5. Changes in the 2013-14 Report from the 2012-13 Report

Elementary and Middle Schools

- a) The State Education Department has recalibrated the Annual Measurable Objectives (AMOs) in ELA and math. Therefore, complete the second 3-8 absolute measure ("Performance Level Index meeting the AMO") in ELA and math.
- b) For the 3-8 Growth Measure in ELA and math, report 2012-13 results using the state's 3-8 Growth Model. (The 2013-14 results are not yet available.) Instructions for finding the 2013-14 results appear below.

College Preparatory High Schools

- a) Because of the introduction of college and career readiness standards, schools renewed in 2012-13 or later use revised Accountability Plan measures. (See the appendix in the Guidelines for Creating a SUNY Accountability Plan for a list of the revised measures.)
 - b) The Institute will gradually phase the new measures into its evaluation of all schools and the SUNY Trustees will take them into account when making renewal decisions. Therefore, the Institute encourages high schools not renewed this year to include the college-and-career-readiness-standard in their Progress Report as optional measures.

ENGLISH LANGUAGE ARTS

Goal 1: English Language Arts

Write the school's English language arts goal here.

Background

Brief narrative discussing English language arts curriculum, instruction, assessment and professional development at the school and any important changes to the English language arts program or staff prior to or during the 2013-14 school year.

Goal 1: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State English language arts examination for grades 3-8.

Method

The school administered the New York State Testing Program English language arts assessment to students in X through Y grade in April 2014. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

Also, use this section to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

Additional Evidence

Narrative discussing year-to-year trends during the current Accountability Period. This discussion shows how the school is making progress towards, or maintaining, a high level of performance. The school can use a supplemental table for this section on performance disaggregated by number of years in the school. The table shell appears on page 66 in the Appendix.

Also, additional evidence may include other valid and reliable assessment results that demonstrate the effectiveness of the school's instructional program.

Goal 1: Absolute Measure

Each year, the school's aggregate Performance Level Index (PLI) on the State English language arts exam will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an AMO each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the 2013-14 English language arts AMO of 89. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.²

Results

Brief narrative highlighting results in the data tables that directly addresses the measure by comparing the PLI to this year's AMO.

and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.³

Results

Brief narrative highlighting results in the data table that directly addresses the measure, e.g. the aggregate charter school performance compared to the aggregate district performance in the same tested grades.

Evaluation

Narrative explicitly stating whether or not the school met the measure, i.e., whether the charter school fell short of, equaled or exceed the aggregate district performance and by how much. In addition the evaluation may also include a discussion of specific grade levels' comparative performance.

Additional Evidence

Narrative provides a discussion of the charter school's performance in comparison to the local district in previous years. In addition, the school can use a supplemental table for this section on a comparison of the charter school to selected local schools. The table shell appears on page 66 in the Appendix.

Also, additional evidence may include demographic differences between the school and the district as well as compelling reasons for comparing the school to a subset of schools within the district.

³ Schools can acquire these data when the New York State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The NYSED announces the release of the data on its [News Release webpage](#).

Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.⁴

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Comparative Performance Analysis available.

Results

Provide a brief narrative highlighting 2012-13 results in the data table that directly addresses the critical data: overall Effect Size. In addition, the discussion may also include

Goal 1: Growth Measure⁵

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

⁵ See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score from 2011-12 including students who were retained in the same grade. Students with the same 2011-12 score are ranked by their 2012-13 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Growth Model data available.⁶

Results

Provide a brief narrative highlighting 2012-13 results in the data table that directly addresses the critical data: the school's mean growth percentile. In addition, the discussion may also include highlighting individual grade levels and their respective percentiles.

Additional Evidence

Narrative provides a discussion of current and past performance in comparison to the statewide average.

Goal 2: Growth Measure¹²

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade. Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Growth Model data available.¹³

Summary of the Mathematics Goal

Present a narrative providing an overview of which measures the school achieved, as well as an overall discussion of its attainment of this Accountability Plan goal.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State mathematics exam for grades 3-8.	Achieved/ Did Not Achieve
Absolute	Each year, the school's aggregate Performance Level Index (PLI) on the state mathematics exam will meet that year's Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.	Achieved/ Did Not Achieve
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the local school district.	Achieved/ Did Not Achieve
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State. (Using 2012-13 school district results.)	Achieved/ Did Not Achieve

Action Plan

Narrative explaining what specific steps the school will take to maintain or improve academic performance based on the *specific results* associated with this goal, focusing in particular on strategic interventions including providing enhanced support or program revisions for explicit grades, cohorts or sub-populations.

SCIENCE

Goal 3: Science

Write the school's Accountability Plan science goal here.

Background

Brief narrative discussing science curriculum, instruction, assessment and professional development at the school and any important changes to the science program or staff.

Goal 3: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will

perform at proficiency on the New York State science examination.

Method

The school administered the New York State Testing Program science assessment to students in 4th and 8th grade in spring 2014. The school converted each student's raw score to a performance level and a grade-specific scaled score. The criterion for success on this measure requires students enrolled in at least their second year (defined as enrolled by BEDS day of the previous school year) to score at proficiency.

Results

Brief narrative highlighting results in the data table below that directly addresses the measure, i.e. the overall percent of students *in at least their second year* achieving at proficiency.

Evaluation

Narrative explicitly stating whether the school met the measure and discussing by how much the school fell short of or exceeded the measure, as well as notable performance in specific grades and populations. Also, use this section to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

Additional Evidence

Narrative discussing year-to-year trends during the current Accountability Period. This discussion shows how the school is making progress towards, or maintaining, a high level of performance. The school can use a supplemental table for this section on performance disaggregated by number of years in the school. The table shell appears on page 66 in the Appendix.

Also, additional evidence may include other valid and reliable assessment results that demonstrate the effectiveness of the science program.

Goal 3: Comparative Measure

Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the local school district.

Method

The school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year and the results for the respective grades in the local school district.

Results

Brief narrative highlighting results in the data table that directly addresses the measure; e.g. the charter school performance compared to the district performance in the same tested grades.

NCLB

Goal 4: NCLB

Write the school's Accountability Plan NCLB goal here.

Goal 4: Absolute Measure

Under the state's NCLB accountability system, the school's Accountability Status is in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as a local-assistance-plan school.

Method

Since *all* students are expected to meet the state's learning standards, the federal No Child Left Behind legislation stipulates that various sub-populations and demographic categories of students among all tested students must meet state proficiency standards. New York, like all states, established a system for making these determinations for its public schools. Each year the state issues School Report Cards. The report cards indicate each school's status under the state's No Child Left Behind (NCLB) accountability system.

Results

State the school's NCLB status this year.

Evaluation

Provide a narrative explicitly stating whether or not the school met the measure and any changes over time.

Additional Evidence

Provide a narrative reviewing the school's NCLB status during each year of the current Accountability Period.

NCLB Status by Year

Year	Status
2011-12	Good Standing/ Focus School/ Local-Assistance-Plan School
2012-13	Good Standing/ Focus School/ Local-Assistance-Plan School
2013-14	Good Standing/ Focus School/ Local-Assistance-Plan School

Method

In receiving a waiver for its federal No Child Left Behind accountability system, the New York State Education Department now holds high schools accountable for making annual yearly progress towards meeting college and career readiness standards. See page 72 of SED's ESEA waiver application for the high school AMOs:

http://www.p12.nysed.gov/accountability/documents/NYSESEAFlexibilityWaiver_REVISED.pdf

The AMO continues to be SED's basis for determining if schools are making satisfactory progress toward the annual goal. To achieve this measure, all tested students in the Accountability Cohort must have an Accountability Performance Level (APL) that equals or exceeds the 2013-14 English language arts AMO of **166**.

The APL is calculated by adding the sum of the percent of students in the Accountability Cohort at Levels 2 through 4 to the sum of the percent of students at Level 3 and 4. Thus, the highest possible APL is 200. The Regents exams are scored on a scale from 0 to 100; 0 to 64 is Level 1, 65 to 74 is Level 2, 75 to 89 is Level 3, and 90 to 100 is Level 4.

Narrative explicitly stating whether the school met the measure, by how much the school fell short of or exceeded the measure. This section can also be used to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

Additional Evidence

Provide narrative discussing additional analysis of the data such as trends over time, or the interim performance of cohorts that have not yet reached their fourth year. This is an opportunity to show the school is making progress towards or maintaining a high level of performance.

Goal 1: Comparative Measure

(S) Each year, students in the high school *Total Cohort* will exceed the predicted pass rate on the English language arts Regents exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all high schools in New York State.

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, as it has for 3-8 schools. The Institute examines the school's performance in terms of demographically similar high schools state-wide by using a regression analysis to control for the percentage of economically disadvantaged students among all high schools in New York State. The Institute compares the School's actual performance to the predicted performance of high schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other high schools with similar economically disadvantaged statistics produces an Effect Size. An Effect Size of 0.3, or

performing higher than expected to a small degree, is the target for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2013-14 analysis is not yet available.

Charter School Name:

B. Financial Information

This information is required of ALL charter schools. Provide the following measures of fiscal performance of the charter school in Appendix B (Total Expenditures and Administrative Expenditures Per Child):

1. Total Expenditures Per Child

To calculate '**Total Expenditures per Child**' take total expenditures (from the unaudited 2014-15 Schedule of Functional Expenses) and divide by the year end per pupil count. (Integers Only. No dollar signs or commas).

Line 1: Total Expenditures	11385171
Line 2: Year End Per Pupil Count	704
Line 3: Divide Line 1 by Line 2	16172

2. Administrative Expenditures per Child

To calculate '**Administrative Expenditures per Child**' take the relevant portion from the 'personnel services cost' row and the 'management and general' column (from the unaudited 2014-15 Schedule of Functional Expenses) and divide by the year end per pupil count. The relevant portion that must be included in this calculation is defined as follows:

Administrative Expenditures: Administration and management of the charter school includes the activities and personnel of the offices of the chief school officers, the treasurer, the finance or business offices, the purchasing unit, the employee personnel offices, the records management offices, or a public information and services offices. It also includes those administrative and management services provided by other organizations or corporations on behalf of the charter school for which the charter school pays a fee or other compensation.

Please note the following:

- Do not include the FTE of personnel dedicated to administration of the instructional programs.
- Do not include Employee Benefit costs or expenditures in the above calculations.
- A template for the Schedule of Functional Expenses is provided on page 20 of the 2014-15 Annual Report Guidelines to assist schools identify the categories of expenses needed to compute the two per pupil calculations. This template does not need to be completed or submitted on August 1st as it will be submitted November 1st as part of the audited financial statements. Therefore schools should use unaudited amounts for these per pupil calculations. (See the 2014-15 Annual Report Guidelines in "Resources" area of your portal task page).

To calculate '**Administrative Expenditures per Child**' take the relevant portion from the 'personnel services cost' row and the 'management and general' column (from the 2014-15 Schedule of Functional Expenses) and divide by the year end per pupil count. Enrollment and Retention Efforts for NYSED and SUNY, CSI Annual Report 2014-2015

The school continued its enrollment efforts through several very specific actions. The school's admissions coordinator and administrators visited many Early Childhood centers throughout the school district. The centers visited were ethnically and religiously diverse and representative of the ethnic/racial composition of the school district. The admissions team also attended charter school information sessions and school admissions recruitment drives sponsored by other community agencies.

In addition the school advertised its open houses and programs on local newspapers and radio media. The school also participated in the charter school common application process.

The school's retention of all students continued with very little turnover of its student body. Efforts to retain and expand the school's special education student population and English as a Second language student population continued as in prior years.
