These two statements report the Charter School's net position and changes in the net position. This change in net position is important because it identifies whether the financial position of the Charter School has improved or diminished for the Charter School as a whole. This change is the result of many factors some financial, some not. Financial factors represent increases in federal and state funding that resulted from the increase in enrollment noted for the fiscal year ended June 30, 2020. These factors are presented in our discussions on the Charter School as a whole. Non-financial factors include the property tax base of the School District where the Charter School is located, current educational funding laws in New Jersey, facilities conditions, required educational programs, and other factors. In the Statements of Net Position and the Statements of Activities, the Charter School is divided into two distinct kinds of activities:

Governmental Activities – Most of the Charter School's programs and services are reported here including instructional, extracurricular activities, curriculum, staff development, special education and other support services, operation and maintenance of plant, pupil transportation, health services and general administration.

Business-Type Activity – Services are provided on a charge for goods or services or reimbursement basis to recover the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School Charter School's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Charter School's major funds, not the Charter School as a whole. Funds are accounting devices that the Charter School uses to keep track of a multitude of financial transactions. The Charter School's only major governmental fund is the General Fund.

Governmental Funds

Most of the Charter School's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statement provides a detailed short-term view of the Charter School's general government operations and the basic services it provides.

Governmental fund information helps determine whether there are sufficient financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the Statement of Net Position and the Statement of Activities and the governmental funds are reconciled in the financial statements.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The Charter School as a Whole

The perspective of the Statement of Net Position is of the Charter School as a whole. The table below provides a summary of the Charter School's net position at June 30, 2020.

The total net position of the Charter School has increased by \$43,570 during the current fiscal year.

The table that follows reflects the change in net position for fiscal year 2020.

	Governmental Activities	Business-Type Activities	Total
Assets			
Current Assets	\$ 887,796	\$ 29,071	\$ 916,867

Governmental Activities

The Statement of Activities reflects the cost of program services and the charges for services and operating grants and contributions offsetting those services. The table below, for government activities, indicates the total cost of services and the net cost of services. It identifies the cost of these services supported by unrestricted state entitlements for the fiscal year ended June 30, 2020.

Business-Type Activity

The business-type activities of the Charter School are related to the food service operation with total revenues of \$125,192 and operating expenses of \$116,770 for fiscal year 2020.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

The Charter School's Funds

The Charter School's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues of \$5.39 million and expenditures of \$5.35 million.

General Fund Budgeting Highlights

The Charter School's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2020, the Charter School amended its General Fund budget as needed. The Charter School uses state-aid and other revenue-based budget. The budgeting systems are designed to tightly control total budget, but provide flexibility for Charter School management teams.

For the General Fund, final budgeted revenues were \$4.01 million which included a local tax levy of \$0.5 million. Expenditures were budgeted at \$4.01 million. The Charter School anticipated a break even in fiscal year 2020. During the fiscal year ended June 30, 2020, actual revenues were \$4.54 million and expenditures were \$4.50 million.

Reimbursement from the State of New Jersey during the year ended June 30, 2020 for the employer's share of social security contributions amounted to \$112,559 and there was no TPAF on-behalf TPAF payments for post-retirement medical benefits from the State.

Capital Assets

At the end of fiscal year 2020, the Charter School had no investment in capital assets.

Economic Factors and Next Year's Budget

The State of New Jersey continues to face serious budgetary constraints. These impacts the amount of state aid allocated to charter schools. This reality was taken into account when adopting the general fund budget for 2019-2020. Nothing was done to compromise the quality of the programs in place in our Charter School during the regular instructional day. The budget was prepared to ensure that all students have the textbooks, materials supplies, equipment and programs they need to meet New Jersey's Core Curriculum Content Standards.

Contacting the Charter School's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Charter School's finances and to reflect the Charter School's accountability for the monies it receives. Questions about this report or additional financial information needs should be directed to: Achieve Community Charter School, Business Office, 534 Clinton Ave, Newark, NJ 07108.

BASIC FINANCIAL STATEMENTS

CHARTER SCHOOL-WIDE FINANCIAL STATEMENTS

This Statement of Net Position and the Statement of Activities display information about the Charter School as a whole. The Statement of Net Position presents the financial condition of the government and business-type activities of the Charter School at fiscal year-end. The Statement of Activities presents a comparison between direct expense and program revenues for each program or function of the Charter School's governmental and business-type activities.

**NOTES TO THE BASIC
FINANCIAL STATEMENTS**

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Achieve Community Charter School (the "Charter School") is presented to assist in understanding the Charter School's financial statements and notes are representation of the Charter School's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and have been consistently applied in the preparation of these financial statements.

A. Reporting Entity

The Charter School is an instrumentality of the State of New Jersey, established to function as an educational institution. The school is governed by an independent Board of Trustees, which consists of parents, founders and other community representatives in accordance with its charter, which was appointed by the State Department of Education. An administrator is appointed by the board and is responsible for the administrative control of the Charter School.

B. Component Units

The primary criterion for including activities within the Charter School's reporting entity, as set forth in Section 2100 of the GASB's Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Charter School management. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, and ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the Charter School. Based on the aforementioned criteria, the Charter School has no component units.

C. Basis of Presentation

The financial statements of the Charter School have been prepared in conformity with GAAP as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Charter School also applies Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise fund unless they conflict with or contradict GASB pronouncements. The most significant of the Charter School's accounting policies are described below:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Continued

In June 1999, the Governmental Accounting Standards Boards unanimously approved Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the financial statements include the following:

The financial statements include:

- i) A Management’s Discussion and Analysis (MD&A) section providing an analysis of the Charter School’s overall financial position and results of operations.
- ii) Financial statements prepared using full accrual accounting for all of the Charter School’s activities.
- iii) A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

D. Basic Financial Statements

The Charter School’s basic financial statements consist of Charter School or government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the Charter School, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School’s governmental and business-type activities. The governmental activities generally are financed through federal and state awards, taxes and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

D. Basic Financial Statements - Continued

Fund Financial Statements

Fund financial statements of the Charter School are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Charter School.

The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Charter School at a more detailed level.

E. Governmental Funds

General Fund - The General Fund is the primary operating fund of the Charter School and is always classified as a major fund. It is used to account for all financial resources except those that are legally or administratively required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

- 1) As required by the New Jersey Department of Education, the Charter School included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.
- 2) Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of ground, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major Capital Projects, Debt Service or the Enterprise Funds) and local appropriations that legally restricted to expenditures for specified purposes.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

E. Governmental Funds - Continued

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. As of June 30, 2020, there was no Capital Projects Fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on, bonds issued to finance major property acquisitions, construction, and improvement programs. As of June 30, 2020, there was no debt service fund.

F. Proprietary Funds

The focus of Proprietary Funds' measurement is upon determination of net income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those to similar to business in the private sector. The following is a description of the Proprietary Funds of the Charter School:

Enterprise Funds:

The Enterprise Fund are utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the Charter School is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods and services to the students on a continuing basis be financed or recovered primarily through user charges; or where the Charter School has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenue) and decreases (expenses) in net total assets.

Internal Service (Self-Insurance) Fund:

The Self-Insurance Fund is used to cover the self-insured limits of the various insurance policies for all funds. Charter School does not use self-insurance fund.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

G. Fiduciary Funds

Fiduciary or trust and Agency Funds are used to account for assets held by the Charter School in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. This fund category includes:

Expendable Trust Funds - Expendable Trust Funds are accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent.

Nonexpendable Trust Funds - Nonexpendable Trust Funds are used to account for assets held under the terms of a formal trust agreement, whereby the Charter School is under obligations to maintain the trust principal.

Agency Funds - Agency funds are used to account for the assets that the Charter School holds on behalf of others as their agent. Agency funds are custodial in nature and do not involved measurement of results of operations. Agency funds include payroll and student activities funds.

H. Measurement Focus and Basis of Accounting

Measurement Focus - Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. On the government-wide statements of net position and the statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statement of these funds present increases (i.e., revenues and other financing sources), and decreases (i.e. Expenditures and other finances uses) during a given period. These funds use fund balance as their measure of available spend able financial resources at the end of the period.

All proprietary funds are accounted for on a flow economic resources measurement focus. With this measurement focus, the accounting adjectives are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and all liabilities, whether current or noncurrent, associated with their activities are included on the balance sheet. Fund equity (i.e., net total assets) is classified as net position.

(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

H. Measurement Focus and Basis of Accounting - Continued

Basis of Accounting - In the government-wide statement of net position and statements of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recognized when the liability, resulting from exchange and exchange like transactions, is incurred (i. e. the exchange takes place).

In the fund financial statements, governmental fund and agency funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available.

“Measurable” means the amount of the transaction can be determined and “available” means collectible with the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

I. Budgets/Budgetary Control

Annual appropriated budgets are prepared prior to July 1, for the General Fund. The budget is prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A. 2(m)1. All budget amendments must be approved by the State Department of Education. Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

I. Budgets/Budgetary Control - Continued

The accounting records of special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognized the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow of the presentation of GAAP basis financial report. As presented in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General, Special Revenue Fund and Debt Service Funds to the GAAP basis of accounting as presented in the Statements of Revenue, Expenditures and Changes in Fund Balances – Governmental Funds.

J. Deposits, Investments and Risk Disclosure

Cash and cash equivalents includes amounts in deposits, money market accounts and short-term investments with original maturities of three months or less.

Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of any discount or premium. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40 replaces in part, and otherwise modifies the prior GASB Statement No. 3, in addressing the requirements for disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments. Custodial credit risk disclosures are limited to deposits that are not covered by depository insurance and are (a) uncollateralized; (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Deposits

New Jersey statutes require that Charter Schools deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Charter Schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows: The market value of the collateral must equal at least five percent of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%. All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the Charter School to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal national Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the Charter School.
- d. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and MBIA CLASS.

As of June 30, 2020, the Charter School did not hold any investments.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Risk Category

All bank deposits, as of the balance sheet date, are entirely insured or collateralized by a collateral pool maintained by public depositories as required by the Governmental Unit Deposit Protection Act. Although GASB Statement No. 40 eliminated Categories 1 and 2 as previously established by GASB Statement No. 3, it maintained, with modification, the level-of-disclosure requirements of GASB Statement No. 3.

As of June 30, 2020, the Board had funds invested and on deposit in checking accounts. These funds constitute “deposits with financial institutions” as defined by GASB Statement No. 3 and modified by GASB Statement No. 40, and as such, are deposits that are insured or collateralized with securities held by the Board or by its agent in the Board’s name, both at year-end and throughout the year.

The Charter School does not have a policy for the management of the custodial risk, other than depositing all of its funds in banks covered by GUDPA.

K. Prepaid Expenses

Prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase.

The Charter School does not have prepaid expenses as of June 30, 2020.

L. Interfund Assets/Liabilities

On the fund financial statements, receivables and payables resulting from short-term Interfund loans are classified as Interfund Receivable/Payable. Interfund balanced within governmental activities and within business-type activities are eliminated on the government-wide Statement of Net Position.

M. Fixed Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the Charter School as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation based for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

M. Fixed Assets - Continued

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the governmental fund capital assets.

Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation of capital assets is computed and recorded by the straight-line method. The Charter School does not have capital assets as of June 30, 2020.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

O. Compensated Absences

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences that are attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Charter School employees are granted sick and vacation leave in varying amounts under the Charter School's personnel policies and according to negotiated contracts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave. Vacation days not used during the year may only be carried forward with approval from the Head of School.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

O. Compensated Absences - Continued

In the charter school-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2020, the Charter School has no liabilities for compensated absences.

P. Net Pension Liability (Asset)

The net pension liability (asset) represents the Charter School's proportionate share of the net pension liability (asset) of the New Jersey State Pension Employees' Retirement System and the New Jersey State Teachers' Pension and Annuity Fund System. The financial reporting of these amounts is presented in accordance with the provisions of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date".

Q. Deferred Revenue

Deferred revenue in special revenue fund represent cash that has been received but not yet earned.

R. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payable, accrued liabilities, and long-term obligations payable from the enterprises fund are reported and the enterprises fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payments during the current year.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

S. Fund Balance and Equity

Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Charter School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law or Education Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** – CONTINUED

S. **Fund Balance and Equity** - Continued

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Charter School's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Charter School's policy to use fund balance in the following order: committed, assigned, and unassigned.

T. **Net Position**

Net Position on the *Statement of Net Position* include the following:

Investments in Capital Assets, net of Related Debt - the component of net position there reports the differences between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributed to the acquisition, construction or improvement of those assets.

Restricted for Specific Purposes – the component of net position that reports the difference between assets and liabilities of the certain programs that consist of assets with constraints placed on their use by either external parties and /or enabling legislation.

Restricted for Debt Service – the component of net position that reports the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Unrestricted - the difference between the assets and liabilities that is not reported in Net Position Invested in Capital Assets, net of Related Debt, Net Position Restricted for Specific Purposes or Net Position Restricted for Debt Services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

U. Contributed Capital

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds.

V. Interfund Transactions

Interfund transfers are defined as the flow of assets, such as cash or goods, without equivalent flows of assets in return. Interfund borrowings are reflected as “Due from/to Other Funds” on the accompanying financial statements. All other interfund transfers are reported as operating transfers.

W. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the recorded amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

X. Accounting for Uncertainty in Income Taxes

The Charter School recognizes the effect of income tax positions only of those positions are more likely than not of being sustained. Management has determined that the Charter School had no uncertain tax positions that would require financial statement recognition. Fiscal year ended June 30, 2020 is the Charter School’s third year of operations.

Y. On-Behalf Payments

Revenues and expenditures of the General Fund include payment made by the State of New Jersey for Pension and social security contributions for certified teacher members of the New Jersey Teachers Pension and Annuity Fund, and for post-retirement medical benefits of members. The amounts are not required to be included in the Charter School’s annual budget.

Z. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is January 19, 2021.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Z. Subsequent Events Evaluation by Management - continued

In March 2020, the COVID-19 virus has been declared a global pandemic as it continues to spread rapidly. Business continuity, including supply chains and consumer demand across a broad range of industries and countries, is and will continue to be severely impacted for months or beyond as governments and their citizens take significant and unprecedented measures to mitigate the consequences of the pandemic. Management is carefully monitoring the situation and evaluating its options during this time. No adjustments have been made to these financial statements because of this uncertainty.

NOTE 2 ACCOUNTING PRONOUNCEMENTS

During the fiscal year ended June 30, 2020, the Charter School adopted GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance (GASBS 95), which addresses the impact of the COVID-19 pandemic and provides relief to governments by postponing implementation and application of certain GASB Statements by a year, and by up to 18 months for other statements.

In accordance with this Standard, the Charter School postponed the implementation of any previously applicable standards until their new required implementation dates as follow:

- a. Pronouncements postponed by one year and new effective dates:
 - Statement No. 84, Fiduciary Activities and Implementation Guide No. 2019-2, periods beginning after December 15, 2019
 - Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, reporting periods beginning after December 15, 2020
 - Statement No. 90, Majority Equity Interests, reporting periods beginning after December 15, 2019
 - Statement No. 91, Conduit Debt Obligations, reporting periods beginning after December 15, 2021
 - Statement No. 92, Omnibus 2020, paragraphs 6 and 7, fiscal years beginning after June 15, 2021
 - Statement No. 92, Omnibus 2020, paragraphs 8, 9, and 12, fiscal years beginning after June 15, 2021
 - Statement No. 93, Replacement of Interbank Offered Rates, fiscal years beginning after June 15, 2021

NOTE 3 CASH AND CASH EQUIVALENTS

The Charter School's cash and cash equivalents are classified below to inform financial statement users about the extent to which the Charter School's deposits and investments are exposed to custodial credit risk.

As of June 30, 2020, the Charter School's deposits are summarized as follows:

	General Fund	Enterprise Fund	Trust and Agency Funds	Total
Operating Account	\$ 319,631	\$ 20	\$ 105,897	\$ 425,548
Restricted cash	-	-	-	-
Total	\$ 319,631	\$ 20	\$ 105,897	\$ 425,548

Operating cash accounts are held in the Charter School's name by several banking institutions. At June 30, 2020, the Charter School's carrying amount of deposits was \$425,548 and the bank balance was \$600,063. Of the bank balance, up to a maximum of \$250,000 of the Charter School's cash deposits on June 30, 2020 were secured by federal deposit insurance (FDIC) and \$350,063 was covered by a collateral pool maintained by the bank as required by New Jersey statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA").

Restricted Cash

The Charter School has established and funded an Escrow Account pursuant to an agreement signed with the New Jersey Department of Education. The agreement stipulates that the intended use of the escrow amount is "to pay for legal and audit expenses and any other outstanding pension benefits that would be associated with a dissolution should it occur." The required minimum is \$75,000, of which, the Charter School obtained a surety bond.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 4 LONG-TERM DEBT

During 2020, the Charter School received a forgivable loan amounting to \$340,090 under the Paycheck Protection Program (“PPP”), which the Charter School recognized as a long-term debt, in accordance with paragraph 12 of GASB Statement No. 70, “*Nonexchange Financial Guarantee*”. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”), provides loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loans and accrued interest are forgivable after 24 weeks as long as the loan proceeds are used for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the borrower terminates employees or reduces salaries during the 24-week period. No payments are due on the Loan for six (6) months (the “Deferment Period”) from the date of first disbursement of the Loan. Interest will continue to accrue during the Deferment Period. Borrower must make principal and interest payments every month beginning in the month immediately following the end of the Deferment Period (the “Payment Commencement Date”). Any portion of the proceeds that is unforgiven is payable over two years at an interest rate of 1%, with a deferral of payments. It matures on May 1, 2022 and bears an interest rate of 1% per annum payable monthly and such payments are deferred for the first six months. The Charter School currently believes that its use of the proceeds will meet the conditions for forgiveness of the loan. As of June 30, 2020, PPP loans payable amounted to \$340,090.

NOTE 5 NET POSITION (DEFICIT)

As of June 30, 2020, the net position consisted of the following components:

<u>INVESTMENT IN CAPITAL ASSETS, NET OF RELATED DEBT</u>	<u>Governmental</u>	<u>Business Type</u>	<u>Total</u>
Capital assets, net	\$ -	\$ -	\$ -
Less: Long-Term obligations	-	-	-
(All long-term debt relates to capital assets)	-	-	-
<u>RESTRICTED</u>			
Restricted for Food Service	25,971	-	25,971
<u>UNRESTRICTED</u>			
Net position (deficit) not restricted above	46,969	(25,971)	20,998
NET POSITION (DEFICIT)	<u>\$ 72,940</u>	<u>\$ (25,971)</u>	<u>\$ 46,969</u>

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 PENSION PLANS

A. Description of Plans

All eligible employees of the Charter School are covered by either the Public Employee's Retirement System (PERS) or the Teacher's Pension and Annuity Fund (TPAF) which have been established by state statute and are administered by the New Jersey Division of Pension and Benefit (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the PERS and the TPAF. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625.

i. Public Employees' Retirement System (PERS)

The Public Employees' Retirement Systems (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full-time employees of the State or any county municipality, Charter School, or public agency provided the employee is not a member of another state-administered retirement system. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, Charter School, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

ii. Teachers Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established in January 1, 1995, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. The Teacher's Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Charter School and the systems other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional, and certified.

**ACHIEVE COMMUNITY CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 PENSION PLANS - CONTINUED

B. Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determine to be 1/55 of the final average salary for each year of service credit as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determine to be 1/55 of the final average salary for each year of service credit as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The PERS and TPAF provides for specified medical benefits for member who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

NOTE 6 PENSION PLANS - CONTINUED

C. Significant Legislation

Two pieces of legislation passed during fiscal year 2001 having significant impact on the benefit provisions under PERS and TPAF. Chapter 133, P.L.2001, increases retirement benefits for service, deferred and early retirements by changing the formula from 1/60 to 1/55 of final compensation for each year of service. The legislation also increases the retirement benefit for veteran member with 35 years or more of service and reduces age qualification from 60 to 55. The legislation further provides that existing retirees and beneficiaries would also receive a comparable percentage increase in their retirement allowance. The benefit enhancements are effective with the November 1, 2001 benefit checks. Chapter 120, P.L. 2001, established an additional retirement option for plan members. Under the new option, a retiree's actuarially reduced allowance (to provide a benefit to the retiree's beneficiary upon the death of the retiree) would "pop-up" to the maximum retirement allowance if the beneficiary predeceases the retiree.

Chapter 4, P.L. 2001 provides increased benefit to certain members of PERS who retired prior to December 29, 1989 with at least 25 years of creditable service. The maximum amount of the increase is 5 percent the retiree's final compensation. For those with 30 or more years of service, the total pension would increase from 65 to 71 percent of final compensation.

Due to the enactment of 1997 legislation, Chapter 114, P.L. 1997 and Chapter 115, P.L. 1997, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated. In addition, excess valuation assets were available to fund, in full or in part, the State of New Jersey's normal contribution from 1997 to 2001, excluding the contribution for post-retirement medical benefits in the PERS and TPAF.

D. Contribution Requirement

The contribution policy is set by laws of the State of New Jersey and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.06% for PERS and 7.06% for TPAF of the employee's annual compensation. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Charter School.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 PENSION PLANS - CONTINUED

D. Contribution Requirement - Continued

The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF.

In accordance with N.J.S.A 18A:66-66 the State of New Jersey reimbursed the Charter School \$99,885 during the year ended June 30, 2020 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

The Charter School did not have PERS contribution nor TPAF on-behalf payments since fiscal year ended June 30, 2020 is the Charter School's first year of operations.

E. GASB 68 Disclosures

i. Public Employees' Retirement System (PERS)

As of June 30, 2020, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

ii. Teachers Pension and Annuity Fund (TPAF)

As of June 30, 2020, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

NOTE 7 POST-RETIREMENT BENEFITS

General Information about the OPEB Plan

The State of New Jersey Provides employer-paid coverage to members of the TPAF who retire from a board of education or county college with 25 year of service or on a disability retirement. Under the provision of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of PERS and Alternate Benefits Program (ABP) who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents. In Fiscal Year 2019, the State paid PRM benefits for 153,893 State and local retirees.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 7 POST-RETIREMENT BENEFITS - CONTINUED

The State funds post-retirement medical benefits on a “pay-as-you-go” basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2019, the State contributed \$1.908 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The State’s “pay-as-you-go” contributions have remained consistent with Fiscal Year 2018 amounts. The State has appropriated \$1.612 billion in Fiscal Year 2020 as the State’s contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2019 total State OPEB liability to provide these benefits is \$76.0 billion, a decrease of \$14.5 billion or 16 percent from the \$90.5 billion liability recorded in Fiscal Year 2018.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The Charter School’s proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the Charter School did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

Accordingly, the following OPEB liability note information is reported at the State’s level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in the NJ State CAFR at <https://www.nj.gov/treasury/omb/cafr.shtml>

**ACHIEVE COMMUNITY CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 7 POST-RETIREMENT BENEFITS - CONTINUED

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the Charter School recognize OPEB revenue and expense of \$0 as determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the Charter School's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to retired Charter School employees' OPEB was zero.

NOTE 8 DEFERRED COMPENSATION

The Charter School offered its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Service 403(b). The Plan which are administered by the Charter School and various insurance companies, permits participants to defer apportion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, death or unforeseeable emergency.

NOTE 9 RISK MANAGEMENT

The Charter School is exposed to various risks of loss relates to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Property and Liability Insurance

The Charter School maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (Unaudited) of this Comprehensive Annual Financial Report (Schedule J-20).

B. New Jersey Unemployment Compensation

The Charter School has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Charter School is required to reimburse the New Jersey Unemployment Trust Fund For benefits paid to its former employees and charged to its account with the State. The Charter School is billed quarterly for amounts due to the State.

NOTE 10 INTERFUND RECEIVABLES AND PAYABLES

Amount reported in the governmental funds as interfund receivable and payable from/to other governmental funds pertains to expenses that were paid from the general fund which are eliminated in the governmental activities' column. The remaining internal receivable and payable between the governmental funds and enterprise fund have been eliminated in the total Charter School-wide Statement of Net Position.

At June 30, 2020, the interfund balances consisted of the following:

	RECEIVABLE (PAYABLE)			
	General Fund	Special Revenue Fund	Enterprise Fund	Fiduciary Fund
General fund	(135,438)	42,221	5,215	\$ 88,002
GASB No 34 mandated eliminations within governmental activities	<u>42,221</u>	<u>(42,221)</u>	-	-
Net interfund balances reported as follows:				
Entity-wide (eliminated in total column)	<u>\$ (93,217)</u>	<u>\$ -</u>	<u>\$ 5,215</u>	
External (Due from Trust and Agency Funds)				<u>\$ 88,002</u>

NOTE 11 CONTINGENCIES

State and Federal Aid Receipts

State and Federal awards are generally subject to review by the responsible governmental agencies for compliance with the agencies regulations governing the aid. In the opinion of the Charter School's management and legal counsel, any potential adjustments to the Federal or State aid recorded by the Charter School through June 30, 2020, resulting from a review by a responsible government agency will not have a material effect on the Charter School financial statements at June 30, 2020.

NOTE 12 MANAGEMENT AGREEMENT

On July 1, 2019, the Charter School entered into an two-year operating agreement with BRICK, Inc., a New Jersey not-for-profit corporation, renewable for another two-year term until June 30, 2023. The fee for the services is equal to 10% of the total federal, state and local public revenue actually received by the Charter School.

Total management fee paid by the Charter School for the fiscal year ended June 30, 2020 amounted to \$144,458.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PART III
YEAR ENDED JUNE 30, 2019**

Public Employees Retirement System (PERS)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 5.66% to 6.28%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

The single blended discount rate of 6.28% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.00% in prior measurement date) and a municipal bond rate of 3.50% (3.87% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

At June 30, 2020, the Charter School's share in the net pension liability is zero.

Teachers Pension and Annuity Fund (TPAF)

Change in benefit terms. There is no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 4.25% to 5.60% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 68.

The single blended discount rate of 5.60% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.00% in prior measurement date) and a municipal bond rate of 3.50% (3.87% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

At June 30, 2020, the Charter School's share in the net pension liability is zero.

Other Post-Employment Benefits (OPEB)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total nonemployer OPEB liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 3.87% to 3.50% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 75. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. At June 30, 2020, the Charter School's share in the net pension liability is zero.

CAPITAL PROJECTS FUND

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by propriety funds.

At June 30, 2020, there was no capital project fund.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the Charter School is that the costs of providing goods and services be financed through user charges. The Charter School has the Food Service and After Care in its Enterprise Fund to account for the operation of food services and after care.

FIDUCIARY FUNDS

Trust funds are used to account for gifts and bequests to the Charter School for specific purposes.

Unemployment Compensation Insurance Trust Fund is an expendable trust fund used to account for unemployment transactions of the Charter School.

At June 30, 2020, there was no non-expandable trust fund utilized by the Charter School.

Agency funds are used to account for assets held by the Charter School as an agent for individuals, private organizations, governmental and/or other funds.

Payroll Fund - This agency fund is used to account for the payroll transactions of the Charter School.

SINGLE AUDIT SECTION

EXHIBIT K-1

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report thereon dated January 19, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - CONTINUED

may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did, however, identify certain deficiencies, described in the accompanying schedule of findings and questioned costs as finding 2020-001 and 2020-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We also noted certain matters that we have reported to the Board of Trustees of the Achieve Community Charter School in the County of Essex, New Jersey in a separate *Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance*, dated January 19, 2021.

Charter School's Response to Findings

The Charter School's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Charter School's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE
AS REQUIRED BY THE UNIFORM GUIDANCE AND
NEW JERSEY OMB CIRCULAR LETTER 15-08**

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
Essex County, New Jersey

Report on Compliance for Each Major State and Federal Programs

We have audited the Achieve Community Charter School's (the Charter School) in the County of Essex, State of New Jersey compliance with the types of compliance requirements described in the *New Jersey State Aid Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major state and federal programs for the fiscal year ended June 30, 2020. The Charter School's major state and federal program are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Charter School's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, Uniform Guidance and New Jersey OMB Circular Letter 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

We believe that our audit provides a reasonable basis for our opinion. However, our audit does not provide a legal determination of the Charter School's compliance on compliance for each major federal and state programs.

Opinions on Each Major Federal and State Programs

In our opinion, the Achieve Community Charter School in the County of Essex, State of New Jersey, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal and state program for the fiscal year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and New Jersey OMB Letter Circular 15-08, and which are described in the accompanying schedule of findings and questioned costs as items 2020-003 and 2020-004. Our opinion on each major federal program and state financial assistance is not modified with respect to these matters.

Report on Internal Control Over Compliance

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Letter Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular Letter 15-08. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE**

FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1 GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Trustees for Achieve Community Charter School. The Board of Trustees is defined in Note 1 to the Charter School's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of those recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules is presented in accordance with the requirements of *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Amounts reported in the accompanying schedules agree with the amounts reported in the Charter School's basic financial statements. The basic financial statements present the special revenue fund on both GAAP and budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. See Exhibit C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the Charter School's basic financial statements on a GAAP basis as follows:

FINANCIAL ASSISTANCE - CONTINUED**

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS - CONTINUED

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ -	\$ 3,194,352	\$ 3,194,352
Special Revenue Fund	850,051	-	850,051
Enterprise Fund	<u>123,429</u>	<u>1,718</u>	<u>125,147</u>
Total	<u>\$ 973,480</u>	<u>\$ 3,196,070</u>	<u>\$ 4,169,550</u>

NOTE 4 RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5 ON-BEHALF PAYMENTS

TPAF Social Security Contributions represents reimbursements in the amount of \$112,559 by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2020. The State did not made on-behalf TPAF payments for pension contributions, post-retirement medical benefits and long-term disability insurance contributions for the year ended June 30, 2020.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF pension contributions, post-retirement medical benefits contributions and long-term disability insurance are not subject to a State Single Audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the Charter School's financial statements and the amount subject to State Single Audit and major program determination.

NOTE 7 DE MINIMIS INDIRECT COST

The Charter School has not elected to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

SECTION II - FINANCIAL STATEMENT FINDINGS

**Finding 2020-001 – Timely Reporting, Account Analysis and Reconciliation
and Audit Preparation**

Criteria

Timely and accurate financial reports are prescribed by N.J.S.A.18A:17-9 and 18A:17-36 to be presented to the Board.

Condition

During the audit the financial records were not readily available due to turnover in CMO employee and unfamiliarity with the accounting system used. As a result, there were several trial balance revisions to reconcile cash balances, interfund activities, accounts payable and payroll account balances. Also, multiple general ledger cash accounts in each fund were used for a bank account to account for interfund transactions. Case on point, the general fund has cash accounts for food service, student activities and payroll. Several adjusting journal entries were recorded at year-end in each fund to correct the cash balances and other accounts.

There was also one bank account that was overdrawn as of June 30, 2020.

We also noted from the monthly Board minutes that the Board Secretary's and financial reports were not presented monthly to the Board as prescribed (N.J.S.A.18A:17-9 and 18A:17-36). In addition, the budget columns in the monthly Board Secretary's report were not updated.

Cause

The Charter School transactions were not timely recorded and reconciled due to staff turnover, change in accounting system and unfamiliarity with the new accounting system.

Effect

Various trial balance revisions were provided to the auditors, several adjusting journal entries were needed to correct certain account balances and additional audit time was needed to complete the audit.

SECTION II - FINANCIAL STATEMENT FINDINGS

**Finding 2020-001 – Timely Reporting, Account Analysis and Reconciliation
and Audit Preparation - continued**

Recommendation

Timely reconciliation of accounts is a fundamental account process to prove that transactions sums to the correct ending account balances. The Charter School should ensure that all transactions are recorded and reconciled on a timely basis. We also recommend that the Charter School streamline the general ledger accounts and develop monthly closing and post-closing procedures to ensure that accounts are reconciled and accurate.

View of Responsible Official and Planned Corrective Actions

The School Business Administrator has consulted with an outside management firm to assess the accounting software Achieve was utilizing. Due to mapping error the one software had, Achieve has decided to change the accounting software and implement a procurement platform. Since FY20 the School Business Administrator has also ensured the Board receives timely financial reports. The finance department is taking the proper steps to ensure accounting compliance moving forward.

Finding 2020-002 – Claims and Purchase Orders

Criteria

All claims should follow the purchasing policy, where purchase orders are made before incurrence of expenses and supporting documents should be kept on file.

Condition

During our audit, we noted some claims that did not follow the purchasing policy.

Context

In our review of claims, we noted the following:

- a. Supporting documents for 6 of 40 sample claims paid were not on file.
- b. Of the 34 claims paid with supporting documents provided,
 - 16 claims have confirming purchase orders.
 - 12 claims did not have signed vendor certifications.
 - 10 claims have inadequate supporting documentation.
 - 3 did not have signed purchase orders.
 - 2 claims have undated purchase orders.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

SECTION II - FINANCIAL STATEMENT FINDINGS

Finding 2020-002 – Claims and Purchase Orders - continued

Cause

Controls in place to monitor compliance with the purchasing policy was not consistently adhered to.

Effect

There were claims that failed to follow the purchasing policy and claims where supporting documentation were not available.

Questioned cost

None.

Recommendation

We recommend a review of the purchasing policy and procedures with personnel assigned. All supporting documents including approved purchase orders, vendor invoices and certifications are obtained and maintained. Further, expenses should always follow the Charter School's purchasing policy.

View of Responsible Official and Planned Corrective Actions

The current School Business Administrator has revised and implemented a new Purchasing Manual that ensures fiscal compliance across the district. Procurement training has also been implemented at the beginning of the fiscal year to ensure fiscal accountability. Consequences have been implemented for staff members who receive goods or services without a signed Purchase Order.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

**SECTION III - FEDERAL AND STATE FINANCIAL ASSISTANCE FINDINGS AND
QUESTIONED COSTS**

Finding 2020-003 Time and Activity Reports

CFDA #84.010 – Title I Grants to Local Educational Agencies
CFDA #84.027 – Individuals with Disabilities – State Grants

Criteria

An employee who works, in whole or in part, on a Federal program or cost objective must document time and effort. An employee who works solely on a single cost objective (e.g., a single Federal program) must furnish a semi-annual certification that he/she has been engaged solely in activities that support the single cost objective. The certification must be signed by the employee or a supervisory official having first-hand knowledge of the work performed by the employee in accordance with Uniform Guidance 2 C.F.R. 200.302. The payroll expense recorded in the books should represent the approved time and activity report.

Condition

During our audit, Title I and IDEA employees did not have time and activity reports first half of the year

Context

Full time Title I and IDEA employees only have one of the two semi-annual time and activity certifications. Not all of the monthly time and activity reports of split-funded employees were provided.

Cause

Procedures to monitor the submission of time and effort documentation were not adhered to consistently.

Effect

Allocation of salaries among programs may not be equitable.

Questioned cost

None.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

**SECTION III - FEDERAL AND STATE FINANCIAL ASSISTANCE FINDINGS AND
QUESTIONED COSTS - CONTINUED**

Finding 2020-03 Time and Activity Reports - continued

Recommendation

The Charter School should ensure that federally funded employee salaries have a completed semi-annual or monthly time and activity certification in accordance with Uniform Guidance 2 C.F.R. 200.302

View of Responsible Official and Planned Corrective Action

The School Business Administrator and Chief School Administrator have become educated in all Federal Grant requirements moving forward to ensure all federally funded positions complete the required paperwork.

Finding 2020-004 Late Submission of Food Service Claims

CFDA No.	Name of Federal Program or Cluster
	Child Nutrition Cluster
10.553	National School Breakfast Program
10.555	National School Lunch Program

Criteria

Under Title 7 CFR Part 210.8 Claims for reimbursement, "A final Claim for Reimbursement shall be postmarked or submitted to the State agency not later than 60 days following the last day of the full month covered by the claim. State agencies may establish shorter deadlines at their discretion. Claims not postmarked and/or submitted within 60 days shall not be paid with Program funds unless otherwise authorized by United State Department of Agriculture (USDA) Food and Nutrition Services (FNS)."

Condition

The reimbursement claims for meals served during the month of September 2019 in the total amount of \$11,797 was submitted to the New Jersey State Department of Agriculture past the 60 days after the end of the reporting month. As a result, the claim is in further review by the New Jersey State Department of Agriculture and remained unpaid at June 30, 2020.

Cause

There were changes in accounting personnel responsible for the submission of the monthly claims and the changes in the state system required time to learn on how to navigate. Both changes caused the delay.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

**SECTION III - FEDERAL AND STATE FINANCIAL ASSISTANCE FINDINGS AND
QUESTIONED COSTS - CONTINUED**

Finding 2020-04 Late Submission of Food Service Claims - continued

Effect

Failure to submit the claims within the prescribed period may result in non-payment of claims.

Recommendation

We recommend that the Charter School implement its policies and procedures to ensure that the required reports are filed timely. We recommend personnel back-up and training to ensure that data requirements and timelines are adhered to.

View of Responsible Official and Planned Corrective Action

The Management have already reviewed the policies and procedures in place for filing claims for the Charter School's Food Program. The claiming procedures and timelines of 60 days after the month covered by the claim were discussed with personnel involved to ensure understanding of the data requirements and the importance of maintaining complete and accurate data to support the monthly claims.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

**SUMMARY SCHEDULE OF PRIOR-YEAR AUDIT FINDINGS AND QUESTIONED COSTS AS
PREPARED BY MANAGEMENT**

FISCAL YEAR ENDED JUNE 30, 2020

Finding 2019-001 Reconciliation of Accounts

Periodic reconciliation of accounts is a fundamental account process to prove that transactions sums to the correct ending account balances. During the audit, we noted the following:

- The monthly bank reconciliations were incomplete and had several reconciling items requiring further analysis for proper disposition.
- Outstanding checks at year end included 31 checks written but not issued as of June 30, 2019. These were reclassified to accounts payable.
- Interfund payables and receivables were not reconciled.
- Net payroll and payroll agency year-end balances were not reconciled

Status: Similar finding still exists. Refer to Finding 2020-001

Finding 2019-002 – Claims and Purchase orders

In our review of claims, we noted the following:

- Supporting documents for 21 of 40 claims paid were not on file.
- There were 16 of 19 claims examined have purchase order dates that are the same or after the invoice dates.
- One of 19 sample claims provided had a purchase order with no evidence of SBA approval.
- One of 19 sample claims examined did not have a signed vendor certification.
- Purchase orders for 2 of 19 sample claims provided did not have purchase orders on file.

Status: Similar finding still exists. Refer to Finding 2020-002.

**CORRECTIVE ACTION PLAN IN RESPONSE TO AUDIT FINDINGS
FISCAL YEAR ENDED JUNE 30, 2020**

**Finding 2020-001 – Timely Reporting, Account Analysis and Reconciliation
and Audit Preparation**

Timely reconciliation of accounts is a fundamental account process to prove that transactions sums to the correct ending account balances. During the audit:

- Cash balances, interfund, receivables and accounts payable and payroll expenses did not reconcile.
- Multiple general ledger cash accounts in each fund was also used for one bank accounts which, in reality are interfund transactions or booking errors not corrected. For example, the general fund has a general ledger cash accounts for food service, student activities and payroll.
- Incorrect recording of some collection and payment of intergovernmental receivables and payables.
- Interfund payables and receivables were not reconciled
- Monthly Board Secretary's Report and cash reports were not timely presented to the Board
- Line item expenses in the June 30, 2020 Board secretary's report did not match the June 30, 2020 general ledger balances.

Several adjusting journal entries were posted during the audit to correct the related account balances.

The Charter School should ensure that all transactions are recorded and reconciled on a timely basis. We also recommend that the Charter School develop and appropriate post-closing adjustment process to ensure that accounts are accurate, implement stricter review of account balances.

Corrective Action : The School Business Administrator has consulted with an outside management firm to assess the accounting software Achieve was utilizing. Due to mapping error the one software had, Achieve has decided to change the accounting softwares and implement a procurement platform. Since FY20 the School Business Administrator has also ensured the Board receives timely financial reports. The finance department is taking the proper steps to ensure accounting compliance moving forward.

March 18, 2020

Honorable President and Members
of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Dear Board Members:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of the Achieve Community Charter School (Charter School) for the fiscal year ended June 30, 2019. This CAFR includes the Charter School's Basic Financial Statements prepared in accordance with Governmental Accounting Standards Board Statement 34.

The Charter School has elected to adopt this new financial reporting model which we believe will provide all users of this document with much more useful financial and statistical information than ever before. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Trustees (Board).

To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Charter School. This report will provide the taxpayers of the Charter School with comprehensive financial data in a format enabling them to gain an understanding of the Charter School's financial affairs.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a table of contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the Charter School;
- The Financial Section begins with the Independent Auditor's Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the Charter School's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the Charter School, generally presented on a multi-year basis;
- The Single Audit Section — The Charter School is required to undergo an annual single audit in conformity with the provisions of the New Jersey State Office of Management and Budget (OMB) Circular Letter 15-08-OMB, "*Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*".

Information related to this single audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, are included in the single audit section of this report.

Charter School Organization

The Board of Trustees is comprised of five voting members and are elected to oversee that the Charter School operates in compliance with statute and administrative code. Voting members of the Board serve as the official governing body of the Charter School charged with policy making, fiscal oversight, and accountability for student academic achievement results of the Charter School. Voting members adopt the annual budget and directly approve all expenditures which serve as the basis for control for the authorization of all expenditures of Charter School tax money which in turn support the Charter School's business to promote academic achievement. Non-voting members include the Charter School's Principal and Vice-Principal, School Business Administrator/Board Secretary, and faculty representative.

The Principal of the Charter School is responsible to the board for the implementation and administration of all educational and support operations. The School Business Administrator/Board Secretary is the chief financial officer of the Charter School and is responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the Charter School, acting as custodian of all Charter School funds, and investing idle funds as permitted by New Jersey Law.

1. **REPORTING ENTITY AND ITS SERVICES**: The Achieve Community Charter School is an independent reporting entity within the criteria adopted by the Government Auditing Standards Board (GASB) as established by GASB Statement No. 14. All funds and account groups of the Charter School are included in this report. The Charter School's Board of Trustees, constitutes the Charter School's reporting entity.

The Charter School provides a full range of educational services appropriate to grade levels K through 4. These include both regular and special education programs. As of June 30, 2019, the Charter School's final head count was 221 students.

2. **MAJOR INITIATIVES**: The following are the major initiatives successfully implemented at the Charter School for 2018-2019 school year:

The major initiatives are building the curriculum for rigorous literacy and math instruction through the adoption a new curriculums. Teachers and leaders will be trained in summer institute and on bi-weekly professional development.

The Charter School also adopted a new guided reading framework in kindergarten to second grade and close reading in third grade. Teachers and leaders were professionally developed to implement the curriculum.

Social emotional learning and support was developed through the addition of a vice principal of culture as well as an associate dean. These two positions provided direct support to teachers and administrators in meeting the needs of our most struggling students.

3. **INTERNAL ACCOUNTING CONTROLS**: Management of the Charter School is responsible for establishing and maintaining an internal control designed to ensure that the assets of the Charter School are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met.

INTERNAL ACCOUNTING CONTROLS – CONTINUED

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Charter School is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the Charter School's management.

As part of the Charter School's Single Audit described earlier, tests are made to determine the adequacy of internal controls, including that portion related to federal and state financial assistance programs, as well as to determine that the Charter School has complied with applicable laws and regulations.

4. **BUDGETARY CONTROLS:** In addition to internal accounting controls, the Charter School maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated at June 30, 2019.

5. **ACCOUNTING SYSTEM AND REPORTS:** The Charter School's accounting records reflect generally accepted accounting principles, as promulgated by Governmental Accounting Standards Board (GASB). The accounting system of the Charter School is organized on the basis of funds each of which maintains a self-balancing set of accounts. These funds are explained in the "Notes top the Basic Financial Statements."
6. **DEBT ADMINISTRATION:** At June 30, 2019, the Charter School has no outstanding debt.
7. **CASH MANAGEMENT:** The investment policy of the Charter School is guided in large part by state statute as detailed in "Notes to the Basic Financial Statement" Notes 1 and 3. The Charter School had adopted a cash management plan which requires it to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance and fidelity bonds.

9. **OTHER INFORMATION:**

Independent Audit

State statute requires an annual audit by independent certified public accountants or registered municipal accountants. The Charter School appointed the accounting firm of Galleros Robinson CPAs, LLP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the New Jersey Letter Circular Letter 15-08-OMB.

The auditor's report on the basic financial statements, combining and individual fund statements, and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. **ACKNOWLEDGMENTS:** I would like to express my appreciation to the Board of Trustees of Achieve Community Charter School for their concern in providing fiscal accountability to the Charter School and thereby contributing their full support to the development and maintenance of our financial operation.

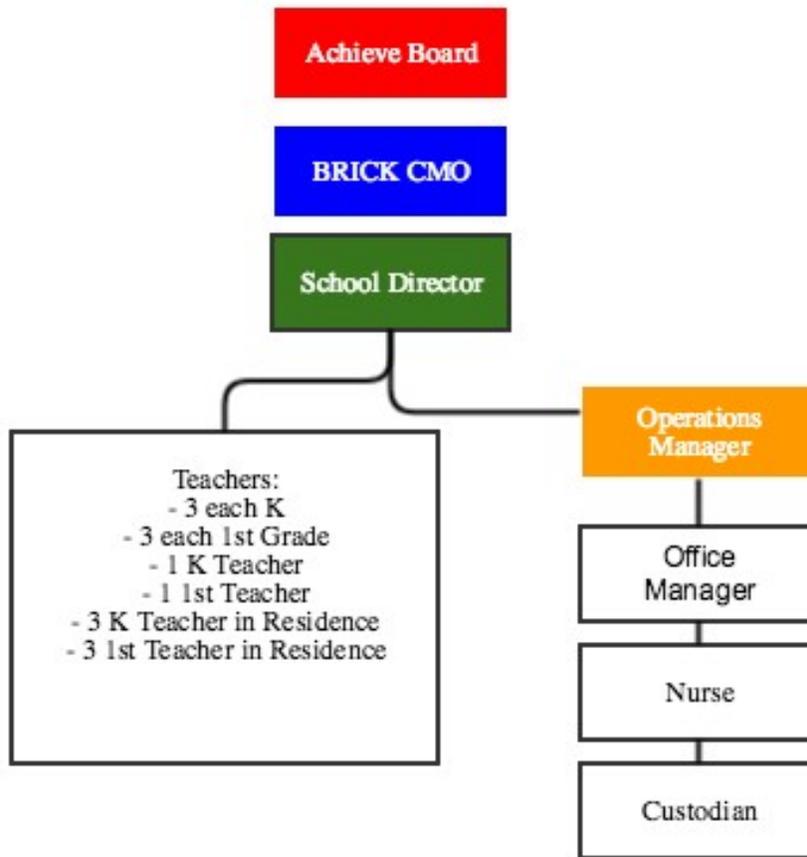

Respectfully submitted,

Carrieann Zielinski
School Business Administrator

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School, in the County of Essex, State of New Jersey as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 11 through 16, Budgetary Comparison Information on pages 51 through 53, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying introductory section and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

The accompanying combining and individual fund financial statements are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedules of expenditures of federal awards and state financial assistance (Schedules) are also presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey OMB's Letter Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not also a required part of the basic financial statements

The combining and individual fund financial statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, and the Schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2020 on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Charter School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS (AMENDED AND RESTATED)

The discussion and analysis of Achieve Community Charter School's (the Charter School) financial performance provides an overall review of the Charter School's financial activities for the fiscal period ended June 30, 2019. The intent of this discussion and analysis is to look at the Charter School's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Charter School's financial performance.

The Management's Discussion and Analysis (MD&A) provides an analysis of the Charter School's overall financial position and results of operations.

Introduction

This section of the Charter School's annual financial report presents our discussion and analysis of the Charter School's financial performance and provides an overview of the Charter School's financial activities for the fiscal year ended June 30, 2019. It should be read in conjunction with the transmittal letter at the front of this report and the Charter School's financial statements, which follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB).

Financial Highlights

Key Financial highlights for the fiscal year 2019 are as follows:

- In total, net position decreased from \$38,537 in 2018 to \$3,400 in 2019.
- General revenues accounted for \$3,114,342 or 77% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions accounted for \$917,886 or 23% of total revenues of \$4,032,228.
- The Charter School had \$4,067,365 in expenses; only \$917,886 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$4,031,914 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$3,214,227 in revenues and \$3,214,972 in expenditures. The General Fund's fund balance decreased by \$745 in 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS () - CONTINUED

Basic Financial Statements

This annual report consists of a series of basic financial statements, required supplementary information, other supplementary information and notes to those statements and information.

The report is organized so the reader can understand the Achieve Community Charter School as a financial whole, or as an entire operating entity. The first two basic financial statements, the Statement of Net Position and the Statement of Activities, are governmental-wide financial statements and provide overall information about the activities of the entire Charter School, presenting both an aggregate view of the Charter School's finances and a long-term view of those finances.

Fund Financial Statements

The remaining basic financial statements are fund financial statements that focus on the individual parts of the government, reporting the Charter School's operation in more detail than the government-wide statements. The fund financial statements also look at the Charter School's most significant funds with all other non-major funds presented in total in a single column. For the Achieve Community Charter School, the General Fund is the most significant fund.

The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short and long-term financial information about the activities; the government operates like a business, such as food service.

Fiduciary fund statements provide information about financial relationship in which the Charter School acts solely as a trustee or agent for the benefits of other, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of Required Supplementary Information that further explains and supports the information in the financial statements.

Statement of Net Position and Statements of Activities

While this report contains the funds used by the Charter School to provide programs and activities, the view of the Charter School as a whole looks at all financial transactions and asks the question, "how did we do financially during fiscal year 2019?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all the Charter School's assets and liabilities using the accrual basis of accounting similar to the accounting system used by most private sector companies. These bases of accounting take into account all of the current year's revenues and expenses regardless of when cash was received or paid.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS () - CONTINUED

These two statements report the Charter School's net position and changes in the net position. This change in net position is important because it identifies whether the financial position of the Charter School has improved or diminished for the Charter School as a whole. This change is the result of many factors some financial, some not. Financial factors represent increases in federal and state funding that resulted from the increase in enrollment noted for the fiscal year ended June 30, 2019. These factors are presented in our discussions on the Charter School as a whole. Non-financial factors include the property tax base of the School District where the Charter School is located, current educational funding laws in New Jersey, facilities conditions, required educational programs, and other factors. In the Statements of Net Position and the Statements of Activities, the Charter School is divided into two distinct kinds of activities:

Governmental Activities – Most of the Charter School's programs and services are reported here including instructional, extracurricular activities, curriculum, staff development, special education and other support services, operation and maintenance of plant, pupil transportation, health services and general administration.

Business-Type Activity – Services are provided on a charge for goods or services or reimbursement basis to recover the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School Charter School's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Charter School's major funds, not the Charter School as a whole. Funds are accounting devices that the Charter School uses to keep track of a multitude of financial transactions. The Charter School's only major governmental fund is the General Fund.

Governmental Funds

Most of the Charter School's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statement provides a detailed short-term view of the Charter School's general government operations and the basic services it provides.

Governmental fund information helps determine whether there are sufficient financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the Statement of Net Position and the Statement of Activities and the governmental funds are reconciled in the financial statements.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS () - CONTINUED

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The Charter School as a Whole

The perspective of the Statement of Net Position is of the Charter School as a whole. The table below provides a summary of the Charter School's net position at June 30, 2019.

The total net position of the Charter School has decreased to \$3,400 during the current fiscal year. The decrease is due to higher costs incurred in 2019.

The table that follows reflects the change in net position for fiscal year 2019.

	Governmental Activities	Business-Type Activities	Total

Governmental Activities

The Statement of Activities reflects the cost of program services and the charges for services and operating grants and contributions offsetting those services. The table below, for government activities, indicates the total cost of services and the net cost of services. It identifies the cost of these services supported by unrestricted state entitlements for the fiscal year ended June 30, 2019.

Business-Type Activity

The business-type activities of the Charter School are related to the food service operation with total revenues of \$123,871 and operating expenses of \$158,263 for fiscal year 2019.

(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS () - CONTINUED

The Charter School's Funds

The Charter School's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues of \$3.9 million and expenditures of \$3.9 million.

General Fund Budgeting Highlights

The Charter School's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2019, the Charter School amended its General Fund budget as needed. The Charter School uses state-aid and other revenue-based budget. The budgeting systems are designed to tightly control total budget, but provide flexibility for Charter School management teams.

For the General Fund, final budgeted revenues were \$2.9 million which included a local tax levy of \$0.4 million. Expenditures were budgeted at \$4.28 million. The Charter School anticipated a decrease in fund balance of \$1.35 million. During the fiscal year ended June 30, 2019, actual revenues were \$3.2 million and expenditures were \$3.2 million.

Reimbursement from the State of New Jersey during the year ended June 30, 2019 for the employer's share of social security contributions amounted to \$99,885 and there was no TPAF on-behalf TPAF payments for post-retirement medical benefits from the State.

Capital Assets

At the end of fiscal year 2019, the Charter School had no investment in capital assets.

Economic Factors and Next Year's Budget

The State of New Jersey continues to face serious budgetary constraints. These impacts the amount of state aid allocated to charter schools. This reality was taken into account when adopting the general fund budget for 2018-2019. Nothing was done to compromise the quality of the programs in place in our Charter School during the regular instructional day. The budget was prepared to ensure that all students have the textbooks, materials supplies, equipment and programs they need to meet New Jersey's Core Curriculum Content Standards.

Contacting the Charter School's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Charter School's finances and to reflect the Charter School's accountability for the monies it receives. Questions about this report or additional financial information needs should be directed to: Achieve Community Charter School, Business Office, 534 Clinton Ave, Newark, NJ 07108.

BASIC FINANCIAL STATEMENTS

CHARTER SCHOOL-WIDE FINANCIAL STATEMENTS

This Statement of Net Position and the Statement of Activities display information about the Charter School as a whole. The Statement of Net Position presents the financial condition of the government and business-type activities of the Charter School at fiscal year-end. The Statement of Activities presents a comparison between direct expense and program revenues for each program or function of the Charter School's governmental and business-type activities.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Achieve Community Charter School (the "Charter School") is presented to assist in understanding the Charter School's financial statements and notes are representation of the Charter School's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and have been consistently applied in the preparation of these financial statements.

A. Reporting Entity

The Charter School is an instrumentality of the State of New Jersey, established to function as an educational institution. The school is governed by an independent Board of Trustees, which consists of parents, founders and other community representatives in accordance with its charter, which was appointed by the State Department of Education. An administrator is appointed by the board and is responsible for the administrative control of the Charter School.

B. Component Units

The primary criterion for including activities within the Charter School's reporting entity, as set forth in Section 2100 of the GASB's Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Charter School management. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, and ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the Charter School. Based on the aforementioned criteria, the Charter School has no component units.

C. Basis of Presentation

The financial statements of the Charter School have been prepared in conformity with GAAP as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Charter School also applies Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise fund unless they conflict with or contradict GASB pronouncements. The most significant of the Charter School's accounting policies are described below:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Continued

In June 1999, the Governmental Accounting Standards Boards unanimously approved Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the financial statements include the following:

The financial statements include:

- i) A Management’s Discussion and Analysis (MD&A) section providing an analysis of the Charter School’s overall financial position and results of operations.
- ii) Financial statements prepared using full accrual accounting for all of the Charter School’s activities.
- iii) A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

D. Basic Financial Statements

The Charter School’s basic financial statements consist of Charter School or government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the Charter School, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School’s governmental and business-type activities. The governmental activities generally are financed through federal and state awards, taxes and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

D. Basic Financial Statements - Continued

Fund Financial Statements

Fund financial statements of the Charter School are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Charter School.

The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Charter School at a more detailed level.

E. Governmental Funds

General Fund - The General Fund is the primary operating fund of the Charter School and is always classified as a major fund. It is used to account for all financial resources except those that are legally or administratively required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

- 1) As required by the New Jersey Department of Education, the Charter School included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.
- 2) Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of ground, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major Capital Projects, Debt Service or the Enterprise Funds) and local appropriations that legally restricted to expenditures for specified purposes.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

E. Governmental Funds - Continued

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. As of June 30, 2019, there was no Capital Projects Fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on, bonds issued to finance major property acquisitions, construction, and improvement programs. As of June 30, 2019, there was no debt service fund.

F. Proprietary Funds

The focus of Proprietary Funds' measurement is upon determination of net income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those to similar to business in the private sector. The following is a description of the Proprietary Funds of the Charter School:

Enterprise Funds:

The Enterprise Fund are utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the Charter School is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods and services to the students on a continuing basis be financed or recovered primarily through user charges; or where the Charter School has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenue) and decreases (expenses) in net total assets.

Internal Service (Self-Insurance) Fund:

The Self-Insurance Fund is used to cover the self-insured limits of the various insurance policies for all funds. Charter School does not use self-insurance fund.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

G. Fiduciary Funds

Fiduciary or trust and Agency Funds are used to account for assets held by the Charter School in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. This fund category includes:

Expendable Trust Funds - Expendable Trust Funds are accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent.

Nonexpendable Trust Funds - Nonexpendable Trust Funds are used to account for assets held under the terms of a formal trust agreement, whereby the Charter School is under obligations to maintain the trust principal.

Agency Funds - Agency funds are used to account for the assets that the Charter School holds on behalf of others as their agent. Agency funds are custodial in nature and do not involved measurement of results of operations. Agency funds include payroll and student activities funds.

H. Measurement Focus and Basis of Accounting

Measurement Focus - Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. On the government-wide statements of net position and the statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statement of these funds present increases (i.e., revenues and other financing sources), and decreases (i.e. Expenditures and other finances uses) during a given period. These funds use fund balance as their measure of available spend able financial resources at the end of the period.

All proprietary funds are accounted for on a flow economic resources measurement focus. With this measurement focus, the accounting adjectives are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and all liabilities, whether current or noncurrent, associated with their activities are included on the balance sheet. Fund equity (i.e., net total assets) is classified as net position.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

H. Measurement Focus and Basis of Accounting - Continued

Basis of Accounting - In the government-wide statement of net position and statements of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recognized when the liability, resulting from exchange and exchange like transactions, is incurred (i. e. the exchange takes place).

In the fund financial statements, governmental fund and agency funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available.

“Measurable” means the amount of the transaction can be determined and “available” means collectible with the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

I. Budgets/Budgetary Control

Annual appropriated budgets are prepared prior to July 1, for the General Fund. The budget is prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A. 2(m)1. All budget amendments must be approved by the State Department of Education. Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

I. Budgets/Budgetary Control - Continued

The accounting records of special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognized the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow of the presentation of GAAP basis financial report. As presented in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General, Special Revenue Fund and Debt Service Funds to the GAAP basis of accounting as presented in the Statements of Revenue, Expenditures and Changes in Fund Balances – Governmental Funds.

J. Deposits, Investments and Risk Disclosure

Cash and cash equivalents includes amounts in deposits, money market accounts and short-term investments with original maturities of three months or less.

Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of any discount or premium. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40 replaces in part, and otherwise modifies the prior GASB Statement No. 3, in addressing the requirements for disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments. Custodial credit risk disclosures are limited to deposits that are not covered by depository insurance and are (a) uncollateralized; (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Deposits

New Jersey statutes require that Charter Schools deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Charter Schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows: The market value of the collateral must equal at least five percent of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%. All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the Charter School to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal national Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the Charter School.
- d. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and MBIA CLASS.

As of June 30, 2019, the Charter School did not hold any investments.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Risk Category

All bank deposits, as of the balance sheet date, are entirely insured or collateralized by a collateral pool maintained by public depositories as required by the Governmental Unit Deposit Protection Act. Although GASB Statement No. 40 eliminated Categories 1 and 2 as previously established by GASB Statement No. 3, it maintained, with modification, the level-of-disclosure requirements of GASB Statement No. 3.

As of June 30, 2019, the Board had funds invested and on deposit in checking accounts. These funds constitute "deposits with financial institutions" as defined by GASB Statement No. 3 and modified by GASB Statement No. 40, and as such, are deposits that are insured or collateralized with securities held by the Board or by its agent in the Board's name, both at year-end and throughout the year.

The Charter School does not have a policy for the management of the custodial risk, other than depositing all of its funds in banks covered by GUDPA.

K. Prepaid Expenses

Prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase.

The Charter School does not have prepaid expenses as of June 30, 2019.

L. Interfund Assets/Liabilities

On the fund financial statements, receivables and payables resulting from short-term Interfund loans are classified as Interfund Receivable/Payable. Interfund balanced within governmental activities and within business-type activities are eliminated on the government-wide Statement of Net Position.

M. Fixed Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the Charter School as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation based for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

M. Fixed Assets - Continued

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the governmental fund capital assets.

Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation of capital assets is computed and recorded by the straight-line method. The Charter School does not have capital assets as of June 30, 2019.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

O. Compensated Absences

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences that are attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Charter School employees are granted sick and vacation leave in varying amounts under the Charter School's personnel policies and according to negotiated contracts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave. Vacation days not used during the year may only be carried forward with approval from the Head of School.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

O. Compensated Absences - Continued

In the charter school-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2019, the Charter School has no liabilities for compensated absences.

P. Net Pension Liability (Asset)

The net pension liability (asset) represents the Charter School's proportionate share of the net pension liability (asset) of the New Jersey State Pension Employees' Retirement System and the New Jersey State Teachers' Pension and Annuity Fund System. The financial reporting of these amounts is presented in accordance with the provisions of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date".

Q. Deferred Revenue

Deferred revenue in special revenue fund represent cash that has been received but not yet earned.

R. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payable, accrued liabilities, and long-term obligations payable from the enterprises fund are reported and the enterprises fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payments during the current year.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

S. Fund Balance and Equity

Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Charter School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law or Education Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** – CONTINUED

S. **Fund Balance and Equity** - Continued

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Charter School's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Charter School's policy to use fund balance in the following order: committed, assigned, and unassigned.

T. **Net Position**

Net Position on the *Statement of Net Position* include the following:

Investments in Capital Assets, net of Related Debt - the component of net position there reports the differences between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributed to the acquisition, construction or improvement of those assets.

Restricted for Specific Purposes – the component of net position that reports the difference between assets and liabilities of the certain programs that consist of assets with constraints placed on their use by either external parties and /or enabling legislation.

Restricted for Debt Service – the component of net position that reports the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Unrestricted - the difference between the assets and liabilities that is not reported in Net Position Invested in Capital Assets, net of Related Debt, Net Position Restricted for Specific Purposes or Net Position Restricted for Debt Services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

U. Contributed Capital

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds.

V. Interfund Transactions

Interfund transfers are defined as the flow of assets, such as cash or goods, without equivalent flows of assets in return. Interfund borrowings are reflected as “Due from/to Other Funds” on the accompanying financial statements. All other interfund transfers are reported as operating transfers.

W. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the recorded amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

X. Accounting for Uncertainty in Income Taxes

The Charter School recognizes the effect of income tax positions only of those positions are more likely than not of being sustained. Management has determined that the Charter School had no uncertain tax positions that would require financial statement recognition. Fiscal year ended June 30, 2019 is the Charter School’s second year of operations.

Y. On-Behalf Payments

Revenues and expenditures of the General Fund include payment made by the State of New Jersey for Pension and social security contributions for certified teacher members of the New Jersey Teachers Pension and Annuity Fund, and for post-retirement medical benefits of members. The amounts are not required to be included in the Charter School’s annual budget.

Z. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is March 18, 2020.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 ACCOUNTING PRONOUNCEMENT ISSUED BUT NOT YET ADOPTED

GASB Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

Leases should be recognized and measured using the facts and circumstances that exist at the beginning of the period of implementation (or, if applied to earlier periods, the beginning of the earliest period restated). However, lessors should not restate the assets underlying their existing sales-type or direct financing leases. Any residual assets for those leases become the carrying values of the underlying assets.

This Statement will increase the usefulness of governments' financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring notes to financial statements related to the timing, significance, and purpose of a government's leasing arrangements.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The Charter School is currently evaluating the impact of GASB Statement No. 87 on its charter school-wide financial statements.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 3 CASH AND CASH EQUIVALENTS

The Charter School's cash and cash equivalents are classified below to inform financial statement users about the extent to which the Charter School's deposits and investments are exposed to custodial credit risk.

As of June 30, 2019, the Charter School's deposits are summarized as follows:

	General Fund	Enterprise Fund	Trust and Agency Funds	Total
Operating Account	\$ 53,015	\$ 2,473	\$ 45,091	\$ 100,579
Restricted cash	-	-	-	-
Total	\$ 53,015	\$ 2,473	\$ 45,091	\$ 100,579

Operating cash accounts are held in the Charter School's name by several banking institutions. At June 30, 2019, the Charter School's carrying amount of deposits was \$100,579 and the bank balance was \$244,536. Of the bank balance, up to a maximum of \$250,000 of the Charter School's cash deposits on June 30, 2019 were secured by federal deposit insurance (FDIC) and nothing was covered by a collateral pool maintained by the bank as required by New Jersey statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA") because the bank balance is below the \$250,000 FDIC limit.

Restricted Cash

The Charter School has established and funded an Escrow Account pursuant to an agreement signed with the New Jersey Department of Education. The required minimum is \$75,000, of which, the Charter School did not fund as of June 30, 2018. The agreement stipulates that the intended use of the escrow amount is "to pay for legal and audit expenses and any other outstanding pension benefits that would be associated with a dissolution should it occur."

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTE 4 NET POSITION (DEFICIT)

As of June 30, 2019, net position consisted of the following components:

<u>INVESTMENT IN CAPITAL ASSETS, NET OF RELATED DEBT</u>	<u>Governmental</u>	<u>Business Type</u>	<u>Total</u>
Capital assets, net	\$ -	\$ -	\$ -
Less: Long-Term obligations	-	-	-
(All long-term debt relates to capital assets)	-	-	-
<u>RESTRICTED</u>			
Restricted for Food Service	34,392	-	34,392
<u>UNRESTRICTED</u>			
Net position (deficit) not restricted above	3,400	(34,392)	(30,992)
NET POSITION (DEFICIT)	\$ 37,792	\$ (34,392)	\$ 3,400

NOTE 5 PENSION PLANS

A. Description of Plans

All eligible employees of the Charter School are covered by either the Public Employee's Retirement System (PERS) or the Teacher's Pension and Annuity Fund (TPAF) which have been established by state statute and are administered by the New Jersey Division of Pension and Benefit (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the PERS and the TPAF. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625.

i. Public Employees' Retirement System (PERS)

The Public Employees' Retirement Systems (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full-time employees of the State or any county municipality, Charter School, or public agency provided the employee is not a member of another state-administered retirement system. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, Charter School, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

A. Description of Plans - Continued

ii. Teachers Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established in January 1, 1995, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. The Teacher's Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Charter School and the systems other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

B. Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determine to be 1/55 of the final average salary for each year of service credit as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. NOTE 5 PENSION PLANS - CONTINUED

B. Vesting and Benefit Provisions - Continued

The PERS and TPAF provides for specified medical benefits for member who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

C. Significant Legislation

Two pieces of legislation passed during fiscal year 2001 having significant impact on the benefit provisions under PERS and TPAF. Chapter 133, P.L.2001, increases retirement benefits for service, deferred and early retirements by changing the formula from 1/60 to 1/55 of final compensation for each year of service. The legislation also increases the retirement benefit for veteran member with 35 years or more of service and reduces age qualification from 60 to 55. The legislation further provides that existing retirees and beneficiaries would also receive a comparable percentage increase in their retirement allowance. The benefit enhancements are effective with the November 1, 2001 benefit checks. Chapter 120, P.L. 2001, established an additional retirement option for plan members. Under the new option, a retiree's actuarially reduced allowance (to provide a benefit to the retiree's beneficiary upon the death of the retiree) would "pop-up" to the maximum retirement allowance if the beneficiary predeceases the retiree.

Chapter 4, P.L. 2001 provides increased benefit to certain members of PERS who retired prior to December 29, 1989 with at least 25 years of creditable service.

The maximum amount of the increase is 5 percent the retiree's final compensation. For those with 30 or more years of service, the total pension would increase from 65 to 71 percent of final compensation.

Due to the enactment of 1997 legislation, Chapter 114, P.L. 1997 and Chapter 115, P.L. 1997, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated. In addition, excess valuation assets were available to fund, in full or in part, the State of New Jersey's normal contribution from 1997 to 2001, excluding the contribution for post-retirement medical benefits in the PERS and TPAF.

NOTE 5 PENSION PLANS - CONTINUED

D. Contribution Requirement

The contribution policy is set by laws of the State of New Jersey and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.06% for PERS and 7.06% for TPAF of the employee's annual compensation. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Charter School.

The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF.

In accordance with N.J.S.A 18A:66-66 the State of New Jersey reimbursed the Charter School \$99,885 during the year ended June 30, 2019 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

The Charter School did not have PERS contribution nor TPAF on-behalf payments since fiscal year ended June 30, 2019 is the Charter School's first year of operations.

i. Public Employees' Retirement System (PERS)

As of June 30, 2019, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

ii. Teachers Pension and Annuity Fund (TPAF)

As of June 30, 2019, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS

General Information about the OPEB Plan - Plan description and benefits provided

The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2018, the State paid PRM benefits for 148,401 State and local retirees.

The State funds post-retirement medical benefits on a “pay-as-you-go” basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2018, the State contributed \$1.909 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The increase in the State’s pay-as-you-go contribution between Fiscal Year 2017 and Fiscal Year 2018 is attributed to rising health care costs, an increase in the number of participants qualifying for State-paid PRM benefits at retirement and larger fund balance utilization in Fiscal Year 2017 than in Fiscal Year 2018. The Fiscal Year 2019 Appropriations Act includes \$1.921 billion as the State’s contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. As such, the Fiscal Year 2017 total State OPEB liability to provide these benefits has been re-measured to \$97.1 billion, an increase of \$60.6 billion or 166 percent from the previous year’s \$36.5 billion liability booked in accordance with GASB Statement No. 45. For Fiscal Year 2018, the total OPEB liability for the State is \$90.5 billion, a decrease of \$6.6 billion or 7 percent from the re-measured total OPEB liability in Fiscal Year 2017.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS - CONTINUED

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The Charter School's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the Charter School did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in the NJ State CAFR at <https://www.nj.gov/treasury/omb/cafr.shtm>.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the Charter School recognize OPEB revenue and expense of \$0 as determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the Charter School's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to retired Charter School employees' OPEB was zero.

NOTE 7 DEFERRED COMPENSATION

The Charter School offered its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Service 403(b). The Plan which are administered by the Charter School and various insurance companies, permits participants to defer apportion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, death or unforeseeable emergency.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 8 RISK MANAGEMENT

The Charter School is exposed to various risks of loss relates to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Property and Liability Insurance

The Charter School maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (Unaudited) of this Comprehensive Annual Financial Report (Schedule J-20).

B. New Jersey Unemployment Compensation

The Charter School has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan, the Charter School is required to reimburse the New Jersey Unemployment Trust Fund For benefits paid to its former employees and charged to its account with the State. The Charter School is billed quarterly for amounts due to the State.

NOTE 9 INTERFUND RECEIVABLES AND PAYABLES

Amount reported in the governmental funds as interfund receivable and payable from/to other governmental funds pertains to to expenses that were paid from the general fund which are eliminated in the governmental activities’ column. The remaining internal receivable and payable between the governmental funds and enterprise fund have been eliminated in the total Charter School-wide Statement of Net Position.

At June 30, 2019, the interfund balances consisted of the following:

	<u>RECEIVABLE (PAYABLE)</u>			
	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Enterprise Fund</u>	<u>Fiduciary Fund</u>
General fund	\$105,836	\$ -	\$ (73,911)	\$ (31,925)
GASB No 34 mandated eliminations within governmental activities	-	-	-	-
Net interfund balances reported as follows:				
Entity-wide (eliminated in total column)	<u>\$105,836</u>	<u>\$ -</u>	<u>\$ (73,911)</u>	
External (Due from Trust and Agency Funds)				<u>\$ (31,925)</u>

NOTE 10 CONTINGENCIES

State and Federal Aid Receipts

State and Federal awards are generally subject to review by the responsible governmental agencies for compliance with the agencies regulations governing the aid. In the opinion of the Charter School's management and legal counsel, any potential adjustments to the Federal or State aid recorded by the Charter School through June 30, 2019, resulting from a review by a responsible government agency will not have a material effect on the Charter School financial statements at June 30, 2019.

(COUNTY OF ESSEX, NEW JERSEY)**

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PART III
YEAR ENDED JUNE 30, 2019**

Public Employees Retirement System (PERS)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 5.00% to 5.66%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

The single blended discount rate of 5.66% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.00% in prior measurement date) and a municipal bond rate of 3.87% (3.58% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

At June 30, 2019, the Charter School's share in the net pension liability is zero.

Teachers Pension and Annuity Fund (TPAF)

Change in benefit terms. There is no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 4.86% to 4.25% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 68.

The single blended discount rate of 4.86% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.00% in prior measurement date) and a municipal bond rate of 3.87% (3.58% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

At June 30, 2019, the Charter School's share in the net pension liability is zero.

Other Post-Employment Benefits (OPEB)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total nonemployer OPEB liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 3.58% to 3.87% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 75. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. At June 30, 2019, the Charter School's share in the net pension liability is zero.

CAPITAL PROJECTS FUND

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by propriety funds.

At June 30, 2019, there was no capital project fund.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the Charter School is that the costs of providing goods and services be financed through user charges. The Charter School has the Food Service and After Care in its Enterprise Fund to account for the operation of food services and after care.

FIDUCIARY FUNDS

Trust funds are used to account for gifts and bequests to the Charter School for specific purposes.

Unemployment Compensation Insurance Trust Fund is an expendable trust fund used to account for unemployment transactions of the Charter School.

At June 30, 2019, there was no non-expandable trust fund utilized by the Charter School.

Agency funds are used to account for assets held by the Charter School as an agent for individuals, private organizations, governmental and/or other funds.

Payroll Fund - This agency fund is used to account for the payroll transactions of the Charter School.

SINGLE AUDIT SECTION

EXHIBIT K-1

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report thereon dated March 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - CONTINUED

detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as finding 2019-001 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as finding 2019-002 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We also noted certain matters that we have reported to the Board of Trustees of the Achieve Community Charter School in the County of Essex, New Jersey in a separate *Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance*, dated March 18, 2020.

Charter School's Response to Findings

The Charter School's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Charter School's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE
AS REQUIRED BY THE UNIFORM GUIDANCE AND
NEW JERSEY OMB CIRCULAR LETTER 15-08**

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
Essex County, New Jersey

Report on Compliance for Each Major State and Federal Programs

We have audited the Achieve Community Charter School's (the Charter School) in the County of Essex, State of New Jersey compliance with the types of compliance requirements described in the *New Jersey State Aid Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major state and federal programs for the fiscal year ended June 30, 2019. The Charter School's major state and federal program are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Charter School's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, Uniform Guidance and New Jersey OMB Circular Letter 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

We believe that our audit provides a reasonable basis for our opinion. However, our audit does not provide a legal determination of the Charter School's compliance on compliance for each major federal and state programs.

Opinions on Each Major Federal and State Programs

In our opinion, the Achieve Community Charter School in the County of Essex, State of New Jersey, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal and state program for the fiscal year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Letter Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAMS AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR LETTER 15-08

Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular Letter 15-08. Accordingly, this report is not suitable for any other purpose.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

**NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE**

FISCAL YEAR ENDED JUNE 30, 2019

NOTE 1 GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Trustees for Achieve Community Charter School. The Board of Trustees is defined in Note 1 to the Charter School's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of those recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules is presented in accordance with the requirements of *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Amounts reported in the accompanying schedules agree with the amounts reported in the Charter School's basic financial statements. The basic financial statements present the special revenue fund on both GAAP and budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. See Exhibit C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the Charter School's basic financial statements on a GAAP basis as follows:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

**NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE - CONTINUED**

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS - CONTINUED

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ -	\$ 2,598,411	\$ 2,598,411
Special Revenue Fund	694,130	-	694,130
Enterprise Fund	115,730	1,543	117,273
Total	<u>\$ 809,860</u>	<u>\$ 2,599,954</u>	<u>\$ 3,409,814</u>

NOTE 4 RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5 ON-BEHALF PAYMENTS

TPAF Social Security Contributions represents reimbursements in the amount of \$99,985 by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2019. The State did not made on-behalf TPAF payments for pension contributions, post-retirement medical benefits and long-term disability insurance contributions for the year ended June 30, 2019.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF pension contributions, post-retirement medical benefits contributions and long-term disability insurance are not subject to a State Single Audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the Charter School's financial statements and the amount subject to State Single Audit and major program determination.

NOTE 7 DE MINIMIS INDIRECT COST

The Charter School has not elected to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

SECTION II - FINANCIAL STATEMENT FINDINGS

Finding 2019-001 – Reconciliation of Accounts

Condition

Periodic reconciliation of accounts is a fundamental account process to prove that transactions sums to the correct ending account balances. During the audit, we noted the following:

- The monthly bank reconciliations were incomplete and had several reconciling items requiring further analysis for proper disposition.
- Outstanding checks at year end included 31 checks written but not issued as of June 30, 2019. These were reclassified to accounts payable.
- Interfund payables and receivables were not reconciled
- Net payroll and payroll agency year-end balances were not reconciled

Several adjusting journal entries were posted during the audit to correct the related account balances.

Cause

The Charter School transactions were not timely recorded and reconciled.

Effect

Several adjusting journal entries were needed to correct certain account balances.

Recommendation

The Charter School should ensure that all transactions are recorded and reconciled on a timely basis. We also recommend that the Charter School develop and appropriate post-closing adjustment process to ensure that accounts are accurate.

View of Responsible Official and Planned Corrective Actions

The Charter School has instituted a policy of reconciling accounts. Bank reconciliations are now being performed for all accounts. Checks are only being written in accordance with the bill lists which are done in accordance with the projected cash flow. Therefore, checks are not written unless the funds will be there to cover the obligation.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

SECTION II - FINANCIAL STATEMENT FINDINGS - CONTINUED

Finding 2019-002 – Claims and Purchase orders

Condition

In our review of claims, we noted the following:

- Supporting documents for 21 of 40 claims paid were not on file.
- There were 16 of 19 claims examined have purchase order dates that are the same or after the invoice dates.
- One of 19 sample claims provided had a purchase order with no evidence of SBA approval.
- One of 19 sample claims examined did not have a signed vendor certification.
- Purchase orders for 2 of 19 sample claims provided did not have purchase orders on file.

Further, a payroll payment for an employee partially charged to Tile I did not have a completed time activity report to indicate time and effort spent on the federal program.

Recommendation

We recommend a review of the purchasing policy and procedures with personnel assigned. All supporting documents including approved purchase orders, vendor invoices and certifications are obtained and maintained. Further, expenses should always follow the Charter School's purchasing policy.

View of Responsible Official and Planned Corrective Actions

During this fiscal year end the school used an outside SBA firm that was supposed to perform all of the accounting and SBA duties. This firm did not return all of our records and did not properly handle the invoice and PO process. We no longer utilize the services of this firm and have hired an in-house SBA and accounting department. We follow strict procedures for processing payables and maintaining supporting documentation.

Dr. Lamont Repollet
Commissioner
New Jersey Department of Education
100 Riverview Executive Plaza
CN-500
Trenton, New Jersey 08625-0500

Dear Dr. Repollet:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of the Achieve Community Charter School (Charter School) for the fiscal year ended June 30, 2018. This CAFR includes the Charter School's Basic Financial Statements prepared in accordance with Governmental Accounting Standards Board Statement 34.

The Charter School has elected to adopt this new financial reporting model which we believe will provide all users of this document with much more useful financial and statistical information than ever before. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Trustees (Board).

To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Charter School. This report will provide the taxpayers of the Charter School with comprehensive financial data in a format enabling them to gain an understanding of the Charter School's financial affairs.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a table of contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the Charter School;
- The Financial Section begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the Charter School's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the Charter School, generally presented on a multi-year basis;
- The Single Audit Section — The Charter School is required to undergo an annual single audit in conformity with the provisions of the New Jersey State Office of Management and Budget (OMB) Circular Letter 15-08-OMB, "*Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*".

Information related to this single audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, are included in the single audit section of this report.

Charter School Organization

The Board of Trustees is comprised of five voting members and are elected to oversee that the Charter School operates in compliance with statute and administrative code. Voting members of the Board serve as the official governing body of the Charter School charged with policy making, fiscal oversight, and accountability for student academic achievement results of the Charter School. Voting members adopt the annual budget and directly approve all expenditures which serve as the basis for control for the authorization of all expenditures of Charter School tax money which in turn support the Charter School's business to promote academic achievement. Non-voting members include the Charter School's Principal and Vice-Principal, School Business Administrator/Board Secretary, and faculty representative.

The Principal of the Charter School is responsible to the board for the implementation and administration of all educational and support operations. The School Business Administrator/Board Secretary is the chief financial officer of the Charter School and is responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the Charter School, acting as custodian of all Charter School funds, and investing idle funds as permitted by New Jersey Law.

1. **REPORTING ENTITY AND ITS SERVICES:** The Achieve Community Charter School is an independent reporting entity within the criteria adopted by the Government Auditing Standards Board (GASB) as established by GASB Statement No. 14. All funds and account groups of the Charter School are included in this report. The Charter School's Board of Trustees, constitutes the Charter School's reporting entity.

The Charter School provides a full range of educational services appropriate to grade levels K through 4. These include both regular and special education programs. As of June 30, 2018, the Charter School's final head count was 61 students.

2. **MAJOR INITIATIVES:** The following are the major initiatives successfully implemented at the Charter School for 2017-2018 school year:

- a. ***Comprehensive Curriculum.*** Achieve Community Charter School implements a comprehensive, college preparatory curriculum for students in grades pre-k to 8. In order to ensure college readiness, Achieve cohorts students into three bands: K-2, 3-5 and 6-8. At the end of each band, students complete a BRICK Thesis that integrates key knowledge and skills acquired during the previous 3 years. Each year builds to this culminating thesis. Each subject area, including enrichment classes like visual art and physical education, build into these culminating activities.

In the 2017-2018 school year Achieve Community Charter School served K and 1st grade students. No students were at the end of a cohort band so there were no thesis opportunities but students worked throughout the year to master the key knowledge and skill to use towards their impending thesis.

2. MAJOR INITIATIVES - CONTINUED

- b. *Student Investment and Choice.*** Each Achieve scholar is unique and teachers embrace their uniqueness, especially as they plan instruction. At Achieve, teachers and students are aware of individual strengths and growth areas and teachers plan small group instruction to ensure student mastery. Each quarter, students set specific goals and action steps and constantly revisit those goals and receive feedback on them.

In the 2017-2018 school year Achieve students, teachers, and families used the quarterly “BRICK Plan” individualized data report to reflect on their performance in four key areas: ELA (STEP and NWEA MAP). Math (NWEA MAP), student attendance, and student character as measured by the BRICK DREAM values. Teachers conferenced with students and families during each quarter and goals were set for the following quarter.

- c. *Continuous Data Cycle.*** At Achieve, teachers are constantly engaged in a data cycle that takes them through planning instruction, instructing, assessing impact of instruction and then reteaching. Through the use of this cycle, Achieve teachers have a pulse on student learning and constantly adjust their teaching to ensure student mastery.

In the 2017-2018 school year teachers gave students baseline assessments to diagnose their strengths and growth areas in reading and math. Throughout the year teachers gave formative assessments that included exit tickets, priority demonstrations of learning, and unit assessments that measured student learning and provided the necessary information for teachers to create re-teach plans and adjust their practice.

- d. *Blended Learning.*** Blended learning allows for two teachers at all times. Achieve Community Charter School uses the rotational blended learning model. Students rotate between small group instruction with a teacher, online learning and independent work within the classroom overseen by certified teachers, apprentice teachers, and instructional aides.

In the 2017-2018 school year students were on blended learning programs in math and reading each day as part of the rotational model. Students had twenty-minutes on the blended learning technology each day. This amounted to over 3,000 minutes, or 50 hours, of additional individualized instruction.

- e. *Teacher Development.*** At Achieve, each teacher works directly with an instructional coach, who is typically a school leader. Teachers have individualized professional development plans focusing on instructional practices directly impacting student outcomes and meet weekly with their coach to receive feedback on their practice. Teachers meet weekly in department team meetings where they engage in the data cycle, collaborate on best practices and engage in professional development.

In the 2017-2018 school year teachers met with the Head of School each week for coaching. Additionally, teachers met with their department teams weekly.

3. **INTERNAL ACCOUNTING CONTROLS:** Management of the Charter School is responsible for establishing and maintaining an internal control designed to ensure that the assets of the Charter School are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Charter School is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the Charter School's management.

As part of the Charter School's Single Audit described earlier, tests are made to determine the adequacy of internal controls, including that portion related to federal and state financial assistance programs, as well as to determine that the Charter School has complied with applicable laws and regulations.

4. **BUDGETARY CONTROLS:** In addition to internal accounting controls, the Charter School maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated at June 30, 2018.

5. **ACCOUNTING SYSTEM AND REPORTS:** The Charter School's accounting records reflect generally accepted accounting principles, as promulgated by Governmental Accounting Standards Board (GASB). The accounting system of the Charter School is organized on the basis of funds each of which maintains a self-balancing set of accounts. These funds are explained in the "Notes top the Basic Financial Statements."
6. **DEBT ADMINISTRATION:** At June 30, 2018, the Charter School has no outstanding debt.
7. **CASH MANAGEMENT:** The investment policy of the Charter School is guided in large part by state statute as detailed in "Notes to the Basic Financial Statement" Notes 1 and 3. The Charter School had adopted a cash management plan which requires it to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance and fidelity bonds.

9. **OTHER INFORMATION:**

Independent Audit

State statute requires an annual audit by independent certified public accountants or registered municipal accountants. The Charter School appointed the accounting firm of Galleros Koh LLP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the New Jersey Letter Circular Letter 15-08-OMB.

The auditors' report on the basic financial statements, combining and individual fund statements, and schedules are included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

10. **ACKNOWLEDGMENTS:** I would like to express my appreciation to the Board of Trustees of Achieve Community Charter School for their concern in providing fiscal accountability to the Charter School and thereby contributing their full support to the development and maintenance of our financial operation.

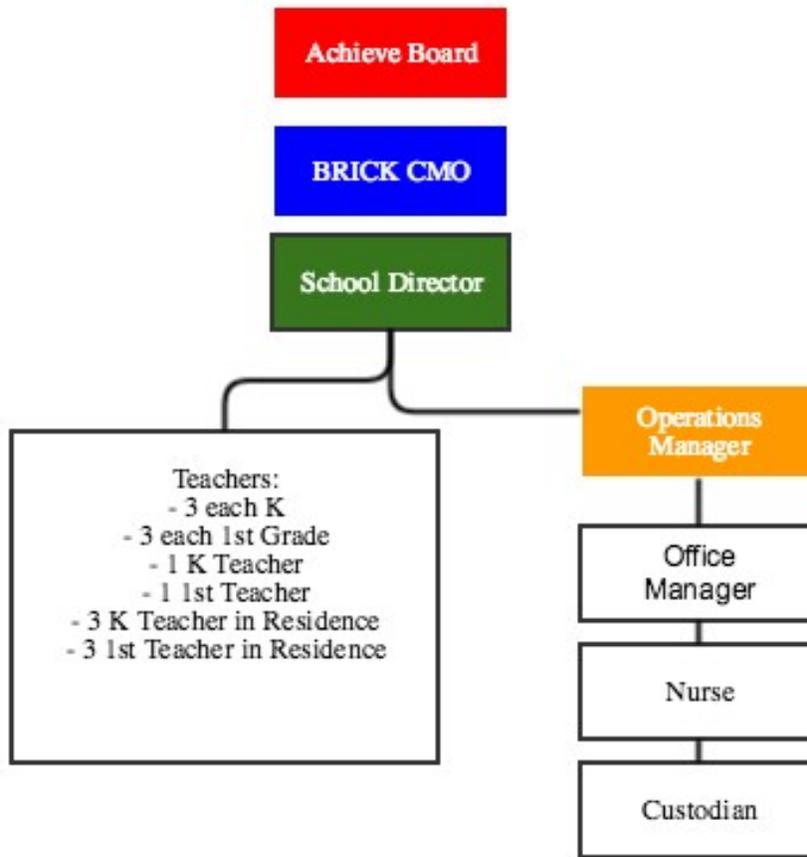

Respectfully submitted,

Dominique Lee

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
County of Essex
Newark, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITORS' REPORT - CONTINUED

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School, in the County of Essex, State of New Jersey as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

We draw attention to Notes 2 and 6 in the notes to financial statements which disclose the effects of the School District's adoption of the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 75, "Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions". Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 13 through 18, Budgetary Comparison Information on pages 62 through 65, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying introductory section and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

INDEPENDENT AUDITORS' REPORT - CONTINUED

The accompanying combining and individual fund financial statements are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedules of expenditures of federal awards and state financial assistance (Schedules) are also presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey OMB's Letter Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not also a required part of the basic financial statements

The combining and individual fund financial statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, and the Schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 28, 2019 on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Charter School's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

PART I

MANAGEMENT'S DISCUSSION AND ANALYSIS

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Achieve Community Charter School's (the Charter School) financial performance provides an overall review of the Charter School's financial activities for the fiscal period ended June 30, 2018. The intent of this discussion and analysis is to look at the Charter School's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Charter School's financial performance.

The Management's Discussion and Analysis (MD&A) provides an analysis of the Charter School's overall financial position and results of operations.

Introduction

This section of the Charter School's annual financial report presents our discussion and analysis of the Charter School's financial performance and provides an overview of the Charter School's financial activities for the fiscal year ended June 30, 2018. It should be read in conjunction with the transmittal letter at the front of this report and the Charter School's financial statements, which follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB).

Financial Highlights

Key Financial highlights for the fiscal year 2018 are as follows:

- In total, net position increased by \$38,537.
- General revenues accounted for \$864,607 or 80% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions accounted for \$217,693 or 20% of total revenues of \$1,082,300.
- The Charter School had \$1,043,763 in expenses; only \$217,693 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$864,607 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$892,894 in revenues and \$854,357 in expenditures. The General Fund's fund balance increased by \$38,537 in 2018.

Basic Financial Statements

This annual report consists of a series of basic financial statements, required supplementary information, other supplementary information and notes to those statements and information.

The report is organized so the reader can understand the Achieve Community Charter School as a financial whole, or as an entire operating entity. The first two basic financial statements, the Statement of Net Position and the Statement of Activities, are governmental-wide financial statements and provide overall information about the activities of the entire Charter School, presenting both an aggregate view of the Charter School's finances and a long-term view of those finances.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Fund Financial Statements

The remaining basic financial statements are fund financial statements that focus on the individual parts of the government, reporting the Charter School's operation in more detail than the government-wide statements. The fund financial statements also look at the Charter School's most significant funds with all other non-major funds presented in total in a single column. For the Achieve Community Charter School, the General Fund is the most significant fund.

The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short and long-term financial information about the activities; the government operates like a business, such as food service.

Fiduciary fund statements provide information about financial relationship in which the Charter School acts solely as a trustee or agent for the benefits of other, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of Required Supplementary Information that further explains and supports the information in the financial statements.

Statement of Net Position and Statements of Activities

While this report contains the funds used by the Charter School to provide programs and activities, the view of the Charter School as a whole looks at all financial transactions and asks the question, "how did we do financially during fiscal year 2018?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all the Charter School's assets and liabilities using the accrual basis of accounting similar to the accounting system used by most private sector companies. These bases of accounting take into account all of the current year's revenues and expenses regardless of when cash was received or paid.

These two statements report the Charter School's net position and changes in the net position. This change in net position is important because it identifies whether the financial position of the Charter School has improved or diminished for the Charter School as a whole. This change is the result of many factors some financial, some not. Financial factors represent increases in federal and state funding that resulted from the increase in enrollment noted for the fiscal year ended June 30, 2018. These factors are presented in our discussions on the Charter School as a whole. Non-financial factors include the property tax base of the School District where the Charter School is located, current educational funding laws in New Jersey, facilities conditions, required educational programs, and other factors. In the Statements of Net Position and the Statements of Activities, the Charter School is divided into two distinct kinds of activities:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Governmental Activities – Most of the Charter School's programs and services are reported here including instructional, extracurricular activities, curriculum, staff development, special education and other support services, operation and maintenance of plant, pupil transportation, health services and general administration.

Business-Type Activity – Services are provided on a charge for goods or services or reimbursement basis to recover the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School Charter School's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Charter School's major funds, not the Charter School as a whole. Funds are accounting devices that the Charter School uses to keep track of a multitude of financial transactions. The Charter School's only major governmental fund is the General Fund.

Governmental Funds

Most of the Charter School's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statement provides a detailed short-term view of the Charter School's general government operations and the basic services it provides.

Governmental fund information helps determine whether there are sufficient financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the Statement of Net Position and the Statement of Activities and the governmental funds are reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The Charter School as a Whole

The perspective of the Statement of Net Position is of the Charter School as a whole. The table below provides a summary of the Charter School's net position at June 30, 2018.

The total net position of the Charter School has increased by \$38,537 during the current fiscal year. The increase is due to increase in state revenues and cost savings.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

The table that follows reflects the change in net position for fiscal year 2018.

	Governmental Activities	Business-Type Activities	Total
Assets			
Current Assets	\$ 54,243	\$ 10	\$ 54,253
Total Assets	<u>54,243</u>	<u>10</u>	<u>54,253</u>
Liabilities			
Current Liabilities	15,706	10	15,716
Noncurrent liabilities	-	-	-
Total Liabilities	<u>15,706</u>	<u>10</u>	<u>15,716</u>
Net Position			
Unrestricted	38,537	-	38,537
Total Net Position	<u>\$ 38,537</u>	<u>\$ -</u>	<u>\$ 38,537</u>

In 2018, total revenues amounted to \$1.08 million and total expenses amounted to \$1.04 million. Fiscal year 2018, is the Charter School's first year of Charter School operations. The revenue and expense in fiscal year 2017 was related to the Charter School grant as initial fund for charter school set-up.

	Governmental Activities		Business Type Activities		Total	
	2018	2017	2018	2017	2018	2017

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

Governmental Activities

The Statement of Activities reflects the cost of program services and the charges for services and operating grants and contributions offsetting those services. The table below, for government activities, indicates the total cost of services and the net cost of services. It identifies the cost of these services supported by unrestricted state entitlements for the fiscal year ended June 30, 2018.

	<u>Total Cost of Services</u>	<u>Grants/ Contributions</u>	<u>Net Cost of Services</u>
Instruction	\$ 724,567	\$ 153,269	\$ (571,298)

Total Expenses	<u>\$ 1,043,763</u>	<u>\$ 217,693</u>	<u>\$ (826,070)</u>

Business-Type Activity

The Charter School did not have a business-type activity for the fiscal year 2018. During the fiscal year 2018, Marion P. Thomas Charter School provided the food service program for the Charter School.

The Charter School's Funds

The Charter School's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues of \$1.08 million and expenditures of \$1.04 million.

General Fund Budgeting Highlights

The Charter School's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2018, the Charter School amended its General Fund budget as needed. The Charter School uses state-aid and other revenue-based budget. The budgeting systems are designed to tightly control total budget, but provide flexibility for Charter School management teams.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED

For the General Fund, final budgeted revenues were \$910,280 which included a local tax levy of \$123,356. Expenditures were budgeted at \$1,049,343. The Charter School anticipated a decrease in fund balance of \$139,062. During the fiscal year ended June 30, 2018, actual revenues were \$892,894 and expenditures were \$854,357.

Reimbursement from the State of New Jersey during the year ended June 30, 2018 for the employer's share of social security contributions amounted to \$28,287 and there was no TPAF on-behalf TPAF payments for post-retirement medical benefits from the State.

Capital Assets

At the end of fiscal year 2018, the Charter School had no investment in capital assets.

Economic Factors and Next Year's Budget

The State of New Jersey continues to face serious budgetary constraints. These impacts the amount of state aid allocated to charter schools. This reality was taken into account when adopting the general fund budget for 2017-2018. Nothing was done to compromise the quality of the programs in place in our Charter School during the regular instructional day. The budget was prepared to ensure that all students have the textbooks, materials supplies, equipment and programs they need to meet New Jersey's Core Curriculum Content Standards.

Contacting the Charter School's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Charter School's finances and to reflect the Charter School's accountability for the monies it receives. Questions about this report or additional financial information needs should be directed to: Achieve Community Charter School, Business Office, 534 Clinton Ave, Newark, NJ 07108

BASIC FINANCIAL STATEMENTS

CHARTER SCHOOL-WIDE FINANCIAL STATEMENTS

This Statement of Net Position and the Statement of Activities display information about the Charter School as a whole. The Statement of Net Position presents the financial condition of the government and business-type activities of the Charter School at fiscal year-end. The Statement of Activities presents a comparison between direct expense and program revenues for each program or function of the Charter School's governmental and business-type activities.

TO THE STATEMENT OF ACTIVITIES**

YEAR ENDED JUNE 30, 2018

Total net change in fund balances - governmental funds (B-2) \$ 38,537

**Amounts reported for governmental activities in the Statement
of Activities (A-2) are different because:**

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the period. Additionally, in the Statement of Activities gains or (losses) are recognized upon disposition.

Capital outlay	-
Depreciation expense	-

Repayment of capital lease obligations are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and are not reported in the Statement of Activities.

-

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Pension costs	-

**NOTES TO THE BASIC
FINANCIAL STATEMENTS**

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Achieve Community Charter School (the "Charter School") is presented to assist in understanding the Charter School's financial statements and notes are representation of the Charter School's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and have been consistently applied in the preparation of these financial statements.

A. Reporting Entity

The Charter School is an instrumentality of the State of New Jersey, established to function as an educational institution. The school is governed by an independent Board of Trustees, which consists of parents, founders and other community representatives in accordance with its charter, which was appointed by the State Department of Education. An administrator is appointed by the board and is responsible for the administrative control of the Charter School.

B. Component Units

The primary criterion for including activities within the Charter School's reporting entity, as set forth in Section 2100 of the GASB's Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Charter School management. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, and ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the Charter School. Based on the aforementioned criteria, the Charter School has no component units.

C. Basis of Presentation

The financial statements of the Charter School have been prepared in conformity with GAAP as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Charter School also applies Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise fund unless they conflict with or contradict GASB pronouncements. The most significant of the Charter School's accounting policies are described below:

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Continued

In June 1999, the Governmental Accounting Standards Boards unanimously approved Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the financial statements include the following:

The financial statements include:

- i) A Management’s Discussion and Analysis (MD&A) section providing an analysis of the Charter School’s overall financial position and results of operations.
- ii) Financial statements prepared using full accrual accounting for all of the Charter School’s activities.
- iii) A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

D. Basic Financial Statements

The Charter School’s basic financial statements consist of Charter School or government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the Charter School, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School’s governmental and business-type activities. The governmental activities generally are financed through federal and state awards, taxes and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

D. Basic Financial Statements - Continued

Fund Financial Statements

Fund financial statements of the Charter School are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Charter School.

The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Charter School at a more detailed level.

E. Governmental Funds

General Fund - The General Fund is the primary operating fund of the Charter School and is always classified as a major fund. It is used to account for all financial resources except those that are legally or administratively required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

- 1) As required by the New Jersey Department of Education, the Charter School included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.
- 2) Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of ground, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major Capital Projects, Debt Service or the Enterprise Funds) and local appropriations that legally restricted to expenditures for specified purposes.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

E. Governmental Funds - Continued

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. As of June 30, 2018, there was no Capital Projects Fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on, bonds issued to finance major property acquisitions, construction, and improvement programs. As of June 30, 2018, there was no debt service fund.

F. Proprietary Funds

The focus of Proprietary Funds' measurement is upon determination of net income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those to similar to business in the private sector. The following is a description of the Proprietary Funds of the Charter School:

Enterprise Funds:

The Enterprise Fund are utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the Charter School is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods and services to the students on a continuing basis be financed or recovered primarily through user charges; or where the Charter School has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenue) and decreases (expenses) in net total assets.

Internal Service (Self-Insurance) Fund:

The Self-Insurance Fund is used to cover the self-insured limits of the various insurance policies for all funds. Charter School does not use self-insurance fund.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

G. Fiduciary Funds

Fiduciary or trust and Agency Funds are used to account for assets held by the Charter School in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. This fund category includes:

Expendable Trust Funds - Expendable Trust Funds are accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent.

Nonexpendable Trust Funds - Nonexpendable Trust Funds are used to account for assets held under the terms of a formal trust agreement, whereby the Charter School is under obligations to maintain the trust principal.

Agency Funds - Agency funds are used to account for the assets that the Charter School holds on behalf of others as their agent. Agency funds are custodial in nature and do not involved measurement of results of operations. Agency funds include payroll and student activities funds.

H. Measurement Focus and Basis of Accounting

Measurement Focus - Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. On the government-wide statements of net position and the statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statement of these funds present increases (i.e., revenues and other financing sources), and decreases (i.e. Expenditures and other finances uses) during a given period. These funds use fund balance as their measure of available spend able financial resources at the end of the period.

All proprietary funds are accounted for on a flow economic resources measurement focus. With this measurement focus, the accounting adjectives are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and all liabilities, whether current or noncurrent, associated with their activities are included on the balance sheet. Fund equity (i.e., net total assets) is classified as net position.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

H. Measurement Focus and Basis of Accounting - Continued

Basis of Accounting - In the government-wide statement of net position and statements of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recognized when the liability, resulting from exchange and exchange like transactions, is incurred (i. e. the exchange takes place).

In the fund financial statements, governmental fund and agency funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available.

“Measurable” means the amount of the transaction can be determined and “available” means collectible with the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

I. Budgets/Budgetary Control

Annual appropriated budgets are prepared prior to July 1, for the General Fund. The budget is prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A. 2(m)1. All budget amendments must be approved by the State Department of Education. Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

I. Budgets/Budgetary Control - Continued

The accounting records of special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognized the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow of the presentation of GAAP basis financial report. As presented in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General, Special Revenue Fund and Debt Service Funds to the GAAP basis of accounting as presented in the Statements of Revenue, Expenditures and Changes in Fund Balances – Governmental Funds.

J. Deposits, Investments and Risk Disclosure

Cash and cash equivalents includes amounts in deposits, money market accounts and short-term investments with original maturities of three months or less.

Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of any discount or premium. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40 replaces in part, and otherwise modifies the prior GASB Statement No. 3, in addressing the requirements for disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments. Custodial credit risk disclosures are limited to deposits that are not covered by depository insurance and are (a) uncollateralized; (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Deposits

New Jersey statutes require that Charter Schools deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Charter Schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows: The market value of the collateral must equal at least five percent of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%. All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the Charter School to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal national Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the Charter School.
- d. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and MBIA CLASS.

As of June 30, 2018, the Charter School did not hold any investments.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

J. Deposits, Investments and Risk Disclosure - Continued

Risk Category

All bank deposits, as of the balance sheet date, are entirely insured or collateralized by a collateral pool maintained by public depositories as required by the Governmental Unit Deposit Protection Act. Although GASB Statement No. 40 eliminated Categories 1 and 2 as previously established by GASB Statement No. 3, it maintained, with modification, the level-of-disclosure requirements of GASB Statement No. 3.

As of June 30, 2018, the Board had funds invested and on deposit in checking accounts. These funds constitute “deposits with financial institutions” as defined by GASB Statement No. 3 and modified by GASB Statement No. 40, and as such, are deposits that are insured or collateralized with securities held by the Board or by its agent in the Board’s name, both at year-end and throughout the year.

The Charter School does not have a policy for the management of the custodial risk, other than depositing all of its funds in banks covered by GUDPA.

K. Prepaid Expenses

Prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase.

The Charter School does not have prepaid expenses as of June 30, 2018.

L. Interfund Assets/Liabilities

On the fund financial statements, receivables and payables resulting from short-term Interfund loans are classified as Interfund Receivable/Payable. Interfund balanced within governmental activities and within business-type activities are eliminated on the government-wide Statements of Net Position.

M. Fixed Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the Charter School as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation based for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

M. Fixed Assets - Continued

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the governmental fund capital assets.

Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation of capital assets is computed and recorded by the straight-line method. The Charter School does not have capital assets as of June 30, 2018.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

O. Compensated Absences

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences that are attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Charter School employees are granted sick and vacation leave in varying amounts under the Charter School's personnel policies and according to negotiated contracts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave. Vacation days not used during the year may only be carried forward with approval from the Head of School.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

O. Compensated Absences - Continued

In the charter school-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2018, the Charter School has no liabilities for compensated absences.

P. Net Pension Liability (Asset)

The net pension liability (asset) represents the Charter School's proportionate share of the net pension liability (asset) of the New Jersey State Pension Employees' Retirement System and the New Jersey State Teachers' Pension and Annuity Fund System. The financial reporting of these amounts is presented in accordance with the provisions of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date".

Q. Deferred Revenue

Deferred revenue in special revenue fund represent cash that has been received but not yet earned.

R. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payable, accrued liabilities, and long-term obligations payable from the enterprises fund are reported and the enterprises fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payments during the current year.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

S. Fund Balance and Equity

Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Charter School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law or Education Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

S. Fund Balance and Equity - Continued

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Charter School's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Charter School's policy to use fund balance in the following order: committed, assigned, and unassigned.

T. Net Position

Net Position on the *Statement of Net Position* include the following:

Investments in Capital Assets, net of Related Debt - the component of net position there reports the differences between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributed to the acquisition, construction or improvement of those assets.

Restricted for Specific Purposes – the component of net position that reports the difference between assets and liabilities of the certain programs that consist of assets with constraints placed on their use by either external parties and /or enabling legislation.

Restricted for Debt Service – the component of net position that reports the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Unrestricted - the difference between the assets and liabilities that is not reported in Net Position Invested in Capital Assets, net of Related Debt, Net Position Restricted for Specific Purposes or Net Position Restricted for Debt Services.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

U. Contributed Capital

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds.

V. Interfund Transactions

Interfund transfers are defined as the flow of assets, such as cash or goods, without equivalent flows of assets in return. Interfund borrowings are reflected as “Due from/to Other Funds” on the accompanying financial statements. All other interfund transfers are reported as operating transfers.

W. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the recorded amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

X. Accounting for Uncertainty in Income Taxes

The Charter School recognizes the effect of income tax positions only of those positions are more likely than not of being sustained. Management has determined that the Charter School had no uncertain tax positions that would require financial statement recognition. This is the Charter School’s first year of operations.

Y. On-Behalf Payments

Revenues and expenditures of the General Fund include payment made by the State of New Jersey for Pension and social security contributions for certified teacher members of the New Jersey Teachers Pension and Annuity Fund, and for post-retirement medical benefits of members. The amounts are not required to be included in the Charter School’s annual budget.

Z. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is January 28, 2019.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 APPLICATION OF NEW ACCOUNTING STANDARDS

For the year ended June 30, 2018, the Charter School implemented GASB 75, "Accounting and Financial Reporting for Post-employment Benefits Other than Pensions (OPEB)". This statement addresses accounting and financial reporting for the OPEB that is provided to the employees of the state and local governments by establishing standards for recognizing and measuring liabilities, deferred outflows/inflows of resources and expenses/expenditures. This statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to the periods of employee service.

Since it is the first year of operation of the Charter School, the adoption of the standards did not have an effect on the Charter School's statement of activities for the year ended June 30, 2018.

Note disclosures required by GASB 75 is reflected in Note 6 post-retirement benefits and the required supplementary information in Schedule M.

NOTE 3 CASH AND CASH EQUIVALENTS

The Charter School's cash and cash equivalents are classified below to inform financial statement users about the extent to which the Charter School's deposits and investments are exposed to custodial credit risk.

As of June 30, 2018, the Charter School's deposits are summarized as follows:

	General Fund	Enterprise Fund	Trust and Agency Funds	Total
Operating Account	\$ 22,004	\$ 10	25,829	\$ 47,843
Restricted cash	-	-	-	-
Total	<u>\$ 22,004</u>	<u>\$ 10</u>	<u>\$ 25,829</u>	<u>\$ 47,843</u>

Operating cash accounts are held in the Charter School's name by several banking institutions. At June 30, 2018, the Charter School's carrying amount of deposits was \$47,883 and the bank balance was \$193,307. Of the bank balance, up to a maximum of \$250,000 of the Charter School's cash deposits on June 30, 2018 were secured by federal deposit insurance (FDIC) and nothing was covered by a collateral pool maintained by the bank as required by New Jersey statutes in accordance with the New Jersey Governmental Unit Deposit Protection Act ("GUDPA") because the bank balance is below the \$250,000 FDIC limit.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 3 CASH AND CASH EQUIVALENTS - CONTINUED

Restricted Cash

The Charter School has established and funded an Escrow Account pursuant to an agreement signed with the New Jersey Department of Education. The required minimum is \$75,000, of which, the Charter School did not fund as of June 30, 2018. The agreement stipulates that the intended use of the escrow amount is “to pay for legal and audit expenses and any other outstanding pension benefits that would be associated with a dissolution should it occur.”

NOTE 4 NET POSITION

As of June 30, 2018, net position consisted of the following components:

<u>INVESTMENT IN CAPITAL ASSETS, NET OF RELATED DEBT</u>	<u>Governmental</u>	<u>Business Type</u>	<u>Total</u>
Capital assets, net	\$ -	\$ -	\$ -
Less: Long-Term obligations	-	-	-
(All long-term debt relates to capital assets)	-	-	-
<u>UNRESTRICTED</u>			
Net position (deficit) not restricted above	<u>38,537</u>	-	<u>38,537</u>
NET POSITION (DEFICIT)	<u>\$ 38,537</u>	<u>\$ -</u>	<u>\$ 38,537</u>

NOTE 5 PENSION PLANS

A. Description of Plans

All eligible employees of the Charter School are covered by either the Public Employee’s Retirement System (PERS) or the Teacher’s Pension and Annuity Fund (TPAF) which have been established by state statute and are administered by the New Jersey Division of Pension and Benefit (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the PERS and the TPAF. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 5 PENSION PLANS - CONTINUED

A. Description of Plans - Continued

i. Public Employees' Retirement System (PERS)

The Public Employees' Retirement Systems (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full-time employees of the State or any county municipality, Charter School, or public agency provided the employee is not a member of another state-administered retirement system. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, Charter School, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

ii. Teachers Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established in January 1, 1995, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. The Teacher's Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Charter School and the systems other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

B. Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A 43:15a and 4303B and N.J.S.A. 18A: for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determine to be 1/55 of the final average salary for each year of service credit as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 5 PENSION PLANS - CONTINUED

B. Vesting and Benefit Provisions - Continued

The PERS and TPAF provides for specified medical benefits for member who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

C. Significant Legislation

Two pieces of legislation passed during fiscal year 2001 having significant impact on the benefit provisions under PERS and TPAF. Chapter 133, P.L.2001, increases retirement benefits for service, deferred and early retirements by changing the formula from 1/60 to 1/55 of final compensation for each year of service. The legislation also increases the retirement benefit for veteran member with 35 years or more of service and reduces age qualification from 60 to 55. The legislation further provides that existing retirees and beneficiaries would also receive a comparable percentage increase in their retirement allowance. The benefit enhancements are effective with the November 1, 2001 benefit checks. Chapter 120, P.L. 2001, established an additional retirement option for plan members. Under the new option, a retiree's actuarially reduced allowance (to provide a benefit to the retiree's beneficiary upon the death of the retiree) would "pop-up" to the maximum retirement allowance if the beneficiary predeceases the retiree.

Chapter 4, P.L. 2001 provides increased benefit to certain members of PERS who retired prior to December 29, 1989 with at least 25 years of creditable service.

The maximum amount of the increase is 5 percent the retiree's final compensation. For those with 30 or more years of service, the total pension would increase from 65 to 71 percent of final compensation.

Due to the enactment of 1997 legislation, Chapter 114, P.L. 1997 and Chapter 115, P.L. 1997, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated. In addition, excess valuation assets were available to fund, in full or in part, the State of New Jersey's normal contribution from 1997 to 2001, excluding the contribution for post-retirement medical benefits in the PERS and TPAF.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 5 PENSION PLANS - CONTINUED

D. Contribution Requirement

The contribution policy is set by laws of the State of New Jersey and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.06% for PERS and 7.06% for TPAF of the employee's annual compensation. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Charter School.

The actuarially determined contribution includes funding for cost-of-living adjustment, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Charter School is a non-contributing employer of the TPAF.

In accordance with N.J.S.A 18A:66-66 the State of New Jersey reimbursed the Charter School \$28,287 during the year ended June 30, 2018 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

The Charter School did not have PERS contribution nor TPAF on-behalf payments since fiscal year ended June 30, 2018 is the Charter School's first year of operations.

E. GASB 68 Disclosures

i. Public Employees' Retirement System (PERS)

As of June 30, 2018, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

ii. Teachers Pension and Annuity Fund (TPAF)

As of June 30, 2018, the Charter School did not have a proportionate share in the State's net pension liability for PERS.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program (APB) who retired from a board of education or county college with 25 years of service (GASB Cod. Sec. 2300.106(g)).

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Employees covered by benefit terms. At June 30, 2018, the Charter School has no employees covered by the benefit terms:

TPAF Participant Retirees

As of June 30, 2017, there were 112,966 retirees receiving post-retirement medical benefits, and the State contributed \$1.39 billion on their behalf.

PERS Participant Retirees

The State paid \$238.9 million toward Chapter 126 benefits for 209,913 eligible retired members in Fiscal Year 2017.

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The Charter School has no employees covered by OPEB and therefore the adoption of GASB 75 did not have an effect on the Charter School's financial statements.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS - CONTINUED

The following OPEB liability note information is reported at the State's level and is not specific to the Charter School. Note that actual numbers will be published in the NJ State's CAFR (<https://www.nj.gov/treasury/omb/publications/archives.shtml>)

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2017 measurement date was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used three following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%		
	<u>TPAF/ABP</u>	<u>PERS</u>	<u>PFRS</u>
Salary increases:			
Through 2026	1.55% - 4.55% based on years of service	2.15% - 4.15% based on age	2.10% - 8.98% based on age
Thereafter	2.00% - 5.45% based on years of service	3.15% - 5.15% based on age	3.10% - 9.98% based on age

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from central year using the MP-2017 scale. Postretirement mortality rate were based on the RP-2014 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS - CONTINUED

(a) Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount initially is 5.9% and decreases to a 5.0% long-term rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to 5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

(b) Discount rate

The discount rate for June 30, 2017 and 2016 measurement dates were 3.58% and 2.85%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Changes in the Total OPEB liability of the State for Charter School retirees. The Charter School did not have a proportionate share in the State's total OPEB liability.

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the State for Charter School retirees, as well as what the State's total OPEB liability for the Charter School retirees would be if it were calculated using a discount rate that is 1-percentage -point lower or 1-percentage-point higher than the current discount rate:

	1% Decrease (2.58%)	Current Discount Rate (3.58%)	1% Increase (4.58%)
Total Nonemployer OPEB Liability - State	\$ -	\$ -	\$ -

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 6 POST-RETIREMENT BENEFITS - CONTINUED

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the State for Charter School retirees, as well as what the State's total OPEB liability for the Charter School retirees would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Current Health Cost Trend Rate</u>	<u>1% Increase</u>
Total Nonemployer OPEB Liability	\$ -	\$ -	\$ -

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the Charter School recognize OPEB revenue and expense of \$0 as determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75 and in which there is a special funding situation.

In accordance with GASB No. 75, the Charter School's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to retired Charter School employees' OPEB was zero.

NOTE 7 DEFERRED COMPENSATION

The Charter School offered its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Service 403(b). The Plan which are administered by the Charter School and various insurance companies, permits participants to defer apportion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, death or unforeseeable emergency.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 8 RISK MANAGEMENT

The Charter School is exposed to various risks of loss relates to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Property and Liability Insurance

The Charter School maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (Unaudited) of this Comprehensive Annual Financial Report (Schedule J-20).

B. New Jersey Unemployment Compensation

The Charter School has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Charter School is required to reimburse the New Jersey Unemployment Trust Fund For benefits paid to its former employees and charged to its account with the State. The Charter School is billed quarterly for amounts due to the State.

NOTE 9 INTERFUND RECEIVABLES AND PAYABLES

Amount reported in the governmental funds as interfund receivable and payable from/to other governmental funds are eliminated in the governmental activities' column. The remaining internal receivable and payable between the governmental funds and enterprise fund have been eliminated in the total Charter School-wide Statement of Net Position.

At June 30, 2018, the interfund balances consisted of the following:

	RECEIVABLE (PAYABLE)			
	General Fund	Special Revenue Fund	Enterprise Fund	Fiduciary Fund
General fund	\$ 16,268	\$ -	\$ (10)	\$ (16,257)
GASB No 34 mandated eliminations within governmental activities	-	-	-	-
Net interfund balances reported as follows:				
Entity-wide (eliminated in total column)	<u>\$ 16,268</u>	<u>\$ -</u>	<u>\$ (10)</u>	
External (Due from Trust and Agency Funds)				<u>\$ (16,257)</u>

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 10 CONTINGENCIES

State and Federal Aid Receipts

State and Federal awards are generally subject to review by the responsible governmental agencies for compliance with the agencies regulations governing the aid. In the opinion of the Charter School's management and legal counsel, any potential adjustments to the Federal or State aid recorded by the Charter School through June 30, 2018, resulting from a review by a responsible government agency will not have a material effect on the Charter School financial statements at June 30, 2018.

SUPPLEMENTARY INFORMATION**

PART II

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)**

**REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY GAAP RECONCILIATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

YEAR ENDED JUNE 30, 2018

**Note A - Explanation of Differences between Budgetary Inflows
and Outflows and GAAP Revenues and Expenditures**

		<u>General Fund</u>		<u>Special Revenue Fund</u>
Sources/inflows of resources				
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule:	[C-1]	\$ 892,894	[C-2]	189,406
Difference - budget to GAAP:				
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.		-		-
Last State aid payment recognized for budgetary purposes only.		-		-
General Fund contribution to Early Childhood Program Aid.		-		-
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	[B-2]	<u>892,894</u>	[B-2]	<u>189,406</u>
Uses/outflows of resources				
Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	[C-1]	854,357	[C-2]	189,406
Differences - budget to GAAP				
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		-		-
Transfers to and from other funds are presented as outflows of budgetary resources but are not expenditures for financial reporting purposes.				
Net transfer (outflows) to general fund		-		-
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	[B-2]	<u>\$ 854,357</u>	[B-2]	<u>\$ 189,406</u>

Note A -The general fund budget basis of the use/outflow of resources is GAAP, therefore no reconciliation is required.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PART III
YEAR ENDED JUNE 30, 2018**

Public Employees Retirement System (PERS)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 3.98% to 5.00%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

The single blended discount rate of 5.00% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.65% in prior measurement date) and a municipal bond rate of 3.58% (2.85% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher

At June 30, 2018, the Charter School's share in the net pension liability is zero.

Teachers Pension and Annuity Fund (TPAF)

Change in benefit terms. There is no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 3.22% to 4.25% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 68.

The single blended discount rate of 4.25% in the current measurement date was based on the long-term expected rate of return on pension plan investments of 7.00% (7.65% in prior measurement date) and a municipal bond rate of 3.58% (2.85% in prior measurement date) based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

At June 30, 2018, the Charter School's share in the net pension liability is zero.

Other Post-Employment Benefits (OPEB)

Change in benefit terms. There was no change in the benefit terms.

Change in assumptions. The calculation of the discount rate used to measure the total nonemployer OPEB liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. The discount rate used to measure the total pension liability changed from 2.85% to 3.58% in the current measurement date. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 75. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

CAPITAL PROJECTS FUND

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by propriety funds.

At June 30, 2018, there was no capital project fund.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the Charter School is that the costs of providing goods and services be financed through user charges. The Charter School has the Food Service and After Care in its Enterprise Fund to account for the operation of food services and after care.

SINGLE AUDIT SECTION

EXHIBIT K-1

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
Essex County, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Achieve Community Charter School (the Charter School), in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report thereon dated January 28, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - CONTINUED

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

However, we noted certain matters that we have reported to the Board of Trustees of the Achieve Community Charter School in the County of Essex, New Jersey in a separate *Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance*, dated January 28, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR LETTER 15-08

The Honorable President and
Members of the Board of Trustees
Achieve Community Charter School
Essex County, New Jersey

Report on Compliance for Each Major State Program

We have audited the Achieve Community Charter School's (the Charter School) in the County of Essex, State of New Jersey compliance with the types of compliance requirements described in the *New Jersey State Aid Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major state programs for the fiscal year ended June 30, 2018. The Charter School's major state program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Charter School's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and New Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards and New Jersey OMB Circular Letter 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR LETTER 15-08 - CONTINUED

We believe that our audit provides a reasonable basis for our opinion. However, our audit does not provide a legal determination of the Charter School's compliance on compliance for each major state programs.

Opinion on Each Major State Program

In our opinion, the Achieve Community Charter School in the County of Essex, State of New Jersey, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major state program for the fiscal year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance for each major state program and to test and report on internal control over compliance in accordance with the New Jersey OMB Letter Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR LETTER 15-08 - CONTINUED

Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB Circular Letter 15-08. Accordingly, this report is not suitable for any other purpose.

**ACHIEVE COMMUNITY CHARTER SCHOOL
(COUNTY OF ESSEX, NEW JERSEY)****NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE
FINANCIAL ASSISTANCE****FISCAL YEAR ENDED JUNE 30, 2018****NOTE 1 GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Trustees for Achieve Community Charter School. The Board of Trustees is defined in Note 1 to the Charter School's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of those recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules is presented in accordance with the requirements of *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and New Jersey OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Amounts reported in the accompanying schedules agree with the amounts reported in the Charter School's basic financial statements. The basic financial statements present the special revenue fund on both GAAP and budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. See Exhibit C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the Charter School's basic financial statements on a GAAP basis as follows:

NOTE 4 RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5 ON-BEHALF PAYMENTS

TPAF Social Security Contributions represents reimbursements in the amount of \$28,287 by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2018. The State did not made on-behalf TPAF payments for pension contributions, post-retirement medical benefits and long-term disability insurance contributions for the year ended June 30, 2018.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF pension contributions, post-retirement medical benefits contributions and long-term disability insurance are not subject to a State Single Audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the Charter School's financial statements and the amount subject to State Single Audit and major program determination.

NOTE 7 DE MINIMIS INDIRECT COST

The Charter School has not elected to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

4e Total program service expenses 4,568,677.

Part IV Checklist of Required Schedules

	Yes	No
1 Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? <i>If "Yes," complete Schedule A</i>	X	
2 Is the organization required to complete <i>Schedule B, Schedule of Contributors</i> ?	X	
3 Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? <i>If "Yes," complete Schedule C, Part I</i>		X
4 Section 501(c)(3) organizations. Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? <i>If "Yes," complete Schedule C, Part II</i>		X
5 Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? <i>If "Yes," complete Schedule C, Part III</i>		X
6 Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? <i>If "Yes," complete Schedule D, Part I</i>		X
7 Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? <i>If "Yes," complete Schedule D, Part II</i>		X
8 Did the organization maintain collections of works of art, historical treasures, or other similar assets? <i>If "Yes," complete Schedule D, Part III</i>		X
9 Did the organization report an amount in Part X, line 21, for escrow or custodial account liability, serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? <i>If "Yes," complete Schedule D, Part IV</i>		X
10 Did the organization, directly or through a related organization, hold assets in donor-restricted endowments or in quasi endowments? <i>If "Yes," complete Schedule D, Part V</i>		X
11 If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.		
a Did the organization report an amount for land, buildings, and equipment in Part X, line 10? <i>If "Yes," complete Schedule D, Part VI</i>		X
b Did the organization report an amount for investments - other securities in Part X, line 12, that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VII</i>		X
c Did the organization report an amount for investments - program related in Part X, line 13, that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VIII</i>		X
d Did the organization report an amount for other assets in Part X, line 15, that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part IX</i>	X	
e Did the organization report an amount for other liabilities in Part X, line 25? <i>If "Yes," complete Schedule D, Part X</i>	X	
f Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? <i>If "Yes," complete Schedule D, Part X</i>	X	
12a Did the organization obtain separate, independent audited financial statements for the tax year? <i>If "Yes," complete Schedule D, Parts XI and XII</i>		X
b Was the organization included in consolidated, independent audited financial statements for the tax year? <i>If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional</i>		X
13 Is the organization a school described in section 170(b)(1)(A)(ii)? <i>If "Yes," complete Schedule E</i>	X	
14a Did the organization maintain an office, employees, or agents outside of the United States?		X
b Did the organization have aggregate revenues or expenses of more than \$10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at \$100,000 or more? <i>If "Yes," complete Schedule F, Parts I and IV</i>		X
15 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of grants or other assistance to or for any foreign organization? <i>If "Yes," complete Schedule F, Parts II and IV</i>		X
16 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of aggregate grants or other assistance to or for foreign individuals? <i>If "Yes," complete Schedule F, Parts III and IV</i>		X
17 Did the organization report a total of more than \$15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? <i>If "Yes," complete Schedule G, Part I</i>		X
18 Did the organization report more than \$15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? <i>If "Yes," complete Schedule G, Part II</i>		X
19 Did the organization report more than \$15,000 of gross income from gaming activities on Part VIII, line 9a? <i>If "Yes," complete Schedule G, Part III</i>		X
20a Did the organization operate one or more hospital facilities? <i>If "Yes," complete Schedule H</i>		X
b If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?		
21 Did the organization report more than \$5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? <i>If "Yes," complete Schedule I, Parts I and II</i>		X

Part IV Checklist of Required Schedules (continued)

	Yes	No
22 Did the organization report more than \$5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? <i>If "Yes," complete Schedule I, Parts I and III</i>		X
23 Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? <i>If "Yes," complete Schedule J</i>		X
24a Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than \$100,000 as of the last day of the year, that was issued after December 31, 2002? <i>If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25a</i>		X
b Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?		
c Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?		
d Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?		
25a Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations. Did the organization engage in an excess benefit transaction with a disqualified person during the year? <i>If "Yes," complete Schedule L, Part I</i>		X
b Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? <i>If "Yes," complete Schedule L, Part I</i>		X
26 Did the organization report any amount on Part X, line 5 or 22, for receivables from or payables to any current or former officer, director, trustee, key employee, creator or founder, substantial contributor, or 35% controlled entity or family member of any of these persons? <i>If "Yes," complete Schedule L, Part II</i>		X
27 Did the organization provide a grant or other assistance to any current or former officer, director, trustee, key employee, creator or founder, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity (including an employee thereof) or family member of any of these persons? <i>If "Yes," complete Schedule L, Part III</i>		X
28 Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions, for applicable filing thresholds, conditions, and exceptions):		
a A current or former officer, director, trustee, key employee, creator or founder, or substantial contributor? <i>If "Yes," complete Schedule L, Part IV</i>		X
b A family member of any individual described in line 28a? <i>If "Yes," complete Schedule L, Part IV</i>		X
c A 35% controlled entity of one or more individuals and/or organizations described in lines 28a or 28b? <i>If "Yes," complete Schedule L, Part IV</i>		X
29 Did the organization receive more than \$25,000 in non-cash contributions? <i>If "Yes," complete Schedule M</i>		X
30 Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? <i>If "Yes," complete Schedule M</i>		X
31 Did the organization liquidate, terminate, or dissolve and cease operations? <i>If "Yes," complete Schedule N, Part I</i>		X
32 Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? <i>If "Yes," complete Schedule N, Part II</i>		X
33 Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? <i>If "Yes," complete Schedule R, Part I</i>		X
34 Was the organization related to any tax-exempt or taxable entity? <i>If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1</i>		X
35a Did the organization have a controlled entity within the meaning of section 512(b)(13)?		X
b If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? <i>If "Yes," complete Schedule R, Part V, line 2</i>		
36 Section 501(c)(3) organizations. Did the organization make any transfers to an exempt non-charitable related organization? <i>If "Yes," complete Schedule R, Part V, line 2</i>		X
37 Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? <i>If "Yes," complete Schedule R, Part VI</i>		X
38 Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19?	X	

Note: All Form 990 filers are required to complete Schedule O

Part V Statements Regarding Other IRS Filings and Tax Compliance

Check if Schedule O contains a response or note to any line in this Part V

	Yes	No
1a Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable		
b Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable		
c Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?		

Part V Statements Regarding Other IRS Filings and Tax Compliance (continued)

		Yes	No
2a	Enter the number of employees reported on Form W-3, Transmittal of Wage and Tax Statements, filed for the calendar year ending with or within the year covered by this return		
	2a		0
b	If at least one is reported on line 2a, did the organization file all required federal employment tax returns? Note: If the sum of lines 1a and 2a is greater than 250, you may be required to e-file (see instructions)	2b	
3a	Did the organization have unrelated business gross income of \$1,000 or more during the year?	3a	X
b	If "Yes," has it filed a Form 990-T for this year? If "No" to line 3b, provide an explanation on Schedule O	3b	
4a	At any time during the calendar year, did the organization have an interest in, or a signature or other authority over, a financial account in a foreign country (such as a bank account, securities account, or other financial account)?	4a	X
b	If "Yes," enter the name of the foreign country See instructions for filing requirements for FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR).		
5a	Was the organization a party to a prohibited tax shelter transaction at any time during the tax year?	5a	X
b	Did any taxable party notify the organization that it was or is a party to a prohibited tax shelter transaction?	5b	X
c	If "Yes" to line 5a or 5b, did the organization file Form 8886-T?	5c	
6a	Does the organization have annual gross receipts that are normally greater than \$100,000, and did the organization solicit any contributions that were not tax deductible as charitable contributions?	6a	X
b	If "Yes," did the organization include with every solicitation an express statement that such contributions or gifts were not tax deductible?	6b	
7	Organizations that may receive deductible contributions under section 170(c).		
a	Did the organization receive a payment in excess of \$75 made partly as a contribution and partly for goods and services provided to the payor?	7a	X
b	If "Yes," did the organization notify the donor of the value of the goods or services provided?	7b

b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year	12b	
13	Section 501(c)(29) qualified nonprofit health insurance issuers.		
a	Is the organization licensed to issue qualified health plans in more than one state? Note: See the instructions for additional information the organization must report on Schedule O.	13a	
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b	
c	Enter the amount of reserves on hand	13c	
14a	Did the organization receive any payments for indoor tanning services during the tax year?	14a	X
b	If "Yes," has it filed a Form 720 to report these payments? If "No," provide an explanation on Schedule O	14b	
15	Is the organization subject to the section 4960 tax on payment(s) of more than \$1,000,000 in remuneration or excess parachute payment(s) during the year? If "Yes," see instructions and file Form 4720, Schedule N.	15	X
16	Is the organization an educational institution subject to the section 4968 excise tax on net investment income? If "Yes," complete Form 4720, Schedule O.	16	X

Part VI Governance, Management, and Disclosure For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes on Schedule O. See instructions.

Check if Schedule O contains a response or note to any line in this Part VI

Section A. Governing Body and Management

		Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain on Schedule O.		
1b	Enter the number of voting members included on line 1a, above, who are independent		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?		X
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, trustees, or key employees to a management company or other person?		X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?		X
5	Did the organization become aware during the year of a significant diversion of the organization's assets?		X
6	Did the organization have members or stockholders?		X
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?		X
7b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?		X
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:		
8a	The governing body?	X	
8b	Each committee with authority to act on behalf of the governing body?	X	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? If "Yes," provide the names and addresses on Schedule O		X

Section B. Policies (This Section B requests information about policies not required by the Internal Revenue Code.)

		Yes	No
10a	Did the organization have local chapters, branches, or affiliates?		X
10b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	X	
11b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.		
12a	Did the organization have a written conflict of interest policy? If "No," go to line 13	X	
12b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	X	
12c	Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe in Schedule O how this was done	X	
13	Did the organization have a written whistleblower policy?	X	
14	Did the organization have a written document retention and destruction policy?	X	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?		
15a	The organization's CEO, Executive Director, or top management official	X	
15b	Other officers or key employees of the organization	X	
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).		
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?		X
16b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?		

Section C. Disclosure

- 17** List the states with which a copy of this Form 990 is required to be filed **NJ**
- 18** Section 6104 requires an organization to make its Forms 1023 (1024 or 1024-A, if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.
 Own website Another's website Upon request Other (explain on Schedule O)
- 19** Describe on Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.
- 20** State the name, address, and telephone number of the person who possesses the organization's books and records **CARRIEANN ZIELINSKI - 973-556-7070**

7	Investment expenses	7	
8	Prior period adjustments	8	
9	Other changes in net assets or fund balances (explain on Schedule O)	9	60,000.
10	Net assets or fund balances at end of year. Combine lines 3 through 9 (must equal Part X, line 32, column (B))	10	46,970.

Part XII Financial Statements and Reporting

Check if Schedule O contains a response or note to any line in this Part XII

		Yes	No
1	Accounting method used to prepare the Form 990: <input checked="" type="checkbox"/> Cash <input type="checkbox"/> Accrual <input type="checkbox"/> Other _____ If the organization changed its method of accounting from a prior year or checked "Other," explain in Schedule O.		
2a	Were the organization's financial statements compiled or reviewed by an independent accountant? _____ If "Yes," check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both: <input type="checkbox"/> Separate basis <input type="checkbox"/> Consolidated basis <input type="checkbox"/> Both consolidated and separate basis		X
2b	Were the organization's financial statements audited by an independent accountant? _____ If "Yes," check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both: <input type="checkbox"/> Separate basis <input type="checkbox"/> Consolidated basis <input type="checkbox"/> Both consolidated and separate basis		X
2c	If "Yes" to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant? _____ If the organization changed either its oversight process or selection process during the tax year, explain on Schedule O.		
3a	As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Single Audit Act and OMB Circular A-133? _____		X
3b	If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why on Schedule O and describe any steps taken to undergo such audits _____		

Part II Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)

(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2015	(b) 2016	(c) 2017	(d) 2018	(e) 2019	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
3 The value of services or facilities furnished by a governmental unit to the organization without charge						
4 Total. Add lines 1 through 3						
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 Public support. Subtract line 5 from line 4.						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2015	(b) 2016	(c) 2017	(d) 2018	(e) 2019	(f) Total
7 Amounts from line 4						
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
9 Net income from unrelated business activities, whether or not the business is regularly carried on						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
11 Total support. Add lines 7 through 10						
12 Gross receipts from related activities, etc. (see instructions)					12	
13 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and stop here						<input type="checkbox"/>

Section C. Computation of Public Support Percentage

14 Public support percentage for 2019 (line 6, column (f) divided by line 11, column (f))	14	%
15 Public support percentage from 2018 Schedule A, Part II, line 14	15	%
16a 33 1/3% support test - 2019. If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 33 1/3% support test - 2018. If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
17a 10% -facts-and-circumstances test - 2019. If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 10% -facts-and-circumstances test - 2018. If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
18 Private foundation. If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions		<input type="checkbox"/>

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 10 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2015	(b) 2016	(c) 2017	(d) 2018	(e) 2019	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 Total. Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of \$5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 Public support. (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2015	(b) 2016	(c) 2017	(d) 2018	(e) 2019	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
13 Total support. (Add lines 9, 10c, 11, and 12.)						

14 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here**

Section C. Computation of Public Support Percentage

15 Public support percentage for 2019 (line 8, column (f), divided by line 13, column (f))	15	%
16 Public support percentage from 2018 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17 Investment income percentage for 2019 (line 10c, column (f), divided by line 13, column (f))	17	%
18 Investment income percentage from 2018 Schedule A, Part III, line 17	18	%

19a 33 1/3% support tests - 2019. If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

b 33 1/3% support tests - 2018. If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

20 Private foundation. If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions

Part IV Supporting Organizations

(Complete only if you checked a box in line 12 on Part I. If you checked 12a of Part I, complete Sections A and B. If you checked 12b of Part I, complete Sections A and C. If you checked 12c of Part I, complete Sections A, D, and E. If you checked 12d of Part I, complete Sections A and D, and complete Part V.)

Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer (b) and (c) below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked 12a or 12b in Part I, answer (b) and (c) below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? <i>If "Yes," answer 10b below.</i>		
b Did the organization have any excess business holdings in the tax year? <i>(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)</i>		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?		
b A family member of a person described in (a) above?		
c A 35% controlled entity of a person described in (a) or (b) above? <i>If "Yes" to a, b, or c, provide detail in Part VI.</i>		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3 By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).		
a <input type="checkbox"/> The organization satisfied the Activities Test. Complete line 2 below.		
b <input type="checkbox"/> The organization is the parent of each of its supported organizations. Complete line 3 below.		
c <input type="checkbox"/> The organization supported a governmental entity. Describe in Part VI how you supported a government entity (see instructions).		
2 Activities Test. Answer (a) and (b) below.		
a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? <i>If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.</i>		
b Did the activities described in (a) constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? <i>If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.</i>		
3 Parent of Supported Organizations. Answer (a) and (b) below.		
a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? <i>Provide details in Part VI.</i>		
b Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? <i>If "Yes," describe in Part VI the role played by the organization in this regard.</i>		

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations

- 1 Check here if the organization satisfied the Integral Part Test as a qualifying trust on Nov. 20, 1970 (explain in Part VI). **See instructions.** All other Type III non-functionally integrated supporting organizations must complete Sections A through E.

Section A - Adjusted Net Income		(A) Prior Year	(B) Current Year (optional)
1	Net short-term capital gain	1	
2	Recoveries of prior-year distributions	2	
3	Other gross income (see instructions)	3	
4	Add lines 1 through 3.	4	
5	Depreciation and depletion	5	
6	Portion of operating expenses paid or incurred for production or collection of gross income or for management, conservation, or maintenance of property held for production of income (see instructions)	6	
7	Other expenses (see instructions)	7	
8	Adjusted Net Income (subtract lines 5, 6, and 7 from line 4)	8	

Section B - Minimum Asset Amount		(A) Prior Year	(B) Current Year (optional)
1	Aggregate fair market value of all non-exempt-use assets (see instructions for short tax year or assets held for part of year):		
a	Average monthly value of securities	1a	
b	Average monthly cash balances	1b	
c	Fair market value of other non-exempt-use assets	1c	
d	Total (add lines 1a, 1b, and 1c)	1d	
e	Discount claimed for blockage or other factors (explain in detail in Part VI):		
2	Acquisition indebtedness applicable to non-exempt-use assets	2	
3	Subtract line 2 from line 1d.	3	
4	Cash deemed held for exempt use. Enter 1-1/2% of line 3 (for greater amount, see instructions).	4	
5	Net value of non-exempt-use assets (subtract line 4 from line 3)	5	
6	Multiply line 5 by .035.	6	
7	Recoveries of prior-year distributions	7	
8	Minimum Asset Amount (add line 7 to line 6)	8	

Section C - Distributable Amount		(A) Prior Year	Current Year
1	Adjusted net income for prior year (from Section A, line 8, Column A)	1	
2	Enter 85% of line 1.	2	
3	Minimum asset amount for prior year (from Section B, line 8, Column A)	3	
4	Enter greater of line 2 or line 3.	4	
5	Income tax imposed in prior year	5	
6	Distributable Amount. Subtract line 5 from line 4, unless subject to emergency temporary reduction (see instructions).	6	
7	<input type="checkbox"/> Check here if the current year is the organization's first as a non-functionally integrated Type III supporting organization (see instructions).		

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations (continued)

Section D - Distributions	Current Year
1 Amounts paid to supported organizations to accomplish exempt purposes	
2 Amounts paid to perform activity that directly furthers exempt purposes of supported organizations, in excess of income from activity	
3 Administrative expenses paid to accomplish exempt purposes of supported organizations	
4 Amounts paid to acquire exempt-use assets	
5 Qualified set-aside amounts (prior IRS approval required)	
6 Other distributions (describe in Part VI). See instructions.	
7 Total annual distributions. Add lines 1 through 6.	
8 Distributions to attentive supported organizations to which the organization is responsive (provide details in Part VI). See instructions.	
9 Distributable amount for 2019 from Section C, line 6	
10 Line 8 amount divided by line 9 amount	

Section E - Distribution Allocations (see instructions)	(i) Excess Distributions	(ii) Underdistributions Pre-2019	(iii) Distributable Amount for 2019
1 Distributable amount for 2019 from Section C, line 6			
2 Underdistributions, if any, for years prior to 2019 (reasonable cause required- explain in Part VI). See instructions.			
3 Excess distributions carryover, if any, to 2019			
a From 2014			
b From 2015			
c From 2016			
d From 2017			
e From 2018			
f Total of lines 3a through e			
g Applied to underdistributions of prior years			
h Applied to 2019 distributable amount			
i Carryover from 2014 not applied (see instructions)			
j Remainder. Subtract lines 3g, 3h, and 3i from 3f.			
4 Distributions for 2019 from Section D, line 7: \$			
a Applied to underdistributions of prior years			
b Applied to 2019 distributable amount			
c Remainder. Subtract lines 4a and 4b from 4.			
5 Remaining underdistributions for years prior to 2019, if any. Subtract lines 3g and 4a from line 2. For result greater than zero, explain in Part VI . See instructions.			
6 Remaining underdistributions for 2019. Subtract lines 3h and 4b from line 1. For result greater than zero, explain in Part VI . See instructions.			
7 Excess distributions carryover to 2020. Add lines 3j and 4c.			
8 Breakdown of line 7:			
a Excess from 2015			
b Excess from 2016			
c Excess from 2017			
d Excess from 2018			
e Excess from 2019

Name of the organization

ACHIEVE COMMUNITY CHARTER SCHOOL

Employer identification number

[REDACTED]

Organization type (check one):

Filers of:

Section:

Form 990 or 990-EZ

501(c)(3) (enter number) organization

4947(a)(1) nonexempt charitable trust **not** treated as a private foundation

527 political organization

Form 990-PF

501(c)(3) exempt private foundation

4947(a)(1) nonexempt charitable trust treated as a private foundation

501(c)(3) taxable private foundation

Check if your organization is covered by the **General Rule** or a **Special Rule**.

Note: Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions.

General Rule

For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling \$5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions.

Special Rules

For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990 or 990-EZ), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of **(1)** \$5,000; or **(2)** 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than \$1,000 *exclusively* for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I, II, and III.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions *exclusively* for religious, charitable, etc., purposes, but no such contributions totaled more than \$1,000. If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Don't complete any of the parts unless the **General Rule** applies to this organization because it received *nonexclusively* religious, charitable, etc., contributions totaling \$5,000 or more during the year ▶ \$ _____

Caution: An organization that isn't covered by the General Rule and/or the Special Rules doesn't file Schedule B (Form 990, 990-EZ, or 990-PF), but it **must** answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it doesn't meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

OMB No. 1545-0047

2019 Open to Public Inspection

Name of the organization: ACHIEVE COMMUNITY CHARTER SCHOOL; Employer identification number: [REDACTED]

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts. Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

Table with 3 columns: Question, (a) Donor advised funds, (b) Funds and other accounts. Rows include total number at end of year, aggregate value of contributions, grants, and end of year, and two Yes/No questions regarding donor property and grant fund usage.

Part II Conservation Easements. Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

Form with multiple sections: 1. Purpose(s) of conservation easements (checkboxes for land, habitat, open space, historic area, structure); 2. Conservation contribution details (table with 2a-2d); 3-7. Monitoring and enforcement details; 8-9. Reporting requirements.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets. Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

Form with sections 1a-1b and 2. 1a: Reporting on revenue and assets for public service. 1b: Reporting on revenue and assets for public service. 2: Reporting on revenue and assets for financial gain.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets (continued)

- 3 Using the organization's acquisition, accession, and other records, check any of the following that make significant use of its collection items (check all that apply):
- a Public exhibition
 - b Scholarly research
 - c Preservation for future generations
 - d Loan or exchange program
 - e Other _____
- 4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.
- 5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? Yes No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

- 1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? Yes No
- b If "Yes," explain the arrangement in Part XIII and complete the following table:
- | | Amount |
|---------------------------------|--------|
| c Beginning balance | 1c |
| d Additions during the year | 1d |
| e Distributions during the year | 1e |
| f Ending balance | 1f |
- 2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? Yes No
- b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided on Part XIII

Part V Endowment Funds. Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance					
b Contributions					
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance					

- 2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:
- a Board designated or quasi-endowment %
 - b Permanent endowment %
 - c Term endowment %
- The percentages on lines 2a, 2b, and 2c should equal 100%.
- 3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:
- | | Yes | No |
|--|--------|----|
| (i) Unrelated organizations | 3a(i) | |
| (ii) Related organizations | 3a(ii) | |
| b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R? | 3b | |
- 4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a Land				
b Buildings				
c Leasehold improvements				
d Equipment				
e Other				

Total. Add lines 1a through 1e. (Column (d) must equal Form 990, Part X, column (B), line 10c.) 0.

Part VII Investments - Other Securities.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11b. See Form 990, Part X, line 12.

(a) Description of security or category (including name of security)	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1) Financial derivatives

(3)		
(4)		
(5)		
(6)		
(7)		
(8)		
(9)		
Total. (Col. (b) must equal Form 990, Part X, col. (B) line 13.) ▶		

Part IX Other Assets.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11d. See Form 990, Part X, line 15.

(a) Description	(b) Book value
(1) OTHER RECEIVABLES	301,771.
(2)	
(3)	
(4)	
(5)	
(6)	
(7)	
(8)	
(9)	
Total. (Column (b) must equal Form 990, Part X, col. (B) line 15.) ▶	301,771.

Part X Other Liabilities.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11e or 11f. See Form 990, Part X, line 25.

1. (a) Description of liability	(b) Book value
(1) Federal income taxes	
(2) INTERGOVERNMENTAL PAYABLE	38,258.
(3) INTERFUND PAYABLE (FIDUCIARY)	88,002.
(4) OTHER PAYABLES	340,090.
(5)	
(6)	
(7)	
(8)	
(9)	
Total. (Column (b) must equal Form 990, Part X, col. (B) line 25.) ▶	466,350.

2. Liability for uncertain tax positions. In Part XIII, provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under FASB ASC 740. Check here if the text of the footnote has been provided in Part XIII ...

Part XI Reconciliation of Revenue per Audited Financial Statements With Revenue per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total revenue, gains, and other support per audited financial statements		1
2	Amounts included on line 1 but not on Form 990, Part VIII, line 12:		
a	Net unrealized gains (losses) on investments	2a	
b	Donated services and use of facilities	2b	
c	Recoveries of prior year grants	2c	
d	Other (Describe in Part XIII.)	2d	
e	Add lines 2a through 2d		2e
3	Subtract line 2e from line 1		3
4	Amounts included on Form 990, Part VIII, line 12, but not on line 1:		
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a	
b	Other (Describe in Part XIII.)	4b	
c	Add lines 4a and 4b		4c
5	Total revenue. Add lines 3 and 4c . (This must equal Form 990, Part I, line 12.)		5

Part XII Reconciliation of Expenses per Audited Financial Statements With Expenses per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total expenses and losses per audited financial statements		1
2	Amounts included on line 1 but not on Form 990, Part IX, line 25:		
a	Donated services and use of facilities	2a	
b	Prior year adjustments	2b	
c	Other losses	2c	
d	Other (Describe in Part XIII.)	2d	
e	Add lines 2a through 2d		2e
3	Subtract line 2e from line 1		3
4	Amounts included on Form 990, Part IX, line 25, but not on line 1:		
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a	
b	Other (Describe in Part XIII.)	4b	
c	Add lines 4a and 4b		4c
5	Total expenses. Add lines 3 and 4c . (This must equal Form 990, Part I, line 18.)		5

Part XIII Supplemental Information.

Provide the descriptions required for Part II, lines 3, 5, and 9; Part III, lines 1a and 4; Part IV, lines 1b and 2b; Part V, line 4; Part X, line 2; Part XI, lines 2d and 4b; and Part XII, lines 2d and 4b. Also complete this part to provide any additional information.

PART X, LINE 2:

THE CHARTER SCHOOL'S POLICY PROVIDES FOR LIABILITIES FOR UNCERTAIN TAX POSITION WHEN A LIABILITY IS MOST LIKELY AND ESTIMABLE. MANAGEMENT IS NOT AWARE OF ANY VIOLATION OF ITS TAX STATUS AS AN EXEMPT ORGANIZATION FROM INCOME TAXES NOR OF ANY EXPOSURE TO UNRELATED BUSINESS INCOME TAX. THE CHARTER SCHOOL IS NO LONGER SUBJECT TO AUDITS BY THE APPLICABLE TAXING JURISDICTIONS FOR PERIODS PRIOR TO JUNE 30, 2016.

Application for Automatic Extension of Time To File an Exempt Organization Return

Department of the Treasury
Internal Revenue Service

▶ **File a separate application for each return.**
▶ **Go to www.irs.gov/Form8868 for the latest information.**

Electronic filing (e-file). You can electronically file Form 8868 to request a 6-month automatic extension of time to file any of the forms listed below with the exception of Form 8870, Information Return for Transfers Associated With Certain Personal Benefit Contracts, for which an extension request must be sent to the IRS in paper format (see instructions). For more details on the electronic filing of this form, visit www.irs.gov/e-file-providers/e-file-for-charities-and-non-profits.

Automatic 6-Month Extension of Time. Only submit original (no copies needed).

All corporations required to file an income tax return other than Form 990-T (including 1120-C filers), partnerships, REMICs, and trusts must use Form 7004 to request an extension of time to file income tax returns.

Type or print	Name of exempt organization or other filer, see instructions. ACHIEVE COMMUNITY CHARTER SCHOOL	Taxpayer identification number (TIN) <div style="background-color: black; width: 100px; height: 15px;"></div>
File by the due date for filing your return. See instructions.	Number, street, and room or suite no. If a P.O. box, see instructions. 534 CLINTON AVENUE	
	City, town or post office, state, and ZIP code. For a foreign address, see instructions. NEWARK, NJ 07108

CARRIEANN ZIELINSKI

- The books are in the care of ▶ **534 CLINTON AVE - NEWARK, NJ 07108**
Telephone No. ▶ **973-556-7070** Fax No. ▶ _____
- If the organization does not have an office or place of business in the United States, check this box
- If this is for a Group Return, enter the organization's four digit Group Exemption Number (GEN) _____. If this is for the whole group, check this box . If it is for part of the group, check this box and attach a list with the names and TINs of all members the extension is for.

1 I request an automatic 6-month extension of time until **MAY 17, 2021** , to file the exempt organization return for the organization named above. The extension is for the organization's return for:
▶ calendar year _____ or
▶ tax year beginning **JUL 1, 2019** , and ending **JUN 30, 2020** .

2 If the tax year entered in line 1 is for less than 12 months, check reason: Initial return Final return
 Change in accounting period

3a If this application is for Forms 990-BL, 990-PF, 990-T, 4720, or 6069, enter the tentative tax, less any nonrefundable credits. See instructions.	3a	\$	0.
b If this application is for Forms 990-PF, 990-T, 4720, or 6069, enter any refundable credits and estimated tax payments made. Include any prior year overpayment allowed as a credit.	3b	\$	0.
c Balance due. Subtract line 3b from line 3a. Include your payment with this form, if required, by using EFTPS (Electronic Federal Tax Payment System). See instructions.	3c	\$	0.

Caution: If you are going to make an electronic funds withdrawal (direct debit) with this Form 8868, see Form 8453-EO and Form 8879-EO for payment instructions.

RETURN MUST BE FILED ONLINE.
This form cannot be paper filed - this
copy is for informational purposes only.

Form CRI-300R
Long-Form Renewal Registration/Verification Statement
(Revised April 2008)

All questions must be answered.

Pursuant to the New Jersey Charitable Registration and Investigation Act (also known as "the C.R.I. Act" (N.J.S.A. 45:17A-18 et seq.), and prior to operating or commencing solicitation activity in the State, a charitable organization unless exempted from registration requirements (or qualified to file a Short-Form Registration Statement, CRI-200) shall file a Long-Form Initial Registration Statement, CRI-150-I. Charities submitting their annual long-form renewal registration must use Form CRI-300R. Please see the checklist at the end of this form for a discussion of fees, financial statements, documents to be attached, and other requirements for registration.

1. This statement contains the facts and financial information for the fiscal year ending: 06/30/2020
month day year

2. Federal ID Number (EIN) [REDACTED] 2a. N.J. Charities Registration Number: CH- _____

3. Full legal name of the registering organization: ACHIEVE COMMUNITY CHARTER SCHOOL
In care of: (if necessary, otherwise leave this line blank) _____

4. Mailing Address: 534 CLINTON AVENUE, NEWARK, NJ 07108 Change of Address
Street Address City State ZIP Code

NOTE: If "in care of," a postal, private or rural delivery mail box number is used, the street address of the charity must be given below.

5. The principal street address of the registering organization _____
 Same as Mailing Address Street Address City State ZIP Code

6. Does the organization have any offices in New Jersey in addition to the one listed above? Yes No
If "Yes," attach a list giving the street address and telephone number of each office in New Jersey.

6a. If the street address listed above is not where the organization's official records are kept, or if the organization does not maintain an office in New Jersey, indicate the name, full address, phone and fax number of the person having custody of the organization's records, and to whom correspondence should be addressed.
CARRIEANN ZIELINSKI 534 CLINTON AVE, NEWARK, NJ 07108
Contact person Street address City State ZIP Code

7. Organization's contact information:
973-556-7070 _____
Telephone number (include area code) Fax number (include area code)

E-mail address WWW.ACHIEVECCS.ORG
Web site

8. Type of organization (check one):
 Nonprofit corporation Foundation Individual Association Society
 Partnership Trust Other (Specify) _____

9. Where and when was the organization legally established? Date: _____ State: _____
 As required by the C.R.I. Act (N.J.S.A. 45:17A-24c(1)), attach to this registration a copy of the organization's bylaws and instrument of organization (that is, the organization's charter, articles of incorporation or organization, agreement of association, instrument of trust, or constitution) only if the document has been issued or amended during the fiscal year being reported.
10. Does the organization solicit funds under any name or names other than as indicated on line 3 of this form? Yes No
 If "Yes," indicate all of the other names used: _____
11. Does the organization intend to solicit contributions from the general public? Yes No
12. Is the organization authorized by any other state or jurisdiction to solicit contributions? Yes No
 If "Yes," please provide a list of those states or jurisdictions, below or on a separate sheet of paper.

13. Does the organization have affiliates which share the contributions or other revenue it raised in New Jersey? Yes No
 If "Yes," provide a separate listing of those affiliates indicating the name, street address and telephone number for each one.
14. What is the charitable purpose or purposes for which the organization was formed? If necessary, attach a separate statement to this registration.

- 14a. What are the specific programs and charitable purposes for which contributions are used? For each program, state whether it already exists or is planned. Only major program categories need be listed. If necessary, attach a separate statement to this registration.

15. Does the organization use an independent paid fund-raiser or fund-raising counsel? Yes No
 If "Yes," please attach to this registration a list of paid fund-raiser(s) or fund-raising counsel(s), including their full address, telephone number, fax number, registration number in New Jersey, and a contact person's name.
- 15a. Does the independent paid fund-raiser or fund-raising counsel have custody, control or access to the organization's funds? Yes No
 If "Yes," please describe the situation.

16. Has the organization permitted a charitable sales promotion to be conducted on its behalf by a commercial co-venturer during the fiscal year-end being reported? Yes No
 If "Yes," please explain: _____

17. Has the Internal Revenue Service (I.R.S.) determined that the organization is tax exempt under code 501(c)(3)? Yes No
- a. If "No," has an application been filed which is still pending? If so, please attach a copy of the I.R.S. 1023 form filed. Yes No
- b. Has a tax exemption been granted under another I.R.S. code? Yes No
 If "Yes," advise which one: _____
- c. Has an I.R.S. tax exemption been refused, changed or revoked? Yes No
 If an exemption has been refused, changed or revoked, attach to this registration a copy of the I.R.S. determination letter of notification and provide a detailed explanation of the circumstances on a separate sheet of paper.

18. Has the organization ever had its authority to conduct charitable activities denied, suspended, or revoked in any jurisdiction or has the organization ever entered into any voluntary agreement of discontinuance with any governmental entity? Yes No
 If "Yes," attach to this registration a copy of the denial, suspension, revocation or voluntary agreement of discontinuance. If the document does not explain the reasons for the denial, suspension or revocation, attach to this registration an explanation on a separate sheet of paper.
19. Has the organization voluntarily entered into an assurance of voluntary compliance or similar order or agreement (including, but not limited to, a settlement of an administrative investigation or proceeding, with or without an admission of liability) with any jurisdiction, state or federal agency or officer? Yes No
 If "Yes," please attach to this registration the relevant document.
20. Has the organization or any of its present officers, directors, executive personnel or trustees ever been found to have engaged in unlawful practices in the solicitation of contributions or administration of charitable assets or been enjoined from soliciting contributions, or are such proceedings pending in this or any other jurisdiction? Yes No
 If "Yes," attach to this registration photocopies of any and all written documentation (such as a court order, administrative order, judgment, formal notice, written assurance or other document) which show the final disposition of the matter.
21. Has the organization or any of its present officers, directors, trustees or principal salaried executive staff employees ever been convicted of any criminal offense committed in connection with the performance of activities regulated under this act or any criminal or civil offense involving untruthfulness or dishonesty or any criminal offense relating adversely to the registrant's fitness to perform activities regulated by this Act? A plea of guilty, non vult, nolo contendere or any similar disposition of alleged criminal activity shall be deemed a conviction. Yes No
22. Has the organization or any of its officers, directors, trustees or principal salaried executive staff employees been adjudged liable in any administrative or civil action involving theft, fraud, or deceptive business practices? For purposes of this question a judgment of liability in an administrative or civil action shall include, but is not limited to, any finding or admission that the individual engaged in an unlawful practice in relation to the solicitation of contributions or the administration of charitable assets. Yes No
 If "Yes," identify the individual(s) below and attach to this registration a copy of any order, judgment or other documents indicating the final disposition of the matter.

23. Provide the following information for each officer, director, trustee and the five most-highly compensated executive staff employees:

THIS PROGRAM WAS ENACTED BY CONGRESS TO REAUTHORIZE THE ELEMENTARY AND SECONDARY EDUCATION ACT WITH MAJOR FOCUS ON PROVIDING ALL CHILDREN WITH FAIR, EQUAL AND SIGNIFICANT OPPORTUNITY TO HAVE A HIGH QUALITY EDUCATION THOUGH ENRICHMENT ACTIVITIES.

4c (Code:) (Expenses \$ including grants of \$) (Revenue \$)

4d Other program services (Describe in Schedule O.)
(Expenses \$ including grants of \$) (Revenue \$)

4e Total program service expenses 3,573,273.

Part IV Checklist of Required Schedules

	Yes	No
1 Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? <i>If "Yes," complete Schedule A</i>	X	
2 Is the organization required to complete <i>Schedule B, Schedule of Contributors</i> ?	X	
3 Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? <i>If "Yes," complete Schedule C, Part I</i>		X
4 Section 501(c)(3) organizations. Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? <i>If "Yes," complete Schedule C, Part II</i>		X
5 Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? <i>If "Yes," complete Schedule C, Part III</i>		X
6 Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? <i>If "Yes," complete Schedule D, Part I</i>		X
7 Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? <i>If "Yes," complete Schedule D, Part II</i>		X
8 Did the organization maintain collections of works of art, historical treasures, or other similar assets? <i>If "Yes," complete Schedule D, Part III</i>		X
9 Did the organization report an amount in Part X, line 21, for escrow or custodial account liability, serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? <i>If "Yes," complete Schedule D, Part IV</i>		X
10 Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? <i>If "Yes," complete Schedule D, Part V</i>		X
11 If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.		
a Did the organization report an amount for land, buildings, and equipment in Part X, line 10? <i>If "Yes," complete Schedule D, Part VI</i>		X
b Did the organization report an amount for investments - other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VII</i>		X
c Did the organization report an amount for investments - program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VIII</i>		X
d Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part IX</i>		X
e Did the organization report an amount for other liabilities in Part X, line 25? <i>If "Yes," complete Schedule D, Part X</i>	X	
f Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? <i>If "Yes," complete Schedule D, Part X</i>		
12a Did the organization obtain separate, independent audited financial statements for the tax year? <i>If "Yes," complete Schedule D, Parts XI and XII</i>		X
b Was the organization included in consolidated, independent audited financial statements for the tax year? <i>If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional</i>		X
13 Is the organization a school described in section 170(b)(1)(A)(ii)? <i>If "Yes," complete Schedule E</i>	X	
14a Did the organization maintain an office, employees, or agents outside of the United States?		X
b Did the organization have aggregate revenues or expenses of more than \$10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at \$100,000 or more? <i>If "Yes," complete Schedule F, Parts I and IV</i>		X
15 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of grants or other assistance to or for any foreign organization? <i>If "Yes," complete Schedule F, Parts II and IV</i>		X
16 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of aggregate grants or other assistance to or for foreign individuals? <i>If "Yes," complete Schedule F, Parts III and IV</i>		X
17 Did the organization report a total of more than \$15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? <i>If "Yes," complete Schedule G, Part I</i>		X
18 Did the organization report more than \$15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? <i>If "Yes," complete Schedule G, Part II</i>		X
19 Did the organization report more than \$15,000 of gross income from gaming activities on Part VIII, line 9a? <i>If "Yes," complete Schedule G, Part III</i>		X
20a Did the organization operate one or more hospital facilities? <i>If "Yes," complete Schedule H</i>		X
b If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?		
21 Did the organization report more than \$5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? <i>If "Yes," complete Schedule I, Parts I and II</i>		X

Part IV Checklist of Required Schedules (continued)

	Yes	No
22 Did the organization report more than \$5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? <i>If "Yes," complete Schedule I, Parts I and III</i>	22	X
23 Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? <i>If "Yes," complete Schedule J</i>	23	X
24a Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than \$100,000 as of the last day of the year, that was issued after December 31, 2002? <i>If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25a</i>	24a	X
b Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?	24b	
c Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?	24c	
d Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?	24d	
25a Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations. Did the organization engage in an excess benefit transaction with a disqualified person during the year? <i>If "Yes," complete Schedule L, Part I</i>	25a	X
b Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? <i>If "Yes," complete Schedule L, Part I</i>	25b	X
26 Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? <i>If "Yes," complete Schedule L, Part II</i>	26	X
27 Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? <i>If "Yes," complete Schedule L, Part III</i>	27	X
28 Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):		
a A current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>	28a	X
b A family member of a current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>	28b	X
c An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? <i>If "Yes," complete Schedule L, Part IV</i>	28c	X
29 Did the organization receive more than \$25,000 in non-cash contributions? <i>If "Yes," complete Schedule M</i>	29	X
30 Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? <i>If "Yes," complete Schedule M</i>	30	X
31 Did the organization liquidate, terminate, or dissolve and cease operations? <i>If "Yes," complete Schedule N, Part I</i>	31	X
32 Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? <i>If "Yes," complete Schedule N, Part II</i>	32	X
33 Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? <i>If "Yes," complete Schedule R, Part I</i>	33	X
34 Was the organization related to any tax-exempt or taxable entity? <i>If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1</i>	34	X
35a Did the organization have a controlled entity within the meaning of section 512(b)(13)?	35a	X
b If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? <i>If "Yes," complete Schedule R, Part V, line 2</i>	35b	
36 Section 501(c)(3) organizations. Did the organization make any transfers to an exempt non-charitable related organization? <i>If "Yes," complete Schedule R, Part V, line 2</i>	36	X
37 Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? <i>If "Yes," complete Schedule R, Part VI</i>	37	X
38 Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? Note. All Form 990 filers are required to complete Schedule O	38	X

Part V Statements Regarding Other IRS Filings and Tax Compliance

Check if Schedule O contains a response or note to any line in this Part V

	Yes	No
1a Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable	1a	21
b Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable	1b	0
c Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?	1c	X

Part V Statements Regarding Other IRS Filings and Tax Compliance (continued)

Table with columns for question number, question text, and Yes/No response boxes. Includes questions 2a through 16 regarding employee counts, tax returns, unrelated business income, foreign accounts, prohibited transactions, and charitable contributions.

Part VI Governance, Management, and Disclosure For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.

Check if Schedule O contains a response or note to any line in this Part VI

Section A. Governing Body and Management

		Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O.		
1b	Enter the number of voting members included in line 1a, above, who are independent		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?		X
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person?		X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?		X
5	Did the organization become aware during the year of a significant diversion of the organization's assets?		X
6	Did the organization have members or stockholders?		X
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?		X
7b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?		X
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:		
8a	The governing body?	X	
8b	Each committee with authority to act on behalf of the governing body?	X	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? If "Yes," provide the names and addresses in Schedule O		X

Section B. Policies (This Section B requests information about policies not required by the Internal Revenue Code.)

		Yes	No
10a	Did the organization have local chapters, branches, or affiliates?		X
10b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	X	
11b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.		
12a	Did the organization have a written conflict of interest policy? If "No," go to line 13	X	
12b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	X	
12c	Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe in Schedule O how this was done	X	
13	Did the organization have a written whistleblower policy?	X	
14	Did the organization have a written document retention and destruction policy?	X	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?		
15a	The organization's CEO, Executive Director, or top management official	X	
15b	Other officers or key employees of the organization If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).		
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?		X
16b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?		

Section C. Disclosure

- 17** List the states with which a copy of this Form 990 is required to be filed **NJ**
- 18** Section 6104 requires an organization to make its Forms 1023 (1024 or 1024-A if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.
 Own website Another's website Upon request Other (explain in Schedule O)
- 19** Describe in Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.
- 20** State the name, address, and telephone number of the person who possesses the organization's books and records **CARRIEANN ZIELINSKI - 973-556-7070**

	28 Temporarily restricted net assets		28	
	29 Permanently restricted net assets		29	
	Organizations that do not follow SFAS 117 (ASC 958), check here <input type="checkbox"/> and complete lines 30 through 34.			
	30 Capital stock or trust principal, or current funds		30	
	31 Paid-in or capital surplus, or land, building, or equipment fund		31	
	32 Retained earnings, endowment, accumulated income, or other funds		32	
33 Total net assets or fund balances	38,537.	33	-56,600.	
34 Total liabilities and net assets/fund balances	54,253.	34	286,167.	

Part XI Reconciliation of Net Assets

Check if Schedule O contains a response or note to any line in this Part XI

1	Total revenue (must equal Part VIII, column (A), line 12)	1	3,972,228.
2	Total expenses (must equal Part IX, column (A), line 25)	2	4,067,365.
3	Revenue less expenses. Subtract line 2 from line 1	3	-95,137.
4	Net assets or fund balances at beginning of year (must equal Part X, line 33, column (A))	4	38,537.
5	Net unrealized gains (losses) on investments	5	
6	Donated services and use of facilities	6	
7	Investment expenses	7	
8	Prior period adjustments	8	
9	Other changes in net assets or fund balances (explain in Schedule O)	9	0.
10	Net assets or fund balances at end of year. Combine lines 3 through 9 (must equal Part X, line 33, column (B))	10	-56,600.

Part XII Financial Statements and Reporting

Check if Schedule O contains a response or note to any line in this Part XII

- 1 Accounting method used to prepare the Form 990: Cash Accrual Other _____
If the organization changed its method of accounting from a prior year or checked "Other," explain in Schedule O.
- 2a Were the organization's financial statements compiled or reviewed by an independent accountant?
If "Yes," check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both:
 Separate basis Consolidated basis Both consolidated and separate basis
- b Were the organization's financial statements audited by an independent accountant?
If "Yes," check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both:
 Separate basis Consolidated basis Both consolidated and separate basis
- c If "Yes" to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant?
If the organization changed either its oversight process or selection process during the tax year, explain in Schedule O.
- 3a As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Single Audit Act and OMB Circular A-133?
- b If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why in Schedule O and describe any steps taken to undergo such audits

	Yes	No

Part II Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)

(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2014	(b) 2015	(c) 2016	(d) 2017	(e) 2018	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
3 The value of services or facilities furnished by a governmental unit to the organization without charge						
4 Total. Add lines 1 through 3						
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 Public support. Subtract line 5 from line 4.						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2014	(b) 2015	(c) 2016	(d) 2017	(e) 2018	(f) Total
7 Amounts from line 4						
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
9 Net income from unrelated business activities, whether or not the business is regularly carried on						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
11 Total support. Add lines 7 through 10						
12 Gross receipts from related activities, etc. (see instructions)					12	
13 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and stop here						<input type="checkbox"/>

Section C. Computation of Public Support Percentage

14 Public support percentage for 2018 (line 6, column (f) divided by line 11, column (f))	14	%
15 Public support percentage from 2017 Schedule A, Part II, line 14	15	%
16a 33 1/3% support test - 2018. If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 33 1/3% support test - 2017. If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
17a 10% -facts-and-circumstances test - 2018. If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 10% -facts-and-circumstances test - 2017. If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
18 Private foundation. If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions		<input type="checkbox"/>

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 10 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2014	(b) 2015	(c) 2016	(d) 2017	(e) 2018	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 Total. Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of \$5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 Public support. (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2014	(b) 2015	(c) 2016	(d) 2017	(e) 2018	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
13 Total support. (Add lines 9, 10c, 11, and 12.)						

14 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here**

Section C. Computation of Public Support Percentage

15 Public support percentage for 2018 (line 8, column (f), divided by line 13, column (f))	15	%
16 Public support percentage from 2017 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17 Investment income percentage for 2018 (line 10c, column (f), divided by line 13, column (f))	17	%
18 Investment income percentage from 2017 Schedule A, Part III, line 17	18	%

19a 33 1/3% support tests - 2018. If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

b 33 1/3% support tests - 2017. If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

20 Private foundation. If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions

Part IV Supporting Organizations

(Complete only if you checked a box in line 12 on Part I. If you checked 12a of Part I, complete Sections A and B. If you checked 12b of Part I, complete Sections A and C. If you checked 12c of Part I, complete Sections A, D, and E. If you checked 12d of Part I, complete Sections A and D, and complete Part V.)

Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer (b) and (c) below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked 12a or 12b in Part I, answer (b) and (c) below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? <i>If "Yes," answer 10b below.</i>		
b Did the organization have any excess business holdings in the tax year? <i>(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)</i>		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?		
b A family member of a person described in (a) above?		
c A 35% controlled entity of a person described in (a) or (b) above? <i>If "Yes" to a, b, or c, provide detail in Part VI.</i>		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3 By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).		
a <input type="checkbox"/> The organization satisfied the Activities Test. Complete line 2 below.		
b <input type="checkbox"/> The organization is the parent of each of its supported organizations. Complete line 3 below.		
c <input type="checkbox"/> The organization supported a governmental entity. Describe in Part VI how you supported a government entity (see instructions).		
2 Activities Test. Answer (a) and (b) below.		
a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? <i>If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.</i>		
b Did the activities described in (a) constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? <i>If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.</i>		
3 Parent of Supported Organizations. Answer (a) and (b) below.		
a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? <i>Provide details in Part VI.</i>		
b Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? <i>If "Yes," describe in Part VI the role played by the organization in this regard.</i>		

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations

- 1 Check here if the organization satisfied the Integral Part Test as a qualifying trust on Nov. 20, 1970 (explain in Part VI.) **See instructions.** All other Type III non-functionally integrated supporting organizations must complete Sections A through E.

Section A - Adjusted Net Income		(A) Prior Year	(B) Current Year (optional)
1	Net short-term capital gain	1	
2	Recoveries of prior-year distributions	2	
3	Other gross income (see instructions)	3	
4	Add lines 1 through 3	4	
5	Depreciation and depletion	5	
6	Portion of operating expenses paid or incurred for production or collection of gross income or for management, conservation, or maintenance of property held for production of income (see instructions)	6	
7	Other expenses (see instructions)	7	
8	Adjusted Net Income (subtract lines 5, 6, and 7 from line 4)	8	

Section B - Minimum Asset Amount		(A) Prior Year	(B) Current Year (optional)
1	Aggregate fair market value of all non-exempt-use assets (see instructions for short tax year or assets held for part of year):		
a	Average monthly value of securities	1a	
b	Average monthly cash balances	1b	
c	Fair market value of other non-exempt-use assets	1c	
d	Total (add lines 1a, 1b, and 1c)	1d	
e	Discount claimed for blockage or other factors (explain in detail in Part VI):		
2	Acquisition indebtedness applicable to non-exempt-use assets	2	
3	Subtract line 2 from line 1d	3	
4	Cash deemed held for exempt use. Enter 1-1/2% of line 3 (for greater amount, see instructions)	4	
5	Net value of non-exempt-use assets (subtract line 4 from line 3)	5	
6	Multiply line 5 by .035	6	
7	Recoveries of prior-year distributions	7	
8	Minimum Asset Amount (add line 7 to line 6)	8	

Section C - Distributable Amount			Current Year
1	Adjusted net income for prior year (from Section A, line 8, Column A)	1	
2	Enter 85% of line 1	2	
3	Minimum asset amount for prior year (from Section B, line 8, Column A)	3	
4	Enter greater of line 2 or line 3	4	
5	Income tax imposed in prior year	5	
6	Distributable Amount. Subtract line 5 from line 4, unless subject to emergency temporary reduction (see instructions)	6	
7	<input type="checkbox"/> Check here if the current year is the organization's first as a non-functionally integrated Type III supporting organization (see instructions).		

Schedule A (Form 990 or 990-EZ) 2018

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations (continued)

Section D - Distributions	Current Year
1 Amounts paid to supported organizations to accomplish exempt purposes	
2 Amounts paid to perform activity that directly furthers exempt purposes of supported organizations, in excess of income from activity	
3 Administrative expenses paid to accomplish exempt purposes of supported organizations	
4 Amounts paid to acquire exempt-use assets	
5 Qualified set-aside amounts (prior IRS approval required)	
6 Other distributions (describe in Part VI). See instructions.	
7 Total annual distributions. Add lines 1 through 6.	
8 Distributions to attentive supported organizations to which the organization is responsive (provide details in Part VI). See instructions.	
9 Distributable amount for 2018 from Section C, line 6	
10 Line 8 amount divided by line 9 amount	

Section E - Distribution Allocations (see instructions)	(i) Excess Distributions	(ii) Underdistributions Pre-2018	(iii) Distributable Amount for 2018
1 Distributable amount for 2018 from Section C, line 6			
2 Underdistributions, if any, for years prior to 2018 (reasonable cause required- explain in Part VI). See instructions.			
3 Excess distributions carryover, if any, to 2018			
a From 2013			
b From 2014			
c From 2015			
d From 2016			
e From 2017			
f Total of lines 3a through e			
g Applied to underdistributions of prior years			
h Applied to 2018 distributable amount			
i Carryover from 2013 not applied (see instructions)			
j Remainder. Subtract lines 3g, 3h, and 3i from 3f.			
4 Distributions for 2018 from Section D, line 7: \$			
a Applied to underdistributions of prior years			
b Applied to 2018 distributable amount			
c Remainder. Subtract lines 4a and 4b from 4.			
5 Remaining underdistributions for years prior to 2018, if any. Subtract lines 3g and 4a from line 2. For result greater than zero, explain in Part VI . See instructions.			
6 Remaining underdistributions for 2018. Subtract lines 3h and 4b from line 1. For result greater than zero, explain in Part VI . See instructions.			
7 Excess distributions carryover to 2019. Add lines 3j and 4c.			
8 Breakdown of line 7:			
a Excess from 2014			
b Excess from 2015			
c Excess from 2016			
d Excess from 2017			
e Excess from 2018

Name of the organization

ACHIEVE COMMUNITY CHARTER SCHOOL

Employer identification number

[REDACTED]

Organization type (check one):

Filers of:

Section:

Form 990 or 990-EZ

501(c)(3) (enter number) organization

4947(a)(1) nonexempt charitable trust **not** treated as a private foundation

527 political organization

Form 990-PF

501(c)(3) exempt private foundation

4947(a)(1) nonexempt charitable trust treated as a private foundation

501(c)(3) taxable private foundation

Check if your organization is covered by the **General Rule** or a **Special Rule**.

Note: Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions.

General Rule

For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling \$5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions.

Special Rules

For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990 or 990-EZ), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of **(1)** \$5,000; or **(2)** 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than \$1,000 *exclusively* for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I (entering "N/A" in column (b) instead of the contributor name and address), II, and III.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions *exclusively* for religious, charitable, etc., purposes, but no such contributions totaled more than \$1,000. If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Don't complete any of the parts unless the **General Rule** applies to this organization because it received *nonexclusively* religious, charitable, etc., contributions totaling \$5,000 or more during the year ▶ \$ _____

Caution: An organization that isn't covered by the General Rule and/or the Special Rules doesn't file Schedule B (Form 990, 990-EZ, or 990-PF), but it **must** answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it doesn't meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

Supplemental Financial Statements

Complete if the organization answered "Yes" on Form 990, Part IV, line 6, 7, 8, 9, 10, 11a, 11b, 11c, 11d, 11e, 11f, 12a, or 12b. Attach to Form 990.

Go to www.irs.gov/Form990 for instructions and the latest information.

OMB No. 1545-0047

2018

Open to Public Inspection

Name of the organization: ACHIEVE COMMUNITY CHARTER SCHOOL; Employer identification number: [REDACTED]

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts. Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

Table with 2 columns: (a) Donor advised funds, (b) Funds and other accounts. Rows include: 1 Total number at end of year, 2 Aggregate value of contributions to (during year), 3 Aggregate value of grants from (during year), 4 Aggregate value at end of year, 5 Did the organization inform all donors...?, 6 Did the organization inform all grantees...?

Part II Conservation Easements. Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

Form with multiple sections: 1 Purpose(s) of conservation easements, 2 Complete lines 2a through 2d if the organization held a qualified conservation contribution..., 3 Number of conservation easements modified..., 4 Number of states where property subject to conservation easement is located..., 5 Does the organization have a written policy..., 6 Staff and volunteer hours..., 7 Amount of expenses..., 8 Does each conservation easement..., 9 In Part XIII, describe how the organization reports...

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets. Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

Form with sections: 1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report..., 1b If the organization elected, as permitted under SFAS 116 (ASC 958), to report..., 2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain...

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets (continued)

- 3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):
- a Public exhibition
 - b Scholarly research
 - c Preservation for future generations
 - d Loan or exchange programs
 - e Other _____
- 4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.
- 5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? Yes No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

- 1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? Yes No
- b If "Yes," explain the arrangement in Part XIII and complete the following table:
- | | Amount |
|---------------------------------|--------|
| c Beginning balance | 1c |
| d Additions during the year | 1d |
| e Distributions during the year | 1e |
| f Ending balance | 1f |
- 2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? Yes No
- b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided on Part XIII

Part V Endowment Funds. Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance					
b Contributions					
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance					

- 2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:
- a Board designated or quasi-endowment _____ %
 - b Permanent endowment _____ %
 - c Temporarily restricted endowment _____ %
- The percentages on lines 2a, 2b, and 2c should equal 100%.
- 3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:
- | | Yes | No |
|--|--------|----|
| (i) unrelated organizations | 3a(i) | |
| (ii) related organizations | 3a(ii) | |
| b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R? | 3b | |
- 4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value

4c (Code:) (Expenses \$ including grants of \$) (Revenue \$)

4d Other program services (Describe in Schedule O.) (Expenses \$ including grants of \$) (Revenue \$)

4e Total program service expenses 885,793.

Part IV Checklist of Required Schedules

	Yes	No
1 Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? <i>If "Yes," complete Schedule A</i>	X	
2 Is the organization required to complete <i>Schedule B, Schedule of Contributors</i> ?	X	
3 Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? <i>If "Yes," complete Schedule C, Part I</i>		X
4 Section 501(c)(3) organizations. Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? <i>If "Yes," complete Schedule C, Part II</i>		X
5 Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? <i>If "Yes," complete Schedule C, Part III</i>		X
6 Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? <i>If "Yes," complete Schedule D, Part I</i>		X
7 Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? <i>If "Yes," complete Schedule D, Part II</i>		X
8 Did the organization maintain collections of works of art, historical treasures, or other similar assets? <i>If "Yes," complete Schedule D, Part III</i>		X
9 Did the organization report an amount in Part X, line 21, for escrow or custodial account liability, serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? <i>If "Yes," complete Schedule D, Part IV</i>		X
10 Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? <i>If "Yes," complete Schedule D, Part V</i>		X
11 If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.		
a Did the organization report an amount for land, buildings, and equipment in Part X, line 10? <i>If "Yes," complete Schedule D, Part VI</i>		X
b Did the organization report an amount for investments - other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VII</i>		X
c Did the organization report an amount for investments - program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part VIII</i>		X
d Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? <i>If "Yes," complete Schedule D, Part IX</i>		X
e Did the organization report an amount for other liabilities in Part X, line 25? <i>If "Yes," complete Schedule D, Part X</i>		X
f Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? <i>If "Yes," complete Schedule D, Part X</i>	X	
12a Did the organization obtain separate, independent audited financial statements for the tax year? <i>If "Yes," complete Schedule D, Parts XI and XII</i>	X	
b Was the organization included in consolidated, independent audited financial statements for the tax year? <i>If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional</i>		X
13 Is the organization a school described in section 170(b)(1)(A)(ii)? <i>If "Yes," complete Schedule E</i>	X	
14a Did the organization maintain an office, employees, or agents outside of the United States?		X
b Did the organization have aggregate revenues or expenses of more than \$10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at \$100,000 or more? <i>If "Yes," complete Schedule F, Parts I and IV</i>		X
15 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of grants or other assistance to or for any foreign organization? <i>If "Yes," complete Schedule F, Parts II and IV</i>		X
16 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of aggregate grants or other assistance to or for foreign individuals? <i>If "Yes," complete Schedule F, Parts III and IV</i>		X
17 Did the organization report a total of more than \$15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? <i>If "Yes," complete Schedule G, Part I</i>		X
18 Did the organization report more than \$15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? <i>If "Yes," complete Schedule G, Part II</i>		X
19 Did the organization report more than \$15,000 of gross income from gaming activities on Part VIII, line 9a? <i>If "Yes," complete Schedule G, Part III</i>		X

Part IV Checklist of Required Schedules (continued)

	Yes	No
20a Did the organization operate one or more hospital facilities? <i>If "Yes," complete Schedule H</i>		X
b If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?		
21 Did the organization report more than \$5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? <i>If "Yes," complete Schedule I, Parts I and II</i>		X
22 Did the organization report more than \$5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? <i>If "Yes," complete Schedule I, Parts I and III</i>		X
23 Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? <i>If "Yes," complete Schedule J</i>		X
24a Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than \$100,000 as of the last day of the year, that was issued after December 31, 2002? <i>If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25a</i>		X
b Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?		
c Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?		
d Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?		
25a Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations. Did the organization engage in an excess benefit transaction with a disqualified person during the year? <i>If "Yes," complete Schedule L, Part I</i>		X
b Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? <i>If "Yes," complete Schedule L, Part I</i>		X
26 Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? <i>If "Yes," complete Schedule L, Part II</i>		X
27 Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? <i>If "Yes," complete Schedule L, Part III</i>		X
28 Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):		
a A current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>		X
b A family member of a current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>		X
c An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? <i>If "Yes," complete Schedule L, Part IV</i>		X
29 Did the organization receive more than \$25,000 in non-cash contributions? <i>If "Yes," complete Schedule M</i>		X
30 Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? <i>If "Yes," complete Schedule M</i>		X
31 Did the organization liquidate, terminate, or dissolve and cease operations? <i>If "Yes," complete Schedule N, Part I</i>		X
32 Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? <i>If "Yes," complete Schedule N, Part II</i>		X
33 Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? <i>If "Yes," complete Schedule R, Part I</i>		X
34 Was the organization related to any tax-exempt or taxable entity? <i>If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1</i>		X
35a Did the organization have a controlled entity within the meaning of section 512(b)(13)?		X
b If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? <i>If "Yes," complete Schedule R, Part V, line 2</i>		
36 Section 501(c)(3) organizations. Did the organization make any transfers to an exempt non-charitable related organization? <i>If "Yes," complete Schedule R, Part V, line 2</i>		X
37 Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? <i>If "Yes," complete Schedule R, Part VI</i>		X
38 Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? Note. All Form 990 filers are required to complete Schedule O	X	

Part V Statements Regarding Other IRS Filings and Tax Compliance

Check if Schedule O contains a response or note to any line in this Part V

Table with columns for question numbers (1a-14b), sub-questions, and Yes/No columns. Includes questions about Form 1096, Form W-2G, Form W-3, and various tax compliance requirements.

Part VI Governance, Management, and Disclosure For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.

Check if Schedule O contains a response or note to any line in this Part VI

Section A. Governing Body and Management

		Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O.		
1b	Enter the number of voting members included in line 1a, above, who are independent		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?		X
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person?		X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?		X
5	Did the organization become aware during the year of a significant diversion of the organization's assets?		X
6	Did the organization have members or stockholders?		X
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?		X
7b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?		X
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:		
8a	The governing body?	X	
8b	Each committee with authority to act on behalf of the governing body?	X	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? If "Yes," provide the names and addresses in Schedule O		X

Section B. Policies (This Section B requests information about policies not required by the Internal Revenue Code.)

		Yes	No
10a	Did the organization have local chapters, branches, or affiliates?		X
10b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	X	
11b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.		
12a	Did the organization have a written conflict of interest policy? If "No," go to line 13	X	
12b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	X	
12c	Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe in Schedule O how this was done	X	
13	Did the organization have a written whistleblower policy?	X	
14	Did the organization have a written document retention and destruction policy?	X	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?		
15a	The organization's CEO, Executive Director, or top management official	X	
15b	Other officers or key employees of the organization	X	
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).		
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?		X
16b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?		

Section C. Disclosure

- 17** List the states with which a copy of this Form 990 is required to be filed **NJ**
- 18** Section 6104 requires an organization to make its Forms 1023 (or 1024 if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.
 Own website Another's website Upon request Other (explain in Schedule O)
- 19** Describe in Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.
- 20** State the name, address, and telephone number of the person who possesses the organization's books and records: **DOMINIQUE LEE - 973-556-7070**
534 CLINTON AVE, NEWARK, NJ 07108

Part VIII Statement of Revenue

Part II Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)

(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
3 The value of services or facilities furnished by a governmental unit to the organization without charge ...						
4 Total. Add lines 1 through 3						
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 Public support. Subtract line 5 from line 4.						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
7 Amounts from line 4						
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources ...						
9 Net income from unrelated business activities, whether or not the business is regularly carried on ...						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
11 Total support. Add lines 7 through 10						
12 Gross receipts from related activities, etc. (see instructions)					12	
13 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and stop here						<input type="checkbox"/>

Section C. Computation of Public Support Percentage

14 Public support percentage for 2017 (line 6, column (f) divided by line 11, column (f))	14	%
15 Public support percentage from 2016 Schedule A, Part II, line 14	15	%
16a 33 1/3% support test - 2017. If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 33 1/3% support test - 2016. If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and stop here. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
17a 10% -facts-and-circumstances test - 2017. If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
b 10% -facts-and-circumstances test - 2016. If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and stop here. Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization		<input type="checkbox"/>
18 Private foundation. If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions		<input type="checkbox"/>

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 10 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ►	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 Total. Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of \$5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 Public support. (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) ►	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
13 Total support. (Add lines 9, 10c, 11, and 12.)						

14 First five years. If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here**

Section C. Computation of Public Support Percentage

15 Public support percentage for 2017 (line 8, column (f) divided by line 13, column (f))	15	%
16 Public support percentage from 2016 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17 Investment income percentage for 2017 (line 10c, column (f) divided by line 13, column (f))	17	%
18 Investment income percentage from 2016 Schedule A, Part III, line 17	18	%

19a 33 1/3% support tests - 2017. If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

b 33 1/3% support tests - 2016. If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here**. The organization qualifies as a publicly supported organization

20 Private foundation. If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions

Part IV Supporting Organizations

(Complete only if you checked a box in line 12 on Part I. If you checked 12a of Part I, complete Sections A and B. If you checked 12b of Part I, complete Sections A and C. If you checked 12c of Part I, complete Sections A, D, and E. If you checked 12d of Part I, complete Sections A and D, and complete Part V.)

Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer (b) and (c) below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked 12a or 12b in Part I, answer (b) and (c) below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? <i>If "Yes," answer 10b below.</i>		
b Did the organization have any excess business holdings in the tax year? <i>(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)</i>		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?		
b A family member of a person described in (a) above?		
c A 35% controlled entity of a person described in (a) or (b) above? <i>If "Yes" to a, b, or c, provide detail in Part VI.</i>		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3 By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).		
a <input type="checkbox"/> The organization satisfied the Activities Test. Complete line 2 below.		
b <input type="checkbox"/> The organization is the parent of each of its supported organizations. Complete line 3 below.		
c <input type="checkbox"/> The organization supported a governmental entity. Describe in Part VI how you supported a government entity (see instructions).		
2 Activities Test. Answer (a) and (b) below.		
a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? <i>If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.</i>		
b Did the activities described in (a) constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? <i>If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.</i>		
3 Parent of Supported Organizations. Answer (a) and (b) below.		
a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? <i>Provide details in Part VI.</i>		
b Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? <i>If "Yes," describe in Part VI the role played by the organization in this regard.</i>		

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations

- 1** Check here if the organization satisfied the Integral Part Test as a qualifying trust on Nov. 20, 1970 (explain in Part VI.) **See instructions.** All other Type III non-functionally integrated supporting organizations must complete Sections A through E.

Section A - Adjusted Net Income		(A) Prior Year	(B) Current Year (optional)
1 Net short-term capital gain	1		
2 Recoveries of prior-year distributions	2		
3 Other gross income (see instructions)	3		
4 Add lines 1 through 3	4		
5 Depreciation and depletion	5		
6 Portion of operating expenses paid or incurred for production or collection of gross income or for management, conservation, or maintenance of property held for production of income (see instructions)	6		
7 Other expenses (see instructions)	7		
8 Adjusted Net Income (subtract lines 5, 6, and 7 from line 4)	8		

Section B - Minimum Asset Amount		(A) Prior Year	(B) Current Year (optional)
1 Aggregate fair market value of all non-exempt-use assets (see instructions for short tax year or assets held for part of year):			
a Average monthly value of securities	1a		
b Average monthly cash balances	1b		
c Fair market value of other non-exempt-use assets	1c		
d Total (add lines 1a, 1b, and 1c)	1d		
e Discount claimed for blockage or other factors (explain in detail in Part VI):			
2 Acquisition indebtedness applicable to non-exempt-use assets	2		
3 Subtract line 2 from line 1d	3		
4 Cash deemed held for exempt use. Enter 1-1/2% of line 3 (for greater amount, see instructions)	4		
5 Net value of non-exempt-use assets (subtract line 4 from line 3)	5		
6 Multiply line 5 by .035	6		
7 Recoveries of prior-year distributions	7		
8 Minimum Asset Amount (add line 7 to line 6)	8		

Section C - Distributable Amount			Current Year
1 Adjusted net income for prior year (from Section A, line 8, Column A)	1		
2 Enter 85% of line 1	2		
3 Minimum asset amount for prior year (from Section B, line 8, Column A)	3		
4 Enter greater of line 2 or line 3	4		
5 Income tax imposed in prior year	5		
6 Distributable Amount. Subtract line 5 from line 4, unless subject to emergency temporary reduction (see instructions)	6		
7 <input type="checkbox"/> Check here if the current year is the organization's first as a non-functionally integrated Type III supporting organization (see instructions).			

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations (continued)

Section D - Distributions	Current Year
1 Amounts paid to supported organizations to accomplish exempt purposes	
2 Amounts paid to perform activity that directly furthers exempt purposes of supported organizations, in excess of income from activity	
3 Administrative expenses paid to accomplish exempt purposes of supported organizations	
4 Amounts paid to acquire exempt-use assets	
5 Qualified set-aside amounts (prior IRS approval required)	
6 Other distributions (describe in Part VI). See instructions.	
7 Total annual distributions. Add lines 1 through 6.	
8 Distributions to attentive supported organizations to which the organization is responsive (provide details in Part VI). See instructions.	
9 Distributable amount for 2017 from Section C, line 6	
10 Line 8 amount divided by line 9 amount	

Section E - Distribution Allocations (see instructions)	(i) Excess Distributions	(ii) Underdistributions Pre-2017	(iii) Distributable Amount for 2017
1 Distributable amount for 2017 from Section C, line 6			
2 Underdistributions, if any, for years prior to 2017 (reasonable cause required- explain in Part VI). See instructions.			
3 Excess distributions carryover, if any, to 2017			
a			
b From 2013			
c From 2014			
d From 2015			
e From 2016			
f Total of lines 3a through e			
g Applied to underdistributions of prior years			
h Applied to 2017 distributable amount			
i Carryover from 2012 not applied (see instructions)			
j Remainder. Subtract lines 3g, 3h, and 3i from 3f.			
4 Distributions for 2017 from Section D, line 7: \$			
a Applied to underdistributions of prior years			
b Applied to 2017 distributable amount			
c Remainder. Subtract lines 4a and 4b from 4.			
5 Remaining underdistributions for years prior to 2017, if any. Subtract lines 3g and 4a from line 2. For result greater than zero, explain in Part VI . See instructions.			
6 Remaining underdistributions for 2017. Subtract lines 3h and 4b from line 1. For result greater than zero, explain in Part VI . See instructions.			
7 Excess distributions carryover to 2018. Add lines 3j and 4c.			
8 Breakdown of line 7:			
a Excess from 2013			
b Excess from 2014			
c Excess from 2015			
d Excess from 2016			
e Excess from 2017

OMB No. 1545-0047

2017

Name of the organization

ACHIEVE COMMUNITY CHARTER SCHOOL

Employer identification number

[REDACTED]

Organization type (check one):

Filers of:

Section:

Form 990 or 990-EZ

501(c)(3) (enter number) organization

4947(a)(1) nonexempt charitable trust **not** treated as a private foundation

527 political organization

Form 990-PF

501(c)(3) exempt private foundation

4947(a)(1) nonexempt charitable trust treated as a private foundation

501(c)(3) taxable private foundation

Check if your organization is covered by the **General Rule** or a **Special Rule**.

Note: Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions.

General Rule

For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling \$5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions.

Special Rules

For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990 or 990-EZ), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of (1) \$5,000; or (2) 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than \$1,000 *exclusively* for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I, II, and III.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions *exclusively* for religious, charitable, etc., purposes, but no such contributions totaled more than \$1,000. If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Don't complete any of the parts unless the **General Rule** applies to this organization because it received *nonexclusively* religious, charitable, etc., contributions totaling \$5,000 or more during the year ▶ \$ _____

Caution: An organization that isn't covered by the General Rule and/or the Special Rules doesn't file Schedule B (Form 990, 990-EZ, or 990-PF), but it **must** answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it doesn't meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

LHA For Paperwork Reduction Act Notice, see the instructions for Form 990, 990-EZ, or 990-PF. Schedule B (Form 990, 990-EZ, or 990-PF) (2017)

OMB No. 1545-0047

2017 Open to Public Inspection

Name of the organization: ACHIEVE COMMUNITY CHARTER SCHOOL; Employer identification number: [REDACTED]

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts. Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

Table with 3 columns: Question, (a) Donor advised funds, (b) Funds and other accounts. Rows include total number at end of year, aggregate value of contributions, grants, and end of year, and two questions about donor property and grant fund usage.

Part II Conservation Easements. Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

Form for Part II Conservation Easements. Includes questions about purpose of easements, total number and acreage, and monitoring expenses. Includes a table for 'Held at the End of the Tax Year' with rows 2a, 2b, 2c, and 2d.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets. Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

Form for Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets. Includes questions about reporting works of art and historical treasures, and a table for reporting revenue and assets.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets (continued)

- 3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):
- a Public exhibition
 - b Scholarly research
 - c Preservation for future generations
 - d Loan or exchange programs
 - e Other _____
- 4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.
- 5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? Yes No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

- 1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? Yes No
- b If "Yes," explain the arrangement in Part XIII and complete the following table:
- | | Amount |
|---------------------------------|--------|
| c Beginning balance | 1c |
| d Additions during the year | 1d |
| e Distributions during the year | 1e |
| f Ending balance | 1f |
- 2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? Yes No
- b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided on Part XIII

Part V Endowment Funds. Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance					
b Contributions					
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance					

- 2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:
- a Board designated or quasi-endowment _____ %
 - b Permanent endowment _____ %
 - c Temporarily restricted endowment _____ %
- The percentages on lines 2a, 2b, and 2c should equal 100%.
- 3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:
- | | Yes | No |
|--|--------|----|
| (i) unrelated organizations | 3a(i) | |
| (ii) related organizations | 3a(ii) | |
| b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R? | 3b | |
- 4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a Land				
b Buildings				
c Leasehold improvements				
d Equipment				
e Other				

Total. Add lines 1a through 1e. (Column (d) must equal Form 990, Part X, column (B), line 10c.) 0.

Part VII Investments - Other Securities.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11b. See Form 990, Part X, line 12.

(a) Description of security or category (including name of security)	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1) Financial derivatives		
(2) Closely-held equity interests		
(3) Other

(8)	
(9)	
Total. (Column (b) must equal Form 990, Part X, col. (B) line 25.) ▶	

2. Liability for uncertain tax positions. In Part XIII, provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under FIN 48 (ASC 740). Check here if the text of the footnote has been provided in Part XIII

Part XI Reconciliation of Revenue per Audited Financial Statements With Revenue per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total revenue, gains, and other support per audited financial statements		1	1,082,300.
2	Amounts included on line 1 but not on Form 990, Part VIII, line 12:			
a	Net unrealized gains (losses) on investments	2a		
b	Donated services and use of facilities	2b		
c	Recoveries of prior year grants	2c		
d	Other (Describe in Part XIII.)	2d		
e	Add lines 2a through 2d		2e	0.
3	Subtract line 2e from line 1		3	1,082,300.
4	Amounts included on Form 990, Part VIII, line 12, but not on line 1:			
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a		
b	Other (Describe in Part XIII.)	4b		
c	Add lines 4a and 4b		4c	0.
5	Total revenue. Add lines 3 and 4c . (This must equal Form 990, Part I, line 12.)		5	1,082,300.

Part XII Reconciliation of Expenses per Audited Financial Statements With Expenses per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total expenses and losses per audited financial statements		1	1,043,763.
2	Amounts included on line 1 but not on Form 990, Part IX, line 25:			
a	Donated services and use of facilities	2a		
b	Prior year adjustments	2b		
c	Other losses	2c		
d	Other (Describe in Part XIII.)	2d		
e	Add lines 2a through 2d		2e	0.
3	Subtract line 2e from line 1		3	1,043,763.
4	Amounts included on Form 990, Part IX, line 25, but not on line 1:			
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a		
b	Other (Describe in Part XIII.)	4b		
c	Add lines 4a and 4b		4c	0.
5	Total expenses. Add lines 3 and 4c . (This must equal Form 990, Part I, line 18.)		5	1,043,763.

Part XIII Supplemental Information.

Provide the descriptions required for Part II, lines 3, 5, and 9; Part III, lines 1a and 4; Part IV, lines 1b and 2b; Part V, line 4; Part X, line 2; Part XI, lines 2d and 4b; and Part XII, lines 2d and 4b. Also complete this part to provide any additional information.

PART X, LINE 2:

THE CHARTER SCHOOL RECOGNIZES THE EFFECT OF INCOME TAX POSITIONS ONLY OF THOSE POSITIONS ARE MORE LIKELY THAN NOT OF BEING SUSTAINED. MANAGEMENT HAS DETERMINED THAT THE CHARTER SCHOOL HAD NO UNCERTAIN TAX POSITIONS THAT WOULD REQUIRE FINANCIAL STATEMENT RECOGNITION. THIS IS THE CHARTER SCHOOL'S FIRST YEAR OF OPERATIONS.

PART XII LINE 2C

THIS IS THE CHARTER SCHOOL'S FIRST YEAR OF OPERATIONS.

R-22-Action Plan

Provide a detailed action plan outlining the steps the founding group will undertake to ensure a successful start-up. In a well-organized chart, the action plan should include:

- All projected key steps in the pre-opening period (from suny approval through the commencement of instruction) including, but not limited to, hiring personnel, setting up organizational, legal and financial structures, securing funding, and selecting or developing critical aspects of the school's academic program including the curriculum;
- The start date and projected completion date of each task; and,
- The person(s) responsible for each task.

TASK	ASSIGNED TO	START	END
Initial Operations (initiated, to the extent possible, immediately after charter approval)			
File for 501(c)(3) status for the school and state tax exemptions status	Regional Director of Operations	4/1/22	4/4/22
Conduct the first official Board meeting after charter approval by following a standard process to establish the Board (including by electing Board officers and naming Board members to relevant committees and by ratifying By-Laws, code of ethics, conflict of interest policy, grievance policy, medications administration plan, health services plan, technology plan, school safety plan, FERPA, FOIL, open meetings law, and any other critical policies as determined by the Board's attorney. Ensure that all policies are distributed to Board members and other relevant stakeholders.	BRICK Buffalo Board Chair	10/15/22	10/15/22
Finalize an annual Board calendar that clarifies when the Board will meet, what Board Committees will review in preparation for those meetings, and what formal action will be taken during each Board meeting throughout the pre-launch period.	Regional Director of Instruction	4/1/22	7/1/22
Finalize offers for three immediate local hires to support Buffalo launch (Buffalo Principal/Principal in Residence, Buffalo Family and Community Engagement Specialist and Buffalo Director of Operations).	Chief Talent Officer	6/1/22	6/30/22
Notify SUNY of the hiring of the school's Principal within 5 days.	Regional Director of Instruction	6/5/22	6/30/22

Obtain legal review of proposed lease agreement.	Regional Director of Operations	4/1/22	4/15/22
Finalize facility lease agreement.	Regional Director of Operations	4/15/22	5/1/22
Submit finalized lease agreement to SUNY.	Regional Director of Operations	5/1/22	5/10/22
Finalize agreement with City Year Buffalo.	Regional Director of Instruction	4/1/22	7/1/22
Finalize agreements with Ecosystem partners (including, for example, Jericho Road).	Regional Director of Operations	4/1/22	7/1/22
Provide training to the Board of Trustees on our approved charter and how the CMO agreement defines specific ways that the Board and CMO work together.	Regional Director of Instruction	10/1/22	11/1/22
Provide deep dive training to individual Board committees regarding the specific parts of the charter that closely connect to their committee, as well relevant aspects of the CMO agreement, and artifacts they can access to evaluate CMO performance.	Regional Director of Instruction	11/1/22	12/1/22
Support the Buffalo Board to secure an independent attorney for the school.	Regional Director of Instruction	4/1/22	5/1/22
Finalize the CMO management agreement using a process where both the CMO and the Buffalo Board both have separate attorneys to ensure an effective and appropriate agreement is in place.	Regional Director of Instruction	4/1/22	5/1/22
Update Website and social media pages with information regarding approval by the Charter Schools Institute.	Regional Director of Instruction	4/1/22	5/1/22
Formally approve the 2023-2024 School Calendar pending any updates necessary to align breaks with BPS	Regional Director of Instruction	10/1/22	11/1/22
Update Website and social media pages with information regarding approval by the Board of Regents.	Regional Director of Instruction	10/1/22	12/1/22
Academic Readiness (overseen by the Academic Committee)			
Finalize leadership development plan for Principal or Principal in Residence during pre-launch period	Regional Director of Instruction	4/1/22	6/1/22
Meet with the Chief Academic Officer to finalize the list of curriculum adjustments that must be made to ensure K/1 materials are updated to tightly align to NY's expectations.	Regional Director of Instruction	6/1/22	6/30/22

Finalize updates to Academic Guidebooks for the 23-24 school year (including, but not limited to, the School Leader Guidebook, the Instructional Guidebook, and content-specific guidebooks).	Chief Academic Officer	3/1/23	4/1/23
Review all updated guidebooks for NY compliance and update as needed to adjust for local context.	Regional Director of Instruction	4/1/23	5/1/23
Collaborate with the Chief Academic Officer and Board Academic committee to produce a draft student handbook based on example handbooks from Achieve and other local SUNY-sponsored schools.	Regional Director of Instruction	4/1/23	6/1/23
Meet with Board Academic Committee to review updated guidebooks and Buffalo-specific content and to collect feedback	Regional Director of Instruction	5/1/22	6/1/22
Plan Buffalo specific summer professional development content	Regional Director of Instruction	4/1/23	7/1/23
Support Buffalo Principal and Buffalo Director of Operations to plan and practice relevant Buffalo-specific professional development sessions and to successfully cascade some standard network PD.	Regional Director of Instruction	7/1/23	8/1/23
Review Buffalo specific adjustments to curriculum and assessment materials to ensure NY alignment and preparedness.	Regional Director of Instruction	4/1/23	7/1/23
Deliver all quarter one curriculum, assessments and related instructional resources to Buffalo teachers and instructional leaders	Regional Director of Instruction	7/1/23	7/31/23
Facilitate summer professional development for leaders	Chief Academic Officer	7/31/23	8/2/23
Facilitate summer professional development for all staff	Chief Academic Officer	8/7/23	8/18/23
Meet with representatives of Buffalo's Committee on Special Education to learn the district's practices with respect to special education and to learn how charter schools can best partner with them.	Regional Director of Instruction	4/1/22	5/1/22
Conduct monthly meetings with Buffalo's CSE, for example, one of the representatives that works most closely with charter schools, to build a strong relationship, to deeply understand their process, and to learn how to effectively partner with them.	Regional Director of Instruction	5/1/22	Ongoing

Collect feedback from Buffalo's CSE regarding the draft job description for a Director of Special Education to use in finalizing the job description.	Regional Director of Instruction	6/1/22	7/1/22
Begin monthly meetings with the BRICK Network Director of Special Education and the special education leader at a partner SUNY school to update our Special Education Guidebook so that it reflects special education policy in New York.	Regional Director of Instruction	7/1/22	Ongoing
In partnership with the BRICK Network Director of Special Education and the special education leader at our SUNY partner school, create an internal compliance audit structure and a service delivery log to ensure the campus will have strong foundational compliance systems.	Regional Director of Instruction	7/1/22	10/1/22
Introduce the newly hired BRICK Buffalo Director of Special Education to the Buffalo CSE, the BRICK Network Director of Special Education and the special education leader at our SUNY partner school and begin to have this staff member join standing special education meeting structures.	Regional Director of Instruction	7/1/23	8/1/23
Finalize Special Education policies and procedures, including the Buffalo version of the special education guidebook and the internal compliance audit structure.	Regional Director of Instruction	4/1/23	7/1/23
Finalize class rosters and disseminate to teachers, students and families	Principal	5/1/23	8/1/23
Finalize support plans for any teachers or staff in need of additional support to ensure a strong launch with students	Principal	8/7/23	8/18/23
Facility Readiness (overseen by the Audit and Finance Committee)			
Work with the facilities team to finalize a five year facility plan (including, for example, plans for the proposed leased space and any future construction projects).	Regional Director of Operations	4/1/22	5/1/22
Contract with developer to provide space renovations and improvements to space to ensure state compliance	Regional Director of Operations	5/1/22	6/1/22
Renovate facility to prepare for year one of operation	Regional Director of Operations	11/1/22	6/1/23
Prior to having pre-launch staff work from the leased space, verify that a valid certificate of occupancy is in place.	Regional Director of Operations	4/1/22	5/1/22

Based on city ordinance and regulations, submit documentation needed to secure or maintain a certificate of occupancy for the building before additional staff or students begin to use the building (for example, by having additional fire safety inspection or verifying that the building is ADA compliant).	Regional Director of Operations	5/1/23	7/1/23
Ensure that the Director of Special Education has access to a storage cabinet that locks for ongoing maintenance of records for students with disabilities.	Regional Director of Operations	6/1/23	7/1/23
Ensure that the school meets local safety codes (including for example that it has adequate signage and that classrooms and offices are numbered for emergency purposes).	Regional Director of Operations	5/1/23	7/1/23
Write a district-wide school safety plan and a building level emergency response plan that describe how individuals respond during potential emergencies and drills (including, for example, an active shooter situation or a fire drill).	Regional Director of Operations	5/1/23	7/1/23
Provide training to all staff on the district-wide school safety plan and building level emergency response plan.	Regional Director of Operations	8/1/23	9/1/23
Work with the Custodian or Assistant Facility Manager to establish expectations for daily and weekly cleaning.	Regional Director of Operations	6/1/23	7/1/23
Secure cleaning supplies and materials to support the ongoing maintenance of a clean facility.	Regional Director of Operations	5/1/23	7/1/23
Ensure that the school's office has both a copy machine and fax machine installed as well as relevant service contracts and lease agreements in place	Regional Director of Operations	5/1/23	7/1/23
Finalize leadership development plans for Director of Operations and Family and Community Engagement staff members during pre-launch period	Regional Director of Operations	4/1/22	6/1/22
Obtain the required defibrillators for the building. Arrange for AED/CPR training of staff	Regional Director of Operations	4/1/23	6/1/23
Ecosystem partnerships (Overseen by the Executive Committee)			
Hold partnership kickoff meeting with all year 1 ecosystem partners to align around a shared mission for supporting the East Buffalo	Regional Director of Operations	4/16/22	5/1/22

community as well as five year metrics that could demonstrate evidence of achieving that mission.			
Hold a follow up ecosystem partner meeting to align around shared expectations for service delivery and measures of effectiveness for each service provider.	Regional Director of Operations	5/1/22	6/1/22
Research opportunities for securing additional ecosystem philanthropy, including, for example, the feasibility of applying for a federal promise neighborhood grant in the school's location.	Regional Director of Instruction	4/1/22	7/1/22
Formally request transportation services, including specific drop off and pick up times from Buffalo Public Schools via an in-person meeting and certified mail (recognizing that additional paperwork will also need to be completed in 2023 to request transportation based on BPS policies)	Regional Director of Operations	7/1/22	7/1/22
Support students and families by helping to secure transportation services with other districts of residence if necessary, ensuring formal requests for transportation are made before April 1st.	Regional Director of Operations	1/1/23	4/1/23
Conduct monthly meetings with BPS transportation department to build a strong relationship, secure chartered route times, and to address any challenges that emerge.	Regional Director of Operations	4/1/22	Ongoing
Arrange for any necessary supplemental transportation service (such as service for days when BPS will not be in session, field trips, and for any student that has a specific transportation request in their IEP).	Regional Director of Operations	1/1/23	4/1/23
Formally request nursing services, including an on-site, full-time nurse, from Buffalo Public Schools via an in-person meeting and certified mail	Regional Director of Operations	7/1/22	7/1/22
Conduct monthly meetings with BPS nursing/health services department to build a strong relationship, secure nursing services, and to address any challenges that emerge.	Regional Director of Operations	4/1/22	Ongoing
Formally request food service support, including on site food service, from Buffalo Public Schools via an in-person meeting and certified mail	Regional Director of Operations	7/1/22	7/1/22

Conduct monthly meetings with the BPS food service department to build a strong relationship, secure food services, and to address any challenges that emerge.	Regional Director of Operations	4/1/22	Ongoing
Student recruitment and enrollment (overseen by the Audit and Finance Committee)			
Finalize annual student recruitment and enrollment plan	Regional Director of Operations	8/1/22	9/1/22
Launch weekly meetings of the student recruitment and enrollment team to ensure strong year one enrollment	Regional Director of Operations	9/1/22	9/15/22
Begin the process of reporting weekly student recruitment metrics to the Board Audit and Finance committee to ensure strong oversight of year one enrollment	Regional Director of Operations	10/1/22	10/15/22
Publish list of monthly student recruitment events on school Website and circulate with community partners	Regional Director of Operations	9/1/22	10/1/22
Hold information sessions with ecosystem partners and their staff members and families when possible regarding upcoming enrollment opportunities	Regional Director of Operations	9/1/22	10/1/22
Conduct student lottery, generating acceptance list and wait list	Regional Director of Operations	4/1/23	4/30/23
Send out acceptance packages to admitted students	Regional Director of Operations	4/15/23	5/15/23
Finalize plan to conduct home visits for all new students	Regional Director of Operations	4/1/23	4/30/23
Finalize home visit information packet that includes all required enrollment paperwork for families	Regional Director of Operations	4/1/23	4/30/23
Request and secure student records from sending schools, including IEPs where appropriate	Regional Director of Operations	4/1/23	6/1/23
Verify that the Student Information System used by all BRICK schools is sufficient to meet all NY state and SUNY Charter Schools Institute requirements for data submission and reporting. If it does, adopt this SIS. If not, determine whether or not to adopt a different SIS entirely or to produce some individual reports manually.	Regional Director of Operations	4/1/22	6/1/22
Purchase access to a Student Information System.	Regional Director of Operations	10/1/22	11/1/22
Train Buffalo pre-launch leadership (RDI, RDO, Principal and Director of Operations) on how to	BRICK Managing Director of Operations	11/1/22	1/1/23

use the SIS to support them to eventually train other staff.			
Review SUNY and/or NY state expectations for entering information into the school's SIS (including requirements related to entering student and staff information to support ongoing reporting)	Director of Operations	3/1/23	4/1/23
Ensure all student information is correctly entered into the SIS and that a process exists for staff to correctly enter new student information on an ongoing basis.	Director of Operations	4/1/23	5/1/23
Ensure all staff information is correctly entered into the SIS and that a process exists for staff to correctly enter new staff information on an ongoing basis.	Director of Operations	4/1/23	7/1/23
Work with the CMO's attorney to review state requirements for entering student information into the Promise Navigation System to ensure ongoing compliance.	Director of Operations	4/1/22	7/1/22
Train ecosystem partners on how to use the Promise Navigation System	Director of Operations	7/1/22	9/1/22
School Finance (Overseen by Audit and Finance Committee)			
Formally approve year one operating budget	BRICK Buffalo Board	3/1/23	5/1/23
Apply for Consolidated Title I funds	Regional Director of Operations	6/1/23	7/1/23
Select local Buffalo bank and secure necessary accounts, including a checking account.	Regional Director of Operations	10/1/22	12/1/22
Finalize all Buffalo financial procedures, including procedures that clearly delineate the roles of the CMO and Board, and establish appropriate internal controls.	Regional Director of Operations	4/1/22	6/1/22
Secure an independent accountant to review initial statement within 45 days of hiring an employee or disbursing 50K.	BRICK Buffalo Board Chair	10/1/22	1/1/23
Contract with an accounting firm to perform the annual financial audit	Regional Director of Operations	4/1/22	6/1/22
Work with the BRICK HR department to ensure that the payroll process is established and that new employee information is shared with the finance team immediately upon hire.	Regional Director of Operations	7/1/22	8/1/23

Train Buffalo leadership (Board Finance and Audit Committee, RDI, Principal, and Director of Operations) on financial policies and regulations.	Regional Director of Operations	7/1/22	10/1/22
Support the Director of Operations to order all supplies and materials identified by the Academic leadership team as needed for the first year of operation.	Regional Director of Operations	10/1/22	1/1/23
Ensure all classroom supplies and materials are inventoried once received and then placed in teacher classrooms.	Regional Director of Operations	10/1/22	4/1/23
Secure a main office phone system and phone number for the school and ensure service is started for any school phone lines needed.	Regional Director of Operations	10/1/22	4/1/23
Establish Internet access for the school and ensure service is started and available throughout year one offices and classrooms.	Regional Director of Operations	10/1/22	4/1/23
Establish systems to automatically communicate important information to families (in particular, a way to mass e-mail all families and a way to mass call all families).	Regional Director of Operations	1/1/23	3/1/23
Begin submitting unaudited statements of income and expense to the Institute.	Regional Director of Operations	7/1/22	Ongoing
Procure technology resources needed for the first year, including laptops for staff members and Chromebooks for students.	Regional Director of Operations	10/1/22	2/1/23
Create Google accounts for all students and families to ensure ongoing communication structures and the ability to use Google Classroom	Director of Operations	4/1/23	8/1/23
Set up student chromebooks to ensure that each student can easily log into the device they will use in the classroom and will have access to relevant curriculum materials (such as NWEA and I-Ready).	Director of Operations	4/1/23	8/1/23
Conduct weekly school readiness walkthroughs to compare the resources physically available in each classroom with the master list of curriculum, materials and supplies needed for each classroom that is maintained by the Academic Leadership Team. Address any gaps in material readiness.	Principal	4/1/23	8/1/23
Ensure the school has access to necessary resources to deliver online instruction in case of intermittent changes to hybrid or online instruction, including, where appropriate, contracts for short-term use of high-leverage online materials (like Zoom).	Director of Operations	4/1/23	8/1/23

Obtain appropriate levels of insurance for the school and Board, as described in the charter application	Regional Director of Operations	4/1/22	5/1/22
Create an overall inventory management system to record receipt of all deliveries, to keep track of where assets are located, and to ensure records are kept regarding who is responsible for individual assets.	Director of Operations	10/1/22	11/1/22
Complete home visits for all new families.	Principal	1/1/23	8/1/23
Personnel Readiness (Overseen by the Personnel Committee)			
Apply for Federal Employment Identification Number (EIN) and State Unemployment Number	Regional Director of Operations	11/1/22	12/1/22
Finalize BRICK Buffalo Employee Handbook	Regional Director of Instruction	7/1/22	8/1/22
Enroll in employee benefit programs (such as securing health insurance, establishing 403 b plan, etc...)	Regional Director of Operations	7/1/22	8/1/22
Finalize annual talent recruitment and selection plan	Regional Director of Instruction	8/1/22	9/1/22
Publish postings for additional leadership positions (such as Vice Principal of Instruction)	Regional Director of Instruction	9/1/22	10/1/22
Publish all additional postings (including for teaching staff)	Regional Director of Instruction	10/1/22	11/1/22
Finalize staff compensation structure	Regional Director of Instruction	10/1/22	11/1/22
Create standard new-hire offer letter	Regional Director of Instruction	10/1/22	11/1/22
Create new hire checklist and add to the network's shared HRIS system for efficient processing	Regional Director of Instruction	10/1/22	11/1/22
Create employee resignation/termination checklist and add to the network's shared HRIS system for efficient processing	Regional Director of Instruction	11/1/22	12/1/22
Plan and facilitate leader immersion days to select leaders	Regional Director of Instruction	1/1/23	4/1/23
Plan and facilitate additional staff interviews and selection	Regional Director of Instruction	11/1/22	7/1/23
Finalize performance management resources, including job descriptions, performance goals, individual development plan resources, midyear evaluation resources and end of year evaluation	Regional Director of Instruction	6/1/22	7/1/22

resources, for Buffalo CMO staff during pre launch phase (including Principal, DO and FACE)			
Conduct initial development plan meetings with new Buffalo CMO staff	Buffalo RDI and RDO	7/1/22	8/1/22
Finalize performance management resources, including job descriptions, performance goals, individual development plan resources, midyear evaluation resources and end of year evaluation resources, for year 1 school staff during pre launch phase (including Vice Principal of Instruction, teachers, social worker, etc...)	Regional Director of Instruction	9/1/22	10/1/22
Additional general items			
Build a project plan to ensure a high-quality Back to School barbecue that is well-attended and enjoyed by families and assists families in successfully completing all new student paperwork.	Principal	2/1/23	4/1/23
Invite ecosystem partners and other members of the community to the Back to School barbecue.	Regional Director of Operations	4/1/23	Ongoing
Conduct monthly open houses at the school's location (or another public location) to provide interested families with more information about BRICK Buffalo.	Principal	9/1/23	Ongoing
Development (Overseen by the Development Committee)			
Research the fundraising and development landscape in Western New York (including by meeting with representatives from local foundations; local and national Board members; and ecosystem partners).	Regional Director of Instruction	4/1/22	5/1/22
Ensure collaboration between BRICK and the Board's development committee to produce a five year fundraising plan that aligns to the draft five year budget approved by SUNY.	Regional Director of Instruction	5/1/22	7/1/22
Establish expectations for Board giving.	Board Development Committee Chair	7/1/22	8/1/22
General Operations (Overseen by the Executive Committee)			

Hold weekly tactical meetings with Buffalo pre-launch leadership (RDI, RDO, Principal and Director of Operations) to ensure successful completion of the pre-launch activities on this project plan.	Regional Directors of Instruction and Operations	7/1/22	8/1/23
Hold weekly meetings with the senior leadership of the BRICK Education Network (including CEO, CAO and CTO) to ensure that the local school is able to successfully utilize the capacity of all network departments and to problem solve based on any challenges.	Regional Directors of Instruction and Operations	7/1/22	8/1/23
Hold monthly step back meetings with Buffalo pre-launch leadership and BRICK Education Network leadership to formally review progress against this action plan and to discuss any broad changes in strategy needed.	Regional Directors of Instruction and Operations	7/1/22	8/1/23
Draft notice to parents regarding FERPA directory information and distribute to parents	Regional Director of Instruction	8/1/23	9/1/23
Conduct annual Board self-evaluation using tools available from the SUNY Charter Schools Institute and the National Association of Charter School Authorizers as well as the McKinsey Board Self-Evaluation Tool.	BRICK Buffalo Board Chair	7/1/22	Ongoing

R-23a Supplemental Narrative

If there is any additional information that would help the Institute and SUNY Trustees evaluate the proposal, please describe it here and provide a rationale for its inclusion. If no supplementary information is necessary, please indicate that this Request is not applicable.

BRICK Buffalo Academy Charter School would like to emphasize a few key points for the Institute to consider when evaluating this year's RFP submission. Each of these points has already been shared throughout this year's application. However, for ease of reference, a brief summary of the key reasons why the Institute should consider approving the school are found below:

- **National network.** BBACS will be able to leverage the successful experience of a national network (the BRICK Education Network) to support its schools in Buffalo. Currently, Buffalo primarily operates stand-alone charter schools. However, BBACS will be able to benefit from an experienced team of educators with significant experience in education. As a result, the school will be uniquely positioned to receive the support it needs to achieve transformational outcomes for students in Buffalo.
- **Committed leadership.** The BRICK Buffalo regional team, including Antwan Barlow and Jeremy Esposito, are committed to the long-term success of this project. Both individuals reside in the Buffalo area and have signed multiple year agreements to ensure that they can provide the school with the dedicated support it needs to be successful. Their combination of deep ties to the local community and significant experience launching and operating charter schools will ensure that BBACS is uniquely positioned to be successful.
- **Openness to feedback.** BBACS hopes that the Institute has seen the numerous ways that it has leveraged the feedback received from the Institute to strengthen its proposal. The most notable example of this is the shift from applying for two schools simultaneously to applying for one school. BRICK, and BBACS, are committed to a slow-growth trajectory that will ensure the team can focus on building an exemplary school for Buffalo. In addition, the team has worked hard to gather as much feedback as it can over time, including from Institute staff and from other local stakeholders, to ensure that this proposal is informed by the extensive experience of the Institute and the practical realities of running a school in Buffalo. The BBACS team hopes that the Institute will see meaningful ways that BBACS has approached this year's process differently and, as a result, will understand the extent to which BBACS looks forward to the possibility of closely collaborating with them to build the strongest possible school for the children of Buffalo.
- **Funding in place.** BBACS will also be able to leverage the fundraising strength of the BRICK Education Network to ensure that the school is able to provide its full academic program, even in the early years of the charter term, while also remaining cash flow positive each year. Many new charter schools lack the financial resources to implement their full program initially or to address any financial challenges that arise. However, thanks to the development dollars already committed to BRICK's proposed expansion to Buffalo, the school will not have the same financial challenges as other start-up schools in Buffalo and, as a result, the school team will be able to focus solely on ensuring strong outcomes for students.

- **Facility in place.** Since last year, BBACS has also identified a facility for the school that is located in the target area of East Buffalo. In addition, that facility will also cement a partnership with a strong community organization, the King Urban Life Center, that has an aligned philosophy and is ready to support both the school's growth over time and its capacity to deliver high-quality social services to the local community. The King Center has even previously completed due diligence to understand what it would take to expand at its current location; and the center also has several additional parcels of land adjacent to the school that it is willing to use as part of a BBACS expansion. As a result, BBACS does not anticipate needing to deal with the same challenges with finding short and long-term space that cause other schools to struggle. Instead, BBACS would have the opportunity to quickly become a tenant of a well-respected community organization and could work collaboratively with them to become an anchor to revitalize the East Side of Buffalo.
- **Ecosystems in place.** Since last year, BBACS has also solidified additional partnerships that will ensure that the school will be able to provide students and families with robust ecosystem services from the very first day of operation. Based on Dr. Taylor's report highlighting the inequities in Buffalo that impact African Americans on the East Side, there has never been a more critical time to invest in the East Side of Buffalo. BBACS wants to make that investment—and wants to leverage its extensive fundraising experience to help bring more resources to a community that has not yet had the opportunity to participate in Buffalo's recent renaissance.

Lastly, BBACS would like to reassure the Institute that BRICK has significant organizational capacity that could be used to ensure strong ongoing support to the school. The Institute was right last year to point out that the loss of the Marion P. Thomas contract would have a significant impact on BRICK's overall operational capacity. However, BRICK has now made the necessary updates to its organizational structure and staffing to clarify how it will be able to operate successfully in the future. And now, even with a reduced staff, the BRICK team will be prepared to provide a level of support from its network office that is more comprehensive than the back office support of just about any other charter school in Buffalo from the very beginning of the charter term. In addition, BRICK has successfully ensured that its South Ward Promise Neighborhood team has been able to secure two consecutive federal Promise Neighborhood grants—some of the most prestigious grants in the country. As a result, BBACS believes that BRICK has significant capacity to both support its academic program and to help establish a strong ecosystem of services for its families. Consequently, BBACS believes that its partnership with BRICK will ensure it can accomplish its mission of ensuring strong student outcomes for its children and providing the necessary wraparound services to support East Side families to thrive.

Educational Services Agreement

between

Building Responsible Intelligent Creativity Kids A NJ Nonprofit Corporation

and

BRICK Buffalo Academy Charter School

EDUCATIONAL SERVICES AGREEMENT

THIS EDUCATIONAL SERVICES AGREEMENT (the “Agreement”) is made and entered into as of the ___ day of _____, 202_ (the “Effective Date”) by and between Building Responsible Intelligent Creative Kids A NJ Nonprofit Corporation, a New Jersey non-profit corporation authorized to do business in New York with its principal place of business located at 534 Clinton Avenue, Newark, NJ 07108 (“BRICK” or the “Network”), and BRICK Buffalo Academy Charter School (the “School”), a New York not-for-profit education corporation having an address of _____ Together, BRICK and the School shall be referred to as the “Parties” and each individually- a “Party.”

WHEREAS, BRICK is a charter management organization (a “CMO”) with the qualifications, experience, and expertise necessary to effectively provide essential educational, operational, programming and management services (the “Service”) to charter schools;

WHEREAS, the Board of Trustees of the School (the “Board”) received a charter (the “Charter”) from the State University of New York’s Charter School Institute (the “Authorizer” or “CSI”) to operate the School in the State of New York (the “State”) pursuant to certain terms and conditions set forth in that certain charter agreement (the “Charter Agreement”) between the School and CSI, which incorporate, among other things, the School’s Charter Application (the “Application”), as may be amended from time to time with CSI, which shall also be incorporated by reference into this Agreement;

WHEREAS, the School is entering into this Agreement with BRICK in order to meet its obligations under the Charter, specifically its commitment to providing a high-quality education for students enrolled at the School;

WHEREAS, it is the intention of the Parties to create a relationship based on trust, common educational objectives, and clear accountability, through which the Parties will work together to deliver an exceptional education program (the “BRICK Model”) and experience to the students enrolled at the School;

WHEREAS, the Parties wish to define their relationship and set forth the terms and conditions of their respective rights and responsibilities to each other;

NOW, THEREFORE, in consideration of the recitals and the mutual covenants, representations, warranties, conditions, and agreements hereinafter expressed and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **TERM AND RENEWAL.** This Agreement shall be effective as of the Effective Date and shall continue through June 30, 202_ (the “Term”) unless terminated prior to such date in accordance with Section 11 below. The Parties agree to give written notice of their intent to renew or not to renew this Agreement on or before January 1, 202_ and should both Parties desire to renew the Agreement, they shall work diligently to

negotiate such agreement by March 1, 202_. If the school fails to renew the contract and does not provide written notice of an intention to not renew the agreement, then the agreement will be automatically renewed. Notwithstanding the foregoing, the Term shall not extend beyond the term of the Charter.

2. REPRESENTATIONS AND WARRANTIES

a. **Representations and Warranties of the Network.** BRICK represents and warrants as follows:

- i. Organization and Tax-Exempt Status; Authority. BRICK is a not-for-profit corporation duly organized under the laws of New Jersey and was granted tax-exempt status under Section 501(c)(3) of the Internal Revenue Code. BRICK possesses, or will take steps to secure, the requisite power and authority to execute and deliver this Agreement, to perform its obligations hereunder, and to otherwise consummate the transactions contemplated hereby. This Agreement constitutes the valid and binding obligations of BRICK, enforceable against BRICK in accordance with its terms.
- ii. Conduct of BRICK. The Services (defined in Section IV below) provided by BRICK under this Agreement shall comply with the Charter and all applicable local, State and federal laws and regulations.
- iii. Litigation; Bankruptcy. There is no suit, claim, action or proceeding now pending or, to the best of BRICK's knowledge, threatened against BRICK that would have a material adverse effect on BRICK's ability to perform the Services contemplated by this Agreement. BRICK further represents that it has not filed for bankruptcy protection and is not currently under receivership or otherwise the subject of a bankruptcy proceeding.
- iv. Full Disclosure. No representation or warranty of BRICK herein and no statement of information, or certificate furnished or to be furnished by BRICK pursuant hereto or in connection with this Agreement contains any untrue statement of material fact or omits a material fact on which the School would reasonably need to rely to perform its obligations under this Agreement.

b. **Representations and Warranties of the School.** The School represents and warrants as follows:

- i. Organization and Tax-Exempt Status; Authority. The School is a not-for-profit education corporation with the legal authority to operate a charter school and contract for the educational services contemplated in this Agreement. Additionally, The School shall apply for and, after receiving, shall at all times maintain tax-exempt status under Section 501(c)(3) of the

Internal Revenue Code. The School is, and shall at all times throughout the Term remain, a charter school in good standing with the Authorizer.

- ii. Authority. The School possesses the requisite power and authority to execute and deliver this Agreement and to perform its obligations hereunder. This Agreement constitutes a valid and binding obligation of The School, enforceable against The School in accordance with its terms.
- iii. Litigation; Bankruptcy. There is no suit, claim, action, or proceeding now pending or, to the best of The School's knowledge, threatened against The School. The School further represents that it has not filed for bankruptcy protection and is not currently under receivership or otherwise the subject of a bankruptcy proceeding.
- iv. Full Disclosure. No representation or warranty of the School herein and no statement, information, or certificate furnished or to be furnished by the School pursuant hereto or in connection with this Agreement contains any untrue statement of material fact or omits a material fact on which BRICK would reasonably need to rely to perform its obligations under this Agreement.
- v. Conduct of the School and the Board. The School has materially complied, and at all times during the Term shall materially comply, with all local, State, and federal laws and regulations that are applicable to the School, which include, but are not limited to, the Internal Revenue Code, the Family Educational Rights and Privacy Act, New York State Education Law and regulations including the Charter School Act and implementing regulations, the Not-for-Profit Corporation Law, Public Officers Law and General Municipal Law, as well as its By-Laws, its Financial Policies and Procedures, as generally defined in Section III, J of the Charter Application, and other such policies and procedures as the Board may adopt. The School has maintained and will maintain adequate records of the activities and decisions of the School to ensure and document compliance with all such laws and regulations. The School agrees to provide BRICK with copies of all such records and to allow BRICK to, at BRICK's discretion, assist with the preparation and retention of such records to ensure that, among other things, BRICK may perform all services and duties set forth in this Agreement. Except as so delegated to BRICK herein (unless such delegation is prohibited by applicable law), BRICK shall at all times retain all rights and responsibilities under the Charter.

3. DELEGATION AND RESPONSIBILITY

- a. **General**. The School hereby authorizes BRICK to undertake on its behalf the functions specified in this Agreement with regard to the business, administrative and academic services of the School, it being understood that,

at all times, BRICK shall remain accountable and subject to the oversight of the Board (and the Authorizer and other State authorities, if applicable) and the Board shall retain the ultimate rights and duties of oversight of the School pursuant to the Charter and applicable law, including, but not limited to, retention of independent fiduciary oversight and authority over the School's budget. The Board further authorizes BRICK to take such reasonable actions that may not be expressly set forth in this Agreement, but which shall be implied as necessary in BRICK's judgment to properly and efficiently provide services to the School provided such actions are consistent with the Charter, applicable laws, and the annual School budget approved by the Board. Furthermore, the School hereby designates employees of BRICK, to the extent permitted by law, as agents of the School having a legitimate educational interest such that they are entitled to access education records under 20 U.S.C. § 1232g, the Family Educational Rights and Privacy Act ("FERPA"). BRICK, its officers, and employees shall perform its duties in a manner consistent with the obligations of the School under FERPA.

- b. **Right to Subcontract.** BRICK may subcontract any function or service it is obligated to provide hereunder, provided that subcontracts entered into on behalf of the School obligate the subcontractor to maintain confidentiality of education records in accordance with FERPA, no such subcontract shall relieve or discharge BRICK from any obligation or liability under this Agreement except as set forth in the Charter Agreement or as approved by the Board, and in no event shall BRICK subcontract more than half of the functions or services it has undertaken to provide.

4. DUTIES AND OBLIGATIONS

a. School Leadership

- i. **Definitions.** The accountability of BRICK to the School is an essential foundation of the Parties' relationship, and the performance of the Principal and Director of Operations (together, the "School Leadership" or "School Leadership Team") is critical to the School's success. Therefore, BRICK shall have the authority and responsibility, to the maximum extent consistent with State Law, to recruit and supervise the Principal and Director of Operations and to hold them accountable for the success of the School. As part of its supervision responsibilities, BRICK retains the right to adjust the duties and responsibilities of the Principal or Director of Operations at any time and to provide additional support or intervention as needed.
- ii. **Role.** The Principal and Director of Operations shall jointly coordinate the management of the School and report on a day to day basis to BRICK. Notwithstanding the foregoing, the Principal and Director of Operations shall both be employees of the School.

- iii. Support and evaluation. BRICK will provide an intensive leadership training program for any new Principal and Director of Operations and will conduct formal evaluations of these staff members at least once per year, using a comprehensive performance assessment model. BRICK will also provide ongoing coaching and training for the Principal and Director of Operations. BRICK shall also provide to the Board an annual report regarding the Principal and Director of Operations' performance, and the Board will ultimately complete and approve the evaluations of the Principal and Director of Operations.

- iv. Vacancies.
 - a. When a vacancy arises in a Principal or Director of Operations position, BRICK shall lead recruiting for qualified candidates to become the new Principal and or Director of Operations. BRICK will conduct initial screening and interviews of candidates. With consultation from the Board, the pool of candidates will be narrowed to 1 finalist for either vacant leadership position. The Board will evaluate the finalist presented by BRICK and ultimately make the final decision as to the hiring of either leadership position.
 - b. BRICK and the Board also recognize that it is critical for the School to have an effective Principal and effective Director of Operation at all times. Should a vacancy in either position occur prior to the Board and BRICK being able to identify and on-board a new employee to assume the vacated role, in order to minimize any interruption to the School's operations, BRICK will use commercially reasonable efforts to assign one of its staff members on a temporary basis and only for so long as the search and on-boarding of a new School-based employee is completed.

- v. Terms of employment. BRICK shall present the proposed terms of the Principal's and Director of Operations' employment to the Board including therein the duties and compensation of the Principal and Director of Operations. The Board of Trustees shall then vote on the approval of the terms of the new Principal's or Director of Operations' employment.

vi. The Principal and Director of Operations shall serve in an at-will capacity, pursuant to a year to-year employment agreement/offer letter, which may be renewed by the Board subject to approval of BRICK. If *either* the Board or BRICK wishes not to renew the Principal's or Director of Operations' contract it shall not be renewed. In that event, BRICK will recruit and present prospective new Principal and/or Director of Operations candidates to the Board according to the process outlined above.

b. **Duties and Obligations of BRICK.** Throughout the Term of this Agreement, BRICK shall provide the following educational and operational services (the "Services") in consultation with and in communication with the Board and/or the School Leadership Team):

i. Education and Instruction-Related Services

a. Design and maintain the educational programs and programs of instruction by adapting to the School's needs the BRICK School Model, as such educational model is described in the Charter Application, and by recommending to the Board and School Leadership Team policies and procedures relating to student admissions, student records, student discipline, school year and school day requirements, special education, student testing, extracurricular and co-curricular activities and programs, and affiliation with other groups, clubs or associations;

b. Select and adopt the School, as applicable, with acquiring instructional and curricular materials, equipment and supplies which shall be acquired at the expense of the School and shall remain property of the School; and

ii. Design, implement, and monitor professional development activities for each School's instructional personnel.

iii. Business Operations

a. Support the business administration of the School, including the preparation and maintenance of operating procedures of the School;

b. Support personnel administration and payroll functions of the School for employees of the School, as more specifically described in Section 4(a)(iii) below;

c. Assist with the identification, selection and contracting with providers of services required by the School, which shall include but not necessarily be limited to, auditing, custodial and food

services, and which services shall be paid for in accordance with the School's budget at the School's sole cost and expense;

- d. Collaborate with the Buffalo City School District (and other districts, if applicable) to ensure that the School's students requiring special education and transportation services receive such services;
- e. Arrange for contracts with providers of afterschool services on behalf of the School, at the School's cost and expense;
- f. Arrange for contracts, at the School's cost and expense, for any other services or the acquisition of any other supplies or equipment which BRICK and the School deem necessary or reasonable to the attainment of the educational goal of the School;
- g. Provide technology-related service (but not equipment, infrastructure or software, other than as specifically set forth herein, which shall be provided at the School's sole cost and expense) to support the School's use of technology in their operations;
- h. Identify a facility for use by the School, in consultation with the Board, provide such technical assistance as the School may require in negotiating a lease or purchase of such facility, and arrange and supervise any necessary improvements to such facility, all consistent with the School's budget at the School's sole cost and expense;
- i. Manage the acquisition of materials, supplies, and equipment for use at the School. Materials, supplies and equipment purchased for the School shall become and remain the property of the School;
- j. Design and implement (with the School's Leadership Team) student recruitment and enrollment procedures, including an annual lottery for student enrollment, and further arrange for supervision of such lottery by an independent third party (e.g. accountant, auditor) compensated at the School's sole cost and expense;
- k. Periodically provide students, parents, faculty members and other stakeholders of the School with written information or materials regarding such School's programming and provide any such information at the request of the Board or its designee;

l. Provide to the Board reports on the education, operational and financial performance of the School, as applicable, in the form of oral and summary reports at monthly Board meetings, as well as comprehensive quarterly written reports in a form mutually agreed upon by the Parties. Additionally, BRICK shall provide other such reports as may be reasonably required by the Board, the Authorizer or other third parties from time to time; and

m. Encourage the establishment of a parents' association or parent-teacher association (a "PA") at the School and provide technical assistance and organizational support to such association(s); provided, however, that should a PA desire or be required to incorporate, it shall do so using its own counsel and, furthermore, BRICK shall not participate in the management of such PA's finances or be responsible for such PA's compliance with any rules, regulations, laws or statutes.

iv. Human Resources and Employment-Related Services

a. BRICK will provide general human resources support, to the School, including but not limited to, assisting the Principal and the Director of Operations with the selection and training of the School's staff, determining staff needs, recommending the adoption of procedures for the hiring, supervision, discipline and termination of personnel and other personnel policies and administrative procedures applicable to the staff, assisting the Board and School leadership in setting compensation levels of the School's staff, and supporting the School in its development and training of administrative staff and consulting with the School in the establishment of procedures for hiring substitute staff.

b. BRICK will lead the recruitment and screening efforts of teachers, administrators and other personnel for the School. Specifically, BRICK will work to build a pool of qualified applicants through advertising, networking and other methods. BRICK will conduct preliminary screens of candidates and will forward the resumes of promising candidates to the Principal and the Director of Operations for consideration. The Principal will then be responsible for recommending which candidates to hire for instructional positions and the Director of Operations will be responsible for recommending which candidates to hire for operational positions. The BRICK Buffalo Superintendent and the Director of Regional Operations shall then determine which candidates to present to the Board to hire and/or retain and the Board of Trustees will have the final authority to approve any such recommendations.

v. Budgeting, Financial Services and Reports

a. On or before May 15th of each year during the Term, BRICK shall prepare an initial draft of the School budget for review with the Principal and Director of Operations of the School with the draft budget being submitted to the Board for final review and approval prior to the next fiscal year, with exception of through the School's planning year (through June 30, 2023), where the applicable budget is the budget included in the Charter Agreement. The budget shall contain reasonable detail as requested by the Board and shall include projected expenses and costs reasonably associated with operating the School including, but not limited to the projected cost of services and education programs provided to the School; leasehold and other lease or purchase costs incurred for the School's facilities (if applicable); maintenance and repairs to the School's facilities and capital improvements (if applicable); personnel salaries and benefits expenses; payroll processing expenses; supplies and furnishings necessary to operate the School; all taxes of any kind that may be assessed or imposed; insurance premiums and deductible payments; utilities; food service expenses, professional and legal fees; school development and start-up expenses, including costs of audits, Board expenses, and any other costs and expenses connected to the operation of the School. BRICK shall transmit the final Board approved budget to the Authorizer as required by the Charter Agreement.

b. BRICK shall provide all such financial management services as the School shall require, including the following: a) invoicing, receiving and depositing on behalf of the Board into the School's bank account(s) controlled by the Board such revenues and per pupil funding to which the School is entitled; b) processing and issuing checks for all purchases and accounts payable (in accordance with the School's Financial Policies and Procedures); c) processing the School's payroll; and d) working with the School staff to review documentation submitted in support of employee vouchers for reimbursable expenses. In no event shall BRICK or any of its officers, directors, agents or employees, issue checks or make other payments to BRICK, or any of its officers, directors, agents or employees, on behalf of the School without the express permission of the Board or its designee.

c. BRICK shall also provide other necessary financial statements and reports to the Board and Authorizer as may be required by the

Charter Agreement or applicable law and regulations, in a timely manner sufficient to enable the School to file the required financial statements or reports prior to any applicable deadline. Such records may include:

a. Within sixty (60) days after the close of each fiscal quarter, unaudited financial statements of the School for the fiscal quarter most recently ended;

b. At the request of the Board, but no more frequently than on a quarterly basis, a financial statement that provides a comparison of budget to actual revenues and expenditures, with an explanation of significant variances;

c. Informal monthly financial statements, to be shared at Board meetings;

d. BRICK shall also cooperate with the auditors retained by the Board to prepare annual audited financial statements of the School. BRICK shall coordinate its work and the work of the auditors so as to allow for the delivery of such audited statements within 120 days after the close of each fiscal year;

e. All financial reports provided or prepared by BRICK shall be presented in GAAP/FASB approved non-profit format.

f. BRICK will support the ongoing operation of the School and will help the school successfully navigate any initial financial challenge that is the direct result of the Buffalo City School District or other district from which the School's students are attending the School.

d. A representative of BRICK's Finance and/or Operations team will, as requested, attend meetings of the Board's Finance and Audit committee to review financial records in preparation for a Board meeting.

e. The School acknowledges that BRICK may enter into similar services agreements with other charter schools. In the event that BRICK advances an expense for a common project on behalf of more than one school which BRICK manages, BRICK shall ensure that it properly invoices the School (and each other school) for only its direct proportional share of any such expense, ensuring

that the School shall not assume any part of an expense attributable to another school.

vi. Presence of BRICK employees or contractors at the School.

- a. All employees or contractors of BRICK who have direct, regular contact with students at the School, shall be subject to fingerprint-based criminal background investigations and checks in compliance with applicable State law.
- b. BRICK will work to have at least two (2) full-time BRICK staff members, at any given time, to support the School, and in furtherance of the Services provided hereunder. These BRICK staff members shall include but not be limited to a BRICK Superintendent and Director of Regional Operations. Should a vacancy arise in either of these positions, BRICK will work to lead recruiting for qualified candidates with the goal of filling any vacancy with a high quality employee to ensure the ongoing delivery of the services provided hereunder. If additional local support is needed during the recruitment, selection and onboarding of a new Superintendent or Director of Regional Operations, a BRICK representative will meet with the Board of Trustees to create a mutually agreeable plan for how to provide such services in the interim.
- c. Any individual visiting the School on behalf of BRICK will abide by the school's health and safety protocols/requirements.

c. Duties and Obligations of the School.

- i. Approval of School Policies. With recommendations and guidance to be provided by BRICK and the School's School Leadership Team, the Board shall create and adopt policies for the School, which shall be consistent with the Charter and applicable law.
- ii. Approval of the School Budget. In accordance with the Charter and the requirements of this Agreement, the Board shall work diligently with BRICK to approve the annual budget within thirty (30) days of submission of the proposed budget by BRICK to the Board in accordance with this Agreement.
- iii. Maintenance of Charter. The Board shall do, or cause to be done, all things necessary to ensure that all legal requirements, and all such conditions as may be imposed by the Authorizer, are fully complied with at all times. If the Board shall at any time receive notice from any public authority or other person that the School is or may be in violation of its provisional

Charter or any applicable law or regulation governing the charter School it operates the Board shall immediately notify BRICK of the alleged violation and shall thereafter work diligently with BRICK to investigate such alleged violation, to determine whether such alleged violation in fact exists, to promptly respond to the complaining Party and to correct any violation found to exist.

iv. Use of Student Information System. The Board shall ensure that at all times during the Term of this Agreement, in accordance with Section 4.a (ii)(6) above, the School will utilize the Student Information System (“SIS”) established by BRICK, and BRICK shall ensure that the SIS meets all applicable legal requirements.

v. Fundraising. The Board shall lead, with the assistance of BRICK, fundraising activities on behalf of the School. In connection therewith, the Board shall appoint a fundraising committee. BRICK shall provide reasonable assistance with fundraising activities to benefit the School (including devising a fund-raising strategy with the Board and providing reasonable technical assistance as may be required from time to time and agreed to in advance between the Parties). Additionally, under the Board’s direction, BRICK will assist with securing grants for which the School is entitled, and other such grants for which the School may qualify. Additionally, BRICK, under the supervision of the Board, will launch a fundraising campaign to ensure the School is able to open with at least three (3) months of operating expenses on hand and that the School is able to maintain at least three (3) months of operating expenses in reserve until at least the end of the School’s third school year. In addition, BRICK agrees to support the Board's efforts to secure a line of credit with a bank prior to July 1, 2023.

vi. Grants Offered by BRICK. The Parties acknowledge that nothing in this Agreement affords the School a right or entitlement to grants that may be awarded from time to time by BRICK on a competitive basis for special projects and that eligibility for such grants is established by BRICK at its sole discretion.

vii. Providing Information and Documentation. The Board and the School’s School Leadership Team shall furnish BRICK with documents, including litigation documents, records, and all other information necessary for BRICK to fully and effectively provide its Services and support and otherwise carry out its duties under this Agreement.

viii. Receipt and timely review of any complaints or grievances. The Board, with input from BRICK and the Principal and Director of Operations of the School, shall establish a procedure for the receipt and timely review of complaints or grievances by any parent, community individual or institution.

ix. Tax Status. In accordance with the Charter and applicable law, the Board shall take all steps required to obtain and maintain the School's status as a tax-exempt organization under federal and State law such that contributions to the School are deductible to the donor for federal income tax purposes. In the event of arbitration, the Board and BRICK shall agree that, notwithstanding any claims for relief each may seek from the other, it will require that any relief granted be consistent with maintaining the School's tax-exempt status.

x. Engagement of Professional Service Providers. The Board shall directly select, retain, utilize (as needed) and compensate a law firm, accounting firm and auditing firm to provide services required by the School as may be required by Law, the Charter and as otherwise needed from time to time.

5. **FEES.** In consideration for the Services provided by BRICK to the School, BRICK shall be paid a management fee equal to ten percent (10%) of Gross Revenues (the "Management Fee"). Gross Revenues shall be defined as all such funding provided by the State, federal, and local government (if applicable) to the School and the School but shall exclude any private grant funding or other charitable contribution awarded to the School or the School. The Management Fee shall be payable in monthly installments, beginning with July 1, 2023 (and each July 1 thereafter) and thereafter each month through June 30th of each year during the Term, unless a different arrangement is agreed to in writing between both Parties. BRICK shall impose an interest rate of ten percent (10%) per annum on all fees that remain unpaid fifteen days after the aforesaid due dates, unless receipt of revenue by the School is delayed for reasons beyond the control of the School. In this event, the School shall make such payment no later than thirty (30) days after it receives a scheduled disbursement, and BRICK shall impose an interest rate of ten percent (10%) per annum on all fees that remain unpaid fifteen (15) days after the new due date set forth above. Notwithstanding the foregoing, in the event that the School is unable to meet its financial obligations on a timely basis resulting from a demonstrated delay in receipt of Gross Revenues or expenses that exceed revenues for a period of time, BRICK shall consider deferring (but not waiving) its Management Fee (and waiving any interest associated with late payment). In these circumstances, a representative of BRICK would meet with the Board's Finance and Audit committee to attempt to create a mutually agreeable schedule for the payment of the management fees required under this agreement. Any such change to the schedule for payment of management fees must be agreed to by BRICK and the Board and memorialized in a written agreement/amendment to this Agreement.

6. **PROPRIETARY WORKS.** The School acknowledges that BRICK owns and shall own all existing, and hereafter created, copyrights and other intellectual property rights with respect to all works of authorship, inventions and work product including, instructional materials, training materials, curriculum and lesson plans, and any other materials, teaching methodologies, school management methodologies, and all improvements, modifications, and derivative works thereof that are created, invented or developed by (i) BRICK, its employees, agents or subcontractors, or (ii) an individual employed or retained by the School within the scope of such employment or retention if such work of authorship, invention or work product utilizes ideas or products developed by BRICK (collectively, the “Proprietary Works”). BRICK hereby grants the School a non-exclusive, non-sublicensable, non-transferable, royalty-free license to use Proprietary Works as necessary or desirable to operate the School during the Term of this Agreement. The School shall cause all persons who create, invent or develop Proprietary Works, as defined herein, for the School to assign to BRICK in writing their intellectual property rights in such works. Upon BRICK’s reasonable request, the School will provide BRICK with copies of all Proprietary Works. This Section 6 shall survive termination of this Agreement, however (i) nothing herein shall be deemed to prevent the School from accessing curriculum or other materials that BRICK has published on line or otherwise made publicly available, subject only to the requirement that such curriculum or other materials be attributed to BRICK and (ii) BRICK shall inform BRICK BUFALO if any of the curriculum or other materials, including updates thereto, are not publicly available or will be withdrawn from public availability during the coming school year.
7. **USE OF NAME.** BRICK hereby grants the School a non-exclusive, non-sublicensable, non-transferable, royalty-free license to use the names and trademarks BRICK and any logos provided to the School by BRICK (the “Trademarks”) in connection with the operation of the School and for the benefit of the School and all promotional activities in connection therewith, subject to the following conditions: the School agrees that it will (i) not use or register any domain name containing “BRICK”, (ii) use only any website, social, wireless, mobile or other media network or application provided by BRICK for the School or the School’s use; (iii) not set up its own official site, page or venue in any social media or user-generated content media (including Facebook, Twitter and YouTube) without prior written consent of BRICK; (iv) use the Trademarks in compliance with all reasonable notices and guidelines provided by BRICK; and (v) use the Trademarks in a dignified manner in accordance with reputable trademark practices. The School shall acquire no rights in the Trademarks, and all goodwill of the Trademarks shall inure to the benefit of and remain with BRICK. BRICK shall have pre-approval rights for each form and manner of public display of the Trademarks. The School agrees to use the Trademarks only in connection with high-quality educational services reflecting favorably on the reputation and goodwill of BRICK and, at BRICK request, to provide BRICK with representative samples of materials used by the School bearing the Trademarks. If BRICK objects to any such materials for not properly using the Trademarks or for not being of sufficient quality, the School will promptly make all

appropriate corrections. Should this Agreement be terminated or not renewed for any reason, the School shall, as soon as practicable but not later than the end of the school year in which this Agreement may be terminated or not renewed, petition the Authorizer to revise its Charter to change its name and the names of the School to remove any reference to BRICK and diligently follow such petition through to its completion. Upon the effectiveness of such revision and removal, the School will cease all further use of the Trademarks and return all materials promptly to BRICK. This Section 7 shall survive the termination of this Agreement.

8. INDEMNIFICATION

- a. **Indemnification.** The School and BRICK do hereby agree that each Party shall be solely responsible for each Party's own acts and omissions as well as the acts and omissions of each Party's own board of directors or trustees, partners, officers, employees, agents, and representatives. Each Party to this Agreement (acting as indemnitor) does hereby indemnify and hold harmless the other, and its respective board of directors or trustees, partners, officers, employees, agents, representatives, and attorneys, from and against any and all claims, actions, damages, expenses, losses or awards, including any suits or claim seeking non-monetary or injunctive relief, which arise out of (i) the negligence of the indemnitor (ii) any action taken or not taken by the indemnitor or (iii) any noncompliance or breach by the indemnitor of any of the terms, conditions, warranties, representations, or undertakings contained in or made pursuant to this Agreement ("Claim"). Such indemnification may be achieved by the purchase of general liability and property insurance policies, in accordance with Paragraph 6 or by such other means as the Parties may mutually agree.
- b. **Notice and Defense.** The Party to be indemnified (Indemnitee) shall give the Party from whom indemnification is sought (Indemnitor) prompt written notice of any Claim for which indemnification is sought. Failure to give notice shall not affect the Indemnitor's duty or obligations under this except to the extent the Indemnitor is prejudiced thereby. The Indemnitor may undertake the defense of any third-Party claim by representatives chosen by it. If the Indemnitor undertakes the defense of a Claim, then the Indemnitor shall be deemed to accept that it has an indemnification obligation under this Paragraph 8 with respect to such Claim. The Indemnitee shall make available to the Indemnitor, or its representatives all records and other materials required by them and in the possession or under the control of the Indemnitee, for the use of the Indemnitor and its representatives in defending any such Claim, and shall in other respects give reasonable cooperation in such defense. If there is a reasonable probability that a Claim may materially and adversely affect the Indemnitee other than as a result of money damages or other money payments, (i) the Indemnitee shall have the right to defend, compromise or

settle such Claim and (ii) the Indemnitor shall not, without the written consent of the Indemnitee, settle or compromise any Claim which does not include as an unconditional term thereof the giving by the claimant to the Indemnitee of a release from all liability in respect of such Claim.

9. INSURANCE

- a. **Insurance Coverage.** At all times during the Term of this Agreement, the School shall at a minimum maintain at its sole cost and expense in full force and effect the insurance coverage set forth in the Charter Application. the School shall also maintain such workers compensation and disability insurance as required by State law and School Leaders/Errors and Omissions insurance. BRICK shall maintain at its sole cost and expense such insurance as it shall reasonably deem necessary under this Agreement, including, at a minimum, general liability insurance of \$1 million per occurrence/\$2 million aggregate, an umbrella policy, directors and officers liability insurance, employment practices insurance, automobile insurance and worker compensation and disability insurance as required by State law. Each Party shall name the other as an additional insured on its commercial general liability, automobile liability and crime insurance policies and the School shall name BRICK as an additional insured on its Employment Practice Liability insurance policy and School Leaders/Errors and Omissions insurance policy.
- b. BRICK shall require that its subcontractors, if any, shall maintain commercially standard insurance policies (including but not limited to general liability, automobile, directors and officers, workers compensation and disability insurance) and that such subcontractors name BRICK and the School as additional insureds (except on workers compensation and disability policies, which is not permitted by law).
- c. The School shall require that its contractors, if any, shall name BRICK and the School as additional insureds under their respective commercial general liability and automobile liability insurance policies for personal injury and property damage.
- d. The insurance policies maintained by each Party and their subcontractors pursuant to this Agreement shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or reduced, in coverage or limits, except after thirty (30) days prior written notice to BRICK and the School and should be further endorsed to include coverage for child molestation or other abuse and coverage for the defense of suits or claims seeking non-monetary or injunctive relief. The Parties shall furnish one another certified copies of the insurance policies or Certificates of Insurance that demonstrate compliance with this Agreement. Each Party shall comply

with any information or reporting requirements required by the other Party's insurer(s), to the extent reasonably practicable.

10. PERFORMANCE EVALUATION. In accordance with the School's Charter, the Board shall at regular intervals throughout the Term evaluate BRICK's performance under the terms of this Agreement to ensure that BRICK is complying with its duties as set forth herein. In addition to routine, regular feedback and evaluation in day-to-day interactions and at Board meetings, the Board shall annually complete a formal written assessment of BRICK performance in substantially the form set forth in **Exhibit A** attached hereto and incorporated by reference herein (the "Annual Assessment") and meet with BRICK personnel to discuss the review and what changes to BRICK's performance, if any, are required to ensure that BRICK is meeting its responsibilities under the Law, the Charter and the terms of this Agreement. Failure of BRICK to perform its duties under this Agreement shall subject BRICK to the termination procedures set forth in Section 11 below.

11. TERMINATION

a. Termination by the School The School may terminate this Agreement prior to the end of the Term for any of the reasons set forth in subparagraphs (i), (ii) or (iii) below:

i. If BRICK materially breaches any of the material terms and conditions of this Agreement including its obligations under 2.a.ii., provided that BRICK shall have thirty (30) days to remedy such breach after receipt of written notice of such breach, unless such breach is incapable of being reasonably cured within thirty (30) days in which case this Agreement may be terminated if BRICK fails to initiate and continue a cure for such breach within thirty (30) days after receipt of such written notice; or

ii. Notwithstanding anything contained in subsection 11(a)(i) to the contrary, BRICK materially breaches any of the material terms and conditions of this Agreement and such breach arises from BRICK's gross negligence or reckless or willful misconduct; or

iii. If there occurs an enactment, repeal, promulgation or withdrawal of any federal, State, or local law, regulation, or court or administrative decision or order which, after exhausting all possible appeals, results in a final judgment or finding that this Agreement or the operation of the School in conformity with this Agreement, would violate the School's responsibilities, duties or obligations under the State or federal constitutions, statutes, laws, rules or regulations.

b. Termination by BRICK. BRICK may terminate the Agreement prior to the end of the Term for any of the reasons set forth in subparagraphs (i), (ii), (iii), (iv) or (v) below:

i. Unless modified by written agreement amongst the Parties pursuant to Section 5 above, if the School fails to pay when due any monetary obligation of the School as required by the provisions of this Agreement, and such obligation remains unpaid for a period of thirty (30) days after receiving written notice of the delinquent payment from BRICK;

ii. If the School materially breaches any of the material nonmonetary terms and conditions of this Agreement, including its obligations under 2.b(v) of this Agreement, provided that the School shall have thirty (30) days to remedy such breach after receipt of written notice of such breach, unless such breach is incapable of being reasonably cured within thirty (30) days in which case this Agreement may be terminated if the School fails to initiate and continue a cure for such breach within thirty (30) days after receipt of such notice;

iii. Notwithstanding anything contained in subsection 11(b)(ii) to the contrary, the School materially breaches any of the material terms and conditions of this Agreement and such breach arises from the School's gross negligence or reckless or willful misconduct;

iv. If there occurs an enactment, repeal, promulgation or withdrawal of any federal, state, or local law, regulation, or court or administrative decision or order which, after exhausting all possible appeals, has a material adverse effect on BRICK's ability to provide Services to the School in accordance with its budget or the Charter Agreement; or

v. If, as a result of exercise by the School of its authority under 4.a(iii) of this Agreement, there occur irreconcilable differences with respect to the appointment or termination of the Principal or Director of Operations of the School, following good faith efforts by the Parties to agree upon mutually acceptable candidates.

c. Procedures upon Expiration or Termination. Upon expiration or termination of this Agreement for any reason, the Parties agree to cooperate in good faith and use their best efforts to complete a prompt and orderly separation, it being the intention of both Parties that the School shall remain open and operating in its normal course in the event of such expiration or termination

of this Agreement, in accordance with the following rights and obligations of the Parties:

- i.** The School shall have the right to use BRICK's Proprietary Works for the benefit of the School, as defined under Section 6 hereof, then currently in use by the School (including but not limited to the Trademarks), until the last day of the then current school year;
- ii.** BRICK shall provide the Board with copies of all student records, financial reports, employee records, and other School data in BRICK's possession and not currently in the possession of the Board of Trustees;
- iii.** With respect to the use of school information software, BRICK shall provide the School with a reasonable period of time in which it may arrange for its own license with the SIS or migrate its data to another information system and to arrange for an interface other than school information software. The School shall transfer data to a new information system at its own cost and expense, but BRICK shall provide such reasonable assistance as may be necessary to complete such transfer;
- iv.** BRICK shall provide the School with reasonable educational and operational transition assistance for a period of sixty (60) days after the termination of this Agreement, provided that the School shall pay to BRICK all fees, expenses and other costs of BRICK consultants and agents who may, from time to time, upon mutual agreement of the Parties, provide assistance to the School or the students of the School; and
- v.** In the event that this Agreement is terminated or not renewed at a time when BRICK has guaranteed any debt or other financial obligation of the School, or provided credit support, whether in the form of a letter of credit or otherwise, to the School, notwithstanding any other provision of this Agreement to the contrary, such termination shall be effective and the School shall remain liable to BRICK until the first date on which such loan and such interest has been repaid in full, such guarantee has been released by the beneficiary thereof, or such letter of credit or other credit support has been released and/or returned to BRICK, all in accordance with the term therein. Nothing in this paragraph will create an obligation on the part of the School to repay all or any of the start-up funds granted by BRICK to the School in accordance with the Charter Agreement.

12. DISPUTE RESOLUTION. As a condition precedent to any other legal recourse (unless such legal recourse seeks immediate injunctive relief, in which case the Parties agree to submit any such matter to the Supreme Court of the State of New York, County of Erie), BRICK and the Board shall work together in good faith on resolving disputes involving substantive issues affecting the operations of the Schools. Resolutions of substantive issues will be memorialized in memoranda which may include a written Corrective Action Plan. Minor, day-to-day concerns shall be resolved informally and a Corrective Action Plan is not required. In the event the Parties cannot resolve a disagreement on substantive issues affecting the School's operations as set forth above, BRICK and the Board shall submit the dispute to Mediation with an independent third party neutral Mediator acceptable to both Parties. An initial meeting for Mediation to resolve the dispute shall be conducted by the Parties at a meeting to be held at the School within fourteen (14) working days of a written request by either Party, which request shall specify in reasonable detail the nature of the dispute to be resolved at such meeting. The Mediation meeting shall be attended by representatives of the Parties and any other person that may be affected in any material respect by the resolution of the dispute. Such representatives shall have authority to settle the dispute and shall attempt in good faith to resolve the dispute. Should the Parties be unable to resolve a dispute through Mediation, the Parties agree to submit any dispute to the American Arbitration Association (the "AAA") before a single arbitrator in Buffalo, New York, to be adjudicated in accordance with AAA's expedite procedures, if available. The Parties agree that the Arbitrator will have authority to resolve disputes of all kinds and will be able to order injunctive relief as well as monetary damages.

13. MISCELLANEOUS PROVISIONS

- i. Independent Contractor Status. The Parties to this Agreement intend that the relationship between them created by this Agreement is that of an independent contractor, and not employer-employee. No agent, employee, or servant of BRICK shall be deemed to be the employee, agent or servant of the School except as expressly acknowledged in writing by BRICK.
- ii. Force Majeure. Neither Party shall be liable if the performance of any part or all of this contract is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, riot, fire, explosion, war, act of God, sabotage, accident or any other casualty or cause beyond either Party's control, and which cannot be overcome by reasonable diligence and without unusual expense.
- iii. Notices. All communications and notices relating to this Agreement are to be delivered in writing by recognized overnight courier (e.g. FedEx) or certified mail, with confirmation of delivery, to the following address or to such other address as either Party may designate from time to time, (as well as by email):

i. If to the School, to:
BRICK Buffalo Academy Charter School
[Address]
Buffalo, NY _____
Attn: Board Chair

ii. If to BRICK to:
Antwan Barlow and Jeremy Esposito
Buffalo Regional Directors
Building Responsible Intelligent Creative Kids
A NJ Nonprofit Corporation
534 Clinton Avenue
Newark, NJ 07108

- a. Governing Law. The rights and remedies of either Party under this Agreement shall be cumulative and in addition to any other rights given to either Party by law and the exercise of any rights or remedy shall not impair either Party's right to any other remedy. This Agreement shall be governed by and construed and enforced in accordance with the law of the State of New York (other than the provisions thereof relating to conflicts of law).
- b. Enforceability and Validity of Certain Provisions. If any provisions of this Agreement shall be held, or deemed to be, or shall, in fact, be inoperative or unenforceable as applied in any particular situation, such circumstances shall not have the effect of rendering any other provisions herein contained invalid, inoperative, or unenforceable to any extent whatsoever. The invalidity of any one or more phrases, sentences, clauses, or paragraphs herein contained shall not affect the remaining portions of this Agreement or any part hereof.
- c. Section Headings. The headings in this Agreement are for the convenience of the Parties only and shall have no effect on the construction or interpretation of this Agreement and are not part of this Agreement.
- d. Conflict with Charter Agreement. To the extent there are any conflicts between the terms of the Charter Agreement and the terms of this Agreement, the terms of the Charter Agreement shall control.
- e. Entire Agreement. This Agreement shall not be changed, modified, or amended nor shall a waiver of its terms or conditions be deemed effective except by writing signed by both Parties. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all other prior agreement, understandings, statements, representations, and warranties, oral or written, express or implied, between

the Parties hereto and their respective affiliates, representatives, and agents in respect of the subject matter hereof.

- f. Waiver. The failure of either Party hereto to insist upon or to enforce its rights shall not constitute a waiver thereof, and nothing shall constitute a waiver of such Party's right to insist upon strict compliance with the provisions hereof. No delay in exercising any right, power, or remedy created hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power, or remedy by any such Party preclude any other or further exercise thereof or the exercise of any other right, power, or remedy. No waiver by any Party hereto of any breach, of or default in, any term or condition of this Agreement shall constitute a waiver of or assent to any succeeding breach of or default in the same or any other term or condition hereof.
- g. Succession. The covenants and agreements contained herein shall be binding upon, and inure to the benefit of, the heirs, legal representatives, successors, and permitted assigns of the respective Parties hereto.
- h. Assignment. This Agreement may not be assigned by either Party without the prior written consent of the other Party. Both Parties acknowledge that an assignment of this Agreement by either Party may constitute a material change to the Charter and may require approval by the Authorizer pursuant to the Charter and the Act.
- i. Form of Execution. This Agreement may be executed by facsimile, PDF, electronic signature (e.g. DocuSign) and in any number of counterparts, each of which shall be an original, but all of which shall together constitute one and the same instrument.
- j. Further Actions. Each Party hereto shall, at all times, cooperate in taking such actions and doing or causing to be done all things necessary, proper, or advisable or reasonably requested by the other Party hereto, to effect the intent and purpose of this Agreement and implement the transactions contemplated hereby.
- k. Survival. The provisions of Sections 6, 7, 8, this Section 12, and any other sections or exhibits to this Agreement that by their nature extend beyond the expiration or termination of this Agreement shall survive any expiration or termination of this Agreement, *provided* that any provision that is stated to extend for a specific period of time shall survive only for such specified period of time.

1. Confidentiality. The School shall treat all of the terms of this Agreement confidentially and shall not disclose the terms hereof to any third Party other than as required by applicable federal and State law and by the Authorizer.

Part 2: Academic Performance -Students Graduate College, Career and Life Ready

Area	Criteria	Baseline	Current	Target	Status
Absolute Achievement	SUNY: 75% of students perform at or above grade level in NWEA math.	From Fall NWEA and SUNY target RIT		75%	On Track
	SUNY: 75% of students perform at or above grade level in NWEA literacy.	From Fall NWEA and SUNY target RIT		75%	On Track
	SUNY: 75% of students score at the mid on-grade level or above scale score for the end of year I-Ready math assessment	From Fall I-Ready		75%	On Track
	STEP: 75% of students are at or above their grade level benchmark on STEP Round 0 will meet their STEP mastery goal by the end of the year (K-4, 1-7, 2-9, 3-12)	% of students who have already achieved goal by round 0		75%	On Track
	Math Interims: 75% of students achieve the IA score that correlates with passing the NY state math test in grades 3-8.	% of students at internal cut score on first IA		75%	On Track

	Literacy Interims: 75% of students in their second year achieve the IA score that correlates with passing the NY state ELA test in grades 3-8	% of students at internal cut score on first IA		75%	On Track
	Science Interims: 75% of students achieve the IA score that correlates with passing the NY state science test in grades 4 and 8	% of students at internal cut score on first IA		75%	On Track
	SUNY: The school's median growth percentile of all students will be greater than 50 on the NWEA math assessment.	From prior year cohort and prior year grade level		50.00	On Track
	SUNY: Each year, the median growth percentile of students with disabilities and English Language Learners at the school will be equal to or greater than the median growth of general education students on the NWEA math assessment.	From prior year cohort and prior year grade level		TBD but greater than 50	On Track
	SUNY: The median growth of students whose achievement did not meet or exceed the RIT score proficiency equivalent in the fall will meet or exceed 55 in the spring NWEA math administration.	From prior year cohort and prior year grade level		55.00	On Track

Relative Achievement	SUNY: The school's median growth percentile of all students will be greater than 50 on the NWEA reading assessment.	From prior year cohort and prior year grade level		50.00	On Track
	SUNY: Each year, the median growth percentile of 3rd through 8th grade students with disabilities and English Language Learners at the school will be equal to or greater than the median growth of general education students on the NWEA reading assessment.	From prior year cohort and prior year grade level		TBD but greater than 50	On Track
	SUNY: The median growth of students whose achievement did not meet or exceed the RIT score proficiency equivalent in the fall will meet or exceed 55 on the spring NWEA reading assessment.	From prior year cohort and prior year grade level		55.00	On Track
	SUNY: The school's median percent of Annual Typical Growth of all students on the I-Ready math assessment will be equal to or greater than 100%.	From prior year cohort and prior year grade level		100%	On Track
	SUNY: The school's median percent progress to Annual Typical Growth of all students who were two or more grade levels below grade level in the fall will be equal to or greater than 110%.	From prior year cohort and prior year grade level		110%	On Track

	<p>SUNY: The school's median percent progress to Annual Typical Growth of all students with disabilities and who are English language learners will be greater than the percent progress for general education students.</p>	<p>From prior year cohort and prior year grade level</p>		<p>TBD but greater than 100</p>	<p>On Track</p>
	<p>STEP: 75% of students below their grade level benchmark on STEP Round 0 will grow at minimum 3+ STEPs by the end of the year.</p>	<p>From prior year cohort and prior year grade level</p>		<p>75%</p>	<p>On Track</p>

Commentary

SUNY formally applies this measure to students in their second year of attendance and in grades 3-8. However, we would use this metric as an internal stretch goal for all students in year one.

SUNY formally applies this measure to students in their second year of attendance and in grades 3-8. However, we would use this metric as an internal stretch goal for all students in year one.

SUNY formally applies this measure to students in their second year of attendance. However, we would use this metric as an internal stretch goal for all students in year one.

--

SUNY formally applies this measure to students in grades 3-8. However, we would use this metric as an internal stretch goal for all students in year one.
SUNY formally applies this measure to students in grades 3-8. However, we would use this metric as an internal stretch goal for all students in year one. We also plan to focus on the performing of English language learners, even though SUNY focuses accountability on students with disabilities.

Network - CMO Evaluation Tool - Draft 2021-2022
Part 3: Building a Sustainable Organization

Committee	Criteria	Baseline Prior	Target	Actual	Criteria Met?	Commentary
Audit and Finance Committee	Days of Cash On Hand	N/A	90		Yes	Aligns to goal named in the CMO agreement.
	Number of students enrolled	Number of students initially enrolled each year	Based on charter targets by year		Yes	
	Number of students on the waiting list		10 per grade level		Yes	
	Average daily attendance	From prior year state reporting	95%		Yes	
	% of students chronically absent	From prior year state reporting	less than 10%		Yes	Team will define in a way that meets SUNY/NY expectations.
Academic Committee	Students persist at school	From prior year state reporting	96%		Yes	Team will define in a way that meets SUNY/NY expectations.
	Students with special needs persist at school	From prior year state reporting	96%		Yes	
	Students learning English as a new language persist at school	From prior year state reporting	96%		Yes	
	Students who are economically disadvantaged persist at school	From prior year state reporting	96%		Yes	
	% of minority students is at or above comparable schools	BPS average, Buffalo charter average			Yes	
	% eligible for free/reduced lunch is at or above comparable schools	BPS average, Buffalo charter average			Yes	
	% of students with disabilities is at or above comparable schools	BPS average, Buffalo charter average			Yes	
	% or students who are English Language Learners is at or above comparable schools	BPS average, Buffalo charter average			Yes	
	Number of student out of school suspensions	From prior year	Less than 5 per grade level per year		Yes	
	% of families who respond to the annual survey designed to measure their satisfaction with the school's academic program.	From prior year	75%		Yes	
	% of families who "strongly agree" or "agree" with the statement: " I am satisfied with the academic program at BRICK Buffalo."	From prior year	85%		Yes	
Personnel	Staff retention during year	From prior year	90%		Yes	
	Staff retention from year to year	From prior year	80%		Yes	
	Staff satisfaction as measured by the "overall impressions" questions on staff survey	Fall survey	90%		Yes	
	All projected staff positions for next year filled by last day of current school year	Percent of positions by end of last year	100%		Yes	
	Average time to replace a midyear vacancy	Based on time last year	Less than 30 days		Yes	
Development	Funds raised by the Board development committee	From prior year	5,000		Yes	
District relationships	Number of students with IEPs	Representative population of BPS, charters	N/A		Yes	
	Percentage of IEPs currently in compliance	From prior year	100%		Yes	
	Number of students receiving district transportation		N/A		Yes	
	Number of transportation challenges		N/A		Yes	Cumulative number of parent complaints regarding transportation service

School Leader Guidebook | K-12

2021 - 2022

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key practices, mind-sets and procedures used by school leaders to raise student achievement. This guidebook outlines these items to ensure a high level of execution. School leaders are expected to read, internalize and practice the contents of this guidebook.

School Organization & Key Components

All schools in the BRICK Education Network are united by the common mission to relentlessly knock down all barriers to students' academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It's our vision that each and every child will have an unimpeded path to unlocking their limitless potential. In order to achieve this mission, schools are required to implement common key components in its overall structure and organization. This section will outline those key systems.

BEN Schools Portfolio Team Drive

The network may place documents in individual folders over the course of the year; all documents will be linked to a one-page reference sheet for easy access. Because it is a shared drive, school leaders are restricted from removing documents from the drive. [BEN School Portfolio Drive](#).

<Action> Prior to the start of the school year, schools must archive out of date documents or documents from previous school years.

BEN Folder Components	Description
"Master Plan"	<i>This document includes your school's master schedule, organization chart, school specific calendar. The network academic calendar will sync to your master plan.</i>
Strategic Plan	<i>This document includes network and school goals, action steps, and drivers for ELA, Math, SEL, and Teacher/Admin Development.</i>
Safety Plan	<i>This document outlines all safety protocols with clear responsibilities and duties of all BEN employees. Development and practice of the plan empowers employees in an incident to act quickly and knowledgeably by educating staff, faculty, students, and other key stakeholders on their roles and responsibilities before, during, and after an incident.</i>
School Culture Plan	<i>This document outlines the common network and individual school-wide systems required to establish a positive school culture.</i>
School-Based Data Reports	<i>Chronic absenteeism, observation feedback, teacher evaluation</i>
Culture of Belonging Playbook	<i>Playbook to monitor implementation of Culture of Belonging (CoB) during the first 6 weeks of school.</i>

Course Descriptions

See table linked [HERE](#) for Course Descriptions of academic classes.

Master Plan | Network/Campus Calendar, Org Chart and Schedule

In late May of each SY, all BEN schools are provided a “Master Plan” document for their specific campus through the BEN Schools Portfolio shared drive. The document includes critical network calendars and schedules. The Principal and Director of Operations are responsible for managing this document. The following tabs are included:

- **Academic Calendar** | Includes dates for network testing, grading quarters, and common PD time. The dates outlined on the academic calendar are mandatory and cannot be adjusted. Certain columns and rows of the academic calendar are locked and are automatically updated if any network wide changes are made.
 - **School Based Events** | On either side of the calendar, school teams are expected to outline their monthly campus specific events and dates such as “Back 2 School” Night, Literacy or Math Nights, parent/community workshops/events, etc.
- **Family Calendar** | Includes days off and early dismissal days. This calendar is made available to families in early May and should be posted on each school’s website and distribute to families
- **Org Chart** | Includes a roster of staff members and their positions, room number, homeroom names and phone numbers. The Org chart should automatically populate from the Talent team’s org chart.
- **Master Schedule** | The network will provide each school a master schedule that is to be updated with current staff. More information on the Master Schedule is described later in this guidebook.

Culture Plan

A school’s culture plan outlines the common network and individual school-wide systems required to establish a positive school culture. Schools are required to update the school-wide policies and procedures in their respective school culture plans. Within this plan, leaders are required to create minute-by-minute plans for selected whole school procedures. Individual school culture plans live in the BEN Schools Portfolio Team Drive.

Culture of Belonging | Laying the Foundation in the First 6 Weeks

BEN’s Culture of Belonging plan outlines guidance and support for teachers to build a culture of belonging in their classrooms and across the school by focusing on relationships. In addition, the plan identifies key student behaviors, classroom and school systems, teacher skills, and academic habits that are essential for establishing a positive school environment from Day 1. Schools are expected to clearly outline and practice these systems and skills with their teachers and staff before and during the first 6 weeks of the school year. As a network, common student behaviors, teacher skills, and academic habits have also been outlined to ensure that all BEN school teams know the exemplar and can implement it on the school and classroom levels. School leadership teams are accountable for implementing the Culture of Belonging Plan with fidelity.

- [K-8 Culture of Belonging](#)
- **Culture of Belonging Playbook** | Principals will work with their manager to develop a playbook to implement, monitor and support the roll out of the Culture of Belonging (CoB); CoB data will be logged in SchoolMint in order to allow progress to be transparent to the teacher. Principals will use the playbook to monitor implementation on a daily basis and provide feedback to staff.
- **October’s CoB PD Day** | Schools will lead targeted professional development based on the CoB playbook data in October.

Communication to Staff and Families

Before the start of the year:

- Welcome Letter to Families from the School Leader
 - Communicate orientation and/or summer bridge (if applicable)
 - School uniform expectations
 - General school supplies
- Welcome Email/Letter to Staff from the School Leader
 - Include any logistics around school-based Institute PD

Weekly correspondence to staff and families:

- Correspondence includes (at a minimum) the following items:
 - Upcoming school-wide events: academic, culture, parent/community workshop/events
 - Upcoming testing dates and important testing information
 - Data highlight based on the network and/or school priorities
 - Weekly shout-outs
 - Sample “[Tune In Tuesday](#)” from Achieve sent to students in backpacks and to staff in an email every Tuesday.

Staff communication recommendations:

- Daily correspondence to applicable staff may be necessary for sub coverage plans and daily recess plans (indoor/outdoor)
- SOMs should update all staff online calendars each quarter (at least 1 month in advance)
- Schools should pick one day a week for family communication - this will allow all impacted staff to have items ready for this family packet (i.e. Flyer Fridays). SOMs will set the deadline for when all submissions are due.
- It is recommended to limit the number of daily emails and share items in the weekly updates.
- Sample daily email on “[school-wide action steps](#)”. This email should be sent to your staff by 6:00 pm daily.

Family communication recommendations:

- When a parent comes to the school for an unscheduled meeting, the parent should be directed to the office (or front desk - school discretion)
- The parent is to fill out the Meeting Request form
- Office staff will scan/email the form to the appropriate staff member. If necessary, cc the Vice Principal/Dean of Culture, SOM, or the Principal.

Exceptional Learners (ELs)

BEN believes that ensuring the success of our Exceptional Learners (students with IEPs and our Multi-Language Learners) is one of the most important jobs of all school staff. To that end, the school principal directly manages the CST Social Worker.

Role	General Description	Communication Structures
CST Social Worker	Directly case manages all students with IEPs. This includes coordinating any meetings, outside evaluations as well as coordinating with any staff who are providing service to students. Case manage <i>**based on caseload another CST SW may be added to a schools org chart</i>	Meets weekly with the principal Network EL director; on a bi-weekly basis the principal
Principal	Directly manages the CST Social Worker and ensures that all barriers to servicing students are removed; ensures IEPs are in compliance and identifies trends that may need to be addressed by other stakeholders	Meets weekly with the CST SW Attends CST meetings as required Elevates trends/issues to VPs during weekly meetings
Network EL Director	Manages the EL program for the network; works with CST SWs to ensure their school has a strong program and ensures compliance; provides PD for staff who provide support to our ELs; regularly audits IEPs	
Vice Principals	Coach and support special education and ESL teacher(s); ensures consistency of support between SPED and Gen Ed teachers; looks for trends impacting ELs	Weekly coaching with teachers; weekly tactical with principal
Special Education Teachers/ESL teachers	Provide direct service to students on the goals and objectives of their IEP or MLL plan; modifies materials as needed and provides necessary accommodations to students Collaborate with general education teachers to ensure students are supported	Weekly/bi-weekly check-in with CST case manager Weekly coaching
General Education Teachers	Collaborate with special education teachers; read and understand IEPs for students in their classes; understand each students disability and ways to support	

Ed Plan | BEN utilizes Ed Plan to write, organize and monitor all documents related to students with IEPs. The CST SW manages Ed Plan for the campus and ensures all staff have the correct access

Student Support Team (SST)

General Education Support Staff manages the Student Support Team, including I&RS and 504 processes with the Vice Principal of Culture.

Role	General Description	Communication Structures
Vice Principal of Culture		
Gen Ed Social Worker		
Dean of Students		

Substitutes

In order to limit the number of interruptions in the learning of our scholars, the following guidelines for sub coverage are to be implemented at all BEN schools:

- Admin and Ops Team will create a sub coverage schedule based on the available teacher staff, if a substitute is not available.
- All instructional staff should provide 5 days of substitute plans prior to the first day of school. Ops team is responsible for tracking the submission and location of plans - this system will be developed at the school-level.

Recommendation: Google Form sent to staff that includes staff first and last name, location of sub plans, schedule, seating charts/attendance, and other information on procedures.

Teacher Workroom Components

The ideal workplace is tailored to the character and goals of the organization, improves performance, allows teachers to realize their potential and enriches everyone’s experience. Hence, the ideal teacher workroom is optimized to support work and social interaction. It allows teachers to collaborate, generate new ideas and drive their goals forward. Optional: procedures for reserving teacher work will be managed at school-level.

Norms/Requirements in the Workroom

- Multiple workspaces for groups or individuals to meet uninterrupted during content meeting times or planning periods
- Teacher supplies needed for meetings (chart paper, smartboard, etc.)
- Necessary curricular materials (GR books, TEs, etc.)
- Make sure the space is a teacher workspace and not a teacher’s lounge (no eating) or an area for meeting with students

Teacher Documentation Drive

Each school must create a Teacher Documentation google drive that all admin have access to (This should not be a “Shared Drive” in Google).

This drive folder is primarily used to organize teacher lesson plans, culture plans, etc. In the Teacher Documentation folder, each school leader should have their own folder and inside each school leader folder, there should be a folder for each teacher/staff member they supervise (shared with the corresponding teacher/staff member). For returning staff, create subfolders for each school year (SY19_20, SY 20_21) so that teachers can access documents and update. All annotated LPs and lesson pacing documents should be stored in this folder for easy access and reference.

Folders could be organized by:

- [Teacher Documentation Folder]
 - [School Leader]
 - [Grade Band]
 - [Teacher Name]
 - SY _____
 - [Lesson Plans]
 - *Lesson Plan Pacing Spreadsheet (current year)*
 - *Annotated lesson plans (current year)*
 - [Culture Plan and Classroom Readiness Checklist]
 - Any other subfolder(s) required by the school

<Action> Prior to the start of the school year, schools must create and organize a Teacher Documentation Folder and ensure all necessary documents are uploaded for staff to update (lesson plan pacing spreadsheet, classroom culture plan, classroom readiness checklist).

School Leader Meeting Requirements

Overview of Meeting Requirements

Meeting	Who	Purpose	Frequency & Duration
Building Content Expertise + Data			
Weekly Director/VPC Check-in (SEL) (BEGIN WEEK 2)	Director/VPC	<i>Problem solve issues (tactical), prep for upcoming SST meetings, focused classroom observations/walkthroughs, focus culture initiatives/reboot, SEL staff coaching strategies, prepping for PD delivery, progress toward quarterly goals</i>	Weekly 90 minutes
Weekly Director/IL Check-in (Instruction) (BEGIN WEEK 2)	Director/IL	<i>Problem solve issues (tactical), prep for upcoming lesson/unit unpacks, focused classroom observations, looking at Teacher IP, teacher action step development, looking at student work, prepping for PD delivery, progress toward quarterly goals</i> Director/IL Check In Template	Weekly 60-90 minutes
Content Team Meetings (BEGIN WEEK 2)	Director/IL/Course Lead/teachers	<i>Weekly Content Meetings (could be lesson unpack, unit unpacks, looking at student work, SWYK data meeting, etc. - vary by grade/content)</i>	As directed 65-70 minutes
Observation Feedback			
Teacher Observations (BEGIN WEEK 1)	Admin	<i>Weekly informal or formal observations of teachers with live coaching</i>	Weekly for all teachers
Observation Feedback Meetings (BEGIN WEEK 3-4)	Admin	<i>Weekly coaching sessions. Frequency may depend on the number of teachers and teacher proficiency level; goal is weekly</i> **Principals should work with their leadership teams to ensure all OF meetings start by end of week 4 if not sooner	Weekly 40 min max
School Community Meeting			
School Leadership Team Meetings (BEGIN WEEK 1)	Admin	<i>Problem solve issues (tactical), report out on school-level data, plan for school-based PD sessions</i> SLT Meeting Agenda Template	Weekly 90 minutes
Community Meetings/ Town Halls	Admin	<i>Weekly meetings with students (see School Culture Plan for details)</i>	Weekly 25-30 minutes

(BEGIN WEEK 1)			
SST (SEL) Meetings (BEGIN WEEK 1-2)	VPC/SEL Team	<i>Problem solving issues (tactical), review data pertaining to SEL bucket (attendance, discipline, BRtS, etc.), develop action plans, plan culture events, Director provides support as needed, etc.</i>	Bi-weekly 60-90 minutes
BRtS/I&RS (SEL) Subcommittee Meetings (Begin Week 6)	VPC/SEL Team Teachers	<i>Lead meetings bi-weekly; Director provides support as needed</i>	Bi-weekly varies
SIP (School Improvement Panel)	Principal/Admin/ Teachers	<i>Coordinates the areas of teacher evaluation, mentoring, and professional development by ensuring teachers receive useful feedback on their practice/students' learning outcomes and tailored professional learning.</i>	Monthly
School Safety Team	ABS, Admin, Teacher, Parent	<i>Identify and address patterns of HIB in the school. Review and strengthen school climate and policies in order to prevent and address HIB without compromising student confidentiality.</i>	2 x per year
Network Meeting			
Executive Leadership Council (ELC)	Principals	<i>Principals and selected admin - strategic planning meeting (as needed)</i>	Quarterly All Day
Site Visits	Admin		Quarterly

Leadership Development (PLI/CLI/ILI)

(Under Construction) The development of school leaders is an important component of the BRICK Education Network. To this end, BEN ensures that leaders come together for ongoing development. The Arc of the Year for Leadership Development will be the focus of the monthly *Institutes*.

Below are the dates for our *Leadership Institutes*. **FINAL DATES shared during Leader Institute**

	Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	Mar.	Apr.	May	June
Principal Leadership Institute (PLI) 8:30 - 3:30 pm <i>Thursdays</i>	9/28	10/26	11/30	12/21	1/25	2/15	3/22	4/26	5/24	--
Culture Leadership Institute (CLI) 8:00 - 11:30 am <i>Wednesdays</i>										
Instructional Leadership Institute (ILI) 8 - 11:30 am <i>Thursdays*</i>										

Skip Level Meetings

Principals and directors of content will participate in skip meetings every 4-6 weeks.

Purpose: To share information between director and principal on the academic program

Why: Principals and Directors don't have regular meetings and it is important for the principal to hear directly about the program's implementation.

<ul style="list-style-type: none"> ● Director has prepared talking points to these questions → <ul style="list-style-type: none"> ○ Data to support ○ Qualitative observations to support ● The notes will be shared via Quick Feedback immediately after the session ● Questions and data are starting points ● Principal CAN follow-up with director afterward for more info 	<table border="1" style="width: 100%;"> <tr style="background-color: #e0e0e0;"> <th style="text-align: left; padding: 5px;">Principal may ask this...</th> </tr> <tr> <td style="padding: 5px;">"Where is my campus on target or close to target in your department?"</td> </tr> <tr> <td style="padding: 5px;">"Where does my campus need to increase urgency & support?"</td> </tr> <tr> <td style="padding: 5px;">What can I do to increase this urgency & support?"</td> </tr> <tr> <td style="padding: 5px;">"What data should I be looking at weekly/bi-weekly with my VP?"</td> </tr> <tr> <td style="padding: 5px;">How can we better work together?</td> </tr> </table>	Principal may ask this...	"Where is my campus on target or close to target in your department?"	"Where does my campus need to increase urgency & support?"	What can I do to increase this urgency & support?"	"What data should I be looking at weekly/bi-weekly with my VP?"	How can we better work together?
Principal may ask this...							
"Where is my campus on target or close to target in your department?"							
"Where does my campus need to increase urgency & support?"							
What can I do to increase this urgency & support?"							
"What data should I be looking at weekly/bi-weekly with my VP?"							
How can we better work together?							

Site Visits

Site Visits across campuses may be scheduled during the school year to allow for school leaders to norm on Arc of the Year Look Fors and develop pivots in instruction. Principals and department instructional leaders are required to be in attendance for the site visit, which will occur bimonthly for content areas. Below is an outline of the site visits that have been planned for SY 21-22 <UPDATED August 2021>:

	K-4 Math	K-4 ELA	5-8 Math	5-8 ELA	Science/SS
September	9/21		Baseline 9/13	N/A	
October	N/A	N/A	N/A	October 12th	
November	11/16	November 2nd	Arc 2 11/15	November 30th	
December	N/A	N/A	N/A	N/A	SS: December 7
January	N/A	January 11th	N/A	January 20th	Sci: January 12th
February	N/A	N/A		N/A	SS: February 8
March	3/9	March 2nd		N/A	Sci: March 30th
April	4/28	N/A		April 4th	SS: April 4 or 5 (Tentative)

[RETURN TO TABLE OF CONTENTS](#)

May	N/A	May 4th		N/A	
June	N/A	N/A		N/A	Sci: June 1st

Quarterly Data Stepbacks

As quarters come to a close, each school and department leader will report on progress to annual goals, impact of the previous quarter's action plan, and get feedback on their updated action plans based on their current data. All leadership should review and adhere to the following:

- **One Week After Quarter Ends** | Use the Department Dashboard to begin reflecting on the implementation and achievement section (not perception data), including culture data.
- **Two Weeks After Quarter Ends** | Perception data populated in Dashboard and ready for analysis and reflection by ILs/VPC and director and principal. Leaders add reflection on perception data in their documents; Final reflection is due. ILs/VPC meet with directors to review data (including survey data), finalize [slide deck](#) that encapsulates celebrations and pivots based on pre-work from director and school leader in prep for presentation to principal/leadership team week 3 after quarter ends. **Director and IL/VPC should read over each others' reflection by their meeting time.** Slide deck completed and shared with the principal.
- **Three Weeks After Quarter Ends** | IL/VPC presents data and findings/next steps for their dept(s) with principal and other instructional leaders (during leadership meeting/extended leadership meeting)

Staff Coaching and Development

Coaching Assignments

At BEN, our instructional leaders are vice principals who are responsible for coaching and developing teachers in their content areas. The table below outlines the general division of coaching assignments based in PK-8 and high school. Please review our [Organizational Structure document](#) to see reporting structures.

PK-8 Schools		High School	
K-4 VP of Math/Science		VP of English & History	
K-4 VP of Literacy/History		VP of Math and Science	
5-8 VP of Math/Science	+ Phys. Ed. + 3/4 Science	VP of VPA/CTE/PE/WL	
5-8 VP of Literacy/History	+ VPA staff + 3/4 Social Studies	VP of Culture	Social Worker School Counselors Associate Deans Student Coordinator FACE (now under Principal)
PK-8 VP of Culture	Social Worker Associate Deans FACE (now under Principal)		

BEN strives to ensure that VPs have no more than 15 to 16 teachers assigned to them. This allows each VP to adequately coach, develop and support his/her teachers to meet individual growth goals.

SY 21/22 Coaching Loads

(under construction)

Title	Achieve	Stadford Prep		
K-4 VP of Math/Science	9 math/science			
K-4 VP of Literacy/History	10 literacy/history			
5-8 VP of Math/Science	3 math/science + 3/4 Science/SS + 2 VPA + 1 SPED	2 math 1 science		

5-8 VP of Literacy/History	3 literacy/history + ESL + 1 Phys. Ed + 1 SPED	2 literacy 1 history + 1 Phys. Ed + ILT		
----------------------------	---	--	--	--

** Instructional aides are assigned to the VP coaching the teacher s/he is assigned to (split for K-3)

Note: In schools that have a PK program, a VP meets bi-weekly (at minimum) with PK Master Teacher for check-in and walks. Master teacher coaches PK teachers (AotY and OF meetings) and supports VP in formal evaluations.

Tier I SEL Curriculum Implementation

At BEN, our instructional leaders oversee and support Tier I SEL curriculum implementation with the support of the Principal and VPC. This includes (not limited to) observing and coaching during morning meetings/advisory and leading/co-leading Community Meetings/Town Halls. Schedules must reflect this expectation.

Instructional leaders conduct weekly observations of Morning Meeting using the [Morning Meeting and Advisory Observation Checklists](#) and collect glows and grows in SchoolMint. Leadership teams work together to identify trends, develop action plans to address the trends, provide additional PD, feedback, etc. to teachers and then monitor implementation.

Instructional Vice Principal Schedules & Time Allocations

The table below is a rough estimate of the time allocations for VPs week to week. This table is a general guide as leaders think about how they are spending their time. The table below counts only periods within the school day, not before/after school time.

	K-8 Week A		K-8 Week B		High School	
O/F Meetings	10	26%	10	26%	10	36%
School LT Meeting	2	5%	2	5%	2	7%
O/F with Principal	1	2.5%	1	2.5%	1	3.5%
ALT Director Check-In	3	8%	2	5%	2	7%
Lesson/Unit Unpacks	2	5%	2	5%	2	7%
Total	18	46.5%	17	43.5%	17	60.5%
Classroom Obs	13	33.5%	11	28%	7	25%
Preparation	8	20%	8	21%	4	14%
Total	39	100%	39	100%	28	100%
Notes	Counts 3 "periods" on Friday in total All admin are required to attend/support Fun Friday				Does not count Fridays Includes 2 lesson unpacks the VP is Course Lead for	

		O/F Meetings	Observations	Other
Tier 1	Heavy Support	Weekly O/F	2-3 per week	Daily check-in Quick Pop-Ins
Tier 2	Medium Support	Weekly O/F	2 per week	Quick Pop-Ins

Tier 3	Some Support	Bi-Weekly	1 per week	
--------	--------------	-----------	------------	--

** Observations could be targeted times of a lesson or short bursts of observations and real time feedback.

Instructional leaders are expected to outline their ideal schedules in their SLT Meeting Agenda to ensure their time is allocated based on the table above. Leaders should then build their calendar in Google Calendar and invite the relevant attendees, if appropriate.

K-8 VP of Instruction | Week A
12 teachers Total | 4 teachers bi-weekly

		Monday	Tuesday	Wednesday	Thursday	Friday
7:30-7:50	7:30	Arrival	Arrival	Arrival	Arrival	Arrival
	7:35					
	7:40					
	7:45					
	7:50					
7:50-8:00	7:50	Supervise Transition	Supervise Transition	Supervise Transition	3-4 Community Meeting (8:00-8:30)	K-2 Community Meeting (8:00-8:30)
	8:00					
	8:05

Culture Vice Principal Schedules & Time Allocations

The table below is a rough estimate of the time allocations for culture VPs week to week. This table is a general guide as leaders think about how they are spending their time. The table below counts only periods within the school day, not before/after school time.

	K-8 Week A		K-8 Week B		High School	
Coaching Meetings	6	25%	6	22%	6	27.3%
School LT Meeting	2	8%	2	7%	2	9%
O/F with Principal	1	4%	1	4%	1	4.5%
ALT Director Check-In	2	8%	2	7%	2	9%
CLPD	0	0	3	11%	-	-
SST Meetings	2	8%	0	0	2	9%
SST Subcommittees	0	0	1	4%	1	4.5%
SEL Advisory Council	0	0	1	4%	1	4.5%
Total	13	53%	16	59%	15	67.8%
Observations	3	13%	3	11%	3	14%
Preparation	8	34%	8	30%	4	18.2%
Total	24	100%	27	100%	22	100%
Notes	<i>Counts 3 "periods" on Friday in total All admin are required to attend/support Fun Friday</i>				<i>Does not count Fridays Includes 2 lesson unpacks the VP is Course Lead for</i>	

Culture leaders are expected to outline their ideal schedules in their SLT Meeting Agenda to ensure their time is allocated based on the table above. Leaders should then build their calendar in Google Calendar and invite the relevant attendees, if appropriate.

SchoolMint and Frequency Expectations

SchoolMint is the online platform schools will use for planning observation feedback meetings/coaching, action steps, formal observations/evaluations, Arc of the Year feedback, lesson plan feedback, and Morning Meeting/Advisory feedback.

At the start of the school year, SchoolMint rosters will reflect coaching loads at each respective campus. Bamboo (HR site) will sync with SchoolMint. However, if there are gaps or issues with the data in SchoolMint, please follow this workflow when updates are required.

SchoolMint Maintenance		
Update Meeting Frequency	Change in Supervisor or Staff Info	New Staff Member Joins Network
IL notifies the Principal of change to meeting frequency.	IL/Principal notifies Sabrina of the required change.	Bamboo contacts Sabrina for a new staff member and role.
Principal updates meeting frequency in SchoolMint and notifies IL when the update is complete.	Sabrina notifies IL/Principal when the update has been completed.	Sabrina adds to SchoolMint and notifies Principal/IL.

During the school year, school leaders should document feedback in SchoolMint according to the following guidelines:

Type of Feedback	Frequency
IPDP/CAP	Once per year
Formal Observation	2-4 depending on if Tenured/Non-Tenured and final rating from previous year
Mid-Year/Annual Evaluations	Each required once per year for all (for Mid-Year, only Comp 4 is rated)
Observation Feedback Meetings/Action Steps	Weekly or Biweekly based on teacher development needs with Action Steps
Arc of the Year (AotY)	Weekly for ELA, Math, Science, SS
Lesson Plan Feedback	Weekly for all
Morning Meeting/Advisory	Biweekly for all

Using SchoolMint Video App

Starting SY 21-22, schools will have access to share videos during coaching sessions and teachers can share videos of them implementing a strategy they practiced during a coaching session. This feature will allow staff to edit, add timestamps, and share final videos.

Here are helpful step-by-step instructions:

1. [How to upload to the Video Hub](#)
2. [How to share a video in Video Hub](#)

[RETURN TO TABLE OF CONTENTS](#)

3. [How to collaborate around a video in Video Hub](#)
4. [How to access SchoolMint Video App](#)
5. [How to use the SchoolMint Video App](#)

Staff Evaluation Resources

IPDP/CAP

[Leader Goal Setting Form Reflection Template](#) | Leaders can make a copy of this document to complete their independent reflection and submit to their manager for review prior to stamping in SchoolMint

[Teacher Goal Setting Form Reflection Template](#) | Leaders can make a copy of this document and share with each of their teachers for independent reflection

[Non-Instructional Goal Setting Form Reflection Template](#) | Leaders can make a copy of this document and share with each of their non-instructional staff for independent reflection

Mid-Years

Mid-years will be completed for all staff using Domain 4 only. Use the [Mid-Year Evaluation Guidance Doc](#) (updated each year) for language and guidance. When conducting mid-year meetings with teachers, remind them that the mid-year observation only includes ratings for Competency 4; the final observation will include evidence for ALL Competencies.

Leader Mid-Year/Annual Observation Guidance

The purpose of the leader mid-year is for the leader and his/her manager to check-in against expectations to determine celebrations and focus areas. *The goal of this practice is reflection and not writing a novel to substantiate a rating.*

School Leader Culture Reflection	School Leader Instruction Reflection
--	--

<ACTION> All leaders (principal, VPs of Culture & Instruction) should make a copy of the doc linked above and reflect on the level of effectiveness on each of the indicators. Leaders must select a rating and add general strengths and growth areas and his/her manager must do the same ahead of the meeting. During the mid-year/annual conference, the leader and his/her manager will discuss each indicator and review evidence as needed where discrepancies in ratings may exist.

Summer Institute & BEN PD

BEN Basecamp | New Teacher Professional Development

For all new staff or returning staff in new positions, the network will organize New Teacher Professional Development 3 days prior to the official Summer PD for returning staff. These staff members will receive 101 PD on content and SEL material, along with an Orientation and new teacher Taxonomy PD.

During Basecamp, school leaders ensure that staff attend sessions, monitor attendance and staff investment and ensure all pre-work is completed as scheduled. Leaders may be asked to attend sessions to provide additional support to their teachers.

Summer Staff Institute | All Staff Professional Development

Summer Staff Institute is a collaboration between the network and schools to ensure all staff members are well equipped to begin the school year. This will take place in the last two weeks in August. The 2021 Staff Institute will include one full day at Princeton-Blairstown Center building community, connection and communication.

	Total Number Of Sessions <i>*Count excludes Day 1</i>	Network Based	School Based
Summer 2019	35	16 (46%)	19 (54%)
Summer 2020	35	14 (40%)	21 (60%)
Summer 2021	38	14 (37%)	24 (63%)
Summer 2022			

BEN school leaders and network staff develop and lead professional development during Institute. School leaders ensure that staff attends sessions, monitor attendance and staff investment and ensure all pre-work is complete. School leaders will have their own schedule for sessions they are attending or leading and are expected to attend those sessions as active participants, unless leading. If a school leader is asked to lead network PD, s/he will be asked well ahead of time to properly prepare.

Prior to Summer Staff Institute, staff will receive communication from the BEN that includes directions on how to access the prework (located on the [BEN Resource Page](#)) along with logistical information for successful participation in Institute. When staff arrive on the 1st day, personalized schedules will be distributed. These schedules will only include network PD titles; school-based PD placeholders will be included on schedules but topics will be determined by school-based leadership. Schools are encouraged to provide communication to their respective staff on their school-based schedules.

BEN PD - Network and School Rotation

All BEN schools are required to build a weekly schedule that allows for a 1pm dismissal one day a week. BEN staff will engage in network or school-based PD/meetings. School leader and teacher attendance is required for these sessions. The PD Scope and Sequence will be linked on the [BEN Resource Page](#).

Network PD/Meetings	School-Based PD/Meetings
<p>All Network meetings will take place in person or virtually. Schools must operationalize dismissal to allow instructional staff/admin to leave school sites for prompt PD start time of 2:00 pm</p> <p>2:00 to 4:15 pm - Content/SEL Team Professional Development</p> <p>Schools may decide to have a school-based meeting before the network meeting starts. That will be at the school's discretion. All staff must still arrive for a prompt start of 2:00 pm.</p> <p>All directors and school leaders are to be engaged in the PD by modeling session norms.</p> <p>School leaders accurately track attendance and any prework.</p>	<p>All school-based meetings will take place at individual school sites.</p> <p>School level leadership teams will plan for staff meetings, staff committees, or school-specific PD.</p> <p>Staff meetings should occur monthly (at a minimum)</p> <p>Staff-Based PD/Meeting topics are to be organized on a planning document and shared with the Superintendent for feedback at least 1 week prior to scheduled date</p> <ul style="list-style-type: none"> ○ Leaders use tab in Tactical agenda to plan

	8 (Content/SEL)		1 (Whole)		
SY 22-23					

School-Based Interim Analysis

During each interim cycle, interim scoring and analysis will occur during school based PD. In particular, the early dismissal day during the week of interims will be used for scoring and the following week's early dismissal days will be used for analysis and planning. Schools are responsible for organizing this time for impacted staff and planning accordingly for non-interim instructional staff.

Network Wellness Days

For three (3) days a year, all Network teachers/TAs will be permitted to leave at 1pm. It is the responsibility of each campus to properly notify staff and establish a dismissal procedure to allow for timely dismissal. School leaders will be responsible for addressing late pick-up students. The following dates are the Wellness Days for SY 21-22:

Achieve	Stadford
Friday, October 1, 2021 Friday, January 28, 2022 Friday, May 27, 2022	Wednesday, September 29, 2021 Wednesday, January 26, 2022 Wednesday, May 25, 2022

Network Communication and Support

Leadership Matters and BEN Resource Page

School leaders will receive network updates from weekly communication called Leadership Matters. Leadership Matters, Network PD, guidebooks, and content scope & sequence documents, along with other network reference materials, will be organized on the [BEN Resource Page](#). School leadership teams should use the information to plan for implementation at their individual schools.

- Pro Tip: integrate reviewing components of Leadership Matters into each week's *Leadership Team Meeting*.

Leadership Matters:

- Goal: the goal of leadership matters is to limit one off emails to multiple people over the course of the week and to push teams to proactively plan communication to leaders across the network
- Content: Departments provide key updates to leaders to ensure consistent and documented communication. Leaders can go back to LM to confirm or review information. Departments are encouraged to identify items that impact multiple stakeholder groups and should be clearly communicated weekly

Academic Leadership Team Directors

ALT directors meet either weekly or bi-weekly with respective VPs to discuss, plan and observe the program. VPs are asked to ensure meeting times are kept sacred and if an emergency arises, contact the director to reschedule. VPs and directors should complete all pre-work and/or materials prep prior to the scheduled meetings to ensure efficient use of time.

All members of the ALT

- Monitor program implementation and holding admin accountable through difficult conversations, problem-solving and support
- Carry out BRICK's core values through all actions and conversations
- Provide initial and ongoing professional development for staff

Academic Directors

- Research, design, plan, and turn-key BRICK's academic program & make revisions as needed
- Provide high-quality materials for students and teachers
- Support ILs in the implementation of the program and building his/her content expertise (weekly/biweekly Director/IL meetings)
- Provide ILs with action steps on program implementation through SchoolMint

Pre-K Master Teacher

- Research, design, plan, and turn-key BRICK's Pre-K program & make revisions as needed
- Provide high-quality materials for students and teachers
- Coach and develop lead teachers and assistants and provide action steps in SchoolMint
- Co-observe with ILs to complete formal observations
- Meet bi-weekly with IL for walk-throughs and overall program implementation feedback

Director of Special Education

- Co-manage CST case managers with school leaders
- Meet bi-weekly with principals (who oversee CST at the school level)
- Provide training and support for special education teachers and CST case managers regarding special education law and compliance

RETURN TO TABLE OF CONTENTS

- Support school leaders with steps for responding to academic and behavior programming for special education students

Director of Student Supports

- Research, design, plan, and turn-keying BRICK's SEL program & make revisions as needed
- Provide Culture Leaders with action steps on program implementation through SchoolMint

Course Leads

- *Note: course lead roles are activated for grades/contents that are across multiple schools; positions are dependent on funding*
- K-8 ([job description](#))
 - Lead unit and lesson unpacks for one grade level subject area (2 in science and SS)
 - Meet regularly with ALT director to prep for unit and lesson unpacks
 - Solicit feedback and trends from ILs in all campuses and integrate into unpacks
 - Regularly communicate with IL assigned to his/her grade level for feedback and trends
- HS Department Course Lead ([job description](#))
 - Lead department course meetings, including unit unpacks, for 2-3 courses
 - Meet regularly with ALT director to prep for course meetings
 - Solicit feedback and trends from ILs in all campuses and integrate into course meetings

Independent Learning Time Leaders

- Work directly with content area IL to ensure programming and student supports are in place
- Attend network PD in the content area
- Adhere to scope and sequence outlined in respective content guidebooks.

Planning and Preparation

K-12 Network Unit and Lesson Unpacks

Lesson unpacks are centralized at the network level and led by ILs, directors, and/or course/department leads. These times are built into teacher's schedules and should not be adjusted. Lesson unpacks happen weekly during the outlined time. The facilitator of the unpack will record attendance and resources will be linked on the Lesson Unpack website. Centralized calendar invites will be sent by the ALT/Course Lead to teachers and their respective leaders.

Unit unpacks happen periodically throughout the year. Typically, unit unpacks happen about every 3-4 weeks. Given the schedule, additional coverage may need to be provided for Morning Meeting times to ensure 100% attendance of teachers.

The role of leaders in unit and lesson unpacks:

- Ensure pre-work is completed by his/her teachers
- Check attendance in the Unpack Scope and Sequence Document
- Attend the lesson and unit unpack for the assigned grade level
- Watch segments of unit and lesson unpacks not attending to keep up to date on content roll out

K-4 Math/Science Teachers & Leaders			
	Lesson Unpacks	Unit Unpacks	Notes
K Math	Wednesday 7:50 - 9:00

Co-Teaching in Grades K-2

Co-teaching is an essential part of BRICK Education Network’s K-3 model. Both teachers in the classroom should be completely prepared for the day’s lessons to ensure learning is maximized. When teachers are co-teaching, the expectation is that both teachers are engaged in the lesson and that both teachers are circulating and providing feedback to students. During Guided Reading and Reading Mastery, both teachers should be monitoring their own groups as well as the independent groups in the classroom to ensure all behavioral and academic expectations are being met. Both teachers own all data for their collective classroom.

A successful co-teaching classroom is one in which observers do not know who is the more experienced teacher or the less experienced teacher because students view them in the same way and there is a culture of feedback and mutual respect in the classroom. Observers can and are encouraged to provide feedback to either co-teacher, regardless if the teacher is under the IL’s direct supervision or not.

	Co-Teaching	ELA Planning Time	Math/Sci Planning Time
K-1	Guided Reading/Reading Mastery, Writing, Math Core Lesson, Math Power-Up	Science/SS; Enrichment	SRA, Enrichment
2	Guided Reading/Reading Mastery, Writing, Math Power-Up Close Reading (1x week on Fridays)	Science/SS; Enrichment	SRA, Enrichment
3	Math Power-Up	Science/SS, Math Core Lesson, Enrichment	Lit Block, GR, Writing, Enrichment

Prep Responsibilities:

- **Math/Science/RM Teacher:** when not co-teaching, plans and preps for two (2) Reading Mastery groups, two (2) DDI groups, Math Core Lesson (prep manipulatives), Math Power-Up, Science/Social Studies (preps investigation materials, etc.), morning meetings
- **Literacy Teacher:** when not co-teaching, plans and preps for four (4) guided reading groups, SRA, Writing, Internalize Math lesson (M-TH), reviews plans for Math Power-Up morning meetings

Co-planning is a time when co-teachers plan together to prepare for lessons throughout the week for co-teaching blocks. Co-Planning should happen during scheduled enrichment periods and should include:

ELA	Math	Culture
Review STEP data to develop a plan for targeted skills review <ul style="list-style-type: none"> • align letter/sound ID, sight word, phonemic awareness drills Look at student work from the Writing Block to identify trends	Math teacher turn-keys upcoming math lesson plan with co-teacher <ul style="list-style-type: none"> • both teachers should have/complete exemplars • use data to identify pathways for aggressive monitoring, can also focus on a group of students from Exit Ticket data 	Check in about culture of the classroom (i.e. going over what is working/what is not, ensuring both people know their roles in the classroom) <ul style="list-style-type: none"> • Ensure SEL focus skills are embedded into ELA & Math lessons

<ul style="list-style-type: none"> plan for small group or parallel teaching in Writing 	<ul style="list-style-type: none"> plan skills to review during Power-Up 	<ul style="list-style-type: none"> Discuss trends highlighted from iDreams scores
--	---	--

Intellectual Prep & Feedback

Teachers will be required to annotate lessons and complete exemplars for every day of instruction as designated by each department. These steps will provide teachers the opportunity to internalize high-quality lessons before delivering them.

Scope and Sequence/Pacing

Scope and sequence pacing documents are linked to the [BEN Resource Page](#) and teachers/IL should refer to it on a daily/weekly basis. Since unit unpacks and lesson unpacks are scheduled on the network level, it is crucial that teachers adhere to network pacing guidelines. If a teacher falls behind, he/she should work with their direct IL to get back on track, whether it is to use flex days or combine lessons. ILs will closely monitor pacing expectations at their respective schools within the network to ensure fidelity.

Teachers are required to use a pacing Google Sheet to plot out lessons to organize and plan for small group instruction. This document should be completed using the pacing guide provided by the department. Co-teachers should use this document to organize their plans and keep up to date (K-2 ELA and Math Leads - complete one document per team). These files should be kept in each teacher's Google Drive [Teacher Documentation Folder](#) is shared with their IL. **ILs should check for completion.**

- **<Instructional Leader Action>** Place a copy of the pacing document in a teacher's documentation google folder. Title of document: LastName.FirstInitial | Lesson Plan Pacing SY20_21

Lesson and Unit Unpack Prep

For lesson unit unpack prework, teachers are required to submit pre-work to the IL (cc course lead/department course lead). Admin should follow up with the teacher if prework has not been submitted, not the course lead/department lead.

Intellectual Prep Submission

With most lessons already created, weekly annotated lesson plans are to be submitted via scan or copied to your direct IL and placed in the [Teacher Documentation Folder](#). Lesson plans are due (at least) by 8am on Wednesdays before implementation (may be adjusted by school). Adhering to this due date will allow all teachers to be prepared for Lesson Unpacks while also allowing for sufficient time to make adjustments based on feedback prior to execution. *Follow progressive discipline protocol for late or no submission of LPs.*

Lesson plan submission will be recorded in SchoolMint, where teachers will receive two rubric scores:

- Submission score for completion
 - 3 - All LP submission guidelines have been met and is on time
 - 2 - Most LP submission guidelines have been met and/or is late by 1 day
 - 1 - Some LP submission guidelines have been met and/or is late by 2-3 days
 - 0 - Little or no LP submission guidelines have been met and/or is late by 4+ days
- Score for adherence to pacing expectations according to Scope and Sequence
 - 3 - on pace
 - 2 - one lesson off pace
 - 1 - two-three lessons off pace
 - 0 - four+ lessons off pace

Posting of Lesson Plans

Teachers are required to make a second copy of their final annotated lesson plans (including annotated texts, etc.) and make them available outside their classroom door on a daily basis. Refer to the [Instructional Guidebook](#) for more details.

Rationale: *Annotated LPs allow for any coach (IL or director) to effectively support and develop based on the current material being presented. Prior to providing feedback, any coach should first look over the day's lesson plan to get an overview of the student activities and exemplars.*

Master Schedule Guidance | K-8

The BEN master schedule is designed to ensure that the BEN instructional model is able to be carried out with fidelity. BEN has created a blueprint master schedule that schools may slightly tweak to meet their individual staffing needs and constraints. All master schedules are reviewed by the regional and network leads to ensure consistency.

Critical Times:

- 7:30 am | doors open for breakfast
- 8:00 am | 10 minute transition and unpack in classrooms
- 8:10 am | Instruction begins
- 3:50 pm | Dismissal Monday to Thursday
- 1:00 pm | Dismissal on Friday (NJ)/Wednesday (NY)

Structure of Schedule:

The schedule was built with alternating periods of 45 and 50 minutes. This maximized time because most periods are double blocks. The timing is built on 5 minute increments.

12:15	<i>iDREAM Scores</i>	Transitions & Timing Transitions have been built into the schedule in 5 minute increments to provide travel time to/from destinations.
12:20	Transition	
12:25	Recess 12:25 -12:45	<ul style="list-style-type: none"> ● The example below means that between 12:15 and 12:20 iDREAM scores are put in. ● From 12:20 to 12:25, the class is transitioning to Recess. The class MUST arrive at recess by the next time increment, in this case 12:25. ● The class must arrive in the lunch room by 12:45 and finish eating by 1:05. ● The class transitions to next period/location from 1:05 to 1:10; at 1:10 the Lit Core Lesson must begin
12:30		
12:35		
12:40		
12:45	Lunch 12:45-1:05	
12:50		
12:55		
1:00		
1:05	Transition	
1:10	Lit Core Lesson	

“iDREAM Scores” (BLUE)

The schedule must include 5 minutes throughout the day at the conclusion of a subject or period of time where the teacher records the iDREAM score in Kickboard. Teachers **MUST** use the time allocated in the schedule to record iDREAM scores to ensure 100% of scores are put in. The example above means that between 12:15 and 12:20 iDREAM scores are put in.

- Grades K-2 | 4 scores Monday to Thursday; 3 scores Friday
- Grades 3-8 | 5 scores Monday to Thursday; 4 scores Friday

Breakfast

Each school can begin serving breakfast as early as 7:30 am. All students must be offered a breakfast (“Breakfast After the Bell”), despite their arrival time. After 8am, arriving students should be able to pick up breakfast before arriving to class. Teachers should build a system to ensure students can quickly eat their breakfast and then join instruction.

- **<Operations Action>** Build system for breakfast procedure, including supervision

Morning Meetings

All K-8 classrooms begin the day with Morning Meeting from 8:00 - 8:30 am four days per week. This time should be held sacred and all students should be engaged in the lesson beginning at 8:00 am sharp.

Community Meetings

All grades engage in a Community Meeting/Town Hall once per week. The goal of these weekly community meetings are to celebrate success (iDREAMers, honor roll, etc.) as well as build community and roll out SEL related themes and priority messages. The meetings are built around specific grade bands:

- Grades K-2 on Fridays
- Grades 3/4 on Tuesday
- Grades 5/6 (school decision)
- Grades 7/8 (school decision)

These meetings are organized by the culture team and led in conjunction with other admin. Students in grades 3-8 transition directly from breakfast/arrival to community meeting and then to class. Students in K-2 transition to their classroom, unpack and then back to Community Meeting.

- **<Operations & Culture Action>** Identify when each grade band will host their Community Meeting; build school wide procedures to ensure efficient arrival and dismissal within the time constraints.

Convocations

Schools may elect to host a Monthly Convocation where multiple grade bands come together. During these Convocations, the focus may be on recognizing attendance, honor roll or some other school wide initiative. Just like Community Meetings, students in grades 3-8 transition directly from breakfast/arrival to community meeting and then to class. Students in K-2 transition to their classroom, unpack and then back to Community Meeting (Fridays only).

- **<Operations & Culture Action>** Identity purpose and cadence of Convocation Meetings

Lunch Periods

Transition	10:55	Transition	<p>All staff members on the school’s SEL team (Social Workers to observe student dynamics and build relationships) and selected Ops team will be responsible for leading and running lunch and recess according to the expectations and procedures outlined in the individual school’s culture plan. Instructional Admin may serve as substitutes on an as-needed basis but schools are encouraged to develop a plan to avoid this option. Schools may also assign instructional staff, including enrichment staff members, to assist with lunch.</p> <p>Lunch/Recess times have been allocated in the schedule and should not be adjusted. At full scale, a maximum of 9 classes will have lunch at any one time.</p> <p>Recess is mandated 20 minutes/day by the state (except on early dismissal days). Schools can determine which classes should go to lunch and which should go to recess first. Each class’ schedule should be adjusted accordingly. Keep in mind that your MBM for lunch/recess should include the timing to get from the playground to the lunch room, etc.</p> <p>Early Dismissal Days</p> <p>Students in grades K-3 eat in their classrooms from 11:30 to 11:50 am and are supervised by their homeroom teachers. The lunches should be bagged and easy to clean up.</p> <p>Students in grades 4-8 are provided a “Grab-n-Go” lunch on their way out of the school building.</p>
<p>Period 4 11:00-11:45 (45 min)</p>	11:00	<p>[Lunch/Recess] 11:00-11:20</p>

4:00	Dismissal	
4:05		

K-4 Fun Friday/iDREAM Dollar Store

All schedules include the Fun Friday/iDREAM Dollar Store time weekly - this ensures that instructional time is not lost for the positive behavior system. SEL teams will work to plan these events and roll out to staff and students.

All staff members are available to assist with Fun Friday and/or iDREAM Dollar Store.

11:25	Transition	Lunch 11:30-11:50	<p>All students who achieve Level 2 or 3 iDREAM status are invited to participate in Fun Friday or the iDREAM Dollar Store. Students should be grouped based on participation during the end of the lunch period (K-3) and ready for pick-up or are escorted to the event.</p> <p>Schools are advised to alternate their K-2 and 3/4 events to maximize their schedule. On a week when K-2 is having Fun Friday, grades 3/4 should have an iDREAM Dollar Store.</p> <ul style="list-style-type: none"> ● MBMs must be completed by SEL/OPs for all Fun Friday/Dollar Store events ● Classes arrive to the event by 11:55 amd and leave the event by 12:40 pm ● There is a 5 minute transition included as well as a 20 minute pack-up and dismissal. ● <Operations & Culture Action> Create a calendar of alternating events (using provided templates)

5-8 Fun Fridays

All schedules in grades 5-8 include a 5th period devoted to Fun Friday. The schedule in grades 5-8 is flexible and can be tweaked to provide different times for Fun Friday events (although the gym might not be available). For example, grades 5/6 might have Fun Friday period 3 and 7/8 might have it period 4. Schedules should account for enrichment teachers being able to participate. Students in grades 5-8 have more investment in free time or open gym rather than iDREAM Dollar Store

- **<Operations & Culture Action>** Work to create the best option to maximize the Fun Friday events
 - Additional guidance will be provided for 5-8 Fun Fridays

Revised Schedule Expectations

In order to ensure maximal instructional time for subject areas, schools are expected to create revised schedules on certain days. The network may help arrange these schedules to ensure norming can occur.

- K-8 MAP Testing (2 times per year)
- K-12 Interim Testing (4-5 times per year)
 - Subject areas should have part of the afternoon to begin scoring their assessments on their day(s) of testing
- Content PD (if applicable)
 - Grade band content PD in areas like 5-8 ELA or 5-8 math, etc.

Science and Social Studies Scheduling

The chart below outlines the frequency, per week, of the class occurring. NJ students in grades 5 and 8 take the NJSLA Science and have science 3 days per week. Students will remain in this schedule/frequency for the duration of the year.

Grade	Science	Social Studies
3	2 days/week	2 days/week
4	2 days/week	3 day/week
5	3 days/week	2 day/week
6	2 days/week	3 days/week
7	2 day/week	3 days/week
8	3 days/week	2 day/week

Master Schedule Action Steps | May to June:

- Reconcile where a homeroom was removed (mostly C sections)
- Identify classroom locations (account for science rooms, classes that switch, etc.)
- Work with SEL team to identify when grades 5/6 and 7/8 will have community meetings and adjust the schedule to reflect accordingly to include 30 minute meeting (starting at 8) and a 5 minute transition back to class
 - Use K-3 as an example with Friday meetings
- Adjust lunch/recess assignments for all classes
- Build Staff Schedules
- Build Student Schedules
- Build Daily Schedules (Monday to Friday)
- Operationalize transitions - who goes where, pick up who, etc.

Action Steps | July to August 1

- Use org chart to identify/enter teacher's names on individual schedules
- Assign colleges to each homeroom (Keep the 5-A, 4-A, etc.)
- Update schedule to include pack-up and transition (see end of day section above)
- Build schedule in PowerSchool

Visual and Performing Arts Continuum

It is important that students are provided with opportunities to explore the visual and performing arts. These opportunities allow students to not only learn critical content and knowledge but to also explore their identity within these disciplines. To the greatest extent possible, schools should schedule students into VPA classes as outlined below. In schools where sufficient staffing is not available, modifications can be made.

Connection to High School Programming

Upon matriculation into high school, ninth students may have the opportunity to spend a quarter exploring the different pathways available to study. Students are immersed into introductory courses in culinary, music, dance and theater where they learn of the multi-facets of the discipline and are explained the course of study in grades 10-12. This pathway is alongside a rigorous academic program. Note: schools may not have the opportunity to offer culinary instruction in grades 3-8.

Programming in Grades K-8

Grade Span	Programming	Rationale	Scheduling
K-1	Assigned classes <i>Students receive general studies in music and art for ½ the year in each discipline.</i>	Visual Arts and Music <i>Students begin to build a strong foundation in music and visual art.</i>	<ul style="list-style-type: none"> • K begins with art and ends the year with Music • G1 begins with music and ends with art • K/1 schedules are switched after Q2
2-4	Assigned classes <i>Students spend 1/3 of the year in a specific discipline and are taught how the trajectory will unfold over grades 5-8 if they decide to focus in that discipline.</i>	Visual Art (grade 2), Dance, Music and Theater <i>Students continue to build their art and music foundation and dance, music and theater are layered in. In grades 3 & 4, Visual Arts integration is included during one trimester of music</i>	<ul style="list-style-type: none"> • Trimester dates are set • Grade level schedules rotate each trimester (3-A becomes 3-B, etc.)
5-6	Elective classes (½ year) <i>Students have the option of switching their elective at the mid-year but also have the opportunity to study their elective for the whole year.</i>	Visual Art, Dance, Music and Theater <i>Students have the opportunity to study their elective for the duration of the year or can sample other electives throughout 5th and 6th grade. By the end of 6th grade, students should have selected a discipline to study for 7th and 8th.</i>	<ul style="list-style-type: none"> • 5/6 elective A (includes art) • 5/6 elective B (includes music) • Q1/Q2 - 3 days per week • Q3/Q4 - 4 days per week
7-8	Elective classes (full year) <i>Students spend the full year in grades 7 and 8 studying their selected discipline.</i>	Visual Art, Dance, Music and Theater <i>Students select an elective to study for the entire year.</i>	<ul style="list-style-type: none"> • 7/8 elective A (includes art) • 7/8 elective B (includes music) • Q1/Q2 - 3 days per week • Q3/Q4 - 4 days per week

Grades K-1 Half Year				Grades 5-8 Full or Half-Year			
	Q1 & Q2	Q3 & Q4			Choice 1	Choice 2	Choice 3
Kinder	Art	Music		5/6 A	Dance	Theater	Art

Elective 7/8 Year 1	1 year	1 year	1 year	1 year
Elective 7/8 Year 2	1 year	1 year	1 year	1 year

Physical Education

In quarter 2, students will engage in their health unit of study. This will coincide with weather and the potential need to be indoors or have the gym be used for indoor recess.

Network Testing Requirements

Outside curricular based assessments, BRICK Education Network teachers are required to administer network-wide assessments. School sites and teachers will plan and incorporate student investment strategies. All schools leadership teams are to ensure all testing is completed within 48 hours. Testing memos will be added to Leadership Matters; memo will include process plans with due dates and other resources for a successful administration. In order to achieve 95%+ completion rates, testing coordinators update the completion tracker (shared by the network) at the end of each day of regular testing and makeup testing.

Testing Coordinators

All schools should have two testing coordinators - one instructional and tech focused. This should be the SOM and an instructional VP.

	Instructional Admin	Tech Admin

High School		

SAT (High School)

Although some colleges and universities are moving away from using the SAT and ACT for admissions criteria, we know that the results allow students to see how their performance compares to students across the US. Beginning in the 2020/2021 school year, BEN will phase in using SAT Interims for students in grades 9-12. The goal is to spend year 1 putting the SAT in place as part of an academic culture shift and build investment with leaders, teachers, students and families.

Year	Technical Work	Adaptive Work
2020/2021	<ul style="list-style-type: none"> ● Administer SAT Practice Tests/Interims 3 times (Fall, Winter, Spring) ● Create “Assessment” in illuminate for students to record answers; use PDF in Illuminate to solve ● Use Fall SAT as the baseline assessment to tier students for SGOs in content areas (creates a standard starting point for people) 	<ul style="list-style-type: none"> ● Build investment in SAT as a measure of student success ● Invest ALL staff in the holistic contribution to improving scores - not just math and english. ● Explore domains and dimensions and analysis reports to track student progress over the year ● Invest staff and students in progress over the year as both individual students and grade levels ● Discuss connections to the taught curriculum; highlight areas where this is strong correlation and places there is less ● Educate students on SAT components and its impact on college admissions ● <i>Leverage Counselors to do much of this adaptive work alongside teachers and leaders</i>
2021/2022	<ul style="list-style-type: none"> ● Administer SAT 3 times (Fall, Winter, Spring) (TBD if we increase) ● Include ONE SGO as a grade level? Or Individual (to build collective efficacy) 	<ul style="list-style-type: none"> ● Continue 20/21 adaptive work ● Layer in SAT prep outside of core content ● Invest students in analysis of individual score reports to self-identify gaps
2022/2023	<ul style="list-style-type: none"> ● Administer SAT 6 times ● Included in SGOs - as a grade level? Or Individual? 	

PSAT/SAT schedule (Under Construction)

	Fall Administration		Winter Administration	Spring Administration	
9th grade (3)	September 18: SAT Baseline (BEN provided)		February 5: SAT Mid-Year (BEN provided)	June 16: SAT End of Year (BEN provided)	
10th grade (4)	September 18: SAT Baseline (BEN provided)		February 5: SAT Mid-Year (BEN provided)	April 16: School Day PSAT10	June 16: SAT End of Year (BEN provided)
11th grade (4)	September 11 Khan SAT Full Length baseline test*	October 29 PSAT School Day	February 5: SAT Mid-Year (BEN provided)	April 27: School Day SAT	June 16: SAT End of Year (BEN provided)
12th grade (4)	September 11 Khan SAT Full Length baseline test*	October 14 SAT School Day	February 5: SAT Mid-Year (BEN provided)	May 28: SAT End of Year (BEN provided)	

*Once students take the SAT Full Length Test in Khan, they will receive an individualized study plan leading up to their specific day of testing (10/14 or 10/29); students will be on a self-directed pathway to SAT prep leading up to their SAT and progress can be monitored by advisors and ELA and math teachers.

BEN Provided SAT Baseline, Mid-Year and End of Year Tests: we will use College Board released practice tests and all grades will take the released SAT test (there are not released practice PSATs to administer, which is why everyone takes the practice SAT tests)

Test Administration

Students will take the test in Illuminate. They will see the PDF version of the test, read a question, use scratch paper for any work that might be required and then select their answer in Illuminate. This method is as similar to paper and pencil administration as possible. All questions are tagged to domains and dimensions so we will be able to see how students did in specific areas.

Administration schedule for Baseline, Mid-Year and End of Year BEN Provided SAT.

8:45 | Grade Level Convocation

9:00 | Meet in testing groups to begin SAT Baseline

9:00 - 12:30 | Test administration (test is timed at 3 hours and 15 minute

Report Cards, Progress Reports, and Promotion in Doubt/Retention

Gradebook Audits

Gradebook audits must occur weekly by individual school administrators.

- Gradebooks should be current and updated weekly (parents/students will have access to PowerSchool)
- Assessment grades should be inserted within 72 hours.
- All other assignments should be inserted by the end of the school week.
- Gradebook audits will occur weekly by individual school administrators.

Report Card/Progress Report Expectations

All Instructional Leaders are responsible for reviewing report cards and progress reports. When reviewing, be sure that the following is adhered to:

- K-8 Progress Reports and Report Cards require current grades and narratives. HS Progress Reports and Report Cards require current grades and comments (can use the comment bank).
- Keep comments clear and concise. Use specific language - “Sophie has mastered adding two digit numbers together, but struggles when there is regrouping.”
- Be specific on strategy in the growth area- rather than “she needs to remember her strategies”, it should be “at home, make sure she is sounding out words when she is stuck - she can use the pictures to help as well as...”
- Remember - these are legal documents so please ensure you proofread your writing and ensure your sentences are clear, concise, and make sense.

Grade Changes in PowerSchool

If a grade must be changed after quarter grades have been stored, the teacher must email their direct supervisor and the principal with the request and reasoning for the change. Teachers are required to complete a [grade change form](#). Once the principal approves the change, the SOM will make the necessary change in PowerSchool.

Technology Platforms

Subject Area	Platform	Network Responsibilities	School Responsibilities

All	Illuminate		

Summer Student Work

All scholars in K-12 will receive **summer learning packets** in June with content practice and reinforcement in preparation for the next grade (these activities will not be daily or day-by-day). Each scholar will be responsible for completing and returning this packet/submitting Google Classroom assignments upon arrival in the upcoming school year (packets will be graded and completed packets will grant student admission to 1st Fun Friday event). Schools may choose to supplement the summer learning packets but it is not required. Unlike holiday vacation packets, summer packets will be network-created.

Grade Level(s)	Subjects	Type of Assignment
Students entering PK	ELA/Math/Network SEL Project	Paper Packet
Students entering K-3	ELA/Math/Science/Network SEL Project	Paper Packet
Students entering 4-8	ELA (novel study) /Math/Science/History (5-8)/Network SEL Project	Google Classroom
Students entering 9-12	ELA (novel study) /Math/Science/History/Network SEL Project	Google Classroom

Schools must operationalize the distribution of paper packets for grades PK to 3) during the last week of school. Summer Learning Work will also be organized on a network created [SITE](#) that will be linked to a school's website in the month of June. Google classroom codes will be shared on the site; it is the responsibility of school leaders to add the corresponding instructional staff to each gClassroom.

School Based Information (Achieve SY 21/22)

Home Instruction

In the event that a student requires home instruction due to a health condition preventing him/her from attending in person learning, home instruction can be arranged (see Achieve Policy #2412).

Appendix

Navigator Math Program Commitments

Purpose:

The Navigator Program invests deeply in the schools and leaders it works with, often over a 2+ year period, to support curriculum adoption, instructional capacity building, and student achievement. Accordingly, the Program requires significant commitments from:

- the participating **Instructional Leader** (e.g. the Principal, CAO) overseeing implementation;
- the **Math Leader** (e.g. often a Dean, AP, Math Coach) who truly drives implementation;
 - (for networks implementing across multiple school sites) the **School-based Math Leaders** responsible for coaching teachers at each school site who partner with the Network-based Math Leader to drive implementation; and
- participating **Teachers**, who prepare and are coached to make targeted and steady improvement towards implementation with fidelity.

This document attempts to outline the Navigator Program’s commitments to Program partners, and our expectations of partners, in order to support informed conversations throughout the application and selection process.

Role-based Commitments:

Role:	Navigator’s Commitments to You:	Your Commitments:
Instructional Leader (e.g. school principal, CAO, CEO, HoS)	<ul style="list-style-type: none"> ● We partner with you to adapt implementation to your school/network context; if something isn’t working we problem solve together ● We keep you informed and engaged throughout the year ● Your students success is our success 	<ul style="list-style-type: none"> ● Align school schedule with minimum requirements of curriculum (as applicable) ● Keep the Math Lead’s time sacred by building implementation into their R&Rs; Navigator is a significant time commitment <ul style="list-style-type: none"> ○ For networks, build implementation into the R&R of school-based math leaders responsible for coaching teachers too ● Ensure leader and teacher R&R allows the time required to maintain the key instructional structures outlined below ● Partner with Math Lead & Navigator Coach to support implementation as needed in pursuit of shared goals
Math Lead (e.g. Dean, AP, Math Coach)	<ul style="list-style-type: none"> ● We meet weekly to provide actionable feedback and support your development ● We partner with you each week to drive improvements in instruction ● We will help you understand and use interim assessment data ● We provide you with the tools and resources you need to 	<ul style="list-style-type: none"> ● Each participating teacher is observed & receives feedback weekly ● You facilitate weekly shared planning time (i.e. intellectual prep/planning) for teachers ● You submit agenda and artifacts prior to each weekly coaching meeting w your Navigator Coach ● You participate in monthly, virtual group and/or self-guided PD from Navigator and provide regular PD to teachers

	<p>implement</p> <ul style="list-style-type: none"> We invest in your growth and success as an instructional leader 	<ul style="list-style-type: none"> For networks, you drive alignment and commitment of coaching work and key actions for all school-based leaders coaching the subject area
Participating Teachers	<ul style="list-style-type: none"> We provide curricular materials from daily lesson plans to quizzes and assessments We work with the Math Lead to ensure teachers are getting high-quality coaching and PD 	<ul style="list-style-type: none"> Allow students to do the heavy lifting Intellectually prepare to facilitate each lesson, aligned across grade levels Are open to weekly observation, coaching, and agree to be recorded for coaching purposes

Instructional Structural Commitments:

Structures:	Navigator’s Commitments to You:	Your Commitments:
Observation & Feedback Meetings	Through weekly coaching meetings with the Math Lead, we will help you turn regular observation & feedback into the primary driver of your instructional development and student achievement outcomes	Every participating teacher is observed and receives feedback from Lead/school-based coach each week; select teacher observations will need to be filmed and uploaded each week.
Intellectual Lesson Preparation and Planning	We will coach you to ensure that intellectual prep and planning meetings/structures are efficient and productive, in support of aligned instruction across your school/network	<ul style="list-style-type: none"> There is time every week for teachers of the same grade level to share common planning time, often facilitated by the Lead/school-based lead, to intellectually prepare for the week’s lessons ahead. Teachers intellectually prepare for all lessons independently and submit their preparation for review/accountability.
Professional Development for Teachers	We provide turn-key PD content to support the Math Lead	There is monthly content-based PD time for teachers (and school-based leaders <i>for networks</i>), led by the Math Lead
Professional Development for Leads	Plan and lead/publish high-quality virtual PD and self-directed learning opportunities to sharpen your vision of excellence and skills for coaching teachers	Lead commits to participating in: <ul style="list-style-type: none"> Weekly coaching meeting w Navigator coach Monthly virtual or in-person site visit from Navigator coach Monthly, virtual group and/or self-guided PD for Leads, led by Navigator

Other Important Program Commitments to Preview (will share more information through application & selection process):

- Financial Commitment:** participating schools/networks are asked to commit ~20% of the Program’s cost (\$15k/school and \$20k/network).

- **Navigator Leader Institute:** partner Math Leader and any School-based Math Leaders must attend a 3-day Program launch training called the Navigator Leader Institute scheduled for June 16-18th. Attendance is optional but strongly encouraged for partner’s Instructional Leader.
- **Assessment Administration & Reporting:** participating schools/networks agree to administer interim assessments provided by Navigator (3-4x/yr) to help evaluate student achievement.

Navigator ELA Program Commitments

Role	Navigator’s Commitments to You	Your Commitments
Instructional Leaders (CAO + Principal Manager)	<ul style="list-style-type: none"> ● We partner with you to adapt implementation to your school/network context; if something isn’t working we problem solve together ● We keep you informed and engaged throughout the year ● Your students success is our success 	<ul style="list-style-type: none"> ● Align school schedule with minimum requirements of curriculum (as applicable) ● Keep the NavLit Lead’s time sacred by building implementation into their R&Rs; Navigator is a significant time commitment <ul style="list-style-type: none"> ○ <i>For networks, build implementation into the R&R of school-based ILs responsible for coaching teachers too</i> ● Ensure leader and teacher R&R allows the time required to maintain the key instructional structures outlined below ● Partner with Nav Lit Lead & Navigator Coach to support implementation as needed in pursuit of shared goals
NavLit Lead (Director of MS Literacy)	<ul style="list-style-type: none"> ● We meet weekly to provide actionable feedback and support your development ● We partner with you each week to drive improvements in instruction ● We will help you understand and use interim assessment and quiz data ● We provide you with the tools and resources you need to implement ● We invest in your growth and success as an instructional leader ● We conduct a virtual or site visit to support you in action planning based on IA or quiz data 	<ul style="list-style-type: none"> ● You ensure that each participating teacher is observed & receives feedback weekly ● You ensure that all teachers receive weekly IP ● You submit agenda and artifacts prior to each weekly coaching meeting w your Navigator Coach ● You participate in a monthly, virtual group and/or self-guided PD from Navigator and provide regular PD to teachers ● You provide weekly coaching for each school based coach and facilitate collaborative admin meetings
School Based Coach (IL)	<ul style="list-style-type: none"> ● We partner with the NavLit 	<ul style="list-style-type: none"> ● Each participating teacher is observed &

	<p>lead to provide actionable feedback and support your development</p> <ul style="list-style-type: none"> • We partner with the NavLit Lead to drive improvements in instruction at your school • We partner with the NavLit lead to help you understand and use interim and quiz data • We partner with the NavLit lead to provide you with the tools and resources you need to implement • We partner with the NavLit lead invest in your growth and success as an instructional leader 	<p>receives feedback weekly</p> <ul style="list-style-type: none"> • You facilitate or support course leads to provide weekly IP for teachers • You submit agenda and artifacts prior to each weekly coaching meeting with the NavLit Lead • You participate in monthly, virtual group and/or self-guided PD from Navigator and provide regular PD to teachers • You participate in monthly site visit (in-person or virtual) that will be planned based on the arc
Participating Teachers	<ul style="list-style-type: none"> • We provide many curricular materials from daily lesson plans to quizzes and assessments • We work with the NavLit Lead and school based coaches to ensure teachers are getting high-quality coaching and PD 	<ul style="list-style-type: none"> • Allow students to do the heavy lifting • Intellectually prepare to facilitate each lesson, aligned across grade levels and submit IP as required by your coach • Are open to weekly observation, coaching, and agree to be recorded or record themselves for coaching purposes

Instructional Structural Commitments:

Structures:	Navigator's Commitments to You:	Your Commitments:
Observation & Feedback Meetings	Through weekly coaching meetings with the NavLit Lead, we will help you turn regular observation & feedback into the primary driver of your instructional development and student achievement outcomes	Every participating teacher is observed and receives feedback from Lead/school-based coach (IL) each week; select teacher observations will need to be filmed and uploaded each week.

Instructional Guidebook | PK-12

2021 - 2022

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key instructional routines, mind-sets and procedures used by ALL teachers and IL to raise student achievement. This guidebook outlines these items to ensure a high level of execution. All staff members are expected to read, internalize and practice the contents of this guidebook. Please refer to content area guidebooks for additional information and details.

Please note: The High School Practices, Guidebook and Curriculum will be further developed upon the addition of high schools to our academic portfolio. The following work is based on the 20-21 school year (unless otherwise noted) **and is under construction for further research and codification.**

BRICK’s Mission

BRICK’s mission is to relentlessly knock down all barriers to students’ academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It’s our vision that each and every child will have an unimpeded path to unlocking their limitless potential.

BEN’s Instructional Model

The basis of our instructional model and everything we do is rooted in equity. BEN's instructional model is built on the belief that we must first understand the individual needs of our students and then design educational experiences that ensure all students achieve success. It is through an equity lens that we adhere to BEN's four tenets of instruction.

The intentional implementation of these four tenets, with fidelity, will break down all barriers to ensure access, opportunities, and success for all.

Tenet	Driver
<p>Rigorous PK-12 academic curriculum with Integrated Social Emotional Learning & Identity Development <i>Our PK-12 curriculum integrates rigorous academics with Social Emotional Learning to foster independent learners empowered by their respective identities and driven by purpose.</i></p>	<ul style="list-style-type: none"> ● Vertically Aligned PK-12 Curriculum ● Culture of Belonging ● Intentional Relationship Development ● Explicit Social Emotional Learning Instruction ● Culturally Sustaining Practices ● Independent Learning Time ● Student Voice ● College and Career Readiness Trajectory
<p>Continuous development & support of all staff <i>BEN develops content, skill and instructional expertise in teachers, support staff and leaders through coaching, real-time feedback, content deep dives, purposeful practice and strategic planning.</i></p>	<ul style="list-style-type: none"> ● Curriculum Based PD ● Summer Leader and Teacher Institutes ● Network & School Led Teacher PD ● Unit & Lesson Unpacks ● Observation Feedback Cycle ● Leader Content Development ● Residency Programs
<p>Data driven decision making <i>We collect and analyze academic, SEL and program implementation data to pinpoint the specific strengths and growth opportunities and adjust the actions of students, teachers and leaders to improve student outcomes.</i></p>	<ul style="list-style-type: none"> ● Frequent Review and Feedback on Student Work ● Strategic Assessments: Academic, behavior, and social-emotional data collection & analysis ● Quarterly Program Implementation data collection ● Data Meetings & Reflection ● Sankofa Weeks of Reflection
<p>High-impact teaching and leading practices <i>Teachers, support staff and leaders implement BEN's high-impact, student-centered practices that convey compassion, urgency, inclusivity and rigor in all classrooms.</i></p>	<ul style="list-style-type: none"> ● BEN’s Best Practices ● Culturally Responsive Teaching ● Accelerated Learning ● Arc of the Year Development

Co-Teaching in Grades K-3

Co-teaching is an essential part of BRICK Education Network’s K-3 model. Both teachers in the classroom should be completely prepared for the day’s lessons to ensure learning is maximized. When teachers are co-teaching, the expectation is that both teachers are engaged in the lesson and that both teachers are circulating and providing feedback to students. During Guided Reading and Reading Mastery, both teachers should be monitoring their own groups as well as the independent groups in the classroom to ensure all behavioral and academic expectations are being met. Both teachers own all data for their collective classroom.

A successful co-teaching classroom is one in which observers do not know who is the more experienced teacher or the less experienced teacher because students view them in the same way and there is a culture of feedback and mutual respect in the classroom. Observers can and are encouraged to provide feedback to either co-teacher, regardless if the teacher is under the IL’s direct supervision or not.

	Co-Teaching	ELA Planning Time	Math/Sci Planning Time
K-1	Guided Reading/Reading Mastery, Writing, Math Core Lesson, Math Power-Up	Science/SS; Enrichment	SRA, Enrichment
2	Guided Reading/Reading Mastery, Writing, Math Power-Up Close Reading (1x week on Fridays)	Science/SS; Enrichment	SRA, Enrichment
3	Math Power-Up	Science/SS, Math Core Lesson, Enrichment	Lit Block, GR, Writing, Enrichment

Prep Responsibilities:

- **Math/Science/RM Teacher:** when not co-teaching, plans and preps for two (2) Reading Mastery groups, two (2) DDI groups, Math Core Lesson (prep manipulatives), Math Power-Up, Science/Social Studies (preps investigation materials, etc.), morning meetings
- **Literacy Teacher:** when not co-teaching, plans and preps for four (4) guided reading groups, SRA, Writing, Internalize Math lesson (M-TH), reviews plans for Math Power-Up morning meetings

Co-planning is a time when co-teachers plan together to prepare for lessons throughout the week for co-teaching blocks. Co-Planning should happen during scheduled enrichment periods and should include:		
ELA	Math	Culture
Review STEP data to develop a plan for targeted skills review <ul style="list-style-type: none"> • align letter/sound ID, sight word, phonemic awareness drills Look at student work from the Writing Block to identify trends <ul style="list-style-type: none"> • plan for small group or parallel teaching in Writing 	Math teacher turn-keys upcoming math lesson plan with co-teacher <ul style="list-style-type: none"> • both teachers should have/complete exemplars • use data to identify pathways for aggressive monitoring, can also focus on a group of students from Exit Ticket data • plan skills to review during Power-Up 	Check in about culture of the classroom (i.e. going over what is working/what is not, ensuring both people know their roles in the classroom) <ul style="list-style-type: none"> • Ensure SEL focus skills are embedded into ELA & Math lessons • Discuss trends highlighted from iDreams scores

Co-Teaching is a time when co-teachers are working in the classroom together toward a common objective. Co-teachers use the plans they collaborated on to meet the needs of their students. Below are some specific look fors (but not limited to the below):

ELA	Math	Culture
<p>Guided Reading Block</p> <ul style="list-style-type: none"> • Zoned monitoring of stations • Both teachers monitoring/ scanning and narrating during rotations • Awareness of volume, especially during oral drill <p>Writing Block</p> <ul style="list-style-type: none"> • Circulation and aggressive monitoring during independent practice • Conferencing with students or small groups 	<p>Power-Up Block</p> <ul style="list-style-type: none"> • Time is devoted to either iReady or reteaching based on student data • Math teacher is either reteaching to a small group or whole group based on the data • Co-teacher is circulating and aggressively monitoring students either on computers or student work if in whole group reteach. <p>Core Math Lesson</p> <ul style="list-style-type: none"> • During introduction, co-teacher is circulating and monitoring students focus and attention to instruction • During independent work time, math teacher and co-teacher are circulating and aggressively monitoring student work • Conferencing and small group instruction can be done by either math teacher or co-teacher 	<p>Morning Meeting</p> <ul style="list-style-type: none"> • Both teachers monitoring/ scanning and narrating during morning leading lesson. • Teachers may decide if the best delivery of morning meeting is one teach, one assist or parallel teaching. • During morning meetings or other parts of the day, either teacher should make intentional connections with current class events/trends to the morning meeting lessons.

Intellectual Prep Protocol

Intellectual prep is the work that teachers do prior to teaching a lesson. This work includes unpacking the unit plan, internalizing central lessons through annotating, completing exemplars, practicing critical lesson components, and looking at student work through the data cycle.

Unit Unpack Purpose

The purpose of unpacking a unit is to develop and deepen content knowledge for teacher grade-level standards.

Unit Unpack Expectations

- Unit unpacks will occur in specific course-level bands at least **two weeks** prior to a unit launching. Zoom unpack meetings for K-8 will be organized and led by network course leads, Instructional Leaders and ALT directors. Unpack meetings for high school will be organized by school administrators and will be led by department course leads, Instructional Leaders and ALT Directors.
- [BEN Resource Page](#) outlines the dates for upcoming unit unpacks. Be sure to reference your content page for details.
- Unit unpacks will be a separate meeting from the lesson unpack (described in the next section) and will only occur when there is an upcoming unit (typically every 3-4 weeks).
- Unpack participants in K-8 should log into Zoom on time with the camera on and prepared with the necessary materials/pre-work. Unpack participants at the High School should arrive at the assigned location in the building, prepared with the necessary materials/pre-work.
- General pre-work deliverables are listed below - please note that there may be subject and grade level-specific requirements.
- Completion of pre-work should be submitted to your direct IL (cc the course lead/department course lead) when applicable by 8 am on the Friday before the unit unpack or a time specified by your administrator.
- All absent participants are required to review the unpack video, complete work required during unpack, and submit to their admin (cc course lead/department course lead) within 48 hours of meeting date.

Refer to your specific content guidebook for more details.

Teacher Pre-Work	Course Lead Pre-Work	Director Pre-Work
<p>Due Prior to Unit Unpack:</p> <ul style="list-style-type: none"> • Read and annotate the unit overview • Complete the pre-reading • Complete the know/show for the priority standard (if applicable) • Complete the key problems (Try-Its or Exit Tickets, depending on course) • Create exemplar Show What You Know/Unit Assessment student responses 	<p>Due Prior to Director/Course Lead Check-in:</p> <ul style="list-style-type: none"> • Complete teacher pre-work for the unit. • With the support of the BRICK director, plan the unit unpack. Be sure to review priority standards(s), complete know/show for the priority standard, and review key items for the Do It Section or designate Exit Tickets of Unit Unpack document. <p>2 Weeks Prior to Unit Unpack Date:</p> <ul style="list-style-type: none"> • Email teachers; include directions on pre-work/priority standard(s) 	<p>In Preparation of Unit Unpack:</p> <ul style="list-style-type: none"> • Inform course lead 3 weeks prior of unit unpack deliverables. <p>Due Prior to Director/Course Lead Check-in:</p> <ul style="list-style-type: none"> • Select priority standard(s) • Select aligned pre-reading or guiding questions for discussion. • Determine key items from Exit Tickets, SWYK, and/or unit assessments to complete/discuss in the Do It Section

Intellectual Prep Binder

It is strongly recommended that teachers use a binder for keeping unit unpacking materials organized (prework and annotated plans, etc.). Academic directors will guide teachers on appropriate tabs/sections for the binder.

Lesson Unpacks Purpose

Weekly lesson unpacks allow teachers to think through and practice the critical parts of instruction for the following week. General pre-work deliverables/expectations are listed below - please note that there may be subject and grade level-specific requirements at the school level with your direct Instructional Leader and teacher teams during shared planning time. Schedule and frequency may vary depending on individual teacher needs.

Lesson Unpack Expectations

- Lesson unpacks may occur weekly in your course-level band at the network level in your specific grade-level band. Zoom unpack meetings for K-8 will be organized and led by network course leads, Instructional Leaders and ALT directors. Unpack meetings for high school will be organized by school administrators and may be led by department course leads, Instructional Leaders and ALT Directors.
- Unpack participants in K-8 should log into Zoom ontime with the camera on and prepared with the necessary materials/pre-work.
- General pre-work deliverables are listed below - please note that there may be subject and grade level-specific requirements.
- Completion of pre-work should be submitted to your direct IL (cc course lead/department course lead).
- Attendance is taken at all lesson unpacks and all absent participants are required to review the unpack video, complete work required during unpack, and submit to their admin (cc course lead) within 48 hours of meeting date.
- *Refer to your specific content guidebook for more details. Lesson Unpack One-Pager*

Teacher Pre-Work	Course Lead Pre-Work	Director Pre-Work
<p>Due Prior to Lesson Unpack:</p> <ul style="list-style-type: none"> • Read and annotate pre-assigned LP for practice • Complete all student work including exit ticket exemplars • Identify the misconceptions/ potential errors in the student work (around rigor). <i>For 3-4 high leverage questions, identify pathways to understanding to ensure misconceptions are identified and planned for</i> • Be ready to practice critical component of pre-assigned lesson • Submit plans by deadline 	<p>1 Week Prior to Lesson Unpack Date:</p> <ul style="list-style-type: none"> • Choose the highest-leverage lesson for unpack • Internalize lesson: complete all core tasks, develop exemplars, determine key misconceptions • Identify where the rigor is in this lesson / how to enhance the rigor of the lesson • Determine which portions of lesson to plan and practice • Create a script to model or guide the teacher in revising or executing high-leverage parts of the lesson • Course lead notifies teachers to complete first three bullets under Teacher Pre-Work column 	<p>During Course Lead Check-in:</p> <ul style="list-style-type: none"> • Debrief and provide feedback on the previous lesson unpack • Review course lead pre-work for upcoming lesson unpack • Role play and/or practice critical parts of the lesson unpack

Lesson Unpack Schedule

Outlined below are expectations for frequency for lesson unpacks; school based IL may require additional lesson unpacks based on teacher performance.

- K-2 ELA Leads - 1 scheduled unpack for SRA/Writing per week
- K-2 Math Leads - 1 scheduled unpack for math and 1 scheduled independent unpack for sci/social studies/wk
- 3-8 Content Teachers - 1 scheduled unpack for content course per week
- 9-12 Content Teachers - as scheduled by administrators

Independent Intellectual Prep

Teachers will be required to annotate lessons and complete exemplars for every day of instruction as designated by each department. These steps will provide teachers the opportunity to internalize high-quality lessons before delivering them.

Scope and Sequence/Lesson Pacing

Scope and sequence pacing documents are linked to the BEN Resource Page and teachers/IL should refer to it on a daily/weekly basis. Since unit unpacks and lesson unpacks are scheduled on the network level, it is crucial that teachers adhere to network pacing guidelines. Flex days are built in the network S+S to allow for reteach and flexibility when addressing student needs. If a teacher falls behind, he/she should work with their direct IL to get back on track, whether it is to use flex days or combine lessons. ILs will closely monitor pacing expectations at their respective schools within the network to ensure fidelity.

Teachers are required to use a pacing Google Sheet to plot out lessons to organize and plan for small group instruction. This document should be completed using the pacing guide provided by the department. Co-teachers should use this document to organize their plans and keep up to date (K-2 ELA and Math Leads - complete one document per team). These files should be kept in each teacher's Google Drive Teacher Documentation Folder and shared with their IL. ILs should check for completion.

Intellectual Prep Submission

With most lessons already created, weekly annotated lesson plans are to be submitted via scan or copied to your direct IL and placed in the teacher's Google Drive documentation folder. Lesson plans are due (at least) by 8am on Wednesdays before implementation (may be adjusted by IL). Adhering to this due date will allow all teachers to be prepared for Lesson Unpacks while also allowing for sufficient time to make adjustments based on feedback prior to execution.

Lesson plan submission will be recorded weekly in SchoolMint, where teachers will receive two rubric scores:

- Submission score for completion
 - 3 - All LP submission guidelines have been met and is on time
 - 2 - Most LP submission guidelines have been met and/or is late by 1 day
 - 1 - Some LP submission guidelines have been met and/or is late by 2-3 days
 - 0 - Little or no LP submission guidelines have been met and/or is late by 4+ days
- Score for adherence to pacing expectations according to Scope and Sequence
 - 3 - on pace
 - 2 - one lesson off pace
 - 1 - two-three lessons off pace
 - 0 - four+ lessons off pace

Posting of Lesson Plans

Teachers are required to make a second copy of their final annotated lesson plans (including annotated texts, etc.) and make them available outside their classroom door on a daily basis.

Rationale: *Annotated LPs allow for any coach (IL or director) to effectively support and develop based on the current material being presented. Prior to providing feedback, any coach should first look over the day's lesson plan to get an overview of the student activities and exemplars.*

Grade/Subject	Items to be Posted Outside Classroom
PK	Schedule Annotated theme plan Lesson plan

K-4 Math	Annotated lesson plan Exemplars for students work and exit tickets
K-4 ELA	Annotated lesson plan Exemplars for exit tickets
K-2 Sci/SS	Student work exemplars (workbook pages)
5-8 Math	Annotated lesson plan Teacher Monitoring Document (Student Work Exemplars that meet CFS) Exemplars for exit tickets
5-8 ELA	Annotated text Teacher exemplars Annotated lesson plan Exemplars for exit tickets
3-8 Science	Annotated lesson guide Student work exemplars (including exit tickets)
3-8 History	Annotated lesson readings (all documents or sources that students read in the lesson) Annotated lesson plan Exemplars for exit tickets
9-12 Math	Lesson planning cover sheets Teacher edited/annotated lesson plans Student work exemplars
9-12 ELA	Annotated lesson plan Student work exemplars
9-12 Science	Lesson planning cover sheets Teacher edited/annotated lesson plans Student work exemplars
9-12 History	Annotated lesson readings (all documents or sources that students read in the lesson) Annotated lesson plan Exemplars for exit tickets

Inclusion/IEP Annotations on Lesson Plans

In co-taught classrooms, specific annotations should be made to account for IEP compliance and models of co-teaching. Co-teachers are expected to annotate plans to include the following:

- Accommodations for specific students/groups of students
- Modifications for specific students/groups of students
- Instructional strategies if different from the intended plan
- Co-Teaching Model used (parallel, one teach, one assist, small group, etc.)

Looking at Student Work Data Cycle

In order to determine the impact of our instruction, teachers use a variety of assessments in order for students to show us what they know and are able to do and where the gaps are in their learning. Teachers then use the data to close gaps by analyzing the data to determine a reteach (and possible reassessment) plan. Data and dates for the data cycle vary by subjects and grade. The data source is based on the curriculum and will be determined with course leads and directors. Examples include: Show What You Knows (SWYK), unit assessments, exit tickets, labs, etc.-- *Refer to your specific content guidebooks for a more detailed outline of dates/deliverables.*

[<Data Cycle Protocol>](#)

Exit Ticket Analysis

Rather than waiting until a Show What You Know or unit assessment to gauge mastery of grade-level standards, the daily exit ticket is a powerful **in class assessment** tool. Exit tickets allow teachers to gain an immediate understanding of who knows what and if certain topics need additional instruction. As such, teachers and school leaders will engage in daily exit ticket analysis, addressing misunderstandings immediately through built in structures to ensure students keep progressing toward grade level readiness. More details on exit ticket analysis will be provided in content area guidebooks and professional development.

BEN Best Practices

We know that trust is the foundation of every relationship; however, trust is not formed magically or overnight. There are intentional moves that we must make each day to build trust with students and families. Over the course of the first six weeks of school, we are refocusing our attention from management and compliance to building authentic student-teacher and parent-teacher relationships that are based on mutual trust and respect. This is not to say that practices and strategies for ensuring that classrooms are safe, run smoothly and efficiently are not important. We are committed to teaching practices that maximize our instructional time for learning; however, we have to invest in relationships FIRST so that we can more effectively accelerate learning for the remaining 34 weeks.

Bottomline: Each child is unique. There is no prescription or checklist to guarantee strong positive relationships with every child, but there are practices that generate trust with students. These are the practices that we must invest in from day one.

Trust Generators	Considerations	Suggestions (Not exhaustive)
<p>Selective Vulnerability</p> <p><i>People respect and connect with others who share their own vulnerable moments. It means showing your human side that is not perfect.</i></p>	<ul style="list-style-type: none"> How will you share/reveal parts of yourself with your students? How will you visually represent the culture of your students in your classroom? Where in your classroom is there space for students to contribute artifacts that represent their culture and personal identity? 	<ul style="list-style-type: none"> Include pictures of yourself, your family, college gear, evidence of hobbies, etc. (both in your slide decks but also in your classroom) Plan to share with students personal anecdotes that highlight a challenge you had as a young person or as a learner. Share new skills you are learning and what is hard about it. <i>Note: The information shared is selective and appropriate.</i>
<p>Familiarity</p> <p><i>People develop a sense of familiarity with someone who they see often in a particular setting such as at a bus stop everyday or in the café on a regular basis.</i></p>	<ul style="list-style-type: none"> Where outside of the classroom can you encounter your students and their families? 	<ul style="list-style-type: none"> Call all of your families to personally invite them to the Back to School BBQ. Go early to the cafe for lunch or recess pick up and have informal convos with your students Play at recess!!! Stop by the bus stop or the corner store in the morning or at dismissal Drop by co-curriculars, afterschool programs or community events
<p>Similarity of Interest</p> <p><i>People create a bond with others who share similar likes, dislikes, hobbies, and so forth. This common affinity allows a point of connection beyond any obvious racial, class, or linguistic differences. This plants the seed of connection in the</i></p>	<ul style="list-style-type: none"> How do you plan to learn about your students' interests? Where will you record information about students so that it is easily accessible throughout the year? How do you plan to highlight similarities in interest between yourself and your students? 	<ul style="list-style-type: none"> Survey students (starting over the summer if possible) Sharing hobbies, sports, or other things you like that are similar to a particular student's interests. Also sharing social causes that you are passionate about, such as saving the environment or caring for animals

<p><i>relationship.</i></p>		<ul style="list-style-type: none"> ● Use Icebreakers and team building exercises that highlight similarities of interest
<p>Concern</p> <p><i>People connect when another shows concern for those issues and events important to another, such as births, illnesses, or other life transitions. This plants the seed of personal regard</i></p>	<ul style="list-style-type: none"> ● How will you learn about the issues and events that are important to your students and families? ● Where will you record this information so that it is readily available? ● How often will you revisit this information? 	<ul style="list-style-type: none"> ● When a student is tardy or absent, call home to show your concern and offer support ● If a student is unwell, offer water, tissues, a pass to the nurse and then call or drop by the nurse's office to check on that student. ● Celebrate birthdays! ● Honor all cultural celebrations ● Remembering details from a student's life and demonstrated by asking follow-up questions about recent events. (i.e. if you know a student spends the weekends visiting the non-custodial parent, ask how their time was on Monday)
<p>Competence</p> <p><i>People tend to trust others who demonstrate they have the skill and knowledge, as well as the will, to help and support them. This plants the seed of confidence in others</i></p>	<ul style="list-style-type: none"> ● What does it mean to be a learning partner? ● How will you communicate your goals for student learning? ● How will you celebrate a variety of student achievements in your classroom? 	<ul style="list-style-type: none"> ● Students trust teachers who demonstrate the ability to teach effectively or make learning less confusing, more exciting, and more successful.

Teacher Taxonomy Techniques

The BRICK Education Network has identified key teacher moves that are the building blocks for a strong school and classroom foundation. All teachers will practice and master each move within the first 6 weeks of school. The table below lists the criteria for success of each technique.

Teacher Skill	Criteria For Success	The Why
<p>Strong Voice</p>	<ul style="list-style-type: none"> ● Square Up, Stand Still: When giving instructions, stop moving and strike a formal pose ● Formal Register: When giving instructions, use formal register, including tone and word choice ● Strong voice does not equal LOUD or Yelling ● Economy of Language 	<p><i>Command attention without yelling or belittling. Be visible to all students and speak in a tone that is audible throughout the room. This indicates to scholars that important instructions are being given.</i></p>

	<ul style="list-style-type: none"> Do not talk over Quiet Power: Drop your voice and make students strain to listen - exude poise and calm even if you are not feeling it 	
Tone	<ul style="list-style-type: none"> Strong voice or quiet power No sarcasm Neutral or positive language Neutral or positive tone of voice Varied volume and cadence of voice Enthusiastic 	<p><i>Our tone does not always match our words. Using a neutral or positive tone helps ensure that our care and love for our kids comes through. Tone can also help build enthusiasm and excitement in the classroom.</i></p>
Clear What to Do (WTD) Directions	<ul style="list-style-type: none"> Economy of Language: No more than 3-5 words Specific: Focus on manageable and precisely described actions Concrete: Clear, actionable steps Sequential Observable 	<p><i>Clear, short directives to set students up for success. Used for quick 1-2 step actions that happen at that moment. We know time is precious, keep it simple when possible.</i></p>
Scanning/ Radar	<ul style="list-style-type: none"> Position yourself in a corner to see as much of the room as possible Scan the entire room Hot Spots: Choose 3-4 “hot spots” (places where you have students who often get off task) to scan constantly. Nod affirmatively when students are making the right choices. Be Seen Looking: exaggerate the scan, crane your neck 	<p><i>We want our students to know we see them at all times, that they are cared about and we notice them. One way to do this is to intentionally pay attention to them and proactively look for students we know may need additional support to make the right choices. By sending positive visual vibes, we build trust with our students that we are there to support them.</i></p>
MVP Directions	<ul style="list-style-type: none"> Attention Prompt Clear cue to begin Movement: State the physical movement students will do Volume: Name the volume that students should be at Participation: What it is that students will be doing <ul style="list-style-type: none"> EX: When I say go (cue), turn to the workshop (movement) and 	<p><i>Clarity is kindness - we want to set our kids up for success and including each component of MVP allows the teacher to communicate exactly what the class needs.</i></p>

	<p>in a whisper (volume) complete questions 1-5 (participation).</p> <ul style="list-style-type: none"> ● Check for understanding for lengthy multi-step directions 	
<p>Joy Factor</p>	<ul style="list-style-type: none"> ● Teacher conveys genuine joy for the content through tone, expression, language. ● Teacher conveys genuine joy for teaching children through tone, expression, language. ● Academic Joy created through the use of one or more of the following: Fun or games connected to the learning, drama/song/chants/movements/dance connected to the learning, content humor, suspense and surprise, academic challenge ● Create a sense of belonging and “US”: Class pride, nicknames, secret handshakes, etc. 	<p><i>Joy factor builds a student’s sense of belonging. Finding joy and excitement around learning will connect students to the content. Everyone has a different joy style and bringing that personal joy to the classroom builds trust and community.</i></p>
<p>Positive Framing</p>	<ul style="list-style-type: none"> ● Live in the now (Ex: Your eyes are on the speaker. Non-Ex: I’m tired of asking you to track) ● Assume the best ● Allow Plausible Anonymity (Ex: Fourth grade, check yourself to make sure you’re in your best SLANT with your notes page in front of you. Non-Ex: Jason, I want to see you in SLANT with notes in front) ● Build momentum/narrate the positive ● Challenge 	<p><i>This provides all students with the opportunity to realign themselves with the vision and expectations without embarrassment or shame. It shifts the correction to focus on the collective and not an individual, which helps maintain relationships.</i></p> <p>What It’s Not: <i>This is not a way to sarcastically single out a student or small group of students - non-example: “Everyone is 4th grade ready except Jason.”</i></p>
<p>100% / Do It Again</p>	<p>100%</p> <ul style="list-style-type: none"> ● Positive - Matter of habit ● Focused on achievement, not an empty exercise in teacher power (purpose over power) ● To achieve 100%, use the least invasive correction <p>Do it Again</p> <ul style="list-style-type: none"> ● Frame it as “good – better – best” 	<p><i>It is important that we strive for excellence, not perfection. Setting a goal or expectation and working with students to meet that is important. When we don’t get something the first time, we try again.</i></p> <p>What it’s Not: <i>A way to punish or control. Teachers/leaders should not use this exhaustively and “do it again” shouldn’t exceed 2-3 times (if it does, the</i></p>

	<ul style="list-style-type: none"> ● Set a standard of excellence by challenging students positively to show you their best at something ● At the point of error: have students go back and try again as soon as you know the level of execution won't meet the standard you have set 	<p><i>adult behavior needs adjusting); instead try, "we are almost there, let's try it again tomorrow after a rest..."</i></p>
Correction with Values	<ul style="list-style-type: none"> ● Economy of language ● Neutral tone ● Names the iDREAM value <ul style="list-style-type: none"> ○ Ex: Michelle track. Respect; Nicole, pencil to paper. A+ self-control; Everyone, pause, eyes on me. When you are answering make sure to show model student, using at least 2 of our vocab words from the lesson 	<p><i>Using our values to guide students toward the expected behavior helps to 1) instill the values in them by connecting behaviors with values, 2) support the culture of the classroom, 3) promote our school's beliefs.</i></p>
Break the Plane/Circulate	<ul style="list-style-type: none"> ● Move among the desks and around the perimeter ● Break the plane between the front of the room and where the students sit ● Engage when you circulate (work the room, don't just stand there) ● Position or turn yourself to see the most students 	<p><i>Breaking the Plane helps maintain proximity to your students. Students will tend to stay on track, preventing behavioral issues from occurring. When students see you circulate, they typically redirect themselves.</i></p>
Least Invasive Correction	<p>The list below is in order of least invasive to most:</p> <ul style="list-style-type: none"> ● Non-Verbal ● Positive group correction ● Anonymous individual correction ● Private individual correction ● Lightning-quick public correction ● Consequence 	<p><i>Whenever possible the least invasive intervention should be leveraged when correcting behavior. This approach to discipline with dignity provides the opportunity for off-task individual and group behaviors to be corrected with little spotlight and/or distraction.</i></p>
Work the Clock	<ul style="list-style-type: none"> ● Countdowns used to pace the class ● Emphasize the importance of every second ● Set goals for your class's speed in meeting expectations ● Set a timer 	<p><i>We can't create more time. Counting down helps prepare students for transitions and allows them to complete tasks without feeling rushed. Setting goals to boost efficiency helps maximize class time.</i></p>
Timers/Pacing	<ul style="list-style-type: none"> ● Use a timer to pace the lesson ● Set the timer for the allotted time ● Cut yourself off after timer goes off 	<p><i>It is important that we are able to facilitate components of the lesson in the time allotted. This allows for enough time for practice, student heavy lifting, and exit ticket completion.</i></p>

		<p>What it's Not:</p> <ul style="list-style-type: none"> - Interrupting scholars mid sentence
<p>Academic Narration with iDREAM values</p>	<ul style="list-style-type: none"> • Narrate what students do well, not what they do wrong • Economy of language (take out "I see" "I like") • Name the highest leverage academic skill or thinking • Connect the academic behavior to the iDREAM value <ul style="list-style-type: none"> ○ Ex: Lориham being an innovator, finding another way to solve the problem; Akeem used college vocabulary in his answer, model student; Jembola's making his work even better, that's diligence; Everyone has at least 4 sentences written, staying focused showing A+ self-control 	<p><i>Narration is a form of positive reinforcement that strategically (highest leverage behavior) puts students on track to model, as well as embody, their school's core values and ultimately serve as model students for their respective learning spaces in addition to the school community. Narrations usually redirect most off task students in the least invasive way possible. Narrations name specific, positive academic and/or behavioral behaviors you want more students to demonstrate in the moment. This is a type of least invasive correction.</i></p>
<p>Behavioral Narration with iDREAM values</p>	<ul style="list-style-type: none"> • Use Value names to narrate what students do well, not what they do wrong • Economy of Language (take out "I see" "I like") • Name the highest leverage behavior • Connect the behavior to the iDREAM value <ul style="list-style-type: none"> ○ Ex: Jahki is showing respect, track, back tall, chair tucked, ready to work; Emily sending love, that's empathy; All of row 3 demonstrating diligence, hands are folded; Mehki being a model student, volunteering to read aloud and answer question. Chris, that's A+ self-control ignoring distractions. 	
<p>Active Monitoring (101/201)</p>	<ul style="list-style-type: none"> • Create and follow pathways • Pen, exemplar, & recording sheet in hand (AM Recording Sheet) • Mark student work 	<p><i>Active monitoring is essential to data informed instruction. As teachers monitor student work, teachers are messaging to students that they value their work and they care to make sure</i></p>

	<ul style="list-style-type: none"> • Announcelaps (procedural and conceptual) 	<p><i>students are learning through feedback and positive narrations. Prior to circulating the room, teachers will name laps to ensure students know the expectations for their work and expectations of work time. Feedback is another key component to aggressive monitoring because teachers build relationships of trust to provide feedback that either pushes students to solve in a new way or to learn from their mistakes.</i></p> <p><i>[Kelly]</i></p>
<p>Right is Right</p>	<p>For any question that addresses key points</p> <ul style="list-style-type: none"> • Do not accept partially or almost right answers as fully correct • Push until a completely correct or exemplar answer is given • Make students answer the question you asked - don't let them get ahead of you • Push students to use academic vocabulary • Tell students they are almost there or almost correct until 100% correct <p>For any question that does not address key points</p> <ul style="list-style-type: none"> • Do not accept partially or almost right answers as fully correct • Make students answer the question you asked - don't let them get ahead of you • Push students to use academic vocabulary • Tell students they are almost there or almost correct, round up and name the completely correct answer • Have the student say back or re-state completely correct answer 	<p><i>Accuracy is important and pushing and supporting students to more accurate and exact responses reinforces complete responses. In some classes, exact answers are required whereas in other areas opinions, using facts, are more appropriate. It isn't about being right, it is about getting it right.</i></p>
<p>Exit Ticket Admin & Collection</p>	<ul style="list-style-type: none"> • Must be completed at the end of a lesson (not the next day) • Entirely independent work (do not coach) • The data is used to refine your next lesson • Quick (1 -3 questions) • Focused and aligned to the objective and key points • Teacher sorts in mastered, proficient, approaching proficient, not yet 	<p><i>Exit Ticket responses provide some of the best, most timely information about student abilities; the criteria for success for each Exit Ticket allow the teacher to give regular, targeted feedback so students can work to improve.</i></p> <p><i>When a teacher makes reviewing Exit Tickets a regular practice, students see that the teacher values their attention and work.</i></p>

Arc of the Year

The Arc of the Year outlines the top priority for BEN schools to focus on during each part of the year, in order to build a year-long instructional strategy for our scholars. Teachers will be trained in the key instructional strategies and the key look fors throughout the course of the school year during professional development and observation feedback sessions. Feedback on the AotY will be shared via SchoolMint and is solely used as a coaching tool. Refer to content guidebooks for more information on specific Arc of the Years.

Morning Meeting and Advisory

School leaders conduct weekly observations of Morning Meeting/Advisory using the [Morning Meeting and Advisory Observation Checklists](#) and collect glows and grows in SchoolMint. Leadership teams work together to identify trends, develop action plans to address the trends, provide additional PD, feedback, etc. to teachers and then monitor implementation.

Student Habits

Here at BRICK Education Network, we have identified key student habits that are the building blocks for being college and career ready.

Ready Position/Academic Posture (formerly SLANT)

Ownership, Accountability and Preparedness		
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Sitting up tall/comfortable back posture (straight, position that can be sustained) • When resetting, hands are folded on table or in lap (not on shoes or in between legs) • Head turned to look at person speaking (see tracking) • Feet flat or crossed at ankles fully under individual Student desk 	<p>Materials:</p> <ul style="list-style-type: none"> • None 	
SLANT: sit up, listen, ask and answer questions, track the speaker		
<p>Rationale:</p> <ul style="list-style-type: none"> • The way you show you are listening to someone as a Student and in life is by actively engaging, tracking the speaker, responding to others • We want to maximize Student learning and ensure complete focus, so students can master the material • SLANT minimizes distractions and prevents bigger infractions from happening 	<p>100% Vision:</p> <ul style="list-style-type: none"> • Sitting up tall/Comfortable back posture (straight, position that can be sustained) • Hands folded in lap (not on shoes or in between legs) or on table/desk • Hands away from clothing, if sitting at desk • Head turned to look at person speaking (see tracking) • In chair, tucked in • Feet flat or crossed at ankles fully under individual Student desk 	<p>Non-examples:</p> <ul style="list-style-type: none"> • “Overdoing” it- e.g. straining head • Slouching, wiggly, but hands folded • Hands not locked or locked but playing with clothing or fingers • Back overly erect and/or strained • Incorrect body position, but inattentive (not showing attentive listening or looking directly at the person) • Hands on-face

Tracking

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Head turns toward the speaker and student eyes are looking at the speaker. • Hands remain folded flat on desk with elbows on desk or flat on your ankles. If Students are sitting in pods and must turn to track the speaker, and their upper bodies should turn • Bottoms stay flat in chairs or on rug. • Students track quickly from one speaker to the next • In the first weeks of school, teachers always cue for tracking. 	<p>Materials:</p> <ul style="list-style-type: none"> • None

Tracking		
<p>Rationale:</p> <p>We aim to create a learning community where everyone feels valued and respected for their contributions. We also want this community to reflect a love of learning and ideas. For these reasons, it is essential that all members of our community make eye contact with each other when someone is speaking. This conveys respect and interest in each other’s thoughts and opinions. It also will enable our students to build off of each other’s ideas and contribute to a learning environment that feels powerful.</p>	<p>100% Vision:</p> <ul style="list-style-type: none"> • Head turns toward the speaker. • Bottoms stay flat in chairs or on rug. • Students track quickly from one speaker to the next. • In the first weeks of school, teachers always cue for tracking. 	<p>Non-examples:</p> <ul style="list-style-type: none"> • Looking down or elsewhere when someone is speaking • Turning head toward the speaker but looking away/at something else. • Teachers saying “Track the ceiling. Now track the speaker.” The ceiling isn’t tracking worthy. • Students turning their whole bodies out of their seats or turning their heads in an exaggerated manner that is distracting • Students keep tracking in the direction of the speaker even when the speaker is finished, and the next speaker has started, especially tracking the teacher the whole time, but not tracking peers

Vertical Hand

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Arm straight up above your head ● Still, calm arm and hand ● Hand raises at the appropriate time (not when another Student is in the middle of speaking, teacher is asking a question, when teacher cue is given) 	<p>Materials:</p> <ul style="list-style-type: none"> ● None

Vertical Hands		
<p>Rationale:</p> <ul style="list-style-type: none"> Shows pride in your answer and enthusiasm for your response to participate- shows “just right enthusiasm” A tall, still hand shows respect for the discussion, other Students that might be sharing, etc. Trains young Students for the habits of discussion- thinking of an idea, waiting for your turn, sharing in a respectful way For teachers easily conveys who wants to share 	<p>100% Vision:</p> <ul style="list-style-type: none"> ● Arm straight up above your head ● Still, calm arm and hand ● Hand raises at the appropriate time 	<p>Non-examples:</p> <ul style="list-style-type: none"> ● Waving hands ● Half-way up hand ● Hand in neighbor’s space ● Calling out while raising hand ● Hand is raised at an inappropriate moment (i.e. when another Student is in the middle of speaking or when the teacher is asking a question)

Note: There will be some instances when we expect all Students to raise their hands in response and other instances where this is not the expectation. This expectation for vertical hands refers to *how* hands should be raised, not *when*.

Complete Sentences

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> Flipping the question correctly as the sentence starter-pull out the key words to use in the response. Subject-verb agreement and grammar are correct. Teacher prompts if the Student does not respond if a complete sentence and has student repeat their thought using a full sentence 	<p>Materials:</p> <ul style="list-style-type: none"> None

Complete Sentences		
<p>Rationale:</p> <ul style="list-style-type: none"> Prepares Students for future conversation as adults In order to write well, Students need to be able to convey ideas verbally in complete sentences Conveys confidence and full sharing of ideas Closes word gap by requiring full expression 	<p>100% Vision:</p> <ul style="list-style-type: none"> Flipping the question correctly as the sentence starter-pull out the key words to use in the response. Subject-verb agreement and grammar is correct. Teacher prompts if the Student does not respond if a complete sentence and provides prompt if needed (move to non-verbal eventually). 	<p>Non-example:</p> <ul style="list-style-type: none"> 1-word answers Short phrases in response Grammar is incorrect, especially verb agreement. Restating answers to a question incorrectly by using the question stem in the response.

Complete Sentences:

Students speak in complete sentences.

- Students should always provide their response in a complete sentence. This builds important habits that Students will need throughout their lives in both academic and work/personal settings.
- If needed, teachers will provide a “sentence starter” or provide scaffolding so that the Student can frame the sentence correctly.
- Students should not be permitted to frame the statement incorrectly. For example, “Who is the main character in the book?” Student responds: “Who the main character in the book is Chrysanthemum.” This is a typical error that children make when learning how to respond in complete sentences. The teacher should either proactively provide the sentence starter or correct the Student immediately after so this habit does not form.

Hand Signals for CFU & Engagement

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Students consistently use hand signals to show their thinking in response to their teacher(s) and other students • Without prompting, students use hand signals • Teacher uses hand signals to assess understanding and select student to share their thinking • Teacher uses simple prompts, if needed, to get students to show thinking 	<p>Materials:</p> <ul style="list-style-type: none"> • Visual Anchor Poster (BRICK)

Every moment in the classroom is a moment for learning and development. It is important for our Students to be actively listening to teachers and their peers and to evaluate others' responses. This requires higher levels of cognitive engagement and allows all of our Students to have an opportunity to show their learning. Universal hand signals are a great way to gauge the active listening of Students and also an opportunity for evaluative thinking.

	I agree
	I'm thinking something else
	I have something to add
	I'm confused

Habits of Discussion

Habits of Discussion - Student and Teacher Actions		
Kindergarten through 12th Grade		
Core Habit of Discussion	Ideal Student Actions	Teacher Training or Prompting
Listen and Talk Only in Turn	<ul style="list-style-type: none"> Track the speaker Hands down when someone is speaking Do not interrupt 	<ul style="list-style-type: none"> Teacher models hands down Teacher eye contact, hand movement Teacher prompts students to give selected peer a chance to think/talk
Speak Audibly	<ul style="list-style-type: none"> Students speak audibly 	<ul style="list-style-type: none"> Teacher prompts: "Loud and proud"
Speak in Complete Sentences	<ul style="list-style-type: none"> Restate the question in the response; no incomplete sentences 	<ul style="list-style-type: none"> Teacher non-verbal: stretch it.
Interact Peer-to-Peer	<ul style="list-style-type: none"> Look at every group member when giving an answer, not just the teacher 	<ul style="list-style-type: none"> Teacher non-verbal: fingers pointing to eyes and then to the rest of the group Teacher prompts: "Tell him/her."
1st Grade through 12th Grade		
Core Habit of Discussion	Ideal Student Actions	Teacher Training or Prompting
Elaborate on Your Answer	<ul style="list-style-type: none"> Teacher prompts students to give a more developed answer Students prompt students 	<ul style="list-style-type: none"> Teacher prompts students to give a more developed answer: "Tell me more." Teacher gestures for student to keep going.
Build Off Another's Answer	<ul style="list-style-type: none"> Responses build off of what the previous student said. 	<ul style="list-style-type: none"> "Build off that." "Tell me more about what _____ said." "Can you tell me more about what _____ is thinking?"
Evaluate Others' Responses (Accountable Talk)	<ul style="list-style-type: none"> Non-verbal: agree, disagree. Students saying "I agree with what you said because..." and "I somewhat agree with what you said but..." 	<ul style="list-style-type: none"> Teach the stems of agree/ disagree/ somewhat disagree: "I agree with what you said because..." and "I somewhat agree with what you said but..." Teacher prompts with "Do you agree..." and then asks "Why do you think that?" Teacher prompts the group: "What do you think about that?" "Do you agree?"
Peer Praise	<ul style="list-style-type: none"> Praise each other's work or thinking 	<ul style="list-style-type: none"> Teacher prompts for praise: "What did you like about Jason's answer?" "Could someone offer some praise for that answer?"

Exceptional Learners

Accommodations and Modifications

Students with IEPs receive all accommodations and modifications identified in their Individualized Education Program. At the beginning of the academic year teachers must read over each IEP to determine what accommodations and modifications should be provided throughout the year.

Individualized Education Program (IEP)

Is a written plan that identifies a student's present level of academic achievement and functional performance. General education and special education teachers alike provide the information described above to determine the appropriate goals, accommodations and modifications, and related services needs for each student with an IEP. General education and special education teachers are responsible for the implementation of this plan in order to close academic and behavior gaps for struggling learners.

IEP Access

Teachers and paraprofessionals who serve students with IEPs should have access to these documents in the IEP student information system (EdPlan). Log-in credentials are provided prior to the opening of school and/or once employment begins. These documents are confidential and should not be shared with anyone other than those who "need to know." All information in the document must be kept confidential.

IEPs must be kept in a locked location and should not be removed from campus. All student information should be accessible in EdPlan and can be accessed while off campus.

IEPs are developed and revised on timelines determined by the New Jersey Administrative Code 6A:14, Special Education.

Annual: the period of one calendar year where the IEP team meets to review and revise the IEP and determine placement, appropriate accommodations and modifications, and goals and objectives.

Triennial/Re-evaluations: the period every three years of the previous classification, a multi-disciplinary reevaluation is completed to determine whether the student continues to be a student with a disability

Both general and special educators contribute information about the school programs, student progress, and concerns about the student's progress. This team of educators work together to support all students and collaborate with others to meet the academic and social needs of students

Case Manager

The Child Study Team case manager works in collaboration with teachers in order to prepare the IEP, monitor the progress, and determine the appropriate disability of a student who has special education needs.

Collaboration

General and special education teachers work in concert to support students with disabilities. This work provides students with both the skills and knowledge of both experts to close academic and social gaps and provide accelerated learning. Students are provided with the

Educating ELLs/MLLs

The English Language Learner/Multi-Language Learner program is a daily developmental second-language program of at least one period of instruction based on student language proficiency. The teacher of this program focuses on comprehension, speaking, reading, and writing in English.

MLLs benefit from direct instruction and the use of academic language. All learners must be exposed to academic language in order to improve their English proficiency and language acquisition. Teachers should use Sheltered Strategies to support learners. The following strategies are useful for teachers;

- Use different sources of input. When acquiring language, the learner must activate all four domains of language: listening, speaking, reading and writing.
- Use a storytelling approach that includes at least 80 percent words and expressions that your students can understand.
- Use drawings or images to illustrate the concept being taught. Use labels as well.
- Front load key vocabulary terms using a mix of Tier 1, 2, and 3
- Activate prior knowledge to build bridge to new knowledge
- Adapt speech by avoiding complex explanations and advanced forms of language such as idioms, sarcasm, or regional idiosyncrasies.
- Correct mistakes through modeling correct language use

By Dr. Vernice Guitierrez

Classroom Setup | Readiness for a Strong Start

At all BRICK schools, we have provided guidance on classroom readiness for a strong start of the school year. This includes designated classroom spaces (such as classroom library, word wall, etc.), poster/signage (iDREAM, hand signals, etc.), specific subject materials (math manipulatives, etc.), bulletin boards, and specific spaces needed for shared classrooms. When reviewing this document, be sure to note what items will be provided to you on the network level, along with what requirements for designated classroom spaces and guidance for shared classrooms.

[Classroom Readiness Checklist](#)

The Whiteboard

BRICK Education Network teachers in grades K-12, utilize their board as a powerful tool for communication. The chart below outlines expectations:

K-3 Self-Contained	4-12 Departmentalized
<p>DATE DAILY SCHEDULE: Whether consistent for a week or a month, the daily schedule serves to keep a teacher moving through subjects on time and students to be clear about the structures and routines in the class. The schedule should include the times and the subject. The schedule should be updated daily.</p>	<p>DATE AGENDA: Used to provide students with a brief overview of the lesson's progression, the agenda can also be used to engage students by listing specific names of activities/lesson components or problem sets that will be part of the day's lesson. Broken down by minute. Objective: What students will be learning Homework: The day's homework assignment is posted in full.</p>

Recommended Practices

- The daily lesson objective can be written before student entry or during the opening of the lesson.
- Keep the objective up throughout the lesson that is being taught (If using PowerPoint, embed the objective in the header so that it is always visible for students to reference)

Bulletin Boards

Bulletin boards at BRICK Education Network are meant to display samples of student progress toward demonstrating mastery of rigorous tasks. Bulletin boards are a place where students can be proud of their work, both in first draft form and also after feedback and revisions. School leadership teams determine final bulletin board decisions.

General Bulletin Board Guidelines:

- Updated on a monthly basis (see individual school schedule)
- Include various levels of proficiency
- Graded with some form of feedback
- Include student revisions using feedback given by teacher
- Please note: There may be other requirements as outlined by individual schools.

Grade & Subject Area	Examples of Tasks to Display	Guidelines for Displaying Work
K-2 Literacy	Responses from SRA Writing pieces (Lucy Calkins Rubric)	Must include: <ul style="list-style-type: none"> ● Learning Objective ● Evidence of Student Revisions via colored pencils ● Post It - Rubric with scores and feedback ● Description of task ● 75% of students represented
K-8 Math/Science	Class projects Performance tasks Progressive learning tasks Evidence of student writing in 2nd grade.	Must include: <ul style="list-style-type: none"> ● Learning Objective ● Evidence of Student Revisions ● Rubric Specific to the task ● Rubric score with prescriptive feedback ● Description of task
3-12 Literacy	Unit or Mid-Unit Assessments End of Unit Essays from curriculum Exit Tickets Guided Reading DOL student responses	Must Include: <ul style="list-style-type: none"> ● Learning Objective and/or description of task ● Student work (2 drafts, reflecting revisions, if possible) ● Printed Rubric with student's score and teacher comments
3-12 Math	NJSLA Type 2 and 3 tasks (including an explanation) Tasks from illustrativemath.com Performance Tasks from curriculum Projects that include explanation of process or justification of reasoning.	Must include: <ul style="list-style-type: none"> ● Learning Objective ● Rubric Specific to the task ● Rubric score with prescriptive feedback ● Description of task if necessary
VPA/CTE/PE/WL/Other	Class projects	Must include: <ul style="list-style-type: none"> ● Learning Objective ● Rubric Specific to the task ● Rubric score with prescriptive feedback ● Description of task if necessary
9-12 Science	Data collection with analysis Argument Driven Inquiry Boards or final papers Research projects CEJs	Must include: <ul style="list-style-type: none"> ● The task with applicable data/information ● Learning Objective being assessed ● Rubric Specific to the task, scored with with prescriptive feedback

Professional Development and Network Resources

In addition to weekly lesson/unit unpacks, there are additional meetings that may take place.

Summer Professional Development

Summer Teacher Institute takes place in the last two weeks in August. Institute is a collaboration between the network and schools to ensure all staff members are well equipped and provide the necessary professional development to begin the school year.

New Teacher Professional Development

For all new staff or returning staff in new positions, the network will organize New Teacher Professional Development 3 days prior to the official Summer PD for returning staff. These staff members will receive 101 PD on content and SEL material, along with an Orientation and new teacher Taxonomy PD.

Observation Feedback/Coaching Meetings

Teachers will engage in biweekly or weekly observation feedback/coaching meetings. During observation feedback or coaching meetings, teachers will reflect on the impact of their instructional practice on student outcomes and practice specific and actionable feedback to improve student learning. Teachers may need to provide student performance data to their instructional leader prior to Observation Feedback meetings.

BEN PD Days - Network and School Rotation

All BEN schools will dismiss at 1pm one day per week to allow staff to engage in network or school-based PD/meetings. School leader and teacher attendance is required for these sessions. The PD Scope and Sequence will be linked on the [BEN Resource Page](#).

BEN PD/Meetings	School-Based PD/Meetings
<p>All Network meetings will take place in person or virtually.</p> <p>Schools must operationalize dismissal to allow instructional staff/admin to leave school sites for prompt PD start time of 2:00 pm</p> <p>2:00 to 4:15 pm - Content/SEL Team Professional Development</p> <p>Schools may decide to have a school-based meeting before the network meeting starts. That will be at the school's discretion. All staff must still arrive for a prompt start of 2:00 pm.</p> <p>School leaders/directors accurately track attendance and any prework.</p>	<p>All school-based meetings will take place at individual school sites.</p> <p>School level leadership teams will plan for staff meetings, staff committees, or school-specific PD.</p> <p>Staff meetings should occur monthly (at a minimum)</p>

BEN Resource Page

[BEN Resource Page](#) is the one-stop shop for information on Network PD, guidebooks, and content scope & sequence documents, along with other network reference materials such as links to tech resources and shared content drives. Be sure to bookmark the page and refer to it content-related questions.

Network Testing Requirements

Outside curricular based assessments, BRICK Education Network teachers are required to administer network-wide assessments. School sites and teachers will plan and incorporate student investment strategies.

Grades K-4	Grades 5-8	Grades 9-12
<ul style="list-style-type: none"> ● SWYK* ELA/Math (frequency depends on grade/subject) ● STEP 4x in ELA ● iREADY 2x (math only) ● Interims** 4x ELA & Math ● NWEA MAP 2x in ELA & Math 	<ul style="list-style-type: none"> ● SWYK*/Unit Assessments (frequency depends on grade/subject) ● iREADY 2x (math only) ● Interims** 4x in ELA & Math ● NWEA MAP 2x in ELA & Math ● PSAT 8th 	<ul style="list-style-type: none"> ● SWYK*/Unit Assessments (frequency depends on grade/subject) ● Quarterly Exams* 4x in ELA/Math ● SATs 4x in ELA/Math ● NMSQT - 11th

*Network created

**Varies (network/company created)

Content Area SWYK/Unit Assessment (K-12)

The SWYKs/unit assessments occur at the network level and frequency is outlined in the scope and sequence by subject/grade.

- SWYK/Unit assessments give the teacher a dipstick on student performance based on NJSLA
- Teacher administers assessment using all testing procedures and protocols
- Students with IEPs are provided outlined accommodations and modifications as outlined in the IEP
- Teacher ensures 100% of students are tested
- Teacher scores student work and enter into Illuminate within 48 hours of initial administration (school hours)
- School leaders ensure 100% of students have valid scores in Illuminate.

Interim Testing Guidelines (K-8)

Interim testing is a network expectation and all schools must adhere to all testing protocols. School teams must inform teaching staff of upcoming interims and guidelines/updated schedules at least 1 week in advance. On days when there is either ELA or math interim testing, a modified school bell schedule (created by SOMs) is required so that all students are tested at the same time and the school adheres to NJSLA testing conditions.

NWEA (MAP) Testing Guidelines (K-8)

For MAP testing, all students in K-8 will test in ELA and Math two times a year (beginning of year and end of year), following similar testing guidelines as interim.

STEP Testing Guidelines (K-3)

For STEP testing, both teachers will be required to STEP test during outlined planning periods and guided reading. No sub coverage will be required. A detailed STEP testing memo will provide guidance on when teachers should test during each testing window.

Quarterly Exam Guidelines (HS)

Students in grades 9-12 will take quarterly exams in Math and ELA, where they will have a modified school bell schedule.

SAT Testing Guidelines (HS)

Although some colleges and universities are moving away from using the SAT and ACT for admissions criteria, we know that the results allow students to see how their performance compares to students across the US. Beginning in the 2020/2021 school year, BEN will phase in using SAT Interims for students in grades 9-12. The goal is to spend year 1

putting the SAT in place as part of an academic culture shift and build investment with leaders, teachers, students and families. *The testing dates will be updated in the academic calendar.*

Grading Policies and Expectations

BRICK Education Network teachers keep detailed records of student progress on mastery of grade level standards as measured by assessments, classwork and homework. Teachers send mid-quarter progress reports to parents that include detailed narrative comments regarding each student’s progress as well as end of quarter report cards. Teachers conference with families at the end of Quarters 1, 2, and 3.

Marking Period & Grade Due Dates

Quarter	Dates	Progress Reports Due	Progress Reports Sent	Report Card Grades Due	Conference Date*
Quarter 1	First Day of School to 11/5/21 (47 days NJ/51 days NY)	9/29/2021 11:59 pm	10/4/2021	11/10/21 @ 11:59 pm *stored 11/15 @ 4pm *avail in online portal on 11/16	11/18/2021
Quarter 2	11/8/21 to 1/21/22 (45 days NJ/44 days NY)	12/8/2021 11:59 pm	12/13/2021	1/27/22 @ 11:59pm *stored 1/31 @ 4 pm *avail in online portal on 2/1	2/3/2022
Quarter 3	1/24/22 to 4/1/22 (45 days NJ/NY)	3/2/2022 11:59 pm	3/7/2022	4/7/22 @ 11:59pm *stored 4/11 @ 4 pm *avail in online portal on 4/12	4/14/2022
Quarter 4	4/4/22 to Last Day of School (52 days NJ/53 days NY)	5/11/2022 11:59 pm	5/16/2021	6/17/22 @ 11:59pm *stored 6/22 @ 4 pm *avail in online portal on 6.23	N/A

Grade Changes in PowerSchool

If a grade must be changed after quarter grades have been stored, the teacher must email their direct supervisor and the principal with the request and reasoning for the change. Teachers are required to complete a “grade change form”. Once the principal approves the change, the SOM will make the necessary change in PowerSchool.

Academic Evaluation Key

The key below is used to enter grades for BRICK Education Network. Teachers should adhere to this key when assigning grades.

Overall Course Grade							
A+	98 - 100%	B+	87 - 89%	C+	77 - 79%	D	64 - 69%
A	94 - 97%	B	84 - 86%	C	74 - 76%	F	0 - 63%
A-	90 - 93%	B-	80 - 83%	C-	70 - 73%		

Honor Roll Criteria

Each quarter, honor roll students will be recognized for their academic achievement. PowerSchool will calculate Honor Roll using the following categories (requirements outlined below).

- **Honor Roll (K-12)** - 80% (B-) and above in all subjects (including enrichment/electives)
- **High Honors (K-12)** - 90% (A-) and above in all subjects (including enrichment/electives)

Grade Book Setup

BRICK Education Network teachers maintain student grades within their PowerSchool gradebook. PowerSchool categories have already been predetermined.

Gradebook Expectations

- Gradebooks should be current and updated weekly (parents/students will have access to PowerSchool)
- Assessment grades should be inserted within 72 hours.
- All other assignments should be inserted by the end of the school week.
- Gradebooks should include percentages (not points).
- Gradebook audits will occur weekly by individual school administrators.

Gradebook Categories			
Category	Weight	Grade Type	Default Category
Homework	10%	Percentage	Yes
Classwork	30%	Percentage	Yes
Tests/Quizzes	60%	Percentage	No

In order to ensure consistency between classes and among grades, teachers should have gradebooks to reflect the courses below.

Grades K-2 Homerooms	Grade 3 Departments	Grades 4-8 Departments	Grades 9-12 Departments
<ul style="list-style-type: none"> Guided Reading (no grade assigned) Strategic Read Aloud Writing Math Science Social Studies 	<ul style="list-style-type: none"> Guided Reading (no grade assigned) English Language Arts Writing Math Science Social Studies 	<ul style="list-style-type: none"> English Language Arts Math Science Social Studies Independent Learning Time (no grade assigned) 	<i>Based on course taught</i>

A teacher must have a minimum number assignments for the quarter spread across classwork, assessments and homework in order to substantiate a final grade:

Grades K-3	Grades 4-8	Grades 9-12
<ul style="list-style-type: none"> SRA 20 assignments total Writing 5 assignments total Math 20 assignments total Science 10 assignments total SS 10 assignments total 	<ul style="list-style-type: none"> ELA 20 assignments total Math 20 assignments total Science 10 assignments total SS 10 assignments total 	<ul style="list-style-type: none"> All Core/Mandatory Subjects 20 assignments total Other 10 assignments total

Grading Students with IEPs

Teachers who teach students with an Individual Education Program (IEP) must read and implement all of the supplementary aids and services in each student’s program.

All accommodations and modifications should be followed per the student’s IEP. The teacher(s) must document and maintain records of accommodations and modifications being followed per the student’s IEP.

If a student is at risk of failing a course the parent/guardian should be contacted as soon as the instructor becomes aware of the failure. At the minimum, parents/guardians should be contacted mid-way through the marking period.

Steps to Follow When a Student with an IEP has Failing Grades	
1	The special education teacher must contact the case manager to have a meeting regarding the grades/failure.
2	The case manager will set-up a meeting with stakeholders: teacher(s) and student.
3	During the meeting the team will review the IEP; including the supplementary aids and services, and accommodations and modifications for appropriateness.
4	The team will review all documentation to include; coursework, documentation of accommodations/modifications, homework, and student effort.
5	The team will make any amendments to the IEP that supports student learning success.
6	The teachers will monitor student progress for improvements. If the student does not make progress, reconvene.

Progress Reports/Report Cards

Progress Reports

Midway through each quarter, teachers prepare a progress report to send home to families. The purpose of the progress report is to provide an update on each BRICK Education Network student’s progress so far that quarter. Grades and comments will be included on the progress report.

Memos are sent to staff from SOMs outlining timelines and due dates at least 2 weeks prior to progress reports being sent or made available to families.

Report Cards

At the conclusion of each quarter, teachers prepare a report card to facilitate parent/teacher conferences. The purpose of the report card is to provide a summative evaluation of each student's performance during the quarter as evidenced by assessments, classwork and homework. Memos are sent to staff from SOMs outlining timelines and due dates at least 2 weeks prior to report cards being sent or made available to families.

Writing Effective Progress Report/Report Card Comments

	Pre-K	Grades K-8	Grades 9-12
Progress Reports	Required: Narrative comments <i>3-5 sentences</i>	Required: Narrative comments <i>1,000 character limit</i>	Required: drop down comments
Report Cards	Required: Narrative comments <i>3-5 sentences</i>	Required: Drop down comments Optional: Narrative comments <i>1,000 character limit</i>	Required: Drop down comments Optional: Narrative comments <i>1,000 character limit</i>

- Keep comments clear and concise. Use specific language - “Sam has mastered adding two digit numbers without regrouping. Next, we will learn to add two digit numbers with regrouping.”
- Be specific on strategy in the growth area- rather than “she needs to remember her strategies”, it should be “When she is stuck during reading, try encouraging her to sound out words independently, one sound at a time and then rapidly together, and/or use pictures to look for clues about the words”
- Remember - these are legal documents so please ensure you proofread your writing and ensure your sentences are clear, concise, and make sense.
- *PK Only:* Narrative should include benchmark, student strengths, and student growth areas (3-5 sentences)

My Achievement Profile

It is important that students, families and teachers have critical assessment data available in an easy to read format. This allows teachers to have conversations with parents rooted in data and empowers all stakeholders to take action. In addition to quarterly report cards, families and students are also provided with an Achievement Profile. This document shows key assessment data and is updated quarterly. This data is also available to teachers and leaders via the My Achievement Profile Dashboard (coming soon!)

Below is a sample of the Achievement Profile:

My Achievement Profile | 2021-2022

Student Name:
School:
Grade:
ID Number:
ELA Teacher:
Math Teacher:
Enrollment:

NWEA ELA & Math (K-8)

Your child has been placed in an Achievement Percentile scale (1%-100%) for reading and math based on the nationally normed NWEA MAP assessment. Students at the 50th Percentile are average for their grade level.

	ELA Achievement Percentile	MATH Achievement Percentile
Fall		
Spring		

Start Strong Performance (4-8 Only)

The NJ Start Strong assessment is used to determine the level of support that a student might need to master the current year's prerequisite skills and concepts in Math and ELA. Students are categorized in three performance levels ("Less Support May Be Needed"; "Some Support May Be Needed"; "Strong Support May Be Needed").

ELA	Math

Interim Assessments (K-8)

Goal: Our students are to master at least 55% for ELA and 70% for math of content knowledge on the interims. Your child's Interim 1 score may have changed slightly due to a re-weighting of the point value for multiple choice and writing questions.

	ELA	MATH
Quarter 1		
Quarter 2		
Quarter 3		
Quarter 4		
Year Avg.		

STEP Reading Assessment (K-3 Only)

Goal: To be considered on grade-level, your child must reach STEP []. All students are expected to grow at least one STEP level each round.

	STEP Achieved	STEP Target	Met Target	Grade Level Benchmark
Round 1				
Round 2				
Round 3				
Round 4				

Attendance

Goal: A student should miss 5 or less days of school each school year. Missing 10+ days can result in court referrals for parents/guardians.

	Days Absent	Attendance Rate	Attendance Tier
Period 1			
Period 2

Final Grades and Retention

Calculating Final Grades

At BRICK, we believe that it is our responsibility to set our students up for success, not failure. In this guidebook we have provided guidance on gradebook consistency and rubric conversion. However, inconsistencies still exist from classroom to classroom and it can become mathematically impossible for students to recover from low Fs even if they make progress from semester to semester. As such, *all final grade scales will be capped to convert all grades below 55% to 55% in PowerSchool.* For further reading on this stance, please refer to [“The Case Against the Zero”](#) by D. Reeves.

Grade Point Average

In order to prepare 8th grade students for high school expectations, GPAs (Grade Point Average) will be included on report cards. This will allow students the opportunity to understand the importance that a single grade has on one’s overall performance as they prepare for high school and beyond.

Promotion in Doubt

At the culmination of each quarter, grade level teams will review student performance and determine which students are NOT on track to demonstrate mastery of grade-level standards in one or more subjects. These students will receive a Promotion in Doubt (PID) letter, with IL approval. It is the responsibility of grade level teams to outline what interventions have been implemented in school and provide recommendations for school/home interventions.

Other data points will be required to warrant a PID letter, such as STEP, iReady, Unit Assessments, etc., indicating 2+ years behind grade level. Once a student is recommended for PID, the team MUST make a student referral to the school’s Intervention and Referral Services (I&RS) and complete all necessary paperwork.

Promotion in Doubt Tracker	Promotion in Doubt Letter Template
--	--

STEP (K-3 only) Data for PID Recommendation				
	September Round 1	November Round 2	March Round 3	May/June Round 4
Kindergarten	Pre-STEP/STEP 1	STEP 2	STEP 3	STEP 4
1 st Grade	STEP 4	STEP 5	STEP 6	STEP 6/7
2 nd Grade	STEP 6/7	STEP 7	STEP 8	STEP 9
3 rd Grade	STEP 9	STEP 10	STEP 11	STEP 12

Retention

At the culmination of the school year, grade level teams will review student performance and determine which students in K-8 are not on track to demonstrate mastery of grade-level standards in at least TWO core subjects. Core subjects must include ELA and/or Math; and/or Science or SS/History.

In high school, promotion is based on credit accumulation. Students earn credits by successfully completing courses. Students who do not pass courses successfully must repeat the course. Courses are worth anywhere between 1.5 and 5 credits, depending on the frequency. Courses that meet for a cycle only are worth 1.5 credits, courses that meet for only a semester are worth 2.5 credits and full year courses are worth 5 credits. In order to be considered a sophomore, a student must have accumulated 30 credits, junior 60 credits and senior 90 credits.

High School Graduation Requirements

New Jersey State Minimum Graduation Requirements by Content Area 120 credits (*N.J.A.C. 6A:8-5.1*)

Content Area	Credits and additional requirements
English Language Arts	20 credits
Mathematics	15 credits including: <ul style="list-style-type: none"> Algebra I or the content equivalent Geometry or the content equivalent Third year of math that builds on the concepts and skills of algebra and geometry and prepares students for college and 21st century careers
Science	15 credits with at least 5 credits in each: <ul style="list-style-type: none"> Laboratory biology/life science or the content equivalent Laboratory/inquiry-based science course (i.e., chemistry, environmental science, or physics) Laboratory/inquiry-based science course
Social Studies	15 credits including: <ul style="list-style-type: none"> 10 credits in US History Integration of civics, economics, geography and global content in all course offerings
Financial, Economic Business, and Entrepreneurial Business Literacy	2.5 credits
Health, Safety, and Physical Education	15 credits over four years
Visual and Performing Arts	5 credits
World Languages	5 credits
Technology	Integrated throughout all courses
21st Century Life and Careers	5 credits

Grading Consistency by Core Subject & Grade Level

In order to ensure consistency in grading between teachers on the same grade level as well as between grade levels, all teachers must include the following assignments as part of their grades:

Math Grading | K-12

GRADING Math (K-8)				
Grade	Title	Description & Frequency	Course	Category
K-8	SWYK/Weekly Quiz/Unit Assessment	Assessment administered and scored in illuminate; score transferred to gradebook.	Math	Test/Quiz
K-8	SWYK/Weekly Quiz-Ever Improving/Unit Assessment Reassess	Reassessment administered and scored in gradebook; should not exceed more than half SWYK points.	Math	Test/Quiz
K-8	Interim Assessments & Mock	Interim assessments administered and scored in illuminate; score transferred to gradebook. K-2 will have 4 Interims throughout the year 3-8 will have 3 Interims throughout the year and 1 Mock Assessments prior to State Testing *Mock assessments are not transferred to gradebook	Math	Test/Quiz
K-8	"iReady Classwork Week XX"	Weekly given on Mondays; Based on BRICK Education Network meeting their weekly usage goal; scored using 0-3 rubric that correlates to percentages on Page 13.	Math	Classwork
K-8	"Exit Ticket 3.1 Week X" "Exit Ticket 3.2 Week X"	Two exit tickets per week are pre-identified by the course leads and scored using BEN rubric. **Grades 3-8 enter responses in Illuminate	Math	Classwork
K-8	"Homework Week X"	Weekly homework grade using 0-25 points (5 points per day)	Math	Homework
GRADING Math (9-12)				
Grade	Title	Description & Frequency	Course	Category
9-12	X.YX Title CW	Assigned throughout the quarter, graded assignments such as peer interaction rubrics, formative assessment rubrics, Exit Tickets, etc. [Approx 1-2 graded weekly]	Math	Classwork
9-12	X.YZ Title HW	Assigned every night 20 min per assignment, graded 1-2 times per week.	Math	Homework
9-12	HSSWYK # Unit X Quiz Y	Assessment administered approximately every 2 weeks (SWYKs)	Math	Test/Quiz
9-12	HSSWYK # Unit X Test	Assessment administered at the end of each unit assessment (1-2 per quarter) (SWYKs)	Math	Test/Quiz

9-12	Quarter Exam X	Assessment administered at the end of each quarter.	Math	Test/Quiz
------	----------------	---	------	-----------

ELA Grading | K-12

GRADING ELA INSTRUCTION - Reading (K-4)				
Grade	Title	Description & Frequency	Course	Category
K-4	Show What You Know #X Week XX"	Periodic assessment administered and scored in Illuminate (students in K-2 may be assessed on paper; teacher will input scores into Illuminate for analysis); pushed to grade book through illuminate	Reading	Test/Quiz
K-4	Interim Assessments	Interim assessments administered and scored in Illuminate; score transferred to gradebook. K-2 will have 3 Interims and one final throughout the year 3-4 will have 3 Interims and one final throughout the year	Reading	Test/Quiz
K-4	SRA/Lit Block Exit Ticket #1/#2 Week XX"	Exit Tickets will be determined in the curriculum. Additional Exit Tickets may be added based on updated student achievement data.	Reading	Classwork
K-2	"Lexia Classwork Week XX"	Weekly given on Mondays; Based on BRICK Education Network meeting their weekly usage goal	Reading	Classwork
K-4	"Homework Week XX"	Completion of homework packet - weekly grade **teachers create and distribute this packet based on classroom needs	Reading	Homework
K-3	"Reading Log Week XX"	Completion of reading log at home - weekly grade	Reading	Homework
GRADING ELA INSTRUCTION - Writing (K-4)				
Grade	Title	Description & Frequency	Course	Category
K-4	End of Unit Assessment	Assessment administered at the conclusion of writing unit *commScorecards created by IL using rubric and tied to standards	Writing	Test/Quiz
K-4	"Writing Classwork Week XX"	Overall evaluation of participation in and completion of writing tasks each day for the week; scored using 0-3 rubric that correlates to 0-20 points	Writing	Classwork
K-3	(quarter 3-4) "Mid-Unit Writing Sample"	Teacher selected piece of writing evaluated using the rubric; based on the benchmark for the quarter	Writing	Test/Quiz
GRADING ELA INSTRUCTION (5-12)				
Grade	Title	Description & Frequency	Course	Category

5-12	Show What You Know #X Week XX”	Assessment administered and scored in illuminate; pushed to grade book through illuminate	ELA	Test/Quiz
5-8	Show What You Know #X Annotations and CI Week XX”	Score given for annotations and central idea of text	ELA	Test/Quiz
5-12	Interim/Quarter Assessments	Interim assessments administered and scored in illuminate; score transferred to gradebook.	ELA	Test/Quiz
5-12	End of Unit Assessment	Cumulative Assessment	ELA	Test/Quiz
5-12	Exit Tickets (1 per week) “Exit Ticket U1L1”	Given every day	ELA	Classwork
5-12	“Homework Week XX”	Completion of daily homework assignment (this could be combination of homework annotation completion, comprehension question completion and/or DIRT quiz scores)	ELA	Homework

Science Grading | K-12

GRADING SCIENCE INSTRUCTION (K-2)				
Grade	Title	Description & Frequency	Course	Category
K-2	“Unit XX assessment”	Assessment administered at the end of each unit assessment (1x/unit)	Science	Test/Quiz
K-2	“Lesson XX Quiz”	Administered throughout the unit (Approx. 2-3x/unit)	Science	Test/Quiz
K-2	“Science Classwork Unit X Lesson X”	Given after each lesson is complete; overall classwork grade for the quarter based on holistic review of classwork and participation. (1-3x/week)	Science	Classwork
K-2	“Science Activity Week XX”	Hands-on activities, performance tasks, scored using 0-3 rubric that correlates to 0-20 points. (1x/week)	Science	Classwork
K-2	“Science Homework Week XX”	Completion of science homework (At least 1x/week)	Science	Homework
GRADING SCIENCE INSTRUCTION (3-8)				
Grade	Title	Description & Frequency	Course	Category
3-8	End of Unit assessments	Assessment administered at the end of each unit assessment (1-2 per quarter)	Science	Test/Quiz
3-5	Lesson Quizzes	Given halfway through the unit to assess readiness for end of unit assessment. 1x/unit	Science	Test/Quiz

6-8	Critical Juncture Assessment	<i>Given halfway through the unit to assess readiness for end of unit assessment. 1x/unit</i>	Science	Test/Quiz
3-8	"Science Classwork Unit X Lesson X"	<i>Given after each lesson is complete; overall classwork grade for the week based on holistic review of classwork and participation. 1-3x/week</i>	Science	Classwork
3-8	"Science Homework Week XX"	<i>Completion of science homework (At least 1x/week in 3-5 & 2x/week in 6-8)</i>	Science	Homework

GRADING | SCIENCE INSTRUCTION (9-12)

Grade	Title	Description & Frequency	Course	Category
9-12	X.YZ Title Lab-Write Up	<i>Assigned throughout the quarter, either full (with all components) or summary (with data and analysis only) Approx 3-5 per unit</i>	Science	Classwork
9-12	X.YX Title CW	<i>Assigned throughout the quarter, graded assignments such as peer interaction rubrics, formative assessment rubrics, Exit Tickets, etc. Approx 1-2 per week</i>	Science	Classwork
9-12	X.YZ Title HW	<i>Assigned approx. 3-4 nights per week, 20 min per assignment. Graded 1-2 times per week</i>	Science	Homework
9-12	Unit X Quiz Y	<i>Assessment administered as reading checks (Do Nows) or for content checks throughout the quarter. 5-8 per quarter</i>	Science	Test/Quiz
9-12	Unit X Test/Project Title	<i>Assessment administered at the end of each unit assessment (1-2 per quarter)</i>	Science	Test/Quiz
9-12	End of Quarter Assessments	<i>Assessment administered at the end of each quarter.</i>	Science	Test/Quiz

History & Social Studies Grading | K-12

GRADING | SOCIAL STUDIES (K-2)/HISTORY (3-8)/World History, USI & USII (9-11)

Grade	Title	Description & Frequency	Course	Category
K-2	End of Unit assessments	<i>Assessment administered at the end of each unit assessment (1-2 per quarter)</i>	Social Studies	Test/Quiz
K-2	Lesson Quizzes	<i>Given periodically through the unit to assess readiness for end of unit assessment. 1-2x/unit</i>	Social Studies	Test/Quiz
K-2	"Social Studies Classwork Unit X Lesson X"	<i>Given after each lesson is complete; overall classwork grade for the week based on holistic review of classwork and participation</i>	Social Studies	Classwork
K-2	"Social Studies	<i>Completion of social studies homework</i>	Social	Homework

	Homework Week XX”	(At least 1x/week)	Studies	
3-8	Mid and End of Unit assessments	Assessment administered at the end of each sub unit assessment (1-2 per quarter)	History	Test/Quiz
3-8	Lesson Quizzes	The curriculum only rarely provides short quizzes. Quizzes can be teacher made and given at the teacher’s discretion on a bi-weekly basis or less frequently.	History	Test/Quiz
3-8	Exit Tickets	Daily (1 per lesson) Recommend that some Exit Tickets be counted as assessment grades. These can be identified during the unit unpacks.	History	Classwork or Test/Quiz
3-8	Homework Accountability	Averages 1 every other lesson; DIRT Quizzes should be counted as a homework grade since they do not assess mastered content but merely whether a homework reading was complete.	History	Homework (even the DIRT quizzes)
WH/US	Unit Assessments	Assessment administered at the end of each sub-unit (1-2 per quarter)	WH/US	Test/Quiz
WH/US	Lesson Quizzes	Infrequent (~1 per unit)	History	Test/Quiz
WH/US	Exit Tickets	Daily (1 per lesson)	History	Classwork
WH/US	Homework Accountability: Review or Collect Cornell Notes; Graphic Organizer or questions; DIRT Quiz	Averages 1 every other lesson	History	Homework (even the DIRT quizzes)

VPA/CTE/PE/WL | K-12

GRADING VPA/CTE/PE/WL				
Grade	Title	Description & Frequency	Course	Category
K-12	“Homework Unit/Topic X”	Completion of homework (frequency dependent on how often the teacher sees students).	VPA/CTE/PE /WL	Homework
K-12	“Classwork Unit/Topic X”	Completion of classwork (frequency dependent on how often the teacher sees students). Score provided for each class.	VPA/CTE/PE /WL	Classwork
K-12	“Participation Rubric Unit/Topic X”	Participation Rubric primarily for PE (frequency dependent on how often the teacher sees students - score provided for each class).	VPA/CTE/PE /WL	Classwork
K-12	“Assessment Unit X/Type of Assessment”	Includes Diagnostics , PBAs, Unit Assessments, Project Checkpoints, Portfolio components. At least 6 per	VPA/CTE/PE /WL	Assessment

		<i>quarter.</i>		
--	--	-----------------	--	--

Homework Expectations

Homework is given daily by all core subject teachers and guidance is provided by the network. Homework is used to ensure students have ample practice on current and previous content. Homework provides students with the opportunity to build independence, persevere through challenges and take responsibility for their learning. Cooper (2007) suggested that research findings support the common “10-minute rule” which states that all daily homework assignments combined should take about as long to complete as 10 minutes multiplied by the student's grade level. When required reading is included as a type of homework, the 10-minute rule might be increased to 15 minutes. A teacher may provide additional homework based on the individual needs of students.

Time Recommendation for Homework	
Grades	Time Doing Homework Each Night
PK	N/A
K-3	30 minutes (math + science/SS) + 15 min reading (literacy)
4-5	60 minutes total (literacy + math + science/SS)
6-8	60 - 80 minutes total (literacy + math + science/SS)
9-12	90 minutes total (required classes - does not include AP classes)

Network vs Teacher-Provided Homework		
Grade(s)/Content	Network or Teacher Provided	Additional Notes if applicable
PK	N/A	N/A
K-4 ELA	Network (Reading Logs)	Teacher assigns additional homework based on individual class/student need
5-8 ELA	Network	Teacher assigns additional homework (vocab/literary terms, etc.)
9-12 ELA	Network	Homework assignments are called out in all lesson plans. On the rare occasions when there is no homework, teachers may assign homework that supports the unit objectives.
K-4 Math	Teacher	Teacher assigns homework based on individual class/student need
5-8 Math	Teacher	Teacher assigns homework based on individual class/student need
9-12 Math	Teacher	Teacher creates hw from network provided resources
K-2 Sci/SS	Network	
3-8 Science	Teacher	Teacher assigns homework from curriculum
9-12 Science	Teacher	Teacher creates hw from network provided resources
3-12 History	Network	

Grading | Rubric Conversions

Rationale/Example: When using rubric scores, teachers must convert the score to a percent using a conversion when logging in PowerSchool. For example, if a teacher enters 2 points out of 3 points for a homework score in gradebook but does not convert to a percent, the gradebook will calculate it as 67%. This score is NOT equivalent to the rubric description of a “2” (stated below) that “most of my work is complete and correct”. Instead, a teacher should enter a score of 80% which is aligned to the description on a 3 point-rubric.

General Rubric Conversion Chart

In order to provide guidance for teachers when converting rubrics to percentages when entering scores in gradebook, the following conversion chart has been provided:

6 Point Rubric		5 Point Rubric		4 Point Rubric		3 Point Rubric	
Rubric	Percent	Rubric	Percent	Rubric	Percent	Rubric	Percent
6	100	5	100	4	100	3	100
5	90	4	85	3	85	2	80
4	80	3	75	2	70	1	65
3	75	2	65	1	65	0	55
2	65	1	60	0	55		
1	60	0	55				
0	55						

Homework/Classwork Rubric

Unless specified by content for particular assignments, all teachers in K-12 will use the rubric below to score weekly homework and classwork. Rubric scores are to be converted to percentages when entered into a teacher’s gradebook.

Rubric Score	Gradebook Percentage Conversion Score	Description
3	100%	All my work is complete and correct.
2	80%	Most of my work is complete and correct.
1	65%	Some of my work is complete and correct.
0	55%	None of my work is complete.

iReady Rubric (Math/ELA)

Rubric Score	Gradebook Percentage Conversion Score	Description
3	100%	Met my usage of 45 minutes in K-8th math; and a passing rate of 80%+
2	80%	Met EITHER my usage min OR my a passing rate of 80%+
1	65%	Did not meet usage OR passing rate, but logged time on iReady
0	55%	Did not log any time on iReady

Lexia Rubric K-2 (ELA)

Rubric Score	Gradebook Percentage Conversion Score	Description
3	100%	Completed 80+ minutes
2	80%	Completed 60 - 79 minutes
1	65%	Completed 30 - 59 minutes
0	55%	Completed 0 - 29 minutes

Gradebook Conversions for SWYKs/Interims/Quarterly Exams

Students in K-2 will take 4-5 interims along with SWYKs in ELA and Math. The scores that a K-2 student earns on an interim/SWYK will NOT be curved; however, the lowest score that a K-2 student can receive in gradebook for an interim/SWYK will be 60%. For example, if a student receives a score of 55% in Illuminate, the teacher will put in 60% for that student in gradebook.

Students in grades 3-12 will take 4-5 interims or quarterly exams, along with SWYKs in ELA and Math, and unit assessments in Science. Tested-subject teachers convert their grade using the table below and manually enter the grade into the gradebook as 1 test grade for the corresponding marking period. Students are evaluated against the state testing passing rates.

Students in Grades K-2	
Illuminate Score	Gradebook Percentage Conversion Score
90%+	Exact Score
75% - 89%	Exact Score
63% - 74%	Exact Score
63% or lower	Exact Score or 60% (whichever is higher)

Students in Grades 3-12 ELA	
90%+	100%
75% - 89%	90%
55% - 74%	80%
36% - 54%	70%
21% - 35%	65%
0% - 20%	55%
Students in Grades 3-12 Math	
90%+	100%
80% - 89%	90%
70% - 79%	80%
50% - 69%	70%
26% - 49%	65%
0% - 25%	55%

SWYK/Interims Annotations and Central Idea Jot Rubric (ELA Grades 5-8)

Gradebook Percentage	Description
100%	Strong annotations, precise evidence, strong central idea jot
80%	Work contains 2 of the following: strong annotations, precise evidence, strong central idea jot OR All 3 work habits are evident but are not strong
65%	An attempt was made at 1 of the following: evidence highlighted, annotations in the comment bubble, central idea jot
55%	No highlights, annotations, or central idea jot

SWYK Reassessment Guidelines and Recommendations

Students are expected to take their assessments seriously and teachers use assessments to not only inform their instruction, but to empower students to recognize areas to improve on. To that end, students in some cases have the opportunity to retake certain assessments.

ELA	
K-3	No Reassessment
4-12	<ul style="list-style-type: none"> - Scholars can retake the SWYK for grades 4-12 - Retake is entered as an additional assessment grade in PowerTeacher - For MC, scholars need to cite evidence and explain to earn credit - For OER, scholars need to revise response based on teacher feedback; provide a separate grade
Math	
K-8	<ul style="list-style-type: none"> - Teacher can give reassessment based on lowest performing standard - K-4 Math teachers use Ever Improving document for students to review quiz and edit their work - Enter additional assessment grade in gradebook (should not exceed more than half SWYK points)
9-12	- Students may retake assessment with additional work shown AFTER additional instruction has occurred at teacher's discretion. See additional guidance in the Math Instructional Handbook.
Science	
K-5	No Reassessment
5-12	- Students may retake assessment with additional work shown AFTER additional instruction has occurred at teacher's discretion. See additional guidance in the Science Instructional Handbook.

Summer Learning Packets

All scholars in K-12 will receive **summer learning packets** in June with content practice and reinforcement in preparation for the next grade (these activities will not be daily or day-by-day). Schools may choose to use the packets created by the network OR may choose to create their own/supplement the summer learning packets.

Each scholar will be responsible for completing and returning this packet/submitting Google Classroom assignments upon arrival in the upcoming school year (packets will be graded and completed packets will grant student admission to 1st Fun Friday event). Unlike holiday vacation packets, summer packets will be network-created. Summer Learning Packets will count as 5 homework grades (change weight of assignment to 5) in PowerSchool for each core subject included in the summer learning packet using the following rubric.

Gradebook Percentage Conversion Score	Description
100%	All or nearly all of my work is complete and correct.
85%	Most of my work is complete and correct.
70%	Some of my work is complete and correct.
65%	Some of my work is complete and mostly incorrect.
55%	None of my work is complete.

Online Platforms & Programs

BRICK Education Network uses several online platforms and programs to deliver and monitor the instructional program. The Director of Instructional Technology works with SOMs to ensure online platforms are ready for staff and students. The chart below outlines the main platforms and programs used. Schools should refrain from adding additional programs without guidance from the network.

Platform	Users	Purpose	Maintenance	Training
Amplify Close Reading	6-8 students (ELA only)	<i>Amplify Close Reading engages scholars in practice of middle school literacy skills via the form of an interactive graphic novel. The program utilizes grade level texts and allows scholars to practice and create. Students will use this program during the ILT block.</i>	<ul style="list-style-type: none"> Linked to SIS via Clever Students and staff accesses through Clever 	<ul style="list-style-type: none"> August
Amplify Reading	4-5 students (ELA only)	<i>Amplify Reading leverages compelling storytelling and the latest research to help students achieve true mastery of the concepts they need to become strong, life-long readers. The program meets all students where they are with individualized instruction and practice.</i>	<ul style="list-style-type: none"> Linked to SIS via Clever Students and staff accesses through Clever 	<ul style="list-style-type: none"> August
Amplify Science	K-8 Science Staff + 6-8 Students	<i>Amplify Science blends hands-on investigations, literacy-rich activities, and interactive digital tools to encourage students to think, read, write, and argue like scientists and engineers.</i>	<ul style="list-style-type: none"> Linked to SIS via Clever Students and staff accesses through Clever 	<ul style="list-style-type: none"> August/September
Clever	Staff + Students	<i>Platform used for single sign on for both students and staff. Clever links all BRICK platforms and programs to make signing on easy. Students log into Chromebook via Clever.</i>	<ul style="list-style-type: none"> Director of IT builds out requirements and manages site 	<ul style="list-style-type: none"> None
CommonLit	Students	<i>CommonLit offers teachers a free online collection of Common Core aligned reading materials. Teachers can use CommonLit to find texts for students from 4th to 12th grade. All content is available for free online.</i>	<ul style="list-style-type: none"> Linked to SIS via Clever 	<ul style="list-style-type: none"> None
Nearpod	K-4 Math	<i>Nearpod is an online platform that allows lessons to be interactive through an interactive slide deck. There are various activity slides that can be used to build engagement like draw it, polling, collaboration boards, open ended responses, quizzes, etc... Teachers are able to see multi student work on the teacher screen and receive reports on lesson data.</i>	<ul style="list-style-type: none"> Director of IT builds out requirements K-4 Math Director manages sites and lessons Linked to SIS via clever 	<ul style="list-style-type: none"> August/September
Desmos	5-12 math, 9-11 science	<i>Desmos can be used in a range of different ways including a free graphing calculator or using activities to connect mathematical concepts to concrete, real-world shapes and pictures. Teachers and students can engage in the moment</i>		<ul style="list-style-type: none"> August/September

		<i>since teachers can see student work immediately. Teachers can use premade activities (as part of the curriculum or publicly shared) or build their own to target specific class needs.</i>		
Easy IEP/Ed Plan	Staff	<i>Staff use Easy IEP to manage all IEPs, 504s and BRtS/I&RS systems</i>	<ul style="list-style-type: none"> ● Director of IT builds out requirements ● CST manages content 	<ul style="list-style-type: none"> ● August/September ● Dir. of Special Programs leads
Edgenuity	All SPED Students K-12/ Staff	<i>Platform “offers over 300 standards-aligned, online courses for students in grades 6–12. Courses are customizable and feature a full suite of learning tools and scaffolds, and can be taken for initial credit, as well as concept or credit recovery.”</i>	<ul style="list-style-type: none"> ● Linked to SIS via Clever ● SPED teachers manage student levels 	<ul style="list-style-type: none"> ● July/December ● Dir. of Special Programs leads
Teaching Strategies GOLD	PK Staff	<i>GOLD is an authentic, ongoing observational system for assessing children from birth through kindergarten. GOLD is based on 38 objectives for development and learning that include predictors of school success and are based on school readiness standards.</i>	<ul style="list-style-type: none"> ● Linked to SIS via Clever 	<ul style="list-style-type: none"> ● August/September
Google Classroom	All staff and students	<i>Google Classroom allows teachers to provide assignments through Google that students can work on individually or collaboratively. Teachers can provide feedback via Google.</i> Note: Academic Directors provide guidance on the use of Google Classroom as part of the instructional model	<ul style="list-style-type: none"> ● Linked to SIS via Clever ● Students and Staff accesses through Clever 	<ul style="list-style-type: none"> ● Ongoing based on department
Google Stream	All Staff	<i>Stream your Drive files directly from the cloud to your Mac or PC, freeing up disk space and network bandwidth; this allows everyone to access documents directly from your desktop and file management system rather than downloading and uploading to Drive.</i>	<ul style="list-style-type: none"> ● Linked to SIS via Clever 	<ul style="list-style-type: none"> ● None
Hapara	All Staff	<i>Hapara is a program that allows teachers to seamlessly manage and integrate Google products such as Google™ Drive, Gmail, and Chrome into their instruction. The Hapara Highlights Extension works directly with students through the browser - Open and close web pages on student devices - Priority message students - Take snapshots of student screens.</i>	<ul style="list-style-type: none"> ● Linked to SIS via Clever ● Staff accesses through Clever 	<ul style="list-style-type: none"> ● September
Illuminate	Staff/Students	<i>Illuminate is a platform BRICK uses to build, deliver and analyze student assessments. Illuminate houses all SWYK and Illuminate data. All 3-12 students will take their SWYKs online no later than the start of Q2.</i>	<ul style="list-style-type: none"> ● Linked to SIS via Clever ● Staff accesses through Clever 	<ul style="list-style-type: none"> ● September with first round of SWYKs ● Directors will train IL to turn-key
iReady	K-8	Online learning platform for literacy and math	<ul style="list-style-type: none"> ● Linked to SIS via Clever 	<ul style="list-style-type: none"> ● Institute

	students (math only)	used in K-8 classrooms. In iREADY, teachers have the ability to assign specific standards/skills to students and/or allow students to follow a grade level pathway. If a student struggles, iREADY will move the student down to foundational skills to master before moving on.	<ul style="list-style-type: none"> Students and staff access through Clever 	
Kami	3-8 students (ELA only)	Kami is a tool that allows scholars to annotate PDF texts (novels and supplementary texts). This tool gives teachers daily visibility into student work and thinking.	<ul style="list-style-type: none"> Students access via PDF in Google Classroom 	<ul style="list-style-type: none"> August
Kickboard	Staff + Families	<i>Kickboard is a platform used to track iDREAM scores and daily SEL data. SEL team members use Kickboard to identify target students, classes and grades for further support. Families can download the kickboard app to see how their student is doing.</i>	<ul style="list-style-type: none"> Linked to SIS via Clever Families download app Staff accesses through Clever 	<ul style="list-style-type: none"> August
Lifelong Learners	K-4 Staff	<i>Lifelong Learners is a guided reading platform. Teachers use Lifelong Learners to see model instructional videos for discrete phonological and phonemic skills. Additionally, teachers can search for and download guided reading lesson plans that correspond to RAZ kids books by STEP level.</i>	<ul style="list-style-type: none"> School-wide login Director of Elementary ELA manages 	<ul style="list-style-type: none"> August Ongoing during Friday PD
PowerSchool	Staff	<i>Staff use PowerSchool for all student information, including recording of attendance. Illuminate Resources

Illuminate is a platform BRICK uses to build, deliver and analyze student assessments. Illuminate houses all SWYK and Interim/Quarterly assessment data. Here are some important links to guide you on how to use Illuminate, along with roles and responsibilities.

Independent Learning Time | SY 21/22

The Vision and Goal of Independent Learning Time: Being a dependent learner impedes a student’s ability to unlock their limitless potential.” Zaretta Hammond (2015) in her book “Culturally Responsive Teaching and the Brain” presents what she calls the “epidemic of dependent learners” created by denying students the opportunities to develop the cognitive skills and processes that help them become independent learners.” (p.20) She defines dependent learners as having the following common traits:

The Dependent Learner
<ul style="list-style-type: none">● Is dependent on the teacher to carry most of the cognitive load of a task always● Is unsure of how to tackle a new task● Cannot complete a task without scaffolds● With sit passively and waits if stuck until teachers intervenes● Doesn’t retain information well or doesn’t get it● Need to develop the cognitive skills for higher order thinking● Have internal stories about themselves shaped and developed by structural inequalities.● These internal stories become a negative academic mindset as a result of being denied opportunities to become independent learners

Contrast this with the qualities of Independent Learners:

Independent Learner
<ul style="list-style-type: none">● Relies on the teacher to carry some of the cognitive load temporarily● Utilizes strategies and processes for tackling a new task● Regularly attempts new tasks without scaffolds● Has cognitive strategies for getting unstuck● Has learned how to retrieve information from long term-memory● Knows when and how to seek help.● Knows his or her strengths and opportunities for growth and is excited to attack them.● Knows the joy of learning and the rush of the “ah ha, I get it” moment.

Hammond states the problem is “For culturally and linguistically diverse students, their opportunities to develop habits of mind and cognitive capacities are limited or non-existent because of educational inequity. The result is their cognitive growth is stunted, leaving them dependent learners, unable to work to their full potential. (p. 13) “We have to help dependent students learn new cognitive skills and habits of mind that will actually increase their brainpower. Students with increased brainpower can accelerate their own learning, meaning they know how to learn new content and improve their weak skills on their own.” (p. 15).

Hammond refers to this as the most important job of educators.

At BRICK, the Independent Learning Time block is one way that we strike back against this trend, move all students towards independence, and relentlessly knock down one barrier to students’ academic success.

The ILT Class Key Criteria for Success

Structures Criteria for Success

- The Independent Learning Time class (45 Min.) will be included in the schedule of every scholar in grades 4-8 in all BRICK Schools 4-5 days a week.
- There are clear, sustainable systems for Teachers and ILTL to collaborate or communicate information to create weekly Individualized Learning Plans for students that allow for some flexibility if the student meets the goals early, finds that the activities are not useful in building up skills, or the student is otherwise not being successful doing the work and meeting the goals of the plan.
- Instructional methods are differentiated and aligned to the student's current learning target.
- There is a clear plan and progression for each grade or student to learn and internalize the systems of the Independent Learning Block.
- Embedded within the systems of the learning block at each grade, is instruction in the habits of mind, executive functioning, organization, mindset, and self-reflection including review of personal data in order to build students up to become independent learners.
- Professional Development is provided to all necessary staff connected to both the structures of communication necessary to develop and track learning goal progress.
- Professional Development is provided to all necessary staff to ensure alignment between the habits of mind, executive functioning, organization, mindset and self-reflection including review of personal data to ensure teacher across the school are aware of the area of development students are working on, and sharing the same language and strategies in class to support this work. For example, if the current focus is that instead of waiting for a teacher when they are stuck, they use a strategy to get themselves started, then all teachers are aware of this and pushing students to do this in classes, as well as in the ILT Block.
- There is a deliberate progress of learning targets created for grades 4-8 that ensures students become independent learners.

Learning Environment Criteria for Success:

- The Independent Learning Block Classroom is set up to ensure students are easily able to access the tools they need to work independently and spaces for various types of learning including but not limited to computer access and headphones for students working on learning platforms, areas for project based learning, space set aside for whisper level collaborative learning or small group support, as well as silent zones where student who need to think deeply can without interruption.
- Embedded into the system are incentives and rewards. These do not have to be external, and can be structured to bring out intrinsic motivation, but they must be present and visible.
- Clear rules and guidelines for the space and the time are created and posted to ensure students make the most of their time in the block.
- Student Independent Learning Plans are accessible and visible to students and other staff.
- There is a visible reminder to students that shows what their work is for the day so they don't waste time, and all students learn to get to work right away, all the way.
- Instructional Learning Block Leaders are master teachers and seen as school leaders who own and manage the program receiving the necessary training and support to do this effectively; they also are in the classroom during ILT working directly with students but also managing other staff who may be working with students

Outcomes: Students Become Independent Learners as evidenced by:

- Students being able to state their goal, how this goal was developed, how they are working to achieve it, how the work they are doing will ensure success and why it's important.
- Academic growth due to learning the skills of independent learning and owning their own mastery of knowledge.
- Being confident and self-motivated as a result of having the skills to learn independently, and the trust to own their education.
- Students own their own mastery and achieve their goals.
- Student mindset shifts to one of fluid intelligence and faith in their own ability as a learner.

SY 21/22 Guidance | Achieve Launch Year

For the SY 21/22 school year, ILT will be launched and then built upon over the course of the year based on staffing and our return to in person learning.

Staffing Considerations:

- 2 full time ILT teachers (1 through Q1)
- Based on staff schedules, teachers will be assigned ILT
 - Grade 3 Math
 - Grade 5 ELA and Math
 - Grade 7 ELA and Math
 - Grade 7/8 Science
 - Grade 7/8 Social Studies
 - *Other staff based on schedule*
- Note: grade 3-8 staff who do not teach three-90 minute blocks per day may be assigned ILT - this could mean being an ILT teacher for another grade level. It is expected that ILT teachers will take full ownership of whatever ILT classes they lead and maximize the time to move student achievement.
- Grading: all students are enrolled in an ILT course and receive a Pass/Fail grade.
- In Q1, teachers assigned to ILT will be the lead teacher in the classroom and will coordinate ILT for their students; the ILT leader will ensure that all ILT classes are established and students and teachers are working towards the launch goals (the ILT lead is the lead teacher for some classes, as outlined in the schedule).
- In Q2, the 2 ILT teachers will assume the role of lead teacher in the classroom and teachers assigned to ILT will work with a caseload of students

Academic Program Notes:

- **Math:** the math department has developed an Arc of the Year to assist ILT leaders and ILT teachers on where to focus during ILT. Math teachers who are also ILT teachers should use this AotY to maximize their additional time with students and also students in other grades they are working with during ILT; see page 39 of the [K-12 Math Guidebook](#).
 - NOTE: Following Interims, each grade level math teacher will select 2-3 standards of focus. As part of their analysis and action planning, the teacher will identify ONE iReady lesson that supports mastery of these standards each week and will schedule this in their analysis template. The grade level math teacher will assign this lesson to students in iReady. In ILT, students will then complete this lesson first and then continue on the MyPath as indicated by their diagnostic.

- **ELA:** the ELA department has developed some guidance on ways to maximize ILT. For grades 3-4, review page 24 of [K-12 ELA Guidebook](#); **additional guidance for grades 5-8 coming soon

Achieve Timeline

Phase	Dates	What's Happening	Staff Involved
<p>Launch</p>	<p>8/30 to 10/8</p>	<p>Foundation Setting: <i>in this phase, students and staff are building investment, systems and routines to ensure independence for phase 1 when staff begin working in small groups.</i></p> <p>Goals:</p> <ul style="list-style-type: none"> ● 100% of 4-8 students and staff are invested in the vision for ILT and understand how ILT builds independent learners ● 100% of 4-8 students on tier 1 online platforms <ul style="list-style-type: none"> ○ iREADY for math ○ Amplify Close Reading for ELA ● 100% of students understand what success looks like on tier 1 platforms (pass rate, minutes per week, etc.) ● 100% of students begin to develop their ability to identify their own learning gaps; looking at ETs/assessments and saying “I didn’t get that...here’s what I can do...” <p>Notes:</p> <ul style="list-style-type: none"> ● ILT leader will develop PD and turn-key slides for ILT teachers to use to invest students (focus on students taking ownership of their learning; asking for help and/or independently finding help) ● ILT lead ensures all ILT classes are functioning at a high level and troubleshoots with teachers to meet the launch goals ● Students take baseline assessments as part of the ELA and math program to determine areas of strength and growth ● Students who require foundational reading instruction should be identified through fluency assessments and placed in the foundational reading pathway** (see Erin Davis) 	<p>ILT Leader</p> <p>ILT teachers</p> <p>Leaders</p>
	<p>8/30 To 9/10</p>	<p>RCO integration with ILT</p> <ul style="list-style-type: none"> ○ SPED teachers will push into ILT to support students with IEPs on online programs (as outlined in schedule) ○ SPED teachers observe students, informally assess independence, work style and develop relationships ○ SPED teachers review IEPs to determine plan and grouping based on student needs ○ Pull out of students should not happen prior to 9/12 	<p>RCO/RCI teachers</p>
<p>Phase 1</p>	<p>10/11 to</p>	<p>Targeted Instruction 1.0: <i>In this phase, based on staff availability, teachers begin working with students in small groups based on identified goals</i></p>	

	<p>11/24</p>	<p><i>using baseline data. Teachers work with students to identify their needs and begin to help make a plan</i></p> <p>Goals:</p> <ul style="list-style-type: none"> ● 25% of students receive targeted instruction (based on availability of staff) ● 100% of students engage in Tier I online platforms when not engaging in targeted instruction with a teacher ● 100% of students receiving targeted instruction from iReady assigned lessons, in addition to “My Pathway” ● 100% of students can articulate the purpose of ILT ● 100% of students can articulate what and why they are working on on tier 1 online platforms ● RCO/RCI teachers have identified spots for gen ed students to participate in instruction <p>Notes:</p> <ul style="list-style-type: none"> ● Teachers begin working with students to develop the language of identifying learning opportunities and begin the process of making a plan ● This phase still looks like 100% of students on tier I online platforms, but now the ILT teacher is working with a small group during class; RCO/RCI teachers are pulling out students ● The ILT leader is monitoring and providing feedback to ILT teachers (while still leading his/her assigned classes) and building out systems for Phase 2 	
<p>Phase 2</p>	<p>11/30 To ...</p>	<p>Targeted Instruction 2.0: <i>In this phase, ILT leaders (2) take the lead classroom role and assigned ILT teachers work with small groups based on specific data points from most recent interims as directed by the ILT leader working with ELA and math teachers. Note: the ILT leader is still working with a caseload of students during this time</i></p>

Part I | English Language Arts at BRICK Schools

Purpose of this Guidebook

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key instructional routines, mind-sets and procedures used by ALL teachers and school leaders to raise student achievement. This guidebook outlines these items to ensure a high level of execution. All staff members are expected to read, internalize and practice the contents of this guidebook.

BRICK’s Mission

BRICK’s mission is to relentlessly knock down all barriers to students’ academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It’s our vision that each and every child will have an unimpeded path to unlocking their limitless potential.

Instructional Model Overview

The basis of our instructional model and everything we do is rooted in equity. BEN's instructional model is built on the belief that we must first understand the individual needs of our students and then design educational experiences that ensure all students achieve success. It is through an equity lens that we adhere to BEN's four tenets of instruction.

The intentional implementation of these four tenets, with fidelity, will break down all barriers to ensure access, opportunities, and success for all.

Tenet	Driver
<p>Rigorous PK-12 academic curriculum with Integrated Social Emotional Learning & Identity Development <i>Our PK-12 curriculum integrates rigorous academics with Social Emotional Learning to foster independent learners empowered by their respective identities and driven by purpose.</i></p>	<ul style="list-style-type: none"> Vertically Aligned PK-12 Curriculum Culture of Belonging Intentional Relationship Development Explicit Social Emotional Learning Instruction Culturally Sustaining Practices Independent Learning Time Student Voice College and Career Readiness Trajectory

BRICK's Vision for English Language Arts

At BRICK Education Network, we believe that all children deserve access to a high quality education and that literacy is the foundation of all future success. We believe deeply that time spent reading a diverse body of complex texts widens the student perspective, builds empathy within our students and strengthens connections between the individual student and society. We believe that presenting students with rigorous tasks provides the preparation and empowerment needed for students to become agents of change.

BRICK Education Network's Literacy Principles

- **Reading is Thinking:** Being able to decode words is one important part of reading, yet it is not the ultimate goal. Acquiring knowledge and making meaning is the ultimate goal, which requires using schema to synthesize new information with previous information. This is a complex process that is not mastered quickly. It is something that develops over time with practice.
- **Step Up Every Day:** Every lesson, every bit of feedback, every paragraph read matters to students' reading development. The effects of our work are cumulative. Every day BEN teachers help students master key knowledge and skills to advance to the reading level.
- **Prove It:** Providing textual evidence is an essential skill for a reader to master. BEN students use various methods (i.e. the RACE method, annotation) to provide textual evidence to support ideas and statements made in class.
- **Productive Struggle:** Deep understanding of a text requires deep, critical thinking and profound discussion, which can only happen through productive struggle. Productive struggle is defined as providing students with the opportunity to grapple with complex texts and tasks (struggle), without reaching a frustrational level (productive).
- **Knowledge is Key:** Foundational knowledge is essential for comprehension of a diverse body of texts. Every BEN teacher is responsible for empowering our scholars to be life-long readers and learners through intentional amplification of content knowledge around science, civics, geography and history.

Culturally Responsive Practices in English Language Arts

Culturally Responsive Teaching (CRT) is defined as “an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing. **All the while, the educator understands the importance of being in a relationship and having a social emotional connection to the student in order to create a safe space for learning.**” (Hammond 14)¹

Ultimately, we know that the most effective environment for learning is one that is “intellectually and socially safe for learning”(Hammond 17). Key points from Hammond:

- “Every culturally responsive teacher develops a socio-political consciousness, an understanding that we live in a racialized society that gives unearned privilege to some while others experience unearned disadvantage because of race, gender, class or language (18).”
- “Culturally responsive information processing techniques grow out of learning traditions of oral cultures where knowledge is taught and processed through story, song, movement, repetitious chants, rituals, and dialogic talk (127).
- “According to education researchers, feedback is one of the most powerful tools we have to improve learning. The brain needs feedback or it will keep doing the same thing over and over even if that doesn’t result in improved skill or performance (102).”

How CRT shows up in the English Language Arts Classroom:

1. **Read to Connect:** Engage students with texts that validate their own experiences whilst further developing their understanding of the socio-political context in which all texts are written as well as shed light on the practices and policies that create and reinforce the current inequities that we strive to dismantle.
2. **Write to Think:** Writing tasks are not only a way for students to communicate what they know, but a powerful tool for students to deepen their own understanding of content.
3. **Talk to Learn:** Literacy teachers honor student agency and voice by providing daily opportunities for students to engage in both social and academic talk structure (149). Teachers allow students the space and time to “talk to learn” from one another.
4. **Wise Feedback:** Throughout the Literacy block, teachers provide feedback that is instructive rather than evaluative. They do so in a manner that seeks to build, not erode, trust between teacher and student. All feedback is specific, in the right dose, timely and delivered in a low stress, supportive environment. Wise feedback conveys faith in the potential of the student while being honest about where he or she is right now.

¹ Hammond, Z. L. (2015). Culturally responsive teaching and the brain. Corwin Press.

Social-Emotional Learning

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they are able to exhibit with increasing fullness and regularity these capacities of the literate individual. **While the left hand column aims to describe what it looks like for a student to be college and career ready, we recognize that none of this is possible without the regular and intentional focus on the social emotional learning of students.** To that end, ELA teachers strive to both model and provide opportunities for students to practice and receive feedback on their proficiency in the SEL competencies outlined on the right of this table.

Students Who are College and Career Ready in Reading, Writing, Speaking, Listening, and Language	Five SEL Core Competencies as Identified by CASEL²
<p>They demonstrate independence. Students can, without significant scaffolding, comprehend and evaluate complex texts across a range of types and disciplines, and they can construct effective arguments and convey intricate or multifaceted information.</p> <p>They build strong content knowledge. Students establish a base of knowledge across a wide range of subject matter by engaging with works of quality and substance. They become proficient in new areas through research and study. They read purposefully and listen attentively to gain both general knowledge and discipline-specific expertise. They refine and share their knowledge through writing and speaking.</p> <p>They respond to the varying demands of audience, task, purpose, and discipline. Students adapt their communication in relation to audience, task, purpose, and discipline.</p> <p>They comprehend as well as critique. Students are engaged and open-minded—but discerning—readers and listeners. They work diligently to understand precisely what an author or speaker is saying, but they also question an author’s or speaker’s assumptions and premises and assess the veracity of claims and the soundness of reasoning.</p> <p>They value evidence. Students cite specific evidence when offering an oral or written interpretation of a text.</p> <p>They use technology and digital media strategically and capably.</p> <p>They come to understand other perspectives and cultures. Students appreciate that the twenty-first-century classroom and workplace are settings in which people from often widely divergent cultures and who represent diverse experiences and perspectives must learn and work together. Students actively seek to understand other perspectives and cultures through reading and listening, and they are able to communicate effectively with people of varied backgrounds.</p>	<p>Self-awareness: The ability to accurately recognize one’s emotions and thoughts and their influence on behavior. This includes accurately assessing one’s strengths and limitations and possessing a well-grounded sense of confidence and optimism.</p> <p>Self-management: The ability to regulate one’s emotions, thoughts, and behaviors effectively in different situations. This includes managing stress, controlling impulses, motivating oneself, and setting and working toward achieving personal and academic goals.</p> <p>Social awareness: The ability to take the perspective of and empathize with others from diverse backgrounds and cultures, to understand social and ethical norms for behavior, and to recognize family, school, and community resources and supports.</p> <p>Relationship skills: The ability to establish and maintain healthy and rewarding relationships with diverse individuals and groups. This includes communicating clearly, listening actively, cooperating, resisting inappropriate social pressure, negotiating conflict constructively, and seeking and offering help when needed.</p> <p>Responsible decision-making: The ability to make constructive and respectful choices about personal behavior and social interactions based on consideration of ethical standards, safety concerns, social norms, the realistic evaluation of consequences of various actions, and the well-being of self and others.</p>

[RETURN TO TABLE OF CONTENTS](#)

As we continue to grow and learn about these areas of focus, we will deepen our understanding and enrich our instructional practices to even more effectively ensure all learners achieve their highest potential. Our program is specifically designed to meet the goals of these frames, and we must highlight these aspects as we prep and teach.

For more concrete and grade-level specific examples, please refer to each grade level section that follows.

Accelerated Learning in English Language Arts

BRICK prioritizes grade-level content and rigorous instruction for all students. *All students, regardless of ability, deserve and must have the opportunity to access grade level content including exceptional learners with IEPs and our Multi-language learners. We must prioritize content allowing teachers to focus on the depth of understanding required for success in the current grade in preparation for the next grade. Teachers must continue to hold a high bar for student work and support students along the way.*

In ELA specifically we will:

- Use student performance data to determine which students need additional foundational reading support at all grade levels
- Leverage ILT (Independent Learning Time) in grades 5 -8 to focus on writing and reading habits as well as foundational skills in teacher-led small groups
- Use an aligned rubric to provide feedback on writing across all classrooms
- Leverage Social Studies to build content and background knowledge through the use of common maps, timelines, and foundational conceptual understandings of our world and society

K-12 English Language Arts: Curriculum Continuum

The following table outlines the core texts and unit titles for the K-12 ELA Curriculum. Please note that as the curriculum is updated, this table will be changed.

Grade Level	Unit	Anchor Texts
Kinder	Unit 1: Good Reader Habits	Nursery Rhymes
	Unit 2: STORIES	Peter’s Chair, Jabari Jumps, The Very Hungry Caterpillar
	Unit 3: The Seven Continents and Their Stories	Nonfiction Texts
	Unit 4: Getting to Know Authors & Illustrators	Kite Flying, The Lion and the Mouse, Cassie’s Word Quilt
	Unit 5: Black History Leaders, Innovators, and Advocates	Martin’s Big Words, Rosa, Tar Beach, Henry’s Freedom Box
	Unit 6: Plants and Animals & Seasons and Weather	Short Stories & Passages, Swimmy
Grade 1	Unit 1: Hispanic Heritage	Mango, Abuela and Me; Too Many Tamales
	Unit 2: What a Character!	Big Al, Chrysanthemum, A Bad Case of the Stripes
	Unit 3: Amazing Grace	Amazing Grace, Boundless Grace, Princess Grace
	Unit 4: Fractured Fairy Tales	The Frog Price, Little Red Riding Hood, Sleeping Beauty
	Unit 5: Black History Heroes	Jesse Owens, Thurgood Marshall, Harriet Tubman, Alvin Ailey
	Unit 6: Women of Courage	Malala’s Magic Pencil, Hidden Figures, Sonia Sotomayor
	Unit 7: Junie B. Jones	Junie B. Jones: First Grader at Last by Barbara Park
Grade 2	Unit 1: Hispanic Heritage	Island Born, Sonia Sotomayor
	Unit 2: Amazing Animals	Short Stories and Passages
	Unit 3: Drawing Connections and Comparisons	Short Stories and Passages

	Unit 4: Insects	Nonfiction Texts
	Unit 5: Building Independence with More Complex Texts	Short Stories and Passages
	Unit 6: Keena Ford	Keena Ford and the Second Grade Mix Up by Melissa Thompson
	Unit 7: Navigating Challenge - Unseen Genres and Longer Texts	Short Stories and Passages
Grade 3	Unit 1: Reading to Discover New Ideas	Short Stories
	Unit 2: Building Independence	Short Stories
	Unit 3: Hundred Dresses	Hundred Dresses by Eleanor Estes
	Unit 4: Drawing Connections, Comparisons, and Conclusions Across Texts: Building the Habits	Short Stories
	Unit 5: Reading to Discover New Ideas II	Short Stories
	Unit 6: Navigating Challenge	Short Stories
Grade 4	Unit 1: Building Independence with More Complex Texts	Short Stories
	Unit 2: Drawing Connections, Comparisons, and Conclusions Across Texts: Building the Habits	Short Stories
	Unit 3: Charlie and the Chocolate Factory	Charlie and the Chocolate Factory by Ronald Dahl
	Unit 4: Integrating Video and Multimedia Sources	Short Stories
	Unit 5: The Girl Who Could Fly	The Girl Who Could Fly by Victoria Forester
Grade 5	Unit 0 Short Stories and Foundational Skills	Short Stories
	Unit 1 Wonder	Wonder by R.J. Palacio
	Unit 2 Look Both Ways	Look Both Ways by Jason Reynolds
	Unit 3 Esperanza Rising	Esperanza Rising by Pam Munoz Ryan

	Unit 4 Roll of Thunder Hear My Cry	Roll of Thunder Hear My Cry by M.D. Taylor
	Unit 5 A Single Shard	A Single Shard by Linda Sue Park
Grade 6	Unit 0 Short Stories and Foundational Skills	Short Stories
	Unit 1 The Outsiders	The Outsiders by S.E. Hinton
	Unit 2 The Crossover	The Crossover by Kwami Alexander
	Unit 3 Claudette Colvin	Claudette Colvin: Twice Toward Justice by Phillip Hoose
	Unit 4 Before We Were Free	Before We Were Free by Julia Alvarez
	Unit 5 Pet	Pet by Akwaeke Emezi
Grade 7	Unit 0 Short Stories and Foundational Skills	Short Stories
	Unit 1 A Raisin in the Sun	A Raisin in the Sun by Lorraine Hansberry
	Unit 2 All Thirteen: The Incredible Cave Rescue of the Thai Boys' Soccer Team	All Thirteen: The Incredible Cave Rescue of the Thai Boys' Soccer Team by Christina Soontornvat
	Unit 3 Poetry	Anthology of Poems
	Unit 4 Night	Night by Elie Wiesel
	Unit 5 Clap When You Land	Clap When You Land by Elizabeth Acevedo
Grade 8	Unit 0 Short Stories and Foundational Skills	Short Stories
	Unit 1 Animal Farm	Animal Farm
	Unit 2 Shadowshaper	Shadowshaper by Daniel Jose Older
	Unit 3 Their Eyes Were Watching God	Their Eyes Were Watching God by Zora Neale Hurston
	Unit 4 Short Stories	Short Stories
	Unit 5 The Autobiography of Malcolm X	The Autobiography of Malcolm X by Alex Haley

Grade 9	Unit 1	The Piano Lesson
	Unit 2	To Kill A Mockingbird
	Unit 3	I Know Why the Caged Bird Sings
	Unit 4	Romeo and Juliet
Grade 10	Unit 1	The Crucible
	Unit 2	Things Fall Apart
	Unit 3	In the Time of Butterflies
	Unit 4	Macbeth
Grade 11	Unit 1	We Should All be Feminist
	Unit 2	Just Mercy
	Unit 3	The Fire Next Time
	Unit 4	Hamlet
Grade 12	Unit 1	The Autobiography of Malcolm X
	Unit 2	A Streetcar Named Desire
	Unit 3	Inquiry Based Research
	Unit 4	Julius Caesar

New Jersey State Learning Standards Literacy Principles

- **Text Complexity:** Text is king. Students should be exposed to texts that increase in complexity throughout the school year no matter their reading level; students should regularly read independently at their reading level; teachers must strive to help students reach their grade-band reading level if they are behind.
- **Text-Dependency:** Most classroom activities, tasks and questions should require students to support their work with evidence from texts they have read.
- **Academic Vocabulary:** Students must acquire and use high-frequency academic vocabulary from the texts that they read

Core Competencies of Reading

The National Reading Panel (NRP) issued a report in 2000 that responded to a Congressional mandate to help parents, teachers, and policymakers identify key skills and methods central to reading achievement. The Panel reviewed more than 100,000 studies and identified 5 methods that consistently relate to reading success:

Phonemic Awareness

- The ability to notice, think about, and work with individual sounds in spoken words. Children need to be aware of how the sounds in words work. They must understand that words are made up of speech sounds, or phonemes.

Phonics

- Phonics instruction teaches children the relationships between the letters (graphemes) of written language and the individual sounds (phonemes) of spoken language. It teaches children to use these relationships to read and write words. The goal of phonics is to help children learn and use the alphabetic principle – the understanding that there are systematic and predictable relationships between written letters and spoken sounds.

Fluency

- The ability to read a text accurately and quickly. When fluent readers read silently, they recognize words automatically. They group words quickly to help them gain meaning from what they read. Fluent readers read aloud effortlessly and with expression. Their reading sounds natural, as if they are speaking. Readers who have not yet developed fluency read slowly, word by word. Their oral reading is choppy and plodding. Fluency is important because it provides a bridge between word recognition and comprehension.

Comprehension & Analysis

- Comprehension is the reason for reading. If readers can read the words but do not understand what they are reading, they are not really reading. Readers must be able to understand information that is straightforward as well as information that is implied to fully comprehend a text. Once readers understand both literal and implied meaning, they think about how the text was crafted – analyzing or critiquing the author’s choices.

Vocabulary & Background Knowledge

- Vocabulary refers to the words we must know to communicate effectively. In general, vocabulary can be described as oral vocabulary or reading vocabulary. Oral vocabulary refers to the words that we use in speaking or recognize in language. Reading vocabulary refers to the words we recognize or use in print.

Vocabulary is important because children use the words they have heard to make sense of the words they see in print. Beginning readers have a much more difficult time reading words that are not already part of their oral vocabulary.

- Vocabulary is a key component of background knowledge. As texts become more complex, readers must bring and apply background knowledge about the world in order to fully understand. More sophisticated texts require background knowledge that is often beyond the reader's own personal experience.

Productive Struggle*

(for students with IEPs/students who are two or more grade levels below)

Students who receive interventions can be supported further in **Literature** class in the following way:

For students that need fluency intervention:

- Wherever possible, allow time for multiple independent reads of the text. This could mean sending home the day's reading the night before; it could mean requiring students to read the most complex paragraph/section at least 2 times, etc.
- Reduce the number of questions that these students must answer to allow more time for careful, independent reading.

For students that need comprehension intervention:

- Whenever possible, confer with these students using comprehension questions (always being certain to start broad- e.g. What is happening in the text so far?- before going more narrow with back-pocket questions.)
- If helpful, provide students with part of the comprehension framework (e.g. Jonas is about to make an important choice- keep an eye out for the choice that he makes.)

For students that need decoding intervention:

- Provide an audio version of the book.
- If the class is co-taught, the learning specialist can pull these students out for an oral reading of the text.

Students who receive interventions can be supported further in **Writing** class in the following ways:

Leverage co-teacher for:

- Parallel teaching, small group instruction, pre-teaching, and additional conferences
- Assign individual CFS to scholars who need a narrower focus for writing

For students with writing fluency:

- Start by giving a specific number of lines or sentence requirement and monitor and provide feedback throughout the writing

For students who struggle to get started writing:

- Whenever possible, first talk through the writing one-on-one or in small groups while recording notes for the scholar to refer to when set off to independently write
- Whenever possible, offer a clear and easily replicable graphic organizer at the start of the unit that the scholar can then de-scaffold over the course of the unit.
- Whenever possible, offer a clear and easily replicable graphic organizer at the start of the unit that the scholar can then de-scaffold over the course of the unit.
- Where appropriate, provide sentence starters and then de-scaffold over time as the scholar gets proficient at starting writing

Part II | ELA Core Curriculum K-4

Student Experience Narrative

K-2

Today, we will start the day in Strategic Read Aloud. While my teacher reads, I'll listen closely and help my classmates answer questions about the text. When we are done reading, we will go back to our desks to complete the independent activity. I will use my neatest handwriting to write complete sentences using the sounds and sight words I know. I will include all the evidence I remember from the text and draw detailed pictures to match my answers. Then, I'll get to share what I wrote with my teacher and classmates. Later, I will go to Guided Reading. I love reading independently! I use my reading strategies to finish the book. Then, I work with my teacher to read more fluently and answer questions. Finally, we have writing. I help my teacher and classmates write a story on the carpet, then it's my turn to try on my own! I try to include the new vocabulary words we learned in Strategic Read Aloud to make my story more interesting. I can't wait to publish my piece!

3-4

Today during Lit Block we are continuing to read short passages and identify the central idea. The teacher lets us read and annotate independently, then we come together to compare our notes. We identify key pieces of evidence and use them to answer an open ended response. I'm focusing on finding and explaining my evidence this week. Later, we go to Guided Reading. I get to read with the teacher first. She helps me read through tricky words and identify the new character relationships in the chapter book. Next, I go to my desk and complete my independent response. I cite my evidence and then pass my completed work to my teacher. Finally, we have writing. Today, we are working on expanding our stories with dialogue. I am excited to share my piece with my classmates!

Overview/Vision/Key Components/Lesson Structure

The K-4 ELA program has a Balanced Literacy approach that relies on a balance of different, but connected, components. These components are as follows:

Kindergarten & First Grade:

Balanced Literacy					
Strategic Read Aloud 40 Minutes	Guided Reading Blocks (Rotations) 100 Minutes				Writing Workshop 40 Minutes
All scholars engaged in an interactive read aloud where the primary focus is for students to be engaged in rigorous and meaningful discussion.	Guided Reading 25 Minutes	Reading Mastery 25 Minutes	HeadSprout 25 Minutes	RAZ (DDI)* 25 Minutes	Teacher is modeling skills through the writing process. Scholars are engaged in a workshop model, where the teacher is conferencing with scholars and scholars are working independently on writing planning and pieces.
	A small group of scholars (up to 6) being coached through reading leveled texts while other scholars are either in reading mastery or on a blended learning program.	Small group instruction focusing on phonics and grammar using the Reading Mastery program.	Small group, blended learning.	Small group blended learning used for intervention.	
	Rotations				
	Group A	Group B	Groups C + D (up to 12)	N/A	
	Group B	Group A	DDI RM using C + D	DDI RAZ using C + D	
	Group C	Group D	Groups A + B (up to 12)	N/A	
	Group D	Group C	DDI RM using A + B	DDI RAZ using A + B	

*DDI stands for *data driven instruction*. This is the data that teachers have collected from STEP, assessments, and daily practice. Students who have been pre-determined at the start of the 6-week instructional plan to need additional *at-bats* or *intervention* will receive Reading Mastery **twice** in a single guided reading rotation.

Second Grade

Balanced Literacy					
Strategic Read Aloud 45 Minutes	Guided Reading Blocks (Rotations) 90 Minutes			Close Reading 60 Minutes	Writing Workshop 40 Minutes
All scholars engaged in an interactive read aloud where the primary focus is for students to be engaged in rigorous and meaningful discussion.	Guided Reading 30 Minutes	Reading Mastery (until Jan) <hr/> Informational Guided Reading 30 Minutes	RAZ Kids 30 Minutes	This is taught using parallel teaching in which both teachers are teaching the same lesson at the same time, but to differentiated groups. Based on collected data, teachers may increase or decrease support with reading and responding to tasks accordingly. This only happens once a week.	Teacher is modeling skills through the writing process. Scholars are engaged in a workshop model, where the teacher is conferencing with scholars and scholars are working independently on writing planning and pieces.
	A small group of scholars (up to 6) being coached through reading leveled texts while other scholars are either in reading mastery or on a blended learning program.	Small group instruction focusing on phonics and grammar using the Reading Mastery program. <i>*Note (after Jan): A small group of scholars (up to 6) being coached through reading informational leveled texts.</i>	Small group blended learning using an online platform.		
	Rotations				
	Group A	Group B	Group C		
	Group C	Group A	Group B		
	Group B	Group C	Group A		

Third Grade

Balanced Literacy				
Literacy Block 60 Minutes	Guided Reading Blocks (Rotations) 60 Minutes	Writing Block 40 - 45 Minutes	ILT 45 Minutes	
All scholars engaged in a close reading text where the primary focus is for students to be engaged in rigorous and meaningful discussion.	Narrative Guided Reading <i>60 Minutes (two rotations of 30 minutes)</i>		Teacher is modeling skills through the writing process. Scholars are engaged in a workshop model, where the teacher is conferencing with scholars and scholars are working independently on writing planning and pieces.	Teacher is targeting skills that students are specifically struggling with or need additional <i>at bats</i> . Teacher utilizes data collected across all literacy blocks.
	A small group of scholars (up to 12) being coached through reading narrative leveled texts while other scholars are independently reading. There are two rotations for <i>narrative guided reading</i> . This time may also be spent reading on online platforms if applicable.			
	Rotations			
	Group A	Group B		
	Group B	Group A		

Fourth Grade

Balanced Literacy		
Literacy Lesson 60 Minutes	Writing Block 25 Minutes	ILT 45 Minutes
All scholars engage in a close reading text where the primary focus is for students to be engaged in rigorous and meaningful discussion.	Teacher is modeling skills through the writing process. Scholars are engaged in a workshop model, where the teacher is conferencing with scholars and scholars are working independently on writing planning and pieces.	Teacher is targeting skills that students are specifically struggling with or need additional <i>at bats</i> .
*There may be some GR components embedded into the 4th grade curriculum depending on EOY assessment data.		

Detailed Outline of Literacy Block (Grades 3 - 4)

Close Reading	
Main Idea Lesson	Craft & Structure Lesson
<p>Fluency Read (5 min):</p> <ul style="list-style-type: none"> ❖ Teacher reads text aloud once to model fluent reading. ❖ Second reading, students join the teacher and read aloud OR students read the text independently. <p>Main Idea Analysis (15 min):</p> <ul style="list-style-type: none"> ❖ Teacher reads the text chunk by chunk for comprehension, stopping to think aloud or ask the students questions at critical points in the text. ❖ At the end of this reading, the teacher leads students in a main idea discussion in which she puts the thinking work on the students. ❖ Teacher and students jot the main idea (at the very beginning of the year, the teacher models jotting the main idea, but by November 1 students should jot the main idea independently). <p>Short Response Writing, Revision, & Share (20 min):</p> <ul style="list-style-type: none"> ❖ Students go back to desks and respond to a main idea prompt. As students are writing, the teacher circulates, scores, and gives feedback to students in the moment. ❖ Students revise until they get a level 2 based on the short response rubric. ❖ The students who don't master the main idea short response should be considered for small group re-teach later in the week (in ILT). ❖ Teacher selects a few responses to share and discuss at the end of the lesson. 	<p>Fluency Read (5 min):</p> <ul style="list-style-type: none"> ❖ Students and the teacher re-read the text and quickly revisit the main idea. (Starting November 1, students should do this independently.) <p>Craft & Structure Analysis (15 min):</p> <ul style="list-style-type: none"> ❖ Teacher guides the class through a craft and structure analysis to unpack how the author's use of craft and structure helps convey the main idea of the text. ❖ If necessary, teacher facilitates a revision of the main idea. <ul style="list-style-type: none"> ➤ He/she asks, "Now that we understand the craft and structure of this text, do we need to revise our main idea?" <p>Short Response Writing, Revision, & Share (20 min):</p> <ul style="list-style-type: none"> ❖ Students go back to desks and respond to a craft and structure prompt. As students are writing, the teacher circulates, scores, and gives feedback to students in the moment. ❖ Students revise until they get a level 2. ❖ The students who don't master the craft and structure short response should be considered for small group re-teach later in the week. ❖ Teacher selects a few responses to share and discuss at the end of the lesson.

Independent Learning Time (Grades 3 - 4)

Independent Learning Time (ILT)	
Phase	ILT
Phase 0: Readiness (September)	<ul style="list-style-type: none"> ❖ Grade 3 (1 time a week) <ul style="list-style-type: none"> ➤ Review main idea jots and revise ❖ Grade 4 (2 times a week) <ul style="list-style-type: none"> ➤ Building Work Habits
Phase 1: Utilize RAZ & Headsprout data in conjunction with IA Data (October- December)	<ul style="list-style-type: none"> ❖ Grade 3 (1 time a week) <ul style="list-style-type: none"> ➤ Multiple choice strategies ➤ Part A/ Part B Questions ➤ OER practice with teacher feedback ❖ Grade 4 (2 times a week) <ul style="list-style-type: none"> ➤ Targeted Skills and Lessons ➤ Targeted group of scholars ➤ OER practice with teacher feedback
Phase 2: NJSLA Writing Prep/IA Data (January-April)	<ul style="list-style-type: none"> ❖ Grade 3 (1 time a week) <ul style="list-style-type: none"> ➤ Interim skills ➤ On-demand writing tasks (varied) ❖ Grade 4 (2 times a week) <ul style="list-style-type: none"> ➤ Interim skills ➤ Tutoring ➤ On-demand writing tasks (varied)
Phase 3: (May-June)	<ul style="list-style-type: none"> ❖ Building Work Habits ❖ Increasing independence with annotations & OERs

K-4 Writing

	Non-Negotiables
Teaching Point/ Mini-lesson	<p>Teacher models the objective using a modeled writing, shared writing, or a mentor text</p> <ul style="list-style-type: none"> ● Teaching point is scripted in the lesson ● Modeled Writing is when the teacher shows students an exemplar writing piece and the class discusses <ul style="list-style-type: none"> ○ <i>What makes this strong writing?</i> ○ <i>What do we think this author did well?</i> ○ <i>How can we use this in our own writing?</i> ● Shared Writing is when the teacher and the student write a shared piece together in class. The teacher may use the following prompts: <ul style="list-style-type: none"> ○ <i>What else do we need to include in our writing piece?</i> ○ <i>Is there something (anchor chart) around the room that can help you?</i> ○ <i>Is that a sight word? Where can I look to help me spell that?</i> ○ <i>Did we include everything we need to include in our _____ (i.e. paragraph, story, persuasive essay)?</i> ○ <i>How else can we describe our characters (internal and external traits)?</i> ○ <i>Is there something else we would like to add?</i> ● Using a Mentor Text is when the teacher uses a book and facilitates a discussion about what techniques the author used: <ul style="list-style-type: none"> ○ <i>Teacher would introduce this as: Today we are using a mentor text, that means we are going to read a book written by a professional author so that we can become professional authors too. As I read, I want you to think about the ways the author is writing (i.e. using show not tell)</i> ○ <i>What are some things the author did that we can use in our writing?</i>
Guided Practice	<p>Students begin to practice the objective highlighted during the objective</p> <ul style="list-style-type: none"> ● Teacher observes students and gives (batch feedback) ● After students begin writing, teacher may say: <ul style="list-style-type: none"> ○ <i>Great job introducing your characters, now we need to practice using wow words to describe them, make sure that you are using wow words to describe your characters</i> ● Teacher may also use a turn and talk to have students tell their stories to each other before starting ● Teacher may have students pre-write (as dictated by the plan) during this portion of the lesson ● Students practice the objective (turn and talk, slates, adding to the modeled writing, etc.). Teacher observes and checks for understanding.
Independent Practice/ Conference	<ul style="list-style-type: none"> ● Students are given at least 10-12 minutes of uninterrupted writing time. ● Teacher conferences with 4-5 students and takes anecdotal notes that highlight strengths, areas of growth, and next steps. Teacher will coach students during conferences and may use prompts such as: <ul style="list-style-type: none"> ○ <i>What is something you can do to make your writing even stronger?</i> ○ <i>What should you be describing in this paragraph?</i> ○ <i>What is this story (how-to, lab report) mostly about? Should you include [this] here?</i>
Share	<p>Teacher deliberately selects two –three students to share their writing with the class in order to highlight how they have incorporated the writing skill or to allow the selected student to receive feedback from the class.</p>

Accelerated Learning

To support students with gaps in learning due to at-home instruction, teachers will embed supporting structures into the K-4 ELA curriculum. Additionally, teachers will gather periodic data to determine any areas of growth and develop reteach and intervention plans to support all students. While it is imperative that we support all students where they are, it is important that all students continue to be challenged with grade-level appropriate content.

Exceptional Learners

All exceptional learners will continue to be challenged with grade-level appropriate content in addition to any supports outlined in their Individualized Education Plans. Classroom teachers will be supported by the Special Education team with providing interventions and modifications when necessary.

Classroom Environment

In addition to the general classroom environment components, the following should be included to support the K-4 ELA program:

STEP	<ul style="list-style-type: none"> ● STEP Goals Wall ● Bottom Line-Focus Skill Charts
Strategic Read Aloud & Lit Block	<ul style="list-style-type: none"> ● Word Wall <ul style="list-style-type: none"> ○ Sight Words ○ GR Vocabulary words; identified in LLR curriculum ○ SRA/Lit Block Wow words; identified in unit & lesson plans ● Anchor Charts (vary by unit) ● GBTJ Posters
Writing	<ul style="list-style-type: none"> ● RACE/RACCE Anchor Charts
ILT	<ul style="list-style-type: none"> ● TBD

Assessment Methods/Data Cycle/Grading Resources

Types of Assessments

Students will take several assessments throughout the year including:

- **Exit Tickets** - students will be given 2-3 exit tickets per week that will help teachers know where each student exceeded, met, or did not achieve the objective for the day.
- **Show What you Know (SWYK)** - students will take periodic quizzes during the literacy block. These are the essential assessments that will be used for data cycle and reteaches.
- **Interim Assessments (IAs)** - students will take Interim assessments 5 times a year during a specific blocked out period of time that will be issued network wide. These interims are cumulative and are geared to help students be prepared for the state test.
- **NWEA MAP** - Map is a nationwide test that is taken 2 times a year that shows how students are progressing nationwide among other students in their cohort. Students are assessed based on their level and not only on the grade level.
- **NJSLA** - Students will take the state test in April/May. This assessment measures student achievement on the grade level among all other NJ students.
- **STEP** - Students in grade K-4 will be assessed 4 times a year to help teachers identify independent reading levels and growth over the year.

K-4 Literacy Data Cycle

Data	Purpose	How
Aggressive Monitoring and tracking of student work during the lesson	Teachers are circulating continuously throughout the lessons (during independent practice in close reading & SRA, in guided reading, and in writing) to gather data to inform the discourse portion of each lesson.	<ul style="list-style-type: none"> ● Circulate ● Use AM Recording Sheet ● Determine the course of the discourse ● Identify students to flag for ILT teacher
Exit Ticket Protocol (Looking at Student Work/LASW)	Teachers follow an exit ticket protocol to understand misconceptions and gaps in student's learning for the lesson.	<ul style="list-style-type: none"> ● Review student work and look for overall trends in student performance ● Identify the error, name the gap and plan the plan to close it ● Prepare student work
Show What You Know (SWYK) Interims	Assessment analysis allows us to collect data that will help teachers and students know the standards and bottom lines that are being mastered and the standards and bottom lines that need to be revisited.	Data Analysis <ul style="list-style-type: none"> ● Review questions/question groups that were mastered and celebrate ● Review questions/question groups that were below 70% ● Identify students that did not meet mastery ● Identify where in future lesson plans to retarget this skill/bottom line ● If this is a subgroup that can be targeted in ILT or GR, integrate it into that
STEP	Analyzing data at each round helps	Weekly Analysis

	<p>teachers and students identify new independent reading levels. Teachers are also able to use weekly GR data, which is directly connected to STEP; to identify areas of misconception, group trends, and individual student needs.</p>	<ul style="list-style-type: none"> ● Teacher uses the GR tracker to notate mastery of daily skills ● Teacher develops a course of action for the very next lesson <p>STEP Analysis</p> <ul style="list-style-type: none"> ● Teacher identifies which components of the assessment were difficult for the student ● Teacher identifies areas of strength for each student ● Using classroom data, teacher identifies new reading groups based on similar strengths, weaknesses, and independent reading levels ● Teacher creates a detailed action plan spanning the 8-10 week GR cycle; this plan is deeply grounded in teacher actions <p>Note: Since this is a major component of our instructional model, STEP analysis plans will be reviewed by the School Leader and Network Director and may require adjustments with feedback.</p>
--	--	---

Teacher Planning, Preparation, and Development

Strategic Read Aloud | Grades K-2

	Non-negotiables	Differentiation
Preparation: <i>Pre-work before the lesson</i>	<ul style="list-style-type: none"> ■ Flag the text (<i>premark book for stopping & thinking points</i>) ■ Prepare anchor charts and post anchor charts in room 	
Before Reading: <i>Book Introduction</i>	<ul style="list-style-type: none"> ■ Include hook/catchy opening ■ Introduce/define key reading strategy or skill <ul style="list-style-type: none"> ○ ○ CFU after introducing key strategy or skill ■ Quickly Preview the text ■ Summarize the previous day's reading (if this is day 2 of the book) <ul style="list-style-type: none"> ○ Quick ○ Includes major questions about plot 	
During Reading: <i>[I do portion]</i>	<ul style="list-style-type: none"> ■ Read the text while modeling fluency ■ Think Aloud <ul style="list-style-type: none"> ○ Use scripted language ○ Clear cues for when the teacher is "thinking aloud" and when the teacher is "reading" <ul style="list-style-type: none"> ■ Use "I'm realizing/thinking" ■ Use "now back to the text" ○ Chart thinking (as needed) or reveal pre-chart ■ Teach vocabulary as it comes up in the text; use explicit teaching strategies as needed 	STEPS 5 & above: Less think aloud
During Reading: <i>[We do portion]</i>	<ul style="list-style-type: none"> ■ Teacher continues to Think Aloud ■ Ask targeted questions centered around the objective <ul style="list-style-type: none"> ○ Use Turn & Talk for inferential and critical thinking questions ○ Use universal prompts to deepen understanding/address confusions <ul style="list-style-type: none"> ■ WIS- What In the Story? ■ WTT- Why do you Think That? ■ WI- Why is that Important? ■ TMM- Tell Me More ■ RQ- Repeat the Question 	
After Reading: <i>[You do portion]</i>	<ul style="list-style-type: none"> ■ Check for understanding around key strategy ■ Students answer independent practice/have turn and talk ■ Students answer exit ticket for teacher analysis 	

Literacy Block | Grade 3 & Grade 4

	Non-negotiables
<p>Preparation: <i>Pre-work before the lesson</i></p>	<ul style="list-style-type: none"> ■ Flag the text (<i>premark book for stopping & thinking points</i>) ■ Prepare anchor charts and post anchor chart in room
<p>Before Reading: <i>Book Introduction</i></p>	<ul style="list-style-type: none"> ■ Include hook/catchy opening ■ Introduce/define key reading strategy or skill <ul style="list-style-type: none"> ○ Include “how” that is precise and “sticky for kids ○ CFU after introducing key strategy or skill ■ Quickly Preview the text ■ Summarize the previous day’s reading (if this is day 2 of the book) <ul style="list-style-type: none"> ○ Quick ○ Includes major questions about plot
<p>During Reading:</p>	<ul style="list-style-type: none"> ■ Students read the text, varying between: <ul style="list-style-type: none"> ○ Read out loud ○ Partner read ○ Silent & Solo read ■ Students annotate the text <ul style="list-style-type: none"> ○ Teacher provides an annotating focus ■ Students discuss the text using questions in the lesson plan <ul style="list-style-type: none"> ○ Teacher may think aloud ○ Teacher may use turn and talks ■ Think Aloud <ul style="list-style-type: none"> ○ Use scripted language ○ Clear cues for when the teacher is “thinking aloud” and when the teacher is “reading” <ul style="list-style-type: none"> ■ Use “I’m realizing/thinking” ■ Use “now back to the text” ○ Chart thinking (as needed) or reveal pre-chart ■ Teach vocabulary as it comes up in the text; use explicit teaching strategies as needed ■ Ask targeted questions centered around the main idea of the text <ul style="list-style-type: none"> ○ Use Turn & Talk for inferential and critical thinking questions ○ Use universal prompts to deepen understanding/address confusions <ul style="list-style-type: none"> ■ WIS- What In the Story? ■ WTT- Why do you Think That? ■ WI- Why is that Important? ■ TMM- Tell Me More ■ RQ- Repeat the Question
<p>After Reading: <i>[You do portion]</i></p>	<ul style="list-style-type: none"> ■ Students answer the exit ticket question ■ Teacher collect exit tickets

Guided Reading | Grades K-3

	Non-negotiables	Differentiation
<p>Preparation: <i>Pre-work before the lesson</i></p>	<ul style="list-style-type: none"> ■ Resource guide available (physical copy or PDF) ■ Teacher books & lesson plans are marked up ■ Select a text that gives multiple opportunities to practice main strategy ■ Plan introduction/questions around reading strategy 	
<p>Before Reading: <i>Book Introduction</i></p>	<ul style="list-style-type: none"> ■ Oral Drill <ul style="list-style-type: none"> ○ <i>Based on the student's STEP level → word solving</i> ■ Hook students to the text by using one of the following: <ul style="list-style-type: none"> ○ Question to help them access schema ○ Preview text with a personal connection ○ Quick write ■ State the what, how, why for students <ul style="list-style-type: none"> ○ Have students repeat ■ Introduce focus question to students ■ Address challenges that may get in the way of reading <ul style="list-style-type: none"> ○ i.e. text specific words/tier III words (lifted words) ○ Concepts that are specific to the type of text 	<ul style="list-style-type: none"> ❖ STEPs 1-3: Word Solving ❖ STEPs 4-6: Word Solving & Comprehension ❖ STEPs 7-12: Comprehension
<p>During Reading: <i>Word Solving/Fluency & Comprehension</i></p>	<ul style="list-style-type: none"> ■ “Conference” with students by listening to them read ■ Diagnose student reading errors ■ Prompt for ideal student reading <ul style="list-style-type: none"> ○ Does that look right? ○ Does that sound right? ○ Does that make sense? ■ Ask comprehension questions using the conferencing prompting guide 	<ul style="list-style-type: none"> ❖ STEPs 1-6: Students read out loud ❖ STEPs 7-12: Students read silently & Target student reading as needed
<p>After Reading: <i>Comprehension Conversation</i></p>	<ul style="list-style-type: none"> ■ Start comprehension conversation with: <ul style="list-style-type: none"> ○ Retell ○ Focus question ■ Ask a mix of pre-plan factual, inferential, and critical thinking questions ■ Prompt for ideal student response using universal prompts <ul style="list-style-type: none"> ○ TMM ○ WI ○ WIS ○ WTT ○ RQ ■ Prompt students to metacognition (naming the reading strategy) <ul style="list-style-type: none"> ○ i.e. <i>“to answer this question I thought about the character’s motivation by considering what the character says, thinks, and does.”</i> 	<ul style="list-style-type: none"> ❖ Start with universal prompt ❖ Scaffold using least “telling” prompt ❖ Universal → skill specific → text specific
<p>Guided Reading Environment: <i>How Guided Reading station should look</i></p>	<ul style="list-style-type: none"> ■ Anchor charts for each group posted (What, How, Why) ■ “Reading Habits” posters: i.e. how to make an inference, making connections between texts, etc. ■ Word solving flashcards ■ Lifted words & text 	

	<ul style="list-style-type: none"> ■ Extra pencils - sharpened! ■ Copies of the text students are reading/materials that students need: one for each student and a few extra ■ Copies of exit tickets: one per student and a few extra

Reading Mastery

	Non-negotiables	Differentiation
Preparation: <i>Pre-work before the lesson</i>	<ul style="list-style-type: none"> ■ Decide which “LifeLong Learners” flashcards to use for each group- in collaboration with co-teacher ■ Mark up Reading Mastery lesson according to the word solving focus skill (in STEP analysis or LLL) 	
Before Book: <i>Oral Drill 5-10 minutes</i>	<ul style="list-style-type: none"> ■ Use <i>designated</i> flashcards to quickly teach explicit phonics and phonological skills ■ Use cadence to ensure students are engaged 	❖ Based on group’s STEP level & STEP analysis
Book Lesson: <i>7-10 minutes</i>	<ul style="list-style-type: none"> ■ Used <i>marked up book lesson</i> to execute phonics lesson ■ Use whole group techniques, front row versus back row, and individuals turns to give students multiple <i>at bats</i> 	❖ Based on group’s STEP level & STEP analysis
Storybook: <i>10 minutes</i>	<ul style="list-style-type: none"> ■ Storybook has at least 3 (three) reads, in cadence, <ul style="list-style-type: none"> ○ First Reading: Decoding <i>based on group needs</i> ○ Second Reading: Fluency (following punctuation, reading 3 or 4 words in one single breath) ○ Third Reading: Bring the Drama! (read with expression) 	❖ Kindergarten Lesson 90 and ABOVE
Reading Mastery Environment: <i>How Reading Mastery station should look</i>	<ul style="list-style-type: none"> ■ Anchor charts for each word solving strategy (i.e. stretchy snake, two vowel rule) ■ Storybooks under seats (and routine established) ■ Large Teacher Book is marked for each group and annotated (with pencil in book) 	

Teacher Experience Narrative

K-2

Today, we are starting a new story in Strategic Read Aloud. I've already pre planned questions and tagged all the pages so I know exactly what to write on our anchor chart. During the discussion, I'll use various engagement strategies such as Turn & Talk so that all students have an opportunity to share their ideas. Once we have our big ideas on the anchor chart, I'll send the students to their desks to practice responding to a question about the text on their own. I'll circulate to support and give in the moment feedback. We will close out by stamping the key ideas together and prepare for Guided Reading Rotations.

The students have done well internalizing the GR rotation procedures so everyone is settled in their seats within 2 minutes. My co-teacher and I checked in this morning so we are ready to jump into working with our groups. I take a quick look at the independent group and ensure they are working, then I begin the oral drill with my students at the kidney table. We go through the drill, opening of the text, and then I listen to each student read. After we are done and have stamped the task for independent time, it is time for us to switch. I repeat the same process with my new group, constantly checking my STEP analysis document and writing notes about each student as they read in my GR tracker.

We close out the day with writing. The students completed a diagnostic prompt last week and I've analyzed the trends to help plan my lesson today. My students help me complete a shared writing piece on the carpet before they go back to their seats to practice adding dialogue to their pieces. I actively monitor the students as they work, marking the papers with codes so they know how to improve their writing. At the end of the lesson, I show-call strong pieces and we celebrate everyone's hard work.

3-4

Today in LIT Block, we are working on annotating short passages to identify central ideas. We start by identifying the genre and naming the key steps to complete the task. I have the students pull up their workbook in Google Classroom and give them a few minutes to read and annotate independently. Then, we have a whole class discussion before they start answering their multiple choice and OER questions. I focus on the OER to ensure each student is choosing the best evidence and explaining their evidence. I give quick feedback to help each student as I actively monitor. We close out by sharing strong samples and stamping big ideas.

(3rd) We transition to GR rotations. My more independent group goes straight to work reading their novel and completing their response for the focus question. I remind them to include the new vocabulary words and cite their text evidence. I work with my other group at the small table as they practice word solving and reading with fluency. Then we preview the focus question and find evidence before they switch to independent work time. My groups switch and I quickly scan the responses to the focus question. I can already tell that we need more practice finding strong evidence. I go through the oral drill and vocabulary focus with the group, then we jump into discussing the text. I chart the group's response on a poster and we save it for the next day.

During Writing, students complete an independent piece. We focus on informational writing and including facts from a mentor text. I reviewed their pieces from last week and we discuss some ways to improve their writing as a whole group before they start. We write the criteria for success on the board and students get started. I actively monitor as they write and once everyone is working, I pull a small group to the back table for more targeted support. We walk through all the steps before I leave them to work independently. I complete one more lap of the classroom before closing out. I show call a strong sample and one that made improvements over the course of the lesson. We celebrate everyone's hard work before they transition to math.

Intellectual Prep & Meeting Structure

Intellectual prep is the work that teachers do prior to teaching a lesson. This work includes: (1) unpacking the unit plan with grade level cohort to understand the unit as a whole, (2) unpacking lessons with grade level cohort designed to practice critical components of a lesson, (3) independently internalizing lessons through lesson annotations and lesson prep, (4) weekly teacher observation and feedback cycle, and (5) looking at student work through the Show What You Know data cycle.

	K-4 Teacher Pre-Work	Meeting Structure
Daily Lesson Plan Annotations	<p>Due Weekly:</p> <ul style="list-style-type: none"> ▶ Read and annotate the lesson plan according to the IPP protocol ▶ Complete an exemplar for any student work/annotations of texts 	<ul style="list-style-type: none"> ● No Meeting-IPP done independently
Unit Unpack Pre-Work	<p>Due Prior to Unit Unpack:</p> <ul style="list-style-type: none"> ● Teachers read, annotate, and answer completes exemplars for assessments identified within the Unit Plan (and bring to Unit Unpacking), ● Teachers identify potential student misconceptions ● Teacher creates a know/show chart for key standards 	<ul style="list-style-type: none"> ● Occurs two weeks prior to the start of a unit during the lesson unpack time ● Focus on key standards for the unit, key building blocks of the unit, key problem types, and addressing gaps from pre-unit assessment ● Unit Unpack Protocol
Lesson Unpack Pre-Work	<p>Due Prior to Lesson Unpack:</p> <ul style="list-style-type: none"> ▶ Complete independent IPP for the lesson being used for lesson unpacks. ▶ Bring previous days Exit Ticket to analyze 	<ul style="list-style-type: none"> ● Occurs weekly with teachers in same grade level ● Focus on 1-2 upcoming lessons with a focus goal aligned to the Arc of the Year goals. ● Complete LASW protocol with previous lesson Exit Tickets
Interim Analysis	<p>Completed during scoring and Interim Analysis Planning time, Due one week after IA.</p> <ul style="list-style-type: none"> ▶ Work in grade teams to complete IA analysis plan <ul style="list-style-type: none"> - Review IA analysis on standards, questions, errors, and misconceptions - Create a reteach plan and reassessments - Complete IA tracker 	<ul style="list-style-type: none"> ● Occurs after interims during network PD

Network PD	<ul style="list-style-type: none"> ▶ Professional Develop on various teaching strategies and development throughout the year ▶ Pre-work is determined and shared two weeks prior to meeting 	<ul style="list-style-type: none"> ● Occurs monthly during network PD
STEP Analysis	<ul style="list-style-type: none"> ▶ Analyze each student using their individual assessment sheet ▶ Identify trends within the class and create groups ▶ Develop an 8-10 instructional week plan with specific teacher actions outlined 	No network meeting; support provided by VP

Arc of the Year

The Arc of the Year is utilized to support the vision and goals of the program. Teachers will be provided with professional development and support based on specific look-fors.

Arc 1	Arc 2	Arc 3	Arc 4
<p><u>Efficient & Effective Launch</u></p> <p><i>We want to maximize the amount of time that scholars' are engaging with the text, so we ensure that launches provide only what is necessary for students to access the text. We want to cultivate a love of reading for all of our students, so we ensure that our literacy classrooms are exciting and joyful.</i></p>	<p><u>Independent Practice</u></p> <p><i>We encourage strong engagement and investment in practice, such that the quantity and quality of work produced sufficiently moves every scholar toward the target outcome.</i></p> <p><i>We ensure scholars receive and apply meaningful and transferable individual feedback by collecting data and diagnosing scholars's errors so that they get what they need to grow.</i></p>	<p><u>Responding to Student Learning Needs & Data Analysis</u></p> <p><i>We respond to data in the moment to identify the best strategies to stamp exemplary habits & skills and key concepts.</i></p> <p><i>We consistently analyze student work and formative assessments to inform teaching practices and close gaps in learning.</i></p> <p><i>We analyze data from major assessments in a timely fashion and develop reteach plans and interventions based on identified trends.</i></p>	<p><u>Leading Student Discourse</u></p> <p><i>We utilize varied strategies to facilitate student-led discourse that fully unpacks key concepts and skills.</i></p>

Part III | ELA Core Curriculum 5-8

Student Experience Narrative

It is almost time for ELA class, and I can't wait to talk about the novel we are reading! I read Chapter 4 for homework and I KNOW we will dig into this chapter some more during class. I can't wait to share my thoughts about the protagonist! I wonder how my teacher will check my homework today.... Will she give us a DIRT quiz or will she check our annotations? I hope it is a DIRT quiz! I love seeing our class results! Just got into ELA and (drumroll please)..... We are taking a DIRT quiz!!!! Yayyyyyy! I take my time and carefully read the two questions. They are pretty easy because I read for homework last night. Woohoo! I got 2 out of 2 correct. My teacher shares that 80% of our class got a 2 out of 2! We are on a roll! I think we are beating the other 5th grade homeroom with our homework scores. Man, it feels good to be on top!

After the DIRT quiz, our teacher gives us an example of a "symbol" and what it means in literature. Hmmmm..... I will keep a lookout for symbols while I read today. She also gives us annotation directions and sends us off to read. I love reading on Kami. It is so easy to make my thinking visible in the margins. I like to use different colors for my highlights too. After we read, it is time for discussion. As anxious as I am to share, I get pretty shy sometimes. I'm glad my teacher started us off with a turn and talk. My partner agrees with what I share so I feel more confident to share with the whole group. We discuss and I hear so many great ideas from my classmates. Wow! There are some smart kids in this class! As I hear others' ideas, I jot them down in my text. Sharing is caring, right? We have 3 heavy lifting loops today so we read and discuss two more times. I feel like I've gotten smarter just in the last 30 minutes.

Now it is time for our exit ticket. What'll it be today? Multiple choice, OER, just a claim? Ohhhhhhhh it is a whole OER response. I definitely have a strong claim and a ton of evidence to back it up. My teacher gave us feedback that we should include context before our evidence so I will make sure I do that. Fingers crossed I get a three!

Overview/Vision/Key Components

The ELA block consists of 6 units (Unit 0 and 5 units) that include reading and writing instruction tied to a core set of texts or novel. The curriculum is designed to build reading stamina, allow scholars to read and write to learn, build meaning through collaboration and build voice and agency. Scholars will have many opportunities to receive feedback and revise to build precision and learn from mistakes.

Accelerated Learning

Acceleration will take many forms in the ELA classroom and all throughout the day. In ELA, acceleration means building background knowledge around core texts, building vocabulary development, embedding writing within the current study, and building strong, healthy relationships between educators, scholars, and families. All of these instructional practices will be embedded within the ELA block through the curriculum with professional development.

During the ILT block, scholars will receive accelerated instruction in small groups. Some groups will be using core texts to practice word recognition skills and fluency. Other groups will be practicing reading habits and writing skills using the core texts with implementation of scaffolds from the small group instructor.

Exceptional Learners

All exceptional learners will continue to be challenged with grade-level appropriate content in addition to any supports outlined in their Individualized Education Plans. Classroom teachers will be supported by the Special Education team with providing interventions and modifications when necessary.

Lesson Structure

Part of Lesson (Approx. Length of Time) <i>Frequency: In what % of lessons will this happen?</i>	Purpose	What Happens	Top Markers of Excellence
Framing (5-10 minutes) 100%	Invest scholars in the lesson and connect it to the broader unit/course.	<p>Most lessons:</p> <ul style="list-style-type: none"> ● Do Now to activate background, build schema, practice skill, build love of text, and/or help scholars build a personal connection to the work. ● Data share to strengthen the learning community (e.g. HW or ET data, show-calling strong exit ticket from the previous day, T or S shares reflection from previous lesson, etc.) <p>All lessons:</p> <ul style="list-style-type: none"> ● Throughline: Building investment in the purpose of the lesson and how today's lesson connects to the text/unit/course. ● Build the Narrative: establish literal understanding necessary for engaging in today's lesson ● Homework accountability: teacher completes an annotations check, homework collection/review, or students take a DIRT quiz. Minimally, weekly, all students are checked and graded. 	<ul style="list-style-type: none"> ● The overall tone of the classroom is marked by enthusiasm, love and care, and purposeful focus. ● The teacher OFTEN recognizes and narrates positive scholar behaviors (rather than calling out the negative) and uses challenge and aspiration to motivate. ● Students are prepared for the lesson as demonstrated by homework/quiz completion and accuracy and responses to Build the Narrative questions. ● ALL or ALMOST ALL scholars can explain what they are learning and explain the importance of the lesson. ● Launch is quick (less than 10 minutes) to preserve time for the most challenging thinking work of the lesson.
Word & World Knowledge (3-15 min TOTAL) 50%	Disciplinary Knowledge Builder (5-15 min)	<ul style="list-style-type: none"> ● Authentic, isolated engagement with disciplinary knowledge <ul style="list-style-type: none"> ○ Discovery Activity (for new knowledge): Students engage with a text-based example of the concept in order to try defining it themselves. ○ Review Activity: Students engage with a text-based example of the concept and identify what it is and/or explain why it qualifies as a certain literary concept. ○ In both, teacher and students engage with knowledge organizers to capture learning/thinking. ● Shared language: Students review a shared definition/explanation of the literary concept. ● Teacher checks for understanding questions about the concept in a way that goes beyond simply reviewing the definition. 	<ul style="list-style-type: none"> ● Even though this portion of the lesson includes explicit instruction, the majority of the thinking and speaking is done by students. ● Teacher uses a variety of engagement techniques to keep lift high: cold call, warm call, turn and talk, stop and jot ● Disciplinary Knowledge Builder is quick (15 minutes or less) to preserve time for the most challenging thinking work of the lesson.
	Vocabulary Instruction (3-10 min)	<ul style="list-style-type: none"> ● Teacher provides a student friendly definition of a word and the part of speech. ● Teacher uses the word in a sentence. ● Teacher asks 1-2 questions that build word knowledge by requiring students to think about the word in different contexts. ● Repeat if there is a second word. 	<ul style="list-style-type: none"> ● Even though this portion of the lesson includes explicit instruction, the majority of the lift is on students. ● Vocabulary instruction is quick (ten minutes or less) to preserve time for the most challenging thinking work of the lesson.

<p>Heavy Lifting Loops (40-60 min, completed in 1-3 20-30 min loops) 95%</p>	<p>Time in Text (10-20 min per loop)</p>	<p>Students understand and analyze a complex text, building their stamina, skill, and confidence as independent readers/learners.</p>	<ul style="list-style-type: none"> ● Scholars read for a clear purpose & criteria for success - generally in the form of an annotation prompt or GBTJ focus: <ul style="list-style-type: none"> ○ Depending on the difficulty of the text and students' familiarity, the annotation focus may prompt students to build literal understanding ("What happens in this section?"), analytical understanding, ("What might the roses symbolize?") or both ("What does Esperanza do and how is she changing?"). ○ Teacher ensures that students fully understand the expectations for annotations. Where necessary, this may include asking a CFU before going into independent work time. ● Students read and annotate the text. Most of the time, this is done independently. Occasionally, teachers may read some text aloud. Reading aloud might occur if: <ul style="list-style-type: none"> ○ Teachers want to build a feeling of shared enjoyment of the text, oftentimes at the start of a new book or at a climactic moment. This should take less than 3 minutes. ○ Students are reading a poem or song (genre is meant to be heard). ○ Students are reading a dense, above-grade-level text. They listen to the text read aloud once fluently before reading it independently. ● Teachers monitor students' annotations, gathering data to inform class discussion and providing individual and batch feedback, as needed. ● If context is needed to help students access the text, teachers may pause reading to review an embedded image, video, or blurb that builds needed background knowledge. 	<ul style="list-style-type: none"> ● Teachers hold 100% of students accountable for reading and making their thinking visible through annotations. ● Teachers move on a pathway that allows them to monitor the majority of students during each reading loop. ● Teachers have an active monitoring tool that includes possible evidence, inferences and feedback prompts. ● Teachers gather data around student understandings and gaps to help guide discussion. ● Teachers provide students time to grapple with the text independently before providing feedback.
	<p>Student-Focused Discussion (10-20 min per loop)</p>	<p>Students build agency while also building deeper meaning of the text together. At the end of discussion, students' ideas have been reshaped, deepened, or clarified by their classmates.</p>	<ul style="list-style-type: none"> ● T launches the discourse cycle by posting the focus question, identifying a strategic discussion modality (ie: hands-down, cold call, turn+talk, warm call, hands) rooted in TinT data. ● Using student responses as data, T guides or pivots conversation purposefully (e.g. provide feedback, wait longer to have students surface more ideas, send back into text, strategic Turn+Talk) ● Students synthesize/revise their ideas in writing ● (Sometimes) Teachers prompt students to connect to the text as people with a dialogic question. Students discuss connections and reflections. ● Habits of discussion are introduced, modeled, and reinforced 	<ul style="list-style-type: none"> ● Many students share, including students who are typically more hesitant during discussion. ● Discussion feels fun and engaging. Students are excited to share their thoughts. ● Scholars employ disciplinary reasoning to collectively arrive at meaningful insights (in oral and written responses). ● Overwhelmingly, scholars use the technical vocabulary appropriate to the discipline. ● Scholars actively revise their own thinking in light of other scholars' responses and annotate and jot down new ideas without prompting. ● Teacher-talk is overwhelmingly in service of facilitating scholar thinking. Directions and activities are framed in terms of developing thinking, not completing tasks
<p>Lesson Closing (15-20 min)</p>	<p>Prepare for Exit Ticket (3-6 min)</p>	<p>Students prepare to respond to the prompt fully with</p>	<ul style="list-style-type: none"> ● Students read the exit ticket task and, as necessary, internalize and plan for their response by; annotating key terms, reviewing their annotations and discussion notes, and/or marking ideas that will help them fully respond to the task. 	<ul style="list-style-type: none"> ● Teacher holds 100% of students accountable for independent preparation. ● Students consider their own ideas as well as new ideas their peers surfaced while preparing to respond.

95%		ideas they have developed throughout time in text and discussion	<ul style="list-style-type: none"> Teachers monitor students' preparation, providing quick individual and batch feedback, as needed. Teachers might also use this time to provide focused lesson-to-lesson batch feedback for scholars to focus on/apply in their work. 	
	Exit Ticket (10-20 min)	Students synthesize their ideas and show the thinking they have built over the course of the lesson	<ul style="list-style-type: none"> Students respond to the exit ticket task. Tasks might be a paragraph response, a portion of the paragraph, a multiple choice question, a sentence expansion activity, or a dialogic/connection question. Teacher monitors with an exemplar, gathering data around student understanding/gaps to inform possible feedback. As necessary, teacher pauses student work to provide individual or batch feedback, balancing the importance of a short feedback loop and the importance of sustained independent work time. 	<ul style="list-style-type: none"> Teacher holds 100% of students accountable for completing the exit ticket, monitoring first for 100% engagement.. Students incorporate their own ideas as well as new ideas their peers surfaced while preparing to write. Feedback requires student lift and highlights narrow, high leverage strengths/gaps
Homework (20-30 min) 95%		Students build stamina and confidence as independent readers. Students establish literal understanding which they will build on in class.	<ul style="list-style-type: none"> Students read a section of the class novel or an ancillary text Students annotate using the Genre Based Thinking Job (Optional) Students answer comprehension questions 	<ul style="list-style-type: none"> 100% of students complete homework consistently and thoroughly Teachers develop systems for monitoring, celebrating and/or addressing gaps in completion and quality.

Classroom Environment

The ELA classroom is essential for students to feel comfortable to build their confidence and ownership in their learning. The classroom needs to have space for a world map and a timeline to engage students in building knowledge around core texts and study. There should also be space for anchor charts with vocabulary words and literary terms with examples. All scholars should be able to easily see the smartboard and seating should allow for robust discussion through turn and talks and the whole group. There should be an area in the classroom to display classroom data on assessments with goals clearly stated.

Assessment Methods/Data Cycle/Grading Resources

Task	Description	Frequency	Teacher Responsibilities
Homework	On a daily basis, scholars are responsible for reading and annotating a specific text or portion of text. Scholars are also responsible for writing a central idea jot. Central idea jots require scholars to synthesize a cold text and go beyond a literal summary. It is important that scholars are practicing going beyond literal annotations and central idea jots when completing homework reading.	Daily	<ul style="list-style-type: none"> - At least once a week- check for completion of annotations and central idea jot - At least once a week- create and administer a DIRT quiz with 2 literal questions from homework reading **** One of these homework accountability measures should happen EVERY day that scholars have homework. If scholars are not completing homework, plan for intervention immediately (i.e. signed homework log, study hall, communication with parents, etc.)
Exit Ticket	An exit ticket is 1-2 questions for students to answer at the end of class. Exit tickets are a deliberate way to establish an expectation that students need to be focused and driven during the lesson so that they can complete the exit ticket. Exit tickets also assess what students learned and tell how well the material was taught. Teachers should be monitoring and giving feedback to scholars as they are completing exit tickets. Teachers are then responsible for reviewing exit tickets on a daily basis using grade band rubric. Teachers should then identify areas for individual and batch feedback.	Graded using 4 point rubric	<ul style="list-style-type: none"> - Grade and give feedback that keeps heavy lifting on scholar (1-2 exit tickets per week) - Analyze responses for batch feedback
End of Unit Assessments	Scholars are required to complete an assessment at the end of each unit.	End of unit	<ul style="list-style-type: none"> - Complete assessment prior to unit unpack - Score and share with scholars
SWYK (Show What You Know Assessments)	SWYKs are reading tasks inclusive of multiple choice questions and open ended responses. Scholars should be using cold text reading strategies when completing these assessments (i.e. annotating for GBTJs, central idea jot, unpacking of the prompt, etc.)	Halfway through Interim cycle	<ul style="list-style-type: none"> - Score open-ended using 4 point rubric during lesson unpack - Analyze data and identify action steps with instructional coach during OF meeting

			-Implement action steps
Interims	Interims are given 4 times per year and the rigor bar stays the same across a grade level. Due to the consistent rigor bar, scores should incrementally rise throughout the year. One mock will be given prior to NJSLA.	4 times per year	<ul style="list-style-type: none"> - OERs scored using 4 point rubric - Scholars are given two grades in PowerSchool <ul style="list-style-type: none"> - 1 grade for proficiency using scale in Instructional Guidebook - 1 grade for reading work habits using rubric in instructional guidebook
NWEA MAP Assessment	MAP is a nationwide test that is taken 2 times a year that shows how students are progressing nationwide among other students in their cohort. Students are assessed based on their level and not only on the grade level.	BOY and EOY	
NJSLA	Students will take the state test in April/May. This assessment measures student achievement on the grade level among all other NJ students.		

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

I'm really excited for class today! We are starting a new unit and this is one of my favorite books this year. I think I am all ready to knock this lesson out of the park. My instructional leader gave me feedback on my lesson plans on Thursday and I was able to implement the feedback right into my slide deck. It's great to have someone giving you pushes on lesson plans. After homeroom, I have planning time. Today, I will use the time to look at exit tickets from yesterday and give scholars feedback. I will probably see a trend (always do) that I can add into my slides for today to give kiddos batch feedback. I'm also going to get a start on next week's lesson. It takes time to really internalize the lessons. So happy that we have planning time during the day!

Time to start class! Today I have decided to check kids' annotations for homework accountability. I move from table to table and quickly check annotations, asking scholars to flip pages in unison. Scholars bring their novels home to read and annotate and use chromebooks and Kami in class. After checking, I see that 90% of scholars have great annotations! Let's celebrate and set a new goal! The kids tell me they want to hit 100% tomorrow. I hope we do! After launching the lesson, kids are able to dig in and read the text to get to some really deep meaning. I make sure I am very clear with my annotation directions and give kids time to get to the right page and mark the excerpt (I got this feedback from my coach and I noticed there are a lot more scholars on task during heavy lifting loops). While kids are reading, I sit in the back of the room and monitor their annotations via Kami. I write down their ideas on my tracker and give kids individual pushes. From the back of the room, I can see all kids' screens and make sure they are on task. I notice that scholars are not paying attention to a very important paragraph so I draw their attention to me and have them focus in on that paragraph. There are so many great ideas coming from scholars! Ideas I didn't think of during my planning.

Now it is time for discussion- I can't wait for these awesome ideas to come out! I start with a turn and talk to get more voices out there. After the turn and talk, I look at my tracker and see that Aaliyah had a great idea to kick us off. I ask her to start the discussion. Kids are pros with the habits of discussion so I don't have to direct the conversation at all! Kids are building off of each other's responses, challenging each other, and agreeing or disagreeing. I see Jamie adding to her annotations and I give her some quick praise for this. I'm starting to notice that we are only focusing on one idea. From looking at my tracker, I see Donald has a different, insightful idea. Time to pivot! I ask Donald to contribute his idea to the discussion. This caused a mini uproar! Kids are jumping out of their seats to join the convo now! I've never seen scholars so excited to talk about text. I almost have to wipe a tear away from my eye!

Time to wrap it up and have scholars complete their exit ticket. Today is a whole OER response so I flip through their exit ticket handouts in Google classroom as they work. Some of my kiddos need some pushes. I can easily give them pushes via Google Classroom. I notice LaKeshia is not implementing my feedback so I get up and go to her desk to point it out. She was so entrenched in the exit ticket that she didn't even see it! Time to say goodbye for today, but before we part, I am sure to give my kids their homework for tonight. Some of the scholars leave the class with their book in hand, already reading the next chapter.

Intellectual Prep

Teachers can and should adapt their IP to make lessons fit their school, personality, and students. However, there are steps teachers should always take to build content expertise, prepare to embrace diversity of thought, prepare to engage students, and prepare to respond to struggle.

Notes and exemplars can be recorded in the notes section of the lesson google slide deck. [Here](#) is a link to the IP protocol.

Meeting Structure

Type of Meeting	Instructional Leader Prework	Teacher Prework
Unit Unpacks	<ul style="list-style-type: none"> -Read unit core texts -Read and annotate Unit Overview -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Prepare key points and back pocket questions to engage in SEL and literacy practice grounding 	<ul style="list-style-type: none"> - Read unit core texts -Read and annotate Unit Overview - Complete exemplar for end of unit assessments -Submit pre-work by deadline

Arc of the Year

The Arc of the Year is the ultimate embodiment of the mantra: for big results, start small. A LOT goes into learning, teaching, and coaching ELA. If we tried to master all the moves and mindsets at once, we’d be destined for failure. Just like a scope in sequence in the curriculum, over the course of each year in the program, we break our time up into discrete arcs and phases. Each arc focuses on an intentional and narrow set of foci that build on one another. By building strength in these competencies over time, we increase the likelihood that we have time and space to build proficiency in them all. Additionally it’s important to remember that there is no “perfect” or “right” order in which to tackle these skills. While the arc is intentionally sequenced - it won’t be perfect. There are probably lots of “right” ways to do it. But having a narrow, consistent, and clear way to traverse the year matters mightily.

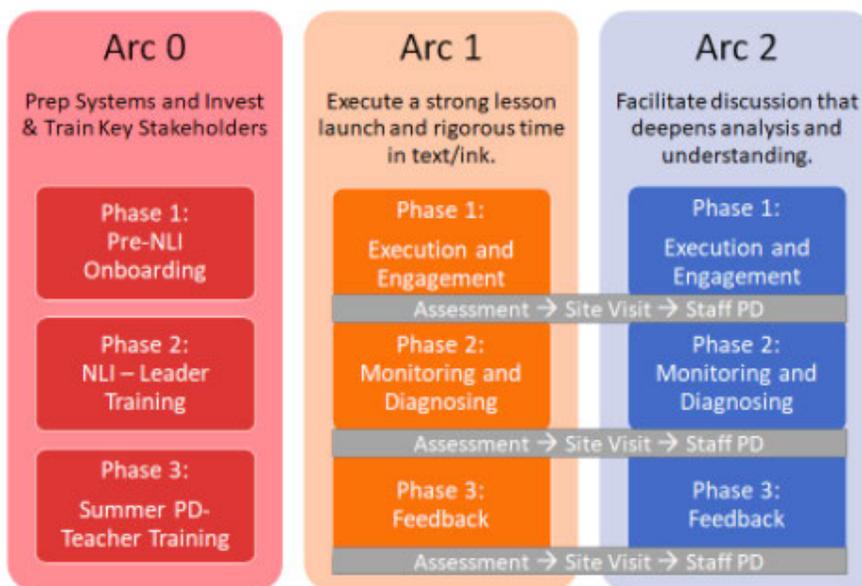

Visual Arc Overview

The year is broken up into three arcs and each arc into three phases.

Each arc centers primarily on one element of the [teaching rubric](#), the aligned [coaching skills](#) that support teachers to build those skills, and the desired [learning outcomes](#) we aim to achieve.

In phase 1 of each arc, we focus on the basic teacher/coach “moves” and student engagement. In phase 2 of each arc, we move onto monitoring and diagnosing trends in student work. Finally, phase 3 focuses on providing aligned feedback to support continued student growth. Arc 0 does not follow this cycle, as it is the precursor to the year.

Between each phase, partners administer a normed assessment (either a quiz or an IA) and analyze student data in advance of an extended site visit. Armed with comprehensive teacher + coach observation data, and formative student assessment data -- partners and coaches plan professional development for teachers and leaders to kick off the next phase.

Goal Summary by Arc

Arc 0	Arc 1	Arc 2
Students	Students	Students
<ul style="list-style-type: none"> <input type="checkbox"/> <i>Because Arc 0 takes place in the summer, there are no student-focused goals.</i> 	<ul style="list-style-type: none"> <input type="checkbox"/> 80% of scholars create proficient GBTJs + CI jobs independently in homework. <input type="checkbox"/> School meets Navigator student achievement goals for IA1 in all grades. <input type="checkbox"/> 60% of scholars score a 2 or better on one or more IA1 OER responses (Focus: OER Structure) 	<ul style="list-style-type: none"> <input type="checkbox"/> School meets Navigator student achievement goals for IA2 in all grades. <input type="checkbox"/> 80% of scholars score a 2 or better on one or more IA2 OER responses (Focus: Claim and Evidence) ; 40% of scholars score a 3 or better on one or more IA2 OER responses (Focus: Analysis)

Part IV | ELA Core Curriculum High School

Student Experience Narrative

When the bell rings, it is time for ELA which is actually my favorite class so I don't mind cutting my conversation with Coach T short and running all the way up to the fourth floor. Mr. Brooks is at the door and shakes my hand as I enter the room. As always, we start with the DIRT quiz to see if we did our homework. I didn't finish the last two pages of the scene on the bus this morning so I am hoping there are not any questions on that part. I submit my quiz and get three out of four correct. Not too bad. Once we submit our responses in Google classroom, Mr. Brooks starts going over what we are going to read and discuss today. We are almost to the end of Act I of The Piano Lesson and I volunteer to read a big speech that Boy Willie does about why he should sell the piano. I am glad that we started this year with a play because it is fun to read the parts together. I feel like I understand the story better when we read it as a class. Class goes by pretty quickly today. We read and Brooks asks us questions along the way. Sometimes it is a whole class discussion or sometimes we just talk in triads. Either way, he always makes us find evidence and jot down our thoughts before we talk. I can tell some kids don't like writing down their answers but it actually helps me to get my thoughts straight before I talk. Anyway, right before the exit ticket Mr. Brooks shows us a couple of student sample responses from last week of people who did a good job supporting their claim. He always covers up the name so no one feels anytype of way, but I know that the second sample is my work. I didn't always get the best grades in English last year so it feels pretty good to see my work on the smartboard. After the exit ticket, Mr. Brook reminds us of which pages we have to read tonight and class is over.

Overview/Vision/Key Components

Accelerated Learning strategies at the high school level are aligned to the general practices described in the introduction of the handbook. This will be further developed for high school based on individual schedules, but in general should include:

- **Vocabulary:** A focus on content specific vocabulary for each unit
- **Building Schema:** An investment in understanding the historical context of each unit through the study of both primary and secondary sources
- **The Writing Revolution:** A focus on strengthening foundational writing skills while leveraging and building knowledge

Exceptional Learners 2021

See the information at the beginning of this guidebook for general beliefs and strategies. In addition to Resource and Inclusion classes, the highschool may offer Honors and AP Classes for students who are seeking a challenge that is above and beyond that of the general college preparatory classes.

Lesson Structure

At the highest level, you might consider a *typical* literature block to look as follows:

First 5-10 minutes	Core of lesson (30-40 minutes)	Last 5-10 minutes
<p><i>Opening</i> - Scholars gain investment in the day's inquiry by making connections, debriefing key plot points, and seeing how the day fits within the arc of the unit.</p>	<p><i>Disciplinary Reasoning</i> - during the heart of the lesson, scholars conduct disciplinary reasoning via:</p> <ul style="list-style-type: none"> • Reading/re-reading (which may include annotations or jots) • Discussion (small-group and/or whole-class) • Writing and/or Revising • Scholars may move back and forth across these modalities of learning as needed to foster deep, critical thinking. 	<p><i>Closing</i> - scholars synthesize and reflect upon their thinking during the lesson. They uncover how their discussion or writing in class relates to the larger novel and/or unit goals.</p>

This guideline should be used with flexibility; for example, on the day you launch a unit or new text, you may need far more time in the opening to ground scholars in the necessary background and to build excitement about the new content. It is also worth noting that there will be the occasional atypical literature block that may not follow the exact “flow” above (e.g., when scholars are delivering oral presentations that they have prepared).

Over the course of the block, the role of the teacher is to:

- **Foster curiosity and inquiry:** Questioning serves to both focus the lesson and deepen or challenge scholar thinking
- **Facilitate discussion:** The emphasis here is on *facilitate*; the teacher should practice restraint during the discussion, intervening only where necessary to deepen or challenge scholar thinking, especially with moves like “mirror and steer” or to take an inventory of the discussion using the inventory prompts
- **Encourage and support scholar enthusiasm and critical thinking:** Celebrate scholar connections to the text and topic and affirm how scholars experience the text and topic; encourage and praise (much like a coach would) scholar habits that foster critical thinking (e.g., a scholar’s choice to take a risk with his interpretation; a scholar’s redirection of a small group discussion to explore a new idea; etc.); support critical thinking, especially when scholars are struggling (e.g., by redirecting scholars to a different part of the text; by clarifying a misunderstanding of the plot; by posing the question in a new way; etc.)
- **Build awareness of reasoning:** Narrate the elements of disciplinary reasoning they notice students using, and invite peers to do the same, so that students internalize what it means to think like a literature student. They should also pose questions that foster metacognitive reflection. (e.g. How did we arrive at this understanding? What questions did we ask ourselves and one another?)

- ***Provide feedback:*** Engage with student ideas to provide feedback on their clarity and convincingness. During discussion, this may look like using a mirror and steer prompt (e.g. "I hear you making X argument and Y argument, but I am confused about the relationship between the two. Can you

Classroom Environment

All BRICK ELA classrooms should be print-rich environments that both educate and inspire. Classroom walls and boards are an opportunity to not only post exemplar student work, unit specific content and vocabulary but the classroom environment should be a place that reflects the culture of students who will learn in the space.

Unit Bulletin Board

Inside each classroom, one bulletin board should be related clearly to the unit topic. The board should include the title of the unit, relevant anchor charts, reference posters, etc. A focus on vocabulary is critical and will be planned at the Unit Unpack meeting.

Habits of Discussion

In addition to any standardized school norms, each class should post the Habits of Discussion with sentence stems for getting started

Classroom Library

When possible, each classroom should have a classroom library where students can borrow books for Independent Readings. Books that connect to the current unit should be showcased.

Student Work Display

Each classroom includes at least one designated bulletin board or space to display student work. Posted student work should include feedback from the teacher or peers and reflect revisions and should be current within two weeks.

Overall Environment

We communicate the importance of safety and organization with how we maintain the environment. There should be no stacks of papers, disorganized supplies, etc. All materials should be returned to their homes daily. At the conclusion of each period, the teacher should direct students to ensure the floor is free of papers, trash, etc.

Assessment Methods/Data Cycle/Grading Resources

Students will take several assessments throughout the year including:

- **Exit Tickets**-students will be given 2-3 exit tickets per week that will help teachers know where each student exceeded, met, or did not achieve the objective for the day.
- **End of Unit Assessments** are typically performance tasks that require students to write multi-paragraph essays
- **Socratic Seminars** occur about twice per unit and are an opportunity for students to synthesize what they have learned so far as they begin responding more thoughtfully to the essential questions of the unit
- **Interim Assessments (IAs)**-students will take Interim assessments 4 times a year during a specific blocked out period of time that will be issued network wide. These Interims are modeled after the SAT and are meant to measure college readiness and to help students prepare for the College Board administered SAT as well as the NJSLA.
- **NJSLA**- Students in English I and English II will take the state test once in the spring. This assessment measures student achievement on the grade level standards and is a graduation requirement for students in the state of New Jersey.

Teacher Planning, Preparation, and Development

Intellectual Prep

Teachers can and should adapt their IP to make lessons fit their school, personality, and students. However, there are steps teachers should always take to build content expertise, prepare to embrace diversity of thought, prepare to engage students, and prepare to respond to struggle.

Notes and exemplars can be recorded in the notes section of the lesson google slide deck.

Steps for Independent Intellectual Prep	
Build content expertise, prepare to embrace diverse ideas	<ul style="list-style-type: none"> • Read the TDQ and key annotation prompts in the lesson plan • Put the lesson plan aside and annotate the text as an experienced, adult reader (using the annotation prompts given to scholars) • Review the lesson plan key ideas and then update your annotations based on new insights from the plan. • Write a proficient TDQ response (with the lesson still off to the side). This can be typed in the slide deck notes- either AtP slide or Exit Ticket slide at end of lesson) • Review the lesson in full and then update your a TDQ responses based on new insights from the plan • Write down additional valid interpretations of the text
Prepare to engage students	<ul style="list-style-type: none"> • Script a throughline/build the narrative and quick questions/experiences to hook students during the launch
Build teaching tools and prepare to address struggle	<ul style="list-style-type: none"> • Adjust timestamps as necessary • Create an exemplar attacked prompt; script what to do if students struggle (in the slide deck notes) • Populate AgMo tracker exemplar annotations. See templates and exemplars in this folder. • Create a google slide deck for the lesson • Script plans for addressing missed ideas/annotations into notes of the slide deck. (Narrow the Focus prompts, BPQs, planned show-calls) • When applicable, add in glows and grows (discussion and exit ticket responses) into slide deck or notes • Make and post anchor charts (noted in lesson plan)

Meeting Structure

Type of Meeting	Instructional Leader Prework	Teacher Prework

Unit Unpacks	<ul style="list-style-type: none"> -Read unit core texts -Read and annotate Unit Overview -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Prepare key points and back pocket questions to engage in SEL and literacy practice grounding 	<ul style="list-style-type: none"> - Read unit core texts -Read and annotate Unit Overview - Complete exemplar for end of unit assessments -Submit pre-work by deadline

Part I | Math at BRICK Schools

Purpose of this Guidebook

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key instructional routines, mind-sets and procedures used by ALL teachers and school leaders to raise student achievement. This guidebook outlines these items to ensure a high level of execution. All staff members are expected to read, internalize and practice the contents of this guidebook.

BRICK's Mission

BRICK's mission is to relentlessly knock down all barriers to students' academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It's our vision that each and every child will have an unimpeded path to unlocking their limitless potential.

Instructional Model Overview

The basis of our instructional model and everything we do is rooted in equity. BEN's instructional model is built on the belief that we must first understand the individual needs of our students and then design educational experiences that ensure all students achieve success. It is through an equity lens that we adhere to BEN's four tenets of instruction.

The intentional implementation of these four tenets, with fidelity, will break down all barriers to ensure access, opportunities, and success for all.

Tenet	Driver
<p>Rigorous PK-12 academic curriculum with Integrated Social Emotional Learning & Identity Development <i>Our PK-12 curriculum integrates rigorous academics with Social Emotional Learning to foster independent learners empowered by their respective identities and driven by purpose.</i></p>	<ul style="list-style-type: none"> Vertically Aligned PK-12 Curriculum Culture of Belonging Intentional Relationship Development Explicit Social Emotional Learning Instruction Culturally Sustaining Practices Independent Learning Time Student Voice College and Career Readiness Trajectory
<p>Continuous development & support of all staff <i>BEN develops content, skill and instructional expertise in teachers, support staff and leaders through coaching, real-time feedback, content deep dives, purposeful practice and strategic planning.</i></p>	<ul style="list-style-type: none"> Curriculum Based PD Summer Leader and Teacher Institutes Network & School Led Teacher PD Unit & Lesson Unpacks Observation Feedback Cycle Leader Content Development Residency Programs
<p>Data driven decision making <i>We collect and analyze academic, SEL and program implementation data to pinpoint the specific strengths and growth opportunities and adjust the actions of students,</i></p>	<ul style="list-style-type: none"> Frequent Review and Feedback on Student Work Strategic Assessments: Academic, behavior, and social-emotional data collection &

BRICK's Vision for Math

We seek to develop confident mathematicians who are resilient problem-solvers equipped to be leaders, to address the challenges facing the world now and in the future. We demonstrate a growth mindset as they engage in a productive struggle that leads to deep understanding of math concepts and procedures. Our culture supports this mindset as we learn from mistakes, analyze student work and build their knowledge through rich, mathematical discourse.

Culturally Responsive Practices in Math

Culturally Responsive Teaching (CRT) is defined as “an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing. **All the while, the educator understands the importance of being in a relationship and having a social emotional connection to the student in order to create a safe space for learning.**” (Hammond 14)¹

Ultimately, we know that the most effective environment for learning is one that is “intellectually and socially safe for learning”(Hammond 17). Key points from Hammond:

- Because our safety-threat detection system is continuously scanning for potential social-emotional threats, it is the job of the culturally responsive teacher to build trust and rapport in order to reassure our students that they are safe and cared for (86).
- The teacher in the role of ally is mindful of balancing rigor and expectation with support...Feedback must be offered in ways that affirm the student’s capacity to learn yet is honest in pinpointing where he is in relationship to his goal and offers concrete steps for improving. (106)

Specifically, Culturally Responsive Math Teaching (CRMT) is “premised on creating a learning environment focused on mathematical sense making in which each and every student feels valued for who they are, for their ways of engaging in mathematical reasoning and for their contributions to the collective success of those within the classroom community... CRMT requires teachers to (re)consider the mathematics learning environment they’ve created and how well it reflects these four elements:

- 1) Supporting deep learning: How to ensure student success with coherent and connected mathematical understandings
- 2) Engaging and valuing identities: How to honor students’ experiences, communication practices and communities
- 3) Sharing authority: How to build inclusive, collaborative norms and routines
- 4) Applying mathematics: How to use mathematics to understand and investigate meaningful situations”²

[See Appendix 2 for specific examples of each element](#)

¹ Hammond, Z. L. (2015). Culturally responsive teaching and the brain. Corwin Press.

Social-Emotional Learning and Math

The Common Core calls teachers to three key shifts: [for more info, see: corestandards.org]

- Greater focus on fewer topics
- Coherence: Linking topics and thinking across grades
- Rigor: Pursue conceptual understanding, procedural skills and fluency, and application with equal intensity

As we seek to be fully aligned and embrace the Common Core mindset, we must engage students and teachers in the process of thinking about their own thinking (metacognition). Therefore, we value the process of solving, working through productive struggle and effective discourse in addition to finding correct answers.

To this end, we focus on the social-emotional learning in our classrooms by connecting the Social Emotional Learning (SEL) competencies intentionally with the Standards for Mathematical Practice. The Standards for Mathematical practice are inextricably linked to the SEL Core Competencies, and our work must reflect a both/and approach.

Standards for Mathematical Practices (MP) (excerpts)	Five SEL Core Competencies as Identified by CASEL ³
<p>MP1 Make sense of problems and persevere in solving them: Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution.</p> <p>MP2: Reason abstractly and quantitatively: Mathematically proficient students make sense of quantities and their relationships in problem situations. They bring two complementary abilities to bear on problems involving quantitative relationships: the ability to decontextualize—to abstract a given situation and represent it symbolically and manipulate the representing symbols as if they have a life of their own, without necessarily attending to their referents—and the ability to contextualize, to pause as needed during the manipulation process in order to probe into the referents for the symbols involved.</p> <p>MP3 Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments.</p> <p>MP4 Model with mathematics. Mathematically proficient students can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace.</p> <p>MP5 Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem.</p> <p>MP6 Attend to precision. Mathematically proficient students try to communicate precisely to others.</p>	<p>Self-awareness: The ability to accurately recognize one’s emotions and thoughts and their influence on behavior. This includes accurately assessing one’s strengths and limitations and possessing a well-grounded sense of confidence and optimism.</p> <p>Self-management: The ability to regulate one’s emotions, thoughts, and behaviors effectively in different situations. This includes managing stress, controlling impulses, motivating oneself, and setting and working toward achieving personal and academic goals.</p> <p>Social awareness: The ability to take the perspective of and empathize with others from diverse backgrounds and cultures, to understand social and ethical norms for behavior, and to recognize family, school, and community resources and supports.</p> <p>Relationship skills: The ability to establish and maintain healthy and rewarding relationships with diverse individuals and groups. This includes communicating clearly, listening actively, cooperating, resisting inappropriate social pressure, negotiating conflict constructively, and seeking and offering help when needed.</p>

³ <http://www.casel.org/social-and-emotional-learning/core-competencies>

<p>MP7 Look for and make use of structure. Mathematically proficient students look closely to discern a pattern or structure. They also can step back for an overview and shift perspective.</p> <p>MP8 Look for and express regularity in repeated reasoning. Mathematically proficient students notice if calculations are repeated, and look both for general methods and for shortcuts.</p>	<p>Responsible decision-making: The ability to make constructive and respectful choices about personal behavior and social interactions based on consideration of ethical standards, safety concerns, social norms, the realistic evaluation of consequences of various actions, and the well-being of self and others.</p>
---	--

Connecting Math Content Standards, Standards of Mathematical Practice, CRMT/CRT and SEL in the Classroom--What this looks like in practice:

It can be overwhelming to try to concentrate on each of the aspects described above separately, or as different goals to achieve. However, that is the complete opposite of what we are called to do! In fact, when done well and implemented with fidelity, these different elements, framings and calls to action directly serve one another’s purpose.

It is our role, therefore, to work to understand the goals and nuances of each and work to seamlessly integrate them:

- The Math Practices, when explicitly taught and named, support students’ development of SEL competencies and engage in the CRT practice of engaging all students in meaningful learning.
- The SEL competencies, when highlighted as a focus, serve to develop independent learners as called for in CRT as well as mathematicians who engage in genuine problem-solving and perseverance in math.
- Culturally Responsive Math Teaching practices call for teachers to engage and value students’ identities and ideas, which depends on the SEL competencies of both self-awareness and social awareness and enhances the concept of developing an identity as a mathematician who effectively executes the math practices.

Here are two broad examples of this interconnectedness of content, practices, CRT and SEL in a classroom:

- 1) When we focus on using math in meaningful ways, as the CRT practice of applying math challenges us to do, we have the opportunity to cultivate the SEL competencies of responsible decision making and social awareness and building capacity to model with mathematics (MP4).
- 2) When we model for students how to self-regulate and think metacognitively by pausing during the manipulation process in order to probe into the referents for the symbols involved (MP3), they are developing the SEL competency of Self-Management and achieving the CRMT element of being supported in Deeper Learning.

As we continue to grow and learn about these areas of focus, we will deepen our understanding and enrich our instructional practices to even more effectively ensure all learners achieve their highest potential. Our program is specifically designed to meet the goals of these frames, and we must highlight these aspects as we prep and teach.

For more concrete and grade-level specific examples, please refer to each grade level section that follows.

We also believe that Social and Emotional Learning is not something we as educators are just “setting up” for our students. We, too, must hone, reflect and sharpen our own SEL skills. As Meena Srinivasan, author of “SEL Everyday” writes, “We need to be aware of ourselves—our emotions, thoughts, reactions, values, and beliefs—and use that knowledge to improve teaching and create powerful learning environments. Having a strong adult SEL practice where we welcome diverse perspectives, manage strong emotions, and practice compassion towards ourselves and others can help us make better decisions in service of our students, because we are less reactive toward them and can strengthen our relationships with them, too. Research confirms that teachers who were mandated to teach SEL but didn’t cultivate their own practice actually worsened their students’ SEL skills. In contrast, teachers who developed SEL skills not only improved their own well-being but improved the academic learning and social-emotional development of their students.

We can grow and deepen our own SEL practice by reflecting on guiding questions as we develop our curriculum. "⁴

Accelerated Learning in Math

The concept of accelerated learning--providing students access to on-grade content by adding in just the right content scaffolds at just the right time for students who need additional knowledge to do the current work--is arguably most straightforward in math when compared to other content areas. However, a predictable, replicable and implementable process is needed so that the effort is cohesive, intentionally, sustainable and impactful.

In math, we will:

- 1) Implement regular pre-unit formative assessments with analysis that impact instructional decisions directly during Core Block and ILT:
 - a) When 60% or more of a class has not mastered a prerequisite standard→ add a lesson to core block, follow up with additional instruction and practice in ILT
 - b) When less than 60% of a class has not mastered a prerequisite→ small group instruction lesson will take place in ILT with additional practice using iReady/computer adaptive software and in ILT.
- 2) Implement cycle of immediate re-teach and/or enhanced math experience four times per week:
 - a) Teacher reviews Exit Tickets daily from class and sorts into “mastery” and “no mastery.”
 - b) Teacher plans error analysis/chart the error lesson to be completed the following day on the exit ticket based on the highest leverage error
 - c) During Power-Up, before the math block, the teacher divides class into CTE/EAR group and enhancement group. Teacher spends the majority of the Power Up time directing instruction towards the larger group.
- 3) For on-ramping instruction, we will use specific resources that maintain the integrity of the course as well as the balanced drive towards the three aspect of rigor:
 - a) Time:
 - i) ILT
 - ii) Power Up
 - iii) Core Block
 - b) Materials:
 - i) AF Navigator Core Curriculum on grade level
 - ii) AF lessons from previous grades
 - iii) Iready

⁴ https://greatergood.berkeley.edu/article/item/three_keys_to_infusing_sel_into_what_you_already_teach

Exceptional Learners

Our exceptional learners--inclusive of students who are struggling and advanced learners, whether they are classified or not--deserve the best education. We cannot “teach to the middle” and expect all students to be served. It is essential that we maintain responsibility for all students--the Gen Ed teacher is a fully invested partner with Special Educators. In addition, teachers must constantly be aware that her actions with students with special needs serve as a model for how students are interacting. Be mindful of language, tone, body language, that indicates difference in a negative way.

First, it is critically important that all teachers who interact with a student who is classified understand the IEP. An IEP is an individualized educational plan--it is a legal document that outlines a student’s needs and diagnosis. Teachers must recognize that there are different reasons a student would have an IEP, and each student has different needs and each type of disability requires different actions from teachers in order to meet student needs. (See [types of disabilities](#)). For example, a student with dyscalculia will need very different accommodations and modifications than a student with dysgraphia. (See [Accomodations for Kids Who Think and Learn Differently](#)). *Especially in math, we must consider how reading, processing, executive functioning and all other student differences need to be supported in our classrooms.*

Second, there are some general practices--directly aligned to Culturally Responsive Teaching practices and the focus of developing social and emotional competencies--for working with exceptional learners who are struggling that can benefit all learners in math!

- 1) Pre-requisite skills: We cannot go back and teach everything that a student could be missing before teaching something new. Rather, we must identify precisely what is needed and provide this instruction. For exceptional learners in particular (but good for all), the following strategies can be beneficial:
 - a) Draw diagrams to represent concepts
 - b) Provide additional practice in different forms
 - c) Teach the vocabulary explicitly in context
 - d) Remove the quantities and replace with images
- 2) Teach Vocabulary:
 - a) Use real words--don’t water the definitions down. Consistently incorporate them.
 - b) Use pictorial representations
 - c) Bold the words (have students underline)
 - d) Play games to reinforce internalization
 - e) Compare and contrast words
- 3) Ground content in the familiar: Students benefit from learning in a connected context. When lessons build, approach from multiple access points and are clearly related, students’ brains are able to solidify these relationships and expand upon them
 - a) Frame the learning in a context familiar to students
 - b) Not all math is able to be taught in a “real world” application, but often it can be. Other times, math can be taught in connection to a previous topics (ie. “Yesterday we solved problems where we needed to use the Pythagorean theorem to solve a quadratic. Today, we’ll look at how we determine whether or not these solutions are reasonable answers to our problems.”).
- 4) Include pictures and tangibles: As students build to work with quantities and numbers, we can replace the values with pictures or manipulatives to build student competency.
- 5) Prioritize content and practice: Have students focus on content that will best set them up for success in what’s next and provide multiple at bats to practice with different problem types. This can be done by placing an asterisk next to the problems students should highlight.
- 6) Generalize learning and record problem solving steps: After solving a problem, ask, “How could I generalize this strategy or process to solve other problems?” Elicit response and stamp a specific and fully correct response.
- 7) Utilize a problem solving strategy so students consistently know where to begin and incorporate “ask yourself” questions--see [UPSC](#) example from HS. MS and ES use similar strategies.

[Conceptualizations of Students with and without Disabilities as Mathematical Problem Solvers in Educational Research: A Critical Review](#)

[You Cubed Special Education](#)

[Understood.org](#)

K-12 Math: Curriculum Continuum

Before reviewing the K-12 Math Curriculum Continuum, it is critical to understand the critical decisions that were made in this progression. There has been much national debate around when students should study Algebra I: 8th grade or high school, especially with respect to the lower rates at which BIPOC have access and opportunities to enroll in Algebra I in the 8th grade (see: [A Leak in the STEM Pipeline: Taking Algebra I Early](#)). To be clear, in this discussion, “Acceleration” refers to taking Alg I or other math courses earlier than the traditional path. This is different from “accelerated learning” discussed elsewhere in this guidebook.

We believe:

- 1) For the majority of students, focusing on mastering middle school math--with a heavy emphasis on the foundations of algebra--is far more beneficial than taking Algebra I in 8th grade.
- 2) We must prioritize algebraic skills--starting in Kindergarten--in all math instruction in order to increase the success of students in high school and college math. [See guidance here on how programs PK-12 build algebraic understanding.](#)
- 3) For students who are excelling in math consistently, we believe that enrichment should be considered before course acceleration. Students with high levels of demonstrated proficiency should be given harder problems on grade level material such as those that combine multiple steps, processes and standards as well as complex situations or applications.
- 4) Course acceleration for elementary and middle grades students should be intentionally considered according to the recommendations provided in Appendix A of the CCSS Math, which states, “To prepare students for high school mathematics in eighth grade, districts are encouraged to have a well-crafted sequence of compacted courses. The term “compacted” means to compress content, which requires a faster pace to complete, as opposed to skipping content” ([CCSS Math Appendix A](#) pg 80).
- 5) The BRICK High School Math program should be built flexibly to accommodate acceleration at the secondary level including: (1) Taking two courses in one year (ie. Combining Geometry and PreCalc or Alg II and PreCalc or taking Geometry and Algebra II at the same time), (2) Offering summer courses that are full length with respect to both content and inclusion of the math practices), (3) Building partnerships with colleges and universities to allow for early or dual enrollment.

For more information about the research and rationale, and for additional reading, please see [Appendix 3](#).

Standards Focus

Not all of the content in a given grade is emphasized equally in the standards. Some clusters require greater emphasis than the others based on the depth of the ideas, the time that they take to master, and/or their importance to future mathematics or the demands of college and career readiness. In addition, an intense focus on the most critical material at each grade allows depth in learning, which is carried out through the Standards for Mathematical Practice.

To say that some things have greater emphasis is not to say that anything in the standards can safely be neglected in instruction. Neglecting material will leave gaps in student skills and understanding and may leave students unprepared for the challenges of a later grade. [Link to Appendix 1: Standards Emphasis by Grade](#)

Grade	High-Level Summary of Major Work in Grades K–12
K-2	Addition and subtraction - concepts, skills, and problem solving; and place value
3-5	Multiplication and division of whole numbers and fractions - concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions
Alg I	Linear equations and inequalities, linear and exponential functions, One and two variable linear equations, Intro to polynomials and quadratics
Geo	Coordinate geometry, Transformations, Triangles, Constructions, Geometric properties and relationships, Trig ratios, Circles
Alg II/ PreCalc	Quadratics, Polynomials, Rationals, Radicals, Exponentials, Sequences, Trig Functions, Statistics, Composition and Inverse functions, Limits and Continuity
12th Grade Math Options	<p>College Algebra: SAT Review (Q1), Equations and Inequalities, Function Modeling, quadratics, Polynomials, Rationals, Radicals, Exponentials, Trig ratios, Systems of Equations</p> <p>Consider AP Classes or Non-AP Classes in the following areas:</p> <p>Statistics: Exploring One-Variable and Two-Variable Data, Sampling and Experimentation, Anticipating Patterns through Probability and Statistical Inference (Proportions, Means, Chi-Square and slope regression model)</p> <p>Calculus AB: Concepts, methods and applications of differential and integral calculus</p> <p>Computer Science Principles: Creative Development, Data, Algorithms and Programming, Computer Systems and Networks, Impact of Computing</p>

Part II | Math Core Curriculum K-4

Student Experience Narrative

K-2 Experience (Game Based Lesson)

It is almost time for math class, I can't wait to see how I did on yesterday's Exit Ticket. I am in first grade and it is Math Power-Up. We review our Exit Tickets from the day before. Sometimes I get it all right and I start on Iready, sometimes I need to fix a problem and I work in a small group with the teacher to fix the Exit Ticket and review problems that are similar to the Exit Ticket. I try to get better at what I learned yesterday so I am prepared for today's lesson. I like Power-Up time because I get to work in small groups with the teacher or on Iready. Now it's time for the Core Math Block, before it starts I make sure I have a pencil and my math workbook out on my desk. Then we go to the carpet where the teacher goes over the steps for the math game we are going to play. She explains the first couple steps of how to set up the game, then it's time to solve the math problem in the game. We discuss with our partners in a Turn and Talk and explain the strategy and how we can solve the math problem. We get to share out all the strategies and how we solved the math while the teacher puts it on the Visual Anchor. It's really important during the class discussion that I track the speaker and listen closely. I also like to use hand signals while the speaker is talking to show that I agree, disagree, or have something to build on to what the speaker said. Sometimes the teacher calls on me when I use my hand signals. It feels like sign language and I am always part of the discussion even if I am not the speaker. Then we have one last Turn and Talk to talk to our partners about the main learning for the day. After learning the steps to the math game, we go back to our desks and play the math game with our partners. The teacher walks around the room and makes sure we are playing correctly and solving the math accurately. Often, in the middle of the game, the teacher stops us to explain or help us understand how to play the math game more efficiently then we continue the game. After we play the game for a while, we have a quick discussion about what we learned then it's time to do the Exit Ticket. I hope I get it all right. I can't wait till I find out tomorrow. The very last thing we do before the next class is get our IDream scores. I have been really good so I hope I get a 3. Math is so fun!

Grades 2-4 Experience (Exercise Based Lesson)

It is almost time for math class, I can't wait to see how I did on yesterday's Exit Ticket. I am in fourth grade and it is Math Power-Up. We review our Exit Tickets from the day before. Sometimes I get it all right and I start on Iready, sometimes I need to fix a problem and I work in a small group with the teacher to fix the Exit Ticket and review problems that are similar to the Exit Ticket. I try to get better at what I learned yesterday so I am prepared for today's lesson. I like Power-Up time because I get to work in small groups with the teacher or on Iready. Now it's time for the Core Math Block, before it starts I make sure I have a pencil and my math workbook out on my desk. I am excited to try to solve the Problem of the Day, sometimes it is really hard, but I try my best. The teacher introduces the objective for the lesson, then we read the Problem of the Day as class. Then we usually have 3-4 minutes to solve the problem. We work in partners and we work together to try to solve it. Sometimes I know how to solve and sometimes my partner knows how to solve, but we always discuss what we think is the best way to solve the POD together. As we work the teacher walks around the room and talks to partners on how they are solving. The teacher is looking for student work to share on the board. I hope the teacher picks me! Once the timer goes off, we stop talking and put our pencils down to start the discussion on the POD. The teacher picks a student's work and projects it on the doc camera so we can all see it. The student then begins to explain their work and the teacher copies the work onto the Visual Anchor. The teacher asks questions about the student's work and we build onto what was said. It's really important during the class discussion that I track the speaker and listen closely. I also like to use hand signals while the speaker is talking to show that I agree, disagree, or have something to build on to what the speaker said. Sometimes the teacher calls on me when I use my hand signals. It feels like sign language and I am always part of the discussion even if I am not the speaker. After the discussion, depending on time, we work on a Try One More Problem with our partners and have a quick discussion. Then we always have one last final Turn and Talk to talk with our partners about the new learning for the day. Then we complete Workshop problems with our partners and work a

couple problems together before we start Independent Practice. Often, in the middle of the workshop, the teacher stops us to explain or help us understand how to solve problems more efficiently. The teacher is always walking around the room narrating to help us know what we should be doing. Sometimes the teacher narrates how to set up the problem and sometimes the teacher narrates around the discussion on how we solve a problem. The teacher also gives us feedback on our work and if there are things we need to fix. After the independent practice, we have one last discussion on the learning for the day, then we complete the Exit Ticket. I hope I get it all right. I can't wait till I find out tomorrow. The very last thing we do before the next class is get our IDream scores. I have been really good so I hope I get a 3. Math is so fun! Later today because I am in fourth grade, we have an extra math class called Independent Learning Time. During ILT there are a few things that can happen. I can work on my fluency skills and take a Fact Masters Quiz, or I might work in a small group on some of the standards that I have not mastered when I took the last Interim, or I might learn a new concept for an upcoming lesson to better prepare for the lesson, or I might work on Iready to make sure I get all the minutes for the week. ILT is a time that I get to build my math skills and mark off the standards that I have mastered.

Overview/Vision/Key Components

For students to thrive in the world they will face after college, they must be able to make sense of the world through a mathematical lens. Therefore, learning mathematics requires more than learning facts and procedures for solving certain types of problems. In BEN's K-4 mathematics program, adapted from Achievement First's Navigator Math Curriculum, our vision is grounded in a belief that teaching and learning of mathematics should stimulate curiosity, joy, and a deep understanding of the mathematics outlined in the Common Core. A well-prepared student will develop a deep understanding of concepts and a proficiency and expertise in a number of mathematical practices that have long standing importance in mathematics education. Therefore, we reject the I-We-You approach and believe that we must embrace productive struggle and allow students to come to understanding mathematics through rich mathematical discourse and having teachers as facilitators of the learning experiences.

Accelerated Learning

Accelerated learning requires that students consistently receive grade-level materials, tasks, and assignments, along with appropriate "just in time" scaffolds that address the necessary content knowledge and skills students need to engage in the most immediate work of the grade. Through ongoing, embedded formative assessments and analysis, teachers and leaders adjust the curriculum proactively within a task, lesson or unit to provide dedicated space and time for this learning to take place.

Component	Overview	Vision
Pre- Unit Formative Assessment	Implement regular pre-unit formative assessments on priority units (about 4-5 units for each grade) with analysis that impact instructional decisions directly during Core Block and Power):	Grades K-3 <ul style="list-style-type: none"> ● When 60% or more of a class has not mastered a prerequisite standard → add a lesson to core block, follow up with additional instruction with the co-teacher during Power Up. ● When less than 60% of a class has not mastered a prerequisite → students will work on a compatible lesson in Iready during Power Up. Co-Teachers will also monitor students during core block instruction. ● Unt Unpack will be the final determination of how and when this occurs within the unit. Grade 4 <ul style="list-style-type: none"> ● When 60% or more of a class has not mastered a prerequisite standard → add a lesson to core block, follow up with additional instruction and practice in ILT.

		<ul style="list-style-type: none"> ● When less than 60% of a class has not mastered a prerequisite→ small group instruction lessons will take place in ILT with additional practice using iReady/computer adaptive software and in ILT. ● Unt Unpack will be the final determination of how and when this occurs within the unit.
Power UP Reteach Cycle-Exit Tickets	Implement cycle of immediate re-teach and/or enhanced math experience 3-4 times per week:	<ul style="list-style-type: none"> ● Teacher reviews Exit Tickets daily from class and sorts into “mastery” and “no mastery.” ● Teacher plans error analysis lesson to be completed the following day on the exit ticket based on the highest leverage error ● During Power-Up, before the math block, the teacher divides class into EAR group and enhancement group. Teacher spends the majority of the Power Up time directing instruction towards the larger group
Weekly Quizzes	Implement a cycle of weekly quizzes and reteaches	<ul style="list-style-type: none"> ● Weekly quizzes will be given on Thursdays during Power Up time. Weekly quizzes consist of 5 questions and take 15-20 minutes to complete. ● Teachers circulate and take notes while students complete the quiz to identify errors and misconceptions. ● Prep time throughout the week will be spent analyzing the quizzes and preparing a mini reteach on Monday using the Ever Improving worksheet <ul style="list-style-type: none"> a) Students will have a mini reteach on a common misconception and help prepare them to edit and fix their work on the weekly quiz. b) Students will work in partners/groups to complete the Ever Improving worksheet and fix their work on the quiz. c) Students that did well on the quiz can work on Iready or in groups to help their peers on fixing their quiz.
Independent Learning Time (ILT)	<p>ILT is a time that will provide extra support and instruction in two areas:</p> <ul style="list-style-type: none"> - Pre-requisite skills and standards that need to be mastered for upcoming units and lessons determined during the unit unpack based on the pre-unit assessment data and - Mastering standards based on Interim data 	<ul style="list-style-type: none"> ● Pre-Unit Assessments are given during this block for priority units. ● Pre-requisite skills and standards- instruction is done by using previous grades lessons to build mastery and Iready lessons based on pre-unit assessments. ● Mastery of Interim Standards-instruction is done using EAR lessons, small groups instructions, and Iready. ● Students will have a progress monitoring sheet throughout the year that will help them keep track of standards mastery using Interim data, monthly standard report, and recording IReady lesson percentages.

	that was not mastered.	
Fridays Spiral Review	-Fridays have shorter math blocks. Teachers will use Fridays to Exit Ticket reteaches and spiral reviews.	<ul style="list-style-type: none"> ● Reteach Wed./Thur. Exit tickets as needed. ● Spiral Reviews <ul style="list-style-type: none"> a) Grades K-1 can use resources from lesson plans, fact masters, or teacher designed. b) Grades 2-4 will use spiral reviews in the curriculum folder.
Homework	Teacher assigns homework based on individual class/student need	<ul style="list-style-type: none"> ● Homework should take students no longer than 20 minutes to complete. ● Homework should be building fluency with facts for grade level. ● Homework should cover math concepts that have already been taught. ● Resources include: <ul style="list-style-type: none"> ○ Fact Master worksheets ○ Archived HW from previous years ○ Grades 2-4 Cumulative Reviews ○ Teacher created

K-4 Math Block Overview

K-4 Math					
Power Up 25-30 min.	Daily Math Lesson Block M-TH 50-60 min.				Grades 4-8 Independent Learning Time (ILT) 45 min. (2x a week)
Power up is a data driven time for teachers to use to meet the needs of their students by using: <ul style="list-style-type: none"> ● FOCUS: Exit Ticket Reteach ● FOCUS: iReady.- Adaptive differentiated computer based learning ● FOCUS: Small Group Intervention Other Possibilities <ul style="list-style-type: none"> ● NJSLA-M practice ● Reteach major standards 	Game Intro Lesson (K-2)	Exercise Base Lesson (2-4)	Task Based Lesson (K-4)	Error Analysis Reteach (K-4)	ILT is an extra block for grades 4-8 in ELA and Math. Math will have two blocks a week. It is a separate block to address unfinished learning that is data driven for teachers to use to meet the needs of their students by: <ul style="list-style-type: none"> ● Utilizing individual student goals ● iReady-Adaptive differentiated computer based learning ● Data driven instruction to address <ul style="list-style-type: none"> ○ unfinished learning from pre-unit assessments ○ Interim assessments data and reteaches ● NJSLA-M practice
	Discourse Driven Manipulative Heavy Following game rules to help understand math concepts Partner Work Living Visual Anchor for resource	Discourse Driven Key Problems to foster math discourse of concepts and strategies Partner Work Living Visual Anchor for resource	Cumulative task of the unit Independent work leverage prior knowledge to develop, test, and revise solution strategies Revision time based on math discussion	Error analysis of major misconception Student discuss differences between student work Students know action step takeaway to not make same mistakes	

Potential Weekly and Daily Schedule Based on 85 Minutes*

Monday Day 1	Tuesday Day 2	Wednesday Day 3	Thursday Day 4	Friday Day 5 Early Dismissal Schedule

Lesson Structure

K-4 has a unit scope and sequence and a lesson scope and sequence that teachers follow. The purpose of the scope and sequence is to ensure that all units and lessons are taught by a set time of the year. This ensures that all teachers and students are on track. Keeping the scope and sequence is also necessary for Content PD and alignment for assessments throughout the year. To address unfinished learning through accelerated learning, teachers and VPs will meet during unit unpacks to review the scope and sequence and pre-unit assessment data to discuss any adjustments that might need to occur to the scope and sequence to provide more time within the unit. They will work collaboratively during the unit unpack and the next lesson unpack to make needed, if any, adjustments to the scope and sequences. Details specifically outlined in the accelerated learning topic outlined above.

[<LINK> K-4 Math Scope and Sequence for SY 2021/2022](#)

K-2 Game Based Lessons (GBL)

Purpose

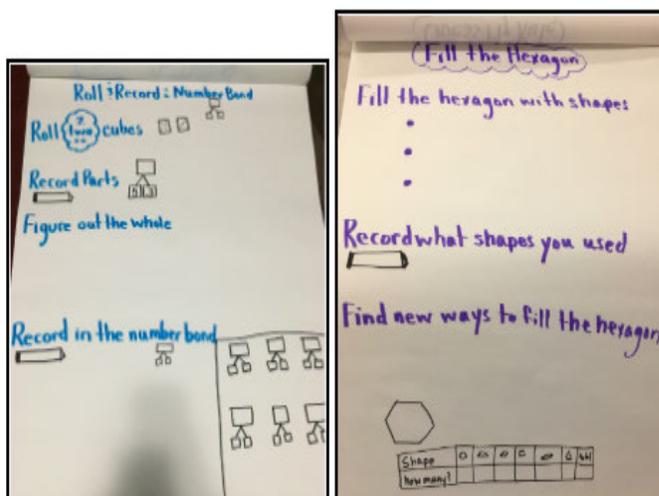

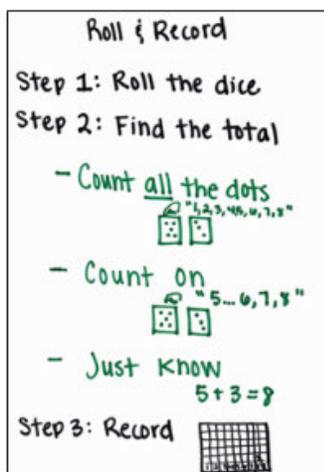

- To enable students to make connections, identify and practice multiple strategies, and develop deep conceptual understanding through the introduction of a specific concept or skill in a clear and focused fashion with deliberate questioning and a carefully selected game.
- To reveal and develop students' interpretations of significant mathematical ideas and how these connect to their other knowledge.

Component Name	Introduction	→	Workshop	→	Mid-Workshop Interruption	→	Discussion	→	Closing & Exit Ticket
Component Purpose	Develop an initial understanding of the concept, the associated strategies, and the game used to practice the concept		Collaborative processing time to continue to develop an understanding of prioritized concept and strategy		Responds to data by discussing strategies from observations and/or clarifies a shared misconception		Summarize the day's learning, share efficient strategies, clarify misconceptions, and/or apply strategies to a new problem		As relevant, students complete an exit ticket or skill fluency practice to show evidence of learning
Component Timing	10-15 minutes		15-20 minutes		3-5 minutes		5-7 minutes		3-5 minutes

Game Based Visual Anchor CFS (K-2):

Students name the strategies to support the co-creation of the visual anchor, consistently using evidence and precise mathematical vocabulary to support their claims

- Illustrate the What-To-Do steps (captures the WHAT): pre-populated with steps / space to fill in strategies
- Strategies & Key Points (captures the HOW): space for strategies / hunt for and introduce in CPA order
- Reference: pictures align with student thinking and recording / students can use during Workshop
 - Formatting: pre-made in one color / added colors are bold / precise math language / clear, neat, legible, simple, seen from across the room

*These two game-intro visual anchors show what is pre-built. They will get filled in with students during the lesson

Exercise Base Lesson (EBL)

Purpose:

- To enable students to make connections, draw conclusions, identify key points and develop deep conceptual understanding through the introduction of a specific concept or skill in a clear and focused fashion with deliberate questioning and carefully selected exercises.
- To reveal and develop students' interpretations of significant mathematical ideas and how these connect to their other knowledge.

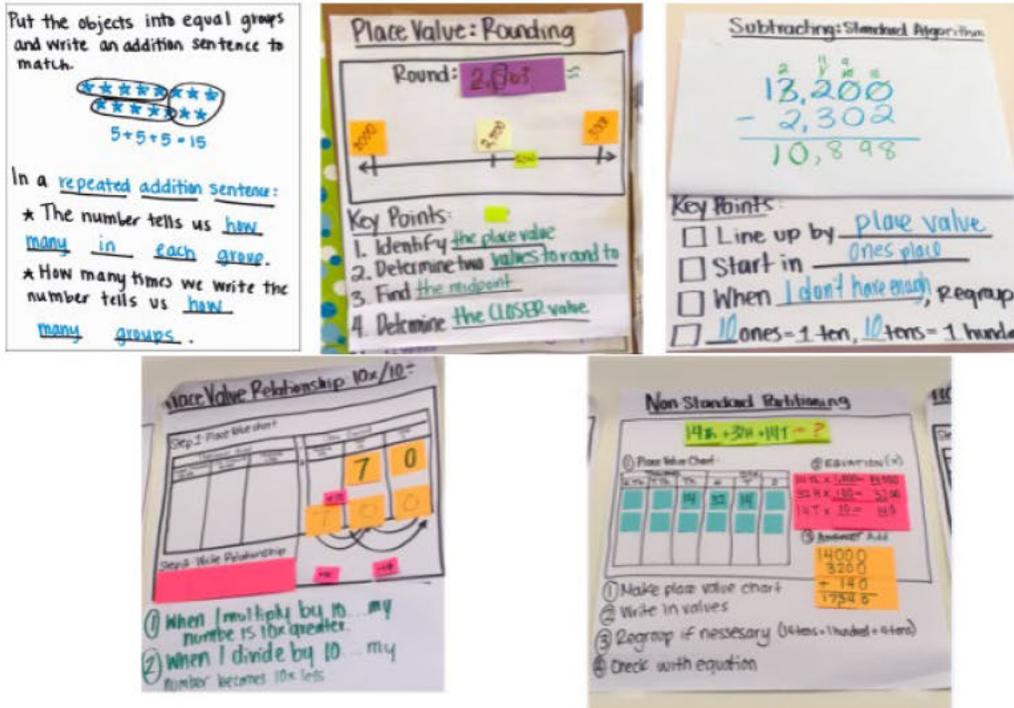

Component Name	Introduction	→	Workshop	→	Discussion	→	Independent Practice	→	Closing & Exit Ticket
Component Purpose	Develop meaning through connection making and focus student thinking on prioritized concept and strategy		Collaborative processing time to continue to develop an understanding of prioritized concept and strategy		Discuss thinking and work completed during Workshop to clarify lingering misconceptions		Independent processing and internalization of prioritized concept and strategy		Summarize and assess the day's learning and make connections to big ideas of the unit
Component Timing	15-25 minutes		10 minutes		5 minutes		10-20 minutes		5 minutes

Exercise Based Visual Anchor CFS (2--4):

Students name the strategies/key points to support the co-creation of the visual anchor, consistently using evidence and precise mathematical vocabulary to support their claims

- Key Points:** clearly articulated on VA with precise math vocabulary in a student-accessible way
- Reference:** strategies are articulated in a step-by-step way that students can reference, as needed, during Workshop and IP

- ❑ **Formatting:** title based on content / pre-made in one color / added colors are bold / precise math language / clear, neat, legible, simple, seen from across the room / post-its can be used for multiple classes

Grades K-4 Task Based Lesson

Purpose:

- Students make sense of the mathematics they’ve learned by working on a problem solving task and leveraging the knowledge they bring to math class to apply their math flexibly to non-routine, unstructured problems, both from pure math and from the real world.
- To shift the heavy lifting to scholars.

Component Name	Understand	→	Exploration	→	Discussion	→	Extension	→	Evaluation
Component Purpose	Initial engagement by students to visualize and understand the task and what the solution requires		Aligned to the problem solving approach, students leverage prior knowledge to develop, test, and revise solution strategies		Present understanding developed and strategies utilized during Exploration, and make connections to and name new concepts and skills		Time to apply acquired knowledge by building on or extending concepts and/or skills		Assess knowledge development and effectiveness of the lesson
Component Timing	3-5 minutes		10-12 minutes		15-20 minutes		10-15 minutes		5-10 minutes

Grades K-4 Error Analysis Reteach (EAR) Lessons-Teacher Built Lessons

Purpose:

- To enable students to analyze and discuss student errors and misconceptions in order to build deeper understanding of identified concepts.
- Lessons are devoted to concepts and skills for which many students have previously demonstrated low levels of mastery and where there is a known common error to target in the analysis.

Component Name	<u>Framing</u> →	<u>Error Analysis</u> →	<u>Aligned Practice</u> →	<u>Exit Ticket</u>
Component Purpose	Frame includes culture conversation about scores, importance of content, malleable intelligence, or perseverance	Students analyze an example and non-example in order to clarify misconceptions and deepen understanding	Practice engages students in continued thinking about growth area through solving problems, analyzing work, and writing explanations	Assess students' ability to solve problems involving previously misunderstood or misapplied concept or skill
Component Timing	2 minutes	5 minutes	10 minutes	3 minutes

Classroom Environment

The math classroom is essential for students to feel comfortable to build their confidence and ownership in their learning. The classroom needs to have a designated space that is for math resources. The classroom needs to have an agenda for each lesson type along with the Visual Anchor daily for that lesson. Teachers need to ensure that the math classrooms allow for students to make mistakes and grow from their mistakes. Students should also feel comfortable with the productive struggles and allow for students to grapple with rigorous problems types. The teacher is the facilitator in leading students to understand mathematical concepts and content. The only way to have an effective math classroom with these components is to build lasting relationships with each student and utilize culturally responsive teaching strategies mentioned above in the culturally responsive practices section and the social emotional teaching section.

[Link to Classroom Readiness Checklist](#)

Power Up (K-4)

The Power Up block is the time to address the needs of the students according to the data and classroom observations. The main focus of Power Up is to utilize Exit Ticket data to support students to be ready for upcoming lessons and utilize Iready, an adaptable computer program, to meet students where they are and improve on concepts they need to be successful. ILT is independent Learning Time for grades 4-8. ILT will be a time to invest in just in time teaching based on Pre-Unit assessments, prerequisite skills/lessons, and reteaches based on Interim data.

Power Up

Expectations/Vision of Power Up

- Power Up is before the Math Block to reteach Previous Days Exit Tickets
- Thursday's Power up will be used for weekly quiz
- Start and End time are important to ensure core math block starts on time
- Teacher reviews Exit Tickets daily from class and sorts into "mastery" and "no mastery."
- Teacher plans error analysis lesson to be completed the following day on the exit ticket based on the highest leverage error
- During Power-Up, before the math block, the teacher divides class into EAR group and enhancement group. Teacher spends the majority of the Power Up time directing instruction towards the larger group

Power Up Block

Monday Day 1	Tuesday Day 2	Wednesday Day 3	Thursday Day 4	Friday Day 5 Early Dismissal Schedule
Reteach Quiz (25-30 min.) Reteach Quiz (Ever Improving groups)	Power-UP (25-30 min.) iReady Reteach focus on the exit ticket from Mon.	Power-UP (25-30 min.) iReady Reteach focus on the exit ticket from Tues. (EAR Lesson)	Power-UP (25-30 min.) <ul style="list-style-type: none"> • Quiz • Iready 	Spiral Review Day (45 Min) Reteach Exit Ticket from Wed/Thur. (15 min.) Spiral Review (30 min.)

Error Analysis Reteach: Vision

Purpose	<ol style="list-style-type: none"> 1. To increase mastery of concepts and skills for which Ss have previously demonstrated low levels of mastery by strategically identifying the common error and diagnosing the conceptual gap most holding Ss back. 2. To enable students to analyze and discuss student errors and misconceptions in order to build deeper understanding of identified concepts. 3. To develop and reinforce a productive disposition – Ss approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. 4. To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification. <p>Note: Navi observation checklist for EAR lessons here.</p>
---------	---

Component	Approx. Time	Purpose	Ways to Achieve this Purpose
Framing	2 min	Frame includes culture conversation about scores, importance of content, malleable intelligence, or perseverance	<ul style="list-style-type: none"> ● T frames the days lesson with the character skills or habits they hope to see today ● T framing is authentically delivered in a way that will invest Ss and continue to build a culture of growth mindset around the mathematical work ● T invests Ss in the data by naming how Ss performed previously and their goal by the end of the reteach lesson
Error Analysis	8 min	Students analyze an example and non-example in order to clarify misconceptions and deeper understanding	<ul style="list-style-type: none"> ● T shows pre-identified student work that aligns to targeted error and underlying misconception(s) ● Ss are engaged in analyzing work and explaining targeted error and misconception that led to it by both unpacking the incorrect (name the error) and correct student work (close the gap) ● T hunts for responses and facilitates a discussion, prioritizing calling on kids who made a similar mistake but may have clarified their thinking through the TT ● T poses TT to have Ss synthesize key learning from analysis and generalize: “What should this student do/think about in the future to not make mistakes like this again?” (generalize)

			<ul style="list-style-type: none"> T records on student work examples throughout the discussion to further support student closing the gap
Aligned Practice	8 min	Practice engages students in continued thinking about growth area through solving problems, analyzing work, and written explanations	<ul style="list-style-type: none"> T sets Ss up for independent work time with a reminder of the CFS that they should be thinking about as they work today (aligned to growth area) T circulates to give feedback and collect data <ul style="list-style-type: none"> Additional attention given to Ss who previously did not show mastery of the skill being re-taught to check for uptake Ss work independently, applying their learning from the Error Analysis
Exit Ticket	2 min	Assess student's ability to solve problems involving previously misunderstood or misapplied concept or skill.	<ul style="list-style-type: none"> T brings Ss back and shares out an exemplar piece of student work based on growth area (ideally a student who had made the mistake earlier) and celebrates learning from mistakes Ss independently complete the exit ticket

Friday Spiral Review

Fridays have shorter math blocks of 45 minutes and will be spiral review days. This time is for teachers to use data from the week and provide students with extra support in concepts from the week.

Expectations/Vision

- Reteach Wed./Thur. Exit tickets as needed for 20 minutes.
- Spiral Reviews
 - Grades K-1 can use resources from lesson plans, fact masters, or teacher designed.
 - Grades 2-4 will use spiral reviews in the curriculum folder or reteach a lesson based on decision made with IL.

Spiral Review: Vision

Purpose	<ol style="list-style-type: none"> To provide opportunities for students to review and practice previously covered concepts / standards, especially material where students showed partial mastery and would benefit from further instruction and practice opportunities. To develop and reinforce a productive disposition – students approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification.
---------	--

Component	Approx Time	Purpose	Ways to Achieve this Purpose
Launch	2 min	Teacher previews the math to set Ss up for success	<ul style="list-style-type: none"> T names the skill scholars will be working on today and uses one of the following approaches based on data: Approach #1: Highlight Exemplar <ul style="list-style-type: none"> Reminds Ss of the CFS, balancing both procedural and conceptual, while referring to exemplar work Approach #2: Highlight Error <ul style="list-style-type: none"> Reminds Ss of the CFS and names explicitly the common error they saw on student work Zoom in on specific point of error and demonstrate and/or question to get Ss to name misconception and how to correct Ss name how concept / new learning shows up in the CFS T communicates a mastery goal based on previous data
Mixed Practice	10 min	Students practice targeted review independently and teacher provides targeted feedback to drive mastery	<ul style="list-style-type: none"> Ss complete practice independently, evaluating their own work T prioritizes individuals based on previous data to clarify partial misunderstandings and to give feedback on paper in order to drive mastery T utilizes batched feedback when appropriate

<p>Mid-Practice Discussion</p>	<p>5 min</p>	<p>Students discuss one problem and common misconceptions or correct solution strategies, used mid-practice to further mastery</p>	<ul style="list-style-type: none"> ● T leads a discussion mid-practice about a specific problem based on data collected throughout work time ● Ss discuss a specific problem that meets the needs of many Ss based on data collected ● T facilitates using one of the following approaches: ● Approach #1: Exemplar response <ul style="list-style-type: none"> ○ Show call exemplar response ○ Ss with correct response explain their thinking ○ Other Ss explain the concept and procedures behind Ss work ● Approach #2: Common Misconception <ul style="list-style-type: none"> ○ Show call a common error ○ Ss name the error and how to avoid it moving forward
<p>Mixed Practice</p>	<p>10 min</p>	<p>Students practice targeted review independently and teacher provides targeted feedback to drive mastery</p>	<ul style="list-style-type: none"> ● Ss complete practice independently, evaluating their own work ● T prioritizes individuals based on previous data to clarify partial misunderstandings and to give feedback on paper in order to drive mastery ● T utilizes batched feedback when appropriate ● T closes Mixed Practice with an update on progress towards previously set action step

Independent Learning Time (ILT Grade 4)

ILT is an extra block for grades 4-8 in ELA and Math. Math will have two blocks a week. It is a separate block to address unfinished learning that is data informed to meet the needs of their students in two focus areas: 1) Teaching pre-requisite skills and standards based on the pre-unit assessment data that need to be mastered for upcoming units and lessons determined determined in the unit unpack and 2) Reteaching standards based on Interim data that was not mastered.

Expectations/Vision

- Pre-Unit Assessments are given during this block for priority units.
- Pre-requisite skills and standards- instruction is done by using previous grades lessons to build mastery and Iready lessons based on pre-unit assessments.
- Reteaches of Interim Standards-instruction is done using EAR lessons, small groups instructions, and Iready.
- Students will have a progress monitoring sheet throughout the year that will help them keep track of standards mastery using Interim data, monthly standard report, and recording IReady lesson percentages.
- Iready lessons

Small Group Intervention: Vision

Purpose	<ol style="list-style-type: none"> To provide opportunities for small groups of students (6 or fewer) to receive targeted instruction focused on known gaps in conceptual understanding. To develop and reinforce a productive disposition – Ss approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification.
---------	---

Component	Approx. Time	Purpose	Ways to Achieve this Purpose
Mini-Lesson	10 - 12 min	Address a known conceptual gap in students' understanding using preplanned questioning and scaffolding (e.g. CPA)	<ul style="list-style-type: none"> T has a clear, specific teaching point for the mini-lesson Problem is posed for students to work through / discuss that will allow teaching point to surface Preplanned questions are used to keep the heavy lifting on students and ensure they are actively thinking Questions are targeted such that time is spent aligned to the teaching point, not other aspects of the work / problem T leverages moving back on the concrete-pictorial-abstract spectrum to support conceptual understanding of teaching point Time ends with a consolidate the learning question so all students get a chance to articulate their revised understanding of the concept
Aligned Practice	13-15 min	Practice engages students in continued thinking about growth area through solving problems, analyzing work, and written explanations	<ul style="list-style-type: none"> T sets Ss up for independent work time with a reminder of the CFS that they should be thinking about as they work today (aligned to growth area) T circulates to give feedback and collect data <ul style="list-style-type: none"> Additional attention given to Ss who previously did not show mastery of the skill being re-taught to check for uptake T asks preplanned check for understanding questions

			<ul style="list-style-type: none"> Ss work independently, applying their learning from the mini-lesson
Exit Ticket	5 min	Assess student's ability to solve problems involving previously misunderstood or misapplied concept or skill	<ul style="list-style-type: none"> T shares exemplar work and Ss name what makes that work strong. If possible, use work student who had made a mistake earlier and celebrates learning from mistakes Ss independently complete the exit ticket

Assessment Methods/Data Cycle/Grading Resources

Assessment Type	Cycle	Grading Resources
<i>Exit Ticket</i>	<p>Given everyday at the end of core lesson Complete Looking at Student Work (LASW) Audit-mastered, not mastered Plan Reteach for Power-Up next day</p> <ul style="list-style-type: none"> Plan groups for reteach Use material in student workbook for review 	<ul style="list-style-type: none"> Grade 2 Exit Tickets weekly <ul style="list-style-type: none"> See instructional Guidebook for specifics (link will take you to grading guide) 3 Point Rubric Scale <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to rubric guide)
<i>Spiral Weekly Quiz</i>	<p>Given on Thursday during Power-Up block before the core lesson. Quizzes have 5 questions with multiple choice and 1-2 Open End Responses</p> <ul style="list-style-type: none"> 2 questions are review covered in 2 week cycle 3 questions are on current content <p>Review quizzes and analyze using similar LASW audit to prepare for Monday Reteach during Power Up. Monday Reteach</p> <ul style="list-style-type: none"> Plan mini reteach into Students work in groups to edit quiz using Ever Improving document Grades K-2 Ever Improving Document Grades 3-4 Ever Improving Document 	<ul style="list-style-type: none"> Grades are based on separate grading scales for grades K-2 and grades 3-12 <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to grading scale guide)
<i>Interim Assessment</i>	<p>Given 4 times a year. IAs are administered 1 day and cover current material up to IA. MOCKs in grades 3-4 are cumulative interims to prepare for state testing. IAs given on Thursdays, make-ups on Fridays Complete IA Analysis the following week during Network IA planning days</p>	<ul style="list-style-type: none"> Grades are based on separate grading scales for grades K-2 and grades 3-12 <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to grading scale guide)

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

Being a teacher is really rewarding work, but also takes a lot of dedication especially after a pandemic year. I will have to be extra diligent this year to help students overcome last year with learning gaps and social emotional health. This year I really want to build strong relationships with my students as discussed during PD with culturally responsive teaching practices and social emotional awareness in math. This will be the only way I can build trust with my students, and support them through the hard work that we are going to do this year to overcome all the challenges during the pandemic. It first starts the intellectually preparing process for the lessons (IPP). I ensure I make time to annotate the lessons, then prior to the lessons and using Exit Ticket from the day before, I add extra questions or students that I need to call on or circulate around so that they will be able to be successful during the lesson. Also before the lesson starts, I have to prepare the Visual Anchor for the day so students can reference it throughout the lesson. While teaching the lesson, I follow the lesson plan, but I also make sure to put my own personality into it. I don't want to sound like a robot. Right now we are in Phase 1 of the observation checklist, so I make sure to remember what my VP has worked with me and I incorporate the feedback into the lesson. I also know that volleyball discourse with habits of discussion are important elements in the lesson. This is how students learn the concepts through rich discussions. As students share our thoughts and strategies, I add it to the visual anchor, this way students feel ownership of their learning. While students are working with partners or independently, I aggressively monitor students. I name laps and look fors, then I circulate around the students and provide feedback on student work habits, math strategies, partner discussion, and I make sure to monitor each student. During the Exit Ticket, I also circulate around the room and take notes on common errors and misconceptions so I am prepared for when I look over the Exit Tickets and planning for tomorrow's lesson. Once the lesson is done, then I have to prepare for the next day's Power Up. I use the Exit ticket Protocol and find the student work I want to highlight during the small group reteach time during Power Up. Power Up is a great time to close gaps and help students review errors they made in the previous day's lesson so they can be ready for the new lesson. If students did well on the Exit Ticket, then the student works on Iready. There is a lot of planning of prep that is needed in teaching. I have unit unpacks to better understand the math concepts in each unit. There are lesson unpacks, where we look at student exit tickets and dig deeper into a lesson as a grade level so that we can provide the best lesson. I also have to plan for reteaches on Fridays utilizing the weekly quiz data and interim data. There are a lot of opportunities this year for reteaches and responding to data so that we are closing the learning gap from last year. There is a lot of work to do this year, but I know students will feel loved and supported by me! This year will be great!

Intellectual Prep and Meeting Structure

Intellectual prep is the work that teachers do prior to teaching a lesson. This work includes: (1) unpacking the unit plan with grade level cohort to understand the unit as a whole, (2) unpacking lessons with grade level cohort designed to practice critical components of a lesson, (3) independently internalizing lessons through lesson annotations and lesson prep, (4) weekly teacher observation and feedback cycle, and (5) looking at student work through the Show What You Know data cycle.

	K-4 Teacher Pre-Work	Meeting Structure
--	----------------------	-------------------

<p>Daily Lesson Plan Annotations</p>	<p>Due Weekly: Read and annotate the lesson plan according to the IPP protocol Complete solve the Intro problem, a few Workshop problems, all IP problems you expect students to complete, and all of the ET items - using the strategy(ies) for the lesson. K-4 IPP Protocol EAR IPP Protocol (Quarter 3, Grades 3-4)</p>	<ul style="list-style-type: none"> ● No Meeting-IPP done independently
<p>Unit Unpack Pre-Work</p>	<p>Due Prior to Unit Unpack:</p> <ul style="list-style-type: none"> ● Teachers read, annotate, and solve key problems Unit Plan (and bring to Unit Unpacking), ● Teachers solve Key Problems using student strategies from the unit ● Bring complete pre-assessments to analyze ● K-4 Unit Unpack Protocol-look at pre-work section (LINK) 	<ul style="list-style-type: none"> ● Occurs two weeks prior to the start of a unit during the lesson unpack time ● Focus on key standards for the unit, key building blocks of the unit, key problem types, and addressing gaps from pre-unit assessment ● Unit Unpack Protocol
<p>Lesson Unpack Pre-Work</p>	<p>Due Prior to Lesson Unpack: Complete independent IPP for the lesson being used for lesson unpacks. Bring previous days Exit Ticket to analyze Submit IPP with Big Idea based on a timeline set by the leader to allow sufficient time for review.</p>	<ul style="list-style-type: none"> ● Occurs weekly with teachers in same grade level ● Focus on 1-2 upcoming lessons with a focus goal aligned to the Arc of the Year goals. ● Complete LASW protocol with previous lesson Exit Tickets ● K-4 Lesson Unpack Protocol ● EAR Lesson Unpack Protocol (Quarter 3, grades 3-4)
<p>Exit Ticket Protocol</p>	<p>Completed after each Lesson, Due Prior to teaching in Power UP</p> <ul style="list-style-type: none"> ● Use Looking At Student Work Protocol (LASW) --insert linki ● Plan reteach during power up using Error Analysis Reteach Plan ---inset link 	<ul style="list-style-type: none"> ● Occurs with 1-2 Exit Tickets during a lesson unpack meeting, the rest of exit tickets complete independently ● Looking at Student Work Protocol (LINK)
<p>Interim Analysis</p>	<p>Completed during scoring and Interim Analysis Planning time, Due one week after IA. Work in grade teams to complete IA analysis plan</p> <ul style="list-style-type: none"> ○ Review IA analysis on standards, questions, errors, and misconceptions ○ Create a reteach plan and reassessments ○ Complete IA tracker 	<ul style="list-style-type: none"> ● Occurs after interims during network PD

<p>Network PD</p>	<p>Professional Develop on various teaching strategies and development throughout the year</p>	<ul style="list-style-type: none"> ● Occurs monthly during network PD
<p>Observation /Feedback Meetings</p>	<ul style="list-style-type: none"> ● Weekly observation feedback cycle with your VP at your school. ● VP will do informal observations during the week then meet for a coaching meeting where VP will provide feedback and give action step to continue growth and development 	<ul style="list-style-type: none"> ● Occurs weekly with your VP.

Arc of the Year

Goal: The percent of students scoring proficient or higher on the state test will increase by 10%.

The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources for (1) the AOTY as a whole followed by (2) guidance on each portion of the arc. The AOTY is a roadmap to how we as a network plan to reach this goal!

Phase 0 Summer Institute	Phase 1 Quarter 1	Phase 2 Quarter 2	Phase 3 Quarters 3 & 4
Prepare for a Strong Math Lessons Launch <ul style="list-style-type: none"> • Prepare for first day 	Maximize the Math Lesson Opportunity <ul style="list-style-type: none"> • Score a 2 on the Phase 1 checklist 	Understand the math and WHY the math works <ul style="list-style-type: none"> • Score a 3 on the Phase 2 checklist 	Using Data to Plan for the Future and Crescendo <ul style="list-style-type: none"> • Prepare for state testing and responding to data

Phase	Name	Goals	Observation Checklists
Phase 0 Summer	Prepare for a Strong Math Lessons Launch	<p>In this phase of our work, which starts over the summer, we focus on planning and leading a strong math lessons launch. This includes: Leading strong math lessons summer teacher PD. The leader preparing yourself and your team for the year by putting systems and structures in place through readiness planning. Leaders will create a plan to ensure they are organized and clear on how they will drive a strong launch to math lessons once the school year officially starts and will ensure teachers are clear on key math lessons structures, materials, routines, and systems for their school.</p> <p>Goals</p> <p>Summer Preparation:</p> <ul style="list-style-type: none"> • All: School summer PD session schedule includes 100% of “Most Critical” Teacher Summer PD sessions. • All: 100% of readiness tasks included in the “Navigator ES Math Lessons Readiness Plan” are completed before Day 1 of school. <p>Investment:</p> <ul style="list-style-type: none"> • All: Before Day 1 of school, 90% of teachers agree or strongly agree: <ul style="list-style-type: none"> ○ I feel clear on key math lessons structures, materials, routines, and systems for my school. ○ The time I spent preparing for math lessons in summer training was purposeful in preparing me to teach math lessons effectively. 	Arc of the Year Goals
Phase 1 Quarter 1	Maximize the Math Lesson Opportunity	<i>In Phase One we lay the foundation for our work in math lessons for the rest of the year. Phase One is all about achieving mastery in the following areas:</i>	Game Intro Lesson Phase 1 and 2 Checklist

	<ul style="list-style-type: none"> ❖ <i>Teachers execute the intro overall structure at a foundational level.</i> ❖ <i>Teachers consistently build and use visual anchors at a foundational level.</i> ❖ <i>Teachers foster a focused, engaged classroom by ensuring students by leveraging the Setting the Stage teacher tools to meet the school’s vision of excellence for all key routines, habits, and procedures, including our two Maximize the Math focus areas: Kids Listening to Kids and Partner Work during the Problem of the Day (EBL) or Workshop (GIL).</i> ❖ <i>Teachers lay the foundation for rapid feedback by leveraging the skill Naming Laps to name for students what they are looking for in student work as students work independently.</i> ❖ <i>The structures of Intellectual Preparation are put in place and become a habitual component of the school’s math program.</i> ❖ <i>Leaders learn to facilitate group IPP at a foundational level (new leaders) or at an effective level (returning leaders).</i> ❖ <i>IA 1 (and maybe IA 2 based on school’s timing) is smoothly administered, scored, reported, analyzed, and acted on.</i> <p>Goals</p> <p>Lesson Introduction:</p> <ul style="list-style-type: none"> ● Year 1: 00% of new-to-Navigator math teachers score at least a 2 on the Phase One Observation Checklist Rubric ● Year 2+: 90% of returning-to-Navigator math teachers score at least a 3 on the Phase One Observation Checklist Rubric ● All: 90% of teachers leverage the Setting the Stage tools to ensure expectations for students are clear, consistent, and reinforced ● All: 85% of students meet the vision of excellence for Kids Listening to Kids (Turn & Talks and Whole Group) and Partner Work during the Problem of the Day (EBL) or Workshop (GIL) <p>Rapid Feedback:</p> <ul style="list-style-type: none"> ● Year 1: 75% of teachers show mastery of rapid feedback move Naming Laps ● Year 2+: 90% of teachers show mastery of rapid feedback move Naming Laps <p>Intellectual Prep:</p> <ul style="list-style-type: none"> ● All: 100% of teachers consistently submit independent lesson IP to Math Leader on time and 100% of teacher-submitted independent lesson IP is reviewed by Math Leader and feedback shared according to school lesson IP feedback timeline. <p>Data:</p> <ul style="list-style-type: none"> ● All: School meets student achievement goals for IA 1 in all grades <p>Investment:</p>	<p>Exercise Based Lesson</p> <p>Phase 1 and 2 Checklist</p>
--	---	---

		<ul style="list-style-type: none"> ● All: In phase Critical Investment Beliefs Survey, 90% of teachers agree or strongly agree to our 4 Critical Investment Beliefs 	
<p>Phase 2 Quarter 2</p>	<p>Understand the math and WHY the math works</p>	<p><i>In Phase Two, the focus is for leaders, teachers, and students to develop a deep understanding of the math and why the math works. Phase Two is all about achieving mastery in the following areas:</i></p> <ul style="list-style-type: none"> ❖ <i>Teachers execute the intro overall structure at a proficient level.</i> ❖ <i>Teachers gather and use data in-the-moment in the intro to make decisions about how to best support students. In Game Intro Lessons, this means teachers will gather data during turn and talks to decide on the right “next step” strategy for students. In Exercise Based Lessons, teachers will gather and use data in student work on the Problem of the Day to decide where to start and focus the conversation.</i> ❖ <i>Teachers use different tools that foster volleyball discourse and maintain a strong teacher/student ratio.</i> ❖ <i>Teachers effectively elicit and stamp key points in the lesson.</i> ❖ <i>There is an intentional focus in IPP on leaders supporting teachers with understanding the big idea and key points in the lesson to support teachers with facilitating students to these understandings in the intro.</i> ❖ <i>IA 2 (and maybe IA 3/mock based on school’s timing) is smoothly administered, scored, reported, analyzed, and acted on.</i> <p>Goals:</p> <p>Introduction:</p> <ul style="list-style-type: none"> ● Year 1: 75% of teachers score at least a 3 on the Phase Two Observation Checklist Rubric ● Year 2+: 90% of teachers score at least a 3 on the Phase Two Observation Checklist Rubric <p>Rapid Feedback:</p> <ul style="list-style-type: none"> ● Year 1: 75% of teachers show mastery of our rapid feedback move Show Call ● Year 2+: 90% of teachers show mastery of our rapid feedback move Show Call <p>Intellectual Prep:</p> <ul style="list-style-type: none"> ● All: 100% of teachers consistently submit independent lesson IP to Math Leader on time and 100% of teacher-submitted independent lesson IP is reviewed by Math Leader and feedback shared according to school lesson IP feedback timeline <p>Data:</p> <ul style="list-style-type: none"> ● All: School meets student achievement goals for IA 2 (and IA 3, if applicable) in all grades <p>Investment:</p> <ul style="list-style-type: none"> ● All: In phase Critical Investment Beliefs Survey, 90% of teachers agree or strongly agree to our 4 Critical Investment Beliefs 	<p>Game Intro Lesson Phase 1 and 2 Checklist Exercise Based Lesson Phase 1 and 2 Checklist</p>

<p>Phase 3 Quarters 3 & 4</p>	<p>Using Data to Plan for the Future and Crescendo</p>	<p><i>In Phase Three, we launch our crescendo strategy, which is a strategy focused largely on our grades with state tests (3rd & 4th). We ramp up our response to data to make more rapid adjustments to future instruction to best meet students' needs and we go all in on creating a vibrant student culture so that students are excited to meet their potential. Phase Three for 3rd and 4th grade is all about achieving mastery in the following areas:</i></p> <ul style="list-style-type: none"> ❖ <i>Teachers plan and execute Error Analysis Response (EAR) lessons at a foundational level based off the mock and recent classwork to respond to student data.</i> ❖ <i>Teachers use student data from the mock to plan strategic student interventions or additional supports.</i> ❖ <i>Teachers create a vibrant student culture.</i> ❖ <i>Teachers and leaders strategically support students with developing key academic habits that will help them elevate the content knowledge they have.</i> ❖ <i>Leaders support teachers in planning strong EAR lessons by leading strong Looking at Student Work / EAR Intellectual Prep meetings.</i> ❖ <i>Teachers and leaders have structures in place to effectively track and respond to data.</i> <p><i>While our time and attention shifts largely to supporting 3rd and 4th grade during this phase due to the substantial lift of crescendo, leaders should assess the level of support they can provide grades K-2 in this phase. For leaders who have the capacity to focus on K-2 during this phase, Phase Three is about achieving mastery in the following areas in K-2:</i></p> <ul style="list-style-type: none"> ● <i>Teachers execute a full math lesson (going beyond the intro into workshop, independent practice, discussion, mid-workshop interruption, and closing) at a foundational level.</i> ● <i>Leaders support teachers in using student data and student work to inform their future instruction by leading strong Looking at Student Work meetings.</i> ● <i>IA 3 and the EOC IA are smoothly administered, scored, reported, analyzed, and acted on.</i> <p>Goals: Grade 3 and 4 Error Analysis Reteach:</p> <ul style="list-style-type: none"> ● Year 1: 75% of teachers score at least a 2 on the EAR Lesson Observation Checklist Rubric ● Year 2+: 90% of teachers score at least a 2 on the EAR Lesson Observation Checklist Rubric <p>Rapid Feedback:</p> <ul style="list-style-type: none"> ● Year 1: 75% of teachers show mastery of our rapid feedback move Focused & Urgent Feedback 	<p>Game Intro Lesson Phase 3 Checklist</p> <p>Exercise Based Lesson Phase 3 Checklist</p> <p>Error Analysis Reteach Lesson (EAR) Phase 3 Checklist</p>
---	--	--	--

Power Up and ILT Arc of the Year

Goal: The percent of students scoring proficient or higher on the state test will increase by 10%. Utilize Power UP/ILT efficiently and effectively.

The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources for (1) the AOTY as a whole followed by (2) guidance on each portion of the arc. The AOTY is a roadmap to how we as a network plan to reach this goal!

Phase 0 Weeks 1-4	Phase 1 Weeks 4-9	Phase 2 Weeks 10-23	Phase 3 Weeks 24-
Routines & Procedures Complete Exit Ticket	Utilize Iready, Utilize Exit Tickets in small groups	Utilize Exit Tickets, IA Data for Data Analysis	Crescendo and In depth error Analysis

Part III | Math Core Curriculum 5-8

Student Experience Narrative

5-8 Experience (TTC)

It is almost time for math class, I can't wait to see how I did on yesterday's Exit Ticket. I am in the fifth grade and it is Math Power-Up. We review our Exit Tickets from the day before. Sometimes I get it all right and I start on Iready, sometimes I need to fix an error and I work in a small group with the teacher to correct the Exit Ticket and review problems that are similar to the Exit Ticket. When I correct an error, I learn and I grow my math knowledge. I really like Math Power-Up time because I get to work in small groups with the teacher or on Iready. Now it is time for Core Math Block, before Core Block starts, I make sure I have a pencil and math packet out on my desk tracking the teacher. Once the timer goes off, I will be the first scholar ready for work. We start the Core Lesson off with Think About It. The Think About It is like a "Do - Now". We normally have about five minutes to complete this part. I like the Think About It, because we do this silently and solo and my teacher does not help but my teacher walks around. I get to do my work and show my thinking all on my own. When I show my work, I am always sure to mark up the problem, organize my workspace, underline key information and check my answer. As we work the teacher walks around the room. The teacher is looking for student work to share on the board to drive discussion. I hope the teacher picks me!

After 5 minutes, or once the timer goes off, we stop working and put our pencils down to start the discussion.. The teacher picks a student's work and projects it on the doc camera so we can all see it. The student then begins to explain their work and the teacher copies the work onto the Visual Anchor. The teacher asks questions about the student's work and we build onto what was said. It's really important during the class discussion that I track the speaker and listen closely. I also like to use hand signals while the speaker is talking to show that I agree, disagree, or have something to build on to what the speaker said. Sometimes the teacher calls on me when I use my hand signals. It feels like sign language and I am always part of the discussion even if I am not the speaker.

During our discussion, we use key information from the problem (fence posts) to help us get to our conjecture. Once we come up with a conjecture, it is time to test it. During the test of the conjecture, the teacher guides us through to see if the conjecture holds true. If it does, we stamp the key idea by writing it down. If it does not, we refine our conjecture until it holds true. Once we know it holds true and we stamp the Criteria For Success - it's practice time! The teacher leads us through partner practice and independent practice. First we start with a partner practice, where we get to talk and do a problem with our elbow partner. This is fun because we get to learn from our classmates. When we complete partner practice we move on to independent practice. Unlike partner practice where we get to talk, independent practice is done silently and solo. Regardless of the practice (partner or independent), I feel supported because my teacher walks around and gives me feedback to make sure my work is accurate and efficient. Sometimes the teacher gives feedback to the entire class! Any time I get feedback, I apply it. At the end of the Core Period it's time to do the Exit Ticket. I hope I get it all right. I can't wait till I find out tomorrow. The very last thing we do before the next class is get our IDream scores. I have been really good so I hope I get a 3. Math is so fun! Later today, we have an extra math class called Independent Learning Time. During ILT there are a few things that can happen. I can work on my fluency skills or I might work in a small group on some of the standards that I have not mastered when I took the last Interim, or I might learn a new concept for an upcoming lesson to better prepare for the lesson, or I might work on Iready to make sure I get all the minutes for the week. ILT is a time that I get to build my math skills and mark off the standards that I have mastered.

5-8 Experience (INM)

It is almost time for math class, I can't wait to see how I did on yesterday's Exit Ticket. I am in the eighth grade and it is Math Power-Up. We review our Exit Tickets from the day before. Sometimes I get it all right and I start on Iready, sometimes I need to fix an error and I work in a small group with the teacher to correct the Exit Ticket and review problems that are similar to the Exit Ticket. When I correct an error, I learn and I grow my math knowledge. I really like Math Power-Up time because I get to work in small groups with the teacher or on Iready. Now it is time for Core Math Block, before Core Block starts, I make sure I have a pencil and math packet out on my desk tracking the teacher. Once the timer goes

off, I will be the first scholar ready for work. We start the Core Lesson off with Think About It. The Think About It is like a “Do - Now”. We normally have about five minutes to complete this part. I like the Think About It, because we do this silently and solo and my teacher does not help but my teacher walks around the classroom. I get to do my work and show my thinking all on my own. When I show my work, I am always sure to mark up the problem, organize my workspace, underline key information and check my answer. After the five minutes end, I get to debrief and discuss work with class. We have discussions but we do not form a conjecture. Instead, we create procedural steps or solve problems that push our critical thinking skills. Discussion during the INM may require more teacher voice than student voice, however, I am always engaged and ready to use mathematical language during class discussion because my teacher may cold call me. We discuss with our partners in a Turn and Talk and explain the strategy and how we came to solve the problem. When I am not speaking I am actively listening so that I am prepared to use my hand signals to show if I agree, disagree, or have something to add to what the speaker said. During our discussion, we use key information to guide us through. After we stamp the key point, we begin practice. First we start with a partner practice, where we get to talk and do a problem with our elbow partner. This is fun because we get to learn from our classmates. When we complete partner practice we move on to independent practice. Unlike partner practice where we get to talk, independent practice is done silently and solo. Regardless of the practice (partner or independent), I feel supported because my teacher walks around and gives me feedback. Sometimes the teacher gives feedback to the entire class! Any time I get feedback, I apply it. At the end of the Core Period it's time to do the Exit Ticket. I hope I get it all right. I can't wait till I find out tomorrow. The very last thing we do before the next class is get our iDream scores. I have been really good so I hope I get a 3. Math is so fun! Later today, we have an extra math class called Independent Learning Time. During ILT there are a few things that can happen. I can work on my fluency skills or I might work in a small group on some of the standards that I have not mastered when I took the last Interim, or I might learn a new concept for an upcoming lesson to better prepare for the lesson, or I might work on Iready to make sure I get all the minutes for the week. ILT is a time that I get to build my math skills and mark off the standards that I have mastered.

Overview/Vision/Key Components

For students to thrive in the world they will face after college, they must be able to make sense of the world through a mathematical lens. Therefore, learning mathematics requires more than learning facts and procedures for solving certain types of problems. In BEN’s 5-8 mathematics program, adapted from Achievement First’s Navigator Math Curriculum, our vision is grounded in a belief that teaching and learning of mathematics should stimulate curiosity, joy, and a deep understanding of the mathematics outlined in the Common Core. A well-prepared student will develop a deep understanding of concepts and a proficiency and expertise in a number of mathematical practices that have long standing importance in mathematics education. Therefore, we reject the I-We-You approach and believe that we must embrace productive struggle and allow students to come to understand mathematics through rich mathematical discourse and having teachers as facilitators of the learning experiences.

In 5-8 Math, we will be diligently working to address accelerated learning throughout the year by providing students access to on-grade content by adding in just the right content scaffolds at just the right time for students who need additional knowledge to do the current work.

Accelerated Learning

Accelerated learning requires that students consistently receive grade-level materials, tasks, and assignments, along with appropriate “just in time” scaffolds that address the necessary content knowledge and skills students need to engage in the most immediate work of the grade. Through ongoing, embedded formative assessments and analysis, teachers and leaders adjust the curriculum proactively within a task, lesson or unit to provide dedicated space and time for this learning to take place.

Component	Overview	Vision
Pre- Unit Formative Assessment	Implement regular pre-unit formative assessments on priority units (about 4-5 units for each grade) with analysis that impact instructional decisions directly during Core Block and Power):	<p>When 60% or more of a class has not mastered a prerequisite standard → add a lesson to core block, follow up with additional instruction and practice in ILT</p> <p>When less than 60% of a class has not mastered a prerequisite → small group instruction lessons will take place in ILT with additional practice using iReady/computer adaptive software and in ILT.</p> <p>Unit Unpack will be the final determination of how and when this occurs within the unit.</p>
Reteach Cycle	Implement cycle of immediate re-teach and/or enhanced math experience 3 times per week:	<p>Teacher reviews Exit Tickets daily from class and sorts into “mastery” and “no mastery.”</p> <p>Teacher plans error analysis lesson to be completed the following day on the exit ticket based on the highest leverage error</p> <p>During Power-Up, before the math block, the teacher divides class into EAR group and enhancement group.</p> <p>Teacher spends the majority of the Power Up time directing instruction towards the larger group.</p>

<p>Unit Assessments</p>	<p>End of unit assessments</p>	<p>These assessments are administered and scored in illuminate. Unit assessments consist of 10+ multiple choice questions. Students are given the entire math block to complete. Teachers circulate and take notes while students complete the quiz to identify errors and misconceptions. Prep and planning time will be spent analyzing the assessments and preparing a reteach.</p>
<p>Independent Learning Time (ILT)</p>	<p>ILT is a time that will provide extra support and instruction in two areas:</p> <ul style="list-style-type: none"> - Pre-requisite skills and standards that need to be mastered for upcoming units and lessons determined during the unit unpack based on the pre-unit assessment data and - Mastering standards based on Interim data that was not master. 	<p>Pre-requisite skills and standards- instruction is done by using previous grades lessons to build mastery and Iready lessons.</p> <p>Mastery of Interim Standards-instruction is done using EAR lessons, small grouped instructions, and Iready.</p> <p>Students will have a progress monitoring sheet throughout the year that will help them keep track of standards mastery using Interim data, monthly standard report, and recording I Ready lesson percentages.</p>
<p>Power Up</p>	<p>Math Power Up is a time in the math block where teachers can incorporate interventions to address students' misconceptions and gaps in the math standards.</p>	<p>Taught through Iready, whole group reteaches, or small group reteaches based on data from the biweekly quizzes or exit tickets.</p>

Math Block

5-8 Math Block Overview

5-8 Math			
Daily Math Lesson Block 55 min.		Power Up 30 min.	Independent Learning Time (ILT) 45 min. (2x a week)

Lesson Structures

Test the Conjecture (TTC)

Purpose: Through the use of investigation and guided inquiry, students develop conceptual understanding of math topics and strategies. They persevere by developing and proving mathematical conjectures. Structurally based off of the Standards for Mathematical Practice 3, these lessons push students to make viable arguments and critique the thinking of others to generate a conjecture that will then be tested. They must make connections to previously learned content, apply sound mathematical practices, and think flexibly.

Component Name	<u>Opening</u> →	<u>Test the Conjecture</u> →	<u>Partner Practice and Debrief</u> →	<u>Independent Practice and Debrief</u> →	<u>Exit Ticket</u>
----------------	------------------	------------------------------	---------------------------------------	---	--------------------

RETURN TO TABLE OF CONTENT

<p>Component Purpose</p>	<p>Students complete the Think About It problem* and then debrief the thinking and work samples to develop a new understanding. They synthesize in the form of a conjecture for the day's lesson.</p>	<p>Further develop and reinforce understanding. Test the lesson's conjecture using 2-3 example problems, stamp the conjecture as a mathematical rule and create an exemplar. Develop a strategy for solving problems by applying the day's conjecture.</p>	<p>Continue to develop students' understanding of the conjecture through collaborative work, applying the conjecture, and receiving teacher feedback.</p> <p>Provide the class with batch feedback based on trends noticed during work time.</p>	<p>Students get multiple at-bats w/conjecture and receive feedback from their teacher.</p> <p>Teacher provides the class with batch feedback based on trends noticed during work time.</p>	<p>Collect data on student learning for the day's lesson.</p>
<p>Timing</p>	<p>≤ 25 min</p>		<p>≤ 10 min</p>	<p>≤ 13 min</p>	<p>≤ 7 min</p>

Exercise Based (EBL)-Interaction with New Material (INM)

Purpose: This lesson structure is for lessons that require more direct instruction or require students to apply skills and concepts in more challenging contexts. Funneled questioning is still the primary instructional tool; however, the teacher may take more liberties with direct modeling and/or he/she may focus on problem-solving strategies rather than forming and proving mathematical conjectures. Students are still expected to develop conceptual understanding of math topics and strategies and to persevere by making connections to previously learned content, applying mathematical practices, thinking flexibly, and solving real-world problems.

Component Name	<u>Opening</u> →→	<u>Interaction with New Material</u> →→	<u>Partner Practice and Debrief</u> →→	<u>Independent Practice and Debrief</u> →→	<u>Exit Ticket</u>
Component Purpose	Debrief the mathematical concepts (what and why) presented in the task to arrive at a new understanding and develop a key point for the day's lesson.	Apply the key point when solidifying procedural steps or solving a rigorous problem to hone critical thinking skills, solidify conceptual understanding, and develop a clear procedure and criteria for success for solving.	Apply the key point to reinforce mathematical understanding of the concept and strategies through collaborative work and teacher feedback. Provide the class with batch feedback based on trends noticed during work time.	Students get sufficient at-bats applying key point to a variety of problems at grade level rigor bar and receive feedback from their teacher. Teacher provides the class with batch feedback based on trends noticed during work time.	Collect data on student learning for the day's lesson.
Timing	≤ 25 min		≤ 10 min	≤ 13 min	≤ 7 min

Error Reteach Analysis (EAR)-Chart the Error

Purpose: Respond to data/re-teach/extend. Through the use of error analysis, guided questioning and discussion students will identify and fix a common misconception related to a skill they learned the previous day. These are sequenced so that after a particularly complex conceptual lesson or a lesson involving a skill that surfaces a common misconception, students get another focused at bat to either fix their misunderstanding or deepen their reasoning around key mathematical concepts and viable strategies to guide them away from making the same error. These lessons start with analyzing fictional student work and are structurally based off of the Standards for Mathematical Practice 3. **Teachers should review these lessons as they grade the exit tickets from the previous day's lesson to ensure that the error analyzed in the Think About It is one that their students are most commonly making and if not, they can revise the Think About It to reflect their student's misunderstanding.**

Component Name	<u>Error Analysis (Chart the Error)</u> →→	<u>Partner Practice and Debrief</u> →→	<u>CFU</u> →→	<u>Independent Practice and Debrief</u> →→	<u>Exit Ticket</u>
Component Purpose	Students complete the Think About It problem by analyzing two samples of student work from the previous lesson. They decide which example, if any or if both, that they agree with and justify their answer. Through teacher guided discussion, students come to the key point of the lesson and work to isolate the error. Students cross out the incorrect work, highlight the correct work, and then stamp the key point and the criteria for success.	Students continue to solidify their understanding of the key point through collaborative work and teacher feedback. Teacher provides the class with batch feedback based on trends noticed during work time and possibly the growth that students made on the common misconception from the error analysis.	Students complete this problem individually that is designed to surface the error and the teacher can identify students who may need more support during independent practice.	Students get multiple at-bats with problems and receive feedback from their teacher. Teacher provides the class with batch feedback based on trends noticed during work time.	Collect data on student learning for the day's lesson.
Timing	≤ 18 min	≤ 10 min	≤ 5 min	≤ 15 min	≤ 7 min

Classroom Environment

The math classroom is essential for students to feel comfortable to build their confidence and ownership in their learning. The classroom needs to have a designated space that is for math resources. The classroom needs to have an agenda for each lesson type along with the Visual Anchor for that lesson. Teachers need to ensure that the math classrooms allow for students to make mistakes and grow from their mistakes. Students should also feel comfortable with the productive struggles and allow for students to grapple with rigorous problems types. The teacher is the facilitator in leading students to understand mathematical concepts and content.

[Link to Classroom Readiness Checklist](#)

Power Up

The Power Up block is the time to address the needs of the students according to the data and classroom observations. The main focus of Power Up is to utilize Exit Ticket data to support students to be ready for upcoming lessons and utilize iReady, an adaptable computer program, to meet students where they are and improve on concepts they need to be successful. ILT is independent Learning Time for grades 4-8. ILT will be a time to invest in just in time teaching based on Pre-Unit assessments, prerequisite skills/lessons, and reteaches based on Interim data.

Power Up

Expectations/Vision of Power Up

- Power Up is before the Math Block to reteach Previous Days Exit Tickets
- Start and End time are important to ensure core math block starts on time
- Teacher reviews Exit Tickets daily from class and sorts into “mastery” and “no mastery.”
- Teacher plans error analysis lesson to be completed the following day on the exit ticket based on the highest leverage error
- During Power-Up, before the math block, the teacher divides class into EAR group and enhancement group. Teacher spends the majority of the Power Up time directing instruction towards the larger group

Power Up Block

Monday Day 1	Tuesday Day 2	Wednesday Day 3	Thursday Day 4	Friday Day 5 Early Dismissal Schedule
Reteach Quiz (25-30 min.) Reteach Quiz (Ever Improving groups)	Power-UP (25-30 min.) iReady Reteach focus on the exit ticket from Mon.	Power-UP (25-30 min.) iReady Reteach focus on the exit ticket from Tues. (EAR Lesson)	Power-UP (25-30 min.) ● iReady ● Reteach focus on the exit ticket from Tues. (EAR Lesson)	Spiral Review Day (45 Min) Reteach Exit Ticket Thur. (15 min.) Spiral Review (30 min.)

Error Analysis Reteach: Vision

Purpose	<ol style="list-style-type: none"> To increase mastery of concepts and skills for which Ss have previously demonstrated low levels of mastery by strategically identifying the common error and diagnosing the conceptual gap most holding Ss back. To enable students to analyze and discuss student errors and misconceptions in order to build deeper understanding of identified concepts. To develop and reinforce a productive disposition – Ss approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification. <p>Note: Navi observation checklist for EAR lessons here.</p>
---------	---

Component	Approx. Time	Purpose	Ways to Achieve this Purpose
Framing	2 min	Frame includes culture conversation about scores, importance of content, malleable intelligence, or perseverance	<ul style="list-style-type: none"> T frames the days lesson with the character skills or habits they hope to see today T framing is authentically delivered in a way that will invest Ss and continue to build a culture of growth mindset around the mathematical work T invests Ss in the data by naming how Ss performed previously and their goal by the end of the reteach lesson
Error Analysis	8 min	Students analyze an example and non-example in order to clarify misconceptions and deeper understanding	<ul style="list-style-type: none"> T shows pre-identified student work that aligns to targeted error and underlying misconception(s) Ss are engaged in analyzing work and explaining targeted error and misconception that led to it by both unpacking the incorrect (name the error) and correct student work (close the gap) T hunts for responses and facilitates a discussion, prioritizing calling on kids who made a similar mistake but may have clarified their thinking through the TT T poses TT to have Ss synthesize key learning from analysis and generalize: “What should this student do/think about in the future to not make mistakes like this again?” (generalize)

			<ul style="list-style-type: none"> T records on student work examples throughout the discussion to further support student closing the gap
Aligned Practice	8 min	Practice engages students in continued thinking about growth area through solving problems, analyzing work, and written explanations	<ul style="list-style-type: none"> T sets Ss up for independent work time with a reminder of the CFS that they should be thinking about as they work today (aligned to growth area) T circulates to give feedback and collect data <ul style="list-style-type: none"> Additional attention given to Ss who previously did not show mastery of the skill being re-taught to check for uptake Ss work independently, applying their learning from the Error Analysis
Exit Ticket	2 min	Assess student's ability to solve problems involving previously misunderstood or misapplied concept or skill.	<ul style="list-style-type: none"> T brings Ss back and shares out an exemplar piece of student work based on growth area (ideally a student who had made the mistake earlier) and celebrates learning from mistakes Ss independently complete the exit ticket

Spiral Review

Fridays (Achieve) and Wednesday (Stratford) have shorter math blocks of 45 minutes and will be for Unit Assessments and spiral review days. This time is for teachers to use data from the week and provide students with extra support in concepts from the week.

Expectations/Vision

- Use data from the week to determine how to give the spiral review.
- There are resources available in Math Drive that have weekly problems to use.

<p>Mixed Practice- Full Routine; Provide students with practice applying mathematics for a variety of standards on a medium and high level.</p> <p>Chart the Error Video</p> <p>Mixed Practice Video (Note, Chart the Error would take the place of the Preview)</p>	<p>≤ 20 min</p>	<p>Planning</p> <ul style="list-style-type: none"> □ T IDs the focus concept(s) based on data. □ T plans practice that has 2 problems aligned to the CTE preview and 3 spiraled review problems aligned to the weekly quiz and/or prioritized data point. <p>Preview (≤7 min)</p> <ul style="list-style-type: none"> □ T uses Chart the Error to preview highest leverage concept using previous data □ T communicates CFS in writing and connects to exemplar work □ T sets goal for completion and names first lap <p>Rapid Feedback</p> <ul style="list-style-type: none"> □ Ss work; T circulates, gives feedback, collects data on tracker, and hunts for exemplar or common misconception work <p>Debrief (≤3 min)</p> <ul style="list-style-type: none"> □ T Selects the highest leverage focus area to debrief and show calls exemplar or both exemplar and gap using best strategy based on data: <ul style="list-style-type: none"> ○ Approach #1: Name the Error with charting or show call (20%-80% students miss) ○ Approach #2: Guided Discourse using Exemplar Work (>80% students miss) ○ Approach #3: Chart for Sophistication w/charting or show call (<20% students miss) □ T prompts a student to stamp a transferable take-away or error with precision 	<p>Output:</p> <ul style="list-style-type: none"> □ 80%+ Ss get the preview aligned questions correct □ 100% Ss complete 4 problems. <p>Rigor</p> <ul style="list-style-type: none"> □ Ss analyze work sample to identify error and transferable takeaway during preview □ Ss apply understanding of multiple standards to solve M and H level mathematical and real world application problems □ Ss analyze and explain exemplar and erroneous work during debrief <p>Focus/Investment</p> <ul style="list-style-type: none"> □ 100% of Ss work urgently □ 100% of Ss correct errors in their work □ 100% of Ss engage in analyzing, naming, and correcting the common error or explaining the exemplar work <p>Thinking</p> <ul style="list-style-type: none"> □ Ss are talking and working for 80% of the time. <p>Feedback</p> <ul style="list-style-type: none"> □ Ss correct their work when given feedback during work time and debrief □ Ss show understanding of misconception during debrief
---	-----------------	---	--

Independent Learning Time (ILT Grade 4)

ILT is an extra block for grades 4-8 in ELA and Math. Math will have two blocks a week. It is a separate block to address unfinished learning that is data driven for teachers to use to meet the needs of their students in two focus areas: 1) pre-requisite skills and standards that need to be mastered for upcoming units and lessons determined during the unit unpack based on the pre-unit assessment data and 2) Mastering standards based on Interim data that was not mastered.

Expectations/Vision

- Pre-Unit Assessments are given during this block for priority units.
- Pre-requisite skills and standards- instruction is done by using previous grades lessons to build mastery and Iready lessons based on pre-unit assessments.
- Mastery of Interim Standards-instruction is done using EAR lessons, small groups instructions, and Iready.
- Students will have a progress monitoring sheet throughout the year that will help them keep track of standards mastery using Interim data, monthly standard report, and recording IReady lesson percentages.
- Iready lessons for students not in small groups

Small Group Intervention: Vision

Purpose	<ol style="list-style-type: none"> To provide opportunities for small groups of students (6 or fewer) to receive targeted instruction focused on known gaps in conceptual understanding. To develop and reinforce a productive disposition – Ss approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification.
---------	---

Component	Approx. Time	Purpose	Ways to Achieve this Purpose
Mini-Lesson	10 - 12 min	Address a known conceptual gap in students' understanding using preplanned questioning and scaffolding (e.g. CPA)	<ul style="list-style-type: none"> T has a clear, specific teaching point for the mini-lesson Problem is posed for students to work through / discuss that will allow teaching point to surface Preplanned questions are used to keep the heavy lifting on students and ensure they are actively thinking Questions are targeted such that time is spent aligned to the teaching point, not other aspects of the work / problem T leverages moving back on the concrete-pictorial-abstract spectrum to support conceptual understanding of teaching point Time ends with a consolidate the learning question so all students get a chance to articulate their revised understanding of the concept
Aligned Practice	13-15 min	Practice engages students in continued thinking about growth area through solving problems, analyzing work, and written explanations	<ul style="list-style-type: none"> T sets Ss up for independent work time with a reminder of the CFS that they should be thinking about as they work today (aligned to growth area) T circulates to give feedback and collect data <ul style="list-style-type: none"> Additional attention given to Ss who previously did not show mastery of the skill being re-taught to check for uptake T asks preplanned check for understanding questions

			<ul style="list-style-type: none"> Ss work independently, applying their learning from the mini-lesson
Exit Ticket	5 min	Assess student's ability to solve problems involving previously misunderstood or misapplied concept or skill	<ul style="list-style-type: none"> T shares exemplar work and Ss name what makes that work strong. If possible, use work student who had made a mistake earlier and celebrates learning from mistakes Ss independently complete the exit ticket

Unit Scope and Sequence

5-8 has a unit scope and sequence and a lesson scope and sequence that teachers follow. The purpose of the scope and sequence is to ensure that all units and lessons are taught by a set time of the year. This ensures that all teachers and students are on track. Keeping the scope and sequence is also necessary for Content PD and alignment for assessments throughout the year.

[K-12 Math Scope and Sequence for SY 2020/2021](#)

Assessment Methods/Data Cycle/Grading Resources

Assessment Type	Data Cycle	Grading Resources
Exit Ticket	<p>Given everyday at the end of core lesson</p> <p>Complete Looking at Student Work Audit-mastered, not mastered</p> <p>Plan Reteach for Power-Up next day</p> <ul style="list-style-type: none"> Plan groups for reteach Use material in student workbook for review 	<ul style="list-style-type: none"> Exit Tickets weekly <ul style="list-style-type: none"> See instructional Guidebook for specifics (link will take you to grading guide) See Rubric Scale <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to rubric guide)
Unit Assessments	<p>Given at the end of a unit</p>	<ul style="list-style-type: none"> Grades are based on separate grading scales for grades K-2 and grades 3-12 <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to grading scale guide)
Interim Assessment	<p>Given 4 times a year.</p> <p>IAs are administered 1 day and cover current material up to IA.</p> <p>MOCKs are cumulative interims to prepare for state testing.</p> <p>IAs given on Thursdays, make-ups on Fridays</p> <p>Complete IA Analysis the following week during Network IA planning days</p>	<ul style="list-style-type: none"> Grades are based on separate grading scales for grades K-2 and grades 3-12 <ul style="list-style-type: none"> See instructional Guidebook for specifics (link with take you to grading scale guide)
NWEA MAP	<p>Map is a nationwide test that is taken 2 times a year that shows how students are progressing nationwide among other students in their cohort. Students are assessed based on their level and not only on the grade level.</p>	
NJSLA-M	<p>Students will take the state test in April/May. This assessment measures student achievement on the grade level among all other NJ students.</p>	

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

This will be my first year full year back in the building since the pandemic. I will have to be intentional this year in supporting scholars. In addition to quality mathematic instruction, I must also build quality relationships with my scholars. In PD, we talked alot about the social emotional health of our scholars and being culturally responsive practitioners. We are coming out of a pandemic, so I will have to be extra diligent this year to help students overcome learning and social emotional gaps. This year it is important for me to build strong relationships with my students through culturally responsive teaching practices in math. I will have to teach with empathy and compassion, while building trust within my classroom. It starts with the intellectually preparing process for the lessons (IPP). This is the planning and preparation portion, where I get to internalize the lesson, so I can push quality discussions and mathematical concepts. The quality of my preparation will directly affect the quality of my instruction. The better prepared I am, the more confident and responsive I feel. First, I ensure I make time to annotate the lessons, then prior to the lessons and using Exit Ticket from the day before, I add extra specific, targeted questions. I also identify students that I need to call on or circulate around so that they will be able to be successful during the lesson. Also before the lesson starts, I have to prepare the Visual Anchor for the day so students can reference it throughout the lesson. While teaching the lesson, I follow the lesson plan, but I also make sure to put my own personality into it. Right now we are in Arc 1 of the observation checklist, so I make sure to remember what my VP has worked with me and I incorporate the feedback into the lesson. I also know that volleyball discourse with habits of discussion are important elements in the lesson. This is how students learn the concepts through rich discussions. As students share thoughts and strategies, I add it to the visual anchor, this way students feel ownership of their learning. While students are working with partners or independently, I aggressively monitor student work. I name laps and look fors, then I circulate (with a pen in hand) around the students and provide feedback on student work habits, math strategies, partner discussion, and I make sure to support each student. I may whisper questions to push their thinking if I see gaps. During partner and independent practice, I am intentional about the questions I ask because I want to make sure my feedback is transferable and not too problem specific During the Exit Ticket, I also circulate around the room and take notes on common errors and misconceptions so I am prepared for when I look over the Exit Tickets and planning for tomorrow's lesson. Once the lesson is done, then I have to prepare for the next day's Power Up. I use the Exit ticket Protocol and find the student work I want to highlight during the small group reteach time during Power Up. Power Up is a great time to close gaps and help students review errors they made in the previous day's lesson so they can be ready for the new lesson. If students did well on the Exit Ticket, then the student works on Iready. There is a lot of planning of prep that is needed in teaching. I have unit unpacks to better understand the math concepts in each unit. There are lesson unpacks, where we look at student exit tickets and dig deeper into a lesson as a grade level so that we can teach the best lesson. I also have to plan for reteaches on Fridays utilizing assessment and interim data. There are a lot of opportunities this year for reteaches and responding to data so that we are closing the learning gap from last year. There is a lot of work to do this year, but I know students will feel loved and supported by me!

Intellectual Prep Meeting Structure

Intellectual prep is the work that teachers do prior to teaching a lesson. This work includes: (1) unpacking the unit plan with grade level cohort to understand the unit as a whole, (2) unpacking lessons with grade level cohort designed to practice critical components of a lesson, (3) independently internalizing lessons through lesson annotations and lesson prep,(4) weekly teacher observation and feedback cycle, and (5) looking at student work through the Show What You Know data cycle.

Plan	5-8 Teacher Pre-Work	Meeting Stru
<i>Daily Lesson Plan Annotations</i>	Due Weekly: Read and annotate pre-assigned LP for practice 5-8 IPP Protocol	<ul style="list-style-type: none"> No Meeting-IPP done inc

<p>Unit Unpack Pre-Work</p>	<p>Due Prior to Unit Unpack:</p> <ul style="list-style-type: none"> ● Read and annotate unit overview ● Complete SWYKs ● Complete all 'Try It' problems with exemplary work and explanations. Bring a hard copy of your Unit Plan to training. ● Email your assigned Standard Know/Show charts to your facilitator 48 hours prior to the Unit Unpacking meeting. ● Read the assigned reading; be prepared to discuss. 	<ul style="list-style-type: none"> ● Occurs two weeks prior to the lesson unpack time ● Focus on key standards for the blocks of the unit, key problem gaps from pre-unit assessment ● Unit Unpack Protocol
<p>Lesson Unpack Pre-Work</p>	<p>Due Prior to Lesson Unpack:</p> <p>Read and annotate pre-assigned LP for practice Complete assigned pre-work</p>	<ul style="list-style-type: none"> ● Occurs weekly with teachers ● Focus on 1-2 upcoming lessons aligned to the Arc of the Year ● Complete LASW protocol with Tickets ● Lesson Unpack Protocol
<p>Exit Ticket Protocol</p>	<p>Completed after each Lesson, Due Prior to teaching in Power UP</p> <ul style="list-style-type: none"> ● Use Error Analysis Protocol ● Plan reteach during power up using Error Analysis Reteach Plan 	<ul style="list-style-type: none"> ● Occurs with 1-2 Exit Tickets during meeting, the rest of exit tickets independently ● Looking at Student Work Protocols
<p>Interim Analysis</p>	<p>Completed during scoring and Interim Analysis Planning time, Due one week after IA.</p> <p>Work in grade teams to complete IA analysis plan</p> <ul style="list-style-type: none"> ● Review IA analysis on standards, questions, errors, and misconceptions ● Create a reteach plan and reassessments ● Complete IA tracker 	<ul style="list-style-type: none"> ● Occurs after interims during network PD
<p>Network PD</p>	<p>Professional Development on various teaching strategies and development throughout the year</p>	<ul style="list-style-type: none"> ● Occurs monthly during network PD
<p>Observation/Feedback Meetings</p>	<ul style="list-style-type: none"> ● Weekly observation feedback cycle with your VP at your school. ● VP will do informal observations during the week then meet for a coaching meeting where VP will provide feedback and give action step to continue growth and development 	<ul style="list-style-type: none"> ● Occurs weekly with your VP.

Arc of the Year

- The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources. The AOTY is a roadmap to how we have a network plan to reach this goal. **Goal: The percent of students scoring proficient or higher on the state test will increase by 10%.**

AoTY 0 Summer Institute	AoTY 1	AoTY 2	AoTY 3	AoTY 4
Readiness to Launch <ul style="list-style-type: none"> • Prepare for first day through summer PD 	Lay the Foundations <ul style="list-style-type: none"> • Teachers are proficient in the opening of a lesson 	Build Skills Upon a Strong Foundation <ul style="list-style-type: none"> • Teachers are proficient in the TTC/INM of a lesson 	Respond to Data In-the-Moment <ul style="list-style-type: none"> • Teachers are proficient in rapid and batch feedback 	Crescendo <ul style="list-style-type: none"> • Prepare for state testing

Phase	Teacher & Leader Development Goals & Foci	Key Metrics
Summer: AoTY 0: Readiness to Launch	<p>Implementation Goals: Invest teachers and leaders in the MS Math Program</p> <ul style="list-style-type: none"> • Train and gather commitment from leaders on the following: • MS Math Program foundations • VOE for implementation • Turnkeying on-site • Observation Feedback • IPP <p>Teacher & Leader Development Focus:</p> <p>Ts get strong on-site summer PD.</p> <ul style="list-style-type: none"> • Understand the Vision of Excellence (VOE) for the core lesson and are invested in the priorities/vision for the year. • Practice executing against aligned CFS. • Develop content knowledge for the first unit and lessons by participating in well facilitated UPP and DLR IPP. <p>Ls have an NLI experience that gets them ready to “carry the fire” and deliver effective teacher PD.</p> <ul style="list-style-type: none"> • Understand the VOE for the core lesson and can articulate the priorities/vision for the year in a compelling way. • Manage change effectively through strategic engagement of key stakeholders • Have foundations for leading UPP and DLR meetings • Can leverage Navi observation tools to coach the Opening of a Lesson 	<p>By start of year:</p> <ol style="list-style-type: none"> 1. School/network has completed 95%+ of readiness items. 2. All required teacher training turnkey sessions are executed. 3. 100% of Ts have unpacked unit 1. 4. 90%+ of Ts have submitted and received feedback on IPP for the first 4 lessons.
August-Early October	<p>Implementation Goals:</p> <ul style="list-style-type: none"> • Ensure systems and routines for effective teacher IPP, coaching and tracking of development are in place and executed well. 	<p>By end of AoTY1:</p> <ol style="list-style-type: none"> 1. 85%+ Ss in all classes provide a best attempt

<p>AoTY1: Lay the Foundations</p>	<ul style="list-style-type: none"> Coach the majority of teachers to proficient execution on the Opening of the lesson. Effective planning and implementation of the first IA cycle (including data day/analysis and action planning). <p>Teacher & Leader Development Focus: Ts can execute an Opening that demonstrates a high level of intellectual preparation and content knowledge by:</p> <ol style="list-style-type: none"> Executing seamless instructional routines: Show-call and TT Arriving at the conjecture or key point within allotted time. Keeping the heavy lifting on students. Using effective moves to hold out for exemplar responses and complete concept development during discourse. <p>Ls demonstrate a strong command of IPP systems, feedback and leading DLR meetings.</p> <p>Ls have an aligned vision for effective execution of the Opening and can craft high-leverage action steps for teacher coaching.</p>	<p>on TAI</p> <ol style="list-style-type: none"> 80%+ of Ts are proficient in the Opening 100% of coaches/IPP leaders can execute IPP meetings at a foundational level or better (2+) <p>IA 1:</p> <ol style="list-style-type: none"> 60+ cohorts are projecting/estimating 5%+ proficiency gains
<p>Mid-October - December</p> <p>AoTY 2: Build Skills Upon a Strong Foundation</p>	<p>Implementation Goals:</p> <ul style="list-style-type: none"> Ensure maintenance of strong weekly IPP and obs-feedback system as well as develop leaders in their execution of the coaching meeting. Coach the vast majority of teachers to proficient execution of TTC. Effective planning and implementation of the second IA cycle (including data day). <p>Teacher & Leader Development Focus: Ts can execute both TTC (may include INM for some partners) that demonstrates a high level of intellectual preparation and content knowledge by:</p> <ul style="list-style-type: none"> Keeping the heavy lifting on students with strategic minimal scaffolds Communicating a clear vision for thinking on the page Stamping the conjecture or key point within the allotted time <p>Ls will demonstrate a strong command of the SINIDI coaching model by honing skills for crafting high leverage action steps, modeling excellence, and providing multiple rounds of practice on the action step.</p>	<p>By the end of AoTY 2,</p> <ol style="list-style-type: none"> 90% of student work for a selected problem meets CFS of the day's lesson 80%+ of Ts are proficient in TTC (and/or INM for some partners). 100% of coaches can execute SINIDI coaching meetings at a foundational level or better (2+) <p>IA 2:</p> <ol style="list-style-type: none"> 65%+ cohorts are projecting/estimating 5%+ proficiency gains
<p>Jan-February</p> <p>AoTY 3: Respond to Data In-the-Moment</p>	<p>Implementation Goals:</p> <ul style="list-style-type: none"> Develop network leaders' and coaches' eyes for rigorous student outputs in scholar work. Ensure all Ts can plan for independent work in a way that maximizes student progress toward mastery of target outcome, and proficiently give rapid/batch feedback. Sharpen tools/systems for collecting and responding to data during the instructional cycle. <p>Teacher & Leader Development Focus: Ts can plan for and monitor student work time to ensure each student is doing his/her best work by:</p> <ul style="list-style-type: none"> Effectively planning to maximize outcomes of independent work (problem selection and rapid fbck) 	<p>By the end of AoTY3:</p> <ol style="list-style-type: none"> 75%+ of students in all classes demonstrate mastery/achievement of the target outcome for the lesson 80%+ of Ts are proficient in rapid feedback 70%+ Ts are proficient in batch feedback <Not formally tracked> 100% of IPP leaders can execute IPP meetings (independent work work-

	<ul style="list-style-type: none"> ● Providing effective rapid feedback to individuals ● Providing effective batch feedback to groups <p>Ls will hone skills for seeing and steering independent work and feedback toward the most rigorous outcomes and opportunities available for students. Leaders will be able to effectively leverage:</p> <ul style="list-style-type: none"> ● IPP ● In-class data captures and in-the-moment coaching toward outcomes ● Stack audits (Abridged LASW Protocol) 	<p>centered) at a foundational level or better- (2+)</p> <p>Mock 1:</p> <ol style="list-style-type: none"> 1. 70%+ cohorts are projecting/estimating 5%+ proficiency gains
<p>March - April</p> <p>AoTY 4: Crescendo</p>	<p>Implementation Goals:</p> <ul style="list-style-type: none"> ● Network leaders and site leaders analyze data and leverage best practices to develop, train teachers on and execute a comprehensive and strategic Crescendo plan to ramp-up student mastery. ● Teachers develop skills and tools for planning data-driven instruction. <p>Teacher & Leader Development Focus:</p> <p>Ts can complete LASW that demonstrates proficiency in:</p> <ul style="list-style-type: none"> ● Identifying the critical mass of error and gap in student work leading to the error ● Articulating the misconception (thinking behind error) ● Crafting a transferable takeaway (key point) for reteach that is grounded in conceptual understanding <p>Ts can plan and execute a reteach lesson that results in students being able to articulate the error and apply the transferable takeaway to successfully solve an aligned problem.</p> <p>Ls demonstrate strong command of LASW protocol. Ls build the skill for strategic planning, progress monitoring, and leveraging achievement data to drive teacher coaching.</p>	<p>By the end of AoTY4/EOY Testing:</p> <ul style="list-style-type: none"> ● 75%+ Ts (grade levels) have closed 5 or more standard mastery gaps (20% growth or 85% mastery) ● Opt-in goal: 80%+ Ts are proficient executing chart the error in reteach lessons. ● <Not formally tracked> 100% of coaches execute LASW protocol at a foundational level or better.

Power Up and ILT Arc of the Year

Goal: The percent of students scoring proficient or higher on the state test will increase by 10%. Utilize Power UP/ILT efficiently and effectively.

The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources for (1) the AOTY as a whole followed by (2) guidance on each portion of the arc. The AOTY is a roadmap to how we as a network plan to reach this goal!

Phase 0 Weeks 1-4	Phase 1 Weeks 4-9	Phase 2 Weeks 10-23	Phase 3 Weeks 24-
Routines & Procedures Complete Exit Ticket	Utilize Iready, Utilize Exit Tickets in small groups	Utilize Exit Tickets, IA Data for Data Analysis	Crescendo and In depth error Analysis

Phases	Power UP	ILT (Grade 4)
<p>Phase 0: <i>Power-Up Readiness</i></p> <p>Weeks 1-3</p>	<ul style="list-style-type: none"> ● Routines & Procedures ● Note of Pacing Time ● Complete ET ● Grade ET ● Whole Group Discussion of ET 	<ul style="list-style-type: none"> ● iReady Diagnostic test ● Aggressively Coaching on Iready ● Utilization of Scratch Paper Practice ● Building Quality Work Habits

Part IV | Math Core Curriculum High School

The High School Math Core Curriculum will be further developed upon the addition of high schools to our academic portfolio. The following work is based on the 19-20 school year (unless otherwise noted), **and is under construction for further development.**

Overview/Vision/Key Components

Accelerated Learning 2021

Accelerated Learning strategies at the high school level are aligned to the general practices described in the introduction of the handbook. This will be further developed for high school based on individual schedules, but in general should include:

- Just In Time Teaching:
 - Prerequisite quizzes (PRQs) for each unit will be taken by students approximately two weeks prior to the start of the unit.
 - Teachers will analyze the data from the PRQs and determine:
 - Which prerequisite skills/content must be taught as whole group because less than 60% of the class is proficient--teachers will adjust the scope and sequence by inserting a lesson from a previous unit in a previous grade level
 - Which prerequisite skills/content must be taught in supplementary math classes-teachers will assign students to small instructional groups focused on this particular skill/content. Utilize previous lessons (maybe adjusted due to time constraints) with additional practice.
 - Which fluency skills should be assigned on math software for additional practice. Software to consider:
 - CK12
 - Mathnasium
 - Ixl
 - Math Nation
 - Zearn
 - <https://www.carnegielearning.com/solutions/math/mathia/>
- Tight Data Cycle
 - Students will complete an Exit Ticket at the end of class each day.
 - Teachers will analyze these results and act on the data:
 - Plan LASW lessons to target specific misconceptions and student errors
 - These lessons should be either whole group (when there is less than 70% mastery) or in small groups in supplemental math time
 - Identify quick hit/batch feedback to be shared at the start of the next day lesson that can be directly implemented that day in class (ie. "On yesterday's exit ticket, I noticed that 65% of you answered $\frac{4}{8}$ for #3. 35% of you answered $\frac{1}{2}$. Which is more correct and why?...Yes, $\frac{1}{2}$ is better because this is a simplified fraction. We must always simplify fractions. Let's make sure we do this today!")

Exceptional Learners 2021

See the information at the beginning of this guidebook for general beliefs and strategies. At the high school level, additional strategies and decisions to consider:

- Course sequence:
 - Should courses be structured to allow more time for algebra (ie. perhaps spreading over two years? Or perhaps over 1.5 and learning 0.5 years of geometry?)
- Use of technology:
 - Should technology play a different or greater role than for Gen Ed students? Where are calculators helpful in scaffolding the way to higher level conceptual math? How can we leverage DESMOS for visual and computational support?
- Staffing:

- How can we have strong math professionals teaching our students with the support of highly trained special education teachers working in collaboration?

Lesson Structure

Exercise-Based Lesson: Interaction with New Material (INM)

Purpose of INM: Students gain a deeper understanding of the key point by applying it to a rigorous problem. By doing the heavy lifting during this application, students also get an opportunity to become stronger thinkers and problem solvers. They also get clear on what thinking on the page will look like for the remainder of practice. [Link to full description of Fundamentals of Instruction--Exercise Based-Lesson](#)

Component Name	Opening	→	Interaction with New Material	→	Practice	→	Debrief	→	Exit Ticket
Description	Prompt for work time (30 sec), Active Monitor during Think About it work time (5-7 min) Debrief (7-9 min) Synthesis (1-2 min) & Frame (30 sec)		Understand, Plan, Estimate, Solve Check		Students work with peers (2-3 min) and independently		Using notes from Active Monitoring, teacher determines batch feedback to course correct		Students silently complete assessment
Component Purpose	Students engage in problem solving to meet the challenge of the day		Students gain a deeper understanding of the key point by applying it to a rigorous problem		Students independently do the work of practicing what they have learned, teacher assesses and intervenes to ensure all meet mastery		Teacher squashes misconceptions		Collect data on current understanding at the conclusion of class
Component Timing	15-17 minutes		10-12min		20 min		5-7min		3-5 minutes (may be longer for more rigorous exit tickets)

Lesson Components:

Why	What Happens	Markers of Excellence
-----	--------------	-----------------------

<p>Think About It: Debrief the mathematical concepts (what and why) presented in the task to arrive at a new understanding and develop the big idea for the day's lesson.</p>	<p>-10-15min -Ss work for about 5 min solo -T circulates and collects data -T show calls S work and asks Ss broad questions -T facilitates discourse with intention of landing the key points and big idea -T asks synthesis question and engages scholars in pulling ideas together to form big idea of day</p>	<p>-A Think About It is selected according to the following criteria: 1) Alignment to the aim and illumination of key points and big idea. 2) Accessible to all scholars while providing deeper exploration for scholars who get there. 3) Requires scholars to display their thinking in at least one way. 4) Requires understanding and planning or interpretation of evidence presented. - T circulates to collect and respond to data during work time and uses the data in subsequent discussion - Ts know how each scholar attacked the problem and make intentional choices about what work to show and who to call on or speak with. Work may include exemplar work and partially correct work that exhibits common misconceptions. -Ss analyze and explain each other's work. It should be clear to Ss why a piece of S work was shown to the class and what everyone was expected to learn, the discussion. -Ss clearly re-state, stamp, and reinforce the key points and big idea of the lesson. -The key point(s) of the discussion logically drive towards the lesson's big idea.</p>
<p>Interaction with New Material: Apply the big idea when solidifying steps or solving a rigorous problem to hone critical thinking skills, solidify concept understanding, and develop a clear plan for solving.</p>	<p>-10-15min -T presents another problem or two to increase depth of rigor - <4 min Ss read to understand and begin planning -T leads class discussion in understand/plan -Ss work independently or in pairs to solve. T uses discussion when misconceptions arise. -T facilitates synthesis of process to solve and connects to big idea. -T elicits CFS for work before practice. CFS is about work quality, not procedural steps.</p>	<p>-T and Ss utilize UPSC in 1-2 exercises to deepen S understanding of key points and big idea of the day through a more rigorous problem. - T uses questioning to put heavy lifting on Ss (especially in U/P) -T incorporates whole class and individual checks for understanding (CFUs) and responds accordingly (can be circulation). -T pushes Ss to provide top quality oral and written responses -Ss actively engage (asking and answering questions, working collaboratively and independently, taking notes) -Ss discuss and explain strategies, representations, connections and reflections in each problem. -Ss support and refute classmates' thinking -Ss and T follow UPSC as a framework to go through the exercise(s) -Ss use evidence to support their claims -Discussion ends with connection to big idea of the day and clear identification of Criteria for Success (CFS) before practice which are posted -CFS does not list steps to solve, rather the criteria for top quality work</p>

<p>Practice: Scholars get to process their new understanding by talking through its application with another student and/or independently.</p>	<ul style="list-style-type: none"> -10-20 min -T frames work expectations with CFS and exemplar created during INM, and states behavioral expectations -Ss work solo or in pairs on problem set -T names first procedural lap -T circulates to provide feedback -T names conceptual lap -T circulates to provide feedback and collect data to drive PP debrief <i>-Repeat previous two bullets</i> 	<ul style="list-style-type: none"> -T circulates to ensure engagement, alignment to CFS, CFU/data collection [First laps focus on procedural set-up and connection to CFS and secondary laps focus on conceptual understanding/accuracy] -T questions Ss to gauge understanding and support developing it further. -T responds to data collected during circulation or during debrief -T or S leads a debrief to clear up confusion or to cement a key point -Ss work in pairs on assigned problems for 5-7 min -Ss follow UPSC as a framework to discuss and solve the assigned problems -Ss show persistence and seek help appropriately -Ss actively engage in discussion by asking and answering questions, responding to classmates, and taking notes; explain strategies, representations, connections, and reflections, show persistence and seek help appropriately -Ss work independently to solve problems for 15+ min
<p>PP Debrief: Provide the class with batch feedback based on trends noticed during PP.</p>	<ul style="list-style-type: none"> -T selects highest leverage strategy to address student data (CTE or CTS). -T debriefs CTE or CTS asking broad agree/disagree/why questions -Ss identify common errors or more efficient strategies -Ss stamp the transferable learning. 	<ul style="list-style-type: none"> -T uses Chart the Error or Chart the Sophistication (show call or charting) to debrief. -If 25% - 75% of scholars made an error, T uses Chart the Error. -If over 75% of scholars are proficient with practice, T uses Chart the Sophistication. -If under 25% of scholars are proficient in practice, T uses guided instruction for a representative problem that highlights the Big Idea. -T uses funneled questions to guide Ss to explain error/exemplar/strategy -T has Ss stamp the transferable learning from debrief
<p>Exit Ticket: scholars self-evaluate ability to apply their learning independently.</p>	<ul style="list-style-type: none"> -5-10min -T frames work with expectations aligned to CFS -Ss work independently 	<ul style="list-style-type: none"> -T circulates to ensure alignment to CFS -Ss follow CFS when completing ET and complete self-evaluation of current understanding of the topic -Ss show persistence and seek help appropriately (to gain clarity only)

Looking at Student Work (LASW)

At various intervals in the curriculum, there are days designated as LASW. It is the intention that on these days, teachers plan targeted lessons to close specific gaps in conceptual or procedural knowledge of the whole class. The process for planning the lesson is below and the template is linked here:

[Link to Exemplar Plan](#)

[Link to Template](#)

Component Name	Kick-Off	→	Error Analysis	→	Aligned Practice	→	Exit Ticket	→	SWYK quiz OR Mixed Practice OR LASW Round 2
Description	Students complete problems that leads into the skill required for today or a related skill on which most have shown mastery. Teacher monitors actively to intervene with coaching/corrections for students with incorrect answers.		Show two pieces of work, Poll, Name the Error, Close the Gap, Generalize		Students work with peers (2-3 min) and independently		Students independently complete work		
Component Purpose	Students engage in problem solving to approach the re-teach, teacher ensures students are ready to meet the LASW with basic skills				Students independently do the work of practicing what they have learned, teacher assesses and intervenes to ensure all meet mastery		Assess mastery of LASW topic		
Component Timing	5 minutes		5-8 min		10-15 min		5 min		

Problem Solving Strategy

We will utilize a process called UPSC: Understand, Plan, Solve, Check, adapted from Achievement First. Students are expected to note each step as they work.

A few points to highlight (from, "Routines for Reasoning")

-(pg. 30) Ask Yourself Questions:

Imagine We could look inside the minds of our students to see how they were thinking about a math problem. At the surface, we would likely see them thinking, "what's the answer?" If we could peel back that outermost layer of thinking, we might not be able to see what they had done to get an answer. In fact, if you ask most students to, "explain their thinking," they will first provide you with a description of what they did, a list of the steps they followed, that often starts something like, "Well, first I did ___ and then I did ___."

If we were able to peel back yet another layer to see the thinking underneath that list of steps, we might next learn about *why* they chose to take particular steps, *why* they did what they did. It's what we would want to hear if we prompted students to say, "Well first I did _____ because _____." But to find the different avenues of thinking characterized by the math practices, we want to peel back one more layer to get at what's underneath why they did what they did. Buried underneath all those layers, there's some important thinking about what a student noticed mathematically about the problem when he or she was first getting started with it, what he or she did or didn't pay attention to in the mathematics of the problem, and what the student wondered about as he or she worked on the problem. This level of thinking mostly happens pretty invisibly inside a student's head and does not get recorded in any written work on the problem. This is the thinking we are trying to capture in the "ask yourself questions".

Initially these may be posed by the teacher as a model; the goal is to have students posing these questions to themselves and one another.

UPSC

Description	Ask Yourself Questions	Outcomes
<p>Understand -Students read and annotate the problem to make thinking visible</p> <p>-Students name precisely what the question is asking in its entirety and identify critical information</p>	<ul style="list-style-type: none"> ● What is this problem asking? ● What is known? ● What do we need to find? ● Have I addressed every aspect in the prompt? <p><i>From Routines for Reasoning pg. 130</i></p> <p><i>Think Quantities:</i></p> <ul style="list-style-type: none"> ● How are quantities related? ● How can I represent the quantities so I can see the relationship between them? <p><i>Think Structure:</i></p> <ul style="list-style-type: none"> ● What kind of problem is this? ● Does this problem remind me of another I've solved? ● How can I chunk this expression/number/visual? <p><i>Think Repetition:</i></p> <ul style="list-style-type: none"> ● Is there a process that keeps repeating? ● How can I use repetition to write a rule? 	<p>Clear identification of thinking made visible</p>
<p>Plan: -Students name a process (series of steps to follow)</p> <p>-Teacher prompts for detail and rationale of plan</p>	<ul style="list-style-type: none"> ● How can we solve this? ● Based on our understanding, what steps should we take? ● What do we need to do next? 	<p>A numbered plan shown publicly (if solving as a class) AND in student workspaces.</p>
<p>Solve: [3 options] -Students solve the problem using the steps outlined (then revise with feedback to meet the exemplar)</p> <p>-Teacher prompts (or guides) students to solve whole class using their plan</p> <p>-Students start independently and teacher pauses class to pull student exemplar for class discussion to analyze, highlight or revise work.</p>	<p>Independently or in Pairs:</p> <ul style="list-style-type: none"> ● How can you use our plan to solve this problem to an exemplary level, showing your thinking? <p>Whole class:</p> <ul style="list-style-type: none"> ● According to our plan, what should we do first? Next? 	<p>All students have exemplar, correct solutions on their papers.</p>
<p>Check: <i>(when applicable)</i> -Discussion of possible ways to attend to precision (accuracy of answer, use of units, etc)</p>	<ul style="list-style-type: none"> ● Is our answer reasonable? ● How can we justify our answer? ● How can we verify or check our answer? 	<p>Thinking is visible to verify or justify answer.</p>

-Execution of check		
---------------------	--	--

Classroom Environment

In order to ensure a positive classroom environment to support content related instruction, the following components are essential in any BRICK math classroom.

Unit Bulletin Board

Inside each classroom, one bulletin board should be related clearly to the unit topic. The board should include the title of the unit, relevant anchor charts, reference posters, etc. A focus on vocabulary is critical and will be planned at the Unit Unpack meeting.

Ask Yourself Questions and Sentence Starters/Stems

Open ended questions and sentence starters for discussion should be posted and incorporated into class daily.

Student Work Display

Each classroom includes at least one designated bulletin board or space to display student work. Posted student work should include feedback from the teacher or peers and reflect revisions and should be current within two weeks.

Overall Environment

We communicate the importance of safety and organization with how we maintain the environment. There should be no stacks of papers, disorganized supplies, etc. All materials should be returned to their homes daily. At the conclusion of each period, the teacher should direct students to ensure the floor is free of papers, trash, etc.

Math Notebooks and Binders

[Note: while not mandated by the network, the following is HIGHLY recommended to build consistency and organization]

- All high school math students will utilize math notebooks daily, provided by the school that are graph paper composition notebooks.
 - Students will write the objective, class number and date daily
 - Students will draw a line approx 1 inch from the right margin on each page.
 - In the large (left) area, students will use for class notes, exemplars, problem solving
 - In the smaller (right) areas, students will jot definitions, questions, hints, key understandings
- All high school math students will utilize a binder to maintain organization for math coursework not completed in their notebooks
 - Sections:
 - Daily handouts (organized by class number)
 - SWYKs/Quizzes (organized by date)
 - Unit Tests (organized by date)
 - Reference (organized by student)

Assessment Methods/Data Cycle/Grading Resources

[Link to more information in the Instructional Guidebook](#)

Students learn from feedback and revisions--both in their verbal and written endeavors. To this end, we must ensure that the work we ask students to do is meaningful. We then respond to their work in a way that facilitates growth and learning.

We provide a variety of types and levels of assessment in order to constantly collect and analyze data and we involve students in this process as active, reflective participants in their learning process.

Grading Breakdown

Task	Returned to students	Frequency	Late Work	Revisions
Classwork Assessment (ETs, DN, Group work, small classwork assignments)	Within 2 days	Administered and reviewed daily, graded with feedback 2-3x/wk	Not accepted late unless completed with teacher in person	Teacher's Discretion
Formative Assessments (Show What You Know quizzes, designated classwork)	Within 1 week	Graded with feedback 1-2x/wk	Accepted late within 1 week due to absences.	Provide opportunities to revise key assignment
Summative Assessments (tests)	Within 1 week	At the end of each unit	If missed due to absence, completed on designated day	No opportunities to revise
Homework	Within 1 week	2-3x/wk	HW due the next day if absent on submission day. HW due in two days if absent on day assigned.	Teacher discretion for revisions
Quarter Interims	1 day end of each quarter	1x/quarter	N/A	No opportunities to revise

Exit Ticket Protocol

Students will be assessed daily on Exit Tickets and teachers should review these daily to inform any updates needed to the next day's plan. NOTE: Plans should not be upended, but before moving on to new material, the teacher may need to address a large-scale misconception or the previous day's ETs may inform how the teacher guides the debrief of the following Think About It or Interaction with New Material. In the lesson overview, the "prioritized" lessons are noted, and these exit tickets will be the major focus of reviewing student work.

Show What You Know (SWYK): Quizzes and Unit Assessments

Students will be assessed after every 4-8 lessons (approx. every two weeks) on either a Show What You Know quiz or a Unit Test. These quizzes seek to inform both the teacher and the students of learning progress. These assessments will be included in the “Quiz” category of a student’s grade. Students will be assessed at the end of each unit on all standards taught in that unit. These assessments will be included in the “Test” category of a student’s grade.

SWYK Cycle

Day	Description	Pre-Work	Teacher Deliverables
Day SWYK is administered	Teacher administers SWYK assessment using all testing procedures and protocols.	<ul style="list-style-type: none"> -check that assessment is available in Illuminate -set up test in Illuminate for student access -copy SWYK Making Thinking Visible Paper 	<ul style="list-style-type: none"> ● 100% of students tested
Day SWYK is administered	Teacher teams meet (if possible/applicable--otherwise completed individually) to score student work directly in Illuminate.	n/a	<ul style="list-style-type: none"> ● 100% of students tested ● 100% of student work graded
Day Prior to Course Dept. Meeting	IL reports out reassessment data from SWYK and meets with the academic director to analyze student responses and prepare for teacher data meetings.	Academic Director and IL review Illuminate data to begin identifying gaps and trends.	.
Course Dept. Meeting	IL facilitates weekly data meetings with teachers to quickly identify the highest leverage gap to close and then plan the reteach and reassessment.	Teacher reviews Illuminate and student work to identify gap to close	<ul style="list-style-type: none"> ● Completed Reteach Plan and Student Materials ● Reteach resources ● Reassessment Exit Ticket
Assigned LASW Day	Teachers conduct reteach in whole group or small groups during Intervention Period as outlined in the reteach plan. Teachers can continue to reteach (if required). Teachers must administer/score the reassessment Exit Ticket.	<ul style="list-style-type: none"> ● Completed Reteach Plan and Student Materials prepared 	<ul style="list-style-type: none"> ● Execute lesson ● Collect and analyze exit ticket

Quarterly Assessments

All high school math students will be assessed cumulatively four times per year on a 120 minute quarterly assessment. These assessments will be included in the “Test” category of a student’s grade each quarter. These assessments will be aligned to completed coursework as well as aligned to the NJSLA-M.

Revision Protocol

Students learn from making errors and mistakes--and the process of internalizing content and concepts will not come at the same rate for all. This means that we must ensure students are both encouraged and required to revise their work. Math in the real-world requires that we learn from our *mistakes* (when we knew what to do and didn’t) and our *errors* (when we didn’t know what to do or thought we knew what to do and were incorrect). Math students must learn to differentiate, name, correct and get the next one right. The idea that we are ever improving is critical to our success as mathematicians. We require students to get support in completing the revision process; this may be from peer or teacher and a signature is required to maintain integrity. The goal is for students to advocate for themselves to learn and sometimes (see table above), teachers offer credit in the form of updating grades as a result. When a student is revising work (graded or not), the following protocol should be used:

- 1) Teacher communicates expectations to class (optional or required opportunity) and includes due date.
- 2) Teacher returns work to students and provides batch (whole group) feedback to be recorded on student work by students or individual feedback that has already been written on student papers.
- 3) Teacher distributes [“Ever Improving”](#) sheets
- 4) Teacher identifies when/how additional support will be available to close learning gaps.

Teacher Planning, Preparation, and Development

Friday Professional Development

- Per the Professional Development Scope and Sequence provided by the Network, teachers and leaders will engage in regular professional development on Friday afternoons. PD may be focused on specific math content, network-based social-emotional learning content, preparation for Quarter Exams or grading norming and analysis from Quarter Exams.

Weekly Course Meetings

- **One of the following agenda types:**
 - *Unit Unpack (UU)*--review prerequisite quiz data, deep dive into the content, instructional focus and mathematical practices to highlight in the upcoming unit
 - *Looking at Student Work (LASW)*--deep dive into student work samples to hone in on key learning gaps and make action plans to address
 - *Data Analysis (DA)*--question by question and standards analysis of SWYK (quizzes or test) or Quarter Exam information from students. Plan re-teach days and follow-up action plans to address.
 - *Vice Principal-planned agenda*: engage in active participation in the math department initiatives

Weekly or Bi-weekly Individual Meetings with Vice Principal

- **Always include:**
 - *Observation/Feedback (O/F)*: Admin and/or network members will regularly observe in classrooms and be present in order to provide the best support to teachers. These meetings will provide regular opportunities for connections to the rubrics, and criteria for success from our Arcs of the Year as well as practice and creation of teacher action steps.
 - *Feedback on Lesson Internalization and Personalization Preparation (IPP)*: Teachers will submit weekly preparation prior to the meeting with their
- **May include** (or other components depending on need):
 - *Lesson Unpack (LU)*: In order to develop deeper content knowledge and/or to prepare for a challenging lesson and/or focus on particular areas of lesson execution, lesson unpacks provide the opportunity to deep dive into individual lessons.
 - *LASW and Data Analysis*: The best way that we can differentiate our instruction to fit the needs of students, we must intentionally use assessment data. By planning based on student work and data and working with instructional experts to personalize the lessons and response.

Preparation for Meetings and Collaboration

Note: For the start of the 20-21 school year, there will be no Dept. Course Lead--so the Director and Instructional Leader will each take on the role of Course Lead for specific subjects in addition to their other noted responsibilities.

Unit Unpacks

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Read and annotate the Unit Plan and pre-reading for places to highlight instructional practices -Prepare key points and back pocket questions to engage in SEL and math practice grounding -Meet with Director to prepare -Attend unpack meetings led by DCL to provide support and feedback

Department Course Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and prepare questions to ensure deep content knowledge and internalization -Read and annotate Unit Overview and Assigned Pre-Readings -Complete Unit Assessment (see Illuminate) and Exit Tickets for the units -Follow the steps outlined the Unit Unpack planning template to a high level of excellence -Meet with Director to prepare
Teacher	<ul style="list-style-type: none"> -Read and annotate Unit Overview and Assigned Pre-Readings -Complete Unit Assessment (see Illuminate) and Exit Tickets for the units -Follow the steps and complete the Unit Planning Cover Sheet to a high level of excellence -Submit pre-work by deadline
Director	<ul style="list-style-type: none"> -Prepare all unit plans and unit planning cover sheets -Review/provide feedback on DCL and IL preparation for unpack meetings -Attend unpack meetings sometimes to provide support and feedback

Looking at Student Work (Classwork, SWYKs and ETs)

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review student work and look over for trends in student performance -Review the prework submitted and ensure the highest leverage error, gap and action plan have been identified -Follow the steps outlined the LASW planning template to a high level of excellence -Ensure 100% of students have taken and submitted assessments
Department Course Leader	<ul style="list-style-type: none"> -Review student work and look for over trends in student performance -Review the prework submitted and ensure the highest leverage error, gap and action plan have been identified -Follow the steps outlined the LASW planning template to a high level of excellence -Meet with Director to prepare
Teacher	<ul style="list-style-type: none"> -Review student work and look for overall trends in student performance -Identify the error, name the gap and plan the plan to close it -Prepare student work -Ensure 100% of students have taken and submitted assessments
Director	<ul style="list-style-type: none"> -Prepare all assessments -Support IL and DCL with preparing for LASW meetings -Review data and prepare back pocket questions -Attend LASW meetings sometimes to provide support and feedback

Data Analysis (Quarter Exams)

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Ensure 100% of students have taken and submitted assessments -Review data for trends across department, especially with respect to (1) MC vs. OER, (2) pacing, (3) work shown, (4) Explanations and justifications, (5) domains and clusters, (6) between teachers and

	<p>classes</p> <ul style="list-style-type: none"> -Based on the areas identified, consider (1) which areas can be addressed in upcoming content, (2) which areas should be honed in on for re-teach days, (3) which areas need to be retaught whole group vs in smaller groups or in intervention periods -Lead teachers in creating re-teach plans for in class and intervention classes
Department Course Leader	<ul style="list-style-type: none"> -Review data for questions where (1) high scoring students got right but mid/low scoring students missed, (2) standards where questions have very different mastery, (3) all/nearly all students missed or all/nearly all students answered correctly -Based on the areas identified, consider (1) which areas can be addressed in upcoming content, (2) which areas should be honed in on for re-teach days, (3) which areas need to be retaught whole group vs in smaller groups or in intervention periods -Lead teachers in creating re-teach plans for in class and intervention classes
Teacher	<ul style="list-style-type: none"> -Ensure 100% of students have taken and submitted assessments -Review data for both sets of questions (IL and DCL) -Prepare plan to address unfinished learning and how you will reassess
Director	<ul style="list-style-type: none"> -Prepare all assessments -Review data for trends across department and within individual courses with respect to: (1) MC vs. OER, (2) pacing, (3) work shown, (4) Explanations and justifications, (5) domains and clusters, (6) between teachers and classes -Review data for questions where (1) high scoring students got right but mid/low scoring students missed, (2) standards where questions have very different mastery, (3) all/nearly all students missed or all/nearly all students answered correctly -Support IL and DCL with preparing for Analysis meetings -Attend Analysis meetings to provide support and feedback

Observation/Feedback

Role	Responsibilities
Instructional Leader	<p>See Instructional Guidebook with added addendum:</p> <p>In the Math dept, formal weekly course-based lesson unpacks are not in the general schedule. This means that in the obs/feedback part of meetings, it is crucial that practice be directly aligned to upcoming lessons and intentionally planned to improve this specific future instruction from both an execution AND a content lens.</p>
Department Course Leader	
Teacher	
Director	

Lesson Unpack

Note: In the Math dept, formal weekly course-based lesson unpacks are not in the general schedule, however, they are a crucial part of a teacher’s professional development and are sometimes required for particularly challenging lessons or content. These are scheduled at the IL or DCL’s discretion.

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Read and annotate the Lesson Plan for places to highlight instructional practices. Do the work from the major parts of the lesson (ie. TAI, Debrief, INM, IP, ET) -Identify the particular area of needed practice for the teacher and plan the practice -Follow Lesson Unpack Planning Guide -Collaborate with the department course lead as needed to hone in on specific content
Department Course Leader	-Support Instructional leader as needed for content
Teacher	<ul style="list-style-type: none"> -Read and annotate Lesson plan, do all the student work in the lesson -Use unit planning cover sheet to follow the steps and complete the Lesson Planning Cover Sheet to a high level of excellence -Submit pre-work by deadline
Director	-Support Instructional leader as needed for content

Arc of the Year 2021

The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources.

Time	Description	Key Metrics (ELC Goals)
Weeks 1-6	<p>Arc 1a: Setting the Foundation for Learning Partnerships⁵ and Independent Learning⁶</p> <p>SWBAT: PROCEDURAL: (1) Follow all procedures. (2) Utilize all technology. (3) Start to finish class with high level of effort on work MATH PRACTICES: (1) MP5: Use appropriate tools strategically</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Be consistently prepared for class with exemplars and fully annotated plans. (2) Be consistently prepared for Unit Unpack and practice lesson sessions. (3) Articulate opportunities to teach students to Use appropriate tools strategically (MP5). INSTRUCTION: (1) Engage in simple classroom routines to focus on the math instruction. (2) Execute the structure of class. (3) Provide students with immediate feedback on their work. (4) Explicit instruction on using appropriate tools strategically (MP5). DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Analyze Exit Tickets daily and add tweaks to lesson plans the next day to address unfinished learning. (2) Utilize transparent rubrics to assess content mastery, implementation of practices and growth. (3) Begin cycle of daily exit ticket analysis. SEL/CRT: (1) Implement consistent opening rituals that incorporate self-awareness and genuine affirmation. (2) Know names, learning profiles and indiv. information about all students in order to start to build trust and rapport.</p>	

⁵ Culturally Responsive Teaching and the Brain (75) define a learning partnership as a teacher-student relationship anchored in affirmation, mutual respect and validation that breeds an unshakable belief that marginalized students not only can but will improve their school achievement. Learning partnerships are composed of three parts: rapport, alliance and cognitive insight.

⁶ Culturally Responsive Teaching and the Brain (14) defines an independent learner with the following characteristics: (1) Relies on the teacher to carry some of the cognitive load temporarily, (2) Utilizes strategies and processes for tackling a new task, (3) Regularly attempts new tasks without scaffolds, (4) Has cognitive strategies for getting unstuck, (5) Has learned how to retrieve information from long-term memory

	LWBAT:	
Weeks 7-10	<p>Arc 1b: Supporting All Students in Achieving Effective Information Processing⁷</p> <p>SWBAT:</p> <p>INTELLECTUAL INTERNALIZATION: (1) Make thinking and conceptual understanding visible through detailed explanations, demonstration of process, calculations, models, etc.</p> <p>MATH PRACTICES: (1) MP1: Make sense of problems and persevere in solving them by internalizing feedback and make improvements (both arithmetic and descriptive) to work and understanding.</p> <p>TWBAT:</p> <p>PREPARATION and INTERNALIZATION: (1) Articulate potential misconceptions and responses. (2) Define Criteria for Success consistently and specifically. (3) Articulate opportunities to make sense of problems and persevere in solving them (MP1).</p> <p>INSTRUCTION: (1) Provide students with immediate written feedback on their work. (2) Hold students accountable for implementing feedback on their work and articulate how this exemplifies MP1.</p> <p>DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Assess all students on prerequisites and use this information to pre-teach skills.</p> <p>SEL/CRT: (1) Ensure all students are heard aloud OR seen through written work in each class period. (2) Identify key students who need increased attention through relationship building.⁸</p> <p>LWBAT:</p>	
Weeks 11-17	<p>Arc 2: Achieving Effective Information Processing Through Student Voice⁹</p> <p>SWBAT:</p> <p>INTELLECTUAL INTERNALIZATION: (1) Engage in academic talk structures and habits of discussion to deepen learning</p> <p>MATH PRACTICES: (1) MP3: Construct viable arguments and critique the reasoning of others by engaging in habits of discussion to deepen learning.</p> <p>TWBAT:</p> <p>PREPARATION and INTERNALIZATION: (1) Articulate opportunities to students up for successful, productive discourse (MP3). (2) Plan for the investment and engagement of all students (differentiate based on student strengths) in the various forms of academic talk structures..</p> <p>INSTRUCTION: (1) Utilize planned open-ended questions to engage students in productive conversations between themselves. (2) Set expectations, provide support and maintain a high level of investment and engagement in class that leads to mastery of content and skill.</p> <p>DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Use Exit Ticket data to plan LASW lessons to target re-teaches for procedural and conceptual errors.</p> <p>SEL/CRT: (1) Ensure all students are heard aloud OR seen through written work in each class period. (2) Identify key students who need increased attention through relationship building.</p> <p>LWBAT:</p>	
Weeks	<p>Arc 3a: Quality Batch Feedback¹⁰</p> <p>SWBAT:</p>	

⁷ Culturally Responsive Teaching and the Brain (15) defines information processing as “the brain’s process of turning inert facts and content into usable knowledge. Includes three stages: input, elaboration and application (see p 125 for more info on stages). Active information processing stimulates brain growth.

⁸ See CRT and the Brain pg. 77-86

⁹ Culturally Responsive Teaching and the Brain (149) notes “One of the most important tools for a culturally responsive teacher is instructional conversation. The ability to form, express and exchange ideas is best taught through dialogue, questioning and the sharing of ideas.” See text for more info.

¹⁰ Culturally Responsive Teaching and the Brain (103) calls for feedback to be instructive and corrective, with the following characteristic: (1) It is instructive rather than evaluative, (2) It is specific and in the right dose, (3) It is timely, (4) It is delivered in a low stress, supportive environment. In addition (104), the recommended approach is “wise feedback”, which reassures students they will not be stereotyped or doubted as less capable while being honest about the gap between current performance and the standard. Three specific elements are included in wise feedback: (1) Explicit holding of high standards, (2) Personal assurance that student is capable, (3) Specific actionable steps to work on.

18-21	<p>INTELLECTUAL INTERNALIZATION: (1) Lead critical class discussions grounded in student work.</p> <p>MATH PRACTICES: (1) MP6: Attend to precision through the use of precise vocabulary, explanations of symbols, labels in diagrams, drawings and graphs and units of measure as well as accurate calculations.</p> <p>TWBAT:</p> <p>PREPARATION and INTERNALIZATION: (1) Articulate potential misconceptions and responses. (2) Articulate opportunities for precision (MP6).</p> <p>INSTRUCTION: (1) Use show call to model precision of mathematical communication AS WELL AS accurate and efficient calculations. (2) Provide consistent and targeted batch feedback</p> <p>DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Plan LASW lessons that target good to great open ended answers.</p> <p>SEL/CRT: (1) Empower students to accept and implement feedback as part of developing competency in self-awareness and relationship skills.</p> <p>LWBAT:</p>	
Weeks 22-30	<p>Arc 3b: Indiv. Feedback and Small Group Instruction¹¹</p> <p>SWBAT:</p> <p>INTELLECTUAL INTERNALIZATION: (1) Engage in productive struggle to deepen learning with peers.</p> <p>MATH PRACTICES: (1) MP1: Make sense of problems and persevere in solving them AND (2) MP3: Construct viable argument and critique the reasoning of others by working in partnership with peers to deepen mathematical understanding.</p> <p>TWBAT:</p> <p>PREPARATION and INTERNALIZATION: (1) Plan for student-student indep. discourse in small group instruction (2) Articulate and model opportunities for critiquing the reasoning of others, (3) Articulate potential misconceptions and responses.</p> <p>INSTRUCTION: (1) Engage students in paired work with productive struggle. (2) Provide consistent and targeted feedback to indiv and small groups.</p> <p>DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Plan LASW lessons that target good to great open ended answers.</p> <p>SEL/CRT: (1) Empower students to accept and implement feedback as part of developing competency in self-awareness and relationship skills.</p> <p>LWBAT:</p>	
Weeks 30-40	<p>Arc 4: Reteach, Spiral and proficiency for all</p>	

Glossary

PD--Professional Development	Time dedicated for reflecting, building our toolbox and developing our craft
CRT--Culturally Responsive Teaching	an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing. All the while, the educator understands the importance of being in a relationship and having a social emotional connection to the student in order to create a safe space for learning. ¹²
SEL--Social Emotional Learning	Social and emotional learning (SEL) is an integral part of education and human development. SEL is the process through which all young people and adults acquire and apply the knowledge, skills, and attitudes to develop healthy identities, manage emotions and achieve personal and collective goals, feel and show empathy for others,

¹¹ See CRT and the Brain p 105 for “Asset Based Feedback Protocol”

¹² Hammond, Z. L. (2015). Culturally responsive teaching and the brain. Corwin Press.

	<p>establish and maintain supportive relationships, and make responsible and caring decisions.</p> <p>SEL advances educational equity and excellence through authentic school-family-community partnerships to establish learning environments and experiences that feature trusting and collaborative relationships, rigorous and meaningful curriculum and instruction, and ongoing evaluation. SEL can help address various forms of inequity and empower young people and adults to co-create thriving schools and contribute to safe, healthy, and just communities.¹³</p>
<p>MP-Mathematical Practices</p>	<p>Standards for Mathematical Practice describe varieties of expertise that mathematics educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education.¹⁴</p>
<p>CRMT- Culturally Responsive Math Teaching</p>	<p>creating a learning environment focused on mathematical sense making in which each and every student feels valued for who they are, for their ways of engaging in mathematical reasoning and for their contributions to the collective success of those within the classroom community... CRMT requires teachers to (re)consider the mathematics learning environment they’ve created and how well it reflects these four elements:</p> <ol style="list-style-type: none"> 1) Supporting deep learning: How to ensure student success with coherent and connected mathematical understandings 2) Engaging and valuing identities: How to honor students’ experiences, communication practices and communities 3) Sharing authority: How to build inclusive, collaborative norms and routines 4) Applying mathematics: How to use mathematics to understand and investigate meaningful situations”¹⁵
<p>Accelerated Learning</p>	<p>providing students access to on-grade content by adding in just the right content scaffolds at just the right time for students who need additional knowledge to do the current work</p> <p>“Acceleration...strategically prepares students for success in the present...[and]...readies students for new learning. Past concepts and skills are addressed, but always in the purposeful context of future learning...Rather than being stuck in the remedial slow lane, students move ahead of everyone into the fast lane of learning. ...A crucial aspect of the acceleration model is putting key prior knowledge into place so that students have something to connect new information to...though the acceleration model does revisit basic skills, these skills are laser-selected, applied right away with the new content, and never taught in isolation. To prepare for a new concept or lesson, students in an acceleration program receive both instruction in prior knowledge and remediation of prerequisite skills that, if missing, may create barriers to</p>

¹⁵ <https://www.curriculumassociates.com/-/media/mainsite/files/ready-classroom-mathematics/ready-classroom-mathematics-cultural-responsiveness-whitepaper-2019.pdf>

	<p>the learning process. This strategic approach of preparing for the future while plugging a few critical holes from the past yields strong results.”¹⁶</p>
Power-Up	<p>K-3: Power up is a data driven time for teachers to use to meet the needs of their students by using:</p> <ul style="list-style-type: none"> ● iReady.-Adaptive differentiated computer based learning ● Small Group Intervention ● NJSLA-M practice ● Reteach major standards ● React to exit ticket data <p>4-8: Math Power Up is a time in the math block where teachers can incorporate interventions to address students’ misconceptions and gaps in the math standards.</p>
Independent Learning Time (ILT)	<p>ILT is a time that will provide extra support and instruction in two areas:</p> <ul style="list-style-type: none"> ● Pre-requisite skills and standards that need to be mastered for upcoming units and lessons determined during the unit unpack based on the pre-unit assessment data and ● Mastering standards based on Interim data that was not mastered.
Game Intro Lessons (GIL)	<p>Game Intro Lessons are in grades K-2, where the teacher introduces a math game with the game steps on a visual anchor. Students play the math game during the workshop with partners to learn the math concepts. At the end of the lesson students are given an exit ticket to see if they mastered the math concepts during the lesson.</p>
Error Analysis Reteach (EAR) Lessons	<p>The purpose of an Error Analysis Reteach using two pieces of student work (exemplar and non-exemplar) is to:</p> <ul style="list-style-type: none"> ● To provide opportunities for students to review and practice previously covered concepts / standards, especially material where students showed partial mastery and would benefit from further instruction and practice opportunities. ● To develop and reinforce a productive disposition – students approach challenging situations as opportunities to learn and mistakes made along the way as times for feedback and reflection, not representations of personal failure. ● To develop and reinforce strategic competence and adaptive reasoning – ability to formulate, represent, and solve mathematical problems; capacity for logical thought, reflection, explanation, and justification.
IPP	<p>The purpose of Intellectual Preparation is to:</p> <ul style="list-style-type: none"> ● Cultivate a deep understanding of content and rigor of the lesson (see lesson internalization outcomes below) ● Prepare to teach the most rigorous part of the lesson (plan and practice) ● Builds skill on high-leverage transferable action steps

¹⁶ http://www.ascd.org/publications/books/114026/chapters/Acceleration@_Jump-Starting_Students_Who_Are_Behind.aspx

Unit Unpack	<p>The purpose of the Unit Unpacking protocol is to develop and deepen content knowledge for teaching the grade level standards and Daily Lessons in the unit and to see the big picture for the unit by anchoring in the following questions:</p> <ul style="list-style-type: none"> ● What standards will be taught in this unit? What does it look like for students to demonstrate mastery of these standards? ● What new knowledge and skills do these standards call for students to develop, and what work have they done that prepares them for this? What strategies are they bringing to the table? ● How do learning and scholar strategies progress from one lesson to the next? ● What misconceptions and errors often emerge when students are learning this content?
Lesson Unpack	<p>Lesson unpacks are designed to:</p> <ul style="list-style-type: none"> ○ Build content knowledge by reviewing the big ideas for this lesson and connecting them to the standard. ○ Apply a high-leverage action step to future lessons. ○ Prepare to teach the most rigorous part of an upcoming lesson. ○ Practice a high-leverage action step for an upcoming lesson.
Looking At Student Work Protocol (LASW)	<p>A process of looking at student work to identify specific and targeted errors and misconceptions and then formulating a plan(s) to reteach and close gaps.</p>
IA (Interim Assessment)	<p>Assessment given 4 times a year, administered 1 day and covers material up to IA. There will be one cumulative interim to prepare for state testing (MOCK). IAs are given on Thursdays, make-ups on Fridays. IA analysis occurs the following week during Network IA planning days</p>
Arc of the Year (AoTY)	<p>The purpose of the Arc of the Year (AoTY) is to provide overall vision, strategy and resources for (1) the AOTY as a whole followed by (2) guidance on each portion of the arc. The AOTY is a roadmap to how we as a network plan to reach this goal!</p>

Appendix 1: Standards Emphasis

[Standards Achieve the Core K-8](#)

[PARCC Framework](#)

[AP Calculus Course and Exam Description](#)

An important subset of the major work in grades K–8 is the progression that leads toward middle school algebra.

K	1	2	3	4	5	6	7	8
Know number names and the count sequence	Represent and solve problems involving addition and subtraction	Represent and solve problems involving addition and subtraction	Represent & solve problems involving multiplication and division	Use the four operations with whole numbers to solve problems	Understand the place value system	Apply and extend previous understandings of multiplication and division to divide fractions by fractions	Apply and extend previous understanding of operations with fractions to add, subtract, multiply, and divide rational numbers	Work with radical and integer exponents
Count to tell the number of objects	Understand and apply properties of operations and the relationship between addition and subtraction	Add and subtract within 20	Understand properties of multiplication and the relationship between multiplication and division	Generalize place value understanding for multi-digit whole numbers	Perform operations with multi-digit whole numbers and decimals to hundredths	Apply and extend previous understandings of numbers to the system of rational numbers	Analyze proportional relationships and use them to solve real-world and mathematical problems	Understand the connections between proportional relationships, lines, and linear equations**
Compare numbers	Understand and apply properties of operations and the relationship between addition and subtraction	Use place value understanding and properties of operations to add and subtract	Multiply & divide within 100	Use place value understanding and properties of operations to perform multidigit arithmetic	Use equivalent fractions as a strategy to add and subtract fractions	Understand ratio concepts and use ratio reasoning to solve problems	Use properties of operations to generate equivalent expressions	Analyze and solve linear equations and pairs of simultaneous linear equations
Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from	Add and subtract within 20	Measure and estimate lengths in standard units	Solve problems involving the four operations, and identify & explain patterns in arithmetic	Extend understanding of fraction equivalence and ordering	Apply and extend previous understandings of multiplication and division to multiply and divide fractions	Apply and extend previous understandings of arithmetic to algebraic expressions	Solve real-life and mathematical problems using numerical and algebraic expressions and equations	Define, evaluate, and compare functions
Work with numbers 11–19 to gain foundations for place value	Work with addition and subtraction equations	Relate addition and subtraction to length	Develop understanding of fractions as numbers	Build fractions from unit fractions by applying and extending previous understandings of operations	Geometric measurement: understand concepts of volume and relate volume to multiplication and to addition	Reason about and solve one-variable equations and inequalities	Represent and analyze quantitative relationships between dependent and independent variables	Use functions to model relationships between quantities
	Extend the counting sequence		Solve problems involving measurement and estimation of intervals of time, liquid volumes, & masses of objects	Understand decimal notation for fractions, and compare decimal fractions	Graph points in the coordinate plane to solve real-world and mathematical problems*			
	Understand place value		Geometric measurement: understand concepts of area and relate area to multiplication and to addition					
	Use place value understanding and properties of operations to add and subtract							
	Measure lengths indirectly and by iterating length units							

* Indicates a cluster that is well thought of as a part of a student's progress to algebra, but that is currently not designated as major by the assessment consortia in their draft materials. Apart from the one asterisked exception, the clusters listed here are a subset of those designated as major in the assessment consortia's draft documents.
 ** Depends on similarity ideas from geometry to show that slope can be defined and then used to show that a linear equation has a graph which is a straight line and conversely.

Kindergarten

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR KINDERGARTEN

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- K.CC.A ■ Know number names and the count sequence.
- K.CC.B ■ Count to tell the number of objects.
- K.CC.C ■ Compare numbers.
- K.OA.A ■ Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.
- K.NBT.A ■ Work with numbers 11–19 to gain foundations for place value.
- K.MD.A ● Describe and compare measurable attributes.
- K.MD.B □ Classify objects and count the number of objects in categories.
- K.G.A ● Identify and describe shapes.
- K.G.B □ Analyze, compare, create, and compose shapes.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR KINDERGARTEN

K.OA.A.5	Add/subtract within 5
----------	-----------------------

First Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 1

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 1.OA.A ■ Represent and solve problems involving addition and subtraction.
- 1.OA.B ■ Understand and apply properties of operations and the relationship between addition and subtraction.
- 1.OA.C ■ Add and subtract within 20.
- 1.OA.D ■ Work with addition and subtraction equations.
- 1.NBT.A ■ Extending the counting sequence.
- 1.NBT.B ■ Understand place value.
- 1.NBT.C ■ Use place value understanding and properties of operations to add and subtract.
- 1.MD.A ■ Measure lengths indirectly and by iterating length units.
- 1.MD.B ● Tell and write time.
- 1.MD.C □ Represent and interpret data.
- 1.G.A ● Reason with shapes and their attributes.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 1

1.OA.C.6	Add/subtract within 10
----------	------------------------

Second Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 2

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 2.OA.A ■ Represent and solve problems involving addition and subtraction.
- 2.OA.B ■ Add and subtract within 20.
- 2.OA.C □ Work with equal groups of objects to gain foundations for multiplication.
- 2.NBT.A ■ Understand place value.
- 2.NBT.B ■ Use place value understanding and properties of operations to add and subtract.
- 2.MD.A ■ Measure and estimate lengths in standard units.
- 2.MD.B ■ Relate addition and subtraction to length.
- 2.MD.C □ Work with time and money.
- 2.MD.D □ Represent and interpret data.
- 2.G.A ● Reason with shapes and their attributes.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 2

2.OA.B.2	Single-digit sums and differences (sums from memory by end of Grade 2)
2.NBT.B.5	Add/subtract within 100

Third Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 3

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ○ Additional Clusters

- 3.OA.A ■ Represent and solve problems involving multiplication and division.
- 3.OA.B ■ Understand properties of multiplication and the relationship between multiplication and division.
- 3.OA.C ■ Multiply and divide within 100.
- 3.OA.D ■ Solve problems involving the four operations, and identify and explain patterns in arithmetic.
- 3.NBT.A ○ Use place value understanding and properties of operations to perform multi-digit arithmetic.
- 3.NF.A ■ Develop understanding of fractions as numbers.
- 3.MD.A ■ Solve problems involving measurement and estimation of intervals of time, liquid volumes, and masses of objects.
- 3.MD.B □ Represent and interpret data.
- 3.MD.C ■ Geometric measurement: understand concepts of area and relate area to multiplication and to addition.
- 3.MD.D ○ Geometric measurement: recognize perimeter as an attribute of plane figures and distinguish between linear and area measures.
- 3.G.A □ Reason with shapes and their attributes.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 3

3.OA.C.7	Single-digit products and quotients (Products from memory by end of Grade 3)
3.NBT.A.2	Add/subtract within 1000

Fourth Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 4

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ○ Additional Clusters

- 4.OA.A ■ Use the four operations with whole numbers to solve problems.
- 4.OA.B □ Gain familiarity with factors and multiples.
- 4.OA.C ○ Generate and analyze patterns.
- 4.NBT.A ■ Generalize place value understanding for multi-digit whole numbers.
- 4.NBT.B ■ Use place value understanding and properties of operations to perform multi-digit arithmetic.
- 4.NF.A ■ Extend understanding of fraction equivalence and ordering.
- 4.NF.B ■ Build fractions from unit fractions by applying and extending previous understandings of operations on whole numbers.
- 4.NF.C ■ Understand decimal notation for fractions, and compare decimal fractions.
- 4.MD.A □ Solve problems involving measurement and conversion of measurements from a larger unit to a smaller unit.
- 4.MD.B □ Represent and interpret data.
- 4.MD.C ○ Geometric measurement: understand concepts of angle and measure angles.
- 4.G.A ○ Draw and identify lines and angles, and classify shapes by properties of their lines and angles.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 4

4.NBT.B.4	Add/subtract within 1,000,000
-----------	-------------------------------

Fifth Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 5

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 5.OA.A ● Write and interpret numerical expressions.
- 5.OA.B ● Analyze patterns and relationships.
- 5.NBT.A ■ Understand the place value system.
- 5.NBT.B ■ Perform operations with multi-digit whole numbers and with decimals to hundredths.
- 5.NF.A ■ Use equivalent fractions as a strategy to add and subtract fractions.
- 5.NF.B ■ Apply and extend previous understandings of multiplication and division to multiply and divide fractions.
- 5.MD.A □ Convert like measurement units within a given measurement system.
- 5.MD.B □ Represent and interpret data.
- 5.MD.C ■ Geometric measurement: understand concepts of volume and relate volume to multiplication and to addition.
- 5.G.A ● Graph points on the coordinate plane to solve real-world and mathematical problems.
- 5.G.B ● Classify two-dimensional figures into categories based on their properties.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 5

5.NBT.B.5	Multi-digit multiplication
-----------	----------------------------

Sixth Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 6

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 6.RP.A ■ Understand ratio concepts and use ratio reasoning to solve problems.
- 6.NS.A ■ Apply and extend previous understandings of multiplication and division to divide fractions by fractions.
- 6.NS.B ● Compute fluently with multi-digit numbers and find common factors and multiples.
- 6.NS.C ■ Apply and extend previous understandings of numbers to the system of rational numbers.
- 6.EE.A ■ Apply and extend previous understandings of arithmetic to algebraic expressions.
- 6.EE.B ■ Reason about and solve one-variable equations and inequalities.
- 6.EE.C ■ Represent and analyze quantitative relationships between dependent and independent variables.
- 6.G.A □ Solve real-world and mathematical problems involving area, surface area, and volume.
- 6.SP.A ● Develop understanding of statistical variability.
- 6.SP.B ● Summarize and describe distributions.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

REQUIRED FLUENCIES FOR GRADE 6

6.NS.B.2	Multi-digit division
6.NS.B.3	Multi-digit decimal operations

Seventh Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 7

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 7.RP.A ■ Analyze proportional relationships and use them to solve real-world and mathematical problems.
- 7.NS.A ■ Apply and extend previous understandings of operations with fractions to add, subtract, multiply, and divide rational numbers.
- 7.EE.A ■ Use properties of operations to generate equivalent expressions.
- 7.EE.B ■ Solve real-life and mathematical problems using numerical and algebraic expressions and equations.
- 7.G.A ● Draw, construct and describe geometrical figures and describe the relationships between them.
- 7.G.B ● Solve real-life and mathematical problems involving angle measure, area, surface area, and volume.
- 7.SPA □ Use random sampling to draw inferences about a population.
- 7.SP.B ● Draw informal comparative inferences about two populations.
- 7.SP.C □ Investigate chance processes and develop, use, and evaluate probability models.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

Eighth Grade

MAJOR, SUPPORTING, AND ADDITIONAL CLUSTERS FOR GRADE 8

Emphases are given at the cluster level. Refer to the Common Core State Standards for Mathematics for the specific standards that fall within each cluster.

Key: ■ Major Clusters □ Supporting Clusters ● Additional Clusters

- 8.NS.A □ Know that there are numbers that are not rational, and approximate them by rational numbers.
- 8.EE.A ■ Work with radicals and integer exponents.
- 8.EE.B ■ Understand the connections between proportional relationships, lines, and linear equations.
- 8.EE.C ■ Analyze and solve linear equations and pairs of simultaneous linear equations.
- 8.F.A ■ Define, evaluate, and compare functions.
- 8.F.B ■ Use functions to model relationships between quantities.
- 8.G.A ■ Understand congruence and similarity using physical models, transparencies, or geometry software.
- 8.G.B ■ Understand and apply the Pythagorean Theorem.
- 8.G.C ● Solve real-world and mathematical problems involving volume of cylinders, cones and spheres.
- 8.SPA □ Investigate patterns of association in bivariate data.

HIGHLIGHTS OF MAJOR WORK IN GRADES K–8

K–2	Addition and subtraction – concepts, skills, and problem solving; place value
3–5	Multiplication and division of whole numbers and fractions – concepts, skills, and problem solving
6	Ratios and proportional relationships; early expressions and equations
7	Ratios and proportional relationships; arithmetic of rational numbers
8	Linear algebra and linear functions

Algebra I

The Real Number System (N-RN)

- B. Use properties of rational and irrational numbers (3)

Quantities★ (N-Q)

- A. Reason quantitatively and use units to solve problems (1, 2, 3)

Seeing Structure in Expressions (A-SSE)

- A. Interpret the structure of expressions (1, 2)
- B. Write expressions in equivalent forms to solve problems (3)

Arithmetic with Polynomials and Rational Expressions (A-APR)

- A. Perform arithmetic operations on polynomials (1)
- B. Understand the relationship between zeros and factors of polynomials (3)

Creating Equations★ (A-CED)

- A. Create equations that describe numbers or relationships (1, 2, 3, 4)

Mathematical Practices

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning.

Reasoning with Equations and Inequalities (A-REI)

- A. Understand solving equations as a process of reasoning and explain the reasoning (1)
- B. Solve equations and inequalities in one variable (3, 4)
- C. Solve systems of equations (5, 6)
- D. Represent and solve equations and inequalities graphically (10, 11, 12)

Interpreting Functions (F-IF)

- A. Understand the concept of a function and use function notation (1, 2, 3)
- B. Interpret functions that arise in applications in terms of the context (4, 5, 6)
- C. Analyze functions using different representations (7, 8, 9)

Building Functions (F-BF)

- A. Build a function that models a relationship between two quantities (1)
- B. Build new functions from existing functions (3)

Linear, Quadratic, and Exponential Models★ (F-LE)

- A. Construct and compare linear, quadratic, and exponential models and solve problems (1, 2, 3)
- B. Interpret expressions for functions in terms of the situation they model (5)

Interpreting categorical and quantitative data (S-ID)

- A. Summarize, represent, and interpret data on a single count or measurement variable (1, 2, 3)
- B. Summarize, represent, and interpret data on two categorical and quantitative variables (5, 6)
- C. Interpret linear models (7, 8, 9)

Geometry

Congruence (G-CO)

- A. Experiment with transformations in the plane (1, 2, 3, 4, 5)
- B. Understand congruence in terms of rigid motions (6, 7, 8)
- C. Prove geometric theorems (9, 10, 11)
- D. Make geometric constructions (12, 13)

Similarity, Right Triangles, and Trigonometry (G-SRT)

- A. Understand similarity in terms of similarity transformations (1, 2, 3)
- B. Prove theorems involving similarity (4, 5)
- C. Define trigonometric ratios and solve problems involving right triangles (6, 7, 8)

Circles (G-C)

- A. Understand and apply theorems about circles (1, 2, 3)
- B. Find arc lengths and areas of sectors of circles (5)

Expressing Geometric Properties with Equations (G-GPE)

- A. Translate between the geometric description and the equation for a conic section (1)
- B. Use coordinates to prove simple geometric theorems algebraically (4, 5, 6, 7)

Geometric measurement and dimension (G-GMD)

- A. Explain volume formulas and use them to solve problems (1, 3)
- B. Visualize relationships between two-dimensional and three-dimensional objects (4)

Modeling with Geometry (G-MG)

- A. Apply geometric concepts in modeling situations (1, 2, 3)

Mathematical Practices

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning.

Algebra II

The Real Number System (N-RN)

- A. Extend the properties of exponents to rational exponents (1, 2)

Quantities ★ (N-Q)

- A. Reason quantitatively and use units to solve problems (2)

The Complex Number System (N-CN)

- A. Perform arithmetic operations with complex numbers (1, 2)
- C. Use complex numbers in polynomial identities and equations (7)

Seeing Structure in Expressions (A-SSE)

- A. Interpret the structure of expressions (2)
- B. Write expressions in equivalent forms to solve problems (3, 4)

Arithmetic with Polynomials and Rational Expressions (A-APR)

- B. Understand the relationship between zeros and factors of polynomials (2, 3)
- C. Use polynomial identities to solve problems (4)
- D. Rewrite rational expressions (6)

Creating Equations ★ (A-CED)

- A. Create equations that describe numbers or relationships (1)

Reasoning with Equations and Inequalities (A-REI)

- A. Understand solving equations as a process of reasoning and explain the reasoning (1, 2)
- B. Solve equations and inequalities in one variable (4)
- C. Solve systems of equations (6, 7)
- D. Represent and solve equations and inequalities graphically (11)

Interpreting Functions (F-IF)

- A. Understand the concept of a function and use function notation (3)
- B. Interpret functions that arise in applications in terms of the context (4, 6)
- C. Analyze functions using different representations (7, 8, 9)

Building Functions (F-BF)

Mathematical Practices

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning.

Algebra II/PreCalculus [includes all of Algebra II above, adds the following:]

- N-CN.8, 9
- F-BF.5
- F-IF.5
- A-APR.1, 7
- S-ID.4,5
- S-IC.1-6
- F-TF.1-8
- F-LE.2, 4, 5
- AP Learning Objectives LIM.1
- AP Learning Objectives LIM.2

Appendix 2: Culturally Responsive Mathematics Teaching Actions

(Summarized/Excerpts from: <https://www.curriculumassociates.com/-/media/mainsite/files/ready-classroom-mathematics/ready-classroom-mathematics-cultural-responsiveness-whitepaper-2019.pdf>)

- 1) Supporting deep learning: How to ensure student success with coherent and connected mathematical understandings:
 - a) Rationale: Mathematics is at the core of CRMT, and it's important to remember that the learning environment supports students' success in mathematics. A focus on being culturally relevant in the absence of meaningful mathematics only exacerbates existing inequities in academic outcomes. While this is not unique to CRMT, there is an equity focus here in that for too many students, mathematics learning has been limited to rote skills and procedures, so-called "basic skills." The culturally responsive mathematics teacher recognizes the potential in every student to engage in mathematical thinking and finds ways to elicit students' mathematical reasoning.
 - b) Examples:
 - i) starting a lesson with a Number Talk that invites students to share their strategies about a specific problem. (see [here](#) for more details)
 - ii) using an instructional routine to engage students in discussing and connecting multiple representations used to solve contextual problems
 - iii) gather in front of a class Math Wall to reflect on their prior work and consider how it is related to a new question posed by the teacher
 - c) Questions for reflection:
 - i) What are the "big ideas" of mathematics my students will learn in this unit? This year?
 - ii) What is the prior mathematical knowledge my students may need to draw on to make sense of these big ideas?
 - iii) How am I giving students time to develop their own mathematical thinking? And how am I communicating that their thinking is what matters, not just their answers?
 - iv) How am I ensuring my students learn mathematics with coherence? What connections and relationships will help them to build conceptual understanding?
 - v) Am I encouraging students to make connections between multiple representations and strategies?
- 2) Engaging and valuing identities: How to honor students' experiences, communication practices and communities
 - a) Rationale: An important aspect of CRMT is to positively reflect students' cultures and communities within their learning in a nontrivial way...Communication is a part of everyone's daily life and must be fostered within the mathematics classroom. What CRMT asks us to do is recognize the ways our students communicate and allow them to use familiar, comfortable forms of communication as part of the learning of mathematics. This does not preclude the need to teach students academic language and mathematical notation, but the formal communication is best built after students have had opportunities to informally share ideas. ...Students are part of communities outside of school, and these environments are rich spaces for seeing and applying mathematical ideas.
 - b) Examples:
 - i) "One strategy they developed was to have students conduct short two-minute videos of interviews with a parent/guardian during back-to-school night asking the simple question, "How do you use math in your job or everyday life?" The result was a trove of examples of applications of mathematics, many of which were easily connected to topics the students would be studying. You can find examples of these parent videos on the project website: Tacib.Weebly.com"
 - ii) provide students with multiple means for communicating their mathematical thinking—language, visuals, gestures, and even calculator keystrokes—and then used these to introduce more formal academic language and mathematical notation
 - iii) Seek to join student spaces outside of school, these strategies also allow you to get a better sense of the ways students' lives are mathematically rich--

- c) Questions for reflection:
 - i) What have I learned about my students’ prior knowledge and skills—including the languages they speak and ways they communicate—and in what ways do I encourage them to use these in their learning of mathematics?
 - ii) How do I learn about the experiences and interests of my students? And how do I communicate that these experiences and interests are valued in relation to their learning of mathematics?
 - iii) In what ways do students see themselves and their communities reflected in positive ways while learning mathematics?
 - iv) How do I invite authentic, meaningful parent/community engagement in my students’ learning of mathematics?
- 3) Sharing authority: How to build inclusive, collaborative norms and routines
 - a) Rationale: The norms and routines that guide students’ regular interactions with one another about mathematics must be intentionally developed to support a sense of shared responsibility and ownership of mathematics knowledge and skills.
 - b) Examples:
 - i) A classroom Math Wall (either on the wall or on a virtual platform) is one way to provide a space to display students’ reasoning about specific problems to be referred to later
 - ii) establish norms for both acceptable and unacceptable behavior through role-plays
 - iii) setting up clear routines for engaging with mathematics tasks, such as those articulated by Kelemanik, Lucenta, & Creighton (2016; also see FosteringMathPractices.com/RoutinesForReasoning), provides structured ways for students to productively engage with mathematics and with one another
 - c) Questions for reflection:
 - i) In what ways do I position my students as having authority over the mathematics knowledge being developed?
 - ii) What norms have I established to ensure equitable participation and the reduction of unequal status among students?
 - iii) How do I support the different language needs in my classroom?
 - iv) What instructional routines do I use to scaffold students’ engagement in productive mathematical discourse and collaboration?
 - v) Who is given mathematical authority in my classroom? Who is not?
 - vi) What evidence do I have that my students are taking ownership of mathematics?
- 4) Applying mathematics: How to use mathematics to understand and investigate meaningful situations”
 - a) Rationale: While understanding mathematical concepts and relationships well enough to demonstrate proficiency with state-mandated assessments is important, it is even more critical for students to learn to use mathematics as a tool for investigating and critiquing issues within their communities. Too often “school mathematics” becomes compartmentalized and seen as something relevant only for an assessment or grade. What we want to work toward with CRMT is having students see mathematics as a tool for analyzing the world in which they live. This will strengthen students’ interest and engagement in mathematics
 - b) Examples:
 - i) Connect a significant mathematics content objectives as well as a significant social/cultural context--students make sense of mathematics and use mathematics to make sense of their world:
 - (1) Substitute examples in a generic problems with examples from the community
 - (2) Ask for examples connected to students’ lives and circle of familiarity
 - (3) Engage in current debates in the community (ie. placement of a building, traffic pattern, school enrollment, etc)
 - c) Questions for reflection:
 - i) How do I integrate concepts into instruction that are more relevant to my students?

- ii) How am I helping my students to see ways to use mathematics to analyze and address issues within their communities?¹⁷

¹⁷ <https://www.curriculumassociates.com/-/media/mainsite/files/ready-classroom-mathematics/ready-classroom-mathematics-cultural-responsiveness-whitepaper-2019.pdf>

Appendix 3: Rationale for 8th Grade Mathematics

To summarize consensus in much of what has been published by key voices in the world of mathematical education:

- 1) Compared to previous iterations of mathematical standards, Common Core is significantly more substantial in its treatment of, early introduction to and consistent scaffolding of algebraic rigor. “In the CCSS, students begin preparing for algebra in Kindergarten, as they start learning about the properties of operations. Furthermore, much of the content central to typical Algebra I courses—namely linear equations, inequalities, and functions—is found in the 8th grade CCSS...skipping material to get students to a particular point in the curriculum will likely create gaps in the students’ mathematical background, which may create additional problems later, because students may be denied the opportunity for a rigorous Algebra I... I course and may miss important content from eighth-grade mathematics” ([CCSS Math Appendix A](#) pg 80). Therefore, the decision to accelerate students must be done with incredible care and consideration of the potential trade-offs for doing so.
- 2) Research analysis of large scale studies in California ([which significantly increases the number of students in 8th grade taking Alg I in the early 2000s](#)) and North Carolina ([where 10 districts increases their 8th grade Alg I enrollment significantly between 1996-2008](#)) yielded similar results: (1) Students who took Alg I earlier performed overall less well in subsequent math courses, (2) More students did pass Alg I, but they were not more likely to take higher math courses, (3) the most harm is done to students at the lower end of the prior achievement distribution, and (4) students with higher previous mathematical achievement were affected very little in the positive or negative by the experience.
- 3) The previously mentioned study in California also found that students taking Alg I for the second time (after failing it in 8th grade) were less likely to pass the end of year state test than the 9th grade students taking end of year test for the first time. In other words, taking Alg I twice didn’t help, and in fact the students likely would have benefited more from preparing for Alg I in 8th grade rather than taking it.
- 4) Algebra 1 is viewed as a gateway course to college (ie. if students do not pass Alg I, the likelihood of attending college is near 0), and although approximately 60% of new college freshmen are assessed as unprepared for college-level work, less than half of students who start taking remedial math finish. [This means that students who are not ready for college math \(generally Algebra I with some Alg II\) are less likely to graduate.](#)

Please note: The High School Practices, Guidebook and Curriculum will be further developed upon the addition of high schools to our academic portfolio. The following work is based on the 21-22 school year (unless otherwise noted) **and is under construction for further research and codification.**

Part I | Social Studies & History at BRICK Schools

Purpose of this Guidebook

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key instructional routines, mind-sets and procedures used by ALL teachers and school leaders to raise student achievement. This guidebook outlines these items to ensure a high level of execution. All staff members are expected to read, internalize and practice the contents of this guidebook.

BRICK’s Mission

BRICK’s mission is to relentlessly knock down all barriers to students’ academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It’s our vision that each and every child will have an unimpeded path to unlocking their limitless potential.

Instructional Model Overview

The basis of our instructional model and everything we do is rooted in equity. BEN's instructional model is built on the belief that we must first understand the individual needs of our students and then design educational experiences that ensure all students achieve success. It is through an equity lens that we adhere to BEN's four tenets of instruction.

The intentional implementation of these four tenets, with fidelity, will break down all barriers to ensure access, opportunities, and success for all.

Tenet	Driver
<p>Rigorous PK-12 academic curriculum with Integrated Social Emotional Learning & Identity Development <i>Our PK-12 curriculum integrates rigorous academics with Social Emotional Learning to foster independent learners empowered by their respective identities and driven by purpose.</i></p>	<ul style="list-style-type: none"> Vertically Aligned PK-12 Curriculum Culture of Belonging Intentional Relationship Development Explicit Social Emotional Learning Instruction Culturally Sustaining Practices Independent Learning Time Student Voice College and Career Readiness Trajectory
<p>Continuous development & support of all staff <i>BEN develops content, skill and instructional expertise in teachers, support staff and leaders through coaching, real-time feedback, content deep dives, purposeful practice and strategic planning.</i></p>	<ul style="list-style-type: none"> Curriculum Based PD Summer Leader and Teacher Institutes Network & School Led Teacher PD Unit & Lesson Unpacks Observation Feedback Cycle Leader Content Development Residency Programs

<p>Data driven decision making We collect and analyze academic, SEL and program implementation data to <i>pinpoint the specific strengths and growth opportunities and adjust the actions of students, teachers and leaders to improve student outcomes.</i></p>	<ul style="list-style-type: none"> ● Frequent Review and Feedback on Student Work ● Strategic Assessments: Academic, behavior, and social-emotional data collection & analysis ● Program Implementation data collection ● Perception Data Collection ● Data Meetings & Reflection ● Sankofa Weeks of Reflection
<p>High-impact teaching and leading practices <i>Teachers, support staff and leaders implement BEN's high-impact, student-centered practices that convey compassion, urgency, inclusivity and rigor in all classrooms.</i></p>	<ul style="list-style-type: none"> ● BEN's Best Practices ● Culturally Responsive Teaching ● Accelerated Learning ● Arc of the Year Development

BRICK's Vision for Social Studies & History

“What you’re calling African history, Negro history, are the missing pages of world history. Read the history of the people who took you out of history, and you will find out why they were so insecure they had to take you out of history, why they could not stand for your history to compete with theirs.”

--Arturo Schomburg, in an interview with Dr. John Henrik Clarke during the mid 1930s.

“Almost keeping pace with the work of scholarship has been the effort to popularize the results, and to place before Negro youth in the schools the true story of race vicissitude, struggle and accomplishment. So that quite largely now the ambition of Negro youth can be nourished on its own milk.”

--from *The Negro Digs Up His Past*, Arturo Schomburg, 1925

- Our students deserve historical/socio-political literacy in every grade
- Our students need historical/socio-political literacy in order to best tell their story to the world
- Historical/socio-political literacy is necessary to survive and thrive in our democracy and in the digital public square
- Our History program strives to place the stories of previously marginalized peoples at the center of discussion and inquiry
- Our History program actively attacks and corrects white, Eurocentric historiography
- Our History program seeks to give our students the raw historical materials to own their story and become impactful members of our (struggling?) democracy

BRICK Education Network's Literacy Principles

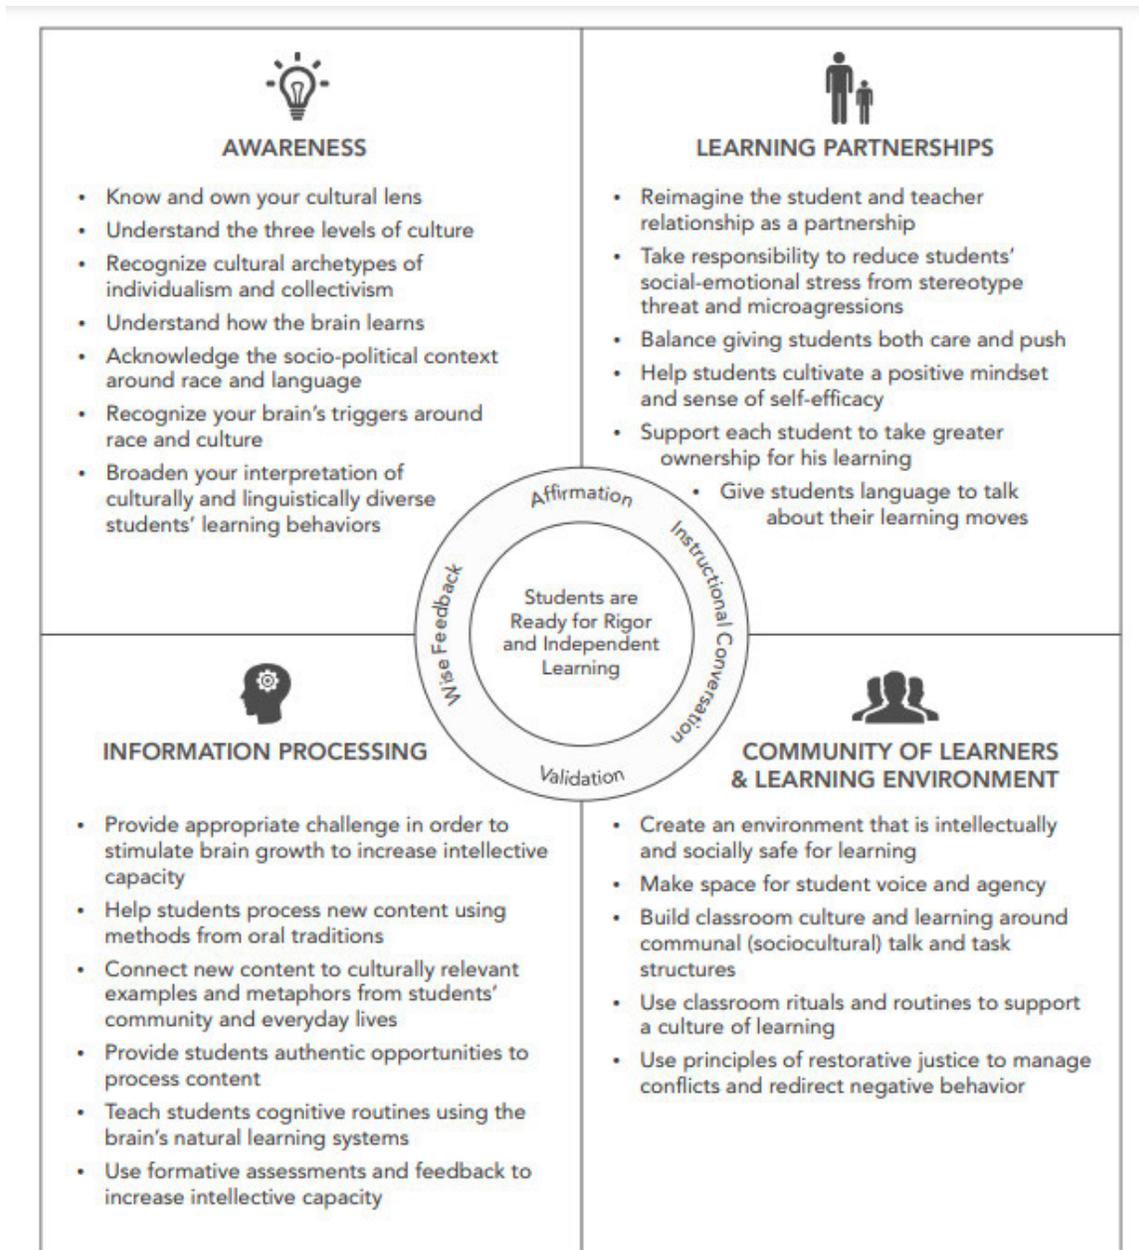

Social Studies and History are inherently reading and writing subjects. BRICK Social Studies and History teachers see themselves as reading and writing teachers along with ELA content teachers.

- **Reading is Thinking:** Being able to decode words is one important part of reading, yet it is not the ultimate goal. Acquiring knowledge and making meaning is the ultimate goal, which requires using schema to synthesize new information with previous information. This is a complex process that is not mastered quickly. It is something that develops over time with practice.
- **Step Up Every Day:** Every lesson, every bit of feedback, every paragraph read matters to students' reading development. The effects of our work are cumulative. Every day BEN teachers help students master key knowledge and skills to advance to the reading level.
- **Prove It:** Providing textual evidence is an essential skill for a reader to master. BEN students use various methods (i.e. the RACE method, annotation) to provide textual evidence to support ideas and statements made in class.
- **Productive Struggle:** Deep understanding of a text requires deep, critical thinking and profound discussion, which can only happen through productive struggle. Productive struggle is defined as providing students with the opportunity to grapple with complex texts and tasks (struggle), without reaching a frustrational level (productive).
- **Knowledge is Key:** Foundational knowledge is essential for comprehension of a diverse body of texts. Every BEN teacher is responsible for empowering our scholars to be life-long readers and learners through intentional amplification of content knowledge around science, civics, geography and history.
- **SEL Everyday and Always:** At BRICK, we believe that all stakeholders are responsible for contributing to the ongoing development of SEL skills. Our diverse canon of literature lends itself to explicit and implicit connections to the SEL competencies of self-awareness, social awareness, responsible decision making, self-management, and relationship skills. Any text worth reading should change the reader in some way and it is our goal that the texts chosen will allow our scholars to continuously practice the SEL competencies and skills.

Culturally Responsive/ SEL Practices in Social Studies & History

An important goal of the history program, in conjunction with other content areas, is to create an academic environment where all students can operate as independent learners. This means that the teacher offers affirmation to students as individuals, validates their concerns and experiences, invites them into instructional conversations, and provides wise feedback (Hammond, 17).

Four Quadrants of Hammond’s Ready for Rigor Framework:

In Social Studies/History:

Awareness

- Teacher and students share historical stories and/or artifacts that represent their cultural history or lineage
- Teacher frames history instruction around the socio-political context most relevant to students

Learning Partnerships

- Teacher leverages students personal interests and connection to history to tackle the challenging reading and writing tasks in the history class
- Teacher uses self-efficacy strategies to help students guide their own learning and development of history content and skills: reflection questions in Exit Tickets measuring how student's thinking has changed; opportunities to revise thinking after class discussions; goal tracking of assessments using rubric score benchmarks **(PRIORITY PRACTICE 2021-22)**

Information Processing

- The history program from grades 4 and up provides academic rigor aligned to success on the AP History Exam, which challenges students to mastery historical thinking skills and also retain conceptual understandings of time periods covered
- Teachers are aware of how their students' brains log information in long-term memory and use this knowledge to establish cognitive routines, and to pace out daily lessons and units **(PRIORITY PRACTICE 2021-22)**

Community of Learners

- Student voice is encouraged daily through participation in student discourse and flexibility afforded to students in how they interpret historical sources of each lesson and apply these interpretations to historical concepts
- Each unit of study contains a student-driven project (a case study or simulation) that allows students to apply historical concepts to a unique challenge. These are designed to be independently managed by students either individually or in groups. **(PRIORITY PRACTICE 2021-22)**

Accelerated Learning in Social Studies & History

Prior Knowledge

During each unit unpack, history teachers will identify concepts and skills students may need to have been exposed to previously to succeed in the unit.

Vocabulary

History teachers will also use the humanities program's systemic approach to vocabulary acquisition. Each unit has a set of pre-identified key concept terms that students should use in discussion and writing throughout the course.

Information Processing in History Class

Each history class has a set of conceptual understandings that students are expected to log in their long-term memory (i.e. the democratic elements of the Roman government; the causes of the Civil War, etc). Pacing of a BRICK history lesson uses brain science to maximize a student’s chances of retaining this information.

The historical thinking skills are cognitive routines (habits of mind) that students select from to help them process the concepts and read the historical sources.

Brain Structures	Strategies	Examples
<p>Input - Short Term Memory</p> <ul style="list-style-type: none"> Brain chooses to pay attention 	<p>Ignite--get the brain’s attention</p>	<p>Attention getters: pictures, puzzles, sound</p> <p>In History Lesson: Lesson Opening (Framing and Context Lecture)</p> <ul style="list-style-type: none"> -Call and Response -Musical cue -Provocative audio-visual -Talk
<p>Elaboration - Working Memory</p> <ul style="list-style-type: none"> Organize information into patterns Connect to what the brain already knows Stimulate dendrite formation into a permanent neural pathway 	<p>Active processing lasts only 12-20 minutes; followed by a Cycle-down for 10 minutes</p> <p>Chunk:</p> <ul style="list-style-type: none"> make information digestible Pace direct learning to 15-20 minutes segments <p>Chew:</p> <ul style="list-style-type: none"> Actively, independently process the information (5-7 minutes) <p>Provide Brain Breaks</p>	<p>Movement; Repetition; Story; Metaphor; Music</p> <p>In History Lesson: Lesson Opening (Framing and Context Lecture)</p> <ul style="list-style-type: none"> -One concept at a time, paired with audio-visual aides -Sequence each chunk so students can assemble them into the larger concept as they are received <p>In History Lesson: After Lecture or Time-in-Text:</p> <ul style="list-style-type: none"> -jot -turn and talk -discussion

	<p>Cognitive Routine: monitor and evaluate their comprehension</p> <ul style="list-style-type: none"> - Connection to what I know - Find relationships and patterns - How does it fit together? - Point of view 	<p>In History Lesson: Time-in-Text Annotations Students applies and assembles conceptual understandings with the text (using the prompt or historical thinking skills)</p>
<p>Application - Long-Term Memory</p> <ul style="list-style-type: none"> ● Revisit, review and apply the information 	<p>Revisit knowledge after 24-48 hours, repeat over time.</p> <p>Review--apply/revist new learning</p> <p>Rehearsal--using new knowledge</p> <p>Repetition--revisiting it</p>	<p>Review question; game; mystery or real-life problem; assessment and revisions</p> <p>In a history lesson:</p> <ul style="list-style-type: none"> -Do Now (lesson opening) -Review Game (any time) -Unit-Based case study or simulation project -Unit Test (study guide; assessment reflection and revisions)

Historical Thinking Skills | Grades 4-12

- 1) Contextualization
- 2) Historical Reasoning
- 3) Complex Understanding
- 4) Document Use
- 5) Recall of Historical Evidence

1) Contextualization

Students demonstrate contextualization when they:

- Describe a broader historical context relevant to the prompt.
- Relate the topic of the prompt to broader historical events, developments, or processes that occur before, during, or continue after the time frame of the question.
- Explains how a relevant context influenced a specific historical development or process.

2) Historical Reasoning

Students demonstrate historical reasoning when they *intentionally frame or structure an argument* around one of the approaches below. This allows them to use historical reasoning to explain relationships among pieces of historical evidence. The historical reasoning approach is the key lever of their argument, and they select which approach to use based on what they are trying to accomplish with their argument. There are three main types:

Comparison:

- Describe similarities and/or differences between different historical developments or processes
- Explain relevant similarities and/or differences between specific historical developments and processes.

Causation:

- Describe causes or effects of a specific historical development or process.
- Explain the relationship between causes and effects of a specific historical development or process.
- Explain the difference between primary and secondary causes and between short- and long-term effects.
- Explain the relative historical significance of different causes and/or effects.

Continuity or Change Over Time (CCOT):

- Describe and explain patterns of continuity and/or change over time.
- Explain the relative historical significance of specific historical developments in relation to a larger pattern of continuity and/or change.

Historical Reasoning Language Chart (not exhaustive):

Causation	Comparison	Change and Continuity over Time
<p>This led to...</p> <p>The impact of...</p> <p>The effect of _____ created a _____</p> <p>As a result...</p> <p>One reaction to...</p> <p>This caused...</p> <p>A reaction to this event/occasion...</p> <p>Because (of this)...</p> <p>Developed</p> <p>Retaliation/in retaliation</p>	<p><u>Similar</u></p> <ul style="list-style-type: none"> · Similarly · Likewise · In common · In the same way · Also <p><u>Different</u></p> <ul style="list-style-type: none"> · In contrast to · As opposed to · On the other hand, · Even though, · While, · One difference was · Although, · Whereas 	<p><u>Continuity</u></p> <ul style="list-style-type: none"> ● Maintained ● Remained ● Continued ● Endured ● Extend ● Outlive ● Persisted ● Sustain ● Preserved ● Still <p><u>Change</u></p> <ul style="list-style-type: none"> ● Before, Afterward/after ● At first _____, but then... ● Cease ● Halt ● Shifted ● While it began... ● Reversed

3) Complex Understanding

Students demonstrate a complex understanding of the historical development that is the focus of the prompt by using evidence to *corroborate, qualify, or modify an argument* that addresses the question. Students must synthesize and/or connect multiple perspectives or pieces of historical evidence. Put simply, the students demonstrate the complexity of the topic by explaining how the evidence shows additional and/or differing perspectives.

Types of Complex Understanding:	A response may demonstrate a complex understanding in a variety of ways, such as:
<p>Corroborate: confirm or add support to</p> <p>When to Use: you have additional evidence that makes your argument even stronger/clearer</p> <p>Sentence Frame: [Main Argument]... <i>Additionally</i>, [Corroboration Claim]</p>	<ul style="list-style-type: none"> ● Explaining relevant and insightful connections within and across periods ● Confirming the validity of an argument by corroborating multiple perspectives across themes
<p>Modify: make partial or minor changes to (something), typically so as to improve it or to make it less extreme</p> <p>When to Use: you have evidence that provides a</p>	<ul style="list-style-type: none"> ● Explaining nuance of an issue by analyzing multiple variables ● Modifying an argument by considering diverse

<p>slightly different (though not contradictory) perspective</p> <p>Sentence Frame: Although/while [Main Argument], [Modification Claim]</p>	<p>views or evidence</p>
<p>Qualify: make a statement or assertion less absolute; add reservations to</p> <p>When to Use: you have evidence that contradicts your argument</p> <p>Sentence Frame: [Main Argument]... <i>However</i>, [Qualified Claim]</p>	<p>• Qualifying an argument by considering alternative views or evidence</p>
<p>Historical Reasoning: Both Sides</p> <p>When to Use: the evidence suggests a clear pairing of opposites</p>	<p>• Explaining both similarity and difference, or explaining both continuity and change, or explaining multiple causes, or explaining both cause and effect</p>

4) Document Use

Students successfully use historical documents (primary, secondary, or historiographic sources) when they:

- Accurately describe—rather than simply quote—the content from the documents (demonstrating an understanding of the wider topic).
- Use the content of the documents to support or develop the argument in response to the prompt.
- Accurately interpret and use source information: point of view, purpose, historical situation, and/or audience, date.

5) Recall of Historical Evidence

Students must commit to memory and be able to recall important historical evidence.

Common types of evidence: historical perspective or point of view; development or circumstance; event or person; contributing factors; causes and effects; outcomes; responses; changes; significant dates.

Students demonstrate use of historical evidence when they:

- Cite or describe specific historical examples of evidence relevant to their argument or the prompt
- Cite multiple specific and accurate facts in support of their argument or the prompt
- If documents are provided: Elaborate on the topic with evidence not mentioned in the provided source

K-12 Social Studies Curriculum Continuum

Gr K	Students begin with their own physical location in this world, and expand from their neighborhood to their city, and eventually to the continent on which they live in <i>Let's Explore Our World</i> . In <i>Native Americans</i> , students learn about early Native Americans through the eyes of three representative children from the past, who live in three different North American cultural regions. <i>Civil Rights Leaders</i> celebrate the lives of people who faced injustice with bravery, and were able to make extraordinary changes for good. Students will then explore their own identity through stories and historical facts about their family, neighborhood, and the Newark community in <i>Newark is My Home</i> .
Gr 1	In <i>Continents, Countries, and Maps</i> , students use their newfound map skills to discover our world, and their place in it. Students then learn about ancient Mesopotamia in <i>Ancient Egypt</i> , where they study the geography of Egypt, specifically the Nile River, as well as the culture and beliefs associated with the ancient Egyptians. <i>Civil Rights Leaders</i> celebrate the lives of people who faced injustice with bravery, and were able to make extraordinary changes for good. Students will then explore their own identity through stories and historical facts about their family, neighborhood, and the Newark community in <i>Newark is My Home</i> .
Gr 2	In <i>Ancient Greece</i> , students explore the ideas, patterns of government, and art forms that have formed the basis of much of our own culture. Students then learn about <i>Immigration and Citizenship</i> from the 1800's to current day, particularly who the immigrants were to the U.S and why they came, and what happened to them once they got here. <i>Civil Rights Leaders</i> celebrate the lives of people who faced injustice with bravery, and were able to make extraordinary changes for good. Students will then explore their own identity through stories and historical facts about their family, neighborhood, and the Newark community in <i>Newark is My Home</i> .
Gr 3	Students learn about regions in the country and social-scientist roles (geographer, economist, political and social scientists, historian) Students learn to read social studies textbook passages and write structured responses to open-ended questions.
Gr 4	Student learn foundations of American History Students are introduced to primary and secondary sources, and begin writing evidence-based claims
Gr 5-6	Students take two back-to-back survey courses in World History that cover early human societies to the modern day. Students are introduced to historical thinking skills (Contextualization; Defensible Claim; Document Use; Document Sourcing; basic essay format writing) Student begin writing formal DBQ assessments
Gr 7-8	Students take two back-to-back survey courses in US history that cover American Colonization to the Civil Rights Movement Students continue to develop their historical thinking skills from grade 5-6, and are introduced to High School skills of Historical Reasoning and Complex Understanding.
High School	World History; USI; USII Students continue to develop historical thinking skills with more complex sources, as well as

	learning about how historiography affects our understanding of history Students take formal DBQ and Long Essay Questions (LEQ) assessments.
Beyond	By the end of High School any student should be able to meet success on the AP history exam and/or enter college prepared to history/humanities course work

NJ State Requirements & Recommendations

The BEN social studies/history program complies with both the letter and spirit of all New Jersey DOE laws and recommendations for instruction.

[Amistad Law \(2002-in effect\)](#)

Relevant excerpts are listed below:

Section 1.

b. All people should know of and remember the human carnage and dehumanizing atrocities committed during the period of the African slave trade and slavery in America and of the vestiges of slavery in this country; and it is in fact vital to educate our citizens on these events, the legacy of slavery, the sad history of racism in this country, and on the principles of human rights and dignity in a civilized society;

c. It is the policy of the State of New Jersey that the history of the African slave trade, slavery in America, the depth of their impact in our society, and the triumphs of African-Americans and their significant contributions to the development of this country is the proper concern of all people, particularly students enrolled in the schools of the State of New Jersey;

Section 2.

f. assist the Amistad Commission in marketing and distributing to educators, administrators and school districts in the State educational information and other materials on the African slave trade, slavery in America, the vestiges of slavery in this country and the contributions of African-Americans to our society [and] monitoring the inclusion of such materials and curricula in the State's educational system

Section 3.

g. Every board of education shall incorporate the information in an appropriate place in the curriculum of elementary and secondary school students

[S1028 Amistad Law Amendment \(2021-in effect\)](#)

Relevant excerpts are listed below:

Section 2.

f. The [Department of Education] Amistad Commission shall: survey, catalog, and [extend] recommend to the State Board of Education the expansion of, content about slave trade [and], American slavery education, and African-American history presently being incorporated into the [Core Curriculum Content Standards] New Jersey Student Learning Standards and taught in the State's educational system, the purpose of which is to ensure that all New Jersey students acquire a broad and deep knowledge of all people who contributed to the founding and development of New Jersey and the United States and to promote the self-esteem, confidence, and identity of students who previously may not have learned about past and living examples of people of their own cultural identity who have had positive impacts upon the American story.

Section 4.

Every board of education shall include, in the curriculum of all elementary and secondary school students, instruction that infuses into all courses on the United States, the centuries of accomplishments by African Americans in the building and development of America including, but not limited to, the areas of industry, military, government, and the professions; local communities; math, science, medicine, and space; architecture and the arts; social institutions and culture; and other aspects of life in America.

How Amistad requirements are met in the BRICK Social Studies curriculum (not exhaustive):

	Unit of Study
Grade 3	All units: Students explore all regions of the country using the social scientist lenses of socio-economics; politics; geography; history
Grade 4	Unit 1: Students learn about pre-Colonial Native Americans and engage in lessons that deconstruct stereotypes Unit 2: How were events in Colonial America perceived differently by different groups of people based on their experience and degree of power (colonists, slaves, Native Americans)?; students read about West African cultures, and slave narratives about the horrors of the Middle Passage and slave markets Unit 4: the Constitutional Period; How well did the early United States government protect the rights of all Americans? Unit 6: students learn about the struggle to end slavery and the Civil War Unit 7: Was America the land of opportunity for immigrants?
Grade 7	Unit 1: What is an “American”? Unit 3: How did changes in the 19th century move the nation from unity to war? Unit 4: Why did Reconstruction fail?
Grade 8	Unit 1: students study the perspective of previously marginalized voices in regards to American western expansion and overseas imperialism: Native Americans, Carlisle boarding school students, Mexican Americans, Chinese Immigrants, Puerto Ricans, Cubans, Filipinos Unit 2: students study how African American self identity shifted in the early 20th Century due to factors like World War, the Great Migration, and the Harlem Renaissance; students study how popular culture formed in the 1920s and continued to marginalize African Americans with racist tropes and stereotypes Unit 4: students study the Civil Rights movement and what makes movements for social change successful?

[Laura Wooten Bill](#) (2021-pending)

Relevant excerpts are listed below:

Section 1.

g: Requiring students to complete a civics course in middle school will ensure that all New Jersey students have the opportunity to gain the knowledge and skills for active citizenship;

Section 3.

Beginning in the 2022-2023 school year, each board of education shall provide a course of study in civics, which shall be taken by all students in an appropriate middle school grade. The course shall address: the values and principles underlying the American system of constitutional democracy; the function and limitations of government; and the role of a citizen in a democratic society. The board shall ensure that the course of study includes a minimum of two quarters of instruction, or the equivalent.

How Civics requirements are met in the BRICK Social Studies curriculum (not exhaustive):

	Unit of Study
Grade 3	All units: Students explore all regions of the country using the social scientists lenses of socio-economics; politics; geography; history
Grade 4	Unit 3: students study the reasons for American independence Unit 4: the Constitutional Period; How well did the early United States government protect the rights of all Americans?
Grade 7	Unit 2: students study the reasons behind American independence; the Constitutional Period, with deep analysis of the text of the U.S. Constitution and Bill of Rights; First Amendment case study (protected speech and the rise of 21st Century right wing extremism)
Grade 8	Unit 1: students study the government's role--Congress and the Executive Branch in particular--in the expansion of the United States and overseas imperialism Unit 4: students study the Civil Rights movement and what makes movements for social change successful?

Part II | Social Studies Core Curriculum K-2

Student Experience Narrative

My teacher said that today we are starting a new unit! I am excited to hear my teacher read aloud a story and show us cool photos! Sometimes, we also get to read on our own and answer questions with our classmates. After we read, I will try my best to use text evidence to answer the open ended questions and draw detailed pictures to match my answer. After the lesson, we will share our work with one another and find out what to expect the next day!

Overview/Vision/Key Components

In the early grades, BRICK sees Social Studies/History as deeply integrated with English Language Arts. As such, K-2 Social Studies at BRICK will be taught through the **Core Knowledge History and Geography (CKHG)** curriculum, whose objectives are correlated with the Common Core English Language Arts standards. BRICK has strategically chosen units that will both build students’ historical and geographical knowledge and provide them with the opportunity to think critically about past historical events and how those events have had a lasting impact. Additionally, students will participate in a unit titled “Newark is My Home” where they will explore their own identity through stories and historical facts about their family, neighborhood, and the Newark community.

Unit	Kindergarten	Grade 1	Grade 2
30 Minutes			
Unit 1	Let’s Explore Our World	Continents, Countries, and Maps	Ancient Greece
	<i>9 Lessons</i>	<i>7 Lessons</i>	<i>8 Lessons</i>
Unit 2	Native Americans	Ancient Egypt	Immigration and Citizenship
	<i>7 Lessons</i>	<i>7 Lessons</i>	<i>5 Lessons</i>
Unit 3	Civil Rights Leaders	Civil Rights Leaders	Civil Rights Leaders
	<i>8 Lessons</i>	<i>8 Lessons</i>	<i>8 Lessons</i>
Unit 4	Newark is My Home	Newark is My Home	Newark is My Home
	<i>4 weeks</i>	<i>4 weeks</i>	<i>4 weeks</i>

Accelerated Learning

To support students with gaps in learning due to at-home instruction, teachers will embed supporting structures into the K-2 SS curriculum. Additionally, teachers will gather periodic data to determine any areas of growth and develop reteach

and intervention plans to support all students. While it is imperative that we support all students where they are, it is important that all students continue to be challenged with grade-level appropriate content.

Exceptional Learners

All exceptional learners will continue to be challenged with grade-level appropriate content in addition to any supports outlined in their Individualized Education Plans. Classroom teachers will be supported by the Special Education team with providing interventions and modifications when necessary.

Lesson Structure

BRICK Plan for Implementation | CKHG

	Non-negotiables
Preparation	<ul style="list-style-type: none"> ■ Before the unit begins - print student workbooks ■ Internalize the questions that will be asked “During Reading” and “After Reading”. ■ Think about any additional stopping points (1-2) that you may want to include ■ Pull up any additional web resources (such as photos and videos; some will already be linked in the PowerPoint) ■ Set up materials needed for the day’s activity
Before Reading: (~5 mins)	<ul style="list-style-type: none"> ■ Read Aloud introduction Include hook/catchy opening ■ Activate prior knowledge from the day before ■ Provide access to any vocabulary words
During Reading: (~10 - 15 mins)	<ul style="list-style-type: none"> ■ Display Unit PowerPoint w/ key images, videos, text ■ Read the text while modeling fluency; when appropriate, have students participate in reading using student readers ■ Use the stopping points to ask quick questions or to do a think aloud ■ Incorporate varied techniques to increase student participation such as Turn & Talk, small group discussions, and whole group discussions <ul style="list-style-type: none"> ○ All required Turn & Talk questions are identified within the Unit PowerPoint
After Reading: (~15 - 20 mins)	<ul style="list-style-type: none"> ■ Use Turn & Talk to revisit “Big Question” ■ Chart/document student responses ■ Students complete an activity or work on a performance task

Key Components

Component	Description
Materials <i>All materials are linked in the K-2 SS Shared Drive as PDF/Google documents</i>	
Teacher’s Guide	The Teacher’s Guide includes detailed lesson plans, activity page masters, additional activities, and assessments. It also provides teacher with important background knowledge to be used within the unit and additional resources to reinforce key concepts
Unit PowerPoint	Key images, videos, and text from the Student Reader are compiled into a Unit PowerPoint. Stopping points questions, support materials, and important information from the Teacher Guide are included in the presentation notes section.
Student Readers	The student readers contain illustrated and engaging stories to accompany lessons. Each student (or pair of students) will use the book throughout the unit to participate in the read aloud and/or assist with completing activities or assessments.

	<i>*These books are available within the shared drive as a PDF document. Teachers should print a class set (one for each student or pair of students).</i>
Student Workbooks	All student activity pages are compiled into an easy to use workbook to be used throughout the unit.
Online Resources	CKHG has compiled supplemental resources for all units such as videos, images, and readings. These documents have been downloaded from the curriculum website and added to the shared drive. <i>*Many of the resources are already embedded in the Unit PowerPoints.</i>

Classroom Environment

One bulletin board within the classroom should be dedicated to showcasing the current unit materials. This board should be updated frequently to include:

- Unit Title
- Essential Questions & Objectives
- Core Vocabulary
- Unit Anchor Charts
- Students Work

Assessment Methods/Data Cycle/Grading Resources

Assessment <i>* Descriptions adapted from Core Knowledge *</i>	
Culminating Activity	The Culminating Activity is a multistep activity that provides students an opportunity to review unit content knowledge prior to the Unit or Performance Task Assessments. Students will have a chance to play a unit-related game, learn and sing a song about the unit, or create a collaborative classroom mural and/or museum of craft projects they have made to represent artifacts from the time period and culture studied. At the end of the Culminating Activity, students will also assemble and discuss a mini-book version of the Student Book that they can take home to share with family members.
Performance Task	The Performance Task Assessment allows students to apply and demonstrate the knowledge learned during the unit by drawing and talking about images representing key content. The Performance Task is completed at the end of the unit and graded using a rubric created by CKHG (included in the Teacher Guide).
Unit Assessment	The Unit Assessment tests knowledge of the entire unit, using a standard testing format. The teacher reads aloud multiple-choice questions or fill-in-the-blank statements, and students are then asked to answer these questions by circling a picture representing the correct response on the Unit Assessment Student Answer Sheet.

Grading Policies

All Benchmark Assessments should be graded and inputted into the gradebook using the category “Tests/Quizzes”. Each week, students will have *at least* one homework assignment. There will also be *at least* one classwork assignment each day within the Student Workbook. As outlined in the [BRICK Instructional](#)

[Guidebook](#), teachers need a **total** of 10 assignments for each marking period in the gradebook; all Benchmark Assessments are included in this group of assignments.

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

<p>Prior to Lesson</p>	<p><i>This week, we will begin a new unit! I looked in the Shared Drive and located the powerpoints and texts we will read. I've already read through and annotated the materials and have the chants created to help my students remember the key vocabulary. My grade team worked together last week to print the workbook for each student and now I must put them in each student's folder. The first lesson looks so interesting - I will project the PowerPoint on the board and chart my students' responses on a clean anchor chart. I can't wait to gather all their thoughts as we move through this unit!</i></p>
<p>During Lesson</p>	<p><i>My class is doing so well listening attentively as I read the text. I am even able to get the students to help read at various points in the lesson. We take our time learning the vocabulary words and answering the comprehension questions. I engaged all students by switching up my engagement strategies - raised hands, turn and talks, whole group discussions - all of the students participate and have an opportunity to share their ideas! As we read, I document ideas on the anchor chart.</i></p> <p><i>After we finish the read aloud, the students go back to their seats to complete the independent practice in their workbook. I circulate to support and take note of any students who are having a hard time. Then, I collect the books and we close out for the day. We give shout outs and record iDREAMs scores.</i></p>
<p>After Lesson</p>	<p><i>I take note of who struggled today and figure out a way to better engage them tomorrow. I prep the next day's read aloud by writing down my questions and identifying any particular students I will call on.</i></p>

Intellectual Prep & Meeting Structure

For a more detailed outline of responsibilities for Lesson Unpacks, Unit Unpacks, and Lesson Planning, please refer to the [BRICK Instructional Guidebook](#). Below are the specific responsibilities related to the K-2 Social Studies Program:

Component	Description	Frequency, Support & Deliverables
<p>Lesson Unpack</p>	<p>This time will be used to review major components, activities, and standards of the week's key lesson identified by the Director and Course Lead. Teachers should:</p> <ul style="list-style-type: none"> ● Read and annotate Teacher's Guide/lesson plan <ul style="list-style-type: none"> ○ Teachers are able to download unit PowerPoint from the Shared Drive and add to <i>presentation notes</i> section ● Complete all student work including "Big Question" exemplars ● Identify the misconceptions/potential errors in the student work 	<p>Weekly; Independent OR w/ School Grade Team; deliverables checked by direct School Administrator</p>

	<ul style="list-style-type: none"> ● Prepare data collection sheets 	
Unit Unpack	<p>This meeting will be used to review the major components, activities and standards of the upcoming unit. Teachers should:</p> <ul style="list-style-type: none"> ● Read and annotate Teacher’s Guide <ul style="list-style-type: none"> ○ There will be a unit reflection sheet to capture notes, which will serve as “annotations” if using an electronic copy of the Teacher Guide ● Pre-read Student Reader ● Complete an exemplar of the unit’s Performance Task and End of Unit Assessment 	1x/month; Virtual w/ Grade Level Course Lead; deliverables checked by Grade Level Course Lead
Lesson Planning & Preparation	<p>Each teacher will need to dedicate time to internalize all lessons and prep lesson materials. This planning and preparation time includes, but is not limited to, the following tasks:</p> <ul style="list-style-type: none"> ● Downloading the previewing supplemental material and videos from the unit’s Online Resources documents ● Annotating Teacher’s Guide Pages and complete student work exemplars <ul style="list-style-type: none"> ○ Student work exemplars should be posted outside classroom ● Set up materials for independent activity and/or Performance Task ● Develop a plan to gather student data <ul style="list-style-type: none"> ○ Each week, teachers are expected to report proficiency on major tasks (i.e. responses to Big Question) 	Weekly Planning & Daily Preparation; Independent OR w/ School Grade Team; deliverables checked by direct School Administrator

Part III | Social Studies Core Curriculum 3-8

Student Experience Narrative

When I come into my history class, my teacher has shared all the materials for the day that I will need. The Do Now always gets me thinking about something interesting. Then the teacher connects that with what we will be reading about. Usually she gives a mini lecture with lots of great pictures that help me see what she is talking about. All the information is easy to follow because she fits all the pieces together in a sequence that helps us understand. I actually prefer this to the YouTube videos--it's just better somehow. Next we attack the prompt, so we understand the big question that we are trying to figure out. Then we start reading and annotating our sources. Sometimes it is a lot to read, but it is fun because we are looking for specific details. It's like trying to solve a mystery.

The best part of history class is what happens next. The teacher asks a question about what we just read and then tells us to talk it out, using our habits of discussion of course. We have to share what we think and give the best evidence that we found. It can be exciting to see who agrees or disagrees with you. Sometimes another student explains one of the sources that I didn't read very well, so I get to add their ideas to my notes. When that is over, we answer the exit ticket. Here the teacher usually tells us to practice one of our historical thinking skills like adding historical context or writing a document sourcing statement. We get feedback on this the next day, which helps us become better history writers.

Homework is usually reading a few pages from the textbook. I didn't like this at first because it's not as interesting as what we do in class. But I get to add a lot of dates to my timeline, and the facts you read about really do come in handy the next day when we are reading and discussing. I also love the unit projects when we get to pretend like we are characters in history, or we solve a problem happening in our society today. We're supposed to use what we learned in class, but it's really up to us what we create.

My teacher knows more about history than anyone I have ever met. She really shows us why it's important to know all this stuff that happened in the past.

Overview Gr 3-8

The elementary and middle school social studies program is designed to provide all students with a strong foundation in history and social studies knowledge. They learn key social science concepts, with survey courses in world and American history. By 8th grade, students will have mastered standards-based historical thinking skills that will set them up for success in high school.

Course Descriptions

Grade 3

Students will develop essential background knowledge and skills that will aid them in their regional study of the United States. They will gain skills and background knowledge to answer the year-long essential question: “How do geography, culture, economics, government, and history interact to shape a diverse, yet united country?” Students will refine their understanding of the four key social sciences—geography, history, economics, and government—that ground their year-long study of our country’s five primary regions, including their home state. In each of the units, students will assume the role of each of those social scientists to solve problems and learn about the country.

While building essential content knowledge, the course also supports nonfiction reading proficiency by building foundational Common Core literacy skills, including: use information gained from illustrations (e.g., maps, photographs) and the words in a text to demonstrate understanding of the text; interpret many different types of maps, illustrations and photographs; recount key details and explain how they support the main idea; identify key details from multiple texts to support a main idea. Students will be expected to read grade-level texts with increasing independence.

Students will have opportunities to relate their learning to their lives while also being exposed to new information about their country and the people who live here. This building of cultural relevancy and cultural capital are essential parts of BRICK’s Elementary Social Studies program. They will come to see the United States as a place that is defined by the diverse people who have lived here throughout history and still live here now. Through this learning, students will be exposed to new knowledge about their country, and finding their place in our nation’s diversity.

Grade 4

Continues to develop skills in history, geography, civics, citizenship, government, and economics. Each unit contains an essential question that focuses on specific time periods and issues in American history. Students learn why people first migrated to America and how they adapted to the different environments; they then investigate four American Indian cultural regions and the cultural adaptations made by the groups to the environments in each region (Unit 1). Students will learn the perspectives of American Indians, early explorers, English settlers, American colonists and colonial slaves (Unit 2). Students trace the history from the tensions before the American Revolution through the war itself, then study the perspectives of Loyalists and Patriots and represent the historical figures in a panel debate; they analyze the purpose of the Declaration of Independence (Unit 3). Students study an array of opinions and issues facing the young nation as it formed a government, wrote foundational documents like the Constitution and Bill of Rights, and established political philosophies and precedents (Unit 4). Students learn about the United States’ expansion westward in the 1800s, evaluating the choices that the United States made to acquire more land and comparing the perspectives of the diverse people living in and coming to this West (Unit 5). Students will examine key events that led to the Civil War, the war itself and its aftermath in the Reconstruction era (Unit 6).

Students grapple with two year-long essential questions. With the first—*How can we organize our understanding of the past?*--students will practice different ways to organize and internalize historical information. With the second essential question—*How can a single event in history be perceived differently by multiple people based on their experience and degree of power?*--Students will establish an understanding of multiple perspectives and experiences through inquiry into a variety of American experiences.

While building essential content knowledge, the course also supports fiction and nonfiction reading proficiency by building foundational Common Core literacy skills, including: gathering and synthesizing information from texts and images; selecting accurate, sufficient evidence to support their thinking; write and speak about their findings to an audience; interpreting special-purpose maps; interpret metaphors in order to make sense of abstract concepts; explicitly read texts in order to explain events in sequence, including what happened and why; perform close readings of text, determining the meaning of key words and phrases; use explicit and inferential meaning to draw out the most important ideas from foundational documents like the Declaration of Independence, Constitution, and Bill of Rights, and apply them to realistic scenarios and Supreme Court cases; interpret information presented orally and explain how the information contributes to an understanding of a text; explain how an author uses reasons and evidence to support particular points in a text. This course's writing rubric also sets a foundation for middle school Historical Thinking Skills and written responses to Document Based Questions.

Grade 5

This course kicks off BEN's four-year middle school social studies program, which is designed to graduate our 8th graders prepared to apply *Advanced Placement History* skills in high school history classes. In grade 5, students take the first year of a two-year World History survey course. Through a rich mixture of primary and secondary sources, artifacts, visual presentations, graphs, and maps, students learn about early human societies and adaptations to various ecosystems; key developments in hominid evolution; how and why the first civilizations developed as they did; an exploration of the cultural artifacts of those civilizations, such as painting, sculpture, architecture and poetry; the rise of early forms of government, including comparing and contrasting the features of Athenian and Roman democracy.

In addition to this essential background knowledge that students are expected to retain, students have ongoing practice with Historical Thinking Skills derived from *AP History* standards, assessed through the formal Document Based Question Writing Rubric. These are: Contextualization; Defensible Claim; Document Use; Document Sourcing; Grammar & Organization of formal essay writing. The Historical Thinking Skills are cognitive routines (habits of mind) that students select from to help them read the historical sources and process the concepts. Students are assessed quarterly with rigorous multiple choice and DBQ exams. In addition, there is a year-long, student-directed independent project where students work with partners to design an ideal society by applying the concepts from each unit.

Accelerated Learning

Prior Knowledge

During each unit unpack, history teachers will identify concepts and skills students may need to have been exposed to previously to succeed in the unit.

Vocabulary

History teachers will also use the humanities program's systemic approach to vocabulary acquisition. Each unit has a set of pre-identified key concept terms that students should use in discussion and writing throughout the course.

Exceptional Learners

All exceptional learners will continue to be challenged with grade-level appropriate content in addition to any supports outlined in their Individualized Education Plans. Classroom teachers will be supported by the Special Education team with providing interventions and modifications when necessary.

Core Curriculum Content

Grade 3

Unit	Essential Question	Lessons
Unit 1: Intro to Regional Study	How do different social scientists study our country? How do geographers study the regions of the United States? How have different groups contributed to the United States throughout its history?	19
Unit 2: The Northeast	What makes the Northeast unique?	20
Unit 3: The Southeast	What makes the Southeast unique?	19
Unit 4: The Midwest	What makes the Midwest unique?	19
Unit 5: The Southwest	According to a social scientist, what makes the Southwest unique?	17
Unit 6: The West	According to a social scientist, what makes the West unique?	18
Unit 7: Research Your State	How would social scientists describe your state?	13

Grade 4: US History

Unit	Essential Question	Lessons
Unit 1: American Indians	How were the lives of American Indians shaped by their environments?	14
Unit 2: Colonial America	How were events in Colonial America perceived differently by different groups of people based on their experience and degree of power?	25
Unit 3: American Revolution	What did independence mean during the American Revolution?	26
Unit 4: Early United States	How well did the early United States government protect the rights of all Americans?	25
Unit 5: Moving West	How did moving West change America?	19
Unit 6: Civil War	How did the Civil War and Reconstruction reshape the United States?	24
Unit 7: A Growing Nation	Was America the land of opportunity for immigrants?	13

Grade 5: World History I

Unit	Essential Question	Lessons
Unit 1: Humans and the Environment	How does living in communities allow humans to survive in the environment?	24
Unit 2: The Rise of Civilizations	How did human life change after the invention of agriculture?	21
Unit 3: World Religions	To what extent do world religions share similar key beliefs and histories?	24
Unit 4: Classical Era Empires	How do empires expand and maintain territory?	22
Unit 5: The Fall of Empires	Why do empires fall? What happens after empires fall?	24

Grade 6: World History II

Unit	Essential Question	Lessons
Unit 1: Post-Classical Era: Islam and Islamic Empires	What are the historical origins of Islam? What are the main beliefs of Islam? How do the main beliefs of Islam and Christianity compare?	25
Unit 2: Long-Distance Trade in the Post-Classical Period	How did the rise of long-distance trade change the Post-Classical World?	23
Unit 3: Post-Classical Trade-Based Empires	How do nations and empires change when they have a trade-based economy?	24
Unit 4: Comparing Land-Based Empires (14th to 17th Century)	How did states consolidate and/or expand their power from the 14th through 17th centuries.	26
Unit 5: Maritime-Based Empires	What were the lasting impacts of European colonization of the Americas?	25

Grade 7: US History I

Unit	Essential Question	Lessons
Unit 1: Colonial America	What is an “American”?	1-24
Unit 2: Freedom and Order in the US Government	To what extent does the U.S. Constitution strike a balance between liberty and order?	1-22
Unit 3: The Coming of the Civil War	How did changes in the 19th century move the nation from unity to war?	1-24
Unit 4: The Failure of Reconstruction	Why did Reconstruction fail?	1-24
Unit 5: The Gilded Age and the Progressive Response	What effects did the Second Industrial Revolution have on American society?	1-24

Grade 8: US History II

Unit	Essential Question	Lessons
Unit 1: U.S. Identity, Expansion, and Imperialism	Why do modern nations expand?	32
Unit 2: Contested American Identity in the Early 20th Century	What did it mean to be a modern American?	22
Unit 3: The Great Depression and World War II	Did World War II promote or undermine democracy in the United States?	24
Unit 4: The Civil Rights Movement	What makes movements for social change successful?	24
Unit 5: The Cold War	How did the Cold War impact American society?	24

Lesson Structure

Grade 3-4

Preview Lesson	Learning Experience Lesson	Processing Assessment Lesson
Opening & Framing Introduce New Material (INM) Reading & Discussion Application (Exit Ticket) Vocabulary	Cumulative Review & Framing Guided Inquiry or Modeling Reading & Discussion Application (Exit Ticket) Closing	Do Now & Framing Instructions Processing Assessment Extension Activity

Grade 5-8

Close Reading Lesson	Student Investigation Lesson	Seminar Discussion
Opening: Framing & Context Close Reading Loops <ul style="list-style-type: none"> • Independent Time in Text annotations Whole Class Discussion Synthesis Writing (Exit Ticket)	Opening: Framing & Context Inquiry: Student Investigation <ul style="list-style-type: none"> • Collaborative reading • Graphic organizer note-catcher Whole Class Discussion Synthesis Writing (Exit Ticket)	Framing Discussion Prep Whole Class Discussion Rounds Synthesis Writing (Exit Ticket)

Example of a Middle School Close Reading Lesson:	Close Reading and Discussion Loops - 60 min		
	Loop 1	Procedure	Exemplars
	Sourcing (4 min)	Direct students to source Source A: Annotate key details and write a source statement. (2 min) Remind students of our sourcing look-fors: Historical Context, Intended Audience, Purpose, Point of View (HIPP) Warm call 1-2 students to share out their statements. (2 min)	If student do not do so on their own, prompt them to compare the date to the provided timeline (historical context) Historical Context: Speech given in 1896, two years before the Maine was destroyed and America entered the Spanish American War Purpose: He is responding to Americans who want to get involved in Cuba, perhaps aware they are being whipped up by yellow journalism to intervene.
	Close Read & Discussion (10 min)	Students independently read Source A, entire text. Annotate for the Loop One Question: How does President Cleveland view America's relationship with other countries? Discussion: Everybody writes: students jot down an answer to the loop question Turn and talk: share answer with partner Teacher warm call one or two scholars	Exemplar: Cleveland <u>believes</u> America should not intervene in the affairs of other nations and should seek peaceful relations with all. While Cleveland believes American businesses can have financial connections to other countries such as Cuba, and sympathizes with Americans who think we should get involved in the Cuban Revolution, he nonetheless believes the United States should not get involved. He makes three main arguments. One, he believes that " <u>might does not make right</u> " meaning that just because we can impose our will militarily that does not mean that we should or that good will come of it. This is a common anti-imperialist view that America should not impose its will on others with force. Second, he says that America is a peaceful country that should strive to have friendly relations with other countries. Presumably he is making the case for peace with Spain in particular. Third, he argues that America has enough territory and wealth that it does not need " <u>acquisition of</u> " Cuba or to interfere with Spain's control of it.
Differentiation	Back-pocket questions: 1. If student struggle, direct them to the three points made in paragraph 2	Student-specific strategies:	

Example of a Middle School Student Investigation Lesson:	Student Investigation and Discussion Rounds - 57 min		
	Rounds 1-3	Procedure	Exemplars
	Close Read & Discussion (30 min)	<p>Place students into reading groups. They will move through all three rounds without interruption.</p> <p>Monitor student work and provide feedback based on the exemplar below. Provide time checks for students.</p> <p>Round 1: 8 minutes</p> <p>Groups read Source A and complete the Round 1 graphic organizer, including the claim.</p> <p>Round 2: 12 minutes</p> <p>Groups read Source B and complete the Round 2 graphic organizer, including the claim.</p> <p>Round 3: 8 minutes</p> <p>Groups read Source C and complete the Round 3 graphic organizer, including the claim.</p>	See below
	Differentiation	<p>Strategically group students.</p> <p>Back Pocket Questions:</p> <ul style="list-style-type: none"> • How are Cuba and Puerto Rico connected from the imperialists point of view? • How did the Americans explain their intentions to the Puerto Ricans? 	Student-specific strategies:
	Student Discourse	Procedure	Exemplars
Discussion (10 min)	<p>Discussion: Why did the United States invade Puerto Rico?</p> <p>Small Group Collaborative Response - circulate to monitor</p>	See Below	

Classroom Environment

History classrooms should be a visual and print rich environment. Walls should be covered in posters that depict historical events and artifacts, maps, and timelines. Teachers should select images that reflect their own historical interests, and that provide uplifting or affirming messages to students.

One bulletin board within the classroom should be dedicated to showcasing the current unit materials. This board should be updated frequently to include:

- Unit Title
- Essential Questions & Objectives
- Core Vocabulary
- Unit Anchor Charts
- Students Work

Program Materials & Resources

The curriculum does use a textbook (mostly for homework readings). It is not necessary for students to have their own copy, since the relevant pages are provided as scanned pdfs in the BEN Social Studies/History Shared Drive. However each classroom should have a physical copy of the book for reference.

Grade 3	<p>Lesson based handouts and Exit Tickets (to be printed for each student prior to lesson)</p> <p>Textbooks: Social Studies Alive: (2016 Edition/ Student Edition) 1 per student</p>
Grade 4	<p>Lesson based handouts and Exit Tickets (to be printed for each student prior to lesson)</p> <p>Textbooks: Social Studies Alive: America’s Past (2010 Edition/ Student Edition) 1 per student</p> <p>Encounter by Jane Yolen (1 per student)</p>
Grade 5-6	<p>Lesson based handouts and Exit Tickets (to be printed for each student prior to lesson)</p> <p>Textbooks: History Alive!: The Ancient World History Alive!: The Medieval World https://www.abebooks.com/servlet/BookDetailsPL?bi=19268609205</p> <p>World Map and Globe</p>
Grade 7-8	<p>Lesson based handouts and Exit Tickets (to be printed for each student prior to lesson)</p> <p>Textbooks: History Alive! The United States https://www.teachtci.com/ The book is also available through various vendors on Amazon: https://www.amazon.com/History-Alive-United-Bert-Bower/dp/1583711872/ref=sr_1_2?keywords=History+ALive%3A+the+united+states&qid=1569342524&sr=8-2</p> <p>The ISBN number for that particular edition is 1-58371-187-2</p> <p>United States and World Map</p>

Student Materials

Student Materials	Contents	
Student Workbook (1 per sub-unit)	-all readings, directions, graphic organizers for each lesson in the sub-unit -all lesson Do Nows -unit vocabulary page -end-of-unit assessment reflection page	
Daily Exit Tickets	Not provided--student answer on separate paper or via Google Doc	
Student Homework Packet (1 per sub-unit)	-all readings (including pdf copies of text book excerpts), questions, graphic organizers for each homework assignment in the sub-unit	
DIRT Quiz	Individual Google Docs located in the History Shared Drive--to be given to students when called for in the unit scope and sequence	
Unit Assessments (1 per sub-unit)	Individual Google Docs located in the History Shared Drive--to be given to students when called for in the unit scope and sequence. Can be printed or shared digitally.	
Student Notebook -Cornell Notes -Timeline -Geography	Not provided--students take notes on their own paper or notebook based on proscribed classroom practice. NOTE: All homework readings call for students to create Cornell Notes (see description here). When Lesson Plans call for notetaking, there is usually a place for notes provided in the Student Workbook. However, content will sometimes emerge during a lesson which students will want to record in an organized place, so a history notebook is recommended. Students will also need a place to keep unit timeline and geography practices.	

Teacher Resources	Contents
At A Glance Google Sheet (1 per unit)	<ul style="list-style-type: none"> -Unit Summary; Scope and Sequence Notes -Exit Ticket List; type of sources; type of assessment questions and skill focus -Homework: lists in which lesson to give out and to review each homework assignment -Timeline: list of key dates and events covered in the unit -Geography: list of locations covered in the unit
Conceptual Understanding Notes (1 per unit)	a note taking template for you to summarize the key conceptual understandings and skills of each lesson
Unit Overview	The official Achievement First unit plan: <ul style="list-style-type: none"> -detailed summary of content and skills -assessment information -unit vocabulary lists -essential questions and enduring understandings -brief description of each lesson topic and assessment
Unit Assessment Scoring Notes	<ul style="list-style-type: none"> -assessment requirements broken down into sections with rubric language -exemplar responses for each component -non-exemplar responses
Course Textbook(s)	A reference copy will be provided to each teacher

Assessment Methods/Data Cycle/Grading Resources

A typical unit of study in a BRICK history course contains two subunits, each of which focuses on a specific time period. The content of each subunit, while distinct, are related around a common topic or theme from that time period. Each subunit is assessed with multiple choice questions, short answer questions, and a formal piece of historical writing, either a Document Based Question (DBQ) or a Long Essay Question (LEQ).

Unit Exam Components

Component	Quantity	Point Value
Extended Writing: DBQ or LEQ	1	20 points
Short Answer Questions	2-3	3 per question
Multiple Choice	10-14	1 per question
Total:		30-40 points

BRICK History Rubrics

[Grade 3-4](#)

[Grade 5-8](#)

[High School](#)

NOTE: These rubrics place historical thinking skills along a continuum that prepares students to do high school-level history work by the end of middle school. They synthesize historical skills and standards taken verbatim from AP history exam scoring guidance. See original source materials below:

[AP History Rubrics](#)

[AP Scoring Notes](#)

History Data Cycle

Instruction	Teaching daily lessons; administering Exit Tickets and other formative assessments; providing weekly feedback on targeted skills and content gaps
Review Day	Prior to unit assessment: Conferencing; Feedback; Study Guide
Unit Assessment	Administer formal assessment in Illuminate; assesses student master of content knowledge and historical thinking skills
Data Meeting	After norming and scoring, teachers meet to action plan based on assessment results. Identify priority historical skills for next unit. Plan batch, group, and individual feedback.
Response to Data Day	Teach high leverage skills and content based on gaps and misconceptions from the assessment. Can be whole class or small groups .

Instruction	Spiral priority historical skills into lessons and Exit Ticket feedback.
--------------------	--

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

The first thing I do to prepare for my history class is read all the historical sources and homework assignments for each lesson in the unit. When you read it all start to finish in order, just like the kids will read it, the readings tell a story. It gives me a strong grasp of the history content students will cover. I take notes as I go to identify the most important historical conceptual understandings I want students to learn. The Unit Unpack meeting is also helpful. The grade-level team gets to compare their notes, and we identify which lessons and exit tickets will be important or challenging, and we break down what success on the assessment looks like.

Next I tackle the lesson plans. This is sometimes a challenge because some of the plans are difficult to interpret because of how they are written. It helps **a lot** that I already know exactly what is in the sources and what main ideas students should get from each lesson. You also get the hang of the lesson flow. It's pretty similar each day, and as I break down the lesson plan I add information and my script to the lesson slide deck template. You start with the Do Now. Then you frame the day's learning. Sometimes you give a context lecture. Here it is important to chunk the information into digestible pieces, and throw in a lot of visuals. Then you give students the annotation focus and have them start to read and annotate the lesson sources. After that, you facilitate the discussion. I like to have "no-hands" seminar discussions, where students jump in unprompted with their ideas and evidence, using their habits of discussion. Sometimes I have to steer them back to the sources, but I try to fade into the background during this part of the lesson. After the discussion, they complete the Exit Ticket and we're out.

Everyday I set aside time to read their Exit Tickets and provide feedback based on our priority historical thinking skill, such as providing historical context or writing a defensible claim or a document sourcing statement. This is really helpful in building a student's historical writing capacity week to week.

One challenge is pacing. Each lesson plan requires only 50-60 minutes but the period is 90 minutes. So I had to shift my thinking from teaching a lesson a day to teaching a lesson in one-hour blocks. Some days I will teach a complete lesson, give a brain break, and then teach the first half of the next lesson. I reference the network scope and sequence doc, which provides precise guidance. Then I schedule my week in my own pacing calendar. I identify when I plan to give formal exit tickets, and also where to make a stopping point in the middle of a lesson.

Intellectual Prep

Lesson Planning Steps	Guidance	Teacher Output
Step 1 Annotate the texts or documents	Annotate for: <ul style="list-style-type: none"> key features of the documents passages or phrases of the texts that carry important meaning What are the most important “do not ignore” (DNI) moments in documents 	Complete exemplar annotations for on your copy of the text or documents
Step 2 Exit Ticket Exemplar	Annotate the provided exemplar response to the Exit Ticket: <ul style="list-style-type: none"> Elements of the correct answer you will look for during aggressive monitoring Content or ideas you think scholars will most likely over-simplify or overlook 	Annotate the exemplar in the lesson plan
Step 3 Articulate the lesson’s big idea	What is the key historical or social concept or skill students will take away from this lesson? How do you know if today’s lesson will have been successful?	Annotate the Prepare Scholars for Inquiry/Lesson Framing portion of the lesson plan with what you will say to students (or what you will stamp if it is already written in the plan)
Step 4 Internalize the plan	Annotate for any of the following: <ul style="list-style-type: none"> What is the purpose or goal of important lesson components? What are important points in the lesson to check for student understanding? What is your biggest anticipated misconception/error and how will you address it? 	Annotate lesson plan components with teacher-actions

Meeting Structure

Types of Weekly Meetings	
Unit Unpacks	Teachers discuss the important historical content and skills of the unit or subunit and how it is assessed on the end of unit assessment
Lesson Unpack: Standard	Teachers detail their expectations for student work (Exit Ticket responses), and practice a critical part of the lesson
Lesson Unpack: Looking at Student Work	Teachers use recent student work to identify misunderstandings and then name how to change instruction to address them; then they practice those action steps using an upcoming lesson
Lesson Unpack: for Beginners	The Course Lead walks the teacher through each step in a lesson plan while the teacher annotates how they will deliver each part
Data Meeting	Teachers analyze recent assessment data (from a unit test or DBQ practice test) and determine instructional action steps to apply in the upcoming unit

Unit Unpack ([Link to protocol](#))

Teachers discuss the important historical content and skills of the unit or subunit and how it is assessed on the end of unit assessment

Meeting Outcomes:	Identify and stamp the skills, historical concepts, and “do not pass go” moments in this unit List of exit tickets to collect to gauge student thinking List of lessons to focus on during lesson unpacks Internalization of the end of unit assessment
Suggested Meeting Time:	45-75 minutes
Teacher Pre-Work:	Read and prepare notes for all lesson sources and homework readings Read and annotate the Unit Outline Annotate (or create) the exemplars for Unit Assessments
Course Lead Pre-Work:	In addition to the teacher pre-work: Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: Standard ([Link to protocol](#))

Teachers detail their expectations for student work (Exit Ticket responses), and practice a critical part of the

lesson

Meeting Outcomes:	Stamped expectations for student responses Practice of a critical lesson component Revised lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars
Course Lead Pre-Work:	Pre-identify lesson and possible critical components; notify teacher week prior Prepare model/exemplar for the See It of the critical component, if applicable Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: Looking at Student Work ([Link to protocol](#))

Teachers use recent student work to identify misunderstandings and then name how to change instruction to address them; then they practice those action steps using an upcoming lesson

Meeting Outcomes:	Identified gap in student work Action Step(s) for teacher instruction that will address the gap Stamped expectations for student responses Practice of a critical lesson component Revised lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars Read a representative sample of student work, and identify the gap
Course Lead Pre-Work:	Collect and read a representative sample of student work, and identify the gap Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: for beginners

The Course Lead walks the teacher through each step in a lesson plan while the teacher annotates how they will deliver each part

Meeting Outcomes:	Stamped expectations for student responses
-------------------	--

	Fully annotated lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars
Course Lead Pre-Work:	Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Data Meeting ([Link to protocol](#))

Teachers analyze recent assessment data (from a unit test or DBQ practice test) and determine instructional action steps to apply in the upcoming unit

Meeting Outcomes:	Identified strengths and gap in student work Action Step(s) for teacher instruction that will address the gap
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Score student work and input into Illuminate Review Illuminate Data
Course Lead Pre-Work:	Review Illuminate Data Identify strengths and gap in student work Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Arc of the Year

Arc	Lesson Components
AoTY 1: Prepare Scholars for Inquiry	<p>Do Now or DIRT Quiz</p> <ul style="list-style-type: none"> ● Present question(s) as written in the lesson plan ● Clear directions ● Stick to time stamps ● Monitor & Respond <p>Context Lecture</p> <ul style="list-style-type: none"> ● Convey all historical knowledge detailed in this section of the lesson plan ● Chunk extensive information into memorable key points ● Use audio-visual stimulus to aid retention of the information ● Make it your own ● Stick to time stamps <p>Context Lecture Questioning</p> <ul style="list-style-type: none"> ● Use data from Do Now, DIRT Quiz or prior Exit Ticket to pose questions ● Use questions to address misconceptions or build understanding of key points ● Ensure students track the lecture or peer responses, and take notes <p>Transition and Framing</p> <ul style="list-style-type: none"> ● Convey the day's learning ● Teacher conveys genuine joy for teaching children through tone, expression, language. ● Stick to time stamps
AoTY 2: Time in Text	<p>Loop Launch</p> <ul style="list-style-type: none"> ● Clear MVP directions with strong voice ● Includes annotation focus ● Radar <p>Student Annotations: Aggressive Monitoring</p> <ul style="list-style-type: none"> ● Create and follow pathways ● Pen, exemplar, & recording sheet in hand (AM Recording Sheet) ● Monitor the quality of student work: Check answers against your exemplar ● Announce laps (procedural and conceptual) ● Stick to time stamps <p>Student Annotations: Provide feedback</p> <ul style="list-style-type: none"> ● Narrate what students do well, not what they do wrong ● Economy of language (take out "I see" "I like") ● Name the highest leverage academic skill or thinking ● Mark/code student work
AoTY 3: Student Discourse	<p>Discussion Launch</p> <ul style="list-style-type: none"> ● Pose a starting question ● Pose a starting modality for student response

	<p>Discussion Facilitation</p> <ul style="list-style-type: none"> ● Stick to time stamps ● Use universal prompts ● Encourage habits of discussion ● Engage all students <p>Addressing Misconceptions</p> <ul style="list-style-type: none"> ● Active monitoring during discussion ● Re-teaching/Re-setting during discussion (with least teacher lift)
AoTY 4: Looking at Student Work	Under Development

Lesson Pacing and the Middle School Schedule

The chart below outlines the frequency, per week, of the class occurring. Students in grades 5 and 8 take the NJSLA Science and have science 3 days per week. Students will remain in this schedule/frequency for the duration of the year.

Grade	Science	Social Studies
3	2 days/week	2 days/week
4	2 days/week	3 day/week
5	3 days/week	2 day/week
6	2 days/week	3 days/week
7	2 day/week	3 days/week
8	3 days/week	2 day/week

The Middle School History period is 90 minutes of uninterrupted instructional time. A typical lesson plan requires about 50-60 minutes of instructional time. Because students only have history class 2-3 times a week, it is imperative that teachers cover 3-4 lessons per week. This will require teachers to think in terms of 60 minute lesson periods, not in terms of days of the week. Some lessons will have to be started in the remaining 30 minutes of class period and completed in the first 30 minutes of the next class period. Some lessons are allotted the full 90 minutes. Guidance on lesson pacing is provided in the network [History Scope & Sequence sheet](#). See example:

[RETURN TO TABLE OF CONTENTS](#)

9/7	6	60 m	U1a L2	Complete Formal L2 Exit Ticket
		30 m	U1a L3	Identify L3 stopping point when planning
9/8	7			
9/9	8			
9/10	9			
9/13	10	30 m	U1a L3	No L3 Exit Ticket, students complete map
		60 m	U1a L4	Complete class discussion and formal L4 Exit Ticket
9/14	11	60 m	U1a L5	Complete Formal L5 Exit Ticket
		30 m	U1a L6	Identify L6 stopping point when planning

Site Visits

Arc 1: Lesson Launch

Artifacts:	Critical Look Fors:	Outcomes:
<p>Live Observation or video of Launch</p> <p>Student Homework Annotations and/or responses (if applicable)</p> <p>Exit Ticket responses</p>	<p>Teacher leverages homework to provide live feedback to students on habits/accountability, and/or to begin active monitoring for central ideas/misconceptions.</p> <p>Teacher leverages Do Now to prime students for the Lesson Framing</p> <p>Teacher establishes the focus of the lesson: activates prior knowledge; clearly conveys the day's learning; contextualizes how the lesson fits within the unit themes.</p>	<p>Arc Rubric Score for Arc 1.1 and 1.2</p> <p>Identify key lever or gap that will move instruction forward</p> <p>Draft Action Steps</p>

Site Visit Protocol:

Director/IL Prep Work:

- Film or Schedule Classroom Observation
- Create copies of student Homework (if applicable) and Exit Tickets for observed lesson

Pre-work for all attendees: Read Lesson sources and draft Exit Ticket response.

Agenda:

Opening [20 min]:

- Icebreaker
- Ground attendees in the *historical story* of the Observed Lesson (Unit Essential Understandings & Questions; Unit Outcomes on assessment and independent project)
- Mini-Socratic Discussion: Facilitator poses the Exit Ticket question, asks attendees to reference the lesson readings and their Exit Ticket response. Stamp key conceptual understandings from the lesson.
- Exit Ticket Review: read student responses; sort high, medium, low; whole group discussion of trends
- Homework Review: review student Homework responses. No Discussion necessary.

Observation [40 min]:

- Watch video or live classroom
- Debrief and Score for 1.1 and 1.2

- Name key lever/gap
- Draft Action Steps
- Potential Work Time: Script O/F meeting

Repeat with Second Teacher [60 min]

Arc 2: Time in Text

Arc 3: Student Discourse

Part IV | History Core Curriculum High School

Student Experience Narrative

When I come into my history class, my teacher has shared all the materials for the day that I will need. The Do Now always gets me thinking about something interesting. Then the teacher connects that with what we will be reading about. Usually she gives a mini lecture with lots of great pictures that help me see what she is talking about. All the information is easy to follow because she fits all the pieces together in a sequence that helps us understand. I actually prefer this to the YouTube videos--it's just better somehow. Next we attack the prompt, so we understand the big question that we are trying to figure out. Then we start reading and annotating our sources. Sometimes it is a lot to read, but it is fun because we are looking for specific details. It's like trying to solve a mystery.

The best part of history class is what happens next. The teacher asks a question about what we just read and then tells us to talk it out, using our habits of discussion of course. We have to share what we think and give the best evidence that we found. It can be exciting to see who agrees or disagrees with you. Sometimes another student explains one of the sources that I didn't read very well, so I get to add their ideas to my notes. When that is over, we answer the exit ticket. Here the teacher usually tells us to practice one of our historical thinking skills like adding historical context or writing a document sourcing statement. We get feedback on this the next day, which helps us become better history writers.

Homework is usually reading a few pages from the textbook. I didn't like this at first because it's not as interesting as what we do in class. But I get to add a lot of dates to my timeline, and the facts you read about really do come in handy the next day when we are reading and discussing. I also love the unit projects when we get to pretend like we are characters in history, or we solve a problem happening in our society today. We're supposed to use what we learned in class, but it's really up to us what we create.

My teacher knows more about history than anyone I have ever met. She really shows us why it's important to know all this stuff that happened in the past.

Overview (High School)

The high school history program is designed to provide all students with a deep base of knowledge in world and American history. The content builds on and extends content learned in the middle school history program. By the end of 11th grades, students will have mastered standards-based historical thinking skills that will set them up for success on the AP history exam and/or college course work in the humanities.

Accelerated Learning

Prior Knowledge

During each unit unpack, history teachers will identify concepts and skills students may need to have been exposed to previously to succeed in the unit.

Vocabulary

History teachers will also use the humanities program's systemic approach to vocabulary acquisition. Each unit has a set of pre-identified key concept terms that students should use in discussion and writing throughout the course.

Exceptional Learners

All exceptional learners will continue to be challenged with grade-level appropriate content in addition to any supports outlined in their Individualized Education Plans. Classroom teachers will be supported by the Special Education team with providing interventions and modifications when necessary.

Core Curriculum Content

World History

Unit 1: Early Modern Era	Lessons
<p>Unit 1A: European Expansion and Empires Framing Question: How did European exploration and expansion build on pre-existing economic structures? How did European exploration and expansion change those economic structures?</p> <p>LEQ: In the period 1450-1750, the connections between the Eastern and Western Hemispheres impacted systems of labor. These types of labor connected different regions: the Iberian Americas and Africa. Develop an argument that evaluates the extent to which there were continuities in types of labor throughout the Atlantic World in that time period.</p>	1-11 Assessment L11
<p>Unit 1B: Land Based Asian Empires Framing Question: How did land-based empires develop during the Early Modern Period?</p> <p>LEQ: In the period 1450 - 1750, empires expanded in Asia. The expansion led to new challenges in the incorporation of diverse population and in effective administration. Develop an argument that evaluates the extent to which the methods that TWO Asian land empires used to consolidate their empires were similar.</p>	12-23 Assessment L23
<p>Unit 1C: Cultural Changes Framing Question: How did religious cultures change in the Early Modern Era? How did those cultural changes impact society?</p> <p>LEQ: During the Early Modern Era, a variety of changes contributed to the formation of new political and economic elites. Develop an argument that evaluates the significance of factors impacting the development of social hierarchies.</p>	24-35 Assessment L33
IA1	2 days
Unit 2: Modern World	
<p>Unit 2A: Causes and Effects of the Atlantic Revolutions Loop Question: Why did the Atlantic Revolutions occur? How did the Atlantic Revolutions change existing political and social structures?</p> <p>LEQ: The late 18th century marked the beginning of an intense period of revolution and rebellion against existing governments, leading to the establishment of new nation-states around the world. Develop an argument that evaluates the extent to which the Enlightenment led to one or more of the Atlantic Revolutions.</p>	1-15 Assessment L15

<p>Unit 2B: The Industrial Revolutions Loop Question: How did the Industrial Revolution impact economic and social structures?</p> <p>LEQ: In the period 1750-1914, the process of Industrialization changed the way in which goods were produced. Evaluate the extent to which Industrialization in Great Britain and Japan differed.</p>	<p>16-28 Assessment L28</p>
<p>Unit 2C: Imperialism Loop Question: What were causes of European imperialism? How were the impacts of resistance to imperialism different?</p> <p>LEQ: As states industrialized, they also expanded existing overseas empires and established new colonies and transoceanic relationships. Develop an argument that evaluates how one or more non-Western societies responded to Western imperialism between 1850-1914.</p>	<p>29-40 Assessment L40</p>
<p>Unit 2D: World War I in a Global Context Loop Question: How were the origins of WWI global?</p> <p>LEQ: From 1914-1919, military conflict occurred on an unprecedented global scale. Evaluate the extent to which WWI was a global war.</p>	<p>41-51 Assessment L48</p>
IA2	2 days
Unit 3: Accelerating Global Changes and Realignment	
Unit 3A: Modern Revolutions	1-6
Unit 3B: World War II	7-14
Unit 3C: Decolonization and the Cold War	15-24
Unit 3D: Globalization	25-35
IA3	3 days
Unit 4: AP World History Review Unit	1-29

USI

Unit 1: Early and Late Colonialism, the Revolution, the Constitutional Period	Lesson
Unit 1A: The Colonial Period Evaluate the extent to which British and French relations with Native Americans in colonial American between 1607 and 1754 were similar. Evaluate how social and economic goals and cultural assumptions shaped these relations.	1-14 Assessment L14
Unit 1B: The Revolution and the Constitutional Period	15-35
Interim Assessment 1	2 Days
Unit 2: United States 19th Century Development and the Market Revolution	
Unit 2A: Antebellum America	1-13 Assessment L13
Unit 2B: Westward Expansion & Civil War	14-39 Assessment L25 & 39

USII

Unit 2: United States 19th Century Development and the Market Revolution		
Unit 2B: Civil War & Reconstruction	14-39 Assessment L25 & 39	14-20
Unit 2C: Gilded Age	40-51	21-23
Interim Assessment II	2 Days after lesson 51	
Unit 3: Industrialization and Reform; Foreign Policy before and after WWII		
Unit 3A: Progressivism & Imperialism	1-11	24-26
Unit 3B: WWI, 1920s, Great Depression, and WWII	12-25	27-30
Unit 3C: The Cold War, Civil Rights, Vietnam	26-35	30-33

Unit 4:		
Unit 4A: Late Cold War (Nixon, Regan and the War on Terror)	1-9	33-35
Unit 4B: AP EXAM Review	10-25	35-40

Classroom Environment

History classrooms should be a visual and print rich environment. Walls should be covered in posters that depict historical events and artifacts, maps, and timelines. Teachers should select images that reflect their own historical interests, and that provide uplifting or affirming messages to students.

One bulletin board within the classroom should be dedicated to showcasing the current unit materials. This board should be updated frequently to include:

- Unit Title
- Essential Questions & Objectives
- Core Vocabulary
- Unit Anchor Charts
- Students Work

Program Materials & Resources

The curriculum does use a textbook (mostly for homework readings). It is not necessary for students to have their own copy, since the relevant pages are provided as scanned pdfs in the BEN Social Studies/History Shared Drive. However each classroom should have a physical copy of the book for reference.

World History	<p>Student Materials:</p> <p>Textbooks: Holt McDougal, Patterns of Interaction ISBN-10: 0547491123 (Teacher copy only)</p> <p>World Map</p>

(1 per student)</p> <p>United States and World Map</p>
US II	<p>Student Materials:</p> <p>Textbooks: Student Textbook:The American Promise: A Concise History, Combined Volume, Vol. 6, ©2017 Sixth Edition ISBN-10: 1-319-04249-X; ISBN-13: 978-1-319-04249-3. (1 per student)</p> <p>United States and World Map</p>

Student Materials	Contents
Student Workbook (1 per sub-unit)	<ul style="list-style-type: none"> -all readings, directions, graphic organizers for each lesson in the sub-unit -all lesson Do Nows -unit vocabulary page -end-of-unit assessment reflection page

Daily Exit Tickets	Not provided--student answer on separate paper or via Google Doc
Student Homework Packet (1 per sub-unit)	-all readings (including pdf copies of text book excerpts), questions, graphic organizers for each homework assignment in the sub-unit
DIRT Quiz	Individual Google Docs located in the History Shared Drive--to be given to students when called for in the unit scope and sequence
Unit Assessments (1 per sub-unit)	Individual Google Docs located in the History Shared Drive--to be given to students when called for in the unit scope and sequence. Can be printed or shared digitally.
Student Notebook -Cornell Notes -Timeline -Geography	Not provided--students take notes on their own paper or notebook based on proscribed classroom practice. NOTE: All homework readings call for students to create Cornell Notes (see description here). When Lesson Plans call for notetaking, there is usually a place for notes provided in the Student Workbook. However, content will sometimes emerge during a lesson which students will want to record in an organized place, so a history notebook is recommended. Students will also need a place to keep unit timeline and geography practices.

Teacher Resources	Contents
At A Glance Google Sheet (1 per unit)	-Unit Summary; Scope and Sequence Notes -Exit Ticket List; type of sources; type of assessment questions and skill focus -Homework: lists in which lesson to give out and to review each homework assignment -Timeline: list of key dates and events covered in the unit -Geography: list of locations covered in the unit
Conceptual Understanding Notes (1 per unit)	a note taking template for you to summarize the key conceptual understandings and skills of each lesson
Unit Overview	The official Achievement First unit plan: -detailed summary of content and skills -assessment information -unit vocabulary lists

	<ul style="list-style-type: none">-essential questions and enduring understandings-brief description of each lesson topic and assessment
Unit Assessment Scoring Notes	<ul style="list-style-type: none">-assessment requirements broken down into sections with rubric language-exemplar responses for each component-non-exemplar responses
Course Textbook(s)	A reference copy will be provided to each teacher

Assessment Methods/Data Cycle/Grading Resources

A typical unit of study in a BRICK history course contains two subunits, each of which focuses on a specific time period. The content of each subunit, while distinct, are related around a common topic or theme from that time period. Each subunit is assessed with multiple choice questions, short answer questions, and a formal piece of historical writing, either a Document Based Question (DBQ) or a Long Essay Question (LEQ).

Unit Exam Components:

Component	Quantity	Point Value
Extended Writing: DBQ or LEQ	1	20 points
Short Answer Questions	2-3	3 per question
Multiple Choice	10-14	1 per question
Total:		30-40 points

BRICK History Rubrics:

[Grade 3-4](#)

[Grade 5-8](#)

[High School](#)

NOTE: These rubrics place historical thinking skills along a continuum that prepares students to do high school-level history work by the end of middle school. They synthesize historical skills and standards taken verbatim from AP history exam scoring guidance. See original source materials below:

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

The first thing I do to prepare for my history class is read all the historical sources and homework assignments for each lesson in the unit. When you read it all start to finish in order, just like the kids will read it, the readings tell a story. It gives me a strong grasp of the history content students will cover. I take notes as I go to identify the most important historical conceptual understandings I want students to learn. The Unit Unpack meeting is also helpful. The grade-level team gets to compare their notes, and we identify which lessons and exit tickets will be important or challenging, and we break down what success on the assessment looks like.

Next I tackle the lesson plans. This is sometimes a challenge because some of the plans are difficult to interpret because of how they are written. It helps *a lot* that I already know exactly what is in the sources and what main ideas students should get from each lesson. You also get the hang of the lesson flow. It's pretty similar each day, and as I break down the lesson plan I add information and my script to the lesson slide deck template. You start with the Do Now. Then you frame the day's learning. Sometimes you give a context lecture. Here it is important to chunk the information into digestible pieces, and throw in a lot of visuals. Then you give student's the annotation focus and have them start to read and annotate the lesson sources. After that, you facilitate the discussion. I like to have "no-hands" seminar discussions, where students jump in unprompted with their ideas and evidence, using their habits of discussion. Sometimes I have to steer them back to the sources, but I try to fade into the background during this part of the lesson. After the discussion, they complete the Exit Ticket and we're out.

Everyday I set aside time to read their Exit Tickets and provide feedback based on our priority historical thinking skill, such as providing historical context or writing a defensible claim or a document sourcing statement. This is really helpful in building a student's historical writing capacity week to week.

Intellectual Prep

Lesson Planning Steps	Guidance	Teacher Output
Step 1 Annotate the texts or documents	Annotate for: <ul style="list-style-type: none"> ● key features of the documents ● passages or phrases of the texts that carry important meaning ● What are the most important “do not ignore” (DNI) moments in documents 	Complete exemplar annotations for on your copy of the text or documents
Step 2 Exit Ticket Exemplar	Annotate the provided exemplar response to the Exit Ticket: <ul style="list-style-type: none"> ● Elements of the correct answer you will look for during aggressive monitoring ● Content or ideas you think scholars will most likely over-simplify or overlook 	Annotate the exemplar in the lesson plan
Step 3 Articulate the lesson’s big idea	What is the key historical or social concept or skill students will take away from this lesson? How do you know if today’s lesson will have been successful?	Annotate the Prepare Scholars for Inquiry/Lesson Framing portion of the lesson plan with what you will say to students (or what you will stamp if it is already written in the plan)
Step 4 Internalize the plan	Annotate for any of the following: <ul style="list-style-type: none"> ● What is the purpose or goal of important lesson components? ● What are important points in the lesson to check for student understanding? ● What is your biggest anticipated misconception/error and how will you address it? 	Annotate lesson plan components with teacher-actions

Meeting Structure

Types of Weekly Meetings	
Unit Unpacks	Teachers discuss the important historical content and skills of the unit or subunit and how it is assessed on the end of unit assessment
Lesson Unpack: Standard	Teachers detail their expectations for student work (Exit Ticket responses), and practice a critical part of the lesson
Lesson Unpack: Looking at Student Work	Teachers use recent student work to identify misunderstandings and then name how to change instruction to address them; then they practice those action steps using an upcoming lesson
Lesson Unpack: for Beginners	The Course Lead walks the teacher through each step in a lesson plan while the teacher annotates how they will deliver each part
Data Meeting	Teachers analyze recent assessment data (from a unit test or DBQ practice test) and determine instructional action steps to apply in the upcoming unit

Unit Unpack ([Link to protocol](#))

Teachers discuss the important historical content and skills of the unit or subunit and how it is assessed on the end of unit assessment

Meeting Outcomes:	Identify and stamp the skills, historical concepts, and “do not pass go” moments in this unit List of exit tickets to collect to gauge student thinking List of lessons to focus on during lesson unpacks Internalization of the end of unit assessment
Suggested Meeting Time:	45-75 minutes
Teacher Pre-Work:	Read and prepare notes for all lesson sources and homework readings Read and annotate the Unit Outline Annotate (or create) the exemplars for Unit Assessments
Course Lead Pre-Work:	In addition to the teacher pre-work: Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: Standard ([Link to protocol](#))

Teachers detail their expectations for student work (Exit Ticket responses), and practice a critical part of the lesson

Meeting Outcomes:	Stamped expectations for student responses Practice of a critical lesson component Revised lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars
Course Lead Pre-Work:	Pre-identify lesson and possible critical components; notify teacher week prior Prepare model/exemplar for the See It of the critical component, if applicable Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: Looking at Student Work ([Link to protocol](#))

Teachers use recent student work to identify misunderstandings and then name how to change instruction to address them; then they practice those action steps using an upcoming lesson

Meeting Outcomes:	Identified gap in student work Action Step(s) for teacher instruction that will address the gap Stamped expectations for student responses Practice of a critical lesson component Revised lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars Read a representative sample of student work, and identify the gap
Course Lead Pre-Work:	Collect and read a representative sample of student work, and identify the gap Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Lesson Unpack: for beginners

The Course Lead walks the teacher through each step in a lesson plan while the teacher annotates how they will deliver each part

Meeting Outcomes:	Stamped expectations for student responses Fully annotated lesson plan
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Complete intellectual prep for weekly lessons: annotate LP and docs/sources; annotate/create exemplars
Course Lead Pre-Work:	Review the entire lesson plan Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Data Meeting ([Link to protocol](#))

Teachers analyze recent assessment data (from a unit test or DBQ practice test) and determine instructional action steps to apply in the upcoming unit

Meeting Outcomes:	Identified strengths and gap in student work Action Step(s) for teacher instruction that will address the gap
Suggested Meeting Time:	45 minutes
Teacher Pre-Work:	Score student work and input into Illuminate Review Illuminate Data
Course Lead Pre-Work:	Review Illuminate Data Identify strengths and gap in student work Revise meeting protocol with your facilitation questions/prompts Prep the Zoom call for any technical aspects of the meeting Notify teachers and ILs of the relevant calendar dates (meeting times, pre-work deadlines) Notify ILs of the meeting outcomes Prep Time: []minutes

Arc of the Year

Arc	Lesson Components
AoTY 1: Prepare Scholars for Inquiry	<p>Do Now or DIRT Quiz</p> <ul style="list-style-type: none"> ● Present question(s) as written in the lesson plan ● Clear directions ● Stick to time stamps ● Monitor & Respond <p>Context Lecture</p> <ul style="list-style-type: none"> ● Convey all historical knowledge detailed in this section of the lesson plan ● Chunk extensive information into memorable key points ● Use audio-visual stimulus to aid retention of the information ● Make it your own ● Stick to time stamps <p>Context Lecture Questioning</p> <ul style="list-style-type: none"> ● Use data from Do Now, DIRT Quiz or prior Exit Ticket to pose questions ● Use questions to address misconceptions or build understanding of key points ● Ensure students track the lecture or peer responses, and take notes <p>Transition and Framing</p> <ul style="list-style-type: none"> ● Convey the day's learning ● Teacher conveys genuine joy for teaching children through tone, expression, language. ● Stick to time stamps
AoTY 2: Time in Text	<p>Loop Launch</p> <ul style="list-style-type: none"> ● Clear MVP directions with strong voice ● Includes annotation focus ● Radar <p>Student Annotations: Aggressive Monitoring</p> <ul style="list-style-type: none"> ● Create and follow pathways ● Pen, exemplar, & recording sheet in hand (AM Recording Sheet) ● Monitor the quality of student work: Check answers against your exemplar ● Announce laps (procedural and conceptual) ● Stick to time stamps <p>Student Annotations: Provide feedback</p> <ul style="list-style-type: none"> ● Narrate what students do well, not what they do wrong ● Economy of language (take out "I see" "I like") ● Name the highest leverage academic skill or thinking ● Mark/code student work
AoTY 3: Student Discourse	<p>Discussion Launch</p> <ul style="list-style-type: none"> ● Pose a starting question ● Pose a starting modality for student response

	<p>Discussion Facilitation</p> <ul style="list-style-type: none"> ● Stick to time stamps ● Use universal prompts ● Encourage habits of discussion ● Engage all students <p>Addressing Misconceptions</p> <ul style="list-style-type: none"> ● Active monitoring during discussion ● Re-teaching/Re-setting during discussion (with least teacher lift)

Appendix

Glossary for Achievement First Acronyms

Acronym	Term
AIR	Accountable Independent Reading
AtP	Attack the Prompt
BPQ	Back Pocket Question
CFS	Criteria for Success
CI	Central Idea
CCOT	Change, Continuity Over Time
CR	Close Reading
CHQ	Central Historical Question
CRB	College Ready Bar or Close Reading Burst
CTG	Control the Game- method in which teachers choose what way the text will be read as a class, i.e. popcorn style
DIRT Quiz	Did I Read Thoroughly
DLR	Daily Lesson Resource (the lesson plan)
DNPG	Do Not Pass Go
FOI	Fundamentals of Instruction
GBTJ	Genre-Based Thinking Jobs
HLL	Heavy Lifting Loop
HIPP	Historical Context, Intended Audience, Purpose, Point of View
HOT	Higher Order Thinking (questions)
IPP	Intellectual Prep Protocol
LASW	Looking at Student Work
MVP	Movement- Voice- Participation (a way to script high-quality behavioral directions for scholars)

P&GD	Pause & Go Deeper (a type of “close reading burst” in a lesson plan that calls attention to specific sections of text)
PBA	Process Based Assessment
PT	Performance Task
RW	Reading Workout
TDQ	Text Dependent Questions

Part I | Science at BRICK Schools

Purpose of this Guidebook

BRICK Education Network strives towards excellence, from instruction to operations. BRICK Education Network has established key instructional routines, mind-sets and procedures used by ALL teachers and school leaders to raise student achievement. This guidebook outlines these items to ensure a high level of execution. All staff members are expected to read, internalize and practice the contents of this guidebook.

BRICK's Mission

BRICK's mission is to relentlessly knock down all barriers to students' academic success. Our innovative model aligns an excellent education with the necessary family supports to make sure each and every child can succeed. It's our vision that each and every child will have an unimpeded path to unlocking their limitless potential.

Instructional Model Overview

The basis of our instructional model and everything we do is rooted in equity. BEN's instructional model is built on the belief that we must first understand the individual needs of our students and then design educational experiences that ensure all students achieve success. It is through an equity lens that we adhere to BEN's four tenets of instruction.

The intentional implementation of these four tenets, with fidelity, will break down all barriers to ensure access, opportunities, and success for all.

Tenet	Driver
<p>Rigorous PK-12 academic curriculum with Integrated Social Emotional Learning & Identity Development <i>Our PK-12 curriculum integrates rigorous academics with Social Emotional Learning to foster independent learners empowered by their respective identities and driven by purpose.</i></p>	<ul style="list-style-type: none"> Vertically Aligned PK-12 Curriculum Culture of Belonging Intentional Relationship Development Explicit Social Emotional Learning Instruction Culturally Sustaining Practices Independent Learning Time Student Voice College and Career Readiness Trajectory

BRICK's Vision for Science

We are committed to preparing our students for success in all STEM-related fields by providing real, engaging, and challenging science programs that build upon one another. We utilize standards and phenomenon-based instruction in all grades to create a continuum that ensures our students graduate ready to tackle college level science and real life STEM-related challenges. They will be poised to be leaders and decision-makers, confident in using their knowledge and voice to bring about change in the world.

Culturally Responsive Practices in Science

Culturally Responsive Teaching (CRT) is defined as “an educator’s ability to recognize students’ cultural displays of learning and meaning making and respond positively and constructively with teaching moves that use cultural knowledge as a scaffold to connect what the student knows to new concepts and content in order to promote effective information processing. **All the while, the educator understands the importance of being in a relationship and having a social emotional connection to the student in order to create a safe space for learning.**” (Hammond 14)¹

We can note the connections between math and science and specifically, Culturally Responsive Math Teaching (CRMT) is “premised on creating a learning environment focused on mathematical sense making in which each and every student feels valued for who they are, for their ways of engaging in mathematical reasoning and for their contributions to the collective success of those within the classroom community... CRMT requires teachers to (re)consider the mathematics learning environment they’ve created and how well it reflects these four elements:

- 1) Supporting deep learning: How to ensure student success with coherent and connected mathematical understandings
- 2) Engaging and valuing identities: How to honor students’ experiences, communication practices and communities
- 3) Sharing authority: How to build inclusive, collaborative norms and routines
- 4) Applying mathematics: How to use mathematics to understand and investigate meaningful situations”²

Similarly, we believe that a similar four elements must be present in science learning environments:

- 1) Supporting deep learning: Ensure student success with coherent and connected scientific understandings
- 2) Engaging and valuing identities: How to honor students’ experiences, communication practices and communities
- 3) Sharing authority: How to build inclusive, collaborative norms and routines
- 4) Applying science: How to use science and engineering to understand and investigate meaningful situations.

See [Appendix 1](#) for examples of the elements in the classroom

Social-Emotional Learning

The Next Generation Science standards call teachers to attend to all three dimensions of learning science : [for more info, see: <https://www.nextgenscience.org/three-dimensions>]

- **Crosscutting Concepts:** help students explore connections across the four domains of science, including Physical Science, Life Science, Earth and Space Science, and Engineering Design. When these concepts are made explicit for students, they can help students develop a coherent and scientifically-based view of the world around them.
- **Science and Engineering Practices:** describe what scientists do to investigate the natural world and what engineers do to design and build systems. The practices better explain and extend what is meant by “inquiry” in science and the range of cognitive, social, and physical practices that it requires. Students engage in practices to build, deepen, and apply their knowledge of core ideas and crosscutting concepts.
- **Disciplinary Core Ideas (DCIs):** key ideas in science that have broad importance within or across multiple science or engineering disciplines. These core ideas build on each other as students progress through grade levels and are grouped into the following four domains: Physical Science, Life Science, Earth and Space Science, and Engineering.

As we seek to be fully aligned and embrace the Next Generation Science Standards mindset, we must engage students and teachers in the process of thinking about their own thinking (metacognition) about their learning and actions. This is a key area for us to focus on the social-emotional learning in our classrooms by connecting the SEL competencies intentionally with the Science and Engineering Practices. Like the Standards for Mathematical practice, the Science and Engineering Practices are inextricably linked to the SEL Core Competencies, and our work must reflect a both/and approach.

Science and Engineering Practices (excerpts)	Five SEL Core Competencies as Identified by CASEL
<p>Practice 1 Asking Questions and Defining Problems: Students should be able to ask questions of each other about the texts they read, the features of the phenomena they observe, and the conclusions they draw from their models or scientific investigations. For engineering, they should ask questions to define the problem to be solved and to elicit ideas that lead to the constraints and specifications for its solution.</p> <p>Practice 2 Developing and Using Models: In science, models are used to represent a system (or parts of a system) under study, to aid in the development of questions and explanations, to generate data that can be used to make predictions, and to communicate ideas to others. In engineering, models may be used to analyze a system to see where or under what conditions flaws might develop, or to test possible solutions to a problem. Models can also be used to visualize and refine a design, to communicate a design’s features to others, and as prototypes for testing design performance.</p> <p>Practice 3 Planning and Carrying Out Investigations Students should have opportunities to plan and carry out several different kinds of investigations during their K-12 years. At all levels, they should engage in investigations that range from those structured by the teacher—in order to expose an issue or question that they would be unlikely to explore on their own (e.g., measuring specific properties of materials)— to those that emerge from students’ own questions.</p>	<p>Self-awareness: The ability to accurately recognize one’s emotions and thoughts and their influence on behavior. This includes accurately assessing one’s strengths and limitations and possessing a well-grounded sense of confidence and optimism.</p> <p>Self-management: The ability to regulate one’s emotions, thoughts, and behaviors effectively in different situations. This includes managing stress, controlling impulses, motivating oneself, and setting and working toward achieving personal and academic goals.</p> <p>Social awareness: The ability to take the perspective of and empathize with others from diverse backgrounds and cultures, to understand social and ethical</p>

Practice 4 Analyzing and Interpreting Data Once collected, data must be presented in a form that can reveal any patterns and relationships and that allows results to be communicated to others. Because raw data as such have little meaning, a major practice of scientists is to organize and interpret data through tabulating, graphing, or statistical analysis. Such analysis can bring out the meaning of data—and their relevance—so that they may be used as evidence. Engineers, too, make decisions based on evidence that a given design will work; they rarely rely on trial and error.

Practice 5 Using Mathematics and Computational Thinking Although there are differences in how mathematics and computational thinking are applied in science and in engineering, mathematics often brings these two fields together by enabling engineers to apply the mathematical form of scientific theories and by enabling scientists to use powerful information technologies designed by engineers.

Practice 6 Constructing Explanations and Designing Solutions The goal of science is to construct explanations for the causes of phenomena. Students are expected to construct their own explanations, as well as apply standard explanations they learn about from their teachers or reading. The goal of engineering is to solve problems. Designing solutions to problems is a systematic process that involves defining the problem, then generating, testing, and improving solutions.

Practice 7 Engaging in Argument from Evidence The study of science and engineering should produce a sense of the process of argument necessary for advancing and defending a new idea or an explanation of a phenomenon and the norms for conducting such arguments. In that spirit, students should argue for the explanations they construct, defend their interpretations of the associated data, and advocate for the designs they propose.

Practice 8 Obtaining, Evaluating, and Communicating Information Being able to read, interpret, and produce scientific and technical text are fundamental practices of science and engineering, as is the ability to communicate clearly and persuasively. Communicating information, evidence, and ideas can be done in multiple ways: using tables, diagrams, graphs, models, interactive displays, and equations as well as orally, in writing, and through extended discussions.

norms for behavior, and to recognize family, school, and community resources and supports.

Relationship skills: The ability to establish and maintain healthy and rewarding relationships with diverse individuals and groups. This includes communicating clearly, listening actively, cooperating, resisting inappropriate social pressure, negotiating conflict constructively, and seeking and offering help when needed.

Responsible decision-making: The ability to make constructive and respectful choices about personal behavior and social interactions based on consideration of ethical standards, safety concerns, social norms, the realistic evaluation of consequences of various actions, and the well-being of self and others.

Connecting All Components

Connecting Science DCIs, Crosscutting Concepts, Science and Engineering Practices, CRT and SEL in the Classroom -- What this looks like in practice:

It can be overwhelming to try to concentrate on each of the aspects described above separately, or as different goals to achieve. However, that is the complete opposite of what we are called to do! In fact, when done well and implemented with fidelity, these different elements, framings and calls to action directly serve one another's purpose.

It is our role, therefore, to work to understand the goals and nuances of each and work to seamlessly integrate them:

- The SEP, when explicitly taught and named, support students' development of SEL competencies and engage in the CRT practice of engaging all students in meaningful learning.
- The SEL competencies, when highlighted as a focus, serve to develop independent learners as called for in CRT as well as scientists and engineers who engage in genuine meaning-making and problem-solving.
- Culturally Responsive Teaching practices call for teachers to engage and value students' identities and ideas, which depends on the SEL competencies of both self-awareness and social awareness and enhances the concept of developing an identity as a scientist who actively engages in the science and engineering practices.

Here are two broad examples of this interconnectedness of content, practices, CRT and SEL in a classroom:

- 1) When we focus on using science in meaningful ways, as the CRT practice of applying science challenges us to do, we have the opportunity to cultivate the SEL competencies of responsible decision making and social awareness and building capacity to develop and use models (SEP 3).
- 2) When we allow for students to be self-motivated by their own curiosity through asking questions about the world around them (SEP 1), we increase their capacity to engage in the SEL competency of Self-Management and achieving the CRT elements of being supported in Deeper Learning and having their identity valued.

As we continue to grow and learn about these areas of focus, we will deepen our understanding and enrich our instructional practices to even more effectively ensure all learners achieve their highest potential. Our program is specifically designed to meet the goals of these frames, and we must highlight these aspects as we prep and teach.

For more concrete and grade-level specific examples, please refer to each grade level section that follows.

Accelerated Learning in Science

In our approach to accelerated learning in science, we remain steadfast in our focus that students engage in grade-level learning and when they (or we) discover they need support to develop foundational content or skills to access this on-grade work, teachers provide this support. This practice of “just in time” scaffolding allows the learning to be relevant and meaningful, as it is directly connected to the learning in front of students. Assessment should be ongoing and related to the content about to be taught or that was just taught to gauge understanding entering a unit and after completing it.³

Learning science, as with any subject, is most effective when teachers and students have established a trusting relationship and are able to engage cooperatively in sense-making, building and developing relationships, scientific practices and content. We must address the fact that this takes time and this should not be rushed, despite the potential tendency for educators to want to “cover” content quickly or focus only on a select group of standards.

Although the work to make the necessary modifications to instructional materials is happening at breakneck speed, it is important to ensure that the resulting materials retain and even increase their focus on good teaching and learning principles—on how students can learn science and engineering effectively. High expectations for all students need to be maintained, supporting high-quality educational experiences that empower students. Whether learning and teaching take place in person or remotely, synchronously or asynchronously, a focus on the vision of science and engineering education remains the same: all students making sense of phenomena or solving real-world problems by learning and applying grade-appropriate disciplinary core ideas (DCIs), science and engineering practices (SEPs), and crosscutting concepts (CCCs).⁴

Acceleration recommendations from “Teaching K-12 Science and Engineering During a Crisis (2020)”⁵:

- The focus of curricula will need to be on conceptually meaningful student work that builds deep and flexible knowledge and skill. In addition, by emphasizing the need for students to integrate such ideas with science and engineering practices and crosscutting concepts, the Framework called out the value of having students build useful knowledge and skills in an authentic way. Instead of having students memorize ideas related to DCIs and then reflect those ideas back on assessments, students engage in such practices as analyzing data or arguing from evidence to develop DCIs and CCCs, and then show that they have developed these thinking tools by making sense of a phenomenon or solving a problem. In this way, students learn deeply enough that they are able to transfer their knowledge and skills to new situations
- Maximize instructional time by connecting different science and engineering domains and ideas. One of the benefits of using real-world phenomena and problems as instructional drivers is their tendency to require both learning from multiple domains and from multiple practices.
- When modifying or evaluating curriculum for early parts of the school year—times when establishing relationships and instructional routines is essential—it could be helpful to focus on phenomena or problems that do not directly build on core ideas from the previous year or grade level so that all students can start with a common, shared experience. Later in the school year, after relationships and instructional routines have already been established, educators can consider choosing phenomena or problems that can help diagnose what students may be missing from previous instruction.

³ See Council of Chief State School Officers, *Restart & Recovery: Assessment Considerations for Fall 2020*. Available: <https://ccsso.org/sites/default/files/2020-07/Assessment%20Considerations%20for%20Fall%202020.pdf>; also see Lake, R., and Olson, L. (2020). *Learning as We Go: Principles for Effective Assessment During the COVID-19 Pandemic*. Available: https://www.crpe.org/sites/default/files/final_diagnosics_brief_2020.pdf.

⁴ Teaching K-12 Science and Engineering During a Crisis <http://nap.edu/2590>

⁵ Teaching K-12 Science and Engineering During a Crisis <http://nap.edu/2590>

- Driving phenomena or problems need to be carefully selected. Consider choosing as the focus of instruction phenomena or problems that:
 - make clear connections to students' interests and backgrounds,
 - require students to build toward grade-appropriate learning goals
- Meaningful connections can also be made between different academic disciplines, such as integrating science and literacy instruction. It is important to stress that although there are significant points of connection between disciplines, that does not imply that simply using science and engineering contexts to teach literacy, mathematics, and computer science would provide all of the science and engineering learning students need.
- Utilize formative assessment, and focus on the following types of actionable feedback:⁶
 - one-on-one conversations or written feedback with a mechanism for students to reflect and respond that highlights positive aspects of student performance;
 - goal-oriented reflections on possible next steps;
 - opportunities to discuss challenges students are facing and ways to move forward; and
 - constructive identification and suggestions for areas of growth, perhaps focusing on one actionable area at a time.

Planning for Accelerated Learning

During Unit Unpacks, teachers will collaborate with instructional leaders and colleagues to determine prerequisite knowledge or skills required for students to be able to engage with the unit's objectives. Teachers should develop quick, open-ended assessments using resources from previous units, grades or science probes to understand current student understanding and identify the level to which students have this knowledge.

Based on this data, consensus will be reached with respect to how to best provide the necessary supports for students to be able to do this: (1) Inserting supplement into the TASK (ie: adding an into paragraph, a problem that provides practice with a pre-req skill, etc), Inserting an additional TASK into a lesson (ie. adding a primer on graphing, a mini-lesson on how to use Google Sheets, a Do Now with a reading that provides background information) or Inserting a lesson prior (ie. developing a lesson on Punnett Squares before a lesson sequence on genetic variation that depends on knowledge of Punnett Squares).

⁶ See https://drive.google.com/file/d/1t5UjIFtHzR-Efl1eRodfHD_CExEje0e5/view

K-12 Science: Curriculum Continuum

In grades K-2, science instruction is taught through hands-on investigations and group experiences. Students spend at least half of the year working together to address real life phenomena as they build habits of discussion and improve their literacy skills reading science articles.

In grades 3-8, the science content gets more complex as students begin to truly work as engineers faced with real life, scientific challenges. Students receive 2-3 days of direct instruction in an integrated science curriculum and use simulation tools to model scientific phenomena. Students participate in Engineering Internships in grades 6-8 where they create and test their own investigations to find solutions for real-world challenges. Through these experiences, students improve their critical thinking, text analysis, and written communication skills.

In grades 9-12, science content and science practices shift to become the focus of the daily classes, while continuing to build skills of technical reading and writing. Students engage in deeper inquiry: posing questions, designing investigations, collecting and analyzing data and then reflecting on and communicating results.

Grade	Course	Curriculum	Major Units
K	Kindergarten Science	FOSS	Unit 1: Materials and Motion Unit 2: Trees and Weather Unit 3: Animals Two by Two
1	1st grade science	FOSS	Unit 1: Sound and Light Unit 2: Air and Weather Unit 3: Plants and Animals
2	2nd grade science	FOSS	Unit 1: Solids and Liquids Unit 2: Pebbles, Sand, and Silt Unit 3: Insects and Plants
3	3rd grade science	Amplify Science	Unit 1: Balancing Forces Unit 2: Inheritance and Traits Unit 3: Environments and Survival
4	4th grade science	Amplify Science	Unit 1: Vision and Light Unit 2: Energy Conversions Unit 3: Earth's Features Unit 4: Waves, Energy, and Information
5	5th grade science	Amplify Science	Unit 1: Earth and Sky Unit 2: Modeling Matter Unit 3: The Earth System Unit 4: Ecosystem Restoration
6	Integrated I	Amplify Science	Unit 1: Microbiome Unit 2: Metabolism Unit 3: Metabolism Engineering Internship Unit 4: Traits and Reproduction

			Unit 5: Thermal Energy Unit 6: Ocean, Atmosphere, and Climate Unit 7: Weather Patterns Unit 8: Earth’s Changing Climate Unit 9: Earth’s Changing Climate Engineering Internship
7	Integrated II	Amplify Science	Unit 1: Geology on Mars Unit 2: Plate Motion Unit 3: Plate Motion Engineering Internship Unit 4: Rock Transformations Unit 5: Phase Change Unit 6: Phase Change Engineering Internship Unit 7: Chemical Reactions Unit 8: Populations and Resources Unit 9: Matter and Energy in Ecosystems
8	Integrated III	Amplify Science	Unit 1: Harnessing Human Energy Unit 2: Forces and Motion Unit 3: Forces and Motion Internship Unit 4: Magnetic Fields Unit 5: Light Waves Unit 6: Earth, Moon, and Sun Unit 7: Natural Selection Unit 8: Natural Selection Engineering Internship Unit 9: Evolutionary History
9	Biology (Life Science)	STEMScopes	Unit 1: Traits Unit 2: Systems and Homeostasis Unit 3: Life in Ecosystems Unit 4: Changes in Ecosystems Unit 5: Common Ancestry and Evolution Unit 6: Environment and Survival
10	Earth and Space Science	STEMScopes	Unit 1: The Universe Unit 2: Earth’s History Unit 3: The Changing Climate Unit 4: Water, Carbon and Climate Unit 5: Earth’s Resources Unit 6: Mitigating Human Impact
11	Physical Science (Chemistry and Biology)	STEMScopes	Unit 1: The Story of Elements Unit 2: The Balance of Matter and Reactions Unit 3: What Fuels Energy Unit 4: The Physics of Motion Unit 5: Forces at a Distance Unit 6: Energy in Motion Unit 7: The Power of Waves
12	School-based elective such as: <ul style="list-style-type: none"> AP Environmental Science: Explore and investigate the interrelationships of the natural world and 		

	<p>analyze environmental problems, both natural and human-made.</p> <ul style="list-style-type: none">● Physics: Newtonian mechanics; work, energy, and power; mechanical waves and sound, torque and rotational motion● Human Anatomy and Physiology: homeostasis and the essentials of human function at the level of genes, cells, tissues, and organ systems
--	---

Science classes are phenomena- based, building on past research about brain science and how people learn to shift from “learning about” topics to “figuring out” phenomena or solving a problem. With this focus, students learn ideas and skills because they are missing some knowledge or skill that they need to answer their own questions.⁷

⁷ For more information, see Science and Engineering for Grades 6–12: Investigation and Design at the Center. Available: <https://www.nap.edu/read/25216/chapter/2#5>

Exceptional Learners in Science

““Science for All” is a key goal of science education. Thanks to legislation such as the Individuals with Disabilities Act and the No Child Left Behind Act, students with disabilities have access to the general education curriculum more than ever before. Science teachers now have the opportunity to unlock the scientist in every student by identifying and fostering each child’s strengths while also attending to their challenges.”⁸ For specific and concrete actions and information, please consistently reference: [NSTA Disabilities Resources](#) It is imperative that we maintain responsibility for all students--the Gen Ed teacher is a fully invested partner with Special Educators. In addition, teachers must constantly be aware that her actions with students with special needs serve as a model for how students are interacting. Be mindful of language, tone, body language, that indicates difference in a negative way.

First, it is critically important that all teachers who interact with a student who is classified understand the IEP. An IEP is an individualized educational plan--it is a legal document that outlines a student’s needs and diagnosis. Teachers must recognize that there are different reasons a student would have an IEP, and each student has different needs and each type of disability requires different actions from teachers in order to meet student needs. (See [types of disabilities](#)). For example, a student with dyscalculia will need very different accommodations and modifications than a student with dysgraphia. (See [Accomodations for Kids Who Think and Learn Differently](#) and [NSTA Disabilities Resources](#)). *Especially in science, we must consider how mathematical, reading, processing, executive functioning and all other student differences need to be supported in our classrooms.*

Second, there are some general practices--directly aligned to Culturally Responsive Teaching practices and the focus of developing social and emotional competencies--for working with exceptional learners that can benefit all learners in science!

- 1) Pre-requisite skills: We cannot go back and teach everything that a student could be missing before teaching something new. Rather, we must identify precisely what is needed and provide this instruction. For exceptional learners in particular (but good for all), the following strategies can be beneficial:
 - a) Draw diagrams to represent concepts
 - b) Provide additional practice in different forms
 - c) Teach the vocabulary explicitly in context
 - d) Remove the quantities and replace with images
- 2) Teach Vocabulary:
 - a) Use real words--don’t water the definitions down. Consistently incorporate them.
 - b) Use pictorial representations
 - c) Bold the words (have students underline)
 - d) Play games to reinforce internalization
 - e) Compare and contrast words
 - f) Encourage students to practice using technical words in exchanges among peers.
- 3) Ground content in the familiar: Students benefit from learning in a connected context. When lessons build, approach from multiple access points and are clearly related, students’ brains are able to solidify these relationships and expand upon them
 - a) Frame the learning in a context familiar to students
 - b) Not all math is able to be taught in a “real world” application, but often it can be. Other times, math can be taught in connection to a previous topics (ie. “Yesterday we solved problems where we needed to use the Pythagorean theorem to solve a quadratic. Today, we’ll look at how we determine whether or not these solutions are reasonable answers to our problems.”).
- 4) Scaffold autonomy and support:
 - a) Develop a protocol for the student to tell you when he/she anticipates a need for assistance.

⁸ <https://www.nsta.org/topics/disabilities>

- b) When it appears that a student needs help, ask if you can help. Accept a "No Thank You" graciously.
- 5) Strategies for specific aspects of science class
- a) Teacher Presentation of Content:
 - i) Use a large amount of concrete materials to proceed in small sequential steps and review each frequently
 - ii) Ask questions in a clarifying manner, then have the students with learning disabilities describe his or her understanding of the questions.
 - iii) Provide copies of your notes
 - b) In Lab/Field Experiences
 - i) Provide opportunities to practice skills or methods prior to "actual" data collection
 - ii) Provide clear written and verbal directions
 - iii) Model steps
 - iv) make available cue cards or labels designating the steps of a procedure to expedite the mastering.
 - v) Change how students are recording lab information
 - vi) Have students sit in a location you can closely observe without being overly present.
 - c) Reading
 - i) Provide positive explicit and corrective feedback. Reinforce attempts as well as successes
 - ii) Provide supplemental images, captions, vocabulary, notes to text to keep students' focused on most important content.
 - iii) Provide audio recordings of readings and encourage students to use both senses.
 - d) Research
 - i) review and discuss with the student the steps involved in a research activity
 - e) Assessment/Testing
 - i) Allow more time (or unlimited time) for the examination or assessment.
 - ii) Consider alternative ways of assessing --especially formatively--that capitalize on students' strengths. Consider the use of illustrations as an acceptable form of response to questions in lieu of written responses.
 - f) For math specific problems:
 - i) Consider the big idea and it's connection to conceptual understanding--determine the level to which the actual "math" (calculations) matter and to which level the focus of the standard is more about relationships. (For example--can we describe relationships between variables as inverse/direct/unrelated or do we need to indicate that the relationship is 4.35 g/mL?)
 - ii) Utilize a problem solving strategy so students consistently know where to begin and incorporate "ask yourself" questions--see [UPSC](#).
 - iii) Generalize learning and record problem solving steps: After solving a problem, ask, "How could I generalize this strategy or process to solve other problems?" Elicit response and stamp a specific and fully correct response.
 - iv) Include pictures and tangibles: As students build to work with quantities and numbers, we can replace the values with pictures or manipulatives to build student competency.
 - v) Prioritize content and practice: Have students focus on content that will best set them up for success in what's next and provide multiple at bats to practice with different problem types. This can be done by placing an asterisk next to the problems students should highlight.

Part II | Science Core Curriculum K-2

Student Experience Narrative

This week in science, we've been learning about the life cycle of small organisms and plants. My teacher reads informational texts to us about the organisms and then we get to observe them in class. Today, we will plant seeds and set up our indoor growing stations. I have my science notebook set up to write down my observations and compare them to the other groups. As my teacher reads to us today, I'll ask and answer questions. I must listen closely to my peers so I can evaluate and build onto their answers. I have really enjoyed working and thinking like a scientist this year!

Overview/Vision/Key Components

Exceptional Learners

See [FOSS for All Students](#) section below for additional information about aspects of the program that can be implemented to serve all students.

Lesson Structure and Instructional Model (Full Option Science System--FOSS)

Each FOSS investigation follows a similar design to provide multiple exposures to science concepts. The design includes these pedagogies:

1. Active investigation in collaborative groups: firsthand experiences with phenomena in the natural and designed worlds.
2. Recording in science notebooks to answer a focus question dealing with the scientific phenomenon under investigation
3. Reading informational text in *FOSS Science Resources* books
4. Online activities to acquire data or information or to elaborate and extend the investigation
5. Outdoor experiences to collect data from the local environment or to apply knowledge
6. Assessment to monitor progress and inform student learning

In practice, these components are seamlessly integrated into a curriculum designed to maximize every student's opportunity to learn.

A **learning cycle** employs an instructional model based on a constructivist perspective that calls on students to be actively involved in their own learning. The model systematically describes both teacher and learner behaviors in a coherent approach to science instruction. A popular model describes a sequence of five phases of intellectual involvement known as the 5Es: engage, explore, explain, elaborate, and evaluate. The body of foundational knowledge that informs contemporary learning-cycle thinking has been incorporated seamlessly and invisibly into the FOSS curriculum design.

Engagement with real-world **phenomena** is at the heart of FOSS. In every part of every investigation, the investigative phenomenon is referenced implicitly in the focus question that guides instruction and frames the intellectual work. The focus question is a prominent part of each lesson and is called out for the teacher and student. The investigation *Background for the Teacher* section is organized by focus question—the teacher has the opportunity to read and reflect on the phenomenon in each part in preparing for the lesson. Students record the focus question in their science notebooks, and after exploring the phenomenon thoroughly, explain their thinking in words and drawings.

In science, a phenomenon is a natural occurrence, circumstance, or structure that is perceptible by the senses—an observable reality. Scientific phenomena are not necessarily phenomenal (although they may be)—most of the time they are pretty mundane and well within the everyday experience. What FOSS does to enact an effective engagement with the NGSS is thoughtful selection of scientific phenomena for students to investigate.

Key Components

Active Investigation

Active investigation is a master pedagogy. Embedded within active learning are a number of pedagogical elements and practices that keep active investigation vigorous and productive. The enterprise of active investigation includes:

- context: sharing prior knowledge, questioning, and planning;
- activity: doing and observing;
- data management: recording, organizing, and processing;
- analysis: discussing and writing explanations.

Context: sharing, questioning, and planning. Active investigation requires focus. The context of an inquiry can be established with a focus question about a phenomenon or challenge from you or, in some cases, from students (What can air do?). At other times, students are asked to plan a method for investigation. This might start with a teacher demonstration or presentation. Then you challenge students to plan an investigation to find out how a parachute uses air. In either case, the field available for thought and interaction is limited. This clarification of context and purpose results in a more productive investigation.

Activity: doing and observing. In the practice of science, scientists put things together and take things apart, observe systems and interactions, and conduct experiments. This is the core of science—active, firsthand experience with objects, organisms, materials, and systems in the natural world. In FOSS, students engage in the same processes. Students often conduct investigations in collaborative groups of four, with each student taking a role to contribute to the effort. The active investigations in FOSS are cohesive, and build on each other to lead students to a comprehensive understanding of concepts. Through investigations and readings, students gather meaningful data.

Data management: recording, organizing, and processing. Data accrue from observation, both direct (through the senses) and indirect (mediated by instrumentation). Data is the raw material from which scientific knowledge and meaning are synthesized. During and after work with materials, students record data in their science notebooks. Data recording is the first of several kinds of student writing. Students then organize data so they will be easier to think about. Tables allow efficient comparison. Organizing data in a sequence (time) or series (size) can reveal patterns. Students process some data into graphs, providing visual display of numerical data. They also organize data and process them in the science notebook.

Analysis: discussing and writing explanations. The most important part of an active investigation is extracting its meaning. This constructive process involves logic, discourse, and prior knowledge. Students share their explanations for phenomena, using evidence generated during the investigation to support their ideas. They conclude the active investigation by writing in their science notebooks a summary of their learning as well as questions raised during the activity.

Reading in FOSS Science Resources

The *FOSS Science Resources* books, available in print and interactive eBooks, are primarily devoted to expository articles and biographical sketches. When language—arts skills and methods are embedded in content material that relates to the authentic experience students have had during the FOSS active learning sessions, students are interested, and they get more meaning from the text material.

Recommended strategies to engage students in reading, writing, speaking, and listening using the articles in the *FOSS Science Resources* books are included in the flow of Guiding the Investigation. In addition, a library of resources is described in the Science–Centered Language Development chapter in *Teacher Resources*.

Science-Centered Language Development and Common Core State Standards for ELA

In the Science–Centered Language Development chapter in *Teacher Resources*, we explore the intersection of science and language and the implications for effective science teaching and language development. Language plays two crucial roles in science learning: (1) it facilitates the communication of conceptual and procedural knowledge, questions, and propositions, and (2) it mediates thinking—a process necessary for understanding. For students, language development is intimately involved in their learning about the natural world. Science provides a real and engaging context for developing literacy and language–arts skills identified in contemporary standards for English language arts.

The most effective integration depends on the type of investigation, the experience of students, the language skills and needs of students, and the language objectives that you deem important at the time. The Science–Centered Language Development chapter is a library of resources and strategies for you to use. The chapter describes how literacy strategies are integrated purposefully into the FOSS investigations, gives suggestions for additional literacy strategies that both enhance students’ learning in science and develop or exercise English–language literacy skills, and develops science vocabulary with scaffolding strategies for supporting all learners. We identify effective practices in language–arts instruction that support science learning and examine how learning science content and engaging in science and engineering practices support language development. Specific methods to make connections to the Common Core State Standards for English Language Arts are included in the flow of Guiding the Investigation. These recommended methods are linked to the CCSS ELA through ELA notes. In addition, the FOSS and the Common Core ELA chapter in *Teacher Resources* summarizes all of the connections to each standard at the given grade level.

Engaging in Online Activities through FOSSweb

The simulations and online activities on FOSSweb are designed to support students’ learning at specific times during instruction. Digital resources include streaming videos that can be viewed by the class or small groups. Resources can be used to review the active investigations and to support students who need more time with the concepts.

The Technology chapter provides details about the online activities for students and the tools and resources for teachers to support and enrich instruction. There are many ways for students to engage with digital resources—in class as individuals, in small groups, or as a whole class, and at home with family and friends.

Taking FOSS Outdoors

FOSS throws open the classroom door and proclaims the entire school campus to be the science classroom. The true value of science knowledge is its usefulness in the real world and not just in the classroom. Taking regular excursions into the immediate outdoor environment has many benefits. First of all, it provides opportunities for students to apply things they learned in the classroom to novel situations. When students are able to transfer knowledge of scientific principles to natural systems, they experience a sense of accomplishment.

In addition to transfer and application, students can learn things outdoors that they are not able to learn

indoors. The most important object of inquiry outdoors is the outdoors itself. To today's youth, the outdoors is something to pass through as quickly as possible to get to the next human-managed place. For many, engagement with the outdoors and natural systems must be intentional, at least at first. With repeated visits to familiar outdoor learning environments, students may first develop comfort in the outdoors, and then a desire to embrace and understand natural systems.

The last part of most investigations is an outdoor experience. Venturing out will require courage the first time or two you mount an outdoor expedition. It will confuse students as they struggle to find the right behavior that is a compromise between classroom rigor and diligence and the freedom of recreation. With persistence, you will reap rewards. You will be pleased to see students' comportment develop into proper field-study habits, and you might be amazed by the transformation of students with behavior issues in the classroom who become your insightful observers and leaders in the schoolyard environment.

Teaching outdoors is the same as teaching indoors—except for the space. You need to manage the same four core elements of classroom teaching: time, space, materials, and students. Because of the different space, new management procedures are required. Students can get farther away. Materials have to be transported. The space has to be defined and honored. Time has to be budgeted for getting to, moving around in, and returning from the outdoor study site. All these and more issues and solutions are discussed in the Taking FOSS Outdoors chapter in *Teacher Resources*

Learning from Experience

The FOSS curriculum supports full inclusion and provides many opportunities for differentiated instruction. Additionally, FOSS is aligned to the principles of Universal Design for Learning (UDL). Here are the UDL guiding principles:

- **Principle 1.** Provide multiple means of representation. Give learners various ways to acquire information and demonstrate knowledge.
- **Principle 2.** Provide multiple means of action and expression. Offer students alternatives for communicating what they know.
- **Principle 3.** Provide multiple means of engagement. Help learners get interested, be challenged, and stay motivated.

We are committed to ensuring students with all learning needs are supported using these principles.

FOSS for All Students

The FOSS Program has been designed to maximize the science learning opportunities for all students, including those who have traditionally not had access to or have not benefited from equitable science experiences—students with special needs, ethnically diverse learners, English learners, students living in poverty, girls, and advanced and gifted learners. FOSS is rooted in a 30-year tradition of multisensory science education and informed by recent research on UDL and culturally and linguistically responsive teaching and learning. Procedures found effective with students with special needs and students who are learning English are incorporated into the materials and strategies used with all students during the initial instruction phase.

Throughout the FOSS investigations, students experience multiple ways of interacting with phenomena and expressing their understanding through a variety of modalities. Each student has multiple opportunities to

demonstrate his or her strengths and needs, thoughts, and aspirations.

The challenge is then to provide appropriate follow-up experiences or enhancements appropriate for each student based on deep analysis of student work, informal assessments (i.e. embedded assessments), and formative/benchmark assessments. There are several ways we can ensure our students are able to access the science material, such as:

- more time with the active investigations or online activities
- more experience and/or scaffolds for developing models, building explanations, or engaging in argument from evidence
- making vocabulary and language structures more explicit through new concrete experiences or through reading to students
- identify and understand relationships and connections through graphic organizers
- designing individual projects or small-group investigations
- more opportunities for experiencing science outside the classroom in more natural, outdoor environments or defining problems and designing solutions in their communities

Classroom Environment

The goal of the classroom dedicated to science is to keep the focus on the exploration and learning of science. This means that teachers build the space and the classroom community to reflect the science practices. The space should be organized and all material should be labeled. Glassware should be stored below eye level and any chemicals or potentially dangerous supplies should be stored according to MSDS instructions and locked.

The walls should communicate what is important to building the effective learning environment:

- 1) Display safety reminders (use pictures in lower grades where students may not fluently read)
- 2) Post protocols for discussion and refer to these actively in class. Consider providing students with personal copies of these protocols or frames
- 3) Post images and examples of scientists who reflect the classroom community and diverse representation that connect to the science you are currently teaching and learning. (Examples: [We Are Teachers](#) Free Printable Science Posters To Celebrate Black History Month, [A Mighty Girl](#) Free Posters Celebrating Women Role Models in Science, Technology, and Math). Highlight and articulate how science is used in our daily lives (ie. [Amplify's](#) How do people use STEM in their lives?)

Keep in mind that many times, the simplest science materials are the most engaging and have the most learning potential! In all classes, look for connections and weave science throughout the day, not just in the science block! For example, ensure the environment includes [science trade books](#)!

Please see the [Classroom Checklist](#) for additional information.

Assessment Methods/Data Cycle/Grading Resources

(adapted from fossweb.com)

The FOSS assessment system includes both formative and summative assessments. Formative assessment monitors learning during the process of instruction. It measures progress, provides information about learning, and is predominantly diagnostic. Summative assessment looks at the learning after instruction is completed, and it measures achievement. An outline of assessments and frequency are below:

Grade	Assessment Type & Description <i>* Descriptions adapted from FOSS *</i>	Frequency
K - 2	<p>Benchmark Assessments (i-Checks) Benchmark assessments are short summative assessments given after each investigation. These I-Checks are actually hybrid tools: they provide summative information about students' achievement, and because they occur soon after teaching each investigation, they can be used diagnostically as well. Reviewing specific items on an I-Check with the class provides additional opportunities for students to clarify their thinking. <i>Kindergarten assessments are created by the K-8 Science Director; assessments in grades 1 & 2 are created by FOSS. All assessments are adjusted year to year based on teacher feedback and the needs of unique cohorts of students. Quiz questions vary to include multiple choice, open-ended responses, fill in the blank, and questions that require students to analyze charts, graphs, and sets of data.</i></p>	At least 1 per investigation
K - 2	<p>Embedded Formative Assessments Embedded formative assessments are an integral part of instruction, and occur on a daily basis. You observe action during class in a performance assessment or review notebooks after class. Performance assessments look at students' engagement in science and engineering practices or their recognition of crosscutting concepts. Embedded assessment provides continuous monitoring of students' learning and helps you make decisions about whether to review, extend, or move on to the next idea to be covered. The embedded assessments are based on authentic work produced by students during the course of participating in the FOSS activities. Students do their science, and you look at their notebook entries. Bullet points in the <i>Guiding the Investigation</i> section tell you specifically what students should know and be able to communicate. <i>These assessments are created by FOSS and are graded using data analysis sheets included in the online teacher materials.</i></p>	Varies; at least 2-3 per week

Grading Policies

All Benchmark Assessments should be graded and inputted into the gradebook using the category "Tests/Quizzes". Each week, students will have *at least* one homework assignment. There will also be *at least* one classwork assignment each day within the Student Workbook. As outlined in the [BRICK Instructional Guidebook](#), teachers need a **total** of 10 assignments for each marking period in the gradebook; all Benchmark Assessments are included in this group of assignments.

Notebooks

Every science student will maintain a lab notebook, which supports students in the process of recording their observations and data, planning their investigations, and capturing and communicating their thinking and learning. The science

RETURN TO TABLE OF CONTENTS

notebook also supports students with organization. We will use a workbook that includes a compilation of FOSS created notebook pages to help students in the following areas:

- 1) **Note-taking:** Students will use a network-created, note-taking template adopted from the FOSSweb platform to capture key terms and ideas.
- 2) **Brainstorming:** Students will work independently and in groups to develop predictions and initial thoughts related to the phenomenon presented in the lesson/investigation/unit.
- 3) **Lab Record:** During in class investigations and FOSS Outside investigations, students will record data collected with science tools.
- 4) **Problem solving:** Using group/whole class discussions, simulations, and FOSS Science Resources, students will use their notebooks as a collection of ideas that will aid them in engineering tools to solve a phenomenon or explain a phenomenon.
- 5) **Study tool:** Students will capture all key terms in a glossary and create note cards.

Rubrics

Rubrics for benchmark assessments will be developed and reviewed during unit unpacks whenever applicable.

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

Before class today, I set up the investigation materials for all the groups and placed them on workstations in the back of the room. My grade team and I flagged important parts of the text in our grade team meeting - I am all ready to facilitate the discussion with the students before going into our investigation. After I read the text, I send the students to their group workstations. They have done a great job internalizing the routines! While they work, I actively circulate the classroom, provide in the moment feedback, and use the least invasion prompts to get the students to explain their ideas to one another. At the end of this week, I will administer the i-Check to see how well the students are doing. I am excited to see their growth over the next few weeks!

For a more detailed outline of responsibilities for Lesson Unpacks, Unit Unpacks, and Lesson Planning, please refer to the BRICK Instructional Guidebook. Below are the specific responsibilities related to the K-2 Science Program:

Intellectual Prep

Component	Description	Frequency, Support & Deliverables
Lesson Unpack	<p>This time will be used to review major components, activities, and standards of the week's key lesson identified by the Director and Course Lead. Teachers should:</p> <ul style="list-style-type: none"> ● Read and annotate Teacher Guide/lesson plan <ul style="list-style-type: none"> ○ Teachers are able to download unit PowerPoint from the Shared Drive and add to <i>presentation notes</i> section ● Complete all student work including "Focus Question" exemplars ● Identify the misconceptions/potential errors in the student work ● Prepare data collection sheets 	Weekly; Independent OR w/ School Grade Team; deliverables checked by direct School Administrator
Unit Unpack	<p>This meeting will be used to review the major components, activities and standards of the upcoming unit. Teachers should:</p> <ul style="list-style-type: none"> ● Read and annotate Teacher Guide <ul style="list-style-type: none"> ○ There will be a unit reflection sheet to capture notes, which will serve as "annotations" if using an electronic copy of the Teacher Guide ● Pre-read Student Reader ● Complete an exemplar of the unit's Performance Task (if applicable) and End of Unit Assessment 	1x/month; self-led, pre-recorded unpack; deliverables checked by School Administrator
Lesson Planning & Preparation	<p>Each teacher will need to dedicate time to internalize all lessons and prep lesson materials. This planning and preparation time includes, but is not limited to, the following tasks:</p> <ul style="list-style-type: none"> ● Watching FOSS investigation preparation videos ● Downloading the previewing supplemental material and videos (if applicable) ● Annotating Teacher Guide Pages and complete student work exemplars <ul style="list-style-type: none"> ○ Student work exemplars should be posted outside 	Weekly Planning & Daily Preparation; Independent OR w/ School Grade Team; deliverables checked by direct School Administrator

	<p style="text-align: center;">classroom</p> <ul style="list-style-type: none">● Set up materials for investigations● Develop a plan to gather student data<ul style="list-style-type: none">○ Each week, teachers are expected to report proficiency on major tasks (i.e. responses to Focus Question)	
--	--	--

Meeting Structure

Teachers will meet with their school grade team to unpack and plan for upcoming lessons. This meeting is self-led and deliverables are checked by the School Administrator. Unit Unpacks will be self-led, pre-recorded meetings; deliverables will be checked by the School Administrator.

Arc of the Year

There is no separate Arc of the Year for K-2 Science. Teachers should utilize key teacher moves to help facilitate Science lessons.

Part III | Science Core Curriculum 3-8

Student Experience Narrative

I've just switched from Math class and as I walk in, the Do Now is already projected on the board. I go to my group, take out my science notebook and get to work. I can see my teacher graded my assignments from yesterday - looks like I did a great job explaining the key concept! I work quickly to complete the Do Now, annotating the question so I don't miss any important parts. I use the image on the page as evidence to support my thinking - I'll be sure to share these cool ideas with the group when it is time to discuss. After the Do Now and discussion, we go right into the lesson and begin by annotating an article. I make margin notes and underline as I read. At the end, I summarize what I wrote as the three big ideas. My group members and I use what we read to answer the questions on the independent practice sheet and explain our observations of the simulation. Tomorrow we will complete a hands-on investigation. These notes will be helpful as we work together to explain what happens.

Overview/Vision/Key Components

Instructional Model: Amplify Science - Do, Talk, Read, Write, Visualize Approach

(Adapted from amplify.com)

Do: Learners engage with scientific phenomena by conducting student-centered investigations. Students collect evidence from a rich variety of evidence sources, including hands-on investigation with real phenomena; observations of primary sources such as video clips, photos, or another scientist’s data; and physical and digital models. Students use this evidence to formulate a convincing scientific argument.

Talk: Students engage in collaborative discussions and scientific argumentation. In general, student-to-student talk is a key component of a productive learning environment, and Amplify Science features student talk as a key modality for instruction. We work to help teachers create learning environments that are both collaborative and inquisitive— where students feel comfortable challenging assumptions, probing for information, and ultimately learning from one another.

Read: Students engage in reading science text as an act of inquiry. They ask questions about what they read, gather evidence, and further investigate ideas, making connections to their own investigations. Amplify Science does not assume that students come to class knowing how to read science text. Beginning in kindergarten and continuing through grade 8, the program includes explicit instruction in reading science text and employs a “gradual release of responsibility” model to prepare students to become independent readers.

Write: Having an authentic purpose for writing both motivates students’ interest in writing and drives their need for convincing evidence. In Amplify Science, students write to share what they have learned and also learn through writing as they apply new evidence to clarify and strengthen their written arguments. Amplify Science supports students as they learn academic science language, helping them write like scientists by producing clear, logical, and evidence-based arguments and explanations.

Visualize: Students study a given phenomenon through carefully illustrated science texts, hands-on activities, videos, modeling tools that allow them to visually represent their thinking, and vivid digital simulations that allow them to manipulate variables. Our custom-designed simulations allow students to see and investigate complex, microscopic, or otherwise unobservable phenomena.

Key Components

Lesson Structure

Overview

Each Amplify Science unit is composed of several key components to help students engineer solutions to real life problems and phenomena. The following figure illustrates the typical pathway students take through a unit:

The approach

figure adapted from amplify.com

Students and teachers use the following materials and components in each unit:

- Digital Instructional Materials
- Science Articles
- Simulations
- Digital Applications
- Hands on Materials
- Assessments and Reporting

Engineering Internship

During the Engineering Internship, students are introduced to a phenomenon or problem and conduct research to better understand the science behind that phenomenon. Students then design their own solution to the problem using the analysis and simulation tools. At the end of the unit, students design proposals to present their unique solutions.

Structure of an Engineering Internship Unit

<i>Early Sessions</i>	Orientation and Early Research
<i>Mid-unit Sessions</i>	Design: Plan, Build, Test, Analyze
<i>Ending Sessions</i>	Design Proposals

Classroom Environment

The goal of the classroom dedicated to science is to keep the focus on the exploration and learning of science. This means that teachers build the space and the classroom community to reflect the science practices. The space should be organized and all material should be labeled. Glassware should be stored below eye level and any chemicals or potentially dangerous supplies should be stored according to MSDS instructions and locked.

The walls should communicate what is important to building the effective learning environment:

- 1) Display safety reminders (use pictures in lower grades where students may not fluently read)
- 2) Post protocols for discussion and refer to these actively in class. Consider providing students with personal copies of these protocols or frames
- 3) Post images and examples of scientists who reflect the classroom community and diverse representation that connect to the science you are currently teaching and learning. (Examples: [We Are Teachers](#) Free Printable Science Posters To Celebrate Black History Month, [A Mighty Girl](#) Free Posters Celebrating Women Role Models in Science, Technology, and Math). Highlight and articulate how science is used in our daily lives (ie. [Amplify's](#) How do people use STEM in their lives?)

Keep in mind that many times, the simplest science materials are the most engaging and have the most learning potential! In all classes, look for connections and weave science throughout the day, not just in the science block! For example, ensure the environment includes [science trade books](#)!

Please see the [Classroom Checklist](#) for additional information.

Assessment Methods/Data Cycle/Grading Resources

Within every unit, students and teachers will have several opportunities to track mastery of standards and performance expectations. The Assessment System includes formal and informal opportunities for students to demonstrate understanding and for teachers to gather information throughout the unit. An outline of assessments and frequency are below:

Grade	Assessment Type & Description <i>* Descriptions adapted from Amplify Science *</i>	Frequency
3 - 5	Unit Quiz Short quizzes are used to formally assess students' progress through the unit. These quizzes also give students an opportunity to practice test taking skills that will be important as students prepare to take the 5th grade State Assessment. <i>These assessments are created by the K-8 Science Director and adjusted year to year based on teacher feedback and the needs of unique cohorts of students. Quiz questions vary to include multiple choice, open-ended responses, fill in the blank, and questions that require students to analyze charts, graphs, and sets of data.</i>	At least 1 per unit
4 - 8	Embedded Formative Assessments On-the-Fly Assessments and Critical Juncture Assessments are embedded formative assessments designed to help the teacher monitor and support students' progress throughout the unit. These assessments represent the most opportune moments for a glimpse into students' developing conceptual understanding and their facility with the practices. Each assessment opportunity indicates the specific concepts and practices to look for or listen for as students engage with the learning experiences, followed by suggestions to the teacher of what to do, based on what was observed. <i>These assessments are created by Amplify Science and are written in "Open-Ended Response" format.</i>	Varies; at least 1 per chapter At least 1 per unit in grades 6-8
	End of Unit Assessment Each unit assessment is designed to show mastery toward each level of the progress build skills, as well as mastery of performance expectations, science and engineering practices, and cross cutting concepts. <i>These assessments are created by Amplify Science; in grades 4-5, the assessments are written in "Open-Ended Response" format. In grades 6-8, there are multiple choice questions and two open ended response questions.</i>	1 Pre & 1 Post per unit

Assessment Environment Expectations

Similar to the Interim Testing environment students experience in Math and ELA, all Science teachers in grades 5-8 should adhere to testing conditions that encourage students to remain focused and do their best work. For reference, Math and ELA testing guidelines are outlined in the BRICK Instructional Guidebook; review guidelines specific to Science teachers below:

Before Testing:

- Arrange desks into rows, all facing the same direction. If your Science classroom has tables, spread students around the room.
- Place Do Not Disturb sign outside door (sign will be provided).
- Testing should start immediately. Write the start time and end time on the board (should be 60-70 minutes).
- Teachers incentivize student attendance.

During Testing:

- Teacher proctors test - moving around the room, giving encouragement to students, and watching to ensure no one is rushing. Teachers may be required to collect data on student habits during testing.
- Teachers may provide students with access to unit texts and articles for reference (1 per student).

After Testing:

- Because students will finish at different times, the teacher needs to have an assignment or activity for students to complete quietly after testing ends (i.e. make-up work, article & question sets, etc.).
- Students should be encouraged to finish within 60-70 minutes.
- When all testing is done, remove the testing sign to indicate the classroom is out of “test mode.”

Please note, there will be no adjustment to the school bell schedule for Science assessments.

Reassessment Rationale & Guidelines in Grades 5-8

In the spirit of Restless Improvement, we encourage students to push themselves to revise and improve their performance on assessments after additional instruction. Acceptance of reassessments are at the teacher’s discretion and should adhere to the following guidelines:

- students complete reassessment on their own time (i.e. as homework) and must resubmit to teacher within one week of receiving their original graded assessment
- to show work for multiple choice questions, students must evaluate all answer choices to identify inaccuracies and/or cite evidence from texts and articles to support correct answer
 - see [Appendix 2: Acceptable Reassessment Responses](#) for an example
- to show work for open ended responses, students must completely rewrite their answer and explicitly cite evidence from articles, texts, investigations, etc.

Grading Policies

All Unit Quizzes, Critical Juncture Assessments, and Unit Assessments will be graded and inputted into Illuminate to help document students’ performance and aid in data analysis. Expectations for data entry will be communicated by School Leaders and will be within a week of administering each assessment.

Each week, students will have *at least* one homework assignment. There will also be *at least* one classwork assignment each day within the Student Workbook. As outlined in the BRICK Instructional Guidebook, teachers need a **total** of 20 assignments for each marking period in the gradebook; all Assessments are included in this group of assignments.

Notebooks

Every science student will maintain a lab notebook, which supports students in the process of recording their thinking, planning and learning and also supports students with organization. We will use the Amplify Science created notebooks, which includes varied formats that are utilized for different purposes:

1. **Note-taking:** Students will write notes and observations as they move through the science lesson. Students will respond to prompts and complete reflection activities in their investigation workbooks.
2. **Brainstorming:** Students will work independently and in groups to develop predictions and initial thoughts related to the phenomenon presented in the lesson/investigation/unit.
3. **Lab Record:** During in class investigations and simulations, students will record data collected with science tools.
4. **Problem solving:** Using group/whole class discussions, simulations, and Amplify Science Resources, students will use their notebooks as a collection of ideas that will aid them in engineering tools to solve a phenomenon or explain a phenomenon.
5. **Study tool:** Students will capture all key terms in a glossary and create note cards.

Rubrics

Each unit in Amplify Science includes answer keys and rubrics for grading assessments with written response questions. These rubrics will be used to score all end of unit assessments. Any quizzes or assessments created by the K-8 Science Director will have accompanying answer keys.

Teacher Planning, Preparation, and Development

Teacher Experience Narrative

Prior to Lesson	<p>Last week, I introduced a new anchor phenomenon with the students and we explored the simulations to better understand our role for the unit. Students completed two article readings, completed annotations, and summarized the big ideas. I gave one formal exit ticket. I've since analyzed the annotations and results of the exit ticket and have created new partner pairs for today's discussions. I have prepared the hands-on experiment and materials are ready for all of my sections of students.</p>
During Lesson	<p>Students are working collaboratively to unpack the key concepts of this lesson. As students discuss, I am taking note of misconceptions and adjusting my questioning when needed. During the Do Now and investigation portions of the lesson, I walk around and actively monitor; giving students in the moment feedback and marking the papers so they students know exactly how to improve. I am excited to see their revisions and how they engage with the hands-on investigation!</p>
After Lesson	<p>Once the lesson is over, I revisit the independent practice sheets and quickly review the work. I make a note of any lingering misconceptions and think of a way to unpack them in the next day's Do Now - I think I may do a show call of a student work sample and then we can unpack it together!</p>

Intellectual Prep

All teachers are responsible for completing pre-work, prepping materials, and reading and annotating unit/lesson plan overviews prior to lesson unpack and unit unpack meetings. For a more detailed outline of responsibilities, please refer to the BRICK Instructional Guidebook.

Meeting Structure

Each week, a Key Lesson will be identified by the Network Director. Teachers are responsible for linking pre-work and filling in a Know/Show chart for the priority standard. At the start of each meeting, the group will unpack the standard together, compare exemplars, provide one another feedback, then create an aligned know/show chart with a clear criteria for success. Following the discussion, teachers may: practice a portion of the lesson with peer feedback, review and compare lesson materials, or identify key teacher moves to try that are aligned with the Arc of the Year.

Arc of the Year

3-8 SCIENCE ARC OF THE YEAR RUBRIC				
Arc	Timeline	Arc of The Year Component	Vision of Excellence & Look-Fors	
			Teacher Inputs	Student Outcomes
1	Weeks 3-7	<p>Launch of Lesson</p> <p>We value scholars' experiences and prior knowledge and deeply invest scholars in new content through facilitation of a purposeful and urgent launch.</p>	<p>1.1 Effective Launch of Lesson (Elicit + Engage):</p> <ul style="list-style-type: none"> Teacher asks questions and probes to draw out prior understandings related to a topic, understands what students already know prior to beginning the lesson -- Ask, "What do you think/know about (topic)?", "What do you remember from (key text/article)?" Teacher captures students' attention, raises questions in student's minds, stimulates thinking, and connects to prior knowledge; generates enthusiasm. -- Utilize various engagement strategies, i.e. show a video, introduce new vocabulary, describe new phenomena related to content. 	<ul style="list-style-type: none"> Scholars summarize and explain key concepts from previous lessons. Scholars make connections between what they know and the new key concepts to develop conceptual understanding. Scholars are able to identify <i>at least</i> one prior experience or previous lesson that directly aligns with new content introduced and are able to explain the connection.
			<p>1.2 Efficient Launch of Lesson:</p> <ul style="list-style-type: none"> Teacher varies elicit and engage strategies to meet the needs of all students (i.e. use of videos, small group/whole group discussions, written warm-up questions, silent reflection, etc.) Teacher completes the "Launch" within the first 15 minutes of the class period. 	<ul style="list-style-type: none"> (100%) Scholars actively participate in launch through written responses, small group discussions, and whole group discussions. Scholars can articulate the focus of the lesson by explaining the new Investigation question.

<p>2</p>	<p>Weeks 8-18</p>	<p><u>Independent Practice</u></p> <p>We encourage strong engagement and investment in practice, such that the quantity and quality of work produced sufficiently moves every scholar toward the target outcome.</p> <p>We ensure scholars receive and apply meaningful and transferable individual feedback by collecting data and diagnosing scholars' errors so that they get what they need to grow.</p>	<p><u>2.1 Pacing & Engagement:</u></p> <ul style="list-style-type: none"> ● Teacher moves urgently through each lesson component and uses a timer or clock to stick to lesson timestamps. ● Teacher allocates sufficient time for scholars to apply and lock in core understandings and skills and from the lesson: <ul style="list-style-type: none"> -- 20+ minutes dedicated to independent/collaborative practice or engagement in/with hands on investigations and online tools -- 15+ minutes dedicated to independent writing/reading tasks <p><u>2.2 Aggressive Monitoring (AgMo):</u></p> <ul style="list-style-type: none"> ● Teacher names the CFS that demonstrates mastery of standard; feedback is aligned to the CFS. ● Teacher moves quickly and efficiently around the learning space; scholars receive feedback (rate ~2+/min) 	<ul style="list-style-type: none"> ● (90%) Students appear to be working/thinking the entire time; they persist when the work challenges them; teacher uses purposeful circulation to encourage persistence. ● (90%+) Scholars complete all activities within allotted time. <ul style="list-style-type: none"> -- (>10%) Scholars that do not complete all activities within allotted time know when and how to make-up activities. ● Scholars know what they are expected to do and are working toward a clear bar for excellence (i.e. are clear about what to complete and how to make thinking visible). ● (100%) Scholars receive written feedback codes on written activities.
<p>3</p>	<p>Weeks 19-29</p>	<p><u>Responding to Student Learning Needs & Data Analysis</u></p> <p>We respond to data in the moment to identify the best strategies to stamp exemplary habits & skills and key concepts.</p> <p>We consistently analyze student work and</p>	<p><u>"Stop the Show" & Charting Strategies (3.1):</u></p> <ul style="list-style-type: none"> ● Teacher "Stops the Show" and utilizes shared screen to highlight exemplar scholar work. ● Teacher uses data to decide which strategy to use to unpack student misunderstandings or push for sophistication: <ul style="list-style-type: none"> -- 85%+ scholars have shown mastery --> teacher pushes for sophistication -- 20%+ scholars show confusion --> teacher unpacks trending error 	<ul style="list-style-type: none"> ● Students can articulate the gap/alignment between the exemplar and their own work. ● Students implement the feedback by revising their work to reflect the key components of the model.

		<p>formative assessments to inform teaching practices and close gaps in learning.</p> <p>We analyze data from major assessments in a timely fashion and develops reteach plans and interventions based on identified trends.</p>	<p><u>Analysis of Student Classwork & Formative Assessments (3.2):</u></p> <ul style="list-style-type: none"> • Teacher identifies the highest leverage questions or activities and analyzes student work to identify trends. • Teacher develops a plan to address gaps in learning in the moment by facilitating discourse with students (whole group conference). <p><u>3.3 Analysis of Major Assessments (Quizzes, Critical Junctures, and Unit Assessments) (General guidelines; not part of the AoTY score.):</u></p> <ul style="list-style-type: none"> • Teacher grades and enters data from quizzes into the data collection tool (i.e. Illuminate) within 3 days; re-teach and intervention takes place within one week of assessment. • Teacher grades and enters data from Critical Juncture Assessments and Unit Assessments into the data collection tool (i.e. Illuminate) within one week; re-teach/intervention takes place with two weeks of assessment. 	<ul style="list-style-type: none"> • (100%) Scholars receive written feedback on all assignments and are able to articulate their individual areas of strength and growth. • (80%+) Scholars make adjustments to their independent practice based on feedback and group discourse.
<p>4</p>	<p>Weeks 30 (Q4) - EOY</p>	<p>Leading Student Discourse</p> <p>We utilize varied strategies to facilitate student-led discourse that fully unpacks key concepts.</p>	<p><u>Guided Discourse: Universal Prompts & Strategic Prompts (4.1)</u></p> <ul style="list-style-type: none"> • Teacher grounds discourse in scholar work that serves to illuminate the concept and/or make the concept concrete and accessible. • Teacher uses broad questions universal prompts to push the thinking back on students: -- i.e. "Tell me more." "What makes you think that?"; "How do you know?"; "Why is that important?" • Teacher uses strategic prompts to target and respond to student errors: -- i.e. Point students to resources; Ask, 	<ul style="list-style-type: none"> • Scholars articulate the conceptual understanding to the level of depth articulated in the Know/Show chart and/or called for by the standard. • Scholars' oral responses contain evidence and sufficient reasoning (why) when appropriate.

			<p>"What do we know about ____?"; invite peers to critique and push another's answers.</p> <ul style="list-style-type: none"> • Teacher encourages the use of content specific vocabulary and extended explanations. 	
<p>Note: Arcs 1 - 3 will continue to be coached throughout Arc 4.</p>				

Part IV | Science Core Curriculum High School

The High School Practices, Guidebook and Curriculum will be further developed upon the addition of high schools to our academic portfolio. The following work is based on the 20-21 school year (unless otherwise noted) **and is under construction for further research and codification.**

Overview/Vision/Key Components

High School Curriculum

BRICK 9-11 science will be adopting the STEMScopes 3D NGSS Curriculum. This flexible curriculum is driven by the 5 E Instructional model and provides students and teachers an interactive, hybrid of online and hands and minds-on inquiry-based learning. Students will focus on one domain (Life Science, Earth and Space Science and Physical Science) each year and will experience the fourth domain, Engineering, over the course of grades 9-11.

The curriculum is organized by Bundles (like Units) and Scope (like chapters) to ensure overarching phenomena are continuous and layered throughout the year. Teachers will use this curriculum as we engage in the 5E model, utilize four major components of a lesson (Framing, Building a Body of Evidence, Explanation and Closing) and strive to meet the expectations of the Fundamentals of Instruction. Each of these is outlined on the following pages.

Science Vision of Excellence

Linked with feedback steps [here](#)

High School Science: Fundamentals of Instruction					
Purpose	It is the purpose of the science block for students to develop explanations using data and evidence to answer scientific questions (for science) and to design solutions using data and evidence to solve problems in our human world (for engineering). Each lesson aligns to one of the five Es of the 5E Learning Cycle (shown below). This cycle describes how tasks/learning outcomes increase in rigor throughout an instructional sequence.				
	Engage	Explore	Explain	Elaborate	Evaluate
	Ss develop curiosity about scientific concepts and practices by developing and identifying questions to investigate. Ss access relevant prior knowledge.	Ss conduct investigations and research to gather evidence. Ss participate in experiences that enable them to make meaning of scientific phenomena.	Ss formally develop explanations for scientific phenomena by building on learning from previous days and integrating new information.	Ss apply and use scientific concepts and vocabulary in new situations in order to deepen understanding of content, concepts, and practices.	Ss demonstrate depth and breadth of understanding of science concepts and practices to themselves and others, including T.

Purpose of the Kick-Off and Framing: Scholars ground themselves in the learning for the day as the teacher builds investment in the day's lesson. Scholars make predictions or pose questions related to the lesson and connect to prior knowledge.

Arc	Indicator	Vision of Excellence	
1	1.1 Executing the Structure and Routines: Kick-Off and Framing	#1) Structure of delivery aligns to the spirit of effective instruction and the lesson plan provided <ol style="list-style-type: none"> Clear adherence to routine--students know where to go and what to do when they enter the room Teacher engages in implicit or explicit Welcoming Routine (SEL) Kick-Off is Brief and Strategic; assesses preconceptions of science ideas for today's lesson or engages relevant cumulative review that helps connect today's lesson to prior learning. Teacher provides minimally scaffolded directions and framing for Kick-Off Students work independently and all students make a strong effort to answer the Kick-Off question(s) Teacher show-calls work and leads student-centered debrief of Kick-Off where appropriate Teacher frames the day by connecting to previous learning and the phenomena of the scope/bundle and outlines the agenda/expectations for students for the day. Scholars are invested in the lesson and know what to expect 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
2	2.1 Quality of Student Work: Kick-Off and Framing	#2) ALL or ALMOST ALL oral and written responses are top-quality (accurate answer, clear logic, strong evidence, steps shown, complete sentences when appropriate, and demonstrate best effort.) <ol style="list-style-type: none"> Student work represents students' best effort Students make their logic/thinking clear in their work and oral responses Students' oral responses contain evidence and sufficient reasoning (why) when appropriate Format: Students speak audibly/respond clearly and in complete sentences when needed 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
1	1.2 Pacing	#3) Align Kick-Off /Framing pacing to plan--3-7 minutes	

Building a Body of Evidence | Observation Tool

Purpose of Building a Body of Evidence: Scholars engage in a key activity, investigation, or experience that allows for the development of evidence to master the objective, explain the phenomena or answer Guiding Questions. This inquiry may involve lab investigation, text analysis, data set analysis, computer simulation or research

Arc	Indicator	Vision of Excellence	
1	1.3 Executing Structure and Routines: BBOE	<p>#4) Structure aligns to the goal of students learning independently</p> <ul style="list-style-type: none"> a. Teacher enables students to connect how they will use the coming inquiry to address the lesson driving question. b. Teacher sets expectations for the inquiry and allows scholars to internalize their methods. c. Teacher sets clear expectations for the work environment d. Teacher maintains productive, positive work environment e. 100% of students are engaged in urgent, productive learning independently or with peers, or efficient and targets coaching meetings f. T provides batch feedback to address anticipated misconceptions preferably through a show call g. T uses questioning to drive the development of the coming explanation. h. Pacing aligns to what is needed to drive rigor in the lesson. 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
2	2.2 Clear Expectations for Focus and Inquiry	<p>#5) Strategically engage students so that they are clear on the expectations for the inquiry and the connection between the inquiry and answering the lesson driving question.</p> <ul style="list-style-type: none"> a. Students follow established routines for inquiry that have been taught and reinforced by the teacher. b. Teacher has used the appropriate method for the lesson to ensure students know what to do. c. Questions are used to help students connect the what, why, and how of the inquiry before starting. d. Minimal upfront teacher talk. Teacher talk is mostly questions. e. Students articulate how they will use the task to answer the driving question (teacher might use a tool talk). 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
2	2.3 Ratio, Minimal Scaffolds and Effective Progress	<p>#6) Students are directly discussing, investigating, reading at least 80% of the time. They do so with the minimal amount of scaffolding needed.</p> <ul style="list-style-type: none"> a. Teacher uses online tools to monitor progress and offer encouragement/support for students who are struggling [either public or private via chat or notes] b. Release students to do as much of the inquiry independently or in pairs/small groups as they are able to without T scaffolds or redirection. c. Minimal upfront teacher talk. Teacher talk is mostly questions. d. Teacher uses procedural laps/online monitoring to reinforce accountability rather than over-talk. e. Teacher show calls S work to engage students to either address an error/misconception or stamp the correct work. f. Questions during conceptual laps/monitoring are used to engage student thinking across the class. g. All students make appropriate progress during class 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
2	2.4 Initial Analysis and Interpretation	<p>#7) Strategically engage Ss using funneled questioning to support students with making meaning of their observations in service of addressing the lesson driving question.</p> <ul style="list-style-type: none"> a. Teacher utilizes broad, open-ended questions to increase student heavy lifting b. Teacher uses engagement strategies to ensure 100% of Ss are actively thinking about questions posed 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
2	2.5 Quality	#8a) ALL or ALMOST ALL written responses are top-quality so that when the BBoE is complete,	<input type="checkbox"/> Ineffective

	<p>of Student Work: Genuine and Sufficient Evidence Part 1</p>	<p>students have documents (notes, data table, etc.) with the genuine and sufficient evidence needed for them to develop their explanation in the next phase of the lesson.</p> <ol style="list-style-type: none"> a. Teacher circulates and provides feedback from pre-planned exemplar work for the BBoE. b. Explicitly naming or referring to the CFS for student work and using the CFS to provide feedback. c. Communicating and inspecting clear and high expectations for student work throughout the BBoE. d. Student work represents students' best effort <ol style="list-style-type: none"> i. Students make their logic/thinking clear in their work and oral responses ii. Students' oral responses contain evidence and sufficient reasoning (why) when appropriate iii. Format: Students speak audibly/respond clearly and in complete sentences when needed, work in notebooks is organized and legible 	<p><input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective</p>
4	<p>4.1 Quality of Student Work: Genuine and Sufficient Evidence Part 2</p>	<p>#8b) ALL or ALMOST ALL written responses are top-quality so that when the BBoE is complete, students have documents (notes, data table, etc.) with the genuine and sufficient evidence needed for them to develop their explanation in the next phase of the lesson.</p> <ol style="list-style-type: none"> a. When writing CEJs students demonstrate that: <ol style="list-style-type: none"> i. Data was collected/researched in an ideal manner with impeccable attention to detail and accuracy. Data is clearly and undoubtedly reliable. ii. Analysis (graph/table) is highly appropriate, extremely clear, free from errors and utilizes correct labels, titles and highly professional formatting iii. They utilize and explain correct metric units iv. They expertly reference the graph and/or table in the body of the text by explicitly stating data and providing context to show how it supports or refutes the claim v. Interpretation is completely valid and extremely grounded in the data 	
1	<p>1.2 Pacing: BBOE</p>	<p>#9) Align BBOE pacing to plan--20-30 minutes</p>	<p><input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective</p>

Explanation/Stamp/Closing | Observation Tool

Purpose of Explanation: Scholars make meaning of data and evidence to construct appropriate explanations of science concepts and/or phenomena in relation to the objective and larger questions/phenomena

Purpose of Stamp: The whole group clearly and definitively restates, records and confirms key take-aways and lessons learned from the day.

Purpose of Closing: Scholars demonstrate ownership of today's learning and may revise their work and describe the transformation of their ideas and skills during the lesson

Arc	Indicator	Vision of Excellence	
1	1.4 Executing Structure and Routines: Expl./Stamp/Closing	<p>#10) Utilize appropriate steps to ensure students deeply internalize content Different aspects of the following steps are utilized in each lesson to bring about deep internalization of the lesson.</p> <ol style="list-style-type: none"> Initial Explanation. The teacher prompts scholars to write an initial response in service of answering the lesson focus question/objective/connection to explaining phenomena. Synthesis of Evidence. The teacher has scholars engage in pre-planned questions in small and/or whole group discussion to develop key points in service of answering the lesson focus question/objective/connection to explaining phenomena. Naming Key Points. The teacher frames or has scholars name the key points developed by scholars through discussion. Refining the Explanation. Based on discussion, scholars revise their previous response or continue writing to develop a stronger response in service of answering the lesson focus question/objective/connection to explaining phenomena. Deepening the Understanding. The teacher (when appropriate) provides text for scholars to read or provides direct instruction to deepen student understanding of the concept being developed. This may include providing the scientific vocabulary used to describe ideas scholars have developed. Final Synthesis. If appropriate, the teacher has scholars engage in pre-planned questions in small and/or whole group discussion to make connections between the previously developed key points from evidence and the new information from text or direct instruction. Reframing Key Points. If appropriate based on new information, the teacher re-frames or has scholars re-name the key points, but modified to include new information and/or vocabulary. Daily assessment. Teacher provides criteria for success for the daily assessment. Scholars independently complete the daily assessment task following the criteria for success for the work product. The daily assessment aligns to the objective and phenomena/guiding questions The teacher circulates/monitors to collect data, but intervenes only when necessary. Strong Habits of discussion are solid and corrected when necessary. The teacher enforces the use of evidence from the Building a Body of Evidence and previous lessons to support claims. 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
3	3.1 Use of Sense Making Strategies and Questions Focused on CrossCutting Concepts	<p>#11) Teacher creates environment where students explain how today's data provides evidence to explain the lesson focus question/objective/phenomena</p> <ol style="list-style-type: none"> 100% of students engage in the use of sense making strategies to interpret the evidence Teachers prompt students to use previously taught structures for data analysis to place the lift of data analysis and interpretation on them. Teacher questions focus on asking students to look for CrossCutting concepts and patterns in the data and to then explain why those patterns exist. Teacher prompts scholars to consolidate and anchor learning, using one or more of the following strategies for metacognition: Scholars appropriately reflect on their learning and/or the process of their learning. Teacher models and/or praises the mindsets of scientists by reminding scholars that their ideas may change, grow, or expand as they gather more evidence 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
3	3.2 Learning is tied to Scientific	<p>#12) Scholars can articulate a lesson appropriate response to the objective and phenomena/guiding questions based on scientific principles and explanations.</p> <ol style="list-style-type: none"> Teacher ensures that key points and arguments have been framed for scholars. 	<input type="checkbox"/> Ineffective <input type="checkbox"/> Partially Effective <input type="checkbox"/> Effective

	Principles and Explanations	<ul style="list-style-type: none"> b. Students use their data analysis and interpretation to develop an explanation that ties back to scientific principles. c. Teachers lead students through a sequence of analysis and questions that leads to key points that should be transferable. d. Teachers have students connect the key points to the evidence supporting them. 	<input type="checkbox"/> Effective <input type="checkbox"/> Highly Effective
3	3.3 Quality of Student Work: Explanation Part 1	<p>#13a) ALL or ALMOST ALL written responses are top-quality and demonstrate deep conceptual understanding based using evidence to support scientific explanations.</p> <ul style="list-style-type: none"> ● Student work represents students' best effort as evidenced by: <ul style="list-style-type: none"> a. Students make their logic/thinking clear in their work and oral responses b. Students' oral responses contain evidence and sufficient reasoning (why) when appropriate c. Kick-Off and Framing	
Purpose: Scholars ground themselves in the learning for the day as the teacher builds investment in the day's lesson. Scholars make predictions or pose questions related to the lesson and connect to prior knowledge.	
Executing the Structure and Routines	#1) Structure of delivery aligns to the spirit of effective instruction and the lesson plan provided <ul style="list-style-type: none"> ● Clear adherence to routine--students know where to go and what to do when they enter the room ● Teacher engages in implicit or explicit Welcoming Routine (SEL) ● Kick-Off is Brief and Strategic; assesses preconceptions of science ideas for today's lesson or engages relevant cumulative review that helps connect today's lesson to prior learning. ● Teacher provides minimally scaffolded directions and framing for Kick-Off ● Students work independently and all students make a strong effort to answer the Kick-Off question(s) ● Teacher show-calls work and leads student-centered debrief of Kick-Off where appropriate ● Teacher frames the day by connecting to previous learning and the phenomena of the scope/bundle and outlines the agenda/expectations for students for the day. ● Scholars are invested in the lesson and know what to expect ● 3-5 min (7 min max)
Quality of Student Work (discourse and written work)	#2) ALL or ALMOST ALL oral and written responses are top-quality (accurate answer, clear logic, strong evidence, steps shown, complete sentences when appropriate, and demonstrate best effort.) <ul style="list-style-type: none"> ● Student work represents students' best effort ● Students make their logic/thinking clear in their work and oral responses ● Students' oral responses contain evidence and sufficient reasoning (why) when appropriate ● Format: Students speak audibly/respond clearly and in complete sentences when needed
Building a Body of Evidence	
Purpose of Building a Body of Evidence: Scholars engage in a key activity, investigation, or experience that allows for the development of evidence to master the objective, explain the phenomena or answer Guiding Questions. This inquiry may involve lab investigation, text analysis, data set analysis, computer simulation or research	
Executing Structure and Routines	#1) Structure aligns to the goal of students learning independently and teachers holding effective coaching meetings <ul style="list-style-type: none"> ● Teacher enables students to connect how they will use the coming inquiry to addressing the lesson driving question. ● Teacher sets expectations for the inquiry and allows scholars to internalize their methods. ● Teacher sets clear expectations for the work environment ● Teacher maintains productive, positive work environment ● 100% of students are engaged in urgent, productive learning independently or with peers, or efficient and targets coaching meetings ● T provides batch feedback to address anticipated misconceptions preferably through a show call ● T uses questioning to drive the development of the coming explanation. ● Pacing aligns to what is needed to drive rigor in the lesson.
Clear Expectations for Focus and Inquiry	#2) Strategically engage students so that they are clear on the expectations for the inquiry and the connection between the inquiry and answering the lesson driving question. <ul style="list-style-type: none"> ● Students follow established routines for inquiry that have been taught and reinforced by the teacher. ● Teacher has used the appropriate method for the lesson to ensure students know what to do. ● Questions are used to help students connect the what, why, and how of the inquiry before starting. ● Minimal upfront teacher talk. Teacher talk is mostly questions. ● Students articulate how they will use the task to answer the driving question (teacher might use a tool talk).

Ratio, Minimal Scaffolds and Effective Progress	<p>#3) Students are directly discussing, investigation, reading at least 80% of the time. They do so with the minimal amount of scaffolding needed.</p> <ul style="list-style-type: none"> ● Teacher uses online tools to monitor progress and offer encouragement/support for students who are struggling [either public or private via chat or notes] ● Release students to do as much of the inquiry independently or in pairs/small groups as they are able to without T scaffolds or redirection. ● Minimal upfront teacher talk. Teacher talk is mostly questions. ● Teacher uses procedural laps/online monitoring to reinforce accountability rather than over-talk. ● Teacher show calls S work to engage students to either address an error/misconception or stamp the correct work. ● Questioning during conceptual laps/monitoring are used to engage student thinking across the class. ● All students make appropriate progress during class
Initial Analysis and Interpretation	<p>#4) Strategically engage Ss using funneled questioning to support students with making meaning of their observations in service of addressing the lesson driving question.</p> <ul style="list-style-type: none"> ● Teacher utilizes broad, open-ended questions to increase student heavy lifting ● Teacher uses engagement strategies to ensure 100% of Ss are actively thinking about questions posed
Quality of Student Work: Genuine and Sufficient Evidence (discourse and written work)	<p>#5) ALL or ALMOST ALL written responses are top-quality so that when the BBoE is complete, students have documents (notes, data table, etc.) with the genuine and sufficient evidence needed for them to develop their explanation in the next phase of the lesson.</p> <ul style="list-style-type: none"> ● Teacher circulates and provides feedback from pre-planned exemplar work for the BBoE. ● Explicitly naming or referring to the CFS for student work and using the CFS to provide feedback. ● Communicating and inspecting clear and high expectations for student work throughout the BBoE. ● Student work represents students' best effort <ul style="list-style-type: none"> ● Students make their logic/thinking clear in their work and oral responses ● Students' oral responses contain evidence and sufficient reasoning (why) when appropriate ● Format: Students speak audibly/respond clearly and in complete sentences when needed, work in notebooks is organized and legible
Pacing	<p>#5) Align BBOE pacing to plan--20-30 minutes</p>
<p>Explanation/Stamp/Closing</p> <p>Purpose of</p> <ul style="list-style-type: none"> ● Explanation: Scholars make meaning of data and evidence to construct appropriate explanations of science concepts and/or phenomena in relation to the objective and larger questions/phenomena ● Stamp: The whole group clearly and definitively restates, records and confirms key take-aways and lessons learned from the day. ● Closing: Scholars demonstrate ownership of today's learning and may revise their work and describe the transformation of their ideas and skills during the lesson 	
Executing Structure and Routines	<p>#1) Utilize appropriate steps to ensure students deeply internalize content</p> <p>Different aspects of the following steps are utilized in each lesson to bring about deep internalization of the lesson.</p> <ul style="list-style-type: none"> ● Initial Explanation. The teacher prompts scholars to write an initial response in service of answering the lesson focus question/objective/connection to explaining phenomena. ● Synthesis of Evidence. The teacher has scholars engage in pre-planned questions in small and/or whole group discussion to develop key points in service of answering the lesson focus question/objective/connection to explaining phenomena. ● Naming Key Points. The teacher frames or has scholars name the key points developed by scholars through discussion. ● Refining the Explanation. Based on discussion, scholars revise their previous response or continue writing to develop a stronger response in service of answering the lesson focus question/objective/connection to explaining phenomena. ● Deepening the Understanding. The teacher (when appropriate) provides text for scholars to read or provides direct instruction to deepen student understanding of the concept being developed. This may include providing the scientific vocabulary used to describe ideas scholars have developed.

	<ul style="list-style-type: none"> ● Final Synthesis. If appropriate, the teacher has scholars engage in pre-planned questions in small and/or whole group discussion to make connections between the previously developed key points from evidence and the new information from text or direct instruction. ● Reframing Key Points. If appropriate based on new information, the teacher re-frames or has scholars re-name the key points, but modified to include new information and/or vocabulary. ● Daily assessment. Teacher provides criteria for success for the daily assessment. Scholars independently complete the daily assessment task following the criteria for success for the work product. The daily assessment aligns to the objective and phenomena/guiding questions The teacher circulates/monitors to collect data, but intervenes only when necessary. ● Strong Habits of discussion are solid and corrected when necessary. ● The teacher enforces the use of evidence from the Building a Body of Evidence and previous lessons to support claims.
Use of Sense Making Strategies and Questions Focused on CrossCutting Concepts	<p>#2) Teacher creates environment where students explain how today’s data provides evidence to explain the lesson focus question/objective/phenomena</p> <ul style="list-style-type: none"> ● 100% of students engage in the use of sense making strategies to interpret the evidence ● Teachers prompt students to use previously taught structures for data analysis to place the lift of data analysis and interpretation on them. ● Teacher questions focus on asking students to look for CrossCutting concepts and patterns in the data and to then explain why those patterns exist. ● Teacher prompts scholars to consolidate and anchor learning, using one or more of the following strategies for metacognition: ● Scholars appropriately reflect on their learning and/or the process of their learning. ● Teacher models and/or praises the mindsets of scientists by reminding scholars that their ideas may change, grow, or expand as they gather more evidence
Tied to Scientific Principles and Explanations	<p>#3) Scholars can articulate a lesson appropriate response to the objective and phenomena/guiding questions</p> <ul style="list-style-type: none"> ● Teacher ensures that key points and arguments have been framed for scholars. ● Students use their data analysis and interpretation to develop an explanation that ties back to scientific principles. ● Teachers lead students through a sequence of analysis and questions that leads to key points that should be transferable. ● Teachers have students connect the key points to the evidence supporting them.
Quality of Student Work (discourse and written work)	<p>#4) ALL or ALMOST ALL written responses are top-quality so that when the BBoE is complete, students have documents (notes, data table, etc.) with the genuine and sufficient evidence needed for them to develop their explanation in the next phase of the lesson.</p> <ul style="list-style-type: none"> ● Create a pre-planned exemplar work for the BBoE ● Have exemplar work for the BBoE in hand/on screen ● Actively monitor using online tools/circulates and provides feedback from exemplar ● Explicitly name/refer to CFS for student work when providing feedback ● Script clear and high expectations for student work and communicate to students at the start of the BBoE. ● Constantly inspect student work against CFS and exemplar and provide in the moment feedback ● Use a BPQ to scaffold to more precise language: “What do we call the process here of cell division? Try again using the word mitosis.” ● Name/frontload the vocabulary and have S apply to their explanations up front ● Narrate or praise the use of precise language in discourse and written responses ● If student thinking is not evident in student work, reset expectations for showing thinking, name what you’re looking for, and monitor to insist that students are showing their thinking ● Provide precise feedback to students about best effort--hold accountable for: <ul style="list-style-type: none"> ● Students make their logic/thinking clear in their work and oral responses ● Students’ oral responses contain evidence and sufficient reasoning (why) when appropriate ● Format: Students speak audibly/respond clearly and in complete sentences when needed, work in notebooks is organized and legible
Pacing	<p>#5) Align Explanation/Stamp/Closing pacing to plan--20-30 minutes</p> <ul style="list-style-type: none"> ● Post a timer for students to see in class to increase urgency

Unit and Lesson Structure

Instructional Model: 5 E Instructional Strategy

Our HS science program addresses conceptual change within units of study using the BSCS 5 E instructional model. The 5 E cycle of instruction is an instructional approach that is grounded in educational research on how people learn; it promotes heavy lifting on the part of the learner, it allows for the development of metacognition which is necessary for college readiness, and it is a framework designed to promote inquiry. All of these are necessary to foster our core program tenet of rigor.

Each phase of the model and a short phrase to indicate its purpose from a student perspective are⁹:

- Engagement - students' prior knowledge accessed and interest engaged in the phenomenon
- Exploration - students participate in an activity that facilitates conceptual change
- Explanation - students generate an explanation of the phenomenon
- Elaboration - students' understanding of the phenomenon challenged and deepened through new experiences
- Evaluation - students assess their understanding of the phenomenon

The 5 E Lesson Cycle in Action

We start with an Engage lesson, which hooks students interest and activates and assesses prior knowledge. We move into the Explore/Explain mini-cycle which include explore lesson(s), where students participate in acts of science through labs and other inquiry processes and Explain lesson(s) which ground the exploration in facts and give purpose to student inquiry. We then move back and forth between Explore and Explain in order to attack the learning from different perspectives. Towards the conclusion of the unit, in Elaborate lesson(s), students practice more with their newly acquired scientific knowledge and skill sets. Throughout this lesson cycle, students are frequently evaluated, using formative and summative assessment strategies. At the end of a lesson cycle, students will engage in a formal Evaluate lesson where student learning is communicated and assessed in a variety of ways. Please note: multiple days may be spent on any one phase. Refer to unit plans for guidance on when to use each phase within a given unit of study.

Each lesson fits into the 5E Cycle and follows the 5 Parts of Science Lesson Structure:

The basic structure for science lessons is a five part lesson with:

- 1) Kick-Off: Teacher poses a question connected to the previous lesson or the work of the day to activate student thinking
- 2) Framing - Scholars ground themselves in the learning for the day as the teacher builds investment in the day's lesson. Scholars make predictions or pose questions related to the phenomena or guiding question.
- 3) Building a Body of Evidence - Scholars engage in a key activity, investigation, or experience that allows for the development of evidence to make progress in explaining the phenomena or answering with guiding questions. This inquiry may involve lab investigation, text analysis, data set analysis, and/or computer simulation.
- 4) Explanation - Scholars make meaning of data and evidence to construct appropriate explanations of science concepts and/or phenomena.
- 5) Closing - Scholars revise their work and describe the transformation of their ideas and skills during the lesson

⁹ <https://bscs.org/bscs-5e-instructional-model/>

Type 1: Lab Lesson

What are the CFS for a laboratory investigation so that focus and investment is high?

- Keep the framing of testing a hypothesis or prediction in the foreground
- Ensure students know how to safely use, access, and put away/clean up the lab equipment
- Ask questions to support students in their sense-making of observations
- Hold students accountable for high quality observations
- Provide clear and accountable group structures and materials movement structures

Type 2: Data Analysis and Explanation

What are the CFS for a data analysis so that focus and investment is high?

- Students internalize that they are using evidence to know if their hypothesis was supported or not.
- Students use sense making strategies to interpret the evidence and to place the lift of data analysis and interpretation on them.
- Students use their data analysis and interpretation to develop an explanation that ties back to scientific principles.
- Students use multiple resources to synthesize new information, create a model or provide an explanation

Argument Driven Inquiry Cycle

In addition to these basic lesson types, students may engage in lessons that follow the Argument Driven Inquiry Cycle, which follows these 8 steps (days may vary depending on the particular guiding question:

Day 1:

- 1) Identify the task and guiding question (whole group)
- 2) Design a method and collect data

Day 2:

Continue data collection

Day 3:

- 3) Data analysis and development of an initial argument

Day 4:

- 4) Argument session
- 5) Explicit and Reflective Discussion

Day 5:

- 6) Write an investigation report

Day 6:

- 7) Double blind peer review
- 8) Revise investigation report

Classroom Environment

In order to ensure a positive classroom environment to support content related instruction, the following components are essential in any BRICK science classroom.

Unit Bulletin Board

Inside each classroom, one bulletin board should be related clearly to the unit topic. The board should include the title of the unit, relevant anchor charts, reference posters, etc. A focus on vocabulary is critical and will be planned at the Unit Unpack meeting.

Ask Yourself Questions and Sentence Starters/Stems

Open ended questions and sentence starters for discussion should be posted and incorporated into class daily.

Student Work Display

Each classroom includes at least one designated bulletin board or space to display student work. Posted student work should include feedback from the teacher or peers and reflect revisions and should be current within two weeks.

Overall Environment

We communicate the importance of safety and organization with how we maintain the environment. There should be no stacks of papers, disorganized supplies, etc. All materials should be returned to their homes daily. At the conclusion of each period, the teacher should direct students to ensure the floor is free of papers, trash, etc.

Assessment Methods/Data Cycle/Grading Resources

Students learn from feedback and revisions--both in their verbal and written endeavors. To this end, we must ensure that the work we ask students to do is meaningful. We then respond to their work in a way that facilitates growth and learning.

We provide a variety of types and levels of assessment in order to constantly collect and analyze data and we involve students in this process as active, reflective participants in their learning process.

Grading breakdown:	Returned to students	Frequency	Late Work	Revisions
Classwork Assessment (ETs, DN, Group work, small classwork)	Within 2 days	Administered and reviewed daily, graded with feedback 2-3x/wk	Not accepted late unless completed with teacher in person	Teacher discretion for revisions
Formative Assessments (quizzes, designated classwork)	Within 1 week	Graded with feedback 1-2x/wk	Accepted late within 1 week due to absences.	Provide opportunities to revise key assignment
Summative Assessments (tests/full lab reports/project)	Within 1 week	2-3x/quarter	If missed due to absence, completed on designated day	No opportunities to revise tests, Required to revise labs at least once
Homework	Within 1 week	2-3x/wk	HW due the next day if absent on submission day. HW due in two days if absent on day assigned.	Teacher discretion for revisions

Rubrics

- **Scope Specific Rubrics:** See Scope Specific Rubrics for Science and Engineering Practices and for Crosscutting Concepts in the Google Drive for each Scope in STEMScopes
- **CEJ [Rubric](#)** (To score: Add up the total points (out of 25) and use the following conversion charts:

Points	CEJ Rubric Score <i>(ie if student earned 1,1,1,4,4 = 11 points but grade earned is 2, which is one above the lowest score)</i>
21-25	5, or ONE above lowest category, whichever is lowest
16-20	4, or ONE above lowest category, whichever is lowest
11-15	3, or ONE above lowest category, whichever is lowest
6-10	2

1-5	1
------------	----------

Grade	Grade Equivalent on the CEJ Rubric
9th	5=110% 4=100% 3=85% 2=70% 1=60%
10th	5=105% 4=90% 3=75% 2=70% 1=55%
11th	5=100% 4=85% 3=75% 2=60% 1=55%

Science and Engineering Practices Continuum

https://www.sciencepracticesleadership.com/uploads/1/6/8/7/1687518/instruction_continuum_v8.pdf (Word doc in resources)

Science Practices Continuum – Students’ Performance

This continuum is intended for teachers and administrators to use in guiding and evaluating student performance in the science practices. The levels reflect increasingly sophisticated engagement in the practices and are not grade-level specific; students can engage in the practices in developmentally appropriate ways at any of these levels. Appendix F in the NGSS provides significantly more detail for each practice (that should be integrated as both students and teachers develop greater fluency with each practice). The practices are grouped into the “Investigating” “Sensemaking” and “Critiquing” practices.

		Level 1	Level 2	Level 3	Level 4
Investigating Practices	1. Asking questions	Students do not ask questions.	Students ask questions. Students’ questions are both <i>scientific</i> and <i>non-scientific</i> questions (i.e., not answerable through the gathering of evidence or about the natural world).	Students ask questions. Students’ questions are typically <i>scientific</i> (i.e. answerable through gathering evidence about the natural world). Students <i>do not evaluate</i> the merits and limitations of the questions.	Students ask questions. Students’ questions are typically scientific (i.e. answerable through gathering evidence about the natural world). Students <i>do evaluate</i> the merits and limitations of the questions.
	3. Planning and carrying out investigations	Students do not design or conduct investigations.	Students conduct investigations, but these opportunities are typically <i>teacher-driven</i> . Students do <i>not</i> make decisions about experimental variables or investigational methods (e.g. number of trials).	Students <i>design or conduct</i> investigations to gather data. Students make decisions about experimental variables, controls <i>or</i> investigational methods (e.g. number of trials).	Students <i>design and conduct</i> investigations to gather data. Students <i>make decisions</i> about experimental variables, controls <i>and</i> investigational methods (e.g. number of trials).
	5. Using mathematics and computational thinking	Students do not use mathematical skills (i.e., measuring, estimating) or concepts (i.e., ratios).	Students use mathematical skills or concepts but these are <i>not connected to answering a scientific question</i> .	Students use mathematical skills or concepts to <i>answer a scientific question</i> .	Students <i>make decisions</i> about what mathematical skills or concepts to use. Students use mathematical skills or concepts to answer a scientific question.

Sensemaking Practices	2. Developing and using models	Students do not create or use models.	Students create or use models. The models focus on <i>describing</i> natural phenomena rather than predicting or explaining the natural world. Students <i>do not evaluate</i> the merits and limitations of the model.	Students create or use models focused on <i>predicting or explaining</i> the natural world. Students <i>do not evaluate</i> the merits and limitations of the model.	Students create or use models focused on <i>predicting or explaining</i> the natural world. Students <i>do evaluate</i> the merits and limitations of the model.
	4. Analyzing and interpreting data	Students may record data, but do not analyze data.	Students work with data to organize or group the data in a table or graph. However, students <i>do not recognize patterns or relationships</i> in the natural world.	Students work with data to organize or group the data in a table or graph. Students make sense of data by <i>recognizing patterns or relationships</i> in the natural world.	Students <i>make decisions</i> about how to analyze data (e.g. table or graph) and work with the data to create the representation. Students make sense of data by <i>recognizing patterns or relationships</i> in the natural world.
	6. Constructing explanations	Students do not create scientific explanations.	Students attempt to create scientific explanations but students' explanations are <i>descriptive</i> instead of explaining how or why a phenomenon occurs. Students <i>do not use</i> appropriate evidence to support their explanations.	Students attempt to create scientific explanations but students' explanations are <i>descriptive</i> instead of explaining how or why a phenomenon occurs. Students <i>use appropriate evidence</i> to support their explanations.	Students construct explanations that focus on explaining <i>how or why a phenomenon occurs</i> and use <i>appropriate evidence</i> to support their explanations.
Critiquing Practices	7. Engaging in argument from evidence	Students do not engage in argumentation.	Students engage in argumentation where they support their <i>claims with evidence or reasoning</i> , but the discourse is primarily <i>teacher-driven</i> .	Students to engage in <i>student-driven argumentation</i> . The student discourse includes <i>evidence and reasoning</i> to support their claim. Students also agree and disagree, but rarely engage in critique.	Students engage in <i>student-driven argumentation</i> . The student discourse includes evidence, reasoning that links the evidence to their claim and <i>critique</i> of competing arguments during which students build on and question each other's ideas.
	8. Obtaining, evaluating, and communicating information	Students do not read text for scientific information.	Students read text to <i>obtain</i> scientific information, but <i>do not evaluate</i> this information. Students also <i>do not compare or combine</i> information from multiple texts considering the strengths of the information and sources.	Students <i>read and evaluate</i> text to obtain scientific information. Students <i>do not compare or combine</i> information from multiple texts considering the strengths of the information and sources.	Students <i>read and evaluate</i> text to obtain scientific information. Students <i>compare and combine</i> information from multiple texts considering the strengths of the information and sources.

Teacher Planning, Preparation, and Development

Intellectual Prep

The nature of teaching and learning high school science is a creative process rooted in critical thinking and connected ideas. It is important that the course be grounded in standards and built to reflect both the students and the teacher. To this end, the intellectual preparation for science transitions over time during the year to allow for greater teacher input while maintaining the aligned curriculum and high standards.

Unit 1: Teachers use network provided scripted lesson plans and pre-made student materials based on the lessons in STEMScopes. Teachers internalize, enhance, individualize and personalize these lessons as they prepare, building questions, connecting to the SEPs and CCCs intentionally and developing relationships with students.

Unit 2-3: Teachers use network provided scripted/skeletal lesson plans and transition to building their own student materials based on the lessons in STEMScopes. Teachers continue to internalize, enhance, individualize and personalize these lessons as they prepare, building questions, connecting to the SEPs and CCCs intentionally and developing relationships with students AND using their experience in Unit 1 to craft meaningful student-facing materials using the STEMScopes templates.

Unit 4A: Teachers use network provided lesson summaries (found on Course Planning Docs) to build plans and continue as described above.

Unit 4B and beyond: Teachers use network chunked lessons (found on Course Planning Docs) to build plans and continue as described above.

Meeting Structure

Friday Professional Development

- Per the Professional Development Scope and Sequence provided by the Network, teachers and leaders will engage in regular professional development on Friday afternoons. PD may be focused on specific science content, network-based social-emotional learning content, preparation for upcoming large assignments or other development as needed.

Weekly Course Meetings

- **One of the following agenda types:**
 - *Scope Unpack (SU)*-- deep dive into the content, instructional focus and science practices to highlight in the upcoming scope
 - *Looking at Student Work (LASW)*--deep dive into student work samples to hone in on key learning gaps and make action plans to address
 - *Data Analysis (DA)*--question by question and standards analysis of quizzes, tests or major assignments Plan re-teach days and follow-up action plans to address.
 - *Vice Principal-planned agenda*: engage in active participation in the math department initiatives

Weekly or Bi-weekly Individual Meetings with Vice Principal

- **Always include:**
 - *Observation/Feedback (O/F)*: Admin and/or network members will regularly observe in classrooms and be present in order to provide the best support to teachers. These meetings will provide regular

opportunities for connections to the rubrics, and criteria for success from our Arcs of the Year as well as practice and creation of teacher action steps.

- *Feedback on Lesson Internalization and Personalization Preparation (IPP)*: Teachers will submit weekly preparation prior to the meeting with their

- **May include** (or other components depending on need):

- *Lesson Unpack (LU)*: In order to develop deeper content knowledge and/or to prepare for a challenging lesson and/or focus on particular areas of lesson execution, lesson unpacks provide the opportunity to deep dive into individual lessons.
- *LASW and Data Analysis*: The best way that we can differentiate our instruction to fit the needs of students, we must intentionally use assessment data. By planning based on student work and data and working with instructional experts to personalize the lessons and response.

Scope Unpacks

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Read and annotate the Unit Plan and pre-reading for places to highlight instructional practices -Prepare key points and back pocket questions to engage in SEL and math practice grounding -Meet with Director to prepare -Attend unpack meetings led by DCL to provide support and feedback
Department Course Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and prepare questions to ensure deep content knowledge and internalization -Read and annotate Unit Overview and Assigned Pre-Readings -Complete Unit Assessment (see Illuminate) and Exit Tickets for the units -Follow the steps outlined the Unit Unpack planning template to a high level of excellence -Meet with Director to prepare
Teacher	<ul style="list-style-type: none"> -Read and annotate Unit Overview and Assigned Pre-Readings -Complete Scope Assessment (see Illuminate) and Exit Tickets for the units -Follow the steps and complete the Unit Planning Cover Sheet to a high level of excellence -Submit pre-work by deadline
Director	<ul style="list-style-type: none"> -Prepare all unit plans and unit planning cover sheets -Review/provide feedback on DCL and IL preparation for unpack meetings -Attend unpack meetings sometimes to provide support and feedback

Looking at Student Work (Classwork, SWYKs and ETs)

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review student work and look over for trends in student performance -Review the prework submitted and ensure the highest leverage error, gap and action plan have been identified -Follow the steps outlined the LASW planning template to a high level of excellence -Ensure 100% of students have taken and submitted assessments
Department Course	<ul style="list-style-type: none"> -Review student work and look for over trends in student performance -Review the prework submitted and ensure the highest leverage error, gap and action plan have been

Leader	<ul style="list-style-type: none"> identified -Follow the steps outlined the LASW planning template to a high level of excellence -Meet with Director to prepare
Teacher	<ul style="list-style-type: none"> -Review student work and look for overall trends in student performance -Identify the error, name the gap and plan the plan to close it -Prepare student work -Ensure 100% of students have taken and submitted assessments
Director	<ul style="list-style-type: none"> -Prepare all assessments -Support IL and DCL with preparing for LASW meetings -Review data and prepare back pocket questions

Data Analysis (Scope Exams/Major Assignments)

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Ensure 100% of students have taken and submitted assessments -Review data for trends across department, especially with respect to (1) MC vs. OER, (2) pacing, (3) work shown, (4) Explanations and justifications, (5) domains and clusters, (6) between teachers and classes -Based on the areas identified, consider (1) which areas can be addressed in upcoming content, (2) which areas should be honed in on for re-teach days, (3) which areas need to be retaught whole group vs in smaller groups or in intervention periods -Lead teachers in creating re-teach plans for in class and intervention classes
Department Course Leader	<ul style="list-style-type: none"> -Review data for questions where (1) high scoring students got right but mid/low scoring students missed, (2) standards where questions have very different mastery, (3) all/nearly all students missed or all/nearly all students answered correctly -Based on the areas identified, consider (1) which areas can be addressed in upcoming content, (2) which areas should be honed in on for re-teach days, (3) which areas need to be retaught whole group vs in smaller groups or in intervention periods -Lead teachers in creating re-teach plans for in class and intervention classes
Teacher	<ul style="list-style-type: none"> -Ensure 100% of students have taken and submitted assessments -Review data for both sets of questions (IL and DCL) -Prepare plan to address unfinished learning and how you will reassess
Director	<ul style="list-style-type: none"> -Prepare all assessments -Review data for trends across department and within individual courses with respect to: (1) MC vs. OER, (2) pacing, (3) work shown, (4) Explanations and justifications, (5) domains and clusters, (6) between teachers and classes -Review data for questions where (1) high scoring students got right but mid/low scoring students missed, (2) standards where questions have very different mastery, (3) all/nearly all students missed or all/nearly all students answered correctly -Support IL and DCL with preparing for Analysis meetings -Attend Analysis meetings to provide support and feedback

Observation/Feedback

Role	Responsibilities
Instructional Leader	See Instructional Guidebook with added addendum: In the Science dept, formal weekly course-based lesson unpacks are not in the general schedule. This means that in the obs/feedback part of meetings, it is crucial that practice be directly aligned to upcoming lessons and intentionally planned to improve this specific future instruction from both an execution AND a content lens.
Department Course Leader	
Teacher	
Director	

Lesson Unpack

Note: In the Science dept, formal weekly course-based lesson unpacks are not in the general schedule, however, they are a crucial part of a teacher’s professional development and are sometimes required for particularly challenging lessons or content. These are scheduled at the IL or DCL’s discretion.

Role	Responsibilities
Instructional Leader	<ul style="list-style-type: none"> -Review prep work submitted by teacher and identify areas of strength and areas of growth in preparation -Read and annotate the Lesson Plan for places to highlight instructional practices. Do the work from the major parts of the lesson (ie. BBOE, Explanation, Closing) -Identify the particular area of needed practice for the teacher and plan the practice -Follow Lesson Unpack Planning Guide -Collaborate with the department course lead as needed to hone in on specific content
Department Course Leader	-Support Instructional leader as needed for content
Teacher	<ul style="list-style-type: none"> -Read and annotate Lesson plan, do all the student work in the lesson -Use unit planning cover sheet to follow the steps and complete the Lesson Planning Cover Sheet to a high level of excellence -Submit pre-work by deadline
Director	-Support Instructional leader as needed for content

Arc of the Year 2021

Time	Description	Key Metrics (ELC Goals)
Weeks 1-6	<p>Arc 1a: Setting the Foundation for Learning Partnerships¹⁰ and Independent Learning</p> <p>SWBAT: PROCEDURAL: (1) Follow all procedures. (2) Utilize all technology. (3) Start to finish class with high level of effort on work SCIENCE AND ENGINEERING PRACTICES: (1) SEP1: Asking Questions and Defining Problems and (2) Content Specific SEL:</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Be consistently prepared for class with exemplars and fully annotated plans. (2) Be consistently prepared for Unit Unpack and practice lesson sessions. (3) Articulate opportunities to Ask Questions and Define Problems (SEP1). INSTRUCTION: (1) Engage in simple classroom routines to focus on the science instruction. (2) Execute the structure of class. (3) Provide students with feedback on their work. DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Analyze Exit Tickets daily and add tweaks to lesson plans the next day to address unfinished learning. (2) Utilize transparent rubrics to assess content mastery, implementation of practices and growth. SEL:(1) Implement consistent opening rituals that incorporate self-awareness and genuine affirmation. (2) Know names, learning profiles and indiv. information about all students in order to start to build trust and rapport.</p> <p>LWBAT:</p>	
Weeks 7-10	<p>Arc 1b: Supporting All students in Achieving Effective Information Processing¹¹</p> <p>SWBAT: INTELLECTUAL INTERNALIZATION: (1) Make thinking and conceptual understanding visible through detailed explanations, demonstration of process, calculations, models, etc. SCIENCE AND ENGINEERING PRACTICES: (1) SEP8: Obtaining, Evaluating and Communicating Information and (2) Content specific SEL:</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Articulate potential misconceptions and responses. (2) Define Criteria for Success consistently and specifically. (3) Articulate opportunities to teach SEP8. INSTRUCTION: (1) Provide students with immediate written feedback on their work. (2) Hold students accountable for implementing feedback on their work. (3) Engage in explicit instruction of SEP8. DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Assess all students on prerequisites and use this information to pre-teach skills. (2) Utilize transparent rubrics to assess content mastery, implementation of practices and growth. SEL: (1) Ensure all students are heard aloud OR seen through written work in each class period. (2) Identify key students who need increased attention through relationship building.¹²</p> <p>LWBAT:</p>	
Weeks	<p>Arc 2: Achieving Effective Information Processing Through Student Voice¹³</p>	

¹⁰ Culturally Responsive Teaching and the Brain (75) define a learning partnership as a teacher-student relationship anchored in affirmation, mutual respect and validation that breeds an unshakable belief that marginalized students not only can but will improve their school achievement. Learning partnerships are composed of three parts: rapport, alliance and cognitive insight.

¹¹ Culturally Responsive Teaching and the Brain (15) defines information processing as “the brain’s process of turning inert facts and content into usable knowledge. Includes three stages: input, elaboration and application. Active information processing stimulates brain growth.

¹² See CRT and the Brain pg. 77-86

¹³ Culturally Responsive Teaching and the Brain (149) notes “One of the most important tools for a culturally responsive teacher is instructional conversation. The ability to form, express and exchange ideas is best taught through dialogue, questioning and the sharing of ideas.” See text for more info.

11-17	<p>SWBAT: INTELLECTUAL INTERNALIZATION: (1) Engage in habits of discussion to deepen learning SCIENCE AND ENGINEERING PRACTICES: (1) SEP7: Engaging in Argument from Evidence and (2) Content specific SEL:</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Articulate opportunities to students up for successful, productive discourse (SEP7). (2) Plan for the investment and engagement of all students (differentiate based on student strengths) in the discourse. INSTRUCTION: (1) Utilize planned open-ended questions to engage students in productive conversations between themselves. (2) Set expectations, provide support and maintain a high level of investment and productive engagement in class that leads to mastery of content and skill. DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Use Exit Ticket data to plan LASW lessons to target re-teaches for procedural and conceptual errors.</p> <p>LWBAT:</p>	
Weeks 18-24	<p>Arc 3a: Quality Batch Feedback¹⁴ SWBAT: INTELLECTUAL INTERNALIZATION: (1) Lead critical class discussions grounded in student work. SCIENCE AND ENGINEERING PRACTICES: (1) SEP7: Engaging in Argument from Evidence and (2) Content specific SEL:</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Articulate potential misconceptions and responses. (2) Articulate opportunities for precision of argumentation from evidence (SEP7). INSTRUCTION: (1) Use show call to model precision of scientific communication AS WELL AS accurate and efficient calculations and interpretation of data as evidence. (2) Provide consistent and targeted batch feedback DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Plan LASW lessons that target good to great open ended answers. SEL/CRT: (1) Empower students to accept and implement feedback as part of developing competency in self-awareness and relationship skills.</p> <p>LWBAT:</p>	
Weeks 25-31	<p>Arc 3b: Indiv. Feedback and Small Group Instruction¹⁵ SWBAT: INTELLECTUAL INTERNALIZATION: (1) Engage in productive struggle to deepen learning with peers. SCIENCE AND ENGINEERING PRACTICES: (1) Constructing Explanations and Designing Solutions and (2) Content specific SEL/CRT: (1) Empower students to accept and implement feedback as part of developing competency in self-awareness and relationship skills.</p> <p>TWBAT: PREPARATION and INTERNALIZATION: (1) Plan for student-student indep. discourse in small group instruction (2) Articulate and model opportunities for critiquing the reasoning of others, (3) Articulate potential misconceptions and responses. INSTRUCTION: (1) Engage students in paired work with productive struggle. (2) Provide consistent and targeted feedback to indiv and small groups. DATA ANALYSIS TO DRIVE ACHIEVEMENT: (1) Plan LASW lessons that target good to great open ended answers.</p> <p>LWBAT:</p>	
Weeks	<p>Arc 4: Reteach, Spiral and proficiency for all</p>	

¹⁴ Culturally Responsive Teaching and the Brain (103) calls for feedback to be instructive and corrective, with the following characteristic: (1) It is instructive rather than evaluative, (2) It is specific and in the right dose, (3) It is timely, (4) It is delivered in a low stress, supportive environment. In addition (104), the recommended approach is “wise feedback”, which reassures students they will not be stereotyped or doubted as less capable while being honest about the gap between current performance and the standard. Three specific elements are included in wise feedback: (1) Explicit holding of high standards, (2) Personal assurance that student is capable, (3) Specific actionable steps to work on.

¹⁵ See CRT and the Brain p 105 for “Asset Based Feedback Protocol”

30-40

Appendix 1: Culturally Relevant Practices

As we consider specifically what Culturally Relevant Practices look like in our science classrooms, here are examples of each element:

Similarly, we believe that a similar four elements must be present in science learning environments:

- 1) Supporting deep learning: Ensure student success with coherent and connected scientific understandings
- 2) Engaging and valuing identities: How to honor students’ experiences, communication practices and communities
 - a) Consider who students are and what assets and talents they bring to the classroom setting. Invite students’ backgrounds and experiences in.¹⁶
 - b) Collect information about students’ experiences and use this to incorporate interests outside of school into science lessons
 - c) Employ learning strategies that utilize the techniques of oral traditions, such as making activities social, gamifying work or “storifying” work.¹⁷
- 3) Sharing authority: How to build inclusive, collaborative norms and routines
 - a) Promote collaborative learning, and focus on developing scientific language as students explain concepts that connect to them in personal ways
 - b) Create opportunities for students to share thinking and responded to one another’s comments and questions as their scientific thinking develops
 - c) Use flexible groupings for scientific collaboration to increase opportunities for students to learn from each other and build community,¹⁸ and this also models the collaborative nature of scientific work.
 - d) Deal directly with controversial subjects and give them context.
 - e) Reframe units or include context around research that reflects a more diverse representation of scientists than the traditional white males (ie. Swap the focus on Gregor Mendao for Priya Moorjani, a geneticist who has used genomic data to understand the origins of the Indian caste system)¹⁹
 - f) Study a wide range of individuals and ethnic groups, keeping in mind that no one person represents a group...”incorporate data, photos, examples, and information from different cultures into each lesson so multicultural science education is institutionalized in your program and practices, as opposed to being taught in isolation (e.g., during Women’s History Month only).”²⁰
- 4) Applying science: How to use science and engineering to understand and investigate meaningful situations:
 - a) Engage students in collecting data on issues that are important to them and their communities. Analyze the data from various perspectives and suggest how science can be used to solve problems in their community.

Appendix 2: Acceptable Reassessment Responses

Sample Multiple Choice Question

7. A father sheep has curly wool while a mother sheep has straight wool. Which of these statements explains why one of their baby lambs has curly wool?

- a The baby lamb inherited its copies of the gene for wool shape from its father and not from its mother. Just like its father's genes, those genes instruct for proteins that connect in ways that make its wool curly. *→ offspring gets a copy from both parents*
- b The baby lamb inherited its copies of the gene for wool shape from its father and not from its mother. Those genes connect together to make its wool curly. *→*
- c The baby lamb inherited one copy of the gene for wool shape from its father and one copy from its mother. That gene combination instructs for proteins that make its wool curly.
- d The baby lamb inherited one copy of the gene for wool shape from its father and one copy from its mother. Those genes connect together to make its curly wool. *genes do not connect together*

GIVING EFFECTIVE FEEDBACK:

See it. Name it. Do it.

Prepare During observation	Prepare
	<ul style="list-style-type: none"> • Have your tools in hand: <ul style="list-style-type: none"> ○ Get Better Faster Scope & Sequence, teacher lesson plan, video tool, observation tracker • Select the highest leverage, measurable, bite-sized action step • Plan your feedback while observing: <ul style="list-style-type: none"> ○ Fill out planning template ○ Prepare a model for the teacher (e.g., video, exemplar resource, or your own live model)
See It 2-8 mins	See it: Success, Model, & Gap
	<p>See the success:</p> <ul style="list-style-type: none"> • “We set a goal last week of _____ and I noticed how you [met goal] by [state concrete positive actions teacher took].” • “What made that successful? What was the impact of [that positive action]?” <p>See the model:</p> <ul style="list-style-type: none"> • Narrow the focus: “Today, I want to dive into [specific element of lesson, action step area].” • Prompt the teacher to name the exemplar: <ul style="list-style-type: none"> ○ “What are the keys/criteria for success to _____ [action step/skill]? What is the purpose?” ○ “What did you ideally want to see/hear when _____?” ○ “What was your objective/goal for _____ [activity/lesson]? What did the students have to do to meet this goal/objective?” ○ Connect to PD: “Think back to the PD on _____; what were the keys required for _____?” ○ Read a one-pager or prompting guide: “What are the essential elements of _____?” • (If unable to name the exemplar) Show a model—choose one: <ul style="list-style-type: none"> ○ Show video of effective teaching: “What actions did the teacher take to do _____?” ○ Model: “What do you notice about how I _____?” “What is the impact and purpose?” ○ Debrief real-time feedback: “When I gave real-time feedback, what did I say? What did I do? What was the impact of the real-time feedback?” <p>See the gap:</p> <ul style="list-style-type: none"> • “What is the gap between [the model/exemplar] and class today? What keys were missing?” • “What was the challenge in implementing [technique/content] effectively during the lesson?” • (If unable to name the gap) Present the evidence: <ul style="list-style-type: none"> ○ Present time-stamped video from observation: “What are the students doing? What are you doing?” “What is the gap between what we see in this part of the video and the [exemplar]?” ○ Present classroom evidence: “Two students in the front row had their heads down during independent practice. How does this impact student learning?” “What is the gap between [the exemplar] and class today?” ○ Present student work: “What is the gap between the [exemplar] and [student work] today?”
Name it 2 mins	Action Step: What & How
	<p>Name the action step:</p> <ul style="list-style-type: none"> • “Based on what we discussed today, what do you think your action step should be?” • “What are the key steps to take to close the gap?” <p>Punch it:</p> <ul style="list-style-type: none"> • “So your action step today is _____”--state clearly and concisely: <ul style="list-style-type: none"> ○ <u>what</u> the teacher will work on (e.g., what-to-do directions) ○ <u>how</u> the teacher will execute (e.g., “1.Stand still, 2.Give a what-to-do direction, and 3.Scan”) • Have teacher restate the action step; then write it down

Plan, Practice, & Follow Up

Plan before practice:

- Plan the implementation into upcoming lesson plans
 - “Where would be a good place to implement this in your upcoming lessons?”
 - “Take _____ minutes and write your script of what you will do and say as you implement your action step. I will also write a script so we can spar.”
- Spar with the exemplar:
 - “Let’s compare our plans. What can we pull from each to make the strongest one?”
- Perfect the plan before practice:
 - “Those three steps look great. Let’s add _____ to your [script/lesson plan].”
 - “Now that you’ve made your initial plan, what will do you if [state student behavior/response that will be challenging]?”

Practice the gap:

- Round 1: “Let’s Practice” or “Let’s take it live.”
 - [When applicable] Stand up/move around classroom to simulate the feeling of class
 - Pause the role play at the point of error to give immediate feedback
 - Repeat until the practice is successful.
- Additional Rounds: master it while adding complexity:
 - “Let’s try that again, but this time I will be [student x who is slightly more challenging].”
- (Once mastered) Lock it in:
 - “How did what we practice meet the action step we named?”
 - “Would you add anything to the action step based on the practice? Let’s add it now.”

Follow up:

- Plan for real-time feedback:
 - Agree on a predetermined cue for next observation: “When I come in, I will observe for _____. If I see you struggling I will [give you a cue].”
- Set dates—both teacher and leader write them down:
 - Completed Materials: when teacher will complete revised lesson plan/materials.
 - Observation: when you’ll observe the teacher
 - “When would be best time to observe your implementation of this?”
 - “When I review your plans, I’ll look for _____.”
 - (Newer teacher): “I’ll come in tomorrow and look for this technique.”
 - (When valuable) Teacher observes master teacher: when they’ll observe master teacher in classroom or via video implementing the action step
 - (When valuable) Self-video: when you’ll tape teacher to debrief in future meeting

Do It
Rest of meeting

2A. PLANNING MEETING ONE-PAGER 20-21

Prepare	Plan for the Essential Lesson
	<p>Plan for the essential lesson of the week/unit:</p> <ul style="list-style-type: none"> ● Start with the highest rigor/most productive struggle: <ul style="list-style-type: none"> ○ Humanities: What is the most difficult passage or text/task that will create productive struggle to unlock understanding? ○ STEM: What is the most rigorous questions/task from the lesson that will create productive struggle? ● ID the exemplar student response, including key vocabulary: <ul style="list-style-type: none"> ○ Humanities: What is the ideal answer you want them to give during the class discussion? ○ STEM: If they get this right and you ask them why, what do you want them to say? <p>Anticipate teacher gaps and plan your model:</p> <ul style="list-style-type: none"> ● Review teacher’s know/show chart to target any knowledge gaps ● Identify teacher’s execution gap and draft an action step ● Script your exemplar and model for the area of most productive struggle within the lesson. Choose your model: <ul style="list-style-type: none"> ○ Option 1: model the lesson planning (include think aloud of planning each part of the lesson) ○ Option 2: model the Discourse part of the lesson ○ Option 3: model the I Do/Think Aloud & check for understanding after the I Do ● Plan your activated knowledge and stretch it questions
See It (15 mins)	Develop Content Expertise
	<p>See the Exemplar:</p> <ul style="list-style-type: none"> ● Revise the Know-Show chart: “Let’s spar with our know/show chart. Take 1 minute to note any similarities and differences. What, if anything, can we adjust to make it more precise?” ● Determine the productive struggle: <ul style="list-style-type: none"> ○ “What is the most sophisticated thinking students need to do in this lesson? Where does that take place?” ○ “Let’s select the most rigorous task that produces productive struggle.” ● Chart the ideal student response (utilize your Know-Show chart for key language): <ul style="list-style-type: none"> ○ Humanities: “What is the ideal answer you want them to give during the class discussion?” ○ STEM: “If they get it right and you ask them why, what do you want them to say?” <p>See the Model Teaching (if needed)</p> <ul style="list-style-type: none"> ● Frame: “I’ll model and ask you to be a student. During my model, I’ll say <i>Pause</i> at key moments to get meta with what I’m thinking as a teacher.” “As I model, consider: <i>What am I thinking?</i> and <i>What do I say and do?</i>” ● Model – go meta and model the thinking, not just the actions: <ul style="list-style-type: none"> ○ “<i>Pause.</i> Hmm...I’m getting a ‘partially there’ answer. They’re still missing ___ so I’m going to call on my student who is almost there. <i>Action.</i>” ○ “<i>Pause.</i> I’m thinking did I get my exemplar response? (yes/no) He’s missing _____ in the exemplar so I’m going to (re-voice, agree/disagree, build). <i>Action.</i>” ● Debrief: <ul style="list-style-type: none"> ○ “What did you see me say and do in the model?” ○ “What is the difference between the model and how you currently conduct class? What keys were missing?” ○ “What is the difference between what you saw me do and how you _____ in class? What is the impact?” <p>See the Student Gap:</p> <ul style="list-style-type: none"> ● Activate Knowledge: ID <u>most critical</u> prerequisite knowledge they will need for this lesson <ul style="list-style-type: none"> ○ “What words would you want to have posted that you want to make sure they use?” ○ (If lesson is think aloud: Plan the notetaking page, key parts to punch in the think aloud, and the CFU) ● Plan imperfect student responses: “Let’s anticipate the imperfect answers from students: <ul style="list-style-type: none"> ○ Almost there: “What’s the difference between the ‘almost there’ response and the exemplar?” ○ Partially there ○ Further off: “What will a student who is further off? What would they say if you asked them why?” ○ Connect students from class to each anticipated error: “What are the name(s) of students in your class that will make each one of these errors we can use in practice today?”

Name the Teacher Action Step

Name It
(3 mins)

Stamp the Action Step (1 min)

- “Based on what we discussed today, what do you think your action step should be: where do you want to focus when teaching this lesson?”

Punch it:

- Name the precise teacher action step aligned to the model, including a “What” and a “How”
 - What: “Intervene strategically during discourse.”
 - How: “1. Lead with universal prompts. 2. Allow 2-3 students to share before intervening.”
- Prompt the teacher to write down the action step and/or state it back to you

Practice Execution to Close the Gap

Do It
(20 min)

Plan – finalize revisions to key portions of the lesson (8 min)

- Cut/Adjust the lesson: “Based on the model/our work so far, what components of the lesson do we need to revise and plan for?”
 - Identify what can be cut/edited to spend the most time in the area of most productive struggle
- Finalize the discourse cycle:
 - Activate knowledge: Plan when and how you will refer to word wall / activation of knowledge
 - Launch the cycle: Everybody Writes, Turn & Talk, Cold Call
 - Strategically Call on Students: call as needed on students who are almost there, partially there or off
 - Plan the habits of discussion
- Plan Stretch It questions to move the “almost there” response to the ideal student response
 - Problematize: “I’m going to play devil’s advocate with you [state close alternative argument]. How could you prove me wrong?”
 - Sophisticate: “What if I asked you to solve $2x + 5y = 4$. Does our rule still apply?”

Spar & Perfect the Plan:

- Spar: “Let’s compare. What do you notice? What can we pull from each to make the strongest plan?”
- Anticipate the teacher gap: “What will be the hardest part for you? Why?” Based on this, what do you want to add to your plan to implement more effectively?”

Practice (10 min)

- Set up the space:
 - Post/chart the activated knowledge, exemplar response, imperfect responses and stretch it questions
 - Remind them of their action step: “What do you want to remember to do?”
- Take it live—give real-time feedback:
 - Use universal practice prompts if teacher struggles in discourse:
 - “Pause. Go back to your exemplar or know-show. What is missing from the student’s response?”
 - “Go back to your script. What prompt can you use?”
 - “Which student can you call on?”
 - “Where is their language lacking precision? Go back to your word wall.”
- Feedback/Redo: Facilitate a swift feedback and re-do sequence

Follow up (2 min)

- Reflect: “What are your takeaways about teaching this lesson and this content area?”
- Lock it in:
 - “How did what we practice meet the action step we named?”
 - “Would you add anything to the action step based on the practice? Let’s add it now.”
 - “What do you want to add/revise to your script based on your practice?”
- Plan for real-time feedback:
 - Agree on a predetermined cue for next observation: “When I come in, I will observe for _____. If I see you struggling I will [give you a cue].”
- Set dates—both teacher and leader write them down:
 - Completed Materials: when teacher will complete revised lesson plan/materials.
 - Observation: when you’ll observe the teacher
 - “When would be best time to observe your implementation of this?”
 - “When I review your plans, I’ll look for _____.”
 - (When valuable) Self-video: when you’ll tape teacher to debrief in future meeting

WEEKLY DATA MEETINGS

Leading Teacher Teams to Analyze Student Daily Work

Prepare Before the meeting	Prepare
	<ul style="list-style-type: none"> • Materials ready: ID student exemplar, teachers turn in student work, pull and categorize hi/med/lo student work (just a few of each), pull upcoming lesson plan(s) and pertinent prompting guides • Prime the pump: script the reteach plan and the gap in student understanding; unpack the standard • Preview protocol with teachers: assign roles, novice teachers speak first, veteran teachers add on and clarify, leader provides additional clarity at end, chart, preview the need for concision from more verbose team members, use of a timer, creation of note taking template
See It 12 mins	See Past Success, See the Exemplar, and See and Analyze the Gap
	<p>See Past Success (1 min):</p> <ul style="list-style-type: none"> • “Last week we planned to reteach _____ and we went from ___ % proficient to ___%. Nice job!” • “What actions did you take to reach this goal?” <p>See the Exemplar (8 min):</p> <ul style="list-style-type: none"> • Narrow the focus: “Today, I want to dive into [specific standard] and the following assessment item.” • Interpret the standard(s) <ul style="list-style-type: none"> ○ “Take 1 min: in your own words, what should a student know or be able to do to show mastery?” ○ Chart it ○ Go last: add anything that is missing • Unpack the teacher’s written exemplar: <ul style="list-style-type: none"> ○ “Take 1-2 min to review the exemplar: What were the keys to an ideal answer?” ○ “How does this [part of the exemplar] align with the standard?” ○ “Is there anything you would add to our chart of the unpacked standard?” • Analyze the student exemplar: <ul style="list-style-type: none"> ○ “Take 1 min: How does your student exemplar compare to the teacher exemplar? Is there a gap?” ○ “Do students have different paths/evidence to demonstrate mastery of the standard?” ○ “Does the student exemplar offer something that your exemplar does not?” <p>See the Gap (5 min):</p> <ul style="list-style-type: none"> • Move to the sample of un-mastered student work (look only at representative sample): <ul style="list-style-type: none"> ○ “Take 2 minutes: What are the key gaps between the rest of our student work and the exemplar?” ○ “Look back at our chart: using the language of the standard and exemplar, what are the key misconceptions for our students?”
Name It 2 mins	State the Error and Conceptual Misunderstanding
	<p>Punch it—Stamp the Error and Conceptual Understanding:</p> <ul style="list-style-type: none"> • “So our key area to reteach is: <ul style="list-style-type: none"> ○ Describe the conceptual understanding ○ (if needed) describe the procedural gap (e.g., memorize multiplication tables) and/or missing habits (e.g. annotating text, showing work) • Write down and/or chart the highest leverage action students will take to close the gap

Plan the Reteach, Practice, and Follow Up	
<p>Do It 20-45 min</p>	<p>Plan the Reteach (8-10 mins):</p> <ul style="list-style-type: none"> ● Select the re-teach structure: <ul style="list-style-type: none"> ○ “Should we use modeling or guided discourse?” “Why?” <ul style="list-style-type: none"> ▪ Discourse is recommended when at least 30 percent of students have the right answer. ● Select the task & identify exemplar response: <ul style="list-style-type: none"> ○ Select materials: task, text, student work to show-call, what to chart ○ “What is the ideal answer we want to see that will show we’ve closed the gap?” ○ (If needed—follow-up question): “What is the ‘why’ that students should be able to articulate?” ● Plan the re-teach: <ul style="list-style-type: none"> ○ “Take _____ min and write your script. I will do the same so we can spar.” <ul style="list-style-type: none"> ▪ If a model: write the think aloud and questions ▪ If guided discourse: select student work for show-call, write prompts ○ “Let’s compare our reteach plans. What do you notice? What can we pull from each to make the strongest plan?” (Revise the plan) ● Plan the independent practice: <ul style="list-style-type: none"> ○ “What will you monitor to see if they are doing this correctly? What laps will you name?” <p>Practice the Gap (remaining time):</p> <ul style="list-style-type: none"> ● “Let’s practice.” <ul style="list-style-type: none"> ○ If a model: practice modeling the thinking, precision of language, & change in tone/cadence ○ If guided discourse: practice Show-Call, prompting students, and stamping the understanding ○ If monitoring: practice the laps, annotations, prompts when students are stuck, or stop the show ● (If a struggle) “I’m going to model the teaching for you first. [Teach.] What do you notice?” ● Repeat until the practice is successful. CFU: “What made this more effective?” ● Lock it in: “How did our practice meet or enhance what we planned for the reteach?” <p>Follow Up (last 2 min):</p> <ul style="list-style-type: none"> ● Set the follow-up plan: when to teach, when to re-assess, when to revisit this data <ul style="list-style-type: none"> ○ Observe implementation within 24 hours; teacher sends re-assessment data to leader ● Spiral: <ul style="list-style-type: none"> ○ Identify multiple moments when teacher can continue to assess and track mastery: Do Now questions, homework, modified independent practice ● Move to the lowest scoring work: <ul style="list-style-type: none"> ○ “What students do we need to pull for tutoring? What do we need to remediate?” ○ “How can we adjust our monitoring plan to meet the needs of these students?”

RE-TEACHING STRUCTURES

Guide Student Conversation	
<p>Option 1: Guided Discourse (some students struggle; trending error)</p>	<ul style="list-style-type: none"> ● Know the end game--what strategy/skill/thinking you want students to understand via the discourse ● Start from student work (Show-Call) <ul style="list-style-type: none"> ○ Post/display/chart an exemplar student response AND/OR an incorrect student response ● Call on students—ID the student thinking: <ul style="list-style-type: none"> ○ Exemplar: what did this student do? <ul style="list-style-type: none"> ▪ Push for clearer answers when they haven’t precisely IDed the successful strategy ○ Incorrect response: do you agree/disagree with this answer? What is the error? ● Stamp the understanding: <ul style="list-style-type: none"> ○ What are the key things to remember when solving problems like these? ○ Name the strategy/conceptual understanding; have students put it in their own words
Show the Students How	
<p>Option 2: Modeling (Most students are struggling)</p>	<ul style="list-style-type: none"> ● Model precisely the thinking when moving through a specific task: <ul style="list-style-type: none"> ○ Narrow the focus to precisely the thinking students are struggling with: that frees their mind to focus only on that component ○ Model replicable thinking steps that students can follow ○ Model how to activate one’s content knowledge/skills that have been learned in previous lessons ● Vary in tone and cadence to sound different from a “teacher” voice. ● Give students a clear listening/note-taking task that fosters active listening of the model ● Debrief: What did I do in my model? <ul style="list-style-type: none"> ○ What are the key things to remember when you are doing the same in your own work?

Sabrina Meah, Managing Director of Content: Ms. Meah oversees the development of BRICK's academic content and supports the Academic Leadership Team to meet the network's priority goal(s). Raised by immigrants and freedom fighters in their home countries, Sabrina embraced the value that education is our most powerful weapon to fight for the common good. This core value underlies the 20+ years she has served the students and families of the Newark community. She began her career as a Teach for America corps member, teaching for three years as a 5th and 6th grade teacher and then for ten years as an 8th grade math teacher. During her tenure as a math teacher, Ms. Meah's students achieved some of the highest math test scores, outperforming nearly all local high-performing traditional and charter schools. After spending 13 years in the classroom, Sabrina took the leap and transitioned to school leadership, serving as the Supervisor of Curriculum and Instruction at Greater Newark Charter School. More recently, she assumed the role of Chief Innovation Officer of Instruction at Peshine Avenue School (a BRICK school) for 7 years, where students were recognized by the district and state for record Student Growth Percentiles in ELA and Math. Ms. Meah holds a Bachelor's degree in Political Science from Barnard College, Columbia University, and a Master's degree in School Leadership from the Harvard Graduate School of Education.

Dana Carr-Ford, Elementary Literacy Director (Grades K-5)/Science 3-8: Ms. Carr-Ford oversees the Literacy program in grades K-5 and the science curriculum in grades 3-8. Dana is a Newark native and was very active in her community growing up. She participated in programs with the local Boys' and Girls' Club and SEEDS organization. After graduating from a small boarding school in Western Massachusetts, Dana went on to graduate from The University of Richmond with a Bachelor of Arts degree in Biology. After college, Dana joined Teach For America as a 2012 Metro Atlanta corps member where she taught 4th grade math and science. Dana then transitioned to New York to teach 1st grade and kindergarten for the next four years. She completed her Master of Arts degree in Curriculum and Teaching at Columbia University Teachers College in 2015 and a Master of Arts degree in Language and Literacy at Harvard University Graduate School of Education in 2021.

Erin Davis, Academic Director of Literacy (Grades 6-8): Erin leads in the development and implementation of the middle school ELA program. Before joining the network team, Erin worked with BRICK for 8 years in the capacity of Teacher Coach of Literacy at Peshine Avenue School in Newark, where she received the award of Educational Support Staff Member of the Year in 2014. She graduated from The College of New Jersey and worked as a 4th and 5th grade teacher and Math Coach for Roselle Public Schools before landing in Newark. A quote that drives Erin's work comes from the phenomenal Maya Angelou- "Do the best you can until you know better. Then when you know better, do better." To this end, Erin is continually committed to learning more to better serve the amazing scholars of our network.

Yolanda Floyd, Senior Director of Special Education: Dr. Floyd oversees programming for the network's exceptional learners. Hailing from Louisville, Kentucky, Loni served more than 14 years in various capacities in the Jefferson County Public School system; including as a special education teacher, district resource teacher, assistant principal, and principal. Loni is deeply committed to her work with students and families. She is a passionate advocate for students with special needs

and believes that all students do learn. Loni brings to the network the love, passion, and tenacity to advocate for "each and every" child. Dr. Floyd graduated with a Bachelor of Science in Sociology and a Master of Arts in Justice from the University of Louisville. She then went on to earn her Master of Arts in Teaching and Doctor of Education in Leadership from Spalding University.

Jessica Harrell, Senior Director of High School: Jessica focuses on the development of High School programming for BRICK. Her formal work in education began as a teacher in a variety of urban settings and subjects with students ranging from kindergarten through high school, with most of her teaching career focused on science and math at the high school level. After completing the Accelerate Institute's Ryan Fellowship, Jessica was the founding principal of Great Oaks Legacy Charter High School in Newark. In transitioning to the BRICK Education Network, Jess feels at home with the mission and values-aligned people fighting for social justice through education in Newark. Jessica holds a Bachelor's of Science in Chemistry from Fairfield University, a Master's of Science in Secondary Education from Northwestern, and a Masters of Arts in Education Leadership from Montclair State.

Kelly Koopman, Academic Director of K-8 Math: As the math director, Kelly supports and coaches school administration and teachers in the K-8 Math Model. Kelly's love for education and helping others learn began in the fourth grade when she would volunteer to help the Kindergarten students at school during her recess. She turned this love of helping others learn into a career in education, first as a tutor and then as a teacher. She has taught various grades (K-6) and subjects for 12 years before transitioning to the math director role. Kelly holds a BS in Liberal Studies with an Emphasis in Mathematics and a M.A. in Curriculum and Instruction with an Emphasis in Math from California State University of Long Beach. Kelly is dedicated to the work at BRICK and its mission to knock down all barriers to students' success with comprehensive support for students, families, and the community. Kelly is passionate about math and helping others understand the "why" behind the math and not just learning tricks or memorizing steps to solve. Conceptual understanding with critical thinking and grappling with math problems is essential for students to learn to help them be successful in the future and overcome obstacles in everyday life. Kelly continues to strive to help people overcome their fear of math, find their identity in math, and learn to love math like her.

Tashia Martin, Senior Director of Student Supports: Ms. Martin leads the creation and implementation of BRICK's Ubuntu cultural program to ensure all BRICK schools have warm, belonging-based school environments. As a result, she leads the network's efforts to implement culturally sustaining practices, its social-emotional development curriculum, trauma-informed practices, and positive identity development. Ms. Martin is a licensed social worker. She is also licensed as a restorative practices trainer from the International Institute of Restorative Practices. She is a proud member of Delta Sigma Theta Sorority, Inc. where she chairs the EMBODI Youth Program. She has also served on the Alumni Board and Racial Justice Steering Committee for Morristown-Beard School, the Student Discipline Policy Steering committee for Newark Board of Education, and the Advisory Council for Imagine, a Center for Coping with Loss. Ms. Martin holds

a bachelor's degree in psychology from Temple University and a master's degree in Social Work from Rutgers University.

Kurvan D. Rankin, Director of Restorative Practices: Mr. Rankin serves in the Student Supports Department of the BRICK Education Network as the Director of Restorative Practices. He is a proud graduate of Rutgers University - New Brunswick where he received a B.A. in Africana Studies. He holds certifications in Agile Methodology (SCRUM Alliance); Restorative Practices (International Institute of Restorative Practices); and Diversity, Equity, and Inclusion in the Workplace (University of South Florida Muma College of Business). He began his professional journey in education as an after-school tutor with an agency serving several schools within Essex County. He progressed professionally over the years becoming a Dean of Students and Culture at Marion P. Thomas Charter School where he served grades K-12 across several campuses for six years. He has successfully created, developed, & implemented Multi-Tiered Systems of Support including intervention-based frameworks such as Positive Behavioral Interventions and Supports, Progressive Discipline, and Restorative Practices.

Justin Snead, Director of Program Evaluation and Director of Social Studies: Justin Snead curates the social studies content for students in grades 3--8, unearthing rich primary and secondary sources and helping teachers analyze our students' historical arguments. He also manages BEN's federal grant programs, and supports the Academic Leadership Team in the development of student success metrics and analyzing student outcomes. In 2005, Justin joined the Teach for America Newark corps and served as an ELA teacher, data coach, and teacher coach for ten years at Weequahic High School in Newark's South Ward. Since 2015 he has served as ELA curriculum director and history director for BRICK schools. Justin graduated with a Bachelor's degree from the University of Iowa, and a Master's degree in Teacher Development from Seton Hall University.

Biography: Jeremy Esposito

Jeremy is currently the Regional Director of Instruction/Superintendent for the BRICK Education Network (BEN). BEN is a charter management organization dedicated to investing in children and their caregivers to relentlessly knock down barriers to student academic success. BEN is focused on developing schools that address the historical inequities and trauma that rob too many black and brown students of an equitable education. Jeremy is excited to lead BEN's efforts to recruit talented School Leaders to found BRICK campuses in Upstate New York.

Jeremy has devoted his professional career to ensuring that all students have the support necessary to break down the barriers that could prevent them from leading choice-filled lives. Jeremy's passion for educational equity emerges from his personal experience as a first-generation college student. Since his family was unfamiliar with the college entrance process, they enrolled Jeremy in the Upward Bound program at Western Connecticut State University. Upward Bound is a national program that helps support first generation college students with the mentoring and college advising necessary to successfully gain entry into college. In addition to helping Jeremy navigate the college admissions process, Upward Bound also helped him identify scholarship opportunities, including the Eagle Foundation Scholarship program, that made it possible for Jeremy to attend a private university.

After graduating from college, Jeremy joined Teach for America, a national service program dedicated to preparing outstanding college graduates to teach in disenfranchised communities across the country. As a corps member, Jeremy taught high school English and coached baseball and wrestling. Jeremy then had the opportunity to teach 7th grade reading and helped his students achieve a 75% passing rate on the New Jersey state test-40 percentage points higher than the local district.

After teaching, Jeremy became a School Leader for the Knowledge is Power Program (KIPP) and had the opportunity to found KIPP Inspire Academy in St. Louis, Missouri. During its founding year, KIPP Inspire had some of the most dramatic achievement gains of any school in KIPP. In that year, student scores on the Northwest Evaluation Association Assessment improved 19 percentile points in reading, 25 in language usage, and 26 in math. These gains were the highest or second highest in the KIPP network in all content areas. KIPP Inspire's results led the school to be recognized by the Children's Educational

Alliance of Eastern Missouri as a public middle school that was closing the opportunity gap for its students. Jeremy was also recognized by the St. Louis Business Journal as one of the magazine's "40 under 40" members.

During his time as a KIPP staff member, Jeremy was able to help lead the region's expansion from one grade level serving 72 students to a system of six schools serving nearly 3,000 students. During that time, he also had the opportunity to participate in numerous professional development programs. He is a graduate of the Relay Graduate School of Education's National Principals Academy Fellowship as well as its Principal Supervisor Academy Fellowship. In addition, he is a proud alumnus of Relay's Leverage Leadership Institute where he earned national certification in leading student culture, observation feedback, weekly data meetings and adult professional development. He is also an alumnus of the Teach for America School Systems Leadership Fellowship.

Jeremy holds a B.S. in Journalism and English from Northwestern University as well as a Master's Degree in Education from National Louis University. He is currently enrolled as a doctoral student in Columbia University's Urban Education Leaders Program.

Jeremy is also the proud father of three incredible children and loving partner to an amazing wife. Jeremy believes that equal access to high-quality education is a civil right--and looks forward to helping more Upstate New York families have an opportunity to send their children to joyful, academically excellent schools.

School Leadership Progression and Readiness Criteria

What are Readiness Criteria?

Readiness Criteria prioritize the experiences, skills and competencies that a leader will need to take on the next level of leadership. Purposefully not comprehensive, the Readiness Criteria attempts to focus Talent Assessment and Talent Review conversations on what matters most upon entry into the role. (As an example, while it is critically important for all leaders to demonstrate a Student Focus, our assumption is that virtually all candidates will have demonstrated this or we would not be considering them for leadership.)

Intended Use:

- Guide discussions to **determine whether a team member has demonstrated excellence required to advance in leadership**
- **Backwards plan development opportunities** that prepare leaders for both current and future roles
- Not intended to automatically disqualify a team member from consideration if all criteria are not met, rather pinpoint where greater discussion may be needed
- Not intended to be comprehensive list of attributes to consider, therefore, someone may meet all of the criteria and still not be considered ready due to other factors

Directions for School and Regional Leaders to Use Readiness Criteria:

1. Determine the team member you will be diagnosing. Identify the column that is the relevant readiness criteria for this team member.
2. Check the boxes next to each criterion that you believe your team member has demonstrated.
3. Discuss as a group (School Leaders, School Leader Managers) what evidence you have that the team member has met the checked criteria.
4. Discuss as a group (School Leaders, School Leader Managers) what evidence may be missing for the criteria that was not checked and what opportunities should be made available to this team member to ensure that they have the ability to check the box.

Next Steps:

- Create a 70/20/10 development plan to shore up any gaps in readiness using the Individual Development Plan Template.

Team Members' Name:	Current Role:	Potential Next Role:
---------------------	---------------	----------------------

THE 7 LEADING FOR LEARNING ACTIONS OF HIGHLY EFFECTIVE SCHOOL LEADERS	Teacher to <u>become GLL, ILTL, or Course Lead</u> <i>(criteria that a teacher should demonstrate to move into a teacher leader role)</i>	Teacher Leader to <u>become novice AP</u> <i>(criteria that a teacher leader should demonstrate to move into an Assistant Principal role)</i>	Novice AP to <u>become Experienced AP</u> <i>(criteria that a novice AP should demonstrate to be characterized as 1-year-away from school leadership)</i>	To <u>become Principal/School Leader</u> <i>(criteria that an experienced AP should demonstrate to move into the School Leader role)</i>
Aspiration and Self-Awareness	<input type="checkbox"/> Expresses interest in leading a team	<input type="checkbox"/> Expresses interest in being in a School Leadership role	<input type="checkbox"/> Expresses interest in being a Principal	<input type="checkbox"/> Displays passion for being a Principal and commitment to the school community
1) Set vision and goals	<input type="checkbox"/> Sets ambitious student achievement goals for his/her own classroom	<input type="checkbox"/> Leads a grade/department team to reach its vision and goals	<input type="checkbox"/> Demonstrates success in leading a school-wide initiative to reach vision and goals, in partnership with the School Leader	<input type="checkbox"/> Demonstrates success in leading a group of stakeholders around a school-wide initiative that demonstrates impact on student achievement requiring him/her to establish a school-wide vision , create a strategy , and measure outcomes
2) Relentlessly plan and prioritize	<input type="checkbox"/> Creates strong lesson plans for his/her classroom ; consistently meets deadlines	<input type="checkbox"/> Plans and prioritizes a grade/department team's work	<input type="checkbox"/> Project plans and manages a school-wide initiative (including who does what and what the action steps will be), even in the face of ambiguity <input type="checkbox"/> Acts decisively to overcome barriers and make difficult choices with the long-term and short-term impact in mind	<input type="checkbox"/> Project plans and manages multiple priorities <input type="checkbox"/> Plans school-wide change management despite resistance <input type="checkbox"/> Demonstrates fortitude in handling a major set-back and ability to regroup and still accomplish goals
3) Develop other Leaders (Teach and Insist)	<i>(will not be focus in this role)</i>	<i>(will not be focus in this role)</i>	<input type="checkbox"/> Coaches other leaders on discrete leadership tasks like leading a team meeting or managing others	<input type="checkbox"/> With School Leader support, develops leadership capacity in others and grows an emerging leader
4) Lead school culture	<input type="checkbox"/> Manages students in own classroom <input type="checkbox"/> Builds relationships with his/her students and their families;	<input type="checkbox"/> Manages entire grade of students (e.g. lunch, field lessons) <input type="checkbox"/> Builds relationships with families and successfully navigates parent concerns	<input type="checkbox"/> Manages multiple grades of students even with students who present challenging behaviors <input type="checkbox"/> Builds relationships with students and families across the school; ensures an inclusive school	<input type="checkbox"/> Manages and engages entire school's students (e.g. assemblies) <input type="checkbox"/> Creates and sustains an environment in which people from diverse backgrounds and perspectives can succeed

	<p>models warm and demanding</p> <ul style="list-style-type: none"> □ Garners respect of other grade team members 	<p>and difficult conversations; demonstrates knowledge of and respect for the cultures of the community served</p> <ul style="list-style-type: none"> □ Garners respect of school-wide staff 	<p>environment that respects the culture of students served</p> <ul style="list-style-type: none"> □ Develops relationships across the school, even through conflict 	<ul style="list-style-type: none"> □ Develops relationships across school stakeholders (staff, regional office, community, etc.) and parleys relationships into a positive learning culture

1f Rigor Designing Student Assessments	Data is entered in centralized system as required.	Data is not entered in centralized system as required.	Some data is entered and/or data is entered late.	All data is entered into required sites by stated due dates.	<i>Highly effective is reserved for the end of year evaluation when teacher has demonstrated consistent effectiveness. This requires all data to be inputted on time, fully, consistently.</i>

Domain 2: The Classroom Environment		INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
Get Better Faster Practices					
2a.1 Culture Creating an Environment of Respect and Rapport	<p>2. (2a) Strong Voice: Stand and speak with purpose</p> <ul style="list-style-type: none"> • Square Up, Stand Still: when giving instructions, stop moving and strike a formal pose • Formal Register: when giving instructions, use formal register, including tone and word choice • Delivers clear what to do directions using economy of language 	<p>Teacher does not demonstrate an effective use of strong voice by doing the following:</p> <ul style="list-style-type: none"> - Squares up, stands still in hot spots - Gives clear what to do direction using economy of language - Uses a formal register when providing whole class directions 	<p>Teacher somewhat uses strong voice by implementing 1/3 of the following:</p> <ul style="list-style-type: none"> - Square ups, stands still in hot spots - Gives clear what to do directions using economy of language - Uses a formal register when providing whole class directions 	<p>Teacher uses strong voice by implementing 2/3 of the following:</p> <ul style="list-style-type: none"> - Squares up, stands still in hot spots - Gives clear what to do directions using economy of language - Uses a formal register when providing whole class directions 	<p>Teacher effectively demonstrates an effective use of strong voice by doing 3/3 of the following:</p> <ul style="list-style-type: none"> - Squares up, stands still in hot spots - Gives clear what to do directions using economy of language - Uses a formal register when providing whole class directions
2a.2 Culture Creating an Environment of Respect and Rapport	<p>10. (2a) Narrate the Positive</p> <ul style="list-style-type: none"> • Narrate what students do well, not what they do wrong <ul style="list-style-type: none"> o "I like how Javon has gotten straight to work on his writing assignment." o "The second row is ready to go: their pencils are in the well and their eyes are on me." • While narrating the positive and/or while scanning during a re-direct, look at the student(s) who are off-task • Use language that reinforces students getting smarter: <ul style="list-style-type: none"> o Praise answers that are above and beyond or strong effort 	<p>Teacher does not reinforce expectations by using the following strategies:</p> <ul style="list-style-type: none"> - Positive behavioral narration - Positive academic narration - Connecting narrations to iDream values 	<p>Teacher reinforces expectations by using 1/3 of the following strategies:</p> <ul style="list-style-type: none"> - Positive behavioral narration - Positive academic narration - Connecting narrations to iDream values 	<p>Teacher reinforces expectations by using 2/3 of the following strategies:</p> <ul style="list-style-type: none"> - Positive behavioral narration - Positive academic narration - Connecting narrations to iDream values 	<p>Teacher reinforces expectations by using 3/3 of the following strategies:</p> <ul style="list-style-type: none"> - Positive behavioral narration - Positive academic narration - Connecting narrations to iDream values
2b Culture Establishing a Culture for Learning	<p>7. (2b) Build the Momentum</p> <ul style="list-style-type: none"> • Give the students a simple challenge to complete a task: <ul style="list-style-type: none"> o Example: "Now I know you're only 4th graders, but I have a 5th grade problem that I bet you could master!" • Speak faster, walk faster, vary your voice, & smile (Sparkle) 	<p>Teacher does not implement the following strategies to build momentum:</p> <ul style="list-style-type: none"> - Creates a challenge for students - Strategically varies pace of speech and walking - Teacher strategically selects the highest leverage moment in lesson 	<p>Teacher implements 1/3 the following strategies to build momentum:</p> <ul style="list-style-type: none"> - Creates a challenge for students - Strategically varies pace of speech and walking - Teacher strategically selects the highest leverage moment in lesson 	<p>Teacher implements 2/3 the following strategies to build momentum:</p> <ul style="list-style-type: none"> - Creates a challenge for students - Strategically varies pace of speech and walking - Teacher strategically selects the highest leverage moment in lesson 	<p>Teacher implements 3/3 the following strategies to build momentum:</p> <ul style="list-style-type: none"> - Creates a challenge for students - Strategically varies pace of speech and walking - Teacher strategically selects the highest leverage moment in lesson
2c Culture Managing Classroom Procedures	<p>1. (2c) Routines & Procedures 101: Design and Roll out</p> <ul style="list-style-type: none"> • Plan & practice critical routines and procedures moment-by-moment : <ul style="list-style-type: none"> o Explain what each routine means and what it will look like o Write out what teacher and students do at each step, and what will happen with students who don't follow the routine • Plan & practice the roll out: how to introduce routine for the first time: <ul style="list-style-type: none"> o Plan the "I Do": how you will model the routine o Plan what you will do when students don't get it right <p>4. (2c) Routines & Procedures 201: Revise and perfect them</p> <ul style="list-style-type: none"> • Revise any routine that needs more attention to detail or is inefficient, with particular emphasis on what students and teachers are doing at each moment • Do It Again: have students do the routine again if not done correctly the first time • Cut it Short: know when to stop the Do It Again 	<p>Classroom routines and procedures demonstrate 0/3 of the following:</p> <ul style="list-style-type: none"> - Implemented consistently as outlined in classroom culture plan - Student-run - Efficiency of time 	<p>Classroom routines and procedures demonstrate 1/3 of the following:</p> <ul style="list-style-type: none"> - Implemented consistently as outlined in classroom culture plan - Student-run - Efficiency of time 	<p>Classroom routines and procedures demonstrate 2/3 of the following:</p> <ul style="list-style-type: none"> - Implemented consistently as outlined in classroom culture plan - Student-run - Efficiency of time 	<p>Classroom routines and procedures demonstrate 3/3 of the following:</p> <ul style="list-style-type: none"> - Implemented consistently as outlined in classroom culture plan - Student-run - Efficiency of time

Domain 2: The Classroom Environment		INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
<p>2d Culture Managing Student Behavior</p> <p>Get Better Faster Practices</p> <p>5. (2d) Teacher Radar: Know when students are off task</p> <ul style="list-style-type: none"> Deliberately scan the room for on-task behavior: <ul style="list-style-type: none"> Choose 3-4 "hot spots" (places where you have students who often get off task) to scan constantly "Be Seen Looking": crane your neck to appear to be seeing all corners of the room Circulate the room with purpose (break the plane): <ul style="list-style-type: none"> Move among the desks and around the perimeter Stand at the corners: identify 3 spots on the perimeter of the room to which you can circulate to stand and monitor student work Move away from the student who's speaking to monitor the whole room <p>6. (2d) Whole-Class Reset</p> <ul style="list-style-type: none"> Implement a planned whole class reset to re-establish student behavioral expectations when a class routine has slowly weakened over previous classes Implement an "in-the-moment reset" when a class veers off task during the class period <ul style="list-style-type: none"> Example: Stop teaching. Square up. Give a clear What to Do: "Pencils down. Eyes on me. Hands folded in 3-2-1. Thank you: that's what Harvard looks like." Pick up tone & energy again. <p>11. (2d) Individual Student Corrections</p> <ul style="list-style-type: none"> Anticipate student off-task behavior and rehearse the next two things you will do when that behavior occurs. Redirect students using the least invasive intervention necessary: <ul style="list-style-type: none"> Proximity Eye contact Use a non-verbal Say student's name quickly Small consequence 	<p>Teacher implements 1/4 of the following techniques for teacher radar:</p> <ul style="list-style-type: none"> Moves to hot spots and square up stand still Scans and "Be Seen Looking" Corrects individual students for off-task behavior Implements whole class reset to correct multiple off-task behaviors 	<p>Teacher implements 2/4 of the following techniques for teacher radar:</p> <ul style="list-style-type: none"> Moves to hot spots and square up stand still Scans and "Be Seen Looking" Corrects individual students for off-task behavior Implements whole class reset to correct multiple off-task behaviors 	<p>Teacher implements 3/4 of the following techniques for teacher radar:</p> <ul style="list-style-type: none"> Moves to hot spots and square up stand still Scans and "Be Seen Looking" Corrects individual students for off-task behavior Implements whole class reset to correct multiple off-task behaviors 	<p>Teacher implements 4/4 of the following techniques for teacher radar:</p> <ul style="list-style-type: none"> Moves to hot spots and square up stand still Scans and "Be Seen Looking" Corrects individual students for off-task behavior Implements whole class reset to correct multiple off-task behaviors 	
<p>2e Culture Organizing Physical Space</p> <p>Management: classroom environment is organized, clutter-free and clean with up to date student work.</p>	<p>Classroom environment demonstrates 1/4 of the following:</p> <ul style="list-style-type: none"> organized clutter-free clean posted materials & student work are up to date. 	<p>Classroom environment demonstrates 2/4 of the following:</p> <ul style="list-style-type: none"> organized clutter-free clean posted materials & student work are up to date. 	<p>Classroom environment demonstrates 3/4 of the following:</p> <ul style="list-style-type: none"> organized clutter-free clean posted materials & student work are up to date. 	<p>Classroom environment demonstrates 4/4 of the following:</p> <ul style="list-style-type: none"> organized clutter-free clean posted materials & student work are up to date. 	

Domain 3: Instruction	Get Better Faster Practices	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
3a Rigor Communicating with Students	3. (2d) What to Do: <ul style="list-style-type: none"> Economy of Language: give crisp instructions with as few words as possible (e.g. 3-word directions). Check for understanding on complex instructions. 	Teacher implements 0/3 of the following when providing what-to-do directions: <ul style="list-style-type: none"> Economy of language with clearly chunked phrases Directions given in a logical order Check for understanding around directions 	Teacher implements 1/3 of the following when providing what-to-do directions: <ul style="list-style-type: none"> Economy of language with clearly chunked phrases Directions given in a logical order Check for understanding around directions 	Teacher implements 2/3 of the following when providing what-to-do directions: <ul style="list-style-type: none"> Economy of language with clearly chunked phrases Directions given in a logical order Check for understanding around directions 	<i>Teacher effectively provides what-to-do direction by implementing 3/3 following:</i> <ul style="list-style-type: none"> Economy of language with clearly chunked phrases Directions given in a logical order Check for understanding around directions
3b.1 Rigor Using Questioning with Discussion Techniques	10. (3c) Universal Prompts: Push the thinking back on the students through universal prompts that could be used at any point: <ul style="list-style-type: none"> Provide wait time after posing challenging questions Pre-call: let a student who needs more time know you're calling him/her next Roll back the answer: repeat the wrong answer back to the student (give student time to think and you time to build a plan!) Ask universal prompts to push the student to elaborate: <ul style="list-style-type: none"> "Tell me more." "What makes you think that?" "How do you know?" "Why is that important?" Close the loop: after correcting their error, go back to students with wrong answers to have them revise their answers 	Does not effectively facilitate discussion by using any of the following techniques: <ul style="list-style-type: none"> Provide wait time using pre-call and/or roll back Push discussion using universal prompt Close loop with students demonstrating the misconception 	Facilitates discussion by using only 1/3 of the following techniques: <ul style="list-style-type: none"> Provide wait time using pre-call and/or roll back Push discussion using universal prompt Close loop with students demonstrating the misconception 	Facilitates discussion by using only 2/3 of the following techniques: <ul style="list-style-type: none"> Provide wait time using pre-call and/or roll back Push discussion using universal prompt Close loop with students demonstrating the misconception 	<i>Effectively facilitates discussion by using 3/3 of the following techniques:</i> <ul style="list-style-type: none"> Provide wait time using pre-call and/or roll back Push discussion using universal prompt Close loop with students demonstrating the misconception
3b.2 Rigor Using Questioning with Discussion Techniques	11. (3c) Habits of Discussion: Teach and model for students the habits that strengthen class conversation: <ul style="list-style-type: none"> Keep neutral/manage your tell: don't reveal the right/wrong answer through your reaction to the student response. <ul style="list-style-type: none"> Agree/Build off of: "I agree with ____ and I'd like to add..." Disagree respectfully: "While I agree with [this part of your argument], I disagree with _____. I would argue..." 	Does not effectively facilitate Habits of Discussion by using any of the following techniques: <ul style="list-style-type: none"> Managing the tell by NOT revealing right/wrong answers Modeling/prompting summarizing key points of peer's response Modeling and/or prompting using evidence to support you 	Facilitates Habits of Discussion by using 1/3 of the following techniques: <ul style="list-style-type: none"> Managing the tell by NOT revealing right/wrong answers Modeling/prompting summarizing key points of peer's response Modeling and/or prompting using evidence to support you 	Facilitates Habits of Discussion by using 2/3 of the following techniques: <ul style="list-style-type: none"> Managing the tell by NOT revealing right/wrong answers Modeling/prompting summarizing key points of peer's response Modeling and/or prompting using evidence to support you 	Facilitates Habits of Discussion by using 3/3 of the following techniques: <ul style="list-style-type: none"> Managing the tell by NOT revealing right/wrong answers Modeling/prompting summarizing key points of peer's response Modeling and/or prompting using evidence to support you

Domain 3: Instruction	Get Better Faster Practices	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
3c.1. Rigor Engaging Students in Learning	<p>7. (1f) Check for Whole-Group Understanding: Gather evidence on whole group learning:</p> <ul style="list-style-type: none"> • Poll the room to determine how students are answering a certain question. <ul style="list-style-type: none"> o “How many chose letter A? B? C? D?” o [Students answer the question on whiteboard: “Hold up your whiteboards on the count of three...” • Target the error: focus class discussion on the questions where students most struggle to answer correctly 	<p>Teacher does not check for whole-group understanding by:</p> <ul style="list-style-type: none"> - Polling the entire room to find the trend - Providing a model or facilitating discourse to respond to the error - Providing a content AND skill stamp at the end of the review 	<p>Teacher somewhat checks for whole-group understanding by doing 1/3 of the following:</p> <ul style="list-style-type: none"> - Polling the entire room to find the trend - Providing a model or facilitating discourse to respond to the error - Providing a content AND skill stamp at the end of the review 	<p>Teacher checks for whole-group understanding by doing 2/3 of the following:</p> <ul style="list-style-type: none"> - Polling the entire room to find the trend - Providing a model or facilitating discourse to respond to the error - Providing a content AND skill stamp at the end of the review 	<p>Teacher effectively checks for whole-group understanding by doing 3/3 of the following:</p> <ul style="list-style-type: none"> - Polling the entire room to find the trend - Providing a model or facilitating discourse to respond to the error - Providing a content AND skill stamp at the end of the review
3c.2. Rigor Engaging Students in Learning	<p>6. Habits of Evidence</p> <ul style="list-style-type: none"> • Teach students to annotate with purpose: summarize, analyze, find the best evidence, etc. • Teach and prompt students to cite key evidence in their responses 	<p>Students do not demonstrate engagement through their written and/or verbal use of evidence by doing 0/3 of the following:</p> <ul style="list-style-type: none"> - Purposefully underline/identify key evidence that links to the overall purpose - Use best evidence in their verbal and/or written responses - Provide an analysis using best evidence that clearly connects to the overall purpose with or without prompting from the teacher 	<p>Students somewhat demonstrate engagement through their written and/or verbal use of evidence by doing 1/3 of the following:</p> <ul style="list-style-type: none"> - Purposefully underline/identify key evidence that links to the overall purpose - Use best evidence in their verbal and/or written responses - Provide an analysis using best evidence that clearly connects to the overall purpose with or without prompting from the teacher 	<p>Students demonstrate engagement through their written and/or verbal use of evidence by doing 2/3 of the following:</p> <ul style="list-style-type: none"> - Purposefully underline/identify key evidence that links to the overall purpose - Use best evidence in their verbal and/or written responses - Provide an analysis using best evidence that clearly connects to the overall purpose with or without prompting from the teacher 	<p><i>Students demonstrate demonstrate engagement through their written and/or verbal use of evidence by doing 3/3 of the following:</i></p> <ul style="list-style-type: none"> - <i>Purposefully underline/identify key evidence that links to the overall purpose</i> - <i>Use best evidence in their verbal and/or written responses</i> - <i>Provides an analysis using best evidence that clearly connects to the overall purpose with or without prompting from the teacher</i>
3c.3. Culture Engaging Students in Learning	<p>9. (1f) Engage All Students: Make sure all students participate:</p> <ul style="list-style-type: none"> • Make sure to call on all students • Cold call students • Implement brief (15-30 second) Turn & Talks • Intentionally alternate among multiple methods in class discussion: cold calling, choral response, all hands & turn and talks 	<p>Teacher does not ensure that all students participate by:</p> <ul style="list-style-type: none"> - Using cold calling - Strategically inserting turn and talks - Alternating between choral response and asking for all hands 	<p>Teacher somewhat ensures that all students participate by implementing 1/3 of the following:</p> <ul style="list-style-type: none"> - Using cold calling - Strategically inserting turn and talks - Alternating between choral response and asking for all hands 	<p>Teacher ensures that all students participate by implementing 2/3 of the following:</p> <ul style="list-style-type: none"> - Using cold calling - Strategically inserting turn and talks - Alternating between choral response and asking for all hands 	<p>Teacher effectively ensures that all students participate by implementing 3/3 of the following:</p> <ul style="list-style-type: none"> - Using cold calling - Strategically inserting turn and talks - Alternating between choral response and asking for all hands

Domain 3: Instruction	Get Better Faster Practices	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
<p>3d Rigor Using Assessment in Instruction</p>	<p>5. (3d) Monitor Aggressively: Check students' independent work to determine whether they're learning what you're teaching</p> <ul style="list-style-type: none"> • Create & implement a monitoring pathway: <ul style="list-style-type: none"> ◦ Create a seating chart to monitor students most effectively ◦ Monitor the fastest writers first, then the students who need more support • Monitor the quality of student work: <ul style="list-style-type: none"> ◦ Check answers against your exemplar ◦ Track correct and incorrect answers to class questions • Pen in hand: Mark up student work as you circulate <ul style="list-style-type: none"> ◦ Use a coding system to affirm correct answers ◦ Cue students to revise answers using minimal verbal intervention (Name the error, ask them to fix it, tell them you'll follow up) 	<p>Uses real-time data to adjust instruction by implementing 1/4 of the following:</p> <ul style="list-style-type: none"> -Creating and following AM pathway -Names the focus of the lap -Clearly codes student work -Follows up by monitoring students' revision 	<p>Uses real-time data to adjust instruction by implementing 2/4 of the following:</p> <ul style="list-style-type: none"> -Creating and following AM pathway -Names the focus of the lap -Clearly codes student work -Follows up by monitoring students' revision 	<p>Uses real-time data to adjust instruction by implementing 3/4 of the following:</p> <ul style="list-style-type: none"> -Creating and following AM pathway -Names the focus of the lap -Clearly codes student work -Follows up by monitoring students' revision 	<p>Uses real-time data to adjust instruction by implementing 4/4 of the following:</p> <ul style="list-style-type: none"> -Creating and following AM pathway -Names the focus of the lap -Clearly codes student work -Follows up by monitoring students' revision

Domain 3: Instruction	Get Better Faster Practices	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
<p>3e Rigor Demonstrating Flexibility and Responsiveness</p>	<p>8. (3e) Re-teaching 101—Model: Model for the students how to think/solve/write</p> <ul style="list-style-type: none"> • Give students a clear listening/note-taking task that fosters active listening of the model, and then debrief the model: <ul style="list-style-type: none"> o “What did I do in my model?” o “What are the key things to remember when you are doing the same in your own work?” • Model the thinking, not just a procedure <ul style="list-style-type: none"> o Narrow the focus to the thinking students are struggling with o Model replicable thinking steps that students can follow o Model how to activate one’s own content knowledge and skills that have been learned in previous lessons o Vary the think-aloud in tone and cadence from the normal “teacher” voice to highlight the thinking skills. • We Do and You Do: give students opportunities to practice with your guidance <p>9. (3e) Re-teaching 201—Guided Discourse: Let students unpack their own errors & build a solution</p> <ul style="list-style-type: none"> • Show-Call: post student work (either an exemplar or incorrect response) & ask students to identify why that answer is correct/incorrect • Stamp the understanding: <ul style="list-style-type: none"> o “What are the keys to remember when solving problems like these?” or “Can someone give me a rule?” (Students use their own words) • Give them At-bats: give students opportunities to practice with your guidance 	<p>Teacher uses 1/4 or less of the following approaches to responding to data:</p> <ul style="list-style-type: none"> -Provides a model using real-time data to adjust instruction. -Real-time responses, such as the showcall are effective -Teacher or student stamps the key takeaway -Teacher provides students with opportunity to revise or apply the stamped takeaway 	<p>Teacher uses 2/4 of the following approaches to responding to data:</p> <ul style="list-style-type: none"> -Provides a model using real-time data to adjust instruction. -Real-time responses, such as the showcall are effective -Teacher or student stamps the key takeaway -Teacher provides students with opportunity to revise or apply the stamped takeaway 	<p>Teacher uses 3/4 of the following approaches to responding to data</p> <ul style="list-style-type: none"> -Provides a model using real-time data to adjust instruction. -Real-time responses, such as the showcall, are effective -Teacher or student stamps the key takeaway -Teacher provides students with opportunity to revise or apply the stamped takeaway 	<p>Teacher effectively uses 4/4 of the following approaches to respond to data:</p> <ul style="list-style-type: none"> -Provides a model using real-time data to adjust instruction. -Real-time responses, such as the showcall are effective -Teacher or student stamps the key takeaway -Teacher provides students with opportunity to revise or apply the stamped takeaway

Domain 4: Professional Responsibilities	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
4a Reflecting on Teaching	Teacher actively participates in Observation Feedback meetings by demonstrating 2 or fewer of the following: - Come to O/F meetings prepared with prework - Practice the action step(s) - Implement action step(s) - Reflect on personal development	Teacher actively participates in Observation Feedback meetings by demonstrating 3/4 of the following: - Come to O/F meetings prepared with prework - Practice the action step(s) - Implement action step(s) - Reflect on personal development	Teacher actively participates in Observation Feedback meetings by demonstrating 4/4 of the following: - Come to O/F meetings prepared with prework - Practice the action step(s) - Implement action step(s) - Reflect on personal development	<i>Highly effective is reserved for the end of the year when the teacher demonstrates consistent effectiveness.</i>
4b Maintaining Accurate Records	Teacher rarely ensures all professional deadlines are met, including but not limited to: grading, data cycles, student records, I&RS interventions, etc.	Teacher sometimes ensures all professional deadlines are met, including but not limited to: grading, data cycles, student records, I&RS interventions, etc.	Teacher consistently ensures all professional deadlines are met, including but not limited to: grading, data cycles, student records, I&RS interventions, etc.	<i>Highly effective is reserved for the end of the year when the teacher demonstrates consistent effectiveness.</i>
4c Communicating with Families	0 - 4 (or below 50% of students) meaningful individualized parent calls/meetings for the month evidenced in Kickboard.	5 - 14 (or 50-79% of students) meaningful individualized parent calls/meetings for the month evidenced in Kickboard.	15 - 24 (or 80-94% of students) meaningful individualized parent calls/meetings for the month evidenced in Kickboard.	25+ (or 95%+ of students) meaningful individualized parent calls/meetings for the month evidenced in Kickboard.
4d Participating in a Professional Community	Teacher rarely attends or arrives late to, participates and completes all pre-work for all meetings.	Teacher sometimes attends or arrives late, participates and completes all pre-work for all meetings.	Teacher consistently attends and arrives on time, participates and completes all pre-work for all meetings.	Teacher meets all effective criteria and he/she led session(s) and supported colleagues' development.

Domain 4: Professional Responsibilities	INEFFECTIVE	PARTIALLY EFFECTIVE	EFFECTIVE	HIGHLY EFFECTIVE
4e Growing and Developing Professionally	<p>In one lesson: 62% or less of students demonstrate mastery of objective.</p> <p>Overtime (mid-year and annual): 62% or less of students met their SGO (growth and/or mastery goals).</p>	<p>In one lesson: 63-74% or less of students demonstrate mastery of objective.</p> <p>Overtime (mid-year and annual): 63-74% or less of students met their SGO (growth and/or mastery goals). 63-74% of students demonstrate mastery of objective.</p>	<p>In one lesson: 75-84% or less of students demonstrate mastery of objective.</p> <p>Overtime (mid-year and annual): 75-84% or less of students met their SGO (growth and/or mastery goals).</p>	<p>In one lesson: 85%+ or less of students demonstrate mastery of objective.</p> <p>Overtime (mid-year and annual): 85%+ or less of students met their SGO (growth and/or mastery goals).</p>
4f Showing Professionalism	7+ sick days	5-6 sick days	3-4 sick days	2 or less sick days

The BRICK School Leader evaluation tool is a performance management tool that drives excellent school leader performance.

COMPETENCY 1 | BUILD RELATIONSHIPS

COMPETENCY 2 | LEAD SELF & OTHERS

COMPETENCY 3 | DRIVE RESULTS

The rubrics use a four-level rating scale with the following labels:

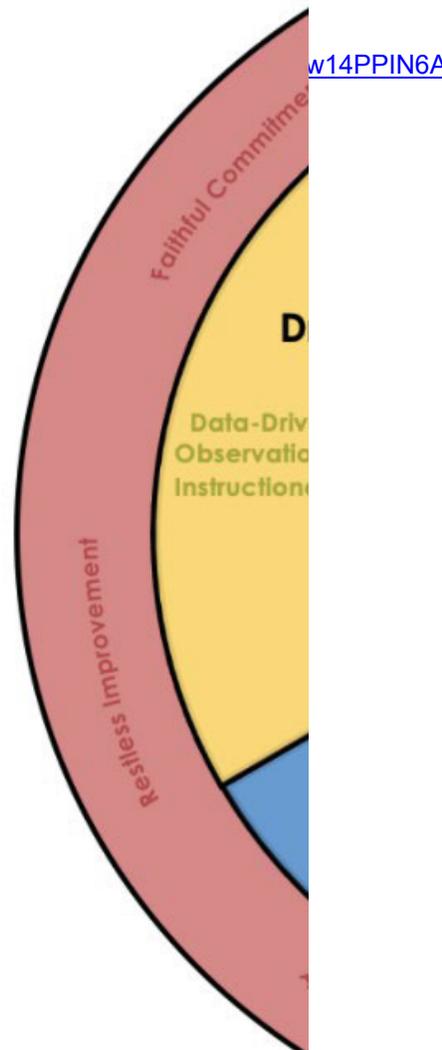

- 4-Highly Effective
- 3-Effective
- 2-Partially Effective
- 1-Ineffective

To score, read across the four levels of performance for each standard, find the level that best describes the school leader.

Determine the overall rating by selecting the category: highly effective, effective, partially effective, ineffective that best describes the school leader.

Leader is consistently motivational and positive
Leader often encourages student participation through relevant questions and/or student presentation.
Leader consistently models taxonomy techniques (cold call, CFU, positive framing)
90% of teachers/staff participate
3 - EFFECTIVE
85-94% of teachers ensure students make transition to destinations within the given amount of time.
Teacher facilitate transition by narrating
After the transition teachers narrate the next direction.

90% of students make transition to destinations within the given amount of time.

Teachers facilitate transition using economy of language.

Teachers facilitate transition from the hallway to the classroom by standing in the threshold

Breakfast/lunch systems guarantee that students leave most of eating area clean.

3 - EFFECTIVE

The general tone of classrooms is efficient, respectful and positive.

75-89% of teachers narrate positive student behaviors (rather than calling out the negative) and use praise, challenge and aspiration to motivate the students.

Directions are specific, concrete, sequential, observable steps; sometimes more specific steps need to be offered if a few students do not comply on first attempt

75-90% of teachers use non-verbal authority, economy of language, and quiet power to gain compliance.

Adults rarely engage student excuses/distractions during correction of student misbehavior

The general tone of the school is efficient, respectful and positive.

Incentive programs and opportunities are posted for students to see.

School has a functioning multidisciplinary student support team and sub-committees that meet at least bi-weekly, with fidelity.

Students and staff greet one another in a warm and professional manner.

iDREAM Values, Social emotional learning and character traits anchor charts are posted and visible from various locations.

The general tone of 90% of school campus' is efficient, respectful and positive as measured by:

-Incentive programs and opportunities are always posted for students to see.

-School has a functioning multidisciplinary student support team and sub-committees that meet bi-weekly, with fidelity.

-Students and staff always greet one another in a warm and professional manner.

-iDREAM Values, Social emotional learning and character traits anchor charts are posted and visible from various locations.

3 - EFFECTIVE

Most students are visibly joyful and excited to be in school

80-89% of students are engaged in classroom activities.

Based on developmental stage, students internalize and model behavioral expectations with minimal teacher supervision.

80-89% of students exhibit SLANT or professional posture

School-wide celebrations are offered on a recurring basis.

80-89% of students are engaged in school-wide culture activities.

Students internalize and model iDREAM core values and SEL competencies without adult supervision.

80-89% of students surveyed are proud to attend their school.

3 - EFFECTIVE

80-89% of students follow school rules and classroom expectations 95% of the time. Some reminders are necessary.

Students track the teacher 85% of the time and peers 50%+ of the time.

Students are 80-89% compliant with the uniform policy. Some reminders are necessary.

Student discipline system is used by most teachers and is effective at addressing small misbehaviors.

Student response to correction is quick but requires some repetition.

90% of students are explicitly taught the BRICK's iDREAM core values

90% of students receive Tier I SEL instruction

The uniform policy is consistently enforced

Student discipline system is restorative and teachers adhere to the progressive discipline framework

Students are engaged in the restorative process and able to self-facilitate the desired outcomes

3 - EFFECTIVE

Leader is able to achieve student compliance 80-89% of the time

Leader tone is usually urgent, respectful, professional, and warm

Leader facilitates whole school moments using economy of language.

During school leader facilitation of whole school moments, 80-89% students are compliant

Leader usually models behavioral and academic taxonomy techniques (e.g. cold call, CFU, positive framing)

Leader is able to work a range of techniques, including TlaC and administering additional consequences, to reset students who display particularly challenging behaviors and is usually successful in achieving student compliance

Leader is consistently motivational and inspiring

Leader is able to achieve 100% compliance 90% of the time

Leader tone is usually urgent, respectful, professional, warm and uses affective statements

Leader facilitates whole school moments using economy of language.

During Culture Leader facilitation of whole school moments, 90% students are actively listening and engaged

Leader models SEL competencies and BRICK iDREAM core values

Leader is able to consistently work a range of techniques, including economy of language, restorative practices, and SEL competencies to de-escalate challenging behaviors and is almost always successful in achieving student emotional safety and wellness.

Leader is consistently motivational and inspiring

Leader is able to achieve 100% compliance 90% of the time

Leader tone is usually urgent, respectful, professional, warm and uses affective statements

Leader models SEL competencies and BRICK iDREAM core values

Leader is able to consistently work a range of techniques, including economy of language, restorative practices, and SEL competencies to de-escalate challenging behaviors and is almost always successful in achieving student emotional safety and wellness.

3 - EFFECTIVE

Most teachers meet Whetstone action steps, making

Leader meets the following goals:

Most Principals meet Whetstone action steps,

3 - EFFECTIVE

Instructional leader meets the following goals:

Leader meets the following goals:

Ensure that a 1-hour meeting or two 30- minute

Meets 90% required deadlines

3 - EFFECTIVE

Principal meets with each IL 1-2 times per month

Leader meets with each culture team member 2-3

Network leader meets with each Principal/SOM 1-2 times per month using a structured agenda that focuses on developing leader around PD goals based in the evaluation rubric

Network leader audits Whetstone action steps bi-weekly and provides high quality feedback on action steps

Network leader conducts co-observations with Principals/SOMs bi-weekly

Network leader assesses Principals/SOMs on evaluation rubric at mid-year and annual

Network leader usually prepares and conducts efficient PD sessions (PLI, VPLI, etc.)

3 - EFFECTIVE

Principal

Holds a formal check-in with the VPC three times per month, using a structured agenda that focuses on developing VPC around PD goals based in the VPC rubric

Principal audits Whetstone action steps monthly and provides high quality feedback on action steps

Principal audits incident reporting monthly to ensure 100% completion rate

Ensures that VPC is accomplishing all daily aspects of role, including closing the loop with staff communication around student behavior and sharing Kickboard data, and gives actionable feedback when any task is not met

Works effectively with VPC throughout the day, as needed, to manage crisis situations and make real-time decisions around tough behavioral situations

Observes the VPC Office 1-2 times per week to ensure that expectations for office structures are met

Holds a formal check-in with the DOS three times per month, using a structured agenda that focuses on developing DOS around PD goals based in the DOS rubric

Ensures that DOS is accomplishing all daily aspects of role, including closing the loop with staff communication around student behavior and sharing Kickboard data, and gives actionable feedback when any task is not met

Works effectively with DOS throughout the day, as needed, to manage crisis situations and make real-time decisions around tough behavioral situations

Observes the DOS Office 1-2 times per week to ensure that expectations for office structures are met

Reviews discipline data to ensure use of progressive discipline framework and that suspensions are used as a last resort

Completes at least one school walkthrough every other week with DOS to ensure shared vision for student culture and to create action plan to remedy

Usually holds formal weekly check-ins with district non-instructional leadership, using a structured agenda that focuses on development around PD goals

Usually reviews district wide academic, SEL, and operational data to ensure optimal performance

3 - EFFECTIVE

Ensure that a 1-hour meeting or two 30- minute meetings are held between principal and VPO/SOM in 3 weeks of every month

Generally updates agenda items at least 24 hours before meeting with topics to cover

Facilitates a “3-week Look Ahead” to name the Ops support needed for major school events

Consistently messages a Co-Leader mindset to school staff, working to ensure that staff see principal and VPO/SOM as equals

Proactively works to build a positive co-leader relationship, including establishing and following communication norms and supporting VPO/SOM’s growth and success

Generally brings concerns around VPO/SOM communication to manager(s) in a timely fashion and engages enthusiastically in action planning around improving

relationship

Consistently has a formal weekly check-in with the School Social Worker / School Counselor, using a structured agenda that focuses on developing SW/SC around PD goals

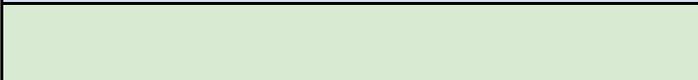

Consistently ensures that Tier II Groups use quantitative and qualitative data and develops student SEL competency and that Tier III interventions are individualized to meet specific needs of each student..

Consistently ensures that Anti-bullying Specialist (ABS) conducts HIB interviews and documentation in accordance with Anti-bullying Rights Act (ABR)

Consistently ensures that ABS conducts 2 School Safety Committee Meetings per year

Consistently supports SW/SC to secure resources needed to respond to student SEL needs

Consistently ensures that monthly statistical reports are computed and submitted to Sr. Director of Student Supports on time.

2 – PARTIALLY EFFECTIVE

Instructional leader meets the following goals:
Leader meets some of the following goals:
Holds a 1-hour meeting or two 30- minute meetings
Meets 75% of required deadlines

2 – PARTIALLY EFFECTIVE

Principal meets with each IL less frequently than
Leader sometimes meets with each culture team
Network leader meets with each Principal/SOM at least once per month using a structured agenda that focuses on developing leader around PD goals based in the evaluation rubric
Network leader audits Whetstone action steps at least monthly and provides high quality feedback on action steps
Network leader conducts co-observations with Principals/SOMs at least monthly
Network leader assesses Principals/SOMs on evaluation rubric at mid-year and annual
Network leader sometimes prepares and conducts efficient PD sessions (PLI, VPLI, etc.)

2 – PARTIALLY EFFECTIVE

Principal

Holds a formal check-in with the VPC twice a month, generally using a structured agenda that focuses on developing VPC around PD goals based in the VPC rubric

Principal audits Whetstone action steps monthly but doesn't always provide high quality feedback on action steps

Principal audits incident reporting monthly and may not consistently meet 100% completion rate

Sporadically ensures that VPC is accomplishing all daily aspects of role, including closing the loop with staff communication around student behavior and sharing Kickboard data, but does not consistently give feedback around unmet tasks

Inefficiencies are frequent in working with VPC on managing crisis situations and making real-time decisions around tough behavioral situations during the school day

Irregularly observes the VPC Office to ensure that

Holds a formal check-in with the DOS twice a month, generally using a structured agenda that focuses on developing DOS around PD goals based in the DOS rubric

Sporadically ensures that DOS is accomplishing all daily aspects of role, including closing the loop with staff communication around student behavior and sharing Kickboard data, but does not consistently give feedback around unmet tasks

Inefficiencies are frequent in working with DOS on managing crisis situations and making real-time decisions around tough behavioral situations during the school day

Irregularly observes the DOS Office to ensure that expectations for office structures are met

Irregularly reviews discipline data to ensure use of progressive discipline framework and that suspensions are used as a last resort

Irregularly completes school walkthroughs with DOS to ensure shared vision for student culture and to create action plan to remedy negative culture trends

Sometimes holds formal weekly check-ins with district non-instructional leadership, using a structured agenda that focuses on development around PD goals

Sometimes reviews district wide academic, SEL, and operational data to ensure optimal performance

2 – PARTIALLY EFFECTIVE

Holds a 1-hour meeting or two 30- minute meetings with VPO/SOM every other week

Occasionally updates agenda items at least 24 hours before meeting with topics to cover

Occasionally facilitates a “look ahead” to outline Ops support needed for major school events

Inconsistently messages a Co-Leader mindset to school staff

Inconsistently works to build a positive co-leader relationship

Sometimes brings concerns around VPO/SOM communication to manager(s) in a timely fashion and engages in action planning around improving relationship

Instructional Leader

Sometimes communicates operational impact on instruction and sometimes relies on the expertise of the VPO/SOM.

Sometimes has a formal weekly check-in with the School Social Worker / School Counselor, using a structured agenda that focuses on developing SW/SC around PD goals

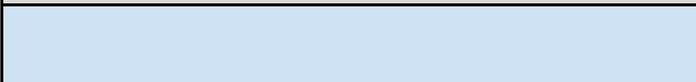

Sometimes ensures that Tier II Groups use quantitative and qualitative data and develops student SEL competency and that Tier III interventions are individualized to meet specific needs of each student..

Sometimes ensures that Anti-bullying Specialist (ABS) conducts HIB interviews and documentation in accordance with Anti-bullying Rights Act (ABR)

Sometimes ensures that ABS conducts 2 School Safety Committee Meetings per year

Sometimes supports SW/SC to secure resources needed to respond to student SEL needs

Sometimes ensures that monthly statistical reports are computed and submitted to Sr. Director of Student Supports on time.

BRICK School Culture of High Expectations - Ubuntu, the Village Approach

The [National School Climate Center](#) defines a school’s culture as “...the quality and character of school life as it relates to norms and values, interpersonal relations and social interactions, and organizational processes and structures.” Research has shown that a positive school culture -- where students feel safe, students feel supported, students feel challenged, and students are socially capable -- leads to decreased disciplinary problems, increased teacher retention and job satisfaction, improved attendance and higher student achievement. Building a positive school culture is also a critical factor in accelerating student learning.

Ubuntu

BRICK’s Ubuntu School Culture & Social-Emotional Learning (SEL) program is designed to support students along their journey of self-actualization. BRICK seeks to facilitate holistic excellence for the students we serve. This means cultivating them academically, social-emotionally and supporting them to develop a positive individual and collective identity. To do so, Ubuntu - our Village

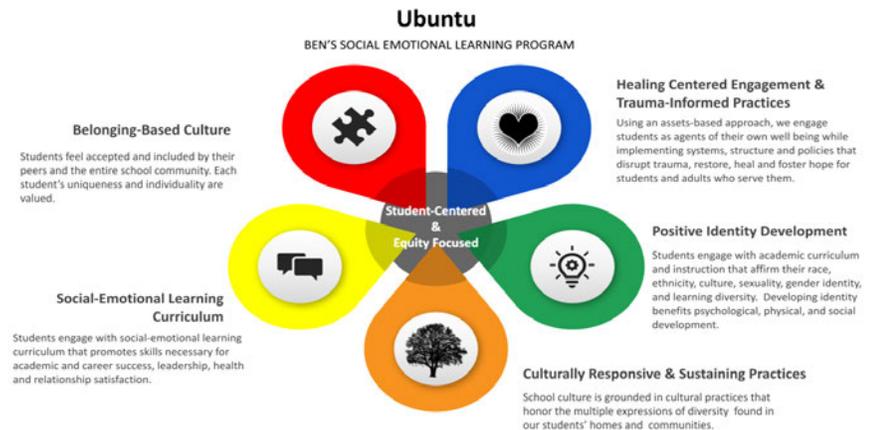

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Approach - creates warm, safe and supportive school communities that foster interdependence and reflect our students’ innate gifts, heritage and cultural practices.

Ubuntu is an African humanistic philosophy that prioritizes interdependence amongst community members. It amplifies the virtues of social well-being and solidarity which are conducive for social justice.

Plainly stated, Ubuntu means, “I am who I am, because of who we all are.” Ubuntu denotes all positive qualities attributed to humanity and recognizes value in every member of the community. As a greeting, Ubuntu means “I see you,” affirming the holistic value of the individual as well as the contributions of their family and ancestors. It recognizes that no one person can be successful without the other.

BRICK’s School Culture of High Expectations supports students to feel heard, seen, and respected. Our approach acknowledges students’ talents and cultivates student agency. The components of our Ubuntu Culture and Social-Emotional Learning Program are: **Belonging-Based School Culture; Healing Centered Engagement & Trauma-Informed Practices, Culturally Responsive & Sustaining Practices, Positive Identity Development, and Social-Emotional Learning Curriculum.**

1. **Belonging-Based School Culture** - Each student has an adult with whom she/he/they feel connected. Adults at BRICK exhibit social awareness and model healthy relationship skills. They engage students in emotional temperature checks, offer mentorship and invite student voices in decisions that impact their academic and social-emotional well-being. BRICK students develop the skills necessary to support themselves and fellow classmates.
2. **Healing Centered Engagement & Trauma-Informed Practices** - BRICK recognizes that students may experience hardships outside of the classroom that impact their ability to learn. We also recognize that trauma impacts community members as a collective, and that we are more than our traumas. As such, our staff and teachers are trained to recognize how trauma affects the brain; how trauma may manifest itself behaviorally; and how to create systems, structures and practices that reduce re-traumatization, foster hope and engage stakeholders in their own healing.
3. **Positive Identity Development** - Identity is the qualities, beliefs, personality, looks and/or expressions that make a person or group. It is multifaceted and can change over time. BRICK’s school culture nurtures students’ positive identity development because when students have a positive self-concept they become empowered to feel competent, try new things, and strive for success. *“What the educator does in teaching is make it possible for the students to become themselves,” (Paulo Friere, 1990).*
4. **Culturally Responsive & Sustaining Practices** - Learning happens most effectively when a supportive school environment is grounded in strong culturally responsive and sustaining practices and teacher-student relationships. BRICK honors our students' culture and engages in teaching and leadership practices that seek to perpetuate, foster and sustain our students’ values, customs, symbols and linguistic assets.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

5. **Social-Emotional Learning Curriculum** - Research shows that individuals with higher social and emotional competence experience greater academic and career success, leadership, mental and physical health and relationship satisfaction. As such, BRICK teachers engage students in a social-emotional learning curriculum daily to promote exploration of self and others, develop the skills to manage emotions and navigate life's challenges in productive ways.

By investing in these areas, BRICK's Ubuntu Program establishes intellectual, physical, and emotional safety, encouraging students to take healthy risks, innovate, explore their identities, and use their respective talents to become change agents. Our school culture also affirms students' individual and collective identities and contribution as primary stakeholders in the school community.

In order to create the conditions for learning, school leaders, teachers, students and families *must* work together to:

1. Build a **positive school culture**, with relationships at its core.
2. **Reward positive behavior** and issue **developmentally and situationally appropriate, equitable and restorative consequences for undesirable behaviors** in a manner that builds student accountability and enables students to learn from events.
3. Develop students' **social and emotional learning skills** so that each student leaves a BRICK school with confidence, social skills and curiosity to succeed in life.

[RETURN TO TABLE OF CONTENTS](#)

	<ul style="list-style-type: none"> • ABS trains school staff and students in Anti-Bullying Bill of Rights 	
<p>Positive Behavior Reward & Recognition System</p>	<p><i>All teachers use Kickboard to acknowledge student behavior - both positive and negative - consistently and communicate student points during designated times. The number of points students earn determines if a student is categorized as a DREAMER, a Visionary, or an Innovator in any given week . Points are distributed weekly to incentivize and reinforce student positive behaviors. There are bi-weekly school-wide events celebrating students' iDREAM, academic and SEL achievement.</i></p> <ul style="list-style-type: none"> • PD during Summer Institute around the iDREAM Values. • Clear behavior expectations are outlined for each value across classrooms. • System in place to determine which students will be invited to iDREAM Dollars Celebration based on values. • Weekly review of teacher implementation of Kickboard to ensure that students are all being scored by VP of Culture. • Coaching Cycle will focus on proper implementation by all Admin. • Students use reports to track their Kickboard progress and determine if they have met the threshold to be invited to celebrations. • Teachers use Kickboard data to determine monthly iDREAM. • Weekly Community Meetings celebrate success and recognize outstanding behavior and academics. • Brag Boards exist throughout the school building and classroom to display student work and accomplishments. 	<p>75% or higher kickboard positivity rate</p> <p>Brag Boards</p>
<p>Attendance</p>	<p><i>School celebrates perfect attendance weekly, addresses poor attendance weekly, and acknowledges attendance improvements biweekly. School prioritizes proactive, targeted supports for Students considered severely or chronically absent.</i></p> <ul style="list-style-type: none"> • Attendance SST Subcommittee is in place and meets bi-weekly to review trends in student attendance, and makes recommendations for interventions. • Utilize data from the previous academic year to ensure early intervention and support. • Students experiencing severe or chronic absenteeism during the previous academic year will be assigned to an attendance mentor for early intervention and ongoing outreach. • Staff updates attendance tracker weekly. • Ensure teachers are contacting student's family with 1-4 absences and documenting outreach • Outreach to families for attendance improvement conferences with 5+ absences • Celebrate Homerooms with perfect and most improved student attendance, at least monthly. 	<p>% of students that are severely absent, monthly, quarterly</p> <p>% of students that are chronically absent, monthly, quarterly</p> <p>% of students with perfect attendance, monthly, quarterly</p>

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Staff Expectations

To foster a positive school culture, all staff is expected to:

1. Establish classwide welcome rituals.
2. Establish a relationship with all Students.
3. Take responsibility to internalize and model the iDREAM values.
4. Communicate positively with Students and fellow staff members.
5. Use Affective Statements.
6. Provide opportunities for Students to suggest and implement their ideas within their classroom and school community.
7. Engage in collaborative Grade Level Team meetings to discuss best practices for supporting Student SEL.
8. Implement classroom culture plans with fidelity.
9. Teach, reinforce, and follow all systems, policies, procedures, and routines in the school culture plan.
10. Hold themselves and all Students accountable for meeting/exceeding high behavioral expectations as per the iDREAM values.
11. Engage in quarterly rapport audits of teacher-student relationships to ensure that every student has an opportunity for positive adult interactions.

Student Expectations

To foster a positive school culture, all Students will exemplify the iDREAM values:

- **Identity** - I am because of who we are.
- **Diligence** - Persist toward individual and team goals.
- **Respect** - Honor personal and school-wide boundaries.
- **Empathy** - Care about others.
- **A+ Self-Control** - Stay focused.
- **Model Student** - Be intentional.

BRICK iDREAM Values

Summary of Key Actions	<ul style="list-style-type: none"> ● <i>Teachers internalize the iDREAM values as defined below.</i> ● <i>Teachers implement a classroom culture plan grounded in a culture of belonging and define class agreements, rewards, consequences, routines, procedures and teacher actions that will invest the class in following the plan.</i> ● <i>Teachers explicitly teach, model, and reinforce the iDREAM values and behavioral expectations.</i> ● <i>Teachers connect behaviors to values.</i> ● <i>iDREAM values are recited daily in each homeroom.</i>
-------------------------------	--

Our *iDREAM* values develop accountability and affirm beliefs and priorities around social capital, work ethic, and life purpose. These values help to influence behavior, shape goals, and offer a sense of direction toward well-rounded success. Our restorative approach to the teaching of *iDREAM* values reinforces positive behaviors and provides students an opportunity to learn from experiences through natural, logical and developmentally appropriate consequences. The purpose of our *iDREAM* values is to support students to develop self-efficacy and empower them to be leaders for themselves and for others.

iDREAM anchors are posted throughout the school - in classrooms and all common spaces - in order to ground members of the school community in these BRICK values. All posters should be visible and large enough for school members to see in each respective space.

Identity: "I am who I am, because of who we all are."				
Advocate for myself in productive ways. · Express myself creatively · See the good in myself · Believe we are stronger together.				
<u>Diligence</u> <i>"I persist toward my individual and team goals."</i>	<u>Respect</u> <i>"I honor personal and school-wide boundaries."</i>	<u>Empathy</u> <i>"I am my brothers' and my sisters' keeper."</i>	<u>A+ Self Control</u> <i>"I stay focused and maintain my cool."</i>	<u>Model Student</u> <i>"I am here on purpose with purpose"</i>

Social-Emotional Learning (SEL)

<p>Summary of Key Actions</p>	<ul style="list-style-type: none"> ● <i>Staff explore how adult social emotional competence impacts student SEL development.</i> ● <i>All staff receive training in the SEL competencies.</i> ● <i>Teachers conduct daily emotional temperature checks with students and make connections for support as needed</i> ● <i>Teachers seek support with nurturing their own social emotional well-being</i> ● <i>Teachers use the Positive Action curriculum M-R.</i> ● <i>Vice Principal of Culture supplements the Positive Action curriculum with lessons tailored to meet the individualized needs of students.</i>
--------------------------------------	---

What is Social and Emotional Learning?

Thriving in today's society means not only having the capacity to read, write, and count; it also means having the ability to recognize and manage emotions as well as problem solve. According to Collaborative for Academic, Social, and Emotional Learning (CASEL), Social and emotional learning (SEL) is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. SEL programming is based on the understanding that the best learning emerges in the context of supportive relationships that make learning challenging, engaging,

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

and meaningful. Social and emotional skills are critical to being a productive student, citizen, and leader in tomorrow's workforce. Through direct instruction, teachers can strengthen students' ability to learn, have empathy, manage emotions, and solve problems.

SEL Instructional Modality

At BRICK, SEL is taught explicitly and implicitly through daily SEL curriculum instruction either online or in person. Trusting relationships are at the core of SEL instruction at BRICK schools. Research indicates that students who have a relationship with at least one trusted adult have better school attendance, better academic and behavioral outcomes and are more connected to the school community. Our teachers leverage relationships and affirmation of students' respective cultures to motivate students to internalize social-emotional learning competencies. Teachers utilize a bank of tools to build rapport and connection with students on a daily basis. Such tools include team-building activities as well as a system for incentivizing and rewarding desired academic and behavioral outcomes. In addition, restorative circles are used as the primary teaching modality for opening and closing lessons as well as implementing SEL instruction. The use of circles invokes a community-based mindset and encourages openness, inclusivity, wholeness and connection.

[CAMPUS NAME]

SEL Guidance

Guidance	
Training	<ul style="list-style-type: none"> ● Teachers receive training in the SEL competencies ● Teachers receive training in the SEL curriculum ● Teachers receive training in morning meeting / advisory Criteria for Success ● Teachers receive training in relationship development, maintenance, termination and repair
Teacher/Advisor Role	<p>Below are some of the roles Student Advisors assume during SEL sessions and throughout the year:</p> <ul style="list-style-type: none"> ● <u>Mentor</u>- leverage student’s strengths and highlight growth areas to support and encourage them to be and do their best to respond to life’s challenges. ● <u>Team-builder</u>- create and implement strategies and practices that foster group cohesiveness and promote collective problem-solving and progress. ● <u>Conflict Mediator</u>- support students to understand and appreciate the perspectives of others. ● <u>Educator</u>- model behaviors you want students to emulate, guide students through reflective processes and facilitate learning. ● <u>Motivator</u>- recognize and acknowledge students’ efforts, while assisting them through the change process and helping them see the potential of the future. ● <u>Advocate</u>- elevate students’ expressed needs and concerns to ensure that their voices are heard and that appropriate resources are acquired to support their success.
Teacher/Advisor Best Practices	<p>Successful Student Advisors create classroom environments in which students feel safe, heard, respected, and welcomed. They employ the following strategies to create environments conducive to social emotional learning:</p> <ul style="list-style-type: none"> ● Greet <u>each</u> student with positive and upbeat energy upon entering the classroom. ● Model, teach and implement a communication protocol designed to promote listening and engagement. ● Use team-building activities to create an inclusive environment. ● Implement consistent routines and procedures. ● Be prepared. Have all materials ready and annotate lesson plans before the designated advisory session. ● Utilize the restorative circle format to facilitate SEL discussions. ● Support students in applying their SEL skills and “resilience tools” to specific situations and experiences as they arise. ● Personalize the learning experience through the use of personal stories about real-life situations and experiences. ● Use humor as an engagement strategy and de-escalation tool. ● Relax. Have fun. And, allow students to relax and enjoy themselves as well.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

	<ul style="list-style-type: none"> ● PACE Method for creating healthy school-based attachments: <ul style="list-style-type: none"> ○ Playfulness - create an environment of light heartedness, openness and humor. ○ Acceptance - see the student’s needs beneath the behavior. ○ Curiosity - seek to understand what is driving a student’s behavior. ○ Empathy - show compassion and connect with how the student is feeling.
<p>SEL Implementation in Morning Meeting & Advisory (K-12)</p>	<ul style="list-style-type: none"> ● Grade Level Teams will meet at least once per month to unpack units and for peer-to-peer feedback on instructional strategies. ● SEL Morning Meetings daily sequence of activities: <ul style="list-style-type: none"> ○ Students and Teacher form a circle - circle participants can form a circle by standing, sitting on the floor, or positioning desks in a circle. ○ Greeting / Welcoming Routine ○ Sharing - In sequential order, circle participants respond to a feelings prompt. Teacher listens for any student in need of additional emotional support. <ul style="list-style-type: none"> ■ For virtual instruction, the teacher uses PearDeck mood meter to capture student’s feelings and offers support and encouragement to students that communicate feelings of dis-ease. ○ SEL Lesson - Engage students in SEL Lesson, making connections to life and BRICK iDREAM values. ○ Closing - Students share how they will transfer the SEL skill into other areas of life
<p>SEL Advisory Committee (6-12)</p>	<ul style="list-style-type: none"> ● At BRICK, we honor student voices and recognize the importance of having students participate in decision making. As a result, the SEL Advisory Committee will be composed of one Student Advisor from the Culture Team, one to two (1 - 2) Student Leads, and one student representative from each grade level. ● Students participate on the SEL Advisory Committee to ensure that the voice of the student body is heard and included in planning and decision making. Below are the responsibilities of each member of the SEL Advisory Committee: <ul style="list-style-type: none"> ○ Student Success Coordinator / Student Advisor - Supports to drive student-centered activities based on the voice of Student Representatives. Ensures student voice is present during Convocations and Community Meetings; works collaboratively to enhance the instructional delivery of SEL lessons, create monthly challenges related to the SEL themes, plan monthly celebrations and student events and incentivize students. ○ Student Lead - collaborates with Student Success Coordinator/ Advisor and student representatives to enhance the instructional delivery of SEL lessons, create monthly challenges, plan monthly celebrations and student events and incentivize students. ○ Student representative - collaborates with Student Advisors and Student Lead to enhance the instructional delivery of SEL lessons, create monthly challenges, plan monthly celebrations and student events and incentivize students in their grade.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Coaching	<ul style="list-style-type: none"> • A SEL Advisory Committee will be established at the start of each school year. This committee will meet as a subcommittee of the larger SST. • Teachers will informally be observed by an administrator at least twice per month during morning meeting /advisory. • Teachers in need of additional support will receive in-class coaching • Coaching <i>may</i> include observations, modeling, goal setting, data review and <i>informal</i> feedback to improve implementation fidelity.
-----------------	---

SEL Morning Meetings K-8

Morning meetings create an opportunity for teachers to set the tone for the day. They also provide a unique opportunity for teachers to build rapport with students, and identify early any students in need of social-emotional support. In order for morning meetings to be effective, it is imperative that teachers establish a safe space for sharing. The activities of the morning meeting are intentional.

At BRICK, K-8 schools, Morning Meeting is a component of our school-wide Tier 1 system. It is used to directly provide SEL instruction to students. BRICK Schools utilize a research-based SEL curriculum to teach SEL content and skills and reinforce the iDREAM values. All morning meetings occur in a circle which have traditionally been used in indigenous communities to establish consensus, solve problems and engage in other rituals. They help to neutralize power, position participants to make better eye-contact, and ensure that everyone has an opportunity to speak.

Morning Meeting in K-8

Ownership, Accountability and Preparedness	
<p>Owner: Teacher</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Lesson starts promptly at 8:00 am; lesson ends at 8:30 am • If video is part of lesson, it is already pulled up on teacher’s computer • Occurs 4 days per week 	<p>Materials:</p> <ul style="list-style-type: none"> • Positive Action Curriculum & Kit • SEL Scope & Sequence

SEL Advisory in 9-12

The high school years present lots of change for students. This is a period when young people are beginning to become more independent of adults, striving to develop their own identities and prioritizing relationships with peers. Students begin to wonder about what position and impact they will have on the world, in what ways they are able to mold their future. The developmental question during this stage of a student’s life is, “Who Am I?”

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

High School Advisory creates an opportunity for students to develop the answers to that question. It also aims to lower students’ barriers to academic, social and emotional success while providing students with the tools to transform into their best adolescent self. The advisory structure builds community, provides students with a safe environment, and forms the basis of a primary person model wherein all students have a trusted adult invested in their success.

At BRICK high schools, Student Advisory is a component of our school-wide Tier 1 system. It is used to directly provide SEL instruction to students. All students are scheduled into a Student Advisory class that is facilitated by a Student Advisor. Student Advisory classes will meet twice per week for 40 minutes per session.

A research-based SEL curriculum is used by all Student Advisors to teach SEL content and skills. During Student Advisory classes, students engage in learning tasks that promote identity development, problem solving and creative exploration. They also participate in school-wide challenges that build trust and camaraderie amongst all stakeholders within the school community. As a result, Student Advisory is a safe place where students feel fully comfortable to be and express themselves as they learn to respond to their emotions, their peers and the world around them.

OVERVIEW

BRICK strives to meet the needs of its students. Each BRICK school employs a Student Support Team (SST) Framework to engage in a Multi-tiered System of Supports (MTSS). Student Support Teams are a proactive, multidisciplinary, problem solving structure that analyzes trends in school-wide data (e.g. attendance, homelessness, behavior, academic, health) to understand the ways in which students experience school. The SST is the school's vehicle for the development and management of prevention and intervention activities. SSTs engage in cross-disciplinary collaboration to proactively identify, respond to, and mitigate challenges of:

- Tier I - The entire student body
- Tier II - Targeted groups of students, and/or
- Tier III - Individual students

The following graph illustrates a guiding model of the SST's focus at each tier. It necessitates interventions focused on both academic and behavioral instructional practices. The model shown here refers to the alignment of the Multi-Tier System of Supports (MTSS) which is grounded in differentiated instruction to meet the academic and social-emotional needs of students in schools. The size of the instructional group **decreases** as interventions become more individualized and specific. Conversely, the intensity and frequency of intervention and progress monitoring **increases** the more individualized services become.

Please refer to the full MTSS/ SST/ I&RS/ 504 Guidebook for more information on the purpose, functions and process for triggering student support.

Restorative Practices, Effective Circles & Progressive Discipline

BRICK schools use Restorative Practices (RP) to promote inclusiveness, positive school culture, relationships and self-responsibility among students and staff. Restorative practice is an evidence-based alternative to punitive and exclusionary school discipline and requires a shift in both mindset and practice. Traditional discipline responses focus on doing something **TO** the offender and **FOR** the harmed person(s), while RP places emphasis on working **WITH** all affected parties to repair the harm. These practices can be observed throughout each tier of our Multidisciplinary System of Supports (MTSS) to support engagement in positive, prosocial behaviors such as relationship development and conflict resolution. When used proactively, restorative practices can aid in reducing behavioral infractions and discipline referrals. At the foundation of Restorative Practices are relationships. In fact, 80% of

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

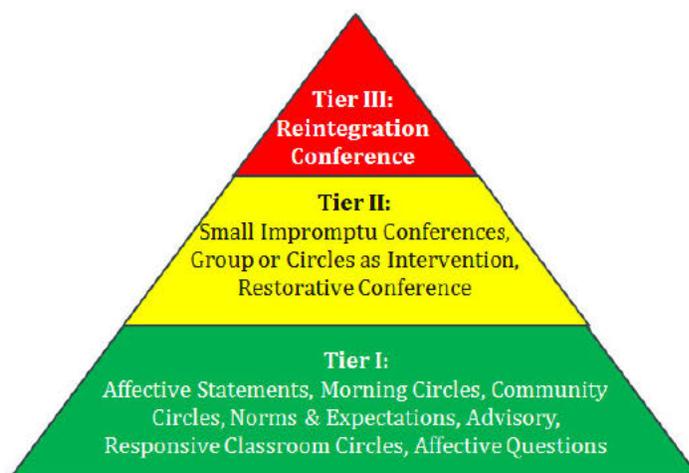

restorative practices is relationship development. There are various techniques for doing this work. One such strategy is the proactive use of *Restorative Circles*.

Restorative circles support teachers to create a classroom environment that builds connections, establishes safety and trust, and is inclusive of student and teacher voice. The circle itself is symbolic of wholeness and eternity, fostering shared power and mutual understanding between participants.

There are two (2) types of circles: **proactive** and **responsive**. Teachers generally facilitate Tier I circles through lesson introductions and closing activities, proactive morning meetings, and advisory. Tier II circles in the classroom create a space for teachers to respond impromptly to unexpected barriers to instruction, as well as provide small group support to students requiring additional scaffolding.

Restorative Practices can be observed at Tier I, Tier II and Tier III as illustrated in the diagram above. As part of our school culture, Restorative Circles can be seen in:

- Monthly convocation - (Tier I)
- Town halls / Community Meetings - (Tier I)
- Restorative conferences - (Tier II)
- Reintegration Conference (Returning a student from class removal or suspension) - (Tier III)
 - Teacher participation is required if the reason for removal/suspension was due to a violation of the code of student conduct in the classroom, or was a violation of the teacher-student relationship. An exception must be made when having the student and teacher together would be physically or emotionally unsafe for either party.

The [Circle Planning Guide](#) will help teachers create their own Restorative Circles in the classroom. Circle use in the classroom is great for establishing expectations, facilitating instruction and problem solving as a community. [When Good Circles Go Bad](#) provides recommendations to troubleshoot common circle facilitation challenges.

Circle Category	Uses (nonexhaustive)	Criteria for Success
-----------------	----------------------	----------------------

[CAMPUS NAME]

BRICK Education Network Behavior Management System

To create and maintain effective learning environments for all students to achieve social, emotional and academic excellence, school staff must employ a proactive approach to reduce disciplinary infractions and adhere to school-wide systems for behavior management. BRICK Habits focus on:

1. **Proactive and restorative classroom management** strategies;
2. **Norms, expectations, rewards and consequences** that are logical, equitable, restorative and developmentally appropriate for all Students;
3. **Policies, routines and procedures** that are consistently followed and promote a safe and supportive learning environment.

BRICK utilizes a comprehensive positive behavior intervention and support system that looks at the interconnectedness of how behavior is monitored and responded to - both in and out of the classroom - and constructively addressed for Students who engage in violations of the code of conduct.

Staff responsibilities include:

- Modeling positive behaviors
- Being aware of students' triggers and aiming to offer correction without shame
- Consistently acknowledging and rewarding appropriate behavior
- Monitoring and constructively addressing problematic behavior
- Building trusting relationships with and among all Students
- Adhering to policies and routines at all times

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Proactive and Restorative Classroom Management

Summary of Key Actions	<ul style="list-style-type: none"> ● <i>Teachers accept that discipline begins with relationships.</i> ● <i>Teachers accept that discipline is everyone's responsibility - if you see a Student violating a school expectation, it is your job to intervene.</i> ● <i>Teachers are at their assigned post on time and ready to greet students daily.</i> ● <i>Teachers implement a classroom culture plan that creates a culture of belonging, defines the expectations/norms, rewards, consequences, routines, procedures and teacher actions that will invest the class in following the plan.</i> ● <i>Teachers explicitly teach, model, and reinforce the iDREAM values and behavioral expectations.</i> ● <i>Teachers input all student conduct in Kickboard.</i> ● <i>Teachers input positive iDREAM behavior in Kickboard.</i> ● <i>Teachers input notes for all home communication in Kickboard.</i>
-------------------------------	--

Effective classroom management is essential to providing Students with a productive learning environment. These strategies must not only provide Students with clear expectations but must be integrated with explicit instruction on self-awareness, social-awareness, relationship skills, decision making skills, and self-management. Relationships are fundamental in BRICK’s approach to discipline. When grounded in Restorative Justice, implementation of the Progressive Discipline Framework emphasizes rejecting *the deed* (the behavior) but not *the doer* (the member of the school community) and uses incremental consequences to address inappropriate behavior in the least intrusive way possible.

Teachers are expected to develop a Classroom Culture Plan inclusive of strategies that prioritize relationship development, proactively teach self-management and include classroom strategies for restorative discipline responses. Culture Plans will be reviewed by your Grade Level Administrator and be put on file for reference. Students must understand, be able to articulate and exemplify all expectations, rewards, and consequences.

Building Meaningful Relationships

Building rapport across demographic lines (e.g. race, gender, socio-economic, ability) with students has the power to transform the overall culture of the school, and the classroom. Most students want to relate, not only to the content, but to the instructor and other adults in their lives. A few tips to building meaningful relationships are:

- **P.A.C.E.** Method for creating healthy school-based attachments
 - Playfulness - create an environment of light heartedness, openness and humor
 - Acceptance - see the student’s needs beneath the behavior
 - Curiosity - seek to understand what is driving a student’s behavior
 - Empathy - show compassion and connect with how the student is feeling
- **Positive Calls Home** - Call parents with a positive message about their child. Resist the urge to discuss challenges. Students and parents who rarely get positive feedback eventually become allies.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- **Quarterly 10 x 2 Challenge** - Each quarter, for a period of ten (10) consecutive days teachers are challenged to engage at least one (1) student in a two (2) minute conversation unrelated to school.
- **Affective Statements** - Be vulnerable and use “I” statements to express your feelings in response to specific positive or negative behaviors.
- **Let students get to know you** - Introduce yourself. Engage in appropriate sharing about who you are - your interests, family, etc. - not your degree or schooling.
- **Ask questions** - Show a genuine interest in students' lives by asking questions and then checking in throughout the year.
 - **Be funny** - Light heartedness and positivity are infectious. Humor goes a long way; makes a good first impression.
 - **Let them teach you** - Students love it when you are open enough to allow them to teach you something. It’s an act of sincere listening, and students love to be heard.
 - **Talk to them outside of school** - Make an effort to attend school events after the school day has ended. Show up to their game, performing arts event, etc. Sit with the students in the stands. It will earn you a great deal of credibility.
 - **Be Consistent!**

Classroom Culture Plans must address: [Template](#)

1. Classroom expectations
2. Rewards/incentives
3. Consequences that are logical, equitable, developmentally appropriate, and restorative
4. Plan to address all Level I Misconduct
5. Procedures to ensure an efficiently run classroom
6. Interactive modeling of classroom procedures on a consistent basis
7. Opportunities for young people to self-correct and self-regulate

Grade Level Teams are encouraged to develop their Classroom Culture Plans collaboratively to ensure consistent expectations, rewards, consequences, routines, and procedures.

Consistency is key

1. Teachers are the first line of defense against classroom disruptions (misbehavior). The teacher has the responsibility of implementing a classroom management system.
2. All teachers should have classroom procedures, expectations and agreements that all students understand and are invested in.
3. The behavior management system should address all Level I Misconduct.
4. We are ALL responsible for what happens in our school, both positive and negative. To that end, we must work together to ensure that the building is orderly, safe and productive so both Students and staff feel safe and welcome. Here are some guidelines to follow:
 - a. If you see an infraction of Student conduct, intervene. If a student litters, ask them to pick it up. If a student uses inappropriate language, direct their attention to it and follow up with his/her teacher. If students are talking loudly

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

in the hallway, remind them of the impact on other students and ask them to lower their voices. On the same token, please keep your voices to a minimum while in the hallway.

- b. We must work together to ensure that the building runs smoothly. If one person fails to uphold the expectations established by the school community, school community members and relationships may be negatively impacted.
5. The school community includes EVERYONE! From clerk to custodian to cafeteria attendant, we share responsibility for what happens.

Norms, Expectations, Rewards and Consequences

<p>Summary of Key Actions</p>	<ul style="list-style-type: none"> ● <i>Shift mindset from punitive responses to restorative responses to disciplinary infractions.</i> ● <i>Define and model school-wide and classroom norms and expectations.</i> ● <i>Create opportunities for students to practice positive behaviors.</i> ● <i>Acknowledge when students demonstrate iDREAM values.</i> ● <i>Employ Progressive Discipline Framework when responding to student behaviors.</i> ● <i>Use best practices from other approaches, e.g., Responsive Classroom, Developmental Design, Restorative Practices, Trauma Informed Care for classroom management.</i> ● <i>Teachers must use “3 Before Me” strategies before using a Conduct Referral.</i>
--------------------------------------	--

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

iDREAM Paycheck System

Teachers utilize a consistent merit and demerit system to manage student behavior. The iDREAM paycheck system incentivizes student behavior.

When	What	Who	How
Daily	When a student does something positive or negative, teacher verbally acknowledges by naming the value reflected in the behavior, and then record the behavior on the iDREAM Tracker. At the end of each class period, teacher inputs point value to Kickboard.	Teacher	<ul style="list-style-type: none"> During the last five minutes of class period, the teacher enters students' scores into Kickboard and verbally communicates achievements. <ul style="list-style-type: none"> 4-5 Values Exhibited (Innovator Level): Exhibited both academic (Diligence, Model Student) & interpersonal values (Respect, Empathy, Self-Control) and set an example for others 2-3 Values Exhibited (Visionary Level): Exhibited either academic values or interpersonal values, but not both consistently. 0-1 Values Exhibited (DREAMer Level): Had an idea of the values, but struggled to exhibit them. Specific notes on behavior must be entered when 0-1 values are exhibited.
Weekly	Print student paycheck from Kickboard at the end of the Culture Week (Wednesday)	Dean of Culture/Admin	<ul style="list-style-type: none"> iDREAM Paychecks are printed and distributed to students every Friday during community meeting or convocation. DREAMer Level students are engaged in SEL activities to support their internalization of the iDREAM values, during either iDREAM Dollar Store or Fun Friday. Visionary Level students are invited to Fun Friday or iDREAM Dollar Store and are encouraged to strive for Innovator Level. Innovator Level students earn space on the Innovator Wall of Fame and are invited to Fun Friday or iDREAM Dollar Store
Weekly Fun Fridays	Each week, students will earn the Fun Friday event if they meet or exceed the monthly goal.	Dean of Culture/Admin	<ul style="list-style-type: none"> Fun Fridays and the iDREAM Dollar Store will alternate from week to week

Some Key Points:

- The iDREAM week is Thursday to Wednesday. Checks are printed Thursday at 4pm, passed out to teachers at Friday's Community Meeting.
- iDREAM Value Points must be awarded during the end (last 5 minutes) of each designed class period, acknowledging their behaviors and growth.
- Students who receive a 0 or 1 value points must have a short note about their behavior.
- Math and Enrichment teachers are also required to award points at the end of their class.
- ALL TEACHERS MUST participate – this is NON-NEGOTIABLE to ensure that all students have a fair opportunity to participate in celebratory activities.

Positive Behavior Reward & Recognition System

BRICK schools utilize a Positive Behavior Reward & Recognition System called iDREAM Dollars. Students earn iDREAM Dollars based on their ability to uphold the academic and behavioral values.

iDREAM Dollar Store | Biweekly

On a bi-weekly basis, alternating with Fun Fridays, students use their iDREAM dollars to shop for prizes and/or school supplies. Students receive tickets based on their iDREAM level (i.e. DREAMer, Visionary, or Innovator) for the week and get to shop accordingly.

Fun Fridays (Biweekly) | Weekly

On a bi-weekly basis, alternating with iDREAM Dollar Store, students who earn Visionary or Innovator status are invited to a fun event where they celebrate with other Visionaries and Innovators. Events may include a movie, dance, craft, etc.

Perfect Attendance

On the first Friday of every month, students with perfect attendance in the previous month are invited to a special lunch filled with treats and beverages for students to enjoy. The day before the event, students receive notification if they are invited. Students will also be celebrated at the First Friday Award Ceremony with a certificate.

Parent Perfect Attendance

Each month, parents who ensured their Student attended school 100% of the days are invited to a special breakfast with other parents.

Consequences

The most effective way to decrease the occurrence of problem behavior is to teach the desired replacement behaviors and acknowledge improvements in behaviors. A *Progressive Discipline Framework* allows teachers and administrators to address unwanted behaviors while creating opportunities for students to develop new social skills. Consequences must be implemented from the least intrusive (e.g. error correction with expectations reminder) to the most intrusive (e.g. class removal) and allow students a chance to correct and repair the harm or error.

[CAMPUS NAME]

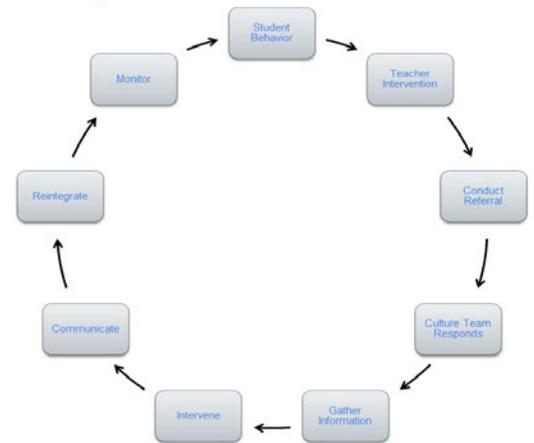

[RETURN TO TABLE OF CONTENTS](#)

Conduct Referrals

Conduct referrals are the last resort for classroom teachers when a student is not responding to consequences to Level II or Level III behaviors. Students who continually engage in Level II conduct, disrupting the learning of others or commit a Level III may be immediately referred to the dean if the intended consequence is not working.

Conduct Referral Process:

1. Unmodified student misbehavior occurs
2. Teacher uses “3 Before Me” Teacher-led consequence
3. Conduct referral - 2-3 sentences in Kickboard
4. Culture member responds to the room
5. Information gathering and assessment
6. Culture member provides on the spot intervention when possible
7. Intervene with restoration, instruction, reflection
8. Communication plan to update the family, teacher, and other administrators. Resolve open case in kickboard.
9. Reintegration: Return the student to the classroom when appropriate.
 - a. When a student is returned to class, they are ready to return to class.

Continual Level I infractions that are unmodified with teacher intervention are escalated to Level II category and may be referred to Dean/Admin. Some examples include:

- Repeatedly refusing to follow directions
- Continual verbal outbursts and profanity
- Disrupting class (talking to others, distracting students, not staying in your seat etc.)

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

In the event that a conduct referral is required for additional support, follow these steps:

How to Make a Conduct Referral:

1. Teacher will use “3 Before Me” and issue a Teacher-Led consequence for continued Level 1 infraction and level 2 and 3 infractions.
2. Teacher will record infraction in Kickboard
 - a. Who was involved?
 - b. What happened?
 - c. What “3 Before Me” strategies were tried?
 - d. What consequence was issued?
3. Teacher will follow steps below to contact admins for student removal/support

Process or contacting admin for student removal/support		
Student is:	...engaging in behaviors that disrupt the learning environment but is not physically unsafe and TAB in didn't work...	...physically unsafe and has lost emotional control. Student poses a risk to themselves and others...
Teacher will:	...submit dean referral in Kickboard to be received by Dean of Culture/Administrator	...use WhatsApp to text Associate Dean of Culture/Administrator to receive an urgent response.
Text will read:	Reset, Student initials, location (ex. Reset, IG, 104)	Crisis, Student Initials, location (ex. Crisis, IG, 104)

Create a Whatsapp group for convenience and faster response times

1. teacher will create a Whatsapp group with lead, TnT, Vice Principal and School Leader
2. teacher will name group in accordance with the following; **SS Class name**, ex. SS Villanova (SS= student support)
3. When support is needed, teachers can search for the group in Whatsapp instead of scrolling or manually entering group members.

[CAMPUS NAME]

Teachers will use the following management strategies when a student exhibits a misbehavior. These strategies are designed to minimize interference during execution of instruction. The following sequence should be followed when managing misbehavior in your classroom.

Note: Once students have internalized the routines and procedures, teachers will use one strategy from steps 1-3 prior to escalating in response.

1. Narrate the Positive while making eye contact with the misbehaving student
 - Narrate 3 students who are doing the RIGHT thing within proximity of the off task student
 - Correct the student who is off task if they did not fix the NARRATED behavior
2. Move in closer proximity to the misbehaving student
3. Use a nonverbal gesture to correct the student’s behavior
4. Give the student a verbal warning
5. Record warning in Kickboard

Calm Down Strategy

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Teacher can identify and anticipate when to use strategy as a method for de-escalation ● Teacher uses a calm voice to direct student through the process ● Teacher models the process and/or completes the steps with student ● Students can identify when to use the Calm Down Strategy and by following all of the steps, students will be able to reduce their emotional outburst 	<p>Materials:</p> <ul style="list-style-type: none"> ● Calm Down Strategy: <ul style="list-style-type: none"> ○ Stop - use your signal ○ Name your feelings ○ Calm Down: ○ 5-4-3-2-1 Grounding <ul style="list-style-type: none"> ■ Teacher, be aware of the colors in your class and their locations. ■ Get student’s attention, “I need your help with something” ■ Find 5 things in the room that are (color) ■ Find 4 things in the room that are (color) ■ Find 3 things in the room that are (color) ■ Find 2 things in the room that are (color)

Balloon / Belly / Deep Breathing

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Teacher can identify and anticipate when to use strategy as a method for de escalation. ● Teacher uses a calm voice while modeling Belly Breathing ● Teacher walks student through the Belly Breathing process by modeling the behavior ● Students can identify when to use Belly Breathing and are able to use Belly Breathing on their own when needed (ex: the playground, lunch room, group work, etc). 	<p>Materials:</p> <ul style="list-style-type: none"> ● Two Minutes Mindfulness: Balloon Breaths / Belly Breaths - (Grades PK-4) ● Three Minute Mindful Breathing - (Grades 5-12) ● One Minute Deep Breathing Guided Meditation - (Grades 5-12)

Problem Solving STEPs

Ownership, Accountability and Preparedness
--

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Owner: School

Criteria for Success:

- Teacher and students can identify and anticipate when to use strategy as a method for de-escalation.
- Students are able to use the Problem Solving STEPs when needed independently
- Students encourage their peers to use Problem Solving STEPs when there is a disagreement/conflict

Materials:

- Problem Solving STEPs:
 - Say the Problem (without blame)
 - Think of Solutions (safe and respectful)
 - Explore Consequences (what would happen if...)
 - Pick the best solution (make your plan)

Take a Break | In the Class

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> 100% of teachers have identified “TAB in/out” desk in their classroom with reflection sheets and pencils available 100% of teachers have explicitly taught what “TAB in” looks like and when it is used during the first 6 weeks of school 100% of TABs take less than 4 minutes and get students back into learning in <5 minutes 	<p>Materials:</p> <ul style="list-style-type: none"> None Desk Timer Pencils Reflection sheets TAB Poster

TAB Take a Break In the Class		
<p>Rationale:</p> <ul style="list-style-type: none"> Sometimes we need a minute away in order to help us refocus. We would rather give a student 3 minutes to calm down and then get back to learning than waste an entire block In order to have a restorative conversation with students, we need to provide a space for them to clear their headspace 	<p>100% Vision:</p> <ul style="list-style-type: none"> Teacher quietly tells the student “*student’s name* take 2 minutes to reset/refocus/calm down” (Teacher can also ask the student if they need a break if the student just seems unfocused) Student walks to the TAB desk without disrupting anyone else Student or teacher sets the timer for 2 minutes Student sits calmly either using a “calm-down” strategy or writes out what was happening “Get Back in the Game”/ “I know you can do this” Conversation between the teacher and student happens after the timer has gone off and before the student comes back (can be as short as “What do you need to do when you get back to your seat?” or up to a 1 	<p>Non-examples:</p> <ul style="list-style-type: none"> Punitive tone Takes more than 6 minutes for student to get back to learning Takes the teacher away from the class for more than the 1 minute conversation at the end Used as a “I can’t deal with ____ right now” Used as the first reaction for reminders (go through reminder process → Non-verbal/verbal reminders) “You’re always...” or “You never...” language (make it about the moment rather than the person)

[CAMPUS NAME]

Take a Break | Out of the Class

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> Teacher has identified buddy teacher at the grade above (or below for 5th grade) 100% of teachers have identified “TAB Out” desk in their classroom with reflection sheets and pencils available When tracking IDream points in Kickboard, note: “TAB Out because...” 	<p>Materials:</p> <ul style="list-style-type: none"> None Timer Reflection sheets or blank paper TAB Out Poster

TAB Take a Break out of the Class		
<p>Rationale:</p> <p>A highly effective, well-researched corrective action is to have a chronically disruptive Student sent to spend time sitting alone in the back of another teacher’s classroom -- <i>TAB OUT in Buddy Classroom</i>. This intervention has benefits:</p> <ol style="list-style-type: none"> Teacher can count on a colleague being there and helping with the Student Students do not like going to a strange classroom – especially in a different grade level (ideally two grade level difference) Students rarely disrupt in another teacher’s classroom 	<p>100% Vision:</p> <ul style="list-style-type: none"> Teacher gives clear what to do directions about TAB Out Student leaves classroom silently to go to buddy teacher (teacher visually watches student enter other classroom) Student immediately sits down and completes reflection without direction from teacher or uses calm-down strategy Student completes reflection and gives to buddy teacher to review Buddy teacher determines if student is ready to return Upon return, teacher reviews reflection and gives clear what to do directions to get the student back into the lesson 	<p>Non-examples:</p> <ul style="list-style-type: none"> Teacher says, “GET OUT!” Teacher sends student to classroom for more than 10-15 minutes Used as the first response and not an intervention Kid comes back and is immediately sent back to TAB out room without looking at reflection sheet

Teacher Detention:

A teacher may assign his/her own detention to Students. The teacher is expected to coordinate the detention and hold it in his/her classroom. A parent must have 24-hour notice of before or after school detention and the detention must be approved by an admin. The teacher should inform the office of Students who are staying for detention.

Detention Best Practices

- Students should complete logical tasks as per their misconduct. For example, if a Student uses inappropriate language directed at another person, he/she will write an entry outlining why their behavior was inappropriate, how it impacted him/herself and others, and how he/she will fix behavior in the future.
- Students will also complete a reflection sheet on their reason for detention that will be attached to his/her Detention Request and kept in a personal file.
- The detention procedure should include the following:
 - A focus on the student reflecting on the underlying feeling that triggered the behavior, the intended goal and alternative ways to achieve the goal in productive ways.
 - Positive attitude from supervising staff member – the message should be that the student has the power to change his/her behavior the same or next day and get on the right track.
 - Students may not socialize with each other or the supervising staff member. The room must remain silent, aside from the supervising staff member asking questions or supporting with the restorative assignment.
 - Students that socialize/talk will not have their detention counted and will need to serve the time the next day.

Lift Every Voice & Sing | Black National Anthem

Ownership, Accountability and Preparedness	
<p>Owner: School Created</p> <p>Vision: <i>Lift Every Voice and Sing - also known as The Black National Anthem - is a poem by James Weldon Johnson later set to music by his brother, John Rosamond Johnson. Lift Every Voice and Sing is a history lesson, a rallying cry, a pledge of unity as we fight for equality and justice to break down walls and build up kids. It is BRICK's vision that all students and staff know</i></p>	<p>Criteria for Success:</p> <ul style="list-style-type: none"> • Lyrics are posted for students and staff to see • Song is sung in class at the beginning of Morning Meeting or as a school during morning announcements • Song is sung during major school-wide events (e.g. Community Meeting / Convocation, graduation) • Students and staff can recite Lift Every Voice & Sing

School Pledge

Ownership, Accountability and Preparedness	
<p>Owner: School Created</p> <p>Vision: <i>A school pledge rallies members of the school community around a set of commitments as individuals and as a collective. It establishes meaningful rituals within the school and helps to foster school pride and inspire students and staff towards a goal.</i></p>	<p>Criteria for Success:</p> <ul style="list-style-type: none"> • Connected to the school mission and vision • Staff believes in the pledge • Pledge is recited consistently as a community • Students and staff can recite the pledge

Dismissal of Students

Ownership, Accountability and Preparedness	
<p>Owner: School Created MBM</p> <p>Vision: <i>An efficient and timely dismissal will ensure a safe end to the school day as well as ensure all students get where they need to be for departure. In order to maximize the instructional day prior to dismissal, schools should establish clear procedures to ensure all students are dismissed ontime.</i></p>	<p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Clear pack-up procedures are outlined for grade bands (K-3, 4-5, 6-8, HS lockers, etc.) ● Dismissal procedures do not begin before 3:40 pm or 3:38 pm (HS) ● All students are at dismissal points by 3:50 pm/3:38 pm (HS) ● Doors open at 3:50 pm sharp/3:38 pm (HS) ● Student greeted by School Leader at entrance(s) ● Late pick-up policy is in place ● Bus pick-up procedures outlined (if applicable) ● After School program/care procedures outlined ● Clear roles and responsibilities for support staff; including “Late duty” admin roles/responsibilities ● Clear guidance if non-homeroom teacher dismisses class based on schedule ● Clear systems to ensure unit and lesson unpack ● System supports teachers leaving dismissal posts by 4:00 pm ● <i>Indoor dismissal plan (rain, cold weather, safety)</i>

[Student Dismissal MbM]

Guidance for Early Pickup

- No student will be dismissed before 3:00 pm unless there is an emergency.
- In case of an emergency, parent will notify the office.
- The office will notify the teacher to send the student prepared to go home. The family member will sign the student out.
- The student will sign the Tardy book when leaving the class.
- Record the early dismissal in Kickboard and counted the same as a tardy.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- Early dismissal may result in students earning a PM work session to make-up missed work.
- After 3 occurrences, the parent will be required to attend a Mandatory Parent Conference.

Guidance on Late Pickup

- Beginning at 4:15 pm, if a student is not picked up, the administrator on duty may notify Newark Police.
- Late pick-ups should be logged for tracking (school determined)

Lunch/Recess

Ownership, Accountability and Preparedness	
<p>Owner: School Created MBM</p> <p>Vision: <i>Lunch and recess are a critical part of the school day. Schools should work to operationalize this time to ensure that students arrive at lunch on time, transition between lunch and recess and are ready for pick-up by teachers by the established lunch times. Students must be provided a safe and supervised lunch and recess experience.</i></p>	<p>Criteria for Success:</p> <ul style="list-style-type: none"> • Lunch/Recess start and end on time • Cafeteria staff are ready for the start of each lunch • Routines are established to ensure smooth transition between lunch and recess • Teachers pick-up and drop off classes on time • Clear procedures are established to call attention both on the playground and in the cafeteria • Students take ownership of clean-up of cafe • All consumable meals recorded for reimbursement • All served meals are compliant • <i>Indoor recess policy</i>

School Wide Expectations

School-wide norms and expectations provide students guidance on the prosocial behaviors they should exhibit. Proactively teaching norms and expectations helps to establish consistency and predictability. The use of positive statements defines specific and observable actions for students, create a safe and strength-based culture that hold all stakeholders accountable. Instructional anchors in classrooms and throughout common areas are displayed to help explicitly define expectations by location and increase students’ positive behaviors. BRICK staff is expected to set clear and concise expectations for students at all times.

[UPDATE] Schools should revise the table below and develop their own posters to outline expectations.

Examples of location specific expectations include:

Location	Actionable Behaviors
Auditorium	<ul style="list-style-type: none"> ● Use a quiet / whisper / inside voice ● Food and drinks put away ● Cooperate with adult directions ● Take garbage with you
Hallway / Stairwells	<ul style="list-style-type: none"> ● Go directly to your destination ● Leave space between people ● Walk at all times ● Have appropriate pass
Bathroom	<ul style="list-style-type: none"> ● Keep your hands, feet, and objects to yourself ● Flush the toilet ● Dry and wash your hands ● Report unsafe situations or injuries to an adult
Recess Area / Playground	<ul style="list-style-type: none"> ● Let everyone play ● Stay in designated area ● Line up when asked ● Return equipment
Cafeteria	<ul style="list-style-type: none"> ● Keep food on your tray ● Wait your turn in line ● Clean up your area, table and floor ● Use inside voice ● Touch and eat your food, only ● Say please and thank you

School/Classroom Call to Attention in PK-8

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • The call to attention must give Students enough time to stop their activity and switch their attention to their teacher. • Whatever Students do with their hands should be comfortable. • Students should show visual compliance immediately, after you have 100% of Students tracking and still, they should instruct Students to sit in ready position and listen carefully. • Outlined in Classroom Culture plans 	<p>Materials:</p> <p>none</p>

Rationale: Use in whole class settings or when Students are working independently. May sometimes be used at school assemblies or anytime when staff needs the attention of everybody.

[examples] Whole Group Calls to Attention:

Tiger Clap:

- Teacher preempts student that work is stopping soon: “We’re about to pause.”
- Teacher claps the Tiger Clap (duh-duh-duh-duh-duh)
- Students finish rhythm (duh-duh) and sit attentively.
- Potential pitfalls:
 - Offbeat rhythm to the clap sounds like non-compliance.
 - Speed variations by classroom could cause confusion.
 - Students bang their hands down on the desk too hard and cause disruption
 - Although may look “tight” when Students do this, discourage the banging of desk as this can disrupt other classrooms/offices nearby.
 - Note: Teachers should reframe from doing the peace clap when the room is already silent. This call to attention is only used when Students are talking/doing a task and you need to get their attention

“Find my voice in 3, 2, 1”

- Use when taking a test or doing IP problem by problem and you need Students’ attention back after they have completed the question.
- Teacher previews that work is stopping: “We’re about to pause.”
- Teacher says: “Find my voice in 3, 2, 1. (pause).” (formal register, controlled volume, while scanning for eyes, pencils down, hands folded)
- Students: Put pencil in waiting place and track the speaker in ready position.
- By week 8: Students should not need the signal to sit in ready position. It would just sound like “Find my voice in 3,2,1.”

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

“Bring it back”

- Use during turn and talks on the rug or at desks
- Preview that work is stopping: “Last words (silent count of 5 in head)”
- Teacher says: “Bring it back”
- Student says: “Bring it back, bring it back, bring it back, bring it back, and STAR”.
- Teacher says: “and ready position” with Students to put an emphasis on the direction.
- Student does: Turn back to the teacher and sit in ready position
- By week 8: Students should not need the signal to sit in ready position.
- Potential pitfalls:
 - Too high energy that Students are hyped up and teachers cannot “bring them back.”
 - Do it again does require rotating and re-doing the call to attention, clear directions are necessary for both.

“If you can hear my voice clap...”

- Use in large group settings like the cafeteria, when teaching whole groups of 30 and voices are on, during chat time, or when teacher needs immediate group attention due to mistake.
- Teacher says in a quiet voice: “If you can hear my voice, clap once. If you can hear my voice, clap once. Clap twice. Clap twice.”
- Students: Clap once or twice and sit in ready position.
- Teacher: Gives direction for ready position or other direction that is appropriate for setting.
- By week 6: Students should not need the signal to sit in ready position.
- Potential pitfalls:
 - Volume in the classroom is too loud to make this call to attention effective.

Voice of teacher increases because of volume in the classroom, rather than keeping it in their normal formal register.

Noise Level in K-8

Ownership, Accountability and Preparedness	
<p>Owner: Network</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Prior to an activity, teacher clearly states the appropriate noise level and points to chart at to visually identify level (may have student do this) ● The noise level identified matches the activity students are completing ● 100% of students’ sounds are at the appropriate level 	<p>Materials:</p> <p>“Noise Level” Poster (from network)</p>

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Noise Levels

- 0 - Silent Voice (Student makes no sound. All voices are off)
- 1 - Whisper Voice (Student speaks so that only 1 person can hear him/her)
- 2 - Partner Voice (Students speak so that only his/her elbow partners can hear. This is your “indoor” voice.)
- 3 - Presenter Voice (Student projects so that the whole class can hear. This is your “Loud and Proud” voice.)
- 4 - Celebration Voice (Appropriate for the Playground / Sporting event / Award Ceremony)

[CAMPUS NAME]

HALLS K-4 and 5-8 | How We Walk In the Hall

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Personal space between Students, but no large gaps in the line • Stay to the right side of the hallway when walking • No body parts/pencils touching or sliding against the walls • While leading the line, the teacher should NEVER have back facing the line. • When in class lines, teachers are giving silent non-verbal signals to ensure 100% • Students may wave to others in the hallway or share quiet greetings (i.e. using whisper voice only you and the student can hear, say, "Hello Jaylen, have a good day!") 	<p>Materials:</p> <ul style="list-style-type: none"> • "HALLS" Poster mounted at exit door

HALLS: hands at sides, all eyes forward, lips zipped, legs moving safely, stick together		
<p>Rationale:</p> <ul style="list-style-type: none"> • Safety- kids do not fall, get lost from the group, bump into each other • Respects the learning in other classrooms while in the hallway • Get to the destination quickly to capitalize on learning time 	<p>100% Vision:</p> <ul style="list-style-type: none"> • Waving to others in the hall or whisper greeting • Other teachers/staff supporting waves and quiet greetings • Stopping at key points in hallway transition (all stop signs). • Lines are straight – one behind the other • Personal space between Students, but no gaps in the line • Teachers using nonverbal to correct students 	<p>Non-examples:</p> <ul style="list-style-type: none"> • Gaps in the line. • Making excessive noises (yelling, stomping, etc.) • Teachers verbally correcting for minor misbehaviors. • Wrong side of the hallway • Knocking on doors as passing by • Not stopping at clear markings in hallways, stopping to do other things • Getting out of the line to do something (run and hug someone)

Grades Pk-4

- **Hands at sides.** By having this observable behavior, we can ensure that all Students are safe in the hallways and protecting our walls, etc.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- **All eyes forward.** Students are focused in the direction they are going to track their teacher for further instructions.
- **Low Speed.** Students are walking through halls. This ensures safety is a priority.
- **Listening Ears.** Students are alert to their teacher's instructions.
- **Sounds Off.** Students walk silently through hallways to not disturb learning in other classrooms.

Grades 5-8

- **Honor Boundaries** - Students respect one another's space, keeping hands to themselves and maintain a clean school environment.
- **Awareness of Others** - Students are mindful of learning that is still occurring in other classrooms.
- **Low Speed** - Students are walking through halls. This ensures safety is a priority.
- **Lead by Example** - Students are responsible for following expectations independently, and encourage their peers to do the same.
- **Sounds are Low** - Students use a low speaking voice as to not disturb other classrooms during transitions.

Hand Signals For Student Needs

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • A vertical hand should be reinforced for all Students utilizing hand signals. • All hand signals should be used silently. • Students must use the visuals below. • If a hand is raised and the teacher tells a Student to put it down, there must be a follow-up to see why the Student’s hand was raised. 	<p>Materials:</p> <ul style="list-style-type: none"> • Visual Anchor Poster

Rationale: Hand signals are used to communicate needs to the teacher. We differentiate with various hand signals so that we know the urgency in which to attend to Student needs

Signal	Meaning for Students	Visual
Raised Hand: straight arm, five fingers	Used if you have a question or want to answer a question.	
Bathroom: four fingers, sign language B	Used if you need to use the restroom	
Tissue: 2 fingers	Use if nose is running and you need a tissue	
Pencil: Pointer finger up	Use if your pencil is broken or you don’t have a pencil	

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Emergency: arms make an X	Use if you have an emergency, such as someone has hurt you, or you have had an accident or need to use the restroom badly.

Student Lockers

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Students are assigned lockers and combinations (if applicable) are stored in central location (PowerSchool, etc.) • Locker time is built into schedule (before/after school, during transitions, etc.) as directed by the school • Locker expectations are outlined throughout locker areas • Students efficiently unlock lockers, gather materials and get to class • Lockers do not lead to classes starting after scheduled start time 	<p>Materials:</p> <ul style="list-style-type: none"> • Locks
[Lockers MbM]	

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Emergency Procedures

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Fire drills are silent, safe, and quick. ● No line should be led by a student. The teacher must be the one leading a line while constantly scanning for Students staying with the group. ● We use the lining up procedure that has been internalized by students for every transition. ● Any students that might pose a challenge during the drill due to being frightened or inability to stand in line independently must walk in the hand of a teacher or another school staff member. 	<p>Materials:</p> <ul style="list-style-type: none"> ● Class roster ● Fire Alarm packet from door with map of where to walk.

Procedure

- Teachers prep their homeroom before a fire drill setting the following expectations:
 - If you hear the fire alarm we need to be silent, safe, and quick.
 - There is nothing you need to be afraid of; you are safe as long as you follow directions.
 - There is no talking during a fire drill that is dangerous and will move you straight to the trunk if you choose to talk during the drill.
 - We will walk quickly outside of our school in HALLS and stand patiently until it is safe to return to our classroom.
- Teachers must grab clipboard before exiting classrooms
- Teacher's line up Students using the regular line-up procedure outlined in the Floor plan
- When outside, teachers immediately roll call of their students. The roster sheet is inside of the clipboard.
- If all Students are present, hold up the green side of the clipboard.
- If all Students are not present, hold up the red side of the clipboard, immediately tell the admin member with you or call admin.

BRICK Habits

Ready Position

Ownership, Accountability and Preparedness		
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> Sitting up tall/comfortable back posture (straight, position that can be sustained) When resetting, hands are folded on table or in lap (not on shoes or in between legs) Head turned to look at person speaking (see tracking) Feet flat or crossed at ankles fully under individual Student desk 	<p>Materials:</p> <ul style="list-style-type: none"> None 	
Ready Position: sit up, listen, ask and answer questions, track the speaker		
<p>Rationale:</p> <p>The way you show you are listening to someone as a Student and in life is by actively engaging, tracking the speaker, responding to others</p> <p>We want to maximize Student learning and ensure complete focus, so students can master the material</p> <p>Ready Position minimizes distractions and prevents bigger infractions from happening</p>	<p>100% Vision:</p> <ul style="list-style-type: none"> Sitting up tall/Comfortable back posture (straight, position that can be sustained) Hands folded in lap (not on shoes or in between legs) or on table/desk Hands away from clothing, if sitting at desk Head turned to look at person speaking (see tracking) In chair, tucked in Feet flat or crossed at ankles fully under individual Student desk 	<p>Non-examples:</p> <p>“Overdoing” it- e.g. straining head Slouching, wiggly, but hands folded Hands not locked or locked but playing with clothing or fingers Back overly erect and/or strained Incorrect body position, but inattentive (not showing attentive listening or looking directly at the person) Hands on-face</p>

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Tracking

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Head turns toward the speaker and Student’s eyes are looking at the speaker. ● Hands remain folded flat on desk with elbows on desk or flat on your ankles. If Students are sitting in pods and must turn to track the speaker, and their upper bodies should turn ● Bottoms stay flat in chairs or on rug. ● Students track quickly from one speaker to the next ● In the first weeks of school, teachers always cue for tracking. 	<p>Materials:</p> <ul style="list-style-type: none"> ● None

Tracking

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

<p>Rationale:</p> <p>We aim to create a learning community where everyone feels valued and respected for their contributions. We also want this community to reflect a love of learning and ideas. For these reasons, it is essential that all members of our community make eye contact with each other when someone is speaking. This conveys respect and interest in each other’s thoughts and opinions. It also will enable our students to build off of each other’s ideas and contribute to a learning environment that feels powerful.</p>	<p>100% Vision:</p> <ul style="list-style-type: none"> Head turns toward the speaker. Bottoms stay flat in chairs or on rug. Students track quickly from one speaker to the next. In the first weeks of school, teachers always cue for tracking. 	<p>Non-examples:</p> <ul style="list-style-type: none"> Looking down or elsewhere when someone is speaking Turning head toward the speaker but looking away/at something else. Teachers saying “Track the ceiling. Now track the speaker.” The ceiling isn’t tracking worthy. Students turning their whole bodies out of their seats or turning their heads in an exaggerated manner that is distracting Students keep tracking in the direction of the speaker even when the speaker is finished, and the next speaker has started, especially tracking the teacher the whole time, but not tracking peers
--	--	---

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Procedure for Tracking Protocol (*first 6 weeks of school*):

1. Before giving a direction to track, all Students should be in ready position.
2. Teacher gives direction for **“hands down, ready position”** if hands are raised.
3. Teacher says while pointing, **“Track the board/Sydney/this book.”**
4. Teacher puts up non-verbal stop sign if it is a Student talking and states with a smile, **“Wait, (Student) let’s make sure we have all eyes.”**
5. Teacher quickly scans the room no more than 2-4 seconds for compliance:
 - **Weeks 1-2:** Teacher reinforces tracking with positive narration paired with non-verbals, (smiling) **“The entire blue row is tracking Saniyah, Niko’s eyes shot right over to Jerel.”**
 - **Weeks 3-4:** Teacher reinforces tracking with shorter reinforcement peppered with non-verbals, **“So quick, tracking _____” “Thank you, _____” “Yes, _____”**
 - **Weeks 5-6:** Teacher reinforces tracking with non-verbals. (Head nods, winks, thumbs up, smiles).
6. Teacher says to speaking Student, **“We’re ready, (Student).”**
7. Teacher monitors for sustained tracking while speaking, teaching, or listening.
8. Every time the point of focus changes (e.g. Students shift from tracking a book to tracking a peer), a clear cue should be given.

Turn and Talks

Ownership, Accountability and Preparedness	
<p>Grade- Level Criteria for Success:</p> <p><u>School Wide</u></p> <ul style="list-style-type: none"> ● Teacher provides a clear, discussion worthy question ● Teacher gives clear WTD ● During turn and talks, partners listen and respond to what their partner says using our Habits of Discussion (I agree, I disagree, I don’t understand...) ● Student conversation during turn-and-talks is only related to the topic began by teacher. ● Students talk with only their assigned buddy or group ● If talking about specific work, the work is visible for both partners ● Teachers actively monitor Students for both routines and academic content. <p><u>Grade Specific</u></p>	<p>Materials:</p> <ul style="list-style-type: none"> ● Visual Anchor naming expectations or providing visual do’s and don’ts ● Habits of Discussion poster

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Rationale: Turn and talks (and partner/group work in general) can be a very powerful instructional tool if executed well. It can provide teachers with in-the-moment feedback on what Students understand and where they might need some further support/where their thinking needs to be pushed. Partner work also helps Students build interpersonal and communication skills and helps them learn from one another.

Example Procedure:

Weeks 1-6:

- “We’re going to do a turn and talk to talk about X (prompt).”
- “Turn” (Students turn to face partner and sit in ready position).
- Teacher prompts one partner to go first and restates prompt: “Window side, tell your partner X (prompt)...Talk.”
 - Note: Students may need a sentence starter depending on the prompt. For example, say, “The character was feeling...’ and then say what the character felt and why.”
- After half of the time has passed (likely 20-30 seconds): “Switch. Door side.”
- Once the other partner has had a chance to share, teacher uses “Bring it back” call to attention.
- Teacher teaches student what group to join if their partner is absent.

After week 6:

- Once Students are independent with turn and talks, you can eliminate the designation regarding which partner should speak first. Instead, Students can engage in a more organic discussion. This scaffold will remain in place through the first 6 weeks and as long as needed (potentially the whole year in some classes).
- For more complex questions, you can even assign each partner part of the question and have them share whole class what their partner said to hold them accountable and build listening skills.
- Note: This routine may be further de-scaffolded as students become more familiar.
- Turn and Talk partners remain the same no matter the direction students are facing on the rug.
- If a Student’s partner is missing, the Student should problem solve and join another pair to form a group of 3 or find another Student with a missing partner.

[RETURN TO TABLE OF CONTENTS](#)

Vertical Hand

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> • Arm raised above your head to be acknowledge • Still, calm arm and hand • Hand raises at the appropriate time (not when another Student is in the middle of speaking, teacher is asking a question, when teacher cue is given) 	<p>Materials:</p> <ul style="list-style-type: none"> • None

Vertical Hands		
<p>Rationale:</p> <ul style="list-style-type: none"> • Shows pride in your answer and enthusiasm for your response to participate- shows “just right enthusiasm” • A tall, still hand shows respect for the discussion, other Students that might be sharing, etc. • Trains young students for the habits of discussion- thinking of an idea, waiting for your turn, sharing in a respectful way • For teachers easily conveys who wants to share 	<p>100% Vision:</p> <ul style="list-style-type: none"> • Arm straight up above your head • Still, calm arm and hand • Hand raises at the appropriate time 	<p>Non-examples:</p> <ul style="list-style-type: none"> • Waving hands • Half-way up hand • Hand in neighbor’s space • Calling out while raising hand • Hand is raised at an inappropriate moment (i.e. when another Student is in the middle of speaking or when the teacher is asking a question)

Note: There will be some instances when we expect all Students to raise their hands in response and other instances where this is not the expectation. This expectation for vertical hands refers to *how* hands should be raised, not *when*.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Complete Sentences

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> Flipping the question correctly as the sentence starter-pull out the key words to use in the response. Subject-verb agreement and grammar are correct. Teacher prompts if the Student does not respond if a complete sentence and has student repeat their thought using a full sentence 	<p>Materials:</p> <ul style="list-style-type: none"> None

Complete Sentences		
<p>Rationale:</p> <ul style="list-style-type: none"> Prepares Students for future conversation as adults In order to write well, Students need to be able to convey ideas verbally in complete sentences Conveys confidence and full sharing of ideas Closes word gap by requiring full expression 	<p>100% Vision:</p> <ul style="list-style-type: none"> Flipping the question correctly as the sentence starter-pull out the key words to use in the response. Subject-verb agreement and grammar is correct. Teacher prompts if the Student does not respond if a complete sentence and provides prompt if needed (move to non-verbal eventually). 	<p>Non-example:</p> <ul style="list-style-type: none"> 1-word answers Short phrases in response Grammar is incorrect, especially verb agreement. Restating answers to a question incorrectly by using the question stem in the response.

Complete Sentences:

Students speak in complete sentences.

- Students should always provide their response in a complete sentence. This builds important habits that Students will need throughout their lives in both academic and work/personal settings.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- If needed, teachers will provide a “sentence starter” or provide scaffolding so that the Student can frame the sentence correctly.
- Students should not be permitted to frame the statement incorrectly. For example, “Who is the main character in the book?” Student responds: “Who the main character in the book is Chrysanthemum.” This is a typical error that children make when learning how to respond in complete sentences. The teacher should either proactively provide the sentence starter or correct the Student immediately after so this habit does not form.

[CAMPUS NAME]

Core Classroom Routines, Procedures & Systems

Pencil Systems

Ownership, Accountability and Preparedness	
<p>Owner: Grade Teams</p> <p>Non-negotiables:</p> <ul style="list-style-type: none"> Students should not be getting up during the day due to pencils. Sharpening pencils never occurs during instruction nor silent/quiet independent practice. Students should have one pencil in their desk in the waiting place/pencil holder of their desk. Buckets with dull and sharp pencils should exist in each room. Once classroom jobs start, it should be 2 Students' job to refresh pencils at the end of the day. One Student should collect dull pencils, while another Student should sharpen pencils at the end of the day during cooperative play and replace them on top of desks. 	<p>Materials:</p> <ul style="list-style-type: none"> ● Pencil container (sharpened and dull) ● Pencil sharpener ● Student in charge of sharpening dull pencils at the end of the day.

Example Procedure: Grade teams will decide the procedure. Below is an example.

- Two buckets with labels of “sharpened pencils” and “dull pencils” should be in each room.
- During the school day, there should be very few times a Student needs to ask for a pencil because each Student has two pencils in their pouch. If the pencil they are using becomes too dull or breaks, s/he should switch it with a pencil in his/her pencil pouch.
- Any time a Student needs a pencil, they will raise their hand showing the pencil symbol. Teacher will acknowledge Student. The teacher will trade the dull pencil for a sharp pencil.
- When Students are not using their pencil during a lesson it should be on the top or inside groove of the desk.
- At the end of lessons, pencils should always be stored in the inside groove.
- On Fridays, Students that need new pencils will get one or two pencils.
- Pencil sharpening procedure for Fridays: Students are told:
 - Pouches out.
 - “Pencils on the name tag”
 - Students take out all pencils from their pouch and the one from their inside groove.
 - Teacher/Student comes around put dull pencils in the dull bin and gives Students two new pencils.
 - Students put one pencils in the pouch and one pencil in the inside groove of the desk.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Transitioning from Seat

At BRICK schools, all students follow a simple, number procedure to move from their desk to another location. Teachers give a simple, 4 step command to transition students.

1. Get Ready. Sit in readt position and track teacher
2. Stand up silently and position chair under the desk
3. Turn body silently and face the direction you will be traveling
4. Silently travel to your next destination.

Arrival & Unpacking Belongings

Ownership, Accountability and Preparedness	
<p>Owner: School</p> <p>Criteria for Success:</p> <ul style="list-style-type: none"> ● Classroom must be fully set up and ready to accept students by 7:28 am. <ul style="list-style-type: none"> ○ Breakfast out ○ Computers set-up ● Students know where belongings go/how to put them away ● Aside from the interaction with teacher(s), arrival and unpacking are silent for the first 6 weeks. When classes have met vision, with admin approval classes can move to a quiet talking breakfast. ● After Columbus Day, with admin approval, students have quiet talking breakfast until 7:40 am and then silent 10 minutes of breakfast until 7:50 am 	<p>Materials:</p> <ul style="list-style-type: none"> ● Clean/clear pathways and cubbies labeled with student names ● Uniform Violation forms/Cellphone ● Lunch bag ● Timer to ensure speedy preparation for the day and maximum time for breakfast

Rationale:

The morning arrival is the time to set the tone for the day as calm and positive. Connections are made between Students and teachers, academics are the focus, and all Students are meeting expectations. This time is essential for a strong start to the day.

[CAMPUS NAME]

Transition Between Guided Reading/Math Stations in K-2		
<p>Rationale: The purpose of a seamless and urgent transition in to:</p> <ul style="list-style-type: none"> • Maximize ALL learning time • Reduce the amount of time for horseplay and challenging behaviors • Create day to day consistency in the classroom when there is a transition 	<p>100% Vision:</p> <ul style="list-style-type: none"> • All transitions happening within 5 minutes or less. • Teachers are on time to transition class to and from math. 	<p>Non-example:</p> <ul style="list-style-type: none"> • Teachers arriving late to transition • Students having down time in between transitions

Procedure:

SET TIMER FOR 5 Mins

Lead Teacher- Set up class for transition

Lead Teacher: "5 more minutes"

Choral response: "5 more minutes"

Narrate for 100%: "I have _____ eyes, I have _____ eyes"

Reward 100% compliance: "Excellent! 100%. A cube in our 100% jar"

"We now have 5 minutes left to finish up this assignment and get ready for math. When we have 2 minutes left Ms. (Co-teacher) will clap for attention and lead your through clean up. Silently finish up your last sentences. Go!

*** Lead teacher collect materials needed for prep

**** Math teacher should also already be in the room setting up with do now up on the board at or before the timer says 2 minutes.

Co Teacher- Lead Transition

WHEN TIMER SAYS 2 MINUTES CLAP FOR ATTENTION & PAUSE TIMER

"Pencils down eyes on me."

Narrate for 100% ---> Reward 100%

"Class, we will now silently and swiftly put our materials away and take out our materials needed for math. When I say "go" you will put your writing in your table bins and take out your math notebook. When you are done sit in ready position at your table, so I know that you are ready for math. You have 1 silent minute. START TIMER Go!

AT THE END OF 1 MIN

_____ hands are folded I know she's ready _____ hands are folded I know he's ready.

Excellent 2 cubes for our jar.

**Students say cute slogan to welcome math

Math Teacher

Greets College: "Good morning Manhattanville"

"Your do now is up on the board you have 5 minutes to silently complete it. Go!"

*** Lead teacher can exit room

**** Math teacher can begin with do now reteach

Transition Between Guided Reading/Math Stations in K-2

Transition Between Guided Reading/Math Stations in K-2		
<p>Rationale:</p> <ul style="list-style-type: none"> • We know how important GR and station time are, transitions set us and kids up for success • Research has shown that kids thrive with consistency, having the same routine provides kids with the level of consistency they seek to focus and be successful 	<p>100% Vision:</p> <ul style="list-style-type: none"> • Takes less than 45 seconds • Clear designated pathways for students • Students wait for the teacher's cue to transition • Students move in HALLS • Teacher leading transition is squared up, directly in front of all Students. Teacher supporting is nonverbally redirecting Students through transition 	<p>Non-example:</p> <ul style="list-style-type: none"> • Teacher just says switch • Students wandering around the room • Takes more than 1 minute

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

School Wide Policies

The following policies have been adopted by BRICK Education Network schools to ensure consistency and to hold all students to the same expectations.

Food in School

1. No gum, candy, chips, sunflower seeds, or soda is to be brought in the school building by Students.
2. All children should dispose of any food items upon entering the school building.
3. If a Student is chewing gum, he/she should receive a warning and dispose of the gum immediately.
4. Discard all breakfast items. NO breakfast items are to be stored inside the classroom.
5. Teachers should not use candy as part of a reward system.

Celebrations

Birthday Parties

If a parent/guardian requests that a child celebrate a birthday during the school day, the teacher can arrange the celebration with the parent. The following guidelines must be followed (Please note - there can be additional guidelines outlined by the teacher):

1. Parent/guardian must give the school at least two days notice.
2. The celebration will last no more than 15 minutes.
3. Consist of one store-bought snack only.
4. Encourage 100% juice or water– NO SODA is permitted.
5. No peanut products will be served due to possible nut allergies. Teachers should be aware of all Students with FOOD allergies.
6. Please inform parents/guardians to not bring excessive decorations.

Classroom Celebrations

Teachers who wish to host certain classroom celebrations must inform their direct administrator. The celebration should be well planned and incorporate healthy eating habits. The teacher is responsible for cleaning up all related garbage and spills occurring as a result of the celebration. It is a good practice to ensure that Students have earned the celebration. Teachers may arrange with other teachers for Students who have not earned the privilege to reflect on their actions in another teacher's room.

Cell Phones & Electronic Devices

Students are encouraged to leave all electronic devices at home, since the school does not assume responsibility for lost, stolen, or damaged devices. Smart watches are not permissible during the school day. All devices must be turned off and out of sight. No devices should be blinking or vibrating. School staff should never see an electronic device, unless in the case of an emergency with teacher's permission. If a Student is seen with an electronic device, then the device should be submitted to the admin and returned to a parent/guardian.

Procedure:

1. If a staff member sees or hears an electronic device, ask the Student to give it to him/her. Once phone or electronic device is confiscated, the item should be delivered to the main office. The staff member will complete a form that include the Student's name, grade, location when taken, staff member's name, date, time, and what happened.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

2. If Student refuses, then the teacher should not engage that Student. The teacher should inform the Student that they will deal with the situation after class (If a Student defies the teacher, it CAN be a teacher-led lunch detention - that is up to the teacher to decide procedures for his/her classroom).
3. The staff member should inform the Student that a parent must come in to pick it up.
4. The School Operation Manager will label the phone and secure it until a parent comes in.
 - a. **First Offense:** an adult family member may make an appointment to pick-up the phone or electronic device after 3:50pm when the school day ends and dismissal is finished. The parent/guardian must sign a policy document informing him/her that the next time a phone is taken, the student will be put on a two week phone plan
 - b. **Second Offense:** Students on a phone plan will turn in their phones to the homeroom teacher during breakfast. Phone will be bagged and collected by an administrator before the start of the school day. Phones will be returned at dismissal.

Communication with Parents/Students

The key to positive communication with parents is to show that you care. You can show that you care by contacting parents when the child is doing something positive, making an effort or showing improvement. Once you establish this type of communication with parents, it becomes easier to communicate with them, if and when a problem should develop. If parents only receive negative communication from the school, then it is easy to understand why parents will avoid contact with the schools.

1. One easy rule to remember-just as we treat the Students as if they were our own children-treat the parents as you would like to be treated, if you had a child in the school.
2. All staff should log ALL parent/guardian communication in KICKBOARD.

To foster positive communication with families, the following is a set of guidelines to use as you establish contact with each family.

1. Always begin your conversation with either a positive comment about the students, parent or school. What are some positive statements you can make to break the ice?
2. You can believe that if you begin your phone call with a negative comment that the conversation will not end up positive.
3. Try to understand the parent's point of view by asking them how last year's school experience went, not only for the Student, but also for the parent. This information is vital for you and for the parent in dealing with this year.
4. Ask parents for their suggestions as to what could make this year more successful.
5. Always tell parents how important their support is for the child's education; that education is a team effort.
6. Always express your confidence with the Student's education-this will help the parent be more supportive and encouraging at home.
7. Try to provide the opportunity for parents to get to know you better by letting them know something about you.

Try to practice effective listening and communication skills.

Be sensitive to the parent. Try to paraphrase what they say; especially letting them know you understand how they feel. Don't take over a conversation-always remember to listen to what a parent has to say. Don't interrupt, but do add some assurances (I understand) into the conversation to show that you are listening. Address the parent by name, as often as you feel appropriate.

If you are sitting down to meet, a few good guidelines to follow are:

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- Lean forward to show that you are interested
- Eye contact-maintain it-don't let your eyes roam around the room
- Keep an open body posture – don't cross your arms
- There should be no physical barriers between you, such as a table or desk
- Sit side to side

Examples of When to Contact Families

First days of school:

All teachers should send out a welcome letter that outlines your classroom structure and invites them to be active participants in their Student's education and your classroom culture plan. This letter should be sent out by the second day of school. This letter should be part of a packet that includes all the information parents/guardians must complete.

Back-to-School Night:

Think creatively to encourage Students to bring parents. Students may write letters or send postcards to parents. A letter should go home inviting parents/families into the school for the back to school night.

Conferences/Report Cards:

Parents must be informed about report cards and conferences. Teachers are expected to contact each family to schedule a meeting on conference day.

Behavior:

Parents/Guardians should be contacted for positive behavior. Parents/guardians must be contacted via phone for negative behavior as established in your classroom culture plan and the school culture plan.

Kickboard Reports should be distributed to Students every other week. *During weekly grade team meetings, you will identify 3-5 Students to recognize with a phone call home for positive behavior.*

Face to Face

If you want parents to trust you and support you, be sure that you project the proper attitude. Remember the golden rule again; Treat parents the way you would want to be treated. Be professional, but also caring.

Put a smile on your face and treat the parent warmly-show your enthusiasm. A handshake is always positive. Ushering a parent through the door as you are speaking to them encourages them to enter the building, a room, and to participate in activities.

Written Communication

We generally follow the same rules when we send out some written form of communication. These are just some of the ways we communicate with parents through the written format:

School Activity Reminders

Assembly Program Fliers

Report Cards

Warning Notices

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Lunch Forms	Nurses Medical Reminders
Permission Slips	School Newsletter
Comments on test	Letters
Discipline Policy	Weekly Progress Reports
School Policies	Thank You Notes
Workshop Notices	Homework direction or comments

Parent Conferences/Mandatory Parent Conferences

Conferences are held at the end of each cycle and teachers must arrange a conference for **every** student. Report cards, Intervention Plans, and/or Promotion in Doubt Letters should go into the hands of parents/guardians.

Teacher must be prepared to provide each parent with the following information:

- How Students are graded in the teacher's classroom
- Homework expectations (how much homework parents can expect from your class)
- How parents can assist their child(ren) academically
- Purpose of the tests you administer and how often
- School's instructional program (assist parents in understanding the curriculum and expectations you have for their child(ren), describe what you will be teaching.
- Describe Student strengths and weaknesses. Explain how you recognized these weaknesses and what specifically you will be doing to correct these identified weaknesses
- Report Card schedule and warning letters (when and why the parents should expect these reports)
- Long and short-range goals should be available at all times.

In the event that a Student's behavior warrants an official meeting with a parent, a Mandatory Parent Conference must be scheduled. A conference will result for Level II to Level IV Misconduct, as outlined in the BRICK Education Network Discipline Policy. Teachers should contact a member of the Senior Leadership Team to set up a meeting time on a prep period. The leader will complete the form and ensure he/she is available for the meeting.

Mandatory Parent Conferences should be logged by each teacher for record keeping. The meeting should focus on ways to help the Student improve his/her behavior. A plan should be established (see **REFERENCE MATERIALS** Section) and signed by the parent.

Internet Use

Teachers are expected to utilize their computers throughout the day, especially for Internet use. Teachers should think about ways they can replace certain classroom practices with technology available on the Internet.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

1. All Students must have an “Acceptable Use Policy Agreement” on file in the office.
2. Teachers are responsible for this form being completed and should send a new permission slip home the first day of school. home and work. Upon arrival to school, teachers should log into Kickboard and remain logged in every day.

Student Use of School Phone

The school phone is to be used for business and emergency purposes only. It is available for use only with permission of the teacher or office personnel. Students will not be allowed to use the phone for such reasons as asking permission to visit a friend, staying for a recreational program, etc. These arrangements should be made beforehand.

Uniforms

BRICK students are required to wear school uniforms. School Uniforms promote school pride, create a sense of unity amongst students, improve the learning environment, bridge the socio-economic differences between students, and produce cost savings for participating families.

Students are to wear a uniform EVERY day. The uniform policy will be strictly enforced and Students out of uniform will be addressed and parents notified.

Students should follow these guidelines:

- A green polo and khakis or navy blue uniform pants/skirts/jumper.
- A green button-down **with** a school logo and khaki or navy blue uniform pants/skirts (tie not required).
- Shirts are to be tucked into bottoms with a belt.
- Long sleeve undershirt can be worn if it is black, navy or white.
- If wearing tights or if socks are visible, black, navy or white tights/socks are expected.
- Shoe: **black shoe** with a rubber bottom
 - NOT PERMITTED: open heel or open toes, clogs, flip-flops, heels, and bedroom slippers.
- If an Student brings a purse, it must be placed in the Student’s book bag.
- Students may wear earrings that are studs; no dangling earrings, etc.
- Necklaces/bracelets should not be worn. Please take off such jewelry prior to coming to school (tuck in necklaces behind shirt).
- On gym days, Students are permitted to wear gym uniform (green t-shirt and navy blue shorts/sweat pants) and sneakers.
- Only solid navy hoodies and sweaters, or hoodies / sweaters with school logo, may be worn.

Please note:

The Student will be written up for not wearing a uniform and parents will be contacted to drop off uniform at school. It will be noted in Kickboard and the Student will lose 1 iDREAM point.. Dress code violations are considered Level One Misconduct. No Student will be allowed to change clothes on gym days.

Consequences for Uniform Infractions

- Dress code infractions are considered Level I Misconduct.
- Students receive uniform infraction in Kickboard if they are not in full uniform
- If available, a student will be given a uniform to borrow.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Mandatory Reporting Allegation of Abuse or Neglect

All school personnel are mandated reporters of suspected abuse and/or neglect. Mandated reporters are required to report suspected child maltreatment **immediately** when they have reasonable cause to believe that a child who is under 18 years old has been harmed or is in danger of being harmed-physically, sexually, or through neglect.

Once any staff member becomes aware that a student may be the victim of abuse or neglect, they must call NJ Department of Children and Families (DCF) at 1-877-NJ Abuse (652-2873) and inform administration.

Institutional Abuse or Neglect Referrals

The Institutional Abuse Investigation Unit (IAIU) is a child protection service under DCF that responds to and investigates allegations of child abuse and/or neglect in out-of-home settings. The following protocol should be followed when a student or family member makes an allegation of abuse or neglect by a BRICK employee.

Family reports allegation to School:

1. Administrator documents incident
2. Incident report is provided to: Chief School Administrator, and Chief Talent Officer
3. Administrator reports incident to DCP&P / IAIU Hotline

Family reports allegation to BRICK Education Network:

1. Network documents incident
2. Network directs family to report incident to school
3. Network notifies school of allegation
4. Network reports incident to DCP&P/IAIU Hotline

Family reports allegation to IAIU

1. IAIU investigates allegation and submits findings report to Chief Talent Officer, and requests student information (i.e. DOB, School location, Address)
2. Chief Talent Officer notifies Chief School Administrator
3. Chief School Administrator Office notifies school of allegation

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Attendance and Tardiness

Key Take-Aways	<ul style="list-style-type: none"> ● Teachers must record attendance in PowerSchool by determined time according to bell schedule ● Teachers are required to call home for Student absences 1-4 ● Teacher are required record call in Kickboard and put note in for reason absent ● Grade Level Administrators/Culture Team Designee will call home on 5th absence ● Attendance Mentor/Culture Team Designee: <ul style="list-style-type: none"> ○ Warning Notices will be sent home on Student’s 3rd, 5th, and 8th absence ○ Attendance Mentor/Culture Team Designee schedules <i>Attendance Improvement Conference</i> with parent/guardian on 5th absence. Student is enrolled in Attendance Academy ○ Legal Notice sent on 10th absence ○ Pre-Trial Hearing for court referral on 10th absence
-----------------------	--

Attendance Priorities

Studies show that there is a direct correlation between student attendance and academic and social-emotional success. Attendance in the earlier grades is crucial to helping students sustain the lessons from the classroom. And, middle school student attendance is an indicator for high school engagement and graduation rates. Early engagement is imperative!

Prior to the First day of school:

Designated staff members will contact any student who ended the previous school year in the severely chronic absent list. Phone calls to the home will help foster a sense of welcome and help proactively identify any barriers to attending school. Based upon feedback received during the call, the school team will attempt to connect the family with resources to mitigate early barriers to school attendance. Should students require ongoing supports, a referral to services should be made as early as possible.

McKinney-Vento Act

The McKinney-Vento Act protects the education rights of students who are homeless or living in a “doubled-up” arrangement. The goal of this law is to remove educational barriers to school enrollment for this vulnerable population. McKinney-Vento provides protected students with the following rights:

- Immediate enrollment even when records not present;
- Right to remain in the school of origin, if in the student's best interest;
- Transportation to the school of origin; and
- Support for academic success.

Attendance Records

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Attendance records are legal documents and should be completed accurately. Once available, all teachers should complete attendance via PowerSchool on administrative computers. PreK-8 teachers must submit attendance by 8:20am. The goal of BRICK is to have 100% of Students attend all 186 days of school. Learning can only happen in school if Students are present and ready to learn EVERY day. Absences should be avoided unless absolutely necessary.

Attendance Tiers

- **Good Attendance** | Less than 5% of enrolled days absent
- **Frequently Absent** | Between 5% and 10% of enrolled days absent
- **Chronic Attendance** | Between 10% and 19% of enrolled days absent
- **Severely Chronic Attendance** | More than 20% of enrolled days absent

Truant

- 10 or more cumulative unexcused absences (N.J.A.C. 6A:16-1.3)

Category	School Action	School Escalation
Preventive	<ul style="list-style-type: none"> ● All families receive communication regarding attendance policy and school calendar prior to the start of the school year ● Students identified as chronically and severely absent in the previous school year will be assigned an Attendance Mentor 	<ul style="list-style-type: none"> ● Depending on severity of absenteeism from the previous school year, students will be assigned two Attendance Mentors.
1-2 Absences	<ul style="list-style-type: none"> ● Teachers are required to call home for Student absences 1-2 ● SST will monitor for unaccounted and/or consecutive absences ● Teacher records contact in designated location ● Attendance Mentors will serve as accountability partners to teachers 	<ul style="list-style-type: none"> ● 3 consecutive absences result in immediate escalation to Culture Team ● Culture Team monitors tiered responses by pulling weekly data.
3-4 Absences	<ul style="list-style-type: none"> ● Teachers are required to call home for Student absences 3-4 ● SST will monitor for unaccounted and/or consecutive absences ● Teacher records contact in designated location ● Attendance Mentors will be assigned to the student and serve as accountability partners to teachers ● Attendance Mentors complete an Attendance Goal-Setting/Action Plan with the student during 1:1 meetings (upper elementary/middle school, grades 5-8) ● Warning Notices sent home at 3rd absence 	<ul style="list-style-type: none"> ● Culture Team monitors tiered responses by pulling weekly data.

Daily:

- Teachers record daily attendance, by period.
- Teachers record phone calls made in SIS for Advisory/Homeroom **only**:
 - **Calls documented in PowerTeacher.** Once a student is marked absent, select the comment box [to the right of attendance screen] and add note.

Students	Alerts	Attendance: Mor
Baker, Madison		<input type="text"/>
Barrington, Milan		<input type="text"/>
Bary, Hadja		<input type="text"/>
Botchway, Rachel Adoley		<input type="text"/>
Cruz, Malachi		<input type="text"/>
Davila, Aryanna Makayla		A <input type="text"/>

- If a teacher does not submit attendance by 8:25 am (K-8) and 9:45 am (9-12), OM sends email to **all teachers** and CCs VPC, Principal, and respective IL.

- IL can confirm late submission by taking the following actions in PowerSchool:
 - From Start Page: Select **Attendance** from left hand toolbar
 - Select **Teacher Attendance Submission Status**
 - This screen will allow you to see all teacher sections and their attendance status

 Beverly, Mecca	 Clark, Shantel
 Graham, Trelon	 Graves, Aliyah
 Keiser, Amanda	 Mattis, Khadija
 Robinson, Jahsway	 Schlein, Alison

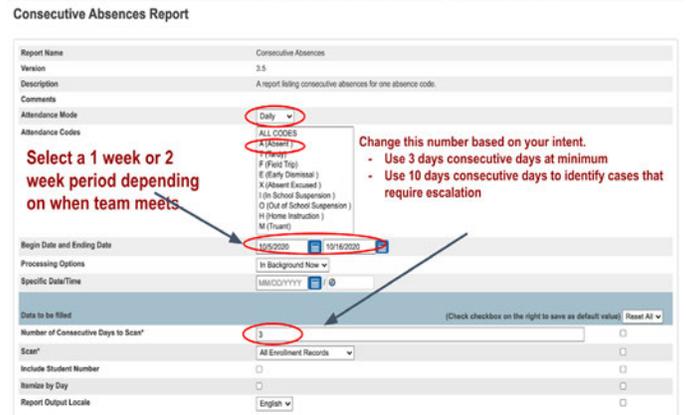

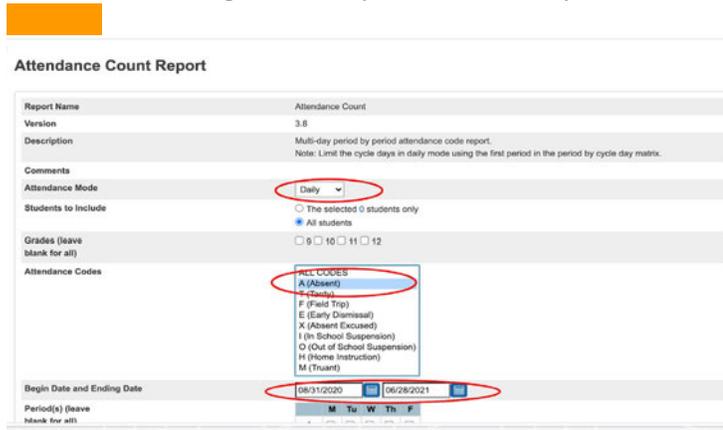

- Red = No attendance taken for any sections
- Yellow = Attendance taken for one or more section but not all sections
- Green = attendance taken for all sections By 3:00 pm - OM follows up with teachers who did not complete attendance
- Robocall is sent for absent students
 - After **advisory** for HS and after MM PK-8
 - After 3pm for all campuses
- If a teacher does not submit attendance, OM sends email to **all teachers** and CCs VPC, Principal, and respective IL.

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

Thursdays by end of day

1. Office Manager pulls cumulative and consecutive absent PowerSchool data and updates inside of the tracker.
 - a. Ensures the spreadsheet is ready for VP of Culture to review
 - i. Achieve Attendance Tracker
 - b. Tags VPC that spreadsheet is ready

Sending Letter Home to Families with 5+ Absences

1. Culture Team and Office Manager independently review the tracker for all 5+ students **who have not** received an attendance warning letter.
2. Open up school specific Warning Letter and personalize for each student with 5+ absences.
 - a. [Achieve Warning Letter](#)
3. Culture Team sends email to respective families with warning letter attached.
 - a. Office Manager will mail home warning letter to families.
4. Culture Team updates Column M in attendance tracker once complete.
 - a. Office Manager updates Column N in attendance tracker once complete.

Friday

- VPC shares the spreadsheet with the attendance subcommittee lead (and leadership team)
- Prepares report on attendance trends for senior leadership team meeting and populates the meeting agenda
 - Change in attendance percentage tiers week over week
 - Answers the question, “Here’s what we are doing and the impact it is having.”
- At community meeting, VPC makes announcement about attendance in some way

Senior Leadership Meeting (weekly)

- VPC reports out on attendance trends week over week
- VPC informs team of that week’s progress toward carrying out the Subcommittee’s 2 week plan
- VPC seeks and leadership team provides feedback on the plan and VPC requests additional support, as needed
- Principal holds ILs accountable for teachers recording attendance and making daily attendance calls and recording notes in call log

Attendance Subcommittee (weekly)

- Data review from previous week

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- Engage in Problem Solving Process
- Determine Interventions
 - Tier I - whole school initiative
 - Tier II - specific grade levels/periods/courses/cohorts of students; similarities in absences
 - Tier III - individualized support (groups of 1-3 students who are not responding to Tiers I and II)
- Prepares to report findings to larger SST
- Minimum of 3 members, including FACE, Success Mentor (names below)

Student Support Team Meeting (bi-weekly)

- Attendance subcommittee lead shares data from the previous two weeks and reports on progress and challenges
- SST engages on execution of the Tier I attendance initiative plan

Disenrollment/Transfers out:

- To determine eligibility for students to be dropped from roll, you must ensure the following:
 - Student has been absent 10 days or more
 - Culture team has adhered to progressive intervention structure
 - School has conducted home visit
 - Names of students and interventions have been submitted to Chief School Administrator for approval to drop

Absence Procedure

- If a student has not arrived 10 minutes after school starts, teachers should call the Student to inquire. All absent families must be called by teachers prior to 30 minutes into the start of school.
- Teachers must record attendance in PowerSchool/ Real Time by 30 minutes into the start of school.
- After an absence, Students should return to school with written verification of the reason for the absence (i.e. doctor's note, parent note, court notice, etc). All documentation should be placed in the Student's file. The nurse should keep a copy of all doctors' notes.
- For absences due to suspension, Students have one week to make up any missed work or missed assessments. For other absences, teacher will make every effort to have students make-up their work.
- Student paperwork is copied by the office and the original is sent to the nurse (for doctor notes)

State Excused Absences:

- Religious observance with parent/guardian note
- Take Your Child to Work Day
- College Visits (up to 3 visits for 11th and 12th grade students)

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- Board of election Membership Activities
- Closure of a busing district that leaves a student from transportation to a receiving school

Unexcused Absences:

- Student illness with a doctor's note or note from parent
- Medical appointment with a doctor's note
- Death in the family with documentation
- Court appearance with documentation

Consequences for Unexcused Absences

- Teacher will notify parents when child is absent. This can only be successful if attendance is placed in Real Time by 8:20am.
- Conduct an investigation to determine the cause of each unexcused absence, including contact with the Student's parent/guardian
- Develop an action plan in consultation with the Student's parent/guardian designed to address patterns of unexcused absences, if any, and to have the child return to school and maintain regular attendance.
- Students may not be able to participate in school-wide incentives.
- Severe attendance may result in a court referral.

Tardiness

If a student does not arrive by the start of the school day, s/he is considered late to school. A student who is late misses precious instructional time and is disruptive to the rest of the class. Tardiness should be avoided. ALL Students must remain at school until dismissal, so valuable instructional time is not missed.

Tardy Procedure

Teachers must record attendance/tardies in Power School by time determined by administrator and bell schedule.

- If a child is not in your room by 8:00am, mark them absent.
- At 8:00am, all doors will be closed and locked. A security guard will have to open the door for late students.
- Students entering classroom 8am and 8:20am will be considered tardy. Teacher will change attendance
- After 8:20am, Students will report to main office where their attendance will be changed in PowerSchool. S/he will receive a tardy pass and give it to the teacher. The teacher does not need to keep the pass, but it acknowledges the Student is accounted for.
- All parent communication is entered in Kickboard.

Excused Tardiness:

Tardiness will only be excused for:

- Medical appointment with a doctor's note
- Court appearance

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- Other situations that, in the judgment of the school administration, is serious enough to merit an excuse.

Consequences for Unexcused Tardiness:

- If Students are tardy more than 3 times, the teacher will call the parent to verify the reasons. Document all calls and reasons for tardiness in Kickboard.
- Tardiness may cause Students to not be able to participate in school-wide incentives.

Suspensions and Expulsions

Students with Disabilities:

Suspensions for *students with disabilities* shall be in accordance with the student's individualized education plan (IEP), any behavioral intervention plan, 504 plan and relevant district, state, and federal laws and regulations (N.J.A.C. 6A:14). A manifestation determination review must be conducted to determine whether the student's misbehavior is a manifestation of his/her disability when required by law.

For a student with a disability who receives a long-term suspension, the school shall proceed in accordance with N.J.A.C. 6A:14 in determining or changing the student's education placement to an interim or alternative educational setting. All decisions concerning the student's educational program or placement shall be made by the student's IEP team, unless an exception is otherwise allowed by law.

English Language Learners:

For students and families who are *English Language Learners*, the school must provide written notice of the suspension and hearing in their preferred language, and Provide an interpreter at the hearing and restorative conference meetings.

Suspensions for Pre-School through Grade 2 Children: "Preschool students in a general education program or special education program shall not be suspended, long-term or short-term, and shall not be expelled." Likewise, N.J.S.A. 18A:37-2, limits expulsions and suspensions for students in Kindergarten through Grade 2 with certain exceptions and requires early detection and prevention programs for behavioral issues in Preschool through Grade 2. Additionally, students enrolled in grades Pre-kindergarten through Grade 2 in BRICK Education Network shall not be expelled from school, except as provided pursuant to the "Zero Tolerance for Guns Act," P.L.1995, c.127 (C.18A:37-7 *et seq.*) and shall not receive an out-of-school suspension, except when the suspension is based on conduct that is of violent or sexual nature that endangers others.

To support students in Preschool through Grade 2, schools must develop and implement an early detection and prevention program that:

- Identifies students in Preschool through Grade 2 who are experiencing behavioral or disciplinary problems;
- Provides behavioral supports for these students, which may include, but need not be limited to, remediation of problem behaviors, positive reinforcements, supportive interventions, and referral services; and
- Incorporates the Intervention and Referral Services and SST process.

Suspension shall further be prohibited for:

- a. Being late to school or class or being absent;
- b. Violating school dress code or uniform expectations;

[CAMPUS NAME]

[RETURN TO TABLE OF CONTENTS](#)

- c. Minor behavior infractions, including but not limited to insubordinate behavior, defiance, disobedience, disrespect, or disruptive or rowdy behavior classroom disruption or other disruption of school activity; and
- d. Behavior that occurs off of school grounds and not as part of a school-sponsored activity, unless in accordance with N.J.A.C. 6A:16-7.5 it is reasonably necessary for student safety and the conduct materially and substantially interferes with the operation and discipline of the school.

iDREAM Values

	<u>D</u>iligence <i>I work hard.</i>	<u>R</u>espect <i>I follow rules and directions.</i>	<u>E</u>mpathy <i>I care about others.</i>	<u>A</u>+ Self Control <i>I stay focused.</i>	<u>M</u>odel Student <i>I participate.</i>
Responsible Decision Making	<p>What motivates you to keep trying when things get difficult?</p> <p>What kind of person are you working to become?</p>	<p>What is one thing you can do to demonstrate respect?</p>	<p>What influences your decision to help someone in need?</p>	<p>How do you maintain self-control when _____ happens?</p> <p>Tell us a time that you stood firm in your values even when your friends wanted to do the wrong thing.</p> <p>I contribute to the safety of my school community by _____.</p>	<p>Name one way that a model student demonstrates responsibility.</p> <p>Why is school attendance important?</p>
Relationship Skills	<p>If you could improve your relationship with one person, who would it be?</p>	<p>How do you show respect to others at school?</p>	<p>If you could talk to someone from your family who is no longer alive, who would it be and why?</p> <p>How can we stop bullying?</p> <p>Talk about a time when you forgave someone.</p> <p>What do you do to build trust with others?</p>	<p>When I need help, I can ask _____.</p>	<p>What makes you a good friend?</p>

Social Awareness	Name one school issue that we need to work harder to address.	How do you show respect to your school community? If I could change one law it would be _____. Should freedom of speech be limited for certain opinions or certain people? Should we be respectful of other's opinions?	If you were a reporter, what kinds of stories would you write about? How can we use our cultural differences to improve society? Why is it important to understand someone else's opinion? What makes a student-teacher relationship positive?	How will achieving your goals help you to make change in your community?	What change would you like to see in your community? Talk about a time you were out of your comfort zone.
Self-Management	One way that I encourage myself is _____.	One rule I have a hard time following is _____, because _____.	When I am upset, it helps me when someone _____. One way I can resolve conflicts with a friend is _____.	Imagine you are in disagreement with a person you care about. What values do you want to guide your behavior as you try to work out the conflict? What is one thing you can do to stay calm during a conflict?	What can you do to get yourself ready for the day?
Self-Awareness	What do you want to achieve today? What is one thing you can do better today? What is your goal for the year / marking period / month / week / day? Describe your ideal job. If you could change one thing about yourself what would it be? One thing I am good at is _____.	Name one thing you do to respect yourself. How does music / television / social media influence your view of yourself?	I do not like it when _____. I do not like it when _____ happens to me. How do you know when someone cares about you?	How do we find our life's purpose? What is the story behind your name; and, how does your name help you stay focused on your purpose? What is your passion?	How are you feeling today? Are you ready to learn? How can we help you be ready to learn? What is one thing you like about yourself?

Sample Social-Emotional Learning Conversation Starters:

- + One thing I wish my teacher to know about me is _____.
- + If I could have one superpower, it would be _____.
- + Share a happy childhood memory
- + How would your best friend describe you?
- + If you had an unexpected free day, what would you do?
- + Which has more influence on a person; “Nature” or “Nurture”?
- + What do you respect? Why?
- + Could humans exist without other people?
- + What change would you like to see in your community? What can you do to help this change?
- + What was a time you were out of your comfort zone? What did you do?
- + What is it like when someone is angry at you?
- + What angers you about society?
- + What do you do that usually makes someone smile at you? How does that make you feel?
- + How do you fill up your heart?
- + Who is a hero of yours, from real-life or movies, why did you pick this person?
- + What is one thing you’re looking forward to?
- + What did you enjoy about your weekend?
- + If you could change one thing about your life, it would be?
- + How does self-esteem affect a person’s success?
- + If you met a genie, what would be your one wish?

Share:

- + A time when you had to let go of control
- + A time when you were outside of your comfort zone
- + An experience in your life when you “made lemonade out of lemons”.
- + An experience of transformation when, out of a crisis or difficulty, you discovered a gift in your life.
- + An experience of causing harm to someone and then dealing with it in a way you felt good about.
- + An experience of letting go of anger or resentment.
- + A time when you were in conflict with your parents or caregiver.
- + An experience where you discovered that someone was very different from the negative assumptions you first made about that person.
- + An experience of feeling that you did not fit in.

This survey asks about your experience as a staff member with the BRICK at Achieve or Support Office. This will be used to better understand staff experience and satisfaction with the organization, and to inform future decisions. Please select one response that best summarizes your experience for each question.

Your participation in this survey and your responses are completely **ANONYMOUS**, so **please be honest**. This survey is being administered and managed by Via Evaluation, an external evaluation firm partnering with BRICK. No identifying information, including your IP address, will be collected through this process. Via Evaluation will report only aggregated information gathered from this survey with BRICK staff. If open-ended comments are determined to contain any identifying information, Via will remove that information before sharing with BRICK.

Thank you for your feedback!

Survey Details

There are some questions that ask about your experience at your school. If you are not based out of a specific BRICK school, please respond with your opinion of the overall network. Although some questions may not be applicable to you, please respond to the best of your ability.

1. About which BRICK location are you providing your feedback?

- Ach eve
- BRICK Support Off ce*

*If you do not work at a spec f c schoo , please answer quest ons about your op n on of your schoo w th your op n on of the overa Network (as n, a schoo s or those that you know best).

Overall Impressions

This section refers to your overall experience and perceptions as a staff member. Subsequent sections will address more specific aspects of your experience. (If you do not work at a specific school, please answer the item about the Network as a whole).

* 2. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
My school is a safe place for students, staff, and families.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel included as a staff member.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
This is a positive place to work.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK Network comes the voices and perspectives of all partners.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would recommend this school to other education professionals (as a place to work).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel respected as a staff member.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would recommend this school to families (as a place to send their children).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is an appropriate level of communication between administrators and teachers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is an appropriate level of communication between the school and our students' families.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
When I reach out to the Talent and HR team, I receive a response and so on within 48-hours.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The BRICK Model

BRICK invests in children and their caregivers together to relentlessly knock down all barriers to students' academic success. Its values are relentlessness, restless improvement, savvy ambition, faithful commitment, compassion, and accountability.

The BRICK (Building Resilient Intelligent Creative Kids) Model consists of four pillars:

- **Design and run innovative schools that beat the odds.**
- **Encourage students to explore and draw strength from their identity.**
- **Build rich community and partnerships.**
- **Call out and seek to change structures and policies that stand between students and their dreams.**

* 3. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
I am aware of the BRICK mission and vision.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The BRICK model is designed to create outstanding student achievement.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am aware of the BRICK model and its four pillars.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The BRICK model is designed to meet students' individual needs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4. Do you have any specific comments that you would like to share about the BRICK Model?

Diversity, Equity, & Inclusion

BRICK is dedicated to providing trauma-informed instruction and approaches to our primarily Black and Brown students. By cultivating an enriching environment that promotes social-emotional learning within its curriculum, BRICK aims to build an ecosystem where students are supported from cradle to career. As the BRICK community continues to grow, the network will strive to incorporate diversity, equity, and inclusion (DE&I) as a primary focus.

* 5. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
BRICK recognizes and highlights (BIPOC) Black, Indigenous, People of Color cultures in its model.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel welcome at BRICK.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK policies and procedures were made in consideration of many cultures.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK engages issues of diversity outside of the comfort zone.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK leadership considers equity in the decision-making.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK voices a clear commitment to dismantling racism and eliminating white privilege.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
BRICK implements structures, policies, and practices with inclusive decision-making.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Members across all identity groups are full participants in decisions that shape BRICK.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. Are there any other specific comments you would like to share about DE&I work at BRICK?

The next set of questions relate to the experiences of BRICK staff who are part of instructional staff, manage classrooms and/or curriculum.

* 7. Are you part of the instructional staff?

Yes

No

Classroom Supports and Resources

This section asks about the experience of teaching/instructional staff at BRICK. If you **do not** provide any instructional support, please go back and select "No" for the previous question.

* 8. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
The school discipline policies are enforced fairly and consistently.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am provided adequate resources (e.g. functional technology, course materials) to manage my classroom effectively.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel comfortable applying the BRICK model in my classroom.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel comfortable providing feedback to management regarding classroom supports.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I receive feedback that is helpful and useful to my teaching practice.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I have improved my pedagogical skills as a result of professional development provided by BRICK and my school.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operational systems at my school run smoothly to maximize student learning time.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. Are there any specific comments you would like to share about classroom support?

Growth & Development

This section refers to your professional and personal growth as a BRICK staff member.

* 10. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
The information provided during my hiring process adequately prepared me for my employment.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel supported in my growth as a professional.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I regularly receive praise and positive feedback from my manager.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is a career development path for all employees at BRICK.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My job performance is evaluated fairly.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is work-life balance as a staff member.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is ample opportunity for staff to provide feedback to leadership.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My voice is valued by management.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

11. Are there any specific comments you would like to share about growth and development as a BRICK staff member?

COVID Response

This section refers to the continued response of BRICK to the COVID-19 pandemic for the current school year (i.e., 2021-2022). This includes procedures that have been implemented this school year as a result of the CDC recommendations, state/federal regulations, and the BRICK's internal decisions.

* 12. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree
I am provided resources that allow me to balance work and my personal responsibilities.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am receiving adequate contact when school policy changes are made.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Within my role, I understand what the COVID safety measures are.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The COVID safety measures within the network are reasonable.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The leadership team were effective in the transition back to in-person work this school year.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The network's expectations, guidance, and communications with staff about the transition back to the office are clear.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The network's expectations, guidance, and communications with staff about the transition back to the office are reasonable.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am provided adequate resources to efficiently transition back to the office after remote work.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

13. Are there any other specific comments you would like to add about BRICK's response to the COVID-19 pandemic?

The next set of questions relate to the experiences of BRICK staff who are part of leadership (Senior Directors, Managing Directors, Chiefs, Founders, Senior Leadership, Principals, Vice Principals).

14. Do you have a position in BRICK leadership?

Yes

No

Leadership Satisfaction

This section relates to the experience of executive leadership staff at BRICK (Senior Directors, Managing Directors, Chiefs, Founders, Senior Leadership, Principals, Vice Principals). If you do not hold an executive leadership position in BRICK staff, please go back and select "No" for the previous question.

15. Please indicate your level of agreement with the following:

	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Applicable
I have been pleased with the candidates sent to complete interviews.	<input type="radio"/>				
There is transparency in leadership decision-making.	<input type="radio"/>				
My skills, knowledge, and abilities are valued as a member of leadership.	<input type="radio"/>				
I am trusted to make autonomous decisions as a member of leadership.	<input type="radio"/>				
There is an appropriate level of communication between the leadership teams.	<input type="radio"/>				

16. Are there any specific comments you would like to add about your experience in BRICK leadership?

Final Thoughts

17. What is the most valuable aspect of working at your school (or support office)?

18. How could BRICK make working as part of our staff better?

19. What do you hope BRICK will look like in the future?

THANK YOU

for completing this survey administered by Val Evaluation!
Please press DONE to submit your responses.

Albany, New York 12234

In addition to our organization's letter of support for the proposed BRICK Buffalo Academy Charter School, the King Urban Life Center would also like to share its intent to negotiate a lease agreement with BRICK Buffalo. Based on the aligned philosophies of our organizations, we believe BRICK Buffalo would be a natural fit for our 30 Rich Street property and would provide much needed benefits to the residents of the East Side of Buffalo.

Based on recent meetings with BRICK Buffalo, the King Center has begun negotiations and plans to enter into a lease agreement with BRICK Buffalo that includes the following terms:

- A six-year lease agreement that corresponds with the planning year and 5-year charter proposal of BRICK Buffalo Academy and, based on preliminary negotiations, this lease agreement would provide for total rental payments over the term of \$1,365,100;
- A lease term that begins in January 2023;
- A shared vision of continuing the King Urban Life Center's commitment to the City of Buffalo and its immediate neighborhood;
- A shared vision of developing BRICK Buffalo's ecosystem of two-generation supports and aid to BRICK families and the surrounding community.

We also are committed to partnering with BRICK Buffalo in private and public philanthropic grant writing efforts to continuously raise funds to bring the joint visions of our organizations to fruition.

Our organization is excited to partner with BRICK Buffalo to ensure that they are able to build and sustain a strong school that supports students and families in our community.

Feel free to contact me with any questions you may have about our organization, our support for the proposed school, or the terms of this agreement.

Sincerely,

A handwritten signature in black ink that reads "Sirgourney F. Cook". The signature is written in a cursive, flowing style.

Sirgourney F. Cook, Executive Director
King Urban Life Center

SUNY Charter Schools Institute
353 Broadway
Albany, New York 12234

Dear SUNY Charter Schools Institute:

Please accept this letter of support for the application for the BRICK Buffalo Academy Charter School in Buffalo, New York.

The King Urban Life Center (KULC), is committed to preserving the historic building it occupies, fostering radical neighborhood transformation, and delivering innovative educational programs to members of all ages, with a focus on young children and families. The church building we occupy, formerly St. Mary of Sorrows Roman Catholic Church (established in the 1872) built in the early 1900s, is registered as a National Historic Landmark; winning many awards for its innovative architectural design and repurpose of the interior space to accommodate classrooms and educational programming, while preserving its historic and cultural beauty and identity.

From this sacred space we offer free, evidenced based programming in our nationally recognized ParentChild+ (18mths-4yrs) and our STEAM (Science, Technology, Engineering, Art, Math) Team Afterschool (K-8th) and Say Yes and Primetime Summer Camp (K-6) programs. We are also home to an Associate of Arts and Science degree program for those looking to pursue higher education at a low cost, through Houghton College's Buffalo East Side program. KULC's physical presence and programming have been serving as a symbol of hope, inspiration, vitality, and rebirth to the East Side community of Buffalo, New York since 1996. Reference our website at <https://kingurbanlifecenter.org/>.

Based on our research and numerous planning meetings with members of the BRICK Buffalo applicant team, BRICK is committed to ensuring that students have the knowledge, skills and support needed to be college, career and life-ready upon graduation. Additionally, BRICK's focus on providing a culturally responsive curriculum that builds the social and emotional competencies of students, aligns with KULC's holistic approach of our campus-like community model collaborating with local partners such as Catholic Charities, WIC (The Special Supplemental Nutrition Program for Women, Infants and Children) and The Buffalo Museum of Science to provide wraparound services that meet the needs of children and families on the East Side of Buffalo.

KULC recognizes the critical need for high-quality schools in Buffalo, more specifically in our immediate neighborhood. Unfortunately, many of our local charter schools have long waiting lists and, as a result families are seeking new educational options of equal or higher quality for their children. We believe BRICK Buffalo can provide that option.

The BRICK (Building Resilient Intelligent Creative Kids) Education Network has already demonstrated their capacity to successfully found a charter school and partner with community organizations to provide access to the critical educational, developmental, and family services that many families in our community need to conduct and sustain a greater quality of life.

On behalf of the King Urban Life Center, I emphatically support BRICK Buffalo's Charter application to favorably impact and further the well-being of Buffalo's East Side and the greater Buffalo region. Our support for BRICK Buffalo's application is further evidenced by the Letter of Intent dated February 21, 2022 that KULC and BRICK Buffalo have signed relating to the leasing of space by BRICK Buffalo at KULC to house the school. If approved, our organization would continue to work to partner with BRICK Buffalo to carry out our collective missions and ensure that they are equipped to build and sustain a strong school and community environment on Buffalo's East Side.

Feel free to contact me at [REDACTED] or scCook@kingurbanlifecenter.org with any questions you may have about our organization or our support for this proposal.

A handwritten signature in black ink that reads "Sirgourney F. Cook". The signature is written in a cursive, flowing style.

DATE PREPARED:

February 2022

Our Mission

EPIC's Mission is to provide our customers professional assistance in obtaining the insurance products and services needed by representing our customers' best interests. We enhance our customers' best interests by establishing a relationship of trust and full disclosure in helping our customers evaluate and obtain the insurance protection they need.

Recently, the insurance industry has been shocked by the way some companies have abused a well-known and acceptable industry practice in accepting contingent commission payments. Because we take our commitment to our customers seriously in terms of building a high level of trust, we want to avoid even the appearance of any impropriety. In that spirit, we believe we are guided first and foremost by our customers' needs and our commitment to integrity in our business.

In fulfillment of our commitments to our customers, we will be guided by the following principles with respect to new and renewal business:

- Our recommendations and solutions to our customers will result from our customer's best interest. There will be no conflicts between the interests of our customers and the interests of any other person.
- We shall provide our customers with the proposals of the best available insurer which will be the most suitable insurer that is willing to provide the requested coverage for our customers taking into consideration the coverage to be provided service, financial security and price.
- We shall always advise our customers to select the best available insurer.
- We shall not provide our customers with false insurance premium quotes.
- We shall not solicit noncompetitive premium quotes from insurers.

- If we suggest multiple insurers, we will provide a concise description of the pros and cons of each insurer's quote based solely on our good faith evaluation of each of our customer's needs.
- We shall always advise our customers to select the best available insurer from among multiple insurers if suggested to our customers.
- We shall always take reasonable measures to obtain a quote from an insurer that we deem to be a best available insurer for our clients.
- We will monitor these commitments by a series of internal controls, including regular compliance reviews and audits.
- We will maintain a toll-free number to monitor any customer complaints relating to our failure to fulfill our commitments to you.

CODE OF BUSINESS CONDUCT

Our Commitment of Trust and Integrity to Our Customers.

EPIC endeavors to meet the insurance needs of its Customers with the necessary insurance coverage, service and security at a fair price. We foster a spirit of trust with our Customers that rests on the twin pillars of honesty and integrity. The cornerstone of this relationship with our Customers is the disclosure and transparency of the compensation arrangements for services we provide to our Customers and insurers.

OUR COMMITMENT TO INTEGRITY AND HIGH ETHICAL STANDARDS

We will never place our own financial or other interests over those of our Customers. To bolster our commitment to our Customers and to the highest ethical standards of behavior, we require all our employees and licensed producers to observe the fundamentals of our business practices in avoiding even the appearance of any conflicts of interest that relate to the offering and placement of insurance products and services and which include:

Fair Dealing

It is imperative that the needs and interests of our Customers be placed ahead of all other interests. Before giving advise or making recommendations, a diligent effort must be made to learn our Customer's needs, objectives, and circumstances, and then to offer products and services suitable to such needs.

Treatment of Customers

Customers must be treated fairly and with respect and dignity and we must only make promises to our Customers that we believe we can legitimately fulfill.

Marketing Practices

- Our recommendations and solutions to our Customers will result from our Customer's best interests.
- We shall always use service fee agreements when we charge fees which disclose the services and value we provide and how we are compensated in clear and understandable terms.
- We shall provide our Customers with the proposals of the best available insurer which will be the most suitable insurer that is willing to provide the requested coverage for our Customers taking into consideration the coverage to be provided, service, financial security, and price.
- We shall always advise our Customers to select the best available insurer.
- We shall not provide our Customers with false insurance premium quotes.
- We shall not solicit noncompetitive premium quotes from insurers.
- If we suggest multiple insurers, we will provide a recommendation based solely on our good faith evaluation of each of our Customer's needs.
- We shall always advise our Customers to select the best available insurer from among multiple insurers if suggested to our Customers.
- We shall always take reasonable measures to obtain a quote from an insurer that might be a best available insurer.
- We will monitor these commitments by a series of internal controls, including regular compliance reviews and audits.
- We will maintain an 800 number to monitor any Customer complaints relating to our failure to fulfill our commitments to clients

DISCLOSURE AND TRANSPARENCY

We do represent the interest of the insured in an insurance transaction either by receiving compensation or providing disinterested advice to the prospective insured and we are required to do the following:

- Make a good faith effort to provide a complete and accurate response, with no material omissions or misrepresentations, to questions posed by the insured.

- Assuming we represent multiple insurers in the proposed insurance transaction, either forward to the insured a proposal from each responding insurer, or select the proposals to be forwarded to the insured based solely on objective criteria furnished by the insured or disclosed in writing to the insured.

- A statement that we may receive additional compensation from the insurer based upon other factors, such as premium volume placed with a particular insurer and loss or claims experience, if that is the case.

- A statement of any existing or potential conflicts we may have between the interests of the Client and the interests of any other person, including us, that may impact our recommendation.

If we charge the insured a service fee in an insurance transaction, we are required to provide a written agreement between us and the Client which makes the following disclosures, sufficiently complete and understandable to enable the Client to understand and consider the potential incentives we will receive as producers in the proposed insurance transaction and the costs of the coverage:

- A statement of any compensation to be paid to us or to any related entity that is in addition to the total premium and is not included in the total premium.

- A statement that we, or any related entity, will receive compensation from the insurer or an entity related to the insurer for placing the insurance with the insurer, if that is the case.

- A statement of the duties we will perform on behalf of our Clients.

Client Services

Your Team at EPIC services which include, but are not limited to, the following:

Certificates of Insurance/Auto ID Cards/Binders – We will issue certificates and binders, handle requests, from mortgagees, clients, vendors, municipalities etc. with same day turnaround. We also have the capabilities to order motor vehicle reports and provide same day service for the issuance of auto ID cards.

Contract Review – As an ongoing service we will examine leases, contracts, covenants, conditions and restrictions, reservations of easements, etc. as they relate to insurance events or liabilities of our clients.

Claims – We have a fully staffed Claims Department to assist in the handling and settling of claims. We also have draft authority with several of our carriers, which allows us to settle claims independent of company control.

Risk Analysis/ Loss Control – EPIC's comprehensive approach to risk management helps prepare clients for virtually any crisis and makes them more attractive to insurance companies. Our constant monitoring allows us to identify industry changes immediately and thus minimize the exposure to all potential losses. We will also conduct a risk assessment and if needed design and implement a customized loss control/ loss reduction program.

Personal Lines – A complete staff of licensed persons responsible for a full range of personal insurance products i.e. homeowners, auto, personal umbrella etc. At home, at work, and in life, EPIC can service your insurance needs.

Employee Benefits- Available through EPIC Financial Services, Inc. to provide access to numerous markets to include estate planning, group life and health, long term disability, pension and profit sharing programs, deferred compensation, tax sheltering mechanisms and more.

Cyber Crime/ Transfer Fraud/ Social Engineering	\$1,000,000

GENERAL LIABILITY ENHANCEMENT COVERAGE SUMMARY

Named Insured

Provides automatic coverage for any organization in which the insured maintains ownership or a majority interest.

Knowledge of Occurrence

The insured will be considered to have knowledge of a loss only if the loss is reported to an owner, officer, or someone designated by the insured to notify us.

Revised Notice of Occurrence

The insured's coverages will not be affected if he or she fails to give us notice of a loss that is believed not covered by the policy.

Unintentional Errors and Omissions

The insured's coverages will not be affected if he or she fails to disclose all hazardous connected with the business.

Premises Alienated

Revises exclusion j.2 to provide automatic property damage coverage for losses occurring from premises formerly occupied by the insured arising from a hazard unknown to the insured.

Cancellation Condition

The cancellation provision, except nonpay or nonrenewal, is extended to 60 days. Where state statutes are broader, the state amendatory endorsement will prevail.

Medical Payments

Medical payments limit is increased to \$10,000, and the insured now has three years to report a claim rather than one year. Also, bodily injury claims included in the products/completed operations are now covered.

Insured Contract

The definition of contract now includes "all" liability assumed, not just "tort" liability. Also included is work done within 50 feet of a railroad as long as the indemnitee is not a railroad.

Property Damage Liability - Elevators and Sidetrack Agreements

Provides property damage coverage for the insured's use of elevators and sidetrack agreements.

Non-Owned Watercraft

Increases the length of covered non-owned watercraft from 26 feet to 51 feet.

Bail Bonds/Loss of Earnings

The limit for the cost of bail bonds is increased from \$250 to \$1,000 and the limit for loss of earnings from \$250 a day to \$300 a day.

Additional Insureds - By Contract, Agreement or Permit

Who Is An Insured is automatically extended to cover any organization the insured is under written contract to add as an additional insured. This coverage automatically applies on a primary basis if that is required by the contract, agreement, or permit.

Fire, Lightning or Explosion Damage

The policy is expanded to provide property damage for the additional perils of lightning and explosion and the amount of coverage is increased to \$300,000 from \$50,000.

Incidental Medical Malpractice Liability

Coverage is extended to employees who provide incidental medical procedures such as nurses, EMT's, or paramedics, unless the insured is in the business of providing those services.

Additional Insured -Vendors

The policy is extended automatically to vendors where the insured is under written contract to add the vendor as an additional insured, provided we write the producers liability coverage.

Property Damage - Borrowed Equipment

Coverage is provided for borrowed equipment when the equipment is at the insured's job site and is not being used to perform operations when the loss occurs.

Mobile Equipment Redefined

The definition of mobile equipment is revised to extend coverage under the GL policy for self-propelled vehicles less than 1,000 pounds.

Additional Insured- Club Members

This clause extends coverage to an insured's employees for liability arising out of clubs or organizations that are a function of employment.

Limited Defense Coverage for Indemnitees

Exclusion b.2 is amended to provide that defense expenses for an insured's indemnitee will be paid as supplementary payments provided certain conditions are met.

Fellow Employee Coverage

The definition of "executive officer" is amended to include the insured's managers, supervisors, or any employees designated by the insured subject to policy conditions.

Waiver of Subrogation

Amends the coverage form to waive our rights to recover if the insured has waived their rights before a loss.

Aggregate Limits of Insurance Per Location

The policy is amended to provide a separate general aggregate limit for each insured location.

Liberalization

If we broaden the coverage form without additional premium charge, the new coverage will automatically apply to the insured's policy.

BUSINESS AUTO POLICY

POLICY TERM:

September 1st, 2022 to September 1st, 2023

COVERS:

Your legal liability arising out of the use of owned, leased, hired, and non-owned autos, including physical damage on your owned vehicles as described below.

A.M. BEST'S COMPANY RATING

The **Best's Guide** is the guidebook the insurance industry uses to determine the financial stability of an insurance company. A copy of the **Best's Guide** report on the insurance companies quoted is available for your review.

Capacity Coverage Co. subscribes to A.M. Best & Co.'s rating services and relies on same in evaluating the financial condition of insurers whose policies we propose to deliver. The rating of the carrier and the year of publication of that rating are indicated. Capacity Coverage Co. makes no representation and warranties concerning the solvency of any carrier nor does it make any representation or warranty concerning the rating of the carrier which may change.

For these reasons, we recommend that you take into account the financial stability of all the insurance companies prior to making your selection as to who will write your insurance

CHANGES AND DEVELOPMENTS

It is important that we be advised of any changes in your operations that may have a bearing on the validity and/or adequacy of your insurance. The types of changes that concern us include, but are not limited to, those listed below:

1. Changes in any Operation such as expansion to another state, new products.
2. Mergers and/or acquisition of new companies.
3. Any newly assumed contractual liability, granting of indemnities or hold harmless agreements.
4. Circumstances which may require an increased liability insurance limits.
5. Any changes in fire or theft protection such as the installation of or disconnection of sprinkler systems, burglar alarms, etc. This includes any alterations to same.
6. Immediate advice of any changes to scheduled equipment such as contractors' equipment, electronic data processing, etc.
7. Property, of yours that is in transit, unless we have previously arranged for the insurance.
8. Any changes in existing premises including vacancy, whether temporary or permanent, alterations, demolition, etc. Also, any new premises either purchased, constructed or occupied.

Your insurance program will only be as good as the communications maintained between you and your insurance broker.

COINSURANCE

Coinsurance is a policy provision requiring you to carry insurance equal to a specified percentage of the value of the property covered. It provides for the full payment (up to the amount of the policy), of all losses if you have complied with the provision.

If you fail to insure to the agreed percentage amount, your loss payment is reduced proportionately.

Example:

The replacement value of your property is	\$250,000
Your policy contains coinsurance provision of:	80%
Which equates to a required limit of:	\$200,000
You have in force a limit of:	\$100,000

GIVEN THE ABOVE, IF YOU HAVE A LOSS OF \$40,000, THE PAYMENT WOULD BE CALCULATED AS FOLLOWS:

\$ <u>100,000</u>	(Insurance in Force)		
\$ 200,000	(Required by Policy Contract)	=	50%
50% x \$40,000	(Amount of Loss)	=	\$ 20,000
\$ 20,000	Paid by Carrier		
	(Subject to Applicable Deductibles)		
\$ 20,00	Paid by You (Coinsurer)		

SUBCONTRACTORS INSURANCE REQUIREMENTS

1. If you use sub-contractors, you will be responsible for providing General Liability and/or Workers Compensation coverage if you do not have a Certificate of Insurance from each sub-contractor.
2. The Certificate of Insurance should provide both General Liability and Workers Compensation coverage naming your company as an Additional Insured.
3. If the sub-contractor does not provide proof of insurance, you will be charged an additional premium based on the appropriate rate for the work performed by that sub-contractor.
4. If your policy is written on the 1996 ISO Commercial General Liability form, it now requires that for contractually assumed defense costs to be covered, the contract must specifically state such. Further, such costs are considered “damages” and will be “part of” and not “in addition to” the policy limits unless certain very stringent conditions are met, in which case it can be “outside the limit.” (See policy wording for the complete description.) The use of Additional Insured status should override this limitations.

R-23b Supplemental Attachments

b. Submit attachments, documents, etc., discussed in response to (a) above. If no supplemental documents are necessary, please indicate that this Request is not applicable.

The responses to other sections of this RFP mention numerous documents that can help to offer further insights into the applicant team’s proposal and to the team’s organizational capacity to effectively found a school in Buffalo. For ease of reference, the table below provides information on what specific attachments are provided to further support previous parts of this narrative. Since some supplemental attachments are referenced more than once in the narrative, they appear below next to the section of the RFP that most closely correlates with that particular artifact.
