatic needs of students.*

In addition to the narrative description, this response may also include a table, bulleted list, etc. with information about outreach efforts.

BBACS has engaged in a meaningful and extensive public review process designed “to solicit community input regarding the proposed charter school and to address comments received from the impacted community concerning the educational and programmatic needs of students.”¹

Antwan Barlow, BRICK Buffalo’s Regional Director of Operations, is one of the original members of the school’s applicant team. He grew up on the East Side of Buffalo and is passionate about starting a school in his community. He also has a long track record of serving his community. He started a mentoring program that partnered mentors of color directly with the young men on the East Side. He also personally mentored young people at the Masten Boys and Girls Club on the East Side and at the Juneteenth Festival on Fillmore Avenue. Mr. Barlow also served as the Director of Upward Bound at D’Youville College for 12 years. In that role, he was responsible for leading the college’s pre-collegiate programs to help first-generation college students matriculate into college. Collectively, these experiences help to illustrate his deep commitment to the East Side of Buffalo—and illustrate his deep understanding of how to provide the students in his community with the educational support and wraparound services necessary to help them become college, career and life ready. ***For more information on Mr. Barlow’s prior experiences, please see R-03f- Founding Team Resumes.***

During the last two years, Mr. Barlow has leveraged his deep personal connection to his community to conduct extensive community outreach on the East Side of Buffalo—connecting with individuals, families, businesses, nonprofit organizations and community leaders to refine his understanding of the needs of his community and to leverage that understanding to continuously revise the school design for BRICK Buffalo Academy Charter School. He has also been aided in this work by the proposed Board Chair, Yolanda Wood, and proposed Board Vice Chair, Takesha Leonard. Ms. Wood is an East Side resident whose children have attended the local schools, including traditional BPS schools and charter schools. Ms. Leonard is the Medical Director at Jericho Road and, as a result, is one of the regional experts in providing high-quality health care access to East Side residents. Collectively, these three individuals have a unique

¹ Education Law § 2852(9-a)(b)(ii).

connection to the community that has helped the BBACS Board of Trustees conduct a meaningful outreach program that has helped the entire board develop a strong understanding of the needs and aspirations of East Side residents. A summary of the extensive community outreach conducted by Mr. Barlow and the BBACS applicant team is provided below:

- **Social media.** The applicant team used social media to share information about the proposed school and to engage directly with families, including through the BRICK Network’s Website and Instagram accounts as well as through the BRICK Buffalo Facebook page. The BRICK Buffalo Facebook page has reached **1,952 people and received 307 likes** since it was launched on February 6, 2020.
- **Direct mailing.** During the fall of 2022, the applicant team also sent out a direct mailing to more than **1,800 households** with young, school-aged children in the target zip codes on the East Side of Buffalo. This mailing included information about the proposed school, its educational model, and information on how interested families could contact Mr. Barlow to learn more about the school and provide feedback.
- **Community Information Session.** Mr. Barlow has also made continual efforts to connect with community members by hosting community information sessions. In total, these information sessions have reached **1,542 attendees**. To support as many community residents to attend as possible, despite the challenges of the COVID-19 pandemic and local health restrictions, Mr. Barlow held both in-person events and virtual events. During these events, Mr. Barlow provided a presentation about the school’s design, including its mission, academic program and key design elements. Each session also included a session for public comment so that community members could ask questions about the proposed school and share their feedback.
- **Community survey.** Beginning in February of 2020, Mr. Barlow began sharing a community school choice survey to collect feedback from community members about the proposed school. To date, the applicant team has collected **327 completed surveys** from community members. Between January and March of 2020, a team of individuals canvassed the East Side of Buffalo to administer these surveys directly to neighborhood residents. Due to the COVID-19 pandemic, this same survey was then placed online so that it could remain accessible to community members.
- **Canvassing.** Mr. Barlow has also conducted ongoing community canvassing on the East Side of Buffalo for the last two years. During that time he has set up tables and distributed information at countless local community locations, including churches, businesses, social service organizations, and early childhood centers.
- **Attending community events.** Mr. Barlow has also participated in large community events to increase community awareness of the proposed school, including by attending events like the New York Charter Association’s Standup for Equity event in May 2021.

- **Connecting with the local district.** Mr. Barlow has also made continual efforts to connect with, and build a strong relationship with, the Buffalo Public Schools. For example, he has already been able to hold meetings with staff in several of its operational departments that support charter schools, including its food service department and its transportation department. In addition, he has made ongoing efforts to reach out to district leaders, including the Superintendent and the BPS Board of Trustees. These efforts have included e-mail requests for one-on-one meetings to discuss the proposed school as well as the sharing of the applicant team’s newsletter. In addition, Mr. Barlow sent certified letters to the Superintendent and all BPS Board members to encourage them to meet with him or to attend a community information session about the proposed school.
- **Connecting with community leaders.** Mr. Barlow has also made continual efforts to connect with other community leaders and has met with a significant number of the community, business, and nonprofit leaders in Buffalo. This outreach has also included elected officials.
- **Focus groups.** Mr. Barlow has also started to hold small family focus groups during the last month to review the most recent updates to the design of the proposed school. Mr. Barlow plans to leverage these meetings to share how he has integrated specific community feedback to strengthen the design of the proposed school and to encourage families to stay in touch throughout the charter application process.

As a result of these outreach efforts, the applicant team has been able to connect to a wide variety of stakeholders, including individuals from each of the following groups:

- Parents;
- Community leaders;
- Local business owners;
- Various community-based organizations and affiliated constituent groups;
- Area daycare centers;
- Community Health Centers;
- Local health care agencies;
- Elected officials or their staff;
- Faith-based representatives; and
- Several civic organizations.

Table 4.1 below synthesizes some of the general community outreach conducted by the applicant team.

Direct Outreach to Families with School-Aged Children			
2-22-20	Johnnie B. Wiley Stadium- 1100 Jefferson Ave, Buffalo, NY 14208	<ul style="list-style-type: none"> • Parent focus group • Presentation on BRICK mission, model, and school launch plan • Open forum questions 	15
10-28-21	CAO Head Start Academy- 909 E Ferry St, Buffalo, NY 14211	Tabling / canvassing for parents with school-aged children	50+
11-4-21	CAO Early Head Start Academy-175 Oakmont Ave, Buffalo, NY 14215	Tabling / canvassing for parents with school-aged children	20+
11-8-21	CAO Early Head Start Academy -800 Sycamore St, Buffalo, NY 14212	Tabling / canvassing for parents with school-aged children	20+
11-16-21	CAO Early Head Start Academy- 909 E Ferry St, Buffalo, NY 14211	Tabling / canvassing for parents with school-aged children	50+

12-7-21	Leroy R. Coles Jr. Branch- 1187 E Delavan Ave, Buffalo, NY 14215	Tabling / canvassing for parents with school-aged children	15+
1-21-22	Virtual interviews	Scheduled a series of personalized focus groups with parents of children who lived in East Buffalo and had expressed interest in enrolling their children in the school.	Ongoing through March

The BBACS applicant team has also made efforts to meet with local elected officials to ensure that they were aware of the proposed school, understood its proposed school design, and could provide feedback based on their understanding of the unique needs of East Side residents. **Table 4.2** synthesizes some of the direct outreach efforts to elected officials.

Table 4.2 Outreach to Elected Officials

Date	Name/Organization	Elected Office	Details
Ongoing meetings since February 2020	April Baskin	Erie County Legislature Chair	<ul style="list-style-type: none"> • Ongoing in-person meetings to provide and overview of mission, model and school launch plan as well as opportunities to collaborate • Support Letter Received

In-person meeting on 7-6-21	Pastor William Gillison	Bishop -Mount Olive Baptist Church	<ul style="list-style-type: none"> ● Overview of model, mission and school launch plan ● Possible future collaboration in BRICK ecosystem discussed
In-person meeting on 7-6-21	Pastor Corey Gibson	Pastor- Calvary Baptist Church	<ul style="list-style-type: none"> ● Overview of model, mission and school launch plan ● Possible future collaboration in BRICK ecosystem discussed

The BBACS applicant team has also made efforts to invest significant time in conducting outreach to community-based organizations with track records of providing meaningful supports to Buffalo residents, particularly the residents of the East Side of Buffalo. As a result, BBACS has been able to identify strong community organizations that are prepared to partner with the school to develop a robust ecosystem of services to support families. **Table 4.3** synthesizes some of the most robust partnerships that BBACS has already developed.

Table 4.3 Community Partnership Development

Community Organization	Partnership Status	Partnership Overview
Belmont Housing Resources of Western New York	Letter of Support and MOU	Belmont is prepared to assist BBACS families by providing: <ul style="list-style-type: none"> ● HUD certified housing counseling services to help families access affordable housing units in Buffalo. ● Access to apply to the Housing Choice Voucher Program which gives families access to Section 8 vouchers. ● Access to the First Time Home Buyer Program. ● Access to the Belmont Financial Education Center, which provides free assistance with credit report review, tax preparation, rental counseling, homebuyer and homeowner supports, foreclosure prevention services, and educational workshops.

<p>Catholic Charities Buffalo</p>	<p>Letter of Support regarding services</p>	<p>Catholic Charities is prepared to assist BBACS families by providing:</p> <ul style="list-style-type: none"> ● Access to GED programs for families and a direct connection to continuing education opportunities at Erie County Community College. ● In school mentoring for students ● Social-emotional learning programming for students and related support from trained social workers. ● Access to their food pantry to support students and families that have challenges with food insecurity (there is a Catholic Charities food pantry next door to the proposed BBACS school building).
<p>Jericho Road Family Health Center</p>	<p>Letter of Support and MOU</p>	<p>Jericho Road is prepared to assist BBACS families by:</p> <ul style="list-style-type: none"> ● Assisting families in obtaining a primary care physician if they do not have one. ● Providing possible on-site physicals for students once per year ● Providing on-site vision screening for students once per year ● Providing on-site dental cleanings for students twice per year ● Hosting BRICK representatives to conduct information sessions for families and staff. ● Providing access to an on-site medical fitness center for families. ● Providing refugee assistant services to students and their families. ● Providing families with additional home language and literacy services as part of a home visit program.

Journey's End Refugee Services	Letter of Support	<p>Journey's End is prepared to assist BBACS families by providing:</p> <ul style="list-style-type: none"> ● Translation of school documents as needed, including to support ongoing communicating with families in their preferred language, and to support the school's outreach and marketing efforts ● Highly trained translators to accompany BRICK staff in outreach, at recruitment events/open houses, and at major school events (such as the Back to School Barbecue and parent teacher conferences).
The Park School of Buffalo	Letter of Support and MOU (in development)	The Park School is prepared to collaborate with BBCAS to develop a strong pre-K program that could be used in both East Buffalo and Amherst and to facilitate additional collaboration between the two school communities.
King Urban Life Center	Letter of Support and MOU (in development)	The King Urban Life Center is prepared to collaborate with BBACS to create and sustain a robust ecosystem of services to support the BBACS school and the surrounding community. The King Center will also provide BRICK families with access to the Parent-Child+ program, which is a capacity building program for low-income families that is designed to support their efforts as caregivers for their children. In addition, the King Center is also prepared to collaborate in the development of after school programming for BRICK students and their families.

Outreach and Input Findings

In 2005, the Harvard Family Research Project released its findings, entitled *“Parental Involvement and Student Achievement: A Meta-Analysis”*². The primary author, William H. Jeynes, drew his analysis from 77 studies, comprising over 300,000 students. The findings were as follows:

- *“Parental involvement is associated with higher student achievement outcomes. These findings emerged consistently whether the outcome measures were grades, standardized test scores, or a variety of other measures. Moreover, the pattern holds not only for the overall student population but for minority students as well.”*

² <http://www.hfrp.org/publications-resources/browse-our-publications/parental-involvement-and-student-achievement-a-meta-analysis>

- *“The results indicate that, on average, parental involvement programs work. First, the results are substantial and support the belief that parental involvement has a significant impact across various populations. Second, not only does voluntary parental involvement have an influence, but parental programs do as well. Therefore, schools should adopt strategies to enhance parental engagement in their children's schooling. Third, teachers, principals, and school counselors should familiarize themselves with the facets of parental involvement that can help the most, so that they can guide parents on what steps they can take to become more involved.”*

In a research study released on November, 2020, two scholars, Noel E. Kelty and Tomoko Wakabayashi, utilized the definition of family engagement as a “shared responsibility in which schools and other community agencies and organizations are committed to reaching out to engage families in meaningful ways and which families are committed to actively support their children’s learning and development.” Key research findings demonstrated the importance of relationships, the need for schools to provide inclusive and individualized opportunities for families and students, and, specifically for culturally and linguistically diverse populations and children with disabilities, the explicit connections among social systems and through the development of family and school partnerships that bolsters success for all students.³

As such, and as a basis of all of the extensive outreach activities and connections made thus far, BBACS’s founding team has sought community input in design decisions for the school. To date, the team has received a significant amount of input from families, community leaders, elected officials, and other community stakeholders. The feedback received was then categorized into the four key themes that are described below.

Community members want new high-quality schools on the East Side

- Most stakeholders were invested in creating a new high-quality public school option that was centrally located on the East Side of the city.
- Many families indicated that they felt that the student to teacher ratio is too high in BPS and students were not receiving the individual attention or academic support they needed.
- Many families requested smaller classrooms or having more than one teacher available in a classroom.
- Many families expressed a desire for a well-resourced school on the East Side, based on a perception that schools in their neighborhood do not have access to enough resources.

Community members want diverse teachers and leaders who care

- An overwhelming number of stakeholders wanted to see more teachers and leaders of color; while the city of Buffalo serves mostly students of color, the vast majority of teachers are white.
- Many families expressed a desire for more dedicated teachers, insisting that teachers

³ <https://journals.sagepub.com/doi/10.1177/2158244020973024>

“who care about students” are needed on the East Side.

- Families expressed a desire for their children to receive individual attention, one-on-one classroom time, or tutoring from a supportive teacher
- Families expressed a desire for increased instructional time for students

Community members want an engaging school culture that reflects student identity

- Many families and stakeholders expressed concerns with the quality of school culture in BPS, including a lack of focus on rigorous learning, high-suspension rates and low attendance
- Families wanted engaging school cultures that reflected the identities of their children and were engaging for students

Community members want a school that provides additional services

- Families expressed a desire for schools to provide additional, non-academic services for students and families, including before and after care, family programming and community activities.
- Families expressed a desire for more communication and collaboration with their child’s school.

The feedback collected by the BBACS team during its two years of community outreach showed strong support for key parts of the school’s original design plan. Community members were enthusiastic about BRICK’s historical focus on recruiting teachers and leaders of color and the fact that more than 80% of the staff at BRICK’s Newark campus are people of color. Families were also very interested in learning more about the additional wraparound services that BRICK has provided to students in Newark through the work of the South Ward Promise Neighborhood. Families were also excited to learn about the dual emphasis of BRICK’s academic model—which ensures students receive rigorous grade level instruction and also frequent small group differentiated support to meet the needs of individual students.

Feedback from community members also helped the team continue to revise the school’s proposed academic program. For example, community feedback regarding the need to create a school culture that reflected the identities of the students served led the BBACS team to partner with Dr. Marcus Watson, a professor of Africana studies at Buffalo State. Dr. Watson has helped BRICK Buffalo staff members to begin to learn more about how the school can create a culture that is truly responsive to the needs of students on the East Side. He is also prepared to support the school’s teachers to develop their capacity to recognize the cultural assets of their students and to leverage those assets to help students achieve at the highest levels. The BBACS team also ended up adding a significant number of staff positions to serve special populations of students (including students who are economically disadvantaged, students with special needs, and students who speak English as a new language) based on the consistent feedback from families that their children need more support for their individual needs. BBACS also decided to expand BRICK’s traditional emphasis on co-teaching by adding additional special education staff to ensure that there could be an integrated collaboratively taught classroom at every grade level. The BBACS team also has started to develop a robust calendar of events for both students and

their families based on their desire to participate in more school events, including solidifying a desire to have an annual Back to School Barbecue, four parent teacher conferences per year, a Back to School Night, a math night and a literacy nights.

As members of the applicant team conducted outreach, it became increasingly clear that charter schools in Buffalo were facing significant challenges with recruiting and retaining a diverse staff that reflects the backgrounds of the students served. As a result, BBACS began to pursue ways that it could create future talent pipelines to ensure the school was able to recruit strong teachers from the community, including teachers of color from the East Side of Buffalo. Over time, the BBACS team decided to develop a collaborative partnership with City Year and the Relay Graduate School of Education. Through this partnership, BBACS, Relay, and City Year, will collaborate to recruit community members to participate in City Year in Buffalo and will also offer those City Year staff members the opportunity to simultaneously pursue their teaching license through Relay NY's Teacher Residency Program. BBACS believes that this innovative partnership will help provide the individualized support that families were requesting because of City Year's emphasis on supporting individual students—and it will also leverage Relay's expertise to develop a strong pipeline of diverse teachers who are rooted in the community served and will ensure the school is able to expand successfully during the charter term.

Overall, BBACS's commitment to the East Buffalo community has started off on a strong note likely due, at least in part, to the applicant team's deep connections to the community. Stakeholder support has been strong and there is not only an excitement for, but also a yearning for, a high-quality, mission-driven, community-responsive charter school. Parents are eager for an option that meets the needs of their children and that reflects the community it is serving. Moving forward, BBACS will continue to seek stakeholder input throughout the life of the school. BBACS also looks forward to cementing community partnerships that will ensure students and families receive the additional supports they need to thrive; partnering with families to leverage their feedback to continually improve how the school and families can work together to support students; and connecting with community leaders to ensure that they can continue to support the school's capacity to serve the students of the East Side.

b. Description and Analysis of Community Support

Provide a narrative description of support for the proposal from community stakeholders or others including an analysis of both the depth of support and opposition to the school.

In support of the information provided above, attached to this submission are a range of documents that collectively attest to the school's extensive community outreach efforts. These include letters of support, materials from the school's social media outlets, and a collection of other sources of support and input. BBACS has been honored and energized by the high level of interest and support that the proposed school has received from all stakeholder groups in the community.

As mentioned earlier, BBACS received **more than 40 letters of support from community leaders across the City of Buffalo**. It is significant that the school received strong written support from key local elected officials, including Erie County Legislature Chairwoman April Baskin and Councilman Mitchell Nowakowski. BBACS believes that the strong support for the school

expressed by these elected officials can help to mitigate any potential opposition the school will face. BBACS has also received support letters from many well-respected organizations with strong track records for serving families on the East Side of Buffalo—including Jericho Road, Catholic Charities, Journey’s End Refugee Services, Belmont Housing, and the King Urban Life Center. The BBACS team looks forward to working with these organizations to ensure that the students and families on the East Side of Buffalo also have an opportunity to participate in Buffalo’s renaissance.

While there has often been a contentious relationship between traditional public schools and charter schools in Buffalo, BBACS will continue to attempt to collaborate with the district to support the families on the East Side of Buffalo. As described in **R-15 - District Relations**, the BRICK Education Network has a long-history of working closely with the Newark Public Schools and providing services to support all students in their community, not just the students that attend their schools. BBACS wants to take a similar approach to its work in Buffalo and has expressed a willingness to partner with other local schools, including by sharing professional development, collaborating to deliver social services to families, or working together to build diverse teacher pipelines to support students. As a result, BBACS will continue to try to schedule meetings with Buffalo council members, school board members and district personnel and will proactively invite these individuals to community information sessions.

Overall, the BBACS applicant team has seen that the East Buffalo community supports the establishment of the new school. Not surprisingly, some groups, such as the local school board at the virtual community hearing in March 2021 voiced opposition to the establishment of the school. Their concerns were expected comments that reflected the district’s recent animosity towards charter schools; comments that are also steeped in financial myths related to charter schools. The BPS board also expressed concern that BRICK was an organization that started in another state. While BRICK did start in Newark, their track record in Newark shows their deep commitment to ensuring ongoing direct investment in the communities they serve; this commitment is clearly evident in BRICK’s efforts to raise more than \$70 million dollars to provide comprehensive social services to the families of Newark. BBACS is interested in leveraging BRICK’s experience to do that same work in Buffalo—to work collaboratively with its community partners, and BPS whenever possible, to support the families on the East Side.

c. Description and Analysis of Student Demand

Provide a narrative description of student demand including an analysis of evidence indicating that families with age-appropriate students would consider enrolling them in the school. Explain how this evidence supports the school’s ability to meet its proposed enrollment. If using existing waitlists as evidence of demand, provide an estimate based on experience of how many waitlist entries it takes to fill a seat.

Dr. Henry-Louis Taylor Jr., a nationally renowned scholar, recently released a new study that shed light on the Black experience in Buffalo titled *The Harder We Run: The State of Black Buffalo in 1990 and the Present*.⁴ “When we took a look at Black Buffalo 31 years ago, we felt the

⁴ <https://right2thecity.files.wordpress.com/2021/10/taylorhl-the-harder-we-run.pdf>

community was on a downward trend; we were increasingly locked in the economic basement,” Taylor says in the report.⁵ “When we looked at these trend lines some 31 years later, we see no reversal,” he adds. “We see that with some of the critical metrics — the poverty rate, household income, homeownership, employment — not only is there no progress, there’s no change. When we say there’s literally no change, we’re saying that in a lot of ways the situation is more entrenched, more solidified. And that implies that breaking the downward cycle is going to be even more difficult and complex than it was before.”⁶

Dr. Taylor’s study helped to shed light on the ways that deep inequities still persist in Buffalo. While significant investments of resources have led to revitalization in many parts of the city, that same investment has not made its way to East Buffalo. East Buffalo residents continue to struggle with inadequate, substandard housing and predatory land banking practices exacerbated by racial segregation and gentrification. Many local residents are stuck in the low-wage labor force or unemployed. African Americans in East Buffalo also face significant health challenges, including high rates of chronic respiratory ailments that are brought on by excessive pollution and a lack of green space. Schiller Park, which is 82% Black, is a densely populated neighborhood on the East Side that highlights these inequities. The neighborhood’s median income is roughly 20% lower than the city’s median income at \$27,234. Almost 3 out of 4 children in Schiller Park live in poverty and 83% of children live in households receiving public assistance, SNAP benefits, or SSI.

In addition to the extreme challenges faced by East Side residents due to poverty, residents also face a school system that has not yet demonstrated an ability to support high levels of achievement of its African American students. Each year, *Buffalo Business First* publishes academic rankings of the 96 school districts in the Buffalo-Niagara Falls area, rating the school districts in areas of English, mathematics, science and social studies. **BPS ranked 95th out of 96 school districts.**⁷ Unfortunately, statistically significant achievement gaps also exist between sub-groups within BPS, further illustrating how some parts of the city’s population are even more undeserved than the overall district data indicates. For example, in the 2018-2019 school year, 48% of White 3rd graders scored at a Level 3 or higher on the New York State math assessment compared to 18% of African-American 3rd graders. Similarly, on the state ELA assessment 46% of White 3rd graders scored a Level 3 or above compared to 25% of African-American 3rd graders. Collectively, these data points help to illustrate the need for additional high quality educational options for BPS students, especially for its African American students.

As a result of the intense poverty on the East Side and the underperformance of district schools, many families were excited to learn about the key design elements of BBACS. Families were enthusiastic about the school’s commitment to providing comprehensive wraparound supports to students and families, including in the critical areas of quality health care, early childhood education, workforce development and affordable housing. In addition, families were excited about the prospect of being able to send their children to a school that was committed to recruiting and empowering a diverse group of teachers and leaders—and providing students with the differentiated small group support they needed to thrive. As a result, **91 local families**

have already signed petitions indicating that they would consider sending their child to BBACS. BBACS believes that this level of family engagement long before the school is open bodes well for the school's ability to meet its enrollment targets. In addition, the deep partnerships that BBACS has already forged with local community organizations will also provide the school with a unique advantage in terms of student recruitment. These partnerships will provide the BBACS team with an opportunity to meet a large proportion of local families during the incubation period. And the combination of a local board with deep ties to the community, and robust connections with well-respected local organizations, will ensure that local families view the school as a high-quality choice for their children that is deeply rooted in their community.

Evidence of Outreach

Table of Contents

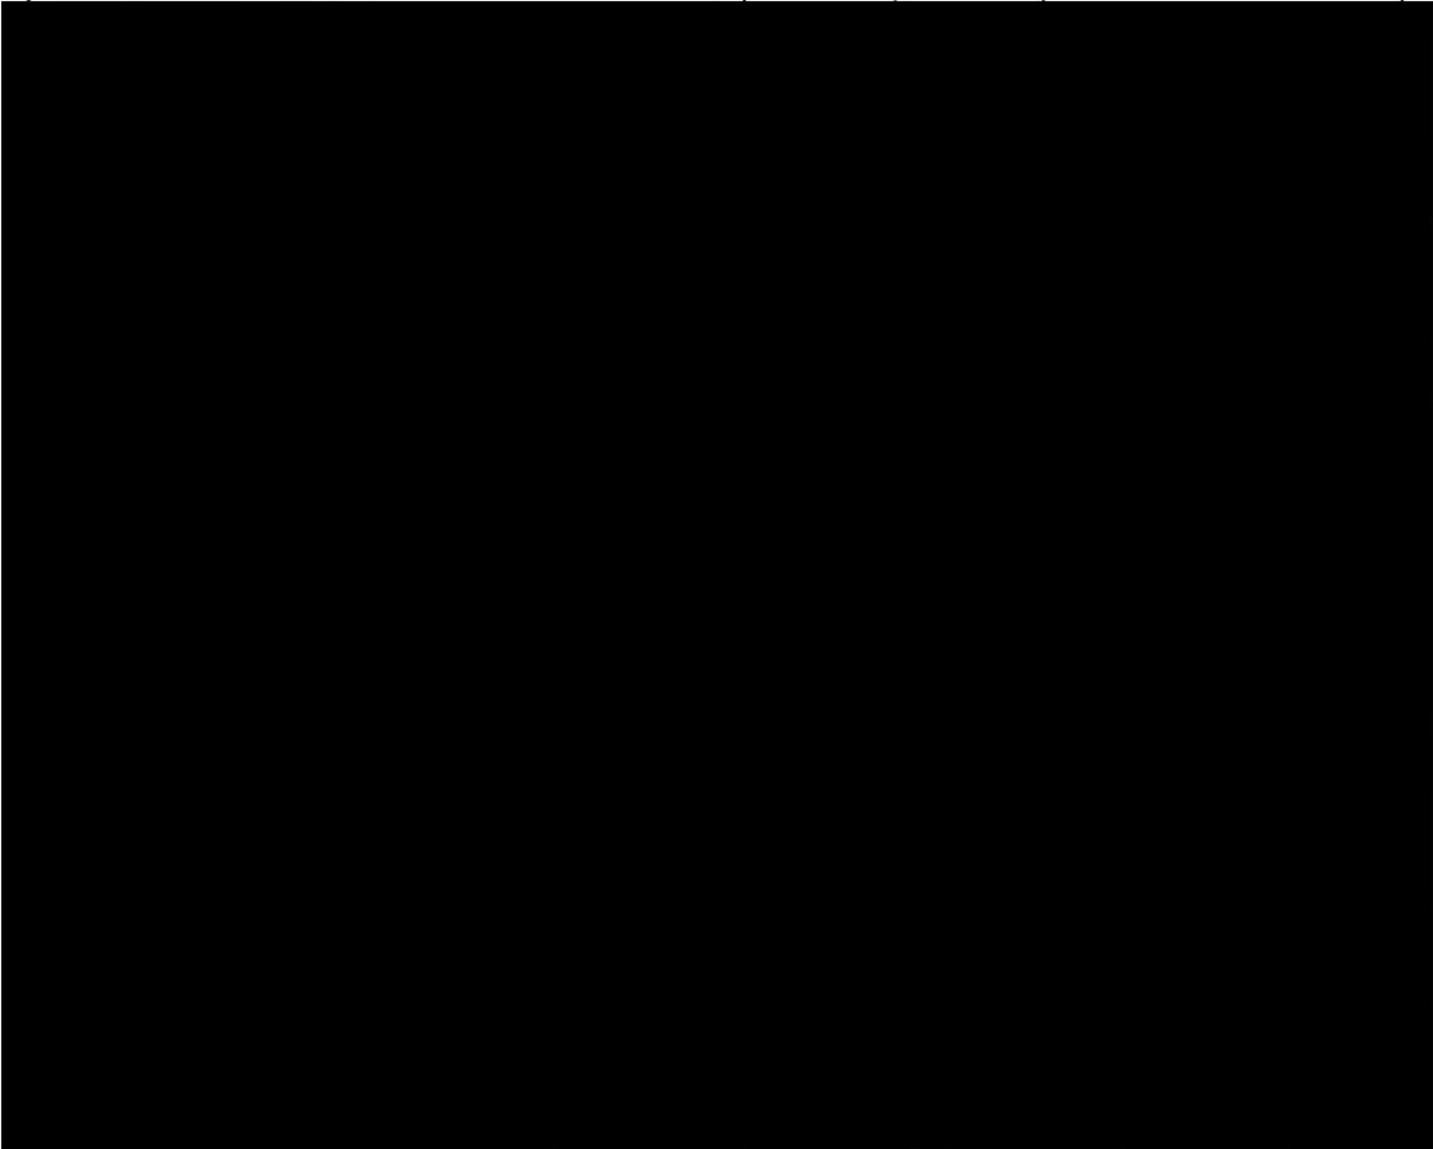

Page	Name of Item	Description
1-6	Regional Community Information Session	Attendance sheet from the kick-off community outreach session for BRICK Buffalo Academy Charter School region.
7-12	Announcement and Outreach Flyers	Flyers designed to announce the BRICK Buffalo Academy Charter School mission, model and school launch plan to the community. The flyers also included BRICK Buffalo Academy Charter School contact information for the community.
13-16	Social Media Outreach	This segment includes various screen shots from our Facebook and website informational page.
17-20	Online Survey Results	This segment includes a summary of two online surveys of city of Buffalo residents. The two survey topics were challenges facing schools today and the challenges faced by families during the pandemic.
21-42	Outreach to Buffalo School Board members	This segment includes copies of certified letters sent to members of the Buffalo School Board requesting a meeting to discuss BRICK Buffalo Academy Charter School's mission, model and school launch plan.
43-72	Outreach emails to elected officials	This segment includes copies of email notifications sent to elected officials in the Buffalo region requesting a meeting to discuss BRICK Buffalo Academy Charter School's mission, model and school launch plan.
73-189	Community Survey and Parent Petitions	Copies of paper surveys and petitions distributed throughout Buffalo, NY.

BRICK BUFFALO ACADEMY CHARTER SCHOOL

A BRICK EDUCATION NETWORK SCHOOL

Dear Board Member Belton-Cottman,

As the Ferry District Member, you are an important community leader that has shown a commitment to providing a high-quality education for the children of our city. As a result, we write to inform you that the BRICK Buffalo Academy Charter School will be submitting an application to the Board of Trustees of the State University of New York to open a new public charter school in Buffalo. The purpose of this letter is to share some information about our school's design so that you can share your input on our proposal.

At BRICK Buffalo Academy Charter School, we will work to graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We will use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school will provide a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Our applicant team wants to found a school that provides a culturally responsive and sustaining education. As a result, we want to found a school that:

- Extends the school day and year to provide more time for learning
- Provides students with access to a culturally responsive curriculum
- Holds high expectations for all students
- Provides a safe environment grounded in restorative practices
- Empowers teachers to lead student-centered, differentiated, and data informed instruction
- Prioritizes social and emotional learning
- Empower and recruit diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickededucation.org or by leaving a voicemail at [REDACTED]. They can also complete an interest form at our website: brickbuffalo.org.

I would also like to formally invite you and your constituents to our next Community Forum, which will take place on Thursday November 18th, 2021 at 5:30pm at Ephesus Hall located at 80 Durham Avenue Buffalo, NY 14215. During this community forum, we will share more information about our school design and gather additional input from the community.

For more information, members of the community can contact the email and/or phone number listed above.

Thank you for all you do for our community. We look forward to partnering with you in the service of children.

Sincerely,

Yolanda Wood (email: [REDACTED])

- Prioritizes social and emotional learning
- Empower and recruit diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickededucation.org or by leaving a voicemail at [REDACTED]. They can also complete an interest form at our website: brickbuffalo.org.

I would also like to formally invite you and your constituents to our next Community Forum, which will take place on Thursday November 18th, 2021 at 5:30pm at Ephesus Hall located at 80 Durham Avenue Buffalo, NY 14215. During this community forum, we will share more information about our school design and gather additional input from the community.

For more information, members of the community can contact the email and/or phone number listed above.

Thank you for all you do for our community. We look forward to partnering with you in the service of children.

Sincerely,

Yolanda Wood [REDACTED]

BRICK BUFFALO ACADEMY CHARTER SCHOOL

A BRICK EDUCATION NETWORK SCHOOL

Dear Board Member Rivera,

As the Member at Large and Vice President of Executive Affairs, you are an important community leader that has shown a commitment to providing a high-quality education for the children of our city. As a result, we write to inform you that the BRICK Buffalo Academy Charter School will be submitting an application to the Board of Trustees of the State University of New York to open a new public charter school in Buffalo. The purpose of this letter is to share some information about our school's design so that you can share your input on our proposal.

At BRICK Buffalo Academy Charter School, we will work to graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We will use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school will provide a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Our applicant team wants to found a school that provides a culturally responsive and sustaining education. As a result, we want to found a school that:

- Extends the school day and year to provide more time for learning
- Provides students with access to a culturally responsive curriculum
- Holds high expectations for all students
- Provides a safe environment grounded in restorative practices
- Empowers teachers to lead student-centered, differentiated, and data informed instruction
- Prioritizes social and emotional learning
- Empower and recruit diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickededucation.org or by leaving a voicemail at [REDACTED]. BRICK Buffalo Academy Forum

1 message

Antwan Barlow [REDACTED]

To: mayor@city-buffalo.com

Fri, Nov 12, 2021 at 12:58 PM

Dear Mayor Brown,

As the Mayor of Buffalo you are an important community leader that has shown a commitment to providing a high-quality education for the children of our city. As a result, on behalf of Yolanda Wood- lead applicant and our applicant team, I write to inform you that the BRICK Buffalo Academy Charter School will be submitting an application to the Board of Trustees of the State University of New York to open a new public charter school in Buffalo. The purpose of this email is to share information about our school's design and upcoming community forum.

At BRICK Buffalo Academy Charter School, we will work to graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We will use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school will provide a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Our applicant team wants to found a school that provides a culturally responsive and sustaining education. As a result, we want to found a school that:

- Extends the school day and year to provide more time for learning
- Provides students with access to a culturally responsive curriculum
- Holds high expectations for all students
- Provides a safe environment grounded in restorative practices
- Empowers teachers to lead student-centered, differentiated, and data informed instruction
- Prioritizes social and emotional learning
- Recruits and empowering diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (like affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickeducation.org or by leaving a voicemail at [REDACTED]. They can also complete an interest form at our website, brickbuffalo.org.

I would also like to formally invite you and your constituents to our next Community Forum, which will take place on Thursday November 18th, 2021 at 5:30pm at Ephesus Hall located at 80 Durham Avenue Buffalo, NY 14215. During this community forum, we will share more information about our school design and gather additional input from the community. Please see the attached flyer.

For more information, members of the community can contact the email and/or phone number listed above.

Thank you for all you do for our community. We look forward to partnering with you in the service of children.

We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Our applicant team wants to found a school that provides a culturally responsive and sustaining education. As a result, we want to found a school that:

- Extends the school day and year to provide more time for learning
- Provides students with access to a culturally responsive curriculum
- Holds high expectations for all students
- Provides a safe environment grounded in restorative practices
- Empowers teachers to lead student-centered, differentiated, and data informed instruction
- Prioritizes social and emotional learning
- Recruits and empowering diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (like affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickeducation.org or by leaving a voicemail at [REDACTED]. They can also complete an interest form at our website, brickbuffalo.org.

I would also like to formally invite you and your constituents to our next Community Forum, which will take place on Thursday November 18th, 2021 at 5:30pm at Ephesus Hall located at 80 Durham Avenue Buffalo, NY 14215. During this community forum, we will share more information about our school design and gather additional input from the community. Please see the attached flyer.

For more information, members of the community can contact the email and/or phone number listed above.

Thank you for all you do for our community. We look forward to partnering with you in the service of children.

Dear Council Member Feroletto ,

As the Delaware District Representative you are an important community leader that has shown a commitment to providing a high-quality education for the children of our city. As a result, on behalf of Yolanda Wood- lead applicant and our applicant team, I write to inform you that the BRICK Buffalo Academy Charter School will be submitting an application to the Board of Trustees of the State University of New York to open a new public charter school in Buffalo. The purpose of this email is to share information about our school's design and upcoming community forum.

At BRICK Buffalo Academy Charter School, we will work to graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We will use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school will provide a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Fri, Nov 12, 2021 at 1:28 PM

To: [Redacted]

Hello,

Thank you for reaching out to my office. I take your issues and concerns very seriously. A member of my staff will review your email and contact you if we need

additional information. If you require personalized attention, please contact my District Office staff:

- For scheduling requests, please contact Faith Norman, Constituent Liaison, at normanf@nyassembly.gov.
- For media inquiries, please contact Ethan Powers, Director of Communications, at powerse@nyassembly.gov.
- If you are a constituent in need of assistance, please contact Michelle Laherty, Constituent Services Manager, at lahertym@nyassembly.gov.
- For inquiries regarding current or proposed legislation, please contact Gamileh Jamil, Chief of Staff, at jamilg@nyassembly.gov.

You may also reach the District Office at (716) 885-9630.

It is my honor and privilege to serve the people of New York's 149th Assembly District. Stay safe and well!

Warm regards,

Assemblymember Jon D. Rivera
149th NYS Assembly District

Dear Council Member Scanlon,

As the South District Representative you are an important community leader that has shown a commitment to providing a high-quality education for the children of our city. As a result, on behalf of Yolanda Wood- lead applicant and our applicant team, I write to inform you that the BRICK Buffalo Academy Charter School will be submitting an application to the Board of Trustees of the State University of New York to open a new public charter school in Buffalo. The purpose of this email is to share information about our school's design and upcoming community forum.

At BRICK Buffalo Academy Charter School, we will work to graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We will use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school will provide a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We will also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we will empower our students to draw strength from their identity and become leaders in their communities.

Our applicant team wants to found a school that provides a culturally responsive and sustaining education. As a result, we want to found a school that:

- Extends the school day and year to provide more time for learning
- Provides students with access to a culturally responsive curriculum
- Holds high expectations for all students
- Provides a safe environment grounded in restorative practices
- Empowers teachers to lead student-centered, differentiated, and data informed instruction
- Prioritizes social and emotional learning
- Recruits and empowering diverse teachers and leaders from our community
- Leverages deep community partnerships to support our students and their families with wraparound services in critical areas (like affordable housing, workforce development, early childhood education and health care)

If approved, the proposed school would open in August 2023 serving kindergarten and 1st grade students. The school would then add an additional grade each year until it serves students in kindergarten through fifth grade.

We are working to solicit as much community feedback as possible on our proposal so that we can build the strongest school possible for the children of Buffalo. As a result, please consider sharing your input on our proposed school design. Members of the public can submit comments by sending an email to us at buffalo@brickeducation.org or by leaving a voicemail at [REDACTED]. They can also complete an interest form at our website, brickbuffalo.org.

I would also like to formally invite you and your constituents to our next Community Forum, which will take place on Thursday November 18th, 2021 at 5:30pm at Ephesus Hall located at 80 Durham Avenue Buffalo, NY 14215. During this community forum, we will share more information about our school design and gather additional input from the community. Please see the attached flyer.

For more information, members of the community can contact the email and/or phone number listed above.

Thank you for all you do for our community. We look forward to partnering with you in the service of children.

Re: Support for BRICK – Building Responsible Intelligent Creative Kids – Expansion to Buffalo

To Whom It May Concern:

I am submitting this letter today in support of the proposed expansion of BRICK Charter School - Building Responsible Intelligent Creative Kids – into Buffalo, New York.

The BRICK Charter School will serve grades K-8, with a foundation rooted in individualized college preparatory curriculum and instruction, innovation and computer science, and a values-driven culture. I am in full support of this mission to strengthen educational opportunities for the youth of our area.

The BRICK Buffalo Charter School also proposes a simple and clear mission of building innovators who will ultimately graduate and be college-ready and will be prepared to solve the world's next set of challenges as future leaders. Curiosity is an integral part of education, and I believe that BRICK will honor this mission wholeheartedly.

I am equally pleased that BRICK is committed to diversity in hiring its staff and teachers, and thus, reflecting the diversity of the student body and the community around the school. The commitment expressed to using minority business enterprises for supplies and materials is commendable and necessary as we seek racial equity in education.

I hope that you will consider BRICK's application for approval, as there is a continued need for more quality school options in Buffalo. Thank you in advance for your consideration.

Sincerely,

April N.M. Baskin

To Whom It May concern:

I write to offer my support for the BRICK Education Network (BEN) and their efforts to expand into Buffalo, NY. It is my understanding that the school will ultimately be a kindergarten – 8th grade program rooted in individualized college preparatory curriculum and instruction, innovation, and a values-driven school culture.

BEN’s mission is to relentlessly knock down all barriers to students’ academic success through an unique model that aligns an excellent education with the necessary family supports to make sure each and every child can succeed. BEN’s vision is that all its students will have an unimpeded path to unlocking their limitless potential.

Founded in Newark, NJ BEN currently provides a pre-kindergarten to 12th grade continuum that fosters the individual needs of students as they develop the skills, character and values that will prepare them for college and empower them to use their unique perspective as an asset to shape our country’s future.

I request that you consider their application for approval, as there is a continued need for more quality school seats in Buffalo. This expansion of BEN would help address educational gaps in the Fillmore District and provide a strong support system for students and families who enroll.

I hope the founding of the Buffalo campus of the BRICK (Building Resilient Intelligent Creative Kids) Education Network will enhance the educational opportunities for the children in my district and throughout Buffalo. Thank you for your consideration of this proposal.

Sincerely,

Mitchell P. Nowakowski

Albany, NY 12246

To the Board of Trustees of the State University of New York (SUNY):

On behalf of the Cullen Foundation, a private charitable foundation located in Buffalo, New York, I write in strong support of the application before you from *BRICK Education Network* ("*BRICK*"). We feel fortunate that *BRICK* intends to make Buffalo its third region and believe they'll be a vital partner in Buffalo's continued growth and revitalization.

For the past five years, Cullen Foundation has worked with national education experts, local nonprofit partners, community members and families to increase the number of high-quality public-school seats in Buffalo. We believe that *BRICK*'s presence here is essential to diversifying and strengthening educational opportunities for Buffalo's students and families to ensure more high-quality seats are available.

BRICK's excellent track record, coupled with its vision, commitment, and expertise in serving economically disadvantaged students provides us with confidence that they'll create unique learning opportunities for Buffalo's highest-need students. Further, Buffalo needs new and diverse options for families. We are excited about *BRICK*'s proven ability to design schools that meet the individual needs of students, especially those with adverse childhood experiences.

Cullen Foundation enthusiastically recommends that *BRICK* be granted a charter to open its three K-8 schools in Buffalo, beginning with its first school in the Fall of 2022. We believe that *BRICK*'s success will be a win for students and families and the Western New York region.

If you have any questions about the Cullen Foundation's support of *BRICK*, please do not hesitate to contact me at [REDACTED]

Sincerely,

Dear Sir or Madam:

We would like to share my support for the proposed BRICK Buffalo Academy Charter School. We believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, we know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. We know that BRICK has a track record of ensuring that its students can make significant academic progress. We also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, we believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, we are excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

If you wish to discuss this matter further, please do not hesitate to contact me. Thank you for your consideration.

Sincerely,

Dear Sir or Madam:

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

- Providing HUD certified housing counseling services to help families access affordable housing units in Buffalo.
- Provide families with access to First Time Home Buyer Programs.
- Provide families will access to the Belmont Financial Education Center which provides free assistance with credit report review, tax preparation, Rental Counseling, Homebuyer and Homeowner Supports, Foreclosure Prevention Services, and educational workshops.

Based on the initial scope of services, we plan to provide those services at no cost to the school.

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

If you wish to discuss this matter further, please do not hesitate to contact me. Thank you for your consideration.

I would like to share my support for the proposed BRICK Charter School and their efforts to expand into our community in Buffalo, NY. BRICK’s holistic individualized program aims to ensure students graduate from high school with both the academic skills and character/identity development to achieve their dreams. From its past diversified experience of managing turnaround schools and creating a brand-new charter school, BRICK has developed a framework to comprehensively diagnose, improve, assess, and expand student success.

I ask that you consider their application for approval, as there is a continued need for additional high - quality seats in Buffalo ultimately leading to more educational options for our children. BRICK directly addresses this need by providing access to a proven curriculum and a strong support system for students who enroll.

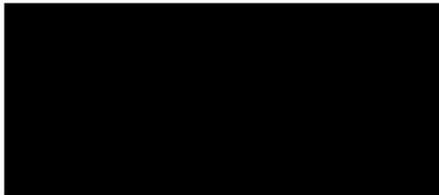

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has been among the most successful networks in New Jersey, and I expect the founding of the Buffalo campus of BRICK will have the same success

Feel free to contact me as this proposal moves forward.

Best regards,

Mr. Ricardo Herrera MSW

In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, I am excited to support the school and I look forward to finding ways that my organization can support a successful launch in Buffalo.

Catholic Charities is the most comprehensive human service agencies in Western New York, which will benefit many of BRICK Charter School families. Catholic Charities can commit to assisting families with adult education and vocational training opportunities, school counseling, clinical assistance, access to food, and WIC services. Catholic Charities has a long history working with schools to provide services to both students and their families.

As you know, there is a continued need for additional high-quality schools in Buffalo. Many local charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I believe BRICK Buffalo can provide that option.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Sincerely,

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

- Assisting families in obtaining a primary care physician if they do not have one.
- Hosting BRICK representatives to conduct information sessions for families and staff.
- Provide access to on-site medical fitness center for families.
- Provide refugee assistant services to students and their families.
- Provide families with possible home language and literacy services as part of a home visit program.

We also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

I would like to share my support for the proposed BRICK Buffalo Academy Charter School. I believe the proposed school would be an incredible asset to the Buffalo community and an exemplar partner with City Year Buffalo to bring dedicated young leaders to serve our community and eventually teach in Buffalo.

Based on meetings with the Regional Director of Instruction/Superintendent of BRICK, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. I also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to the city of Buffalo. As a result, I am excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo particularly in partnership by provided a team of dedicated AmeriCorps Members and an Impact Manager on site to provide additional people power to BRICK's mission for years to come.

As you know, there is a continued need for additional high-quality schools in Buffalo. Many local charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I believe BRICK Buffalo can provide that option.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school. City Year Buffalo has in its short time attracted amazing AmeriCorps Members which many have gone on to commit to teaching for two years or more in Buffalo Public Schools and Buffalo Charter Schools. We know that our AmeriCorps Members are most likely to persist through their service year and potentially be inspired to continue to make a career in teaching at schools that invest in them, make them feel a sense of belonging, and prepare them for the role. I have no hesitation that BRICK can and will be that ideal environment to cultivate Buffalo's students and future leaders in teaching.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Yours in service,

Jonathan Morris

 BRICK Education Network

Dear Jeremy,

I'm writing this letter to express our support and enthusiasm for the ongoing partnership between BRICK Education Network and City Year Buffalo. As a charter partner in Buffalo, we believe that your school will provide the Buffalo/Niagara region with a proven dedication for accelerating student academic & socio-emotional success.

As you know, City Year's portfolio of whole school and targeted services enhances the instructional core by supporting quality, data-driven instruction, deepening family and community engagement, and contributing to a culture of empowerment, achievement, and service. This provides a continuous, supportive presence throughout the day to build mutually supportive connections between students' classroom learning and their before- and after-school experiences.

We believe that through partnership and collaboration with you and your team at BRICK, that we will contribute to student success while developing the next generation of leaders through years of service and careers in teaching. The City Year Buffalo team is excited to partner with your organization and build up our community alongside you and your amazing team of educators. We are eager in continuing to build/support this partnership and your vision for students in Buffalo.

Yours in service,

Jonathan Morris
 Impact Director

In addition to our organization’s letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

City Year	<ul style="list-style-type: none"> • Partner with BRICK and Relay GSE in recruiting future City Year corps members with an emphasis on recruiting diverse educators who are interested in pursuing long-term careers in education. • Provide a cohort of City Year corps members to place at BRICK throughout its first five year charter term. This will include 6 AmeriCorps members and 1 dedicated Impact Manager.
-----------	--

We also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Based on the initial scope of services, we plan to provide those services at no cost to the school or at the below fair market value described below:

City Year	At the standard rate for partners of approximately \$75,000 per year
-----------	--

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Here are some general duties throughout the day and week:

- **Before care up to 90 minutes before classes start.** City Year AmeriCorps Members, Impact Manager and school staff before care. This likely takes place in a large space like the cafeteria. A school administrator is on hand to support (Principal, Director of Operations, Family and Community Engagement Specialist, Vice Principal or Dean) and each ACM (City Year AmeriCorps Member) has 10 students that they support at their table. The ACMs could help design what activities students do in the morning under the direction of the Family and Community Engagement Specialist who helps design this time.
- **Morning meeting from 8:10-8:30.** Each ACM is assigned to a specific classroom that they will support throughout the year. They participate in the Social Emotional Learning lesson with the teachers and support students in their class as needed.
- **During literacy blocks.** During the literacy blocks, specifically rotations, there are two core teachers in the room. But CMs work directly with students that need more reading support, reading with them one on one or facilitating buddy reading with two students. This takes place with students who are independently reading at the time. In addition, ACMs are most likely to work with the students who are the furthest behind academically to help build a love of reading.

- **During math blocks.** During the math blocks, specifically during the Power Up time, ACMs work with students who have been identified as needing additional support to redo math assignments from class or to complete their homework for that week successfully. In addition, as with literacy support, they are focused on helping to build a love of mathematics.
- **During lunch and recess.** ACMs support lunch and recess for their class and grade level. In this way, ACMs would have lunch with their class and sit with their students. There would always be an administrator and teacher present in the cafeteria as well to support. In addition, ACMs help plan and/or participate in fun games at recess with students to build positive culture. Once again, there is always an administrator and teacher present as well.
- **Independent projects and planning.** During the strategic read aloud and writing blocks for their class, ACMs have dedicated planning time. Some of their ongoing tasks involve giving feedback on student homework and calling to engage families if it's not complete, placing positive phone calls to families, helping to grade student work, etc... Each ACM will also have an independent project that they are passionate about to complete for the school under the direction of their grade level chair (for example, planning a family field lesson or a Back to School Literacy Night).
- **Teacher residency work.** Any ACM that is also enrolled in a teacher residency program can teach science or social studies lessons as appropriate based on the model of the residency program. During this time, they would have a lead teacher present in the room with them to support their development.
- **Providing support for core content teachers.** ACMs would assist with substituting when needed but this would only happen in classrooms that are meant to be staffed by two teachers throughout the day (specifically in grades K through 2). In these cases, the ACMs would take on specific tasks while the other teacher is in the room (as in helping a small group with the lesson) or would have an opportunity to have students participate in an alternate assignment or game (like an additional SEL lesson or dodgeball). There would be an administrator present at all times unless there was clearly not a need for some reason (like if one CM was showing a movie or two CMs were facilitating a game of dodgeball and had strong rapport with students).
- **After care from 4 to 5 p.m.** City Year ACMs and staff after care. This means that, each day, ACMs are responsible for before care, and 3 different CMS are responsible for after care. After care is similar to before care in that it takes place in a large space like the cafeteria. A school administrator is on hand to support (Principal, Director of Operations, Family and Community Engagement Specialist, Vice Principal or Dean) and each ACM (City Year corps member) has 10 students that they support to engage in a fun activity. The activities change throughout the year and are based on student interest.
- **Special education.** Potential for a City Year ACM that would be assigned to work more closely with a single student, or small group of students, who would benefit from extra support (such as a student with special needs or an English Language Learner). Their support would be highly customized to the needs of the individual student. They would also be deployed as needed to cover gaps created by any absences from the other City Year corps members.

To Whom It May Concern:

I would like to share The Service Collaborative's support for the proposed BRICK Buffalo Academy Charter School. The Service Collaborative (TSC) is the regional agency improving the lives of those in need, and also those with the desire to make a difference, through volunteerism. TSC provides AmeriCorps programs to Western New York. Education is a pillar of our work. We believe that BRICK's holistic individualized program aims to ensure students will graduate with both the academic skills and character/identity development to achieve their dreams. We believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. I also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, TSC is excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

As you know, there is a continued need for additional high-quality schools in Buffalo. Many local charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. The Service Collaborative believes BRICK Buffalo can provide that option.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Sincerely,

Kate Sarata

To Whom it May Concern,

I would like to share my support for the proposed BRICK Buffalo Academy Charter School and the BRICK Education Network's efforts to expand into our community in Buffalo, NY. BRICK's holistic individualized program aims to ensure students graduate from high school with both the academic skills and character/identity development to achieve their dreams. From its past diversified experience of managing turnaround schools and creating a brand-new charter school, BRICK has developed a framework to comprehensively diagnose, improve, assess, and expand student success.

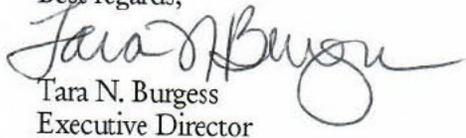

For more than 40 years, EPIC – Every Person Influences Children's vision has been a world where every child has a strong start and promising future. We provide research and evidenced-based year-round programming in **Family Engagement in Education**, encouraging early literacy and building parents' capacity to become more actively involved in their children's education, through programs such as Ready, Set, Read! and Storytime Family Literacy. We also provide extensive **Parenting Education**, offering support and solutions for struggling parents, through programs like Families in Transition and Triple P. EPIC has also created pandemic-specific programming within the **Parenting Doesn't Stop Project**, which includes a support line, parent cafes, comprehensive resource guides and an extensive YouTube channel.

I ask that you consider their application for approval, as there is a continued need for additional high - quality seats in Buffalo offering more educational options for our children. BRICK directly addresses this need by providing access to a proven curriculum and a strong support system for students and families who enroll. We are hopeful to collaborate with BRICK within the ecosystem of services they are looking to coordinate for the families of their school.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has been among the most successful networks in New Jersey, and I expect the founding of the Buffalo campus of BRICK will have the same success.

Feel free to contact me as this proposal moves forward. I can be reached at [REDACTED]

Best regards,

Tara N. Burgess

Re: BRICK Buffalo Academy Charter School

February 13, 2022

To Whom It May Concern:

I write to share my support for the proposed Building Resilient Intelligent Creative Kids (“BRICK”) Buffalo Academy Charter School. As an educational advocate with several years’ experience representing students in disciplinary and special education matters in Western New York, I believe the proposed school would be an incredible, timely, and much needed, asset to the Buffalo community.

As you may know, Buffalo consistently reports one of the highest childhood poverty rates in the nation. Similarly, Buffalo students consistently report significantly-above-average rates of Adverse Childhood Experiences (“ACEs”), a recognized metric of childhood trauma exposure. Simply stated, there are few places in the country that more sorely need creative and compassionate approaches to student behavior. Sadly, the Buffalo City School District has not followed through on its stated commitment to restorative, non-punitive disciplinary practices. To date, and in the midst of a global pandemic that has caused massive disruptions in children’s lives and an attendant mental health crisis among youth, Buffalo Schools has suspended at least 2,000, or 7% of, students. The data for particular demographics are even worse: 10% of students with special needs, 10% of Black students, and 14% of ninth graders districtwide.

Based on meetings with members of the BRICK Buffalo applicant team, in particular Superintendent Jeremy Esposito, I am confident that BRICK is focused on ensuring that students have the knowledge, skills, and support needed to be college, career, and life-ready upon graduation. In particular, I appreciate Jeremy’s commitment to collaboratively crafting an evidence-based code of conduct, and approach to student discipline more broadly. BRICK is implementing emerging neuroscience research showing the considerable impact of trauma on children’s brain development and, later, behavior; as well as sociological research showing that exclusionary discipline (out of school suspensions and expulsions) not only fails to improve student behavior and school safety but, in fact, negatively impacts school culture.

290 Main Street | Suite 400 | Buffalo, New York 14202 | p. 716.853.9555 | f. 716.853.3219

www.legalaidbuffalo.org

In our many conversations, Jeremy and I have discussed the imperative of providing Buffalo students with reliable, predictable, and restorative responses to difficult behavior. Jeremy has shared, for example, that in 2019-2020, the BRICK network imposed only 40 total out of school suspensions, accounting for less than 2% of students. What is more, Jeremy has proven himself open to feedback, willing to put in the work to collaborate with community partners, and interested in translating novel research into novel practices—all critical traits of a school leader and sorely needed in Buffalo.

As my comments might suggest, there is a continued need for additional high-quality schools in Buffalo. Many local magnet and charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I regularly advise families looking for alternatives to their current educational settings, and I wish there were more schools focused on meeting the needs of all students, an in particular students with unique social-emotional needs. I believe BRICK Buffalo can provide that option.

Based on the needs of our Buffalo community, I ask that you strongly consider BRICK Buffalo's application for approval. I am excited to support the school both personally and professionally and look forward to continue identifying ways to support a successful launch.

Please feel free to contact me with any questions you may have about the Legal Aid Bureau's Education Advocacy Project and/or our support for this proposal.

Sincerely,

Carly Hite, Esq.

Re: BRICK Buffalo Academy Charter School

February 13, 2022

To Whom It May Concern:

In addition to the Legal Aid Bureau Education Advocacy Practice’s letter of support for the proposed Building Resilient Intelligent Creative Kids (“BRICK”) Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services:

<p>Carly Hite, Legal Aid Bureau of Buffalo</p>	<ul style="list-style-type: none"> • Collaborate with BRICK Buffalo to secure funding to provide holistic, free legal services to East Buffalo families. • When possible, support the BRICK Buffalo team and BRICK families by attending meetings with the Buffalo City School District Committee on Special Education (“CSE”) to ensure that students receive appropriate Individualized Education Programs (“IEP”). • Support the development and training of the BRICK Buffalo Superintendent/Regional Director of Instruction, Director of Special Education, and Vice Principal of Culture by serving as a resource to answer their questions about federal and state law/regulations and best practices. • Provide training to network and school leadership team members, as well as school social workers, regarding important topics for leaders to understand, such as federal and state law/regulations related to student discipline, special education, and the rights of marginalized populations (e.g., foster youth, children experiencing homelessness, English Learners).
--	---

	<ul style="list-style-type: none"> • Partner with the BRICK team on an annual basis to review existing discipline data and policies and to suggest revisions as appropriate. • Partner with the BRICK team on an annual basis to review existing special education data and policies and to suggest revisions as appropriate. • Share information guides that can help families understand their rights with respect to student discipline and special education. • Support the school to advocate for full triennial evaluations for all students with disabilities, rather than basic record reviews.
--	---

We also remain committed to working closely with BRICK staff to continuously adjust our supports based on student, family, and community need.

Based on the initial scope of services, we plan to provide those services at no cost to the school or at the below fair market value described below:

Carly Hite, Legal Aid Bureau of Buffalo	No partnership agreement fee.
---	-------------------------------

We are excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Please feel free to contact me with any questions you may have about the Legal Aid Bureau’s Education Advocacy Project and/or our support for this proposal.

Albany, New York 12234

I would like to share my support for the proposed BRICK Buffalo Academy Charter School (BRICK Buffalo). I believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. As an Africana Studies professor, I am particularly encouraged that the team is committed to providing a culturally responsive curriculum, including sensitivity to the strategic inclusion of African and African American content and pedagogy. This commitment will better ensure that schooling is relatable and relevant as it builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, I am excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

As you know, there is a continued need for additional high-quality schools in Buffalo, and the BRICK Education Network has already demonstrated its capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

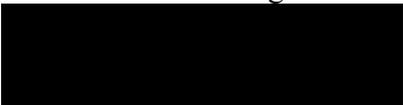

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. As an Africana Studies professor who regularly supports institutions in the Buffalo area that are committed to providing culturally responsive education, I would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Sincerely,

Marcus D. Watson

In addition to my letter of support for the proposed BRICK Buffalo Academy Charter School, I also would like to share my intention to partner with BRICK Buffalo. Based on the aligned philosophies between BRICK and my work as an Africana Studies professor, I believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, I plan to partner with BRICK Buffalo to provide the following services to the school:

Professor Watson	<ul style="list-style-type: none"> • Partner with the Regional Director of Instruction/Superintendent of BRICK Buffalo, Jeremy Esposito, to support BRICK Buffalo regional staff to enroll in his course called “Intro to Africana Studies” and “Blacks in Buffalo” class at Buffalo State to deepen their understanding of the historical and current experience of Black residents in Buffalo. • Partner with the RDI to support professional development to BRICK staff members, including by collaborating to create professional development sessions to help BRICK Buffalo staff develop a deeper understanding of the historical and current experience of Black residents in Buffalo. • Partners with the RDI and the Regional Director of Operations, Antwan Barlow, to develop an internship program for students in the Africana studies program at Buffalo State that will provide them with opportunities to intern at BRICK Buffalo. • Partner with the BRICK team to help build its cultural program, including by creating resources to support positive student identity formation. • Participate in the school’s annual efforts to assess the cultural relevance of its academic program and cultural program, including by participating in parts of the school’s programmatic audit as necessary.
---------------------	--

I also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Based on the initial scope of services, we plan to provide those services at no cost or at or below the fair market value described below:

Professor Watson	At the standard rate for Buffalo State tuition. At or below market rate for any contracted professional development services.
---------------------	--

I am excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Sincerely,

Marcus D. Watson

I would like to share my support for the proposed BRICK Charter School and their efforts to expand into our community in Buffalo, NY. BRICK's holistic individualized program aims to ensure students graduate from high school with both the academic skills and character/identity development to achieve their dreams. From its past diversified experience of managing turnaround schools and creating a brand-new charter school, BRICK has developed a framework to comprehensively diagnose, improve, assess, and expand student success.

I ask that you consider their application for approval, as there is a continued need for additional high - quality seats in Buffalo ultimately leading to more educational options for our children. BRICK directly addresses this need by providing access to a proven curriculum and a strong support system for students who enroll.

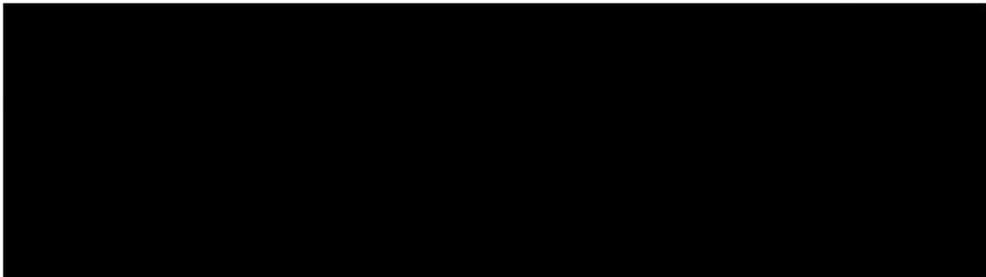

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has been among the most successful networks in New Jersey, and I expect the founding of the Buffalo campus of BRICK will have the same success

Feel free to contact me as this proposal moves forward.

Best regards,

**BRICK BUFFALO ACADEMY
CHARTER SCHOOL**

A BRICK EDUCATION NETWORK SCHOOL

Mission Statement

At BRICK Buffalo Academy Charter School, we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.

BRICK Buffalo is proposed to be managed by the not for profit charter school management organization, BRICK Education Network.

In February 2022, BRICK Buffalo will submit an application to the Charter Schools Institute of the State University of New York for a charter to open a charter school in the Buffalo School District. If approved, the school would open in September 2023 and serve children in Kindergarten and first grade that first year. The school will eventually grow to serve K-5th grade in its first five years. *If you have a child who was born in 2017 or 2018 or was born before 2017 but will be a Kindergartner or 1st grader in September 2023, your child will be eligible to apply to BRICK Buffalo for admission in September 2023.* Students will be admitted to Brick Buffalo through a blind lottery.

BRICK Buffalo assures signers of this petition that their names and address will not be published nor be used for any marketing purposes. By signing this petition, you are indicating (1) your personal support of this proposed free Public Charter School to open in the Buffalo School District and (2) your interest in applying for a seat in the charter school for all your children who would be eligible to attend.

Director Questions

1. Do you have a child in the BPS or charter school? (All Yes)
2. How has your experience been at your school?
3. Are you satisfied? If not why?
4. Greatest challenge in schools today? The school your child attends and/or others?

Responses: (each bullet point is a different parent response)

- Schools lacks efficient communication with parents. A lack of parent-teacher conferences.
- Curriculum outdated in public schools. Administrators not concerned with confronting issues raised by parents. Teachers and administrators not reflective of school.
- Students don't have enough opportunities to pass (grade). If students are behind, they automatically fail them. Not enough is done with bringing students that are behind up to speed.
- More attention to the development of student character.
- Students' confidence (to speak in class and learn) is strong in Kindergarten, but seems to deteriorate by 5th grade. School must have a plan to address these issues.
- More financial literacy needs to be available to students. Banks should be sought after for partnerships.
- Love daughter's school, very satisfied- school communicates well, takes field trips, student feels respected and principal always available.
- Schools need to help parents learn how to be advocates for their child and the community. Parents needs to learn that they must work together to advocate for change.
- Home visits should be made by schools. Need to know what is happening for the kid.
- Schools need to add more physical fitness, art, and foreign language to curriculum.
- Student need to do a better job of diagnosing student disabilities. Some students given diagnoses because it was the only one that closely related to student.

BRICK BUFFALO ACADEMY
CHARTER SCHOOL
A BRICK EDUCATION NETWORK SCHOOL

Interest Form

Dear Participant,

In February 2022, BRICK Buffalo Academy Charter School will submit an application to the Charter Schools Institute of the State University of New York for a charter to open its doors in the Buffalo School District. If approved, the school would open in September 2023 and serve children in kindergarten and first grade that first year. The school will eventually grow to serve K-5th grade in its first five years. If you have a child who was born in 2017 or 2018 (or was born before 2017 but will be a Kindergartner or 1st grader in September 2023), your child will be eligible to apply to BRICK Buffalo Academy Charter School for admission in September 2023 when the school opens.

Mission Statement

At BRICK Buffalo Academy Charter School, we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.

Please help us create the school by telling us what is important to you. We will consider all responses from families and other stakeholders in designing the school.

Section 1: Basic Information

Do you live in the city of Buffalo? Please circle one

Yes

No

What is the zip code of your residence? _____

Please check all statements that best describe you

Family member of school aged child

Member of clergy

A public or private school administrator or teacher

Other (specify) : _____

Community Leader

Elected Official

Are you a parent or caregiver of a young school aged child (ages 2-7)?

Yes

No

Continued on page two

Section 2: School Features

Please check the appropriate box indicating your feelings about the importance of each school feature

*Key 5= most important ,3= Somewhat important , 1= not at all important)

School Feature	5	4	3	2	1
An extended school year—187 days of school		✓			
An extended school day—7:30 am-4:05 pm	✓				
At least two hours of literacy and one hour of math instruction each day		✓			
Two teachers in early elementary classrooms	✓				
Art, Music and Physical Education as part of the school's core curriculum	✓				
Instructional strategies and appropriate staffing to address the needs of English language learners in an inclusion model	✓				
Instructional strategies and appropriate staffing to address the needs of students with special needs in an inclusion model	✓				
A school community in which students of different backgrounds and learning abilities are welcomed and feel comfortable.	✓				
A school community that is committed to acknowledging and addressing social justice issues that directly affect the students of the school such as systemic racism.	✓				
A school that is committed to building a teaching community that reflects the diversity of the students we will serve.	✓				
A school that promotes helping others, leadership, community involvement and citizenship	✓				
A school that provides student and families supports that address the holistic needs of a family through deep community partnerships. Examples of supports would be healthcare, early childhood services, workforce development, and affordable housing	✓				

Please use this space to tell us more about the ratings and/or to identify other school features that are important to you? Please feel free to use the back of this sheet if necessary

There are alot of needs that are lacking in public schools my ratings are mostly 5 as I feel this is all important to have.

What if any, concerns do you have about the proposed charter school?

Continued on page three

Section 3: Information about you and your child(ren) (optional)

All of the following questions are optional. The data will be used solely for the purposes of preparing a summary of interested families and other stakeholders as part of the charter application process. No personal data will be shared with any third party.

Would you like to receive information about the school's progress?

Please circle one Yes No

What is your ethnic background? Check all that apply (optional)

- | | |
|--|--|
| <input checked="" type="checkbox"/> White | <input type="checkbox"/> African American |
| <input checked="" type="checkbox"/> Hispanic/ Latino | <input type="checkbox"/> Asian or Pacific Islander |
| <input type="checkbox"/> Native American | <input type="checkbox"/> Other (specify) : _____ |

Thank you for taking part in this survey. We value community members' feedback in shaping a new proposed elementary charter school application.

Thank you for taking part in this survey. We value community members' feedback in shaping a new proposed elementary charter school application.

BRICK BUFFALO ACADEMY
CHARTER SCHOOL
A BRICK EDUCATION NETWORK SCHOOL

Interest Form

Dear Participant,

In February 2022, BRICK Buffalo Academy Charter School will submit an application to the Charter Schools Institute of the State University of New York for a charter to open its doors in the Buffalo School District. If approved, the school would open in September 2023 and serve children in kindergarten and first grade that first year. The school will eventually grow to serve K-5th grade in its first five years. If you have a child who was born in 2017 or 2018 (or was born before 2017 but will be a Kindergartner or 1st grader in September 2023), your child will be eligible to apply to BRICK Buffalo Academy Charter School for admission in September 2023 when the school opens.

Mission Statement

At BRICK Buffalo Academy Charter School, we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students have the knowledge, skills and supports needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.

Please help us create the school by telling us what is important to you. We will consider all responses from families and other stakeholders in designing the school.

Parent one on one interview Date: 1-21-22

School Age Children 2:

Note: [REDACTED] lives in the target area and is a child care worker. She is the mother of 8 children and is looking for a good school option for her family.

Question

Response

What is your long term vision for your child(ren)'s education experience and career - Where do you want to see them in life? What does that education experience need to include in order for you to consider it as a successful experience that has prepared the child for the world around them?

Good education in a school that can provide for the child with everything they need. The costs are too high in schools and yet equipment is still needed to be provided for these children. Basic educational needs.

BRICK Buffalo Academy Charter School is committed to providing a rigorous education curriculum that is culturally responsive and tailored to meet the needs of our students. What do you believe are the important features to include in the school day to make sure the education experience is rigorous or meets your expectations? What are the important features BRICK can include in the school day to make sure our curriculum and activities are culturally relevant to your child?

We need good teachers. Having a person that can be relatable to each child and their social and emotional needs. Different children come from different environments so they need to be inclusive. Additionally, equipment paired with that will benefit the children's academic and mental success.

BRICK Buffalo Academy Charter School is committed to creating an ecosystem of supports for our students and their caregivers. The purpose of the ecosystem is to address the barriers of life that may impede the academic achievement of our students. The foundational support elements of our ecosystem are family case management, workforce development, early childhood education, healthcare access, and affordable housing. Do you believe the foundational elements of our ecosystem would be beneficial to you and your family? What other support services do you believe would benefit your family/ community?

Good education and good manners so good representation. Helping parents to get a GED or a job. Allow more access to these opportunities. Involving the parents with their education.

Transportation: BRICK Buffalo Academy is committed to assisting our students and their families in their transportation needs to and from school? Is transportation a needed service for you? What do you consider the important features of a great transportation system/ experience for your family.?

Yes, it would be helpful. Trouble with car access and other family issues leaves no time to take children to school. It's hard to take children to school especially in the winter/ bad weather. More buses equal more attendance. People will be more willing to go to the school because it's accessible with transportation.

Parent Survey and Petition Form

Dear Participant,

Thank you for taking part in this survey. We value community members' feedback in shaping a new proposed elementary charter school application.

How would you categorize the area of Buffalo in which you reside? (Please select one)

- East Side (circled) West Side North Buffalo South Buffalo

Do you have a child attending Buffalo Public Schools?

- [X] Yes (Charter) [] No (By selecting no, you may still complete the remainder of this form)

Which grade(s) is/are your children currently in? (Select all that apply)

- Pre-K K 1 2 3 4 (circled) 5 6 7 8 9 10 11 12

Are you satisfied with your school?

- [] Not Satisfied [] Somewhat Satisfied [] Satisfied [X] Highly Satisfied

What do you believe are the greatest challenges present in the current public school that your child attends?

-> Lack of diversity in staff
-> Lunch program
-> Lack of bussing (early start 6:30AM bus)

Do you think there is a need for a choice school in your neighborhood?

- [X] Yes [] No [] Unsure

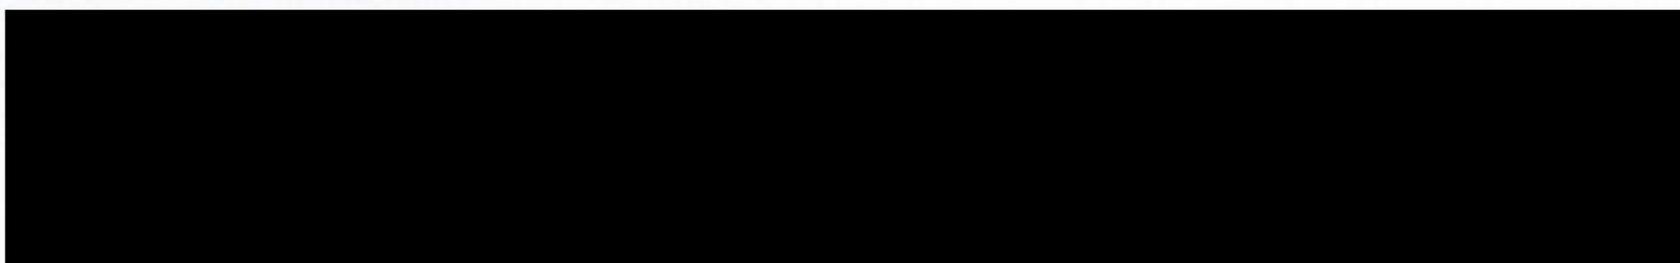

The BRICK Education Network is applying to open a charter school. Would you consider enrolling your child in this new charter school?

- [] Yes [X] No [] Unsure

Additional Comments:

The only way that I would enroll in another school is if it could produce the numbers my child's current school is & if the bussing situation changed.

By signing the petition below, you are supporting the application and opening of this new charter school. Thank You for your interest and feedback!

R-05ac – Enrollment

a. School Enrollment Plan

Provide a narrative description of the following aspects of the school's enrollment plan including:

- *The extent to which the proposed charter school's grade configuration aligns with the school district of location and how any misalignment may impact the school.*

BRICK Buffalo Academy Charter School's proposed grade configuration, grades K–5, is aligned with Buffalo Public Schools since the district's elementary schools start with kindergarten and graduate students at the end of 5th grade. The team's canvassing efforts have yielded requests from parents and area nonprofit organizations for a charter school that serves grades K–5 (see also R-01ac Community Need and Proposed School Impact).

- *Any differences in eligible or minimum age in the same grades between the proposed charter school and district schools.*

BBACS plans to use the same minimum age requirements as BPS. Kindergarteners must be five years of age by December 31st of the year they enroll in kindergarten. This minimum **age requirement is consistent with district schools.**

- *The pattern of growth over the charter term including anticipated student attrition, the rationale for the attrition rate, and plans to replace or limit the intake of students (i.e., the proposed school's "backfill" policy);*

BBACS proposes to open with 81 kindergartners and 81 first-graders during the 2023-24 school year. The school's enrollment plan—or **pattern of growth**—includes 3 sections of 27 students for each grade level until full enrollment capacity of 486 students in grades K–5 is reached in 2027-28. Although the school will work to re-enroll *all* students from one year to the next, BBACS does expect some attrition related to family geographic mobility and other factors. Based on student persistence data from BRICK's Achieve Community Charter School and estimates of attrition rates for schools in Buffalo, BBACS anticipates experiencing a 6%–9% annual rate of attrition. However, BBACS is also committed to **backfilling** any seats that become vacant as a moral imperative to provide a high quality educational experience to as many students as possible. The school will execute this backfilling in strategic ways to address the needs of families and to support students (including by admitting students in cohorts on an ongoing basis throughout the year and providing both a family orientation and a dedicated staff member to support these students to have a strong first day of school). BBACS will also seek to serve children who may become displaced due to any future school closures in the region. BBACS does not anticipate any shifts in enrollment patterns; thus, the proposed allocation of resources will remain stable throughout the charter period. This approach aligns with the school's philosophical and operational goals of meeting the needs of the community and ensuring the school's fiscal stability.

- *A statement about any growth that the applicants may seek in a future charter period if the school is renewed.*

After demonstrating strong performance towards accountability plan goals during the first charter term, and with the support of BBACS families and community stakeholders, **the team anticipates requesting an expansion to serve middle school grades (6-8) at renewal.** If granted expansion, BBACS will be among the other 24–27¹ K–8 education options in Buffalo. By offering grades K–8, BBACS will offer much needed consistency for families in the community, ensure continued learning in a familiar and supportive school environment, and prepare students for success in their high school experience. Over time, BBACS would also be interested in applying for authorization to open its own high school to ensure East Buffalo students have a strong K-12 pathway. However, the BBACS team is committed to creating and sustaining high-quality schools. As a result, BBACS would partner with the SUNY Charter Schools Institute to establish internal green-lighting criteria that would establish metrics the team would seek to achieve before considering any future expansion.

- *A statement regarding whether the school might seek to apply for a full-day universal pre-Kindergarten (“pre-K”) program. NOTE: The school district of location or NYSED reviews applications for pre-K programs. Applicants may not submit an application for pre-K until the SUNY Trustees approve the charter.*

BBACS is also interested in applying for the ability to operate a full-day universal pre-Kindergarten program. Recently, the BBACS team was approached by the Park School of Buffalo to collaborate on the development of a high-quality pre-K program that could be used to serve students at campuses on the East Side of Buffalo and in Amherst, N.Y. In addition, one of the school’s key ecosystem partners, the King Urban Life Center, already has experience supporting the delivery of pre-K services to the East Buffalo community. As a result, BBACS intends to submit a request to the Buffalo Public Schools to be able to operate a full-day universal pre-K program in the future. However, BBACS would not apply to launch any such program until after the first year of the charter term so that the team can initially focus on ensuring a strong school launch. Provided the first school launches in a high-quality way, BBACS believes adding a pre-K program could provide an essential support to its families and staff. Fortunately, the BRICK Education Network team also has significant prior experience partnering with pre-K programs in Newark that the team could leverage to plan an effective pre-K program for the East Side of Buffalo. BBACS also believes that a high-quality pre-K program could have the added benefit of improving the academic and social skills of incoming kindergartners, while also ensuring stable enrollment in the school’s Kindergarten classes.

b. Target Population Enrollment

Explain how the school will meet or exceed the enrollment and retention targets established by the SUNY Trustees for students with disabilities, ELLs, and FRPL students. The response should:

¹ This variance is based on the number of traditional public and charter school options currently operating, proposed to open, and slated for closure at the time this proposal was prepared.

- *Cite the proposed school's enrollment and retention targets as determined through the enrollment and retention calculator.*

Through the team's deep personal and professional connections across the city and robust outreach process, BBACS has established relationships with several organizations who serve the East Buffalo community, including the Jericho Road Community Health Center, Belmont Housing, Journey's End and the King Urban Life Center. By intentionally cultivating these partnerships and identifying specific community needs that could be addressed collaboratively, BBACS has established strong partnerships with organizations that have long histories of serving the most historically vulnerable resident populations in Buffalo. As a result of these partnerships, and a planned focus on year round recruitment, the school anticipates being able to **meet or exceed its chartered enrollment targets**.

In addition, the BBACS team is confident that its innovative model, which focuses on ensuring families receive the comprehensive wraparound services they need to thrive, is uniquely positioned to ensure the school **meets or exceeds the retention targets** established by the SUNY Trustees for students with disabilities, English language learners (ELLs), and students eligible for free or reduced-priced lunch. Based on BRICK Buffalo's projected Year 5 enrollment of 486 students, preliminary **enrollment targets** for special populations for BBACS are 86.9% economically disadvantaged, 13% ELLs, and 21.1% students with disabilities. **Retention targets** for these same subgroups are 95.4% economically disadvantaged, 95.3% ELLs, and 95.6% students with disabilities.

- *Articulate the recruitment strategies the school will employ to attract each target population to the school (including outreach to parents in the community for whom English is not their primary language).*

BBACS has spent the last two years conducting significant community outreach to ensure that residents of the East Side have an opportunity to learn about the proposed school. During that outreach process, the BRICK Buffalo Regional Director of Operations has implemented many community outreach strategies that have helped to inform the creation of a comprehensive, year-round approach to student recruitment. Some of the specific strategies he has implemented with success include:

- Ensuring widespread distribution of hard copy and electronic fliers about the school, and ensuring that these fliers are translated into multiple languages
- Posting on social media outlets, including Facebook, to inform families about the school
- Holding in person community forums with local partner organizations (such as local churches and daycare centers)
- Holding virtual community forums via Facebook Live
- Attending large public events to increase awareness of the school, such as the New York Charter School Rally in front of City Hall
- Leading small parent focus groups with families who have expressed interest in the school
- Setting up a table to distribute fliers outside of local businesses and agencies that serve

- the families of school-aged children (such as local daycare centers)
- Sending letters to local elected officials in Buffalo to request that they share information about the school with their constituents

BBACS will also add additional recruitment strategies to ensure that the school will be able to meet its enrollment targets, especially given that several recent charter schools in Buffalo have struggled to successfully recruit students. Consequently, BBACS plans to continue the outreach strategies it has successfully used over the last two years while also leveraging additional recruitment strategies. Some of the new strategies that will be used during the incubation period include:

- Advertising in local and regional newspapers (in English and Spanish, and other languages as needed), including the Buffalo News and The Challenger Community News.
- Expanding its social media presence (by increasing the frequency of its Facebook postings and adding Twitter and Instagram accounts) and using such outlets to provide application information.
- Disseminating recruitment information to additional community partners, such as additional local nonprofits, tenants' associations, community-based organizations (including those serving immigrant populations), preschools, local public education leaders and community health centers.
- Hosting more frequent in-person open-house sessions, as public health guidelines permit.
- Organizing and participating in additional community events such as food drives, toy drives or coat drives.

BBACS is also committed to ensuring that it is able to recruit a population of students that meets or exceeds SUNY's enrollment targets for special populations, including students who are economically disadvantaged, students with disabilities, and students who speak English as a new language. As a result, BBACS is committed to ensuring that it supplements its general recruitment strategies with additional efforts to recruit and enroll these special populations. Some examples of how BBACS plans to do this can be found below:

- To **recruit economically disadvantaged students**, BBACS will leverage local community-based organizations providing services to low-income families. (For example, BBACS will partner with the local Erie County Public Assistance office to recruit at events or organize tabling events outside county offices.) BBACS staff will also canvass at public housing developments and communicate with potential families via regular direct mailings to the area's most distressed zip codes: 14212, 14211, and 14215. The BRICK Regional Director of Operations has also recently partnered with churches in these target zip codes, including True Bethel Baptist Church and Ephesus Ministries, to hold community information sessions about the proposed school. Moving forward, the BRICK Buffalo team will continue to hold such events as part of its annual recruitment efforts. The BRICK team also has a track record of ensuring that it is able to recruit a population of economically disadvantaged students. At this time, 94.1% of students at its fresh start charter school, the Achieve Community Charter School, are eligible for free or reduced lunch.
- To **recruit ELLs**, the school will post the student application and enrollment packet on its

website in English and Spanish as well as any other languages that are spoken by a large number of East Side residents during the charter term. In addition, BBACS will partner with organizations that serve recent immigrants, such as the Catholic Charities Immigration and Refugee resettlement program and the Jericho Road Medical Center, to ensure families whose children speak English as a new language are aware of enrollment opportunities at the school. BBACS will also provide translation services at virtual and in-person recruitment meetings and open house events. BBACS will also emphasize its robust ELL academic programming and staffing structure which will offer high quality, research-based instructional support for effective language acquisition.

BBACS will also utilize a lottery preference for ELL students.

- To **recruit students with disabilities**, the school will ensure that all recruitment materials are explicit in terms of the school's inclusion of students with disabilities. In addition, BBACS will implement an explicit recruitment strategy to target families that are looking for a strong program to serve students with disabilities. BBACS plans to hold information sessions designed specifically for these families that encourage families in attendance to participate in small round table discussions with school staff to receive information about its services for students with disabilities and to ask questions of the staff members that are dedicated to serving those students. **BBACS will also utilize a lottery preference for students with disabilities.**

Snapshot of Student Recruitment Schedule During Incubation Period

The BBACS team also recognizes that some new charter schools in Buffalo have faced challenges in recruiting their founding class of students. As a result, the BRICK Buffalo team has already started to draft an annual recruitment plan to use during the school's incubation period to ensure that the team is able to successfully enroll full cohorts of students. This plan is based on the team's past experience recruiting students for seven fresh start charter schools. Excerpts from the start of this draft recruitment plan can be found below:

- **September 2022:** Initial meeting of the school-based recruitment team to build a comprehensive recruitment plan for the pre-launch period. The school-based recruitment team will be led by the Family and Community Engagement Specialist and will also include, but not be limited to, the principal and Director of Operations. The team will review the current plan for annual recruitment and its underlying assumptions (including, for example, estimated student attrition and estimates for the percentages of students admitted who will accept a seat at BBACS). The team will also review exemplary student recruitment plans from other organizations, including organizations that have been successful in recruiting a population that has proportional numbers of economically disadvantaged students, students with disabilities, and English Language Learners. This meeting will lead to the creation of an annual recruitment plan that is then shared with the BBACS Board of Trustees.
- **October 2022:** The BBACS team recognizes that achieving a representative student population will require additional outreach to disadvantaged communities. As a result, in October, the recruitment team will work closely with the Jericho Road Community Health

Center, an ecosystem partner, to inform the local community about enrollment opportunities at BBACS. Jericho Road provides comprehensive services to refugees in the Buffalo area, including many individuals that speak English as a new language. BBACS will partner closely with Jericho Road to connect with these families by holding information sessions with Jericho Road staff that outline the educational program of the school and other services that will be provided to serve the unique needs of students who speak English as a new language. The recruitment team will then conduct follow up information sessions and/or school tours for interested families. BBACS will ensure that the families can attend these events along with staff from Jericho Road, including individuals that the families work closely with and who can provide translation services. BBACS will also partner with Jericho Road to send direct mailings to families to ensure that they are aware of enrollment opportunities.

- **November 2022:** BBACS will work to educate families who have students with disabilities about enrollment opportunities. This outreach will include working directly with organizations that serve students with disabilities and their families, such as the Parent Network of Western NY. The team will hold information sessions with the staff at these organizations that specifically outline how the school supports students with disabilities and their families. The team will then schedule follow up visits to the school or information sessions directly with any families who may be interested. BBACS will also partner with these organizations to send direct mailings to families to ensure that they are aware of enrollment opportunities.
- **December 2022:** BBACS will work closely with its affordable housing partner, Belmont Housing, to ensure that all families in East Buffalo are aware of enrollment opportunities at the school, including families who qualify for free and reduced lunch. BBACS will hold information sessions for staff that outline the educational program and the services provided to families. To the extent possible, BBACS will also hold information sessions directly at Belmont's locations near the school. The school will also partner with Belmont to send direct mailings to families to ensure that they are aware of enrollment opportunities. In addition, BBACS will also directly mail information about its program and enrollment opportunities to all families in the priority zip codes nearest to the school.

During the month of December, BBACS will also market the school through various media, including by advertising:

- on social media,
- at community tabling events,
- on local radio stations,
- in local newspapers (including the Challenger),
- with ads at bus stops,
- with postings at all community partners (such as Jericho Road and Belmont Housing), and
- through fliers to students who have already applied to encourage them to refer other students

- **January 2023** Applications to enroll at BBACS will be available to families through a virtual platform, Enroll Buffalo Charters. A link for applications will be readily available through the school website, social media, and community outreach activities. In addition, BBACS will ensure that a computer is available in the main office of the future school location for interested families to use to complete an application while visiting the office.
 - **January–March 2023:** The recruitment team will continue outreach efforts, focusing on following up from leads generated during the initial months of recruiting. The school will work to encourage interested families to apply and to matriculate to BBACS by inviting interested families to ongoing open house events at the school. During these events, families will be able to attend a presentation to learn about the school and an opportunity to observe a classroom in action (in person after the school is open; or a video of an Achieve classroom prior to school launch). During this part of the year, these events will happen approximately once every two weeks.
 - **April 2023:** Applications to enroll at BBACS will be due by April 1st. During this month, BBACS will learn which students were admitted to the school and the extent to which open seats have been filled and what additional recruitment must be done to fill any open seats. During this month, the recruitment team will also reconvene to determine what additional recruitment efforts, if any, must be completed for the remainder of the school year.
 - **May 2023:** During this month, the recruitment team will begin to reach out to admitted families to schedule and complete home visits for all new families. BBACS believes in creating strong partnerships with its families to ensure student success. As a result, the team will prioritize ensuring that every new student receives a home visit each year. During these visits, members of the recruitment team will get an opportunity to learn about the family, to discuss the family’s goals for their child, to identify supports that the family would like to see for their child, and to communicate information about the school and how the family can help prepare their child for success at school. Successful home visits will ensure that admitted students are likely to matriculate to the school and will help to establish strong school culture by creating a strong relationship between the family and the staff of the school.
- *Provide a brief explanation of the efforts, resources, structures, or programs that the school will employ to retain these students and how the school will monitor the efficacy of such efforts including disaggregation of student performance data for each subgroup.*

BBACS will employ a variety of strategies and resources to ensure subgroup retention levels on par with the district of location. Each month, the BRICK Buffalo regional office will report all instances of student attrition to the BBACS board along with the reasons why students have decided to leave the school. The BRICK Buffalo regional office will also report the cumulative rates of student attrition for the school year as well as the rates of attrition disaggregated by subgroups so that the Board can support ongoing efforts to ensure high levels of student persistence.

BBACS also believes that its school model is designed to ensure strong retention of all

students, particularly students who are economically disadvantaged, students with disabilities and students who are English Language Learners. In particular, the school's plan to conduct home visits for all new families; the school's emphasis on family participation in school, including by inviting families to weekly community events and quarterly conferences; and its staffing model that prioritizes staff to serve its special populations will likely contribute to strong student retention rates for these subgroups. BBACS also believes that its emphasis on providing differentiated instruction in math and literacy each day will ensure that these special populations of students are likely to experience greater academic and cultural success at BRICK, which will lead to higher levels of retention. In addition, the school's significant community outreach on the East Side of Buffalo has shown that families are excited about the prospect of having a school choice where the staff reflects the backgrounds of the students served. As a result, the school's emphasis on recruiting a diverse staff should also lead to high levels of family satisfaction and student retention. BBACS also believes certain aspects of its program will also support high levels of retention among particular subgroups as described below:

- The school's approach to providing comprehensive wraparound services should support **high levels of retention among economically disadvantaged students**. BBACS plans to work closely with families to identify and provide the targeted services that will help each family thrive (for example, by helping increase access to high-quality health care, early childhood education, affordable housing or workforce development). Based on BRICK's experience leading a Promise Neighborhood in Newark, BBACS believes this type of family support will create strong relationships with families that will contribute to high rates of student retention.
- The school's prioritization of building a comprehensive program to serve students who are learning English as a new language will lead to **high levels of retention among ELL students**. BBACS believes its partnerships with local organizations like Journey's End, which will provide ongoing translation services, will help ensure that ELL students and families feel welcome and supported in the school. In addition, BBACS believes that having an ENL Coordinator from the very beginning of the charter term will enable that staff member to build the close personal relationships with the families of ELL students that will support the achievement of their children and ensure high levels of retention. The BRICK network has also started to build an ELL instructional blueprint to ensure that the team is prepared to effectively support the diversity of languages it anticipates serving in Buffalo. As part of this work, BBACS has developed internal clarity on how the TESOL certified teachers will tailor BRICK's curriculum materials and lesson activities through the intellectual prep process to support the needs of ELL students as well as ways that ENL teachers can build community among ELL students during morning meeting.
- The school's prioritization of building a comprehensive program to meet the needs of students with disabilities will lead to **high levels of retention among students with disabilities**. BBACS believes that its focus on providing an integrated co-taught classroom in each grade level will ensure that students with disabilities receive strong ongoing support in their classes. In addition, all BBACS teachers will also be responsible for strategically planning to support the needs of their special education students in class as part of the intellectual prep process. While these supports will look different based on the needs of individual students, they could include a range of options, from modified

assignments to individual work plans to additional time on assessments or assignments, to the use of a range of co-teaching approaches to ensure that the needs of individual students are met throughout each content block. BBACS has also upgraded its staffing model to provide significantly more support to students with special needs, including by producing a five year staffing plan that includes a Director of Special Education in the first year of the charter term, multiple special education teachers, a paraprofessional and even a school psychologist. While the local district generally provides most contract services for students with special needs, BBACS has also strategically budgeted to provide some of these services when necessary to ensure that any challenges accessing district special education services do not negatively impact the ability of its students to achieve the goals outlined in their IEPs. Ultimately, the school believes this comprehensive approach will lead to strong retention among students with disabilities.

In addition to the aforementioned strategies, BBACS staff will commit to monitoring students' overall daily attendance along with tracking their academic, social-emotional, and behavioral performance, in both the aggregate and disaggregated by sub-group to measure their level of engagement in school and to identify potential educational or familial support as needed. Ultimately, BBACS believes its efforts to create a program that effectively serves the needs of these subgroups and to partner authentically with their families will create an environment that enables these students to meet their academic and social goals, which will, in turn, support the recruitment and retention of these special populations of students.

- *Any replicator that is not currently meeting targets at any of its schools must provide an explanation as to why it is not meeting the targets, efforts made to meet the targets, and what new strategies the applicant intends to employ to meet the targets.*

Not applicable.

c. Student Enrollment Table

Complete the student enrollment table provided in the budget template and include a copy of it with this request.

GRADES	LEVEL	CHARTER ENROLLMENT BY GRADE					AGE RANGE
		2023-24	2024-25	2025-26	2026-27	2027-28	
Kindergarten	Elementary School	78	78	78	78	78	5
1st Grade	Elementary School	78	78	78	78	78	6
2nd Grade	Elementary School		78	78	78	78	7
3rd Grade	Elementary School			78	78	78	8
4th Grade	Elementary School				78	78	9
5th Grade	Elementary School					78	10
6th Grade	Middle School						
7th Grade	Middle School						
8th Grade	Middle School						
9th Grade	High School						
10th Grade	High School						
11th Grade	High School						
12th Grade	High School						
Ungraded							
TOTAL		156	234	312	390	468	

BBACS would like to request a chartered enrollment of 81 students per grade level.

However, based on ongoing feedback from the SUNY Charter Schools Institute and the board's Audit and Finance committee, the applicant team completed a budget template that includes a student enrollment of 78 students per grade level. The use of a lower number in the budget template was intentional so that the school could produce a conservative budget to guide its planning efforts.

R-05d – Admission Policy

Describe the admissions policy for the school, including any at risk designations or set-asides, and how the school intends to apply the statutory preferences for returning students, siblings, students residing in the school district or CSD of location of the charter school, and employees of the education corporation or CMO (up to a 15% set aside) in accordance with the Act.

Student Recruitment

As described in R-05ac, the BBACS team will continue its extensive community outreach in the Buffalo City School District to solicit applications from prospective students entering lottery-eligible grades. As a public charter school, BBACS is open to all children who are eligible for admission to a public school under New York State law. Additionally, BBACS will follow all applicable state and federal laws in admitting students, including all anti-discrimination laws governing public school admissions, such as Title VI of the Civil Rights Acts and § 2854(2) of the New York Education Law, governing admission to a charter school. Therefore, BBACS will annually conduct a blind admissions process requesting only basic data from parents about prospective students. BBACS will not discriminate on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, disability, race, creed, national origin, ancestry, religion, or any other grounds that would be unlawful if done by any other public school.

- In its admission policies and procedures, BBACS will **not** engage in any of the following:
- (1) Requiring parents to attend meetings or information workshops as a condition of enrollment;*
 - (2) Having an unduly narrow enrollment period (e.g. fewer than 30 days);*
 - (3) Giving enrollment preference to children of members of the BBACS Board or founders group (unless the members are full time employees of BBACS or the BRICK Education Network);*
 - (4) Requiring parents to sign agreements or contracts imposing certain responsibilities or commitments to BBACS, regardless of their virtue, as a condition of enrolling their children (e.g. correcting a child's homework, volunteering, etc.);*
 - (5) Mandating that students or parents agree with BBACS's mission or philosophy; or*
 - (6) Giving preference to students interested or talented in a particular BBACS program.*

Open Admissions Only to Designated Grades

The school will open admissions for each grade in operation, each year. Every prospective student who submits a timely application will be admitted—space permitting. Should the number of applications exceed the school's capacity by grade level or building-wide, applicants will be selected by lottery. After the seats are filled, the blind lottery continues to assign every applicant a number on the waiting list.

Lottery Application

Applications will be made available to parents in Spanish, Burmese, and Arabic in addition to English at the school building (if available for occupancy by that point), via the Enroll Buffalo Charters website, and on the school's website between January 1st and March 31st. Applications will request basic information about potential students such as their name, address, date of birth and number of siblings applying to the school. Kindergarten applicants must turn five years old on or before December 31st of the year in which they matriculate into Kindergarten.

Application Deadline and Receipt Process

To mitigate any barriers to submitting a complete application by the April 1st deadline every year, the BBACS team will ensure a bilingual staff member or community partner representative from Journey's End is present at all open houses to assist parents with completing the admission application. BBACS will also have bilingual staff members or translation services available by phone to support parents with questions.

All applications for the BBACS lottery must be received on or before the April 1st application deadline. At receipt, each application will be time-stamped, photocopied to a separate secured file, and entered into a database such as SchoolMint (BBACS is currently exploring database options). All information provided on the application will be verified with the applicant's family, in particular the student's age, address, and sibling status. Once deemed completed and accurate, confirmation notification will be mailed indicating the receipt of the application. Again, every prospective student who submits a timely application will be enrolled—space permitting.

Should an application be received after the deadline, it will be entered into the SchoolMint database (or similar) in order of receipt. If no lottery is held, late applicants will be admitted to the school by grade in order of receipt of the application. Should a lottery become necessary (i.e., should the number of applications exceed the school's capacity by grade level or building-wide), late applicants will be placed on a waiting list beginning with the last applicant in each grade selected by lottery.

In addition, the school will support any family who submits an application in completing the required Buffalo Public Schools paperwork to formally apply for transportation services.

Automatic Preferences

BBACS is committed to recruiting a diverse student population that is reflective of the East Buffalo community. The school will continue to build upon its outreach efforts to engage the most vulnerable learners and families, including students with disabilities and English Language Learners, and to ensure that these families are aware of the school's robust programming and differentiation structures to serve all students. In particular, the school's marketing materials will highlight its inclusive special education and language acquisition models and related staffing to underscore its ability to meet a wide variety of student academic, social-emotional, and behavioral needs.

Aligned with this commitment, the school's automatic preferences will be given to eligible applicants in the following order:

- **First preference**¹ is given to students who attended the school the previous year and are returning to the school. Returning students do not need to re-apply.
- **Second preference is given to siblings of students enrolled in the school or siblings of a student whose name is drawn in the lottery whose names are also in the current year's lottery.** A sibling is defined as a brother, sister, or other child legally under the same parent/guardian's care and residing in the same household. Siblings are granted a space, if and only if, there is space in the grade. If not, they will be placed on the school's waiting list as described in the waiting list process below.
- **Third preference is for students with disabilities;** defined as students whose families self-report "yes" on the following application questions:
 1. *Does your child currently have an IEP (Individualized Education Program) or an IFSP (Individualized Family Service Plan)?*
 2. *Did your child ever have an IFSP (Individualized Family Service Plan)?*
 3. *Did your child ever receive Early Intervention Services?*
- **Fourth preference is for students who are English language learners;** defined as students whose families self-report "yes" on the following application questions:
 1. *Does your child mainly speak a language other than English?*
 2. *In your home, do you mainly speak a language other than English?*

Additional Preferences

BBACS will give an admissions preference to students who reside in the Buffalo City School District.

Lottery Process

BBACS will conduct a randomized annual lottery to select the incoming students for each grade within seven (7) days after the application deadline. Parents/guardians will be notified of the date, time, and location of the lottery (or directions for virtually accessing the lottery). If necessary, BBACS plans to conduct a virtual lottery using a platform such as SchoolMint. Regardless of whether the lottery process is virtual or conducted in-person, it will be held in full view of the public. If the school's facility is not ready for occupancy at the time of its lottery, the school will conduct the lottery at another public venue, such as a library or the office of one of its centrally-located community partners. The lottery process will be in compliance with the NYSED's regulations, Random Selection Process for Charter School Student

¹ This automatic preference will go into effect in Y2-5 of the school's initial charter term and throughout every term thereafter.

Applicants, 8 NYCRR § 119.5. BBACS will ensure transparency and adherence to all regulatory policies by having an objective third party present while the lottery is conducted.

Once all applicants with automatic preferences have been admitted, all other applicants will be considered. Each applicant will be entered into the lottery, based on the admission criteria preferences described above. Siblings applying to the lottery where no sibling already attends the school will share all entries; if their entry is selected the siblings will occupy the next available spot on the list. Entries will be selected at random until all currently available spots are filled. The remaining entries will be selected in the same random manner to create the waiting list in each grade. The waiting list will be used to fill empty spaces as necessary.

After the lottery is completed, BBACS will send all accepted students an acceptance letter that includes directions on how to register and enroll their child in the family's dominant language (such as Spanish, Burmese, Arabic or English) by mid-April. This letter will include all relevant registration dates and clearly detail the documents needed to officially register their child. Families that received placement via the lottery will have until June 1st to accept their seats at BBACS. Parents will be contacted at least three times (via multiple channels, including US mail, email, and phone) prior to removing them from the list.

Waitlists

Students who did not get a seat via the lottery will receive a postcard notifying them of their waitlist status and their waitlist number. As seats become available in the school during mid-June through September, students on the waiting list will be contacted in the order of their ranking and offered the opportunity to enroll. If the waiting list is exhausted, the recruitment team will continue recruitment efforts until all seats are filled.

Should a space become available in a class at BBACS, the school will contact the parents or guardians of the next student on the waiting list. Lottery preferences for each grade level will remain in effect as vacancies occur throughout the enrollment process and throughout the school year. The school will make reasonable attempts to contact the parents or guardians of the first student on the waiting list to determine whether the student wants to enroll in the school before proceeding to the next name on the list. If attempts to contact the student's parents or guardians are unsuccessful, the school may remove that student from the waiting list and contact the next student on the waiting list. Waiting lists will not be carried over from year to year. Instead, the annual admissions lottery will be used to create newly randomized waiting lists for the subsequent school year.

Enrollment and Eligibility

All students who are accepted for enrollment or re-enrollment must complete all of BBACS's enrollment forms, by the date required by the school, in order to secure provisional enrollment. First and foremost, a parent must submit the lottery acceptance form as required to reserve a seat in the school. Thereafter, families are required to submit admissions paperwork as directed by the school. Families may forfeit their right to enroll their child if forms are not returned by the designated date. All new students must also take the school's baseline assessments as required.

If a student is not present for the first five days of school, and if the school has been unable to get in contact with the family, it will be assumed that the family has decided not to enroll the student at BBACS. During the first charter year, the school will initially enroll up to 90 students per grade at the beginning of the school year to guard against this unpredictability and to prevent some of the enrollment challenges faced by other new charter schools.

Backfill Policy

BBACS intends to backfill any seats that become vacant owing to student attrition. This will be applicable for vacancies that arise mid-year as well as year to year. BBACS will operate from the waiting list until it is exhausted. If the waiting list is exhausted, BBACS will continue recruitment efforts to fill a minimum of 81 seats per grade level.

Transient Students Policy

BRICK Buffalo will work with transient students (students with documentation that they were not residents of the New York State at the time of the lottery closing date) who may qualify to be added to the top of the waiting list if they satisfy one of the following conditions:

- *Qualify as an English language learner*
- *The student's immediate family has moved owing to assignment as a member of the United State Armed Forces*
- *Refugee resettlement family*

Voluntary Withdrawal

BBACS is a public school of choice, both for application and withdrawal. At any time, a parent may wish to transfer their child to a different school. A parent wishing to withdraw his/her child from the school will be asked to complete a request for a student withdrawal form. The BRICK Buffalo Principal will offer to meet with the family and discuss their reasons for withdrawing from the school, as well as to seek solutions to any problems that arise from these discussions. If the parents still wish to transfer their child to another school, BRICK Buffalo will ensure the timely transfer of any necessary school records to the student's new school. Upon withdrawal of any student in grades K-5, BRICK Buffalo will seek to fill that vacancy in a timely manner with the next student on the relevant grade's waitlist.

R-06af - Curriculum and Instruction

a. Curriculum Selection Process

Summarize the school's curriculum, by subject, and the rationale for all curriculum decisions including:

- Research-based evidence of effectiveness, particularly in meeting the needs of the school's target population, including proper citations.
- Discussion of how the school's curriculum is aligned to New York State standards.

BRICK Buffalo Academy Charter School recognizes that many East Side students attend schools that perform far below state ELA and math averages on standardized assessments (**as described in R-01ac Community Need and Proposed School Impact**). BBACS also recognizes that students who grow up without a strong academic foundation are less likely to graduate from college or access high-paying careers.¹ However, the BBACS Board is united in the belief that all students can achieve at the highest levels when provided with a high-quality, culturally responsive educational experience.² As a result, BBACS will offer robust programming in the core content areas, including English language arts (ELA), mathematics, science, and social studies. BBACS will ensure all students receive rigorous, grade-level instruction in each of these content areas each day that aligns to New York State learning standards. In addition, BBACS will leverage its extended school day (from 7:30 a.m. to 4 p.m.) to ensure that all students also receive the differentiated instruction that they need to make significant academic gains and attain grade level mastery. At the same time, BBACS is also committed to the holistic development of children. As a result, the school will also offer robust special area programming, including instruction in art, music, dance, theater, and physical education. In addition, the school will also dedicate a daily instructional period to providing students with social and emotional skills instruction. Collectively, these different aspects of the instructional program will drive towards creating an equitable school environment for students that ensures that 1) all students have access to rigorous work, 2) each student receives the unique support they need to attain grade level mastery, 3) all students learn to grow socially as well as academically, and 4) that students have access to the high-quality supplemental classes that enrich a child's educational experience. The BBACS team believes this approach will help accomplish the school's mission of preparing its students to contribute positively to the global society and embrace their role as architects in building a just and better world.

BBACS feels fortunate to be able to partner with the BRICK Education Network to implement a core curriculum that has a **proven track record for supporting students to make significant academic growth**. BRICK's curriculum has also continued to improve over the last ten years based on best practice research and program implementation at BRICK schools. In addition, many aspects of the proposed curriculum have also been shown to lead to high levels of student achievement at other SUNY sponsored charter schools in New York state, including schools that serve a similar population of students. Based on BRICK's experience supporting teachers, the BRICK curriculum has evolved to include a weekly scope and sequence for each subject and grade level, unit plans, and supplemental daily lesson resources to support teachers, including exit tickets and key lesson activities. In addition, each content area also has a guidebook that outlines instructional best practices in that content area and helps teachers understand the curriculum resources provided to them. A majority of the curriculum now also includes exemplary

¹ Solomon, L.D. (2012). *Cycles of Poverty and Crime in America's Inner Cities* (1st ed.). Routledge. <https://doi.org/10.4324/9780203793893>

² Gay, G. (2010). *Culturally responsive teaching: Theory, research, and practice*. New York: Teachers College.

student responses to key questions and exemplars of student work to assist teachers with holding a high bar for rigor.

Many parts of BRICK’s curriculum are already fully aligned to New York state standards. However, BRICK has also added additional staff capacity during this application round to ensure that the team is prepared to ensure full alignment between all BRICK instructional resources and the New York state standards moving forward. ***The process BRICK will follow to ensure alignment is described in detail later in this narrative.***

A summary of the school’s curriculum, by subject, and the rationale for those curriculum decisions can be found below:

English Language Arts: The BBACS K-2 ELA curriculum was built based on the premise that it is essential for all students to read on grade level by the end of third grade. As a result, the curriculum is constructed to support student reading growth. BBACS will use the Strategic Teaching and Evaluation of Progress (“STEP”) literacy program™ as a cornerstone of its approach to promoting literacy development. STEP is a research-based formative assessment, data management, and professional learning system designed to build teacher capacity to understand the stages of student literacy development so that students can receive the support necessary to meet their individual needs. STEP was developed by UChicago Impact, an initiative of the University of Chicago’s Urban Education Institute, and is currently used in many high-performing charter schools across the nation³. According to STEP’s validation study, students who reach STEP 12 by the end of third grade have an 86% chance of meeting or exceeding state standards⁴. While the STEP assessment clarifies the specific reading skills students need to develop, the BBACS will also use a variety of curriculum resources to support growth on this assessment for K-2 students, including:

- **Internally created strategic read aloud lessons**, BBACS will use BRICK network developed Strategic Read Aloud units of study that include scripted daily lesson plans that support teachers to explicitly model critical reading skills and behaviors that are aligned to grade level standards and the developmental trajectory of the STEP assessment. Read-aloud opportunities feature a variety of complex texts (narrative and expository texts above grade-level) to develop background knowledge and vocabulary in a variety of subject areas. These lessons enable students to see their teacher model the specific skills they will need to master and then receive frequent opportunities practicing those skills. In addition, these read-alouds include lessons that have been updated over the last decade at BRICK, including to ensure that they are responsive to the culture of students served (for example, by including additional lessons that draw on figures from African American history).
- **Lucy Calkins writing workshop**, BBACS will use Lucy Calkins Writing Units of Study to support student writing development. The writing workshop encourages students to develop their writing skills by frequently composing authentic pieces of writing; and using the writing process to strengthen each piece through prewriting, drafting, revising, editing and publishing. This approach also supports student independence by giving students regular opportunities to “choose their own topics, work in a variety of genres, and apply grade-level appropriate comprehension strategies to their own reading...all students - regardless of background - have an opportunity to engage in the work.”⁵ The Teacher’s College reputation of high standards results in students’

³ STEP™ Expanding Nationally as Solution of Choice for High-Performing Charter School Networks”. Press Release. U Chicago Impact. August 20, 2012. <https://uei.uchicago.edu/news/article/step%E2%84%A2-expanding-nationally-solution-choice-high-performing-charter-school-networks>

⁴ <https://uchicagoimpact.org/our-offerings/step>

⁵ https://www.unitsofstudy.com/shared/resources/UOS_All_Research-and-Efficacy_NY-Case_Study.pdf

writing on or above grade level, including students with disabilities and ELLs.⁶

- **Reading Mastery for K-2 phonics.** The Reading Mastery curriculum is designed to provide systematic instruction in word recognition (phonological and phonemic awareness, phonics, and fluency) to students, as the scientific consensus is that teaching phonics systematically, explicitly, and cumulatively is key to successful reading instruction.⁷ This curriculum also includes explicit handwriting instruction related to letter formation, posture, grip, and opportunities for cumulative practice. BBACS will provide the scripted plans from McGraw Hill to teachers who will customize them, as needed, to meet their students' specific needs. At BBACS, students will also receive instruction in Reading Mastery in small groups so that teachers can target instruction to the specific needs of those students. In addition, in the earliest grades, students that are struggling the most may receive two Reading Mastery lessons during a day. This research-based direct instruction program is used in high performing charter schools across the country, including SUNY sponsored charter schools, and meets What Works Clearinghouse (WWC) evidence standards. These lessons can also be used as an intervention program for struggling readers.
- **Guided reading resources from Lifelong Learners and the Lavinia group.** BRICK's guided reading curriculum is based on instructional resources from Lifelong Learners and the Lavinia Group's work. These two reading curriculum companies have track records of inspiring high levels of student success with similar demographics of students (specifically at Uncommon Schools and Success Academies). BBACS teachers will receive comprehensive guided reading resources to execute this instructional block. These resources included specific cards to use to facilitate grade-level word study activities with students as well as scripted guided reading plans that teachers can customize to meet the needs of their students. Teachers also will receive prompting guides to support their efforts to facilitate comprehension conversations that support students to develop grade-level reading comprehension skills.
- **Differentiated blending learning:** All students in grades K-2 will also participate in an online blended learning program that will allow them to independently practice grade level literacy skills. Depending on the grade, students may use Lexia⁸ or Reading A to Z.⁹ Both programs are engaging for students and are able to adapt to the reading ability of students to support them to work successfully and independently.

BBACS plans to implement a different approach to literacy in grades 3 through 5 to shift its focus from supporting students to attain grade level proficiency to a focus on preparing students to demonstrate that proficiency by independently analyzing rigorous-grade level text. Based on this shift in focus, the BBACS team will utilize Achievement First's literacy curriculum for its reading and writing curriculum in these grades. This curriculum adopts a novel study format, where students have an opportunity to critically read and analyze class novels. This curriculum has helped Achievement First schools demonstrate high levels of literacy achievement on state exams that far exceed the performance of their comparison districts and the Buffalo Public schools. In addition, the BRICK Education Network team includes leaders that have successfully completed the Achievement First Accelerator Institute, a comprehensive leadership training program for senior instructional leaders and Chief Executive Officers to train them on how to make sustained instructional progress at their networks, including by successfully adopting AF's curriculum resources. As a result, the BRICK team will also be able to provide BBACS with

additional coaching to ensure that it's curriculum is implemented in a high quality way. ***For additional information, please refer to R-23b-Supplemental Attachments – item BRICK K-12 ELA Guidebook SY 21-22.***

Mathematics: BBACS believes that mathematics should not be taught tangentially to everyday life. Instead, effective mathematics classroom practices should include time for student collaboration to accommodate sense-making, problem-solving, discourse, and reflection. As a result, the school is committed to implementing a math program that prioritizes collaboration between students. In addition, BBACS plans to create math-rich classroom environments where all classrooms have a current math vocabulary word wall, a number line, mathematical practices anchor chart (created with students), current student work with feedback, and class academic goals, among other items. BBACS believes that this approach will help make mathematics accessible and engaging for all children.

For **K-5 mathematics**, BBACS will use **Achievement First's Navigator Math curriculum**. BRICK schools first adopted these materials in 2019. Previously, BRICK schools used the Math in Focus program but received consistent feedback from teachers that it wasn't user-friendly. As a result, the BRICK team began to analyze other math programs commonly used at high-performing charter schools. At that time, members of the BRICK academic leadership team had a chance to make several visits to Achievement First schools in New York state. During these observations, the team saw that students were engaged in the type of student-centered sense-making, discourse and reflection that aligned to their school's vision for an equitable education. As a result, the team adopted the Achievement First math curriculum and participated in instructional leadership development through the Achievement First Navigator Math program to ensure that its academic leadership team could support a high-quality curriculum adoption.

Achievement First's lesson materials emphasize students' abilities to make sense of problems; think strategically about concept and skill applications; plan and execute a viable approach; and reflect on process and solutions. While developing conceptual understanding, students make meaning of mathematics and make connections across mathematical ideas which allows for rapid acquisition of new knowledge, greater retention of that knowledge, and the ability to apply new knowledge in novel contexts. The development of procedural fluency also allows students to focus mental energy on flexibly approaching and thinking through problems, rather than just the steps needed to perform an accurate calculation. The math curriculum also leverages a variety of lesson types, including game-based lessons, that make this rigorous math program particularly engaging for elementary school students. The Achievement First Navigator math curriculum also has a track record of producing high levels of results for NY charter schools, including SUNY authorized charter schools serving a similar population of students. In addition, BRICK's implementation of this curriculum at the Achieve Community Charter School has consistently led to student performance results that meet or exceed the average scores of Navigator partner schools on shared interim assessments. The Achievement First math curriculum has also been externally validated by Ed Reports, which gave it the highest scores possible for focus & coherence as well as rigor & mathematical practices for all elementary grades¹⁰. **For additional information, please refer to R-23b-Supplemental Attachments – item BRICK K-12 Math Guidebook SY 21-22.**

FOSS Science. For K-2 Science, BBACS plans to implement FOSS (Full Optional Science System), a hands-on science curriculum that allows students to uncover new ideas through collaboration and problem solving. FOSS is research-based and has been used by schools and districts across the country that reflect a similar demographic and has demonstrated results that have produced lasting improvement, raised

¹⁰ <https://www.edreports.org/reports/overview/achievement-first-mathematics-2021>

standardized test scores, and helped close achievement gaps¹¹. Perhaps more importantly, FOSS evidence shows that students utilizing the curriculum also demonstrate an increase in their reading skills and their ability to solve problems, express their thinking, and apply their knowledge in unique ways.

Amplify Science. For 3rd through 5th grade science, BBACS plans to implement Amplify Science, a phenomena-based curriculum that also provides hands-on, collaborative problem solving opportunities. The BRICK Education Network moved towards using Amplify in the upper grade levels based on the network’s analysis of the extent to which the curriculum aligned to the Next Generation Science Standards. While both science curricula align to the school’s vision for instruction as they focus on ensuring students have access to hands-on experiments and science investigations so students can learn through inquiry, Amplify builds on the real world application that FOSS provides by supporting students’ ability to think and act like scientists and engineers. Amplify Science blends hands-on investigations, literacy-rich activities, and interactive digital tools to empower students to think, read, write, and argue like real scientists and engineers. Amplify Science for middle school has also recently been rated all-green by EdReports. UC Berkeley’s Lawrence Hall of Science, the authors behind Amplify Science, developed the Do, Talk, Read, Write, Visualize approach, and gold standard research¹² shows that it works. ***For additional information refer to R-23b-Supplemental Attachments – item BRICK K-12 Science Guidebook SY 21-22.***

Core Knowledge History and Geography. For K-2 social studies, BBACS plans to implement the Core Knowledge History and Geography (CKHG) curriculum, whose objectives are correlated with the Common Core English Language Arts standards, to reinforce the school’s literacy efforts. The BRICK Education Network has strategically chosen units from this curriculum that will both build students’ historical and geographical knowledge and provide them with the opportunity to think critically about past historical events and how those events have had a lasting impact, including how they may impact the way students see themselves. Additionally, all students will participate in a unit titled “Buffalo is My Home” where they will explore their own identity through stories and historical facts about their family, neighborhood, and the Buffalo community. This practice has been a core part of BRICK since its inception and connects to the school’s commitment to providing a culturally responsive instructional program. BBACS also plans to work collaboratively with families and community leaders to continue to refine the content for this unit to ensure that it always reflects a current understanding of the local community and the evolving experiences of its residents.

Achievement First Social Studies. For 3-5 social studies, BBACS plans to implement the Achievement First social studies curriculum. The school’s selection of this program also reflects its approach to literacy in the upper elementary grades—namely by increasing the emphasis placed on ensuring that students can critically read and evaluate rigorous grade-level texts. Achievement First social studies lessons challenge students to explore central historical questions using multiple primary source documents and artifacts. Students read and annotate rich texts and engage in rigorous discussions as they work to shape their conclusions. As students progress through the curriculum, they increasingly learn and evaluate connections between their personal identity and their impact on the larger world. BBACS also believes that it is essential to build student’s knowledge of their world and of civic engagement to prepare them to be architects in building a just and better world, as described in the school’s mission. In addition, the BRICK network has, over time, supplemented this curriculum with additional units and lessons that study leaders whose stories have been marginalized and whose identities reflect the students served. BBACS will continue to support this work in Buffalo by ensuring the BRICK Buffalo regional office partners with

¹¹ <https://fossnextgeneration.com/our-impact/>

¹² https://amplify.com/wp-content/uploads/2019/12/AS_The-research-behind-the-program.pdf

families and community leaders to further update these units based on content that resonates deeply with the Buffalo community (For example, by elevating Black leaders with ties to Buffalo such as William Wells Brown or Mary Talbert). ***For further information refer to R-23b-Supplemental Attachments – item BRICK K-12 SS_History Guidebook SY 21-22.***

Positive Action. BBACS plans to implement BRICK’s Ubuntu social emotional learning program during its daily morning meeting block for all students in grades K-5. Ubuntu, as defined by Barbara Nussbaum, a South African musician and writer, is “the capacity... to express compassion, reciprocity, dignity, harmony and humanity in the interests of building and maintaining community with justice and mutual caring.”¹³ By learning, living, and espousing this ethos through a thoughtfully developed program, students will be able to build and strengthen their social-emotional skills, understand and navigate their independent selves and voices, become invested in their personal values and the school’s values, and via a strong classroom culture, each student will, as Nussbaum references, learn to see the power of the commitment to the common good and community strength. BRICK’s Ubuntu cultural program will also include the lessons from the Positive Action curriculum, an externally validated and researched curriculum proven to help students develop age-appropriate social and emotional skills. In addition, students will have an opportunity during the social emotional learning block to experience the core morning meeting routines and structures that BRICK has used to help maintain strong school culture without the use of exclusionary discipline practices. These structures include the concepts of morning circles and daily affirmations ***For additional information on these routines and Achieve’s low suspension rate, please see R-10a Culture and Discipline.***

The instructional leaders at BBACS will also be empowered to work with teachers to deliver content during this block that is responsive to the needs and desires of the local community. For example, the principal will meet with community leaders and family members during the incubation period to determine what other content would be appropriate to add to this block to help celebrate the culture and backgrounds of students and build strong school culture. This commitment to working collaboratively with the community will continue throughout the charter term as BBACS deepens its community partnerships and builds relationships with its founding families.

Specials: BBACS plans to implement BRICK’s comprehensive specials program, which ensures students have access to a variety of engaging co-curricular subjects (including visual art, music, theater, dance and physical education). Over the last few years, BRICK has worked with outside consultants to begin developing its own specials program to ensure that specials teachers received the same level of comprehensive instructional resources as other BRICK teachers. In addition, BBACS believes that an internally created specials program can serve the school’s goal of providing a culturally responsive education by enabling the school team to collaborate with BRICK’s academic directors to create a specials program that is rooted in the interests of local students and families and influenced by local community art assets (like, for example, the Buffalo Philharmonic Orchestra or the Albright-Knox Art Gallery). BBACS also believes that providing students with a robust, student-centered specials program is a key component of providing an equitable educational experience for its students.

New York state alignment

As described above, most of the curriculum materials used by the BRICK Education Network to create its curriculum are resources that are used across the country, including in many New York schools,

¹³ <http://aefjn.org/en/ubuntu-an-african-culture-of-human-solidarity-2/>

and already have some degree of alignment to New York state standards. However, the BRICK Buffalo regional office has also spent significant time during the last year conducting the due diligence necessary to ensure it fully understands how to tightly align all aspects of its instructional program to the New York State standards. The BRICK Buffalo regional office started this work by providing training to all BRICK network academic directors on the NY state learning standards and state regulations for elementary schools. Each director had an opportunity to internalize the New York state learning standards and programmatic expectations and to compare them to the New Jersey learning standards and programmatic expectations that they are already familiar with. The BRICK team then met with a representative from Uncommon Schools to understand how their team has been able to build a common curriculum that supports student success in both New Jersey and New York. As a result, the team learned specific strategies that could be used to ensure strong alignment (including, for example, by adding individual lessons to units to address standards not covered in New Jersey; by repurposing some of the flexible days in unit plans with network created lessons designed to address key skills emphasized in New York; and by more significantly modifying the later instructional units of the year to account for the largest differences between states). The BRICK Buffalo regional office then followed up by scheduling a series of monthly deep dives to analyze the specific changes that would need to be made to the existing core content area curriculum to ensure alignment with NY's standards. During these meetings, BRICK network academic directors, the BRICK Chief Academic Officer, and the BRICK Buffalo Regional Director of Instruction/Superintendent were able to deeply analyze the network's Kindergarten and first grade curriculum and identify the specific adjustments that would need to be made to launch successfully in New York. Based on this initial work, the network academic directors are confident that these adjustments can be made during the incubation period prior to school launch.

During the last year, the BRICK Buffalo RDI has also worked with BRICK's CAO and Manager Director of Academics to create an annual cycle for ensuring that all network curricula and assessments are always aligned to New York state expectations before they are provided to BBACS teachers. During the incubation period for the school, this process will formally begin in June when the BRICK Buffalo RDI and BRICK CAO will meet to finalize the list of curriculum adjustments that must be made to ensure all K/1 instructional resources are updated to tightly align to NY's expectations. The BRICK Buffalo RDI will then work closely with the network's academic directors to ensure that all adjustments are made prior to April of 2023. This time frame will still enable the BRICK Buffalo RDI and the BBACS Principal to review all adjustments prior to the curriculum being shared with teachers in July of 2023. This timeframe will also enable instructional leaders to have all of the instructional resources necessary to lead effective content-focused professional development during summer training in August of 2023. BBACS plans to use this same cycle in future years to ensure that all resources are fully aligned to New York state expectations before the start of any school year. This means, for example, that the BRICK network academic directors would then be responsible for updating the 2nd grade curriculum on this same timeline throughout the 2023-2024 school year so that all 2nd grade materials are finalized prior to the launch of second grade. Based on Mr. Esposito's prior experience as a Chief Academic Officer, the BRICK team believes that he is uniquely positioned to support the network academic directors to make the ongoing curriculum adjustments necessary to ensure that students are able to receive the support they need to demonstrate mastery of the rigorous New York state learning standards. ***These specific annual action steps to ensure NY alignment can also be found in R-22 Action Plan.***

- *An explanation of how the curriculum aligns with the school's educational philosophy and furthers its specific mission, key design elements, and unique themes.*

BBACS's curriculum is **aligned to BRICK's educational philosophy and furthers the school's mission of ensuring that students from East Buffalo neighborhoods have the knowledge, skills, and**

supports needed to be college, career and life-ready upon graduation. BBACS is committed to the belief that all students can learn at the highest levels when provided with access to rigorous instruction. As a result, the school uses a curriculum that ensures students have exposure to rigorous, grade-level content each day in all core subjects. By selecting curriculum resources that have been externally validated, whether through external rating systems like EdReports or the What Works Clearinghouse, or because they have a history of success at high-performing charter schools in New York state, BBACS will ensure that it's students receive exposure to the rigorous material that will prepare them for college and career. The BBACS academic program also prioritizes the inclusion of the additional curriculum resources and supports necessary to ensure that all students can master this rigorous grade level material. For example, the school will also focus on prioritizing small group, differentiated reading and math instruction during each full day of instruction to ensure that each student receives the customized support they need to achieve grade level mastery.

BBACS is also committed to the belief that students learn best when they have access to culturally responsive instruction. At BBACS, culturally responsive instruction requires viewing student identity as an asset and leveraging student experiences and content knowledge to access new learning. BRICK's Ubuntu social emotional learning program will help students develop the strong, positive self-concept that will aid in their attainment of academic skills. In addition, BBACS will ensure that its core curriculum also includes bridges to student identity whenever possible so that students see themselves, their community, and their culture reflected in the content they learn each day since this type of inclusion supports high levels of student achievement.¹⁴ BBACS is also invested in using the BRICK curriculum because of the capacity of the BRICK network team to refine instructional resources on an ongoing basis so that they reflect the identities and cultural backgrounds of the students served in Buffalo. The BRICK curriculum already shows evidence of it's deep commitment to cultural responsiveness through the significant updates that have been made over time to ensure the curriculum reflects the backgrounds of the students in Newark (including, for example, the creation of the "My Home is Newark" unit for Achieve and the inclusion of additional African American leaders throughout its history program). However, BBACS also recognizes that schools must have strong processes in place to ensure any updates to its curriculum are done in high-quality ways that enable students to master rigorous grade-level material. As a result, BBACS is excited to partner with the BRICK Education Network because their academic directors have significant experience as teachers and leaders and a track record of producing high levels of achievement for students. Consequently, the BBACS team will have strong supports in place to ensure that any updates made to strong externally-validated curriculum resources represent high-quality modifications that support student learning. ***For more information on the backgrounds of BRICK's Academic Leadership team, please see R-23b Supplemental Attachments.***

BBACS is also committed to the belief that the goal of cultural responsiveness is to help students transition from dependent learners to independent learners. BBACS does not believe that students should passively receive instruction. Instead, the BBACS team believes that elementary school students learn best when their developmental needs are taken into account by ensuring that they are actively engaged in their learning, including when they have opportunities to learn through inquiry and through collaboration with their peers. As a result, BBACS has selected curriculum resources and instructional approaches that align to this philosophy, including, for example Achievement First math, which encourages students to learn about mathematics through game-based lessons in the earliest grades and places a heavy emphasis on cultivating mathematical discourse between students at all ages. BBACS believes these student-centered approaches to learning support the learning styles of elementary students and also help students make the transition from dependent receivers of knowledge to independent learners who recognize that they can learn at the highest levels.

¹⁴ <https://maec.org/wp-content/uploads/2017/12/Exploring-Equity-Issues-Identity-and-Race.pdf>

- *How teachers will know what to teach and when to teach it including the curriculum resources that will support instructional planning (e.g., curriculum maps, scope and sequence documents, pacing guides, etc.), and specifically address who will be responsible for creating or selecting these resources.*

To ensure that **teachers know what to teach and when to teach it**, there will be a 2-week professional development institute prior to the opening of each school year. **(Please see sample teacher institute overview in R-23b-Supplemental Attachments.)** This institute will include a week of professional development for new staff members and a week of professional development for all staff members that focuses on ensuring that the school team is clear on the New York state standards students must learn, the resources teachers will have to support students to learn those standards, and the BBACS instructional approach in each content area to ensure that students can demonstrate grade-level mastery. ***For more information on these approaches, see the instructional guidebooks found in R-23b Supplemental Attachments.*** During the week of all staff professional development sessions, staff members will participate in professional development sessions that include the topics below:

- **Unpacking New York state standards.** Each teacher will have an opportunity to work with their grade level content teams to review and internalize the New York state standards that outline what students should know and be able to do in their particular grade level and content area.
- **Taking the north star assessment for their course.** Each teacher will have an opportunity to complete the north star assessment or task that their students will take at the end of school year so that they more deeply understand the rigor of work and thinking their students must do to demonstrate mastery of grade-level material. For some teachers, this will involve completing a publicly released version of a state assessment and discussing it with other teachers in their grade-level content teams. For other teachers, it may involve independently writing the final essay that students will be required to write for their class so that they can better understand the level of writing required to demonstrate mastery on grade-level writing rubrics.
- **Reviewing their scope and sequence.** Each teacher will receive support from a BRICK academic director to review the scope and sequence for any subjects that they teach. BRICK academic directors will assist teachers in locating their instructional resources for the year on BRICK's staff Google site, including their scope and sequence for the year and related lesson materials (including unit plans, daily lesson plan materials and exit tickets). BRICK academic directors will review these scopes with teachers to ensure that they are clear on what content needs to be taught when. BRICK academic directors will also share their contact information so that teachers can access them directly for any questions related to content area resources throughout the school year.
- **Internalizing their first unit plan.** Each teacher will also participate in a structured session to review and practice the unit internalization protocol required for the course they teach. Teachers will complete these protocols, which will require teachers to read and annotate their first unit plan in preparation for discussions with their grade level content team and supervisor about the key ideas and content covered during that unit.
- **Internalizing daily lesson plans.** Each teacher will then also participate in a structured session to review and practice the daily lesson internalization protocol required for the course they teach. Once again, they will complete these protocols by reading and annotating a sample day's worth of lesson plans and producing related artifacts (such as teacher-created exemplary student responses). Teachers will then use this work to participate in a follow up discussion related to the key ideas of the lesson and any anticipated student misconceptions with their grade level content team and supervisor.

- **Model lesson observations and practice.** Each teacher will also have an opportunity to observe an instructional leader (such as the principal or Vice Principal) model a lesson from the first unit to support teachers to deeply understand how to execute a network lesson plan. Teachers will then have an opportunity to internalize other lessons from the first unit in preparation for practicing them in front of their grade level content team. Instructional leaders (such as Vice Principals and the principal) will facilitate these sessions and provide feedback.

BBACS will also implement ongoing structures to ensure that all instructional leaders, and all teachers, are clear on what content to teach to students. For example, the BRICK network will provide weekly planning meetings for all teachers. These meetings will provide teachers with a weekly opportunity to collaboratively internalize and practice lessons with their grade level content team. BRICK network directors also facilitate unit unpack meetings where teachers once again come together with their grade level content teams to internalize the upcoming unit of instruction and discuss its key ideas. In addition, BRICK academic directors will establish formal check-in structures with instructional leaders, including vice principals and the principal, to ensure that campus leaders are clear on what should be taught and that any challenges in implementation can be addressed to maximize student learning. Collectively, these practices ensure that teachers are prepared to execute each lesson at a high level so that students receive ongoing access to rigorous content--and the intentional support necessary to achieve grade level mastery.

- *The processes and procedures the school will use to review, evaluate, and revise the curriculum to ensure its effectiveness for all students, alignment to state standards, and alignment from grade to grade including who will be responsible for these processes and how teachers will be involved.*

BBACS will work closely with the BRICK Education Network to review, evaluate and revise the school's curriculum each year to ensure its effectiveness for all students, alignment to state standards, and alignment from grade to grade. The annual process that the team plans to follow to ensure ongoing curriculum updates is described below:

- All BRICK network academic directors will use a common system (such as a shared Google form) to collect feedback from BBACS staff regarding curriculum implementation throughout each school year. Staff will be reminded to share feedback in this system as part of the school's weekly internalization meeting process and as part of the unit level internalization process. In addition, as part of the action planning process after major assessments, instructional leaders will be asked to share feedback regarding how any low areas of student performance could also be addressed strategically through the curriculum update process during the next school year.
- Each April, the BRICK Buffalo RDI will partner with the school's principal to engage a diverse team of school stakeholders (including instructional leaders, teachers, families and students) in conducting an internal review of the cultural responsiveness of the school's curriculum. Currently, the team plans to leverage a curriculum audit tool for this process, such as the Culturally Responsive Curriculum Scorecards produced by New York University. This team will review the school's curriculum and make specific recommendations regarding adjustments that could be made during the following school year. This feedback will also be added to the same common feedback system.
- Each May, individual BRICK academic directors will also devote time to conducting focus groups with the instructional leaders and staff at BBACS who specialize in their content area to better understand the feedback collected throughout the year and to determine their recommendations for how to update resources in their content area for the next school year. Each Academic Director

will then add their recommendations to the same common feedback system and will meet with the BRICK Managing Director of Content to discuss their recommendations.

- Each June, the BRICK Buffalo RDI will then meet with the BRICK MD of Content to review the feedback collected throughout the year from BBACS staff, the notes from staff focus groups, the recommendations from the culturally responsive curriculum working group, and the recommended changes from BRICK network academic directors. In addition, the BRICK Buffalo RDI and BRICK MD of Content may schedule additional focus group interviews with teachers and instructional leaders to further explore the highest-leverage changes necessary (for example, to gain additional teacher insights on how a particular unit could be updated to strengthen student performance on a priority New York standard).
- Each June, the BRICK Buffalo RDI and the BRICK Managing Director of Content will then meet with the BRICK CAO to finalize the list of curriculum updates that must be made to ensure all instructional resources for the next school year are updated as well as the schedule for making those updates. These updates will generally be made by the relevant BRICK network academic director unless the team identifies an opportunity to leverage a particular teacher leader to assist with specific changes.
- The BRICK Buffalo RDI will then meet with the BRICK MD of Content weekly throughout the school year to review ongoing updates to instructional resources and to collaborate on any additional changes that must be made to ensure student success.

BBACS believes that its teachers and instructional leaders will have a wealth of knowledge regarding curriculum implementation and is committed to ensuring that these staff members are encouraged to share their feedback so that the curriculum can continuously be refined to ensure the success of all students.

b. Assessment System

Describe the diagnostic, formative, and summative assessments the school will use to evaluate student knowledge and skills. This response should:

- *Describe each assessment's purpose, design, format, and rationale for its selection.*

BBACS believes that academic success and goal achievement is predicated upon continuous data collection, analysis, and improvement. Instructional leaders and teachers play an essential role in this process by ensuring that assessments are administered in a high-quality way and lead to action plans that continuously improve student performance. Fortunately, the BBACS team will have significant support from the BRICK Buffalo regional team and the larger BRICK network to implement a robust data-analysis cycle. In general, this cycle will involve BRICK's performance team supporting the school by producing user-friendly data reports after each major assessment and BRICK's academic directors sharing their own expert analysis of those results and next step recommendations with the school principal and other instructional leaders. In addition, the BRICK network will support the school's instructional leaders to lead teachers through more frequent data cycles, including through weekly data meeting protocols, to ensure that all teachers develop the skills necessary to analyze daily artifacts of student work, identify student misconceptions, and provide appropriate re-teaching opportunities to improve student mastery.

The tables below outline the school's chosen assessments (in addition to the annual New York state assessments that students will take in English language arts and mathematics), providing basic information about the school's priority assessments and the rationale for using each assessment.

Subject Area	English Language Arts
Grade(s)	K-5
Name of Assessment/Publisher	NWEA MAP Reading
Indicate if Diagnostic, Formative, Interim, Summative	Diagnostic and summative
Purpose of Assessment	Identifies students that are in need of targeted intervention and enables the school to assess student growth during the year and across multiple years as well as to compare this growth to national norms.
Format	Computer-based online assessment
Frequency of Assessment (number of times per year administered and months of administration.)	Twice per year, generally September and May.

Subject Area	English Language Arts
Grade(s)	K-4
Name of Assessment/Publisher	STEP assessment from the University of Chicago
Indicate if Diagnostic, Formative, Interim, Summative	Diagnostic, formative and summative.
Purpose of Assessment	STEP determines student mastery of the developmental components of reading (for example, their reading rate and knowledge of phonics as well as their ability to demonstrate literal and inferential comprehension as well as critical thinking about a text). STEP provides specific data on what individual students need more support with and that data is used to modify the support they receive during guided reading and phonics.
Format	Teacher-administered 1:1 assessment.
Frequency of Assessment (number of times per year administered and months of administration.)	4 x per year. Baseline data will be collected in the summer, during orientation or during a home visit. Students are then assessed at the end of each quarter, roughly in October, December, March and June. Elementary STEP goes through STEP 12 and once students demonstrate mastery of STEP 12 (often around 3rd grade), they "STEP out" of the assessment and do not take it any longer because they have determined to

	be proficient readers that are prepared to engage with rigorous grade level text moving forward. Students in upper grades may still receive the STEP assessment and related supports if they are reading below grade level.
--	---

Subject Area	English Language Arts
Grade(s)	3-5
Name of Assessment/Publisher	BRICK CMO network created interim assessments
Indicate if Diagnostic, Formative, Interim, Summative	Formative/Summative (the last interim is an end of course final)
Purpose of Assessment	Assesses mastery of New York's grade level standards at the end of a unit and helps teachers determine grade level skills that students need more support with to adjust instruction at the unit level.
Format	Computer-based online assessment (students may complete some written responses on paper).
Frequency of Assessment (number of times per year administered and months of administration.)	4 x per year, generally in October, December, March and June for students in 3-5. While these may be administered later in 2nd grade, they are not prioritized until 3rd grade/after students have achieved STEP 12.

Subject Area	English Language Arts
Grade(s)	K-5
Name of Assessment/Publisher	Exit Ticket
Indicate if Diagnostic, Formative, Interim, Summative	Formative
Purpose of Assessment	Determines student mastery of the objective taught that day in class; used by teachers to adjust the next day's whole group instruction and small group instruction to improve mastery.
Format	Paper and pencil based
Frequency of Assessment (number of times per year administered and months of administration.)	Given at the end of some reading blocks to assess mastery of the objective covered that day.

Subject Area	Mathematics
Grade(s)	K-5
Name of Assessment/Publisher	NWEA MAP Mathematics
Indicate if Diagnostic, Formative, Interim, Summative	Diagnostic and summative
Purpose of Assessment	Identifies students that are in need of targeted intervention and enables the school to assess student growth during the year and across multiple years as well as to compare this growth to national norms.
Format	Computer-based online assessment
Frequency of Assessment (number of times per year administered and months of administration.)	Twice per year, generally in September and May.

Subject Area	Mathematics
Grade(s)	K-5
Name of Assessment/Publisher	I-Ready
Indicate if Diagnostic, Formative, Interim, Summative	Diagnostic and summative
Purpose of Assessment	Identifies student mastery of grade level standards so that additional work/support can be assigned to them aligned to standards that they need to continue to work on.
Format	Computer-based online assessment
Frequency of Assessment (number of times per year administered and months of administration.)	Twice per year, generally in September and January/February.

Subject Area	Mathematics
Grade(s)	K-5
Name of Assessment/Publisher	Achievement First created interim assessments

Indicate if Diagnostic, Formative, Interim, Summative	Summative
Purpose of Assessment	Assesses mastery of grade level standards at the end of a unit and helps teachers determine grade level skills that students need more support with to adjust instruction at the unit level; also provides comparative data with other high performing charters in NY to see if student performance is on track to end of year state test goals.
Format	Computer-based online assessment (students need to write out/draw some answers, especially in the younger grades).
Frequency of Assessment (number of times per year administered and months of administration.)	4 x per year, generally in October, December, March, and June. In testing grades, the third such assessment serves as a mock New York state assessment to also provide information regarding which students are prepared, at that time, to pass the state test.

Subject Area	Mathematics
Grade(s)	K-4 and 5
Name of Assessment/Publisher	Spiraled weekly quiz (K-4) or Unit assessments (grade 5)
Indicate if Diagnostic, Formative, Interim, Summative	Formative and summative
Purpose of Assessment	Assesses mastery of a week or unit of learning objectives in a class to help teachers adjust instruction for subsequent lessons.
Format	Computer-based online assessment (students may complete some written responses on paper depending on their grade level)
Frequency of Assessment (number of times per year administered and months of administration.)	For grades K-4, these are given each Monday during the power-up section of the math block, which occurs before the core lesson. In 5th grade, these take place after each unit of instruction.

Subject Area	Mathematics
Grade(s)	K-5

Name of Assessment/Publisher	Exit Ticket
Indicate if Diagnostic, Formative, Interim, Summative	Formative
Purpose of Assessment	Determines student mastery of the objective taught that day in class; used by teachers to adjust the next day's whole group instruction and small group instruction to improve mastery.
Format	Paper and pencil based
Frequency of Assessment (number of times per year administered and months of administration.)	Given at the end of some math blocks to assess mastery of the objective covered that day.

Subject Area	Social Studies
Grade(s)	K-5
Name of Assessment/Publisher	Unit exams, produced by BRICK using resources from Core Knowledge (K-2) or Achievement First (3-5).
Indicate if Diagnostic, Formative, Interim, Summative	Summative
Purpose of Assessment	To determine student mastery of the grade level New York social studies standards taught during a unit, to determine the historical content knowledge students have acquired based on that unit of study, and to assess the progression of student writing. In later years, these assessments also assess student's ability to read, interpret, analyze and write about historical documents, including primary sources. Enables teachers to identify gaps in understanding or skill development to remediate in the future.
Format	Computer-based online assessment (students complete some writing/response on paper)
Frequency of Assessment (number of times per year administered and months of administration.)	Once per unit. Although unit length varies by grade level, there are generally between 4 and 8 unit exams for a grade level, with fewer assessments administered in the younger grades.

Subject Area	Science
--------------	---------

Grade(s)	K-2
Name of Assessment/Publisher	Unit assessments (I-Checks), produced by BRICK using resources from FOSS (K-2).
Indicate if Diagnostic, Formative, Interim, Summative	Summative
Purpose of Assessment	To determine student mastery of the grade level science standards taught during a unit and to determine the science content knowledge students have acquired based on that unit of study. Enables teachers to identify gaps in understanding or skill development to remediate in the future.
Format	Computer-based online assessment (students may complete some written responses on paper)
Frequency of Assessment (number of times per year administered and months of administration.)	Aligned with the end of each unit/at the end of each experiment throughout the year.

Subject Area	Science
Grade(s)	K-2
Name of Assessment/Publisher	Embedded formative assessments
Indicate if Diagnostic, Formative, Interim, Summative	Formative
Purpose of Assessment	To determine student progress towards mastering grade level science standards, acquiring scientific content knowledge, or developing their capacity to explain particular new scientific concepts (whether, for example, through writing or the construction of models). Enables teachers to adjust instruction in the moment or before the next class period to address gaps in student understanding.
Format	Paper and pencil. Students complete these assessments in their science notebooks.
Frequency of Assessment (number of times per year administered and months of administration.)	Daily.

Subject Area	Science
Grade(s)	3-5
Name of Assessment/Publisher	Mid-unit quiz
Indicate if Diagnostic, Formative, Interim, Summative	Formative
Purpose of Assessment	To formally assess student progress towards mastering the core work of the unit (including the grade level science standards, scientific content knowledge, performance expectations, science and engineering practices, and cross cutting concepts). Enables teachers to identify gaps in understanding or skill development to remediate during upcoming classes prior to the end of unit assessment.
Format	Computer-based online assessment (students complete some writing/responses on paper)
Frequency of Assessment (number of times per year administered and months of administration.)	At least once per unit.

Subject Area	Science
Grade(s)	3-5
Name of Assessment/Publisher	End of unit assessment
Indicate if Diagnostic, Formative, Interim, Summative	Summative
Purpose of Assessment	To formally assess student mastery of the core work of the unit (including the grade level science standards, scientific content knowledge, performance expectations, science and engineering practices, and cross cutting concepts of focus).
Format	Computer-based online assessment (students complete some writing/responses on paper)

Frequency of Assessment (number of times per year administered and months of administration.)	At the end of each unit.
---	--------------------------

Subject Area	Morning meeting (includes the Positive Action Curriculum and supplemental resources produced by BRICK)
Grade(s)	K-5
Name of Assessment/Publisher	Student culture survey/BRICK Education Network
Indicate if Diagnostic, Formative, Interim, Summative	Diagnostic (fall administration) Formative (winter administration) Summative (spring administration)
Purpose of Assessment	To assess the strength of student culture at the campus, including the extent to which students have internalized, and are invested in, the school's values; the extent to which students believe they have developed grade-level social and emotional skills; and the extent to which students have developed a positive sense of self.
Format	Computer-based online assessment (students complete some writing/responses on paper)
Frequency of Assessment (number of times per year administered and months of administration.)	Three times per year, generally in August, December and June

- Describe key considerations in the selection or creation of any assessment not yet identified including as it relates to ascertaining the impact of student learning loss.

BBACS recognizes that the COVID-19 pandemic has had a devastating impact on students and families. Due to prolonged school closures and challenges with remote instruction, many students are experiencing high-levels of learning loss as well as trauma that could have a lasting impact.¹⁵ Since BBACS plan to open with kindergarten and first grade students, the school does not plan to add any additional assessments to ascertain the impact of student learning loss. Even if disruptions to learning continue to occur during the incubation period, the BBACS teams believes that its plans to administer diagnostic assessments to all new students during home visits and orientation activities will allow the school to capture sufficient data on student learning levels to ensure instruction appropriately supports students. In addition, should BBACS need to transition to remote learning during the chartered term, the team would attempt to implement its regular assessment program as previously described to ensure that staff can continue to measure student learning, identify areas where students would benefit from additional support, and then provide targeted interventions to support students. BBACS would be unlikely to add

¹⁵<https://www.mckinsey.com/industries/education/our-insights/covid-19-and-education-the-lingering-effects-of-unfinished-learning>

additional new assessments to measure student learning loss since the team believes that it's assessment program provides comprehensive information on the absolute achievement of students and student academic growth. Instead, BBACS would work closely with BRICK's academic directors to determine how to ensure its assessment program could be conducted virtually in ways that still ensure valid and reliable data. In addition, if necessary, BBACS would consider strategically reducing the volume of assessments given to students to maximize the amount of instructional time they would receive from their teachers.

- *Explain how the school will ensure assessment results are valid and reliable.*

Since BBACS prioritizes the use of data to inform instruction, it is essential that all assessments produce data that is valid and reliable. As a result, school leaders, particularly, the principal and Director of Operations, with support from other members of the Instructional Leadership team, will work together to ensure the reliability and validity of all assessments. The BBACS approach to ensuring that assessment results are valid and reliable is described in detail below:

- BRICK's weekly newsletter, *Leadership Matters*, will include comprehensive information regarding the network assessment calendar, highlighting upcoming assessments and the detailed requirements for administration (for example, the required timeframe for an assessment's administration; the protocol for administering that assessment, what students must take the assessment; and where data from the assessment must be entered).
- The Principal and Director of Operations will use part of their weekly collaborative meeting to build an action plan for upcoming priority assessments. These action plans will include:
 - Sharing important information about upcoming assessments using the weekly BBACS staff newsletter jointly produced by the principal and the Director of Operations;
 - Detailing the operational and organizational plans for material preparation (such as paper test booklets or Chromebooks) and logistics (for example, by sharing modified school schedules if necessary);
 - Outlining changes and updates to the principal's schedule to oversee test administration across all classrooms. Over time, the principal will also plan how to engage other leaders in this work (for example, by setting direction for how the Director of Special Education will observe the administration of any pull-out testing led by other special education teachers to ensure that assessments are administered appropriately); and
 - How ongoing training will be provided to teachers to ensure that they can administer the assessments with fidelity, including, for example, by sharing information about upcoming whole staff professional development sessions and/or small group support sessions for new staff members.
- The principal and DO will then debrief the assessment process during their next collaborative meeting, including by identifying ways that they can strengthen their approach to future assessment administration. In addition, both parties will review the summary data reports for priority assessments that are produced by the BRICK performance team. Those reports will include information that identifies where there may be issues with data validity or reliability (based on, for example, comparing the school's data to historical data from the campus and comparative data from other schools). The principal and Director of Operations will then identify next steps for addressing any such issues (for example, by interviewing teachers or students to gain more information about the administration of the assessment or by scheduling focused observations of specific classrooms to ensure future assessments are administered in valid ways).

BRICK network academic directors also support the collection of valid and reliable test data by providing teachers and instructional leaders with appropriate training on how to successfully administer network assessments. After the administration of priority assessments, BRICK academic directors also support teachers to engage in collaborative scoring of assessment items. This collaborative scoring ensures that teachers are trained on how to effectively and consistently assign scores to student responses so that they are normed across grade levels and schools so that they can support valid action planning related to the data.

In addition, BBACS recognizes that it will be critical to thoroughly learn the expectations for administering New York state assessments. As a result, beginning approximately two years before administering these exams, when BBACS has students in grades K-2, the Director of Operations will focus on building a comprehensive plan for the region to internalize New York's expectations for state testing and to effectively communicate those expectation to all staff while also providing the training necessary for staff to perform those functions successfully.

- *Describe who will be responsible for administering assessments and collecting and analyzing the results.*

As described above, teachers will be primarily responsible for administering assessments, collecting results from their students, and analyzing student assessment results. Teachers will also be responsible for ensuring that student achievement data is entered into any necessary systems to support data analysis and action planning (for example, this may involve the scoring of open-ended responses from students and entering those scores into Illuminate, BRICK's primary platform for student achievement data).

However, school leaders at BBACS will also play a critical role in ensuring that assessments are administered correctly to produce valid and reliable data, including the principal and Director of Operations, as described above. The Director of Operations will also play a leadership role in ensuring that the school is prepared to administer any major assessments (such as the NWEA assessment or state tests) by coordinating the logistics of testing, including the production of any modified schedules for testing, the printing of test booklets when necessary, the preparation of any technological resources needed, and the distribution of test materials. The school's Director of Operations will also serve as the school's formal Test Coordinator for the purposes of state testing. The Director of Special Education and Coordinator of English as a New Language will also be responsible for analyzing assessment data by subgroups to determine how they can best support action planning to ensure that the population of students they support is achieving their academic goals.

BRICK network staff will also play a supportive role in ensuring the successful administration of assessments, collection of student achievement data, and analysis of results. BRICK's Academic Directors will be responsible for ensuring that all assessments in their content area are provided to schools, whether by sharing electronic access directly with teachers or with the school's Director of Operations for printing. BRICK academic directors will also be responsible for ensuring that any content area tests that will be administered on the computer are entered into Illuminate and accessible to school staff. The BRICK performance team will also assist this process by sharing data reports after major assessments with the principal and other school leadership team members that will aid in data analysis and action planning—as well as the school's efforts to maintain data integrity as described above. The BRICK Buffalo RDI will also support this work by supporting the school's principal to analyze assessment results and build relevant action plans to improve student performance. In addition, the BRICK Buffalo RDI will also prepare monthly reports for the BBACS Board that include updates on student performance on recent

assessments and the additional information necessary to help Board members contextualize that information (for example, by providing comparative data from other local schools).

The BBACS Board is also invested in creating a schoolwide culture of using data to drive decision making. As a result, the Board has worked with the BRICK Buffalo regional team to begin to create an ongoing process of data collection and analysis that will inform all aspects of the school’s work—including in areas outside of academics like operations and talent development. The table below provides an overview of some of the specific ways that BBACS plans to leverage its partnership with BRICK to create a data-driven school culture:

Timing or cadence	BRICK data supports to the school
<p>Summer professional development</p>	<p>All BRICK Principals in Residence will attend the Relay Graduate School of Education’s National Principals Academy Fellowship or will receive comparable training from the BRICK Buffalo Regional Director of Instruction/Superintendent, who is an adjunct faculty member at Relay. As part of this fellowship/development, they will receive comprehensive training on how to use data to inform instruction at their campuses. They will also receive training on how to lead weekly data meetings with their teams.</p> <p>The BRICK Buffalo RDI will also provide local training for staff on how to effectively use data to inform instruction, since he has gained national certification in leading weekly data meetings as part of his work in the Leverage Leadership Institute. As part of this work, he will ensure that all instructional staff complete and analyze the priority end of year assessments that their students will complete at the end of the upcoming school year so that they are clear on the academic expectations for students. As an example, this would mean having the 3rd grade math teachers take an example of a released 3rd grade New York state math exam and then having them engage in a conversation regarding what students need to know and be able to do to be prepared to be successful on this exam. In addition, he will also ensure that all staff members complete the required end of year social and emotional learning assessments for students and discuss what must be done during community meetings, morning meetings and classes to ensure that students have the social and emotional support they need to thrive.</p> <p>STEP Training: BRICK’s Elementary Literacy Director will provide comprehensive summer professional development on how to administer the STEP assessment and how to interpret student results. This training will be offered to instructional leaders and also directly to teachers.</p> <p>SEL Assessment: BRICK’s Senior Director of Student Supports (previously BRICK’s Student Culture Director) will provide comprehensive training on how to administer and act on the network’s SEL assessments. In the early grades, these</p>

	<p>assessments are much less formal, so staff will be asked to complete a needs assessment with families before the start of the school year to help guide specific supports of students.</p> <p>Daily teacher data analysis: The Buffalo RDI will provide training on BRICK’s baseline expectations for how teachers and leaders are expected to collect, analyze and act on data each day.</p>
<p>Annually</p>	<p>Before the start of the school year, BBACS staff will conduct home visits for all new students. During these home visits, the team will administer short assessments in reading and mathematics as well as a student needs assessment so that the team can prepare to appropriately support students from the very beginning of the year. The team will then follow up in these ways:</p> <p>Before year one of the charter term or when heavy support is needed: The BRICK Buffalo RDI will train the principal on how to analyze and act on home visit data, specifically by modeling how to:</p> <ul style="list-style-type: none"> ● Use the data to create heterogeneous classrooms and homogeneous small groups for targeted, small group instruction in reading and math and small group support from the social worker. ● Compare incoming student performance to the work they will take on in their next grade level to identify opportunities to accelerate their learning (for example, by updating scope and sequences to add additional lessons based on a common learning gap students have). ● Create small group instructional resources for teachers to use that effectively leverage this data (for example, oral drill for guided reading lessons that targets the specific letters students do not yet recognize and counting jar activities for students that need additional support with early counting skills). ● Enter student performance data and targeted interventions into the region’s data system for ongoing reference, analysis and action planning. <p>In subsequent years or when less heavy support is needed: The RDI will review the principal’s plans to provide this beginning of year data training for their senior leaders. In addition, the RDI will partner with the principal to determine the most effective strategies for acting on the data collected, including making strategic shifts to network curriculum or pursuing additional resources to address a particular student gap.</p> <p>Since so much student data is collected at the beginning of the year, one of the first Friday Professional development sessions will take the form of the principal presenting on the beginning of year student data and the specific strategies the</p>

	<p>team will use to act on this data. The RDI will attend this meeting and support as needed (for example, by collaborating on the writing of the professional development session or real time coaching its delivery).</p> <p><u>NWEA assessments</u></p> <p>Fall</p> <p>During the first month of the school year, students will also take the NWEA assessment in reading and math. After the administration of the NWEA assessment, a member of the BRICK’s data team will share a report with the school that provides a detailed analysis of student performance. The BRICK Buffalo RDI and BBACS principal will then meet to determine what changes, if any, should be made to the instructional program based on this data (for example, adding additional targeted supports or interventions for students that are significantly below grade level).</p> <p>Spring</p> <p>At the end of the school year, students will take the end of year NWEA assessment in reading and math to measure the progress students have made that year and to measure the extent to which the current academic program is driving student growth. The BRICK Buffalo RDI and BBACS principal will meet to review this data and to determine any specific changes that should be made to the academic program as a result (for example, if students were leaving 2nd grade without full mastery of a priority math concept, additional instruction on that concept may be added to 3rd grade for the next school year. Alternatively, if students across all classrooms were not making sufficient progress in math across all math classrooms, the team may re-evaluate the current mathematics program).</p>
<p>Each unit or instructional cycle</p>	<p>STEP administration and follow through (K-2). Since the STEP administration must be administered in a way that is reliable and valid and can be complicated for new teachers, the Buffalo RDI will conduct a joint walkthrough of all classrooms with the principal to ensure that test administration is being done appropriately and to immediately address any gaps with the appropriate training/follow up.</p> <p>In addition, the BRICK network Elementary Literacy Director will work collaboratively with all leaders that are coaching literacy teachers (such as the principal and Vice Principal of K-5 literacy) to produce a shared analysis of the STEP data after each assessment round. These Buffalo leaders and the BRICK Elementary Literacy Director will then work together to create a PD session for teachers to share this data, their related analysis, and specific next steps. This session will be delivered during the Friday PD after the end of the STEP round. The</p>

sample agenda for this PD is as follows:

Sample Friday Literacy PD Agenda	
2-2:15	Opening and Celebration of Student Progress
2:15-3:00	Clarification of key gaps in student performance and ways to address those gaps, for example, through the model teaching of a specific literacy skill
3-3:45 p.m.	Teachers add plans to address this skill into their lessons for the next week and then practice delivering the re-teach lesson they saw modeled with their grade level partners. Then teachers begin the process of refining their plans for small group instruction during the next week by adjusting what skills they will focus on with what students given their data
3:45-4	Close out and reflection

Since the STEP administration can be challenging for new teachers and for teachers without a background in early literacy skills, the BRICK Elementary Literacy Director will be available, as needed, to work collaboratively to analyze their data, to adjust their guided reading groups, and to determine key trends from their data. The BBACS leader who coaches these staff members can also attend these sessions or schedule additional personal meetings to further develop their own expertise.

BRICK network literacy interim assessments (3-5). The BRICK Elementary Literacy Director will work collaboratively with the vice principal or principal coaching literacy to produce a shared analysis of the literacy data after each interim assessment administration. The principal and literacy director will then work together to create a PD session for teachers to share this data, their related analysis, and specific next steps. This session will be delivered during the next Friday PD. The agenda will likely be the same as the one described above.

Achievement First math unit assessments. The BRICK Elementary Math Director will work collaboratively with the vice principal or principal to produce a shared analysis of the math data after each unit assessment. The principal and math director will then work together to create a PD session for teachers to share this data, their related analysis, and specific next steps. This session will be delivered during the next Friday PD. These PDs will likely follow the agenda below:

Sample Friday Math PD Agenda	
2-2:15	Opening and Celebration of Student Progress
2:15-3:00	Clarification of a key gap in student performance and a way to address that gap, including by the modeling of a potential re-teach lesson that aligns to that key gap in student performance
3-3:45 p.m.	Teachers identify which day they will deliver the re-teach and then practice with a grade level partner. Then each teacher begins the process of assigning differentiated work in I-ready to ensure that students that need additional at bats with the current focus skill receive that opportunity during the next week.
3:45-4	Close out and reflection

Note: Since teachers either serve as core math teachers or core literacy teachers, these Friday data days can occur at any time they are needed based on the assessment calendar of a particular content area. In addition, the other content area can focus on instructional development during this time.

Cultural data meetings

BBACS recognizes that it is also important to analyze and act on student culture data. As a result, approximately once per quarter, the BRICK Buffalo RDI will support the BBACS Principal (in year one) or the principal will support the school's Vice Principal of Culture (in subsequent years) to lead a full staff meeting focused on analyzing key student experience data and determining high leverage next steps. A sample agenda for this meeting is found below:

Sample Friday Culture PD Agenda	
2-2:15	Opening and Celebration of Student Culture Bright Spots
2:15-3:00	Clarification of a key gap in student experience and a way to address that gap (for example, by walking the team through a sample SEL lesson written to address a current challenge or by walking the team through a rewritten version of a school routine or by leading a teacher practice clinic to strengthen a particular classroom teaching

		strategy, such as what to do directions).	
	3-3:45 p.m.	<p>Teachers identify when they will implement the strategy, or a version of that strategy for their class, and then practice.</p> <p>Teachers also begin the process of pre-planning any specific things they need to provide differentiated support to individual students (for example, to add additional SEL lessons based on a topic of concern for their particular classroom).</p>	
	3:45-4	Close out and reflection	
Each week	<p>Each year during the second quarter, the BBACS team will begin to focus its attention on also using data to drive results each week prior to upcoming assessment administrations. This will be made possible via weekly professional development in content area teams during the Friday afternoon PD time.</p> <p>An overview for these content team meetings is provided below:</p> <ul style="list-style-type: none"> Math weekly data meetings: Beginning in quarter two, math teachers and math instructional leaders will typically spend their Friday professional development time in content-specific professional development. These PD sessions will each include dedicated time for math teachers to meet with other math teachers on their grade level math team to participate in a weekly data meeting using the framework used by the Relay GSE. <i>The template used by Relay can also be found in Response 23-b Supplemental Attachments.</i> These meetings will enable teachers to review examples of student work, identify key gaps in student understanding, and develop re-teach lessons to address those gaps in student understanding—as well as specific plans for supporting small groups of students that may need additional, targeted support to achieve mastery. The principal or vice principal coaching the math team will facilitate these meetings and will ensure that these meetings focus on the highest leverage lesson from the last week. In year one, since there will be two grade levels, the math coach will be able to lead one grade level meeting and then transition to lead the next grade level meeting. However, in later years, teachers interested in pursuing leadership will be empowered to facilitate meetings for their grade levels during this time so that the principal and vice principals can focus on priority grade levels and content areas based on overall school needs. 		

	<ul style="list-style-type: none"> ● Literacy weekly data meetings (K-2): Beginning in quarter two, literacy teachers and literacy instructional leaders will also typically spend their Friday professional development time in content-specific professional development. These PD sessions will each include dedicated time for literacy teachers to meet with other literacy teachers on their grade level team to deepen their understanding of foundational literacy. Due to the complexities of early reading data, teachers in K-2 will participate in a modified form of the Relay GSE data meeting framework that will be created in collaboration with faculty at the Relay GSE and Lifelong Learners. We expect that this will lead to teachers reviewing data on their students' early reading behaviors during their content team time and then prioritizing specific ways that they will use this data to adjust how they will deliver their lessons during the following week. These meetings may take many different forms, including: <ul style="list-style-type: none"> ○ Identifying specific letter sounds that a particular phonics group does not know; planning oral drill activities that reinforce these sounds; and then practicing this oral drill with their grade level literacy partners. ○ Clarifying specific comprehension skills that are holding students back in class; observing a leader model how to teach this comprehension skill successfully; and then practicing the teaching of this skill with grade level partners. <p>Literacy weekly data meetings (3-5): These meetings would be similar to the math data meetings described above, including the fact that teachers will be empowered to lead some data meetings by the time the school is fully grown to ensure that all teachers can participate in weekly data meetings during their Friday PD time slots beginning in the second quarter.</p>
Each day	<p>Each day, BBACS will expect that teachers analyze data from their own classrooms to inform their instruction for the next day. Some ways in which this can occur are:</p> <ul style="list-style-type: none"> ● Ensuring that all submitted short assignments receive feedback and are returned to students no later than the start of the next school day. This work will likely take the form of daily exit tickets in math, exit tickets on most days in read aloud, written responses assigned during guided reading, and workbook pages in science or social studies. <p>Ensuring that all work that does not demonstrate full mastery is added to the student's Sankofa folder so that each student can receive ongoing targeted support to improve the quality and/or completion of this work during small group instruction and/or during any independent learning time.</p>

- *Explain how school leaders and teachers will ensure student work products resulting from instruction indicate student preparation for success on state assessments.*

BBACS believes in and relies upon consistent use of data in order for teachers to inform instruction and for leadership to make decisions regarding curriculum. Data provides information that directly correlates to classroom instruction, including the need for re-teaching topics and skills, and providing additional intervention strategies and services if and when needed. In this way, the process of reviewing and responding to data has the potential to ensure students make significant academic progress and are prepared for state assessments. However, this approach is only effective if the work students complete each day is aligned to the New York state standards and reflects the rigor of the New York state assessments. As a result, BBACS is committed to ensuring that instructional staff develop a deep understanding of the New York state standards addressed by their course as well as any assessments students may take. Fortunately, this is why summer staff development time is dedicated, each year, to ensuring that all instructional leaders and teachers unpack the New York state standards for their course and complete any summative state assessments for their course. BBACS believes that this process will enable instructional staff to ensure the materials students are exposed to reflect the rigor of the items they will experience on the state test (including daily student tasks and exit tickets). In addition, BBACS believes that this professional learning will help instructional leaders and teachers understand how to provide strong feedback on the curriculum to BRICK academic directors as part of the ongoing internalization processes described above. BBACS also believes that the annual cycle described above, which dedicates specific time to analyzing the alignment between BRICK’s curriculum and the New York state standards, will lead to strong ongoing alignment.

BBACS is also committed to ensuring that internal assessments reliably predict whether or not students are on track for success on end of year assessments. As a result, the BRICK Buffalo RDI will work with the network’s data team to analyze the correlation between student performance on internal assessments and performance tasks and the end of year assessments and then take appropriate follow up actions. As an example, the BRICK data team could determine that there was a strong correlation between math interim results and state test performance but a weak correlation in ELA. If this were the case, the RDI would then present this data to the BRICK Elementary Literacy Director to ensure they could partner on making relevant updates to specific ELA assessments (for example, by changing the content and/or format to strengthen their predictive value) or changing complete assessments as needed. The RDI would also use this data to help establish internal student performance cut scores for the following school year. This means that the RDI could then provide teachers with a way to understand whether their students were on track to pass the state test (for example, by sharing that students who scored above a certain RIT score on the NWEA assessment or achieved a certain score on the first Achievement First math interim were likely to pass the state test). This analysis would also support the creation of internal data dashboards to help contextualize and describe overall school academic performance to the BBACS Board.

- *Explain how the following stakeholders will have access to and be able to use assessment results: teachers, school leaders, the education corporation’s board of trustees, and students and parents.*
- *Describe how the school will inform parents and students about academic achievement and progress including the timing, frequency, and nature of the information.*

BBACS will use the Illuminate platform to house comprehensive assessment results on each student, including, but not limited to, STEP data, NWEA MAP data, interim assessment data, and results from the school’s student surveys. The Illuminate platform will enable a variety of stakeholders to easily view this data for individual students as well as aggregated by class, grade level and subgroup. In addition, this platform will ensure that school stakeholders can understand student progress over time and analyze the extent to which the school is on track to achieve its goals. Some of the specific ways that assessment data will be shared with key stakeholder groups are described in the table below:

Key stakeholder	Summary of data sharing and discussion practices
Students	<p>BBACS students will become very familiar with using Illuminate as a platform to take online assessments, as well as the individualized student data reports that it can generate to help them understand their performance on those assessments. Teachers will be expected to share these Illuminate data reports directly with students after each priority assessment and to use these reports as part of class activities, including to help explain to classes and individual students what specific skills they have mastered and where they will receive additional instructional support. At BRICK, this process takes the form of Sankofa weeks of reflection after major assessments, where teachers dedicate time during morning meetings and during classes to assist students with analyzing their assessment results and setting goals for their own development.</p> <p>Teachers will also support students during morning meeting time to make sense of their assessment results from Illuminate in developmentally appropriate ways. In Kindergarten, this could mean the teacher reviewing the meaning of STEP levels, having students color a bar graph to illustrate their progress over time, and leading a discussion to help students set individual independent reading goals.</p> <p>Each quarter, all students will also receive a BRICK Plan created by the BRICK performance team that synthesizes their performance on the priority assessments during that quarter. These plans go into each student’s Sankofa folder, which students use as a place to plan their individual goals for the next quarter and to keep track of additional, individualized work that they will complete to continue to improve their mastery of key grade level skills.</p> <p>BBACS also plans to create a positive school culture where all students can be celebrated for their academic achievements. As a result, teachers will also celebrate absolute achievement and student growth by recognizing students during their class community meeting or at the weekly grade level community meeting.</p> <p>In addition to quarterly report cards, students will also receive progress reports midway through each quarter. Students will have an opportunity to review these report cards and progress reports during morning meeting time with their teacher to ensure they understand this information and can ask for any additional support they need. Students also reflect on the information contained in these progress</p>

	reports and set individual goals for their development.
Families	<p>Families also receive all of the same assessment information that is provided to students. For example, students are required to bring home their individual Illuminate assessment report after each priority assessment, to show it to their parents, and to return the report with a parent signature. This type of recurring homework assignment is designed to ensure that each family receives ongoing information about their student’s academic performance and can encourage conversations regarding the best ways that they can support their student’s learning. Families also will receive online access to PowerSchool and Kickboard so that they can continually view their child’s grades and data that reflects their social and emotional development.</p> <p>Families are also encouraged to attend parent teacher conferences four times per year. At these conferences, families will also receive a copy of the BRICK Plan for their student so that they can engage in conversations with their child’s teachers regarding their child’s overall academic performance and ways that they can partner with the school to continue to support their child. Families are also encouraged to attend weekly community meetings so that they can help the school recognize the academic achievements of its students.</p> <p>BBACS also recognizes that it is important to make additional efforts to ensure high-quality communication with families about the academic achievement of their children. As a result, BBACS will also ensure that staff deliver presentations on student assessment data at key school events, including parent teacher conferences, back to school night, math night and literacy night. During these presentations, school leaders will share information about why students take specific priority assessments at the school and provide families with information on how to interpret their child’s results.</p>
Teachers	<p>Teachers will also be able to access comprehensive student assessment data in Illuminate. This system will support their efforts to analyze their data by providing them with easy access to various student performance reports, such as item analysis reports that will help them understand which questions on a recent assessment were most challenging and should be analyzed to identify student misconceptions and plan an aligned re-teach lesson. Teachers will also use these reports to support the intellectual prep work they do to prepare for lessons by planning specific ways they can adjust their plans for the following week based on the data (for example, by deciding to pull a small group during math power up to re-teach a key priority standard that those students had not yet mastered on the most recent weekly quiz). BRICK network academic directors also produce data dashboards after all major assessments that enable teachers to further analyze</p>

	<p>their data, including by comparing their data to other teachers across the network and to historical student performance on the same assessment.</p> <p>Teachers will also support students during morning meeting time to make sense of their assessment results from Illuminate in developmentally appropriate ways. In Kindergarten, this could mean the teacher reviewing the meaning of STEP levels, having students color a bar graph to demonstrate their progress over time, and leading a discussion to help students set individual independent reading goals.</p> <p>Teachers also play a key role in ensuring that families are aware of the assessment results of their children and have the tools to interpret those results. Teachers will share all assessment results with families by adding those results to each child’s homework folder. In addition, teachers will ask that families complete a homework assignment of reviewing those assessment results with their children and sharing any questions they may have about the results. For example, if it is a Kindergarten unit test, students will bring home a copy for parents to send home, sign, and communicate any questions or concerns. With priority assessments, like the NWEA, relevant one-pagers will also be provided to ensure that all stakeholders understand the purpose of taking the assessment, their child’s score, and how to interpret the results. Teachers will also review homework folders and respond directly to any questions raised by parents or guardians about any assessment results that were sent home.</p>
<p>School Leadership team members</p>	<p>School leadership team members will also have access to comprehensive data reports in Illuminate and additional data dashboard built by the network’s academic directors and performance team. As described previously, these reports will support the efforts of school leadership team members to coach individual teachers and to lead weekly data meetings. In addition, the Illuminate portal will also enable school leadership team members to easily compare the assessment data from different classes in the school. In this way, a school leadership team member could use Illuminate to identify how they can best support the cohort of teachers they manage to improve performance (for example, by increasing the frequency of coaching support to the classroom with the lowest level of student performance or by videotaping how the highest performing classroom executes a specific part of its instructional block to share with other team members). School leadership team members also use the data in Illuminate to suggest specific short-term curriculum modifications to support high levels of student achievement (for example, by requesting that the BRICK Elementary Math director creates an additional series of lessons to add to the scope and sequence that address an essential priority standard that students are struggling to master). BBACS school leadership team members also plan and facilitate the presentations at whole school events that are designed to support families to understand and interpret their child’s assessment results.</p>

<p>Board of Trustees</p>	<p>BBACS’s Board of Trustees will have ongoing access to a school performance dashboard that includes the school’s performance goals and data that shows how the school is performing relative to those goals. A sample of this dashboard can be found in <i>R-23b - Supplemental Attachments</i>. This information will be populated into the board dashboard on an ongoing basis by the BRICK Buffalo RDI and RDO.</p> <p>In addition, the BRICK Buffalo RDI will also take the following steps to ensure that the Board is aware of the school’s academic achievement, clear on how that achievement compares to goals, and engaged in action planning to close any gaps in performance:</p> <ul style="list-style-type: none"> ● Monthly full Board data dives. At each Board meeting the BRICK Buffalo RDI and the Regional Director of Operations will share the performance dashboard with updated metrics. The RDI will present to the Board the most updated academic performance metrics– including the school’s progress towards its charter contract accountability goals–and will answer any questions raised by the Board. The RDI will also report on any recently collected qualitative performance data, such as the results of the staff culture survey conducted by BRICK. ● Monthly Academic committee meetings. In between each Board meeting, the Buffalo RDI will also meet with the BBACS Academic Committee. The Buffalo RDI will preview the data presentation that will be delivered to the full Board and will spend additional time sharing and discussing the data set that was used to populate the dashboard. For example, during these meetings, the RDI may present the STEP growth by classroom during the last STEP round and engage in discussion around how to improve STEP growth in targeted classes moving forward. ● Annual Board tour. Each year, the Buffalo RDI and RDO will also encourage the BBACS Board to spend a portion of the day observing at the school and engaging with students and staff. Through this experience, board members will be able to see instruction in action and develop a well-rounded perspective of the school that will support their ability to provide effective governance.
--------------------------	--

c. Instructional Methods

Describe the pedagogical approach the school will use to implement its curriculum including:

- *The instructional methods or techniques to be employed in the school including any specific requirements for implementing this pedagogical approach (e.g., co teaching or aides, technology, physical space, approaches to classroom management, etc.);*

- *Research or existing models that support the use of these instructional methods, especially considering the school's target population and curricular choices outlined in Response 6(a) – Curriculum Selection Process; and,*
- *An explanation of how the instructional methods align with the school's educational philosophy and further its specific mission, key design elements, and unique themes.*

The BBACS instructional model is rooted in a shared vision for educational equity that asserts that 1) the students from East Buffalo can perform at the highest levels when provided with access to a rigorous, college preparatory education, 2) that all students learn best when provided with culturally responsive instruction that embraces their identity and community,¹⁶ and 3) that elementary students learn best when they are actively engaged in the learning process. At BBACS, cultural responsiveness is not limited to just curriculum, but also to classroom and schoolwide routines and rituals that reinforce teaching and learning. BBACS school leadership will help bring this vision for educational equity to life by leveraging the key instructional methods and techniques described below:

Rigorous Academic Instruction

BBACS believes that delivering high-quality lessons to students starts with ensuring that all teachers have a shared mindset around rigorous instruction, clarity on what they should teach, and the instructional leadership support necessary to teach that content at the highest level. As a result, BBACS and BRICK will ensure that teachers will have access to comprehensive instructional resources and the instructional leadership support necessary to leverage those resources to deliver high-quality instruction for students.

At BBACS, summer professional development will involve foundational readings from the Opportunity Myth study from The New Teacher Project (TNTP)¹⁷. This study analyzed the quality of instructional resources that students were exposed to in several major cities in the United States, including Buffalo. The study describes how low-income children of color in Buffalo are frequently not exposed to grade level work—even though these students are just about as successful with that work as their more affluent peers are when they receive it in the classroom. As a result, TNTP indicates that student performance is often correlated with teacher expectations rather than student ability. Unfortunately, in low-income areas, teachers often reduce the rigor of grade level texts in a misguided attempt to help children—which has the impact of limiting their academic success over time. By reviewing the Opportunity Myth research, BBACS will establish a culture where teachers recognize the importance of delivering rigorous grade-level instruction to all students—and understand that rigorous instruction has the potential to drive equity for their students.

Intellectual prep

As a result of this shared mindset, BBACS will invest heavily in a process called **intellectual prep**¹⁸ to ensure teachers think through the most critical aspects of planning for instruction, use the resources provided for their relevant subject area, and look at student work as part of their regular weekly preparation and development. This process includes all of the tasks that teachers do to prepare to teach a lesson to students as well as the efforts his or her instructional coach takes to support that teacher's preparation. The intellectual prep process BBACS staff will follow is briefly summarized below:

¹⁶ <https://maec.org/wp-content/uploads/2017/12/Exploring-Equity-Issues-Identity-and-Race.pdf>

¹⁷ <https://opportunitymyth.tntp.org>

¹⁸ <https://www.erstrategies.org/cms/files/3502-intellectual-preparation-protocol.pdf>

- Teachers will receive comprehensive instructional resources from BRICK. All teachers will have a scope and sequence, unit plans and daily lesson plans for all subjects. BBACS believes it is essential that these foundational materials are rigorous and address the NY state grade level expectations. As a result, these standard network resources are finalized by BRICK’s Academic Directors rather than individual teachers.
- Teachers then participate in an ongoing professional learning cycle to ensure that they have fully internalized their lessons. This process typically involves the following steps:
 - Teachers first complete independent intellectual preparation. BBACS will have content specific expectations for teachers to follow as they review a shared instructional resource, such as a unit plan or daily lesson plan, from BRICK. This process generally involves annotating the existing lesson plan and jotting down key ideas of the lesson in their own words. This process may also involve creating their own exemplary response to a student task. Teachers also are empowered to make strategic modifications to existing plans to support the students in their room—for example, by adding in modifications based on student data or to better serve specific groups of students in their room, such as students with disabilities, students who are learning English as a new language, or students with special needs.
 - Teachers then submit their independent intellectual preparation to their coach, who then verifies that all teachers are prepared for their upcoming lessons. Coaches provide feedback as necessary prior to lesson execution.
 - Teachers then have at least one weekly meeting to deepen the quality of their intellectual preparation with their coach. During these meetings, coaches lead teachers through a version of the planning meeting protocol from the Relay GSE to ensure that teachers deeply understand the key ideas of the lesson and have an opportunity to plan and practice high-leverage parts of the lesson prior to executing the lesson in front of students (*a copy of this Planning Meeting protocol is included in R-23b - Supplemental Attachments*). When multiple teachers teach the same content area, these meetings will include multiple staff members.
 - **Note:** During the first quarter of the year, teachers will generally participate in two planning meetings each week. One planning meeting will be held by BRICK’s Academic Directors. These meetings will involve all BRICK teachers that teach a particular grade and content area. A second meeting will be added during Friday PD time as well and will be facilitated by instructional leaders at BBACS, including the principal, Vice Principals of Instruction and, over time, other instructional leaders. BBACS believes that intellectual preparation is critical to ensuring successful lessons are taught in every classroom and, as a result, wants to ensure that teachers have robust support to learn how to thoroughly internalize their content before delivering the lessons to students.

Pedagogical Approach

BBACS is committed to developing an academic program that is capable of supporting its students to become independent, 21st century learners who are prepared to thrive in college, career, and life. As a result, the school is committed to using a culturally responsive pedagogical approach. This approach empowers students to take control of their education—and research shows that this approach promotes student engagement and the development of student’s executive functioning skills. This

approach also causes students to experience higher levels of school connectedness¹⁹. The BBACS team also believes that this approach is critically important for the East Buffalo community—a community whose existing schools underperform state assessment averages in ELA and math results and do not have faculties that reflect the racial demographics of the students served.

To develop a culturally responsive pedagogical approach, BBACS, in partnership with the BRICK network, will draw on the research of Zaretta Hammond as described in her book *Culturally Responsive Teaching and the Brain*. Hammond’s research provides a framework for transforming dependent learners – or those that passively memorize and depend on the teacher to carry the cognitive load – to independent learners through culturally-responsive teaching. Hammond defines culturally-responsive teaching as “an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing...all the while, the educator understands the importance of being in a relationship and having a social-emotional connection to the student in order to create a safe space for learning.²⁰” In this definition, Hammond lays out a roadmap for implementing culturally-responsive teaching that BBACS intends to follow. BBACS will work to ensure that all staff develop a deep awareness of the community they will serve on the East Side of Buffalo by learning about the history of African Americans in Buffalo and participating in professional development sessions to learn about the vast cultural wealth of the East Side and the assets that students and families bring to school each day. In addition, BBACS will encourage teachers to leverage its intellectual preparation protocols to determine ways that teachers can strategically adjust shared lesson plans to ensure that students can leverage their cultural knowledge to access the curriculum. With its emphasis on supporting teachers in building trust with students, creating an environment that is intellectually/socially safe for learning, and focusing on principles of restorative justice, Hammond’s Ready for Rigor Culturally-Responsive Teaching Framework will serve as the school’s north star for creating engaging, emotionally safe school cultures and delivering high-quality instruction.

Figure 10a.1 – Hammond’s Ready for Rigor Framework for CRT²¹

READY for RIGOR

A Framework for Culturally Responsive Teaching

© Zaretta Hammond, 2013

www.ready4rigor.com

BBACS will use Hammond's Ready for Rigor framework as the foundation of its summer professional development program and to inform the ongoing coaching that teachers receive. In addition, this framework is also supported by several other key pedagogical approaches that help ensure all students are ready for rigorous instruction. These supplemental pedagogical practices are briefly summarized below:

- **Co-teaching:** BBACS will prioritize co-teaching in the youngest grades (K-2) to ensure that all students have the additional support they need to attain grade level proficiency by the end of third grade. For most of the day, the youngest students at BBACS will benefit from having two teachers in their classroom and, through our unique partnership with City Year, some of these classes may even have three adults. More information about which blocks are co-taught can be found in *R-07ac - Calendar and Schedules*. In addition, more information about the school's approach to integrated collaborative co-teaching can also be found in *R-08ad Specific Populations*.
- **Small group instruction:** Teachers plan for small group instruction in reading and math during each full length school day to ensure that all students receive the targeted support they need. This instruction occurs during the guided reading, phonics and math power up block with students

in grades K-3 and, over time, during independent learning time blocks with older students in grades 4 and 5.

- **Shifting the cognitive load:** Students do the heavy lifting at BRICK. Teachers design and carry out lessons that encourage students to engage in inquiry-based learning activities more often than direct instruction. This approach is evident in the school’s curriculum choices, such as FOSS and Amplify, which prioritize student investigations as well as Achievement First math, which prioritizes students starting the math block by working on a new type of problem with a partner. The school’s guided reading curriculum also privileges the use of habits of discussion to ensure that students have an opportunity to engage in discourse related to critical thinking questions about complex texts to generate their own insights about these texts. All of these approaches help students build the metacognitive skills necessary to devise strategies to solve unfamiliar problems, which builds students’ independence and self-esteem—and improves the retention of the content learned.
- **Individualized learning:** The BBACS commitment to culturally responsive instruction prioritizes developing students who are independent learners. As a result, during independent learning time, students in the upper grades will be provided with the opportunity to work either in small groups or individually toward specific, tailored goals based on recent interim or bi-weekly data. Students in the younger grades will also have the opportunity to work independently but will have the developmental support of online blended learning programs and adaptive technology to ensure that their learning time is focused on their unique developmental needs. BBACS will also ensure that this process is meaningful by ensuring that teachers support students to develop independence over time—by continuously collaborating with students to help them reflect on their performance, set personalized goals for development, and devise their own strategies for improving their performance over time.
- **BRICK Best Teaching Practices:** BBACS is also committed to learning from the best teaching practices that have been used successfully at BRICK to promote high levels of student achievement. These best practices have been codified over the last year as BRICK leaders have observed their highest performing teachers and described their high leverage teaching moves using language from the school’s professional development canon, including Teach Like a Champion by Doug Lemov, Culturally Responsive Teaching and the Brain by Zaretta Hammond, The Skillful Teacher by Jon Safier, Get Better Faster by Paul Bambrick, and The Knowledge Gap by Natalie Wexler. These practices, including concepts like clear what to do directions, scanning/radar, least invasive corrections, positive narration, and academic monitoring are described in detail in the BRICK Instructional Guidebook SY 21-22, which can be found in **R-23b - Supplemental Attachments – item BRICK Instructional Guidebook SY 21-22.**

d. Course or Subject Overview

Provide course descriptions for every subject and grade level the school will serve within the initial five years of operation, accounting for both core and non-core subject areas including all courses identified in Request 7 – Calendar and Schedules and specials (e.g., physical education, art, etc.). This should include, at minimum: a general description of the specific content and skills that would be addressed in the course, if known; the curricular programs (e.g., Core Knowledge, Singapore Math, FOSS, etc.) that would be used in each course; essential course specific assessments (e.g., the state’s 3rd – 8th grade assessments/Regents exams, end of course portfolios or performances, etc.); and, if serving students in 12th grade, provide an outline of course sequences leading to graduation.

R-06g - Draft Accountability Plan

Complete the Accountability Plan template available on the Institute's website at: newyorkcharters.org/reporting-requirements/accountability-plan-draft/. The web page includes additional detail to assist the applicant in drafting the required SUNY Accountability Plan. This Response should serve as a draft based on the applicant's understanding of the Institute's accountability requirements and align with the proposed school model. Institute staff will work with successful applicants in the school's first year of operation to finalize the plan.

BRICK Buffalo Academy Charter School Draft Accountability Plan For the Accountability Period 2023-2028

Academic Goals

Goal 1: English Language Arts

Description: Students will demonstrate proficiency in reading, writing, comprehending, and speaking the English language.

Absolute Measures

- Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State ELA exam for grades 3-8.
- Each year, the school's aggregate Performance Level Index (PLI) on the state ELA exam will meet that year's Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Comparative Measures

- Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state ELA exam will be greater than that of students in the same tested grades in the local school district.
- Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

Growth Measures

- Each year, under the state's Growth Model the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

Goal 2: Math

Description: Students will show competency in their understanding and application of mathematical computation and problem solving.

Absolute Measures

- Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State Mathematics exam for grades 3- 8.
- Each year, the school's aggregate Performance Level Index (PLI) on the state mathematics exam will meet that year's Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Comparative Measures

- Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the local school district.
- Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

Growth Measures

- Each year, under the state's Growth Model the school's mean unadjusted growth percentile in mathematics for all tested.

Goal 3: SCIENCE

Description: Students will understand and apply scientific principles at a proficient level.

Absolute Measure

- Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State Science exam for grade 4 and grade 8.

Comparative Measure

- Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on a state science exam will be greater than that of students in the same tested grades in the local school district.

Goal 4: ESSA

Description: BRICK Buffalo Academy will make Adequate Yearly Progress. Under the state's accountability system, the school will be in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as a local assistance plan school.

Goal 5: Fiscal Responsibility

Description: BRICK Buffalo Academy will make sound financial decisions, ensuring effective and responsible use of financial resources to maximize student learning.

- Each year, the school will operate on a balanced budget meaning actual revenues will equal or exceed actual expenses.
- Beginning with the school's first operating year, at the end of each fiscal year, unrestricted net assets will be equal to or exceed two percent of the school's operating budget for the upcoming year.
- Each year, the school will take corrective action, if needed, in a timely manner to address any internal control or compliance deficiencies identified by its external auditor, SED, or the Institute.

Goal 6: Social Emotional Development

Description: Students will positively grow and develop as individuals each year, including by demonstrating a positive self-concept, mastery of age-appropriate social-emotional skills, and an investment in their school and community.

- Each year, at least 85% of students will answer "agree" or "strongly agree" to age-appropriate questions that ask students to describe their self-concept on the school culture survey.
- Each year, teachers will indicate that at least 85% of students demonstrate age-appropriate social-emotional skills when completing the teacher inventories for student culture.
- Each year, at least 85% of students will answer "agree" or "strongly agree" to age-appropriate questions that ask students to describe their investment in their school and community.

Goal 7: Parent Satisfaction

Description: Parents will demonstrate satisfaction with the quality of education their child receives at BRICK Buffalo Academy Charter School and the quality of support they receive as a family.

- Each year, at least 85% of families will answer "agree" or "strongly agree" that they are satisfied with the quality of education their child receives at BRICK Buffalo Academy Charter School (with at least 75% of families responding to this survey).
- Each year, at least 85% of families will "agree" or "strongly agree" that the ecosystem services offered by BRICK and its partner organizations are high-quality and provide meaningful support to their family.

R-07ac - Calendar and Schedules

a. School Calendar

Provide a copy of the school's proposed calendar for its first year of operation that clearly articulates:

- *The total number of days of instruction for the school year, including whole and half days;*
- *The total number of hours of instruction for the school year, including and not including additional instructional time, such as tutoring;*
- *The first and last days of classes;*
- *The organization of the school year (e.g., semesters, trimesters, and quarters);*
- *All planned holidays, other days off, and half days; and*
- *Dates for summer school, orientation, and other activities outside of the core academic calendar, if planned.*

Provide a narrative to explain any aspects of the calendar that are not evident on the first-year calendar or where further explanation is necessary.

“Both research and practice indicate that adding time to the school day and/or year can have a meaningfully positive impact on student proficiency and, indeed, upon a child’s entire educational experience.”¹ Since BBACS is committed to ensuring that East Buffalo students receive the academic support they need to become college, career and life ready, the school plans to replicate BRICK’s proven approach of offering an extended school day and extended school year. To construct the proposed school calendar, BBACS reviewed recent calendars from BRICK’s flagship campus, the Achieve Community Charter School; the Buffalo Public Schools; and calendars from other high-performing charter schools, including SUNY-sponsored schools in New York state. Based on a review of these calendars, BBACS developed a calendar that will enable strong academic collaboration with Achieve because of the ability to jointly participate in summer professional development sessions and use the same scope and sequences. In addition, the draft calendar is similar to recently released BPS calendars because it aligns school breaks during the year to support families who have multiple children in different schools and maximize attendance. Importantly, the BBACS team also adopted several additional features that will help the school achieve even higher levels of performance—including a week of half days with students at the start of the school year to help establish a strong cultural foundation for the new school and a slightly longer school year to provide students with additional opportunities to achieve their academic goals.

The proposed annual calendar is organized into quarters and includes 191 total days of instruction (including whole and half days), comprising 1,491.50 hours at school and more than 1,066 hours of teacher-led instruction in the content areas. BBACS’s standard school day schedule will run from 7:30 a.m. to 4:00 p.m. from Monday through Thursday and from 7:30 a.m. to 1 p.m. on Friday. The length of the school day and year will allow students to receive access to both rigorous whole class instruction and time for small group, differentiated learning so that all students are supported to make as much academic progress as possible. In addition, the extended school day and year will also allow the school to provide all students with daily social emotional learning opportunities and meaningful, yet still age-appropriate, blocks of time that students can devote to the study of enriching specials subjects, including art, music, theater, dance, and physical education. BBACS does not view these enrichment courses as “extra” but rather as a part of the school’s important core curriculum. These courses play an important role in developing students’ social emotional competencies, promoting healthy lifestyles and giving students an opportunity to discover, explore and develop new talents and skills. Importantly, the extended day and year are also aligned with the

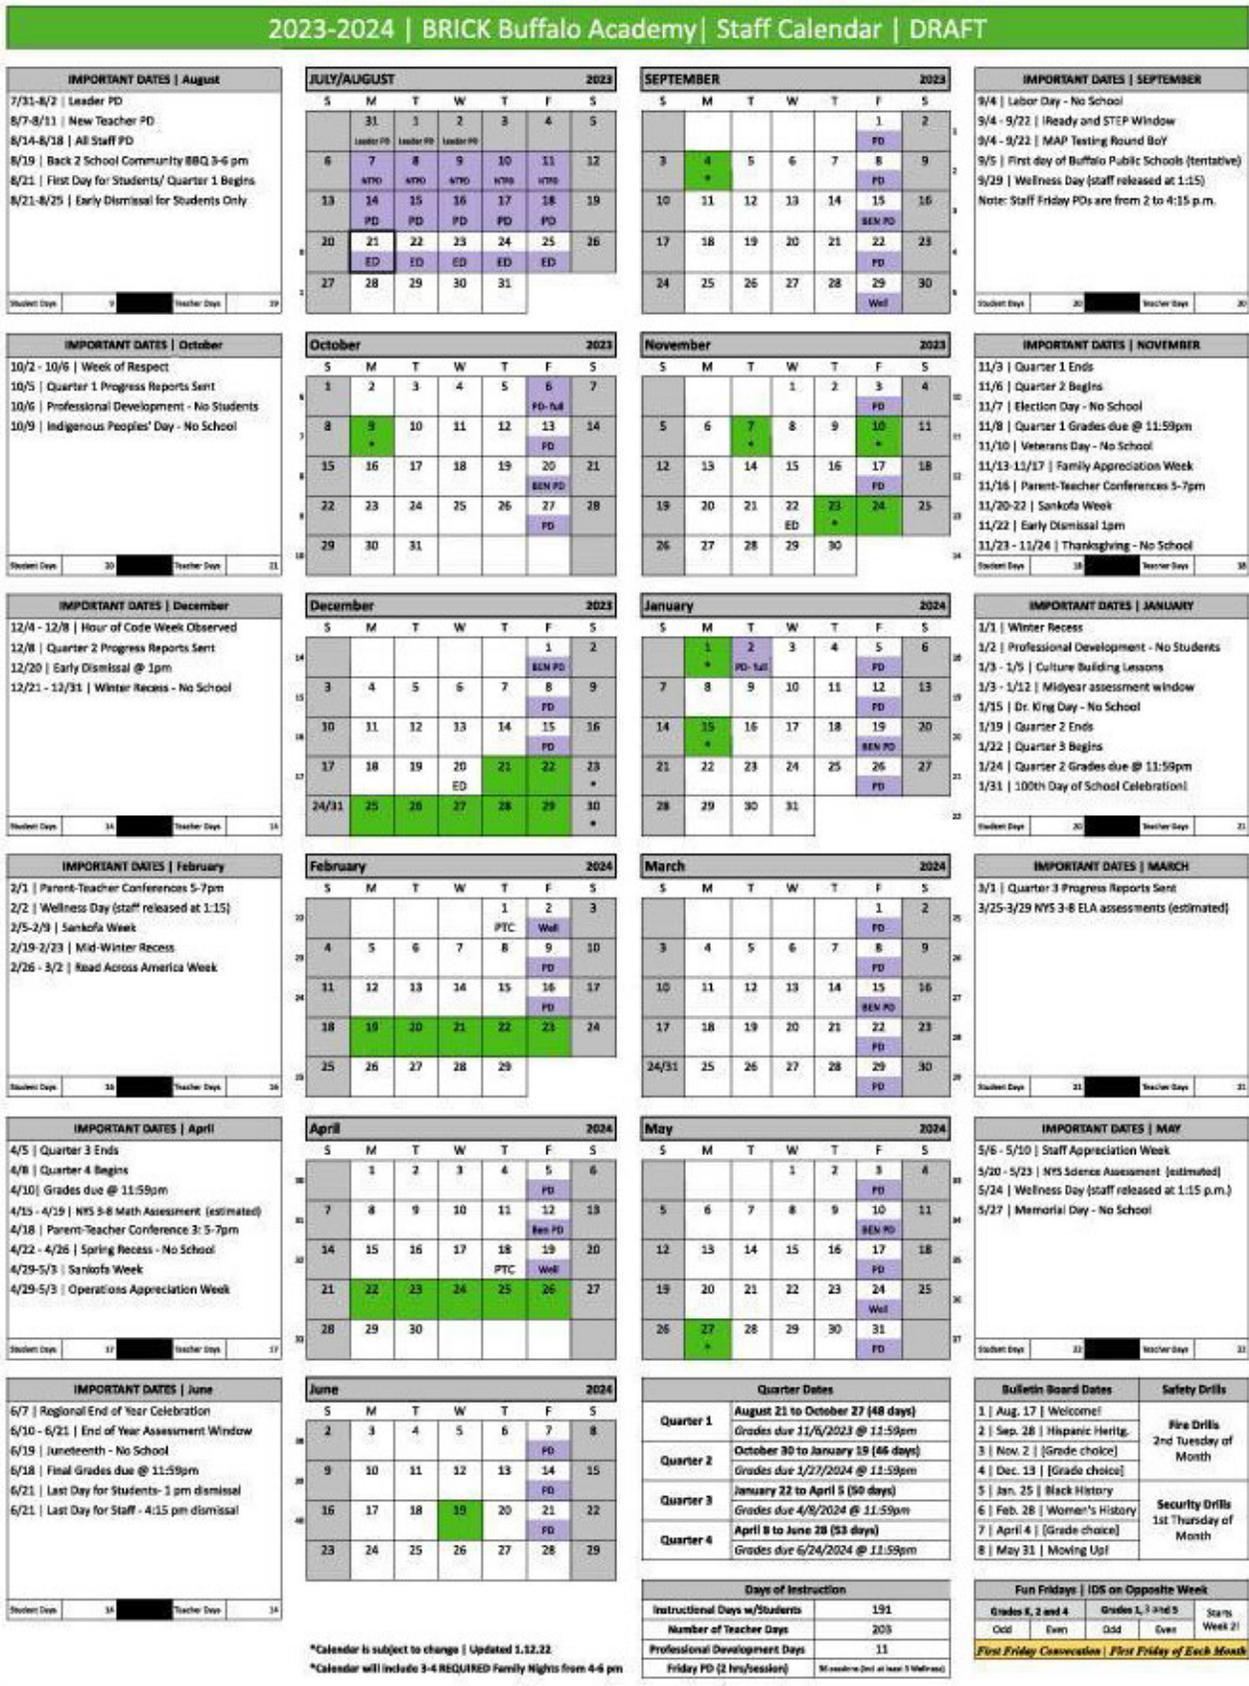

¹ <https://www.timeandlearning.org/sites/default/files/resources/caseformorelearningtime.pdf>
BRICK Buffalo Academy Charter School

needs of many Buffalo parents who will likely be a part of the school community. A later school dismissal prevents parents who struggle economically from having to make hard choices between needing to work fewer hours because they cannot afford childcare or using their limited financial resources to pay for such care. BBACS will also work to provide additional support to families by leveraging its City Year staff members to offer before and after care for students. Before and after care services will be offered each school day, including for extended hours on Fridays because of the school's earlier dismissal time. A summary of important information from the proposed calendar for students is provided below:

- The calendar includes 191 total days of instruction for students, which includes 44 early release days that will be used for professional development, data days, and parent teacher conferences.
- The calendar includes 1,491.50 hours at school and more than 1,066 hours of teacher-led instruction across the content areas.
- The standard school day schedule will run from 7:30 a.m. to 4:00 p.m. from Monday through Thursday and from 7:30 a.m. to 1 p.m. on Friday.
- The first and last days of classes are scheduled for August 21, 2023, and June 21, 2024, respectively.

During the 2023–2024 school year, teachers will be scheduled to work for 203 days, beginning on August 7, 2023. The additional work days for teachers will enable all teachers to participate in a summer professional development institute to prepare for the launch of the school year. The additional teacher work days, and the significant time dedicated to professional development throughout the year, including on Friday afternoons, will help to create a strong professional culture that supports teacher effectiveness, student performance and overall organizational health. Standard teacher hours will run daily from 7:15 a.m. to 4:15 p.m, with professional development on Fridays from 2:00 p.m. to 4:15 p.m. The complete draft calendar for the first year of operation is also shown in **Figure 7.1** on the next page:

Figure 7.1 - Draft 2023-2024 BRICK Buffalo Academy Charter School Calendar

b. Sample Student Schedule

For each division of the school (e.g., lower elementary, upper elementary, middle, and high), provide the following for a typical week of instruction:

- A narrative describing a typical school day (including approximate start and dismissal times and any regular variations, such as early dismissal for teacher professional development one day per week), components of the school day devoted to core academics, components of the school day devoted to before/after-school electives, and remediation or other non-core academic components of the proposed school design;
- A table that clearly identifies the minimum number of weekly minutes the school will devote to core academic subjects in each grade (e.g., ELA, mathematics, science, and social studies) and the total number of instructional minutes the school will offer per week (exclusive of lunch, recess, study hall, etc.); and,
- A sample student schedule for a typical week.

Below, you can find a brief narrative describing a typical school day for students in Grades K–2.

Grades K–2: Typical School Day

7:00-7:30 AM | Early Arrivals | To accommodate working parents, BBACS will utilize three City Year corps members to staff an optional and free before care program that opens at 7 a.m. This will likely take place in the school cafeteria with an administrator on hand to provide support (either the principal, Director of Operations, Family and Community Engagement Specialist, or a Vice Principal). Each corps member will supervise up to 10 students at a table; the corps members will help design engaging activities for students under the direction of the Family and Community Engagement Specialist.

7:30–8:00 AM | Arrival, Greeting, and Breakfast | Students enter the school building and are greeted at the front door by school leaders with welcoming hugs and high fives, if permissible based on current health regulations. Students arrive for breakfast in their classroom, greet their teacher, unpack their materials, and get started on their breakfast. If students finish breakfast early, students may work on independent work, work on online programs, read independently, or socialize with their classmates while quiet, calming music plays. Breakfast is complete by 7:50 AM, and students transition to the classroom rug for the morning meeting.

8:00–8:30 AM | Morning Meeting | Each day begins with a morning meeting, for which students gather in a circle in the classroom meeting space. The morning meeting is designed according to the principles of Ubuntu for the purpose of building collective identity. The teacher promotes the development of prosocial skills through the use of the SEL curriculum according to the following consistent routine:

- **Students and Teacher(s) form a circle** - circle participants can form a circle by standing, sitting on the floor, or positioning desks in a circle.
- **Greeting / Welcoming Routine** - circle participants engage in a welcoming routine to greet the other members of their classroom community by, for example, greeting the student next to them with a handshake or fist bump or repeating a positive classroom affirmation.
- **Sharing** - In sequential order, using a soft talking piece, circle participants share one word to describe how they are feeling at the moment. The teacher listens for any student in need of additional emotional support and, as needed, engages the class in following up to support their classmate or decides to follow up personally with the student later on (and whether or not to also engage other supportive school staff).

- **Appreciation** – In sequential order, participants share their appreciation for themselves or the person to their right. Teacher decides which appreciation focus will occur that day.
- **Activity** - Teacher leads students through the specific Ubuntu SEL lesson of the day and/or the alternative activity planned for that day. This time will be spent in flexible ways to build student culture in collaboration with the community. For example, a teacher may invite a local Black scientist to speak to students about her career in the sciences and how it relates to what they are currently studying in science class; a teacher may have students work to write Valentine’s Day cards to each other or to create a Valentine's Day present for their family; or the student could work on a community service project for Catholic Charities by helping to make peanut butter and jelly sandwiches for the food pantry next door.
- **Schedule Review** - Teacher briefly shares the schedule for the day.
- **Mindful Minute** - Students take a seat and close their eyes. Teacher moves students through a guided meditation which focuses on deep breathing and calming.
- **Wrap up**- The teacher then closes the circle by reminding students to remember and practice iDREAM values and SEL skills throughout the day and to catch their peers and teachers modeling these values as well. The teacher may also work with the class to set individual goals or classroom goals for the day.

8:30-10:10 AM | Guided Reading Rotations | Students spend approximately 100 minutes per day rotating through four distinct blocks of learning: guided reading, Reading Mastery, online learning and independent reading/intervention. During this time, both classroom teachers provide instruction to ensure that students can receive the small group support they need to accelerate their literacy growth. Each of these blocks is summarized below:

- Guided Reading | Students engage in guided reading instruction based on their instructional level using the Lifelong Learners curriculum. The lead ELA teacher designs lessons in alignment with the students’ current STEP level, and the students engage in conferencing with the teacher as well as a comprehension conversation with the group. Students will also learn to build their habits of discussion by participating in peer to peer discourse about what they are reading.
- Reading Mastery | Students engage in rigorous direct phonics instruction. The lead math teacher is trained to deliver Reading Mastery instruction and assesses the students’ progress through the lessons on a weekly basis. Reading Mastery engages students with fun, multisensory activities to move them toward grade-level proficiency. For example, teachers will establish classroom routines that include chants, call and response activities, and friendly competitions to build students’ pride in their growth within a healthy cultural atmosphere.
- Online Reading | All students will engage in online learning programs, including RAZ-Kids, Headsprout, and/or Lexia Learning. During this time, students work independently on online programs that adapt to their unique needs. By having time for student-directed work, BBACS is purposefully building each student’s sense of independence and personal agency over their learning.
- Independent Reading/Intervention Block | During this block, students who are on or above grade level read leveled texts independently and demonstrate comprehension through various independent activities. Students who are not on grade level may engage in another Reading Mastery lesson, another Guided Reading lesson, or a lesson tailored to their unique needs. This period is also an opportunity for students who are in the I&RS process or receiving resource support to engage in tailored learning. For example, City Year corps members may work one on one with individual students to support their reading growth in multiple ways; such as buddy reading a high-interest text.

10:15-10:50 AM | Writing | Students receive direct instruction in the process of writing through mentor texts

and conferencing. Students spend a significant portion of this block writing independently on topics of their choosing. To maximize engagement and help students realize the joy of writing, they will have regular opportunities to compose high interest pieces of writing and share them with their peers, have publishing parties to celebrate each other's work, and invite family members to hear their stories shared aloud.

11:00–11:40 AM | Lunch and Recess | Students have a chance to relax, have fun, and socialize with their classmates during lunch and recess. Every day, students will have the opportunity to eat a nutritious lunch and to go outside to play and socialize with their classmates. Students are responsible for keeping their spaces neat and clean and for helping with clean-up at the conclusion of lunch.

11:50 AM -12:35 PM | Strategic Read-Aloud | After lunch, students participate in a strategic read-aloud block guided by the lead ELA teacher. During this block, students receive grade-level instruction through an interactive read-aloud. Students engage with a high-interest, grade-level text through active listening, discourse, and text-dependent writing.

12:40–1:20 PM | Physical Education or the Arts | All students engage in special area/enrichment classes, including physical education or a comprehensive arts program that will grow to include visual art, music, dance and theater. The arts will be reinforced by bringing in local Buffalo artists and creating art that reflects the BBACS community. At full scale, the school will have a continuum of visual and performing arts classes that allows students to deeply explore their individual areas of interest.

1:30-2:25 PM | Math Core Lesson | Students participate in the Navigator Math curriculum guided by the lead math teacher. Students engage primarily in game-based lessons, in which they explore math concepts through structured games. During this block, students work in partnerships or triads to explore math concepts using hands-on manipulatives and work together to grapple with complex ideas. Each lesson ends with an exit ticket, allowing the math teacher to collect daily mastery data, which they will use to plan instruction for the next day.

2:25–2:50 PM | Math Power-Up | During this 30-minute block, students work to accelerate their learning through small, independent groups and individual tutoring. Both the lead ELA teacher and the lead math teacher work with small groups of students to close instructional gaps; City Year corps members may also work one on one with students during this time. This block also allows teachers to re-teach specific lessons to students who struggled with a particular concept based on data; have students redo exit tickets; and enable students who are above their grade level to move forward through independent assignments, group work, or online programs. Both teachers modify groups and instructional practices on an ongoing basis to keep students engaged and challenged.

2:55–3:40 PM | Science or Social Studies | On regular, full-length school days, students will also engage in science or social studies instruction (the content of focus will rotate throughout the year by unit). As a result, students will participate in a unit from the Full Option Science System, which allows them to engage in engaging, hands-on inquiry experiences in accordance with the Next Generation Science Standards. Alternately, students will engage in social studies instruction using Core Knowledge History and Geography, which will help students develop the background knowledge that is essential to reading comprehension as well as the knowledge of civics necessary to enable them to develop into a future community leader.

3:40–4:00 PM | Pack-Up and Dismissal | Students clean up their desks and work spaces, gather their materials, and pack up their homework. The teacher debriefs the day with students and sets an intention for

the next day.

Note: Throughout the day | iDREAM Scores | Multiple times per day, teachers will facilitate iDREAM score check-ins and assign individual student scores reflective of their embodiment of the iDREAM values. This process will ensure that each classroom continues to discuss the school’s values and encourages students to embody those values each day. This also provides the teacher(s) with an opportunity to discuss individual or whole class progress towards any goals established during morning meeting. This K-2 schedule will lead to the minimum number of weekly instructional minutes described in Figure 7.2 below.

Figure 7.2 - Weekly Instructional Minutes for K-2 Students

Course	Total Weekly Minutes
English Language Arts	845
Math	365
Science or Social Studies	180
Social Emotional Learning (including community meeting)	155
Specials classes (including physical education and the arts)	180
Weekly Total (including specials classes like physical education PE, art, and morning meeting)	1625

A sample weekly student schedule that aligns to this narrative and expectations for instruction can be found on the next page in Figure 7.3

Grade 3: Typical School Day

The school day for third grade students is very similar to the schedule described above for students in grades K-2. For example, students participate in the content blocks throughout the school day in the same formats previously described. As a result, student's experiences with morning meeting, special classes, their math classes, science and social studies are very similar. Students also have similar experiences with before and after care, lunch and recess. However, there are two strategic differences to the schedule to support all students to attain grade level proficiency in reading and writing by the end of third grade. These shifts are summarized below:

- **Core reading and writing classes shift.** In third grade, students begin to use the Achievement First reading and writing curriculum. This curriculum ensures that students have the opportunity to participate in whole class novel studies focused on engaging and rigorous texts. These novel studies provide students with daily opportunities to analyze literature, to engage in rigorous discourse about the texts they are reading with their classmates, and to write longer-form pieces of writing about their reading (including essays). This approach is designed to help students move beyond simply reading on grade level to developing the analytical skills necessary to become successful in college, career and life.
- **The number of guided reading rotations is reduced from four rotations to two rotations.** Since BBACS is committed to ensuring that all of its students read on grade level by the end of third grade, the third grade schedule still provides time for small group guided reading to ensure that all students have the additional differentiated, small-group support to achieve grade level proficiency. By third grade, students are engaging with much longer texts during guided reading and completing longer stretches of independent reading and writing about those texts. As a result, these two blocks are sufficient for the grade level ELA teachers to still ensure that they can support guided reading for all students each week, including daily guided reading groups for students who may still be below grade level in reading.

This schedule will lead to the minimum number of weekly instructional minutes described in Figure 7.4 below.

Figure 7.4 - Weekly Instructional Minutes for 3rd Grade Students

Grades 4-5: Typical School Day

Beginning in fourth grade, the student schedule will continue to support the developing needs of students. While some structures will remain consistent (such as morning meeting, before and after care, lunch and recess), the academic experience for students will shift significantly to support their ability to engage in rigorous work across all core content areas. While the initial years of the BBACS program focused on ensuring all students were proficient in their foundational reading, writing and mathematics skills, the upper school schedule will provide students with significantly more minutes of weekly instruction in the areas of science and social studies. Consequently, students will begin to participate in longer blocks of instruction in their core classes—ELA, Math, Science, and Social Studies—in alignment with grade level standards. These longer blocks are developmentally appropriate at these grade levels and will support students to participate in rigorous work in the content areas, such as extended lab experiences in science class or the composition of an essay based on primary documents in social studies.

In addition, BBACS is committed to the belief that a culturally responsive academic program must support students to develop as independent learners. As a result, students in 4th and 5th grade will begin to have access to an independent learning time block in their schedules. During this time, students will work independently on skills and strategies that they have not mastered previously or will work to accelerate their learning past their current grade level. Students will be supported to develop their own work plans after major assessments and to identify resources and supports they can leverage to master additional material and skills, including by using online programs, revisiting previous work materials, or by requesting tutoring or small group instruction with an independent learning time teacher. During this period, a visitor should be able to walk into the classroom, ask a student what s/he is working on, and hear students articulate what they are working on, and why they believe that work is important for their development. The 4th and 5th grade schedule will lead to the minimum number of weekly instructional minutes described in Figure 7.6 below.

Figure 7.6 - Weekly Instructional Minutes for 4th and 5th Grade Students

Course	Total Weekly Minutes
English Language Arts	400
Math	400
Science	200
Social Studies	200
Social Emotional Learning (including community meeting)	150
Specials classes (including physical education and the arts)	200
Independent learning time	160 minutes (80 minutes of ELA and 80 minutes of mathematics)
Weekly Total (including specials classes and morning meeting)	1710

A sample weekly student schedule that aligns to this narrative and expectations for instruction in fifth grade can be found below in Figure 7.7

c. Sample Teacher Schedule

For each division of the school, provide a sample teacher schedule for a typical week of instruction, including:

- Length of the teacher's work day;
- Time devoted to core teaching assignments, planning, and other activities; and
- A narrative describing key considerations in the development of an alternate teacher schedule for remote and/or hybrid instruction, should circumstances require (e.g., length of the remote school day, the number of synchronous vs. asynchronous lessons per day/week, planning time allotments, etc.).

Sample Teacher Schedules

BBACS believes that high-quality teachers are essential to supporting student success; as a result, the school is committed to maintaining teacher schedules that contribute to both student and staff success. As described in detail in **R-12ac Personnel**, teacher schedules were designed to provide strategic co-teaching and differentiated instruction to students, to enable teachers to develop content-specific expertise, and to support staff sustainability. Some key elements of teacher schedules that apply to all teachers include:

- Standing working hours from 7:15 a.m. to 4:15 p.m. Monday through Friday.
- Participation in weekly coaching sessions with their direct supervisor. These sessions generally last approximately 45 minutes in length. The content of these sessions is differentiated based on the needs of the individual teacher (for example, one teacher may participate in an observation and feedback coaching session while another teacher may participate in a weekly data meeting).
- Participation in ongoing school professional development, including on Friday afternoons where there is time for all staff to participate in professional development from 2 p.m. to 4:15 p.m.
- Participation in a weekly planning meeting led by a BRICK academic director. These meetings typically last one hour and involve teachers working with other teachers in their grade level and content area to internalize and discuss their next unit or a critical lesson for the next week. In addition, these meetings may also include practice of a critical part of an upcoming lesson to ensure teachers are prepared to successfully deliver those lessons to students.
- Up to 120 minutes per day are also devoted to planning (including individual intellectual preparation or collaborative work with grade level colleagues, special educators, ENL teachers or others as needed).
- Approximately 375 minutes per day are allocated to core teaching assignments.
- A streamlined number of courses to teach. The vast majority of BBACS teachers will teach one particular content area and grade level, maximizing their ability to provide high-quality instruction that reflects content area best practices in a sustainable way.

K-2 Teacher Schedules

Since BBACS prioritizes co-teaching for the youngest students, K-2 lead teachers will be organized into co-teaching teams and each team will be assigned to support a classroom of students. Since each teacher in those teams will specialize in teaching either literacy or mathematics, Figure 7.8 below describes which blocks are co-taught by both teachers and what blocks each teacher is responsible for leading independently.

Figure 7.8 K-2 Teacher Responsibilities

Co-Taught Blocks	Math Teacher Teaches	Literacy Teacher Teaches
Morning Meeting	Math Core Lesson	Strategic Read Aloud
Math Power Up	Science or Social Studies	Writing
Literacy rotations (one teacher teaches phonics, the other teaches guided reading)	Phonics	Guided Reading

An example weekly teaching schedule for a Kindergarten literacy teacher and Kindergarten math teacher can be found below.

3rd and 4th Grade Teacher Schedules

In the upper grades, students will typically have one teacher leading whole class instruction at a time. In addition, to ensure that teachers can continue to prioritize all students reading on grade level by the end of third grade, the school’s staffing model includes three literacy teachers for 3rd grade. In this approach, each literacy teacher can still focus their attention on attending to the literacy development of a single classroom. A sample schedule for a 3rd grade literacy teacher can be found in Figure 7.12 below:

In addition, as the grade level content becomes more complex, teachers begin to further specialize in particular content areas. As a result, some teachers begin to deliver the same lesson content to different classes of students during the school day. For example, the 3rd grade math teacher will be responsible for teaching the core math block and math power up to each of the three 3rd grade classrooms. To ensure all staff receive equitable amounts of prep time, the 3rd grade math teacher will also not co-teach morning meeting. An example weekly teaching schedule for a third grade math teacher can be found in Figure 7.13 below.

5th Grade Teacher Schedule

In fifth grade, student schedules will shift to reflect a schedule that closely reflects a traditional middle school schedule. Teachers will teach 90-minute class periods to support students to continue to engage with increasingly rigorous content (such as laboratory science experiments or document-based questions in history). An example weekly teaching schedule for a fifth-grade literacy teacher can be found in Figure 7.14 below.

- *A narrative describing key considerations in the development of an alternate teacher schedule for remote and/or hybrid instruction, should circumstances require (e.g., length of the remote school day, the number of synchronous vs. asynchronous lessons per day/week, planning time allotments, etc.).*

BBACS is fortunate to be able to partner with the BRICK Education Network on the implementation of its academic program because BRICK already has experience developing alternate school schedules during the COVID 19 pandemic. During the last two years, BRICK has successfully adapted its in-person instructional program to provide fully virtual instruction and a hybrid of in-person and virtual instruction. BRICK also has experience rapidly changing between different instructional modalities based on changes in local infection rates and public health requirements. Based on BRICK's prior experiences, BBACS would carefully consider the following major factors when producing alternate teacher schedules:

- **Health and Safety.** BBACS understands that its first commitment is to the health and safety of students and staff. As a result, the school would first prioritize meeting all local health and safety requirements. In addition, the BBACS team would consider factors related to the school's capacity to implement additional health mitigation strategies if needed to facilitate in-person learning (such as upgrading internal air filtration systems or installing plastic barriers in classrooms) and the timeline necessary for implementing such strategies.
- **Equity.** BBACS believes that all students deserve equitable access to high quality instruction, even if students need to learn virtually from home based on public health requirements. BBACS is also acutely aware that many students, particularly low-income students of color, did not receive the same quality of virtual instruction as their wealthier suburban peers. As a result, BBACS would operate with the mindset that its students still needed to achieve the same academic and cultural goals despite learning virtually so that all of its students could continue to progress towards becoming college, career and life ready. Consequently, BBACS would attempt to implement its full core program in a virtual setting. In addition, BBACS would work with its community partners to attempt to establish in-person learning centers for the most vulnerable populations of students even during required school closures in an effort to support students and families who lack other access to childcare. BBACS would also prioritize opening space in these centers to families with a demonstrated need and its special populations of students, including economically disadvantaged students, students with disabilities, and students who speak English as a new language.
- **Developmental need.** BBACS recognizes that students of different ages need to be supported in their learning in different ways. For example, BRICK's experience during the COVID-19 pandemic has shown that students in grades K-2 benefited the most from small virtual classes and ongoing face time with a teacher. As a result, BBACS would work to create the smallest virtual classes possible for its youngest students, striving for a 12 to 1 student to teacher ratio whenever possible. BBACS would also consider allowing older students to engage in more independent work throughout the day based on the capacity of older students to work more independently.
- **Adjusting core content blocks.** BBACS understands that many students have struggled to engage with virtual learning during the pandemic—and that it can be detrimental for students to spend full days sitting at a computer. As a result, BBACS would consider adjusting how students engage with core content blocks to maximize learning while also creating opportunities for students to work independently. In this way, BBACS would likely replicate what BRICK did earlier in the pandemic by ensuring some content blocks could be completely asynchronously. Figures 7.15 and 7.16 on the next page show how this could be accomplished for different grade spans.

Figures 7.15 K-2 Content Block Instructional Delivery Method During Virtual Instruction

Synchronous Learning	Asynchronous Learning
<ul style="list-style-type: none"> • Morning Meeting • Guided Reading (6:1) • Strategic Read Aloud • Math Core Lesson • Math Power-Up (Restructured so that students receive two days of ELA support and two days of math support per week) 	<ul style="list-style-type: none"> • Online programs: Headsprout, Raz-Kids, iReady for Math • Writing • Social Studies/Science

- **Serving staff needs.** While BBACS would work to prioritize implementing as much of its academic program as possible, it would also work collaboratively with its staff members to make reasonable efforts to support their evolving needs during any future shifts in instruction. In particular, BBACS would consider working to support staff members by:
 - Supporting the health accommodations of staff members by ensuring staff members who have a medical need, or who live with family members with a medical need, can request to provide virtual instruction when virtual instruction positions are available.
 - Offering staggered virtual schedules to accommodate the different needs of some families and some staff members (for example, one Kindergarten class could start and end an hour before another Kindergarten class if that better supported the needs of a group of families and staff members).
 - Providing additional support to make the transition to online instruction. BBACS would be able to rely on BRICK’s academic directors to create many of the materials needed to deliver online instruction. In addition, BRICK’s academic directors could provide the comprehensive professional development necessary to support staff to be able to effectively implement new online programs to deliver effective instruction.
 - Strategically reducing other demands on teacher’s time to provide them with the time necessary to successfully fulfill their responsibilities for delivering virtual instruction. For

example, by reducing expectations for the number of assignments that must be graded each week and reducing the number of staff meetings.

Ultimately, the BBACS team recognizes that it must be prepared to support both students and its staff to successfully navigate any future changes to its instructional model. BBACS would work, to the extent possible, to make such changes by working collaboratively with its staff and its families to ensure the needs of all stakeholders were adequately addressed. In addition, BBACS would implement a staff and family survey to gauge the effectiveness of its response to these situations. Fortunately, BRICK also has a track record of successfully navigating these transitions that could be leveraged in Buffalo. In fact, on the organizational health survey conducted by VIA evaluation in 2021, 97% of staff indicated that they thought their administrators were effective in their response to the COVID 19 pandemic.

R-08ad – Specific Populations

The BBACS applicant team believes that its mission requires serving all students, including a population of students that is truly representative of the East Side of Buffalo. Fortunately, BBACS will be able to rely on the prior experience of the BRICK Education Network, which shares its commitment to serving all students and, as a result, has prioritized building a strong inclusive academic program at its flagship charter school, the Achieve Community Charter School. Based on this model, BRICK has seen disadvantaged students make tremendous academic growth because of a robust system of academic and cultural supports as well as relevant outside of school services from ecosystem partners. Consequently, BBACS plans to implement the BRICK holistic model because of its emphasis on a culturally responsive approach that will recognize the cultural assets of the school's students and provide them with the inclusive school environment and strategic support necessary to help them achieve their goals.

Consistent with SUNY's enrollment targets, BBACS anticipates that approximately 21% of its students will qualify for special education services and 13% will be Multilingual Learners/English Language Learners. While the majority of charter schools serving students in the greater Buffalo area struggle to enroll these student subgroups at rates on par with the district, BBACS plans to utilize lottery preferencing for both categories to proactively maximize their enrollment from year one. BBACS also anticipates that approximately 87% of its students will qualify as Economically Disadvantaged, though this number will likely be significantly higher due to targeted outreach in East Buffalo's 14212, 14211, and 14215 zip codes. Based on the local achievement data described in **R-01ac Community Need and Proposed School Impact**, it is clear that many incoming students will require robust remediation and support to achieve at high levels, especially given the significant interruptions to learning time caused by COVID-19. Fortunately, BBACS has also identified key ways to strengthen BRICK's traditional inclusion model to meet the anticipated needs of students in Buffalo, including the special populations of students that the school is committed to serving. Both the BRICK academic program and the strategic adjustments to support the students in East Buffalo are described in detail throughout this response.

Learning Loss and COVID-19: Understanding Student Needs Before Day 1

BBACS understands that learning loss during the pandemic is a reality. While it may take years of longitudinal studies to understand the true impact of having schools shuttered during the pandemic, early indicators clearly point towards increased levels of trauma and anxiety as well as academic regression¹. As a result, BBACS plans to double down on its commitment to ensuring that its systems for identifying struggling students, and providing subsequent intervention, are data-driven and proactive – starting even before the first official day of instruction.

¹ http://ed.buffalo.edu/news-events/news.host.html/content/shared/university/news/expert-tipsheets/2020/054_detail.html

To understand the individual needs of incoming students each year, the school staff (including leaders, teachers, and support staff) will conduct home visits² for each newly enrolled student. The purpose of such visits is two-fold – (1) to begin to cement the school’s commitment to authentic family partnership and (2) to collect important baseline literacy and math data for each student. While the BRICK Network has previously conducted some home visits, the BBACS team felt strongly about making this a cornerstone of the school’s approach due to its potential to enable the school to better understand how to respond to the needs of the families in East Buffalo. During each visit, families will have the opportunity to share their own unique experiences related to schooling, the hopes they have for their student(s), and any of their questions or concerns. School staff will be able to share more information about the school’s model, what students and parents can expect during the first weeks of the school, and how families can connect with ecosystem partners to access additional supports. During home visits, BBACS staff will also administer a STEP literacy assessment and informal diagnostic math assessment to each student. This data will be inputted into the school’s data system (Illuminate) by the Operations team so that it can inform student groupings, class rosters, and any additional interventions the instructional team may need to prepare before Day 1 of instruction. BBACS will also complete the same diagnostics (for those families who are not able to complete a home visit) during Family Orientations to ensure that the school is able to assess every student prior to Day 1. This data-driven commitment to understanding the needs of all students, as well as proactively identifying struggling students, will continue over the course of the school year and is described in more detail below.

A. *Struggling Students*

Discuss the school’s methods and strategies for identifying and serving students who are struggling academically and at risk of academic failure including:

- *How the school will determine and identify which students are struggling including within the context of a Response to Intervention (“RTI”) program. The applicant should clearly define the term “struggling student” as it would be applied in the school.*

To provide interventions holistically and efficiently, BBACS will **identify struggling students** across the following three domains:

- (1) **academics,**
- (2) **behavioral/social-emotional,** and
- (3) **attendance.**

BBACS defines a student struggling **academically** as a student who may lag behind the following indicators:

- **Literacy:** Any student below identified STEP level benchmarks,

² While this narrative uses the term “home visit”, the intention is to have an individualized, one-on-one experience with each incoming family. According to family preference and/or public health constraints, the BBACS team will meet in alternate, public, appropriately socially distanced locations when needed (e.g library, outdoor community park).

- **Network benchmark assessments:** Any student who does not demonstrate appropriate rates of growth on elementary school interim assessments,
- **Unit assessments:** a student who consistently scores 70% or below on unit and/or interim assessments in the areas of English Language Arts or Mathematics, or
- **NWEA MAP:** Any student who scores below the 40th achievement percentile.

BBACS defines a student struggling **behaviorally and/or social-emotionally** as a student who underperforms on the following indicators:

- **iDreamers Paycheck tracking:** As described further in *R-10a - Student Culture and Discipline*, BBACS will leverage a positive behavior-intervention paycheck system to track student behavior. Students consistently scoring on Level 0³ as determined by their weekly paycheck will be identified as a struggling student for intervention.
- **Social Emotional Behavior Universal Screener:** Three times per year, teachers complete an inventory for each student and the results of these inventories are factored into student tiering for support services. In addition, students in grades 3-5 will take a student survey in addition to the teacher-completed inventory that will be reviewed by school leadership to determine if a student would benefit from additional behavioral or social-emotional support.

Relative to **attendance**, a struggling student is defined as a student who incurs at least:

- **Three or more unexcused absences** by the end of the first marking period,
 - **Six or more unexcused absences** by the end of the second marking period, or
 - **Nine or more unexcused absences** by the end of the third marking period.
- *The strategies, programs, specific curricula, and resources (including personnel) the school will devote to assisting struggling students both within general education classrooms and in other settings (e.g., planning time, small group instruction, tutoring, targeted assistance, technology, staff and consultants, etc.)*
 - *How the school would ensure the effective implementation of these interventions in a remote setting.*
 - *Any research or evidence that supports the appropriateness of the proposed approach.*

Academic Response to Intervention Model – Key Elements

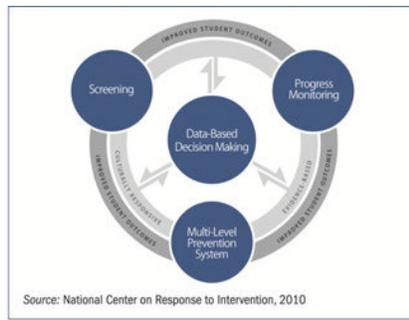

“Response to Intervention (RTI) is a comprehensive early detection and prevention strategy that identifies struggling students and assists them before they fall behind. RTI systems combine universal screening and high-quality instruction for all students with interventions targeted at struggling students.”⁴

³ For more information see Response 10a – Student Culture and Discipline.

⁴ Gersten, Russell & Compton, D. & Connor, Carol & Dimino, Joseph & Santoro, Lana & Thompson, Sylvia & Tilly, W. (2014). Assisting students struggling with reading: Response to intervention and multi-tier intervention in the primary grades.

BBACS will adopt a clear Response to Intervention Framework (RtI) that will allow the school team to identify student needs early, implement intervention plans with fidelity, and leverage data in improving instruction, in order to ensure all students achieve⁵. The BBACS RtI model is a multi-tiered framework used to maximize student learning, reduce behavior challenges, and, at times, as a referral tool for special education services. High-quality RTI programs are made possible by effective execution of the three pillars of appropriate screening, data-based decision making, and progress monitoring as shown in figure **Figure 08a-1** below.

Figure 08a-1: Elements of a Researched-Based, Data Driven Intervention Model⁶

The BBACS Academic RtI process centers data-based decision making by incorporating the following key elements of an effective RtI program:

1. **Intentional and early universal screening:** As described above, diagnostic assessments and universal screening will be leveraged before Day 1 for all newly enrolled students to ensure the school is aware of the unique needs of all students.
2. **Ongoing and flexible progress monitoring:** As described further below, interventions will be tracked on a six-week cycle by the classroom teacher (supported by grade-level teams and the instructional leadership team) so that students receive the support they need—and have those supports adjusted when needed.
3. **Tiered instruction and strategic supports:** The instructional leadership and student support teams will leverage a system of intentionally designed supports according to a student’s identified tier of need so that students in need of additional support receive that additional support.

⁵ Melnerney, Maurice Ph.D., and Ana Elledge, Ph.D. *Using a Response to Intervention Framework to Improve Student Learning: A Guide for State and District Leaders*. American Institutes for Research. May 2013.

https://www.air.org/sites/default/files/downloads/report/Response_to_Intervention_Pocket_Guide_2_0.pdf.

⁶ National Center on Response to Intervention

Tier 1: High-Quality Instruction, Screening, and Group Interventions: The BBACS RtI framework begins with Tier 1— daily, high-quality, standards-based, core instruction in all classrooms that proactively addresses inequities and achievement gaps.⁷ The school’s evidence-based curriculum (described further in **R-06af & R-23b**), individualized approach to setting student goals, commitment to differentiated instruction, and daily opportunities for flexible, small group instruction are the cornerstones of effective Tier 1 instruction at BBACS, as further described by content area below:

- **Literacy.** BBACS recognizes that it is critical to provide a high-quality early literacy experience for all students to maximize the likelihood that all students will read on grade level before the end of third grade. BRICK also recognizes that many students need additional support to obtain grade level proficiency in literacy and has created a literacy program that can provide the targeted support that all students need to be successful. As a result, the BBACS program will provide a differentiated literacy component where students are able to work in small groups on different literacy tasks that are appropriate given their current literacy development. This means that all students, including struggling students, are receiving differentiated literacy instruction during each full-length school day, including differentiated support in phonics and in guided reading. However, at BBACS, students who are identified as being below benchmarks for achievement on the STEP literacy assessment or ongoing interim assessments may also receive one or more of the following supports:
 - **Family support.** BBACS will facilitate additional meetings with parents/guardians to discuss ways that families can support the development of early literacy habits at home (for example, by modeling fun strategies for how families can work to practice learning sight words with their children or by modeling how to practice specific foundational skills their child needs help with—like how to use cross-checking to identify unfamiliar words in a text when they know the first letter of that word and can use a picture to support its identification).
 - **Extended phonics support.** Students who are struggling to master grade level phonics content could be scheduled to participate in two Reading Mastery rotations with a teacher instead of one to receive that additional support. Students who continue to demonstrate challenges in learning grade level skills could then have an opportunity to receive support from their teacher on a more intensive intervention program during this time, such as Wilson Reading.
 - **Extended guided reading support.** Students who are struggling to master grade level comprehension skills could be scheduled to participate in two Guided Reading rotations with a teacher instead of one to receive that additional support.
 - **One on one support for K-2 students.** BBACS’s partnership with City Year will ensure that additional staff members are available to provide targeted one-on-one support to students in grades K-2. City Year staff members can support students who are struggling in reading in a variety of ways. For example, City Year staff can join the differentiated literacy instructional blocks to work one on one with a student during the time that is reserved for their independent work. During

⁷ <https://www.learningsciences.com/blog/core-instruction-improve/>

this time, the City Year staff member could partner-read a high-interest book with the student or partner-read Reading A to Z books with them that are on their independent reading level. City Year staff members could also provide more targeted support by, for example, supporting individual Kindergarten students to learn letter sounds or sight words that they still need to master. Since City Year staff members will also help facilitate before and after care for students, interested families could also receive additional help from these staff members during these programs.

- **Strategic pre-teaching:** Research shows that strategically pre-teaching content to students can be an incredibly high-leverage way to ensure that students are prepared to be successful during whole group instruction. As a result, BRICK can provide pre-teaching opportunities to students who are struggling. Since each K-2 classroom has two lead teachers, one of these teachers could facilitate the morning SEL block of instruction for students while the other teacher provides strategic pre-teaching for a student that has been struggling in their content area. This could involve, for example, a literacy teacher supporting a struggling student by previewing the comprehension skill of focus for the Strategic Read Aloud lesson later in the day, front-loading explicit vocabulary instruction on words the student will need to understand the text, or even partner reading the text before it is introduced in class.

Math. BBACS believes that all its students can master rigorous mathematics problems aligned to New York's grade level standards. At the same time, BBACS also recognizes that different students may need varying levels of support to master grade level content in mathematics. As a result, BRICK's program also includes a differentiated math component where students are able to receive differentiated support to obtain mastery of grade level mathematics content. Consequently, all students at BBACS will receive differentiated instruction in mathematics on each full-length school day. However, at BBACS, students who are identified as scoring 70% or lower on interim assessments in mathematics, or who perform significantly below the class average on any unit assessment, may receive one or more of the following supports:

- **Family support.** Additional family meetings to discuss ways that families can support the development of early math habits at home (for example, by working with Kinder families on how to practice counting to 100 by 1s, 5s, and 10s, with their students or how to encourage students to share their strategies for solving math problems on their nightly homework).
- **Differentiated I-Ready assignments.** Each math teacher will use the I-Ready program to assign additional mathematics practice to all their students. After each unit assessment and interim assessment, teachers will adjust the work assigned so that students have opportunities to work on the skills that they most need support with. As a result, all students, including struggling students, will receive access to additional practice opportunities with skills that they still need to master.

- **Small group targeted skill reteaches.** Math teachers also have the opportunity during the differentiated Power Up math block to plan reteach lessons that target high-leverage skills that small groups of students are struggling to master. As a result, a teacher could pull a small group of struggling students to provide additional instruction and support on a particular skill.
- **Homework club.** Each student at BBACS will receive a packet of homework to complete each week that is aligned to the content of what students are learning during their classes. As a result, students that need additional support in mathematics can receive additional support in completing their homework from a City Year staff member while other students are working independently on I-Ready assignments during the Power Up block. City Year staff members could also work one on one on with interested students to complete their homework during before or after care.
- **Strategic pre-teaching:** Just like in literacy, BBACS math teachers can also provide pre-teaching opportunities for students who need additional support during the morning SEL block. This could involve a variety of approaches, including, but not limited to, supporting a struggling student by previewing the mathematical skill of focus for the whole group math lesson later in the day, front-loading explicit math vocabulary instruction, or even practicing some example problems that students will encounter later in the day.
- **Additional academic monitoring or in-class support:** One key practice of BBACS will be academic monitoring, the process of ensuring that teachers strategically monitor the quality of student work so that they can adjust their instruction in the moment to accelerate student mastery. If a student is struggling in mathematics, the student could receive additional academic monitoring support from the co-teacher that is in the classroom during the math block. For example, during independent work time, the co-teacher could be assigned to strategically monitor and support a small group of students that are struggling to ensure they can receive more feedback and support to help aid in their mastery. If necessary, the co-teacher could also pull these students to the classroom kidney table and review more example problems with the small group to ensure mastery.
- **Structured peer support:** A key component of the Achievement First math program involves ensuring that students can work collaboratively with their peers to solve rigorous math problems. As a result, teachers are always encouraged to strategically partner students to ensure that each partnership is prepared to solve the problems of the day. If a student is struggling in math, that student could be assigned to partner with a strong math student so that they are able to receive support from a peer during each class period.

Tier 2: Targeted Interventions: If students do not make adequate progress with the supports provided in Tier 1 (e.g., scoring below appropriate STEP benchmarks at the Fall testing window and subsequent windows throughout the year, showing lagging progress on interim/benchmark assessments, or consistently scoring below 70% on unit assessments) they will be referred to the

Student Support Team (SST) for more intensive tracking and intervention. The SST will be made up of the following staff members when hired: the Principal, Vice Principal of Culture, the Director of Special Education, school social worker, Coordinator of English as a New Language ("ENL"), the School Psychologist and the Associate Dean of Culture. In addition, the SST will include rotating teacher representation. This team will partner with the identified struggling student's teachers and family to build an intervention plan and then track the efficacy of interventions over the intervention period. This period typically lasts 6 weeks and may not exceed 8 weeks. This team will also collaborate to identify the most appropriate Tier 2 supports for the student. At BBACS, Tier 2 supports are more individualized, targeting specific student needs, and can be delivered as push-in within the classroom or as pull-out in small groups or one-on-one.

Some examples of Tier 2 support at the school may include: modified activities for additional practice, individual work plans, additional time on assessments and/or assignments, preferential seating, tailored assignments via online learning platforms and/or additional opportunities for small group or individualized instruction. Tier 2 supports can also happen during guided reading rotations where an additional rotation is available for students requiring a smaller group, or more targeted instruction than what is offered in Tier 1. In addition, the Independent Learning Time block also allows for small group instruction based on goals. Teachers will track the frequency and duration of the intervention as well as student progress (or lack thereof) as result of the intervention in the school SST tracker. The SST will reconvene with the student's family at the end of the intervention period to review the efficacy of interventions and to determine the most appropriate next steps. Students who do not demonstrate adequate progress at this level of intervention are escalated to Tier 3 for more intensive interventions.

Tier 3: Intensive Interventions and Comprehensive Evaluation: At BBACS, Tier 3 interventions are more intensively tailored to the demonstrated needs of the identified student. BBACS expects that approximately 5-7% of its students will need Tier 3 supports over the course of any given school year. As with Tier 2 supports, interventions at this level will be tracked by the classroom teacher and designated members of the SST over the course of the intervention period, typically between 6 and 8 weeks. Students who do not achieve the desired level of progress in response to these targeted Tier 3 interventions are then referred, with the written consent of the parent, for a comprehensive evaluation and considered for eligibility for special education services under the Individuals with Disabilities Education Act (IDEA). The data collected during Tiers 1, 2, and 3 are included and used to make the eligibility decision. It should be noted that at any point in an RtI process, IDEA allows parents to request a formal evaluation to determine eligibility for special education. A RtI process cannot be used to deny or delay a formal evaluation for special education.

BBACS's identification of struggling students will not be limited to those experiencing academic difficulties but will also consider behavioral and social-emotional challenges that impact students' ability to succeed. BBACS will implement a similarly structured RtI protocol leveraging the data from the daily iDreamers behavior tracker to monitor and inform relevant support. The school social worker will also advise teachers in providing behavioral intervention and redirection and, in concert with the school leadership team, support teachers in the creation of behavioral support plans for individual students. Upon referral, the SST will closely monitor students' behavioral progress over the stated intervention window.

To support student behavior/social-emotional challenges, the SST will closely monitor student I-Dream scores as a key metric. As a result, the SST will be aware of which students are modeling the school values in class and which students would benefit from additional behavioral support. If a student's I-Dream scores indicate that they may need more support in class, the SST will initiate a process of identifying specific behaviors to address, conducting a root cause analysis, and establishing an intervention plan to support the student to make progress. This could involve a variety of strategies. For example, closely collaborating with a family to establish a system where a student earns rewards at home and school for reaching specific I-Dream score goals at the end of a day or week. It could also involve additional check-ins with the school social worker or a preferred adult during the day or adding the student to a social work group focused on developing positive social skills or anger management strategies. The SST would then monitor the impact of the intervention over time and adjust the supports provided as needed to ensure student success.

To support and maximize student attendance, the SST will monitor students' daily attendance data as another key metric. As a result, during the weekly meetings, the student support team will identify which students are not meeting the school's attendance targets. If a student is not meeting those targets, the SST would ensure that the school team is following through on its attendance protocols and contacting families to discuss attendance challenges. In addition, the SST would work collaboratively with the family to break down any other barriers to consistent student attendance (for example, by addressing a school transportation issue that is hindering attendance or enrolling the child in before or after school care to support the child to successfully be able to attend school each day).

To ensure fidelity in execution of the three tiers, all members of the BBACS school team will engage in regular professional development and coaching around the school's approach to RtI. As described further in **Response R-23b, R-06af & R-09ad**, during BBACS's Summer Institute, the principal and SST will lead sessions detailing the school's RtI framework, the referral process and relevant SST meeting protocols (described further below). The school's instructional leadership team will also lead sessions detailing Tier 1 and 2 instructional strategies, the school's data management platform, and how teachers can strategically embed intervention strategies into their lessons during the intellectual preparation process. Over the course of the school year, the school instructional leadership team will also provide regular observations of teachers and support staff with a prioritized focus on developing teachers' ability to support all learners through tiered strategies. Given BBACS's commitment to authentic partnership with its families, school leadership team members will also strive for ongoing family engagement at each stage of the RtI process.

The BBACS SST plays a critical role in ensuring that all students receive the ongoing support they need to be successful. SST meetings will initially be led by the BBACS Principal and then, over time, will be led by the Vice Principal of Culture. During these weekly meetings, the SST team will review the school's performance dashboard and performance disaggregated by sub-group to determine what additional supports need to be provided to individual students or subgroups of students. In addition, the team will review the status of support plans for students to ensure they are being implemented with fidelity and to determine what adjustments need to be made, if any, to ensure student success. As a result, the SST will prove to be instrumental in

helping to address issues that relate to student challenges with academics, behavior and attendance.

BBACS also recognizes that **interruptions in schooling, like those caused by COVID-19 can have a disproportionate impact on at-risk students, particularly students with special needs.** As a result, if instruction were interrupted due to COVID 19, BBACS would prioritize offering in-person classes first to its special populations, including students with special needs, ENL students, and students who are struggling. If BBACS had to pivot to virtual instruction at any point, the staff would continue to provide the tiered supports mentioned throughout this response through virtual platforms that allow for small group interventions (for example, via Zoom breakout rooms) and by scheduling individualized sessions with students when needed.

- *The process that the school will use to evaluate the efficacy of the program and ensure that the school is meeting the needs of these students.*

Program Evaluation

BBACS's instructional leadership team (the Principal, Director of Special Education, Coordinator of English as a New Language, Vice Principal of School Culture and Vice Principals of Instruction) will be responsible for working with the SST to monitor implementation of the RTI process and evaluating its impact. At least quarterly throughout the school year, all members of these two teams will meet to review the efficacy— inclusive of successes and identified opportunities for growth — of the existing Rtl process and protocols. The team will leverage STEP, interim assessment, internal grades, and mandated state assessment data, as well as behavioral and attendance data, to determine whether the Rtl process is being rigorously implemented and resulting in measurable student growth and performance. In addition, this team will also evaluate the extent to which students that enter the Rtl process are meeting the goals established for them as a part of this process. By analyzing the likelihood that the school will meet student's needs through the Rtl process, the team will be able to identify any gaps in the school's Rtl processes and develop action plans to address those gaps.

B. Students with Disabilities

Discuss the school's methods and strategies for identifying and serving students with disabilities in compliance with all federal laws and regulations. Please refer to Appendix B – Assurances Regarding the Provision of Special Education Services when creating this response as, if approved, the final charter will incorporate the assurances found in this document. Include:

- *A statement agreeing to abide by all of the assurances found in Appendix B of this RFP – Special Education Assurances;*
- *The process for identifying students with disabilities (child find), especially within the context of the school's RTI process.*
- *The resources, personnel (including administrative responsibilities), and direct and related services the school is likely to provide both within general education classrooms and in other settings (e.g., collaborative team teaching ("CTT"), Special Education Teacher Support Services ("SETSS"), speech therapy, physical therapy, occupational therapy, counseling,*

planning time, instructional materials, technology, professional development, staff and consultants, etc.) and a brief discussion about how specifically the school would ensure that students entitled to these services would continue to receive them in a remote setting;

- *Any research or evidence that supports the appropriateness of the school's approach to serving students with disabilities;*

Preparing for New York state

BRICK is deeply committed to ensuring that all students thrive. In keeping with this overarching organizational commitment, the BRICK network has thoughtfully refined its instructional approach to special education according to the learnings from its decade-long presence in the traditional public school turnaround space in New Jersey. At the same time, BBACS also recognizes that it will be critical to build its capacity to ensure that the team fully understands all compliance requirements associated with special education in New York state, including the nuances of working in Buffalo in particular. As a result, BBACS would use the incubation period to interview the Directors of Special Education at charter schools in Buffalo to ensure that it could update its internal special education processes and protocols to ensure that they meet the requirements of the state of New York and the SUNY Charter Schools Institute. For example, BBACS would like to create a checklist to guide the execution of quarterly internal special education audits to ensure ongoing compliance but would want to ensure that its checklist appropriately addresses the nuances of collaborating with the Buffalo Public Schools.

Serving Students with Special Needs

BBACS will comply with its obligations under the Child Find requirements of IDEA including 34 CFR § 300.125 and will provide appropriate notification to parents. Once a student is found to qualify as a student with a disability, the school will work with the BPS CSE to adhere to all applicable laws and regulations regarding implementation of services, including regular review of the IEP and student progress towards these goals. If a review reveals that the student's IEP is no longer appropriate to the child's needs, the SST (inclusive of the Director of Special Education and rotating teacher representation) will work with the BPS CSE to review, reevaluate, or adapt the IEP in order to best serve the student. The SST communicates all findings, recommendations, or changes in intervention with the child's family.

The school will also provide each family with the opportunity to disclose whether or not their student has an IEP or received qualifying services at a previous school(s). This form, which is distinct and separate from the initial application form, will be translated into the dominant home language of the family. The Director of Special Education will then be responsible for partnering with the Director of Operations to maintain and verify the accuracy of the student records for students with disabilities. Students not identified for qualifying services but with unmet needs will be supported through the school's RTI framework as previously described in **R-08a – Struggling Students**.

BBACS will provide a **Free and Appropriate Public Education (FAPE)** designed to serve all children identified to have disabilities under the law or whom it suspects to have such disabilities. The school will comply with all relevant state and federal law, including Title II of the Americans

with Disabilities Act of 1990 (ADA), the Individuals with Disabilities Act (IDEA), and Section 504 of the Rehabilitation Act of 1974. BBACS's philosophy is to provide the **least-restrictive environment** (LRE) for students with disabilities alongside their neurotypical peers through its general education program, which will be supplemented with individualized services according to each student's identified areas of need. BBACS will work to ensure that its supports for diverse learners do not isolate nor stigmatize students. Rather, the school will work to operate a meaningful inclusion model that ensures all students with disabilities have daily access to the general education environment. BBACS does not discriminate in its admission or enrollment practices against students having or suspected to have disabilities. The school is deeply committed to working in authentic partnership with the BPS Committee on Special Education (CSE) and any other relevant partnership organizations to ensure that its students with disabilities are meaningfully supported and receive all required services.

A brief summary of the school's supports for students with disabilities includes:

- Ensuring all BRICK Buffalo teachers receive ongoing, high-quality professional development and support related to supporting all students – inclusive of diverse learners and students with Individualized Education Plans (IEPs);
- Carefully evaluating, re-evaluating, and re-classifying students at regular intervals to ensure that students receive the targeted interventions they need;
- Collaborating closely with families and with the students themselves in the design and monitoring of their IEPs;
- Working with BPS to ensure that all necessary and appropriate transportation to and from school is provided;
- Connecting families with external services to support the mental and physical health of students when appropriate;
- Working with parents on strategies they can use at home to help their children succeed in school and in life;
- Aggressively recruiting and hiring highly qualified, experienced educators who have strong track records for raising the achievement for students with disabilities; and
- Supporting additional teachers to pursue special education certification to ensure that more teachers at BBACS are trained to provide additional support to students with disabilities.

Implementation of Services

BBACS will hire experienced and highly qualified special education staff to meet the needs of all students with disabilities. The school will also ensure that all special education staff carry the necessary certifications within the state of New York. Each special education teacher will be responsible for providing direct special education services to a caseload of students. Each special education teacher, with the support of the Director of Special Education, will also liaise with the BPS CSE and support compliance with all city and federal guidelines regarding serving students with special needs. The Director of Special Education will coordinate with all related service providers and support organizations that serve students and families to ensure necessary delivery of services. The Director of Special Education will also provide staff professional

development around serving students with disabilities; develop and review IEPs; keep all files related to student supports for this population; and coordinate with staff to support accommodation in classes (as described above).

BBACS is committed to offering various service delivery models to provide specially designated instruction to students with disabilities according to the provision of services outlined in students' IEPs, including **one integrated co-teaching classroom ("ICT") setting at each grade level** (consisting of a certified special education teacher and a general education teacher that work together to design and implement differentiated lessons and provide adapted student assignments as needed), **special education teacher support services ("SETSS")** to provide push-in and pull-out support, and **counseling**. Co-teaching models are well-established in research as an effective instructional delivery method to provide instruction to diverse students in an inclusive general education setting. "Research of inclusive classrooms where general education and special education teachers co-instruct indicates learning for students with learning disabilities is improved."⁸ The school will partner with the BPS CSE in determining the areas of exceptionality and work from a strength-based perspective in order to decide what instructional support is needed in order for the student to participate successfully in the general education curriculum. Related services and supports will be offered to the student, including accommodations and modifications that are directly designed to support the student in his/her general education class. The school will deliver specially designated instruction and related services to address specific skill deficits. Other services may or may not be provided in settings with nondisabled peers, depending on the needs of the student. Placement options are directly related to least restrictive environment ("LRE") decisions.

Staffing

The BBACS team believes that the knowledge and skills possessed by special education teachers regarding how to adjust instruction to meet the needs of students benefits all learners. As a result, the school will include a preference in its staff application process for general education teachers who are also special education certified. BBACS also recognizes that it may need to support some interested staff members to obtain these dual certifications and, as a result, BRICK is budgeting additional professional development funds to support teachers to pursue this certification and related training opportunities, such as Relay's Advanced Certificate in Special Education. The draft budget included as part of **R-21e - Budget template** includes funding to cover these costs on a contingency basis.

504 Plans

BBACS will provide FAPE designed to serve all children identified to have disabilities under the law or whom it suspects to have such disabilities. The school will comply with all relevant state and federal law, including Title II of the Americans with Disabilities Act of 1990 (ADA), the

⁸ Cramer, Elizabeth & Liston, Andrea & Nevin, A. & Thousand, Jacqueline. (2010). CO-TEACHING IN URBAN SECONDARY SCHOOL DISTRICTS TO MEET THE NEEDS OF ALL TEACHERS AND LEARNERS: IMPLICATIONS FOR TEACHER EDUCATION REFORM. *International Journal of Whole Schooling*. 6. 59.

Individuals with Disabilities Act (IDEA), and Section 504 of the Rehabilitation Act of 1974. The Director of Special Education will oversee the compliance and provision of services related to student 504 plans. Teachers will have the opportunity to review 504 plans and support required therein during summer professional development. The Director of Special Education will oversee the data review and parent communication systems for student 504 plans.

Confidentiality of Student Records

In accordance with state and federal provisions, BBACS will ensure that all student documentation—inclusive of physical student 504 plans, IEP files, reevaluation reports, annual reviews, progress monitoring, and teacher reports—will be kept in a locked file cabinet (with key under limited access to the Director of Special Education and the principal) in a secured office. Teachers will be able to access these physical files upon approval and provision by the Director of Special Education. All staff members who view said files will need to notate their review and reason for review within the filing system.

- *The services or settings that will be provided by the school district of the student's residency or through a third-party contract (pursuant to the Act);*

BBACS will coordinate occupational, physical, and speech therapies for eligible students through BPS; if such services are not provided in a timely and high-quality manner to meet the students' needs, BBACS will contract with third party providers. The draft budget included as part of **R-21e - Budget template** includes funding to cover these costs on a contingency basis.

- *The process for coordination between general education teachers and special education teachers or service providers.*

BBACS's Director of Special Education will oversee the implementation of programming for students with disabilities. S/he will also reinforce clear expectations for high-quality student support and will facilitate systems for efficient coordination between general education teachers, special educators, intervention staff, and City Year staff as appropriate to ensure all teaching and learning is optimized to meet students' diverse learning needs. For example, all teachers will be responsible for appropriately modifying their lessons to serve students with special needs. Teachers will receive training, each year, from the Director of Special Education on how to do this, and there will be specific expectations in their intellectual prep protocols for updating their lessons accordingly. In addition, special education teachers will have access to all of the intellectual prep work completed by teachers so that they can use this work to further customize lessons for the students that they serve if needed. All intellectual prep work by general education staff members will be completed before the end of the day on Thursdays for the following week so that special education staff can complete additional modifications to lessons on Fridays during their planning time. In addition to the digital sharing of intellectual preparation and lesson materials, teacher schedules will also include regularly scheduled meeting times to plan together

and discuss student progress. The Director of Special Education will also coach ICT teachers in the areas of understanding goals, responsibilities, and accommodations and in identifying effective instructional strategies to support their students with disabilities. In addition, the Director of Special Education will contribute to school-wide professional development for general education teachers on providing differentiation for struggling and special education students.

- *The process that will be used to monitor the achievement and progress of students with disabilities including how the school would do so in a remote setting.*

At BBACS, the principal will coach and supervise the Director of Special Education so that these two individuals can frequently collaborate to monitor the achievement and progress of students with disabilities. For example, the Director of Special Education and principal will monitor and evaluate the progress of special education students by analyzing disaggregated student performance data on major school-wide assessments. In addition, these two leaders will also review student progress towards individualized IEP goals as part of their ongoing check in structure. These leaders will also collect a combination of other quantitative and qualitative data throughout the year, including anecdotal notes, classroom observations, and common planning meeting notes to collaboratively assess the adequacy of programming for students with disabilities and to identify areas for supplementation. All of this data collection and analysis can also be done virtually, should BBACS need to conduct school remotely in the future.

- *The process that will be used to evaluate the efficacy of the program and ensure that the needs of these students are being met.*

The Director of Special Education will work to ensure that the school is in compliance with all local requirements and federal laws governing students with special needs by training staff on these expectations and then implementing an internal compliance monitoring system to ensure ongoing compliance. The Director of Special Education will also monitor and evaluate the efficacy of special education programming based on student performance in relation to their IEP goals—including any academic and cultural goals. In addition, the Director of Special Education will analyze the extent to which special education students are mastering grade level standards and meeting schoolwide culture standards as well as the progress made by special education students over time. For example, the Director of Special Education will monitor the rates of student growth of special education students on nationally normed assessments like the NWEA to ensure that special education students are receiving the academic support they need to thrive. The Director of Special Education will also oversee the professional development of staff in regard to serving students with special needs; monitor the collaboration between the special education and general education staff; observe classroom practices; and review discipline data to ensure that all students with special needs are receiving adequate support. BBACS will also regularly solicit feedback from staff on the efficacy of professional development they receive related to serving students with special needs and the effectiveness of collaboration between general education and special education teachers. The Director of Special Education will also analyze their performance data of students with special needs on a regular basis to gauge individual student

progress, as well as disaggregated by type of disability and the type of services provided, to ensure that all students are being served well by all staff members and services. The Director of Special Education will use this comprehensive data to gauge the overall effectiveness of the special education program.

- *Specific professional development for identifying, supporting, and evaluating the progress of special education students, including the implementation of RTI and behavioral intervention plans (“BIPs”) in the classroom.*

Building an Instructional Team Equipped to Support all Learners

BBACS is fiercely committed to ensuring that every student that crosses the threshold into the school receives a high-quality, college preparatory education that unlocks their fullest potential. Therefore, BBACS has identified ways to further supplement the traditional BRICK inclusion model to ensure the school is prepared to serve the students of East Buffalo. In particular, BBACS has decided to commit significant funds to employ a robust team to meet the needs of its diverse and most vulnerable learners, including a Director of Special Education, Coordinator of ENL, three special education teachers, an ENL staff member, a school social worker, a paraprofessional, and a psychologist. Further, BBACS recognizes the importance of continuously building upon the pedagogical skills of all teachers to ensure that all students with unique needs receive the targeted support they need to thrive.

Commented [1]: Check this against inal budget

The BBACS approach to teacher development is centered on how to meet the individual needs of all students, including special education students. All teachers participate in a summer professional development institute, attend weekly content meetings, and receive weekly coaching from an experienced administrator. Through these structures, all teachers are supported to learn and develop techniques that help them meet the individual needs of students. All teachers are also required to adjust their daily lessons and plan any small group instruction based upon the needs of their classroom, including their students with special needs. All teachers are also required to scaffold their lessons to ensure they shift the cognitive load to students. While these techniques are used with all students, they have also proven to effectively support special education students.

To ensure BBACS is able to deliver on this commitment, it understands that all teachers, not just special education teachers, must have a deep understanding of how to support all learners, including students with disabilities. As such, the instructional leadership and student support teams will design a comprehensive professional development scope and sequence (aligned with the teacher coaching model) dedicated to supporting students with disabilities and ensuring execution of student’s IEP provision of services with fidelity. During summer professional development the school’s principal and Director of Special Education will lead the special education related sessions. Examples of some of the past sessions led in this area include:

- The school’s approach to special education and understanding FAPE and LRE;
- Appropriately accessing, reading, and making sense of IEPs;
- The negative impacts of overidentification in Special Education and the BBACS RtI framework;
- Writing appropriate and effective teacher reports for student IEPs;

- Intellectual preparation to support all learners;
- The IEP meeting cycle – annual review, re-evaluations, and teacher reports;
- Building relationships with families of students with disabilities – the annual review and beyond;
- Effective collaboration to support student learning – general education teachers and special education teachers;
- Classroom strategies to meet the unique needs of new students.

English Language Learners

Discuss the school's methods and strategies for identifying and serving ELLs in compliance with all federal laws and regulations including:

- *The process for identifying students whose first language is not English and the methods for determining the scope of assistance that these students may need including how the school will ensure that they are not inappropriately identified as students with special education needs.*

BBACS will comply with all applicable and relevant federal and state education laws, including Title IV of the Civil Rights Act of 1964 and the Education Opportunities Act of 1974. BBACS will comply with the New York State Education Law 3204, Section 3, which sets forth protections for students speaking home languages other than English in educational settings. Based on an analysis of current demographics and school enrollment on the East Side of Buffalo and Buffalo Public schools, BBACS expects that approximately 13% of students will be English Language Learners (“ELL”)/Multi-Language Learners (“MLL”). With over 80 home languages represented within BPS enrollment, BBACS is deeply committed to providing an English as a New Language (ENL) program of the highest quality. The principal and Coordinator of ENL will be responsible for managing the provision of ENL programs, including teacher coaching, ongoing professional development, and coordination of ENL services and compliance.

BBACS will comply with all state mandated procedures for identifying students who qualify as ELL/MLL. The Coordinator of ENL will also oversee the Student Support and Operations team in requesting records from all students' prior schools. BBACS will include the Home Language Questionnaire (“HLQ”) as part of the school's initial enrollment packet. This packet is separate and distinct from the initial application for admission. If English is the only language spoken in the home as indicated on the Home Language Survey, the screening process need not continue.

If the home language is one other than English or the student's native language is one other than English, then an individual interview will be scheduled as part of the ELL/MLL screening and identification process. The interview will be conducted by an instructional staff member certified in Teaching English to Speakers of Other Languages (“TESOL”) in the state of New York (and supported by the Director of Special Education and/or principal as necessary). The interview of the student and the parent/guardian is conducted in English and/or when necessary in the native language of the family with support of a qualified translator from Journey's End. After the interview, the New York State Identification Test for English Language Learners (“NYSITELL”) will be administered no later than 10 days after the student's initial enrollment. If a

student is identified as a possible Student with Interrupted/Inconsistent Formal Education (“SIFE”), the SIFE questionnaire will also be administered.

Families will be notified of ELL/MLL eligibility in writing in their preferred language within 5 business days of ELL/MLL identification. The Student Support team will then hold a placement meeting, with a qualified translator available, to review ENL supports and services. After placement into ELL services, student achievement or progress in the English language is measured annually with the NYS English as a Second Language Achievement Test (“NYSESLAT”). The scores on the NYSESLAT indicate the proficiency level the student has achieved each year, and whether or not the student’s level of English proficiency is high enough to exit ELL services.

- *The approach, resources, and personnel (including qualifications and associated administrative responsibilities) the school will use to meet the needs of ELLs (both within general education classrooms and in other settings) including a brief discussion about how specifically the school would ensure that students continue to receive language acquisition supports in a remote setting, and*
- *The research and evidence that supports the appropriateness of this approach.*

BBACS’s education program is specifically designed to meet the needs of students with varying language capacities. The school’s strong curriculum, purposeful approach to inclusion – which provides constant opportunities for language learners to practice and internalize their interpersonal and academic language skills - and an extended school day and year will produce strong results. The significant increase in instructional time will ensure that ELL students receive significantly more hours of instruction to hasten their language acquisition. The National Center on Time and Learning finds that extended day school models, such as the one proposed by BBACS, have demonstrated positive effects on growth and achievement of ELLs.⁹ Their study highlights the following key strategies for supporting ELLs- each of which is embedded within the BBACS model:

- Extended Literacy Blocks,
- Designated Academic Intervention,
- Continual Support, and
- Teacher collaboration, planning and professional development.¹⁰

Teacher collaboration and planning will occur regularly, as teachers’ daily and weekly schedules include a significant number of prep periods; many of these periods will be used to collaborate and plan with different instructional teams, such as the ENL team. This will ensure that classroom teacher practice and lesson materials align with best practices for language acquisition and students’ progress is being monitored both inside and outside of the classroom. In addition, ENL teachers will also have access to all of the intellectual preparation materials produced by other teachers so that they can further adjust upcoming lessons to meet the unique needs of their students.

⁹ https://www.timeandlearning.org/sites/default/files/resources/ell_report_12.14.15.pdf

¹⁰ Ibid.

The ENL program will be overseen and supported by a Coordinator of ENL. The Coordinator is responsible both for providing direct services and for coordinating the program. BBACS will provide the Coordinator of ENL with a stipend and any release time needed each week to coordinate the program. Depending on the number of families served, BBACS estimates that this could take significant time because it will involve working closely with Journeys End to ensure ongoing school communication artifacts are appropriately translated for families. To ensure the highest quality services for students, this staff member will try to cluster students together in the same classrooms who speak the same native language to streamline service delivery. The Coordinator will also be responsible for providing training to all staff on the requirements for serving students who speak a language other than English, including how to adjust their lessons to integrate strategies that serve any ENL students in their class. For example, the Coordinator will also train teachers on how to adjust their lessons to best serve their ENL students as a part of their intellectual preparation protocols.

Every ENL teacher at BBACS will be TESOL certified in the state of New York. In year 1, according to enrollment projections, BBACS will hire one full-time Coordinator of ENL. In accordance with the findings of the 2010 report "Raising the Achievement of English Language Learners in Buffalo Public Schools"¹¹, BBACS will leverage a blended Structured English Immersion with additional MLL/ELL supports to ensure all students receive full access to rigorous standards-based education.

To support all learners, BBACS will ensure that teachers include a purposeful plan for ELL students in their lesson plans. The school-wide vision for literacy emphasizes strong text access skills in the lower grades (e.g. decoding, phonemic awareness, vocabulary development, oral language development, fluency) and reading comprehension/text analysis in the upper grades. All students at BBACS, inclusive of the MLL/ELL students, receive targeted, rigorous literacy instruction each day. Key elements of the school's approach to literacy within the general education program also intentionally reinforce ELL/MLL best practices. For example, BBACS will utilize the following the strategies that are supportive of all learners, and specifically ELLs:

- Explicit vocabulary instruction
- Dedicated extended daily blocks for literacy instruction
- Guided reading and close reading in the upper grades
- Focus on oral language development through habits of discussion
- Explicit phonics, decoding, and fluency instruction/drills daily in the lower grades
- Culturally relevant materials that reflect the cultures of the school's students in each classroom

To support MLL/ELL students, the school's ENL teachers will both "push-in" to core content classes throughout the day and "pull-out" MLL/ELL students for additional support and small-group intervention. Small group, or pull-out services, will be coordinated by the Student Support Team and led by a certified ENL teacher. During this time, students receive targeted instruction to supplement the supports within the general education classroom. Additionally, ENL teachers may also:

¹¹ <https://files.eric.ed.gov/fulltext/ED511361.pdf>

- Facilitate small group SEL morning meeting groups at times for students who speak a common language;
- Provide pre-teaching of key concepts and vocabulary that will help ENL students be more successful in the week ahead;
- Help students complete homework during their independent time;
- Enlist the help of City Year staff members as described above.

If BBACS has to transition to remote instruction, the school's ENL staff will ensure students receive uninterrupted language acquisition supports through a virtual learning platform on school-provided devices. ENL teachers will provide push-in support into virtual classrooms and provide pull-out services in breakout rooms to target specific skills.

- *The process for coordination between general education teachers and staff serving ELLs and professional development for general education teachers serving ELLs.*

BBACS teacher schedules will include regularly scheduled meeting times to plan together with ENL staff to discuss student progress. These meetings will be added to teacher schedules each year based on the needs of the students in their classrooms. In addition, ENL staff will participate in intellectual preparation meetings to ensure they are closely collaborating with each classroom serving students who are learning English as a new language so that lesson plans and activities are appropriately modified to support their success. The Coordinator of ENL will also coach the ENL teacher in the area of understanding goals, responsibilities, accommodations, and identifying effective instructional strategies. He or she will also deliver school-wide professional development for general education teachers on providing language acquisition supports to students who are learning English as a new language.

- *The process that will be used to monitor the achievement and progress of ELLs including exit criteria.*

BBACS will use Pearson's Stanford English Language Proficiency Test (SELP 2) to maintain data and track growth for students receiving English Language intervention. SELP 2 is a research-based, computerized assessment aligned to the Common Core and WIDA standards and is used to predict students' preparation for state language assessments by evaluating listening, reading, writing and speaking skills.

Each week the ENL team will share student progress updates from small group instruction with the general education team. During staff PD sessions and/or SST meetings each week, general education teachers and ENL teachers will review disaggregated student data to track the academic progress of MLL/ELL students and discuss strategies for support during Tier 1 instruction. BBACS staff will not conflate the need for language support with the need for literacy remediation or special education services, but ELL students will be eligible for RtI for explicit content area tutoring. Further, the staff will exercise caution against misidentifying ELLs for

disabilities and consider the following research-based factors¹² prior to making a referral for a special education evaluation:

1. Consider Environmental Factors First.
2. Consider the Whole Child: Use Guiding Questions to Build a Body of Evidence.
3. Consider Student Strengths During Meaningful Activities.
4. Consider Student Progress in Relation to the Progress of Similar Peers.
5. Consider How to Intentionally Foster Successful Interdepartmental Collaboration.

Internally, BBACS will evaluate ELL student performance on standards-based interim assessments and growth in reading level to ensure that these students are making regular progress in comparison with their peers. The Coordinator of ENL will oversee compliance with all city, state and federal laws and regulations with regard to serving MLL/ELL students.

BBACS students will exit ENL programming when they score at the Commanding/Proficient level on the NYSESLAT exam. BBACS will continue to provide its 'former ELL' students with instructional support services and testing accommodations on state exams for two years.

- *The process that will be used to evaluate the efficacy of the program, instructors, and ensure that the needs of ELL students are being met.*

To evaluate the effectiveness of the ENL program, the principal, Director of Special Education, and Coordinator of ENL will disaggregate student performance data to review ELL/MLL student progress on assessments on a regular basis and to make curricular and/or instructional adjustments accordingly. BBACS will also stay in close contact with its MLL/ELL students' families to keep them informed of students' rate of progress, strengths, and weaknesses, enable them to make informed decisions, and to solicit their feedback, questions, and concerns about the programming offered by BBACS. In addition, like the Director of Special Education, the Coordinator of ENL will also implement an internal compliance audit system to ensure that the school remains in compliant with all state and federal regulations related to supporting students who are learning English as a new language.

- *How the school will make all necessary materials available to parents of ELLs in a language that they can understand.*

Family involvement is crucial for the success of ELL students at BBACS. Families will be consistently updated on their children's progress and notifications will be written in each family's preferred language. These translation services will be provided through the school's partnership with Journey's End. As needed, the school will also obtain interpreters for all family conferences.

- *How the school will make after school and other extra-curricular programming accessible to ELLs.*

¹² <https://wida.wisc.edu/sites/default/files/resource/FocusOn-Identifying-ELLs-with-Specific-Learning-Disabilities.pdf>

BBACS will utilize translation services through its partner, Journey's End, in order to ensure that parents/guardians are aware of after school and any other extra-curricular programming. The Coordinator of ENL and ENL teachers will also conduct direct outreach to families regarding opportunities; he/she will also support enrollment in these activities as needed.

d. Gifted and Advanced Students

Discuss the school's methods and strategies for identifying and serving students who are academically advanced and/or gifted and at risk of not being adequately served including:

- *How the school will identify advanced and/or gifted and talented students.*

BBACS will use the BRICK Education Network's *Road To Success* system in which all students transition through a battery of academic and social and emotional learning diagnostics. Based on the data, students who exhibit exceptional skills on the diagnostics are provided additional resources throughout the year in the classroom and outside of the classroom to support their development. In addition, the school will constantly look for students who are gifted but may be underperforming due to particular circumstances, such as boredom from a lack of being challenged in their classes.

- *Strategies and programs the school will use within general education classrooms and in other settings to accelerate learning for advanced and gifted and/or talented students including how the school would implement these strategies in a remote setting.*

BBACS's individualized academic model is tailored to support gifted students through existing pedagogical approaches, especially when those approaches are modified to support students to take ownership of accelerating their own learning. Examples of how these existing approaches will be adjusted to meet the needs of gifted students are described below:

- **Small group instruction.** BBACS teachers already plan for small group instruction in math and literacy based on student assessment data, ensuring that the content and strategies of this instruction is tailored to the unique needs of each group. BBACS will utilize these differentiated structures to allow gifted students to tackle above-grade level work (for example, by planning an above grade level novel study to support gifted students during guided reading). Small group instruction can also take place virtually, should BBACS need to transition to remote instruction at any time, utilizing Zoom and breakout rooms.
- **Individualized learning.** During independent learning time in the upper grades, students are also provided opportunities to work either in small groups or individually toward specific, tailored goals. During this time, students needing more academic challenge can access extended opportunities for project-based learning to promote critical thinking and middle school readiness skills. These assignments could also extend beyond independent time in the classroom into after school clubs facilitated by City Year staff members. BBACS staff will solicit ideas from students and families to inform specific offerings based on interest, but some examples may include: students working on engineering design challenges from the FOSS curriculum that are not already given to all students, having

students complete supplemental computer science work, such as the Code.org modules, and/or having students complete extended projects to reinforce social studies content, such as producing videos about their experience in Buffalo as part of the “My Home is Buffalo” unit.

- **Online adaptive technology:** At BBACS, students will also have daily access to online adaptive learning technology to meet their individual needs. Teachers monitor progress, provide feedback as necessary and tweak the online platform to better meet the needs of students. As a result, these programs independently, and with teacher assistance, can adjust to ensure gifted students receive access to above grade level coursework. For example, a math teacher could assign their gifted students above grade level work in I-Ready and then meet with small groups of gifted students to support their efforts to complete this work and to provide any necessary assistance.

R-09ad - Instructional Leadership

a. Instructional Leadership Roles

Describe instructional leadership in the school over the first five years of operation including:

- *Specific roles and responsibilities of the personnel who would provide instructional leadership in the proposed school;*
- *The process and criteria for identifying and selecting instructional leaders including how such criteria aligns with the school's educational philosophy and mission; and,*
- *How instructional leaders will monitor the effectiveness of the academic program and at risk students' academic performance.*

BBACS recognizes that strong instructional leadership is essential to the success of a charter school. Strong instructional leaders can support the development of teachers to ensure classrooms are joyful and academically rigorous, which will help ensure that all students develop the knowledge and skills necessary to be college, career and life ready upon graduation. As a result, having a strong plan for identifying, training and empowering instructional leaders is essential to fulfilling the BBACS mission. Consequently, the BBACS staffing model includes instructional leadership roles that are critical to the success of the school during the five year charter term. These instructional leadership roles are named and briefly described in Table 9a.1 below.

Table 9a.1 Instructional Leadership Responsibilities

Instructional Leader	Responsibilities
Principal	<p>The Principal is the academic and cultural leader of the school and will report directly to the Board of Trustees. He or she is responsible for the overall performance of the school. The principal serves as the school's primary instructional leader and will manage the day-to-day delivery of instruction and the implementation of the school's culture plans to build and sustain strong student and staff culture.</p> <p>Their primary responsibilities include:</p> <ul style="list-style-type: none">● Deeply internalizing New York state standards and expectations for schools to ensure that the school can remain focused on student learning and compliant with all expectations from the SUNY Charter Schools Institute, the state of New York and the federal government;● Establishing and maintaining a strong school culture that supports high levels of student achievement, aligns to the school's values, and inspires stakeholder investment;

- Setting the school calendar and instructional schedule for all grades;
- Managing the other instructional leaders by providing support and feedback on their work deliverables and coaching responsibilities;
- Overseeing all professional development activities for school staff to ensure their ongoing growth and ability to meet the school's performance goals;
- Driving assessment administration, data analysis, and action planning throughout the year;
- Ensuring that all stakeholders (students, family, board members, staff, partners and community members) have a positive experience with the school and are kept abreast of the schools' goals and progress.

BBACS principals are also expected to serve as model instructional leaders by personally executing high leverage instructional leadership practices to model these practices for other campuses leaders and to support other campus instructional leaders to build expertise in these practices.

BRICK Buffalo's Principal will model effective instructional leadership in a variety of ways, including, but not limited to:

- Facilitating a weekly school leadership team meeting designed to review the school's data dashboard and annual priorities to inform the setting of short-term priorities at the campus and to set direction for other leaders;
- Modeling high-quality coaching and development of teachers using BRICK's coaching frameworks (including the execution of planning meetings, observation feedback meetings and weekly data meetings);
- Supervising and coaching members of the instructional leadership team to ensure that they are prepared to execute their roles successfully and have the necessary tools and supports to do their jobs well;
- Leading the weekly student services team meeting, which will focus specifically on disaggregated subgroup performance data, a review of individual student support plans, and associated instructional strategies and adjustments;
- Determining the focus of school based professional development sessions; developing content for those sessions; leading those sessions to model effective adult learning practices or supporting other leaders to deliver high-quality PD as needed;
- Conducting frequent school walkthroughs to progress monitor student culture and the quality of teaching and learning and to identify next steps to strengthen student culture and instructional delivery;
- Modeling the cultural and academic expectations of the school and BRICK by living and embodying the school's mission and values.

<p>Vice Principal of Instruction (Year 1, 1 FTE; Years 3-5, 2 FTEs)</p>	<p>Vice Principals of Instruction serve as coaches and content area supervisors (specifically by leading K-5 mathematics and science instruction or by leading K-5 literacy and social studies instruction). Vice Principals are expected to have deep personal mastery of effective instructional practices in the content areas in which they lead and coach, a mastery of the BRICK education approach in that content area, and a deep knowledge of the New York state standards and assessments.</p> <p>Their responsibilities include:</p> <ul style="list-style-type: none"> ● Supervising up to 15 teachers in their specific content areas; ● Coaching and developing teachers on their instructional practices; ● Implementing high-quality externally validated curricular resources and adapting them, as needed, to ensure strong alignment with New York standards and the needs of the specific students served; ● Serving as a data-driven leader, including by conducting analysis of student learning in their content areas of focus and creating follow up action plans to improve achievement; ● Participating in, and leading, aligned professional development opportunities.
<p>Vice Principal of Culture (Years 2-5, 1 FTE)</p>	<p>The Vice Principal of Culture ensures that the school environment provides a safe space for children to explore their identities, develop social emotional intelligence, and achieve their academic goals. The Vice Principal of Culture is responsible for implementing the school’s Code of Conduct as well as the expectations stated in the school’s Parent and Family Handbook.</p> <p>Their responsibilities include:</p> <ul style="list-style-type: none"> ● Ensuring high-quality implementation of the school’s social and emotional learning program; ● Ensuring that each classroom reflects the school’s expectations for student learning and engagement; ● Implementing the school’s Code of Conduct as well as the expectations stated in the school’s Parent and Family Handbook, including by creating and or maintaining school culture systems; ● Coaching the school’s specials teachers (including the physical education teacher and fine arts teachers), including by conducting observation and feedback coaching sessions and supporting their ability to successfully internalize and adapt BRICK’s curriculum resources; ● Supporting teachers with classroom management and engagement, which may include, but not be limited to, providing intensive classroom management support to a teacher who needs assistance, helping to redirect students, or

	<p>meeting collaboratively with families to build partnerships to support student success in school.</p>
<p>Coordinator of ENL</p>	<p>The Coordinator of ENL will work to provide direct services to students who are learning to speak English as a new language and to ensure that the school meets all state and federal requirements related to serving these students. As a result, the Coordinator of ENL plays a pivotal role in modeling how to serve these students and in training other staff members how to serve these students successfully.</p> <p>Their responsibilities include:</p> <ul style="list-style-type: none"> ● Delivering professional development sessions to educate the entire staff about state and federal requirements and best practices to support ENL students; ● Modeling strong, research-based instructional practices in their own delivery of services to ENL students (including in how they plan for their lessons, how they collaborate with teachers to ensure strong preparation and lesson delivery, and how they use data to inform their instructional planning and execution); ● Collaborating with the school leadership team each year to adjust the school’s intellectual preparation protocols to ensure that all teachers are customizing their planning to ensure they meet the needs of the school’s ENL students; ● Strategically scheduling ENL students to ensure effective ongoing service delivery; ● Supervising and coaching any additional ENL staff members; and ● Building strong relationships with ENL students and their families and ensuring these students have the support they need to achieve their goals—and that their families receive any critical support services necessary to support their engagement with the school, including all required translation services. <p>The Coordinator of ENL position will require a master’s degree and the ability to meet all state and federal guidelines to be fully licensed at the “High Qualified” ESSA level.</p>
<p>Director of Special Education</p>	<p>The Director of Special Education will work to provide direct services to students with special needs and will ensure that the school meets all state and federal requirements related to serving these students. The Director of Special Education plays a pivotal role in modeling how to best meet the needs of special education students and in training other staff members how to serve these students successfully.</p>

	<p>Their responsibilities include:</p> <ul style="list-style-type: none">● Delivering professional development sessions to educate the entire staff about state and federal requirements for supporting students with disabilities and best practices to support students with disabilities.● Modeling strong, research-based instructional practices in their own delivery of services to special education students (including in how they plan for their lessons, how they collaborate with teachers to ensure strong preparation and lesson delivery, and how they use data to inform their instructional planning and execution);● Collaborating with the school leadership team each year to adjust the school’s intellectual preparation protocols to ensure that all teachers are customizing their planning to ensure they meet the needs of the school’s special education students;● Strategically scheduling special education students to ensure effective ongoing service delivery;● Collaborating with the Buffalo Public Schools to ensure high-quality administration of the special education program, including the timely identification and evaluation of students who may need additional special education support and the provision of appropriate services to ensure compliance with student IEPs and student success;● Leading weekly special education compliance meetings focused on IEP services, goals, and requirements;● Conducting differentiated professional development sessions for all special education teachers;● Supervising and coaching any special education staff members; and● Building strong relationships with special education students and their families and ensuring these students have the support they need to achieve their goals—and that their families receive any critical support services necessary to support their engagement with the school. <p>The Director of Special Education position will require a master’s degree and the ability to meet all state and federal guidelines to be fully licensed at the “High Qualified” ESSA level.</p>
--	---

Network Supports for Instructional Leadership

BBACS believes that its partnership with the BRICK Education Network will ensure that the school’s instructional leadership team is able to receive significant additional training and support. While Buffalo charter schools have historically relied on their own founding teams for instructional leadership, BBACS will be able to benefit from extensive coaching support from BRICK content specialists that would simply not be possible for new independent charter schools with smaller teams. BRICK’s network academic directors have a wide variety of expertise—

including expertise in core content instruction, student culture and restorative practices—and a track record of effectively supporting instructional leaders. For more information on the prior experience of BRICK’s academic directors, please see **R-23b - Supplemental Attachments**.

In addition, BRICK recently added Jeremy Esposito as the BRICK Buffalo Regional Director of Instruction/Superintendent to its team. Mr. Esposito brings 16 years of education experience to the team. He has been a teacher, a coach, a school leader, a founding principal and a regional leader—all within the charter sector. He is also an adjunct faculty member at the Relay Graduate School of Education where he has significant experience training principals in the areas of strategic planning, data driven instruction, coaching adults and leading professional development. For more information on Mr. Esposito’s prior experiences see **R-23b - Supplemental Attachments**. In this role, Mr. Esposito will be responsible for working with the BBACS Board to provide ongoing coaching and supervision to the BBACS principal. Mr. Esposito is based in Buffalo and will be fully dedicated to supporting the needs of BBACS. As a result, the BBACS Principal will be able to receive ongoing professional development support based on their specific developmental needs. Some of the specific ongoing development experiences planned for the BBACS principal include:

- Extensive and targeted summer professional development designed specifically for principals that includes training on all aspects of the BRICK model and implementation support relative to the principal’s individual needs;
- Weekly coaching sessions with the BRICK Buffalo Regional Director of Instruction/Superintendent to review school performance data and receive coaching targeted to the needs of the school at that time of the year/based on the school’s developmental needs;
- Weekly check in meetings with a BRICK academic director to assist with deepening their expertise in a priority content area (such as the Director of Elementary Literacy if the principal is coaching literacy teachers during the first year of operation)
- Monthly content specific school reviews throughout each school year that are led by BRICK academic directors to assess the strength and areas of growth for a specific part of the academic program (such as elementary literacy instruction, special education or school culture).
- Collaborative training sessions with the BRICK Buffalo Superintendent and/or BRICK academic directors to analyze the results of priority assessments and develop action plans for how to continue to strengthen instruction in that content area

The Vice Principals of Instruction and Culture are also a vital part of the school’s Instructional Leadership Team. They will work in conjunction with the principal to provide high-quality coaching, support, and direct supervision to BBACS teachers. As a result, Vice Principals can have a significant impact on the quality of instruction students receive. Consequently, the BRICK Education Network will also provide ongoing professional development for all VPs of Instruction and Culture. Some of the specific ongoing development experiences planned for the BBACS Vice Principals include:

- Extensive summer professional development that prepares them for success in their role, that is content area specific, and that is aligned to BRICK protocols and resources. (for

example, a VP of Instruction that will coach literacy teachers will receive significant support from the BRICK Elementary Literacy Director, including sessions designed to train them on all aspects of BRICK’s approach to literacy as well as additional content area training sessions from the Lifelong Learners curriculum team to deepen their understanding of elementary literacy content);

- Weekly check-ins with the BRICK academic director that leads their content area of focus that involve collaboratively observing classrooms in the focus content area, identifying action steps for the teachers observed and planning professional development based on teacher needs and observations;
- Periodic school reviews conducted in tandem with other school and network leaders focused on identifying key strengths and areas of growth for the school’s instruction in the content areas they supervise, and identifying major areas for development moving forward;
- Opportunities to collaboratively build action plans with their BRICK academic director that are designed to leverage the school’s academic systems (such as walkthroughs, coaching sessions and professional development session) to address major areas of development for teachers in their focus content area;
- Opportunities to participate in weekly content planning meetings led by the relevant BRICK academic director that model the facilitation of a high-quality planning meeting;
- Monthly opportunities to engage in communities of practice with other BRICK Vice Principals to learn new skills, share best practices, and troubleshoot current challenges with a cohort of supportive colleagues.

Supporting Special Populations

BBACS is committed to ensuring that it can serve a population of students that reflects the community served. As a result, all instructional leaders must make strategic efforts to ensure that they are supporting the school’s special populations, including economically disadvantaged students, students with disabilities and students who speak English as a new language. In addition, BBACS also believes that it is critical to ensure that the school also has additional instructional leaders who are specifically focused on the success of these students. As a result, BBACS has updated the standard BRICK model to ensure that the school can hire a Coordinator of ENL and a Director of Special Education during the first year of operation. Some of the specific ongoing development experiences planned for these instructional leaders are described in Table 9a.2 below:

Table 9a.2 Supports for Instructional Leaders Focused on Special Populations

<p>Supports for both the Director of Special Education and Coordinator</p>	<ul style="list-style-type: none"> ● A weekly one on one check in with the BRICK Network Director of Special Education to review performance goals and provide targeted assistance.
--	--

of ENL	<ul style="list-style-type: none"> ● Support in implementing an internal audit system for their functional areas that is designed to ensure ongoing compliance with federal and state requirements. ● The creation of standard professional development sessions that can be turnkeyed for the BBACS campus based on ongoing compliance requirements (such as trainings related to staff confidentiality). ● Additional leadership development training opportunities (such as the ability to attend internal PD delivered to Vice Principals or School Leaders that is relevant to their role or relevant external PD, such as the ability to participate in the Relay Graduate School of Education’s Inclusive Schools Leadership Institute)
Additional Supports for the Director of Special Education	<ul style="list-style-type: none"> ● Comprehensive training on the legal requirements for serving students with disabilities
Additional Supports for the Coordinator of ENL	<ul style="list-style-type: none"> ● Comprehensive training on the legal requirements for serving students who are learning English as a New Language.

Instructional Leader Selection

- *The process and criteria for identifying and selecting instructional leaders including how such criteria aligns with the school’s educational philosophy and mission; and,*

External candidates

BBACS will implement a rigorous, five-step process to select all of its employees. This process will involve an application review, phone interview, project submission, live interview and reference checks. This process is described at length in *R-12 Personnel*. However, BRICK’s standard five-step hiring process also includes the flexibility necessary to ensure that each candidate can be evaluated based on their readiness for the particular position they are applying for. Since instructional leadership is critical to the school’s ability to accomplish its mission, BRICK has invested significant time and resources over the last year to partner with the BBACS Board and to update the processes for selecting instructional leaders for Buffalo in particular. That internal work led to the creation of a clear, aligned vision for the leadership qualities that would make a leader successful at BRICK Buffalo—as well as clarity on the prior knowledge, skills and experiences leaders should possess to ensure they are prepared to thrive as BRICK principals.

BRICK then codified this work by creating BRICK's School Leader Readiness Criteria. The specific criteria can be found in **R-23b - Supplemental Attachments**.

Producing the BRICK School Leader Readiness Criteria, led the team to identify core competencies that all future instructional leaders must demonstrate. Each of these core competencies is described below:

- **Aspiration and self-awareness.** Candidates must be highly reflective and personally committed to serving in a leadership role to advance educational equity.
- **Professionalism.** Candidates must bring a high-level of personal organization and serve as models of professional behavior (for example, they arrive on time, meet deadlines, follow through on commitments, etc...).
- **Adult leadership.** Candidates must have already held leadership positions and have demonstrated the ability to achieve ambitious student achievement and culture goals.
- **School alignment.** Candidates must be invested in the models and structures that the school uses and able to explain how those structures help to promote and sustain high levels of achievement and family satisfaction.
- **Cultural presence.** Candidates must have successful prior experience leading large groups of students and working closely with families; they demonstrate mission alignment and a community-focused approach.
- **Academic knowledge.** Candidates must have successful prior academic experience that can translate into success in their role (for example, successful former experience as a math teacher if they are applying to become a Vice Principal of Instruction for K-5 math and science).
- **Staff investment.** Candidates must have strong references from individuals that they have worked with previously, including individuals that have managed them *and* individuals that they have led.
- **Community fit.** Candidates must have relevant experience with, knowledge of, and a commitment to the East Buffalo community that the school intends to serve.
- **A belief in all BBACS students.** Candidates must possess an unwavering belief that all BBACS students, including students who are economically disadvantaged, students with special needs, and students who are new to learning English, are assets to the school community and can achieve ambitious academic and social goals each year.

In addition, BBACS and BRICK identified two additional competencies that were essential in identifying and selecting the Coordinator of English as a New Language and the Director of Special Education. Those additional competencies are described below:

- **Knowledge of Compliance and Pedagogy.** Candidates for these two leadership positions must possess a deep knowledge of New York state and federal requirements for their areas of coordination. They must also understand best practices in providing instruction for students in their areas of expertise as well as a deep understanding of how to leverage different models of co-teaching to support all learners.

- **An ability to build strong partner relationships.** Candidates for these two leadership positions must be able to build and maintain strong relationships with outside partners, including BRICK’s ecosystem partners and the Buffalo Public Schools, to ensure students receive the support services they need to thrive.

BRICK’s School Leader Readiness Criteria also provides a clear continuum to help BRICK and BBACS identify what prior experience a candidate should be able to demonstrate before being offered a particular leadership role. Table 9a.3 provides an example of how the criteria helps to distinguish how one of the competencies named above could be applied differently for leaders seeking more senior leadership positions. For example, while a Vice Principal candidate may only need to have demonstrated that they have led a grade level or department to achieve its goals, a principal candidate must demonstrate that they have led a group of stakeholders around a schoolwide initiative that demonstrates impact on student achievement requiring him/her to establish a schoolwide vision, create a strategy, and measure outcomes.

Table 9a.3 Example of School Leader Readiness Criteria

Team Members’ Name:		Current Role:		Potential Next Role:	
THE 7 LEADING FOR LEARNING ACTIONS OF HIGHLY EFFECTIVE SCHOOL LEADERS Aspiration and Self-Awareness 1) Set vision and goals	Teacher to become GLL, ILTL, or Course Lead <i>(criteria that a teacher should demonstrate to move into a teacher leader role)</i>	Teacher Leader to become novice AP <i>(criteria that a teacher leader should demonstrate to move into an Assistant Principal role)</i>	Novice AP to become Experienced AP <i>(criteria that a novice AP should demonstrate to be characterized as 1-year-away from school leadership)</i>	To become Principal/School Leader <i>(criteria that an experienced AP should demonstrate to move into the School Leader role)</i>

Immersion Days

BBACS has also partnered with BRICK to develop an immersion day process to select instructional leaders. These immersion days provide the additional time necessary to assess the extent to which each leader possesses the competencies and successful prior experience described in the BRICK School Leader Readiness Criteria. These rigorous days ensure that leaders participate in a variety of tasks and interviews to demonstrate their readiness. For example, recent Principal immersion days have included tasks like asking prospective principal candidates to deliver a presentation to share their leadership story and rationale for wanting to serve as a BRICK principal in East Buffalo; submitting a project that requires future leaders to watch a

sample lesson video and then plan and practice a follow-up coaching conversation with the teacher; as well as participate in a panel interview with senior BRICK leaders.

In future years of the charter term, internal leaders would participate in the same processes, and be measured against the same readiness criteria, when applying for a leadership position at the school.

Alignment to Philosophy, Mission

BBACS recognizes that it is responsible for having a rigorous selection process to identify talented, mission-aligned staff members who are passionate about closing the opportunity gap in Buffalo. As a result, BBACS is committed to ensuring that its interview processes assess a candidate's alignment to the school's philosophy and mission. Some of the specific ways that BBACS believes its process aligns to the school's philosophy and mission include:

- **By modeling high expectations.** BBACS wants to create a school that is capable of supporting the students on the East Side of Buffalo to achieve at the highest levels; as a result, the school plans to hold high expectations for its staff members to ensure that they are able to provide strong support to students. Consequently, BBACS has intentionally worked to ensure that its selection process is rigorous—not only so the best candidates are selected—but also so that candidates understand the level of commitment required when working at BBACS.
- **By assessing alignment through scenario-based questions.** BBACS also has created its interview process to ensure that candidates are aligned to the school's vision, mission and values and supportive of its key design elements. For example, the interview process provides candidates with scenario-based questions related to student discipline to ascertain whether or not the candidate is committed to BRICK's restorative approach to discipline rather than exclusionary disciplinary practices. In addition, the school's interview process will also ask teachers to describe how they would plan to deliver culturally responsive instruction to students so that the team can ascertain whether or not their approach aligns with the perspective of BBACS.
- **By having an inclusive interview process.** BBACS wants to create a school that is deeply rooted in the East Buffalo community and provides students with a culturally responsive education. As a result, the school plans to include community representatives in live interview panels after the school is launched. BBACS believes that families possess a wealth of knowledge about their community, and their children, and can provide valuable perspectives in evaluating the extent to which prospective staff members can support their children.
- **By understanding commitment to the community served.** BBACS has also added a selection task to the immersion days that requires candidates to deliver a presentation on why they would like to lead a BRICK school in East Buffalo in particular. While many charter networks may not be rooted to their communities, BRICK is different. Their extensive community involvement in the South Ward of Newark, including their efforts to serve as an anchor institution for a federal Promise Neighborhood, demonstrates their commitment to the community surrounding their school. Since BBACS wants to replicate

this community-focused approach, it also wants to identify instructional leaders who share its commitment to both school excellence and community development.

How instructional leaders will monitor the effectiveness of the academic program and at risk students' academic performance.

Instructional leaders monitor the effectiveness of the academic program through formal and informal observations and during leadership and teacher data meetings. The schedules of the school's instructional leaders were built to ensure that they can spend significant time observing teacher classrooms to monitor the effectiveness of the academic program—and to provide teachers with related coaching support. In addition, the school will hold a weekly leadership team meeting where school leadership team members discuss the school's performance goals and current academic data, information from classroom observations and coaching, and student culture (such as attendance metrics and iDREAM character scores) to ensure that the school's short-term priorities are focused on improving the school's ability to achieve its goals. Instructional leaders also hold frequent data meetings with the teachers they manage, including after all major assessments, to ensure they are aware of student performance and can support teachers to identify strategic ways to improve performance. Across all of these data analysis and action planning structures, instructional leaders analyze both data for the entire student population and data disaggregated by subgroups (such as data specifically for economically disadvantaged students, students with special needs, and students who are learning English as a new language) to ensure that the school is meeting the needs of all of its students and adjusting its academic program as needed to maximize student success. More details regarding the strategies BRICK Buffalo's instructional leaders use to monitor the efficacy of the academic program can also be found in ***Response-6af Curriculum and Instruction.***

B. Teacher Support and Supervision

Describe the school's approach to ongoing individual teacher supervision and support including (but not limited to) coaching and feedback systems and supports to ensure high quality instructional planning and implementation.

BBACS believe that staff development is crucial to excellent instruction. At BBACS, **teacher support and supervision** occurs via a continuous cycle of coaching and feedback. This cycle begins with a **goal-setting** process at the start of each school year. Instructional leaders, including the principal, Vice Principals, Director of Special Education and Coordinator of ENL, will meet with the teachers they manage to clarify each teacher's performance goals and how they connect to the school's overall goals. In addition, instructional leaders will work with each of their teachers to identify specific teacher development goals that are aligned with BRICK's Best Practices and

the Danielson Framework¹. These performance and development goals then serve as the basis for each teacher's individual professional development plan (IPDP). The IPDP will then help to guide future coaching throughout the year. For example, the instructional leader will work to provide relevant coaching and development opportunities that align to the teacher's needs as stated in their plan. Both the instructional leader and teacher will continue to revisit the IPDP to assess what aspects of the development goals have been mastered and to establish new goals when appropriate. Teacher IPDPs will be maintained in the school's online coaching system (SchoolMint Grow) to support the principal's efforts to ensure that all instructional staff are receiving ongoing coaching and support aligned to their goals.

Coaching will be a core component of instructional leadership at BBACS. All BBACS instructional leaders coach teachers on a weekly basis. Teacher coaching at BBACS will take a variety of forms, including classroom observations and follow up coaching conversations focused on classroom practice; real-time coaching during classroom instruction; model teaching in the teacher's classroom; data analysis and action planning meetings; and instructional planning meetings. Regardless of the format of coaching provided, each coaching session concludes with a definitive, bite-sized action step for the teacher to work to master by the following week. The type of coaching support provided, and the frequency of coaching, are also adjusted to meet the development needs of each teacher. As an example of this process, instructional leaders will utilize the "See It. Name It. Do It" framework from the Relay Graduate School of Education to support teachers to improve specific areas of their instructional delivery. This type of coaching session ensures that the teacher sees a model of the expected teacher practice; identifies what is effective about the model; and then practices how they will apply that practice in their own classroom. The instructional leader then assigns a bite-sized action step that defines what aspect of the teacher's practice they will work to improve during the following week and how they are expected to implement that practice. The instructional leader then shares how he or she will continue to support the teacher's ability to implement the action step (for example, by supporting with real-time coaching during future lessons). Each teacher action step is then added to SchoolMint Grow so that both the instructional leader and coach can continue to revisit past action steps to ensure that the teacher continues to develop.

Between weekly coaching sessions, instructional leaders also provide follow-up and feedback to teachers. The follow-up and feedback loop begins with **informal snapshots** that provide teachers with on-the-spot coaching and feedback. These snapshots occur minimally once per week for all teachers. On-the-spot coaching involves tapping in and out of the lesson, modeling, and/or other types of real-time feedback. Instructional leaders take notes during each snapshot visit, which are then recorded in SchoolMint Grow. The notes include tagged teacher performance indicators to use for future reference to assist with developing future coaching sessions for that teacher and the school's professional development plan. To maximize time for

¹ The Danielson Group. (2013). The Danielson Framework. Retrieved June 19, 2018 from <https://www.danielsongroup.org/framework/>.

feedback and on-the-spot corrections of teacher actions, administrators are asked to refrain from using laptops during the snapshot.

Each core content area (ELA, math, science, social studies) also has an **Arc of the Year (AotY) rubric** that outlines specific teacher practices that are prioritized for development during a specific part of the school year. These arcs are designed to support instructional leaders and teachers to ensure that their coaching sessions are focused on the highest-leverage teacher practices teachers should implement to drive high levels of student achievement. Instructional leaders ensure that each teacher receives comprehensive professional development on the skills that will be prioritized during each arc and then provides follow up coaching support that is aligned to the arc of the year and the unique needs of each teacher through both the formal weekly coaching sessions and weekly informal snapshots.

Formal observations will occur two to four times annually, depending on qualitative and quantitative evidence of each teacher’s pedagogical strengths and weaknesses and the prior year’s evaluation rating (beginning in year 2 of the charter term). Formal observations are an opportunity to observe a staff member, record observations, and score their performance for all or almost all indicators of the evaluation rubric. Instructional leaders are expected to observe teachers for a full lesson during a formal observation to ensure that they can rate the teacher on as many of the indicators as possible and develop a comprehensive understanding of the teacher’s performance. All new teachers will be formally observed at least once in a quarter. These frequent formal observations are done to ensure that instructional leaders deeply understand the development needs of new teachers and can provide effective follow up coaching to support their development.

Each formal observation cycle includes a pre-observation activity (such as a teacher reflection based on their IPDP), a classroom observation, and a post-observation conference. Prior to the observation, the teacher also informs their instructional leader about the lesson they will be teaching so that the instructional leader understands the content of the lesson and suggested activities for that lesson. To prepare for the meeting, the instructional leader also reviews the teacher’s IPDP and historical coaching notes in SchoolMint Grow as well as relevant academic dashboards so that they are prepared to ascertain teacher progress against their development goals and performance goals. During formal observations, the instructional leader will look for items such as student mastery, student ownership of the content, and classroom engagement as well as other aspects of the teacher evaluation rubric. For more information on the teacher evaluation rubric see **R-23b -Supplemental Attachments**. During the post-observation conference, the instructional leader and teacher reflect on the lesson observed together. This reflection process and collaborative analysis is the centerpiece of professional growth, refinement of instruction, and continuous improvement. This post-conference must occur not more than 10 teaching days after the observation (though it is recommended to take place within three days of the observed lesson in order to provide timely feedback).

Formal evaluations for teaching staff will occur at least two times annually, once at mid-year and the other at end-of-year, and they function as official measurements of teacher practice. The evaluation will combine evidence from formal observations, academic dashboards and other evidence collected during previous observations and coaching sessions. The mid-year evaluation will provide an opportunity for the teacher and instructional leader to discuss progress made toward achieving student, classroom, school, and network performance goals. The end-of-year annual evaluation will include a final assessment of teacher progress made toward the professional and student learning goals established at the start of the school year. The instructional leader considers evidence gathered from the aforementioned snapshots and accompanying performance indicators and formal observations. The instructional leader will then use this evidence to assign the teacher a performance level. Should a teacher's annual summative evaluation rate his/her performance as ineffective/partially effective, or if there is evidence that a teacher is struggling to effectively meet the school's expectations, then a Corrective Action Plan (CAP) will be issued. The CAP will detail measurable goals for each competency identified as in need of improvement, the related leadership support that will be offered, and milestones for performance improvement that the teacher must meet to maintain their employment at BRICK Buffalo.

C. Professional Development

Describe how the school's professional development program will assist teachers in meeting students' academic needs and school goals including:

- ***An overview of the frequency and format of professional development;***
- ***Who will be responsible for leading and providing professional development;***
- ***How the school will identify professional development topics;***
- ***How the school's professional development plans support the school's mission, key design elements, and the target and special populations' needs;***
- ***How the professional development program will meet the needs of all teachers, including novice teachers, teachers new to the school, highly effective teachers, and teachers of all subjects; and,***
- ***The process for evaluating the efficacy of the professional development program.***

BBACS' professional development (PD) program is uniquely designed to assist teachers in meeting students' academic and social-emotional needs and achieving the school's goals. Each year, the BBACS principal, in partnership with the BRICK Buffalo Regional Director of Instruction/Superintendent, will produce a comprehensive professional development plan for all school staff that is based on the school's performance goals and the developmental needs of its staff. This professional development plan will include specific goals for the improvement of teacher practice that the school believes will lead to achieving the school's goals. This plan will include clarity on what professional development sessions will be provided locally by the instructional leaders at BBACS as well

as what sessions will be provided by BRICK's academic directors. The proposed professional development plan will also be reviewed by the BBACS Board before it is finalized.

The BBACS annual professional development plan will use an ARC of the Year framework that further clarifies how the school will support the professional development of all staff during each phase (or arc) of the year. For example, the school's first arc of the year will likely focus on two key areas of focus: 1) ensuring that all teachers establish warm cultures of belonging in their classrooms characterized by strong relationships with students and families and strong systems and routines and 2) ensuring that all teachers successfully complete high-quality intellectual preparation each day to deliver rigorous and engaging lessons. These arcs of the year will provide instructional leaders with the overarching clarity necessary to help guide the professional development opportunities they plan and the support they provide to their staff members. The **frequency and format** of BBACS' PD program is as follows:

- Annually: All BBACS staff participate in significant staff professional development each summer. This professional development includes at least three days of professional development for instructional leaders as well as 10 additional days for teacher professional development. In addition, the proposed BBACS schedule also includes five early release school days at the start of the year. Each of these days will be followed by additional professional development sessions designed to support the school to build a strong school culture. Each year, typically in October, all school staff will also participate in a full day of professional development to strengthen school culture.
- Weekly: As mentioned previously in this response, all teachers receive weekly, individual coaching from an instructional leader. All teachers will also participate in a weekly content meeting with all the other BRICK teachers in their grade level content team. These meetings historically take place on Wednesdays or Thursdays. The school's early release day each Friday also enables all staff to participate in weekly professional development from 2 p.m. to 4:15 p.m.

When possible, professional development activities will be conducted in person at the BBACS campus. However, BRICK network directors will also leverage online learning platforms like Zoom to deliver professional development to multiple BRICK campuses when necessary. Some of the key structures that will be used to deliver ongoing professional development to BBACS staff are also summarized below:

- Summer Teacher Institute: Each August, the BRICK network will provide all BRICK teachers with comprehensive professional development during the Summer Teacher Institute. During this institute, teachers will receive comprehensive information on the mission, vision and values of BRICK as well as sessions that train them on implementing BRICK's cultural and academic models. During summer institute, the BBACS instructional leadership will also have an opportunity to deliver professional development that is unique to their campus (such as their plans to sustain staff culture or to practice specific routines that are unique to their school).

- BBACS Strong Start PD: Each year, the first week of classes at BBACS will include half days of instruction for students. These half days of instruction will enable the school staff to implement a modified schedule that supports all teachers to build relationships with their students while also teaching and practicing critical school routines (such as in-class expectations and the expectations for hallway transitions). After school, all teachers will participate in professional development from 2 p.m. to 4:15 p.m. each day. During this time, the principal and instructional leadership team will debrief the day with their staff, discuss the extent to which the day reflected the school's vision for student culture, and identify specific bite-sized ways that the team can work together to improve school culture during the next school day. In addition, the principal or other instructional leaders will also facilitate specific practice clinics designed to help teachers build proficiency in the skills they need to strengthen school culture (for example, by practicing how to successfully execute a particular routine that was challenging during the school day).
- Weekly Early Dismissal PD: The Friday early release schedule enables all staff to participate in professional development each Friday from 2 p.m. to 4:15 p.m. During these Fridays, staff will participate in professional development sessions that are designed to meet the unique needs of the school at that time. Some sessions will be delivered virtually by BRICK network directors via Zoom. Other sessions will be delivered in person at BBACS by its instructional leaders. Whenever possible, multiple different PD sessions will occur simultaneously to meet the needs of different groups of staff members. (As an example, BRICK network PD will typically be differentiated so that each teacher is able to meet with their content area grade level team so that, for example, specials teachers, special education staff, and K-2 literacy teachers are able to participate in differentiated sessions based on their needs). The content of weekly professional development sessions will also align to the ARC of the Year for each content area. As a result, BBACS anticipates that these weekly PD sessions during the first quarter will focus on sessions designed to strengthen school culture and intellectual prep. By the second quarter, BBACS anticipates that weekly Friday professional development will shift to focus on the implementation of weekly data meetings.
- Weekly Coaching: All teachers participate in weekly coaching sessions with an instructional leader. These meetings may take a variety of formats, from an observation and feedback meeting to a weekly data meeting to an instructional planning meeting. The formats of these individual meeting types will be aligned to the templates used at the Relay Graduate School of Education and adapted as needed to meet the needs of the school team. In addition, all instructional leaders who are executing these meetings will receive significant training in how to facilitate these meetings from the BRICK Buffalo RDI who is an adjunct faculty member at Relay and has earned national certifications in leading these meetings through his participation in the Leverage Leadership Institute.
- Weekly Content Meetings: BRICK academic directors will work to ensure that all BBACS teachers have access to a weekly instructional planning meeting that is designed to help them complete the intellectual preparation for an upcoming unit

or for an upcoming lesson. These meetings will enable BRICK teachers to collaborate with other teachers across the BRICK network that teach the same grade level and content area. These meetings will be led by BRICK academic directors or by teacher leaders that have received training from an academic director. This stretch leadership development opportunity can also support strong teachers who are interested in future leadership opportunities to continue to develop their instructional skills. Instructional leaders will also attend these meetings so that they can continue to develop their content area expertise and increase their effectiveness as coaches.

- Teacher Mentors: Beginning in year two of the charter term, all new BBACS teachers will also be provided with a mentor with whom they will work for an entire year, meeting at least once a week during their first and possibly second years teaching at BBACS. Teacher mentors are responsible for supporting teachers to learn the BRICK model, effectively manage their classrooms and prepare appropriately for lessons. Mentors can also differentiate their support to teachers to ensure that all teachers are improving their effectiveness and can demonstrate high levels of job satisfaction.
- Cultural Responsiveness Professional Learning: All BBACS staff will also be provided with numerous opportunities to deeply engage with the East Buffalo community; to learn about and honor the community's assets; and to develop their understanding of community needs. This increased awareness of the community will assist BBACS staff in leveraging student strengths to support their ongoing growth and development. To ensure that all staff members develop their understanding of how to provide culturally responsive instruction, BBACS plans to ensure that each year's annual PD plan includes a focus on cultural responsiveness. During the incubation period, the BBACS team plans to begin this work by participating in a book study of Culturally Responsive Teaching and the Brain by Zaretta Hammond. BBACS leaders will also work to take the "Blacks in Buffalo" class at Buffalo State led by Professor Marcus Watson (or a professional development course that addresses this content). Dr. Watson's class discusses the history of the Black experience in Buffalo and will provide rich information to assist the school's leaders with infusing an awareness of the experiences of Black residents in Buffalo into the school's instruction and culture. Professor Watson is also prepared to deliver related professional development sessions throughout the founding year of the school to ensure that all BBACS staff have a firm understanding of how they can embody the school's key focus of providing a culturally responsive education.

BBACS' PD plan is **aligned to its mission** of providing students with a culturally responsive education by educating staff on how they can increase their responsiveness—and providing the additional training teachers will need to successfully meet the needs of all students. Because much of the professional development is already job-embedded (that is, included within each teacher's workflow) it is **supportive of BBACS' design** and **addresses the learning and performance needs** of both teachers and students. Furthermore, the frequent and ongoing

collection, analysis, and use of data described above will support the academic learning and social and emotional development of all students, including the school's special student populations.

BBACS will determine the **efficacy of its PD program** through multiple avenues. Collecting staff feedback on professional development is essential to ensure that the instructional leadership team can refine subsequent sessions to best meet the needs of staff. As such, BBACS will ask staff to provide feedback on the quality of professional development at the end of each day during Summer Institute and at the end of each Friday PD. The BRICK network will also support this work by sharing a comprehensive teacher survey twice per year. This survey contains questions regarding the quality of PD support they receive for professional growth. In addition, BBACS believes that all PD should be planned based on specific data from the school (such as from classroom walkthroughs or achievement data collected) and delivered with the intent of having a positive impact on student outcomes. Therefore, BBACS instructional leaders will engage in a cycle of collecting data on the quality of teaching and learning; planning professional development to strengthen teaching and learning; and measuring the impact of that development on student achievement data. This ongoing school improvement cycle will provide powerful information to the school leadership regarding whether or not PD is effective as measured by its capacity to improve student outcomes. Such a cycle also helps to reinforce that a key aspect of instructional leadership involves observing classrooms and providing teachers with the ongoing support they need to strengthen their instruction to improve student outcomes.

D. Teacher Evaluation and Accountability

Describe how the school will formally evaluate teachers and hold them accountable for student achievement, including:

- ***An explanation of how expectations for teacher performance and student achievement will be established, communicated to, and instilled in staff members; and,***
- ***A description of the school's process and criteria for evaluating teacher performance and holding teachers and leaders accountable for student achievement.***

BBACS believes that clearly establishing expectations for staff performance and student achievement are a critical part of building a high-performing school culture. As a result, the BBACS Board will collaborate with BRICK each year to set annual performance goals that align to the school's performance targets established by the SUNY Charter Schools Institute. The BRICK Buffalo Regional Directors will then work in collaboration with the Board's personnel committee to finalize aligned performance goals for the principal and Director of Operations as well as the evaluation instruments that will be used to further define the expectations for their performance, including any supporting rubrics (for additional context, a sample principal evaluation rubric is also included in ***R-23b-Supplemental Attachments***). Each BRICK Buffalo regional director will then meet with the senior leader they support (the RDI with the principal and the RDO with the Director of

Operations) to clarify their performance goals and the expectations for their work during the following year and to review any supplementary documentation that helps to clarify this information. These meetings, called Individual Performance and Development Plan (IPDP) meetings, will also enable the BRICK Buffalo regional directors to discuss the specific ways that they can support the senior school-based leaders throughout the year. Collectively, these performance goals, expectations for performance and aligned plans for development, will be used to create Individual Performance and Development Plans for each leader. These plans will then be shared with the BBACS Board personnel committee and will help to inform how the RDI supports the principal and how the RDO supports the Director of Operations throughout the year. BRICK regional directors will also complete a full performance management cycle with the senior school leaders by conducting formal midyear and end of year evaluation meetings. Prior to each of these evaluation meetings, the principal and Director of Operations will complete a reflection regarding their progress towards their performance goals, a self-assessment of their strengths and areas of growth relative to the expectations for their position; and their progress against the development milestones named in their IPDP, sharing supporting artifacts where appropriate. BRICK regional directors will then collaborate with the Board personnel committee to finalize evaluations before following up with the senior school leaders. After conducting the formal midyear and end of year evaluation meetings, BRICK regional directors will share the contents of those evaluations with the Board personnel committee and debrief the evaluation process.

The BRICK Buffalo Regional Directors will then work with the school principal and Director of Operations to replicate a similar process each year for school-based staff members. The BRICK Buffalo regional directors will support the principal and Director of Operations to develop performance goals for each school-based staff member that align to the school's performance goals. In addition, the BRICK Buffalo regional directors will collaborate with the principal and Director of Operations to review the expectations for staff member performance as outlined in school's evaluation rubrics to determine what changes, if any, need to be made to these documents. For additional context, a copy of the teacher evaluation rubric is included in **R-23b - Supplemental Attachments**. Once this work is completed, the principal and Director of Operations will begin to implement the processes for IPDP meetings, midyear evaluation meetings, and formal evaluations meetings with school-based staff. All documentation produced during these meetings will also be shared with both the BRICK Buffalo regional directors and the BBACS Board.

R-10a – School Culture and Discipline

a. School Culture

Explain how the school will establish and maintain a culture that supports learning and achievement including:

- *The school’s general approach to school culture and rationale for this approach.*

BRICK schools are warm, nurturing, learning environments where students are both embraced for who they are and engage daily with rigorous, culturally-relevant materials aimed at unlocking their fullest potential. BBACS is deeply committed to building a belonging-based school that reinforces the worth of each individual student while also affirming the power of solidarity. The school’s approach to building school culture is rooted in the key design element of Ubuntu. “Ubuntu” is an African humanistic philosophy that prioritizes interdependence amongst community members. Plainly stated, Ubuntu means, “I am who I am, because of who we all are.” Ubuntu recognizes that there is value in every member of the community. As a greeting, Ubuntu means “I see you,” affirming the holistic value of the individual as well as the contributions of their family and ancestors. It recognizes that no one person can be successful without the other and informs the school’s culture of high expectations where students are supported to feel heard, seen, and respected. The Ubuntu philosophy also amplifies the virtues of social well-being and solidarity which are conducive to social justice work.

BBACS understands that all its stakeholders – inclusive of parents, staff, students, and BRICK ecosystem partners¹ - must work seamlessly as a true community if the school will achieve its ambitious mission. As a result, the BBACS approach to school culture has been intentionally designed to uphold this vision of Ubuntu and rests on the following core tenets:

- (1) **We start with culturally-responsive instruction.** Each BBACS classroom will be a space of rich intellectual curiosity and wonder. BBACS believes that engaging instruction – that is both culturally-responsive and rigorous – is cornerstone to a productive, safe school culture and catapults students on their journey towards becoming independent learners².
- (2) **We attend to the SEL needs of our staff.** Research shows that when school staff are supported in building their own social and emotional competencies, they are better equipped to lead caring, supportive classrooms for their students³. As a result, BBACS has intentionally crafted a suite of professional development and coaching experiences to ensure its staff feels supported in their own SEL development. Many districts have realized how important this work is during the pandemic, as teachers are dealing with additional stressors that are causing many to leave the profession altogether.⁴

¹ Additional details re: ecosystems partners can be found in R-01ac-Community Need and Proposed School Impact

² Hammond, Zaretta. *Culturally Responsive Teaching & The Brain*. 2015.

³ The Collaborative for Academic, Social, and Emotional Learning (CASEL) “Strengthening Adult SEL.” <https://casel.org/wp-content/uploads/2019/11/SEL-Trends-7-11182019.pdf>

⁴<https://www.usnews.com/news/health-news/articles/2021-06-23/stress-has-many-us-teachers-leaving-profession-survey>

- (3) **We always aim to be restorative and trauma-informed.** BBACS understands that instances of trauma are closely correlated with experiencing poverty in this country. With over 80% of students enrolled in BPS classified as “economically disadvantaged” and reports of trauma on the rise⁵, BBACS knows that many of its students will be navigating increased trauma in a post-COVID-19 world. To reinforce emotional and psychological safety in the school building, BBACS will strive to build a predictable and warm school environment. BBACS will leverage developmentally-appropriate, logical consequences – both positive and negative – to support student learning. BBACS will also implement a school-wide behavior management system that is grounded in restorative practices.
- (4) **Our core values intentionally support student SEL development.** – BBACS has adopted iDREAM core values that support student SEL development. BBACS will incorporate explicit instruction and reflection time on the iDREAM values into the daily experience of all students at BBACS.
- (5) **Our classroom tools/rituals reinforce our values and school culture.** To ensure consistent culture across classrooms, BBACS has developed a number of classroom and schoolwide rituals to reinforce the school’s values and commitment to Ubuntu and to support teachers in using them to ensure a predictable, safe learning environment. These tools and rituals, which reinforce and operationalize the student culture approach, will include the:
 - a. School wide behavior system;
 - b. iDreamer Paychecks;
 - c. Classroom calming corners;
 - d. Classroom environments that reflect students’ cultural identities;
 - e. Daily morning meetings; and
 - f. Weekly community meetings.
- (6) **We build authentic partnerships with families and support our students holistically through the BRICK education ecosystem.** BBACS believes that true student SEL support begins with authentic family relationships. As a result, the school will conduct home visits for each new student to begin building strong relationships with each of its families. BBACS also understands that if a child is struggling with other social factors (like uncontrolled asthma or housing instability), then the child may struggle to thrive at school. As a result, BBACS leverages strong relationships with its families to help identify and provide the unique supports that each family needs to thrive and then collaborates with its ecosystem partners to provide those services.

BBACS will create the systems to establish and maintain the culture described during the school’s incubation period and will refine implementation on an ongoing basis. During the incubation period, the BRICK Buffalo Regional Director of Instruction/Superintendent and BRICK Senior Director of Student Supports will work with the BBACS Principal to create a culture plan for the school to help drive success against the school’s cultural goals and this broader vision by

⁵https://buffalonews.com/news/local/i-didn-t-know-i-was-numb-for-three-years-trauma-takes-a-toll-on/article_ace1ac76-88fc-5daa-b335-38532b680b52.html

updating shared network culture plan templates as needed. The resulting BBACS culture plan will include detailed plans for all the school’s major routines (such as in-class expectations, hallway transitions, and guided reading transitions). In addition, this plan will include specific focus areas for student culture for each of the first six weeks of the school year. For additional context, the table below outlines recent school wide focus areas for the first four weeks of the school year at BRICK’s Achieve Community Charter School:

Week of Instruction	Schoolwide Culture Focus Areas
Week 1	Moving Between Spaces, Accountable Listening <i>We are a team. We move together and listen to each other.</i>
Week 2	When we do it, we ALL do it <i>We are a team. When we do it, we ALL do it at 100%.</i>
Week 3	Speaking to One Another <i>We are a team. We respectfully speak to each other to learn from each other.</i>
Week 4	Best Written Work <i>We are a team. We take PRIDE in always giving our Best Work.</i>

The principal will have time dedicated during the Summer Staff Professional Development Institute to share the broader vision with his/her team, the specific week to week goals the team will focus on, and to train his/her team on the campus specific routines and expectations before introducing them to students.

BBACS will also shorten the daily schedule during the first five days of the year to strategically build a strong school culture. Students will get out of school at 1 p.m. on these days. Staff will then engage in 90 minutes of culture-focused PD from 2 to 3:30 p.m. During this time, the principal or his/her designee will lead a culture-focused debrief of the day to celebrate the ways that school culture reflected the school and network’s expectations for student culture and to identify specific bite-sized ways to improve culture during the next school day. The principal or his/her designee will then facilitate practice activities related to these focus areas (for example, providing opportunities for teachers to practice leading successful whole group transitions during guided reading rotations).

For at least the first six weeks, the principal will also implement a cycle of culture monitoring walkthroughs with their school leadership team. During these walkthroughs, the principal will focus his/her observations on the priority student culture areas of focus and identify any gaps that still need to be addressed. He/ she will then collaborate with the leadership team and the BRICK Buffalo RDI to plan subsequent PD to address those areas. The BBACS Principal may also receive additional support, as needed, from BRICK’s Senior Director of School Supports or BRICK’s Director of Restorative Practices to support their ability to create a strong school culture.

After the first six weeks, the BRICK network team will conduct an evaluative site visit to the school for a school-culture focused review (named a “Strong Start review.”) During this review, BRICK staff, including at least the Chief Academic Officer, the Achieve principal, the Senior Director of School Supports, the Director of Restorative Practices, and the BRICK Buffalo RDI will spend a full day observing the campus to identify strengths in student culture and potential areas of growth. The team will then meet with the principal to share their findings and to support him/her to build an action plan to strengthen student culture before the end of December. After that site review, BBACS staff will also have a full day of professional development led by the principal or his/her designee to reflect on school culture; to share the results of the network’s Strong Start observations; and to update the team on their plan to continue to strengthen culture throughout the school year. BRICK’s Senior Director of School Supports will also conduct a follow up culture visit for a full day in December to determine progress and to support additional follow up action planning.

For an example of the resources provided to principals to support them in building their school culture plan, see the BRICK School Culture Guidebook in R-23b - Supplemental Attachments.

- *Any specific programs (e.g., Responsive Classroom, restorative justice, etc.) the school intends to implement and the rationale for their selection.*

Start with Instruction: Culturally-Responsive, Engaging Classrooms Rooted in Choice

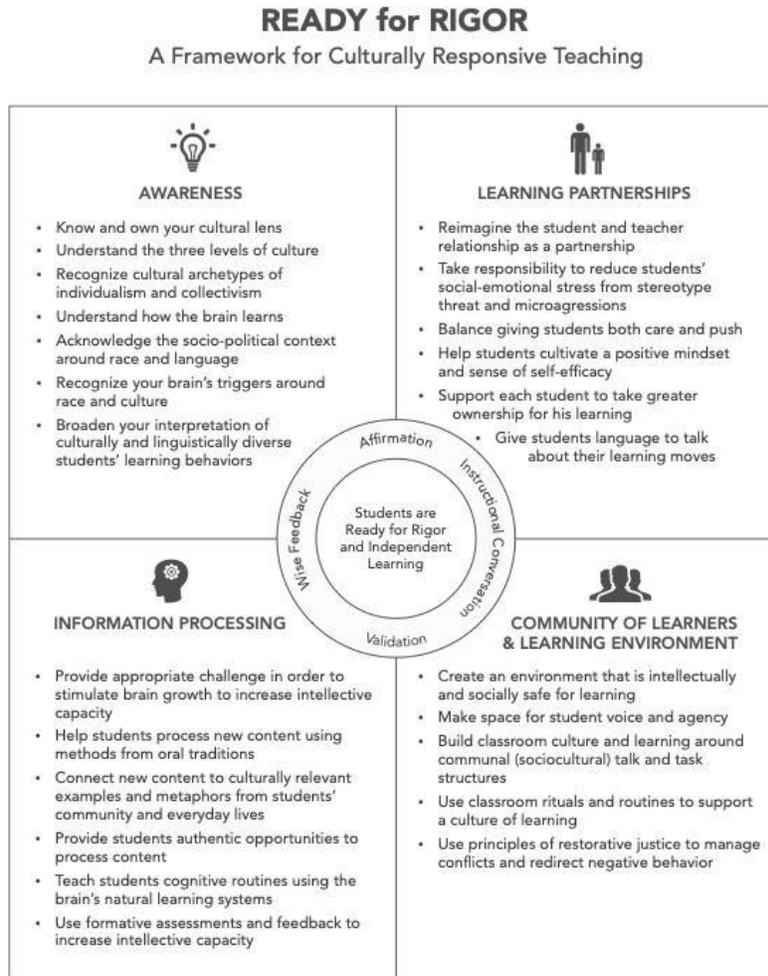

BBACS is committed to ensuring that all of its students transform into independent, 21st century learners. The school believes that engaging, culturally-responsive teaching is cornerstone to this vision and the foundation of a strong school culture. When students feel empowered to take control of their education, they are more engaged, attentive, and hone their executive functioning skills – they also experience higher levels of school connectedness⁶. BBACS embraces Zaretta Hammond’s *Culturally Responsive Teaching and the Brain* model which provides a framework for transforming dependent learners – or those that passively memorize and depend on the teacher to carry the cognitive load – to independent learners through culturally-responsive teaching. **Hammond defines Culturally Responsive Teaching as “an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing...all the while, the educator understands the importance of being in a relationship and having a social-emotional connection to the student in order to create a safe space for learning.”** Culturally Responsive Teaching is an integral component of both the school’s approach to instruction and to building school culture. With its emphasis on supporting teachers in building trust with students, creating an environment that is intellectually/socially safe for learning, and a focus on principles of restorative justice, Culturally Responsive Teaching

⁶ Kaylanpur, M., & Harry. B (2012). *Cultural reciprocity in special education: Building family-professional relationships*. Baltimore: Paul H. Brookes.

⁷ Hammond, Zaretta. *Culturally Responsive Teaching & The Brain*. 2015.

provides the optimal foundation for the school’s vision for student culture. Shown in further detail in Figure-10a.1, Hammond’s Ready for Rigor Culturally Responsive Teaching Framework will serve as the school’s North Star for how to create engaging, emotionally safe school cultures.

Figure 10a.1 – Hammond’s Ready for Rigor Framework for Culturally Responsive Teaching⁸

© Zaretta Hammond, 2013

www.ready4rigor.com

BBACS aims to create classrooms that are rooted in trusting learning partnerships and that reflect the cultural realities of its students and community. As a result, the school will leverage Hammond’s framework during staff professional development and teacher coaching experiences to develop staff capacity to provide culturally responsive instruction and create culturally responsive classroom environments, which, in turn, will create a strong foundation for school culture.

⁸ *ibid*, page 17

Attending to the Social-Emotional Learning Needs of Staff

According to Hammond, in order to execute the Ready for Rigor Culturally Responsive Teaching framework with fidelity, all student-facing staff members must first build their own awareness and knowledge of social emotional learning and deepen their social, emotional and cultural competence. In fact, research shows that when school staff are supported in building their own social and emotional competencies, they are better equipped to lead caring, supportive classrooms for their students⁹. As a result, BBACS has intentionally crafted a suite of professional development and coaching experiences for all its staff members to ensure that BBACS staff feel supported in their own SEL development. This commitment to staff SEL development will start before the first day of instruction for students. During summer professional development, all BBACS staff will be immersed in a variety of SEL-related sessions aimed at orienting staff to the school’s student culture values and systems as well as the community served. Sessions will also be designed to help staff build a deeper understanding of their own triggers, biases, and identity as well as how they fit as an invaluable member of the BBACS team. A sampling of professional development sessions that has been offered in recent years to establish BRICK’s approach to school culture is provided in Figure 10a.2 below.

Using Kickboard to facilitate student reflection on SEL development	Overview of how teachers will use Kickboard to track behavior data	School Rituals/Systems

Over the course of the school year, teachers will continue to be supported in building their SEL competencies – and those of students - through the school’s professional development and coaching cycle¹⁰. During each professional development cycle, teachers will be coached on bite-sized teacher skills and classroom systems aligned with the Hammond Ready for Rigor framework. Figure 10.a3 provides a snapshot of the support that is typically given to teachers during the first quarter of the instructional year to support the launch and implementation of Morning Meetings (an integral component of building trust and restorative practice). The implementation map and coaching next steps highlighted below build directly from the content covered during summer professional development to support all teachers to successfully launch circles and morning meetings.

Figure 10a.3 – Snapshot of Teacher Support for SEL Morning Meetings

¹⁰ Our approach to teacher professional development and coaching is described further in R-09ad - Instructional Leadership.

Implementation (K-5)

- During **Summer PD** and the **first 6 weeks of school**, teachers will participate in culture-focused sessions daily and/or weekly.
- **Grade Level Teams** will meet at least once per month for planning and peer-to-peer feedback on instructional strategies (e.g. team builders related to the monthly theme or iDREAM values).
- **SEL Survey** will be administered during the first morning meeting session and at other points throughout the year.
- **SEL Morning Meetings weekly sequence of activities:**
 - Day 1 **Ubuntu SEL Lesson / iDREAM Values** - Engage students in Ubuntu SEL Lesson or explicit SEL lesson from Positive Action curriculum.
 - Days 2-4 **iDREAM / SEL Question** of the day - Pose daily question. Using the talking piece, circle participants answer the question in either a sequential or non-sequential order. Sequential circles are recommended for students in Grades K-4, and with groups that require more structure. Examples of these sample iDREAM/SEL questions are provided *in R-23b - Supplemental Attachments*.
- **Standard SEL Morning Meeting daily structures:**
 - **Students and Teacher(s) form a circle** - circle participants can form a circle by standing, sitting on the floor, or positioning desks in a circle.
 - **Greeting / Welcoming Routine** (e.g. handshake, fist bump, etc.)
 - **Sharing** - In sequential order, using a soft talking piece, circle participants share one word to describe how they are feeling at the moment. Teacher listens for any student in need of additional emotional support.
 - **Appreciation** – In sequential order, participants share their appreciation for themselves **OR** the person to their right. Teacher decides which appreciation focus will occur that day.
 - **Activity** - Teacher either leads students through the specific Ubuntu SEL lesson of the day or the alternative activity planned for that day.
 - **Schedule Review** - Teacher briefly shares the schedule for the day.
 - **Mindful Minute** - Students take a seat and close their eyes. Teacher moves students through a guided meditation which focuses on deep breathing and calming.
 - **Wrap up**- A reminder and tip for helping students retain and practice iDREAM values and SEL skills throughout the

	<p>day. Remind students to catch their peers and teachers modeling these values.</p>
Coaching	<ul style="list-style-type: none"> ● Teachers will be observed by the principal (in year one) or the Vice Principal of Culture (when hired in year two) on a weekly basis with an emphasis on effective implementation. ● Teachers in need of additional support may: <ul style="list-style-type: none"> ○ receive real time coaching during their morning meeting block or model teaching from a peer or instructional leader. ○ receive dedicated coaching sessions devoted to morning meeting implementation. ○ be asked to observe another teacher on their grade level who is successfully implementing morning meeting. ○ be assigned additional planning meetings related to morning meeting.

We always aim to be restorative and trauma-informed.

Research shows instances of trauma are closely correlated with experiencing poverty in this country¹¹. Children living in trauma are more likely to experience Adverse Childhood Experiences (“ACEs”) than their more affluent peers. In addition, Black and Latinx students and recent immigrant students are more likely to experience ACEs than their White and native-born peers respectively¹². In fact, according to the 2017 Youth Risk Behavior Surveillance Survey administered to BPS high school students, BPS students are at higher risk than their peers across the state in experiencing the following: physical fighting (including at school and those serious enough to result in injury), marijuana use under the age of 13, and some high-risk sexual activity (including having sex before age 13 and having had 4 or more partners)¹³. The survey also found that 1 in 3 BPS high schoolers have personally witnessed acts of physical violence (such as shootings, stabbings, beatings) in their neighborhood and 1 in 10 have missed school to avoid unsafe conditions on their route to school¹⁴.

Given these realities and the likelihood that many of the school’s students may have endured one or more ACEs, BBACS prioritizes physical, emotional, and psychological safety within the school building. Research demonstrates that maintaining a sense of predictability, consistency, and belonging greatly mitigates the cortisol/stress response experienced by

¹¹ <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5765853/>

¹⁴ *Ibid*, areas of community need are further highlighted in Response R-01-ac- Community Need and Proposed School Impact

students who have experienced trauma¹⁵. Through the school’s school-wide behavior management system, daily routines, developmentally-appropriate, logical consequences – both positive and negative – students will know what to expect as a member of the BBACS learning community. The first layer of creating a predictable trauma-informed environment begins with the BBACS behavior management system – a system which includes the student core values/practices, logical consequences, and clear routines, policies and procedures. Figure 10a.4 depicts how the behavior management system fits into the overall approach to school culture.

Figure 10a.4 – BBACS Culture of Excellence – BRICK HABITS, SEL, and Intervention Systems

BBACS Culture of Excellence Road to Rigor Framework						
BRICK HABITS (BRICK Behavior Management System)			Social Emotional Learning (SEL)			BRICK Road to Success (BRtS) via MTSS
Beliefs, Mindset, and Practices	Rules, Rewards, & Logical Consequences	Policies, Routines, and Procedures	Adult Social Emotional Competence	Explicit SEL Instruction -Ubuntu	Student Voice and Leadership	Academic, Behavior, Attendance & Resource Referrals

Beliefs, Mindset and Practices: iDREAM Core Values

BBACS will utilize a set of core values to build student and school culture. An iDREAM culture is one in which everyone is accountable for adhering to high expectations and students are consistently acknowledged and rewarded for appropriate behavior and receive developmentally-appropriate, equitable and logical consequences for misbehavior. The iDREAM core values promote a sense of community and foster positive adult to student and peer to peer relationships. In alignment with the Hammond framework, the iDREAM values help foster the foundational sense of trust that must be established before independent learning can happen. The iDREAM values are as follows:

1. **Identity** | Who I am and my perspective matters.
2. **Diligence** | I persist toward my individual and team goals.
3. **Respect** | I honor personal and school-wide boundaries.
4. **Empathy** | I am my brothers’ and my sisters’ keeper.
5. **A+ Self-Control** | I stay focused and maintain my cool.
6. **Model Student** | I am here on purpose with purpose.

¹⁵<https://traumasensitiveschools.org/trauma-sensitive-remote-learning-maintaining-predictability-consistency-and-belonging/>

Figure 10a.5 below provides a deep dive into the *i*DREAM values, including some of the language that BBACS staff members will use to positively discuss and reinforce these values with students.

Figure 10a.5 – BBACS *i*DREAM student values and examples

Diligence <i>I persist toward my individual and team goals.</i>	Respect <i>I honor personal and school-wide boundaries.</i>	Empathy <i>I am my brothers' and my sisters' keeper.</i>	A+ Self Control <i>I stay focused and maintain my cool.</i>	Model Student <i>I am here on purpose with purpose.</i>
Know my goals & if I am on track Make an effort, not an excuse Get started right away Always keep striving Believe I can do it Recognize my strengths Ask for help when needed	Follow directions and school procedures. Follow class rules and school policies. Listen to others & learn from them Maintain academic posture so I am ready to learn Help take care of classroom & equipment Be ready for learning & speedy transitions Use good manners	Show others I care how they feel Respect other points of view & ideas Help to motivate the team Praise peers for doing well & encourage peers when they fail or get upset Do good deeds Use kind words and actions Consider how my actions affect others	Stay focused & resist distractions Remain calm when provoked or criticized Use self-talk to de-escalate Maintain personal space Be safe at all times Control my impulses	Ask & answer questions Make connections Reflect & reconsider ideas Be curious Notice & appreciate beauty or excellence Take risks Stay aware of my feelings Work well with others

	Make decisions that help me achieve my goals			
Identity: Who I am and my perspective matters.				

SEL Infusion

Research demonstrates that student engagement in SEL leads to improved academic and life outcomes. According to CASEL, results from a landmark meta-analysis¹⁶ that looked across 213 studies involving more than 270,000 students found that: (1) SEL interventions that address the five core competencies increased students' academic performance by 11 percentile points, compared to students who did not participate and (2) Students participating in SEL programs showed improved classroom behavior, increased ability to manage stress and depression, and better attitudes about themselves, others and school.

As a result, BBACS will utilize a multi-pronged approach to SEL development. This approach includes time for all students to receive direct instruction to support social and emotional development during the morning meeting block using BRICK's Ubuntu morning meeting curriculum as tier 1 SEL support. These SEL lessons at the start of the day also provide a recurring theme throughout the rest of the school day to help make the core competencies of SEL more real to students. A brief summary of the main components of tier 1 SEL instruction via Ubuntu are described below:

1. All morning meetings occur in a **circle**. Circles have traditionally been used in indigenous communities to establish consensus, solve problems and engage in other rituals. They help to neutralize power, position participants to make better eye-contact, and ensure everyone has an opportunity to speak. A soft talking piece should be used to maintain order in designating a speaker.
2. The welcoming routine helps to establish a **culture of belonging** and lets students know that their classroom community looks forward to seeing them daily. It sends the message that students are invaluable to the school community. This component of the meeting builds each student's sense of connectedness to the classroom and supports high levels of student attendance.
3. Sharing out of feelings allows students to build their **emotional vocabulary**. As students develop their vocabulary, they are better able to recognize and communicate their needs before escalating to crisis. As students express their "feeling word," the teacher actively listens for evidence that any student who may be having a rough morning. It will be important to check in with that student to identify any immediate needs whether it be some time in the calming corner, a visit with the social worker, or 1:1 time with the teacher later in the day.

¹⁶<https://casel.s3.us-east-2.amazonaws.com/impact-enhancing-students-social-emotional-learning-meta-analysis-school-based-universal-interventions.pdf>

4. **iDREAM / SEL questions** are the main dialogue component of the morning meeting. This time helps build student understanding of the iDREAM values and engages them in conversation that helps them better understand themselves, their peers and the world around them. Teachers use this time to define the values and solicit and give examples of positive ways that values and SEL skills can be applied to everyday life. This is a great chance for teachers to model specific behaviors aligned to the values and focus SEL skills. Teachers also will intentionally acknowledge student demonstration of the SEL / iDREAM values to show students that these skills and values are meaningful to the school community.
5. **Activities and team builders** serve a dual purpose. These activities provide teachers with an opportunity to plan fun and engaging activities for students to start their day that are unique to the needs of their individual students and classroom. In addition, these activities help provide ongoing ways for students to continue to strengthen their connection to peers, staff and school community while practicing focus social emotional skills and competencies.
6. **Appreciations** are great ways to keep students invested in participating in morning circles and becoming a part of their classroom community. It is also a great way to give positive feedback to students who may be struggling to develop a positive self-concept. It is well known that individuals with positive self-concept and esteem perform better and are more confident to take healthy risks.
7. **Schedule Review** allows teachers to provide a roadmap for what students will experience throughout the day, including any changes to the schedule. This schedule review also helps to provide a predictable school environment, which is helpful to all students, especially those that have been impacted by trauma.
8. **Mindful Minutes** can be presented with a guided meditation from the teacher, or by video. This helps students to relax before getting into the rigor of the day. The more frequently and proactively the skill is practiced, the more likely students are to use the technique independently when in crisis.
9. Wrap up is the group's closing and provides a moment for the teacher to **remind students of the values or any SEL skills learned that day**. In addition, teachers can take this opportunity to help students establish goals for the remainder of the day to encourage the class to continue to build strong classroom culture.

Uniforms

BBACS students will wear school uniforms, which is another example of a culture-building and maintenance strategy. School uniforms will help contribute to a positive learning environment by enhancing school safety, promoting school pride, creating a sense of unity amongst students, bridging the socio-economic differences between students, promoting good behavior, improving students' self-respect and self-esteem, and producing cost savings for participating families.

Students are to wear a uniform every day unless the school sends out a communication to families regarding updated uniform expectations for a special event (such as celebratory dress down days, events encouraging students to wear special clothing such as Buffalo Bills gear or

pajamas, or a formal “dress for success event”). The uniform policy will be consistently enforced and students out of uniform will be addressed and parents notified. An initial draft of the BBACS uniform expectations is described below:¹⁷

- Students may wear a green polo and khakis or navy blue uniform pants/skirts/jumper.
- Alternatively, students may wear a green button-down with a school logo and khakis or navy blue uniform pants/skirts. A tie is not required.
- Shirts are to be tucked into bottoms with a belt.
- A long sleeve undershirt can be worn if it is black, navy or white.
- If wearing tights or if socks are visible, black, navy or white tights/socks are expected.
- Black shoes/sneakers with a rubber bottom.
- On gym days, students are permitted to wear a special gym uniform (green t-shirt and navy blue shorts/sweatpants) and sneakers.
- Only solid navy hoodies and sweaters, or hoodies and sweaters with a school logo, may be worn.

BBACS believes that requiring students to wear uniforms supports families by reducing the amount of clothing required for the school year. BBACS will also support families by working with local uniform providers each year to negotiate competitive costs for school uniforms to ensure the lowest possible cost to families. However, BBACS recognizes that some families may still need financial assistance to provide uniforms for their children. As a result, families who need uniform assistance can let the school know this information as a part of the school’s new student onboarding processes or at any time during the year when a financial hardship emerges. All requests received in this manner will be reviewed by the school’s social worker, who will oversee the school’s budget line item for uniforms. During the first charter term, BBACS has budgeted \$1,000 per year for this expense. In addition, the board development committee will work to raise additional funds to supplement this amount if necessary.

- *How the school will maintain a safe and orderly environment.*

Maintaining a Culture of Restorative Practices at BBACS

In alignment with the school’s commitment to establishing a predictable, trauma-informed school environment, BBACS will adopt a number of proactive and restorative classroom management strategies to ensure the school is safe and orderly. Core to the BBACS model are logical, equitable, restorative and developmentally appropriate consequences. As a result, BBACS will utilize a comprehensive positive behavior intervention and support system that looks at the interconnectedness of how behavior is monitored and responded to both in and out of the classroom. BBACS defines restorative practice (“RP”) as an evidence-based alternative to punitive and exclusionary school discipline that requires a shift in both mindset and practice. Traditional discipline responses focus on doing something *to* the offender, while RP places emphasis on working *with* all affected parties to repair the harm. Relationships are fundamental in this

¹⁷ The BBACS team will provide opportunities for families to provide feedback on the proposed uniform guidelines/dress code before this is finalized.

approach to discipline. Combined with the Progressive Discipline Framework, this approach focuses on rejecting *the deed* and not *the doer* and uses incremental consequences to address inappropriate behavior in the least intrusive way possible. Figure 10a.6 below provides an overview of how the school’s systems, policies, and actions come together to support RP at BBACS.

Figure 10a.6 – Drivers of Restorative Practices at BBACS

Drivers	Task
<p>Student Support Teams</p>	<p><i>BBACS will have an intervention system put in place to proactively identify students in need of additional support; to set targets for student development; and to put in place interventions for those students requiring Tier 2 and Tier 3 supports. All/nearly all students will meet their targets and demonstrate mastery of identified skills.</i></p> <p>To accomplish this task, BBACS commits to having:</p> <ul style="list-style-type: none"> ● The principal (or VP of Culture after year one) provide training in the intervention and referral process during summer institute ● The principal (or VP of Culture after year one) facilitate training for school staff on the Request for Assistance (RFA) process. ● All staff trained on Multi-Tiered System of Supports ● Weekly whole team Student Support Team (SST) meetings to review trends specific to student discipline, attendance, social emotional learning, school culture, and the intervention and referral processes. ● SST meetings, including intervention and referral meetings, as scheduled on the master calendar. ● Establishing eligibility criteria for students to participate in Tier 2 interventions. ● Training all staff on the eligibility criteria and process to access Tier 2 services. <p>The success of the Student Support Team will be measured based on the school’s priority cultural data points (such as student attendance, persistence, and suspension information). In addition, the effectiveness of this particular system will also be measured by the percentage of students who are able to successfully achieve the individual goals in the support plans created for them by the SST.</p>

<p>Social - Emotional Learning</p>	<p><i>BBACS will have a Social-Emotional Learning Curriculum to ensure that students gain skills in the areas of self-awareness, self-management, social awareness, responsible decision making and positive relationships. Staff will recognize that social-emotional skills must be taught and will commit to providing differentiated supports for all students when needed. Staff will also recognize that their social emotional competence and positive behavior modeling are necessary to foster student SEL development and staff well-being.</i></p> <p>To accomplish this task, BBACS commits to having:</p> <ul style="list-style-type: none"> ● Ongoing professional development for new teachers, beginning with Summer Institute, related to effective implementation of the SEL Curriculum ● Teachers collaborate to plan daily morning meeting SEL activities. ● Teachers receive weekly observations of their morning meeting during the first quarter and monthly observations later in the year, as well as related coaching, to support the implementation of the SEL Curriculum. ● Admin conduct weekly Community Meetings to close out the week and open up the new week in a way that reinforces prioritized social emotional skills and school values. ● All classrooms include a Calming Corner to support students with self-regulation as well as the appropriate training to effectively leverage that space, including, but not limited to: <ul style="list-style-type: none"> ● Introducing the Calming Corner as an opportunity, not as a consequence. ● Establishing and teaching students silent signals to activate use of the resource. ● Allowing students to “try it out” in advance of being assigned. ● Ensuring a diverse group of stakeholders collaborates on creating and updating the protocols related to these calming corners (including, for example, school leadership team members, teachers, clinicians, students and families). ● Stocking Calming Corners with visual aids and sensory objects to guide self-calming and reflection. ● Furnishing Calming Corners with soft, soothing items such as bean bags. ● Training teachers on how to positively acknowledge a student’s proactive use of the Calming Corner.
---	--

	<p>The success of the Social Emotional Learning program will be measured by the school’s internal Ubuntu SEL survey as well as staff observations and the information reported by staff and families on school culture surveys.</p>
<p>Progressive Discipline Framework</p>	<p><i>BBACS will have a progressive discipline plan and systems in place to proactively teach students prosocial skills and create opportunities for restoration and behavior modification that both hold students accountable and support them to develop new skills.</i></p> <p>To accomplish this task, BBACS commits to having:</p> <ul style="list-style-type: none"> ● 100% of all classroom requests for student culture support followed up on within each week of school (a practice which will be monitored via Kickboard). ● 75% of conduct referrals responded to restoratively. ● Teachers in grades K-5 create strategic induction plans as part of their classroom culture plan and then implement those plans during weeks 1 and 2 to clearly teach students the school rules and routines. ● Student suspensions primarily reserved for student behaviors that present a danger to self or others. ● A Restorative Team subcommittee of the SST in place to review discipline trends and suggest ways to mitigate challenges to student behavior. ● 100% of staff trained in Restorative Practices. ● Annual professional development provided in Crisis Prevention and Intervention to the VP of Culture, Associate Deans, and school social worker. <p>The success of the progressive discipline framework will be measured based on the reviews of classroom culture conducted by internal staff and by external partners as well as additional cultural data (such as student attendance, persistence, and suspension information).</p>
<p>Positive Behavior Reward and Recognition System</p>	<p><i>BBACS will have a Positive Behavior Reward and Recognition system that is consistent across all classrooms, creates shared language related to the school’s values, and reinforces positive student behaviors, including academic achievement and character development.</i></p> <p>To accomplish this task, BBACS commits to having:</p>

	<ul style="list-style-type: none"> ● Professional development during Summer Institute related to the school’s iDREAMs Values. ● Clear behavior expectations outlined for each value so that the same messaging and language is being used across the school. ● Systems in place to determine which students will be invited to Fun Fridays based on how they demonstrated school values throughout the week. ● The principal (or VP of Culture when hired) complete weekly review of teacher implementation of Kickboard to ensure that students receive iDream scores and to identify any students in need of additional support. ● Coaching cycles for staff that initially focus on proper implementation of the schoolwide Positive Behavior Reward and Recognition system and then progress to differentiated action steps based on the unique needs of each teacher. ● Students learn to use Kickboard reports to track their progress and determine if they have met the threshold to be invited to celebrations. ● Sharing student iDream scores at least weekly with families to ensure strong collaboration with families. ● Teachers use data collected from Kickboard to determine students to celebrate at community meetings or special events. ● Weekly Community Meetings to celebrate success and recognize outstanding student behavior and academic performance. ● Bulletin boards throughout the school building and each classroom to display and celebrate recent student work and accomplishments. ● Training families to use the Kickboard app to track the progress of their student in real time. <p>The success of the Positive Behavior Reward and Recognition System will be measured based on the reviews of classroom culture conducted by internal staff and by external partners as well as additional cultural data (such as student attendance, persistence, and suspension information).</p> <p>In addition, the effectiveness of this system will also be measured by the percentage of students who are involved in school culture</p>
--	---

	celebrations as well as the iDream scores for each class and grade level.
--	---

Building a Predictable and Trauma-Informed Community: Logical, Developmentally Appropriate Consequences

BBACS will also implement a schoolwide approach to classroom management that is based on the use of the iDREAMers paycheck system. This system ensures that all teachers continue to reference the iDream values throughout the school day by pausing between instructional blocks and debriefing with students the extent to which the class is embodying the school’s values. This system allows all students to earn scores based on their behavior in class. These scores are then tied to school incentives (like the ability to attend Fun Friday activities) and are communicated to families. Each year, the BBACS staff will also be immersed in professional development regarding the equitable implementation of the paycheck system to ensure that this system is implemented in a way that positively reinforces the school values and encourages students to model those values each day. The iDREAMers paycheck system is further described in Figure 10a.7.

Figure 10a.7 – The iDREAMers Paycheck System in Action

When	What	Who	How
Daily	When a student does something positive or negative, his/her teacher may verbally acknowledge the action by naming the value reflected in the behavior, and then recording the behavior on the iDREAM Tracker. At strategic times throughout the day, teachers will guide students through a reflection activity related to this data, celebrating achievements via “shout outs” and will score each student in Kickboard from 0-3.	Teacher	At strategic times throughout the day, teachers will score each student in Kickboard 0-3 as described below <ul style="list-style-type: none"> • 3: Exhibited <i>both academic</i> values (Diligence, Model Student) and <i>interpersonal</i> values (Respect, Empathy, Self-Control) consistently • 2: Exhibited either academic values or interpersonal values, but not both consistently • 1: Attempted to exhibit the values, but

			<p>struggled to do so consistently</p> <ul style="list-style-type: none"> ● 0: Behaviors were mostly contrary to the values <p>Students may also earn +1 Buffalo point if they did an exceptional job supporting their classroom community or by demonstrating personal academic excellence. These points will help improve the student's overall iDream score for the week.</p> <p>If a teacher assigns a student a Level 1 or 0, then he or she must enter specific notes on the student's behavior during class to enable a strong follow up conversation with the student and his or her family.</p>
Weekly	Each week, all students will receive a paycheck in Grades K-5. (More information about the paycheck system can also be found in the Rewards/Incentives chart below).	Associate Dean/ Admin	<p>iDREAMer Paychecks are printed and distributed to students every Friday during Morning Meeting or Community Meeting.</p> <ul style="list-style-type: none"> ● Level 0 and 1 Students will get individualized time with a staff member to plan goals for the following week during either iDREAM Dollar Store or Fun Friday time. ● Level 2 students will be encouraged to strive for level 3 next week. These students will be invited to Fun Friday or the iDREAMer Dollar Store ● Level 3 students will earn space on the iDREAMer Wall of Fame. These students will

			also be invited to Fun Friday or the iDREAMer Dollar Store.
Weekly Fun Fridays	<p>Each week, the school staff will plan Fun Friday activities to positively engage students in celebrating their accomplishments (such as the iDream Dollar Store where students have the opportunity to select small rewards and prizes).</p> <p>Each week, students that did not meet or exceed the iDREAM paycheck goal will create goals for improved performance with staff encouragement instead of attending Fun Friday activities.</p>	Associate Dean/ Admin	<ul style="list-style-type: none"> • Students earning below the designated number of iDREAM dollars will not earn the Fun Friday event • Every other week, Fun Fridays will be the iDREAM Dollar Store • Students not invited to Fun Fridays complete a reflection in a predetermined location with admin supporting. <p>Note: To ensure that all students are effectively supported, some students may receive a modified personal goal to earn Fun Friday (for example, as a part of a student’s support plan developed by the SST).</p>

Rewards/Incentives

BBACS’s paycheck system is also just one part of the school’s broader approach to building positive school culture. In addition, the school will focus on providing students with appropriate rewards and incentives to encourage students to demonstrate the school’s values and academic excellence. Some additional examples of rewards and incentives are described further in Figure 10a.8 below.

Figure 10a.8 – Rewards and Incentives

Frequency	Rewards/Incentives	Who	System, Tool, Resource
Daily	<ul style="list-style-type: none"> • Praise • Positive Note/Call Home • iDREAM scores • Classroom teacher designed rewards (such as scholar of the day) 	<ul style="list-style-type: none"> • Teacher 	<ul style="list-style-type: none"> • iDREAM Dollars • Kickboard • Classroom Behavior Charts

<p>Weekly</p>	<ul style="list-style-type: none"> ● Positive Note/Call Home ● Picture on the school's Wall Of Fame ● Community meeting shout-outs and certificates (such as for perfect attendance, scholar of the week, demonstrating particular school values of focus, for RAZ Kids or I-Ready achievements and/or growth, etc...) ● Grade level team designed rewards ● iDREAMer Dollars Store or Fun Fridays (alternating) 	<ul style="list-style-type: none"> ● Teacher ● Administration 	<ul style="list-style-type: none"> ● iDREAM Dollars ● Kickboard ● Classroom Behavior Charts ● Community Meeting

Consequences

BBACS believes that the purpose of a consequence is to decrease the occurrence of problematic behavior and to teach the desired replacement behaviors. A *Progressive Discipline Framework* should be implemented from the least intrusive (e.g. error correction with rule reminder) to the most intrusive (e.g. conduct referral). It is important to keep in mind, however,

that negative consequences alone are not an effective strategy. They must be used in conjunction with a comprehensive management system that is based on the proactive practices of reinforcement, positive student-teacher interactions, and effective classroom management strategies such as active supervision.

Exclusionary Discipline as a Last Resort

The rise in popularity of restorative approaches to school discipline has been driven largely by the growing realization that the zero-tolerance policies popular during the 1980s–1990s have had a negative impact on students and schools.¹⁸ Further, research indicates critical disparities among students who receive exclusionary punishments such as suspension and expulsion. For example, a 2014 report on a prior study¹⁹ found African American students were 26.2 percent more likely to receive out-of-school suspension for their first offense than White students. Data from other studies also indicate the disproportionate use of punishment for minorities and students with disabilities.²⁰ Restorative, responsive, and positive disciplinary methodologies are viewed as remedies to both the negative consequences of exclusionary punishment and its disproportionate application. The BBACS team sees discipline as an issue of equity for the student population it aims to serve, and also a logistical one; to achieve the school’s ambitious mission and goals, students need to be in attendance and on task every day that school is in session. Voluminous data demonstrate that exclusionary discipline (removal from the classroom environment, suspension, and/or expulsion) has a strongly negative correlation with rates of student academic performance and, ultimately, high school graduation—particularly for students who have experienced trauma, as BBACS anticipates many of its incoming students have.²¹

This approach indicates a key difference between the proposed school and the Buffalo Public Schools, namely that the district has incredibly high suspension rates while BBACS is committed to an approach that utilizes exclusionary discipline practices (such as suspension) only as a last resort. As evidence of this commitment, BBACS has met with Carly Hite, an attorney at the Legal Aid Bureau of Buffalo and Skadden Foundation Fellow, who works with the Education Advocacy Project and Buffalo Public Schools Discipline Diversion Project on multiple occasions over the past year. As a result of ongoing collaboration with Ms. Hite, the team has reviewed the efforts made by the Syracuse School District (“SPS”) to reduce suspensions across the district. In addition, BBACS has compared the codes of conduct from BPS and SPS to identify ways that NY districts clarify their four levels of consequences and how much discretion is given to administrators in determining the lengths of suspensions. In creating BBACS’s own code of conduct, staff also reviewed Advocates for Children’s 2015 study, *Civil Rights Suspended*,²² which analyzed the discipline practices of NYC charters and found that many implement exclusionary

¹⁹ <https://www.ojp.gov/ncjrs/virtual-library/abstracts/breaking-schools-rules-statewide-study-how-school-discipline>

²⁰ *ibid.*

²¹ Data on the percentage of Buffalo youth experiencing traumatic life events is included in R2ab,

²² https://www.atlanticphilanthropies.org/wp-content/uploads/2015/09/civil_rights_suspended.pdf.

discipline practices that violate state law. By contrast, even with instances of severe disciplinary infractions, the BBACS team will continue to utilize consequences that minimize time out of school. For instance, the BBACS principal will follow the code of conduct and may assign a one day in-school or out-of-school suspension as necessary depending on the level of the incident, but out of school suspensions of longer than one day will require approval from the Superintendent and will trigger a comprehensive review of the situation and Rtl supports being provided to the student.

BBACS’s philosophical commitment to a restorative and trauma-informed approach to behavior management that minimizes suspension has been implemented at BRICK schools with fidelity for years, with demonstrable efficacy. Please see the table below, which outlines the extremely low historical numbers of student suspension, often zero, at BRICK’s fresh start charter school, the Achieve Community Charter School:

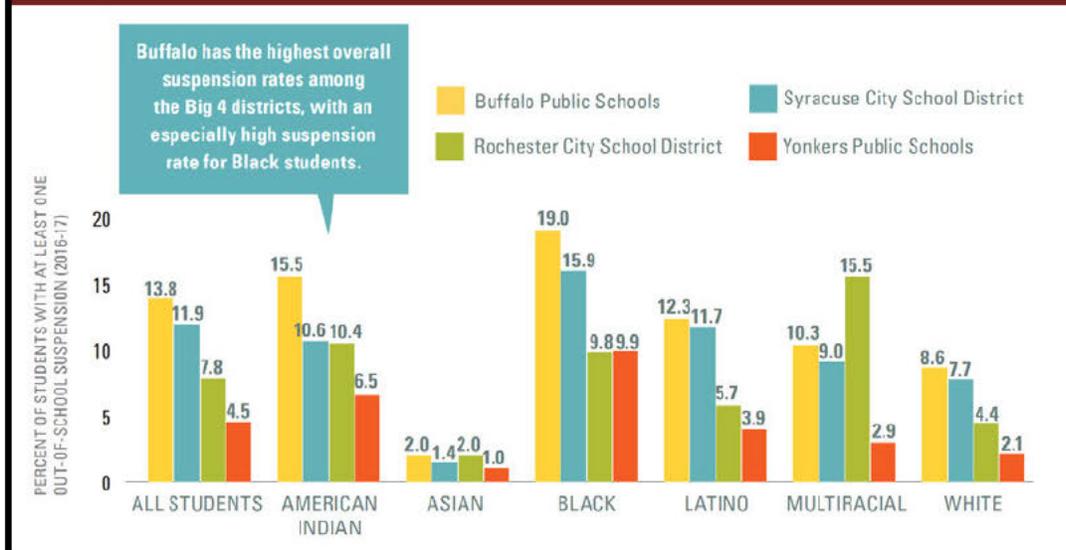

Discipline at Achieve	2017-18	2018-19	2019-20	2020-21
Total Number of In-School Suspensions	0	0	5	0
Number of Students Receiving In-School Suspension	0	0	5	0
Total Number of Out of School Suspensions	0	0	26	0
Number of Students Receiving Out of School Suspension	0	0	14	0
Number of Expulsions	0	0	0	0

These numbers demonstrate BRICK’s track-record of effectively leveraging restorative disciplinary practices to build strong school culture without over relying on suspension. By contrast, the BPS currently has one of the highest student suspension rates when compared to its peers around the state—including a suspension rate higher than Rochester, Syracuse and Yonkers. In fact, a 2016-2017 report found that nearly 14 percent of students in Buffalo had received at least one suspension, and BPS is twice as likely to suspend minority students than White students.²³ The following table²⁴ shows the high levels of suspensions in Buffalo and the disproportionate impact on Black students in particular:

²³https://buffalonews.com/news/local/education/report-black-students-in-buffalo-twice-as-likely-to-be-suspended-as-white-classmates/article_ccaa99aa-fbbc-5584-88d1-4232e2ae3a7e.html#:~:text=Buffalo%20had%20the%20highest%20overall,received%20at%20least%20one%20suspension

²⁴ Source: New York State Education Department. Unpublished 2016-17 data. N-sizes are less than 100 students for the following groups; American Indian and Multiracial students in Rochester and American Indian students in Yonkers. All other groups include more than 200 students. Analysis conducted by The Education Trust–New York.

Figure 6: Percent of students with at least one out-of-school suspension in the Big 4 school districts

While 19% of Black students in BPSs were suspended from school during the 2016-2017 school year, Achieve’s suspension rate has never been above 1.67%.²⁵ *The school’s proposed discipline policy is included in Response R-10b-Discipline Policy.*

Student and Family Engagement

The BBACS team knows that trust is the foundation of every relationship; however, trust is not formed magically or overnight. There are intentional moves that BBACS must make each day to build trust with students and families. Over the course of the first six weeks of school, the school will focus its attention on building authentic student-teacher and parent-teacher relationships that are based on mutual trust and respect. This is not to say that practices and strategies for ensuring that classrooms are safe and run smoothly are not important. BBACS is also committed to teaching practices that maximize instructional time for learning; however, the school will also invest in relationships **first** so that it can more effectively accelerate learning for the remainder of each school year.

A critical component of relationship building with families is the transparent sharing of information and providing opportunities for input into policies and systems that impact their children. As a result, BBACS will share its culture priorities²⁶ with students’ families through an annual welcome back to school letter and newsletter distributed during the first week of school.

²⁵https://buffalonews.com/news/local/education/report-black-students-in-buffalo-twice-as-likely-to-be-suspended-as-white-classmates/article_ccaa99aa-fbbc-5584-88d1-4232e2ae3a7e.html#:~:text=Buffalo%20had%20the%20highest%20overall,received%20at%20least%20one%20suspension

²⁶ Priorities may include concrete metrics such as “By June 2024, 80% of BBACS students will demonstrate Tier I SEL progression evidenced by attendance, discipline, and academic performance indicators.”

The school team will also use this as an opportunity to get feedback on those priorities, which will then be incorporated into evolving iterations of school policies. Parents/guardians will then be asked to sign to acknowledge they have received a copy of the Student and Parent Handbook, which outlines important school policies and procedures, including the discipline policy, and includes a one page family appendix that summarizes the answers to questions frequently asked by families (e.g., attendance expectations, the interventions process, and the school's cell phone policy). In addition to ongoing communications between teachers and families, parents/guardians are more formally notified of their child's behavior in a number of ways, including:

- Calls home by their child's teacher for both positive and negative behaviors. A teacher may call home for a student's misbehavior after redirection and classroom-based consequences have not led to improved behavior.
- Calls home by BBACS's student support staff in response to repeated Level II behaviors or Level III incidents (e.g., chronic classroom disruption, fighting, bullying).
- By receiving weekly iDreamer paychecks that help families understand how their child is demonstrating the school's values while in class.
- Through a quarterly character report card and follow up parent teacher conferences where families have an opportunity to meet with members of the school team to discuss their child's progress, including their academic performance, behavior in class and social emotional development.

Viewed collectively, The strategies described above represent a **comprehensive positive behavior intervention and support system** that is designed to clearly communicate the school's values and expectations to students, celebrate students for living out those values while at school, and respond effectively to instances of misbehavior that occur.

- *How the school would ensure the development of a strong school culture in a remote setting including behavior expectations for students in the context of a remote classroom. [While this prompt is not officially part of the 2022 RFP, the BBACS team is proactively planning for how it would address any future changes to its instructional model due to COVID 19]*

During all major school events, BBACS staff will share information about what would happen if the school would need to temporarily move to remote or hybrid instruction (including plans for updated student schedules, processes for picking up hard copy physical resources like student notebooks/pencils, the process for checking out school Chromebooks, how to access ongoing information about instruction online, and any modified approaches to grading, etc.). For example, this will happen at the Back to School Barbecue and at all four parent teacher conferences proactively, to minimize any stress families may feel associated with future changes in instruction and to ensure strong changes to the school's model whenever necessary.

Each year, the principal will also determine how each routine would be modified for a virtual setting and proactively draft new routines accordingly (for example, clarifying the expectations for participation via Zoom as a modification of existing in-class learning expectations).

During the planning year, the BBACS team will also produce updates to each staff member's job description that clarifies how their duties will shift if staff need to participate in virtual or hybrid instruction, as well as how BBACS and the BRICK network will support them to successfully navigate that transition.

R-10b – Discipline Policy

b. Discipline Policy

- Provide the school's discipline policy for general education students.

Student Culture Philosophy

BBACS strives to build and sustain a safe, warm and supportive school environment. As a result, the school has adopted an approach to building and sustaining school culture that creates a sense of predictability and consistency while also cultivating a sense of belonging. Research shows that this approach is beneficial for all students, particularly for students who have experienced trauma. Consequently, BBACS has created a comprehensive approach to school culture that supports all students to positively engage in school and master rigorous academic work. This approach includes a schoolwide approach to behavior management, ongoing opportunities for social emotional learning, and a robust intervention system to ensure that students receive the individualized support they need. This approach to school culture is shown in the graphic below:

BRICK School Culture of Excellence Road to Rigor Framework						
BRICK HABITS (BRICK Behavior Management System)			Social Emotional Learning (SEL)			BRICK Road to Success (BRtS) via MTSS
Beliefs, Mindset, and Practices	Rules, Rewards, & Logical Consequences	Routines, and Procedures	Adult Social Emotional Competence	Explicit SEL Instruction -Ubuntu	Student Voice and Leadership	Academic, Behavior, Attendance & Resource Referrals

One part of BBACS's overall approach to school culture involves ensuring that the school has clear rules, rewards and logical consequences. As a result, BBACS has created policies and protocols to reduce student disruption and misconduct by adapting policies from the Achieve Community Charter School and the Syracuse Public Schools. BBACS believes that this resulting Code of Conduct will support and reinforce positive behavior and enhance children's character development while helping them succeed in school.

BBACS's Code of Conduct emphasizes the use of a wide range of strategies to reduce poor behavior and maintain a safe learning environment, including conflict resolution, restorative practices, counseling, and a structured system of positive reinforcement. This Code of Conduct also minimizes the use of exclusionary practices such as in-school suspension, out-of-school suspension, and expulsion. BBACS believes this approach will best maximize instructional time

while simultaneously helping students to develop the positive social skills necessary for success in college and career.

The standards set forth in the Code of Conduct apply to behavior:

- In school during school hours
- Before and after school, while on school property
- While traveling on vehicles to and from school as arranged by BBACS or the BPS
- At all school-sponsored events and
- On other-than-school property when such behavior can be demonstrated to negatively affect the educational process or endanger the health, safety morals, or welfare of the school community
- When misbehavior involves communication, gestures or expressive behavior; the infraction applies to oral, written or electronic communications, including, but not limited to, texting, e- mailing, and social networking.

Parents as Partners

It is important that families collaborate with the school to help nurture the skills students need to succeed in school and in society. All members of the school's staff are responsible for keeping parents informed of their child's progress, and communicating both successes and concerns regularly. Outreach to parents includes, but is not limited to, a phone call and/or a written communication as well as the home visits conducted for all newly enrolled students.

Parents are asked to become familiar with the Code of Conduct to ensure they become active and involved partners in promoting a safe and supportive school environment. This includes meeting with school officials (when requested), attending report card conferences, and participating in school community events.

Determining the Disciplinary Response

School personnel consult the Code of Conduct when determining which disciplinary measures to impose. The following facts are taken into consideration prior to determining the appropriate disciplinary measures:

- The student's age and maturity;
- The student's disciplinary record (including the nature of any prior misconduct, the number of prior instances of misconduct, and the disciplinary and intervention measures applied for each);
- The nature, severity and scope of the behavior;
- The circumstances/context in which the conduct occurred;
- The frequency and the duration of the behavior;
- The number of persons involved in the behavior;
- The students IEP (Individualized Education Plan), BIP (Behavioral Intervention Plan) and 504 Accommodation Plan, if applicable.
- The student's response to intervention

School personnel must also respond to disciplinary problems in ways that ensure that all students are treated fairly with respect, dignity and decency and without favor or prejudice against any one group of students according to ability, talent, age, gender/gender identity/gender expression, developmental and acquired disabilities, race and ethnicity, socio-economic status, religious and spiritual orientation, national origin and home language, sexual orientation and indigenous heritage. In practical terms this means that:

- All opportunities and interventions must be accessible to every student, including students with disabilities
- Consequences and interventions at each tier must be consistently applied across all groups of students with fidelity and integrity
- Data must be transparent to determine the use and impact of all consequences and interventions, paying particular attention to indicators of overuse and disproportionality of suspension among various student groups.

Discipline in Kindergarten through Grade 2

Aggressive behavior in young children is rarely an intentional act to harm another. Rather, aggressive acts are often a result of children's unskillful attempts to communicate what they want, what they need, and what they don't like. As a result, when a young child engages in a violent act that threatens or harms others or makes the learning environment feel unsafe, special procedures need to be in place to ensure that both children involved in the incident (the child who has been threatened or hurt and the child who has engaged in the violent act) receive immediate attention and care.

As a result, if aggressive behavior occurs with young children in K-2, parents or guardians can expect that:

- A staff person may temporarily remove the child who has engaged in the violent act immediately without the use of corporal punishment or restraint (unless the restraint is aligned to the guidance provided under the law and can be carried out by a trained staff member). This removal will help the child regain a sense of calm so that the staff member can speak with the child about the incident.
- A staff person will speak to the child who has been threatened or harmed immediately to ensure that the child has an opportunity to talk about the incident and to help the child regain a sense of safety.
- Parents of children involved in the incident will be contacted and school staff will explain the incident, including what happened before the incident and how adults responded to the incident. In addition, the staff member will discuss the short-term plan for restoring a sense of calm and safety as well as long-term plans for preventing similar incidents in the future.
- Parents of either child involved in the incident can request a mediated conference with the other parent and school leadership team members present.

If a student in grades K-2 engages in pervasive or serious aggressive acts that cause injury or threaten children's safety in the classroom, the principal can determine the most appropriate interventions and request an in-school or out-of-school suspension. However, any suspension of

a student in grades K through 2 requires prior approval, in writing, from the BRICK Buffalo Superintendent.

Progressive Discipline

Understanding discipline as a “teachable moment” is fundamental to a positive approach to discipline. Progressive discipline uses incremental interventions to address inappropriate behavior with the ultimate goal of teaching prosocial behavior. Progressive discipline does not focus on punishment. Instead, the goal is to prevent a recurrence of negative behavior by helping students learn from their mistakes. In this approach, every reasonable effort is made to correct student behavior through restorative practices and other school-based resources. Restorative practices, as described in detail in the next section, are essential because inappropriate behaviors or violations of the Code of Conduct may be symptomatic of more serious problems that students are experiencing. It is, therefore, important that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs. Appropriate disciplinary responses emphasize prevention and effective intervention, prevent disruption to education, and promote the development of a positive school culture.

For students with disabilities whose behavior impedes the student’s participation in school, a functional behavioral assessment (FBA) is conducted to understand the causes of the student’s behavior.

Restorative practices

To promote positive behavior and build school culture, BBACS encourages the use of restorative practices rather than exclusionary discipline practices. Restorative practices recognize that school culture is built on the relationships between students and staff. As a result, restorative practices focus on responding to behavior violations through strategies that seek to repair the relationships between the person who caused the harm while also strengthening the community in which the harm was felt. Some examples of restorative practices that are recommended for use include:

- Reflection activities using restorative questions
- Peer mediation
- Mentoring
- Mediated conflict resolution conferences
- Enrollment in social skills groups to support positive social skill development
- Restorative circles
- Community building circles
- Establishing and reestablishing classroom norms and agreements

When used consistently and appropriately, restorative practices help to improve student behavior, lower repeated misbehavior and contribute to a more positive school environment. As a result, BBACS recognizes that restorative practices are an important part of a school’s response to behavior violations and recommends that these strategies are used when appropriate.

Progressive Infraction Levels

To ensure that staff, students, and parents are aware of all expected standards of behavior, the school Code of Conduct provides graduated accountability measures for students who engage in repeated misbehavior despite prior interventions and/or prior impositions of appropriate disciplinary measures. More severe accountability measures are imposed on those students who commit more serious infractions, or who engage in a pattern of persistent misconduct. Whenever possible, school officials use restorative practices and/or the least severe appropriate discipline responses prior to imposing strict penalties.

Infractions are grouped into four levels. Each level contains possible restorative practices as well as possible disciplinary responses that can be imposed by a teacher/administrator. A general explanation of the four levels can be found below:

Level 1	Level 2	Level 3	Level 4
Classroom support and student support team	Intensive support staff and appropriate administration	In-school suspension	Out of school suspension or request for expulsion
May be appropriate when the behavior is a minor infraction, the student has no prior incidents, and/or interventions have not been put in place.	May be appropriate when supports have been put in place in the classroom to address behavior, but the behavior has become persistent and has continued to negatively influence the learning of the student and others.	May be appropriate given the seriousness of the offense and impact on the school community, and/or when documented interventions and supports have been put in place but the behavior is escalating.	May be appropriate when behavior is illegal, presents an imminent threat of serious harm to the school community, or when the student's behavior seriously affects the safety of others in the school and/or educational process.

Each of the levels of infraction can involve different interventions and responses. As a result, the table below is designed to explain some of the ways that teachers and administrators can work together to respond to behavior violations at each level. Please keep in mind that the tables below are not meant to be exhaustive. Rather, all teachers are encouraged to utilize the school's student culture systems as well as a variety of teaching and engagement strategies to build culture in their classrooms.

Level	Teacher-led classroom interventions and responses	School leadership-led interventions and responses
1	Positive directions that state	Reflection activity

	<p>expectations Positive and specific feedback/positive narration Re-teaching and rehearsal of skill or procedure Increased opportunity to respond during instruction Increase teacher proximity Verbal prompt, redirection and/or correction Reminders and redirections Student/teacher conference Use of Restorative Questions Restorative conference Develop relationship with families Call/note home Family conference Temporarily assign to classroom calm down/reset/reflect seat Daily progress sheets on behavior Create a classroom check-in plan Assign a reflection activity Issue a reset pass for a brief reset with a trusted adult or in another classroom (5 minutes or less) Restitution/restoration strategies Other evidence based student specific strategies</p>	<p>Check in with school leadership (such as principal, or Vice Principal) Mentoring Peer mediation Mediated conflict resolution conference Referral to school-based health or mental health providers Service to the school community Restitution plan Referral to other supportive community organizations Utilize support staff to support student</p>
2	<p>All level 1 strategies Collaborate with the family Collect progress monitoring data about the behavior and interventions attempted Student/teacher conference Referral to DASA Coordinator Review of cumulative folder and academic progress to create, implement and monitor an academic support plan Collaborate with academic coaches to build on student strengths Issue a reset pass for a reset with a trusted adult or in another classroom (for no more than one instructional block)</p>	<p>All level 1 strategies Utilize support staff to assist with a root cause assessment/trauma assessment Conflict mediation Administrative and/or support team conference Mentoring/coaching Individualized case management for students with 504 plans or IEPs Referral and coordination of community based supports Referral to social worker or school psychologist for behavior skill building interventions Seat change</p>

	<p>Monitor student plans and reevaluate every two weeks</p> <p>Peer mediation</p> <p>Collaborative family conference</p> <p>Conflict resolution</p>	<p>Loss of recess time</p> <p>After school detention up to 1 day, scheduled collaboratively with the parent/guardian</p> <p>Transportation suspension up to 1 day</p> <p>In-School Suspension up to 1 day and Family/Guardian notification of due process rights</p>
3	<p>All level 1 and 2 strategies</p> <p>Initiate a student-centered discussion about the incident (and Repair, Restore and Reteach expectations)</p> <p>Create, implement and monitor a transition plan for student returning to the classroom, including a restorative circle</p> <p>Create a plan to support classmates as the student returns to class</p>	<p>All level 1 and 2 strategies</p> <p>Referral to social worker or school psychologist for ongoing behavior skill building interventions</p> <p>Schedule or classroom change</p> <p>After school detention up to 3 days, scheduled collaboratively with the parent/guardian</p> <p>In-School Suspension up to 3 days (requires Family/Guardian notification of due process rights)</p> <p>Out of School Suspension for up to 3 days (any Out of School suspension for a student in grades K-2 requires prior approval from the Superintendent in writing; Out of School suspensions of longer than one day in grades 3-5 also require this approval. All suspensions require family/guardian notification of due process rights)</p> <p>Suspension from transportation for up to 3 days</p>
4	<p>All level 1, 2 and 3 strategies</p>	<p>Request for student support team meeting to plan for the successful reintegration of a student after an explosive/violent incident</p> <p>Develop a functional behavioral assessment and behavior intervention plan</p> <p>Out of school suspension of up to 5 days may be imposed by the Principal (requires Superintendent approval and family/guardian notification of due process rights)</p>

		Transportation suspension of up to 10 days may be imposed by the Principal (requires Superintendent approval) Principal can request a formal hearing to consider an out of school suspension for more than five days or, in rare cases, expulsion
--	--	--

The table below provides a list of possible behavior violations and illustrates how the school classifies the levels of those violations. The table below is intended to serve as a guide for the principal or Vice Principal of Culture to use in determining the appropriate consequences for students:

Behavior Violation	Level 1	Level 2	Level 3	Level 4	Notes
Absences					
Occasional refusal to attend class	●	●			Classroom teachers are required to inform the social worker and operations staff to follow up on excessive absences.
Persistent or excessive absences from school	●	●			
Habitual truancy (unlawfully absent for a number of days in excess of 20 percent of any marking period, quarter, or year)	●	●			
Academic Dishonesty					
Plagiarism, copying another's work, cheating or altering records	●	●			Student may receive a failing grade for assignment
Alcohol					
Under the influence		●			School staff is required to refer students to appropriate substance
Using or possessing		●	●		

Distributing or selling			●	●	abuse counseling and to make any law enforcement referrals required by NY state. School nurse must be immediately notified.
Arson					
Starting a fire			●	●	NYS Uniform Fire Prevention Building Code 401.3 requires building principals to contact the fire department for any and all unwanted fires Principals must complete NYSED Office of Facilities Planning Fire Incident Report Form 2014
Starting a fire causing destruction of property				●	
Attack on Student					
Attack on student with injury			●	●	DASA investigation may be required. The school nurse will be consulted regarding student injuries and will assist students with getting help from other medical professionals if needed.
Attack on student with serious bodily injury (hitting, kicking or punching another student)				●	
Two or more persons intentionally attacking a student with injury			●	●	
Two or more persons intentionally attacking a student with serious bodily injury				●	
Bomb Threat					
Making threats or providing false information about the presence of explosive materials or devices on school			●	●	

property					
Bullying-Verbal, Physical and Electronic					
Intentional conduct (including verbal, physical or written conduct) or electronic communication that is threatening	●	●			DASA investigation is required.
Persistent and repeated incidents of bullying targeted at same person or group		●	●		
Very serious incidents that are seriously harmful or personally damaging to the person who is targeted				●	
Classroom Distraction					
Does not work silently or independently without bothering others	●	●			
Throws objects without physical injury to others	●	●			
Talking out in class or talking out of turn	●	●			
Makes excessive, distracting, or disruptive movements or noises	●	●			
Damage to Personal or School Property					
Minor damage (less than \$50)	●	●			Restitution is permitted in lieu of suspension; restitution may be in the form of monetary restitution or the student's assignment to a school work project.
Damage to another person's or school property (\$50 to \$500)		●	●		
Damage to another person's or school property (over \$500)			●	●	
Drugs					

Under the influence		●			School staff is required to refer student to appropriate substance abuse counseling and to make any law enforcement referrals required by NY state. School nurse must be immediately notified.
Using or possessing		●	●		
Distributing or selling			●	●	
Electronic Devices					
Use of cell phones, handheld mobile devices, electronic game devices, and other similar items	●	●			Possession and/or transmission of child pornography is subject to prosecution and must be reported to the police. Students are not permitted to use electronic devices, including cell phones, at school. As a result, staff may confiscate these devices and require parents or guardians to pick them up from the school.
Use of electronic devices that lead to the threat of harm to another person		●	●		
Recording or publishing a fight		●	●		
Use of electronic devices for which it is determined that such use directly causes physical or emotional harm to another person			●	●	
Emotional Outburst or Rage					
Emotional outburst or rage which causes harm		●	●		
Extortion					
Obtaining money or property from another student through coercion, intimidation, or threat of physical harm			●	●	
False Activation of Fire Alarm					
Intentional false activation of fire alarm			●	●	If the fire alarm is activated, the fire department must be notified and they have

					jurisdiction until the event/source is investigated.
Fighting					
Physical aggression with another student		●	●		DASA investigation may be warranted. Documentation of emergency procedures must be submitted to the Superintendent's office.
Fighting which causes the principal to initiate emergency procedures and prevents large numbers of students from moving through the hallways, disrupts the educational process for large numbers of students across the school, and poses a serious and grave threat to the safety of large numbers of students, such as a threat of substantial bodily harm to students				●	
Fighting with serious bodily injury				●	
Fighting that continues without change, even after the documented implementation of interventions have been given ample time to be effective				●	
Gambling					
Gambling with money or exchangeable goods	●	●			
Hallway misbehavior					
Running, making excessive noise, loitering, or persistent hall-walking	●	●			
Harassment based on race, ethnicity, gender/gender identity/gender expression, sexual orientation, disability or religion, including cyber-harassment, against members of the school					

community					
Minor harassment	●	●			DASA investigation is warranted.
Serious harassment		●	●		
Very serious incident that is life-threatening, seriously harmful or personally damaging to the person who is targeted				●

Due Process

All students are entitled to due process for all disciplinary actions. In all disciplinary matters, students will be given notice and an explanation of why the action is being taken, and will have the opportunity to present their version of the facts and circumstances to the staff member imposing discipline. In any situation that leads to a student being removed from class for disciplinary reasons, the child’s parent or guardian will be notified of the incident.

Each year, BBACS distributes the school’s complaint policy to all families of students enrolled in the school. This policy ensures that students and their parents or guardians have the right to appeal disciplinary decisions. Such appeals are typically considered informal complaints. As a result, students and their parents have the right to appeal disciplinary decisions to the school Principal, then to the BRICK Buffalo Superintendent and, if necessary, to the BRICK Buffalo Board of Trustees.

If the parent/guardian believes that a breach of law or the BBACS charter agreement has contributed to or caused the issue, they can file a formal complaint (via the BBACS Complaint Policy) directly with the Board of Trustees. Parents or guardians of students may file formal complaints with the Board related to disciplinary decisions or any other matters if such matters represent a violation of an aspect of the school’s charter or a specific law. The BBACS Board of Trustees may delegate the responsibility for handling such complaints to the BRICK Buffalo Superintendent. If the parent/guardian is not satisfied with the Board’s decision related to a formal complaint, then they can further pursue the complaint to the SUNY Charter Schools Institute.

Approach to Suspension

BBACS’s Code of Conduct was created based on the belief that the school should focus on creating a safe, warm and supportive school environment that actively teaches students to build their social skills and commitment to the community through restorative practices. In addition, BBACS believes that exclusionary practices, such as in-school suspension, out of school suspension, and expulsion, are often not effective as discipline tools because students see these efforts as opportunities to miss school rather than punishments. BBACS also recognizes that exclusionary discipline practices often result in significant disruptions of the educational process and have lasting impacts on student attitudes towards school and academic achievement. As a result, BBACS generally reserves the use of out of school suspension for only the most serious

offenses, specifically those situations where a student's continued attendance poses a threat to his or her own welfare or to the learning or welfare of other school community members.

Short-Term Suspensions

If the Principal or his or her designee believes that a student has committed a behavior violation that warrants a suspension, the Principal or his or her designee must provide formal notice of the proposed suspension. The Principal or his or her designee will inform the student verbally of the suspension, the reason or reasons for it, and whether it will be served in school or out of school. The student shall be given an opportunity to deny or explain the charges. The principal or their designee shall also immediately notify the parent(s) or guardian(s) by phone and in writing of the proposed suspension by sharing a description of the incident, what section of the Code of Conduct was violated, the proposed suspension length and its location. At that time, the principal or his or her designee will inform the family of their right to request an informal principal's conference to discuss the incident prior to finalizing the short-term suspension. If the family requests such a conference, the principal will convene the informal conference to determine the final terms of the suspension. The principal will then issue a final suspension decision that is shared with the family. **The BBACS Principal can suspend a student for up to 5 days from school or up to 10 days from transportation, if approved by the Superintendent.** Families that disagree with a short-term suspension determination may appeal the decision to the BRICK Buffalo Superintendent.

Long-Term Suspensions

The principal or his or her designee can also request that a student be considered for a longer term suspension of greater than 5 days from school or greater than 10 days from the bus. In these cases, the principal must provide a notice of suspension, rather than a final suspension decision, that also includes a Superintendent's Notice of Hearing. This notice must include the date, time and place for a formal hearing; a statement of charges, and information about the student's due process rights, including their right to retain or secure an attorney, to question all witnesses, to present witnesses/evidence and to have interpreter services present. In these cases, the Superintendent or his or her designee will facilitate a Superintendent's hearing. Based on this hearing, the Superintendent will then issue a final suspension decision that is shared with the family. **The BRICK Buffalo Superintendent can suspend a student for up to 180 days from school or up to 180 days from transportation.** Families that disagree with a long-term suspension determination may appeal the decision to the BBACS Board of Trustees.

Additional Suspension Information

Formal suspension return conferences are required for suspended students to be readmitted to class. These conferences provide an opportunity for the family to meet with the principal or his or her designee to discuss ways for the student to successfully return to class and to receive any follow up support necessary.

Written notice

All suspension communication with families should occur in the dominant language of the family, including any letters sent home related to suspensions. In addition, the school will make arrangements for translators to be present for suspension conferences.

Alternative Instruction for Suspended Students

When students are suspended for more than one day (either in- or out-of-school), BBACS will provide alternative instruction to prevent disciplinary consequences from significantly inhibiting their opportunities to learn. BBACS will provide students with all classwork, homework assignments, and assessments as well as access to all New York State assessments so that students can stay on track with their classes and requirements for grade-level promotion. If a student does receive an out-of-school suspension, he/she will receive alternative instruction provided by a certified teacher for at least two (2) hours per day during the period of the suspension.

Expulsion

Students may be expelled from BBACS for the following reasons:

- a. selling, using, or possessing weapons, fireworks, or other dangerous instruments
- b. selling, or transferring cigarettes, alcohol, drugs, or other controlled substances or drug paraphernalia
- c. assault or repeated incidents of threats, bullying, or use of force
- d. commission of a felony
- e. conduct that poses an immediate or ongoing danger to the health and welfare of the students and/or faculty
- f. sexual harassment or abuse
- g. ongoing incidents of misconduct that persist even after repeated intervention by school staff and that represent a pattern and are damaging to the school community such as fighting, stealing, and vandalism
- h. any other act which school officials determine reasonably warrants an expulsion

Expulsion Steps

1. The principal or his/her designee will investigate and document the incident. Suspension procedures will be followed. In extreme cases, parents will be asked to immediately pick up the child from school.
2. The principal or his/her designee will consider the circumstances and determine whether the conduct warrants expulsion. Once a decision is made to begin expulsion proceedings, the Principal will immediately notify in writing (via certified letter) the student's parents or guardians of the intent to expel, provide a copy of the expulsion policy, and assure receipt of such notice within 24 hours. This notification would also include the date, time and place for an expulsion hearing, a statement of charges, and information about the

- family's due process rights, including their rights to retain/secure an attorney, to question witnesses, to present witnesses and evidence and to have interpreter services.
3. The Superintendent would then convene a formal hearing to determine whether or not to recommend an expulsion to the BBACS Board of Trustees.
 4. The BBACS Board of Trustees would then determine whether or not to expel a student. Families who disagree with the Board's decision may appeal the decision to the SUNY Charter Schools Institute.

Discipline for Special Education Students

The aforementioned discipline rules and procedures apply to students with disabilities to the extent that they are consistent with federal laws and regulations regarding the placement of students with disabilities. This includes procedures for parent and student notification and appeal.

The BBACS disciplinary policy, with regards to any student with a disability, will be in accordance in all respects with the Individuals with Disabilities Education Act (IDEA), including but not limited to the requirements and procedures set forth at sections 121(d) and 519-529 of Part 300 of Title 34 of the Code of Federal Regulations. The school will cooperate with the CSE of the local district of residence of the student's school district of residence to ensure compliance with Part 300 of the IDEA. In cases where the discipline policies described above violate the provisions of IDEA, the provisions of IDEA will take precedence.

In addition, BBACS will implement the following rules and procedures with respect to the discipline of students with disabilities:

1. BBACS will provide parents of students with disabilities with a copy of the rules and procedures regarding discipline, including the appeals process.
2. During suspensions or removals for periods up to five (5) school days in a school year (that are not a change in placement), students with disabilities shall be provided alternative instruction on the same basis as all students. During the suspension period students with disabilities will be provided services to continue their progress in the general education curriculum and meet their IEP goals. The principal and the Director of Special Education will determine which services are necessary and will keep records of the number of times a student has been suspended or removed for disciplinary reasons.
3. When suspending or removing a disabled student for more than 10 school days in a school year or imposing a suspension that would constitute a change in placement, BBACS will immediately contact the CSE of the local district of residence to convene a Manifestation Determination Review (MDR) meeting no later than 10 school days after a decision is made to impose a disciplinary change and ensure that the student's parent is provided with a copy of their procedural due process rights.
 - a. Upon the CSE of the local district of residence completion of the manifestation determination, those students whose behavior is not a manifestation of their disability will be subject to the same disciplinary measures as non-disabled students.
 - b. In addition, this or another meeting will serve to develop or review a functional assessment and behavior plan or to modify the existing plan, and if necessary,

determine education services or the interim alternative educational setting consistent with the free appropriate education (FAPE) requirements. The school will cooperate fully with the CSE of the local district of residence to gather data to define the behavioral problem and implement the behavior plan.

- c. If the behavior is determined to be a manifestation of the student's disability, the student will be returned to his or her current placement unless the parent agrees to a change or there is an impartial hearing or court order permitting the placing of the student in an interim alternative education setting.
4. During suspensions, the charter school will guarantee the child's right to a free appropriate education (FAPE), and instruction will continue to be provided in a manner consistent with the child's IEP goals that provides progress in the general education curriculum. This will be provided by an appropriately certified teacher.
5. The principal or his or her designee must consult with the Director of Special Education before issuing a proposed suspension to a student with a disability.

Physical Contact between Staff and Students

BBACS believes that establishing nurturing and caring relationships between staff and students is important, and that appropriate and positive physical contact between staff and students is acceptable and beneficial to the educational process. Examples of permissible physical contact include:

1. Indications of encouragement, affection, and support, including but not limited to:
 - touching a child on the shoulder
 - patting a child on the back
 - shaking hands with a child
 - holding hands with a child (only for safety and to avoid danger to the child and others)
2. Attempts to awaken or attract the attention of a child who is sleeping or not responding to verbal cues, including but not limited to:
 - Tapping a child on the shoulder or hand
 - Patting a child on the back
3. Educational interventions intended to improve academic skills, help a child participate in an activity, or complete a task, including but not limited to:
 - Grasping a child's hand to help him guide a pencil
 - Helping a child to tie her shoe
 - Touching a child's shoulder in a game of tag
4. Safety interventions intended to protect a child's physical well-being, or the well-being of another person, including but not limited to:
 - Restraining a child who is fighting
 - Removing from a room a child who is throwing things at others
 - Stopping a child from stepping into the street

BBACS does **NOT** condone physical contact in the following cases:

- Contact as a part of disciplining a child or correcting a child's behavior (corporal punishment), unless used as a safety intervention (see # 4 above)

R-10b-Discipline Policy 21

- Contact that is forceful enough to purposefully or accidentally cause injury or harm to a student, unless a safety intervention (see # 4 above)
- Contact that results in harm to a student
- Contact that is sexual in nature

The New York State Dignity for All Students Act (Dignity Act)

The New York State Dignity for All Students Act (Dignity Act) was signed into law on September 13, 2010. This legislation amended State Education Law by creating a new Article 2 – Dignity for All Students. The Dignity Act states that NO student shall be subjected to harassment or discrimination by employees or students on school property or at a school function based on their actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex.

- The Dignity Act amended New York State Education Law to include instruction in civility, citizenship and character education by expanding the concepts of tolerance, respect for others, and dignity.
- The Dignity Act also amended Education Law, instructing Boards of Education to include language in the codes of conduct to comply with the Dignity Act.

Dignity Act Highlights:

- All public elementary and secondary school students are protected by the Dignity Act.
- The Dignity Act prohibits the harassment and discrimination of students by students and by school personnel.
- Bullying and hazing are forms of harassment and discrimination and will be considered violations of the Dignity for all Students Act (DASA).
- The Dignity Act applies to behavior on school property (including athletic fields, playgrounds, and parking lots), in school buildings, on a school bus/vehicle, as well as at school-sponsored events or activities.
- All incidents that involve the type of harassment and bullying stated in the DASA will be documented. A school must also document what steps it is taking to stop the harassment.
- Each school will assign a Dignity Act Coordinator, who will document and handle all incidents regarding Dignity for All Students Act violations. At BBACS, the social worker will serve as the school’s DASA Coordinator.

R-10c - Special Education Discipline Policy

Provide the school's discipline policy for special education students with assurances that it is in conformity with the federal Individuals with Disabilities Education Act ("IDEA") and regulations.

BRICK Buffalo Academy Charter School's Special Education Discipline Policy conforms with the federal Individuals with Disabilities Education Act (IDEA) and its regulations. In addition to the discipline procedures applicable to all students, the following procedures are applicable to students with disabilities:

- A student not specifically identified as having a disability, but whose school district of residence or charter school, prior to the behavior that is the subject of the disciplinary action, has a basis of knowledge—in accordance with 34 CFR 300.534—that a disability exists, may request to be disciplined in accordance with these provisions. BBACS shall comply with Sections 300.530-300.536 of the Code of Federal Regulations ("CFR") and the following procedures, except when the following procedures are inconsistent with federal law and regulations, in which case, such federal laws and regulations shall apply.
- The school shall maintain written records of all suspensions and expulsions of students with a disability, including the student's name, a description of the behavior, the disciplinary action taken, and a record of the number of days the student has been suspended or removed for disciplinary reasons.
- For infractions that do not entail a change in placement or that entail a change in placement of 10 days or less (cumulative), students with disabilities shall be subject to the same disciplinary policy as students without disabilities. Suspended students will receive the same legally required compensatory education as other students, although they are not required to receive their IEP services.
- If a student identified as having a disability is suspended during the school year for a total of more than 10 days, such a student will be referred immediately to the CSE of the student's district of residence for reconsideration of the student's educational placement. Such a student shall not be suspended for more than 10 days during the school year without specific involvement of the CSE of the student's district of residence prior to the 11th day of suspension, as such suspensions may be viewed as a change in placement.
- In considering the placement of students referred because of disciplinary problems, the CSE of the student's district of residence is expected to follow its usual policies with respect to parental notification and involvement. The CSE will be notified in the event of:
 - 1) The commission of an infraction by a student with a disability who previously has been suspended for the maximum allowable number of days.
 - 2) The commission of any infraction resulting from the student's disability.
 - 3) The commission of any infraction by a disabled student, regardless of whether the student previously has been suspended during the school year if, had such an infraction been committed by a non-disabled student,

the principal would seek to impose a suspension in excess of 10 days.

- BBACS will also ensure that when the suspension or removal of a student with a disability entails a disciplinary change of placement, the CSE will be notified immediately so that the CSE can meet its required obligations to:
 - 1) Convene a CSE meeting within 10 school days to make a manifestation determination;
 - 2) Convene a CSE meeting within 10 business days to develop a plan to conduct a functional behavioral assessment or review an existing functional behavioral assessment or behavioral intervention plan;
 - 3) Provide the student's parents with a copy of their procedural due-process rights;
 - 4) Work closely with the CSE of the student's district of residence in determining education services or the interim alternative educational setting consistent with FAPE requirements.

Provision of Services During Removal: Those students removed for a period of fewer than 10 days will receive all classroom assignments and a schedule to complete such assignments during the time of his or her suspension. Provisions will be made to permit a suspended student to make up assignments or tests missed as a result of such suspension. The school also shall provide additional alternative instruction within the 10 days and appropriate means to assist the student, so that the student is given full opportunity to complete assignments and master the curriculum, including additional instructions, phone assistance, computer instruction and/or home visits and one-on-one tutoring.

During any subsequent removal that, combined with previous removals, equals 10 or more school days during the school year, but does not entail a change in placement, services must be provided to the extent determined necessary to enable the child to progress appropriately in the general curriculum and achieve his or her IEP's goals. In these cases, school personnel, in consultation with the child's special education teacher, shall make the service determination.

During any removal for drug or weapon offenses pursuant to 34 CFR §300.530(g), services will be provided to the extent necessary to enable the child to progress appropriately in the general curriculum and achieve his or her IEP's goals. These service determinations will be made by the CSE of the student's district of residence. The school will place students in interim alternative educational settings as appropriate per 34 CFR §300.520(g).

During any subsequent removal that entails a change in placement, but in which the behavior is not a manifestation of the disability, services must be provided to the extent necessary to enable the student to progress appropriately in the general curriculum and achieve his or her IEP's goals. The CSE of the student's district of residence will make the service determination.

Due Process: If discipline that would entail a change in placement is contemplated for any student with an IEP, the following steps shall be taken:

- (1) no later than the date on which the decision to take such action is made, the parents

of the student with a disability shall be notified by the school that made this decision and provided with the procedural safeguards notice described in 34 CFR §300.504 and 530(h); and

(2) the CSE of the student's district of residence and other qualified personnel shall meet and review the relationship between the child's disability and the behavior subject to the disciplinary action (subject to the CSE's availability).

If, upon review, it is determined that the child's behavior was not a manifestation of his or her disability, then the child may be disciplined in the same manner as a child without a disability, except as provided in 34 CFR §300.530(d), which relates to the provision of services to students with disabilities during periods of removal.

Parents may request a hearing to challenge the manifestation determination. Except as provided below, the child will remain in his or her current educational placement pending determination of the hearing.

If a parent requests a hearing or an appeal to challenge the interim alternative educational setting or the manifestation determination resulting from a disciplinary action relating to weapons or drugs, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in the disciplinary action, whichever occurs first, unless the parent and BBACS agree otherwise.

R-10d – Dress Code Policy

d. Dress Code Policy

- *If the charter school would implement a dress code policy, describe the policy and the rationale for its selection. Include a description of how the school would subsidize the cost of uniforms for parents unable to afford them.*

Uniforms

BBACS students will wear school uniforms, which is another example of a culture-building and maintenance strategy. School uniforms will help contribute to a positive learning environment by enhancing school safety, promoting school pride, creating a sense of unity amongst students, bridging the socio-economic differences between students, promoting good behavior, improving students' self-respect and self-esteem, and producing cost savings for participating families.

Students are to wear a uniform every day unless the school sends out a communication to families regarding updated uniform expectations for a special event (such as celebratory dress down days, events encouraging students to wear special clothing such as Buffalo Bills gear or pajamas, or a formal “dress for success event”). The uniform policy will be consistently enforced and students out of uniform will be addressed and parents notified. An initial draft¹ of the BBACS uniform expectations is described below:

- Students may wear a green polo and khakis or navy blue uniform pants/skirts/jumper.
- Alternatively, students may wear a green button-down with a school logo and khakis or navy blue uniform pants/skirts. A tie is not required.
- Shirts are to be tucked into bottoms with a belt.
- A long sleeve undershirt can be worn if it is black, navy or white.
- If wearing tights or if socks are visible, black, navy or white tights/socks are expected.
- Black shoes/sneakers with a rubber bottom.
- On gym days, students are permitted to wear a special gym uniform (green t-shirt and navy blue shorts/sweatpants) and sneakers.
- Only solid navy hoodies and sweaters, or hoodies and sweaters with a school logo, may be worn.

BBACS believes that requiring students to wear uniforms supports families by reducing the amount of clothing required for the school year. BBACS will also support families by working with local uniform providers each year to negotiate competitive costs for school uniforms to ensure the lowest possible cost to families. However, BBACS recognizes that some families may still need

¹ The BBACS team will provide opportunities for families to provide feedback on the proposed uniform guidelines/dress code before this is finalized.

financial assistance to provide uniforms for their children. As a result, families who need uniform assistance can let the school know this information as a part of the school's new student onboarding processes or at any time during the year when a financial hardship emerges. All requests received in this manner will be reviewed by the school's social worker, who will oversee the school's budget line item for uniforms. During the first charter term, BBACS has budgeted \$1,000 per year for this expense. In addition, the board development committee will work to raise additional funds to supplement this amount if necessary.

R-11ab - School Management and Leadership

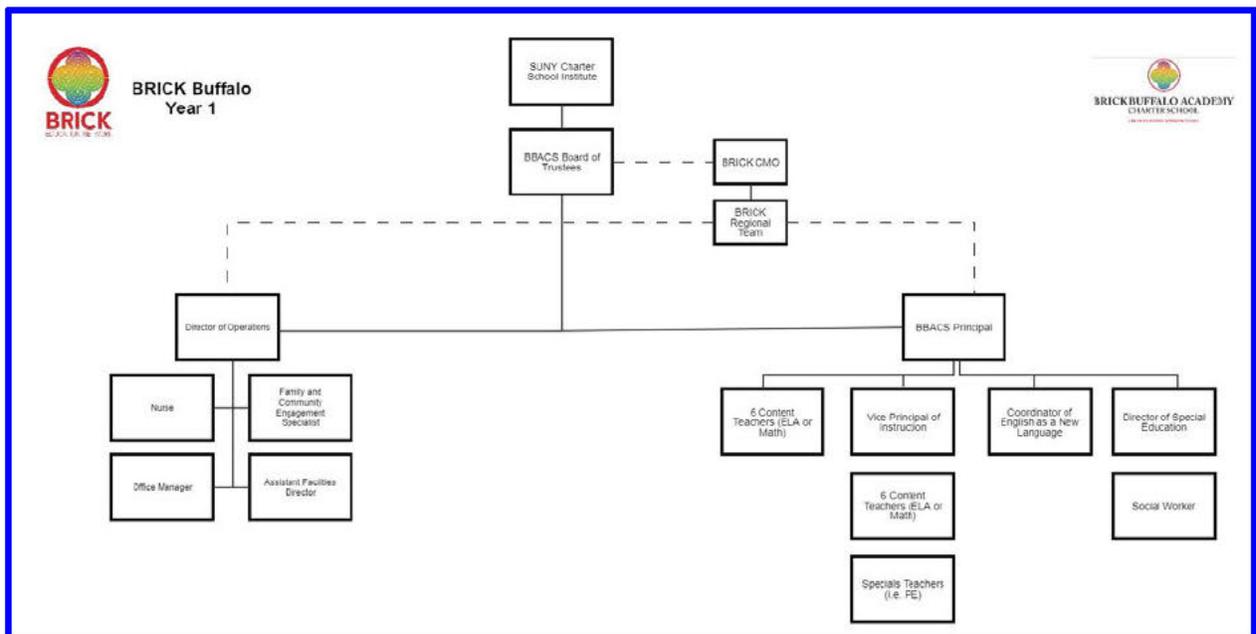

11. School Management and Leadership

a. Organizational Chart

Provide organizational charts for both the first and fifth years of operation clearly showing reporting structures between the school leader(s), the board of trustees, and staff. If the charter school intends to contract or partner with an entity for management or educational services, the organizational charts should also reflect that relationship.

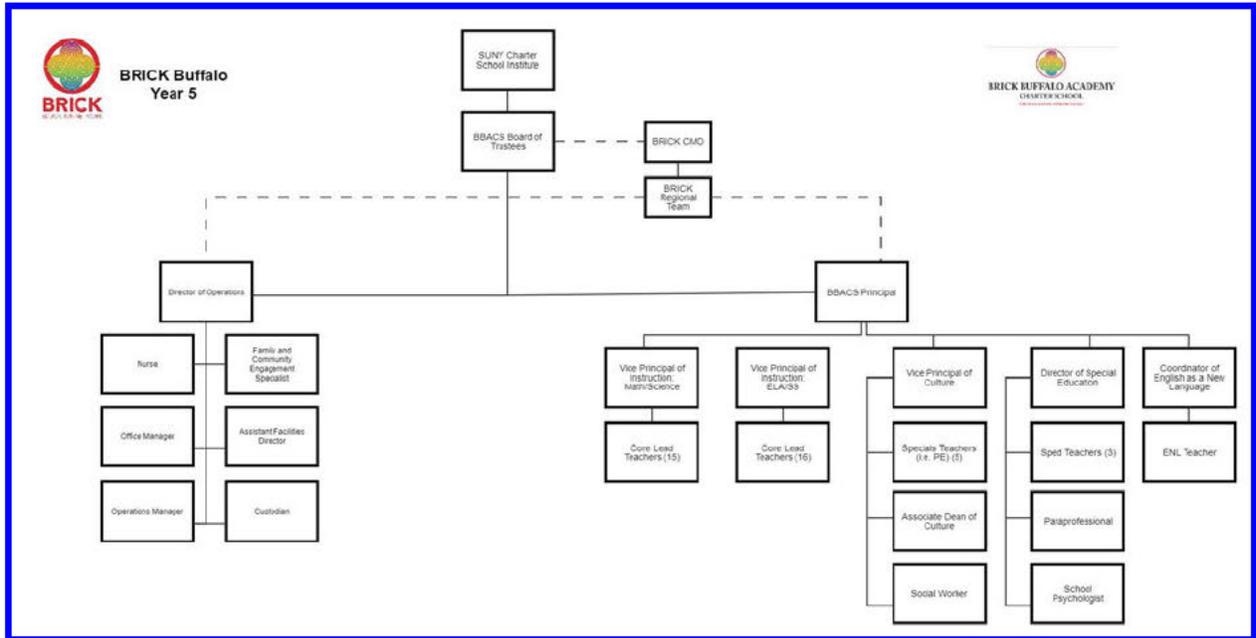

Year One 2023-2024

The organizational chart for the school's first year of operation is shown below:

Year Five 2027-2028

The organizational chart for the school's fifth year of operation is shown on the next page:

b. School Leadership and Management Structure

Include a narrative explaining the lines of reporting and accountability, the rationale for choosing this structure, and the roles of any management or partner organizations. The narrative should:

- a. Describe the management practices and procedures (e.g., how the school will set priorities and make key organizational decisions);*
- b. Outline the evaluation procedures for staff in management positions; and,*
- c. Describe recruitment plans for the school leader including:

 - o The process and criteria the school will use to select the school leader;*
 - o Who has been or will be involved in the selection process; and,*
 - o The role of any CMO or partner organization (if any) in the selection process.**

Organizational Structure

The charter for BRICK Buffalo Academy Charter School will be held by the school’s Board of Trustees. The board of trustees is the school’s governing body and is directly responsible for the academic, operational, and fiscal success of the school. The proposed board currently includes nine community members who represent a broad range of skills and expertise; are deeply connected to the Buffalo community; and have a commitment to ensuring the success of the school. Each member of the Board has shown their dedication to launching the school by participating actively in the development of this charter application during the two-year period that Mr. Barlow, a community resident, has worked to start a school in the East Side community where he grew up.

Board Development

During the last year, all board members participated in board member training led by FBW Consulting, LLC., an external organization led by Fatima Burnham-Watkins, the former Executive Director of Teach for America New Jersey. Mr. Burnham Watkins provided comprehensive training sessions to the full Board as well as individual coaching to the proposed Board Chair and proposed Vice Chair. Her sessions included training focused on ensuring that the local Board was able to review and evaluate BRICK's history and approach to education; to understand their responsibilities to provide effective governance as Board members; and to understand how to distinguish the role of the Board and a charter management organization. As a result, the Board is fully aware of its responsibilities, including that the Board of Trustees is responsible for setting the vision for the school and ensuring that the school is able to achieve its goals for students and remain in compliance with the school's charter as well as state and federal law. Through this training, the BBACS Board of Trustees also learned that creating a clear organizational structure, with clear lines of reporting and accountability, would enable them to provide effective governance over the school.

The Power of the Network

The BBACS Board plans to contract with the BRICK Education Network to provide comprehensive management services for the school. The board recognizes that this contract will enable the school to access significant supports that many start-up charter schools in Buffalo do not have—including a back office staff with expertise in talent recruitment, human resource management, finance, curriculum development, and instructional leadership. Many of the charter schools in Buffalo are small, independently-run organizations and it can be incredibly challenging for such organizations to execute the comprehensive services necessary to run a high-quality charter school. Consequently, the BBACS Board is excited about the prospect of working with a nationally recognized charter management organization that could provide an unprecedented level of support to the school that empowers school staff to inspire groundbreaking achievement results that will benefit the students of East Buffalo.

During the last year, the full Board has dedicated time during its monthly meetings to discuss a draft educational services agreement that defines the specific supports BRICK would offer for the school and to provide feedback. For example, the BBACS board dedicated meeting time to analyzing specific excerpts from that agreement that helped to define how the board and CMO collaborate to ensure the success of the school (such as the role each entity plays with respect to supporting the principal). Each board committee also collaborated with BRICK Buffalo regional directors to create a matrix that defines exactly what support will be provided by the CMO in their area of expertise—and outlining how each committee can provide effective oversight of those services on an ongoing basis. The result of this work is that board members understand that, after charter approval, they will become the school's official governing body and will be directly responsible for the success of the school, including by providing oversight of the management services provided by BRICK. The BBACS Board recognizes that, while they plan to contract with the CMO to provide services, these services do not release the Board from its ultimate responsibility to set the vision for the school and to ensure the effectiveness of the school on an ongoing basis. Copies of the draft educational services agreement and the sample

CMO evaluation tool are provided in *R-23b - Supplemental Attachments*. Table 11.a below provides an example from that evaluation tool that shows how the specific criteria from the educational services agreement with the CMO have been mapped to ongoing oversight actions that the Board’s robust committee structure will take to ensure effective service delivery.

Table 11.a - Board Oversight of CMO Services

Criteria	Status	Discussion	Notes and Commentary
CMO shall recommend finalists for hire for the Principal and Director of Operations positions	Full Compliance	When needed	Personnel Committee collaborates with the CMO on recruitment and selection process and reviews proposed terms of employment. Full Board votes to formally approve terms of employment.
CMO shall effectively supervise the Principal and Director of Operations.	Full Compliance	Ongoing	Personnel Committee collaborates with the CMO on developing the evaluation process and finalizing the formal evaluations of each staff member in July of each year.
CMO shall provide an intensive leadership program for the school's Principal and Director of Operations.	Full Compliance	July	Academic Committee reviews annual leadership development plans for both leaders.
CMO shall recruit and recommend qualified personnel for all open positions.	Full Compliance	Monthly from January through September	Personnel Committee reviews annual talent plan, including projected openings based on five year projections in charter, as well as proposed recruitment strategies. Dashboard of hires made relative to open positions is shared with the full board from January through September.
CMO shall provide general human resources support, including but not limited to, assisting the Principal and the Director of Operations with the selection and training of the School’s staff, determining staff needs, recommending the adoption of procedures for the hiring, supervision, discipline and termination of personnel and other personnel policies and administrative procedures applicable to the staff, assisting the Board and School leadership in setting compensation levels of the School's staff, and supporting the School in its development and training of administrative staff and consulting with the School in the establishment of procedures for hiring substitute staff.	Full Compliance	July	Personnel Committee reviews the Talent and Human Resources Guidebook, which is updated annually, and includes comprehensive information on the CMO's approach to staff selection, training, and supervision. In addition, the Personnel Committee reviews the staff salary assumptions as part of each year's budgeting process and provides feedback before the budget is finalized.

Lines of Reporting and Accountability

As the organizational charts provided in ***R-11a Organizational Charts*** show, the Board of Trustees is responsible for the overall performance of the school and is directly accountable to the SUNY Charter Schools Institute. The BRICK Education Network will provide services for the Board and, as a result, is accountable to the BRICK Buffalo Board of Trustees. The BBACS Board plans to use the CMO evaluation previously described to provide effective oversight of the services provided by the CMO. The CMO evaluation tool is designed to ensure that the Board has a strong system for monitoring the extent to which the CMO is providing the services outlined in the educational service agreement, the level of academic performance of the school, and other critical metrics that boards need to monitor closely. The governance functions named in this tool will also be used to create an annual calendar for Board meetings as well as an annual calendar for committee meetings to ensure that the board is able to provide effective oversight of key metrics throughout the year (such as by ensuring the Audit and Finance committee receives weekly reporting of enrollment information during the incubation period). The BRICK Buffalo regional directors will be responsible for updating this tool prior to each board meeting so that they can provide the board with a comprehensive update on the services provided to the school and the overall level of school performance; these reports, in turn, will support the board to effectively exercise its governance responsibilities and set direction for the school as needed.

The BRICK Buffalo Regional office, including the Regional Director of Instruction/Superintendent and the Regional Director of Operations, are employees of the BRICK Education Network who are based in Buffalo and dedicated full time to supporting BBACS, a fact which is outlined in the educational services agreement. As a result, they are employed by the BRICK Education Network rather than the BBACS board. At the same time, they are dedicated to ensuring that the board receives high-quality support from the CMO and, as a result, maintain strong lines of communication with the board, including by meeting with board committees each month and making formal reports at monthly board meetings.

The BBACS principal will be appointed by the board of trustees and will supervise and oversee the instructional and cultural program of the school. The school principal, with support from the BRICK Buffalo Regional Superintendent/Director of Instruction, will work to achieve the school's mission, execute on the strategic priorities, achieve the school's academic and cultural goals, and ensure the school's success. The principal will oversee, and report on all matters including, but not limited to, student achievement, character education, school culture, teacher training, and curriculum implementation. Additional information about the role of the BBACS Principal can be found in ***R-12ac Personnel*** and ***R-9 Instructional Leadership***.

The BBACS Director of Operations will also be appointed by the board of trustees and will provide operational leadership and oversee all non-instructional operational matters, including but not limited, to school operations, administrative matters, facilities, enrollment, student records management, logistics, technology, budget and financial matters, contracts, school safety, and health services. The Director of School Operations, with support from the BRICK Buffalo Regional Director of Operations, will work to implement BRICK's operational model and

frameworks to ensure the school can achieve its operational goals. Additional information about the role of the BBACS Director of Operations can be found in ***R-12ac Personnel***.

The BBACS Principal and Director of Operations will be the most senior school-based staff and will serve as co-equal leaders of the school. Both will be responsible for formally reporting to the BBACS Board of Trustees at its monthly meetings. These staff members are formally employed by the board, which finalizes the terms of their employment and retains final authority over their evaluations and employment status with BBACS. Based on the educational services agreement, BBACS plans for BRICK to provide support in coaching and supervising these employees. In particular, the BRICK RDI will provide these services to the principal and the BRICK RDO will provide these services to the Director of Operations. However, given that these school-based staff members are formally employees of the Board, the RDI and RDO will collaborate with the board personnel committee each year to develop the evaluation system for these staff members and to collaboratively author their evaluations.

All other school-based staff are also employees of the BBACS Board and are directly accountable to one of the two senior campus leaders, either the principal or the Director of Operations as shown in the organizational charts provided. As such, the BBACS Board is responsible for the terms of their employment and retains the authority to hire or terminate these positions as well. The BBACS Board of Trustees believes that this organizational structure will serve the dual purpose of ensuring the board is empowered to set the vision for the school while also ensuring that school-based staff members have the additional support they need to launch and maintain a high-performing charter school for the children of East Buffalo.

Setting Priorities and Making Key Decisions

The BBACS Board of Trustees plans to implement a robust **annual strategic planning process** that engages a wide variety of stakeholders in the process of setting key organizational priorities and making decisions that will help the school achieve its mission and goals. This process is modeled after a strategic planning process used by Bain Consulting that has been modified to meet the needs of a charter school. A draft timeline for how this process could take place during each school year is described below:

- **November and December: Assemble a fact base.** During this time, the BBACS Board will set direction for what data should be compiled to help inform its strategic planning process for the next school year. Based on this input, the BRICK Buffalo Regional team will then compile this information to help describe the current state of the school (including, but not necessarily limited to, the data dashboards shared with the Board since the start of the year, the narratives from ongoing academic and operational site visits to the school, and the fall staff survey data). The BRICK Buffalo RDI and RDO will then work together to synthesize this information into a presentation describing the “State of the School.”
- **January: Comparing to our north star.** The Buffalo RDI and RDO will then meet with the BBACS Principal and Director of Operations to deliver the “State of the School” presentation and to compare the current state of the school to the vision described in the school’s original charter application. This team of people (the school’s strategic planning team) will then collaboratively work to identify their ambitions for improving the school during the next school year, including key areas of the program to strengthen and key

performance goals that would indicate that the team has improved the program in those areas. The team will also devise a plan for how to engage all BBACS stakeholders in this process (including staff, families, students and community members).

- **February and March: Engaging our team.** The strategic planning team would then work to lead a series of meetings to engage all stakeholders in a process to identify key priorities for the next school year. This process would involve conducting focus groups with different stakeholders, including school leadership, instructional staff, operational staff, families, students, Board members, and CMO staff that support the school. During each focus group, stakeholders would receive a presentation that is anchored in the original charter and the state of the school data to enable conversations regarding the key priorities for the school in the year ahead.
- **April: Starting a priority plan.** The strategic planning team would then add additional representatives to include other stakeholders (including, for example, a teacher representative, a representative from the operations team, and a family representative). The strategic planning team would then create an initial priority plan for the next school year that included the key priorities for the school as well as sample performance goals and benchmarks for performance.
- **May: Revising a priority plan.** The strategic planning team would then work together to revise the initial priority plan to ensure that it was feasible. To assess feasibility, the team would create an implementation plan that went beyond priorities and goals to also include key initiatives that staff members would take on to drive success on those priorities and the specific action steps necessary to achieve those initiatives with related timelines and clear owners. The draft priority plan and implementation plan would then be shared with the BBACS Board of Trustees for feedback.
- **July: Finalizing a priority plan.** The RDI, RDO, principal and DO would reconvene during summer Leader PD to review the revised priority plan and to update any aspects of the plan necessary before the upcoming school year (including, for example, by revising based on end of year student achievement results or to address current health circumstances related to COVID). The strategic planning team would then collaboratively present the strategic plan to the Board of Trustees for final approval.

This process is intended to ensure that the school has an intentional annual plan for executing an inclusive strategic planning process. Over time, this draft process will likely be updated to meet the evolving needs of the school or to address unique challenges that may arise (such as the need to shift this process based on evolving public health conditions).

It is also important to note that the BRICK Buffalo RDI and RDO as well as the principal and Director of Operations will also participate in quarterly Executive Leadership Committee meetings with the entire leadership of the BRICK network. These meetings will enable these staff members to have a voice in the evolving organizational priorities of the CMO to ensure that the CMO continuously provides the best possible service to BBACS.

Evaluation Procedures for Management

BBACS believes that clearly establishing expectations for staff performance and student achievement are a critical part of building a high-performing school culture. As a

result, the BBACS Board will collaborate with BRICK each year to set annual performance goals that align to the school's performance targets established by the SUNY Charter Schools Institute. The BRICK Buffalo Regional Directors will then work in collaboration with the Board's personnel committee to finalize aligned performance goals for the principal and Director of Operations as well as the evaluation instruments that will be used to further define the expectations for their performance, including any supporting rubrics (for additional context, a sample principal evaluation rubric is also included in ***R-23b-Supplemental Attachments***). Each BRICK Buffalo regional director will then meet with the senior leader they support (the RDI with the principal and the RDO with the Director of Operations) to clarify their performance goals and the expectations for their work during the following year and to review any supplementary documentation that helps to clarify this information. These meetings, called Individual Performance and Development Plan (IPDP) meetings, will also enable the BRICK Buffalo regional directors to discuss the specific ways that they can support the senior school-based leaders throughout the year to support their ongoing development. Collectively, these performance goals, expectations for performance, and aligned plans for development, will be used to create Individual Performance and Development Plans for each leader. These plans will then be shared with the BBACS Board personnel committee and will help to inform how the RDI supports the principal and how the RDO supports the Director of Operations throughout the year.

BRICK regional directors will also complete a full performance management cycle with the senior school leaders by conducting formal midyear and end of year evaluation meetings. Prior to each of these evaluation meetings, the principal and Director of Operations will each complete a reflection regarding their progress towards their performance goals, a self-assessment of their strengths and areas of growth relative to the expectations for their position; and their progress against the development milestones named in their IPDP, sharing supporting artifacts where appropriate. BRICK regional directors will then collaborate with the Board personnel committee to finalize evaluations before following up with the senior school leaders. After conducting the formal midyear and end of year evaluation meetings, BRICK regional directors will share the contents of those evaluations with the Board personnel committee and debrief the evaluation process.

The BRICK Buffalo Regional Directors will then work with the school principal and Director of Operations to replicate a similar process each year for the managers that they supervise. Each summer, the BRICK Buffalo regional directors will support the principal and Director of Operations to develop performance goals for each manager that align to the school's performance goals (for example, the K-5 Vice Principal of Instruction for math and science would be responsible for ensuring that the school achieves its math and science goals). In addition, the BRICK Buffalo regional directors would collaborate with the principal and Director of Operations to review the expectations for staff member performance as outlined in school's evaluation rubrics to determine what changes, if any, need to be made to these documents. The BRICK Buffalo regional directors would then provide additional support based on the needs of the principal or Director of Operations. For example, by helping to collaboratively author a vice principal's evaluation or to role play an upcoming evaluation conversation. BRICK Buffalo regional directors could also partner with the BRICK Human Resources team and BBACS personnel committee to produce professional

development sessions designed to train school-based managers on how to effectively write and facilitate evaluations.

School Leader Recruitment

The BBACS team strives to hire candidates that are mission driven and dedicated to closing the opportunity gap in Buffalo. As a result, the school plans to recruit and select staff that not only have strong credentials, but also an unwavering belief in the students and community served. BBACS is also committed to identifying, recruiting and retaining a diverse group of teachers and leaders that represent the backgrounds of the students served. As a result, BBACS recognizes that it must have clear plans in place to recruit the founding principal and Director of Operations.

A brief summary of how BBACS and BRICK have worked together to recruit these staff members is provided below:

- The BRICK talent team has provided comprehensive support during the last year that is aligned to the talent recruitment processes described in ***R-12ac Personnel***, including:
 - Posting for these positions on the network's Lever hiring site as well as on other sites frequented by educators, including LinkedIn, Glassdoor, and Indeed.
 - Administering an internal referral campaign with BRICK Education Network staff and the staff at its campus in Newark, the Achieve Community Charter School, to source potential staff members for Buffalo.
 - Providing BRICK Buffalo regional directors with the talent recruitment materials they could use to personally recruit candidates (including by producing job descriptions for these positions, informational fliers about the positions, and standard materials to use in delivering presentations about BRICK).
 - Holding information sessions about these senior roles with partner organizations (like Teach for America) and with educational institutions (like Teachers College at Columbia University, the University at Buffalo, Canisius College, and Buffalo State).
 - Sharing information about these roles via social media (including the school's Facebook page) and its monthly newsletter
- The BBACS Board also played an active role in helping to recruit senior leaders to become a part of the founding team. Some of the actions taken by board members included:
 - Connecting the BRICK Buffalo regional directors to the leaders of nonprofit organizations in the community so that these leaders could share the open positions with their networks.

- Referring the BRICK talent team to specific educators that they had worked with previously who may be interested in the positions or individuals who could help refer other interested educators
- Sharing the open positions via e-mail with their professional contacts
- Posting information about these roles on their social media accounts or directly messaging individuals that may be interested in these roles

Collectively, these robust ongoing efforts were successful in generating significant numbers of staff members that were interested in these senior roles. In fact, the Director of Operations position has already had more than 20 qualified candidates apply and the team is currently evaluating several finalists. The school has also already been able to interview more than five finalists for the principal position that have successfully passed all of the school's interviews and participated in the immersion day activities for instructional leaders described in ***R-9 instructional leadership***.

BBACS also recognizes that it is important to ensure an inclusive interview and selection process for these senior leaders. While BRICK and the BRICK Buffalo regional directors provide comprehensive support in recruiting and vetting prospective candidates, BRICK also recognizes that it is the responsibility of the BBACS Board of Trustees to formally employ all staff members and, as a result, the Board retains the governance ability to appoint staff members and to terminate the employment of staff members at its discretion. As a result, all finalists for the principal and Director of Operations positions will be presented to the board personnel committee for consideration and then to the full BBACS Board of Trustees. Prospective principals and Directors of Operations will also be asked to make a formal presentation to the Board of Trustees that explains their leadership journey and passion for leading a BRICK school on the East Side of Buffalo before being appointed. In future years of the charter term, BBACS would also expand the leader selection process to include a panel interview with school stakeholders (including representatives from families, students, community members and staff) as described in ***R-12ac Personnel***.

R-12ac – Personnel

a. Staffing Chart and Rationale

Complete the table provided in the budget template to list all instructional and non-instructional staff positions during the first five years of operation and include a copy of the table in this response. Provide a narrative that explains the rationale for the staffing structure and numbers and identifies a specific comparative source for staff salaries (e.g., a document with teacher salaries from the school district of location). The narrative should also address how the proposed staffing structure would lend itself to the provision of instruction in a remote setting.

The table below lists all instructional and non-instructional staff positions during the first five years of operation at BRICK Buffalo Academy Charter School:

ADMINISTRATIVE PERSONNEL FTE	FTE				
Executive Management	1.0	1.0	1.0	1.0	1.0
Instructional Management	1.0	2.0	3.0	3.0	3.0
Deans, Directors & Coordinators	1.0	1.0	1.0	1.0	1.0
CFO / Director of Finance	0.0	0.0	0.0	0.0	0.0
Operation / Business Manager	1.0	1.0	1.0	1.0	1.0
Administrative Staff	2.0	2.0	3.0	3.0	3.0
TOTAL ADMINISTRATIVE STAFF	6.0	7.0	9.0	9.0	9.0
INSTRUCTIONAL PERSONNEL FTE					
Teachers - Regular	12.0	18.0	22.0	26.0	30.0
Teachers - SPED	0.0	1.0	1.0	2.0	3.0
Substitute Teachers	0.0	0.0	0.0	0.0	0.0
Teaching Assistants	0.0	0.0	0.0	0.0	0.0
Specialty Teachers	2.0	2.0	3.0	4.0	5.0
Aides	0.0	1.0	1.0	1.0	1.0
Therapists & Counselors	1.0	1.0	1.0	2.0	2.0
Other	1.0	1.0	1.0	1.0	2.0
TOTAL INSTRUCTIONAL	16.0	24.0	29.0	36.0	43.0
NON-INSTRUCTIONAL PERSONNEL FTE					
Nurse	1.0	1.0	1.0	1.0	1.0
Librarian	0.0	0.0	0.0	0.0	0.0
Custodian	1.0	1.0	2.0	2.0	2.0
Security	0.0	0.0	0.0	0.0	0.0
Other	0.0	0.0	0.0	0.0	0.0
TOTAL NON-INSTRUCTIONAL	2.0	2.0	3.0	3.0	3.0
TOTAL PERSONNEL SERVICE FTE	24.0	33.0	41.0	48.0	55.0

The rationale for the staffing structure is based on the experience and success of the BRICK Education Network, which has experience running traditional public-school turnarounds, start-up charter schools, and turnaround charter schools. BBACS plans to replicate the BRICK model with fidelity in Buffalo but will also be strategically adding staff member capacity to make sure the school is prepared to best serve all students—including those with disabilities and English language learners—and can successfully and proactively navigate New York’s compliance requirements. For example, the school plans to hire a Director of Special Education in year one

to support this important work. BBACS believes the proposed staffing structure underscores its commitment to serving a student population that represents the community served.

The proposed staffing structure is also similar to the staffing models that have been utilized by other high-performing charter school networks, including IDEA Public Schools in Texas and Uncommon Schools on the East Coast. In creating its staffing model, BBACS reviewed the staffing models for these organizations because of their track record for success and recent experience expanding across state lines. This analysis helped BBACS deepen its understanding of the importance of ensuring teachers were adequately assisted by leadership and student-support staff so that they can focus on providing robust support and differentiation for their students, including students with diverse learning needs. For that reason, this model includes both a robust school leadership team and some staff not commonly seen in traditional elementary schools, including co-teachers for all K-2 classrooms. This additional instructional staff member per class will ensure that all students receive the additional support they need to attain grade level proficiency by the end of third grade. This staffing structure is also designed to support teachers to specialize in a particular content area. This is important to prepare students for New York State's rigorous P-12 Common Core Learning Standards. BBACS is confident in its proposed staffing model because it has proven successful at BRICK in the past, reflects lessons learned from other high-performing charter schools, and has been updated based on collaborative efforts to ensure the model meets the unique needs of the Buffalo community.

The BBACS staffing model was finalized to ensure that it addressed the key priorities described below:

1. **Co-teaching.** BBACS will prioritize having two teachers in early elementary classrooms, specifically K-2. In these grades, students need significant support from adults and benefit from smaller teacher to student ratios. In addition, prioritizing co-teaching in these grade levels ensures that all BBACS students will be able to develop the mastery of foundational literacy and mathematical skills that is critical for future academic success. In grades 3-5, BBACS will also have at least one co-taught classroom per grade level to provide support for students with disabilities in alignment with their IEPs.
2. **Enabling instructional leadership.** BBACS will prioritize ensuring that all instructional leaders and teachers have the support necessary to ensure that they can focus on ensuring high-quality instruction happens in all classrooms each day. In some schools, administrators must take on numerous tasks that prevent them from focusing on teaching and learning. As a result, BBACS will use a co-leader model that ensures the school is led by both a principal and a Director of Operations. The Director of Operations will serve in a key leadership capacity that enables the principal to devote themselves entirely to serving as an instructional and cultural leader. In addition, BBACS wants to ensure that teachers receive ample support to deliver high-quality instruction each day. As a result, the proposed staffing model includes instructional leaders that each oversee a critical part of the instructional program (including a Vice Principal of Instruction - K-5 Math and Science, Vice Principal of Instruction- K-5 Literacy and Social Studies, Vice Principal of Culture, Director of Special Education and a Coordinator of English as a New Language). In addition, each of these staff members has a manageable coaching load that permits them to provide high-quality content-specific support to their teams.

3. **Developing content expertise.** BBACS also has created a staffing model that is designed to ensure that staff members can develop functional expertise in specific instructional content areas. Rather than teach all subjects, as is common in many elementary schools, teachers will specialize in one or two content areas so that they can commit themselves to mastering content-specific best practices and can dedicate the time necessary to fully prepare to deliver high-quality lessons to their students.
4. **Promoting staff sustainability.** BBACS also recognizes that the work of a teacher can be demanding, especially for elementary teachers who teach all subjects. As a result, ensuring that elementary teachers do not have to prepare for all subjects each day helps to promote staff sustainability. BBACS is committed to supporting teacher sustainability by minimizing the number of different courses that teachers must prepare for and by ensuring that all teachers have ample prep time during the day to prepare for lessons. In addition, ensuring that campus leaders have a reasonable number of staff members to manage and can focus in specific content areas also helps to promote leader sustainability.
5. **Supporting special populations.** BBACS is also committed to serving a population of students that is representative of the East Side of Buffalo. As a result, BBACS has customized the standard BRICK staffing model to ensure that there are additional supports for students with disabilities and students who speak English as a New Language. For example, the BBACS model includes hiring both a Director of Special Education and Coordinator of English as a New Language in year one. In addition, even though BBACS will be able to access special education services from the Buffalo Public Schools, the school budget also includes funds for special education teachers and a school psychologist to ensure that it can effectively serve all students. The school's proposed budget also includes supplemental funds for special education services to ensure that the school's special education students always receive the services they need to thrive.

Staff salary and compensation

The BRICK Education Network worked with the BBACS Board to develop a compensation model for BBACS. As part of this work, BRICK shared the results of an internal compensation and benefits study conducted by Stronger Consulting. In this study, current BRICK teachers, and other teachers from New York and New Jersey, indicated that they preferred compensation models that prioritized larger base salaries for staff, rather than an expanded benefits package. As a result of this information, the BBACS Board evaluated the compensation structures of other local charter schools and traditional school districts. The Board found that many local charter schools actually pay salaries that are below the salaries offered by local traditional school districts. The Board also learned that several local charter schools have attributed recent increases in teacher attrition to teachers finding new jobs in nearby suburban school districts.

In response, the BBACS Board committed to paying staff salaries at the 75th percentile as determined by local compensation levels. BBACS believes such salaries will appropriately compensate staff for the work they do, while also supporting staff recruitment and retention. Based on subsequent review of publicly available teacher salary schedules prior to starting the budgeting process, BBACS decided to anchor to the salary scale used by BPS. However, BBACS

also added an additional increment of 10% above that scale to produce its own draft pay scale. Both the current Buffalo Public Schools pay scale and the draft BBACS pay scale can be found in ***R-23b-Supplemental Attachments***. Since BPS currently starts staff members on the second step of the scale, this means that a first year BBACS teacher with a bachelor's degree would receive a starting salary of \$43,484 and a first-year teacher with a masters' degree would receive a salary of \$49,345. These starting salaries are approximately \$4,000 higher than the salaries of new BPS teachers. These salaries are also higher than the publicly available starting salaries from many local suburban districts, including Amherst and Clarence.

In addition, BBACS recognizes that strong salaries are only the starting point for creating a strong employee value proposition. As a result, BBACS also plans to offer additional benefits to all of its employees as well, including:

- Comprehensive medical, vision and dental coverage
- a 4% 403b match for all eligible employees
- Access to a staff laptop
- Eight sick days and three personal days per calendar year
- Additional scheduled vacation time each July for 12-month employees

BBACS also plans to offer additional incentives to ensure a strong founding team is in place in Buffalo, including:

- A longevity bonus for founding staffing members. Modeled after a similar program in Newark, founding Buffalo staff members will be eligible for a \$5,000 retention bonus if they are employed at BBACS for at least five years in a position that requires certification or a leadership position. Staff members employed at BACS for at least five years in a position that does not require certification would be eligible for a \$2,500 bonus.
- The BBACS Principal and Director of Operations will also be eligible for an annual performance-based bonus.

BBACS recognizes that it is important to continue to review its overall employee value proposition to ensure that it is providing strong support to staff and remaining competitive in the local market. As a result, the BBACS Board will review its employee value proposition each year to determine what adjustments need to be made to adjust for cost of living or other factors.

Remote instruction

During the COVID 19 pandemic, BRICK was able to provide significant support to its schools as they worked to transition instruction online, to update their facilities to meet new health and safety requirements, and to update their policies and procedures to support different methods of instruction. As a result, BBACS believes that its staffing model and partnership with BRICK would enable the school to transition successfully between different methods of instruction based on changing community health requirements.

Last year, BRICK's flagship campus, the Achieve Community Charter School, was able to successfully make the transition to provide online instruction to all of its students. At Achieve, elementary students received daily synchronous lessons in reading and math, including small group synchronous lessons to ensure students received the differentiated support they needed.

Students also had dedicated time in their daily schedules to complete asynchronous activities, which were developed and placed online by BRICK's academic directors. In addition, student schedules included time for daily check-ins with their teachers so that they could receive any necessary assistance with school technology platforms and additional personalized academic support. As a result, unlike many schools in the Buffalo area, BRICK was able to ensure that all of its students had access to the technology necessary to participate in remote learning and were able to receive synchronous lessons each day from their teachers in ways that closely reflected the school's standard approach to in-person learning. For more information on BRICK's transition to remote learning, you can access a draft of the network's virtual reopening guidebook in **R-23b-Supplemental Attachments**. In addition, since the BBACS staffing model is based on the Achieve staffing model, the BBACS team is confident that it would be able to use the proposed staffing model to deliver daily synchronous lessons opportunities and strategic small group support, even during virtual instruction. Some examples of how the current staffing model and partnership with BRICK can support this transition are found below:

- **Network curriculum.** Since all BRICK schools use the same curriculum, assessments, and instructional resources, BRICK would update these resources as needed to use in online or hybrid settings. This includes ensuring that teachers have ready access to the materials necessary to deliver their synchronous lessons online and that students have access to asynchronous content as well to support their learning.
- **Instructional training.** BRICK would also offer comprehensive training for instructional staff regarding how to deliver instruction online. For example, the network has previously provided training on how to use Zoom and Nearpod effectively to engage students as well as how to deliver each of its content blocks online (for example, by delivering elementary math lessons online via Nearpod and guided reading lessons using RAZ kids resources).
- **Shared lessons.** Since BRICK schools will use the same scope and sequence documents, schools would also be able to share lesson delivery in an online setting. This means, for example, that a 1st grade student in Buffalo would be able to receive a remote lesson from a 1st grade teacher in Newark or even a BRICK network literacy director, if needed. This flexibility would enable the school to ensure it can best support families by offering additional times for live lessons and additional opportunities for small group tutoring support in a virtual setting.
- **Staffing flexibility.** The partnership with BRICK would also offer additional staffing flexibility. If needed, a BRICK staff member in a different region or a BRICK network director could fill in to provide online instruction if necessary. This staffing flexibility would enable the school to successfully navigate the staffing challenges faced by many schools as a result of COVID 19.
- **Special populations.** In the past, when BRICK schools needed to provide remote instruction to students, they worked closely with staff and community partners to ensure that some students were still able to access in-person learning, especially students with special needs and students who are learning to speak English as a new language. BBACS has added additional staffing at its campus to support these special populations of students and would be able to leverage its additional staffing in these areas to prioritize providing additional in-person learning opportunities for its special populations of students during future pandemic related school closures.

B. QUALIFICATIONS AND RESPONSIBILITIES

Provide a list of qualifications and responsibilities for each position, including all instructional and administrative positions.

b. Qualifications and Responsibilities

Instructional Leadership

School Principal: The BBACS Principal will report to the BBACS Board of Trustees and will be supported by the BRICK Buffalo Regional Director of Instruction/Superintendent. The primary responsibilities of the principal are to provide instructional leadership and oversee all academic matters and school culture, including but not limited to student outcomes, character education, student culture, teacher training, curricula, academic data analysis, and testing. The BBACS principal must have at least 5 prior years of experience, preferably in a high-performing charter school, have a passion and commitment for the community served, a track record of leading stakeholders to achieve ambitious goals, and have demonstrated the ability to develop the leadership capacity of others. In addition, the BBACS Principal must also meet the network readiness criteria for Principals. That criteria can be found in ***R-23b-Supplemental Attachments*** and is described in detail in ***R-09ad-Instructional Leadership***. This role requires a master's degree and New York state School Building Leader certification is preferred.

Vice Principals of Instruction: Vice Principals of Instruction are instructional leaders and managers that report directly to the principal. They coach and evaluate teaching staff that deliver instruction in a similar content area (one VP of Instruction manages all K-5 mathematics teachers and a science teacher; the other VP of Instruction manages all K-5 literacy teachers and a social studies teacher). BBACS Vice Principals of Instruction have demonstrated strong academic results as a teacher and have also led a grade level or department to reach its vision and goals. Vice Principals of Instruction have a deep understanding of the instructional expectations in New York state, including state standards and state assessments. In addition, Vice Principals of Instruction must have a deep understanding of best instructional practices in the content area they will coach. BBACS Vice Principals of Instruction must also meet the network readiness criteria for Novice Vice Principals. This role requires a master's degree and New York state School Building Leader certification is preferred.

Vice Principal of Culture: The Vice Principal of Culture assists the principal to foster a positive school culture. He/she is responsible for the planning, coordination, and administration of school activities and programs, including the implementation of social emotional learning curricula, student conduct and attendance, athletics and extracurricular programs, and the supervision and evaluation of assigned personnel, including specials teachers (i.e. physical education, music, art, etc.). BBACS Vice Principals of Culture have demonstrated an ability to lead school culture because they have experience managing large groups of students and a track record of building relationships with families and successfully navigating parent concerns while also demonstrating

a knowledge of and respect for the communities served. Vice Principals of Culture have a deep understanding of the cultural expectations for students in New York state, including expectations related to student discipline and family engagement. Vice Principals of Culture must also meet the network readiness criteria for Novice Vice Principals. This role requires a bachelor's degree. However, a master's degree and New York state School Building Leader certification is preferred.

ENL Coordinator: The ENL Coordinator is responsible for ensuring that the school provides comprehensive programming to meet the needs of students who are learning to speak English as a new language. As a result, the ENL Coordinator is responsible for ensuring that the school meets all New York state and federal requirements for serving students who are learning English as a new language and for supervising any ENL teachers. In addition, the ENL Coordinator provides direct services to students when needed. This position requires a master's degree and NY state certification as a teacher of English to speakers of other languages (TESOL). The ENL Coordinator should have at least two prior years of experience teaching ENL students as well as knowledge of collaborative teaching and how to differentiate and scaffold instruction at the elementary level.

Director of Special Education. The Director of Special Education is responsible for ensuring that the school provides effective programming to meet the needs of its students with disabilities in accordance with both federal and state law. The Director of Special Education is responsible for ensuring that all aspects of the school's special education model are implemented effectively, including integrated collaborative teaching, direct and indirect SETSS, and the school's resource room. In addition, the Director is responsible for ensuring the ongoing effective delivery of related services (such as physical therapy, occupational therapy, and counseling). The Director of Special Education also provides direct services to students when needed. In addition, the Director of Special Education plays a pivotal role in serving as a liaison to the CSE of the Buffalo Public Schools to ensure that students with disabilities are appropriately identified, that students have effectively written IEPs, and that students receive the services in those IEPs in a high-quality way to ensure student success. The Director of Special Education position will require a master's degree and New York state certification as a Teacher of Students with Disabilities. In addition, this position requires the ability to meet all state and federal guidelines to be fully licensed at the "High Qualified" ESSA level. This position requires at least three prior years of experience as a special education teacher or administrator in New York state and deep knowledge of special education compliance in New York. This position also requires a knowledge of collaborative teaching and how to differentiate and scaffold instruction at the elementary level. Prior experience working successfully with the CSE of the Buffalo Public Schools is strongly preferred.

Instructional Staff

Teachers: Teachers are responsible for teaching classes of students to ensure they achieve their academic goals in a supportive and positive classroom environment. They maintain and enrich their expertise in the subject area(s) they teach as well as the curriculum; foster a positive school culture; develop lesson plans that ensure students' attainment of grade-level learning standards

in alignment with the school's curriculum; provide instruction (full class, small group, and individual); create customized and flexible lesson plans to meet individual student needs; prepare students for all required assessments; analyze data and use it effectively to improve instruction and student learning; provide an inclusive, exciting, innovative learning environment; manage the classroom; serve as mentors to students; implement students' individualized education programs (IEPs), if applicable; ensure the needs of students with disabilities, ENLs, and advanced students are served at the highest levels; and perform other duties as deemed appropriate by the principal. This role requires a bachelor's degree, with a master's degree preferred, and valid NY state teacher certification. Two prior years of successful classroom teaching experience is preferred.

Special Education Teachers: Special Education Teachers are licensed in New York to teach students with special needs. They provide instruction to students that is consistent with the special education program offered by the school (which includes ICT, direct and indirect SETTS, resource room and related services). As a result, special education teachers both provide direct instruction to students and also collaborate with other teachers to ensure that instruction effectively meets the needs of students with disabilities. This position requires a master's degree and the ability to meet all state and federal guidelines to be fully licensed at the "High Qualified" ESSA level. Two prior years of successful classroom teaching experience is preferred.

ENL Teachers: ENL Teachers are licensed to teach English to speakers of other languages (TESOL) in New York. They work closely with non-native speakers to help them learn to speak, read, understand, and write in English. ENL teachers provide direct instruction to students and collaborate with other teachers to ensure lessons are appropriately differentiated to meet the needs of ENL students. This position requires a master's degree and the ability to meet all state and federal guidelines to be fully licensed at the "High Qualified" ESSA level. Two prior years of successful classroom teaching experience is preferred.

Specials Teachers: Special area teachers instruct elective-style classes, including art, music, theater, dance, and physical education. Specials teachers have the same responsibilities as other teachers and a passion for their particular content area. These roles require a bachelor's or master's degree and a valid NY state teacher certification. Two prior years of successful classroom teaching experience serving multiple grade levels of students is preferred.

Cultural Staff

Associate Dean: The Associate Dean assists the Vice Principal of Culture to foster a positive school culture. He/she supports the planning, coordination, and administration of school activities and programs, including the implementation of SEL curricula, student conduct and attendance, athletics and extracurricular programs. This position requires a bachelor's degree. A prospective Associate Dean must also demonstrate at least two prior years of successful work supporting and building relationships with students and their families. Prior experience working directly with families on the East Side of Buffalo is preferred.

Social Worker: The school's social worker helps parents, students, and school staff identify needs that interfere with learning and work with students to get the services they need. This role requires a master's degree. A prospective social worker must also demonstrate at least two prior years of successful work supporting and building relationships with students and their families. In addition, a prospective social worker must possess strong knowledge of the social service agencies that serve the community of East Buffalo and the specific services they provide. A successful track record of partnering with social service agencies to support students and families on the East Side of Buffalo is preferred.

School Nurse: The School Nurse provides physical, emotional, mental and social support services to scholars and staff. The school nurse will also be responsible for working with the operations team to ensure that the school is in compliance with all state and federal health regulations and policies. The nurse will be a licensed registered nurse with a valid and current New York State license. Experience working in a school setting or with a pediatric population for at least a year is preferred. In addition, a preference is given to nurses that have experience providing services to families on the East Side of Buffalo.

School psychologist. The school psychologist provides individual and group counseling to students to support their overall social and emotional development and well-being. The school psychologist also supports the school's administration and staff to identify students who may need additional counseling support, including by reviewing student survey data and information from families. The school psychologist also supports school staff to continue to refine its program and support of students based on the needs of students. The school psychologist also collaborates with the Director of Special Education to ensure the school has an effective partnership with the CSE of the Buffalo Public Schools. The school psychologist position requires a masters' degree and NY state certification as a school psychologist. Prior experience working directly with families from the East Side of Buffalo is preferred.

Operations Staff

Director of Operations: The Director of Operations serves as a co-leader of the school, partnering with the school's principal. The Director of Operations is responsible for operations leadership and overseeing all non-instructional operational matters, including but not limited to school operations, administrative matters, facilities, communications, enrollment, student-records management, logistics, technology, budget/financial matters, contracts, and school-safety and health matters. As a result, they supervise a team of operations and administrative personnel. This position requires a bachelor's degree and at least two years of management-related experience. Prior experience leading the operations of a charter school is preferred.

Operational manager: The Operational Manager assists the Director of Operations in ensuring that the school has strong school-based operations. This staff member is primarily responsible for back office operational tasks, including, but not limited to, maintaining the school's student information system, executing the school's procurement policies, and assisting with state reporting. The Operational Manager supports the Office Manager by ensuring that the

information collected from families is appropriately entered into the school's student information system and appropriately filed as part of each student's records. The Operational Manager also uses this information to produce the student information needed for ongoing reports to internal and external stakeholders. This position requires a bachelor's degree. Prior experience supporting school-based operations of a charter school is preferred.

Office Manager: The Office Manager also assists the Director of Operations in ensuring that the school has strong school-based operations. This staff member is primarily responsible for running the main office in a way that provides strong customer service and support to students, families, and staff. The Office Manager is responsible for warmly greeting stakeholders that enter the main office and providing strong support to those stakeholders based on their individual needs. The Office Manager answers the school's phone, takes messages as needed, and ensures that school staff follow up appropriately. The Office Manager also works closely with all new families to make sure that they successfully complete all of their enrollment paperwork. This position requires strong interpersonal skills and the ability to build relationships with students, families and staff. This position also requires the ability to work in a fast-paced environment and to effectively multi-task. Prior experience in customer service is preferred.

Family and Community Engagement Specialist: The Family and Community Engagement Specialist supports families in accordance with BBACS's belief that students achieve their greatest potential when parents are active partners in their child's education. Through frequent dialogue and consistent communication, the Family and Community Engagement Specialist creates strong relationships with parents to help them support their children in school and at home, thereby creating a school environment in which parents feel welcome to voice their concerns and participate as full members of the community. This staff member plays a pivotal role in supporting each family to access the appropriate services they need from BRICK's ecosystem partners (for example, by supporting a family in need to access specific health care supports through Jericho Road). This staff member also works with the school leadership team and families to provide strong extra-curricular programs to students and families, including any before and after school care and activities. This staff member is also a part of the school-based recruitment team and, as a result, supports community outreach and the recruitment of students. This role requires a bachelor's degree or two years of systems and operations experience. In addition, prior experience supporting families on the East Side of Buffalo to access community resources is highly preferred.

Assistant Facility Manager: The Assistant Facilities Manager (AFM) is responsible for maintaining the BBACS school building and grounds in a healthy, safe and sanitary manner. As a result, the AFM is responsible for developing an annual schedule for the care of the building and grounds that includes scheduling required inspections and ongoing preventative maintenance. In addition, the AFM partners with the DOO to state the expectations for ongoing custodial service as well as any modifications to those services that are necessary because of changes to local health department guidelines. The AFM provides leadership to ensure both the successful completion of annual tasks and routine custodial tasks. At the start of the charter term, the AFM executes these custodial tasks personally. However, once a custodian is hired, the AFM

supervises the custodian. The ideal candidate has prior experience as a custodian and experience managing school facilities.

Custodian: The school custodian cleans the building, equipment, and furnishings of a school. Prior experience as a school custodian is preferred.

c. Staff Recruitment and Retention

Describe plans to recruit and retain staff, particularly high-quality teachers, including:

- *The processes and policies to recruit and hire teachers and other staff, and*
- *The strategies for retaining high-quality teachers*

NOTE: If a business plan submitted in conjunction with this proposal fully addresses this request, applicants may reference the business plan response in lieu of addressing these questions in full in the proposal.

The BBACS team strives to hire candidates that are mission driven and dedicated to closing the opportunity gap in Buffalo. As a result, the school plans to recruit and select staff that not only have strong credentials, but also an unwavering belief in the students and community served. BBACS is also committed to recruiting, selecting and retaining educators with deep ties to the East Buffalo community—including educators that look like the community they serve. In this regard, BBACS is fortunate to be able to rely on the expertise of BRICK, which has a strong track record of recruiting a diverse staff that reflects the community served. Since the staff of most Buffalo city schools does not reflect the students they serve, BBACS recognizes that it must prioritize finding, recruiting and retaining diverse, talented educators. A brief summary of how the school plans to recruit and retain staff members is provided below:

To recruit high-quality staff:

BBACS will use the following strategies to recruit high-quality staff members:

- **BRICK support.** BBACS will be able to rely on the BRICK Education Network to provide comprehensive talent recruitment and selection services, even during the school’s incubation period- a distinct advantage over most local charter schools that do not have full time talent staff members during the first year of operation. BRICK will provide talent recruitment supports that are based on national best practices, such as those identified in a recent report by the National Alliance for Public Charter Schools, “National Best Practices: Teacher Recruitment and Pipelines - Understanding best practices, case studies, and resources from across the nation”¹ as well as strategies that have proven effective in the network’s multiple schools in New Jersey. Each of the three pillars of BRICK’s talent recruitment approach are named below along with additional information regarding the specific supports that will be provided to the school by BRICK staff:

¹http://www.edfuel.org/wp-content/uploads/2017/08/National-Best-Practices_Teacher-Recruitment-and-Pipelines_FINAL-2.pdf

○ **Pillar 1: Build a community around talent**

- *Focus on retention.* At BBACS, all leaders will be focused on staff member retention as a critical part of ensuring that the school is always fully staffed with high-quality teachers. As a result, BRICK leaders will conduct stay conversations with high performing staff members earlier in the year so that they know that their work is appreciated and can gain any support they need, including access to information about future leadership opportunities. BRICK talent staff members also conduct personal one on one check ins with all staff members approximately 30 days after they are hired to ensure that they have had a strong start with the organization and can access any support they need. BRICK talent staff also help administer the network's organizational health survey so that leaders have the data they need to understand the staff culture of their school and take efforts to continually strengthen that culture. In addition, BRICK talent staff conduct structured exit interviews with all staff members that leave BRICK schools to determine how the school can adjust its approach as needed to maximize staff retention.
- *Focus on internal referrals.* BBACS recognizes that research shows that employee referrals often lead to the greatest proportion of new hires and the most effective new hires. As a result, BRICK talent staff will lead internal employee referral campaigns to identify prospective staff members for BBACS. In addition, the BRICK talent staff will work to also create referral programs with BRICK Buffalo's partner organizations. Since BRICK will be relatively new to the Buffalo community, the team is committed to expanding its traditional approach to referral campaigns so that staff members at partner organizations in Buffalo are also eligible for referral bonuses.
- *Focus on collaborative recruitment.* BRICK Buffalo will also work collaboratively with partner organizations to launch aligned recruitment campaigns. For example, the BRICK talent staff will work with City Year Buffalo and the Relay Graduate School of Education to recruit City Year staff members to the school.

○ **Pillar 2: Build a Data-Informed Recruitment Plan**

- *Focus on tracking and analyzing data.* BBACS recognizes that it is important to set clear goals to measure the experience of potential staff members (for example, by setting goals related to the time it takes for candidates to complete the entire recruitment process and the average response time from a member of the talent team). In addition, BBACS recognizes that it must track how hires initially heard about BRICK so that the team can prioritize the highest-leverage recruitment strategies. Fortunately, the BRICK talent team uses an applicant tracking system (ATS) that tracks a variety of measures related to the candidate experience and talent sourcing. As a result, BRICK talent staff members share these resources

with the school so that the school can respond to any gaps in the talent recruitment process and ensure a high-quality candidate experience.

- *Focus on an annual recruitment calendar.* BBACS has learned that it is important to implement a year-round recruitment strategy to identify and recruit candidates to Buffalo. As a result, BBACS will create an annual recruitment calendar that includes a series of events to help the school attract high-quality candidates. The specific events will involve members of the school but will be planned, facilitated, and publicized by members of the BRICK talent team. A draft list of events for the pre-launch year includes:
 - Monthly informational sessions and tours of the BBACS campus
 - Information sessions directly for the staff members of partner agencies and ecosystem partners (such as City Year, Teach for America Buffalo, Jericho Road and Catholic Charities).
 - A monthly social media newsletter that shares information about the school and includes information about founding positions
 - A monthly series of free online professional development sessions that are open to all Buffalo educators that will be led by BRICK staff.
 - Participating in local job fairs for schools of education (including University at Buffalo, Buffalo State, and Canisius College).
 - Posting directly on the job sites most commonly used by teachers in the Buffalo area, specifically the Erie 1 BOCES Western New York Applicant Tracking system, as well as sites that are commonly used across the country (such as on LinkedIn, Glassdoor, and Indeed).
- **Pillar 3: Actively Recruit Talented, Mission-Aligned Staff**
 - *Focus on online marketing.* BBACS recognizes that it is important to have a strong online presence that clarifies the mission and vision of the school and ensures that talented, mission-aligned staff are aware of opportunities at the school. As a result, BRICK talent staff will collaborate with the school team to produce an employee value proposition that clarifies what is unique about BBACS by distinguishing how the school is different from other schools in Buffalo. The BRICK talent team will then produce aligned recruitment materials to support online recruitment, including: professional fliers describing why applicants should work at BRICK, job descriptions for projected positions, job postings for those positions, and social media blurbs to market those positions across a variety of platforms, including on the BRICK Website, Facebook, Twitter and Instagram. The BRICK talent team will manage all of these postings and ensure that prospective BRICK employees receive timely responses to any employment inquiries. BRICK talent team members will also conduct targeted recruitment to individuals that may be interested in working at BRICK (for example, by reaching out directly to local educators via LinkedIn).

- *Focus on pipeline programs.* BBACS recognizes that charter schools also need to develop strong pipeline programs for recruiting future staff members. As a result, BBACS has spent the last year working to develop relationships with community partners to build these pipelines. Three high-leverage partnerships are described below:
 - **City Year/Relay Partnership.** BBACS has formed a partnership with City Year Buffalo and the Relay Graduate School of Education. This partnership will lead to placing seven City Year staff members at BRICK each year throughout the charter term. While at BRICK, these staff members will provide high-leverage support to the school, including by assisting with before and after care and providing one on one mentoring and instructional support. However, City Year staff members that have bachelor's degrees will also be able to enroll in Relay New York's teacher residency program to obtain teacher certification. BRICK will also reimburse City Year staff members for the full costs of Relay's residency program if they become certified lead teachers at BRICK.
 - **Teach for America Buffalo.** Both BRICK and the BRICK Buffalo regional office are led by Teach For America alumni. As a result, BBACS has partnered with Teach for America Buffalo to work together to recruit additional staff members to BBACS. TFA Buffalo has agreed to help directly to source potential staff members for BBACS and to collaboratively hold events to ensure that TFA corps members and alumni are aware of opportunities in Buffalo.
 - **Buffalo State Internship.** BBACS has also partnered with Dr. Marcus Watson, a member of the Buffalo State faculty, to begin providing internships for students in the Africana Studies department. Since BRICK has an emphasis on creating schools with a diverse faculty and a school culture rooted in the African humanistic principle of Ubuntu, there is a natural connection to Africana Studies.

To select a high-quality staff:

BBACS recognizes that it is responsible for having a rigorous selection process to identify talented, mission-aligned staff members who are passionate about closing the opportunity gap in Buffalo. As a result, BBACS will follow the five-step selection process that BRICK has developed over time; a process which has already proven successful at BRICK's fresh start school, the Achieve Community Charter School. This rigorous five step selection process applies to all positions and is briefly described below:

1. Application review: The selection process starts after a candidate completes a formal application for an open position. These applications require a candidate to submit a

resume and to answer some additional questions, including open ended questions. A member of the BRICK talent team then reviews the application to determine if:

- a. the candidate meets the baseline expectations for the position
 - b. there is positive evidence from the resume or application that indicates that the applicant is a strong candidate for a position (such as successful prior experience in the same role or familiarity with a particular system or approach the school uses).
 - c. there is any negative evidence from the resume or application that would suggest that the candidate may not be a strong candidate (such as frequently changing positions, or open-ended answers that do not express an adequate appreciation of and respect for the community served).
2. Phone interview: A member of the BRICK talent team then conducts a phone interview with each candidate. During these interviews, candidates respond to a variety of questions about their prior experiences as well as questions that are designed to gauge their alignment with the organization's mission and approach. Each interview also includes at least one scenario-based question that requires candidates to respond to a scenario that may commonly occur in the position they are applying for.
 3. Project submission: Prospective candidates that advance then complete a project to demonstrate that they have the knowledge and skills required for the position they are applying for. Since these projects are specific to the individual positions, they vary widely depending on the position. For example, teachers are assigned to internalize and then teach a lesson in the content area that they are applying to teach. School Leaders are assigned to conduct a coaching session with a teacher. A member of the BRICK talent team reviews the quality of the project and debriefs the project with the applicant, celebrating the effective parts of their work and sharing feedback on any part of the project that could be improved.
 4. Live interview: Prospective candidates will then participate in a live panel interview with members of the BBACS team. These panel interviews offer the members of the school team an opportunity to get to know each candidate by learning about their personal leadership journey and commitment to educational opportunity in Buffalo. Staff members are also able to ask the staff member questions related to the candidate's past experiences and the type of school team that they would like to join. Panelists are also able to ask the candidate follow-up questions from previous parts of the process (for example, questions about specific things that occurred during a teacher's sample lesson or follow up questions about a written response on their application). These panels will include a diverse mix of staff members and, once the school has students enrolled, a parent or guardian whenever possible.
 5. Reference checks: Prospective candidates then submit at least three professional references, including at least one reference from a current or former supervisor. A member of the BRICK talent team or the hiring manager then completes a reference for

each of the references to determine if they would like to extend an offer of employment to the applicant.

To ensure an equitable experience for candidates, BBACS will work with the BRICK Talent team to ensure that all parts of the selection process include clear selection criteria of positive and negative evidence for each question and stage in the process. All staff that will participate in this process receive anti-bias training. In addition, prior to conducting any formal interviews, participating staff members will review the selection rubrics for each position, the standardized questions and tasks for each stage of the interview process, and information about legal requirements for interviewing. BBACS believes that a clear process and effective training will help to mitigate bias in selection and ensure that the school is able to select the strongest possible team.

At each step in this selection process, prospective candidates must display examples of BRICK Buffalo Academy's core values to be advanced. Demonstration of any behavior that deviates from these core values may result in the candidate being dismissed from the selection process.

To retain high-quality staff:

BRICK Buffalo Academy Charter School recognizes that it must also have strategic plans for retaining high-quality staff members. As a result, BBACS will use the following strategies to retain high-quality staff:

- **Sustaining a high-quality work environment.** Most importantly, BBACS believes that having a strong organizational culture leads to high levels of staff satisfaction and retention. BRICK has been able to demonstrate its ability to create strong school cultures, even during the COVID 19 pandemic. For example, 95% of Achieve staff agreed with the statement "this is a positive place to work" on an organizational health survey administered during the COVID 19 pandemic. This data is particularly impressive because a RAND study from the same time period found that other teachers across the country were experiencing increased levels of stress and planning to leave their jobs at higher rates. As a result, BBACS will ensure that it adopts a similar approach to creating a strong staff culture by:
 - Holding an annual series of staff development sessions designed to strengthen the team's overall mission alignment.
 - Administering an annual organizational health survey to measure the strength of staff culture
 - Supporting the school leadership team to build action plans to respond to staff survey data
 - Ensuring campus leaders have annual 360 evaluations and use the data from these evaluations to inform their personal development plans
 - Holding regular office hours with school leadership and BRICK Talent team members for staff to voice concerns as they come up

- **Career advancement opportunities.** BBACS has also designed its staffing model to ensure that staff members have numerous opportunities for career advancement if they achieve success in their roles. For example, a strong Kindergarten math teacher could become a Vice Principal of Instruction for K-5 mathematics and science and then a principal. A strong Operational Manager could become a Director of Operations. The presence of a variety of leadership roles at the campus creates career ladders for all staff and, as a result, will contribute to high staff retention.

- **Leadership opportunities.** BBACS also believes providing staff members with access to stretch leadership opportunities can help with retention. As a result, BBACS will offer several leadership roles that staff members can access if they would like to assume more leadership at the campus. During the charter term, BBACS plans to begin offering the leadership roles described below:
 - **Grade level chairs.** Grade level chairs (GLCs) help lead the efforts of a particular grade level at the campus. They are responsible for planning grade level culture events, such as community meetings or Fun Friday. They also facilitate grade level team meetings and take on other responsibilities to support the other teachers on their grade level.
 - **Course leaders.** Course Leaders help to lead the BRICK Network’s efforts to develop teachers in a particular content area. For example, a Course Leader may be responsible for kindergarten literacy. In this role, the Course Leader may provide professional development to all BRICK Kindergarten literacy teachers and may facilitate weekly lesson unpack meetings designed to help teachers internalize their lessons for the next week.
 - **Mentor teachers.** Mentor teachers help to support the development of new teachers, including teachers that are enrolled in the Relay teacher residency. Mentor teachers help their residents prepare for lessons, deliver those lessons, and reflect on how to continually increase their effectiveness.

- **Teacher planning time.** BBACS also believes that it is critical to ensure that the work of a teacher is sustainable. Nationally, research has shown that teachers of at-risk populations leave the profession at higher rates and cite higher rates of teacher burnout. As a result, BBACS will structure the schedules so that teachers have ample prep time during the school day. The current draft schedules for teachers include approximately 90 minutes of preparation time as well as a 45-minute lunch break. While some time each week will be used for important meetings (like instructional coaching meetings, department meetings or grade level meetings), BBACS will focus on ensuring that significant teacher prep time is preserved each week to ensure teacher job satisfaction and retention. In addition, the sustainability of BBACS teachers will also be supported by the work of BRICK’s directors. For example, BRICK’s academic directors produce all instructional materials necessary for daily instruction and BRICK’s performance team will produce all data reports that teachers need to analyze their data. As a result, teachers can use their prep time focused on preparing for their lessons and analyzing student work to best support their students,

rather than other administrative tasks that have been shown to contribute to teacher burnout.

High-leverage partnerships

BBACS also recognizes that successful expansion will require that the school develops clear plans for developing its own teachers. As a result, BBACS is excited to have developed a partnership with City Year Buffalo and the Relay Graduate School of Education that is designed to ensure that BRICK has access to an ongoing supply of effective, mission-aligned educators. As part of this partnership, BBACS will maintain a contract with City Year that will lead to the placement of seven City Year staff members at BRICK during each year of the first charter term. While at BBACS, these staff members will provide high-leverage support to the school, including by assisting with before and after care and providing one on one mentoring and instructional support. City Year staff members that have bachelor's degrees will also be able to enroll in Relay New York's teacher residency program to obtain teacher certification. BRICK will also reimburse City Year staff members for the costs of Relay's residency program if they become certified lead teachers at BBACS. Over time, BBACS estimates that it could have three potential teachers each year who are interested in moving from their City Year placement into full-time teaching positions at BBACS.

R-12d - Personnel Policies

Submit a copy of the proposed education corporation's personnel policies.

Over the last year, the BRICK Buffalo Academy Charter School Board has worked with the BRICK Buffalo regional office to create draft personnel policies for the proposed school. These policies can be found in the draft employee handbook for the proposed school. That handbook begins on the next page of this document.

**BRICK BUFFALO ACADEMY
CHARTER SCHOOL**

A BRICK EDUCATION NETWORK SCHOOL

BRICK BUFFALO ACADEMY CHARTER SCHOOL EMPLOYEE HANDBOOK

HANDBOOK INTRODUCTION

1.1 Welcome to **BRICK Buffalo Academy Charter School**, a partner school of the **BRICK Education Network**

BRICK Buffalo Academy Charter School's VISION

BRICK Buffalo Academy Charter School (BBACS) believes in relentlessly knocking down all barriers to students' academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It's our vision that every child will have an unimpeded path to unlocking their limitless potential.

BRICK Buffalo Academy Charter School'S MISSION

At BBACS, we will graduate a community of learners who will contribute positively to our global society and embrace their role as architects in building a just and better world. We use a holistic approach to ensure that students from East Buffalo neighborhoods have the knowledge, skills and support needed to be college, career and life-ready upon graduation. Our school provides a rigorous, inclusive and culturally responsive curriculum that challenges students academically and builds their social emotional competencies. We also immerse our families in an ecosystem of rich community partnerships to support them in maintaining the stable and healthy homes necessary for children to thrive. In partnership with our families, we empower our students to draw strength from their identity and become leaders in their communities.

BRICK Buffalo Academy Charter School'S CORE VALUES

All staff within the BRICK Education Network adopt and exemplify the same core values. These values are described below. Regular professional development covers the core values and gives staff a chance to practice using the core values and receiving feedback on their behaviors as they align to the core values.

- **Relentlessness:** We pursue our mission to give all children a world-class education with fierceness and urgency, and we don't back down from tough fights.
- **Restless improvement:** We never stop pushing ourselves to innovate and we aren't afraid to take risks if it means that we can better serve our students.
- **Savvy ambition:** We are visionary thinkers who are never satisfied with the status quo. We work tirelessly toward a vision of transforming public education with a pragmatism and political astuteness that leads to real change right now.
- **Faithful commitment:** We are driven in our work by a deep faith: in the children and families we serve, in the mission of our work and in the attainability of our vision for the future.
- **Compassion:** We serve our students and families with empathy and understanding. Our work is rooted in love.
- **Accountability:** We honor our commitments and keep our promises to ourselves, each other and the students and families we serve.

To foster a positive school culture, BRICK Buffalo Academy Charter School has also adopted a set of student-friendly core values called iDREAM values. These values include identity, diligence, respect, empathy, A+ self control, and model student. At BRICK Buffalo, these core values serve as a foundation for our academic and student cultural program and help guide our students to draw strength from their identity and become leaders in our community.

The table below helps to further define each of our I-Dream values. The table starts with Identity, and our guiding cultural principle of Ubuntu, an African Humanistic philosophy. This philosophy teaches our students that they can only fully realize their humanity through their positive interactions with others and reminds students to simultaneously strive for their own personal development and to uplift their community. The table also names the key mindsets we hope to instill in our scholars and the specific behaviors scholars can model to live out these values.

Identity: <i>"I am who I am, because of who we all are."</i>				
I see value in others. · I believe we can all win. · I reach back as I climb. · I believe that we are stronger together.				
<u>Diligence</u> <i>"I persist toward my individual and team goals."</i>	<u>Respect</u> <i>"I honor personal and school-wide boundaries."</i>	<u>Empathy</u> <i>"I am my brothers' and my sisters' keeper."</i>	<u>A+ Self Control</u> <i>"I stay focused and maintain my cool."</i>	<u>Model Student</u> <i>"I am here on purpose with purpose"</i>

At BRICK Buffalo, we believe that our staff members should live by these values as well. As a result, it is important for all BRICK Buffalo staff to understand that they are responsible for living out these values each day so that they can serve as positive role models for our scholars.

1.2 Purpose of the Handbook

This Employee Handbook ("Handbook") is designed to acquaint you with the BRICK Buffalo Academy Charter School Charter School ("BRICK Buffalo Academy Charter School") and to provide you with information about working conditions, employee benefits, and some of the policies affecting your employment. After reading the handbook you will sign several agreements and acknowledgements to demonstrate your understanding and commitment to these policies.

This handbook is not a contract. It is a set of guidelines. It supersedes any and all previous employee handbooks and management memos that have been issued on subjects covered within it. The handbook and all BRICK Buffalo Academy Charter School policies and guidelines are, of course, subject to modification or rescission by BRICK Buffalo Academy Charter School from time to time to deal with changing conditions. BRICK Buffalo Academy Charter School reserves the right to modify this handbook and all policies—such as personnel policies, wage policies, and all other terms and conditions of employment—at any time without notice. Also, state and local laws may require some modification to these guidelines, and this handbook shall be automatically deemed amended to comply with such laws.

You should read, understand, and follow the provisions of the Handbook that apply to your conduct within the workplace as it describes many of your responsibilities as an employee. The Handbook also outlines the programs developed by BRICK Buffalo Academy Charter School to benefit its employees by providing a work environment that promotes both personal and professional growth.

No employee handbook can anticipate every circumstance or question about policy or procedure. As BRICK Buffalo Academy Charter School continues to grow, the need may arise to change policies described in the Handbook. Many of those changes will affect the benefits afforded to you, and some will involve your responsibilities to BRICK Buffalo Academy Charter School

Of course, we encourage every employee to ask questions about, comment upon, or generally discuss the policies and procedures contained in this Handbook with his or her manager. Each employee's participation in this process can only improve the working environment at BRICK Buffalo Academy Charter School, and we look forward to receiving that feedback and welcome your contributions at any time.

1.3 National Labor Relations Act Disclaimer

Nothing in this Handbook is designed or intended to, nor should it be construed to, interfere with, restrain, prevent, or dissuade employees from engaging in legally protected activities, including those protected by the National Labor Relations Act, such as discussing wages,

benefits, or other terms and conditions of employment, raising complaints about working conditions, and/or engaging in other activities for their and their fellow employees' mutual aid or protection. School employees have the right to engage in or refrain from such activities.

EMPLOYMENT POLICIES

2.1 SUNY Charter Schools Institute Requirements

BRICK Buffalo Academy Charter School is authorized by the SUNY Charter Schools Institute. As a result, BRICK Buffalo ensures that its personnel policies align to all requirements of the Institute and the Charter Schools Act, including that all staff members receive a fingerprint supported criminal background check and that all employees receive a copy of the Board approved Code of Ethics, Conflict of Interest Policy, and Whistleblower policy.

BRICK Buffalo reserves the right to modify this handbook and all of its policies at any time without notice. However, should any requirement of the SUNY Charter Schools Institute conflict with the policies in this handbook, then this handbook shall be automatically deemed amended to comply with those requirements.

2.2 Equal Employment Opportunity (EEO)

BRICK Buffalo Academy Charter School provides equal employment and advancement opportunities without regard to gender, race, color, ethnicity, religion, sex, national origin, age, sexual orientation, disability that can be reasonably accommodated, or any other characteristic protected by applicable law. In addition, BRICK Buffalo Academy Charter School complies with applicable state and local laws governing nondiscrimination in employment. It is the obligation of every employee to adhere to the spirit as well as the letter of these practices. This EEO policy governs all terms and conditions of employment, including, without limitation, selection, job assignment, compensation, discipline, termination, access to benefits and training, and all other conditions and privileges of employment.

BRICK Buffalo Academy Charter School will not tolerate discrimination and expressly prohibits any form of unlawful employee harassment based on race, color, religion, sex, sexual orientation, national origin, age, disability, marital or veteran status, or any other basis prohibited by applicable law. It is a condition of employment that employees cooperate in all of BRICK Buffalo Academy Charter School investigations, including those involving a complaint of discrimination or harassment. Any employees with questions or concerns about any type of discrimination or harassment in the workplace are encouraged to bring these issues to the attention of their immediate supervisor. No retaliation will be taken against an employee who makes a good-faith report of illegal discrimination or harassment.

As is true with respect to all other BRICK Buffalo Academy Charter School policies, disregarding this BRICK Buffalo Academy Charter School policy may result in disciplinary action, up to and including termination of employment.

Any employee aware of violations of this policy must report the conduct immediately to HR at hr@brickeducation.org. Employees can also contact the Chief Talent Officer, Mindy Weidman, directly at (717) 471-5407 or arrange to meet her at the BRICK Education Network office at 534 Clinton Ave., Newark, NJ 07108 or at the BRICK Buffalo Academy Charter School campus. The Chief Talent Officer can provide information on this policy and investigates complaints when needed.

The United States Equal Employment Opportunity Commission (EEOC) enforces federal anti-discrimination laws, including Title VII of the 1964 federal Civil Rights Act (codified as 42 U.S.C. § 2000e et seq.). An individual can file a complaint with the EEOC anytime within 300 days from the harassment. There is no cost to file a complaint with the EEOC. The EEOC will investigate the complaint, and determine whether there is reasonable cause to believe that discrimination has occurred, at which point the EEOC will issue a Right to Sue letter permitting the individual to file a complaint in federal court.

The EEOC does not hold hearings or award relief, but may take other action including pursuing cases in federal court on behalf of complaining parties. Federal courts may award remedies if discrimination is found to have occurred. In general, private employers must have at least 15 employees to come within the jurisdiction of the EEOC.

An employee alleging discrimination at work can file a “Charge of Discrimination.” The EEOC has district, area, and field offices where complaints can be filed. Contact the EEOC by calling 1-800-669-4000 (TTY: 1-800-669-6820), visiting their website at www.eeoc.gov or via email at info@eeoc.gov.

2.3 Individuals with Disabilities (ADA and Accommodations)

BRICK Buffalo Academy Charter School complies with the Americans with Disabilities Act and applicable state and local laws providing for nondiscrimination in employment against qualified individuals with disabilities. BRICK Buffalo Academy Charter School also provides reasonable accommodation for such individuals in accordance with these laws.

Qualified individuals with disabilities may make requests for reasonable accommodation. Requests must be submitted using the BRICK Buffalo Academy Charter School Accommodation Request Form. On receipt of an accommodation request, BRICK Buffalo Academy Charter School will discuss and identify with the employee the precise limitations resulting from the disability and the potential accommodation(s) that BRICK Buffalo Academy Charter School might make to help overcome those limitations.

2.4 Religious Accommodation Policy

BRICK Buffalo Academy Charter School complies with Title VII of the Civil Rights Act of 1964, the New York Human Rights Law, and all applicable state and local fair employment practices laws, and is committed to providing equal employment opportunities to all individuals, regardless of religion. Consistent with this commitment, BRICK Buffalo Academy Charter School will provide a reasonable accommodation of an applicant's or employee's sincerely held religious belief unless doing so would create an undue hardship for the employer.

If you believe you need an accommodation based on your religious beliefs, please contact your supervisor. BRICK Buffalo Academy Charter School encourages you to suggest specific reasonable accommodations. However, the employer is not required to make the specific accommodation requested by you and may provide an alternative, effective accommodation, to the extent any accommodation can be made [REDACTED]

[REDACTED] requesting an accommodation in good faith. BRICK Buffalo Academy Charter School expressly prohibits any form of discipline, reprisal, intimidation, or retaliation against any individual for requesting an accommodation in good faith.

2.5 Sexual Harassment Policy for All Employers in New York State

BRICK Buffalo Academy Charter School is committed to maintaining a workplace free from sexual harassment. Sexual harassment is a form of workplace discrimination. BRICK Buffalo Academy Charter School has a zero-tolerance policy for any form of sexual harassment, and all employees are required to work in a manner that prevents sexual harassment in the workplace. This Policy is one component of BRICK Buffalo Academy Charter School commitment to a discrimination-free work environment.

Sexual harassment is against the law. All employees have a legal right to a workplace free from sexual harassment, and employees can enforce this right by filing a complaint internally with BRICK Buffalo Academy Charter School, or with a government agency or in court under federal, state or local antidiscrimination laws.

Policy:

1. BRICK Buffalo Academy Charter School's policy applies to all employees, applicants for employment, interns, whether paid or unpaid, contractors and persons conducting business with BRICK Buffalo Academy Charter School.
2. Sexual harassment will not be tolerated. Any employee or individual covered by this policy who engages in sexual harassment or retaliation will be subject to remedial and/or disciplinary action, up to and including termination.

3. Retaliation Prohibition: No person covered by this Policy shall be subject to adverse employment action including being discharged, disciplined, discriminated against, or otherwise subject to adverse employment action because the employee reports an incident of sexual harassment, provides information, or otherwise assists in any investigation of a sexual harassment complaint. BRICK Buffalo Academy Charter School has a zero-tolerance policy for such retaliation against anyone who, in good faith complains or provides information about suspected sexual harassment. Any employee of BRICK Buffalo Academy Charter School who retaliates against anyone involved in a sexual harassment investigation will be subjected to disciplinary action, up to and including termination. Any employee, paid or unpaid intern, or non-employee¹ working in the workplace who believes they have been subject to such retaliation should inform a supervisor, manager, or Mindy Weidman, BRICK's Chief Talent Officer. Any employee, paid or unpaid intern or non-employee who believes they have been a victim of such retaliation may also seek compensation in other available forums, as explained below in the section on Legal Protections.

4. Sexual harassment is offensive, is a violation of our policies, is unlawful, and subjects BRICK Buffalo Academy Charter School to liability for harm to victims of sexual harassment. Harassers may also be individually subject to liability. Employees of every level who engage in sexual harassment, including managers and supervisors who engage in sexual harassment or who knowingly allow such behavior to continue, will be penalized for such misconduct.

5. Buffalo Academy Charter School will conduct a prompt, thorough and confidential investigation that ensures due process for all parties, whenever management receives a complaint about sexual harassment, or otherwise knows of possible sexual harassment occurring. Effective corrective action will be taken whenever sexual harassment is found to have occurred. All employees, including managers and supervisors, are required to cooperate with any internal investigation of sexual harassment.

6. All employees are encouraged to report any harassment or behaviors that violate this policy. Buffalo Academy Charter School will provide all employees a complaint form for employees to report harassment and file complaints.

7. Managers and supervisors are required to report any complaint that they receive, or any harassment that they observe to Mindy Weidman, BRICK's Chief Talent Officer.

8. This policy applies to all employees, paid or unpaid interns, and non-employees and all must follow and uphold this policy. This policy must be posted prominently in all work locations and be provided to employees upon hiring.

What Is "Sexual Harassment"?

¹ A non-employee is someone who is (or is employed by) a contractor, subcontractor, vendor, consultant, or anyone providing services in the workplace. Protected non-employees include persons commonly referred to as independent contractors, "gig" workers and temporary workers. Also included are persons providing equipment repair, cleaning services or any other services provided pursuant to a contract with the employer.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of sex, sexual orientation, gender identity and the status of being transgender. Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex when:

- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive work environment, even if the complaining individual is not the intended target of the sexual harassment;
- Such conduct is made either explicitly or implicitly a term or condition of employment; or
- Submission to or rejection of such conduct is used as the basis for employment decisions affecting an individual's employment.

A sexually harassing hostile work environment consists of words, signs, jokes, pranks, intimidation or physical violence which are of a sexual nature, or which are directed at an individual because of that individual's sex. Sexual harassment also consists of any unwanted verbal or physical advances, sexually explicit derogatory statements or sexually discriminatory remarks made by someone which are offensive or objectionable to the recipient, which cause the recipient discomfort or humiliation, which interfere with the recipient's job performance.

Sexual harassment also occurs when a person in authority tries to trade job benefits for sexual favors. This can include hiring, promotion, continued employment or any other terms, conditions or privileges of employment. This is also called "quid pro quo" harassment.

Any employee who feels harassed should complain so that any violation of this policy can be corrected promptly. Any harassing conduct, even a single incident, can be addressed under this policy.

Examples of sexual harassment

The following describes some of the types of acts that may be unlawful sexual harassment and that are strictly prohibited:

- Physical assaults of a sexual nature, such as:
 - Touching, pinching, patting, grabbing, brushing against another employee's body or poking another employees' body;
 - Rape, sexual battery, molestation or attempts to commit these assaults.
- Unwanted sexual advances or propositions, such as:
 - Requests for sexual favors accompanied by implied or overt threats concerning the victim's job performance evaluation, a promotion or other job benefits or detriments;
 - Subtle or obvious pressure for unwelcome sexual activities.

- Sexually oriented gestures, noises, remarks, jokes or comments about a person's sexuality or sexual experience, which create a hostile work environment.
- Sexual or discriminatory displays or publications anywhere in the workplace, such as:
 - Displaying pictures, posters, calendars, graffiti, objects, promotional material, reading materials or other materials that are sexually demeaning or pornographic. This includes such sexual displays on workplace computers or cell phones and sharing such displays while in the workplace.
- Hostile actions taken against an individual because of that individual's sex, sexual orientation, gender identity and the status of being transgender, such as:
 - Interfering with, destroying or damaging a person's workstation, tools or equipment, or otherwise interfering with the individual's ability to perform the job;
 - Sabotaging an individual's work;
 - Bullying, yelling, name-calling.

Who can be a target of sexual harassment?

Sexual harassment can occur between any individuals, regardless of their sex or gender. New York Law protects employees, paid or unpaid interns, and non-employees, including independent contractors, and those employed by companies contracting to provide services in the workplace. A perpetrator of sexual harassment can be a superior, a subordinate, a coworker or anyone in the workplace including an independent contractor, contract worker, vendor, client, customer or visitor.

Where can sexual harassment occur?

Unlawful sexual harassment is not limited to the physical workplace itself. It can occur while employees are traveling for business or at employer sponsored events or parties. Calls, texts, emails, and social media usage by employees can constitute unlawful workplace harassment, even if they occur away from the workplace premises or not during work hours.

What is "Retaliation"?

Unlawful retaliation can be any action that would keep a worker from coming forward to make or support a sexual harassment claim. Adverse action need not be job-related or occur in the workplace to constitute unlawful retaliation.

Such retaliation is unlawful under federal, state, and (where applicable) local law. The New York State Human Rights Law protects any individual who has engaged in "protected activity." Protected activity occurs when a person has:

- filed a complaint of sexual harassment, either internally or with any anti-discrimination agency;
- testified or assisted in a proceeding involving sexual harassment under the Human Rights Law or other anti-discrimination law;

- opposed sexual harassment by making a verbal or informal complaint to management, or by simply informing a supervisor or manager of harassment;
- complained that another employee has been sexually harassed; or
- encouraged a fellow employee to report harassment.

Reporting Sexual Harassment

Preventing sexual harassment is everyone's responsibility. BRICK Buffalo Academy Charter School cannot prevent or remedy sexual harassment unless it knows about it. Any employee, paid or unpaid intern or nonemployee who has been subjected to behavior that may constitute sexual harassment is encouraged to report such behavior to a supervisor, manager or Mindy Weidman, Chief Talent Officer. Anyone who witnesses or becomes aware of potential instances of sexual harassment should report such behavior to a supervisor, manager or Mindy Weidman, Chief Talent Officer.

Reports of sexual harassment may be made verbally or in writing. A form for submission of a written complaint can be found on the school's shared file server, and all employees are encouraged to use this complaint form. Employees who are reporting sexual harassment on behalf of other employees should use the complaint form and note that it is on another employee's behalf.

Employees, paid or unpaid interns or non-employees who believe they have been a victim of sexual harassment may also seek assistance in other available forums, as explained below in the section on Legal Protections.

Supervisory Responsibilities

All supervisors and managers who receive a complaint or information about suspected sexual harassment, observe what may be sexually harassing behavior or for any reason suspect that sexual harassment is occurring, are required to report such suspected sexual harassment to Mindy Weidman, Chief Talent Officer.

In addition to being subject to discipline if they engaged in sexually harassing conduct themselves, supervisors and managers will be subject to discipline for failing to report suspected sexual harassment or otherwise knowingly allowing sexual harassment to continue.

Supervisors and managers will also be subject to discipline for engaging in any retaliation.

Complaint And Investigation Of Sexual Harassment

All complaints or information about suspected sexual harassment will be investigated, whether that information was reported in verbal or written form. Investigations will be conducted in a timely manner, and will be confidential to the extent possible.

An investigation of any complaint, information or knowledge of suspected sexual harassment will be prompt and thorough, and should be completed within 30 days. The investigation will be

confidential to the extent possible. All persons involved, including complainants, witnesses and alleged perpetrators will be accorded due process to protect their rights to a fair and impartial investigation.

Any employee may be required to cooperate as needed in an investigation of suspected sexual harassment. Employees who participate in any investigation will not be retaliated against.

Investigations will be done in accordance with the following steps:

- Upon receipt of complaint, Mindy Weidman, Chief Talent Officer, will conduct an immediate review of the allegations, and take any interim actions, as appropriate. If complaint is oral, encourage the individual to complete the “Complaint Form” in writing. If he or she refuses, prepare a Complaint Form based on the oral reporting.
- If documents, emails or phone records are relevant to the allegations, take steps to obtain and preserve them.
- Request and review all relevant documents, including all electronic communications.
- Interview all parties involved, including any relevant witnesses;
- Create a written documentation of the investigation (such as a letter, memo or email), which contains the following:
 - A list of all documents reviewed, along with a detailed summary of relevant documents;
 - A list of names of those interviewed, along with a detailed summary of their statements;
 - A timeline of events;
 - A summary of prior relevant incidents, reported or unreported; and
 - The final resolution of the complaint, together with any corrective actions action(s).
- Keep the written documentation and associated documents in the employer’s records.
- Promptly notify the individual who complained and the individual(s) who responded of the final determination and implement any corrective actions identified in the written document.
- Inform the individual who complained of their right to file a complaint or charge externally as outlined below.

Legal Protections And External Remedies

Sexual harassment is not only prohibited by BRICK Buffalo Academy Charter School but is also prohibited by state, federal, and, where applicable, local law.

Aside from the internal process at BRICK Buffalo Academy Charter School, employees may also choose to pursue legal remedies with the following governmental entities **at any time**.

New York State Division of Human Rights (DHR)

The Human Rights Law (HRL), codified as N.Y. Executive Law, art. 15, § 290 et seq., applies to employers in New York State with regard to sexual harassment, and protects employees, paid or

unpaid interns and non-employees regardless of immigration status. A complaint alleging violation of the Human Rights Law may be filed either with DHR or in New York State Supreme Court.

Complaints with DHR may be filed any time within one year of the harassment. If an individual did not file at DHR, they can sue directly in state court under the HRL, within three years of the alleged discrimination. An individual may not file with DHR if they have already filed a HRL complaint in state court.

Complaining internally to BRICK Buffalo Academy Charter School does not extend your time to file with DHR or in court. The one year or three years is counted from the date of the most recent incident of harassment.

You do not need an attorney to file a complaint with DHR, and there is no cost to file with DHR.

DHR will investigate your complaint and determine whether there is probable cause to believe that discrimination has occurred. Probable cause cases are forwarded to a public hearing before an administrative law judge. If discrimination is found after a hearing, DHR has the power to award relief, which varies but may include requiring your employer to take action to stop the harassment, or redress the damage caused, including paying monetary damages, attorney's fees and civil fines.

DHR's main office contact information is: NYS Division of Human Rights, One Fordham Plaza, Fourth Floor, Bronx, New York 10458, (718) 741-8400, www.dhr.ny.gov.

Contact DHR at (888) 392-3644 or visit dhr.ny.gov/complaint for more information about filing a complaint. The website has a complaint form that can be downloaded, filled out, notarized and mailed to DHR. The website also contains contact information for DHR's regional offices across New York State.

United States Equal Employment Opportunity Commission (EEOC)

The EEOC enforces federal anti-discrimination laws, including Title VII of the 1964 federal Civil Rights Act (codified as 42 U.S.C. § 2000e et seq.). An individual can file a complaint with the EEOC anytime within 300 days from the harassment. There is no cost to file a complaint with the EEOC. The EEOC will investigate the complaint, and determine whether there is reasonable cause to believe that discrimination has occurred, at which point the EEOC will issue a Right to Sue letter permitting the individual to file a complaint in federal court.

The EEOC does not hold hearings or award relief, but may take other action including pursuing cases in federal court on behalf of complaining parties. Federal courts may award remedies if discrimination is found to have occurred.

If an employee believes that he/she has been discriminated against at work, he/she can file a "Charge of Discrimination." The EEOC has district, area, and field offices where complaints can

be filed. Contact the EEOC by calling 1-800-669-4000 (1-800-669-6820 (TTY)), visiting their website at www.eeoc.gov or via email at info@eeoc.gov.

If an individual filed an administrative complaint with DHR, DHR will file the complaint with the EEOC to preserve the right to proceed in federal court.

Local Protections

Many localities enforce laws protecting individuals from sexual harassment and discrimination. An individual should contact the county, city or town in which they live to find out if such a law exists. For example, employees who work in New York City may file complaints of sexual harassment with the New York City Commission on Human Rights. Contact their main office at Law Enforcement Bureau of the NYC Commission on Human Rights, 40 Rector Street, 10th Floor, New York, New York; call 311 or (212) 306-7450; or visit www.nyc.gov/html/cchr/html/home/home.shtml.

Contact the Local Police Department

If the harassment involves physical touching, coerced physical confinement or coerced sex acts, the conduct may constitute a crime. Contact the local police department.

2.6 Policy Against Harassment

Whatever form harassment takes, BRICK Buffalo Academy Charter School will not permit any employee to illegally harass others with whom he/she has business interactions, including, but not limited to, other employees, customers, vendors, or clients, or permit any outsider to harass its employees. This is true not only in the workplace, but also during business-sponsored activities.

This policy applies to all employees, applicants for employment, interns (paid or unpaid), contractors and non-employees² conducting business, regardless of immigration status. In this policy, the term “employees” refers to this collective group.

Complaint Procedure

BRICK Buffalo Academy Charter School management considers it imperative to create and maintain an atmosphere free of discrimination and harassment, sexual or otherwise. In addition, each employee has the responsibility to respect the rights of coworkers. If an employee experiences any job-related harassment or believes he or she has been treated in an unlawful manner, he or she should promptly report the matter to Mindy Weidman, BRICK Chief Talent Officer. Managers who become aware of harassment must report it to Mindy Weidman, BRICK Chief Talent Officer.

² A non-employee is someone who is (or is employed by) a contractor, subcontractor, vendor, consultant, or anyone providing services in the workplace. Protected non-employees include persons commonly referred to as independent contractors, “gig” workers and temporary workers. Also included are persons providing equipment repair, cleaning services or any other services provided pursuant to a contract with the employer.

In addition, all employees are encouraged to report any prohibited conduct of which they become aware.

After a report of unlawful conduct or harassment has been made, an investigation will be undertaken. Because of the personal and sensitive nature of harassment complaints, the investigation will be conducted discreetly and confidentially to the extent possible, and the nature of the complaint shall be provided on a need-to-know basis only. The investigation of such complaints will generally require disclosure to the accused individual and to other witnesses in order to gather pertinent facts.

It is imperative that both the report of harassment, discrimination, or other unlawful conduct and the investigation itself remain confidential at the discretion of BRICK Buffalo Academy Charter School. Any employee who discloses information obtained during an investigation of this type, who discloses the fact that a complaint has been lodged, or who reveals that an investigation has been undertaken may also be subject to disciplinary action, up to and including termination of employment.

BRICK Buffalo Academy Charter School prohibits any form of retaliation against an employee for filing a good-faith complaint pursuant to this policy, or for participating in or providing assistance in, the investigation of a complaint of harassment. Conversely, employees will be subject to discipline with respect to complaints intentionally made in bad faith.

Responsive Action

Inappropriate behavior or conduct that rises to the level of sexual or other unlawful harassment will be dealt with promptly and appropriately. Some responsive action will occur during an investigation and some responsive action will only occur afterward. Responsive action may include, but is not limited to, sensitivity training, referral to counseling, and other disciplinary actions, such as warnings, reprimands, withholding of promotions or pay increases, reassignment, and temporary suspension without pay.

If it is determined that inappropriate conduct has occurred, we will act promptly to eliminate the offending conduct, and where it is appropriate, we will also impose disciplinary action, up to and including termination of employment.

All BRICK Buffalo Academy Charter School staff members are required to complete anti-harassment training, in Tri-Net, as part of their onboarding.

2.6 Potentially Missing or Abused Children

All staff working in the school shall immediately notify designated child welfare authorities whenever they have reasonable suspicion that a child is missing, or has been abused, and/or neglected.

Reports of incidents of alleged missing, abused, or neglected children shall be reported to the New York State Child Protection Services at 1-800-635-1522. If the child is in immediate danger a call shall be placed to 911 as well as to the CPS.

The person having reason to believe that a child may be missing or may have been abused or neglected may, prior to notifying designated child welfare authorities, inform the Principal or his or her designee, if the action will not delay immediate notification. The person notifying designated child welfare authorities shall inform the Principal or designee of the notification, if such had not occurred prior to the notification. Notice to the Principal or his or her designee need not be given when the person believes that such notice would likely endanger the reporter or pupil involved or when the person believes that such disclosure would likely result in retaliation against the pupil or in discrimination against the reporter with respect to his or her employment.

The Principal or his or her designee, upon being notified by a person having reason to believe that a child may be missing or may have been abused or neglected, must notify appropriate law enforcement authorities of incidents of potentially missing, abused, or neglected child situations. Notification to appropriate law enforcement authorities shall be made for all reports by employees, volunteers, or interns working in the school. Confirmation by another person is not required for a school district employee, volunteer, or intern to report the suspected missing, abused, or neglected child situation.

School officials will cooperate with designated child welfare and law enforcement authorities in all investigations of potentially missing, abused, or neglected children.

Non-Retaliation

BRICK Buffalo Academy Charter School prohibits any manager or other employee from retaliating or taking any adverse action against any employee for reporting incidents of alleged missing, abused or neglected children.

Penalties for Violations

In addition to applicable criminal or civil penalties, any employee who fails to comply with this policy shall be subject to disciplinary action, up to and including termination of employment. Such discipline may also apply to such actions as requesting others to violate this policy, failing to cooperate with any child abuse investigation or retaliating against an employee for making a report of child abuse.

Employees should also be aware that if, in the judgment of the Principal, they have engaged in abusive or inappropriate conduct directed at a student, the Principal may report the incident to the authorities and implement disciplinary action, up to and including termination.

2.7 Personnel Records

BRICK Buffalo Academy Charter School maintains a personnel file on each employee. The personnel file may include an employee's resume, documentation of performance appraisals and salary increases, and other employment records and information. Personnel files are the property of BRICK Buffalo Academy Charter School. Access to the information they contain is restricted,
BRICK Buffalo Academy Charter School

and restricted access will only be provided to current employees. Current employees may only obtain copies of the following documents from their personnel files: performance appraisals, W-4 forms, and status change documents. Requests for copies of these documents must be made in writing and submitted to Mindy Weidman, BRICK Chief Talent Officer.

In addition, it is important for BRICK Buffalo Academy Charter School to maintain accurate current information concerning its employees for benefits administration and other business purposes. It is the responsibility of each employee to promptly notify BRICK Buffalo Academy Charter School of any changes in personnel data. Please keep BRICK Buffalo Academy Charter School currently informed of changes in your personal mailing address, telephone number, number and names of dependents, individuals to be contacted in the event of an emergency, immigration status, educational accomplishments, and other such personal data. If you need to change any of your employee information, you should do so in the HRIS.

Confidential health and medical records are kept in a separate private medical file. BRICK Buffalo Academy Charter School will safeguard such records from disclosure and will divulge only that information: (1) as allowed by law, as referenced in the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) or other federal or state law; (2) to the employee's personal physician upon written request of the employee; (3) as required for Workers' Compensation cases; (4) on a need-to-know basis, in connection with matters in which the employee has put his/her health or ability to perform his/her job in issue; or (5) as otherwise required or permitted by law.

Finally, the Chief Talent Officer will respond in writing only to those reference checks or verification of employment inquiries that are submitted in writing. Responses to such inquiries will confirm only dates of employment and position(s) held. No employment data will be released without a written authorization and release signed by the individual who is the subject of the inquiry. No employment data will be released over the telephone, and any BRICK Buffalo Academy Charter School employee that receives a reference check inquiry should refer the requesting party to Mindy Wediman, BRICK Chief Talent Officer.

2.8 Certification

All personnel hired shall have proper certification as required for their position. BRICK Buffalo Academy Charter School will take the appropriate steps to avoid the employment of teachers or staff members with revoked or suspended certificates. If your position requires a license or certification, it is your responsibility to ensure that it is kept up to date and to provide a copy of your current license or certification to BRICK Buffalo Academy Charter School. If you do not meet these requirements, your employment at BRICK Buffalo Academy Charter School may be subject to immediate termination.

2.9 Employment of Relatives

Usually, BRICK Buffalo Academy Charter School Charter School will not refuse to hire someone simply because he or she is related to one of our current employees. If you have a relative who

might be perfect to fill an open position, please do not hesitate to refer this person to the Talent Department.

There are times, however, when employing relatives is inappropriate and has the potential to affect the morale of other employees and to create conflicts of interest for the relatives involved. Therefore, we will not hire relatives of current employees where one relative will be responsible for supervision of the other.

Under this policy, the term "relatives" encompasses husbands, wives, live-in partners, parents, children, siblings, in-laws, cousins, aunts, uncles, and others in the familial relationship. This policy covers biological relationships, marriage relationships and step relationships.

It is the responsibility of both the current employee and newly hired employee to disclose familial and personal relationships upon hire. Failure to disclose such information can lead to disciplinary action, up to and including termination.

2.10 Child Support Reporting Requirements

Federal and state laws require employers to report basic information about new employees, including your name, address, and Social Security number, to the State Directory of New Hires. The state collects this information to enforce child support orders. If the state determines that you owe child support, it will send us an order requiring us to withhold funds from your paycheck to pay your child support

2.11 Employee Evaluations

Employees will undergo a performance evaluation at least once a year. The evaluation tool is shared with the employee as part of onboarding and referenced during ongoing coaching meetings with their supervisor. Renewal of employment is contingent upon the results of the performance evaluation and shall be determined prior to the end of a fiscal year.

The BRICK Education Network evaluation guidebook provides detailed information about the employee evaluation process. This guidebook is updated each year with any necessary changes to evaluation templates and processes. The BRICK Buffalo Academy Charter School Board approves the evaluation guidebook each year and ensures that the approved guidebook is shared with employees.

BRICK Buffalo Academy Charter School's evaluation practices are consistent with New York State requirements for charter schools. As a result, any change to New York State requirements may lead to the revision of existing evaluation practices and additional Board review to ensure ongoing alignment with New York State requirements.

2.12 Employment At Will

EMPLOYMENT AT WILL

NOTHING IN THIS MANUAL CONSTITUTES A PROMISE OR GUARANTEE AS TO THE TERMS AND CONDITIONS OF YOUR EMPLOYMENT. The employment policies described in this handbook are general guidelines and not conditions of employment. There is no promise or guarantee that BRICK Buffalo Academy Charter School will use any set procedures for discipline or termination of employment, nor is there any promise or guarantee that employees will be terminated only for reasons traditionally considered to be cause for dismissal. BRICK Buffalo Academy Charter School remains free to change the terms or conditions of your employment at any time, with or without prior notice, and with or without cause.

NOTHING IN THIS MANUAL CONSTITUTES A PROMISE OR GUARANTEE AS TO THE DURATION OF YOUR EMPLOYMENT. As an employee, you are free to leave your employment with BRICK Buffalo Academy Charter School at any time, for any reason. Similarly, BRICK Buffalo Academy Charter School has the absolute power to terminate your employment at any time, with or without notice or warning, for any reason or for no reason. This is known as employment at-will. ALL EMPLOYEES OF BRICK Buffalo Academy Charter School ARE AT-WILL EMPLOYEES.

This handbook and any other BRICK Buffalo Academy Charter School documents do not constitute contracts of employment, either express or implied. The policies in this manual may be changed, revoked, or modified without notice or employee approval at any time by BRICK Buffalo Academy Charter School; however, such changes may only be made by the issuance of written policy revisions issued by the BRICK Buffalo Academy Charter School Board of Trustees.

At all times, BRICK Buffalo Academy Charter School remains solely responsible for the interpretation of the provisions in this manual and their applications. If you have any questions, please do not hesitate to contact your direct supervisor. Any written or oral statement that conflicts with anything contained in this notice or this manual is not the policy of BRICK Buffalo Academy Charter School and is not binding upon BRICK Buffalo Academy Charter School.

2.13 Whistleblower Policy

BRICK Buffalo Academy Charter School (the “Corporation” or the “School”) requires its Trustees, Officers, employees and volunteers (each, a “Protected Person”) to observe high standards of business and personal ethics in the performance of their duties on the Corporation’s behalf. As employees and representatives of the Corporation, Protected Persons are expected to practice honesty and integrity in fulfilling their responsibilities and are required to comply with all applicable laws and regulations.

The objectives of this Whistleblower Policy are to encourage and enable Protected Persons, without fear of retaliation, to raise concerns regarding suspected unethical and/or illegal conduct or practices on a confidential and, if desired, anonymous basis so that the Corporation can address and correct inappropriate conduct and actions.

Reporting Responsibility

It is the responsibility of all Protected Persons to report in good faith any concerns they may have regarding actual or suspected activities that may be illegal or in violation of any of the Corporation's policies with respect to, without limitation, fraud, theft, embezzlement, accounting or auditing irregularities, bribery, kickbacks, and misuse of the Corporation's assets, as well as any violations or suspected violations of high business and personal ethical standards, as such standards relate to the Corporation (each, a "Concern"), in accordance with this Whistleblower Policy.

No Retaliation

No Protected Person who in good faith reports a Concern shall suffer intimidation, harassment, coercion, discrimination or other retaliation, express or implied, or, in the case of employees, adverse employment consequences. Any employee who retaliates against someone who has reported a Concern is subject to discipline up to and including termination of employment.

Procedure for Reporting

All Concerns should be reported to the Chair of the Board of Trustees (the "Board") or the School's Principal or Director of Operations (the "Designated Officials"). Any Designated Official receiving such a report shall promptly provide written notice of same to the Personnel Committee, if any, or to such other committee of independent Trustees formed by the Board to oversee all whistleblower matters as they may arise, or if there is no such committee, to the independent Trustees on the Board, as defined in the School's Conflict of Interest Policy; or, if there are allegations against one or more Board members, to at least one other Officer and one Trustee not named in the report (in each case, the "Independent Committee").

Handling of Reported Concerns

The notified Designated Official will acknowledge receipt of each reported Concern to the reporting person within five (5) business days, but only to the extent the reporting person's identity is disclosed or a return address is provided. All reports will be promptly investigated; the scope of any such investigation being within the sole discretion of the Independent Committee, and appropriate corrective action will be taken if warranted by the investigation. The person who is the subject of a reported Concern may not be present at or participate in Board or Committee deliberations or vote on the matter relating to such Concern, provided that nothing herein shall prohibit the Board or Committee from requesting that the person who is subject to the reported Concern present information as background or answer questions at a Committee or Board

meeting prior to the commencement of deliberations or voting relating thereto. The Corporation will take appropriate corrective action if warranted by the investigation.

Investigations

The Independent Committee (or the Designated Official(s) receiving such notice under the general oversight and direction of the Independent Committee) shall investigate all reports filed in accordance with this Whistleblower Policy with due care and promptness. Notwithstanding anything herein to the contrary, the scope, manner and parameters of any investigation of a reported Concern shall be determined by the Independent Committee in its sole discretion and the Corporation and its employees shall cooperate as necessary in connection with any such investigation. The Independent Committee (or the Designated Official) may delegate the responsibility to investigate a reported Concern, whether an accounting Concern or otherwise, to one or more employees of the Corporation or to any other individual, including persons not employed by the Corporation, selected by the Independent Committee or the Designated Official; provided that the Independent Committee or Designated Official may not delegate such responsibility to an employee or other individual who is the subject of the reported Concern or in a manner that would compromise either the identity of an employee who reported the Concern anonymously or the confidentiality of the Concern or resulting investigation. Reported matters will be investigated to determine if the allegations are true, whether the issue is material, and what actions, if any, are necessary to correct the problem. Investigators will issue a full report of all matters raised under this Whistleblower Policy to the Independent Committee, which will, in turn, issue a full report to the Board. The Board may conduct a further investigation upon

Good Faith

Anyone reporting a Concern must act in good faith and have reasonable grounds for believing that the information disclosed may indicate a violation of law and/or ethical standards. The Corporation will treat any proven knowingly false allegation as a disciplinary offense.

Confidentiality

The Corporation takes seriously its responsibility to enforce this Whistleblower Policy and therefore encourages any person reporting a Concern to identify himself or herself so as to facilitate any resulting investigation. Notwithstanding the foregoing, in reporting a Concern, a Protected Person may request that the Corporation treat such report in a confidential manner (including that the Corporation take reasonable steps to ensure that the identity of the reporting person remains anonymous). Protected Persons may also report Concerns on an anonymous basis. The Corporation will keep reports of Concerns confidential to the extent possible, consistent with the need to conduct an adequate investigation and take any necessary remedial action.

Record Retention

All records relating to any report or any investigation of a report shall be maintained for at least seven (7) years.

Distribution of the Whistleblower Policy

The Corporation shall distribute a copy of this Whistleblower Policy to all Protected Persons upon the commencement of their employment by and/or service to the School.

2.14 Complaints under Section 2855 of the Charter Schools Act

Section 2855(4) of the New York Education Law (part of the New York State Charter Schools Act (CSA)) states that any individual or group may bring a complaint directly to the Board of Trustees alleging a violation of the CSA, the School’s charter, or any other provision of law relating to the management or operation of the School. All such complaints should be in writing and include the following:

1. Name, address, and phone number of the complainant;
2. Detailed statement by the complaint, including the specific provision of the School’s charter or law that allegedly has been violated;
3. The relief sought by the complainant; and
4. The response, if any, received from the School thus far.

The Board of Trustees will respond to the complaint in a reasonable amount of time. Where possible, determinations will be made in 30 days or by the next regularly-scheduled Board meeting unless extenuating circumstances in the complaint require an expedited review. If the complainant believes that the Board of Trustees hasn’t resolved the complaint, they may present the complaint to the School’s authorizer, the Board of Regents of the State University of New York (“Board of Regents”). The process for bringing a complaint to the Board of Regents can be found here: <http://www.nysed.gov/charter-schools/complaint-process>.

The Board of Regents has delegated authority to handle charter school-related complaints to the Commissioner of Education. The Charter School Office of the New York State Education Department, on behalf of the Commissioner, will investigate and respond to complaints that are appropriately filed, and has the power and duty to issue appropriate remedial orders.

COMPENSATION POLICIES

3.1 Employee Classifications

BRICK Buffalo Academy Charter School clearly defines its specific employment classifications so that employees understand their employment status and benefit eligibility. These classifications are not intended to and do not guarantee employment for any specified period of time.

Accordingly, the right to terminate the "at-will" employment relationship, at any time, is retained by both the employee and BRICK Buffalo Academy Charter School as per the "Employment At-Will" section in the Introduction of this Handbook.

Exempt and Non-Exempt: Each employee is designated as either:

- Non-exempt — an employee who is eligible for overtime at the rate of time and one-half their regular rate for payable, actual hours worked beyond 40 hours a week in accordance with applicable federal and state wage and hour laws; or
- Exempt — an employee who is not eligible for overtime pay, in accordance with applicable federal and state wage and hour laws, for work performed beyond 40 hours a week.

An EXEMPT employee is an individual who qualifies for an exemption from the overtime requirements of the Fair Labor Standards Act or other similar state laws. The major exemptions apply to individuals employed in an executive, administrative, or managerial capacity, or an individual who is employed in a professional capacity. Typically, all other employees will be classified as NON-EXEMPT.

All overtime by non-exempt employees must be authorized in advance (in writing) by your supervisor.

BRICK Buffalo Academy Charter School's workweek begins each Monday at 7:15 a.m. Overtime pay is based on actual hours worked within a workweek. Hours worked do not include meal periods, vacation days, personal days, holidays or any leave of absence. Employees may not work through their meal periods without written permission from their supervisor.

Employment Category: In addition to the above categories, each employee will belong to one other employment category:

- Full-Time — employees regularly scheduled to work a minimum of 30 hours a week. Generally, they are eligible for BRICK Buffalo Academy Charter School's benefit package, subject to the terms, conditions, and limitations of each benefit program.
- Part-Time — employees regularly scheduled to work less than 30 hours a week. While receiving all legally mandated benefits (i.e., workers' compensation insurance and Social Security), they are ineligible for most of BRICK Buffalo Academy Charter School's other benefit programs.
- Temporary — employees hired to perform specific assignments for a specified duration and whose employment will be terminated at the completion of that assignment. Employment beyond any initially stated period does not in any way imply a change in employment status; temporary status remains unless and until an appropriate BRICK Buffalo Academy Charter School representative notifies the employee of a change. While temporary employees receive all legally mandated benefits (i.e., workers' compensation insurance and Social Security), they are ineligible for most of BRICK Buffalo Academy Charter School's other benefit programs.

Employees within each Employment Category may be classified as either Exempt or Non-exempt, depending upon their job description and responsibilities. If you have any questions regarding your employment status, please contact Mindy Weidman, Chief Talent Officer.

3.2 Hours of Work

The School opens at 7:15 a.m. and closes at 4:15 p.m., Monday through Friday, except holidays. These are considered the School's core operating hours for employees, during which all employees generally are expected to be at work, except for authorized meal periods or unless absent for approved leave.

There will be an early release day for students on Friday of each week. Students will be dismissed by 1:00 p.m. However, all school employees will report for mandatory Professional Development that begins at 2:00 p.m. and ends at 4:15 p.m.

While the school doors will open at 7:30 a.m., some students may arrive to school before that time. In addition, some students may remain on the premise after the last scheduled bus departure at 4:15 p.m. due to delayed parent pick ups, transportation challenges, or after school activities. Since we always want to make sure that our students are safe and supervised, actual work schedules may vary by employee, based on the needs of the school. Employees should discuss their individual work schedules and expectations with their supervisor, the Principal or the Director of Operations.

3.3 Pay Schedule

Salaried staff are paid bi-monthly. TriNet has a calendar for when payroll is run and when employees can expect their pay to be deposited.

For hourly staff, the calendar of pay period end dates, shares what dates are covered for each paycheck. For example, the 7/30/21 paycheck will include hours from 7/12 – 7/23. Part-time, hourly, staff are encouraged to print this calendar out so they keep track of what days are covered on each paycheck.

BRICK Buffalo Academy Charter School and its entities do not permit employees to receive pay advances.

Your paycheck reflects your total earnings for the pay period, as well as any mandatory or voluntary deductions. Mandatory deductions are deductions that we are legally required to take. Such deductions include federal income tax, social security tax (FICA), and any applicable state taxes. Voluntary deductions are deductions that you have authorized, such as deductions for your:

- Flex Spending Account
- Automatic savings
- Additional employee paid benefits: AXA, Colonial, Pre-Paid Legal
- Pension loans

All positions run concurrently with the school year – in this case 2023-2024. The school year runs from August 1, 2023 to June 30, 2024. 12-month staff start July 1, 2023 and their contract, pay, and benefits run to June 30, 2024. Staff that work 10.5/11 months start August 1, 2023 and their pay and benefits run through July 30, 2024.

If you have any questions about your paycheck, please contact the BRICK Buffalo Regional Director of Operations, Antwan Barlow, at abarlow@brickeducation.org.

EMPLOYEE BENEFITS

4.1 Introduction to Employee Benefits Programs

Eligible BRICK Buffalo Academy Charter School employees are provided a range of benefits. Several programs, such as Social Security, workers' compensation insurance, short-term disability insurance, and unemployment insurance cover all employees in the manner prescribed by law.

Benefit eligibility is dependent upon a variety of factors, including employee classification.

The following benefit programs are among those available to eligible employees:

- Group Health and Related Benefits
 - Comprehensive Health (Medical, Dental and Vision)
- Leaves
 - Vacation
 - Personal/Sick Time
 - Parental Leave
 - Jury Duty, Military Leave, Bereavement Leave

4.2 Vacation

The vacation benefit year runs from July 1 to June 30. Only 12-month staff members are granted vacation. BRICK Buffalo Academy Charter School 12-month staff are given two weeks of paid time off to be used when school is not in session (July); and the annual personal and sick day accumulation of all school based staff for August to June.

Vacation time off is paid at the employee's base rate at the time of vacation. It does not include overtime, commissions, or bonuses. No unused vacation days may be carried into the next year (the "year" is a July 1 fiscal year). If BRICK Buffalo Academy Charter School, in its discretion, permits an employee to take vacation time in excess of the amount earned, such overpayment of vacation pay will, to the extent permitted under applicable law, be deducted by BRICK Buffalo Academy Charter School from any compensation or amounts otherwise owed to the employee at the time of termination.

Advance notice is required to take vacation time. Two weeks' notice and consultation with the appropriate supervisor is required for more than two consecutive vacation days.

All vacation days are to be logged centrally in the HRIS. Days will be approved in the HRIS directly. If a day is not approved, the employee should not take the day off until approved.

BRICK Buffalo Academy Charter School will endeavor to schedule vacations to meet an employee's request as long as it does not unreasonably interfere with the operational needs of BRICK Buffalo Academy Charter School. However, vacations normally cannot be scheduled for periods longer than two consecutive weeks.

4.3 Sick Time

BRICK Buffalo Academy Charter School provides paid time off for Full-Time and Part-Time employees. This time off is to be used for temporary absences due to illness (the employee or his/her immediate family), personal emergencies, or to tend to other personal needs. Employees receive eight sick days each year.

In accordance with the New York State's Paid Sick Leave Law, employees shall accrue up to forty (40) hours of paid sick time per year (defined for this policy as the period from July 1st through June 30th for 12 month employees and from August 1st through July 30th for staff that work 10.5/11 months).

Here are some additional policies with respect to the use of sick time:

- Sick time shall accrue at a rate of one (1) hour for every thirty (30) hours worked.
- Staff are asked to provide as much notice as possible when requesting a sick day. However, staff must ensure that they submit their request to use a sick day in the HRIS system no later than 6 a.m. on that day. In extreme circumstances where an employee cannot enter their request into the HRIS system or becomes ill after 6 a.m., he or she should contact their direct supervisor.
- Sick days can only be used consecutively for bona fide illness or for circumstances approved by the employee's supervisor and the Chief Talent Officer. If an employee takes 3 or more sick days, a medical note may be required to be given to the Talent Office and logged in your personnel file for the employee to be paid for the days.
- Days are not compensated upon termination of employment with BRICK Buffalo Academy Charter School.
- Employees who are out sick after having exhausted their annual sick days may use accrued, unused vacation days. Employees who are out sick after having exhausted all paid time off will not be paid for such absences.
- Sick days cannot be used the day before a holiday or the immediate day following a paid holiday, unless the employee has a medical note.

In addition to sick time, staff receive three personal days each year. Personal days are to be used for personal emergencies or to tend to other personal needs. Personal days require pre-approval from the principal, at least 5 days in advance. Personal days do not carry over.

In addition, employees may use sick time as “safe time” for purposes related to domestic violence, family offenses, sexual offenses, stalking or human trafficking. Such “safe time” can be used for the employee’s personal needs or for the employee to assist family members, and may take many forms, including, but not necessarily limited to the following:

- to obtain victim services
- for safety planning
- to meet with law enforcement or civil attorneys
- to relocate
- to enroll children in a new school
- to take any other actions necessary to ensure safety for themselves or others.

Employees requesting “safe time” should indicate that they are requesting “safe time” in the HRIS system. Employees requesting “safe time” will not be required to share additional information regarding their request.

Perpetrators of these offenses are not allowed to use sick time for these purposes.

For more information about NY state’s sick and safe leave law, visit https://www.ny.gov/sites/default/files/atoms/files/PSL_FAQ_PaidSickLeaveFAQ.pdf. For more information regarding NY’s services to prevent domestic violence, visit the Office for the Prevention of Domestic Violence at <https://opdv.ny.gov/> or call the office at 800-942-6906.

4.4 Holidays

Employees will be notified at the beginning of each calendar year of the holidays BRICK Buffalo Academy Charter School will observe during that year and the actual dates these holidays will be observed. **Dates will also be shared in the HRIS system.**

Holiday pay will be calculated based on the employee's straight-time pay rate (as of the date of the holiday) times the number of hours the employee would otherwise have worked on that day.

4.5 Bereavement Leave

Up to five consecutive business days of paid bereavement leave for the death of an immediate family member will be provided to eligible employees that are full-time employees.

Bereavement leave pay is calculated based on the base pay rate at the time of absence and will not include any special forms of compensation, such as incentives, commissions, or bonuses.

Bereavement pay will not be provided on a day that holiday pay or other form of time off is provided. If an employee wishes to take time off due to the death of an immediate family member, the employee should notify his or her supervisor immediately.

An employee may, with the supervisor's approval, use any other available paid leave for additional time off as necessary.

BRICK Buffalo Academy Charter School defines "immediate family" as the employee's spouse, life partner, parent, child, sibling; the employee's spouse's parent, child, or sibling; the employee's child's spouse; grandparents or grandchildren.

Employees must notify their supervisor as soon as possible in the event of a death in the family. The bereavement leave is to be logged in the HRIS.

Employees may be granted up to (1) day paid leave in the event of a friend or relative outside of the immediate family, but shall be limited to one (1) such day per school year.

4.6 FMLA Leaves of Absence

NOTICE: Some of the leave policies and laws referenced below and in this Handbook can run concurrently. When this is permitted by law, employees will be required to take all leaves for which they are eligible concurrently. For example, if an employee is eligible for both unpaid leave under the federal Family and Medical Leave Act and paid leave under the New York State Paid Family Leave Program, BRICK Buffalo Academy Charter School will designate both leaves to run at the same time. To the extent that employees have any available paid time off, to the extent permitted by law, employees will be required to use that paid time off while on any type of leave of absence that is unpaid or partially paid. However, an employee shall not be able to collect pay or wage replacement in excess of 100% of base pay from all sources combined during his or her leave. The use of any paid time off while on any type of leave of absence does not extend the employee's length of leave.

FMLA does not affect any state or local law that provides greater family or medical leave rights. Please contact the Executive Officer with any questions concerning individual state laws. Unless state law requires otherwise, FMLA leave runs concurrent with, not in addition to, time off due to a worker's compensation injury or disability, or any other applicable leave policy or law.

Family and Medical Leave (FMLA)

The federal Family and Medical Leave Act of 1993 ("FMLA") entitles employees to take unpaid, job-protected leave for specified family and medical reasons with continuation of group health insurance coverage under the same terms and conditions as if the employee had not taken leave. Employees eligible are entitled to twelve (12) work weeks of leave in any twelve (12) month period for:

- the birth and care of a newborn child (“Bonding Leave”);
- the placement of a child with the employee for adoption or foster care and for bonding with the newly-placed child (“Bonding Leave”);
- to care for an immediate family member (spouse, child or parent) with a serious health condition (“Family Care Leave”);
- when the employee is unable to perform the essential functions of his/her job due to the employee’s own serious health condition (“Serious Health Condition Leave”);
- any “qualifying exigency” for military operations arising out of the fact that the employee’s spouse, child or parent is on active duty or has been notified of an impending call or order to active duty in the US National Guard or Reserves in support of a “contingency operation” declared by the U.S. Secretary of Defense, President or Congress, as required by law (“Military Exigency Leave”); or
- twenty-six (26) workweeks of leave during a single 12-month period to care for a covered service member who is a spouse, child, parent or next of kin (nearest blood relative of an individual) who is an Armed Forces member with a serious injury or illness incurred in the line of duty while on active duty that may render the individual medically unfit to perform his/her military duties (“Military Caregiver Leave”)
- employees to address certain qualifying exigencies due to the employee’s spouse, child or parent being on covered active duty or call to covered active duty status (“Military Family Leave”)

More information on FMLA can be accessed on the [Department of Labor website](#).

To be eligible for FMLA leave and benefits, an employee:

- Must be employed and work at a worksite within 75 miles of which BRICK Buffalo Academy Charter School employs at least 50 people;
- Must have worked for BRICK Buffalo Academy Charter School for at least twelve (12) months (which need not be consecutive) prior to the date on which his/her leave is to begin; and
- Must have worked at least 1,250 hours during the previous twelve (12) months preceding the leave;

Advance Notice

An employee requesting a leave pursuant to the FMLA must submit a written leave request to HR at least thirty (30) days before the date that the leave is expected to begin. BRICK Buffalo Academy Charter School recognizes that unexpected emergencies can arise where it is not possible to provide thirty days’ notice of the intended leave. In such situations, employees are expected to provide as much advance notice as possible. Employees may be required to explain why they provided less than thirty days’ notice of the need for foreseeable leave. If an employee fails to give timely advance notice with no reasonable excuse when thirty days’ notice is required for foreseeable leave, FMLA coverage may be delayed. The employee must provide sufficient information to enable HR to determine if the leave is FMLA-qualifying and the anticipated timing and duration of the leave. If the employee fails to respond to BRICK Buffalo Academy Charter School’s reasonable inquiries for additional information, the leave may be denied.

Medical Certification

In cases where an employee is requesting a medical leave because of the employee's own serious health condition or that of a spouse, child or parent, BRICK Buffalo Academy Charter School will require the employee to submit a written medical certification from a healthcare provider verifying the need for the leave. The employee must provide a complete and sufficient certification within fifteen calendar days after the request, unless it is not practicable despite the employee's diligent, good faith efforts. The failure to provide the required medical certification within the time allotted may result in the denial of the FMLA leave.

During the employee's leave, the employee may also be required to provide additional physicians' statements at regular intervals, attesting to the employee's or family member's continued serious health condition and inability to work.

Insurance Premium Payment during Leaves of Absence

Employees on paid or unpaid leave are responsible for paying their benefits premiums. If the school pays the employee while he/she is on leave, deductions will come out of your paycheck as usual. If on unpaid leave, you will be responsible for sending the School payments to cover your benefits premiums. Failure to make payments within the provided deadline will result in loss of coverage. If this occurs, you will have the option to continue coverage of eligible benefits by enrolling in COBRA.

Leave During School Closings

For purposes of determining the amount of FMLA leave used by an employee, the fact that a holiday may occur within a week taken as FMLA leave has no effect; the week is counted as a week of FMLA leave. However, during extended School closings where the School's activities have temporarily ceased and employees generally are not expected to report for work for one or more weeks (e.g., winter vacation, summer vacation), the days the School is closed do not count against the employee's FMLA leave entitlement, unless the employee is one who would otherwise work year-round on an administrative schedule.

Reporting in While on Leave

During a FMLA leave, an employee is expected to maintain periodic contact with his/her supervisor and/or the School Operations Leader to advise them of his/her progress and anticipated return-to-work date. Approximately two weeks prior to the anticipated end of the employee's leave period, the employee is expected to notify their supervisor and the School Operations Leader of their expected return-to-work date.

FMLA Leave for Instructional Employees Near the End of an Academic Term

Special FMLA rules apply to employees who work in an instructional capacity. For purposes of this policy, instructional employees are those whose principal function is to teach and instruct students in a class, a small group, or an individual setting. This term includes not only teachers, but also athletic coaches, driving instructors, and special education assistants such as signers for the hearing impaired. It does not include, and the special rules do not apply to, teacher assistants or aides who do not have as their principal job actual teaching or instructing, nor does it include

auxiliary personnel such as counselors, psychologists, or curriculum specialists. It also does not include cafeteria workers, maintenance workers, or bus drivers.

Instructional employees will be required to continue their FMLA leave until the end of the semester under the following circumstances:

- If the leave is scheduled to begin more than five weeks prior to the end of the semester, and (i) the leave will last at least three weeks and (ii) the employee's scheduled return to work would occur during the three-week period before the end of the semester;
- If the leave is scheduled to begin within five weeks prior to the end of the semester because of the birth of a child; the placement of a child for adoption or foster care; to care for a spouse, child, or parent with a serious health condition; or to care for a covered service member, and (i) the leave will last for more than two weeks, and (ii) the employee's scheduled return to work would occur during the two-week period before the end of the semester (this does not apply to medical leave for the employee's own serious health condition); or
- If the leave is scheduled to begin within three weeks prior to the end of the semester because of the birth of a child; the placement of a child for adoption or foster care; to care for a spouse, child, or parent with a serious health condition; or to care for a covered service member and the leave will last more than five working days (this does not apply to medical leave for the employee's own serious health condition).

In the case of an employee who is required to take leave until the end of an academic term, only the period of leave until the employee is ready and able to return to work shall be charged against the employee's FMLA leave entitlement. The School has the option to require the employee to stay on leave until the end of the school term. Therefore, any additional leave required by the employer to the end of the school term is not counted as FMLA leave; however, the School shall comply with the special FMLA rules for school employees set forth in 29 C.F.R. § 825.600, *et seq.*, and shall maintain the employee's group health insurance and restore the employee to the same or equivalent job including other benefits at the conclusion of the leave.

An instructional employee who needs intermittent leave or leave on a reduced schedule to care for a family member or for the employee's own serious health condition is subject to special rules when the employee would be on leave for more than twenty percent (20%) of the number of working days over the period that the leave would extend. These special rules include being required to take leave for periods of a particular duration or to transfer temporarily to an alternative, equivalent position that better accommodates the leave.

If an employee chooses to take leave for periods of a particular duration (*i.e.*, a block, or blocks, of time beginning no earlier than the first day for which leave is needed and ending no later than the last day on which leave is needed) in the case of intermittent or reduced schedule leave, all leave time taken will count as FMLA leave.

Return-to-Work Certification

All employees taking medical leave to care for their own serious health condition will be required to submit a fitness-for-duty certification signed by their healthcare provider before returning to work, stating that the employee is able to resume his/her position; however, employees will not be required to provide said certification for each absence taken on intermittent or reduced schedule leave unless otherwise permitted by law. The certification must address specifically the employee's ability to perform the essential functions of his/her job. The failure to provide an appropriate fitness-for-duty certification will delay the employee's ability to return to work. If an employee never provides such a certification, he/she may be denied reinstatement.

The employee must present medical clearance to Mindy Weidman, BRICK Chief Talent Officer, at least 5 (five) days prior to the first day of returning to employment to set-up a re-entry meeting.

4.7 New York State Paid Family Leave Policy (PFL)

We participate in New York's Paid Family Leave ("PFL") program to provide partial wage replacement to eligible employees for bonding with a child, caring for a relative with a serious health condition, or in certain situations dealing with active military service. As part of this policy, eligible employees will generally be returned to their job upon return from leave. Your health insurance will be maintained if you continue to pay your portion of the premium while on PFL. While specifics of the policy are below, note that not every aspect can be detailed here, and the provisions of the law will prevail. If you have any questions, please contact Mindy Weidman, BRICK Chief Talent Officer.

Eligibility

Covered employees become eligible to take Paid Family Leave for a qualifying event once they have met the minimum time-worked requirements:

- **Full-time employees:** Employees who work a regular schedule of 20 or more hours per week are eligible after 26 consecutive weeks of employment.
- **Part-time employees:** Employees who work a regular schedule of less than 20 hours per week are eligible after working 175 days, which do not need to be consecutive. Employees with irregular schedules should look at their average schedule to determine if they work, on average, fewer than 20 hours per week.

Citizenship status and immigration status do not affect PFL eligibility.

Eligible Uses For Leave

1. Maternity and Paternity Leave. Eligible employees may take PFL during the first 12 months after the birth, adoption, or fostering of a child.

In the case of the birth of a child, PFL may not be used for pre-natal care and is only available after the birth of the child. Employees may opt to receive disability and PFL during the post-partum period but may not receive both benefits at the same time.

In the case of placement or adoption, an employee may take PFL before the actual placement or adoption if an absence from work is required for the placement for adoption or foster care to proceed. Such instances would include attending counseling sessions, appearing in court, consulting with attorneys or doctors representing the birth parent or travelling to another country to complete an adoption.

2. Caring for a Relative with a Serious Health Condition. Employees may take PFL to care for the following relatives suffering from a serious health condition:

- Spouse
- Domestic partner
- Child
- Parent
- Parent-in-law
- Grandparent
- Grandchild

A serious health condition is generally an illness, injury, impairment, or physical or mental condition that involves:

- inpatient care in a hospital, hospice, or residential health care facility; or
- continuing treatment or continuing supervision by a health care provider.

In most cases, conditions like the common cold, the flu, ear aches, upset stomach, minor ulcers, routine dental or orthodontia problems, periodontal disease, and the like do not meet the definition of a serious health condition.

3. Active Military Duty Deployment. An eligible employee may take PFL under the military provisions of the Family and Medical Leave Act (“FMLA”) when a spouse, child, domestic partner or parent of the employee is on active duty or has been notified of an impending call or order of active duty. Some instances in which an employee may take PFL are to: make child care arrangements for a child of the deployed military member; attend eligible military ceremonies and briefings; and make financial or legal arrangements for addressing the military member’s absence.

Reinstatement After Leave

Generally, employees have a right to return to their same or comparable job upon return from PFL.

Ineligible Uses

1. PFL cannot be used for the employee’s own disability or qualifying military event. In these instances, other leave or wage replacement policies may apply.
2. You may not receive both disability benefits and PFL benefits for the same period of time. An employee who is eligible for both disability benefits and PFL during the same period of 52 consecutive calendar weeks will not receive more than 26 total weeks of disability and PFL benefits during that period of time.
3. You are not eligible for PFL if you are not working and collecting workers’ compensation.

When Both Spouses/Partners Work For Us

If both you and your spouse work for us, PFL will be authorized for one of you if you have both requested the same period of time off to bond with the same child or to care for the same eligible relative.

Benefits

The amount of PFL available is described in the chart below:

Year	Weeks Available For Leave	Maximum Percentage of Employee’s Average Weekly Wage	The Employee Benefit is Capped at The Following % of NY State Average Weekly Wage
2021	12	67%	67%

As the above chart shows, the maximum benefit beginning in 2021 is 12 weeks. Employees may take their maximum benefit in any 52-week period. The 52-week clock starts on the first day the employee takes PFL. Eligible employees are entitled to receive the applicable percentage of their average weekly wage unless that amount exceeds the cap set by New York State. The State will establish its average weekly wage each year. The State “average weekly wage” for 2018 is \$1,305.92 per week. Thus, the maximum PFL benefit payment an employee could receive in 2018 was 50% of \$1,305.92, or \$652.96 per week.

If applicable, your health insurance coverage will be maintained while you’re on PFL so long as you continue to pay your health insurance premium contributions. Upon approval of your PFL, you will be notified as to how to make these required payments.

Weekly and Daily Leave

You may take your PFL in weekly increments for the maximum number of weeks of leave in any 52-consecutive week period.

You may also take your PFL in daily increments. When you do so, your maximum period of PFL is calculated based on the average number of days worked per week. For example, an employee that works 3 days per week will receive the equivalent of 3 days per week for 12 weeks, or a maximum of 36 days in any 52-consecutive week period.

Other Pay During PFL

You are permitted, but not required, to use available/eligible sick, vacation, or personal time to make your pay whole during your leave. In other words, you may supplement your PFL pay with your available sick, vacation, or personal time pay, so that your wages during your leave equal your wages while working. When combining all sources of pay, employees may not receive more than 100% of their normal wages.

PFL shall also run concurrent with any Paid Parental Leave, however, no employee shall receive more than 100% of their normal wages during the time that they are receiving both PFL and Paid Parental Leave. Such employees are entitled to the full amount of the PFL benefits, which will then be supplemented (up to 100% of the employee's normal wages) by the Paid Parental Leave benefits.

NOTE: You will not continue to accrue Paid Time Off while you are out on PFL.

How To Apply For PFL

Email hr@brickeducation.org at least 30 days before starting PFL when the leave is foreseeable. If the event leading to your PFL request is not foreseeable, you must give notice as soon as is practical. When the need for PFL is foreseeable and you do not give 30 days advance notice, your request may be denied for a period of up to 30 days from the date notice is provided.

Payment for PFL

PFL is funded by a payroll deduction from your pay. A maximum rate of employees' contribution will be established each year by the State. In most cases, if you will not work the 26 continuous weeks or 175 days needed to be eligible for PFL (such as seasonal employees, for example), you will be notified of your right to waive coverage. In such cases, you will need to complete a waiver.

Federal Family and Medical Leave and New York PFL

To the extent permitted, leaves covered by the Federal Family and Medical Leave Act (FMLA) will run concurrent with New York PFL. In such instances, you will be notified of this concurrent leave. If you are informed of your right to collect New York PFL benefits while on FMLA leave, but you decline to apply for PFL benefits, your leave will still be counted against your maximum duration of PFL.

If you work partial days due to FMLA leave, when the total hours taken for FMLA in less than full day increments reach the number of hours in your usual work day, one day of PFL benefits will be deducted from your annual available New York PFL benefit.

Special Rules Pertaining to PFL for Instructional Employees

The special rules that are applicable to employees working in an instructional capacity for purposes of taking intermittent FMLA leave shall also be applicable to instructional employees seeking to take intermittent leave under the PFL.

Discrimination or Retaliation

No employee will be discriminated against or retaliated against for taking PFL. If you have any concerns in this regard, please contact HR at hr@brickeducation.org.

Questions

If you have any questions about this policy or PFL, please e-mail hr@brickeducation.org.

4.8 Leave To Appear as Victim or Witness in a Criminal Proceeding

An eligible employee may take time off from work, without pay, for any of the following reasons:

- To comply with a subpoena to testify in a criminal proceeding (including time off to consult with the district attorney);
- To give a statement at a sentencing proceeding;
- To give a victim impact statement at a pre-sentencing proceeding; or
- To give a statement at a parole board hearing.

Eligibility

An employee is eligible for time off under this policy if he/she is:

- The victim of the crime at issue in the proceedings;
- The victim's next of kin, if the victim is deceased as a result of the offense;
- The victim's representative;
- A "Good Samaritan;" or
- Pursuing an application or the enforcement of an order of protection, as provided under relevant law.

For the purpose of this policy, a "Good Samaritan" is someone who acts in good faith to apprehend a person who has committed a crime in his/her presence, to prevent a crime or an attempted crime from occurring, or to aid a law enforcement officer in effecting an arrest. A victim's representative is a person who represents or stands in the place of another person, including, but not limited to, an agent, attorney, guardian, conservator, executor, heir or parent of a minor.

Notice & Certification

An employee must notify his/her supervisor of the need to take a leave under this policy no later than the day before the absence. In addition, the employee must provide the supervisor with verification of his/her service upon request.

The School will not retaliate or tolerate retaliation against any employee who seeks or obtains leave under this policy.

4.9 Lactation Accommodation

BRICK Buffalo Academy Charter School will provide a reasonable amount of break time to accommodate an employee desiring to express breast milk for the employee's infant child. Employees needing breaks for lactation purposes may use ordinary paid rest breaks or may take other reasonable break time when needed. If possible, the lactation break time should run concurrently with scheduled meal and rest breaks already provided to the employee. If the lactation break time cannot run concurrently with meal and rest breaks already provided or additional time is needed for the employee, the lactation break time will be unpaid for nonexempt employees.

Employees will be relieved of all work-related duties during any unpaid break. Where unpaid breaks or additional time are required, employees should work with their supervisor and Mindy Weidman, the BRICK Chief Talent Officer, regarding scheduling and reporting the extra break time. Where state law imposes more specific requirements regarding the break time or lactation accommodation, BRICK Buffalo Academy Charter School will comply with those requirements. Because exempt employees receive their full salary during weeks in which they work, all exempt employees who need lactation accommodation breaks do not need to report any extra break time as "unpaid."

BRICK Buffalo Academy Charter School will provide employees with the use of a room or a private area, other than a bathroom or toilet stall, that is shielded from view and free from intrusion from co-workers and the public. BRICK Buffalo Academy Charter School will make a reasonable effort to identify a location within close proximity to the work area for the employee to express milk. This location may be the employee's private office, if applicable.

BRICK Buffalo Academy Charter School will otherwise treat lactation as a pregnancy-related medical condition and address lactation-related needs in the same manner that it addresses other non-incapacitating medical conditions, including requested time off for medical appointments, requested changes in schedules and other requested accommodations.

Employees should discuss with Mindy Weidman, the BRICK Chief Talent Officer, the location for storage of expressed milk. In addition, employees should contact her during their pregnancy or before their return to work to discuss any need for a lactation area.

4.10 Jury Duty and Witness Duty Leave

Jury Duty

BRICK Buffalo Academy Charter School encourages employees to fulfill their civic responsibility by serving jury duty when required.

Full-Time and Part-Time employees who have completed a minimum of six months of service may request paid jury duty leave. BRICK Buffalo Academy Charter School will continue to pay the employee's salary for a maximum of two calendar weeks. In the event that the employee is out for more than two weeks, the employee may use any available paid leave benefit, such as vacation leave or sick/personal time, to receive compensation for the balance of this absence.

Jury duty pay will be calculated on the employee's base pay rate times the number of hours the employee would otherwise have worked on the day of absence. Employees are required to submit to BRICK Buffalo Academy Charter School any payments received from the court for serving jury duty. BRICK Buffalo Academy Charter School, in turn, will pay the employee full salary for such days. To receive jury duty pay, the employee must submit a certificate of juror's attendance for all days served.

The employee must show the jury duty summons to his or her supervisor as soon as possible so that arrangements may be made to accommodate the employee's absence. The employee is expected to report for work whenever the court schedule permits. BRICK Buffalo Academy Charter School may request an excuse from jury duty if, in BRICK Buffalo Academy Charter School's judgment, the employee's absence would create serious operational difficulties.

Insurance benefits will remain in effect and unchanged for the full term of a jury duty absence. Any accrual of benefits, such as vacation, sick leave, or holiday benefits will continue, if applicable, during jury duty leave.

Witness Duty

BRICK Buffalo Academy Charter School will allow employees to appear in court for witness duty whenever summoned to do so. An employee will be granted unpaid time off for absence due to witness duty. The employee may use any available paid leave benefit, such as vacation leave or sick/personal time, to receive compensation for the period of this absence.

The employee should show a copy of the Summons or Subpoena to his or her manager immediately after it is received so that arrangements may be made to accommodate the employee's absence. The employee is expected to report for work whenever the court schedule permits.

If an employee has been subpoenaed as a witness of BRICK Buffalo Academy Charter School as a result of a job-related event, he or she will receive paid time off for the entire period of witness duty.

4.11 Military Leave Absence

Leaves of absence without pay for military National Guard, or Reserve duty are granted to Full-Time and Part-Time employees. Employees called to active military duty or to Reserve or National Guard training, or who volunteer for the same, should notify their manager and submit copies of their military orders to him or her as soon as is practicable.

Employees will be granted a military leave of absence without pay for the period of military service in accordance with applicable federal and state laws. If an employee is a Reservist or a member of the National Guard, that employee will be granted time off without pay for required military training. Eligibility for reinstatement after the employee completes military duty or training is determined in accordance with applicable federal and state laws. The employee is free to use any available paid leave benefit, such as vacation leave or sick/personal leave to compensate for the period of this absence.

For employees with at least 6-months of service with the network, they should speak with the Mindy Weidman, the BRICK Chief Talent Officer, to request paid military leave.

4.12 Workers' Compensation Insurance

BRICK Buffalo Academy Charter School provides a comprehensive workers' compensation insurance program at no cost to employees. This program covers any injury or illness sustained in the course of employment that requires medical, surgical, or hospital treatment.

Subject to applicable legal requirements, workers' compensation insurance provides benefits after a short waiting period. If the employee is hospitalized, benefits begin immediately.

Any employee who sustains a work-related injury or illness should immediately inform his or her manager and Mindy Weidman, the BRICK Chief Talent Officer. **No matter how minor an on-the-job injury may appear, it is important that it be reported to the CTO immediately.** This will enable an eligible employee to qualify for coverage as quickly as possible.

In addition to notifying their supervisor and the CTO, any employee who sustains a work-related injury or illness is asked to follow the process described below:

1. Seek appropriate medical treatment. The staff member should see the school nurse for medical treatment when appropriate. If necessary, the employee should go/be taken to the nearest hospital for medical treatment. The school nurse can assist the employee with accessing appropriate treatment and any transportation necessary to receive that treatment.
2. As soon as is practical, the employee should complete an accident/incident report form that is signed by the employee and any witnesses to the event. The employee should share that form with the school nurse and the human resources department immediately by emailing hr@brickeducation.org.
3. The employee and supervisor should notify the HR Department immediately.

Neither BRICK Buffalo Academy Charter School nor the insurance carrier will be liable for the payment of workers' compensation benefits for any injury due to an employee's intoxication, illegal use of a controlled substance, or willful intent to harm oneself or others.

In addition, neither BRICK Buffalo Academy Charter School nor the insurance carrier will be liable for the payment of all injuries suffered on the job, no matter how minor, if not immediately reported to your supervisor and CTO. If an employee should suffer a serious work-related injury during voluntary participation in an off-duty recreational, social, or athletic activity sponsored by BRICK Buffalo Academy Charter School, the employee should request worker's compensation benefits for said injury.

This policy is only a summary of an employee's workers' compensation rights and responsibilities. For further details regarding workers' compensation, please contact the insurance company.

4.13 BRICK Buffalo Academy Charter School 401(K) Savings Plan

With the BRICK Buffalo Academy Charter School 401(k) Savings Plan, you decide how to invest and save. Employees who are eligible to contribute can elect to make before-tax or Roth contributions to the 401(k) plan.

Below is high-level information on the 401(k) Savings Plan. For more detailed information, see the 401(k) Savings Plan Summary.

Depending on a staff member's age, he/she can elect to participate in retirement. BRICK Buffalo Academy Charter School will match an employee's retirement contributions up to 4% of the employee's salary. If a staff member chooses not to contribute to his/her retirement, the district does not contribute the match.

Contacting AXA. AXA manages the 401(k) account. It is recommended you reach out to AXA to set up a meeting with BRICK Buffalo Academy Charter School's AXA representative to discuss your contributions and how they are invested. The contact information is below:

- AXA Contact Info- Danielle Dunbar
- (p) 404-760-2320
- Danielle.Dunbar@equitable.com

4.14 Health, Pharmacy, and Dental

If you are a Full-Time (30+ hours per week) employee, you and your dependents may enroll in our benefits. Benefits for Full-Time employees take effect on day one.

Eligible dependents generally include:

- Your spouse/domestic partner.
- You or your spouse/domestic partner's children/grandchildren under age 26.

- Unmarried disabled children age 26 or older who meet certain criteria.

Other eligibility criteria apply to some of the benefit plans or programs, such as Life Insurance, Wellness, Dependent Care Flexible Spending Account, Health Care Flexible Spending Account, Health Savings Account, Transit Plan, and the retirement plans.

The employer currently contributes 85% of the employee's monthly premium up to \$1000 for individual coverage; or up to \$1500 for spouse, child, or family coverage.

Currently, staff pay 15% of the monthly premium and anything above \$1000 for individual coverage. For spouse, child, or family coverage, the employee/staff member pays 15% of the monthly premium and anything above \$1500.

Dental and vision coverage are optional and at the employee's expense.

Staff that waive health coverage get a \$600 per year payment in lieu of health coverage.

Dental

Good dental care is an important part of any health care program. Like our approach to health care, our dental coverage is designed to prevent serious dental problems by encouraging regular dental checkups. We offer Basic and Premium dental plans. The differences between the plans are the premiums (cost of coverage), annual maximum benefit, and coinsurance for major services.

Vision

Good vision care is an important part of any health care program. Like our approach to health care, our vision coverage is designed to prevent serious vision problems by encouraging regular vision checkups. We offer Basic and Premium vision plans. The differences between the plans are the premiums (cost of coverage), annual maximum benefit, and coinsurance for major services.

EMPLOYEE CONDUCT

5.1 Employee Conduct & Confidentiality

The security and protection of confidential business information is vital to the interests and success of BRICK Buffalo Academy Charter School.

Each employee is likely to be entrusted with, or to come across, confidential information. Such confidential information includes any and all information and materials (regardless of format) disclosed or made available to the employee or known by the employee as a direct or indirect consequence of or through employment with BRICK Buffalo Academy Charter School, including, but not limited to, any and all BRICK Buffalo Academy Charter School proprietary information, information related to BRICK Buffalo Academy Charter School's client relationships, services, or

methods of operation, and information relating to the research, development, accounting, marketing, or selling activities of BRICK Buffalo Academy Charter School.

Any employee who is exposed to confidential information must use that information only to perform his or her job with BRICK Buffalo Academy Charter School. Confidential information must be safeguarded at all times and should not be discussed with anyone outside BRICK Buffalo Academy Charter School, such as friends, immediate family members, other relatives, customers, vendors, or competitors. Every employee has an obligation to ensure that all confidential information remains the property and private information of BRICK Buffalo Academy Charter School. All employees are responsible for the internal security of all confidential information. The restrictions on an employee's disclosure as defined in this paragraph shall also apply post-employment. Upon termination of employment, or at any other time upon BRICK Buffalo Academy Charter School's request, the employee shall return to BRICK Buffalo Academy Charter School all property then in employee's possession or custody and belonging to BRICK Buffalo Academy Charter School, including any confidential information and this Handbook. Employees may not retain any copies or reproductions of correspondence, memoranda, reports, projections, notes, financial information, or other documents relating in any way to the affairs of BRICK Buffalo Academy Charter School other than publicly filed documents.

Any employee who discloses confidential business information will be subject to disciplinary action, including possible termination of employment and legal action, even if he or she does not actually benefit from the disclosed information.

5.2 Attendance and Punctuality

To maintain a safe and productive work environment, BRICK Buffalo Academy Charter School expects its employees to be reliable and to be punctual in reporting for scheduled work.

Each employee has an important job responsibility vital to the continuing operation of BRICK Buffalo Academy Charter School. Absenteeism and tardiness place a burden on other employees and on BRICK Buffalo Academy Charter School. It is therefore important that all BRICK Buffalo Academy Charter School employees report to work on time, observe time limits for lunch and any breaks, and not leave work early without approval.

When an employee is unable to work as scheduled or cannot avoid being late to work, he or she should notify the appropriate manager as soon as possible in advance of the anticipated absence or tardiness, provide reasons for the absence, and in case of absence, when the employee expects to return. Employees must not rely on voicemail or a third party to provide such notice and must contact their manager personally each day they are absent from or will be late to work.

If an employee fails to report to work without notice for five consecutive workdays and, without good cause, fails to notify the employer of the reasons for his or her absence, he or she shall be considered to have abandoned his or her employment. When these conditions are met, the employee becomes subject to disqualification for benefits for voluntarily leaving work without good cause. Good cause in this case is a pretty high standard. The employee must have no control

over the situation giving rise to the failure to notify and further, the reason must be so compelling as to prevent the employee from notifying the employer of the absence. These same requirements apply to employees returning to work following an approved leave of absence.

Either poor attendance or excessive tardiness may lead to disciplinary action, up to and including termination of employment.

Reporting Time Off

- All paid and unpaid time off must be recorded in the HRIS. Failure to report time in the HRIS may result in disciplinary action or failure to be paid for the time.
- An employee who fails to follow this protocol will be subject to corrective action and discipline. This could include a letter of reprimand on file, poor evaluation, or a loss in pay.
- Please be advised that no faculty/staff member is able to take paid time off the day before or after a day in which school is closed.

5.3 Personal Appearance

BRICK Buffalo Academy Charter School employees enjoy **business casual attire**. All employees are expected to present a clean and neat appearance and to dress appropriately according to the requirements of their positions. Failure to meet these standards may result in an employee being sent home to correct the situation. This time away from work will be unpaid.

The key to our business-appropriate dress guidelines is exercising good judgment and being neat in appearance. Although the spectrum of business casual dress is broad, not all clothing is appropriate in the workplace.

We believe that the following items are examples of the types of attire that do not meet BRICK Buffalo Academy Charter School's objectives of presenting a professional image. Please refrain from wearing items such as these to work:

- Shorts, tights, leggings, sweatshirts and/or sweatpants, T-shirts, jogging or warm-up suits, and other clothing and footwear more suitable for the gym;
- Jeans of any color;
- Colorful spandex;
- Torn, frayed, cutoff, or ripped clothing of any description;
- Tank tops, tight, immodest, or otherwise revealing clothing; and
- Clothing with any writing that can be considered derogatory, insulting, or otherwise disrespectful to any members of BRICK Buffalo Academy Charter School's diverse workforce.

Occasionally, staff participate in announced smart casual days. On smart casual days staff are able to wear jeans and professional tops. Jeans are not to be frayed or ripped. The prohibited items above still apply to smart casual days (i.e. no tank tops, spandex, etc.)

BRICK Buffalo Academy Charter School Charter School leadership reserves the right in all situations to make the determination as to whether a team member is in violation of this dress code policy. If it cannot be addressed by the staff member immediately, the staff member will be directed to go home and fix it before returning to work. If this occurs, the staff member will lose the day from their paid time off and this will be noted for evaluation purposes. Where a single violation so warrants or violations recur, the Principal or direct Supervisor may enter a reprimand in the staff member's file and may recommend more stringent disciplinary measures.

5.4 Electronic, Telephonic and Internet Communication

All electronic and telephonic communication systems and all communications and information transmitted by, received from, or stored in these systems are the sole property of BRICK Buffalo Academy Charter School and as such, are to be used solely for job-related purposes. Employees should not expect their computer entries or messages left on BRICK Buffalo Academy Charter School email or voicemail systems to be private. Those files containing the personal information of an employee as a result of the employee making incidental use of the computer for personal purposes, including transmission of personal email messages, will be treated no differently than other files, i.e., BRICK Buffalo Academy Charter School reserves the right to access, review, copy, modify, delete, or disclose them for any purpose. Accordingly, employees should not use the computer system to send, receive, or store any information that they wish to keep private. Employees should treat the computer system like a shared file system - with the expectation that files sent, received, or stored anywhere in the system will be available for review by any authorized representative of BRICK Buffalo Academy Charter School for any purpose. Employees' use of all communication systems is a privilege that may be revoked at any time.

To ensure that the use of electronic and telephonic communications systems and business equipment is consistent with BRICK Buffalo Academy Charter School's legitimate business interests, authorized representatives of BRICK Buffalo Academy Charter School may monitor the use of such equipment and systems from time to time without notice. This includes monitoring Internet usage, sent and received email, and telephone conversations, and it may also include listening to stored voicemail messages. Accordingly, employees should not expect privacy in any of their communications through these systems.

Employees must not reveal or display their passwords to anyone and must maintain the confidentiality of their passwords.

Improper use of the email system (e.g., spreading offensive jokes or remarks) will not be tolerated. BRICK Buffalo Academy Charter School's policy against sexual and other harassment applies fully to the use of the Internet and email. Accordingly, acquisition and/or dissemination of inappropriate materials, including but not limited to those containing sexual innuendo, pornographic material, improper jokes, harassing or threatening statements, or any statement that could be negatively perceived by others or considered hostile or offensive based on any protected classification, including, but not limited to, sex, gender, race, color, age, religion, national origin,

sexual orientation, or disability, is strictly prohibited. Employees who violate this policy may be subject to disciplinary action, up to and including termination of employment.

Employees also should be aware that emails are BRICK Buffalo Academy Charter School records and should be written with care. Like most other BRICK Buffalo Academy Charter School documents, emails can be used as evidence in a court of law.

BRICK Buffalo Academy Charter School provides employee access to the Internet at BRICK Buffalo Academy Charter School's expense. The Internet represents a useful tool for BRICK Buffalo Academy Charter School in conducting its business, but like any other tool, it must be used properly. For purposes of this policy, Internet includes any public electronic data communications network.

Use of the Internet and the World Wide Web includes all restrictions that apply generally to the use of BRICK Buffalo Academy Charter School's email and other electronic and telephonic equipment, as noted above. In addition, the following rules apply with respect to Internet usage:

1. No browsing of inappropriate, offensive, or pornographic Web sites.
2. No downloading of non-business related data: BRICK Buffalo Academy Charter School allows the download of files from the Internet. However, downloading files should be limited to those that relate directly to BRICK Buffalo Academy Charter School business.
3. No downloading of application programs: BRICK Buffalo Academy Charter School prohibits the download or installation on BRICK Buffalo Academy Charter School computers of application software from the Internet. Such software may not only contain embedded viruses, but also is untested and may interfere with the functioning of standard BRICK Buffalo Academy Charter School applications. No application programs should be downloaded without the express approval of BRICK Buffalo Academy Charter School management.
4. No participation in Web-based surveys without authorization: When using the Internet, the user implicitly involves BRICK Buffalo Academy Charter School in his/her expression. Therefore, users should not participate in Web or email-based surveys or interviews without the express authorization of BRICK Buffalo Academy Charter School management.
5. No use of subscription-based services without prior approval: Some Internet sites require that users subscribe before being able to use them. Users should not subscribe to such services without the express approval of their supervisor.

No violation of copyright: Many of the materials on the Internet are protected by copyright. Even though they may seem to be freely accessible, many of the intellectual property laws that apply to print media still apply to software and material published on the Internet. Employees are permitted to print out Web pages and to download material from the Internet for informational purposes as long as the purpose for such copying falls into the category of "fair use." Please do not copy or disseminate materials that are copyrighted. Employees having any questions regarding such materials should contact Mindy Weidman, the BRICK Chief Talent Officer for guidance.

All computer programs and data developed for BRICK Buffalo Academy Charter School and/or contained in BRICK Buffalo Academy Charter School's computer systems are to be used solely for BRICK Buffalo Academy Charter School business and are the exclusive property of BRICK Buffalo Academy Charter School. The unauthorized disclosure of information contained in BRICK Buffalo Academy Charter School's Information Systems pertaining to the business is forbidden. Any employee who becomes aware of misuse of the Information Systems should immediately contact Mindy Weidman, BRICK's Chief Talent Officer.

As a condition of employment and continued employment, employees are required to sign an Electronic Communication Acknowledgment Form. The execution of this form signifies the employee's acknowledgment that he or she has read, become familiar with, understands, and will abide by and honor the requirements contained in this BRICK Buffalo Academy Charter School Policy 5.4. Employees who violate this policy are subject to disciplinary action, up to and including termination of employment.

Storing and Deleting Email Messages - BRICK Buffalo Academy Charter School strongly discourages the storage of large numbers of email messages for a number of reasons. First, because email messages frequently contain confidential BRICK Buffalo Academy Charter School information, it is desirable to limit the number, distribution, and availability of such messages to protect BRICK Buffalo Academy Charter School's information. Additionally, in the event that BRICK Buffalo Academy Charter School needs to search the network, backup tapes, or individual personal computers for genuinely important documents, fewer documents to be searched make the search more economical. Accordingly, employees are to promptly delete any email messages they send or receive that no longer require action or are not necessary to an ongoing project. Employees should audit their stored email messages regularly to identify messages that are no longer needed and that should be deleted.

Specifically prohibited practices

In addition to the general guidelines above, all users should avoid the misuse of the email system, including by refraining from any of the following actions:

- Impersonating or misrepresenting the identity of a sender or receiver of e-mail intentionally;
- Modifying a message and forwarding it as work of the original author without noting the modifications;
- Forwarding sensitive information of BRICK Buffalo Academy Charter School or customers to third parties without a need-to-know;
- Creating or sending copies in violation of applicable copyright laws;
- Using the email system to promote or endorse personal or religious causes (including the sending of advertisements, solicitations, or similar materials);
- Using the email system for personal commercial gain;
- Bypassing security mechanisms;
- Attempting to break into another computer system;

- Attempting to cause harm to another computing system (e.g., joining email protests to crash a server);
- Generating or passing on programs intended to delete or damage data or other computer systems;
- Sending abusive or inflammatory emails; and
- Engaging in any illegal activity (including, without limitation, sending messages containing obscene materials or messages whose purpose or effect is harassment, defamation, or portrayal of any person in a false light).

5.5 Social Media

BRICK Buffalo Academy Charter School understands that many employees maintain personal websites (including social media pages such as Facebook) and/or blogs and utilize other social media websites (such as Twitter and LinkedIn) (collectively, “blogs”), or post on the websites or blogs of others (including via Internet message boards, chat groups, social media sites, discussion groups, or other communities). In general, BRICK Buffalo Academy Charter School views personal blogs positively, and it respects the right of employees to use them as a medium of self-expression. However, BRICK Buffalo Academy Charter School expects employees to adhere to the following with regard to social media:

- Posting to, editing, or browsing blogs from BRICK Buffalo Academy Charter School computers is subject to BRICK Buffalo Academy Charter School’s standard policies relating to use of its electronic equipment. Among other things, BRICK Buffalo Academy Charter School computers may not be used (a) to initiate or forward harassing, pornographic, or indecent material, (b) to infringe upon anyone’s intellectual property or other rights, or (c) to violate any laws.
- Blogging on behalf of BRICK Buffalo Academy Charter School or a client should be treated the same as any other official communications created by BRICK Buffalo Academy Charter School and done only with the prior consent of BRICK Buffalo Academy Charter School or client, as applicable.
- You must clearly disclose your relationship with BRICK Buffalo Academy Charter School or its client if posting messages to blogs about BRICK Buffalo Academy Charter School or its client (or the client’s products or services). For instance, do not write about a client without stating that the client is one of BRICK Buffalo Academy Charter School’s clients and that you work for BRICK Buffalo Academy Charter School. If you identify yourself as an employee of BRICK Buffalo Academy Charter School or discuss matters related to our business, you must make it clear to your readers that the views you express are yours alone and that they do not necessarily reflect the views of BRICK Buffalo Academy Charter School unless you have received permission to make an official BRICK Buffalo Academy Charter School posting.
- You must ensure that all statements about BRICK Buffalo Academy Charter School or its clients (or the client’s products or services) are truthful and substantiated when posting messages to blogs about BRICK Buffalo Academy Charter School or its clients (or the client’s products or services).

- Keep any personal blog entirely separate from BRICK Buffalo Academy Charter School blogs.
- You must be aware that the address you are posting from may indicate BRICK Buffalo Academy Charter School's name, and you should keep in mind that the message may be seen as representing BRICK Buffalo Academy Charter School regardless of any disclaimers. Therefore, do not post any message to a blog directly critical of BRICK Buffalo Academy Charter School or its vendors, clients, employees, or services.
- Although BRICK Buffalo Academy Charter School respects your interest in free expression when posting to or maintaining a blog on your own time, what you say or post online may nevertheless subject you to corrective employment action (including termination of employment), especially if such posts have a negative impact on BRICK Buffalo Academy Charter School.
- You may not disclose any information that is confidential or proprietary to BRICK Buffalo Academy Charter School or to any third party that has disclosed confidential information to us.
- Please remember that BRICK Buffalo Academy Charter School and/or its clients own the concepts and developments that you produce in connection with your employment. You may not post or otherwise use any intellectual property belonging to BRICK Buffalo Academy Charter School or its clients unless you have written approval from BRICK Buffalo Academy Charter School management.
- If requested to do so by BRICK Buffalo Academy Charter School, you must provide BRICK Buffalo Academy Charter School the names of any blogs to which you have posted information about and/or made reference to BRICK Buffalo Academy Charter School or any of its clients.
- When using any blogs, you must always comply with such blog's terms of service, acceptable use policy, and any other posted guidelines.

Refrain from using social media while on work time or on equipment we provide, unless it is work-related as authorized by your supervisor.

If you become aware of any violation of this policy by any other BRICK Buffalo Academy Charter School personnel, you are required to notify Mindy Weidman, BRICK Chief Talent Officer, immediately.

Disciplinary action for misuse

If you have any doubts as to whether it's okay to post a particular piece of information, feel free to discuss the matter with the Chief Talent Officer; ultimately, however, you have sole responsibility for what you choose to post to any blog.

5.6 Company Property

The BRICK Buffalo Academy Charter School Charter School has invested significant money in the property and equipment provided to employees. Employees should take care of all company

property and equipment provided to them. Employees should report any issues with company property and equipment to their supervisor.

BRICK Buffalo Academy Charter School Charter School resources are limited and BRICK Buffalo Academy Charter School does not permit extensive personal use of company property and equipment unless specifically authorized by the policies contained in this handbook or upon express written permission of a supervisor.

Employer-Provided Phones - Phones provided to employees by the company are primarily for business use and personal calls should be kept to a minimum. The company reserves the right to monitor telephone calls made and received using the company telephones subject to applicable federal and state law. Extensive personal use of company phones may be grounds for discipline. The company will not monitor employees for any unlawful purpose including monitoring, or giving the impression of monitoring, employee union activity and protected concerted activity under Section 7 of the NLRA.

Employer-Provided Computers - The computers provided to employees are company property and subject to monitoring by company. Employees are not permitted to download any programs from the internet, enter personal chat rooms, send personal emails, or install personal chat programs. Personal use of company computers should be kept to a minimum. Employees should be aware that software piracy is a felony. The Company will not monitor employees for any unlawful purpose including monitoring, or giving the impression of monitoring, employee union activity and protected concerted activity under Section 7 of the National Labor Relations Act (NLRA).

Company Cellular Phones - Where job needs demand immediate access to an employee, the company will issue a business cell phone or PDA (personal digital assistant) to an employee for work-related communications. Such devices may be monitored by the company subject to applicable federal and state law. Employees who are issued cellular phones or PDAs are expected to protect the equipment from loss, damage or theft. Employees are expected to follow applicable state or federal laws or regulations regarding the use of cell phones or PDAs. The company will not monitor employees for any unlawful purpose including monitoring, or giving the impression of monitoring, employee union activity and protected concerted activity under Section 7 of the NLRA.

NLRA Activity - When applicable protected concerted activity covered by the NLRA or the particular collective bargaining agreement is not prohibited by this policy. This policy in no way prohibits employee communications that are protected under applicable state and federal laws, including but not limited to any activity that is protected under Section 7 of the NLRA which includes the right of employees to speak with others about their terms and conditions of employment.

Discipline - Violation of the above rules may result in discipline, up to and including immediate termination of employment.

Return of Company Property and Equipment - When the employment relationship ends, the employee is expected to return all company property and equipment in good condition to his/her immediate supervisor. The company reserves the right to take any lawful action to recover or protect company property and equipment.

Consent - By accepting equipment, I agree that I have reviewed the company policy concerning the use of company property and equipment and I understand the rules that I must abide by. I further agree to comply with these rules and understand that my violation of any of these rules may result in discipline, up to and including termination.

5.7 Media Coverage or Video Recording

The BRICK Buffalo Academy Charter School Charter School often takes and promotes videos, pictures, and/or uses other mediums to promote and reflect on our work. All staff might be included within BRICK Buffalo Academy Charter School media, both internal and external.

BRICK Network staff (including the Regional Director of Instruction/Superintendent, Director of Operations and Academic Directors) and school leadership team members (including the Principal, Director of Operations and Vice Principals) may also take videos and pictures of staff without prior written permission. These staff members may take videos and pictures as they exercise their leadership roles for a variety of reasons, such as to document school-based practices, to assist with the coaching of staff members, or to support staff professional development. In addition, network staff and school leadership team members may authorize other individuals, such as consultants, to videotape or take pictures of staff without prior written permission. Other staff members are not permitted to tape one another without prior written permission.

5.8 Workplace Violence

BRICK Buffalo Academy Charter School is concerned about the increased violence in society, which has also filtered into many workplaces throughout the United States. Therefore, BRICK Buffalo Academy Charter School has taken steps to help prevent incidents of violence from occurring at BRICK Buffalo Academy Charter School. Toward this end, it is the express policy of BRICK Buffalo Academy Charter School to prohibit any acts or threats of violence by any BRICK Buffalo Academy Charter School employee or former employee, vendor, visitor, or client against any other employee in or about BRICK Buffalo Academy Charter School's facilities or elsewhere at any time. BRICK Buffalo Academy Charter School also will not condone any acts or threats of violence against BRICK Buffalo Academy Charter School's employees, customers, or visitors on BRICK Buffalo Academy Charter School's premises at any time or while they are engaged in business with or on behalf of BRICK Buffalo Academy Charter School, on or off the BRICK Buffalo Academy Charter School's premises. In keeping with the spirit and intent of this policy, and to ensure BRICK Buffalo Academy Charter School's objectives in this regard are attained, BRICK Buffalo Academy Charter School is committed to the following zero-tolerance policy:

- Taking prompt remedial action, up to and including immediate termination, against any employee who engages in any threatening behavior or acts of violence or who uses any obscene, abusive, or threatening language or gestures.
- Taking appropriate action when dealing with customers, former employees, or visitors to BRICK Buffalo Academy Charter School's facilities who engage in such behavior. Such action may include notifying the police or other law enforcement personnel and prosecuting violators of this policy to the maximum extent of the law.
- Prohibiting employees, former employees, customers, and visitors from bringing unauthorized firearms or other weapons onto BRICK Buffalo Academy Charter School's premises.
- Establishing viable security measures to ensure that BRICK Buffalo Academy Charter School's facilities are safe and secure to the maximum extent possible and to properly handle access to BRICK Buffalo Academy Charter School facilities by the public, off-duty employees, and former employees.
- Providing a safe and healthful work environment, in accordance with BRICK Buffalo Academy Charter School's safety and health policy.

In furtherance of this policy, employees have a "duty to warn" their managers, and the Chief Talent Officer, of any suspicious workplace activities, situations, or incidents that they observe or that they are aware of that involve other employees, former employees, customers, or visitors and that appear problematic. Employee reports made pursuant to this policy will be held in confidence to the extent possible. BRICK Buffalo Academy Charter School will not retaliate against, or condone any form of retaliation against, any employee for making a good-faith report under this policy.

5.9 Drug and Alcohol Free Workplace

Basis for the Policy

BRICK Buffalo Academy Charter School is committed to providing a safe and productive workplace for all employees. Consistent with this commitment, BRICK Buffalo Academy Charter School has a particular concern about substance abuse since it can affect an employee's productivity and efficiency, jeopardize the safety of the employee, coworkers, and the public, and impair the reputation of BRICK Buffalo Academy Charter School and its employees. An employee's substance abuse may also violate state and federal statutes. Accordingly, BRICK Buffalo Academy Charter School has established this policy with regard to the use, possession, and sale of alcohol or drugs while at work, on BRICK Buffalo Academy Charter School premises, while engaged in BRICK Buffalo Academy Charter School business, or under circumstances where such activity may harm the reputation of BRICK Buffalo Academy Charter School.

Drug and Alcohol Prohibitions

Illegal Drugs

The BRICK Buffalo Academy Charter School strictly prohibits the use, possession, consumption, purchase, or sale of illegal drugs, or the presence of illegal drugs in an employee's system at a BRICK Buffalo Academy Charter School

detectable level on BRICK Buffalo Academy Charter School premises, where the employee is performing BRICK Buffalo Academy Charter School business off premises, or where such activity away from BRICK Buffalo Academy Charter School premises or business affects the employee's suitability for continued employment or may harm the reputation of BRICK Buffalo Academy Charter School and its employees. "Illegal Drugs" are drugs or controlled substances that are not legally obtainable, or legally obtainable but not obtained in a lawful manner. Examples include cocaine and marijuana, and prescription drugs that were not lawfully obtained or used.

Legal Drugs

"Legal Drugs" are those prescribed or over-the-counter drugs that are legally obtained by the employee and used for the purpose for which they are prescribed and sold. However, even legal drugs may affect the safety of the employee, coworkers or the public at large. Therefore, any employee who is taking any legal drug that might impair safety, performance, or any motor functions must advise his or her supervisor or group leader before reporting to work under the influence of such medication so that any job-related consequences may be determined. BRICK Buffalo Academy Charter School may require the employee to abide by appropriate actions deemed advisable by BRICK Buffalo Academy Charter School under such circumstances.

Alcohol

BRICK Buffalo Academy Charter School strictly prohibits the use, possession, consumption, purchase, or sale of alcohol on BRICK Buffalo Academy Charter School premises. Furthermore, no employee shall be under the influence of alcohol while on BRICK Buffalo Academy Charter School premises or while performing BRICK Buffalo Academy Charter School business off BRICK Buffalo Academy Charter School premises. Any exception to this policy for special situations (e.g., holiday parties, entertaining customers, and after-hour socializing) must be sanctioned by BRICK Buffalo Academy Charter School and be conducted in accordance with any limitations that BRICK Buffalo Academy Charter School may require.

Testing for Drugs and Alcohol

A blood test, urinalysis, or other drug/alcohol screening may be required for the persons identified below:

Employment Applicants

Following an employment offer and prior to commencing employment with BRICK Buffalo Academy Charter School, a successful job applicant may be screened for drug and alcohol use. This policy may apply to any re-hires of Full-Time or Part-Time employees as well. The applicant will be requested to sign a consent release form acknowledging his or her authorization of the drug test and the release of the test results to BRICK Buffalo Academy Charter School. Candidates who refuse to sign the consent release form or to undergo the drug screening will be denied employment.

Individuals who are denied employment because they had a positive test result may apply and be considered for employment for the same job, if available, or for a different job, upon demonstration that they are currently free of substance abuse. Such a demonstration shall include, but is not limited to, satisfactory completion of another pre-employment drug test by a certified laboratory approved by BRICK Buffalo Academy Charter School. BRICK Buffalo Academy Charter School's willingness to accept a re-application shall not imply any offer of employment to the applicant.

Current Employees

BRICK Buffalo Academy Charter School asserts its legal right to test any employee for alcohol or drug use. An employee's cooperation with a drug- or alcohol-screening test is required as a condition of employment. Refusal to submit to such tests constitutes a violation of BRICK Buffalo Academy Charter School policy and is grounds for adverse employment action, including termination at BRICK Buffalo Academy Charter School's discretion. Refusal of a drug or alcohol test will be considered by BRICK Buffalo Academy Charter School to be equivalent to a confirmed "positive" test.

A drug or alcohol test may be required:

1. Of any employee where there exists reasonable suspicion to believe the employee is acting in an impaired or unsafe manner or has engaged in the misuse or unlawful use of alcohol, drugs, or controlled substances. Without limitation, employees are advised that an accident or injury may form the basis of this suspicion, as might erratic or unusual behavior exhibited by the employee during business or non-business hours.
2. As part of occasional follow-up testing if the employee is found to have breached these policies but has been permitted to remain employed.
3. Randomly, whenever an employee is working in a job classification that has been designated by BRICK Buffalo Academy Charter School as a "safety risk" job classification for purposes of this policy.
4. If such test is either required or permitted by any law or government regulation.

Retesting

Applicants and employees who have tested positive for the first time, may request an opportunity to be retested. However, all retesting shall be conducted at the sole expense of the applicant or employee, on his or her own personal time, at a certified laboratory approved by BRICK Buffalo Academy Charter School. Under no circumstances will an employee who has tested positive be permitted to return to work unless and until a negative test finding has resulted. Prior to reinstatement, the employee must present reliable medical evidence that he or she has overcome the substance abuse problem and must consent in writing to occasional testing on request over the next twelve months to be certain that there has not been any resumption of usage of drugs or alcohol in violation of this policy. Failure to take and pass any such requested test may result in immediate termination.

Employee Assistance

BRICK Buffalo Academy Charter School urges individuals with substance abuse problems to seek help, and BRICK Buffalo Academy Charter School is committed to providing assistance in this regard. BRICK Buffalo Academy Charter School considers drug addiction and alcoholism to be treatable diseases. However, BRICK Buffalo Academy Charter School will not permit employees to be under the influence of drugs or alcohol, endangering their own safety and that of others on BRICK Buffalo Academy Charter School's property or while on BRICK Buffalo Academy Charter School business. The goal of BRICK Buffalo Academy Charter School's policy on employee drug and alcohol abuse is not only deterrence, but also detection and treatment.

Employees who take the initiative of advising their supervisor that they have a medical problem with regard to alcohol or drug use, who have not engaged in misconduct or poor performance at work, and who demonstrate a commitment to take the necessary remedial action, may be eligible for an unpaid medical leave of absence consistent with the requirements of prevailing law and BRICK Buffalo Academy Charter School's policies for such purpose and will not be subjected to disciplinary action with respect to such problem so long as the employee has not engaged in misconduct, unsafe conduct, or poor job performance that would independently warrant disciplinary action. An employee's election to take an unpaid medical leave will not excuse the employee from complying with BRICK Buffalo Academy Charter School's drug and alcohol policy upon his or her return to work.

Applicability

This policy covers all of BRICK Buffalo Academy Charter School's facilities and applies equally to all BRICK Buffalo Academy Charter School employees and prospective employees. To the extent possible, all contractors, vendors, and visitors will be informed of this policy.

Notification of Criminal Convictions

Any employee convicted of a violation of a criminal drug statute must notify BRICK Buffalo Academy Charter School in writing within five calendar days of the conviction.

Discipline

Any violation of this policy may result in adverse employment action up to and including termination of employment and referral for criminal prosecution at BRICK Buffalo Academy Charter School's discretion. Testing is not required as a condition to BRICK Buffalo Academy Charter School taking disciplinary action, up to and including termination of employment against an employee violating this policy.

5.10 Smoking Policy

To maintain a safe and comfortable working environment and to ensure compliance with applicable laws, smoking is prohibited on BRICK Buffalo Academy Charter School's premises. Employees who are found smoking on BRICK Buffalo Academy Charter School's premises may be subject to disciplinary action, up to and including termination of employment.

5.11 Employee Conduct

As an integral member of BRICK Buffalo Academy Charter School, you are expected to accept certain responsibilities, adhere to acceptable business practices, and exhibit a high degree of personal integrity at all times. This involves respecting the rights and feelings of others and refraining from any behavior that might be harmful to you, your coworkers, and/or BRICK Buffalo Academy Charter School. You are encouraged to observe the highest standards of professionalism at all times.

These guidelines are fundamental in nature and are matters of judgment and common sense. To assure orderly operation and provide a safe working environment, BRICK Buffalo Academy Charter School has established general guidelines to govern the conduct of its employees. It is not possible to list all forms of behavior that are unacceptable in the workplace, but the following are examples of conduct that may result in disciplinary action, up to and including termination of employment:

- Inefficient or unacceptable job performance or neglect of job duties or responsibilities.
- Failure to meet performance metrics, deadlines, and work responsibilities
- Insubordination or other disrespectful conduct, including offensive behavior when dealing with supervisors, coworkers, customers, or vendors.
- Possession, distribution, sale, transfer, or use of alcohol or illegal drugs in the workplace, while on duty, or while operating BRICK Buffalo Academy Charter School-owned vehicles or equipment.
- Reporting to work or working under the influence of drugs or alcohol.
- Theft or unauthorized removal of BRICK Buffalo Academy Charter School property.
- Failure to report theft.
- Falsifying or altering BRICK Buffalo Academy Charter School records (including applications, time-keeping records, etc.).
- Fighting or threatening violence in the workplace toward any employee, customer, or vendor.
- Harassment of any kind or impermissible discrimination against others.
- Violation of the Personal Appearance policy.
- Violation of the Electronic and Telephonic Communication: Internet Policy.
- Possession of dangerous and unauthorized materials, such as explosives, firearms, or other weapons, in the workplace.
- Excessive absenteeism, tardiness, or other violations of the BRICK Buffalo Academy Charter School attendance policy.
- Disclosure of confidential information.

- Violations of the Conflict of Interest Policy.
- Willful destruction of BRICK Buffalo Academy Charter School property or the property of coworkers, customers, or vendors.
- Job abandonment (five days of missed work without notification).
- Gambling on BRICK Buffalo Academy Charter School property at any time.

This list is for illustrative purposes only. Nothing included or excluded from the above list limits BRICK Buffalo Academy Charter School's right to discipline or terminate its employees for any reason or no reason or alters the at-will nature of employment as specifically recognized in the "Employment At-Will" section of this Handbook.

5.12 Notice of Termination

We encourage employees who intend to resign from BRICK Buffalo Academy Charter School to notify BRICK Buffalo Academy Charter School at least four weeks in advance. Such notice should preferably be given in writing to your manager.

We request that employees who plan to retire provide BRICK Buffalo Academy Charter School with a minimum of two months of notice. This will allow ample time for the processing of any appropriate forms to ensure that any retirement benefits to which an employee may be entitled commence in a timely manner.

As mentioned throughout this Handbook, all employment relationships with BRICK Buffalo Academy Charter School are on an at-will basis. Thus, although BRICK Buffalo Academy Charter School hopes that our relationships with employees are long-term and mutually rewarding, BRICK Buffalo Academy Charter School reserves the right to terminate the employment relationship at any time, with or without cause or notice.

BRICK Buffalo Academy Charter School offers employees group health insurance coverage as a benefit of employment. If you are no longer eligible for insurance coverage because of a reduction in hours, because you quit, or because you are terminated for reasons other than serious misconduct, you have the right to continue your health insurance coverage through Cobra for up to 18 months. You will have to pay the cost of this coverage. Only employees who were receiving benefit coverage can elect to participate in Cobra.

If you are enrolled in the TriNet group health plan at the time of your termination, your health benefits coverage remains in effect through the end of the month of termination. If you are eligible for COBRA continuation coverage after that time, TriNet will send you a notice of your COBRA rights and a COBRA Election Form.

5.13 Return of BRICK Buffalo Academy Charter School Property

Employees are responsible for the following BRICK Buffalo Academy Charter School-owned items issued to them or in their possession or control:

- Equipment, including laptop computers, pocket PCs, cell phones, etc...
- Keys and Swipe cards
- Written materials
- Office Supplies

An employee must return all BRICK Buffalo Academy Charter School property before the last day of work or upon request of an employee's manager or the school leadership team.

5.14 Solicitation

In the interest of maintaining a proper business environment and preventing interference with work and inconvenience to others, except in the performance of their jobs, employees may not distribute literature or printed materials of any kind, sell merchandise, solicit financial contributions, or solicit for any other cause during working time. Employees who are not on working time (e.g., those on lunch breaks) may not solicit employees who are on working time for any cause or distribute literature of any kind to them. This policy also prohibits solicitations via BRICK Buffalo Academy Charter School's email and other communication systems. Furthermore, employees may not distribute literature or printed material of any kind in working areas at any time.

Non-employees are likewise prohibited from distributing material or soliciting employees on BRICK Buffalo Academy Charter School premises at any time.

5.15 Workplace Searches

To safeguard our property and safety, and the property and safety of our employees, BRICK Buffalo Academy Charter School reserves the right to question employees and all other persons entering and leaving our premises, to ask that jackets be opened and/or to inspect any packages, parcels, purses, handbags, briefcases, or any other possessions or articles carried to and from BRICK Buffalo Academy Charter School premises. In addition, BRICK Buffalo Academy Charter School reserves the right to search any employee's office, desk, files, lockers, cabinets, and drawers or any other area or article on our premises. Additionally, it should be noted that all offices, desks, files, lockers, cabinets, and drawers are the property of BRICK Buffalo Academy Charter School and may be inspected at any time at the discretion of BRICK Buffalo Academy Charter School.

Persons entering the premises who refuse to cooperate in an inspection conducted pursuant to this policy will not be permitted to enter the premises. Employees working on or entering or leaving the premises who refuse to cooperate in inspections, as well as employees who after an inspection are believed to be in possession of stolen property or illegal drugs, will violate this policy.

OTHER BUSINESS

6.1 Emergency Closing

Emergency conditions, such as severe weather, fire, or flood, can disrupt BRICK Buffalo Academy Charter School operations, interfere with work schedules or endanger employees. These extreme circumstances may require the closing of a BRICK Buffalo Academy Charter School office(s).

- If such an emergency occurs during non-working hours, employees will be notified at their home number and a message will be left in each employee's BRICK Buffalo Academy Charter School voicemail box.
- When operations are suspended due to emergency conditions, the time off from scheduled work will be paid.
- An employee who fails to report for work when a closing is not authorized will not be paid for the time off unless the employee uses earned vacation hours benefits.
- No employee should endanger himself or herself or others by attempting to work during unsafe conditions.

6.2 Personal Vehicle

BRICK Buffalo Academy Charter School recognizes that employees may need the use of their personal vehicle in the performance of their regular duties.

Use of Cell Phones While Driving

BRICK Buffalo Academy Charter School does not encourage the use of hand-held cell phones while driving at any time. However, if it becomes necessary to make or take a business call while driving, employees should either use a hands-free cellphone or pull off the road and stop in a safe location prior to using a hand-held cellphone, as required by state law.

Employee/Contractor Transportation Policy

BRICK Buffalo Academy Charter School requires employees and/or contractors to travel to/from schools and to/from community events throughout the term of each employee's and/or contractor's period of employment with BRICK Buffalo Academy Charter School.

Employees and/or contractors are responsible for their own transportation. Employees and/or contractors are encouraged to avail themselves of public transportation, as well as private transportation services such as Uber or taxi cabs. BRICK Buffalo Academy Charter School determines on an annual basis the monthly reimbursement amount it offers to Employees and/or contractors relating to travel to/from schools and to/from community events.

Employees and/or contractors may, in their discretion, elect to transport themselves to/from a school or to/from a community event, or to travel in a colleague's vehicle to/from a school or to/from a community event.

BRICK Buffalo Academy Charter School is not under any responsibility to confirm an individual employee's or contractor's license to operate a vehicle, nor is BRICK Buffalo Academy Charter School required to determine whether any employee or contractor is properly insured pursuant. Further, BRICK Buffalo Academy Charter School is under no obligation to determine whether a privately-operated vehicle has been properly registered and inspected.

BRICK Buffalo Academy Charter School will in no be way responsible for any loss, liability, damage or costs resulting from an employee's or contractor's failure to have a valid driver's license, valid registration, updated inspection and/or valid automobile insurance. Compliance with these items is the sole responsibility of employee and/or contractor, and employee and/or contractor will indemnify and hold BRICK Buffalo Academy Charter School harmless for any loss, liability, damage or costs as a result of employee's and/or contractor's non-compliance.

In the event of any injury to any employee and/or contractor which occurs during travel in a privately-owned or operated vehicle, and which results in an employee's and/or contractor's absence from work, any missed days will be treated as sick days in accordance with the employee's and/or contractor's individual contract.

In the event of any loss, liability, damage or costs caused during or as a direct result of an employee's or contractor's work-related travel, employee and/or contractor will indemnify BRICK Buffalo Academy Charter School and hold BRICK Buffalo Academy Charter School harmless for any loss, liability, damage or costs to employee or contractor, or to any others.

Other Transportation

For travel outside of New York or New Jersey or for overnight travel, BRICK Buffalo Academy Charter School will work with staff to use its online travel booking service, Travel Perk. This site enables staff to request prior approval for most travel-related expenses, including the costs of booking a hotel and flight. Services booked through Travel Perk will be paid for directly by BRICK Buffalo Academy Charter School and will not require an employee reimbursement.

BRICK Buffalo Academy Charter School also recognizes that it will need to reimburse staff for some travel costs that are not covered through the use of Travel Perk. When this is the case, BRICK Buffalo Academy Charter School will either reimburse or advance funds for train or air travel by the most economical, reasonable route. Any such reimbursement rates should not exceed the established GSA Per Diem Rates. All travel of this nature must also receive prior approval by a direct supervisor and by Christopher Perpich, the Chief Academic Officer.

Reasonable costs for meals while traveling will be reimbursed, but they should not exceed GSA Per Diem Rates. Cost for meals while traveling on daily BRICK Buffalo Academy Charter School business will not be reimbursed.

Reasonable business-related expenses, such as for phone calls (although cell phone use is preferred) or Internet access fees will be reimbursed at the manager's discretion.

Meals for more than one guest hosted by BRICK Buffalo Academy Charter School staff will not be reimbursed without prior approval.

UBER

Staff who have access to the company UBER account are responsible for including a description in the memo box on the UBER system. If an employee does not include a description, they will be responsible for the cost.

Submission

Expense reports should be submitted within 7 days of final travel.

The reasonableness of any expenses submitted for reimbursement remains at all times at the sole discretion of BRICK Buffalo Academy Charter School. Unless you have prior written approval, you should not assume that any expense would be reimbursed.

6.3 Gifts and Conflicts of Interest

Employees of BRICK Buffalo Academy Charter School are not permitted to ask for or accept any gifts from vendors or clients. A gift may include any service or merchandise of any kind or discounts on merchandise or services and other transfers of cash or items of value. This policy does not prohibit the receipt of occasional or nominal non-cash gift items, such as holiday gifts, so long as the amount received by an employee from any one source over a calendar year does not exceed \$50.00. This policy does not prohibit the acceptance or provision of normal amenities and entertainment that facilitate the handling of BRICK Buffalo Academy Charter School's business, such as a business luncheon, dinner, or other non-extravagant activity.

Employees are also expected to work for the best interests of BRICK Buffalo Academy Charter School. Each employee has an obligation to avoid any activity, business investment or interests, or other situations that could be construed as a conflict with BRICK Buffalo Academy Charter School's best interest or even give the appearance of taking money, merchandise, or services from a client or vendor for personal gain. Employees are required to disclose all conflicts of interest or potential conflicts of interest to BRICK Buffalo Academy Charter School management.

No employee of BRICK Buffalo Academy Charter School may engage in outside employment that constitutes or appears to constitute a conflict of interest. Employment outside BRICK Buffalo Academy Charter School includes employment with other companies, self-employment, and other business activities of the employee. Employees employed by BRICK Buffalo Academy Charter School should recognize that their position with BRICK Buffalo Academy Charter School must

be their primary employment. Any outside employment or other sources of income must be secondary and not interfere with the job performance of the employee at BRICK Buffalo Academy Charter School or diminish the physical or mental ability of the employee. If employment with another company interferes with the employee's job performance with BRICK Buffalo Academy Charter School, the employee may be asked to resign from such outside activity or resign from his/her position with BRICK Buffalo Academy Charter School. Employees must receive written permission from Mindy Weidman, Chief Talent Officer, in order to engage in any employment outside of their employment with BRICK Buffalo Academy Charter School. Interested employees can complete a BRICK Conflict of Interest form to disclose any such conflicts of interest and seek the required written permission to engage in outside employment. In accordance with New York state law, all employees are also provided with the Board approved Conflict of Interest policy and Code of Ethics upon hiring so that they understand their obligations with respect to these policies.

From time to time, employees may be approached by representatives of the media (e.g., newspapers, television stations, radio stations, magazines, or other periodicals) for information concerning BRICK Buffalo Academy Charter School or its activities, or those of its employees or clients or to obtain BRICK Buffalo Academy Charter School's position on a certain issue. No employee may release any information to the media, but must immediately refer all requests from the media to the BRICK Buffalo Regional Director of Instruction/Superintendent. No employee may represent or exercise authority on behalf of BRICK Buffalo Academy Charter School unless specifically authorized to do so.

6.4 Proof of Work Eligibility

Prior to your first day of work, as required by federal law, you must complete a fingerprint-supported background check, Federal Form I-9 and show us documentation proving your identity and your eligibility to work in the United States. If all documents are not completed prior to day one, it can affect an employee's pay or could void their offer of employment.

6.5 Board of Trustees and Open Meetings Law

BRICK Buffalo Academy Charter School is governed by a Board. The Board sets the strategic vision and policies for the organization. The BRICK Buffalo Academy Charter School board oversees BRICK Buffalo Academy Charter School and is a distinct entity from the BRICK Education Network, which is governed by a separate Board of Trustees.

The BRICK Buffalo Academy Charter School Board of Trustees meets multiple times each year, in an open public meeting, to discuss the business of the School, and to conduct business in accordance with the statutes governing public charter schools in the state of New York.

The Board of Trustees is responsible for setting policy from which administration develops procedures and guidelines for daily operation.

Each meeting includes a Public Forum where the public, including all employees, may speak on a topic for up to 2 minutes. Individuals interested in speaking at the Board meeting are asked to notify the Buffalo Regional Director of Operations at least 24 hours in advance to ensure they are added to the agenda.

Open Meetings Law

The Board of Trustees implements policies to ensure that it is in compliance with articles Six (“FOIL”) and Seven (“Open Meetings Law”) of the New York Public Officers Law and all corresponding regulations. For more information related to these requirements, employees can access the [SUNY Charter Schools Institute Guide to Open Meetings Law](#). Excerpts from this guide are also provide below for easy access for employees:

Notice

When the board determines it will hold a “meeting” to which the Open Meetings Law applies, the public must be provided appropriate notice. The notice requirements include the following:

- for meetings scheduled more than a week in advance, notice must be given no fewer than 72 hours prior to such meeting;
- for meetings scheduled less than a week in advance, notice must be given “to the extent practicable” at a “reasonable time prior” to the meeting;
- provide date, time, and location of meeting;
- be provided to the news media, which may be electronic;
- be posted in one or more designated public locations (usually the school)); and,
- be posted on the education corporation’s website. If board meetings are held in the same place and at the same time on a consistent basis, it is acceptable to post a yearly schedule at the beginning of the school year.

Executive Session

Once a meeting is called into open session, the board may vote, by majority of the entire board, to go into an executive session, which is the portion of the meeting not open to the public. The Open Meetings Law limits the reasons why the board may enter into executive session, which are solely for:

- matters which will imperil the public safety if disclosed;
- any matter that may disclose the identity of a law enforcement agent or informer;
- information relating to current or future investigation or prosecution of a criminal offense that would imperil effective law enforcement if disclosed;
- discussions involving proposed, pending, or current litigation;
- collective negotiations pursuant to Article 14 of the New York Civil Service Law;
- the medical, financial, credit, or employment history of a particular person or corporation, or matters leading to the appointment, employment, promotion, demotion, discipline, suspension, dismissal, or removal of a particular person or corporation;
- the preparation, grading, or administration of exams; or,

- the proposed acquisition, sale or lease of real property or the proposed acquisition, sale, or exchange of securities, but only when publicity would substantially affect the value. (Public Officers Law §§ 105(1)(a)-(h)).

Meeting materials

In accordance with New York state Open Meetings Law, the BRICK Buffalo Board of Trustees will make the documents scheduled to be discussed at a Board meeting available upon request, to the extent practicable as determined by the Board, both prior to and at the meeting during which the records will be discussed.

The Board of Trustees will also ensure that the records to be discussed at a Board meeting are posted to the website prior to the meeting, to the extent practicable. In addition, the Board will have additional paper copies of the Board packet, containing the materials that will be discussed at the meeting, available for individuals from the public who attend Board meetings.

Minutes

The BRICK Buffalo Academy Charter School Board of Trustees will also take formal minutes at all Board meetings. These meetings will include a record or summary of the meeting, including:

- all motions, proposals, resolutions, and other matters formally voted upon;
- the final vote of each board member on each item including the election of officers and,
- the result of any vote.

The full minutes of these meetings will be made available to the public within two weeks of the date of the meeting. Minutes recording action taken by formal vote at an executive session will be made available within one week. Meeting minutes can be accessed on the BRICK Buffalo Academy website.

6.6 Remote Work Policy

All employees working remotely are responsible for ensuring a clean, safe, and ergonomically sound alternate work site. Remote employees agree to hold BRICK Buffalo Academy Charter School harmless for injury to others at the alternate work site. All employees working remotely agree that s/he is responsible for:

- Ensuring that the alternate location worksite is safe from conditions that could pose a hazard to health & safety to persons or danger to equipment
- Providing space & internet capabilities at the alternate site and may not be reimbursed by the network for these or related expenses.
- Protecting network-owned equipment, records, and materials from unauthorized access, use, modification, destruction, or disclosure. Other household members or anyone else should not use the equipment and software.
- Understanding that all equipment and materials provided by the network shall remain property of the network and must be returned upon request.

- Understanding that their duties, obligations, responsibilities, teaching schedule, and conditions of employment with the network remain unchanged.

6.7 Home Visiting Policy

Certain jobs may require visiting the home of students and families. Staff are reminded to diligently follow the school's home visiting procedures to ensure the safety of all individuals during these visits. These home visiting procedures are updated annually and can be accessed on the school's shared file server. The Principal or his or her designee will also train all staff members who will be asked to complete home visits each year on these procedures.

TriNet

7.1 TriNet Overview

BRICK Buffalo Academy Charter School has entered into a strategic relationship with TriNet. TriNet is a Professional Employer Organization, or PEO, that helps companies administer pay and benefits, and support employees with top service. For example, TriNet is the single-employer sponsor of companies throughout the country. As such, through the TriNet Benefits Plan TriNet offers comprehensive benefits packages comparable to those offered by Fortune 500 companies.

7.2 TriNet Solutions Center

The TriNet Solution Center is the front line of TriNet employee support. Solution Center coordinators are trained to assist employees with TriNet Passport online platform access, navigation, benefits, flexible spending accounts, COBRA, leave of absence, payroll, retirement questions and much more. You can contact the Solutions center by email or phone:

- Email: employees@trinet.com
- Phone: (800) 638-0461
- TriNet Solution Center is available to answer employee questions Monday to Friday each week

Employee Acknowledgment Form

I understand that this Employee Handbook is designed as a guideline to answer employee questions and to describe important information about this organization. I have been given the opportunity to, and will in the future, consult my manager, or the Chief Talent Officer with any questions about the information contained within or answered by this Handbook.

Because the information, policies, and benefits described within this Handbook are necessarily subject to change and expected to change from time to time, I acknowledge that revisions to the Handbook may occur. In that regard, BRICK Buffalo Academy Charter School reserves the right to revise, supplement, or rescind any policy or portion of the Employee Handbook as it deems appropriate, with or without notice or employee approval, at its sole and absolute discretion. This may include increasing contributions toward these benefit programs.

I have entered into my employment relationship with BRICK Buffalo Academy Charter School voluntarily. I understand that this Handbook is not a contract of employment, express or implied, between BRICK Buffalo Academy Charter School and me and that I should not view it as such, or as a guarantee of employment for any specific duration or a legal document. I recognize that I am an at-will employee and accordingly, that my employment is for no specified length of time and that either BRICK Buffalo Academy Charter School or I can terminate the relationship at-will, with or without cause or notice, at any time. I understand that 'without cause' means for any reason or no reason. Neither my receipt of this Handbook, nor the policies and procedures contained within it, change or alter my understanding concerning the length of my employment.

Furthermore, I specifically acknowledge that I have thoroughly read BRICK Buffalo Academy Charter School’s Policy Against Sexual and Other Harassment Policies, including the complaint procedure outlined therein. I specifically agree to abide by the policies’ requirements. I also agree that if there is any provision of these policies, or any other BRICK Buffalo Academy Charter School policy, that I do not understand, I will seek clarification from the Chief Talent Officer. I understand that this Employee Handbook replaces all prior policies and procedures, whether oral or written, that may have previously existed.

I have received my copy of the Employee Handbook. I certify that I have read, become familiar with, understand, and will abide by and honor the policies contained therein, including amendments, as they may occur.

BRICK Buffalo Academy Charter School Employee Confidentiality Agreement

In performing my assigned duties and responsibilities for BRICK Buffalo Academy Charter School, I understand maintaining confidentiality is critical to the mission of our school. I further understand the importance of compliance with federal and state laws and maintaining public trust.

I further understand my assigned duties and responsibilities may involve the use of state data, school district data, and/or other information that is confidential. Access to and knowledge of information that is deemed confidential includes, but is not limited to, any information that personally identifies a particular employee or individual, particular student or professional educator, or any information that personally identifies individual account information with a financial institution with whom a professional educator, employee, or other individual may transact business.

By reading and signing this agreement, I understand I am prohibited from including or disclosing Personally Identifiable Information in any form of communication with any unauthorized individual or entity, including any individual or entity not employed by BRICK Buffalo Academy Charter School, except as required in the performance of my assigned position duties or with the express permission of BRICK Buffalo Academy Charter School Administration. Such communication includes, but is not limited to, e-mail, instant messaging, faxes, or other written correspondence, and any type of verbal communication.

I understand any work product created in the course of my duties and responsibilities with BRICK Buffalo Academy Charter School is the sole property of BRICK Buffalo Academy Charter School. I further understand I am prohibited from disclosing any BRICK Buffalo Academy Charter School work product, in any form, with any unauthorized individual or entity, without express permission from BRICK Buffalo Academy Charter School Administration. "Work product" includes, but is not limited to, any internal documents or communications, whether staff or student-created, that were created by or for use within the confines of BRICK Buffalo Academy Charter School.

I further understand BRICK Buffalo Academy Charter School work product is to be saved on, and accessed directly from, BRICK Buffalo Academy Charter School's central drive and servers. I understand that I am prohibited from transmitting any BRICK Buffalo Academy Charter School work product via my personal email account. Further, I understand that I am prohibited from saving BRICK Buffalo Academy Charter School work product to a personal computer, drive, or storage device.

I understand that violation of this agreement is deemed employee misconduct and subjects me, as a BRICK Buffalo Academy Charter School employee, to disciplinary action, up to and including dismissal, without prior warning. Further, I understand that violation of this agreement could subject me to additional legal liability.

BRICK Buffalo Academy Charter School Technology Equipment Agreement

BRICK Buffalo Academy Charter School is pleased to provide teachers, administrators and staff with **technology equipment** for the use of classroom instruction and work-related purposes. All Laptops, Chromebooks, Monitors, Trackpads, etc will be referred to as **Technology equipment**.

I, _____ (Full Name), agree to take full responsibility for the loaned devices. I understand that this loan is subject to review on a regular basis, and that technology can be withdrawn at any time with or without notice.

Because the Technology equipment is provided by BRICK Buffalo Academy Charter School, there can be no expectation of privacy with respect to an employee's use of the technology equipment. This includes, but is not limited to, accessing stored information, reviewing logs of incoming and outgoing information and messages, as well as the content of that information. Incidental personal use of technology equipment computers must not adversely affect the performance of the employee's official duties or the organization's work performance, must not be disruptive of co-workers or students, must be of limited duration and frequency and should be restricted to matters that cannot be addressed during non-duty hours.

As a member of staff to whom technology equipment have been loaned, I have read and agree to the following terms and conditions that apply while the Technology is in my possession:

1. All technology equipment, any accessories, its hardware, software and files associated with it (bag, power cord, etc), remains the property of BRICK Buffalo Academy Charter School and are strictly for the sole use of delivering and managing the curriculum and student data.
2. I agree to treat all technology equipment with due care and keep the technology equipment in good condition, ensure that it is secured when transported and/or not in use, not leave the technology equipment unattended in class without being secured, and avoid food and beverages near the keyboard/touchpad.
3. I will follow and enforce all the rules and conditions of BRICK Buffalo Academy Charter School Policies and Procedures and will ensure I have a signed Employee Handbook acknowledgment on file.
4. The technology equipment has BRICK Buffalo Academy Charter School software installed. I agree to only use software licensed by BRICK Buffalo Academy Charter School, authorized by the Technology Director and installed by the BRICK Buffalo Academy Charter School technology services staff.
5. BRICK Buffalo Academy Charter School software may not be duplicated, transferred or downloaded to any other system or media. Any data corruption or configuration errors caused by the installation of unauthorized software may require a complete re-imaging of the technology equipment and may result in loss of technology equipment privileges and possible disciplinary actions. Any unauthorized use or installation of software may result in the loss of technology equipment privileges and possible disciplinary action.
6. Antivirus software has been installed and configured for the technology equipment and will automatically download from internet connection. No user interaction is required. Windows automatic updates will automatically download from an internet connection and may require a restart.
7. Consent of the Technology Director is required to adjust or alter any technology equipment by the addition or deletion of any hardware. I agree to backup my work on a regular basis as suggested by the technology services staff. I understand the school will not accept responsibility for the loss of work in the event of the technology equipment malfunctioning.

8. I will keep all technology equipment in good working order and will notify the Technology Services Staff of any defect or malfunction during my use. Some repairs/issues may not be repairable. Under **no** circumstances should I, or anyone other than the technology services staff, attempt to fix suspected software, hardware, or any other imperfections within the technology equipment.
9. The Technology Director reserves the right to collect technology equipment at any other time deemed necessary.
10. I am responsible for the confidentiality and security of identifiable student information or other sensitive data.
11. All technology equipment should be used under my supervision. I will not allow my technology equipment to be used by an unknown or unauthorized person. I assume the responsibility for the actions of others while using the equipment. I will not allow my network user account and password to be used by anybody other than myself.
12. I am permitted to use school issued technology equipment on a wireless network outside BRICK Buffalo Academy Charter School as long as it does not require me to install any additional software or change any of my network configurations. I further understand that home Internet access is unfiltered and permitted. I will not view any inappropriate website, media, or any other material while connected off BRICK Buffalo Academy Charter School filtered network. I understand the school will not accept responsibility for offering technical support relating to Internet connectivity outside of the BRICK Buffalo Academy Charter School.
13. I agree that any telephone/broadband charges incurred by me or anyone utilizing my technology equipment while accessing the Internet from any site other than school premises are not chargeable to the school and will be my sole responsibility.
14. It is my responsibility for the security and care of the technology equipment. If the technology equipment is lost, stolen, or damaged while on or off school property, I will email support@charters.com immediately with a description of the incident.
15. If the lost, stolen or damaged devices and/or accessories is determined to be caused by negligence or intentional misuse, I will assume the full financial responsibility for repair costs or fair market value of assessed equipment.
16. **I must return all loaned devices, including case, accessories and peripherals upon employment termination, transfer or retirement in accordance with the BRICK Buffalo Academy Charter School exit procedures. Failure to return the technology equipment could result in the price of the technology equipment being deducted from my final paycheck.**
17. I agree to attend BRICK Buffalo Academy Charter School training for the proper use of the device technology equipment and other curriculum related software offered by technology services. I understand that my failure to attend such training is considered failure to adhere to school policies and action will be taken accordingly.

Binding Agreement

I have read and agree to be bound by the terms and conditions set out above.

R-13a – Partner Organizations

a. Partner Information

Explain the due diligence process used to select the partner(s) and its role in the development of this proposal. Describe any partner organization(s) that will have a significant relationship with the proposed school. Include the following information in relation to the partner organization:

- *The name of the partner organization(s);*
- *The name, address, phone number, and e-mail of a contact person(s);*
- *A description of the nature and purpose of the relationship;*
- *Any contract or monetary arrangements;*
- *Names of proposed school board members affiliated with the organization(s); and,*
- *Evidence of the organization’s ability to do business in New York.*

The BBACS applicant team believes that a core part of the school’s mission must be to provide East Side residents with the comprehensive wraparound supports that they need to thrive by replicating the successful work of the BRICK Education Network in Newark, New Jersey. BRICK has a long track record of providing families with strong wraparound services in Newark, where BRICK has successfully served as the anchor institution for two consecutive federal Promise Neighborhood grants—one of the only minority organizations in the country to achieve this distinction. During that time, BRICK’s South Ward Promise Neighborhood team has successfully coordinated the efforts of more than 25 local social services agencies to support the needs of Newark residents, including by supporting their access to high-quality early childhood education, health care, affordable housing and workforce development support.

Consequently, BBACS set out to identify strong community organizations with a track-record for providing similar social service support to families in the East Buffalo community. Fortunately, many members of the applicant team already had deep ties to the East Buffalo community and an awareness of the needs of local residents. For example, Mr. Barlow had started a mentoring program in the East Buffalo neighborhood where he grew up and served previously as the Director of the Upward Bound program at D’Youville College. In that role, he supported countless local students to matriculate to college. Takesha Leonard, the proposed Board Vice Chair, is also the Medical Director at Jericho Road Family Health Center, one of the most prominent organizations serving East Side families. Jericho Road provides comprehensive services to East Side residents, including quality health care services, translation services, and refugee resettlement support. Pastor Carter is also the leader of a local congregation that serves a large number of East Side families. As a result, the applicant team was able to draw on its personal experiences and professional backgrounds to identify strong mission-aligned organizations, to form collaborative partnerships with these organizations, and to continually revise its plans for the proposed school based on the input from these community partners. Based on this ongoing work, the BBACS team is confident that it would be able to launch a school with the robust ecosystem of support services necessary to drive equitable outcomes for the students and families of East Buffalo.

Table 13.1 provides a summary of the most robust partnerships that BBACS has already developed.

Table 13.1 Current Community Partnerships

Community Organization	Partnership Status	Partnership Overview
Belmont Housing Resources of Western New York	Letter of Support and MOU	<p>Belmont is prepared to assist BBACS families by providing:</p> <ul style="list-style-type: none"> ● HUD certified housing counseling services to help families access affordable housing units in Buffalo. ● Access to apply to the Housing Choice Voucher Program which gives families access to Section 8 vouchers. ● Access to the First Time Home Buyer Program. ● Access to the Belmont Financial Education Center, which provides free assistance with credit report review, tax preparation, rental counseling, homebuyer and homeowner supports, foreclosure prevention services, and educational workshops.
Catholic Charities Buffalo	Letter of Support regarding services	<p>Catholic Charities is prepared to assist BBACS families by providing:</p> <ul style="list-style-type: none"> ● Access to GED programs for families and a direct connection to continuing education opportunities at Erie County Community College. ● In school mentoring for students ● Social-emotional learning programming for students and related support from trained social workers. ● Access to their food pantry to support students and families that have challenges with food insecurity (there is a Catholic Charities food pantry next door to the proposed BBACS school building).

<p>Jericho Road Family Health Center</p>	<p>Letter of Support and MOU</p>	<p>Jericho Road is prepared to assist BBACS families by:</p> <ul style="list-style-type: none"> ● Assisting families in obtaining a primary care physician if they do not have one. ● Providing possible on-site physicals for students once per year ● Providing on-site vision screening for students once per year ● Providing on-site dental cleanings for students twice per year ● Hosting BRICK representatives to conduct information sessions for families and staff. ● Providing access to an on-site medical fitness center for families. ● Providing refugee assistant services to students and their families. ● Providing families with additional home language and literacy services as part of a home visit program.
<p>Journey’s End Refugee Services</p>	<p>Letter of Support</p>	<p>Journey’s End is prepared to assist BBACS families by providing:</p> <ul style="list-style-type: none"> ● Translation of school documents as needed, including to support ongoing communicating with families in their preferred language, and to support the school’s outreach and marketing efforts ● Highly trained translators to accompany BRICK staff in outreach, at recruitment events/open houses, and at major school events (such as the Back to School Barbecue and parent teacher conferences).
<p>The Park School of Buffalo</p>	<p>Letter of Support and MOU in development</p>	<p>The Park School is prepared to collaborate with BBACS to develop a strong pre-K program that could be used in both East Buffalo and Amherst and to facilitate additional collaboration between the two school communities.</p>
<p>King Urban Life Center</p>	<p>Letter of Support and MOU in development</p>	<p>The King Urban Life Center is prepared to collaborate with BBACS to create and sustain a robust ecosystem of services to support the BBACS school and the surrounding community. The King Center will also provide BRICK families with access to the Parent-Child+ program, which is a capacity building program for low-income families that is designed to support their efforts</p>

		<p>as caregivers for their children. In addition, the King Center is also prepared to collaborate in the development of after school programming for BRICK students and their families.</p>
<p>Legal Aid Bureau of Buffalo (specifically attorney Carly Hite)</p>	<p>Letter of Support and MOU</p>	<p>The Legal Aid Bureau of Buffalo, specifically attorney Carly Hite, is prepared to assist the school team by:</p> <ul style="list-style-type: none"> ● Collaborating with BRICK Buffalo to secure funding to provide holistic, free legal services to East Buffalo families. ● When possible, supporting the BRICK Buffalo team and BRICK families by attending meetings with the Buffalo City School District Committee on Special Education (“CSE”) to ensure that students receive appropriate Individualized Education Programs (“IEP”). ● Supporting the development and training of the BRICK Buffalo Superintendent/Regional Director of Instruction, Director of Special Education, and Vice Principal of Culture by serving as a resource to answer their questions about federal and state law/regulations and best practices. ● Providing training to network and school leadership team members, as well as school social workers, regarding important topics for leaders to understand, such as federal and state law/regulations related to student discipline, special education, and the rights of marginalized populations (e.g., foster youth, children experiencing homelessness, English Learners). ● Partnering with the BRICK team on an annual basis to review existing discipline data and policies and to suggest revisions as appropriate. ● Partnering with the BRICK team on an annual basis to review existing special education data and policies and to suggest revisions as appropriate. ● Sharing information guides that can help families understand their rights with respect to student discipline and special education. ● Support the school to advocate for full triennial evaluations for all students with disabilities, rather than basic record reviews.

<p>Buffalo State Africana Studies Department (specifically Professor Marcus Watson)</p>	<p>Letter of Support and MOU</p>	<p>The Africana Studies Department at Buffalo State, specifically Dr. Marcus Watson, is prepared to assist the school team by:</p> <ul style="list-style-type: none"> ● Partner with the Regional Director of Instruction/Superintendent of BRICK Buffalo, Jeremy Esposito, to support BRICK Buffalo regional staff to enroll in his course called “Intro to Africana Studies” and “Blacks in Buffalo” class at Buffalo State to deepen their understanding of the historical and current experience of Black residents in Buffalo. ● Partner with the RDI to support professional development to BRICK staff members, including by collaborating to create professional development sessions to help BRICK Buffalo staff develop a deeper understanding of the historical and current experience of Black residents in Buffalo. ● Partnering with the RDI and the Regional Director of Operations, Antwan Barlow, to develop an internship program for students in the Africana studies program at Buffalo State that will provide them with opportunities to intern at BRICK Buffalo. ● Partnering with the BRICK team to help build its cultural program, including by creating resources to support positive student identity formation. ● Participating in the school’s annual efforts to assess the cultural relevance of its academic program and cultural program, including by participating in parts of the school’s programmatic audit as necessary.
<p>City Year Buffalo</p>	<p>Letter of Support and MOU</p>	<p>City Year Buffalo is prepared to assist the school by:</p> <ul style="list-style-type: none"> ● Partnering with BRICK and the Relay Graduate School of Education to recruit future City Year corps members with an emphasis on recruiting diverse educators who are interested in pursuing long-term careers in education. ● Providing a cohort of City Year corps members to place at BRICK throughout its first five-year charter term as well as an impact manager to

		<p>ensure the delivery of high-quality services to the school.</p> <ul style="list-style-type: none">● Supporting its City Year staff members at BRICK to also pursue enrollment in Relay NY's Teacher Residency program to ensure that City Year corps members who are interested in becoming teachers have a clear pathway to become future teachers at the school.

Dear Sir or Madam:

We would like to share my support for the proposed BRICK Buffalo Academy Charter School. We believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, we know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. We know that BRICK has a track record of ensuring that its students can make significant academic progress. We also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, we believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, we are excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

If you wish to discuss this matter further, please do not hesitate to contact me. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Michael Riegel".

Albany, New York 12234

Dear Sir or Madam:

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

- Providing HUD certified housing counseling services to help families access affordable housing units in Buffalo.
- Provide families with access to First Time Home Buyer Programs.
- Provide families will access to the Belmont Financial Education Center which provides free assistance with credit report review, tax preparation, Rental Counseling, Homebuyer and Homeowner Supports, Foreclosure Prevention Services, and educational workshops.

Based on the initial scope of services, we plan to provide those services at no cost to the school.

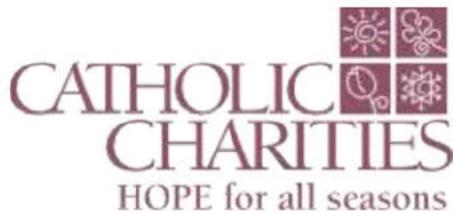

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

If you wish to discuss this matter further, please do not hesitate to contact me. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Michael Riegel".

Deacon Steve Schumer
President & Chief Executive Officer

JEFFREY CONRAD
Director of Workforce & Education

April 1, 2021

SUNY Charter Schools Institute
353 Broadway
Albany, New York 12234

Catholic Charities of Buffalo would like to share our support for the proposed BRICK Charter School and their efforts to expand into our community in Buffalo, NY. BRICK's holistic individualized program aims to ensure students graduate from high school with both the academic skills and character/identity development to achieve their dreams. From its past diversified experience of managing turnaround schools and creating a brand-new charter school, BRICK has developed a framework to comprehensively diagnose, improve, assess, and expand student success.

We enthusiastically ask that you please consider their application for approval, as there is a continued need for additional high - quality seats in Buffalo ultimately leading to more educational options for our children. BRICK directly addresses this need by providing access to a proven curriculum and a strong support system for students who enroll. We are very hopeful we will be able to collaborate with BRICK within the ecosystem of services they are looking to coordinate for the families of their school.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has been among the most successful networks in New Jersey, and I expect the founding of the Buffalo campus of BRICK will have the same success.

Feel free to contact me as this proposal moves forward.

Best regards,

Sincerely,

Jeffrey M. Conrad

To Whom It May Concern:

On behalf of Catholic Charities of Buffalo, I would like to share our support for the proposed BRICK Buffalo Academy Charter School. I believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. I also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, I am excited to support the school and I look forward to finding ways that my organization can support a successful launch in Buffalo.

Catholic Charities is the most comprehensive human service agencies in Western New York, which will benefit many of BRICK Charter School families. Catholic Charities can commit to assisting families with adult education and vocational training opportunities, school counseling, clinical assistance, access to food, and WIC services. Catholic Charities has a long history working with schools to provide services to both students and their families.

As you know, there is a continued need for additional high-quality schools in Buffalo. Many local charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I believe BRICK Buffalo can provide that option.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey M. Conrad". The signature is fluid and cursive, with the first name being the most prominent.

I would like to share my support for the proposed BRICK Buffalo Academy Charter School. I believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. I also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, I am excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

- Assisting families in obtaining a primary care physician if they do not have one.
- Hosting BRICK representatives to conduct information sessions for families and staff.
- Provide access to on-site medical fitness center for families.
- Provide refugee assistant services to students and their families.
- Provide families with possible home language and literacy services as part of a home visit program.

We also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Sincerely,

Magdalena Nichols

I would like to share my support for the proposed BRICK Buffalo Academy Charter School. I believe the proposed school would be an incredible asset to the Buffalo community and an exemplar partner with City Year Buffalo to bring dedicated young leaders to serve our community and eventually teach in Buffalo.

Based on meetings with the Regional Director of Instruction/Superintendent of BRICK, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. I also appreciate how the team is focused on providing a culturally responsive curriculum that builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to the city of Buffalo. As a result, I am excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo particularly in partnership by provided a team of dedicated AmeriCorps Members and an Impact Manager on site to provide additional people power to BRICK's mission for years to come.

As you know, there is a continued need for additional high-quality schools in Buffalo. Many local charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I believe BRICK Buffalo can provide that option.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. If approved, our organization would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school. City Year Buffalo has in its short time attracted amazing AmeriCorps Members which many have gone on to commit to teaching for two years or more in Buffalo Public Schools and Buffalo Charter Schools. We know that our AmeriCorps Members are most likely to persist through their service year and potentially be inspired to continue to make a career in teaching at schools that invest in them, make them feel a sense of belonging, and prepare them for the role. I have no hesitation that BRICK can and will be that ideal environment to cultivate Buffalo's students and future leaders in teaching.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Yours in service,

Jonathan Morris

J. Esposito
 BRICK Education Network

Dear Jeremy,

I'm writing this letter to express our support and enthusiasm for the ongoing partnership between BRICK Education Network and City Year Buffalo. As a charter partner in Buffalo, we believe that your school will provide the Buffalo/Niagara region with a proven dedication for accelerating student academic & socio-emotional success.

As you know, City Year's portfolio of whole school and targeted services enhances the instructional core by supporting quality, data-driven instruction, deepening family and community engagement, and contributing to a culture of empowerment, achievement, and service. This provides a continuous, supportive presence throughout the day to build mutually supportive connections between students' classroom learning and their before- and after-school experiences.

We believe that through partnership and collaboration with you and your team at BRICK, that we will contribute to student success while developing the next generation of leaders through years of service and careers in teaching. The City Year Buffalo team is excited to partner with your organization and build up our community alongside you and your amazing team of educators. We are eager in continuing to build/support this partnership and your vision for students in Buffalo.

Yours in service,

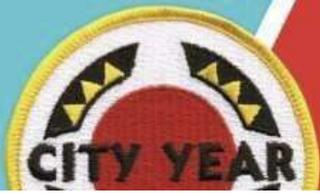

Jonathan Morris
 Impact Director

In addition to our organization’s letter of support for the proposed BRICK Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services to the school:

City Year	<ul style="list-style-type: none"> • Partner with BRICK and Relay GSE in recruiting future City Year corps members with an emphasis on recruiting diverse educators who are interested in pursuing long-term careers in education. • Provide a cohort of City Year corps members to place at BRICK throughout its first five year charter term. This will include 6 AmeriCorps members and 1 dedicated Impact Manager.
-----------	--

We also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Based on the initial scope of services, we plan to provide those services at no cost to the school or at the below fair market value described below:

City Year	At the standard rate for partners of approximately \$75,000 per year
-----------	--

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Here are some general duties throughout the day and week:

- **Before care up to 90 minutes before classes start.** City Year AmeriCorps Members, Impact Manager and school staff before care. This likely takes place in a large space like the cafeteria. A school administrator is on hand to support (Principal, Director of Operations, Family and Community Engagement Specialist, Vice Principal or Dean) and each ACM (City Year AmeriCorps Member) has 10 students that they support at their table. The ACMs could help design what activities students do in the morning under the direction of the Family and Community Engagement Specialist who helps design this time.
- **Morning meeting from 8:10-8:30.** Each ACM is assigned to a specific classroom that they will support throughout the year. They participate in the Social Emotional Learning lesson with the teachers and support students in their class as needed.
- **During literacy blocks.** During the literacy blocks, specifically rotations, there are two core teachers in the room. But CMs work directly with students that need more reading support, reading with them one on one or facilitating buddy reading with two students. This takes place with students who are independently reading at the time. In addition, ACMs are most likely to work with the students who are the furthest behind academically to help build a love of reading.

- **During math blocks.** During the math blocks, specifically during the Power Up time, ACMs work with students who have been identified as needing additional support to redo math assignments from class or to complete their homework for that week successfully. In addition, as with literacy support, they are focused on helping to build a love of mathematics.

- **During lunch and recess.** ACMs support lunch and recess for their class and grade level. In this way, ACMs would have lunch with their class and sit with their students. There would always be an administrator and teacher present in the cafeteria as well to support. In addition, ACMs help plan and/or participate in fun games at recess with students to build positive culture. Once again, there is always an administrator and teacher present as well.

- **Independent projects and planning.** During the strategic read aloud and writing blocks for their class, ACMs have dedicated planning time. Some of their ongoing tasks involve giving feedback on student homework and calling to engage families if it's not complete, placing positive phone calls to families, helping to grade student work, etc... Each ACM will also have an independent project that they are passionate about to complete for the school under the direction of their grade level chair (for example, planning a family field lesson or a Back to School Literacy Night).

- **Teacher residency work.** Any ACM that is also enrolled in a teacher residency program can teach science or social studies lessons as appropriate based on the model of the residency program. During this time, they would have a lead teacher present in the room with them to support their development.

- **Providing support for core content teachers.** ACMs would assist with substituting when needed but this would only happen in classrooms that are meant to be staffed by two teachers throughout the day (specifically in grades K through 2). In these cases, the ACMs would take on specific tasks while the other teacher is in the room (as in helping a small group with the lesson) or would have an opportunity to have students participate in an alternate assignment or game (like an additional SEL lesson or dodgeball). There would be an administrator present at all times unless there was clearly not a need for some reason (like if one CM was showing a movie or two CMs were facilitating a game of dodgeball and had strong rapport with students).

- **After care from 4 to 5 p.m.** City Year ACMs and staff after care. This means that, each day, ACMs are responsible for before care, and 3 different CMS are responsible for after care. After care is similar to before care in that it takes place in a large space like the cafeteria. A school administrator is on hand to support (Principal, Director of Operations, Family and Community Engagement Specialist, Vice Principal or Dean) and each ACM (City Year corps member) has 10 students that they support to engage in a fun activity. The activities change throughout the year and are based on student interest.

- **Special education.** Potential for a City Year ACM that would be assigned to work more closely with a single student, or small group of students, who would benefit from extra support (such as a student with special needs or an English Language Learner). Their support would be highly customized to the needs of the individual student. They would also be deployed as needed to cover gaps created by any absences from the other City Year corps members.

Re: BRICK Buffalo Academy Charter School

February 13, 2022

To Whom It May Concern:

I write to share my support for the proposed Building Resilient Intelligent Creative Kids (“BRICK”) Buffalo Academy Charter School. As an educational advocate with several years’ experience representing students in disciplinary and special education matters in Western New York, I believe the proposed school would be an incredible, timely, and much needed, asset to the Buffalo community.

As you may know, Buffalo consistently reports one of the highest childhood poverty rates in the nation. Similarly, Buffalo students consistently report significantly-above-average rates of Adverse Childhood Experiences (“ACEs”), a recognized metric of childhood trauma exposure. Simply stated, there are few places in the country that more sorely need creative and compassionate approaches to student behavior. Sadly, the Buffalo City School District has not followed through on its stated commitment to restorative, non-punitive disciplinary practices. To date, and in the midst of a global pandemic that has caused massive disruptions in children’s lives and an attendant mental health crisis among youth, Buffalo Schools has suspended at least 2,000, or 7% of, students. The data for particular demographics are even worse: 10% of students with special needs, 10% of Black students, and 14% of ninth graders districtwide.

Based on meetings with members of the BRICK Buffalo applicant team, in particular Superintendent Jeremy Esposito, I am confident that BRICK is focused on ensuring that students have the knowledge, skills, and support needed to be college, career, and life-ready upon graduation. In particular, I appreciate Jeremy’s commitment to collaboratively crafting an evidence-based code of conduct, and approach to student discipline more broadly. BRICK is implementing emerging neuroscience research showing the considerable impact of trauma on children’s brain development and, later, behavior; as well as sociological research showing that exclusionary discipline (out of school suspensions and expulsions) not only fails to improve student behavior and school safety but, in fact, negatively impacts school culture.

290 Main Street | Suite 400 | Buffalo, New York 14202 | p. 716.853.9555 | f. 716.853.3219

www.legalaidbuffalo.org

In our many conversations, Jeremy and I have discussed the imperative of providing Buffalo students with reliable, predictable, and restorative responses to difficult behavior. Jeremy has shared, for example, that in 2019-2020, the BRICK network imposed only 40 total out of school suspensions, accounting for less than 2% of students. What is more, Jeremy has proven himself open to feedback, willing to put in the work to collaborate with community partners, and interested in translating novel research into novel practices—all critical traits of a school leader and sorely needed in Buffalo.

As my comments might suggest, there is a continued need for additional high-quality schools in Buffalo. Many local magnet and charter schools have long waiting lists and, as a result, many families are interested in finding new, high-quality educational options for their children. I regularly advise families looking for alternatives to their current educational settings, and I wish there were more schools focused on meeting the needs of all students, an in particular students with unique social-emotional needs. I believe BRICK Buffalo can provide that option.

Based on the needs of our Buffalo community, I ask that you strongly consider BRICK Buffalo's application for approval. I am excited to support the school both personally and professionally and look forward to continue identifying ways to support a successful launch.

Please feel free to contact me with any questions you may have about the Legal Aid Bureau's Education Advocacy Project and/or our support for this proposal.

Sincerely,

Carly Hite, Esq.

To Whom It May Concern:

In addition to the Legal Aid Bureau Education Advocacy Practice’s letter of support for the proposed Building Resilient Intelligent Creative Kids (“BRICK”) Buffalo Academy Charter School, we also would like to share our intention to partner with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, we plan to partner with BRICK Buffalo to provide the following services:

<p>Carly Hite, Legal Aid Bureau of Buffalo</p>	<ul style="list-style-type: none"> • Collaborate with BRICK Buffalo to secure funding to provide holistic, free legal services to East Buffalo families. • When possible, support the BRICK Buffalo team and BRICK families by attending meetings with the Buffalo City School District Committee on Special Education (“CSE”) to ensure that students receive appropriate Individualized Education Programs (“IEP”). • Support the development and training of the BRICK Buffalo Superintendent/Regional Director of Instruction, Director of Special Education, and Vice Principal of Culture by serving as a resource to answer their questions about federal and state law/regulations and best practices. • Provide training to network and school leadership team members, as well as school social workers, regarding important topics for leaders to understand, such as federal and state law/regulations related to student discipline, special education, and the rights of marginalized populations (e.g., foster youth, children experiencing homelessness, English Learners).
--	---

	<ul style="list-style-type: none"> • Partner with the BRICK team on an annual basis to review existing discipline data and policies and to suggest revisions as appropriate. • Partner with the BRICK team on an annual basis to review existing special education data and policies and to suggest revisions as appropriate. • Share information guides that can help families understand their rights with respect to student discipline and special education. • Support the school to advocate for full triennial evaluations for all students with disabilities, rather than basic record reviews.
--	---

We also remain committed to working closely with BRICK staff to continuously adjust our supports based on student, family, and community need.

Based on the initial scope of services, we plan to provide those services at no cost to the school or at the below fair market value described below:

Carly Hite, Legal Aid Bureau of Buffalo	No partnership agreement fee.
---	-------------------------------

We are excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Please feel free to contact me with any questions you may have about the Legal Aid Bureau's Education Advocacy Project and/or our support for this proposal.

Letter of Support

SUNY Charter Schools Institute
353 Broadway
Albany, New York 12234

I would like to share my support for the proposed BRICK Buffalo Academy Charter School (BRICK Buffalo). I believe the proposed school would be an incredible asset to the Buffalo community.

Based on meetings with members of the BRICK Buffalo applicant team, I know that BRICK is focused on ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. I know that BRICK has a track record of ensuring that its students can make significant academic progress. As an Africana Studies professor, I am particularly encouraged that the team is committed to providing a culturally responsive curriculum, including sensitivity to the strategic inclusion of African and African American content and pedagogy. This commitment will better ensure that schooling is relatable and relevant as it builds the social and emotional competencies of students. In addition, I believe that their focus on providing the wraparound services necessary for their families to thrive will be an asset to residents on the East Side of Buffalo. As a result, I am excited to support the school personally and look forward to finding ways that my organization can support a successful launch in Buffalo.

As you know, there is a continued need for additional high-quality schools in Buffalo, and the BRICK Education Network has already demonstrated its capacity to successfully found a charter school and to partner with community organizations to provide access to the critical wraparound services that many families in our community need.

Based on the needs of our Buffalo community, I ask that you strongly consider their application for approval. As an Africana Studies professor who regularly supports institutions in the Buffalo area that are committed to providing culturally responsive education, I would be excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school.

Feel free to contact me with any questions you may have about our organization or our support for this proposal.

Sincerely,

Marcus D. Watson

Marcus D. Watson
Assistant Professor
Africana Studies
Buffalo State College

SUNY Charter Schools Institute
 353 Broadway
 Albany, New York 12234

In addition to my letter of support for the proposed BRICK Buffalo Academy Charter School, I also would like to share my intention to partner with BRICK Buffalo. Based on the aligned philosophies between BRICK and my work as an Africana Studies professor, I believe we can create a mutually beneficial partnership that will benefit the residents of the East Side of Buffalo.

Based on recent meetings, I plan to partner with BRICK Buffalo to provide the following services to the school:

Professor Watson	<ul style="list-style-type: none"> • Partner with the Regional Director of Instruction/Superintendent of BRICK Buffalo, Jeremy Esposito, to support BRICK Buffalo regional staff to enroll in his course called “Intro to Africana Studies” and “Blacks in Buffalo” class at Buffalo State to deepen their understanding of the historical and current experience of Black residents in Buffalo. • Partner with the RDI to support professional development to BRICK staff members, including by collaborating to create professional development sessions to help BRICK Buffalo staff develop a deeper understanding of the historical and current experience of Black residents in Buffalo. • Partners with the RDI and the Regional Director of Operations, Antwan Barlow, to develop an internship program for students in the Africana studies program at Buffalo State that will provide them with opportunities to intern at BRICK Buffalo. • Partner with the BRICK team to help build its cultural program, including by creating resources to support positive student identity formation. • Participate in the school’s annual efforts to assess the cultural relevance of its academic program and cultural program, including by participating in parts of the school’s programmatic audit as necessary.
---------------------	--

I also remain committed to working closely with the staff from the school to continuously adjust our supports based on the needs of the students and families of the school.

Based on the initial scope of services, we plan to provide those services at no cost or at or below the fair market value described below:

Professor Watson	At the standard rate for Buffalo State tuition. At or below market rate for any contracted professional development services.
---------------------	--

I am excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Sincerely,

Marcus D. Watson

Marcus D. Watson

Africana Studies
Buffalo State College

R-14ad – Governance

14. Governance

a. Board Members

Provide a brief narrative describing the methods used to recruit and select board members. Use the Proposed Board Members table (see below) to identify a minimum of five proposed board members. In circumstances where one or two persons affiliated with a CMO will serve on the education corporation board, a total of at least six or seven trustees must be identified when the proposal is submitted. Refer to the Guidance Handbook for more details.

- *Under the heading “Position on the Board,” please note any leadership and/or affiliations that proposed board members would hold. For example: “Board Chair,” “Treasurer,” “CMO Representative,” “Parent Representative,” etc.*
- *Under the heading “Committee Affiliations (if any),” please note any committees on which a proposed trustee would serve (e.g., “Academic Committee,” “Finance Committee,” etc.).*
- *Include any currently vacant seats that the board would fill at a later date, and specify the date. For example, if the board intends to add the head of the school’s Parent Teacher Organization as an ex-officio member after PTO elections in December of the first year, that member should appear in the table below as: Name – TBD; Position on the Board – PTO Representative; Committee Affiliations – TBD; Area of Expertise and/or Additional Role at School – Parent; and, indicate whether role would be “Voting” or “Non-Voting and/or “Ex-Officio.”*

BBACS recognizes the critical nature of the board of trustees. As the governing body of the school, the board can ensure that the school stays focused on its mission, operates effectively, and provides a high-quality education option to the community of East Buffalo. As a result, BBACS has created a matrix of the skill sets needed to effectively govern the school and to help BBACS achieve its goals. BBACS has used this matrix as a guide in board member recruitment and selection to ensure that the board represents the perspectives, backgrounds, and experiences necessary to govern BBACS. Every current board member brings a unique set of skills and perspectives to the table and is committed to the school’s mission, the East Buffalo community, and seeing the school transform students’ lives. A copy of this matrix identifying current Board member skills is shown below in Table 14.1.

Table 14.1 - Skill Matrix of Current Board

	Yolanda Wood	Takesha Leonard	Adam Desmond	Chris Porpiglia	Ramone Alexander	Lindsay Freeman	Christopher Perpich	Jeff Carter	Kim Kadziorka
Legal									
Governance			x	x	X	x			x
Non-Profit	x	x	x					x	x
Finance			x	x					
Human Resources		x							X
Operations									
Facility/Real Estate			x						
Education/Academic					x	x	x	x	
Development			x	x					x
Connection to community	x	x			X			x	
Parent/Community	x	x						x	
Higher Education	x								
Health		x			X				

Based on this matrix, the proposed BBACS board has a wealth of prior experiences, skills and expertise. However, the Board is also currently vetting candidates to consider adding additional expertise in the areas of law and operations. The BBACS Board anticipates adding members with these skill sets before the completion of the charter approval process.

Upon approval, the Board of Trustees will sign a charter agreement with SUNY Charter Schools Institute which will lay out the terms and conditions of operating a charter school in New York. The proposed founding board members understand that it is a contractual relationship and that they will be held accountable for meeting all goals and standards set within. The Board will be responsible for ensuring that the school meets the academic, financial, and operational goals laid out within the agreement and within the charter. The BBACS board expects to receive ongoing oversight conducted and led by SUNY staff. A table summarizing information about current proposed Board members and their role on the Board can be found below in Table 14.2.

Table 14.2 - Proposed Board Members

TRUSTEE NAME	POSITION ON THE BOARD	COMMITTEE AFFILIATIONS	EXPERTISE AND/OR ROLE AT SCHOOL	VOTING	EX-OFFICIO
Yolanda Wood	Chair	Executive	Education, including postsecondary administration as well as diversity, equity and inclusion	Y	N
Takesha Leonard	Vice Chair	Executive, personnel	Health care, providing direct services to the East Side community	Y	N

Kimberly Kadziolka	Member	Personnel	Fundraising, providing direct services to the East Side community	Y	N
Lindsay Freeman	Member	Academic	Education, including as a leader of a SUNY sponsored charter school	Y	N
Jeff Carter	Member	Not Assigned	Pastor and established community leader on the East Side of Buffalo	Y	N
Chris Perpich	Member	Not Assigned	BRICK representative, extensive educational experience	Y	N
TBD-Parent representative	Member	Not Assigned	A parent representative will be added after the school has students enrolled.	Y	N

b. Education Corporation Board Roles and Responsibilities

Describe the roles and responsibilities of the education corporation’s board of trustees including:

- *Selecting school leader(s) (and partner or management organizations, if any);*
- *Monitoring school performance including fiscal performance; and,*
- *Evaluating school leaders (and partner or management organizations, if any) and holding them accountable for achievement of the school’s mission and goals.*

The Board of Trustees is ultimately responsible for overseeing the school’s performance and its objective of providing a high-quality education to students within the East Buffalo community. The proposed Board understands that it must safeguard student and public interests

and will apply the highest standards of service in governing the school according to its Charter Agreement, by-laws, and relevant state and federal statutes. In addition to holding the fiduciary responsibilities for the organization, the Board will be responsible for setting all school policies, approving the school's annual budget and all financial statements, handling complaints and inquiries, monitoring progress toward meeting academic and non-academic goals, ensuring the faithfulness to the mission and philosophy, and overseeing the management and operation of the school by its CMO and principal. A copy of the draft Educational Services Agreement between BBACS and BRICK can be found in ***R-23b-Supplemental Attachments***.

The BBACS board will contract with the BRICK Education Network, a Charter Management Organization, to provide whole school management services. BRICK will be responsible for the design and implementation of curricula aligned to NY State Learning Standards; making recommendations to the Board regarding staffing levels and the selection and hiring of key school leadership positions; providing financial management and back office financial services; and providing staff evaluation findings and recommendations at the request of the Board who will have ultimate authority regarding hiring, firing, and compensation decisions. The BBACS board will lay out contract terms and expectations for BRICK on an annual basis and will conduct an annual evaluation to determine whether or not BRICK is meeting its goals and performing as expected and needed.

The BBACS board will annually evaluate the performance of the CMO and has already begun the development of a CMO evaluation tool that aligns with SUNY's accountability requirements and New York state charter laws. The evaluation tool will help the board measure the performance of the CMO by identifying the strengths and opportunities for improvement relative to the service agreement. The performance evaluation will consist of reviewing the school's progress toward attaining the goals in the accountability plan, academic performance, compliance with relevant laws, financial management and reporting, student recruitment, facility management, human resources, information technology, and other relevant metrics. In addition to the independent board-led evaluation of the CMO, BRICK will provide the board a detailed annual report that provides data and narrative related to performance on the contractual services. The current draft of the CMO evaluation tool can be found in ***R-23b - Supplemental Attachments***.

BBACS recognizes that, while BRICK will provide management services for the school, the Board must continue to set the vision for the proposed school and rigorously evaluate the work of the CMO on an ongoing basis. To ensure that the Board has a deep knowledge of the educational services agreement and understands ways it can provide effective oversight, the BBACS team has already taken the following actions:

- All board members have reviewed a draft of the educational services agreement and the board has dedicated meeting time to reviewing and providing feedback on specific language in that agreement.
- Each Board committee leader has reviewed the draft CMO agreement, with an emphasis on the section that defines how BRICK will support the work of their committee, to

provide feedback and to identify key data points that will be essential for review and incorporation into the data dashboards that will be reviewed at Board meetings.

- Started the production of an annual board calendar outlining what data and related artifacts of the CMO's support of the school the board would review and when, including any contextual data that would be helpful to have access to as well (for example, the percentage of students with special needs in local BPS schools and local charter schools for benchmarking purposes).
- Started to develop a clear process for how the board would partner with BRICK to take specific short-term actions that were essential for the success of the school (for example, how the board would have access to ongoing student enrollment information throughout the incubation period and how the board would collaborate with BRICK to ensure targeted action plans are implemented to address any enrollment challenges).

The BBACS board will be kept informed of the school's progress through the monthly board meetings and through the ongoing development of a performance dashboard that will include multiple metrics (academic, financial, organizational, and culture) to determine progress and any need for mid-course corrections. BBACS will develop an accountability system and related dashboard that is data rich and allows for regular and consistent monitoring. At each board meeting, board members will have actionable, readable, and useable data delivered to them on the dashboard, and based on metrics laid out in the performance contract and Accountability plan, that includes, but is not limited to, comprehensive data on student performance, enrollment, attendance, student and teacher retention, assessment data, demographics, suspensions, waitlist information, and school finance (variances, year-to-date cash balances, etc.). BRICK will also conduct, and share the results of, bi-annual surveys that focus on student, parent, and staff satisfaction as well as organizational health metrics. The BBACS principal and Director of Operations will also attend all board meetings and report directly to the Board. They are responsible for overall school management and day-to-day operations of the school. The board may delegate certain duties or responsibilities associated with the school's daily operations to the school's principal and other staff, or BRICK, as needed and as appropriate. Delegated duties and responsibilities are implemented with direct oversight from the board. A copy of the current draft dashboards are embedded in the draft CMO evaluation tool that is provided in ***R-23b -Supplemental Attachments***.

c. Education Corporation Board Design

Describe the rationale for the proposed design of the education corporation's board of trustees including:

- *Ex-officio members (voting and non-voting);*
- *Information to be received from the CMO, partner, school leadership, staff or contractors as applicable;*
- *Trustee recruitment and selection process and criteria;*

- *New trustee orientation process; and,*
- *Board/trustee training and development including the self-evaluation tool the board intends to use.*

The design of the BBACS board was developed by the board members based on their prior individual experiences working with boards and as board members. The full board reviewed drafts of potential bylaws and then revised those bylaws based on their experiences. As a result, the board produced draft bylaws that it would approve once the school's charter is approved. As stated in those draft bylaws, the number of Trustees of the school shall be not fewer than five and shall not exceed fifteen members. The Board will have the following officer positions: Chair, Vice Chair, Secretary, and Treasurer. The founding team considers these to be the core functions needed to manage the work of the board. The Treasurer will have responsibility for fiscal matters as described in the bylaws; the Secretary will have responsibility for board minutes and records as described in the bylaws, the Chair will preside over meetings and perform such other functions as delegated by the board, and the Vice Chair will provide additional support as needed. The board may propose, create, and approve committees for any purpose. At this time, much of the Board's work is managed through five standing committees, which include:

Executive Committee: The Executive Committee may transact all business of the school as authorized by the Trustees, except as to the following matters, the:

- Filling of vacancies on the Board or on any committee;
- Amendment or repeal of the Bylaws or the adoption of new Bylaws;
- Amendment or repeal of any resolution of the Board which by its terms shall not be so amendable or repealable;
- Fixing of compensation of the Trustees for serving on the Board or any committee;
- Election or removal of officers and Trustees;
- Approval of a merger or plan of dissolution;
- Authorization of a transaction involving the sale, lease, exchange, or other disposition of all or substantially all the assets of the corporation; and
- Approval of amendments to the Charter.

Audit and Finance Committee: The Audit and Finance Committee shall (a) recommend to the Board an annual budget and fiscal policy (and amendments thereof from time to time); (b) recommend to the Board an independent auditor to conduct an annual audit of the financial statement of the Corporation and oversee such independent auditor; and (c) fulfill such other financial and audit duties and responsibilities as needed or the Board may assign from time to time.

Academic Committee: The Academic Committee shall oversee the education program and review student achievement data for the School. The Academic Committee shall also have oversight over School assessment, performance, and the review of educational qualitative data as it pertains to the fulfillment of the School's mission.

Personnel Committee. The Personnel Committee, in conjunction with School Leadership, shall oversee staff and personnel matters. The Personnel Committee will also collaborate on talent recruitment and evaluations, and oversee grievance matters as they pertain to the Board.

Development Committee. The Development Committee will oversee the creation and implementation of the board's development plan designed to ensure that the school is financially sustainable over time.

Special Committees. The Board of Trustees may create such special committees as it may deem desirable. Special committees shall have only the powers specifically delegated to them by the Board of Trustees and in no case shall have powers which are not authorized for standing committees with authority of the board.

New board members are recruited by existing trustees and elected by a majority of the entire membership during the Board's annual meeting in June of each year or at other regularly scheduled board meetings as needed based on board vacancies. New trustee orientation consists of six training sessions that focus on helping new board members understand the roles and responsibilities of a board, principles of effective board governance, and the current policies of the school. This training is conducted by an outside facilitator, FBW and Partners Consulting, and has been provided to the proposed board members and to other boards across the BRICK network. Future board members will continue to receive this training as well.

BBACS' Board of Trustees will administer the McKinsey & Company nonprofit Board Self-Assessment Tool annually to evaluate their performance, measure their effectiveness in holding the school responsible for the goals and objectives in its Accountability Plan, and identify areas for improvement.

The founding board is fully aware of the need to continually recruit, train, and develop additional board members. As a result, BBACS' founding team and board is actively searching for people with expertise in diverse industries to ensure its ability to govern, advise, and strengthen the school to fulfill its mission (including individuals with legal and operational expertise). To date, the methods used to recruit and select BBACS founding board members have included:

1. Utilizing a variety of outreach events and opportunities (Please see **R-04 Community Outreach, Support and Demand**), community interest was analyzed to build excitement and find supporters.
2. Developing a board matrix that outlined the key skills and backgrounds needed to support a high-functioning charter school board.
3. Identifying a prospective candidate list that aligned with the board matrix and a commitment to a diverse board. Prospective candidates were identified through extensive outreach to community-based organizations, community leaders and residents, and through the community network of BRICK's Regional Director of Operations, Antwan Barlow.
4. Determining a candidate's interest in board membership through an initial meeting with BRICK's RDO and subsequent interviews with the proposed Board Chair and BRICK Chief Executive Officer. During these interviews, the Board Chair, RDO and CEO used a board

selection interview tool to ask questions about their past board experience, their skill sets and qualifications, the difference between governance and management, and their past contributions and connections to the school's mission and goals.

5. Analyzing a candidate's profile to ensure alignment with the BBACS matrix as well as a fit with the founding applicant team.
6. Presenting the candidate to the full board so that the entire board could ask follow up questions about the candidate and their interest in serving as a board member.
7. New board members were then elected based on a vote of the full board.

The BBACS Board recognizes that it will need to continue to execute this cycle to recruit and select additional board members. As a result, the BRICK RDO and BBACS Board Chair hold monthly meetings to discuss the affairs of the board, including the need to review the board matrix and to identify what community supporters may be strong candidates for the board. In addition, should the board need to add additional capacity to recruiting future board members then an ad hoc Nominating Committee will be formed to assist with recruitment. The committee will identify and evaluate potential candidates and present them to the full board for approval and appointment. After each new member is appointed, the school, the management company, and the board will provide necessary and appropriate training to ensure that all members understand the role and responsibilities of board membership. All board members will also be encouraged to engage with school-wide and community-wide activities to fully integrate with the school's mission, students, and families.

d. Stakeholder Participation

Explain how parents and school staff, including teachers, will provide input and participate in the governance of the education corporation.

A seat on the Board will also be reserved for a parent or guardian of a current or former student at BBACS. BBACS will also establish and maintain a School Advisory Council consisting of parents, students, community members, teachers, and administrators. The Council will participate in developing recommendations for school policies and share in efforts to engage the support of the community. The Council will make recommendations and decisions about issues relating to the school and may also participate in reviewing parental and community concerns (as appropriate). The principal will be responsible for communicating all council recommendations to the Board of Trustees. School Advisory Council members are encouraged to attend board meetings.

In addition, BBACS will have public comment periods at each of the regularly scheduled board meetings in order to hear from any stakeholder interested in addressing the Board. Lastly, there will be a variety of ways that stakeholders can contact Board members to express views related to school governance. Board member contact information will be accessible via the website, and individuals interested in contacting board members can also do so by contacting the school's leadership team, the BRICK Buffalo regional team, the Board's parent representative, or, as needed, through the methods outlined in the Board Complaint Policy.

**BY-LAWS
OF
BRICK BUFFALO ACADEMY CHARTER SCHOOL
ARTICLE I
NAME**

The name of this Corporation is BRICK Buffalo Academy Charter School (the "School").

**ARTICLE II
MEMBERSHIP**

The School has no members. The rights which would otherwise vest in the members vest in the trustees of the School (hereinafter the "Trustees"). Actions which would otherwise require approval by a majority of all members or approval by the members require only approval of a majority of all Trustees or approval by the Board of Trustees (hereinafter the "Board").

**ARTICLE III
BOARD OF TRUSTEES**

Section 1. Powers. The Board shall conduct or direct the affairs of the School and exercise its powers, subject to the provisions of applicable law (including the New York Education Law, Not-for-Profit Corporation Law and Open Meetings Law), as well as the requirements of the School's charter and these By-laws. The Board may delegate the management of the activities of the School to others, so long as the affairs of the School are managed, and its powers are exercised, under the Board's ultimate jurisdiction. Without limiting the generality of the powers hereby granted to the Board, but subject to the same limitations, the Board shall have all the powers enumerated in these By-laws, and the following specific powers:

- (a) To elect and remove Trustees;
- (b) To select and remove Officers, agents and employees of the School; to prescribe powers and duties for them and to fix their compensation;
- (c) To conduct, manage and control the affairs and activities of the School, and to make rules and regulations;
- (d) To enter into contracts, leases and other agreements which are, in the Board's judgment, necessary or desirable in obtaining the purposes of promoting the interests of the School;
- (e) To carry on the business of operating the School and apply any surplus that results from the business activity to any activity in which the School may engage;
- (f) To act as Trustee under any trust incidental to the School's purposes, and to receive, hold, administer, exchange and expend funds and property subject to such a trust;

- (g) To acquire real or personal property, by purchase, exchange, lease, gift, devise, bequest, or otherwise, and to hold, improve, lease, sublease, mortgage, transfer in trust, encumber, convey or otherwise dispose of such property;
- (h) To borrow money, incur debt, and to execute and deliver promissory notes, bonds, debentures, deeds of trust, mortgages, pledges, hypothecations and other evidences of debt and securities, subject to the provisions of the Not-for-Profit Corporation Law and any limitations noted in the By-laws; and
- (i) To indemnify and maintain insurance on behalf of any of its Trustees, Officers, employees or agents for liability asserted against or incurred by such person in such capacity or arising out of such person's status as such, subject to the applicable provisions of the Not-for-Profit Corporation Law and the limitations noted in these By-laws.

Section 2. Number of Trustees. The number of Trustees of the School shall be not fewer than five (5) and shall not exceed fifteen (15).

Section 3. Election of Trustees. The Board shall elect the Trustees by the vote of a majority of the Trustees then in office. Trustees-elect assume office upon approval by the New York State Education Department's Charter Schools Office.

Section 4. Eligibility. The Board may elect any person who is not an employee of the School and who is at least eighteen (18) years old and who, in its discretion, it believes will serve the interests of the School faithfully and effectively.

Section 5. Term of Office. Trustees shall hold office for a term of three (3) years. Trustees may succeed themselves in office and there shall be no limits on the number of terms a Trustee may serve. Notwithstanding the foregoing, at the initial meeting of the Board after the School receives its Charter, the initial Trustees shall be divided evenly (or as close to evenly as possible) into three (3) classes as follows: one (1) class of Trustees whose initial term which shall expire in June 2023, one (1) class of Trustees whose initial term shall expire in June 2024 and one (1) class of Trustees whose initial term shall expire in June 2025. For the avoidance of doubt, if re-elected, Trustees with an initial term shorter than three (3) years (or new Trustees) shall be re-elected for three (3) year terms.

Section 6. Interested Persons.

- (a) Not more than forty percent (40%) of the persons serving on the Board may be (i) persons currently being compensated by the School for services rendered to it within the previous twelve (12) months; or (ii) a sister, brother, ancestor, descendant, spouse, domestic partner, sister-in-law, brother-in-law, daughter-in-law, son-in-law, mother-in-law or father-in-law, cousin or cousin-in-law of any such person.
- (b) Not more than forty percent (40%) of the voting persons on the Board may be directors, officers, employees, agents or otherwise affiliated with any single entity (with the

exception of the School or another charter school), regardless of whether said entity is affiliated or otherwise partnered with the School. For the purposes of the foregoing sentence, “single entity” shall mean any individual entity, as well as any and all related entities to such entity such as parents, subsidiaries, affiliates and partners. The New York State Education Department, on behalf of the Board of Regents may, in its sole discretion, waive this restriction upon written request from the School.

(c) Where the School has engaged a not-for-profit educational service provider or other entity that provides comprehensive management services to the School pursuant to a contract between such entity and the School, no more than two (2) Trustees may be affiliated with such not-for-profit entity, or have immediate family members so affiliated, and one (1) such Trustee’s affiliation is limited to serving as director of such entity; provided, however, that in such case the following restrictions shall apply:

- (i) termination of the contract with the not-for-profit educational service provider or other entity shall constitute cause for removal of such person(s) from the Board, and upon such termination such person(s) may be removed from the Board by vote of the Board provided there is a quorum of at least a majority of the entire Board present at the meeting;
- (ii) such person(s) shall not hold the offices of Chairperson or Treasurer of the Board;
- (iii) when the Board has proper grounds to go into executive session pursuant to the New York Open Meetings Law (“Open Meetings Law”), and the Board is to discuss or vote upon an issue related to the not-for-profit management company or entity, the personnel of such company or entity, or such person(s), the Board may, after such person(s) has had an opportunity to fully address the Board, continue such executive session outside of the presence of such person(s); and
- (iv) the number of Trustees on the Board shall not be less than seven (7) where two (2) Trustees are affiliated with the not-for-profit entity and not less than six (6) where one (1) Trustee is affiliated with the not-for-profit entity.

Section 7. Removal of Trustees. The Board may remove or suspend a Trustee with cause by vote of a majority of the entire Board on examination and due proof of the truth of a written complaint by any Trustee of misconduct, incapacity or neglect of duty, in accordance with Section 226(8) of the Education Law and other such sections of the Education Law and the Not-for-Profit Corporation Law. In accordance with the procedures set forth in the Education Law, the Board of Regents may remove any Trustee for misconduct, incapacity, neglect of duty, or where it appears to the satisfaction of the Regents that the Board has failed or refuses to carry into effect its educational purposes.

Section 8. Resignation by Trustee. A Trustee may resign by giving written notice to the Board Chair or Secretary. The resignation is effective upon receipt of such notice, or at any later date specified in the notice. The acceptance of a resignation by the Board Chair or Secretary shall not be necessary to make it effective, but no resignation shall discharge any accrued obligation or

duty of a Trustee. If any Trustee shall fail to attend three consecutive meetings without excuse accepted as satisfactory by the Board, such Trustee shall be deemed to have resigned and the vacancy shall be filled.

Section 9. Vacancies. The office of any Trustee shall become vacant on his or her death, resignation, refusal to act, removal from office, expiration of term, or any other cause specified in the School's charter. If any Trustee fails to attend three (3) consecutive meetings without excuse accepted as satisfactory by the Board, such Trustee shall be deemed to have resigned, and the vacancy shall be filled. The Board may fill any vacancy occurring in the middle of a Trustee's term by electing another individual to serve for the duration of his or her predecessor's unexpired term and may be reelected in accordance with the provisions of this section.

Section 10. Compensation of Trustees. Trustees shall serve without compensation. However, the Board may approve reimbursement of a Trustee's actual and necessary expenses while conducting School business.

Section 11. Parent Representative. The Board shall include at least one parent or guardian of a current or former student at the School once the School has enrolled students. The parent representative shall be a voting member of the Board.

Section 12. Meetings.

Section 12.1. Annual Meetings. An annual meeting of the Board shall be held at the School (and until a School facility is identified, such location as determined by the Board) each June at a date and time designated by the Board or in such other month, date and time as the Board may designate. At the annual meeting, the Board shall, if nominated, re-elect Trustees and officers whose terms as expiring or otherwise elect new Trustees and officers if Trustees whose terms are expiring are not presented for re-election. Nothing herein shall prohibit the election of Trustees and officers at such other times the Board may designate if there are open seats to be filled by vacancy or otherwise.

Section 12.2. Regular Meetings. The Board shall meet to conduct business and to review the Treasurer's accounts as frequently as it deems necessary but no less than on a monthly basis as required by the New York Education Law.

Section 12.3. Special meetings of the Board of Trustees may be called (i) at any time by the Chairperson, (ii) by the senior Trustee on written request of three Trustees if the Chairperson is absent, or (iii) by any other manner determined by the Board of Trustees. Seniority shall be according to the order in which the Trustees are named in the charter or subsequently elected.

Section 13. Notice of Meetings. Annual, regular and special meetings of the Board of Trustees shall be held on notice to the Trustees. Notice of any adjournment of a meeting of the Board of Trustees to another time or place shall be given to the Trustees who were not present at the time of the adjournment and, unless such time and place are announced at the meeting, to the Trustees who were present. Notices shall state the time and place of the meeting and shall indicate that they are being issued by or at the direction of the person calling the meeting. Notice of each

meeting of the Board of Trustees shall be transmitted to each Trustee to the usual address (email acceptable) of every Trustee with as much advance notice as practicable.

Section 14. Waiver of Notice. Notice of a meeting need not be given to a Trustee who signs a waiver of notice or written consent to holding the meeting or an approval of the minutes of the meeting, whether before or after the meeting, or attends the meeting without protest prior to the meeting or at its commencement of the lack of notice. The Secretary shall incorporate all such waivers, consents and approvals into the minutes of the meeting.

Section 15 Board Participation by Other Means. To the extent permitted by Article 7 of the Public Officers Law, Trustees who do not reside in New York, or who cannot be present at the location and date of the meeting may participate by video conference in order to be counted for the quorum and vote on relevant matters. Once a quorum is present, additional Trustees may participate in a Board meeting through conference telephone or similar communication equipment, provided that all Trustees participating in such meeting can hear one another and there is no objection from any Trustee or any person in the public audience. Trustees participating in the Board meeting other than in-person or by live videoconferencing shall not be permitted to vote. Further, members will not be permitted to vote by proxy. Appropriate notice and access will be given to the public such that they can participate in the meeting if they so wish at any location in which video conferencing is being used. Public notice will inform the public that video conferencing will be used, identify the locations for the meeting, and state that the public has the right to attend the meeting at any of the locations. Members may participate by phone, but will not be included as part of the quorum and will not be permitted to vote on pending issues.

Section 16. Quorum. Unless a greater proportion is required by law, a majority of the entire Board of Trustees shall constitute a quorum for the transaction of business or of any specified item of business, but a majority of the Trustees present, whether or not a quorum is present, may adjourn any meeting to another time and place.

Section 17. Open Meetings. Notwithstanding any other provisions of these By-laws, the School shall comply with the New York Open Meetings Law.

Section 18. Action by the Board of Trustees. Any reference in these By-laws to action to be taken by the Board of Trustees shall mean such action at a meeting of the Board of Trustees. Except as otherwise expressly required by law or by these By-laws, the vote of a majority of the Trustees present at the time of the vote, if a quorum is present at such time, shall be the act of the Board of Trustees. In any case in which a Trustee is entitled to vote, he or she shall have no more than, nor not less than, one vote.

Section 19. Performance of Duties. Each Trustee shall perform all duties of a Trustee, including duties on any Board committee, in good faith and with that degree of diligence, care and skill, including reasonable inquiry, as an ordinary prudent person in a like position would use under similar circumstances.

Section 20. Reliance on Others. In performing the duties of a Trustee, a Trustee shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, presented or prepared by:

- (a) one or more Officers or employees of the School whom the Trustee believes to be reliable and competent in the matters presented;
- (b)
 - (i) legal counsel, public accountants or other persons as to matters that the Trustee believes are within that person's professional or expert competence; or
 - (ii) a Board committee on which the Trustee does not serve, duly designated in accordance with a provision of the School's charter or By-laws, as to matters within its designated authority, provided the Trustee believes the committee merits confidence and the Trustee acts in good faith, and with that degree of care specified in section 19 above, and after reasonable inquiry when the need is indicated by the circumstances, and without knowledge that would cause such reliance to be unwarranted.

Section 21 Investments. In investing and dealing with all assets held by the School for investment, the Board shall exercise the standard of care described above in section 19, and shall consider among other relevant considerations the long and short term needs of the School in carrying out its purposes, including its present and anticipated financial requirements. The Board may delegate its investment powers to others, provided that those powers are exercised within the ultimate direction of the Board.

Section 22. Duty to Maintain Board Confidences. Every Trustee has a duty to maintain the confidentiality of all Board actions which are not required by law to be open to the public, including discussions and votes which take place at any Executive Sessions of the Board. Any Trustee violating this confidence may be removed from the Board.

ARTICLE IV OFFICERS

Section 1. Officers of the Corporation. The officers of the Corporation shall be the Chair, a Vice Chair, a Secretary, a Treasurer, and such other officers as the Board may from time to time establish. Officers shall be elected and shall serve a term that is co-terminus with their term as Trustee. Any two or more offices may be held by the same person, except the offices of Chairperson and Secretary or the offices corresponding thereto.

Section 1.1. Chair. The Chair shall serve as Chairman of the Board of Directors and shall carry out those duties usually incident to the office of President and shall serve as Chair of the Executive Committee. The Chair shall execute all documents on behalf of this Corporation unless the Board has generally or specifically delegated the authority to execute the document in question to another officer of the Corporation or employee of the School.

Section 1.2. Vice Chair. The Vice Chair shall fulfill the Board Chair's duties when the Chair is absent and assist the Board Chair in the execution of his or her duties as needed.

Section 1.3. Secretary. The Secretary shall keep the minutes of all meetings, provide written notice of all meetings and copies of minutes of previous meetings in accordance with these By-Laws or as required by the laws of the State of New York, and shall act as the custodian of the School's records.

Section 1.4. Treasurer. The Treasurer shall be the principal financial officer of the School and shall ensure that there is an adequate and correct accounting of the property and business transactions of the School.

Section 2. Election. Upon election, each officer shall hold office until such officer's successor shall have been duly elected and shall have qualified, or until such officer's earlier death, resignation or removal.

Section 3. Removal. Any officer elected by the Board may be removed at any time, for cause or without cause, by an affirmative vote of two-thirds (2/3) of all the Trustees of the Board.

Section 4. Vacancy. In the event a vacancy occurs in any office, the Board shall elect, at a regular meeting or a special meeting of the Board, a person to succeed to such office.

ARTICLE V COMMITTEES OF THE BOARD

Section 1 Committees.

- (a) The Board of Trustees, by resolution adopted by a majority of the entire Board of Trustees, may designate from among its members an Executive Committee, consisting of five or more Trustees, and other standing committees, each consisting of three or more Trustees as the Board may deem appropriate. Notwithstanding the foregoing, nothing herein shall prevent or restrict individuals other than Trustees from participating in committees in a supporting capacity. All committees are subject to the New York Open Meetings Law.
- (b) Unless a shorter term is prescribed by the Board in its resolution creating a committee, the committee members shall be elected for a one-year term at each annual meeting of the Board. The Board shall elect members of committees, except that with respect to the Executive Committee, members shall be elected by an affirmative vote of a majority of the entire number of Trustees including vacancies. Vacancies in the membership of any committee with the authority of the board shall be filled in the same manner as initial appointment. The membership of committees, other than committees with the authority of the board, shall not be restricted to Trustees but shall be drawn from the administration, faculty, parent body and community at large, as appropriate, and ratified by the Board. Except as otherwise provided in these By-laws or by the Board, the chairperson of each committee shall be chosen by the Chairperson of the Board from among the Trustee members of the committee.

Section 2. Authority of Committees. The Board may grant to a committee any of the authority of the Board of Trustees, except with respect to the following and as otherwise prohibited by law:

- (a) the election or removal of Trustees and Officers;
- (b) filling of vacancies on the Board of Trustees or any committee;
- (c) the amendment or repeal of these By-laws or the adoption of new By-laws;
- (d) the appointment of other committees, or the members of the committees;
- (e) the amendment or repeal of any resolution of the Board of Trustees which, by its terms, shall not be so amendable or repealable;
- (f) the approval of a merger or a plan of dissolution;
- (g) the authorization of the sale, lease, exchange, or other disposition of all or substantially all of the assets of the Corporation; or
- (h) the approval of amendments to the certificate of incorporation (provisional charter).

Section 3. Alternate Members. The Board of Trustees may elect one or more Trustees as alternate members of any such committee, who may replace any absent member or members at any meeting of such committee.

Section 4. Special Committees. The Board of Trustees may create such special committees as it may deem desirable. Special committees shall have only the powers specifically delegated to them by the Board of Trustees and in no case shall have powers which are not authorized for standing committees with authority of the board.

Section 5 Executive Committee. The Executive Committee, in intervals between the meetings for the Trustees, may transact such business of the School as the Trustees may authorize, or undertake any actions specified in Section 2 of this Article.

Section 6. Audit and Finance Committee No person who is an employee of the Corporation or who has any material financial interest in any entity doing business with the Corporation may serve on the Audit and Finance Committee. To the extent permitted by law and these By-laws, the Audit and Finance Committee shall (a) recommend to the Board an annual budget and fiscal policy (and amendments thereof from time to time); (b) recommend to the Board an independent auditor to conduct an annual audit of the financial statement of the Corporation and oversee such independent auditor; and (c) fulfill such other financial and audit duties and responsibilities as needed or the Board may assign from time to time.

Section 7. Academic Committee. The Academic Committee shall oversee the education program and review student achievement data for the School. The Academic Committee shall also have

oversight over School assessment, performance, and the review of educational qualitative data as it pertains to the fulfillment of the School's mission.

Section 8. Personnel Committee. The Personnel Committee, in conjunction with School Leadership, shall oversee staff and personnel matters. The Personnel Committee will also collaborate on talent recruitment and evaluations, and oversee grievance matters as they pertain to the Board.

Section 9. Development Committee. The Development Committee will oversee the creation and implementation of the board's development plan designed to ensure that the school is financially sustainable over time.

Section 10. Procedures of Committees. All committees may adopt rules governing the time of, the method of calling, or the method of holding their meetings, and the conduct of their affairs. All committees shall keep a record of their acts and proceedings in accordance with the New York Open Meetings Law and shall report thereon to the Board of Trustees.

Section 11. Quorum and Manner of Acting. A majority of the members of a committee shall constitute a quorum for the transaction of business, and the act of a majority of those present at a meeting at which a quorum is present shall be the act of the committee. The members of a committee shall act only as a committee.

ARTICLE VI CONFLICTS OF INTEREST

Section 1. Disclosure. Trustees, officers and employees shall seek to avoid potential conflicts of interest in personal and in professional relationships, and shall timely disclose potential conflicts of interest to appropriate supervisory personnel and/or other applicable School officials in accordance with the School's policies. In addition, all Trustees, officers and staff shall fully cooperate in the management of any potential conflicts of interest. In addition, trustees, officers and senior staff shall fully comply with the School's Conflict of Interest Policy.

Section 2. Conflicts of Interest Policy. The Board shall adopt a Conflict of Interest Policy. The Conflict of Interest Policy shall provide that no Trustee, Officer, employee or committee member shall have an interest, direct or indirect, in any contract when such Trustee, Officer, employee or committee member, individually or as a member of the Board or committee, has the power or duty to (a) negotiate, prepare, authorize or approve the contract, or authorize or approve payment under the contract; (b) audit bills or claims under the contract; or (c) appoint an officer or employee who has any of the powers or duties set forth above (subject to certain exceptions allowed under Section 802 of the General Municipal Law). The Conflict of Interest Policy shall also provide that the Treasurer shall not have an interest, direct or indirect, in a bank or trust company designated as a depository or paying agent or for investment of funds of the School. Any Trustee, Officer, employee or committee member with such an interest shall make a prompt, full and frank disclosure of his or her interest to the Board or committee. Such disclosure shall include all relevant and material facts known to such person about the contract or transaction that may reasonably be construed to be adverse to the School's interest. The Conflict of Interest

Policy shall also provide that no Trustee, officer, employee or committee member shall (i) directly or indirectly solicit, accept or receive any gift having a value of fifty dollars (\$50) or more, whether in the form of money, service, loan, travel, entertainment, hospitality, thing or promise, or in any other form, under circumstances in which it could reasonably be inferred that the gift was intended to or could reasonably be expected to influence him or her in the performance of his or her official duties, or was intended as a reward for any official action on his or her part; (ii) disclose confidential information acquired in the course of his or her official duties or use such information to further her or her personal interests; (iii) receive or enter into any agreement, express or implied, for compensation for services to be rendered in relation to any matter before any municipal agency of which he or she is an officer, member or employee or of any municipal agency over which he or she has jurisdiction or to which he or she the power to appoint any member, officer or employee; or (iv) receive or enter into any agreement, express or implied, for compensation for services to be rendered in relation to any matter before the Board whereby the compensation is to be dependent or contingent upon any action by the agency. This does not prohibit the fixing of fees based upon the reasonable value of services rendered. This provision is intended to comply with Sections 800-804, 804-a, 805, 805-a, 805-b and 806 of the General Municipal Law, and shall be interpreted in accordance with those provisions. To the extent of any conflict between any provision of these By-laws and those provisions of the General Municipal Law, those provisions of the General Municipal Law shall control.

Section 3. Avoidance of Self-Dealing Transactions. The Board of Trustees and the School shall not engage in any “self-dealing transactions,” except as approved by the Board. "Self-dealing transaction" means a transaction to which the School is a party and in which one or more of the Trustees has a material financial interest. Notwithstanding this definition, the following transaction is not a self-dealing transaction, and is subject to the Board's general standard of care: A transaction which is part of a public or charitable program of the School, if the transaction (a) is approved or authorized by the Board in good faith and determined by the Board to be in the best interest of the School and without unjustified favoritism, and (b) results in a benefit to one or more Trustees or their families because they are in a class of persons intended to be benefited by the program.

ARTICLE VII CONTRACTS, LOANS, GRANTS AND PROPERTY

Section 1. Contracts. Except as otherwise provided by law, the Board of Trustees may, prospectively or retroactively, authorize the Secretary or, prospectively, authorize any other officer(s) or agent(s) of the School, in the name and on behalf of the School, to enter into any contract. Any such authority may be general or confined to specific instances.

Section 2 Loans. The Board of Trustees may prospectively authorize the Treasurer or any other officer(s) or agent(s) of the School to effect loans and advances at any time for the School from any bank, trust company or other institution, or from any firm, corporation or individual, and for such loans and advances to make, execute and deliver promissory notes, bonds, or other certificates or evidences of indebtedness of the School, and when authorized to do so to pledge, hypothecate or transfer, to the extent permitted by law, any securities or other property of the

School as security for any such loans or advances. Such authority conferred by the Board of Trustees may be general or confined to specific instances.

Section 3. Grants. The Board of Trustees, on the basis of written recommendations from individual Trustees, officers and employees of the School, may, prospectively or retroactively, authorize the Chairperson, on behalf of the School, to make grants and other contributions.

Section 4. Property Holding. The Board of Trustees may take and hold by gift, grant, devise or bequest in their own right or in trust for any purpose comprised in the objects of the school, such additional real and personal property, beyond such as shall be authorized by its charter, as the regents shall authorize within one year after the delivery of the instrument or probate of the will giving, granting, devising or bequeathing such property. Such authority given by the regents shall make any such gift, grant, devise or bequest operative and valid in law. Any grant, devise or bequest shall be equally valid whether made in the School's name or to the Trustees, and such powers given to the Trustees shall be powers of the School.

Section 5. Control of Property. The Board of Trustees may (a) buy, sell, mortgage, let and otherwise use and dispose of its property as it shall deem for the best interests of the School; and (b) lend or deposit, or receive as a gift, or on loan or deposit, literary, scientific or other articles, collections, or property pertaining to its work. Such gifts, loans or deposits may be made to or with the school. Any such transfer of property, if approved by the Board of Regents, shall during its continuance, transfer responsibility thereafter to the school, which shall also be entitled to receive any money, books or other property from the state or other sources to which the school would have been entitled but for such transfer.

ARTICLE VIII NON-LIABILITY; INDEMNIFICATION; INSURANCE

Section 1. Non-Liability of Trustees. The Trustees shall not be personally liable for the School's debts, liabilities or other obligations.

Section 2. Indemnification of Trustees and Officers. In accordance with Section 721 of the New York Not-For-Profit Corporation Law, the School shall, to the fullest extent permitted, and in the manner prescribed, by Sections 721, 722, 723 and 725 of the New York Not-For-Profit Corporation Law, as amended from time to time, indemnify any person who is or was made, or threatened to be made, a party to any action or proceeding, whether civil or criminal, whether involving any actual or alleged breach of duty, neglect or error, any accountability, or any actual or alleged misstatement, misleading statement or other act or omission and whether brought or threatened in any court or administrative or legislative body or agency. This should include an action by or in the right of the School to procure a judgment in its favor and an action by or in the right of any other corporation of any type or kind, domestic or foreign, or any partnership, joint venture, trust, employee benefit plan or other enterprise, which any Trustee or officer of the School is serving or served in any capacity at the request of the School, by reason of the fact that he, his testator or intestate, is or was a Trustee or officer of the School, or is serving or served such other corporation, partnership, joint venture, trust, employee benefit plan or other enterprise in any capacity, against judgments, fines, amounts paid in settlement, and expenses (including, without limitation, attorneys' fees, costs and charges) incurred as a result of such action or

proceeding, or appeal therein. The School shall reimburse or advance to any person referred to in this section the funds necessary for payment of expenses (including, without limitation, attorneys' fees, costs and charges) incurred in connection with any action or proceeding referred to in this section to the fullest extent permitted by New York Not-For-Profit Corporation Law Sections 721, 722, 723 and 725.

Section 3. Insurance. In accordance with Section 726 of the New York Not-For-Profit Corporation Law, the School shall prescribe and maintain insurance to indemnify Trustees and officers of the School, on any terms and conditions set forth in a resolution of the Board.

ARTICLE IX BOOKS AND RECORDS

Correct and complete books and records of account and minutes of the proceedings of the Board, the Executive Committee and all Standing Committees shall be kept at the main office. Every Trustee has the right to inspect and copy all books, records and documents of every kind and to inspect the physical properties of the School, provided that such inspection is conducted at a reasonable time after reasonable notice, and provided that such right of inspection and copying is subject to the obligations imposed by any applicable federal, state or local law.

ARTICLE X FISCAL YEAR

The fiscal year of the School shall begin on July 1 and shall end on June 30 in each year.

ARTICLE XI CORPORATE SEAL

The Board may adopt a Corporate Seal, alter such seal at its pleasure and authorize it to be used by causing a facsimile to be affixed or impressed or reproduced in any other manner.

ARTICLE XII AMENDMENTS

Section 1. Amendments. These By-Laws may be amended, repealed, or restated by a vote of two-thirds of the Trustees then in office. Such action is authorized only at a duly called and held meeting of the Board for which written notice of such meeting, setting forth the proposed alteration, is given in advance, in accordance with the notice provisions set forth in Article III of these By-laws.

Section 2. SUNY Charter Schools Institute Approval. No material amendment to these By-laws shall be effective without approval of the SUNY Charter Schools Institute on behalf of the Board of Trustees of the State University of New York.

CERTIFICATE OF THE SECRETARY

The undersigned does hereby certify that the undersigned is the Secretary of the School, an education corporation duly organized and existing under the laws of the State of New York; that the foregoing By-laws of said School were duly and regularly adopted as such by the Board of Trustees of said School; and that the above and foregoing By-laws are now in full force and effect.

Board Secretary

Date

BRICK Buffalo Academy Charter School

CODE OF ETHICS

The Board of Trustees (the “Board”) of BRICK Buffalo Academy Charter School (the “School”) recognizes that sound ethical standards of conduct serve to increase the effectiveness of members of the Board (each a “Trustee” and collectively, “Trustees”) and the School’s staff. Actions based on an ethical code of conduct promote public confidence and the attainment of the School’s goals and objectives. The Board also recognizes its obligation to adopt this code of ethics (the “Code of Ethics”) consistent with the provisions of the New York State General Municipal Law and as required under the provisions of the New York Education Law and the New York Not-for-Profit Corporation Law, as amended by the Non-Profit Revitalization Act of 2013.

The Trustees, officers and employees of the School shall at all times be in compliance with the letter and spirit of the Code of Ethics. Trustees, officers and employees, as part of their service to or employment by the School, shall be furnished a copy of and shall also agree to adhere to this Code of Ethics. The Chair of the Board shall cause a copy of this Code of Ethics to be distributed annually to every Trustee, officer and employee of the School.¹ This Code of Ethics is incorporated by reference into the School’s duly adopted by-laws (the “By-laws”). Terms not defined herein shall have the meaning ascribed to them in the By-laws.

1. **Management of the School.** The Board shall conduct or direct the affairs of the School and exercise its powers subject to the provisions of applicable federal, state or local law, (including the Education Law and Not-for-Profit Corporation Law), as well as the requirements set forth in the School’s Charter and By-laws. The Board may delegate aspects of the management of school activities to others, so long as the affairs of the School are managed, and its powers are exercised, under the Board’s ultimate jurisdiction.
2. **Makeup of the Board.** All Board members shall be at least 18 years of age. Not more than 40 percent of the Board may be comprised of: (a) people currently being compensated by the School for services rendered to it within the previous 12 months, whether as a full-time or part-time employee, independent contractor or otherwise; or (b) any person in a Trustee’s Family.

¹ General Municipal Law § 806(2).

3. **Representation before the Board.** A Trustee, officer or employee shall not receive or enter into any agreement, express or implied, for compensation for services to be rendered in relation to any matter before the Board.²
4. **Representation before the Board for a Contingent Fee.** A Trustee, officer or employee shall not receive or enter into any agreement, express or implied, for compensation for services to be rendered in relation to any matter before the Board, whereby the compensation is to be dependent or contingent upon any action by the School with respect to such matter, provided that this paragraph shall not prohibit the fixing at any time of fees based upon the reasonable value of the services rendered.³
5. **Participation in Board Discussions and Votes.** Every Trustee has the right to participate in the discussion and vote on all issues before the Board or any Committee thereof, except that any Trustee shall be excused from the discussion and vote on any matter involving such Trustee relating to: (a) a “self-dealing transaction” (see below); (b) a potential Conflict of Interest (as defined in the Board’s Conflict of Interest Policy (the “Conflict of Interest Policy”) and also incorporated in the By-laws; (c) indemnification of that Trustee uniquely; or (d) any other matter at the discretion of a majority of the Trustees.
6. **Confidential Information.** No Trustee, officer or employee shall disclose confidential information acquired by him or her in the course of his or her official duties or use such information to further his or her own personal interest. In addition, he or she shall not disclose information regarding any matters discussed in an executive session of the Board, whether such information is deemed confidential or not.⁴
7. **Self-Dealing Transactions.** A "Self-dealing transaction" shall mean a transaction to which the School is a party and in which one or more of the individual Trustees, officers or employees has a financial interest. Neither members of the Board nor the employees of the School shall engage in any Self-Dealing Transaction, except as approved by the Board and in compliance with the Conflict of Interest Policy. Notwithstanding this definition, the following transaction is not a self-dealing transaction, and is subject to the Board's general standard of care: a transaction that is part of a public or charitable program of the School, if the transaction (a) is approved or authorized by the Board in good faith and determined by the Board to be in the best interest of the School and without favoritism, and (b) results in a benefit to one or more Trustees or their families solely because they are in a class of persons intended to be benefited by the program.
8. **Loans.** The Board shall not make any sort of monetary loan to a Trustee, and no Trustee shall ask the Board for any such loan or borrow against the School’s monies.

² General Municipal Law § 805-a(1)(c).

³ General Municipal Law § 805-a(1)(d).

⁴ General Municipal Law § 805-a(1)(b).

9. **Disclosure of Interest in Matters before the Board.** Any Trustee, officer or employee, whether paid or unpaid, who participates in the discussion or gives official opinion to the Board on any matter before the Board shall publicly disclose on the official record the nature and extent of any direct or indirect financial or other interest he or she has, will have or later acquires, or that his or her spouse has, will have or later acquires, in such matter.⁵ Such disclosure shall include all relevant and material facts known to such person about the contract or transaction that might reasonably be construed to be adverse to the Board's interest. Such written disclosure shall be made part of and set forth in the official record of the proceedings of the Board. A Trustee, officer or employee shall be deemed to have an "interest" in a contract or other transaction if he or she, or such person's spouse, minor children and dependents, is the party (or one of the parties) contracting or dealing with the School (except a contract of employment with the School), or is a director, trustee, officer or employee of or has a significant financial or influential interest in the entity contracting or dealing with the School.
10. **Not-for-Profit Disclosure.** Trustees, officers or employees representing any not-for-profit entity proposing to do business with the School shall disclose to the Board the nature and extent of such business propositions.
11. **Business Relationship with the School.** No Trustee, officer or employee of a for-profit entity having a business relationship with the School shall serve as a voting member of the Board for the duration of such business relationship, unless the approval of such relationship complies with the terms and procedures of the Conflict of Interest Policy and in any such case, shall not be permitted to be an officer of the Board.
12. **Investments in Conflict with Official Duties.** A Trustee, officer or employee shall not invest or hold any investment directly in any financial, business, commercial or other private transaction that creates a conflict with his or her official duties.⁶
13. **Private Employment.** A Trustee, officer or employee shall not engage in, solicit, negotiate for or promise to accept private employment when that employment or service creates a conflict with or impairs the proper discharge of his or her official duties.⁷
14. **Future Employment.** A Trustee, officer or employee shall not, after the termination of service or employment with the Board, appear before the Board or any panel or committee of the Board in relation to any case, proceeding, or application in which he or she personally participated during the period of his or her service or employment or that was under his or her active consideration. This shall not bar or prevent the timely filing by a present or former Trustee, officer or employee of any claim, account, demand

⁵ General Municipal Law § 803.

⁶ General Municipal Law § 806(1)(a).

⁷ *Id.*

or suit against the School or district on his or her behalf or on behalf of any member of his or her family arising out of any personal injury or property damage or for any lawful benefit authorized or permitted by law.⁸

15. **Educational Management Organization.** In no instance shall a Trustee, officer or employee of a for-profit educational management organization having a business relationship with the School serve as a voting member of the Board for the duration of such business relationship.
16. **Organizational Limit on Board Seats.** Trustees, officers, or employees of any organization shall hold no more than 40 percent of the total seats comprising the Board.
17. **Undue Influence.** Trustees, officers or employees shall avoid at all times engaging in activities that would appear to be unduly influenced by other persons who have a special interest in matters under consideration by the Board. If this occurs, the Trustee, officer or employee shall write a letter disclosing all known facts prior to participating in a Board discussion of these matters and the Trustee's interest in the matter will be reflected in the Board minutes.
18. **Financial Disclosure.** Trustees, officers and employees shall make all appropriate financial disclosures whenever a grievance or conflict of interest is lodged against them.
19. **Gifts.** No Trustee, officer or employee shall, directly or indirectly, solicit any gifts, nor shall any Trustee, officer or employee accept or receive any single gift having a value of \$75 or more, or gifts from the same source having a cumulative value of \$75 or more over a twelve-month period, whether in the form of money, services, loan, travel, entertainment, hospitality, thing or promise, or any other form, if it could reasonably be inferred that the gift was intended to influence him or her in the performance of his or her official duties or was intended as a reward for any official action on his or her part. Trustees, officers and employees shall report to the Board their acceptance of any gift or privilege worth \$75 or more from any person or organization that is doing business or may potentially do business with or provide services to the charter school. Such reporting must occur at the next board meeting following receipt of the gift.⁹
20. **Political Contributions.** The Trustees, officers, or employees of the School may never ask a subordinate, a student or a parent or guardian of a student to work on or give to any political campaign.
21. **Related Party Transactions.** The School has not had, nor does it anticipate having, any Related Party Transactions that have occurred or may occur as a result of a less than arm's length relationship with a Related Party. The School has established requirements

⁸ *Id.*

⁹ General Municipal Law §805-a(1)(a).

and procedures in its Conflict of Interest Policy to ensure that all transactions are at arm's length and that, in the event that a less-than-arm's length agreement might occur, proper and timely disclosures are made and any interested party must recuse him or herself from the decision-making process.

22. **Penalties.** In addition to any penalty contained in any other provision of law, any person who shall knowingly and intentionally violate any of the provisions of this Code of Ethics may be fined, suspended or removed from office or employment, as the case may be, in the manner provided by law.

BRICK Buffalo Academy Charter School

CONFLICT OF INTEREST POLICY

The purpose of this Conflict of Interest Policy (the “Policy”) is to protect the interests of BRICK Buffalo Academy Charter School (“BBACS” or the “Corporation”) when it is contemplating entering into a transaction or arrangement that may benefit the private interests of a Trustee, Officer, Key Person or employee of the Corporation. Before entering into any transaction or arrangement that may benefit the private interests of a Trustee, Officer, Key Person, or employee of the Corporation, the Board of Trustees of the Corporation (the “Board”) shall determine whether the transaction or arrangement is prohibited under this Policy.

Article 1 Conflicts of Interest

Section 1. Trustees, Officers and employees of the Corporation, subject to certain limited exceptions, are generally prohibited from having a direct or indirect pecuniary or material benefit accrue from a contract with the Corporation, provided, however, this does not preclude the payment of lawful compensation and necessary expenses of such Trustee, Officer or employee in holding his or her position with BBACS, as applicable. A Trustee, Officer or employee will also be considered to have a pecuniary or material benefit in a contract if the Corporation is party to a contract with (i) his or her spouse, minor children or dependents (except contracts of employment with BBACS), (ii) a firm, partnership or association of which he or she is a member or employee, (iii) a corporation of which he or she is an officer, director or employee or (iv) a corporation any stock of which is owned or controlled directly or indirectly by him or her.

Section 2. Trustees, Officers and Key Persons of the Corporation are also restricted from engaging in any Related Party Transaction, which is not already expressly prohibited by Section 1 above, except as approved by the Board. In determining whether to approve a Related Party Transaction, the Board must determine if the transaction is fair, reasonable and in the best interests of the Corporation at the time of such determination.

With respect to any Related Party Transaction involving a charitable corporation and in which a Related Party has a substantial financial interest, the Board shall consider alternative transactions to the extent available, approve the transaction by not less than a majority vote of those present at the meeting, and contemporaneously document in writing the basis for the approval and the consideration of any alternative transactions.

Section 3. No Trustee, Officer or employee shall directly or indirectly, solicit any gift, or accept or receive any gift having a value of seventy-five dollars (\$75.00) or more, whether in the form of money, service, loan, travel, entertainment, hospitality, thing or promise, or in any other form without prior approval of the Board of Directors.

Section 4. Employees of BBACS may not serve on the Board.

Article 2
Disclosure and Voting

Any person with a potential or actual conflict of interest described in Article 1 of this Policy must promptly disclose such potential or actual conflict of interest in good faith in writing to his or her immediate supervisor, as applicable, and to each member of the Board, together with all material facts known to such Trustee, Officer, Key Person or employee with respect to the actual or potential conflict of interest. Such written disclosure shall be made part of and be set forth in the minutes of the Board. All such potential or actual conflicts of interest shall be reviewed by the Board.

Any Trustee, Officer, Key Person or employee to which the potential or actual conflict of interest relates shall not be present at or participate in the Board or committee deliberation or vote on the matter giving rise to such conflict; provided that nothing shall prohibit the Board or a committee from requesting that the person with the conflict of interest present information as background or answer questions at a committee or Board meeting prior to the commencement of deliberations or voting relating thereto.

If not prohibited by Article 1 of this Policy, any matter involving an actual or potential conflict of interest shall be approved by not less than a majority vote of the Board members present and voting at the meeting; provided, that a Trustee to which the potential or actual conflict of interest relates shall not be permitted to vote. No Trustee, Officer, Key Person or employee shall vote, act, or attempt to influence improperly the deliberations, as applicable. Any attempt to vote, act, or improperly influence deliberations may be grounds for removal from the Board or termination of employment with BBACS.

Article 3
Committee Review

The Board may delegate to the Audit Committee or any Board committee comprised solely of Independent Trustees (each a "Committee") the implementation of and compliance with this Policy. The Board may delegate to such Committee review and approval of any potential or actual conflict of interest; provided that if the potential or actual conflict of interest is of a nature that would otherwise require full Board approval, the Committee shall provide a recommendation as to whether or not to approve the potential or actual conflict of interest to the full Board, and the Board shall be responsible for making a final determination. In the event the Board delegates the review and approval of conflicts of interest to a committee, all references to the Board in this Policy shall be deemed to refer to such Committee and all references to a majority of the Board shall be deemed to refer to a majority of such Committee.

Article 4
Records of Proceedings

The minutes of all meetings of the Board and all committee meetings at which a potential or actual conflict of interest is considered shall contain the following:

- i. The names of the persons who disclosed or otherwise were determined to have a potential or actual conflict of interest, the nature of the potential or actual conflict of interest, any action taken to determine whether a conflict of interest exists, and the Board's decision as to whether a conflict of interest exists.
- ii. The names of the persons who were present for discussions and votes relating to any determinations under this Policy, including whether the Trustee, Officer, Key Person or employee left the room during any such discussions, the content of such discussions, and whether or not the transaction was approved by the Board.

The minutes shall be documented contemporaneously to the discussion and decision regarding the conflict of interest.

Article 5
Disclosures

Prior to the initial election or appointment of a Trustee to the Board, and thereafter on an annual basis, all Trustees shall disclose in writing to the Board Secretary:

- i. Any entity of which the Trustee is an officer, director, trustee, member, owner or employee;
- ii. Any entity of which a Relative of the Trustee is an officer, director, trustee, member, owner or employee and with which the Corporation has a relationship;
- iii. Any Financial Interest the Trustee may have in any corporation, organization, partnership or other entity which provides professional or other goods or services to the Corporation for a fee or other compensation; and
- iv. Any position or other material relationship such Trustee may have with any not-for-profit corporation, or any position or other material relationship held by a Relative of such Trustee, with which the Corporation has a business relationship.

Each Trustee shall also annually sign and submit to the Board Secretary a statement which affirms such person: (a) has received a copy of this Policy, (b) has read and understands the Policy, and (c) has agreed to comply with the Policy. The Secretary shall provide a copy of all completed statements to the Chair of the Board.

Article 6
Miscellaneous

Section 1. Any contract willfully entered into by or with the Corporation which is prohibited by this Conflict of Interest Policy shall be null, void and wholly unenforceable.

Section 2. In no instance shall a trustee, officer or employee of a for-profit educational management organization having a business relationship with BBACS serve as a voting member of the Board for the duration of such business relationship.

Section 3. Trustees, officers, or employees of any single external organization shall hold no more than 40% of the total seats comprising the Board.

Section 4. Trustees, Officers, Key Persons and employees shall avoid at all times engaging in activities that would appear to be unduly influenced by other persons who have a special interest in matters under consideration by the Board. If this occurs, such Trustee, Officer, Key Person or employee shall disclose in writing all known facts prior to participating in a Board discussion of these matters and the Trustee, Officer, Key Person or employee's interest in the matter will be reflected in the Board minutes.

Section 5. Trustees, Officers, Key Persons and employees shall make all appropriate disclosures whenever a grievance or conflict of interest is lodged against them.

Section 6. In addition to any penalty contained in any other provision of law, any person who shall knowingly and intentionally violate this Conflict of Interest Policy may be fined, suspended or removed from office or employment in the manner provided by law.

Section 7. No Trustee, Officer or employee shall disclose confidential information acquired by him or her in the course of his or her official duties or use such information to further his or her personal interests.

Section 8. Trustees, Officers and employees may never ask a subordinate, a student or a parent of a student to work on or give to any political campaign.

Article 7
Definitions

Capitalized terms used herein shall have the meanings ascribed to such terms below:

i. **Affiliate**. An affiliate of the Corporation is a person or entity that is directly or indirectly through one or more intermediaries, controlled by, in control of, or under common control with the Corporation.

ii. **Financial Interest**. A person has a Financial Interest if such person would receive an economic benefit, directly or indirectly, from any transaction, agreement, compensation agreement, including direct or indirect remuneration as well as gifts or favors that are not insubstantial or other arrangements involving the Corporation.

iii. **Independent Trustee**. A member of the Board who:

- a. Has not been an employee of the Corporation, a Key Person of the Corporation or an Affiliate of the Corporation within the last three (3) years;
- b. Does not have a Relative who has been a Key Person of the Corporation or an Affiliate of the Corporation within the last three (3) years;
- c. Has not received more than \$10,000 in compensation directly from the Corporation or an Affiliate of the Corporation in any of the last three (3) years (not including reasonable compensation or reimbursement for services as a Trustee, as set by the Corporation);
- d. Does not have a Relative who has received more than \$10,000 in compensation directly from the Corporation or an Affiliate of the Corporation in any of the last three (3) years (not including reasonable compensation or reimbursement for services as a Trustee, as set by the Corporation);
- e. Does not have a substantial Financial Interest in and has not been an employee of any entity that has provided payments, property or services to or received payments, property or services from, the Corporation or an Affiliate of the Corporation in excess of the sliding scale amounts set forth in NY CLS N-PCL §102(21), over the last three fiscal years (payment does not include charitable contributions);
- f. Does not have a Relative who has a substantial Financial Interest or who has been an employee of any entity that has provided payments, property or services to or received payments, property or services from, the Corporation or an Affiliate of the Corporation in excess of the sliding scale amounts set forth in NY CLS N-PCL §102(21), over the last fiscal three years (payment does not include charitable contributions);

- g. Is not a current owner, director, officer or employee of the Corporation's outside auditor or who has worked on the Corporation's audit at any time during the past three years;
 - h. Does not have a relative who is a current owner, director, officer or employee of the Corporation's outside auditor or who has worked on the Corporation's audit at any time during the past three years.
 - i. Is not in an employment relationship or under control or direction of any Related Party and does not receive payments subject to approval of a Related Party;
 - j. Does not have a Relative who is in an employment relationship or under control or direction of any Related Party and receives payments subject to approval of a Related Party;

- iv. **Key Person.** A person, other than a director or officer, whether or not employed by the Corporation, who (a) has responsibilities, or exercises powers or influence over the Corporation as a whole similar to the responsibilities, powers, or influence of directors and officers; (b) manages the Corporation, or a segment of the Corporation that represents a substantial portion of the activities, assets, income or expenses of the Corporation; or (c) alone or with others controls or determines a substantial portion of the Corporation's capital expenditures or operating budget.

- v. **Officer.** A person who has the authority to bind the Corporation as designated in the By-Laws of the Corporation.

- vi. **Related Party.** Persons who may be considered a Related Party of the Corporation or an Affiliate of the Corporation under this Policy include:
 - a. Trustees, Officers, or Key Persons of the Corporation or any Affiliate of the Corporation;
 - b. Relatives of any individual described in subparagraph (a) of this subsection;
 - c. Any entity in which a person in subparagraph (a) or (b) of this subsection has a 35% or greater ownership or beneficial interest or, in the case of a partnership or professional corporation, a direct or indirect ownership interest in excess of 5%; and
 - d. Founders of the Corporation

- vii. **Related Party Transaction.** Any transaction, agreement or any other arrangement in which a Related Party has a Financial Interest and in which the Corporation or any Affiliate of the Corporation is a participant, except that a transaction shall not be a Related Party Transaction if: (i) the transaction or the Related Party's financial interest in the transaction is de minimis; (ii) the transaction would not customarily be reviewed by the Board or boards of similar organizations in the ordinary course of business and is available to others on the same or similar terms; or (iii) the transaction constitutes a benefit provided to a Related Party solely as a member of a class of the beneficiaries that the Corporation intends to benefit as part of the accomplishment of its mission

which benefit is available to all similarly situated members of the same class on the same terms.

- viii. **Relative**. A spouse or domestic partner as defined in section 2994-A of the New York Public Health Law; ancestors, brothers and sisters (whether whole or half-blood), children (whether natural or adopted), grandchildren, great-grandchildren; or spouses or domestic partners of brothers, sisters, children, grandchildren, and great-grandchildren.
- ix. **Trustee**. Any voting or non-voting member of the governing board of the Corporation.

R-14G – Complaint Policy

Provide a draft of the proposed school's complaint policy. The complaint policy must include procedures for handling formal and informal complaints under the Act including from staff, parents, employees, and contractors. It may also include procedures for handling informal complaints. Please refer to the Guidelines for Complaint Policies and procedures available at <https://www.newyorkcharters.org/wpcontent/uploads/Complaints-Guidance.pdf>.

Section 2855 (4) of the NYS Charter Schools Act provides that a parent or any other individual, entity or group may bring a complaint to the Board of Trustees alleging that a charter school has violated a term of its charter or applicable law relating to the management or operation of the charter school. The processes the school will follow to address these formal complaints, as well as other informal complaints, are described below.

Formal Complaints

Formal complaints to the Board of Trustees (the Board) should be in writing and should include a detailed statement of the complaint, including the names of the individuals involved and what provision of the School's charter or the law may have been violated. The complaint should also state what response has been received from the School thus far and what specific action or relief the entity bringing the complaint is seeking. It must also include the name, address and phone number of the complainant. The Board may delegate the investigation of formal complaints to the Buffalo RDI/Superintendent who will take the necessary steps to investigate the complaint. The complainant will also be provided an opportunity to address the Board at its next scheduled Board meeting and the Board will provide a response within thirty (30) days of receiving the formal, written complaint. If the complainant is not satisfied with the Board's resolution of the matter, the complainant may appeal the Board's decision to the School's authorizer, the trustees of the State University of New York, through its Charter Schools Institute. If the complainant is not satisfied with the authorizer's decision, the complainant may appeal it to the State Board of Regents, whose decision shall be final.

In order to ensure all stakeholders are aware of the formal complaint process, BBACS will take the following measures:

- The formal complaint process will be provided annually to all members of the Board of Trustees and shared with each new Board member as part of Board member orientation.
- A copy of the school's formal complaint policy will be distributed to the parents and/or guardians of students enrolled in the respective school as part of new student enrollment paperwork and summer orientation paperwork each year.
- The response to formal complaints will:
 - 1. be in writing;
 - 2. clearly set forth the reasoning of the person or entity making the decision; and
 - 3. be given to the complainant within the time frame set forth in the complaint

policy (30 days) unless a sound reason exists for delay.

- Upon resolution of the formal complaint, the education corporation will provide the complainant:
 - 1. its written determination including any remedial actions to be taken;
 - 2. a written notice to the complainant that he or she may file an appeal with the Institute if the complaint involves a violation of law or charter; and,
 - 3. a copy of the Institute's Grievance Guidelines (available on the Institute's website: [http://www.newyorkcharters.org/contact/.](http://www.newyorkcharters.org/contact/))
- Any amendment to the formal complaint policy must be approved by the BRICK Buffalo Academy Charter School Board and must be consistent with applicable law and due process. All such amendments will also be reported as part of the school's annual report.

Informal Complaints

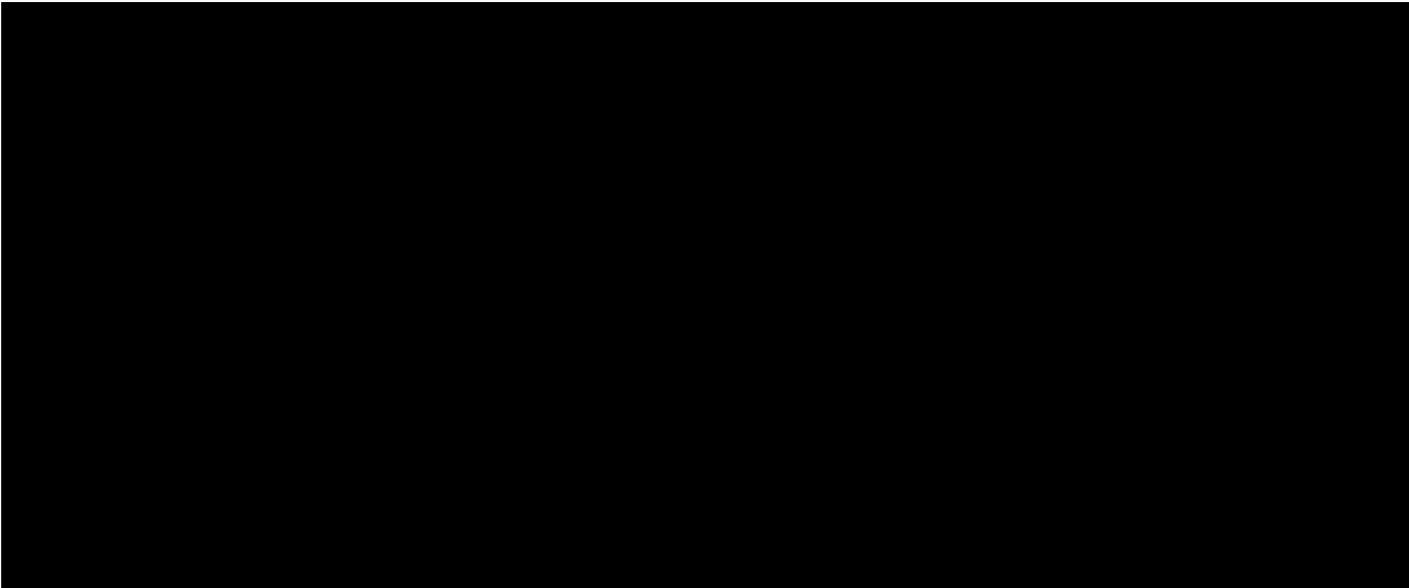

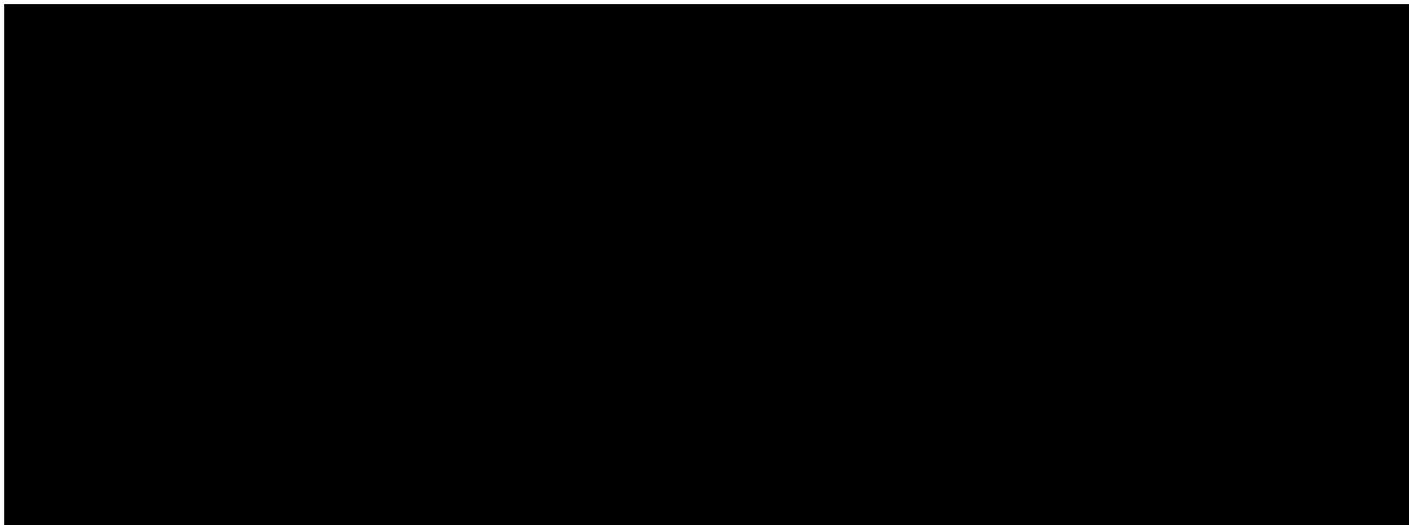

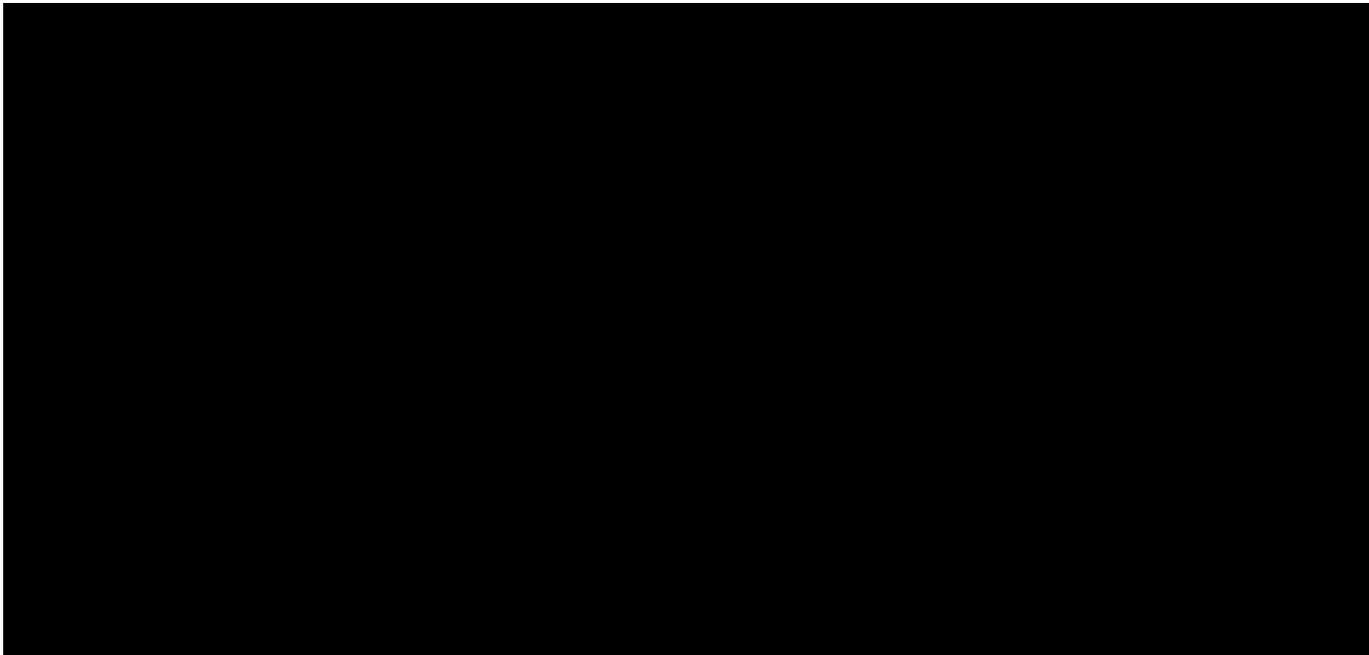

Other informal complaints that are not about a violation of a specific law or aspect of the charter, and any other complaint that can be resolved at the School level should be submitted directly to the School Principal or his or her designee. To assist individuals in getting the quickest response to any informal complaint, the school encourages individuals to address informal complaints in the manner described below by:

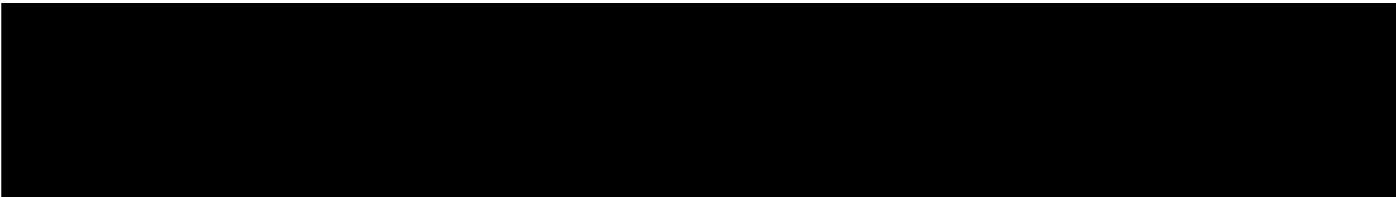

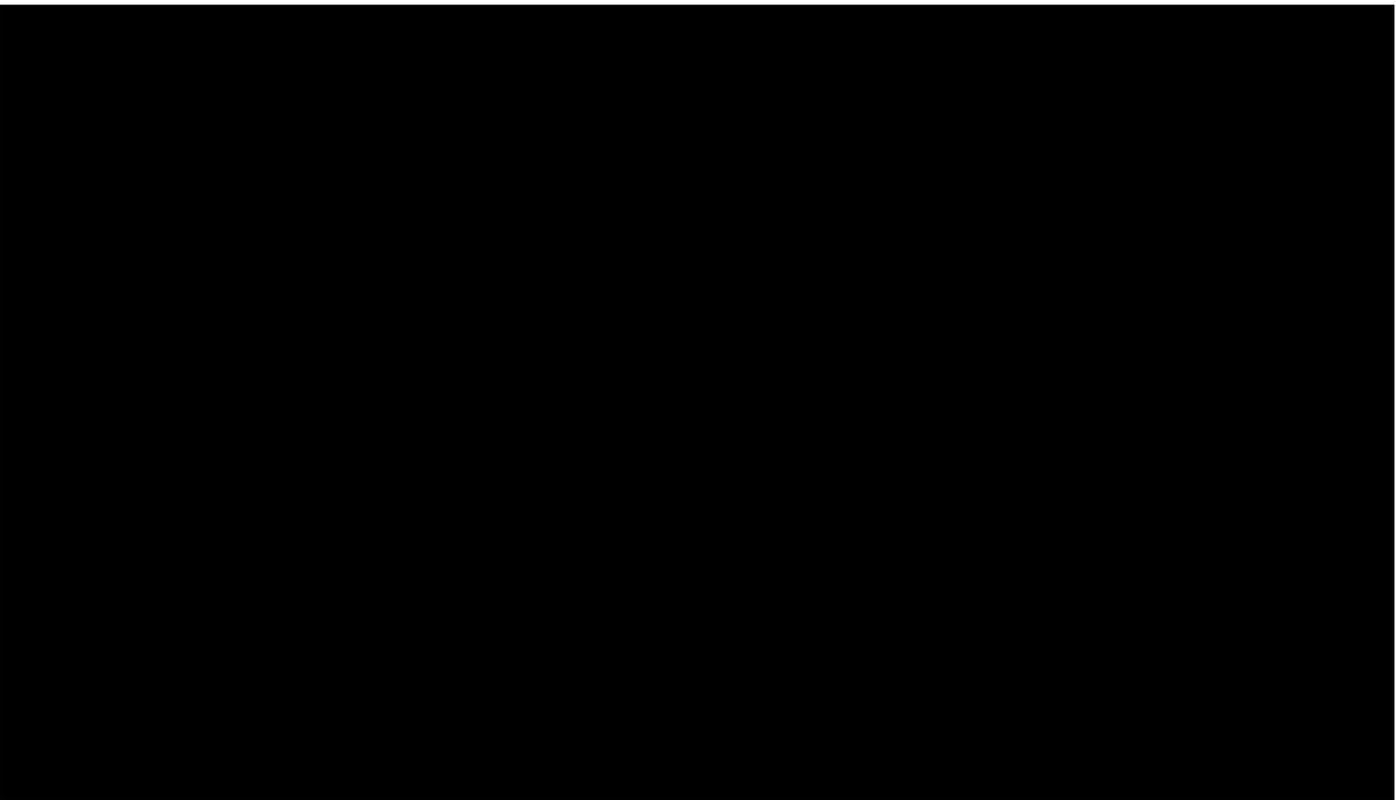

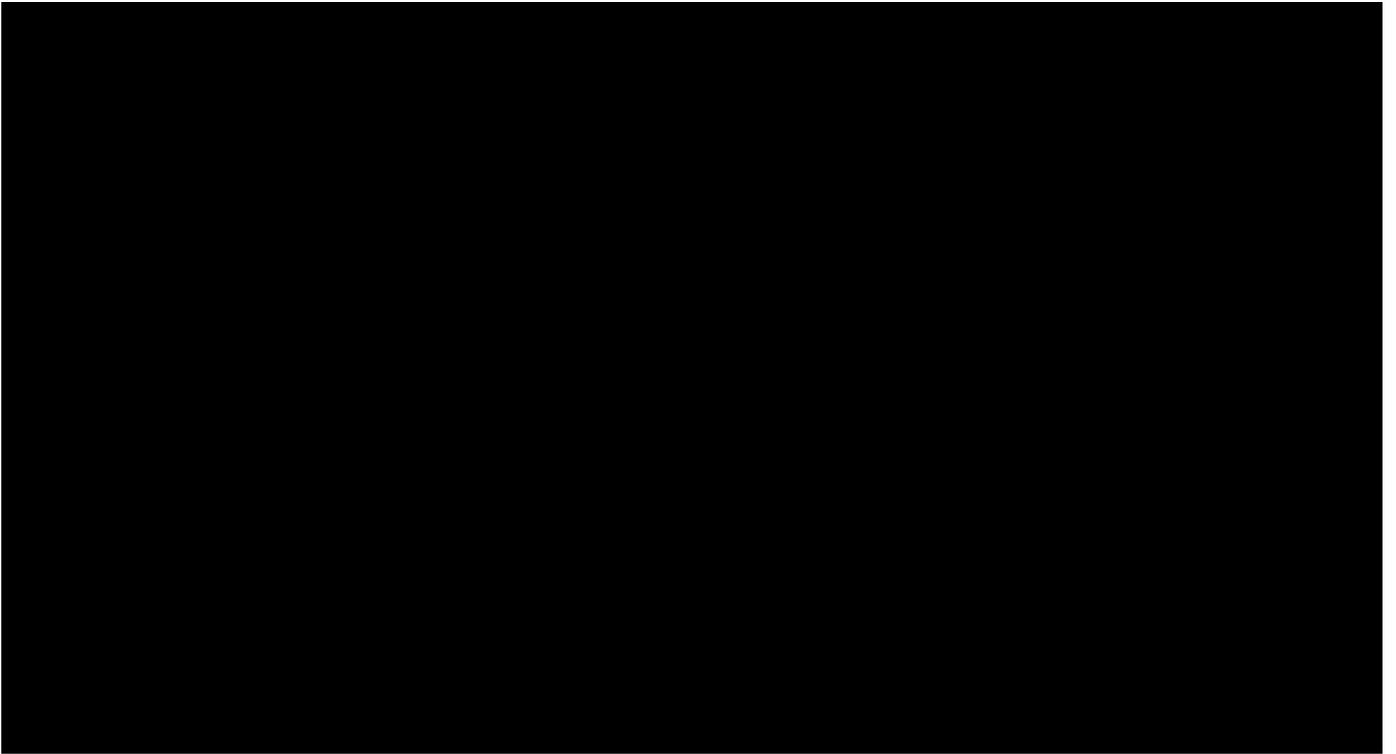

- Working directly with a teacher for a classroom complaint related to academics or culture or with the office manager for an operational complaint.
- Escalating to a Vice Principal of Culture for concerns involving student culture, or to a Vice Principal of Instruction regarding other academic matters, or to the Operational manager for an operational complaint.
- Escalating further to the Principal for academic or cultural matters or to the Director of Operations for operational matters.
- Escalating further to the BRICK Regional Director of Instruction/Superintendent for academic and cultural matters or to the BRICK Regional Director of Operations for operational matters.
- Escalating to the Personnel committee of the Board.
- If unclear, the complainant should ask the Principal who to speak with first to ensure a timely response to their complaint.

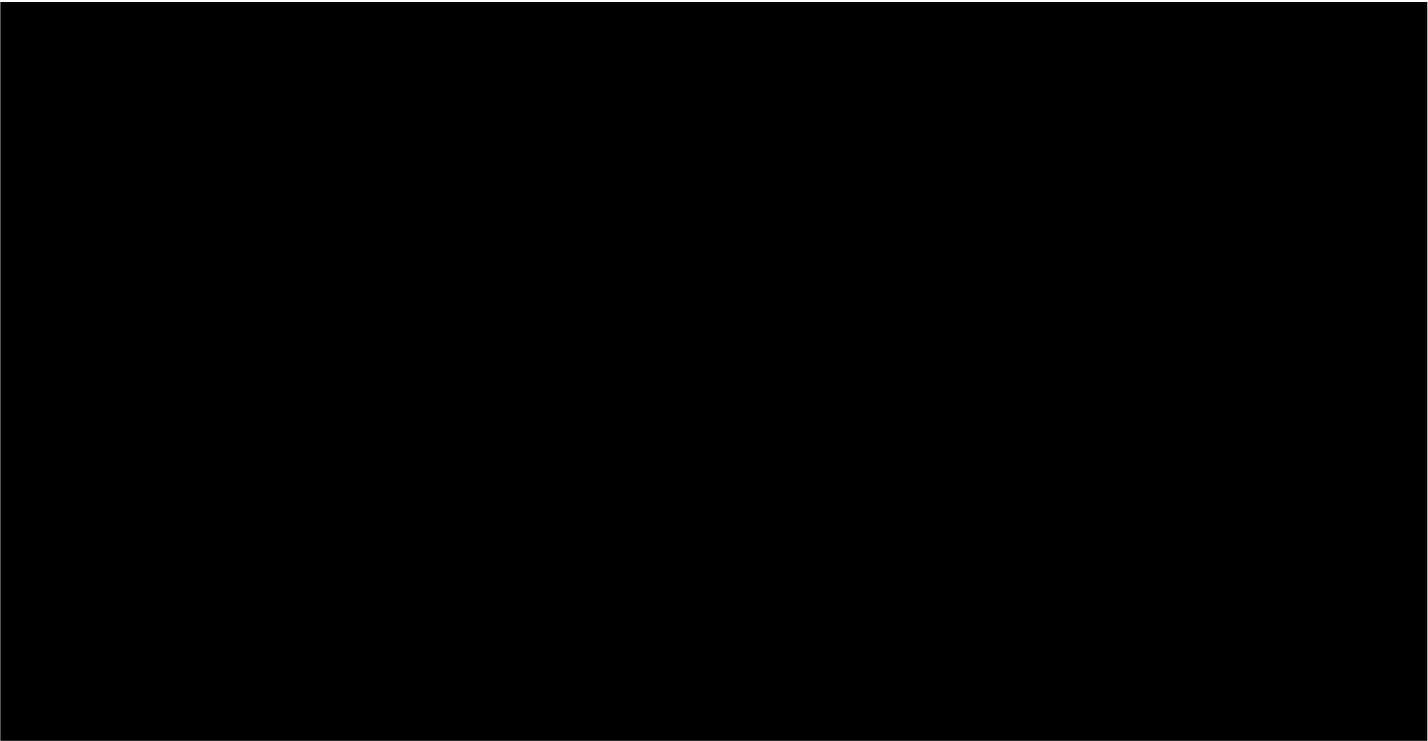

Upon receipt of the complaint, the School Principal or his or her designee will investigate the allegations and will respond verbally unless otherwise requested within ten (10) business days. If this does not resolve the complaint, the individual or group may submit the complaint, in writing, to BRICK Buffalo Regional Director of Instruction/Superintendent. The BRICK Buffalo RDI will act as an appeals body for any complaints that are not satisfactorily resolved by the School Principal. The BRICK Buffalo RDI will also directly review any complaints that concern the School Principal. Please note that the Institute does not handle informal appeals.

www.newyorkcharters.org

INTRODUCTION

Serving on a public charter school education corporation board is a position of great trust and responsibility. The law charges trustees with overseeing the education of all students enrolled in each school the not-for-profit education corporation has the authority to operate, the expenditure of public and private monies directed to the school(s), and, if applicable, the oversight of any charter/education management organization (“CMO/EMO”).

The State University of New York Board of Trustees (the “SUNY Trustees”) requires all new education corporation board members be approved by the SUNY Charter Schools Institute (the “Institute”) pursuant to the terms of the education corporation’s Charter Agreement. The Institute uses this Request for Information (“RFI”) form as part of that process. Once the board elects a proposed trustee, the Institute requests the prospective trustee to complete the following form by providing answers to each of the items, and signing the certification.

Only in very rare cases does the Institute reject properly approved prospective trustees who have provided all information requested on this form. These cases are generally limited to prospective members who would have severe conflicts of interest in fulfilling their fiduciary or other duties as an education corporation trustee, who are proposed to be seated in violation of the education corporation’s charter or by-laws, or whose criminal history would disqualify them. Questions related to conflict of interest may be addressed to the education corporation’s counsel or counsel at the Institute.

Pursuant to New York’s Freedom of Information Law (“FOIL”), any personal information listed on or attached to this form (including the Charter School Trustee Contact Information form) that would constitute an unwarranted invasion of personal privacy will not be disclosed (home address, email, telephone number, etc.).

1. REQUEST FOR INFORMATION

A. Applicable Charter Agreement Provisions

The following image shows the applicable provision from the Model Charter Agreement (available at <http://www.newyorkcharters.org/wp-content/uploads/Model-Charter-July-2017.pdf>), which is the same or very similar to that of each education corporation's Charter Agreement:

- Section 2.3, *Selection of New Education Corporation Board Members*.

2.3 Selection of New Education Corporation Board Members. All Corporate Trustees shall possess appropriate qualifications for membership on the Education Corporation Board, as such qualifications are set forth in the Terms of Operation, and shall be seated pursuant to the following procedures. Prior to the appointment or final election of any new Corporate Trustee, the Education Corporation Board must submit to the Trustees (pursuant to a duly approved resolution of the Education Corporation Board) the name of the proposed Corporate Trustee and such individual must timely provide to the Trustees, in writing and/or in person, such background information as the Trustees shall require (the "**School Trustee Background Information**"). Within forty-five (45) days of receiving the name of the proposed Corporate Trustee and the School Trustee Background Information, the Trustees shall in writing reject or approve such individual. In the event that the Trustees do not provide in writing an approval or rejection within the forty-five (45) day time period, the proposed Corporate Trustee may be seated so long as such action would be consistent with the By-laws and any other applicable Terms of Operation. A failure by the Education Corporation or the proposed Corporate Trustee to timely provide the School Trustee Background Information to the Trustees shall be grounds for his or her rejection.

B. Applicable Laws and Regulations

None.

C. Discussion

In order to legally seat a person on a charter school board, the following procedures should generally be followed as well as any specific provisions contained in education corporation's by-laws:

- When a board seat becomes vacant or is created, the board (by committee or otherwise) should seek nominations for a person to fill the vacant seat with appropriate qualifications per the Charter Agreement *and* by-laws requirements.
- The board secretary or other administrator should review the by-laws to determine the proper number of trustees that may be seated on the board, and that the number is within the proper range (e.g., 7-11). If the board has more members than the upper end of the range, a request to amend the by-laws must be made to the Institute or the

education corporation may not fill the seat. In cases where the board is expanding the number of trustees (as opposed to filling a vacancy) the board must do so prior to the election of the proposed trustee (even if being voted at the same meeting) and clearly reflect same in the minutes.

- Note: the legal limits on board size are 5 minimum and 25 maximum, although best practice has shown boards of 11 or under to be effective.
- The board secretary or other administrator should review the following to determine the proper qualification of the prospective board member:
 - Charter Agreement section entitled “Governance; Education Corporation Board; By-laws” (Section 2.2 in recent charters) for the following:
 - compliance with the 40% rule (no more than 40% of the school board may be affiliated with any single entity unless the school has received a waiver from the SUNY Trustees); and,
 - compliance with provisions prohibiting or restricting board membership for persons associated with a CMO/EMO.
 - Charter Agreement Exhibit A, “Additional Assurances and Terms,” if any, which may contain restrictions on board membership or a waiver thereof;
 - Charter Agreement Exhibit A, “Terms of Operation;” any sections dealing with governance;
 - By-laws, which may:
 - state what type or “class” of trustee must be elected, e.g., parent, teacher representative, community member;
 - state any conditions that must be met prior to the election or nomination of a proposed trustee (vote of the parent/teacher organization; vote of partner organization, etc.);
 - direct how the trustee will be elected or appointed (super-majority vote, vote of corporate member, etc.); and/or,
 - state how long the term of a trustee will be. When vacant seats are filled, the new trustee serves for the remainder of the prior trustee’s term. When new seats are created, the board, or other methodology in the by-laws, may dictate the length of the term, which may be staggered with other terms. It is good practice for the secretary to keep a multi-year elections calendar to track each trustee’s term.

The education corporation board or corporate member elects or appoints the *prospective* trustee at a duly convened meeting of the applicable board with a quorum and following any by-laws restrictions on elections. The Institute will approve or reject such proposed

trustee in writing within 45 days of submission of *all* of the required documentation:

- complete *Request for Information, Prospective Charter School Education Corporation Trustee* ("RFI form");
- resume or brief biographical information;
- updated list of board of trustees; and,
- evidence of proper election (e.g., signed resolution or meeting minutes reflecting vote).

If the Institute takes no action within the 45 day period, the person may be seated as a school trustee.

D. Responsible Tasks

- Submit a copy of the signed resolution electing the prospective trustee or the meeting minutes showing such election.
- Submit the original *RFI form*. After each prospective trustee reviews the by-laws, code of ethics and any conflict of interest policies of the education corporation, the board secretary or administrator should have each prospective trustee complete a RFI form, which the education corporation or proposed trustee must submit to the Institute together with a resume or brief biographical information.
- Submit an updated board list to the Institute reflecting the proposed trustee's election.
- After approval by the Institute, the board secretary or other administrator should inform the new trustee, and all trustees, of his or her official seating on the board. The trustee may now be counted for purposes of quorum and vote.
- As a reminder, the education corporation must notify the SUNY Trustees within five (5) business days of any of the following education corporation trustee actions: removal; resignation; expiration of term without re-election; or, otherwise leaving the board.

**Request for Information
Prospective Charter School Education Corporation Trustee
Form**

Background

1. Name of charter school education corporation for which you intend to serve as a trustee.

BRICK Buffalo Academy Charter School

2. Full name: Adam M Desmond

Home Address:

Business Name and Address:

Home telephone No.:

Work telephone No.:

E-mail address:

3. A brief educational and employment history (or you may attach a resume):

Resume attached.

4. Please affirm that you will be at least 18 years old by the date of appointment to the education corporation's board. I affirm.

5. Please indicate whether you currently or have previously served on a board of a school district, another charter school education corporation, a non-public school or any not-for-profit corporation. Does not apply to me. Yes.

Name(s) of School/Not-for-Profit Corporation(s):

6. Please indicate if you have ever been convicted of a misdemeanor related to honesty or trustworthiness, or a felony. If the answer to this question is yes, please provide details of the offense, the date, disposition, etc.

Does not apply to me. Yes.

Details:

7. Please indicate if you have ever entered into a settlement agreement, consent decree, adjournment in contemplation of dismissal, assurance of discontinuance or other, similar agreement with the Securities Exchange Commission, Internal Revenue Service, the U.S. attorney general or the attorney general of any state, a U.S. or district attorney or any other law enforcement or regulatory body concerning the discharge of your duties as a board member of a for-profit or not-for profit entity or as an executive of such entity. If the answer to this question is yes, please provide details of the agreement.

Does not apply to me. Yes.

Details:

Conflicts

8. Please indicate whether you or your spouse knows any of the other charter school education corporation trustees, or prospective or former trustees. If so, please indicate the precise nature of your relationship.

I / we do not know any such trustees. Yes.

Details:

9. Please indicate whether you or your spouse knows any person who is, or has been in the last two years, an employee of the education corporation. If so, indicate the precise nature of your relationship.

I / we do not know any such employees. Yes.

Details:

10. Please indicate whether you or your spouse knows anyone who is doing, or plans to do, business with the education corporation or any of the schools it has the authority to operate (whether as an individual or as a director, officer, employee or agent of an entity). If so, indicate and describe the precise nature of your relationship and the nature of the business that such person or entity is transacting or will be transacting with the education corporation.

I / we do not know any such persons. Yes.

Details:

11. Please indicate if you, your spouse or other immediate family members anticipate conducting, or are conducting, any business with the education corporation or any school it has the authority to operate. If so, please indicate the precise nature of the business that is being or will be conducted.

I / we do not anticipate conducting any such business. Yes.

Details:

12. If the education corporation or any of the schools it has the authority to operate contracts with an educational service provider (a management company, whether for-profit or not-for-profit), please indicate whether you or your spouse know any employees, officers, owners, directors or agents of that provider. If the answer is in the affirmative, please describe any such relationship.

Not applicable because the education corporation does not contact with a management company or charter management organization.

I / we do not know any such persons.

Yes.

Details:

13. If the education corporation contracts with an educational service provider including a charter management organization, please indicate whether you, your spouse or other immediate family members have a direct or indirect ownership, employment, financial, contractual or management interest in the provider. For any interest indicated, please provide a detailed description.

N/A.

I / we have no such interest.

Yes.

Details:

14. If the education corporation or any of the schools it has the authority to operate is partnered with an educational service provider including a charter management organization, please indicate if you, your spouse or other immediate family member anticipate conducting, or are conducting, any business with the provider. If so, please indicate the precise nature of the business that is being or will be conducted.

N/A.

I / we or my family do not anticipate conducting any such business.

Yes.

Details:

15. Please indicate whether you, your spouse or other immediate family members are a director, officer, employee, partner or member of, or are otherwise associated with, any organization which filed an application in conjunction with the education corporation, i.e., is partnered with the education corporation. (For the identity of all such organizations, please consult with the chair of the board.) To the extent you have provided this information in response to prior items, you may so indicate.

Does not apply to me, my spouse or family.

Yes.

Details:

16. Please indicate any potential ethical or legal conflicts of interests that would, or are likely to, exist should you be approved for service on the education corporation board. Please note that being a parent of a school student, serving on another charter school's board or being employed by the school are conflicts that should be disclosed, but do not make you automatically ineligible to serve as a trustee.

None.

Yes.

Details:

17. Please indicate any individual, business, corporation, union association, firm, partnership, committee, proprietorship, franchise holding company, joint stock company, trust, non-profit organization, or other organization or group of people doing business with the education corporation, and in which such entity you and/or your immediate family members have a financial interest or other relationship.

None.

Yes.

Details:

18. Please indicate how you would handle a situation in which you believe one or more members of the education corporation's board are involved in self-dealing (working for their own benefit, or the benefit of their friends and family). Please note that simply confronting the involved trustee is not usually a sufficient answer.

I would confer with the Board's legal counsel regarding the situation, advise the board at large of the first hand knowledge and would look to notify the appropriate oversight authority.

Other

19. Please affirm that you have read the education corporation's by-laws and conflict-of-interest policies (Code of Ethics). I affirm.
20. Please provide any other information that you feel pertinent to the SUNY Charter Schools Institute's review.

Certification

I, Adam M Desmond, certify to the best of my knowledge and ability that the information I am providing to the State University of New York/Charter Schools Institute in regards to my application to serve as a member of the board of trustees of BRICK Buffalo Academy Charter School is true and correct in every respect.

INTRODUCTION

Serving on a public charter school education corporation board is a position of great trust and responsibility. The law charges trustees with overseeing the education of all students enrolled in each school the not-for-profit education corporation has the authority to operate, the expenditure of public and private monies directed to the school(s), and, if applicable, the oversight of any charter/education management organization (“CMO/EMO”).

The State University of New York Board of Trustees (the “SUNY Trustees”) requires all new education corporation board members be approved by the SUNY Charter Schools Institute (the “Institute”) pursuant to the terms of the education corporation’s Charter Agreement. The Institute uses this Request for Information (“RFI”) form as part of that process. Once the board elects a proposed trustee, the Institute requests the prospective trustee to complete the following form by providing answers to each of the items, and signing the certification.

Only in very rare cases does the Institute reject properly approved prospective trustees who have provided all information requested on this form. These cases are generally limited to prospective members who would have severe conflicts of interest in fulfilling their fiduciary or other duties as an education corporation trustee, who are proposed to be seated in violation of the education corporation’s charter or by-laws, or whose criminal history would disqualify them. Questions related to conflict of interest may be addressed to the education corporation’s counsel or counsel at the Institute.

Pursuant to New York’s Freedom of Information Law (“FOIL”), any personal information listed on or attached to this form (including the Charter School Trustee Contact Information form) that would constitute an unwarranted invasion of personal privacy will not be disclosed (home address, email, telephone number, etc.).

1. REQUEST FOR INFORMATION

A. Applicable Charter Agreement Provisions

The following image shows the applicable provision from the Model Charter Agreement (available at <http://www.newyorkcharters.org/wp-content/uploads/Model-Charter-July-2017.pdf>), which is the same or very similar to that of each education corporation's Charter Agreement:

- Section 2.3, *Selection of New Education Corporation Board Members*.

2.3 Selection of New Education Corporation Board Members. All Corporate Trustees shall possess appropriate qualifications for membership on the Education Corporation Board, as such qualifications are set forth in the Terms of Operation, and shall be seated pursuant to the following procedures. Prior to the appointment or final election of any new Corporate Trustee, the Education Corporation Board must submit to the Trustees (pursuant to a duly approved resolution of the Education Corporation Board) the name of the proposed Corporate Trustee and such individual must timely provide to the Trustees, in writing and/or in person, such background information as the Trustees shall require (the "**School Trustee Background Information**"). Within forty-five (45) days of receiving the name of the proposed Corporate Trustee and the School Trustee Background Information, the Trustees shall in writing reject or approve such individual. In the event that the Trustees do not provide in writing an approval or rejection within the forty-five (45) day time period, the proposed Corporate Trustee may be seated so long as such action would be consistent with the By-laws and any other applicable Terms of Operation. A failure by the Education Corporation or the proposed Corporate Trustee to timely provide the School Trustee Background Information to the Trustees shall be grounds for his or her rejection.

B. Applicable Laws and Regulations

None.

C. Discussion

In order to legally seat a person on a charter school board, the following procedures should generally be followed as well as any specific provisions contained in education corporation's by-laws:

- When a board seat becomes vacant or is created, the board (by committee or otherwise) should seek nominations for a person to fill the vacant seat with appropriate qualifications per the Charter Agreement *and* by-laws requirements.
- The board secretary or other administrator should review the by-laws to determine the proper number of trustees that may be seated on the board, and that the number is within the proper range (e.g., 7-11). If the board has more members than the upper end of the range, a request to amend the by-laws must be made to the Institute or the

education corporation may not fill the seat. In cases where the board is expanding the number of trustees (as opposed to filling a vacancy) the board must do so prior to the election of the proposed trustee (even if being voted at the same meeting) and clearly reflect same in the minutes.

- Note: the legal limits on board size are 5 minimum and 25 maximum, although best practice has shown boards of 11 or under to be effective.
- The board secretary or other administrator should review the following to determine the proper qualification of the prospective board member:
 - Charter Agreement section entitled “Governance; Education Corporation Board; By-laws” (Section 2.2 in recent charters) for the following:
 - compliance with the 40% rule (no more than 40% of the school board may be affiliated with any single entity unless the school has received a waiver from the SUNY Trustees); and,
 - compliance with provisions prohibiting or restricting board membership for persons associated with a CMO/EMO.
 - Charter Agreement Exhibit A, “Additional Assurances and Terms,” if any, which may contain restrictions on board membership or a waiver thereof;
 - Charter Agreement Exhibit A, “Terms of Operation;” any sections dealing with governance;
 - By-laws, which may:
 - state what type or “class” of trustee must be elected, e.g., parent, teacher representative, community member;
 - state any conditions that must be met prior to the election or nomination of a proposed trustee (vote of the parent/teacher organization; vote of partner organization, etc.);
 - direct how the trustee will be elected or appointed (super-majority vote, vote of corporate member, etc.); and/or,
 - state how long the term of a trustee will be. When vacant seats are filled, the new trustee serves for the remainder of the prior trustee’s term. When new seats are created, the board, or other methodology in the by-laws, may dictate the length of the term, which may be staggered with other terms. It is good practice for the secretary to keep a multi-year elections calendar to track each trustee’s term.

The education corporation board or corporate member elects or appoints the *prospective* trustee at a duly convened meeting of the applicable board with a quorum and following any by-laws restrictions on elections. The Institute will approve or reject such proposed

trustee in writing within 45 days of submission of *all* of the required documentation:

- complete *Request for Information, Prospective Charter School Education Corporation Trustee* (“RFI form”);
- resume or brief biographical information;
- updated list of board of trustees; and,
- evidence of proper election (e.g., signed resolution or meeting minutes reflecting vote).

If the Institute takes no action within the 45 day period, the person may be seated as a school trustee.

D. Responsible Tasks

- Submit a copy of the signed resolution electing the prospective trustee or the meeting minutes showing such election.
- Submit the original *RFI form*. After each prospective trustee reviews the by-laws, code of ethics and any conflict of interest policies of the education corporation, the board secretary or administrator should have each prospective trustee complete a RFI form, which the education corporation or proposed trustee must submit to the Institute together with a resume or brief biographical information.
- Submit an updated board list to the Institute reflecting the proposed trustee’s election.
- After approval by the Institute, the board secretary or other administrator should inform the new trustee, and all trustees, of his or her official seating on the board. The trustee may now be counted for purposes of quorum and vote.
- As a reminder, the education corporation must notify the SUNY Trustees within five (5) business days of any of the following education corporation trustee actions: removal; resignation; expiration of term without re-election; or, otherwise leaving the board.

**Request for Information
Prospective Charter School Education Corporation Trustee
Form**

Background

1. Name of charter school education corporation for which you intend to serve as a trustee.

BRICK Buffalo Academy

2. Full name: Kimberly Kadziolka

Home Address:

Business Name and Address: Community Resources for Justice

Home telephone No.:

Work telephone No.:

E-mail address:

3. A brief educational and employment history (or you may attach a resume):

Resume attached.

4. Please affirm that you will be at least 18 years old by the date of appointment to the education corporation's board. I affirm.

5. Please indicate whether you currently or have previously served on a board of a school district, another charter school education corporation, a non-public school or any not-for-profit corporation. Does not apply to me. Yes.

Name(s) of School/Not-for-Profit Corporation(s):

6. Please indicate if you have ever been convicted of a misdemeanor related to honesty or trustworthiness, or a felony. If the answer to this question is yes, please provide details of the offense, the date, disposition, etc.

Does not apply to me. Yes.

Details:

7. Please indicate if you have ever entered into a settlement agreement, consent decree, adjournment in contemplation of dismissal, assurance of discontinuance or other, similar agreement with the Securities Exchange Commission, Internal Revenue Service, the U.S. attorney general or the attorney general of any state, a U.S. or district attorney or any other law enforcement or regulatory body concerning the discharge of your duties as a board member of a for-profit or not-for profit entity or as an executive of such entity. If the answer to this question is yes, please provide details of the agreement.

Does not apply to me. Yes.

Details:

Conflicts

8. Please indicate whether you or your spouse knows any of the other charter school education corporation trustees, or prospective or former trustees. If so, please indicate the precise nature of your relationship.

I / we do not know any such trustees. Yes.

Details:

9. Please indicate whether you or your spouse knows any person who is, or has been in the last two years, an employee of the education corporation. If so, indicate the precise nature of your relationship.

I / we do not know any such employees. Yes.

Details:

10. Please indicate whether you or your spouse knows anyone who is doing, or plans to do, business with the education corporation or any of the schools it has the authority to operate (whether as an individual or as a director, officer, employee or agent of an entity). If so, indicate and describe the precise nature of your relationship and the nature of the business that such person or entity is transacting or will be transacting with the education corporation.

I / we do not know any such persons. Yes.

Details:

11. Please indicate if you, your spouse or other immediate family members anticipate conducting, or are conducting, any business with the education corporation or any school it has the authority to operate. If so, please indicate the precise nature of the business that is being or will be conducted.

I / we do not anticipate conducting any such business. Yes.

Details:

12. If the education corporation or any of the schools it has the authority to operate contracts with an educational service provider (a management company, whether for-profit or not-for-profit), please indicate whether you or your spouse know any employees, officers, owners, directors or agents of that provider. If the answer is in the affirmative, please describe any such relationship.

Not applicable because the education corporation does not contact with a management company or charter management organization.

I / we do not know any such persons.

Yes.

Details:

13. If the education corporation contracts with an educational service provider including a charter management organization, please indicate whether you, your spouse or other immediate family members have a direct or indirect ownership, employment, financial, contractual or management interest in the provider. For any interest indicated, please provide a detailed description.

N/A.

I / we have no such interest.

Yes.

Details:

14. If the education corporation or any of the schools it has the authority to operate is partnered with an educational service provider including a charter management organization, please indicate if you, your spouse or other immediate family member anticipate conducting, or are conducting, any business with the provider. If so, please indicate the precise nature of the business that is being or will be conducted.

N/A.

I / we or my family do not anticipate conducting any such business.

Yes.

Details:

15. Please indicate whether you, your spouse or other immediate family members are a director, officer, employee, partner or member of, or are otherwise associated with, any organization which filed an application in conjunction with the education corporation, i.e., is partnered with the education corporation. (For the identity of all such organizations, please consult with the chair of the board.) To the extent you have provided this information in response to prior items, you may so indicate.

Does not apply to me, my spouse or family.

Yes.

Details:

16. Please indicate any potential ethical or legal conflicts of interests that would, or are likely to, exist should you be approved for service on the education corporation board. Please note that being a parent of a school student, serving on another charter school's board or being employed by the school are conflicts that should be disclosed, but do not make you automatically ineligible to serve as a trustee.

None.

Yes.

Details:

17. Please indicate any individual, business, corporation, union association, firm, partnership, committee, proprietorship, franchise holding company, joint stock company, trust, non-profit organization, or other organization or group of people doing business with the education corporation, and in which such entity you and/or your immediate family members have a financial interest or other relationship.

None.

Yes.

Details:

18. Please indicate how you would handle a situation in which you believe one or more members of the education corporation's board are involved in self-dealing (working for their own benefit, or the benefit of their friends and family). Please note that simply confronting the involved trustee is not usually a sufficient answer.

I would first confront the member, and then follow established procedures for reporting the self-dealing.

Other

19. Please affirm that you have read the education corporation's by-laws and conflict-of-interest policies (Code of Ethics). I affirm.

20. Please provide any other information that you feel pertinent to the SUNY Charter Schools Institute's review.

Certification

I, Kimberly Kadziolka, certify to the best of my knowledge and ability that the information I am providing to the State University of New York/Charter Schools Institute in regards to my application to serve as a member of the board of trustees of BRICK Buffalo Academy is true and correct in every respect.

353 Broadway
Albany, NY 12246
(518) 445-4250 (phone)
www.newyorkcharters.org

INTRODUCTION

Serving on a public charter school education corporation board is a position of great trust and responsibility. The law charges trustees with overseeing the education of all students enrolled in each school the not-for-profit education corporation has the authority to operate, the expenditure of public and private monies directed to the school(s), and, if applicable, the oversight of any charter/education management organization (“CMO/EMO”).

The State University of New York Board of Trustees (the “SUNY Trustees”) requires all new education corporation board members be approved by the SUNY Charter Schools Institute (the “Institute”) pursuant to the terms of the education corporation’s Charter Agreement. The Institute uses this Request for Information (“RFI”) form as part of that process. Once the board elects a proposed trustee, the Institute requests the prospective trustee to complete the following form by providing answers to each of the items, and signing the certification.

Only in very rare cases does the Institute reject properly approved prospective trustees who have provided all information requested on this form. These cases are generally limited to prospective members who would have severe conflicts of interest in fulfilling their fiduciary or other duties as an education corporation trustee, who are proposed to be seated in violation of the education corporation’s charter or by-laws, or whose criminal history would disqualify them. Questions related to conflict of interest may be addressed to the education corporation’s counsel or counsel at the Institute.

Pursuant to New York’s Freedom of Information Law (“FOIL”), any personal information listed on or attached to this form (including the Charter School Trustee Contact Information form) that would constitute an unwarranted invasion of personal privacy will not be disclosed (home address, email, telephone number, etc.).

1. REQUEST FOR INFORMATION

A. Applicable Charter Agreement Provisions

The following image shows the applicable provision from the Model Charter Agreement (available at <http://www.newyorkcharters.org/wp-content/uploads/Model-Charter-July-2017.pdf>), which is the same or very similar to that of each education corporation's Charter Agreement:

- Section 2.3, *Selection of New Education Corporation Board Members*.

2.3 Selection of New Education Corporation Board Members. All Corporate Trustees shall possess appropriate qualifications for membership on the Education Corporation Board, as such qualifications are set forth in the Terms of Operation, and shall be seated pursuant to the following procedures. Prior to the appointment or final election of any new Corporate Trustee, the Education Corporation Board must submit to the Trustees (pursuant to a duly approved resolution of the Education Corporation Board) the name of the proposed Corporate Trustee and such individual must timely provide to the Trustees, in writing and/or in person, such background information as the Trustees shall require (the "**School Trustee Background Information**"). Within forty-five (45) days of receiving the name of the proposed Corporate Trustee and the School Trustee Background Information, the Trustees shall in writing reject or approve such individual. In the event that the Trustees do not provide in writing an approval or rejection within the forty-five (45) day time period, the proposed Corporate Trustee may be seated so long as such action would be consistent with the By-laws and any other applicable Terms of Operation. A failure by the Education Corporation or the proposed Corporate Trustee to timely provide the School Trustee Background Information to the Trustees shall be grounds for his or her rejection.

B. Applicable Laws and Regulations

None.

C. Discussion

In order to legally seat a person on a charter school board, the following procedures should generally be followed as well as any specific provisions contained in education corporation's by-laws:

- When a board seat becomes vacant or is created, the board (by committee or otherwise) should seek nominations for a person to fill the vacant seat with appropriate qualifications per the Charter Agreement *and* by-laws requirements.
- The board secretary or other administrator should review the by-laws to determine the proper number of trustees that may be seated on the board, and that the number is within the proper range (e.g., 7-11). If the board has more members than the upper end of the range, a request to amend the by-laws must be made to the Institute or the

education corporation may not fill the seat. In cases where the board is expanding the number of trustees (as opposed to filling a vacancy) the board must do so prior to the election of the proposed trustee (even if being voted at the same meeting) and clearly reflect same in the minutes.

- Note: the legal limits on board size are 5 minimum and 25 maximum, although best practice has shown boards of 11 or under to be effective.
- The board secretary or other administrator should review the following to determine the proper qualification of the prospective board member:
 - Charter Agreement section entitled “Governance; Education Corporation Board; By-laws” (Section 2.2 in recent charters) for the following:
 - compliance with the 40% rule (no more than 40% of the school board may be affiliated with any single entity unless the school has received a waiver from the SUNY Trustees); and,
 - compliance with provisions prohibiting or restricting board membership for persons associated with a CMO/EMO.
 - Charter Agreement Exhibit A, “Additional Assurances and Terms,” if any, which may contain restrictions on board membership or a waiver thereof;
 - Charter Agreement Exhibit A, “Terms of Operation;” any sections dealing with governance;
 - By-laws, which may:
 - state what type or “class” of trustee must be elected, e.g., parent, teacher representative, community member;
 - state any conditions that must be met prior to the election or nomination of a proposed trustee (vote of the parent/teacher organization; vote of partner organization, etc.);
 - direct how the trustee will be elected or appointed (super-majority vote, vote of corporate member, etc.); and/or,
 - state how long the term of a trustee will be. When vacant seats are filled, the new trustee serves for the remainder of the prior trustee’s term. When new seats are created, the board, or other methodology in the by-laws, may dictate the length of the term, which may be staggered with other terms. It is good practice for the secretary to keep a multi-year elections calendar to track each trustee’s term.

The education corporation board or corporate member elects or appoints the *prospective* trustee at a duly convened meeting of the applicable board with a quorum and following any by-laws restrictions on elections. The Institute will approve or reject such proposed

trustee in writing within 45 days of submission of *all* of the required documentation:

- complete *Request for Information, Prospective Charter School Education Corporation Trustee* (“RFI form”);
- resume or brief biographical information;
- updated list of board of trustees; and,
- evidence of proper election (e.g., signed resolution or meeting minutes reflecting vote).

If the Institute takes no action within the 45 day period, the person may be seated as a school trustee.

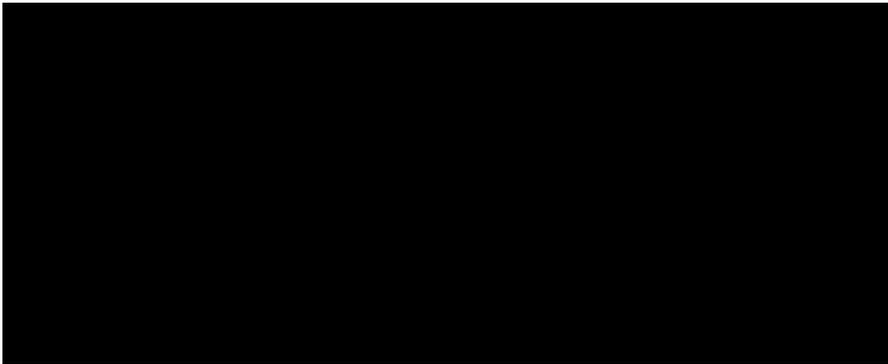

D. Responsible Tasks

- Submit a copy of the signed resolution electing the prospective trustee or the meeting minutes showing such election.
- Submit the original *RFI form*. After each prospective trustee reviews the by-laws, code of ethics and any conflict of interest policies of the education corporation, the board secretary or administrator should have each prospective trustee complete a RFI form, which the education corporation or proposed trustee must submit to the Institute together with a resume or brief biographical information.
- Submit an updated board list to the Institute reflecting the proposed trustee’s election.
- After approval by the Institute, the board secretary or other administrator should inform the new trustee, and all trustees, of his or her official seating on the board. The trustee may now be counted for purposes of quorum and vote.
- As a reminder, the education corporation must notify the SUNY Trustees within five (5) business days of any of the following education corporation trustee actions: removal; resignation; expiration of term without re-election; or, otherwise leaving the board.

INTRODUCTION

Serving on a public charter school education corporation board is a position of great trust and responsibility. The law charges trustees with overseeing the education of all students enrolled in each school the not-for-profit education corporation has the authority to operate, the expenditure of public and private monies directed to the school(s), and, if applicable, the oversight of any charter/education management organization (“CMO/EMO”).

The State University of New York Board of Trustees (the “SUNY Trustees”) requires all new education corporation board members be approved by the SUNY Charter Schools Institute (the “Institute”) pursuant to the terms of the education corporation’s Charter Agreement. The Institute uses this Request for Information (“RFI”) form as part of that process. Once the board elects a proposed trustee, the Institute requests the prospective trustee to complete the following form by providing answers to each of the items, and signing the certification.

Only in very rare cases does the Institute reject properly approved prospective trustees who have provided all information requested on this form. These cases are generally limited to prospective members who would have severe conflicts of interest in fulfilling their fiduciary or other duties as an education corporation trustee, who are proposed to be seated in violation of the education corporation’s charter or by-laws, or whose criminal history would disqualify them. Questions related to conflict of interest may be addressed to the education corporation’s counsel or counsel at the Institute.

Pursuant to New York’s Freedom of Information Law (“FOIL”), any personal information listed on or attached to this form (including the Charter School Trustee Contact Information form) that would constitute an unwarranted invasion of personal privacy will not be disclosed (home address, email, telephone number, etc.).

1. REQUEST FOR INFORMATION

A. Applicable Charter Agreement Provisions

The following image shows the applicable provision from the Model Charter Agreement (available at <http://www.newyorkcharters.org/wp-content/uploads/Model-Charter-July2017.pdf>), which is the same or very similar to that of each education corporation’s Charter Agreement:

- Section 2.3, *Selection of New Education Corporation Board Members*.

2.3 Selection of New Education Corporation Board Members. All Corporate Trustees shall possess appropriate qualifications for membership on the Education Corporation Board, as such qualifications are set forth in the Terms of Operation, and shall be seated pursuant to the following procedures. Prior to the appointment or final election of any new Corporate Trustee, the Education Corporation Board must submit to the Trustees (pursuant to a duly approved resolution of the Education Corporation Board) the name of the proposed Corporate Trustee and such individual must timely provide to the Trustees, in writing and/or in person, such background information as the Trustees shall require (the “**School Trustee Background Information**”). Within forty-five (45) days of receiving the name of the proposed Corporate Trustee and the School Trustee Background Information, the Trustees shall in writing reject or approve such individual. In the event that the Trustees do not provide in writing an approval or rejection within the forty-five (45) day time period, the proposed Corporate Trustee may be seated so long as such action would be consistent with the By-laws and any other applicable Terms of Operation. A failure by the Education Corporation or the proposed Corporate Trustee to timely provide the School Trustee Background Information to the Trustees shall be grounds for his or her rejection.

B. Applicable Laws and Regulations

None.

C. Discussion

In order to legally seat a person on a charter school board, the following procedures should generally be followed as well as any specific provisions contained in education corporation’s by-laws:

- When a board seat becomes vacant or is created, the board (by committee or otherwise) should seek nominations for a person to fill the vacant seat with appropriate qualifications per the Charter Agreement *and* by-laws requirements.
- The board secretary or other administrator should review the by-laws to determine the proper number of trustees that may be seated on the board, and that the number is within the proper range (e.g., 7-11). If the board has more members than the upper end of the range, a request to amend the by-laws must be made to the Institute or the education corporation may not fill the seat. In cases where the board is expanding the number of trustees (as opposed to filling a vacancy) the board must do so prior to the election of the proposed trustee (even if being voted at the same meeting) and clearly reflect same in the minutes.
- Note: the legal limits on board size are 5 minimum and 25 maximum, although best practice has shown boards of 11 or under to be effective.
- The board secretary or other administrator should review the following to determine the proper qualification of the prospective board member:

- Charter Agreement section entitled “Governance; Education Corporation Board; By-laws” (Section 2.2 in recent charters) for the following:
 - compliance with the 40% rule (no more than 40% of the school board may be affiliated with any single entity unless the school has received a waiver from the SUNY Trustees); and,
 - compliance with provisions prohibiting or restricting board membership for persons associated with a CMO/EMO.
- Charter Agreement Exhibit A, “Additional Assurances and Terms,” if any, which may contain restrictions on board membership or a waiver thereof;
- Charter Agreement Exhibit A, “Terms of Operation;” any sections dealing with governance;
- By-laws, which may:
 - state what type or “class” of trustee must be elected, e.g., parent, teacher representative, community member;
 - state any conditions that must be met prior to the election or nomination of a proposed trustee (vote of the parent/teacher organization; vote of partner organization, etc.);
 - direct how the trustee will be elected or appointed (super-majority vote, vote of corporate member, etc.); and/or,
 - state how long the term of a trustee will be. When vacant seats are filled, the new trustee serves for the remainder of the prior trustee’s term. When new seats are created, the board, or other methodology in the by-laws, may dictate the length of the term, which may be staggered with other terms. It is good practice for the secretary to keep a multi-year elections calendar to track each trustee’s term.

The education corporation board or corporate member elects or appoints the *prospective* trustee at a duly convened meeting of the applicable board with a quorum and following any by-laws restrictions on elections. The Institute will approve or reject such proposed trustee in writing within 45 days of submission of *all* of the required documentation:

- complete *Request for Information, Prospective Charter School Education Corporation Trustee* (“RFI form”);
- resume or brief biographical information;
- updated list of board of trustees; and,
- evidence of proper election (e.g., signed resolution or meeting minutes reflecting vote).

If the Institute takes no action within the 45 day period, the person may be seated as a school trustee.

D. Responsible Tasks

- Submit a copy of the signed resolution electing the prospective trustee or the meeting minutes showing such election.
- Submit the original *RFI form*. After each prospective trustee reviews the by-laws, code of ethics and any conflict of interest policies of the education corporation, the board secretary or administrator should have each prospective trustee complete a RFI form, which the education corporation or proposed trustee must submit to the Institute together with a resume or brief biographical information.
- Submit an updated board list to the Institute reflecting the proposed trustee's election.
- After approval by the Institute, the board secretary or other administrator should inform the new trustee, and all trustees, of his or her official seating on the board. The trustee may now be counted for purposes of quorum and vote.
- As a reminder, the education corporation must notify the SUNY Trustees within five (5) business days of any of the following education corporation trustee actions: removal; resignation; expiration of term without re-election; or, otherwise leaving the board.

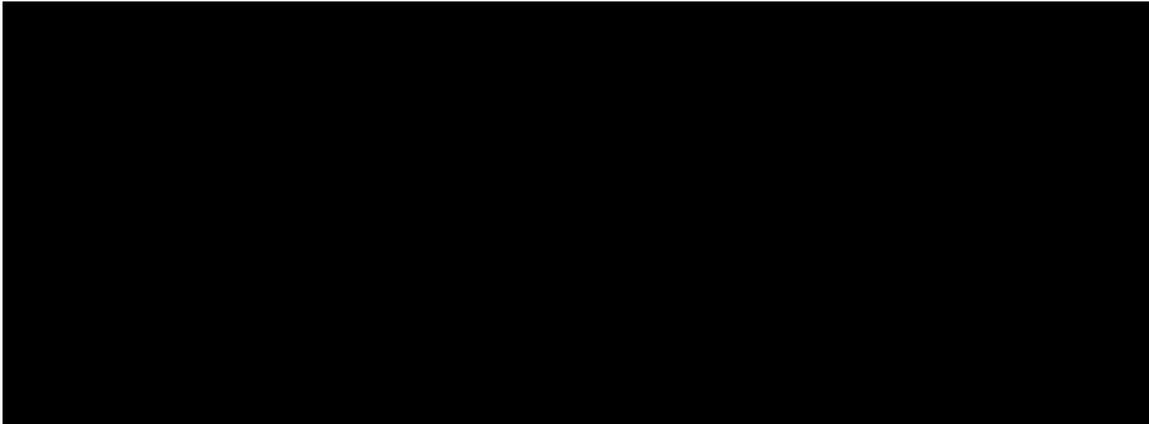

Request for Information Prospective Charter School Education Corporation Trustee Form

Background

1. Name of charter school education corporation for which you intend to serve as a trustee.

Brick Buffalo Charter School

2. Full name: Takesha L. Leonard

3. A brief educational and employment history (or you may attach a resume): **XX Resume attached.**

4. Please affirm that you will be at least 18 years old by the date of appointment to the education corporation's board. **XX I affirm.**

5. Please indicate whether you currently or have previously served on a board of a school district, another charter school education corporation, a non-public school or any not-for-profit corporation. **XX Does not apply to me.** Yes.

Name(s) of School/Not-for-Profit Corporation(s):

6. Please indicate if you have ever been convicted of a misdemeanor related to honesty or trustworthiness, or a felony. If the answer to this question is yes, please provide details of the offense, the date, disposition, etc.

XX Does not apply to me. Yes.

Details:

7. Please indicate if you have ever entered into a settlement agreement, consent decree, adjournment in contemplation of dismissal, assurance of discontinuance or other, similar agreement with the Securities Exchange Commission, Internal Revenue Service, the U.S. attorney general or the attorney general of any state, a U.S. or district attorney or any other law enforcement or regulatory body concerning the discharge of your duties as a board member of a for-profit or not-for profit entity or as an executive of such entity. If the answer to this question is yes, please provide details of the agreement.

XX Does not apply to me. Yes.

Details:

Conflicts

8. Please indicate whether you or your spouse knows any of the other charter school education corporation trustees, or prospective or former trustees. If so, please indicate the precise nature of your relationship.

XX I / we do not know any such trustees. Yes.

Details:

9. Please indicate whether you or your spouse knows any person who is, or has been in the last two years, an employee of the education corporation. If so, indicate the precise nature of your relationship.

XX I / we do not know any such employees. Yes.

Details:

10. Please indicate whether you or your spouse knows anyone who is doing, or plans to do, business with the education corporation or any of the schools it has the authority to operate (whether as an individual or as a director, officer, employee or agent of an entity). If so,

indicate and describe the precise nature of your relationship and the nature of the business that such person or entity is transacting or will be transacting with the education corporation.

XX I / we do not know any such persons. Yes.

Details:

11. Please indicate if you, your spouse or other immediate family members anticipate conducting, or are conducting, any business with the education corporation or any school it has the authority to operate. If so, please indicate the precise nature of the business that is being or will be conducted.

XX I / we do not anticipate conducting any such business. Yes.

Details:

12. If the education corporation or any of the schools it has the authority to operate contracts with an educational service provider (a management company, whether for-profit or not-for-profit), please indicate whether you or your spouse know any employees, officers, owners, directors or agents of that provider. If the answer is in the affirmative, please describe any such relationship.

Not applicable because the education corporation does not contact with a management company or charter management organization.

XX I/ we do not know any such persons.

Yes.

Details:

13. If the education corporation contracts with an educational service provider including a charter management organization, please indicate whether you, your spouse or other immediate family members have a direct or indirect ownership, employment, financial, contractual or management interest in the provider. For any interest indicated, please provide a detailed description.

N/A.

XX I/ we have no such interest.

Yes.

Details:

14. If the education corporation or any of the schools it has the authority to operate is partnered with an educational service provider including a charter management organization, please indicate if you, your spouse or other immediate family member anticipate conducting, or are conducting, any business with the provider. If so, please indicate the precise nature of the business that is being or will be conducted.

N/A.

XX I/ we or my family do not anticipate conducting any such business.

Yes.

Details:

15. Please indicate whether you, your spouse or other immediate family members are a director, officer, employee, partner or member of, or are otherwise associated with, any organization which filed an application in conjunction with the education corporation, i.e., is partnered with the education corporation. (For the identity of all such organizations, please consult with the chair of the board.) To the extent you have provided this information in response to prior items, you may so indicate.

XX Does not apply to me, my spouse or family.

Yes.

Details:

16. Please indicate any potential ethical or legal conflicts of interests that would, or are likely to, exist should you be approved for service on the education corporation board. Please note that being a parent of a school student, serving on another charter school's board or being employed by the school are conflicts that should be disclosed, but do not make you automatically ineligible to serve as a trustee.

XX None.

Yes.

Details:

17. Please indicate any individual, business, corporation, union association, firm, partnership, committee, proprietorship, franchise holding company, joint stock company, trust, nonprofit organization, or other organization or group of people doing business with the education corporation, and in which such entity you and/or your immediate family members have a financial interest or other relationship.

XX None.

Yes.

Details:

18. Please indicate how you would handle a situation in which you believe one or more members of the education corporation's board are involved in self-dealing (working for their own benefit, or the benefit of their friends and family). Please note that simply confronting the involved trustee is not usually a sufficient answer.

I would first investigate the situation for credibility. I would then meet with other fellow board members to inform them. I would then follow the procedure noted in our handbook.

Other

19. Please affirm that you have read the education corporation's by-laws and conflict-of-interest policies (Code of Ethics). **I affirm.**
20. Please provide any other information that you feel pertinent to the SUNY Charter Schools Institute's review.

Certification

I, Takesha L. Leonard, certify to the best of my knowledge and ability that the information I am providing to the State University of New York/Charter Schools Institute in regards to my application to serve as a member of the board of trustees of BRICK Buffalo Charter School is true and correct in every respect.

R-15 - District and School Relations

a. Relationship Strategies

Provide strategies for establishing and maintaining an ongoing relationship with the local school district, including any foreseen opportunities or challenges.

The BRICK Buffalo Academy Charter School applicant team knows that there has been a contentious relationship between charter schools and traditional public schools in Buffalo for some time. However, BBACS is focused on community development and, as a result, wants to authentically partner with BPS to ensure that positive practices impact as many city families as possible. As a result, the BBACS team has worked to learn as much as possible from BPS over the last year; for example, team members attended a “SAY Yes to Education Buffalo” event¹ and met with their Executive Director, Dave Rust, to more fully understand the level of wraparound supports that are provided at some of the BPS schools and to apply learnings from SAY Yes to the school’s proposed model. In addition, the team learned that New York state has recognized BPS for its work on culturally responsive teaching and learning. As a result, the team has worked to better understand the district’s efforts in this area, including by reviewing the district’s Emancipation Curriculum and meeting with Dr. Marcus Watson, one of its contributing authors, to understand how BBACS can update its existing social studies curriculum to best serve students in Buffalo.

BBACS has also attempted to initiate a relationship with the district through ongoing efforts such as sending certified letters to all of the BPS Board members to let them know about the proposed school and inviting them to attend community forums; sending ongoing e-mail newsletters directly to BPS Board members; and by reaching out to them directly to try to set up meetings to discuss the proposed school’s model and to learn from their work at BPS.

BBACS will also continue to pursue existing and future opportunities as outlined below.

Existing Partnerships

1. The BRICK Buffalo Regional Director of Operations, Mr. Barlow, has joined a charter school leaders’ roundtable that meets periodically with the district to discuss the needs of local schools and to share best practices.
2. The BRICK Buffalo RDO has already started the process of meeting with district representatives, including in departments that closely collaborate with charter schools (such as the transportation and food service departments). These meetings have proven extremely valuable in helping the BBACS team to learn how to best collaborate with the district. In addition, Mr. Barlow plans to continue to meet with representatives from these departments on an ongoing basis moving forward to build strong relationships and

¹ Say Yes Buffalo was established in 2011 by a diverse group of community leaders to strengthen the Western New York economy by investing in the education of Buffalo’s future workforce. <https://sayyesbuffalo.org/>

to ensure effective collaboration. Mr. Barlow also plans to continue to attend BPS Board meetings and community events.

Future Opportunities

1. **Collaboration.** The BBACS team values collaboration and plans to develop and share practices with the larger Buffalo school community including the BPS. The team believes there are **three main ways that it can offer support to the district**; each is described briefly below:

- a. **Ecosystem collaboration.** BBACS believes that students and families on the East Side of Buffalo can benefit from a robust network of social service supports. As a result, the school is committed to leveraging the BRICK network's extensive experience leading a Promise Neighborhood in Newark to ensure that these support services are in place for all East Side families. Consequently, as the BBACS team works to solidify its relationships with agencies to provide support to its students, the school also wants to do this work collaboratively with other schools to ensure that all families in the area can benefit from these services. As a result, BBACS plans to reach out to other schools on the East Side to understand what services they already provide and to develop ways that schools can partner for service delivery (for example, by allowing students from other schools to also attend the Back to School Barbecue and to receive related services, such as vision screenings or to get a physical). Since the BRICK network approach is focused on supporting the entire community, BBACS would want to make all ecosystem programming as widely available as possible, as BRICK has already done in Newark with its South Ward Promise Neighborhood.
- b. **Academic and SEL collaboration.** BBACS also believes that its team has significant capacity to provide professional development and academic support. As a network, BRICK currently plans to deliver 10 full days of professional development for the Buffalo team at the start of each school year and to support the facilitation of differentiated professional development for its schools on more than 30 Friday afternoons throughout the school year.

BBACS is open to allowing representatives from other schools to attend most of these professional development sessions free of charge, including for example, sessions for new teacher development focused on routines and procedures or content specific professional development sessions focused on the curriculum the school will use in various content areas, including its Ubuntu curriculum to drive students' social and emotional development. This may also include sharing lesson materials or program artifacts online for public access.

As an adjunct faculty member at the Relay Graduate School of Education, Mr. Esposito has provided training for principal supervisors, principals, and

instructional leaders, including sessions on strategic planning, data informed instruction, coaching adults, weekly data meetings and leading adult professional development. In his previous work of establishing a network of charter schools, Mr. Esposito regularly opened up PD to outside schools and interested educators. As an adjunct faculty member at Relay GSE, he also has experience providing professional development support directly to traditional school districts and would welcome the opportunity to include other local schools in BBACS development opportunities.

- c. **Building shared talent pipelines.** BBACS is also open to working with BPS and other charter schools in the area to collaboratively build additional pipelines for recruiting and supporting diverse teachers and leaders in Buffalo, since this is a key focus of the BRICK model, an area where the BRICK network has demonstrated success, and a critical regional need.

b. School Partnerships

Provide a description of low-performing schools in the area where the proposed charter school will be located and explain how the charter school can collaborate with those schools to share best practices and innovations.

Schools in the targeted areas of East Buffalo have very low proficiency levels:

- Red pinpoint icons represent district schools with less than 20% average proficiencies, and yellow points are schools with average proficiencies between 20 and 35%.
- Charter schools are represented by house icons, which have the same color coding for proficiency levels.
- Purple pinpoint icons represent schools without sufficient data for reporting.
- Proficiency is defined as scoring at level 3 or 4 on the 3–8 ELA and math state assessments

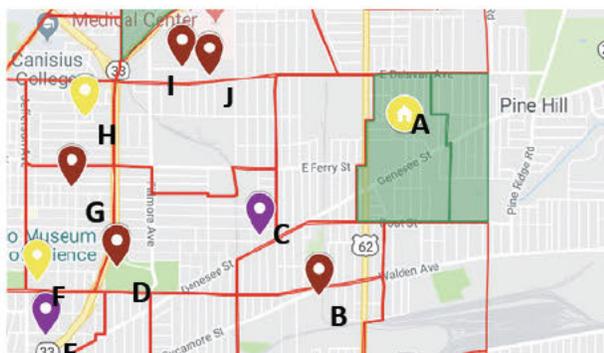

Figure 15.1 on the next page also shows recent proficiency percentages from schools in the area where BBACS proposes to open.

Figure 15.1 Local School Performance

School Name	Map Code	Zip Code	Type	Grades Served	Proficient in ELA (%)	Proficient in Math (%)
KING CENTER CHARTER SCHOOL	A	14211	Charter	K-8	34%	34%
HARVEY AUSTIN SCHOOL #97	B	14211	District	PK-8	15%	10%
BUILD COMMUNITY SCHOOL	C	14211	District	PK-8	N/A	N/A
PS 59 DR CHARLES DREW SCIENCE MAGNET	D	14211	District	PK-8	14%	11%
MARTIN LUTHER KING JR #48	E	14211	District	PK-1	N/A	N/A
STANLEY MAKOWSKI EARLY CHILDHOOD CTR	F	14208	District	PK-4	26%	15%
COMMUNITY SCHOOL #53	G	14208	District	PK-8	12%	8%
PS 74 HAMLIN PARK CLAUDE AND OUIDA	H	14208	District	PK-8	20%	19%
DR LYDIA T WRIGHT SCH OF EXCELLENCE	I	14214	District	PK-8	16%	9%
MATH SCIENCE TECH PREP SCHOOL-SENECA	J	14215	District	5-12	14%	6%

As the table shows, none of the schools met the state average passing rates for ELA or math. These passing rates are also consistent with the data shared earlier in *R-01ac - Community Need and Proposed School Impact*. Ultimately, area school performance data show low academic performance that strongly correlates with the poverty levels of the community—and a lack of school choice options that have demonstrated the ability to inspire significant academic gains and close the opportunity gaps experienced by East Buffalo residents.

Fortunately, BBACS believes that strong school-to-school collaboration can help improve the quality of schooling available to all community residents. BBACS looks forward to learning as much as possible from local schools, including traditional public schools, and sharing its resources and expertise as widely as possible to support other local schools. BBACS believes that BRICK’s track record of supporting traditional public schools, including schools that were among the lowest performing in the Newark Public Schools, means that their team will be uniquely positioned to collaborate with any local schools who may be interested. BBACS looks forward to developing partnerships with other schools—whether those partnerships relate to ecosystem services or academic programming—to support the ongoing empowerment of the East Side of Buffalo.

R-16ac – Facilities

a. FACILITY NEEDS

Describe the facility needs of the proposed school for each year of the charter term including any unique features necessary to implement the school design and academic program including:

- *The desired location of the school facility;*
- *The number of general education classrooms required each year;*
- *Any additional classroom space required for special education or ELL services, labs, specialty classes, and intervention or enrichment programs;*
- *Space requirements for administrative functions, food services, a nurse's office, and physical education; and*
- *If the applicants intend to offer a residence program for students, describe the facility requirements to support this program and overnight staffing and include specific and detailed information regarding the number of residence rooms, configuration, restrooms, food service, and other facility-related needs.*

BBACS conducted an in-depth review of socio-economic conditions and demographic data for the city of Buffalo by zip code to determine potential facility locations. This analysis confirmed that there was a significant need for additional high-quality schools and social services on the East Side of Buffalo, particularly in the zip codes of 14212, 14211 and 14215. As a result, the team investigated a variety of facilities within these zip codes as well as facility options in neighboring zip codes over a two-year period.

Based on the proposed school design, educational model, and proposed enrollment, BBACS worked to identify a facility that would accommodate at least 81 students per grade where each classroom could accommodate at least 27 students. BBACS also sought larger classroom sizes of at least 22 square feet per student in order to accommodate key parts of its model—specifically the school's literacy approach in lower elementary grades, which is based on a differentiated approach to reading instruction that involves students cycling through small group literacy stations. In upper elementary grades, BBACS will utilize larger scale student furniture to better accommodate older students with adequate space for learning activities. These larger classroom spaces were included as part of the year one (1) space requirements that guided the facility search and align to the school's proposed enrollment needs. Based on this initial facility planning, the school's proposed enrollment, and the school's proposed academic program, the BBACS team developed the list of space requirements for each year of the charter term that is described below:

For Year 1, BBACS will require:

- [6] general education classrooms;
- [2] additional classroom spaces for special education, intervention programs, or ELL services;
- [2] additional classroom spaces for specials, including music, performing arts, and PE;
- [6] administrative spaces, including offices for the principal, Vice Principal, Director of Operations, Social Worker, Family and Community Engagement Specialist, and Director of Special Education (whose space also needs a locking file cabinet);

- [1] space for a Nurse's office which has locking cabinets;
- [1] multipurpose space that can serve as a gymnasium, cafeteria, and event space;
- [2] spaces to serve as a teacher workroom and parent room; and
- [1] outdoor space for recreation.

For Year 2, BBACS will require:

- [9] general education classrooms;
- [3] additional classroom spaces for special education, intervention programs, or ELL services;
- [0] additional classroom spaces for science labs;
- [3] additional classroom spaces for specials, including music, performing arts, and PE;
- [8] administrative spaces, including offices for the principal, Vice Principals, Director of Operations, Nurse, Social Worker, Family and Community Engagement Specialist, and Director of Special Education;
- [4] multipurpose spaces for events and activities, including a teacher workroom, conference room, cafeteria, and parent room;
- [1] gymnasium; and
- [1] outdoor space for recreation.

For Year 3, BBACS will require:

- [12] general education classrooms;
- [4] additional classroom spaces for special education, intervention programs, or ELL services;
- [1] additional classroom space for a science lab;
- [3] additional classroom spaces for specials, including music, performing arts, and PE;
- [9] administrative spaces, including offices for the principal, Vice Principals, Director of Operations, Nurse, Social Worker, Family and Community Engagement Specialist, and Director of Special Education; and
- [4] multipurpose spaces for events and activities, including a teacher workroom, conference room, cafeteria, and parent room;
- [1] gymnasium; and
- [1] outdoor space for recreation.

For Year 4, BBACS will require:

- [15] general education classrooms;
- [4] additional classroom spaces for special education, intervention programs, or ELL services;
- [1] additional classroom space for a science lab;
- [4] additional classroom spaces for specials, including music, performing arts, and PE;
- [10] administrative spaces, including offices for the Principal, Vice Principals, Director of Operations, Nurse, Social Worker, School Psychologist, Family and Community Engagement Specialist, and Director of Special Education;
- [4] multipurpose spaces for events and activities, including a teacher workroom, conference room, cafeteria, and parent room;

- [1] gymnasium; and
- [1] outdoor space for recreation.

For the last year of our first charter period, the BBACS school facility will require:

- [18] general education classrooms;
- [4] additional classroom spaces for special education, intervention programs, or ELL services;
- [1] additional classroom space for a science lab;
- [4] additional classroom spaces for specials, including music, performing arts, and PE;
- [11] administrative spaces, including offices for the Principal, Vice Principals, Director of Operations, Nurse, Social Worker, School Psychologist, Family and Community Engagement Specialist, and Special Education teacher; and
- [4] multipurpose spaces for events and activities, including a teacher workroom, conference room, cafeteria, and parent room;
- [2] gymnasiums; and
- [1] outdoor space for recreation.

Table 16a below summarizes the number and type of space requirements for BBACS.

Table 16a: BRICK Buffalo Academy Facility Space Requirements

Space Description	Year 1	Year 2	Year 3	Year 4	Year 5
General education classrooms	6	9	12	15	18
Additional classroom spaces	2	3	4	4	4
Lab spaces	0	0	1	1	1
Specials classrooms	2	3	3	4	4
Administrative offices	7	8	9	10	11
Multipurpose spaces	4	4	4	4	4
Outdoor spaces	1	1	1	1	1
Gymnasium	1	1	1	1	2

B. FACILITY SELECTION

Describe the efforts to date to secure a facility for the school including:

- *If the applicants have identified a facility, a description of the facility and how it meets the school's needs including its location and whether it is new construction, part of an existing public or private school building, or must be renovated for use;*
- *How the proposed facility will be able to meet NYSED (outside of NYC), or New York City Department of Buildings School Use (sometimes denoted as use "G"), and state sanitary specifications by the commencement of the first year of operation;*
- *If another organization is assisting the applicants in obtaining facilities, provide information about such organization;*

- *If the applicants have not identified a facility, explain the plans for securing a suitable facility and preparing it for use by the time the school would open (including assuring that it meets specifications). Also, explain any contingency planning including the associated costs;*
- *If an applicant seeks to be located in any public school facility as a primary option, he or she must clearly state these plans and indicate that a facility has not been located unless all necessary governmental approvals for the facility have been obtained;*
- *If co-located space is the primary facility plan and the budget template has been completed under that assumption, but the applicant would also investigate other options, discuss the alternative plans in a narrative. If the Institute deems it necessary, a budget reflecting the secondary assumptions may be requested; and*
- *If another organization is assisting the applicants in obtaining facilities, provide information about such organization.*

BBACS's founding team is excited about securing a strong facility that meets its programmatic needs and solidifies a deep connection to the East Side of Buffalo. BBACS started the facility search in 2019 when it initiated a market analysis to determine the communities with the most need. J.R. Militello of Militello Realty, one of the largest commercial brokers in Western New York, prepared a list of 12 possible sites that could house BRICK's first school in the area. In early 2020, BRICK's Regional Director of Operations, Mr. Barlow, visited each potential site and consulted with the BRICK CEO after each visit. Mr. Barlow then created a Strengths, Weaknesses, Opportunities, Threats ("SWOT") analysis of the sites based on market analysis data and the comparable specifications of Achieve in Newark.

BRICK also began interviewing numerous potential real estate consultants, agents, and development companies in Western New York to help move forward the facility acquisition and development process. During this time, Ken Peterson of KXD Consulting Group LLC joined BRICK's National Board and began to provide free consultation on the facility search. As a leader of color who originally hailed from the target neighborhood in Buffalo, Mr. Peterson was excited to support the school's development. In addition, he was able to provide invaluable insights from his prior experience with charter schools in Buffalo and across the state, as well as from his professional background in real estate development and lobbying. Mr. Peterson then volunteered to support Mr. Barlow and the BRICK Buffalo Board through the facility search process. A brief summary of the key actions in that process over the last two years is provided below:

- BBACS partnered with Militello Realty to formally assess 12 potential facility options beginning in 2019.
- BBACS assembled its initial ad hoc real estate committee comprising Nidus CEO Greg Davis, Senior Partner at Blue Cardinal Capital Ken Peterson, BRICK Buffalo Regional Director of Operations Antwan Barlow, and BRICK Education Network CEO Dominique Lee.
- The facility search process continued in 2021, but was slowed by numerous factors, including the COVID-19 pandemic and the withdrawal of the 2021 charter application. During this time, Mr. Barlow met with Dr. Henry Taylor of the University at Buffalo to discuss possible collaboration based on Dr. Taylor's research and knowledge of the

children of the East Side of Buffalo. Dr. Taylor suggested the three story school building at 30 Rich Street as a possible site for the location of BBACS. This facility is owned by the King Urban Life Center and housed the King Center Charter School prior to their move to a larger building several years ago.

- In January 2022, BBACS narrowed down the list of potential sites to the three that best met its needs and reflected the feedback from community stakeholders who were interested in new school options that were centrally located within the East Side of Buffalo. As a result, BBACS decided to prioritize pursuing the King Urban Life Center location at 30 Rich Street, while also continuing negotiations with two contingency facilities (Demerly Hall, located at 2365 Main Street in Buffalo, and the site that housed the WNY Maritime Charter School at 266 Genesee Street in Buffalo).
- In February 2022, BBACS began lease negotiations with the King Urban Life Center, a mission-aligned organization that is excited about the prospect of having BRICK lease its facility and working together to support the needs of the East Side community. Since BBACS and the King Center are still in lease negotiations, the King Center has shared a letter of intent that outlines their excitement for this partnership and willingness to support the school's efforts to finalize a lease that is 1) at or below market rate and 2) supports healthy cash flow for the school throughout the charter term by backloading some of the lease payments. The letter of intent and draft lease terms are included in **R-16 - Facility Documents** and related costs are included in the budget submitted as part of **R-21ad - Fiscal Soundness**.
- Once lease negotiations are complete, BBACS will issue an RFP to identify a developer to support any needed renovations at the school. BRICK's Regional Director of Operations will then work with the developer selected to ensure that the facility at 30 Rich Street will meet the NYSED and state sanitary specifications by commencement of the first year of operation. Since the facility was recently leased by a charter school and a child care center, the audit and finance committee anticipates that only minor modifications would need to be made to the building prior to the launch of school in August of 2023. However, the budget submitted as part of **R-21ad - Fiscal Soundness** also includes additional funds to offset any necessary facilities costs.

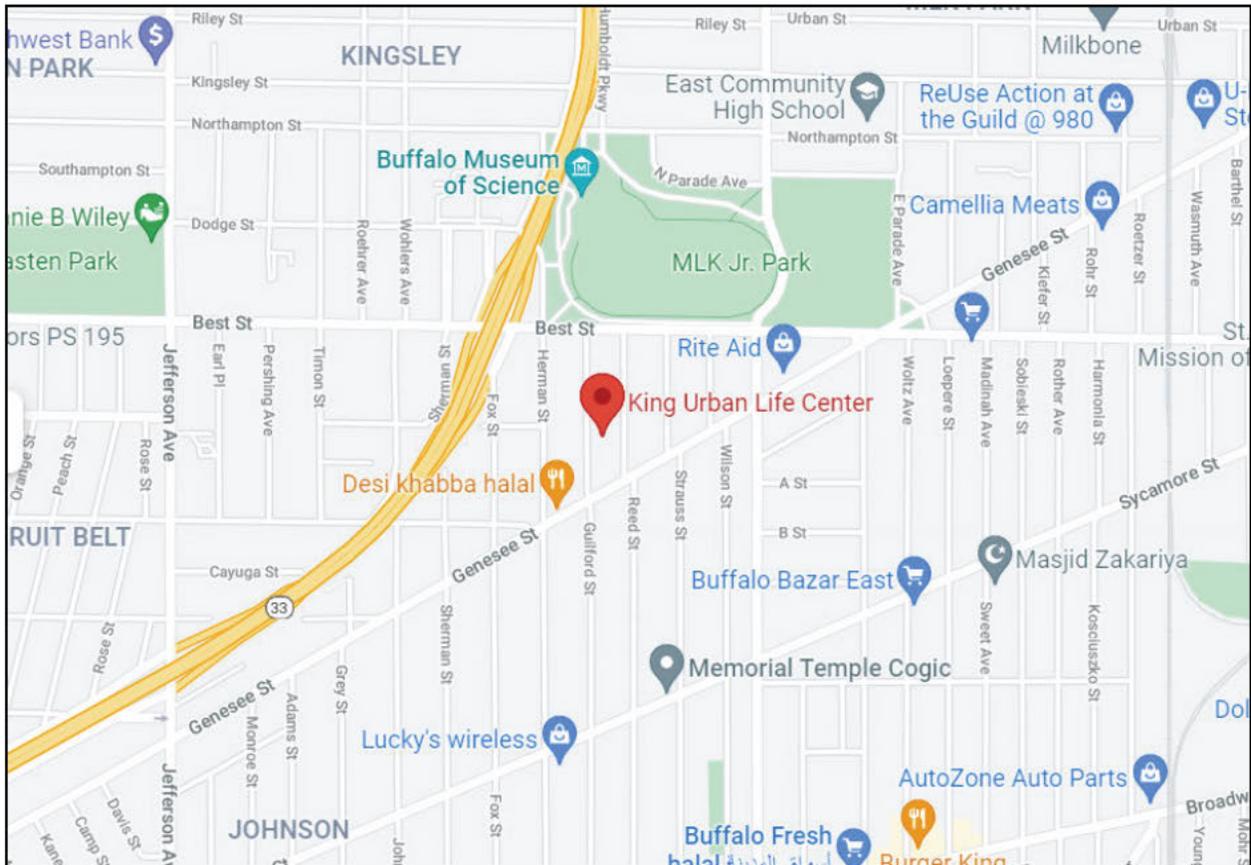

BRICK's Regional Director of Operations, Mr. Barlow, has worked closely with the BBACS Board of Trustees to involve them in all aspects of the facility search and acquisition process. For example, members of the Executive Committee (Yolanda Wood, Takesha Leonard, Adam Desmond, Chris Porpiglia, and Ramone Alexander) toured site options, and the Finance and Audit Committee was active in discussions regarding facility financing and lease options. As a result, facility decisions have been guided by the Board and will be formally made by the Board.

Proposed Site

Thirty Rich Street is located only a quarter mile from Martin Luther King Park, a beacon of the East Side of Buffalo and the center of Buffalo's Juneteenth Festival. This makes the neighborhood surrounding the building a very historic area for the African American community in Buffalo, which BBACS is excited to amplify through its curriculum materials. The location is also in close proximity to the intersection of Fillmore Avenue and Genesee Street; which makes

transportation convenient since these streets both run across the city. Thirty Rich Street is also an ideal site for BBACS due to the collaboration it will promote with the King Urban Life Center and close proximity to several additional ecosystem partners, including Jericho Road, Belmont Housing, and the Community Action Organization. In fact, Catholic Charities, another ecosystem partner, currently operates a food pantry out of an adjacent building. Map 16b below shows the proposed location of the school at the King Urban Life Center.

Map 16b: Proposed School Location

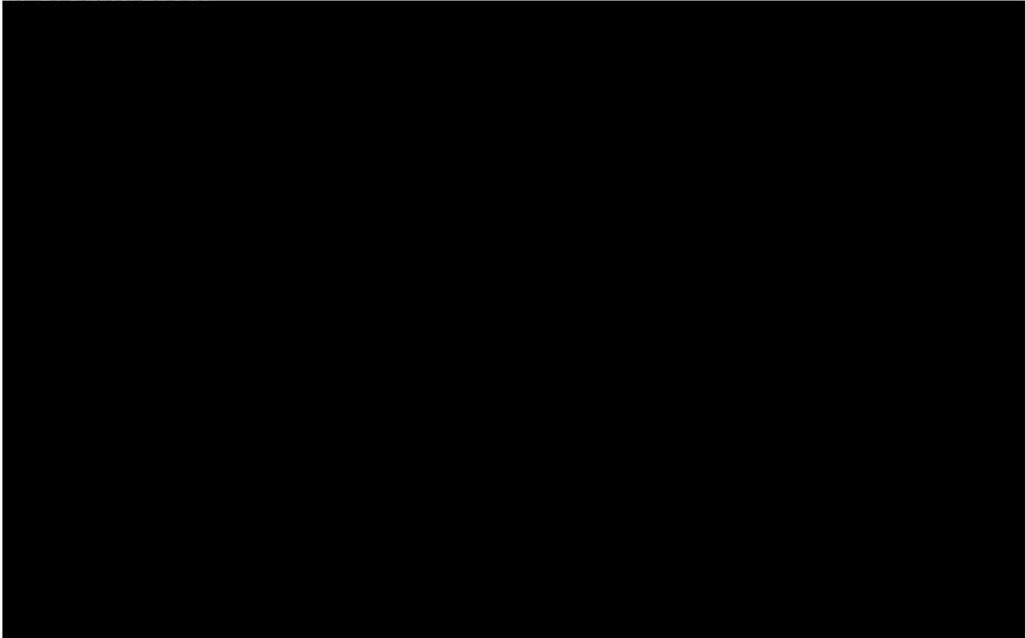

Picture 16c shows a street view of the building. The building is currently well-suited to the operation of a school since it previously housed the King Center Charter School and, even more recently, housed an early childhood program operated by the Community Action Organization.

Picture 16c: Picture of Proposed School

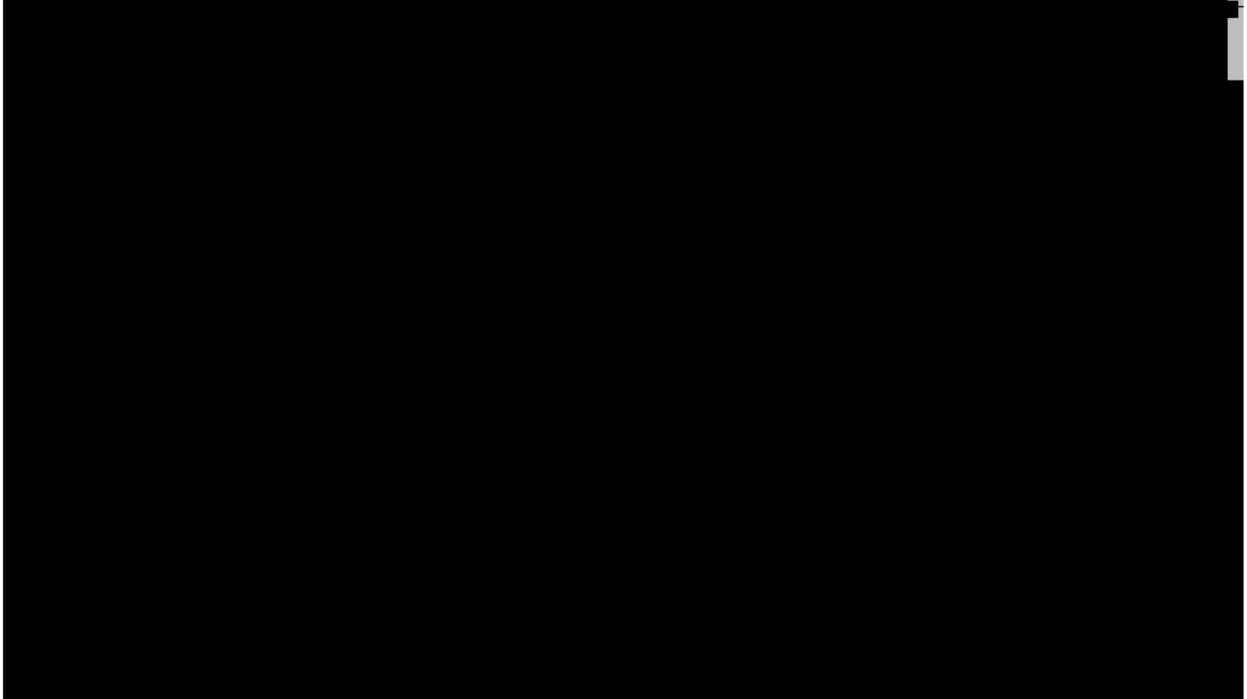

The facility at 30 Rich Street provides a total rentable square footage of 28,020, with 9340 sq. ft. on each of its three floors. Graphics depicting each of the three floors can be found below. The ground floor (basement) contains a kitchen, combined cafeteria/gymnasium, 2 bathroom facilities, office space, and mechanical room.

Picture 16d: Ground Level

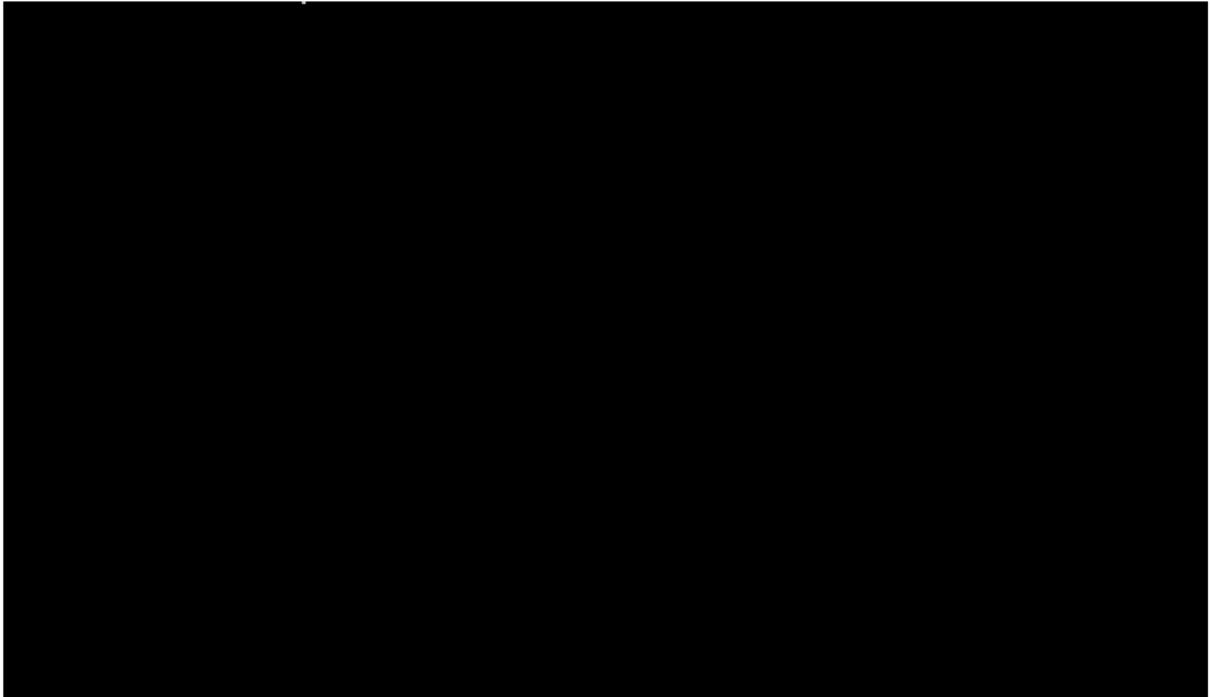

The first floor contains a reception area plus 3 offices, 6 classrooms, 3 bathroom facilities, and storage/additional office space.

Picture 16e: First Floor

The second floor contains 6 classrooms, at least 2 offices, 2 bathroom facilities, and additional storage space.

Picture 16f: Second Floor

Thirty Rich Street's current configuration will accommodate BBACS for the first three years of the charter term. However, the King Urban Life Center has also previously worked with an architect to plan for additional renovations to the building to house more students. In addition, the center also owns several additional parcels of land in the area immediately surrounding the school building and is interested in supporting the long-term growth of a BBACS campus. As a result, the team currently anticipates working with the King Center on the construction necessary to add the additional space needed during the charter term on site or, if necessary, continuing to explore other options for a future facility.

C. FACILITY-RELATED CONFLICTS OF INTEREST

If the charter school education corporation or its CMO or partner organization would own or lease a facility, provide a description of the ownership or lease arrangement indicating specifically any potential conflicts of interest and arrangements by which the education corporation would manage or avoid such conflicts. Note that in cases where there is a potential conflict, the Institute will likely require a fair market valuation of the cost of the facility supported by independent appraisers. Additionally, no education corporation trustee may have an ownership interest in a facility.

BBACS plans to lease its selected facility from the King Urban Life Center. Accordingly, there will be no conflict of interest between the BRICK Education Network and the charter school. Furthermore, no BRICK Trustee will have any ownership interest in the selected facility.

February 21, 2022

SUNY Charter Schools Institute
353 Broadway
Albany, New York 12234

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, the King Urban Life Center would also like to share its intent to negotiate a lease agreement with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe BRICK Buffalo would be a natural fit for our 30 Rich Street property and would provide much needed benefits to the residents of the East Side of Buffalo.

Based on recent meetings with BRICK Buffalo, the King Center has begun negotiations and plans to enter into a lease agreement with BRICK Buffalo that includes the following terms:

- A six-year lease agreement that corresponds with the planning year and 5-year charter proposal of BRICK Buffalo Academy and, based on preliminary negotiations, this lease agreement would provide for total rental payments over the term of \$1,365,100;
- A lease term that begins in January 2023;
- A shared vision of continuing the King Urban Life Center's commitment to the City of Buffalo and its immediate neighborhood;
- A shared vision of developing BRICK Buffalo's ecosystem of two-generation supports and aid to BRICK families and the surrounding community.

We also are committed to partnering with BRICK Buffalo in private and public philanthropic grant writing efforts to continuously raise funds to bring the joint visions of our organizations to fruition.

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Sincerely,

Sirgourney F. Cook, Executive Director
King Urban Life Center

Poole, Adam [redacted] Tue, Feb 15, 2022 at 3:31 PM

To: [redacted]

Cc: Claire White [redacted], Amy Downing [redacted], Sirgourney Cook [redacted], Emily Wyckoff [redacted]

Hi BRICK Team,

Looking forward to our meeting this afternoon. Just wanted to provide you with our lease proposal for further discussion at 5pm today.

- Year 0 - \$ 50,000
- Year 1 - \$150,000
- Year 2 - \$200,000
- Year 3 - \$250,000
- Year 4 - \$255,000 + \$100,000
- Year 5 - \$260,100 + \$100,000

Thanks.

Adam

R-17 – Food Services

Describe the plans for food services the charter school will provide, including plans for the provision of food services in the event that the physical school building must close.

As part of a commitment to making sure the whole child thrives at BBACS, the school will provide nutritious food every day. Under the Community Eligibility Provision (CEP)¹ of the USDA, all BPS students are entitled to one free meal at breakfast, lunch, and after school. This program includes the charter and private schools located within the BPS geographic area. Therefore, BBACS will apply to receive students' daily meals through the district. Mr. Barlow, the BRICK Buffalo Regional Director of Operations, has already been in touch with the Food Services department at BPS to determine the applicable steps and timelines. All BBACS meals will comply with the New York State Education Department and the National School Lunch Program (NSLP) guidelines. Students also have the option to bring their own meal(s) to school and not partake of the school's offerings.

BBACS's Director of Operations, Family and Community Engagement Specialist, and Office Manager will work with families to complete the School Meals Application Form to document students' eligibility for free and reduced-price meals. Based on an analysis of East Side demographics and meetings with ecosystem partners, BBACS anticipates that approximately 90% of students will qualify for free and reduced-price meals. This metric is also consistent with the current percentage at Achieve Community Charter School, BRICK's fresh start charter school in Newark. Currently, 94.1% of Achieve's students qualify for free or reduced lunch. However, BBACS has decided to create a budget at a much more conservative rate, estimating that 85% of students will qualify.

In the event that the school facility must close, the Director of Operations, Family and Community Engagement Specialist, and Office Manager will coordinate a combination of meal pick up times outside the school building and/or drop offs at centralized locations convenient to students' homes. BBACS will make every effort to make sure food services are consistently provided for all students, and will utilize the logistical experiences of BRICK's schools in New Jersey, to successfully execute upon that promise.

¹ The Community Eligibility Provision (CEP) is a non-pricing meal service option for schools and school districts in low-income areas. CEP allows the nation's highest poverty schools and districts to serve breakfast and lunch at no cost to all enrolled students without collecting household applications. Instead, schools that adopt CEP are reimbursed using a formula based on the percentage of students categorically eligible for free meals based on their participation in other specific means-tested programs, such as the Supplemental Nutrition Assistance Program (SNAP) and Temporary Assistance for Needy Families (TANF). <https://www.fns.usda.gov/cn/community-eligibility-provision>

R-18 – Health Services

Describe the plans for the health services that the charter school will provide, including provision for a school nurse, medical space and equipment, immunizations records checks, and medication to students within the applicable law.

BRICK Buffalo Academy Charter School will fully comply with all applicable health services regulations as required by the NYSED Office of School Health Services. As physical, mental, and social-emotional health services are integral, co-academic components of BRICK Buffalo Academy, we will also provide supplemental services and leverage our emerging partnerships with community agencies to attend to the wellness of the whole child and their families to break down external barriers to a successful learning experience.

School Nurse

We will attempt to secure nursing services from the Buffalo Public School District, but have planned and budgeted for hiring a full-time nurse as a contingency. The nurse will be a licensed registered nurse with a valid and current New York State license. Our facility will include a room dedicated for health services that is compliant with all building and health codes.

It will be the nurse's responsibility to provide the following health services:

- Emergency care for ill or injured students;
- Securely store and dispense medication, including for students who require daily dosages;
- Compliance with and enforcement of mandatory immunization requirements;
- Monitoring of students' health;
- Provision of health services such as vision and hearing screening;
- Treatment for students who are ill or injured; and
- Maintenance of students' cumulative health records. The school will store all health records for enrolled students in a secure location to which only authorized personnel will have access.

The school nurse will also be responsible for keeping records of all visits and documenting these visits in the students' cumulative health records. Parents will be expected to provide emergency contacts in the event their child becomes ill or is injured; this information will be maintained in students' health records and updated annually. The school nurse will procure and maintain all furniture, supplies, and equipment needed to provide health services, including an on-site automated external defibrillator (AED) to be used in the event of emergencies. At least two staff members will be trained in the use and operation of the AED should the need arise at the school site or during any off-site school events. Lastly, the school nurse will complete all correspondence regarding the aforementioned responsibilities.

Immunizations

We will ensure that all students comply with the New York State requirements for immunization. These requirements include immunizations for:

- Diphtheria, tetanus, pertussis (DTaP, DTP, Tdap)

- Polio (IPV, OPV)
- Measles/mumps/rubella
- Hepatitis B
- Varicella
- COVID-19 (though not currently legally required, BRICK Buffalo Academy will strongly encourage all students be fully vaccinated)

Per regulations, parents/guardians must present documentation to the BRICK Buffalo Academy's personnel confirming that their child(ren) has received all the doses of the required vaccines or at least one dose of each of the required vaccines and is waiting to receive the subsequent dose(s) at the appropriate time intervals. Immunization may be waived in accordance with Public Health Law. Exemptions to immunizations may be granted if a licensed physician certifies that such immunization may be detrimental to the student's health or if the student's parent/guardian holds genuine and sincere religious beliefs that are contrary to such immunizations.

Medication

For students who need medication administered during school hours, BRICK Buffalo Academy will require, in writing, a letter from their physician showing medical necessity and permission from the child's parent/guardian, or an Authorization for Administration of Medication to Students. Only those medications necessary to maintain the student during the instructional day and which must be given during school hours will be administered in school. Any student who is required to take medication during the regular school day or while participating in school-sponsored activities (e.g., field trips, athletics) should comply with the procedures described below. All medication, including over-the-counter (OTC) drugs, must be prescribed by a licensed prescriber. All medication must be sent with the pharmacy label attached. All written orders for prescription and non-prescription OTC medication will need to include the following:

- Student's name and date of birth;
- Medication name;
- Medication dosage and route of administration;
- Conditions under which the medication should be administered;
- Dose frequency and time(s) of administration; and
- Prescriber's name, title, signature, and phone number.

Students who require medication either on a daily or as needed-basis, such as students with asthma, must have a current Authorization for Administration of Medication to Students form on file. Diabetic students requiring blood sugar monitoring must have a glucose monitoring form on file. Blood sugar monitoring and the administration of insulin will be performed by the school nurse. For certain medications, especially controlled substances, best practices include counting the medication upon receipt and periodically thereafter. Any discrepancies will be reported to the student's parent or guardian immediately.

Students will be sent to the health services office daily at the prearranged time to receive their medication, all of which will be stored in locked cabinets, drawers, or refrigerator in the health services office, except for students with documented permission to carry and self-administer their

own medication. Controlled substances will always be secured and will never be left open or accessible to the public at any time. All medication orders must be renewed annually or when there is a change in the medication prescription, dosage, or procedure. If the nurse is not at work due to illness, personal reasons, etc. BRICK leadership will utilize a per diem nurse through our partnership with Jericho Road to ensure student health services continue uninterrupted.

The BRICK Buffalo Academy nurse, with support from the school principal, will communicate to parents, students, and staff the requirements for the administration of medications in the school. We will seek to avoid misunderstandings by widely circulating the requirements. These requirements for the administration of medication in school will be clearly communicated in our parent handbook, school publications/calendars, inserts with enrollment materials, and mailings to physicians and/or local health care partner organizations.

Health Regulation Compliance

The nurse will oversee the school's compliance with all applicable health regulations, including the immunization program. BRICK Buffalo Academy will comply with all requirements pursuant to Public Health Law §2164 and the Commissioner's Regulations 10NYCRR§66-1. Upon enrollment, BRICK Buffalo Academy will ensure all students have the necessary immunizations and that the school has the proper associated records. These immunizations include, but not limited to, diphtheria, tetanus, and pertussis (DTaP/DTP/Tdap), measles, mumps and rubella (MMR), hepatitis B., chickenpox, meningococcal conjugate (MenACWY), haemophilus influenzae type b conjugate (Hib), and pneumococcal conjugate (PCV). BRICK Buffalo Academy will comply with all health services requirements and expectations, as designated by Education Law §901–§914 and §136 of the Commissioner's Regulations.

All incoming kindergarteners will be required to have a current physical examination and to provide records of such to the school within 30 days of the start of the school year. If such a record is not produced, the parents/guardians will be provided with information to obtain the records as well as support from our health partners.

Developing an Ecosystem of Support for Wellness

BRICK schools use a holistic learning approach to ensure all scholars are on an unimpeded path to unlocking their limitless potential. This approach not only focuses on rigorous academic programming, but also intentionally provides “out of the classroom” supports to break down external barriers to a successful academic journey. At Brick Buffalo Academy, our leaders and staff members are committed to developing an ecosystem of support for wellness that attends to the mental, physical, and social-emotional health of all students. This will enable them to build positive relationships, demonstrate empathy towards others, manage emotions, cope with challenges, and live full lives. Our social-emotional programming, specifically, is described in detail in *R-10a - Culture and Discipline*.

Access to quality health care is particularly critical to ensuring BRICK Buffalo Academy scholars are healthy and ready to learn. We will partner with the Jericho Road Community Health Center for the entire charter term to provide comprehensive health services for families whenever possible. Takesha Leonard, BRICK Buffalo Academy's proposed Board Vice Chair, is currently the Medical Director at Jericho Road and has provided a memorandum of understanding that

outlines our plans to work together to provide the services needed to our families. Jericho Road provides comprehensive services to the East Side community; including, but not limited to, primary care, pediatric services, behavioral therapy, physical therapy, home therapy, and facilities that include an on-site gym and pharmacy for current patients. The BRICK team selected Jericho Road as a partner because of the organization's long standing investment in and advocacy for the East Side and mission-alignment. Jericho Road works with families in culturally sensitive ways that honors their unique needs; these include trauma informed practices and intentionally working to mitigate the historical barriers that some racial, ethnic, and socio-economic groups have had in accessing high quality health care.

We see our partnership with families as essential to our students' success. We have a committed focus on creating a welcoming, open-door policy that creates a safe, instructive, and healthy space for families. We aim to create a community within the walls of the school. At a minimum, we commit to meetings between each family and the school social worker to ensure families feel comfortable reaching out for support and fostering accessible communication. We plan to offer onsite student physicals and eye exams as part of the annual Back to School BBQ, as well as twice annual visits from a dental clinic to the school to assist students with teeth cleaning and check ups if needed. BRICK Buffalo Academy will also be proactive in determining families' evolving needs via surveys administered as part of new student home visits. To proactively promote COVID-19 vaccination in particular, we will partner with local health experts who can answer families' questions about COVID-19 vaccines and dispel any myths or concerns. We will also work to hold an on site vaccination clinic.

As a way to document the various supports students receive and evaluate their collective efficacy, BRICK Buffalo Academy will utilize BRICK Education Network's already customized database to track the social-emotional and physical health data of students. This system is compliant with HIPPA and only shared with appropriate stakeholders with parent consent. For example, this database will monitor students' critical health supports such as annual physicals, eye exams, and biannual dentist visits. We will use this data to ensure the ongoing holistic development of our students--and to provide strategic support to families as needed wherever, and whenever, gaps are discovered.

R-19-Transportation

19. Transportation

Describe the transportation arrangements for students, including arrangements for students who would not qualify for public school transportation under Education Law §3635. Also describe any supplemental transportation arrangements planned with sending school districts. Include a discussion of any transportation for Saturday school, test preparation, or any transportation that does not align with district options.

Transportation Overview

BRICK Buffalo Academy Charter School students will be offered transportation in accordance with the transportation policy for nonpublic schools and as required under Sections 285(4)(b) and 3635 of Education Law. The regional office of BRICK Buffalo has been building relationships with various representatives from the Buffalo Public Schools, including the transportation office, to better understand the procedures for charter schools to access transportation services. In fact, the BRICK Buffalo Regional Director of Operations has already had multiple meetings with Cheryl Kennedy, the BPS Director of Transportation, who is aware of the proposed school's model and its transportation needs.

At this time, BPS provides transportation to all interested charter schools within the city of Buffalo. As a result, the BRICK Buffalo RDO will work with the BPS transportation department to coordinate transportation for students residing more than .7 miles but less than 15 miles from their identified bus pick-up point to the school. Students residing less than .7 miles from the school will typically not receive bus services. Families are responsible for submitting their transportation requests to their respective districts by April 1st for the following school year. BBACS will incorporate the transportation request documentation in the registration documentation for students. In addition, BBACS staff will proactively work with all families who are interested in enrollment to ensure that they can correctly complete the transportation request documentation prior to the April 1st deadline.

The BRICK Buffalo RDO has also attended multiple meetings of the Buffalo Charter School Leader Collaborative and had multiple meetings with Anna Hall and Michael Good from the New York Charter School Association ("NYCSA") to better understand the unique challenges of securing and maintaining effective transportation in Buffalo. As a result, the applicant team is well aware of the current status of transportation in BPS, including that charters are often not offered transportation times that are consistent with their instructional schedule and that there are frequent disruptions in service. Following several conversations with other charter schools located within the BPS geographic area, it is also apparent that charter schools often deal with late morning time slots for student pickup and late student drop off. To mitigate these issues, the BRICK Buffalo Regional Office will continue to develop a relationship with the BPS as well as proactively employ the following mitigation strategies:

- **Establish clear times early.** BBACS plans to begin meeting with the BPS office of transportation immediately after charter approval to secure times. The school will document requests for specific route times that are consistent with its approved charter. If the school is unable to initially secure routes at the preferred times, BBACS will consider

slight modifications to its program that will not impact the educational experience of children. For example, to start and end the entire day 15 minutes later. However, if BBACS is not able to find a mutually agreeable solution, it will engage NYCSA staff and legal counsel if needed.

- **Elevate parent concerns.** Due to family concerns with transportation in Buffalo, the school's Director of Operations will maintain a log of all transportation concerns received from families as well as all interruptions in service caused by the bus company (such as any delayed arrival or departure of buses). The Director of Operations will review this log with the BPS transportation department at monthly meetings to determine if there are ways to strengthen ongoing transportation service. In addition, if the transportation contract includes financial remedies for gaps in service, the DO will partner with BPS to seek those remedies from the bus company.

In addition, BBACS realizes that families who have newly enrolled in a charter school may be more likely to unenroll their children if they experience transportation challenges during their first few weeks of enrollment. As a result, BBACS is also committed to several specific strategies to mitigate this challenge:

- **Early education.** BBACS will educate families about typical challenges they may have during the first few weeks of the year with transportation and how to respond to them, including how to contact the bus company, how to contact all administrators, and how to get additional support if needed. This education will take place during new student home visits and at the Back to School Barbecue.
- **Admin on call.** BBACS will also establish that all administrators must be on call in the evenings for the first month of the year to support any concerns with transportation. A different administrator will be on call each evening, one day per week, to field calls and support families with any transportation challenges (including the Superintendent/RDI, RDO, Principal, VP of Instruction and DO in year one).
- **Riding buses.** BBACS will have its City Year staff ride buses in the mornings and afternoons for the first month to ensure routes can stabilize and drivers are supported to ensure high quality culture on buses. For example, the school currently plans to leverage three City Year staff members to ride routes each morning and three different City Year staff members to ride the buses each afternoon.
- **Flexible first period.** BBACS also has a standard school schedule that would ensure that students spend the first 30 minutes of the day engaged in the social emotional learning block. Fortunately, this instructional block is designed so that students are exposed to similar content throughout each week of instruction so missing one day of SEL instruction would not cause a significant challenge. As a result of having SEL first period, students that arrive late would most likely still arrive in time for core academic instruction. In addition, the school's Director of Operations would work to ensure a seamless integration of late students into class, including, when necessary, by ensuring that students received individualized attention from one of the instructional staff members (such as by ensuring a K-2 teacher met individually with a late student or students to help them catch up on the morning activity that other students were completing).
- **Offer driver support.** BBACS also recognizes that there has been a national shortage of

school bus drivers and, as a result, is prepared to support the district's transportation provider in any way possible to ensure high quality service to students in Buffalo. This includes ensuring that BRICK families are aware of open positions at the bus company as part of the network's emphasis on workforce development. In addition, the BRICK Education Network will support by establishing incentives for drivers, including, for example, providing drivers with coffee or breakfast and school paraphernalia.

- **Recovery driver.** BBACS also plans to closely monitor the log of challenges in service maintained by the Director of Operations to determine any immediate adjustments that need to be made to transportation. Should consistent morning pick up times become a significant issue during the start of the first year of operation, BBACS will consider making a budget adjustment to provide additional supplemental transportation support on a temporary basis. This additional transportation could take the form of providing transportation for students who want to attend school for the day but were not picked up by their regular bus driver due to an error or significant delay in service.

In the event that early pick-ups and/or late drop-offs become chronic, and cannot be solved by remedies established in the transportation plan or the mitigation strategies named above, BBACS will employ one of two temporary plans for transportation. These include:

1. Based on conversations with NYCSA staff, early pick-ups and/or late drop-offs typically occur within an hour of scheduled school arrival and dismissal times. Therefore, should chronic early pick-ups and/or late drop-offs become standard, BBACS may extend its school day to include pre-arrival and/or after school programming consisting of supervised coverage and enrichment activities for students that experience abnormal arrival or departure times. BBACS will utilize its City Year staff members as well as the resources of its ecosystem in the development of this programming.
2. BBACS will secure additional student transportation services from First Student Transportation or another local vendor.

While the two transportation proposals above mitigate bus scheduling challenges, both provide only temporary solutions. If, by the middle of Year 3 of the first charter period, chronic early pick-ups and/or late drop-offs continue, BBACS will explore a permanent, non-District student transportation alternative for Year 4 of the first charter period. BBACS believes that to be a viable option beginning in Year 4 because the school's enrollment is projected to generate a budget surplus in an amount sufficient to consider paying for private transportation services. Lastly, if absolutely necessary, BBACS will consider making more significant adjustments to the school schedule in line with the bus schedule provided by the BPS.

Federal Transportation Requirements

BBACS will work with the BPS to provide transportation for any student identified as residing in temporary housing under the McKinney-Vento Homeless Education Assistance Act or who requires special transportation accommodations as identified in the student's IEP and/or 504 plan.

Special Education Transportation

As with all students who are in need of transportation, BBACS will work directly with the BPS to provide transportation for any student with special needs who requires specific transportation. BBACS will be proactive in making these arrangements and will make sure that all necessary contracts and logistics are in place prior to the start of the school year.

Other Transportation

Due to the extended school year, the BBACS school calendar will include an additional 11 school days for students. For those days, BBACS will provide normal busing for students through a self-funded contract with a transportation vendor. The current transportation vendor for the BPS, First Student Transportation, routinely provides such services to charter schools. Arrangements (including scheduling and pricing) for alternative busing will begin in April of the preceding school year. The finalized school calendar and transportation plan will also be provided to the transportation vendor prior to the start of the first day of school. The estimated costs incurred by BBACS are reflected in the operating budget, which assumes an expense of \$600 per bus route for two routes for 12 days of service during the year one budget (this figure is inclusive of an extra day of service in the event that BBACS can not fully align all other parts of its school calendar directly to the BPS calendar).

R-20. Insurance

Describe the insurance coverage the charter school education corporation will carry for the school including the name of the insured and amounts of insurance for liability, property loss, and personal injury and any school owned or leased vehicles or other property. Please include the costs for annual premiums in the proposal budget(s).

Insurance

BBACS will maintain insurance coverage pursuant to the applicable laws, including workers' compensation, employer's liability insurance, student accident insurance, and commercial umbrella insurance. Our team sought quotes for comprehensive insurance coverage and have selected EPIC Insurance Brokers & Consultants, which came highly recommended and offers the most competitive rates. EPIC provided the parameters below and the corresponding premiums are included in the budget submitted as part of **R-21e – Budget Template**. In addition, a copy of EPIC's full quote can be found in **R-23b - Supplemental Attachments**.

COMMERCIAL PACKAGE POLICY Includes: Property - \$3,689 Liability - \$8,790 Inland Marine - Included Crime - \$2,750 Cyber - \$3,180	\$ 18,409
STUDENT ACCIDENT Excess of any other collectible insurance	\$4,968
COMMERCIAL AUTOMOBILE POLICY	\$ 3,535
COMMERCIAL EXCESS LIABILITY POLICY (UMBRELLA)	\$ 11,200
WORKERS' COMPENSATION & EMPLOYER'S LIABILITY	\$ 38,210
TOTAL	\$76,322

The Regional Director of Operations of the BRICK Buffalo Regional Office will work with EPIC to procure the policies for the school after charter approval. Copies of each insurance rider will be saved electronically on a shared drive and located in an insurance binder in the main office. The securing of all insurance policies will follow state and school procurement policies.

R-21ad - Fiscal Soundness

a. Budget Narrative

Discuss in narrative form how the startup budget plan, the first-year operational budget and cash flow, and the five-year budget plans are fiscally sound and that sufficient startup funds would be available to the proposed school. Provide the rationale for, or source of, the assumptions upon which the budgets rest, noting specifically which expenses rely on funding from soft money and when the funding for these expenses will transfer to recurring revenue streams, and explain how the budgets support the implementation of the academic program described in the proposal. Due to the financial challenges of the COVID-19 pandemic and the resulting uncertainty of economic conditions, the Institute also encourages applicants to consider multiple revenue sources, prepare for revenue receipt timing issues, and incorporate backstop strategies.

BRICK Buffalo Academy Charter School's proposed budget for the charter term has been developed based on a thorough process designed to ensure that it reflected both the realities of running a school in Buffalo and a clear desire to operate a successful school on sustainable public revenues over time. As a result, this budget represents a significant update to the budget that was shared last year. To create this updated budget, the BRICK Buffalo regional directors participated in multiple meetings with the New York Charter School Association, including Anna Hall and Michael Good, to review all aspects of the draft budget. These meetings helped the team further refine the assumptions for costs based on Ms. Hall and Mr. Good's experience as operational leaders in New York state. In addition, the BRICK Buffalo regional directors participated in numerous meetings with the BBACS audit and finance committee to review early drafts of the budget and to refine those drafts to ensure that they were appropriately conservative. These efforts led to the budget template that is shared in **R-21e - Budget Template**, which the Board believes is a conservatively built budget that addresses the needs of the school's program while also ensuring long-term financial sustainability.

Start Up Costs

The BRICK Buffalo Academy Charter School budgets were developed with the goal of establishing a high-quality public school option for families that could be sustained on government revenues by the fifth year of operations. The current draft budgets achieve that goal, ensuring that by year five the school expects to produce a significant net income of \$382,557. The proposed budgets also show that the school has the ability to ensure that its revenues exceed its expenses during each year of the charter term, including the incubation period.

BBACS recognizes that most charter schools struggle to fund all aspects of their academic program during their first year of operation since schools have considerable fixed costs to open that far exceed the revenue generated by initially enrolling small cohorts of students, which is widely accepted as a best practice. However, BBACS is fortunate to not need to sacrifice any aspects of its core program during the early years of the charter term. Instead, BBACS will receive additional fundraising support from the BRICK Education Network. BRICK has successfully been awarded several large sources of grant income that would support the launch of BRICK Buffalo Academy Charter School. These grants include funds from the highly competitive national US Department of Education CSP grant, the Charter School Growth Fund, and the Cullen Foundation in Buffalo. Letters of commitment are shared as part of **R-21f - Letters of Commitment**. These sources of revenues can also be found in the budget submitted as part of **R-21e -**

Budget Template. These development funds will be used to support the launch of the school and will ensure that the school is able to produce a net income even in the early years of the school. For example, the draft budget projects a net income of \$123,871 during the incubation period and \$59,143 in the first year of the school's operation. This net income is significant because most charter schools struggle to have a positive net income during the first few years of operation.

Pre-Opening

The pre-opening or incubation year will be funded by the grant sources previously described, including funds from BRICK's Federal CSP award, the Charter School Growth Fund and the Cullen Foundation. The estimated expenses for the incubation period include \$576,129, which will be primarily used to cover the full-time salaries of the staff necessary to launch the school successfully. These staff members will include the BRICK Buffalo Regional Director of Instruction/Superintendent and the BRICK Buffalo Regional Director of Operations, who will be responsible for establishing the region and ensuring strong local delivery of support from the BRICK Education Network that meets the needs of the school in Buffalo. In addition, the incubation period budget also includes funds to hire the school principal and the Director of Operations. These positions represent the two most senior staff positions at the school and will play a critical role in ensuring the successful launch of the new school. As a result, BRICK plans to hire both of these positions by July 1st of 2022 so that both staff members can participate in a full year-long residency to learn the BRICK model and collaborate on ways to adapt that model to the needs of the students and families in Buffalo before opening. The incubation period budget also includes funds for a Family and Community Engagement Specialist and Office Manager. BBACS anticipates that onboarding these two positions early will enable the school to conduct a full year of student recruitment activities before the launch of the school to avoid the enrollment challenges faced by many other new charter schools that have opened in Buffalo. The incubation period also includes the initial payment to City Year so that the school can retain the services of City Year for the first year of the charter term.

The incubation period budget also includes other school launch expenses, such as employee benefits, audit fees, legal fees, funds to purchase and set up the school's student information system, board expenses, staff recruitment, student recruitment, furniture and other services to support staff (such as funds for Zoom licenses to support regional communication and funds for travel to support staff to attend professional development opportunities). For more details, see **Request 21(e)-Budget Template.**

The incubation period budget also includes an initial lease payment to the King Urban Life Center for use of the school's facility. This lease payment will enable the school to begin using the proposed facility as a sole tenant no later than January 1st, 2023, though the school could take possession of the building earlier if needed; for example, to ensure any necessary facility improvements are made. While BBACS does not yet know the cost of updating the facility, it anticipates that only minor facility renovations would be needed since the building was most recently leased to an early childcare center and, just before that, to another charter school. However, the school has budgeted funds for facility repairs throughout the charter term, including \$25,000 during the incubation period and \$50,000 during each of the first two years of the school's operation.

First Year and Fifth Year of Operations

Both the first and fifth year budgets for the charter term show the school producing a net income. In year one, that projected net income is \$59,143. However, by year five, the school projects a net income

of \$382,557. In addition, the school produces a net income during each year of the charter term, including the incubation period. As is common with many charter schools, the school has significant initial costs that make it harder for the school to have a high level of net income during the first few years of the charter term. However, once the school is fully grown, it is clear that the school can produce strong net income that could, if needed, also assist the school in addressing additional long-term facility needs (such as expanding to serve grades K through 8 if approved by SUNY at the end of the first charter term). A summary of some of the key underlying assumptions built into the budget throughout the charter term are described below.

Revenue Assumptions

- The school district per pupil revenue rate being used is \$13,308. This is the current 2021–2022 rate. The current draft budget also includes an assumed 1% increase in per pupil revenue each year.
- This draft budget is based on 78 students per grade level, rather than the requested enrollment of 81 students per grade level to ensure an appropriately conservative budget.
- Special education revenue is based on an assumption that the school will have relatively few students classified as having special needs during its first year of operation because it will only serve Kindergarten and first grade. However, over time, there is an assumption that the student population will grow to include a more representative number of students with special needs (starting with an assumption of 5% in year one and then moving to 10% in year two and 15% in year three).
- This budget currently assumes that 85% of students will qualify for free or reduced lunch, which is in line with SUNY’s recruitment targets and seems appropriate given the extensive poverty on the East Side and BRICK’s historical ability to recruit economically disadvantaged students (for example, 94.1% of students at its Newark campus currently qualify for free or reduced price lunch)

Expense Assumptions

- This draft budget includes strong levels of funding for staff salaries that align to the board personnel committee’s desire to pay at the 75th percentile of local schools to attract and retain the best talent possible. Salary estimates were created using Salary.com or based on a draft pay scale that was created by adding a 10% increment to the Buffalo Public Schools pay scale.
- This budget also assumes a 2.5% annual salary increase.
- This budget also includes funds to ensure the ongoing development of future teachers for BBACS. The BBACS Board, and BRICK Buffalo regional team, are committed to ensuring that the school invests in its staff to ensure that it can develop the internal capacity necessary to ensure high levels of performance and sustain high levels of performance during expansion. As a result, there are funds committed to contracting with City Year throughout the charter term and additional staff development funds that can be used for training or to support City Year corps members to pursue their certification (such as through the partnership created with City Year and the Relay Graduate School of Education).
- The BRICK Buffalo regional office also discussed each expense line item with the New York Charter School Association to ensure that it could revise its expense estimates based on the experiences of recent charter schools in Buffalo.

Escrow

BRICK Buffalo will hold in escrow \$75,000 for dissolution services as required.

Contingency Planning

BBACS also recognizes that it is critical to build a conservative budget during the charter term. The board's audit and finance committee was instrumental in this regard, helping the team to identify specific ways that the school could build a budget that was conservative enough to address unforeseen circumstances. Most significantly, this involved the team building its draft budget on a different student enrollment assumption. While BBACS is requesting a chartered enrollment of 81 students per grade, the budget template is built on an assumption of 78 students per grade. In addition, this version of the budget also includes numerous expenses that the school may not need to pay—but that the school has strategically budgeted for—to ensure an overall conservative budget. For example, the school has budgeted for a full-time nurse throughout the charter term even though it recognizes that the local charter school association has begun to achieve some success with charters requesting and receiving nursing services from the district. In addition, even though the CSE of the Buffalo Public Schools traditionally pays for contracted services for students with special needs, the school has also budgeted some funds for these expenses throughout the charter term.

In addition, BRICK and BBACS worked together to define clear ways that the CMO and local Board could work together to ensure the school was in a strong financial position. The result of these conversations were several updates to the draft Educational Services agreement between the CMO and the school, including a reduction in the year one management fee from 10% to 8%; a willingness to launch a joint fundraising campaign to ensure that the school is able to launch with, and maintain, at least three months of cash on hand at all times, and a provision indicating that BRICK would defer the payment of its management fee if necessary to ensure that the school had adequate cash flow throughout the charter term.

In addition, Mr. Esposito was also able to share some of the cost mitigation strategies his team has used in the past during the expansion of a new region. Some of the specific strategies the team used have now been integrated into the plans to found BBAC. For example, the school plans to initially admit 90 students per grade level during the first year of the charter term and then to immediately conduct home visits with each of these families to ensure that a high percentage of students matriculate into BBACS. This process should help ensure that BBACS can accurately project its enrollment numbers and avoid the unanticipated challenges with enrollment that many other Buffalo charter schools have faced. In addition, the BRICK Buffalo regional office will also be sharing student enrollment numbers each week with the board audit and finance committee throughout the incubation period to ensure that the Board can provide effective oversight of the student enrollment process and make relevant adjustments to recruitment strategies or school expenses as needed.

With support from the CMO in July 2022, BRICK Buffalo Academy Charter School will also immediately start to secure a line of credit to support the school's cash flow and mitigate against revenue receipt timing issues, which have posed a challenge for charters in Buffalo. BRICK Buffalo Academy Charter School will have the ability to take advantage of using the CMO's balance sheet to secure a line of credit.

b. Financial Planning

Explain the process the school will use to develop its annual budget including: • Who will be involved; • How needs will be identified and weighed; • The timeline for creating and approving budgets; and, • Procedures for monitoring and modifying budgets and on what interval.

The BRICK Buffalo Board of Trustees, specifically the Board Treasurer and the board's audit and finance committee oversee the entire financial planning process for the school and the approval of all budgets.

Each year, the BRICK Buffalo Regional Director of Operations will partner with the board's audit and finance committee and the school's Director of Operations to develop the annual budgeting process. The BBACS Board of Trustees will determine the process used, delegating parts of that process to the BRICK Buffalo RDO as it sees fit. The BRICK Buffalo RDO will then support by helping to coordinate the annual budgeting process, including by engaging school stakeholders in producing a draft budget that is aligned to the expectations for that draft budget that are shared by the board audit and finance committee. Each year, the final budget will be approved by the full Board of Trustees. Budget planning will begin in December of the prior fiscal year with final approval prior to the start of the new fiscal year. A financial report will be included on the agenda at each board meeting. This report will include budget versus actuals, budget projections, a statement of cash flow, and balance sheet reviews. Any budget modifications will also be approved by the Board of Trustees. The BRICK Buffalo Regional Director of Operations and relevant BRICK finance staff will also meet with the board's audit and finance committee meeting each month to review this information prior to the board meeting and to take any follow up action recommended by the committee.

Below is a sample timeline of events for creating and approving the school's budget each year:

- **December:** The BBACS Board audit and finance committee will meet with the BRICK Buffalo Regional Director of Operations to set direction for the budget process for the next year, including the level of detail that the Board wants to review in draft budgets that will be presented to the audit and finance committee and the full board at future meetings.
- **January:** The BBACS Principal and Director of Operations create a guiding coalition made up of a diverse collection of school stakeholders, including parents. The purpose of the coalition is to provide input and direction to the school leadership regarding the setting of priorities for the next school year and relevant updates to the budget. During this time, the BRICK Buffalo Regional Director of Operations will also meet with this guiding coalition to share the school's draft five year budget that has already been reviewed by the SUNY Charter School Institute and to share any other contextual information that will be helpful during the budgeting process. The guiding coalition will then begin to develop a list of initial recommendations for budget priorities for the next year.
- **February:** The BRICK Buffalo Regional Director of Operations will work with the BBACS principal and Director of Operations to produce a draft budget for the next school year, using the format determined by the BBACS Board.
- **March:** The BBACS Principal and Director of Operations will present their draft budget to their guiding coalition to gather feedback. Once they gather that feedback, they will make the final adjustments and report back out to the school community by sharing a draft of the priorities that will guide the budget process for the next year.
- **April:** The BRICK Buffalo Regional Director of Operations will then meet with the principal and Director of Operations to finalize a proposed budget for the next year and to present that budget to the board audit and finance committee and then to the full board for approval.

c. Fiscal Audits

Describe the school's plans for at least annual independent fiscal audits conducted by a certified public accountant or certified public accounting firm licensed in New York State. Please note that specific assurances as to fiscal audits are included in the attached Assurances Regarding the Provision of Fiscal Audits and Dissolution.

The BRICK Buffalo Board of Trustees intend to provide its authorizers and the general public with a clear and accurate portrayal of the financial health BRICK Buffalo schools.

BRICK Buffalo Board of Trustees will hire an independent auditor to perform an annual audit of the school's financial statements, processes, and internal controls. The financial statements provided to auditors will include a statement of income and expenditures and a balance sheet. The BRICK Buffalo Regional Director of Operations and BRICK will send an RFP to at least three certified public accounting firms licensed in the state of New York. The BRICK Buffalo Board of Trustees audit and finance committee will review the proposals and provide a recommendation to the full board. The BRICK Buffalo Regional Director of Operations, the school's Director of Operations and BRICK finance staff will work closely with the auditors to ensure requested information is shared. Upon completion of the audit, the accounting firm will present their opinion, management letter, and any recommendations to the Board of Trustees. The audited financial statements will be submitted to the Charter Schools Institute by the required reporting deadline.

d. Dissolution Procedures

Provide a brief narrative of the procedures that the school would follow, in addition to the SUNY Closure Plan, in the event of closure and dissolution. Please note that specific assurances as to dissolution are included in Appendix B: Assurances Regarding the Provision of Fiscal Audits and Dissolution.

In the event of a school dissolution and closure, the school will use the \$75,000 in escrow funds to cover legal, audit, and other related expenses. The escrow will be established by budgeting \$25,000 each year until the reserve amount is reached. The BRICK Buffalo Board of Trustees will delegate to the BRICK Buffalo Regional Director of Operations the responsibility of managing the dissolution and closure procedures.

These procedures will include a communication plan for students, families, and staff. Notification will be sent to these parties within five days of the decision to close. Meetings will be held for students and families to provide information about the closure and options for alternate educational programs for their children in Buffalo, including public, charter, and non-public schools. A list of all students will be sent to the Charter Schools Institute and district. All student records will be sent to the district, and copies will be made available to each student's parent/legal guardian. The school's fixed assets will be transferred to other charter schools at the discretion of the Charter Schools Institute. The BRICK Buffalo Regional Director of Operations and Board of Trustees will work with the Institute and school district to ensure that the dissolution timeline and required procedures are met.

RE: Application U282M190003

Dear Dominique Lee:

Congratulations! We have concluded the peer review process for the 2019 Expanding Opportunity through Quality Charter Schools Program (CSP)—Grants to Charter Management Organizations for the Replication and Expansion of High-Quality Charter Schools competition (CFDA 84.282M) and we are pleased to inform you that your application was selected for funding.

Applications were reviewed by three peer reviewers, using the selection criteria and competitive preference priorities published in the Federal Register on November 30, 2018. In addition, peer reviewers were screened for conflicts of interest.

You will receive copies of the technical review forms (TRFs) that indicate the strengths and weaknesses of your application via USPS next week. If you have questions about these comments, or about the review process, please contact the Charter School Program (CSP) at (202) 401-2266, or by email at CharterSchools@ed.gov.

We look forward to working with you and your assigned CSP Program Officer will be in touch regarding your post-award webinar and next steps; information will be sent separately regarding how to attend.

Again, congratulations, and thank you for your commitment to improving educational outcomes for our nation's youth.

Sincerely,

Charter Schools Program
U.S. Department of Education|Office of Elementary and Secondary Education (OESE)

GRANT AWARD AGREEMENT

From: CHARTER FUND, INC., a Delaware nonprofit non-stock corporation, doing business as Charter School Growth Fund (“Grantor”)

To: BUILDING RESPONSIBLE INTELLIGENT CREATIVE KIDS, a New Jersey nonprofit corporation (“Grantee”)

Grantee Tax I.D.# 27-0820249

Grantee Tax Status: PC - Public Charity

Grant No. BRICK-F3-NATL-SC-2020-2Q

Deal Type: Scale

Dated: June 18, 2020

Grant Amount: THREE MILLION FIVE HUNDRED THOUSAND DOLLARS (\$3,500,000.00)

This *Grant Award Agreement* (“Agreement”), upon execution on behalf of Grantee in the spaces provided for signature, will evidence Grantee’s agreement with and commitment to Grantor as follows:

I. GRANTEE’S LEGAL STATUS:

This grant is specifically conditioned upon Grantee’s status as an eligible grantee of Grantor in accordance with this paragraph. Grantee warrants and represents that it is a duly incorporated nonprofit corporation and a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the “Code”), and is not a private foundation as defined in Section 509(a) of the Code or an organization described in Section 170(c)(1) or Section 511(a)(2)(B) of the Code. Grantee has provided Grantor with a copy of IRS determination letter(s) evidencing its status as an eligible grantee and Grantee warrants and represents that such determination letter(s) are currently in full force and effect and has not been materially modified. Grantee will notify Grantor immediately of any actual or proposed change in federal and/or state tax status, including any substantial or material change in sources of support for any taxable year affected by this grant, within the meaning of Section 1.170A-9 of the Treasury Regulations. Grantee warrants and represents that this grant shall not change Grantee’s status as described above under the Code.

II. PURPOSE OF AWARD:

The purpose of this grant is for the general support of Grantee in providing funding for Grantee’s management organization that supports all of the charter schools operated by the Grantee in carrying out its charitable tax-exempt purposes (the “Project”). This Grant Award Agreement summarizes the terms and conditions pursuant to which the Grantor has awarded this grant to Grantee.

Board of Trustees of the State University of New York (SUNY)
c/o SUNY Charter Schools Institute
SUNY Plaza
353 Broadway
Albany, NY 12246

To the Board of Trustees of the State University of New York (SUNY):

On behalf of the Cullen Foundation, a private charitable foundation located in Buffalo, New York, I write in strong support of the application before you from *BRICK Education Network* ("*BRICK*"). We feel fortunate that *BRICK* intends to make Buffalo its third region and believe they'll be a vital partner in Buffalo's continued growth and revitalization.

For the past five years, Cullen Foundation has worked with national education experts, local nonprofit partners, community members and families to increase the number of high-quality public-school seats in Buffalo. We believe that *BRICK*'s presence here is essential to diversifying and strengthening educational opportunities for Buffalo's students and families to ensure more high-quality seats are available.

BRICK's excellent track record, coupled with its vision, commitment, and expertise in serving economically disadvantaged students provides us with confidence that they'll create unique learning opportunities for Buffalo's highest-need students. Further, Buffalo needs new and diverse options for families. We are excited about *BRICK*'s proven ability to design schools that meet the individual needs of students, especially those with adverse childhood experiences.

Cullen Foundation enthusiastically recommends that *BRICK* be granted a charter to open its three K-8 schools in Buffalo, beginning with its first school in the Fall of 2022. We believe that *BRICK*'s success will be a win for students and families and the Western New York region.

If you have any questions about the Cullen Foundation's support of *BRICK*, please do not hesitate to contact me at [REDACTED]

Sincerely,

A handwritten signature in blue ink, appearing to read 'Florine Luhr', written in a cursive style.

Florine Luhr

**GENERAL INSTRUCTIONS FOR 2022 NEW SCHOOL PROPOSAL
BUDGETS AND CASH FLOWS**

TAB COLORS

1- GRAY tabs contain the Instructions and the Funding by Districts Table.

Instructions	- Provides description of tabs and input requirements.
Funding by District	- Reference table with Per Pupil Revenue for current year.

2- BLUE tabs require input of information.

1) School Information	- Enter school name, contact information and planned dates for proposed budgets.
2) Enrollment Chart	- Enter enrollment information on this tab to be automatically populated throughout workbook.
3) Staffing Plan	- Enter staffing plan information on this tab to be automatically populated throughout workbook.
4) Pre-Opening Period Budget	- Enter "description of assumptions" for the Pre-Opening Budget on this tab only; the numbers are automatically populated using input from tab 5 or tab 6.
5) Pre-OP Cash Flow 1-Year	- Enter Pre-Opening Cash Flow information on this tab only if opening in the second year following the application submission with a 1-year preopening period.
6) Year 1 Budget & Assumptions	- Enter Year-1 Budget information that includes Program and Support Services detail.
7) Year 1 Cash Flow	- Enter Year-1 Budget information that includes monthly cashflow detail.
8) 5 YR Budget & Cash Flow Adj	- Enter Budget information for Years 2-5 including Per Pupil Rate increase percentages and Revenue and Expense projections.
9) Fiscal Impact	- "Fiscal Impact" report showing effect on primary school district from which the majority of students are enrolled.

CELL COLORS & GUIDANCE COMMENTS

-  = Enter information into the light BLUE shaded cells.
-  = Cells labeled in ORANGE contain guidance regarding the input of information.
-  = Cells containing RED triangles in the upper right corner contain "guidance comments" on that particular line item. Please "mouse-over" the triangle to reveal each comment.

Change in Net Enrollment from Prior Year (Percent)		100.0%	50.0%	33.3%	25.0%	20.0%
Anticipated rate of attrition (Percent)		5.0%	5.0%	5.0%	5.0%	5.0%

ADDITIONAL NOTES/COMMENTS

We anticipate a small rate of attrition based on low historical attrition at our flagship campus and our commitment to meeting SUNY's high retention targets. We also anticipate maintaining a relatively consistent enrollment level throughout the year because of our organizational commitment to backfilling. In addition, to ensure strong enrollment during the first year of the charter term, we anticipate initially accepting 90 students per grade to ensure that we are able to enroll full cohorts of students and maintain an average daily enrollment that is at or above our proposed chartered enrollment of 81 students per grade level. To build an appropriately conservative budget, our team also decided to use an even lower number for this template of 78 students per grade level.

--

***NOTE:** State the assumptions that are being made for personnel FTE levels in the section provided below.

Description of Assumptions
Principal
VP K-5 Math/Science; VP K-5 ELA/SS; VP of Culture
Director of Special Education
Director of School Operations
Office Manager (Front End); Operations Manager (Back End); Family and Community Engagement Specialist

K-2: Two teachers per homeroom; 3-5: Four teachers per grade
2 specials teachers in years one and two and then one additional added in
Paraprofessional
Social Worker and school psychologist
ENL Coordinator and ENL teacher

Full time nurse
Assistant Facilities Manager and Custodian

--

***NOTE:** Concisely state the assumptions that are being made for personnel wages in the section provided below.

Description of Assumptions
Assuming \$120K for Building Principal (Would make position in the 75th percentile of pay for Buffalo, NY based on Salary.com)
Assuming \$90K for Building Vice Principals (The comparables from Salary.com likely include salaries from much larger traditional districts, rather than charter schools. As a result, we discussed with the New York Charter School Association and decided to anchor to 90K as representative of the 75th percentile for Western New York charters.)
Assuming \$90K for Director of Special Education (The comparables from Salary.com likely include salaries from much larger traditional districts, rather than charter schools. As a result, we discussed with the New York Charter School Association and decided to anchor to the Vice Principal salary rate.)
Assuming \$80K for Director of School Operations
Assuming \$55K for Administrative staff positions

Assuming BRICK Buffalo will pay 10% higher than the Buffalo Public School Teacher Salary Scale. BRICK Buffalo is assuming the average teacher will have six years of experience and a master's degree.
Assuming BRICK Buffalo will pay 10% higher than the Buffalo Public School Teacher Salary Scale. BRICK Buffalo is assuming the average teacher will have six years of experience and a master's degree.
Assuming BRICK Buffalo will pay 10% higher than the Buffalo Public School Teacher Salary Scale. BRICK Buffalo is assuming the average teacher will have six years of experience and a master's degree.
Paraprofessional (Would make position in the 75th percentile of pay for Buffalo, NY on Salary.com)
Assuming \$77K for Social Worker (Would make position in the 75th percentile of pay for Buffalo, NY on Salary.com) and for internal equity purposes budgeted school psychologist at the same rate

ENL Coordinator and ENL teacher. Assuming BRICK Buffalo will pay 10% higher than the Buffalo Public School Teacher Salary Scale. BRICK Buffalo is assuming the average teacher will have six years of experience and a masters degree

Assuming \$60 K for School Nurse (while we plan to request a nurse from the school district, we have budgeted this position just in case)

Assuming \$40K for school custodial staff (based on an analysis of salary.com and conversations with the New York Charter School Association)

_____, 2022

Honorable President and Members
of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Dear Board Members:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of the Achieve Community Charter School (Charter School) for the fiscal year ended June 30, 2021. This CAFR includes the Charter School's Basic Financial Statements prepared in accordance with Governmental Accounting Standards Board Statement 34.

The Charter School has elected to adopt this new financial reporting model which we believe will provide all users of this document with much more useful financial and statistical information than ever before. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Trustees (Board).

To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Charter School. This report will provide the taxpayers of the Charter School with comprehensive financial data in a format enabling them to gain an understanding of the Charter School's financial affairs.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a table of contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the Charter School;
- The Financial Section begins with the Independent Auditor's Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the Charter School's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the Charter School, generally presented on a multi-year basis;
- The Single Audit Section — The Charter School is required to undergo an annual single audit in conformity with the provisions of the New Jersey State Office of Management and Budget (OMB) Circular Letter 15-08-OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid".

Information related to this single audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, are included in the single audit section of this report.

Charter School Organization

The Board of Trustees is comprised of five voting members and are elected to oversee that the Charter School operates in compliance with statute and administrative code. Voting members of the Board serve as the official governing body of the Charter School charged with policy making, fiscal oversight, and accountability for student academic achievement results of the Charter School. Voting members adopt the annual budget and directly approve all expenditures which serve as the basis for control for the authorization of all expenditures of Charter School tax money which in turn support the Charter School's business to promote academic achievement. Non-voting members include the Charter School's Principal and Vice-Principal, School Business Administrator/Board Secretary, and faculty representative.

The Principal of the Charter School is responsible to the board for the implementation and administration of all educational and support operations. The School Business Administrator/Board Secretary is the chief financial officer of the Charter School and is responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the Charter School, acting as custodian of all Charter School funds, and investing idle funds as permitted by New Jersey Law.

1. **REPORTING ENTITY AND ITS SERVICES:** The Achieve Community Charter School is an independent reporting entity within the criteria adopted by the Government Auditing Standards Board (GASB) as established by A B Statement No. 14. All funds and account groups of the Charter School are included in this report. The Charter School's Board of Trustees, constitutes the Charter School's reporting entity.

The Charter School provides a full range of educational services appropriate to grade levels K through 4. These include both regular and special education programs. As of June 30, 2021, the Charter School's final head count was 447 students.

2. **MAJOR INITIATIVES:** The following are the major initiatives successfully implemented at the Charter School for 2020-2021 school year:

The major initiatives are building the curriculum for rigorous literacy and math instruction through the adoption of a new curriculum. Teachers and leaders will be trained in summer institute and on bi-weekly professional development.

The Charter School also adopted a new guided reading framework in kindergarten to second grade and close reading in third grade. Teachers and leaders were professionally developed to implement the curriculum.

Social emotional learning and support was developed through the addition of a vice principal of culture as well as an associate dean. These two positions provided direct support to teachers and administrators in meeting the needs of our most struggling students.

3. **INTERNAL ACCOUNTING CONTROLS:** Management of the Charter School is responsible for establishing and maintaining an internal control designed to ensure that the assets of the Charter School are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met.

INTERNAL ACCOUNTING CONTROLS – CONTINUED

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Charter School is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the Charter School's management.

As part of the Charter School's Single Audit described earlier, tests are made to determine the adequacy of internal controls, including that portion related to federal and state financial assistance programs, as well as to determine that the Charter School has complied with applicable laws and regulations.

- BUDGETARY CONTROLS:** In addition to internal accounting controls, the Charter School maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts are to be re-appropriated at June 30, 2021.

- ACCOUNTING SYSTEM AND REPORTS:** The Charter School's accounting records reflect generally accepted accounting principles, as promulgated by Governmental Accounting Standards Board (GASB). The accounting system of the Charter School is organized on the basis of funds each of which maintains a self-balancing set of accounts. These funds are explained in the "Notes to the Basic Financial Statements."
- DEBT ADMINISTRATION:** At June 30, 2021, the Charter School has no outstanding debt.
- CASH MANAGEMENT:** The investment policy of the Charter School is guided in large part by state statute as detailed in "Notes to the Basic Financial Statement" Notes 1 and 3. The Charter School had adopted a cash management plan which requires it to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance and fidelity bonds.

9. **OTHER INFORMATION:**

Independent Audit

State statute requires an annual audit by independent certified public accountants or registered municipal accountants. The Charter School appointed the accounting firm of Galleros Robinson CPAs, LLP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the New Jersey Letter Circular Letter 15-08-OMB.

The auditor's report on the basic financial statements, combining and individual fund statements, and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. **ACKNOWLEDGMENTS:** I would like to express my appreciation to the Board of Trustees of Achieve Community Charter School for their concern in providing fiscal accountability to the Charter School and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully submitted,

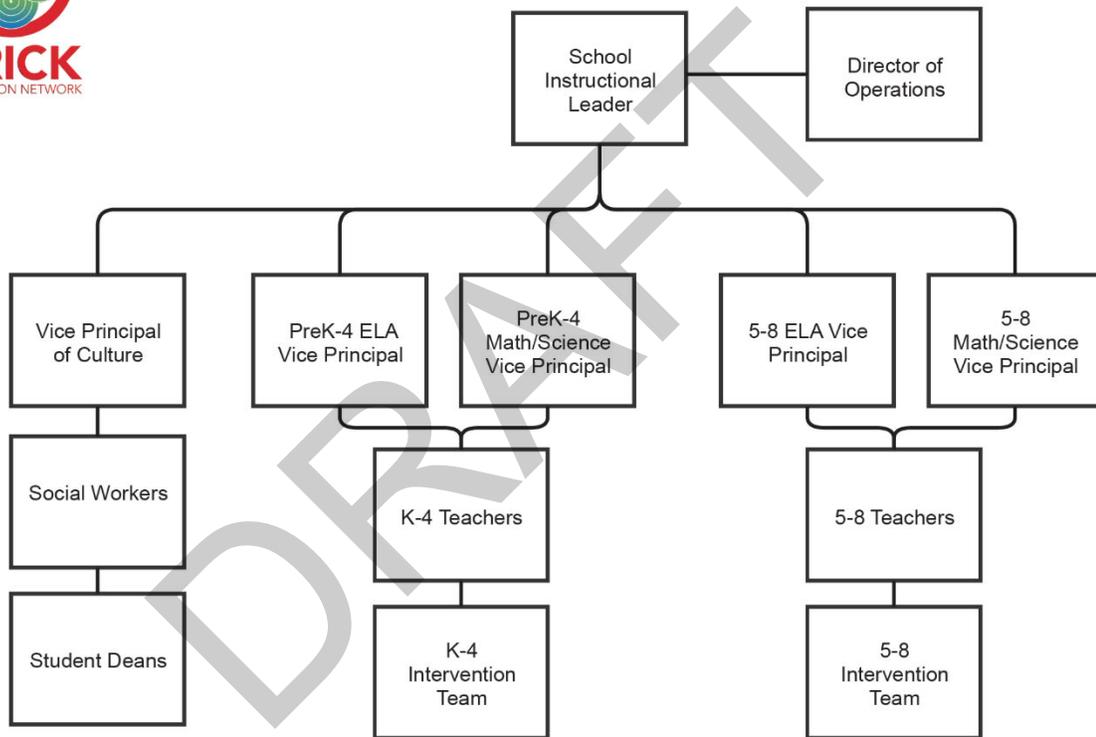

Christopher Lessard
School Business Administrator

DRAFT

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School, in the County of Essex, State of New Jersey as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

We draw attention to Note 2 in the notes to the financial statements which disclose the effects of the Charter School's adoption of the provisions of Government Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 11 through 16, Budgetary Comparison Information on pages 51 through 54, and information related to Accounting and Reporting for Pensions (GASB 68) and OPEB (GASB 75) on pages 55 through 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying introductory section and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying combining and individual fund financial statements are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

The accompanying schedules of expenditures of federal awards and state financial assistance (Schedules) are also presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey OMB's Letter Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not also a required part of the basic financial statements.

The combining and individual fund financial statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, and the Schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 26, 2022 on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Charter School's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

PART I

MANAGEMENT'S DISCUSSION AND ANALYSIS

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Achieve Community Charter School's (the Charter School) financial performance provides an overall review of the Charter School's financial activities for the fiscal period ended June 30, 2021. The intent of this discussion and analysis is to look at the Charter School's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Charter School's financial performance.

The Management's Discussion and Analysis (MD&A) provides an analysis of the Charter School's overall financial position and results of operations.

Introduction

This section of the Charter School's annual financial report presents our discussion and analysis of the Charter School's financial performance and provides an overview of the Charter School's financial activities for the fiscal year ended June 30, 2021. It should be read in conjunction with the transmittal letter at the front of this report and the Charter School's financial statements, which follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB).

Financial Highlights

Key Financial highlights for the fiscal year 2021 are as follows:

- In total, net position increased \$768,770 in 2021. The increase was mainly due to the recognition of PPP loan forgiveness amounting to \$340,090.
- General revenues accounted for \$4.72 million or 81% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions accounted for \$1.07 million or 18% of total revenues of \$5.85 million.
- The Charter School had \$5.08 million in expenses; only \$1.07 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$4.72 million was adequate to provide for these programs.
- Among governmental funds, the General Fund had \$5.78 million in revenues and other financing sources and \$5.04 million in expenditures. The General Fund's fund balance increased by \$0.74 million in 2021.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Basic Financial Statements

This annual report consists of a series of basic financial statements, required supplementary information, other supplementary information and notes to those statements and information.

The report is organized so the reader can understand the Achieve Community Charter School as a financial whole, or as an entire operating entity. The first two basic financial statements, the Statement of Net Position and the Statement of Activities, are governmental-wide financial statements and provide overall information about the activities of the entire Charter School, presenting both an aggregate view of the Charter School's finances and a long-term view of those finances.

Fund Financial Statements

The remaining basic financial statements are fund financial statements that focus on the individual parts of the government, reporting the Charter School's operation in more detail than the government-wide statements. The fund financial statements also look at the Charter School's most significant funds with all other non-major funds presented in total in a single column. For the Achieve Community Charter School, the General Fund is the most significant fund.

The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short and long term financial information about the activities; the government operates like a business, such as food service.

Fiduciary fund statements provide information about financial relationship in which the Charter School acts solely as a trustee or agent for the benefits of other, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of Required Supplementary Information that further explains and supports the information in the financial statements.

Statement of Net Position and Statements of Activities

While this report contains the funds used by the Charter School to provide programs and activities, the view of the Charter School as a whole looks at all financial transactions and asks the question, "how did we do financially during fiscal year 2021?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all the Charter School's assets and liabilities using the accrual basis of accounting similar to the accounting system used by most private sector companies. These bases of accounting take into account all of the current year's revenues and expenses regardless of when cash was received or paid.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

These two statements report the Charter School's net position and changes in the net position. This change in net position is important because it identifies whether the financial position of the Charter School has improved or diminished for the Charter School as a whole. This change is the result of many factors some financial, some not. Financial factors represent increases in federal and state funding that resulted from the increase in enrollment noted for the fiscal year ended June 30, 2021. These factors are presented in our discussions on the Charter School as a whole. Non-financial factors include the property tax base of the School District where the Charter School is located, current educational funding laws in New Jersey, facilities conditions, required educational programs, and other factors. In the Statements of Net Position and the Statements of Activities, the Charter School is divided into two distinct kinds of activities:

Governmental Activities – Most of the Charter School's programs and services are reported here including instructional, extracurricular activities, curriculum, staff development, special education and other support services, operation and maintenance of plant, pupil transportation, health services and general administration.

Business-Type Activity – Services are provided on a charge for goods or services or reimbursement basis to recover the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School Charter School's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Charter School's major funds, not the Charter School as a whole. Funds are accounting devices that the Charter School uses to keep track of a multitude of financial transactions. The Charter School's only major governmental fund is the General Fund.

Governmental Funds

Most of the Charter School's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statement provides a detailed short-term view of the Charter School's general government operations and the basic services it provides.

Governmental fund information helps determine whether there are sufficient financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the Statement of Net Position and the Statement of Activities and the governmental funds are reconciled in the financial statements.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT’S DISCUSSION AND ANALYSIS - CONTINUED

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The Charter School as a Whole

The perspective of the Statement of Net Position is of the Charter School as a whole. The table below provides a summary of the Charter School’s net position at June 30, 2021.

The total net position of the Charter School has increased by \$0.77 million during the current fiscal year.

The table that follows reflects the change in net position for fiscal year 2021.

	<u>Governmental Activities</u>	<u>Business-yp Activities</u>	<u>Total</u>
Assets			
Current Assets	\$ 1,391,958	\$	\$ 1,391,958

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Business-Type Activity

The business-type activities of the Charter School are related to the food service operation that has zero revenue and operating expenses of \$0.03 million for fiscal year 2021.

The Charter School's Funds

The Charter School's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues and other financing sources of \$5.78 million and expenditures of \$5.04 million.

General Fund Budgeting Highlights

The Charter School's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2021, the Charter School amended its General Fund budget as needed. The Charter School uses state-aid and other revenue-based budget. The budgeting systems are designed to tightly control total budget but provide flexibility for Charter School management teams.

For the General Fund, final budgeted revenues were \$4.72 million. Expenditures were budgeted at \$3.97 million. The Charter School anticipated an excess of revenues over expenditures of \$0.76 million in fiscal year 2021. During the fiscal year ended June 30, 2021, actual revenues were \$4.89 million and expenditures were \$4.09 million.

Reimbursement from the State of New Jersey during the year ended June 30, 2021 for the employer's share of social security contributions amounted to \$0.11 million and there was no TPAF on-behalf TPAF payments for post-retirement medical benefits from the State.

Capital Assets

At the end of fiscal year 2021, the Charter School had no investment in capital assets.

Economic Factors and Next Year's Budget

The State of New Jersey continues to face serious budgetary constraints. These impacts the amount of state aid allocated to charter schools. This reality was taken into account when adopting the general fund budget for 2020-2021. Nothing was done to compromise the quality of the programs in place in our Charter School during the regular instructional day. The budget was prepared to ensure that all students have the textbooks, materials supplies, equipment and programs they need to meet New Jersey's Core Curriculum Content Standards.

**NOTES TO THE BASIC
FINANCIAL STATEMENTS**

DRAFT

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Achieve Community Charter School (the "Charter School") is presented to assist in understanding the Charter School's financial statements and notes are representation of the Charter School's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and have been consistently applied in the preparation of these financial statements.

A. Reporting Entity

The Charter School is an instrumentality of the State of New Jersey, established to function as an educational institution. The school is governed by an independent Board of Trustees, which consists of parents, founders and other community representatives in accordance with its charter, which was appointed by the State Department of Education. An administrator is appointed by the board and is responsible for the administrative control of the Charter School.

B. Component Units

The primary criterion for including activities within the Charter School's reporting entity, as set forth in Section 2100 of the GASB's Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Charter School management. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, and ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the Charter School. Based on the aforementioned criteria, the Charter School has no component units.

C. Basis of Presentation

The financial statements of the Charter School have been prepared in conformity with GAAP as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Charter School also applies Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise fund unless they conflict with or contradict GASB pronouncements. The most significant of the Charter School's accounting policies are described below:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Continued

In June 1999, the Governmental Accounting Standards Boards unanimously approved Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the financial statements include the following:

The financial statements include:

- i) A Management’s Discussion and Analysis (MD&A) section providing an analysis of the Charter School’s overall financial position and results of operations.
- ii) Financial statements prepared using full accrual accounting for all of the Charter School’s activities.
- iii) A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

D. Basic Financial Statements

The Charter School’s basic financial statements consist of Charter School or government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the Charter School, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School’s governmental and business-type activities. The governmental activities generally are financed through federal and state awards, taxes and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

D. Basic Financial Statements - Continued

Fund Financial Statements

Fund financial statements of the Charter School are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Charter School.

The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Charter School at a more detailed level.

E. Governmental Funds

General Fund - The General Fund is the primary operating fund of the Charter School and is always classified as a major fund. It is used to account for all financial resources except those that are legally or administratively required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

- 1) As required by the New Jersey Department of Education, the Charter School included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.
- 2) Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of ground, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major Capital Projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

E. Governmental Funds - Continued

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. As of June 30, 2021, there was no Capital Projects Fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on, bonds issued to finance major property acquisitions, construction, and improvement programs. As of June 30, 2021, there was no debt service fund.

F. Proprietary Funds

The focus of Proprietary Fund measurement is upon determination of net income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those similar to business in the private sector. The following is a description of the Proprietary Funds of the Charter School:

Enterprise Funds:

The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the Charter School is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods and services to the students on a continuing basis be financed or recovered primarily through user charges; or where the Charter School has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenue) and decreases (expenses) in net total assets.

Internal Service (Self-Insurance) Fund:

The Self-Insurance Fund is used to cover the self-insured limits of the various insurance policies for all funds. Charter School does not use self-insurance fund.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Fiduciary Funds

Fiduciary funds are classified as follows:

Trust Fund. Accounts for assets held in a trustee capacity for others and therefore cannot be used to support the Charter School's own programs. Three trust fund types discussed below are used to account for resources held and administered by the Charter School when it is acting in a fiduciary capacity for individuals, private organizations or other governmental units. These funds are distinguished from custodial funds generally by the existence of a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

- a. Pension and Other Employee Benefit Trust. Accounts for resources held in trust for the members and beneficiaries of various employee benefit plans.
- b. Investment Trust Fund. Account for the portion of investment pools reported by the sponsoring district.
- c. Private Purpose Trust Fund. Accounts for all other trust arrangements, such as a scholarship fund to benefit individual students.

Custodial Fund. Accounts for resources held by the Charter School in a purely custodial capacity that involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Charter School must maintain the financial integrity of the individual agencies through separate accounting of each activity for which the Charter School is acting as an agent. Custodial funds would include parent-teacher organizations.

G. Measurement Focus and Basis of Accounting

Measurement Focus - Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. On the government-wide statements of net position and the statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statement of these funds present increases (i.e., revenues and other financing sources), and decreases (i.e. Expenditures and other finances

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

G. Measurement Focus and Basis of Accounting - Continued

uses) during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds are accounted for on a flow economic resources measurement focus. With this measurement focus, the accounting objectives are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and all liabilities, whether current or noncurrent, associated with their activities are included on the balance sheet. Fund equity (i.e., net total assets) is classified as net position.

Basis of Accounting - In the government-wide statement of net position and statements of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recognized when the liability, resulting from exchange and exchange like transactions, is incurred (i.e. the exchange takes place).

In the fund financial statement governmental fund and agency funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting revenue is recognized when they become both measurable and available.

“Measurable” means the amount of the transaction can be determined and “available” means collectible with the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

H. Budgets/Budgetary Control

Annual appropriated budgets are prepared prior to July 1, for the General Fund. The budget is prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A. 2(m)1. All budget amendments must be approved by the State Department of Education. Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

H. Budgets/Budgetary Control - Continued

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of special revenue funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognized the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow of the presentation of GAAP basis financial reports. As presented in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General, Special Revenue Fund and Debt Service Funds to the GAAP basis of accounting as presented in the Statements of Revenue, Expenditures and Changes in Fund Balance – Governmental Funds.

I. Deposits, Investment and Risk Disclosure

Cash and cash equivalents includes amounts in deposits, money market accounts and short-term investments with original maturities of three months or less.

Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of any discount or premium. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40 replaces in part, and otherwise modifies the prior GASB Statement No. 3, in addressing the requirements for disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments. Custodial credit risk disclosures are limited to deposits that are not covered by depository insurance and are (a) uncollateralized; (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

I. Deposits, Investments and Risk Disclosure - Continued

Deposits

New Jersey statutes require that Charter Schools deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Charter Schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows: The market value of the collateral must equal at least five percent of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%. All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of no less than \$25,000,000.

Investments

New Jersey statutes permit the Charter School to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the Charter School.
- d. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and MBIA CLASS.

As of June 30, 2021, the Charter School did not hold any investments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

I. Deposits, Investments and Risk Disclosure - Continued

Risk Category

All bank deposits, as of the balance sheet date, are entirely insured or collateralized by a collateral pool maintained by public depositories as required by the Governmental Unit Deposit Protection Act. Although GASB Statement No. 40 eliminated Categories 1 and 2 as previously established by GASB Statement No. 3, it maintained, with modification, the level-of-disclosure requirements of GASB Statement No. 3.

As of June 30, 2021, the Board had funds invested and on deposit in checking accounts. These funds constitute "deposits with financial institutions" as defined by GASB Statement No. 3 and modified by GASB Statement No. 40, and as such, are deposits that are insured or collateralized with securities held by the Board or by its agent in the Board's name both at year-end and throughout the year.

The Charter School does not have a policy for the management of the custodial risk, other than depositing all of its funds in banks covered by GUDPA.

J. Prepaid Expenses

Prepaid expenses, which benefit future periods, other than those recorded in the enterprise and are recorded as expenditure during the year of purchase.

The Charter School does not have prepaid expenses as of June 30, 2021.

K. Interfund Assets Liabilities

On the fund financial statements, receivables and payables resulting from short-term Interfund loans are classified as Interfund Receivable/Payable. Interfund balanced within governmental activities and within business-type activities are eliminated on the government-wide Statement of Net Position.

L. Fixed Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the Charter School as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation based for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

L. Fixed Assets - Continued

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the governmental fund capital assets.

Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation of capital assets is computed and recorded by the straight-line method. The Charter School does not have capital assets as of June 30, 2021.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

N. Compensated Absences

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences that are attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Charter School employees are granted sick and vacation leave in varying amounts under the Charter School's personnel policies and according to negotiated contracts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave. Vacation days not used during the year may only be carried forward with approval from the Head of School.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

N. Compensated Absences - Continued

In the charter school-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2021, the Charter School has no liabilities for compensated absences.

O. Net Pension Liability (Asset)

The net pension liability (asset) represents the Charter School's proportionate share of the net pension liability (asset) of the New Jersey State Pension Employees' Retirement System and the New Jersey State Teachers' Pension and Annuity Fund System. The financial reporting of these amounts is presented in accordance with the provisions of GASB Statement No. 68, "*Accounting and Financial Reporting for Pensions*" and GASB Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date*".

P. Deferred Revenue

Deferred revenue in special revenue fund represent cash that has been received but not yet earned.

Q. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payable, accrued liabilities, and long-term obligations payable from the enterprises fund are reported and the enterprises fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payments during the current year.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

R. Fund Balance and Equity

Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Charter School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amount that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report fund that are restricted for debt service obligations and for other items contained in General Municipal Law or Education Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**

R. Fund Balance and Equity - Continued

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Charter School's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Charter School's policy to use fund balance in the following order: committed, assigned and unassigned.

S. Net Position

Net Position on the *Statement of Net Position* include the following:

Investments in Capital Assets, net of Related Debt - the component of net position there reports the differences between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributed to the acquisition, construction or improvement of those assets.

Restricted for Specific Purposes – the component of net position that reports the difference between assets and liabilities of the certain programs that consist of assets with constraints placed on their use by either external parties and /or enabling legislation.

Restricted for Debt Service – the component of net position that reports the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Unrestricted - the difference between the assets and liabilities that is not reported in Net Position Invested in Capital Assets, net of Related Debt, Net Position Restricted for Specific Purposes or Net Position Restricted for Debt Services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

T. Contributed Capital

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds.

U. Interfund Transactions

Interfund transfers are defined as the flow of assets, such as cash or goods, without equivalent flows of assets in return. Interfund borrowings are reflected as “Due from/to Other Funds” on the accompanying financial statements. All other interfund transfers are reported as operating transfers.

V. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the recorded amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

W. Accounting for Uncertainty in Income Taxes

The Charter School recognizes the effect of income tax positions only of those positions are more likely than not of being sustained. Management has determined that the Charter School had no uncertain tax positions that would require financial statement recognition. Fiscal year ended June 30, 2021 is the Charter School's fourth year of operations.

X. On-Behalf Payments

Revenues and expenditures of the General Fund include payment made by the State of New Jersey for Pension and social security contributions for certified teacher members of the New Jersey Teachers Pension and Annuity Fund, and for post-retirement medical benefits of members. The amounts are not required to be included in the Charter School's annual budget.

Y. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is _____, 2022.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 ACCOUNTING PRONOUNCEMENTS

A. Accounting Pronouncement Adopted During the year

On July 1, 2020, the Charter School adopted Statement No. 84, *Fiduciary Activities*, and Implementation Guide No. 2019-2. GASB Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists.

Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. Determining whether an activity is fiduciary can be a challenge. GASB recently issued Implementation Guide No. 2019-2, *Fiduciary Activities*. The Implementation Guide, which is an authoritative document, includes questions and answers on topics such as identifying fiduciary activities and reporting fiduciary activities: Implementation Guide No. 2019-2, *Fiduciary Activities*.

The adoption of the GASB No. 84, resulted to the following:

Student Activity Funds are Reported in the Special Revenue Fund effective July 1, 2020

The revenue source for the Student Activity Fund are solely for the fees and dues collected and they are restricted for the specifically identified student activity. N.J.A.C. 6A:23A-1.12 governs the establishment and operation of the Student Activity Fund restricting expenditures within the fund and prohibiting the transfer of any unspent balances to any other fund.

This adoption resulted to a restatement of July 1, 2020 net position of governmental funds to increase total assets and restricted net position of \$2,643 in the governmental activities' Statement of Net Position.

Payroll Funds are Reported in the General Fund effective July 1, 2020

Payroll Clearing Funds do not meet the definition of fiduciary activities prescribed in GASB No. 84 paragraph 11, they are accounted for and reported in the General Fund. Any unremitted balance at year-end is reported as a liability on Schedule B-1. Assets and liabilities for the Payroll Clearing Funds were reported as assets and liabilities in the Governmental Funds Balance Sheet under General Fund. This adoption did not result to a restatement of the July 1, 2020 net position. However, the adoption resulted to an increase in total assets and liabilities of \$33,866 in the governmental activities' Statement of Net Position.

(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 ACCOUNTING PRONOUNCEMENTS - CONTINUED

A. Accounting Pronouncement Adopted During the year

GASB Statement No. 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61, (GASBS 90)*. GASBS 90 defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The Charter School do not hold an equity interest in an investment, therefore the adoption did not have an effect on the Charter School's financial statements.

B. Accounting Pronouncements Issued but not Yet Adopted

Statement No. 87 and Implementation Guide No. 2019-3, *Leases*, effective for reporting periods beginning after June 15, 2021, and all reporting periods thereafter. The objective of GASB 87 is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. GASB 87 increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87 a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Charter School is currently evaluating the impact of this Statement.

Statement No. 91, *Conduit Debt Obligations*, reporting periods beginning after December 15, 2021. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. Currently, the Charter School do not have conduit debt obligation and expects that the adoption of this in fiscal year 2022 will not have an impact on the Charter School's financial statements.

NOTE 2 ACCOUNTING PRONOUNCEMENTS - CONTINUED

B. Accounting Pronouncements Issued but not Yet Adopted - continued

Statement No. 93, Replacement of Interbank Offered Rates effective for fiscal years beginning after June 15, 2021. The objective of GASB 93 is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate. The Charter School is currently assessing effect on its financial statement.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangement* effective for fiscal years beginning after June 15, 2022 or fiscal year 2023. The objective of GASB 94 is to improve financial reporting related to public-private and public-public partnership arrangements (PPP). It provides accounting and financial reporting guidance for availability payment arrangements (APA) and establishes definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet definitions. The Charter School is currently assessing effect on its financial statement.

Statement No. 96, *Subscription Based Information Technology Arrangement (SBITA)* effective for fiscal year beginning after June 15, 2022. GASB No. 96 establishes uniform accounting and financial reporting requirements, improves comparability of financial statements and enhances information. It establishes that SBITA result in an intangible asset and a subscription liability and provides capitalization criteria for other than subscription payments. The Charter School is currently assessing effect on its financial statement.

Statement No. 97 *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Section 457 Deferred Compensation Plans* effective for fiscal years beginning after June 15, 2021. GASB 97 creates an exception, allowing defined contribution pension plans, defined contribution OPEB plans, and certain Section 457 plans who do not have a board to be excluded from consideration as a component unit. The Charter School is currently assessing effect on its financial statement.

Statement No. 98, *The Annual Comprehensive Financial Report* effective for fiscal years ending after December 15, 2021. This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The Charter School will adopt this change in fiscal year 2022.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 3 CASH AND CASH EQUIVALENTS

The Charter School's cash and cash equivalents are classified below to inform financial statement users about the extent to which the Charter School's deposits and investments are exposed to custodial credit risk.

As of June 30, 2021, the Charter School's deposits are summarized as follows:

	General Fund	Special Fund	Enterprise Fund	Total
Operating Account	\$ 433,791	\$ 2,643	\$ -	\$ 436,434
Restricted cash	33,866	-	-	33,866
Total	<u>\$ 467,657</u>	<u>\$ 2,643</u>	<u>\$ -</u>	<u>\$ 470,300</u>

Operating cash accounts are held in the Charter School's name by several banking institutions. At June 30, 2021, the Charter School's carrying amount of deposits was \$470,300 and the bank balance was \$472,949. Of the bank balance, up to a maximum of \$250,000 of the Charter School's cash deposits on June 30, 2021 were secured by federal deposit insurance (FDIC) and \$222,949 was covered by a collateral pool maintained by the bank as required by New Jersey statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA").

Restricted Cash

The Charter School has established and funded an Escrow Account pursuant to an agreement signed with the New Jersey Department of Education. The agreement stipulates that the intended use of the escrow amount is "to pay for legal and audit expenses and any other outstanding pension benefits that would be associated with a dissolution should it occur." The required minimum is \$75,000, of which, the Charter School obtained a surety bond.

NOTE 4 LONG-TERM DEBT

During 2020, the Charter School received a forgivable loan amounting to \$340,090 under the Paycheck Protection Program ("PPP"), which the Charter School recognized as a long-term debt, in accordance with paragraph 12 of GASB Statement No. 70, "Nonexchange Financial Guarantee". The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), provides loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loans and accrued interest are forgivable after 24 weeks as long as the loan proceeds are used for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. As of June 30, 2021, PPP loans payable amounting to \$343,878 was forgiven which includes accrued interest of \$3,788.

Capital assets, net	\$ -	\$ -	\$ -
Less: Long-Term obligations	-	-	-
(All long-term debt relates to capital assets)	-	-	-
<u>RESTRICTED</u>			
Restricted for:			
Food service	-	-	-
Student activities	2,643	-	2,643
	2,643	-	2,643
<u>UNRESTRICTED</u>			
Net position (deficit) not restricted above	757,877	-	757,877
NET POSITION (DEFICIT)	\$ 760,520	\$ -	\$ 760,520

NOTE 6 PENSION PLANS

A. Description of Plans

All eligible employees of the Charter School are covered by either the Public Employee's Retirement System (PERS) or the Teacher's Pension and Annuity Fund (TPAF) which have been established by state statute and are administered by the New Jersey Division of Pension and Benefit (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the PERS and the TPAF. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625.

i. Public Employees' Retirement System (PERS)

The Public Employees' Retirement Systems (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full-time employees of the State or any county municipality, Charter School, or public agency provided the employee is not a member of another state-administered retirement system. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, Charter School, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

A. Description of Plans - Continued

ii. Teachers Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established in January 1, 1995, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. The Teacher's Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Charter School and the systems other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners and employees of the Department of Education who have titles that are unclassified, professional, and certified.

B. Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. All benefits vest after eight to ten years of service, except for medical benefit that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determined to be 1/55 of the final average salary for each year of service credit as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

NOTE 6 PENSION PLANS - CONTINUED

B. Vesting and Benefit Provisions - Continued

The PERS and TPAF provides for specified medical benefits for member who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

C. Significant Legislation

Two pieces of legislation passed during fiscal year 2001 having significant impact on the benefit provisions under PERS and TPAF. Chapter 133, P.L.2001, increases retirement benefit for service deferred and early retirements by changing the formula from $1/60$ to $1/55$ of final compensation for each year of service. The legislation also increases the retirement benefit for veteran member with 35 years or more service and reduces age qualification from 60 to 55. The legislation further provide that existing retirees and beneficiaries would also receive a comparable percentage increase in their retirement allowance. The benefit enhancements are effective with the November 1, 2001 benefit checks. Chapter 120 P.L. 2001, established an additional retirement option for plan members. Under the new option, a retiree's actuarially reduced allowance (to provide a benefit to the retiree's beneficiary upon the death of the retiree) would "pop-up" to the maximum retirement allowance if the beneficiary predeceases the retiree.

Chapter 4, P.L. 2001 provides increased benefit to certain members of PERS who retired prior to December 29, 1989 with at least 25 years of creditable service. The maximum amount of the increase is 5 percent the retiree's final compensation. For those with 30 or more years of service, the total pension would increase from 65 to 71 percent of final compensation.

Due to the enactment of 1997 legislation, Chapter 114, P.L. 1997 and Chapter 115, P.L. 1997, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated. In addition, excess valuation assets were available to fund, in full or in part, the State of New Jersey's normal contribution from 1997 to 2001, excluding the contribution for post-retirement medical benefits in the PERS and TPAF.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 PENSION PLANS - CONTINUED

D. Contribution Requirement

The contribution policy is set by laws of the State of New Jersey and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.06% for PERS and 7.06% for TPAF of the employee's annual compensation. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Charter School.

The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF.

In accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Charter School \$11,195 during the year ended June 30, 2021 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

The Charter School did not have PERS contribution nor TPAF on-behalf payments since fiscal year ended June 30, 2021 is the Charter School's first year of operations.

E. GASB 68 Disclosures

i. Public Employees' Retirement System (PERS)

As of June 30, 2021, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

ii. Teachers Pension and Annuity Fund (TPAF)

As of June 30, 2021, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

NOTE 7 POST-RETIREMENT BENEFITS

General Information about the OPEB Plan

The State of New Jersey Provides post-retirement (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2020, the State paid PRM benefits for 143,053 State and local retirees.

The State funds post-retirement medical benefits on a “pay-as-you-go” basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2020, the State contributed \$1.578 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The State’s “pay-as-you-go” contributions have decreased from Fiscal Year 2019 amounts. Reductions are attributable to various cost savings initiatives implemented by the State, including new Medicare Advantage contracts. The State has appropriated \$1.75 billion in Fiscal Year 2021 as the State’s contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2020 total State OPEB liability to provide these benefits is \$65.5 billion, a decrease of \$10.5 billion or 13.8 percent from the \$76.0 billion liability recorded in Fiscal Year 2019.

Additional information on Pensions and OPEB can be accessed at state.nj.us/treasury/pensions/financial-reports.shtml.

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The Charter School’s proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the Charter School did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

Accordingly, the following OPEB liability note information is reported at the State’s level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in the NJ State CAFR at <https://www.nj.gov/treasury/omb/cafr.shtml>

(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 7 POST-RETIREMENT BENEFITS - CONTINUED

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the Charter School recognize OPEB revenue and expense of \$0 as determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the Charter School's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to retired Charter School employees' OPEB was zero.

NOTE 8 DEFERRED COMPENSATION

The Charter School offered its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Service 403(b). The Plan which are administered by the Charter School and various insurance companies, permits participants to defer a portion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, death or unforeseeable emergency.

NOTE 9 RISK MANAGEMENT

The Charter School is exposed to various risks of loss relates to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Property and Liability Insurance

The Charter School maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (Unaudited) of this Comprehensive Annual Financial Report (Schedule J-20).

B. New Jersey Unemployment Compensation

The Charter School has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Charter School is required to reimburse the New Jersey Unemployment Trust Fund For benefits paid to its former employees and charged to its account with the State. The Charter School is billed quarterly for amounts due to the State.

NOTE 10 INTERFUND RECEIVABLES AND PAYABLES

Amount reported in the governmental funds as interfund receivable and payable from/to other governmental funds pertains to expenses that were paid from the general fund which are eliminated in the governmental activities' column. The remaining internal receivable and payable between the governmental funds and enterprise fund have been eliminated in the total Charter School-wide Statement of Net Position.

At June 30, 2021, the interfund balances consisted of the following:

	<u>RECEIVABLE (PAYABLE)</u>		
	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Enterprise Fund</u>
General fund	302,598	(291,338)	(11,260)
GASB No 34 mandated eliminations within governmental activities	<u>291,338)</u>	<u>291,338</u>	<u>-</u>
Net interfund balances reported as follows:			
Entity-wide (eliminated in total column)	<u>\$ 11,260</u>	<u>\$ -</u>	<u>\$ (11,260)</u>

NOTE 11 CONTINGENCIES

State and Federal Aid Receipts

State and Federal awards are generally subject to review by the responsible governmental agencies for compliance with the agencies regulations governing the aid. In the opinion of the Charter School's management and legal counsel, any potential adjustments to the Federal or State aid recorded by the Charter School through June 30, 2021, resulting from a review by a responsible government agency will not have a material effect on the Charter School financial statements at June 30, 2021.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 12 MANAGEMENT AGREEMENT

On July 1, 2019, the Charter School entered into a two-year operating agreement with BRICK, Inc., a New Jersey not-for-profit corporation, renewable for another two-year term until June 30, 2023. The fee for the services is equal to 10% of the total federal, state and local public revenue actually received by the Charter School.

Total management fee incurred by the Charter School for the fiscal year ended June 30, 2021 amounted to \$540,767.

NOTE 13 COVID-19 PUBLIC HEALTH EMERGENCY

On June 4, 2021, Governor Murphy signed legislation (A5820/S3866) and Executive Order No. 244 ending of the COVID-19 Public Health Emergency that has been in place since March 9, 2020. Under the legislation, the majority of executive orders issued pursuant to the Public Health Emergency expired 30 days from the approval date. The legislation allows for the termination of the Public Health Emergency while also allowing the Administration to retain the tools necessary to manage the ongoing threat posed by the pandemic. Specifically, the Administration is authorized to issue orders, directives, and waivers under the authority in the Emergency Health Powers Act that are related to vaccination efforts; testing; health resource and personnel allocation; data collection, retention, sharing, and access; coordination of local health departments; and implementation of any CDC recommendations to prevent the transmission of COVID-19. This authority lasts until January 11, 2022 and can be extended for 90 days with the passage of a concurrent resolution by the Legislature.

With the end of the Public Health Emergency, full-time school operations were restored in New Jersey beginning September 2021.

DRAFT

ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)

REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY GAAP RECONCILIATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
(REISSUED)

YEAR ENDED JUNE 30, 2021

**Note A - Explanation of Differences between Budgetary Inflows
and Outflows and GAAP Revenues and Expenditures**

	<u>General Fund</u>		<u>Special Revenue Fund</u>
Sources/inflows of resources			
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule:	[C-1] \$ 4, 3,688	[C-2]	955,218
Difference - budget to GAAP:			
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.	-		-
Last State aid payment recognized for budgetary purposes only.	-		-
General Fund contribution to Early Childhood Program Aid	-		-
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental fund	[B-2] <u>4,493,688</u>	[B-2]	<u>955,218</u>
Uses/outflows of resources			
Actual amounts (budgetary basis) "total outflow" from the budgetary comparison schedule	[C-1] 4,086,755	[C-2]	955,218
Differences - budget to GAAP			
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	-		-
Transfers to and from other funds are presented as outflows of budgetary resources but are not expenditures for financial reporting purposes.			
Net transfer (outflows) to general fund	-		-
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	[B-2] <u>\$ 4,086,755</u>	[B-2]	<u>\$ 955,218</u>

Note A -The general fund budget basis of the use/outflow of resources is GAAP, therefore no reconciliation is required.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PART III
YEAR ENDED JUNE 30, 2021**

Public Employees Retirement System (PERS)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 6.28% to 7.00%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

The projection of cash flows used to determine the discount rate of 7% as of June 30, 2020 measurement date assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and nonemployer contributing entity will be based on 78% (70% in prior measurement date) of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions from local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of all current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Teachers Pension and Annuity Fund (TPAF)

Change in benefit terms. There is no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 5.60% to 5.40% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 68.

The single blended discount rate of 5.40% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.00% in prior measurement date) and a municipal bond rate of 2.21% (3.5% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

CAPITAL PROJECTS FUND

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by proprietary funds.

At June 30, 2021, there was no capital project fund.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the Charter School is that the cost of providing goods and services be financed through user charges. The Charter School has the Food Service and After Care in its Enterprise Fund to account for the operation of food services and after care.

Cash and cash equivalents at end of year	<u>\$ -</u>

FIDUCIARY FUNDS

Trust Fund. Accounts for assets held in a trustee capacity for others and therefore cannot be used to support the Charter School's own programs which are as follow:

- a. Pension and Other Employee Benefit Trust. Accounts for resources held in trust for the members and beneficiaries of various employee benefit plans.
- b. Investment Trust Fund. Accounts for the portion of investment pools reported by the sponsoring district.
- c. Private Purpose Trust Fund. Accounts for all other trust arrangements, such as a scholarship fund to benefit individual students.

Custodial Fund. Accounts for resources held by the Charter School in a purely custodial capacity that involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Charter School must maintain the financial integrity of the individual agencies through a separate accounting of each activity for which the Charter School is acting as an agent. Custodial funds would include parent-teacher organizations.

At June 30, 2021, the Charter School do not have a Trust Fund nor Custodial Fund.

LONG-TERM DEBT

The long-term debt is used to record the outstanding principal balances of the long-term liabilities of the charter school. This includes the outstanding principal balance on capital lease, the accrued liability for insurance claims and the liability for compensated absences and the outstanding principal balance on certificates of participation outstanding or mortgage note payable.

STATISTICAL SECTION (UNAUDITED)

Unless otherwise noted, the information in these Schedules was derived from the Comprehensive Annual Financial Reports (CAFR) for the relevant year.

**ACHIEVE COMMUNITY CHARTER SCHOOL

SINGLE AUDIT SECTION

DRAFT

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report hereon dated January 26, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - CONTINUED

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not a objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We also noted certain matters that we have reported to the Board of Trustees of the Achieve Community Charter School in the County of Essex, New Jersey in a separate *Auditor’s Management Report on Administrative Findings - Financial, Compliance and Performance*, dated January 26, 2022.

Charter School’s Response to Finding

The Charter School’s response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Charter School’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

EXHIBIT K-2

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE
AS REQUIRED BY THE UNIFORM GUIDANCE AND
NEW JERSEY OMB CIRCULAR LETTER 15-08**

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
Essex County, New Jersey

Report on Compliance for Each Major State and Federal Programs

We have audited the Achieve Community Charter School's (the Charter School) in the County of Essex, State of New Jersey compliance with the types of compliance requirements described in the *New Jersey State Aid Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major state and federal programs for the fiscal year ended June 30, 2021. The Charter School's major state and federal program are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Charter School's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, Uniform Guidance and New Jersey OMB Circular Letter 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

We believe that our audit provides a reasonable basis for our opinion. However, our audit does not provide a legal determination of the Charter School's compliance on compliance for each major federal and state programs.

Opinions on Each Major Federal and State Programs

In our opinion, the Achieve Community Charter School in the County of Essex, State of New Jersey, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal and state program for the fiscal year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Charter School's internal control over compliance with the types of requirement that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Letter Circular 15-08-OMB but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular Letter 15-08. Accordingly, this report is not suitable for any other purpose.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)****NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE****FISCAL YEAR ENDED JUNE 30, 2021****NOTE 1 GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Trustees for Achieve Community Charter School. The Board of Trustees is defined in Note 1 to the Charter School's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying Schedules of Expenditure of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of those recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules is presented in accordance with the requirements of *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grant and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Amounts reported in the accompanying schedules agree with the amounts reported in the Charter School's basic financial statements. The basic financial statements present the special revenue fund on both GAAP and budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. See Exhibit C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the Charter School's basic financial statements on a GAAP basis as follows:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

**NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE - CONTINUED**

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS - CONTINUED

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ -	\$ 3,875,179	\$ 3,875,179
Special Revenue Fund	955,218	-	955,218
Total	<u>\$ 955,218</u>	<u>\$ 3,875,179</u>	<u>\$ 4,830,397</u>

NOTE 4 RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5 ON-BEHALF PAYMENTS

TPAF Social Security Contributions represents reimbursements in the amount of \$112,195 by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2021. The State did not make on-behalf TPAF payments for pension contributions, post-retirement medical benefits and long-term disability insurance contributions for the year ended June 30, 2021.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF pension contributions, post-retirement medical benefits contributions and long-term disability insurance are not subject to a State Single Audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the Charter School's financial statements and the amount subject to State Single Audit and major program determination.

NOTE 7 DE MINIMIS INDIRECT COST

The Charter School has not elected to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

PREPARED BY MANAGEMENT**

FISCAL YEAR ENDED JUNE 30, 2021

**Finding 2020-001 Timely Reporting, Account Analysis and Reconciliation
and Audit Preparation**

The financial records were not readily available during the audit due to turnover in CMO employee and unfamiliarity with the accounting system used. As a result, there were several trial balance revisions to reconcile cash balances, interfund activities, accounts payable and payroll account balances. Also, multiple general ledger cash accounts in each fund were used for a bank account to account for interfund transactions. Case in point, the general fund has cash accounts for food service, student activities and payroll. Several adjusting journal entries were recorded at year-end in each fund to correct the cash balances and other accounts.

There was also one bank account that was overdrawn as of June 30, 2020.

The Board Secretary's and financial reports were not presented monthly to the board as prescribed (N.J.S.A.18A:17-9 and 18A:17-3). In addition, the budget columns in the monthly Board Secretary's report are not updated.

Status: These were corrected in 2021.

Finding 2020-002 – Claims and Purchase orders

In our review of claims we note the following:

- a. Supporting documents for 6 of 10 sample claims paid were not on file.
- b. Of the 34 claims paid with supporting documents provided,
 - 16 claims have confirming purchase orders.
 - 12 claims did not have signed vendor certifications.
 - 10 claims have inadequate supporting documentation.
 - 3 did not have signed purchase orders.
- 2 claims have undated purchase orders.

Status: These were corrected in 2021.

Finding 2020-003 Time and Activity Reports

During our audit, Title I and IDEA employees did not have time and activity reports first half of the Year.

Status: This condition does not exist in 2021.

FISCAL YEAR ENDED JUNE 30, 2021

Finding 2020-004 Late Submission of Food Service Claims

The reimbursement claims for meals served during the month of September 2019 in the total amount of \$11,797 was submitted to the New Jersey State Department of Agriculture past the 60 days after the end of the reporting month. As a result, the claims are in further review by the New Jersey State Department of Agriculture and remained unpaid at June 30, 2020.

Status: This condition does not exist in 2021.

Honorable President and Members
of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Dear Board Members:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of the Achieve Community Charter School (Charter School) for the fiscal year ended June 30, 2020. This CAFR includes the Charter School's Basic Financial Statements prepared in accordance with Governmental Accounting Standards Board Statement 34.

The Charter School has elected to adopt this new financial reporting model which we believe will provide all users of this document with much more useful financial and statistical information than ever before. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Trustees (Board).

To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Charter School. This report will provide the taxpayers of the Charter School with comprehensive financial data in a format enabling them to gain an understanding of the Charter School's financial affairs.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a table of contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the Charter School;
- The Financial Section begins with the Independent Auditor's Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the Charter School's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the Charter School, generally presented on a multi-year basis;
- The Single Audit Section — The Charter School is required to undergo an annual single audit in conformity with the provisions of the New Jersey State Office of Management and Budget (OMB) Circular Letter 15-08-OMB, "*Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*".

Information related to this single audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, are included in the single audit section of this report.

Charter School Organization

The Board of Trustees is comprised of five voting members and are elected to oversee that the Charter School operates in compliance with statute and administrative code. Voting members of the Board serve as the official governing body of the Charter School charged with policy making, fiscal oversight, and accountability for student academic achievement results of the Charter School. Voting members adopt the annual budget and directly approve all expenditures which serve as the basis for control for the authorization of all expenditures of Charter School tax money which in turn support the Charter School's business to promote academic achievement. Non-voting members include the Charter School's Principal and Vice-Principal, School Business Administrator/Board Secretary, and faculty representative.

The Principal of the Charter School is responsible to the board for the implementation and administration of all educational and support operations. The School Business Administrator/Board Secretary is the chief financial officer of the Charter School and is responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the Charter School, acting as custodian of all Charter School funds, and investing idle funds as permitted by New Jersey Law.

1. **REPORTING ENTITY AND ITS SERVICES:** The Achieve Community Charter School is an independent reporting entity within the criteria adopted by the Government Auditing Standards Board (GASB) as established by GASB Statement No. 14. All funds and account groups of the Charter School are included in this report. The Charter School's Board of Trustees, constitutes the Charter School's reporting entity.

The Charter School provides a full range of educational services appropriate to grade levels K through 4. These include both regular and special education programs. As of June 30, 2020, the Charter School's final head count was 306 students.

2. **MAJOR INITIATIVES:** The following are the major initiatives successfully implemented at the Charter School for 2019-2020 school year:

The major initiatives are building the curriculum for rigorous literacy and math instruction through the adoption a new curriculums. Teachers and leaders will be trained in summer institute and on bi-weekly professional development.

The Charter School also adopted a new guided reading framework in kindergarten to second grade and close reading in third grade. Teachers and leaders were professionally developed to implement the curriculum.

Social emotional learning and support was developed through the addition of a vice principal of culture as well as an associate dean. These two positions provided direct support to teachers and administrators in meeting the needs of our most struggling students.

3. **INTERNAL ACCOUNTING CONTROLS:** Management of the Charter School is responsible for establishing and maintaining an internal control designed to ensure that the assets of the Charter School are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met.

INTERNAL ACCOUNTING CONTROLS – CONTINUED

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Charter School is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the Charter School's management.

As part of the Charter School's Single Audit described earlier, tests are made to determine the adequacy of internal controls, including that portion related to federal and state financial assistance programs, as well as to determine that the Charter School has complied with applicable laws and regulations.

4. **BUDGETARY CONTROLS:** In addition to internal accounting controls, the Charter School maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated at June 30, 2020.

5. **ACCOUNTING SYSTEM AND REPORTS:** The Charter School's accounting records reflect generally accepted accounting principles, as promulgated by Governmental Accounting Standards Board (GASB). The accounting system of the Charter School is organized on the basis of funds each of which maintains a self-balancing set of accounts. These funds are explained in the "Notes to the Basic Financial Statements."
6. **DEBT ADMINISTRATION:** At June 30, 2020, the Charter School has no outstanding debt.
7. **CASH MANAGEMENT:** The investment policy of the Charter School is guided in large part by state statute as detailed in "Notes to the Basic Financial Statement" Notes 1 and 3. The Charter School had adopted a cash management plan which requires it to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance and fidelity bonds.

9. **OTHER INFORMATION:**

Independent Audit

State statute requires an annual audit by independent certified public accountants or registered municipal accountants. The Charter School appointed the accounting firm of Galleros Robinson CPAs, LLP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the New Jersey Letter Circular Letter 15-08-OMB.

The auditor's report on the basic financial statements, combining and individual fund statements, and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. **ACKNOWLEDGMENTS:** I would like to express my appreciation to the Board of Trustees of Achieve Community Charter School for their concern in providing fiscal accountability to the Charter School and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully submitted,

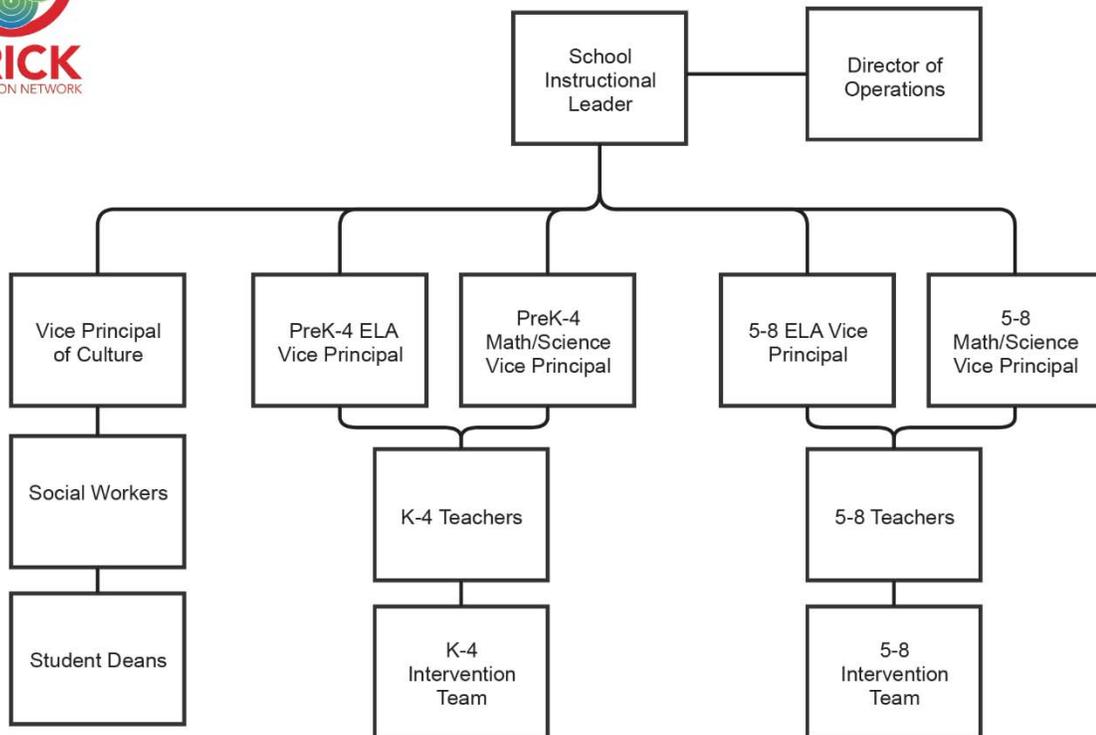

Carrieann Zielinski
School Business Administrator

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School, in the County of Essex, State of New Jersey as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 11 through 16, Budgetary Comparison Information on pages 51 through 54, and information related to Accounting and Reporting for Pensions (GASB 68) and OPEB (GASB 75) on pages 55 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying introductory section and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying combining and individual fund financial statements are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

The accompanying schedules of expenditures of federal awards and state financial assistance (Schedules) are also presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey OMB's Letter Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not also a required part of the basic financial statements.

The combining and individual fund financial statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, and the Schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2021 on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Charter School's internal control over financial reporting and compliance. Our report thereon, was not changed as a result of the financial statements described in Note 11 to the financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

PART I

MANAGEMENT'S DISCUSSION AND ANALYSIS

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Achieve Community Charter School's (the Charter School) financial performance provides an overall review of the Charter School's financial activities for the fiscal period ended June 30, 2020. The intent of this discussion and analysis is to look at the Charter School's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Charter School's financial performance.

The Management's Discussion and Analysis (MD&A) provides an analysis of the Charter School's overall financial position and results of operations.

Introduction

This section of the Charter School's annual financial report presents our discussion and analysis of the Charter School's financial performance and provides an overview of the Charter School's financial activities for the fiscal year ended June 30, 2020. It should be read in conjunction with the transmittal letter at the front of this report and the Charter School's financial statements, which follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB).

Financial Highlights

Key Financial highlights for the fiscal year 2020 are as follows:

- In total, net position increased to \$46,969 in 2020.
- General revenues accounted for \$4.42 million or 80% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions accounted for \$1.09 million or 20% of total revenues of \$5.51 million.
- The Charter School had \$5.47 million in expenses; only \$1.09 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$4.42 million was adequate to provide for these programs.
- Among governmental funds, the General Fund had \$5.39 million in revenues and \$5.35 million in expenditures. The General Fund's fund balance increased by \$35,148 in 2020.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Basic Financial Statements

This annual report consists of a series of basic financial statements, required supplementary information, other supplementary information and notes to those statements and information.

The report is organized so the reader can understand the Achieve Community Charter School as a financial whole, or as an entire operating entity. The first two basic financial statements, the Statement of Net Position and the Statement of Activities, are governmental-wide financial statements and provide overall information about the activities of the entire Charter School, presenting both an aggregate view of the Charter School's finances and a long-term view of those finances.

Fund Financial Statements

The remaining basic financial statements are fund financial statements that focus on the individual parts of the government, reporting the Charter School's operation in more detail than the governmental-wide statements. The fund financial statements also look at the Charter School's most significant funds with all other non-major funds presented in total in a single column. For the Achieve Community Charter School, the General Fund is the most significant fund.

The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short and long-term financial information about the activities; the government operates like a business, such as food service.

Fiduciary fund statements provide information about financial relationship in which the Charter School acts solely as a trustee or agent for the benefits of other, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of Required Supplementary Information that further explains and supports the information in the financial statements.

Statement of Net Position and Statements of Activities

While this report contains the funds used by the Charter School to provide programs and activities, the view of the Charter School as a whole looks at all financial transactions and asks the question, "how did we do financially during fiscal year 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all the Charter School's assets and liabilities using the accrual basis of accounting similar to the accounting system used by most private sector companies. These bases of accounting take into account all of the current year's revenues and expenses regardless of when cash was received or paid.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED
