Introduction

The mission of Harlem Village Academies Leadership is to prepare students of fine character to graduate from college and make a positive contribution to society. In order to accomplish this mission, we have established clear, measurable goals, which are outlined in this document. The school leadership and faculty continually strive to maintain our community's focus on achieving these goals. Harlem Village Academies Leadership opened in the fall of 2005 with its first class of fifth graders. The school currently serves approximately 801 students in grades K, 1, 2 and five through twelve.

High School Cohorts

Accountability Cohort

The state's Accountability Cohort consists specifically of students who are in their fourth year of high school after the 9th grade. For example, the 2011 state Accountability Cohort consists of students who entered the 9th grade in the 2011-12 school year, were enrolled in the school on the state's annual enrollment-determination day (BEDS day) in the 2014-15 school year, and either remained in the school for the rest of the year or left for an acceptable reason. (See New York State Education Department's website for its accountability rules and cohort definitions: www.p12.nysed.gov/accountability/)

The following table indicates the number of students in the Accountability Cohorts who are in their fourth year of high school and were enrolled on BEDS Day in October and on June 30th.

2014-15	2011-12	2011	33	1	32

Total Cohort for Graduation

Students are included in the Total Cohort for Graduation also based on the year they first enter the 9th grade. Prior to 2012-13, students who have enrolled <u>at least five months in the school</u> after entering the 9th grade are part of the Total Cohort for Graduation; as of 2011-12 (the 2008 cohort), students who have enrolled <u>at least one day in the school</u> after entering the 9th grade are part of the school's Graduation Cohort. If the school has discharged students for one of the following acceptable reasons, it may remove them from the graduation cohort: if they transfer to another public or private diploma-granting program with documentation, transfer to home schooling by a parent or guardian, transfer to another district or school, transfer by court order, leave the U.S. or die.

English Language Arts

Goal 1: English Language Arts

Students will meet or exceed state performance standards for mastery of skills and content knowledge in the area of English language arts. Students will also demonstrate proficiency in advanced skills in the area of English language arts necessary for admission into and success in college.

Goal 1: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State English language arts examination for grades 3-8.

Method

The school administered the New York State Testing Program English language arts assessment to students in fifth through eighth grade in April 2015. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year (defined as enrolled by BEDS day of the previous school year).

Goal 1: Absolute Measure

Each year, the school's aggregate Performance Level Index ("PLI") on the State English language arts exam will meet the Annual Measurable Objective ("AMO") set forth in the state's NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an AMO each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index ("PLI") value that equals or exceeds the 2014-15 English language arts AMO of 97. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.⁴

Results

The table below shows the calculation of the school's Performance Level Index.

					16.2%	+	1.5%	=	<u>17.8%</u>
							PLI	=	79.9%

Evaluation

Harlem Village Academies Leadership did not achieve this measure.

⁴ In contrast to SED's Performance Index, the PLI does not account for year-to-year growth toward proficiency.

Goal 1: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.⁵

⁵ Schools can acquire these data when the New York State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The NYSED announces the release of the data on its News Release webpage.

Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a meaningful degree is the requirement for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2014-15 analysis is not yet available. This report contains <u>2013-14</u> results, the most recent Comparative Performance Analysis available.

Results

The table below shows the Comparative Performance Analysis for the 2013-14 school year.

School's Overall Comparative Performance:
Higher than expected to a medium degree

Evaluation

Harlem Village Academies Leadership met this measure. The school performed "Higher than expected to a medium degree" in the 2013-14 school year. As students progress through the grades, the school's academic interventions begin to create a strong positive effect. The fifth graders' low performance is to be expected; Harlem Village Academies Leadership actively recruits students from New York City's most underperforming school districts. Our school serves fifth graders who enter the school with significant academic challenges and gaps in basic skills. Harlem Village Academies Leadership teaches those basic skills so that, over time, students are able to

score proficient. The school's "effect size" increases each year that students remain in the school. By eighth grade, the "effect size" is 0.75.

Additional Evidence

The table below shows the results of the Institute's regression analysis for the 2012-13 through 2013-14 school years.

English Language Arts Comparative Performance by School Year

2012-13	5th-8th	82.6	297	25.9	18.2	0.66
2013-14	5th-8th	86.0	276	22.3	17.7	0.34

Goal 1: Growth Measure⁶

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2013-14 and also have a state exam score from 2012-13 including students who were retained in the same grade. Students with the same 2012-13 score are ranked by their 2013-14 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2014-15 analysis is not yet available. This report contains 2013-14 results, the most recent Growth Model data available.⁷

Growth	Each year, under the state's Growth Model the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.	Partially Achieved

Action Plan

Our goal is to improve our measurable results on state tests while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Specifically, this year we have established the following strategies to improve our curriculum and assessments, and professional development:

- We are developing text sets for reading, science and social studies to improve comprehension by strengthening vocabulary and background knowledge.
- We have increased the volume of daily non-fiction in-school reading by establishing a required amount of reading time in science and social studies.
- We've improved and reinvigorated independent reading to teach students to select higher quality books on top
 of a high volume of reading. Classroom libraries were improved: we added higher quality books, updated and
 improved selections for quality and interest, and established new best practices such as rotating books
 throughout the year.
- Detailed and aligned curriculum and assessments for middle school have been developed by our new academic directors for all four core subjects: ELA, math, science, and social studies.
- As our schools have expanded and external assessments demand more of our students, we are responding by providing our teachers with much more guidance, structure and professional development.
- Academic directors who designed the new curriculum and assessments have also designed professional development to support the program.
- We added a new weekly half-day of professional development at the middle schools focused on teachers planning with academic directors and studying student work.

English Language Arts – High School

Goal 1: Absolute Measure

Each year, 65 percent of students in the high school Accountability Cohort will meet the college and career readiness standard (currently scoring 75 on the New York State Regents English exam OR fully meeting Common Core expectations on the Regents Exam in English Language Arts (Common Core)) by the completion of their fourth year in the cohort.

Method

The school administered the New York State Regents Comprehensive English exam that students must pass to graduate. The school scores Regents on a scale from 0 to 100. The State Education Department defines the following pass levels: scoring 75 to meet the college and career readiness standard. This measure examines the percent of the Accountability Cohort that passed the exam by the completion of their fourth year in the cohort. Students have until the summer of their fourth year to do so.

Results

The table below shows Harlem Village Academies Leadership's four year cohort's English Regents pass rates.

⁹ The statewide adaptation of new State Standards includes incorporating college and career readiness performance standards for the English language arts exam. The state has benchmarked student ELA test performance to the likely need for remedial course work when students enter college by comparing student 3-8 test results and Regents results to their post-secondary experience at SUNY and CUNY. Besides raising the cut scores for proficiency in the 3-8 testing program, the state has begun to set college and career readiness standards for passing Regents.

¹⁰ Based on the highest score for each student on the English Regents exam

Goal 1: Absolute Measure Each year, 65 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8th grade English language arts exam will meet the college and career readiness standard (currently scoring 75 on the New York State Regents English exam OR fully meeting Common Core expectations on the Regents Exam in English Language Arts (Common Core)) by the completion of their fourth year in the cohort.

Method

The school demonstrates the effectiveness of its English language arts program by enabling students who were not meeting proficiency standards in the eighth grade to meet the English requirement for the college and career readiness standard.

Results

The table below shows the English Regents Passing Rate amongst students who were not proficient in the 8th grade.

¹¹ Based on the highest score for each student on the English Regents exam

Goal 1: Absolute Measure

Each year, the Accountability Performance Level (APL) on the Regents English exam of students completing their fourth year in the Accountability Cohort will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Method

In receiving a waiver for its federal No Child Left Behind accountability system, the New York State Education Department now holds high schools accountable for making annual yearly progress towards meeting college and career readiness standards. See page 72 of SED's ESEA waiver application for the high school AMOs:

www.p12.nysed.gov/accountability/documents/NYSESEAFlexibilityWaiver_REVISED.pdf

The AMO continues to be SED's basis for determining if schools are making satisfactory progress toward the annual goal. To achieve this measure, all tested students in the Accountability Cohort must have an Accountability Performance Level (APL) that equals or exceeds the 2014-15 English language arts AMO of <u>170</u>.

The APL is calculated by adding the sum of the percent of students in the Accountability Cohort at Levels 2 through 4 to the sum of the percent of students at Level 3 and 4. Thus, the highest possible APL is 200. The Regents exam in Comprehensive English is scored on a scale from 0 to 100; 0 to 64 is Level 1, 65 to 74 is Level 2, 75 to 89 is Level 3, and 90 to 100 is Level 4. The Regents Common Core Examination in English is scored on a scale from 0 to 100; 0 to 64 is level 1, 65 to 78 is level 2; 79 to 84 is level 3, and 85 to 100 is level 4.

Results

The table below shows the 2011 cohort's APL on the English Regents.

Evaluation

Harlem Village Academies High has achieved this measure.

Goal 1: Comparative Measure Each year, the Accountability Performance Level (APL) in Regents English of students in the fourth year of their high school Accountability Cohort will exceed the APL of comparable students from the local school district.

Method

The school compares the performance of students in their fourth year in the charter school Accountability Cohort to that of the respective cohort of students in the local school district. Given that students may take Regents exam up through the summer of their fourth year, the school presents most recently available school district results. 12

Results

The table below show the APL of each cohort compared to students from the local school district 4.

Action Plan

Our goal is to improve our measurable results on state tests while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Consistent with our organizational value of kaizen, or continual improvement, our teachers met to plan improvements and modifications to the English Language Arts program. Those plans were largely driven by a detailed analysis of the data presented above, as well as by a careful examination of the school's internal assessment data. Additionally, the school has taken steps to align its curriculum and instructional strategies with the Common Core Standards.

_

¹⁴ If the school includes a middle school component, add these measures to the subject area goal for the younger grades.

Mathematics

Goal 2: Mathematics

Students will meet or exceed state standards for mastery of skills and content knowledge in the area of mathematics. Students will demonstrate further proficiency in advanced skills in mathematics necessary for admission into and success in college.

Goal 2: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State mathematics examination for grades 3-8.

Method

The school administered the New York State Testing Program mathematics assessment to students in fifth through eighth grade in April 2015. Each student's raw score has been converted to a grade-scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

Goal 2: Absolute Measure

Each year, the school's aggregate Performance Level Index (PLI) on the State mathematics exam will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an AMO each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in mathematics. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the 2014-15 mathematics AMO of 94. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200. ¹⁶

Results

The table below shows the calculation of the school's Performance Index

							PLI	=	112.3

Evaluation

Harlem Village Academies Leadership met this measure.

¹⁶ In contrast to NYSED's Performance Index, the PLI does not account for year-to-year growth toward proficiency.

Goal 2: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares the performance of tested students enrolled in at least their second year to that of all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district. ¹⁷

Goal 2: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a meaningful degree is the requirement for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2014-15 analysis is not yet available. This report contains <u>2013-14</u> results, the most recent Comparative Performance Analysis available.

Results

School's Overall Comparative Performance:	
Higher than expected to a large degree	

Evaluation

Harlem Village Academies Leadership met this measure. The school performed "higher than expected to a large degree" in the 2013-14 school year. As students progress through the grades, the school's academic interventions begin to create a strong positive effect. The fifth graders' low performance is to be expected; Harlem Village Academies Leadership actively recruits students from New York City's most underperforming school districts. Our school serves fifth graders who enter the school with significant academic challenges and gaps in basic math skills. Harlem Village Academies Leadership teaches those basic skills so that, over time, students are able to score proficient. The school's "effect size" increases each year that students remain in the school. By eighth grade, the "effect size" is 1.1.

Additional Evidence

The table below shows the results of the Institute's regression analysis for the 2012-13 through 2013-14 school years.

2013-14	5 th -8 th	86.0	275.0	36.0	20.1	0.9

Goal 2: Growth Measure¹⁸

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2013-14 and also have a state exam score in 2012-13 including students who were retained in the same grade. Students with the same 2012-13 scores are ranked by their 2013-14 scores and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2014-15 analysis is not yet available. This report contains 2013-14 results, the most recent Growth Model data available. ¹⁹

Summary of the Mathematics Goal

Harlem Village Academies Leadership achieved or partially achieved four measures for the 2014-2015 school year.

Growth	Each year, under the state's Growth Model the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.	Achieved

Action Plan

Our goal is to improve our measurable results on state tests while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Specifically, this year we have established the following strategies to improve our curriculum and assessments, and professional development:

- Detailed and aligned curriculum and assessments for middle school have been developed by our new academic directors for all four core subjects: ELA, math, science, and social studies.
- We have also improved and expanded our data analysis systems.
- As our schools have expanded and external assessments demand more of our students, we are responding by providing our teachers with much more guidance, structure and professional development.
- Academic directors who designed the new curriculum and assessments have also designed professional development to support the program.
- We added a new weekly half-day of professional development at the middle schools focused on teachers planning with academic directors and studying student work.

Mathematics – High School

Goal 2: Absolute Measure

Each year, 65 percent of students in the high school Accountability Cohort will meet the college and career readiness standard (currently scoring 80 on a New York State Regents math exam OR fully meeting Common Core expectations on the Regents Algebra I (Common Core) exam) by the completion of their fourth year in the cohort.

Method

The school administered the New York State Regents Geometry, Integrated Algebra and Algebra 2 exams. The school scores Regents on a scale from 0 to 100. The State Education Department defines the following pass levels scoring 80 to meet the college and career readiness standard. ²¹ This measure requires students in each Accountability Cohort to achieve the requisite score on any one of the Regents mathematics exams by their fourth year in the cohort. Students may have taken a particular Regents mathematics exam multiple times or have taken multiple mathematics exams. Students have until the summer of their fourth year to pass a mathematics exam.

Results

The table below shows the percentage of each cohort scoring 80% or higher on a mathematics Regents exam.

Method

The school demonstrates the effectiveness of its mathematics program by enabling students who were not meeting proficiency standards in the eighth grade to meet the mathematics requirement for the college and career readiness standard.

Results

The Table below shows the percent of students in each cohort that did not score proficiently on the 8th grade State math test but then scored an 80 or higher on a mathematics Regents exam.

²³ Based on the highest score for each student on the Mathematics Regents exam

Goal 2: Absolute Measure

Each year, the Accountability Performance Level (APL) on a Regents mathematics exam of students completing their fourth year in the Accountability Cohort will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Method

In receiving a waiver for its federal No Child Left Behind accountability system, the State Education Department now law holds high schools accountable for making annual yearly progress towards meeting college and career readiness standards. See page 72 of SED's ESEA waiver application for the high school AMOs:

http://www.p12.nysed.gov/accountability/documents/NYSESEAFlexibilityWaiver_REVISED.pdf
The AMO continues to be SED's basis for determining if schools are making satisfactory progress toward the annual goal. To achieve this measure, all tested students in the Accountability Cohort must have an Accountability Performance Level (APL) that equals or exceeds 2014-15 mathematics AMO of 154.

The APL is calculated by adding the sum of the percent of students in the Accountability Cohort at Levels 2 through 4 to the sum of the percent of students at Level 3 and 4. Thus, the highest possible APL is 200. The Regents exams are scored on a scale from 0 to 100; 0 to 64 is Level 1, 65 to 79 is Level 2, 80 to 89 is Level 3, and 90 to 100 is Level 4. The Regents Common Core exams in mathematics are scored on a scale from 0 to 100; 0 to 64 is level 1; 65 to 73 is level 2, 74 to 84 is level 3, and 85 to 100 is level 4.

Results

Evaluation

Goal 2: Comparative Measure

Each year, the Accountability Performance Level (APL) in mathematics of students in the fourth year of their high school Accountability Cohort will exceed the APL of comparable students from the local school district.

Method

The school compares the performance of students in their fourth year in the charter school Accountability Cohort to that of the respective cohort of students in the local school district. Given that students may take Regents exam up through the summer of their fourth year, the school presents most recently available school district results.²⁴

Action Plan

Our goal is to improve our measurable results on state tests while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Consistent with our organizational value of kaizen, or continual improvement, our teachers met to plan improvements and modifications to the mathematics program. Those plans were largely driven by a detailed analysis of the data presented above, as well as by a careful examination of the school's internal assessment data. Additionally, the school has taken steps to align its curriculum and instructional strategies with the Common Core Standards.

²⁶ If the school includes a middle school component, add these measures to the subject area goal for the younger grades.

SCIENCE

Goal 3: Science

Students will meet and exceed state standards for mastery of skills and content knowledge in the area of science.

Goal 3: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State science examination.

Method

The school administered the New York State Testing Program science assessment to students in 8th grade in spring 2015. The school converted each student's raw score to a performance level and a grade-specific scaled score. The criterion for success on this measure requires students enrolled in at least their second year to score at proficiency.

Goal 3: Comparative Measure

Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the local school district.

Method

The school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year and the results for the respective grades in the local school district.

Action Plan

Our goal is to improve our measurable results on state tests while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Specifically, this year we have established the following strategies to improve our curriculum and assessments, and professional development:

- Detailed and aligned curriculum and assessments for middle school have been developed by our new academic directors for all four core subjects: ELA, math, science, and social studies.
- We have also improved and expanded our data analysis systems.
- As our schools have expanded and external assessments demand more of our students, we are responding by providing our teachers with much more guidance, structure and professional development.
- Academic directors who designed the new curriculum and assessments have also designed professional development to support the program.
- We added a new weekly half-day of professional development at the middle schools focused on teachers planning with academic directors and studying student work.

Science - High School

Goal 3: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on a New York State Regents science exam by the completion of their fourth year in the cohort.

Method

New York State administers multiple high school science assessments; current Regent exams are Living Environment, Earth Science, Chemistry and Physics. The school administered Living Environment, Earth Science, Chemistry and Physics. It scores Regents on a scale from 0 to 100; students must score at least 65 to pass. This measure requires students in each Accountability Cohort to pass any one of the Regents science exams by their fourth year in the cohort. Students may have taken a particular Regents science exam multiple times or have taken multiple science exams. Students have until the summer of their fourth year to pass a science exam.

Goal 3: Comparative Measure

Each year, the percent to students in the high school Total Cohort passing a Regents science exam with a score of 65 or above will exceed that of the high school Total Cohort from the local school district.

Method

The school compares the performance of students in their fourth year in the charter school high school Total Cohort to that of the respective cohort of students in the local school district. Given that students may take Regents exam up through the summer of their fourth year, the school presents most recently available district results.

²⁸ If the school includes a middle school component, add these measures to the subject area goal for the younger grades.

NCLB

Goal 4: NCLB

Students at Harlem Village Academies Leadership will meet and exceed state standards in all areas required by NCLB accountability guidelines.

Goal 4: Absolute Measure

Under the state's NCLB accountability system, the school's Accountability Status is in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as school requiring a local assistance plan.

Method

Since *all* students are expected to meet the state's learning standards, the federal No Child Left Behind legislation stipulates that various sub-populations and demographic categories of students among all tested students must meet state proficiency standards. New York, like all states, established a system for making these determinations for its public schools. Each year the state issues School Report Cards. The report cards indicate each school's status under the state's No Child Left Behind (NCLB) accountability system.

Results

Harlem Village Academies Leadership is in "Good Standing" for the 2014-15 school year.

SOCIAL STUDIES – High School

Goal 4: Social Studies

Students will meet and exceed state standards for mastery of skills and content knowledge in the area of social studies.

Goal 4: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on the New York State Regents U.S. History exam by the completion of their fourth year in the cohort.

Method

New York State administers two high school social studies assessments: U.S. History and Global History. In order to graduate, students must pass both of these Regents exams with a score of 65 or higher. This measure requires students in each Accountability Cohort to pass the two exams by the completion of their fourth year in the cohort. Students may have taken the exams multiple times and have until the summer of their fourth year to pass it. Once students pass it, performance on subsequent administrations of the same exam do not affect their status as passing.

Results

HIGH SCHOOL GRADUATION

GOAL 6: HIGH SCHOOL GRADUATION

Students will graduate from High School.

Goal 6: Absolute Measure

Each year, 75 percent of students in first and second year high school Total Graduation Cohorts will earn at least ten credits (if 44 needed for graduation) or five credits (if 22 needed for graduation) each year.

Method

This measure serves as a leading indicator of the performance of high school cohorts and examines their progress toward graduation based on annual credit accumulation. The measure requires that, based on the school's promotion requirements, the school will promote 75 percent of its students in each cohort to the next grade by the end of August OR that 75 percent of the first and second year high school Total Graduation Cohorts will earn the requisite number of credits.

Students are considered to be promoted to the next grade as long as they remain on track to graduate from high school in four years.

Goal 6: Absolute Measure

Each year, 75 percent of students in the second year high school Total Graduation Cohort will score 65 on at least three different New York State Regents exams required for graduation.

Method

This measure serves as a leading indicator of the performance of high school cohorts and examines their progress towards graduation based on Regents exam passage. The measure requires that 75 percent of students in each cohort have passed at least three Regents exams by their second year in the cohort. In August of 2015, the 2013 cohort will have completed its second year.

Results

The table below shows the percent of each Cohort that passed three regents exams by the conclusion of their second year in the school.

Evaluation

Goal 6: Absolute Measure

Each year, 75 percent of students in the fourth year high school Total Graduation Cohort and 95 percent of students in the fifth year high school Total Graduation Cohort will graduate.

Method

This measure examines students in two high school Graduation Cohorts: those who entered the 9th grade as members of the 2011 cohort and graduated four years later and those who entered as members of the 2010 cohort and graduated five years later. At a minimum, these students have passed five Regents exams in English language arts, mathematics, science, U.S. History and Global History. Students have through the summer at the end of their fourth year to complete graduation requirements.

The school's graduation requirements appear above under the graduation goal's first measure pertaining to annual grade-by-grade promotion or credit accumulation.

COLLEGE PREPARATION

GOAL 7: COLLEGE PREPARATION

Students will gain admission to college.

Goal 7: Comparative Measure

Each year, the average performance of students in the 10th grade will exceed the state average on the PSAT test in Critical Reading and Mathematics.

Method

This measure tracks student performance one of the most commonly used early high school college prep assessment. Students receive a scale score in critical reading, writing and mathematics. Scale scores range from 200 to 800 on each subsection with 1600 as the highest possible score. As students may choose to take the test multiple times, the school reports only on a student's highest score on each subsection. Compare school averages to the New York State average for all 10th grade (sophomore) test takers in the given year.

Results

The table below shows the school's tenth grade performance on the PSAT compared to New York State.

Goal 7: Comparative Measure

Each year, the average performance of students in the 12th grade will exceed the state average on the SAT or ACT tests in reading and mathematics.

Method

This measure tracks student performance on one of the most commonly used high school college prep assessments.

The SAT is a national college admissions examination. Students receive a scale score in reading, writing and mathematics. Scale scores range from 200 to 800 on each subsection with 2400 as the highest possible score. As students may choose to take the test multiple times during the year, the school only reports a student's highest score. The school compares its averages the New York State average for all 12th grade test takers in the given year.

Goal 7: School Created College Preparation Measure

Each year, 50% of students in the high school Graduation Cohort will receive an Advanced Regents Diploma after the completion of their fourth year in the cohort.

Method

The school will administer the New York State Regents Exams. Students will receive an Advanced Regents Diploma after the completion of their fourth year in the cohort if they pass eight required Regents exams. This measures the percentage of students in the high school Graduation Cohort who passed enough exams to obtain the Advanced Regents diploma.

Results

The table below shows the number of Advanced Regents diplomas the 2011 graduation cohort received.

Percent of Graduates with an Advanced Regents Diploma

Cohort Designation	Number in Cohort	Advanced Regents

2010	30	20.7%
2011	32	3.1%

Evaluation

The percent of graduating students that meets the state's aspirational performance measure (APM), currently defined as the percentage of students in a cohort who graduate with a score of 80 or better on a math Regents exam AND 75 or better on the English Regents exam, will exceed the statewide average.

Method

Recognizing that remediation rates in New York's colleges are far too high, the Board of Regents has reviewed data showing the gap between high school expectations and college attainment. They reviewed data comparing the graduation rate for the 2005 cohort with the "college and career ready" graduation rate – defined as the percentage of students in the cohort who graduated with a score 80 or better on a math Regents exam and 75 or better on the English Regents exam. The Regents view these data as an important indicator of future student success. Students who graduate high school – but do so with a score below 80 on a math Regents exam and below 75 on the English exam – are likely to require remediation in college.

The percent of graduating students who graduate with a Regents diploma with Advanced Designation will exceed the local district.

Method

In establishing measures to be used by schools, districts and parents to better inform them of the progress of their students, the Regents have also set as an additional aspirational measure of achievement the percent of graduating students who earned a Regents diploma with Advanced Designation (i.e., earned 22 units of course credit; passed seven-to-nine Regents exams with a score of 65 or above; and took advanced course sequences in Career and Technical Education, the arts, or a language other than English).

Each year, 75 percent of graduating students will demonstrate their preparation for college by passing an Advanced Placement (AP) exam, a College Level Examination Program (CLEP) exam or a college level course.

Method

The Advanced Placement exam is a national college level course examination. Students receive a scale score ranging from 1-5 with 5 as the highest possible score.

Results

The table below demonstrates the percentage of graduates that have passed an Advanced Placement exam.

Summary of the College Preparation Goal

Harlem Village Academies High has fully or partially achieved one measure for the 2014-2015 school year.

Type	Measure (Accountability Plan from 2012-13 or later)	Outcome
Comparative	Each year, the average performance of students in the 10 th grade will exceed the state average on the PSAT test in Critical Reading and Mathematics.	Did Not Achieve
Comparative	Each year, the average performance of students in the 12 th grade will exceed the state average on the SAT or ACT tests in reading and mathematics.	Did Not Achieve
	The percent of graduating students that meets the state's aspirational performance measure (APM), currently defined as the percentage of students in a cohort who graduate with a score of 80 or better on a math Regents exam AND 75 or better on the English Regents exam, will exceed the statewide average.	Not Applicable
College Preparation	The percent of graduating students who graduate with a Regents diploma with Advanced Designation will exceed the local district.	Not Applicable
	Each year, 75 percent of graduating students will demonstrate their preparation for college by passing an Advanced Placement (AP) exam, a College Level Examination Program (CLEP) exam or a college level course.	Not Applicable
College Attainment	Each year, 75% of graduates will enroll in a two or four year college or university.	Achieved

Action Plan

Our goal is to improve our measurable results on college preparation while continuing our quest to cultivate in our students the sophisticated intellectual capacity and social-emotional skills that they will need to successfully graduate from college. Specifically, this year we have established the following strategies to improve college preparation:

- We have launched an initiative to shift the responsibility for college acceptance, selectivity, and SAT performance from the college team to a school-wide effort.
- All 11th grade students are now taking Test Rocker, individualized online SAT modules and practice tests all customized on baseline diagnostic data.
- We've launched a campaign to educate students and families about the correlation between GPA/SAT and college selectivity/financial aid. We created a selectivity chart which we will be sharing with families through parent nights, college nights, advisors and by including it in every report card.
- Finally, we've established a partnership with "One Goal" a college prep organization to provide a curriculum that helps students with college admissions and graduation.

Appendix B: Total Expenditures and Administrative Expenditures per Child

Charter School Name:

B. Financial Information

This information is required of ALL charter schools. Provide the following measures of fiscal performance of the charter school in Appendix B (Total Expenditures and Administrative Expenditures Per Child):

1. Total Expenditures Per Child

To calculate 'Total Expenditures per Child' take total expenditures (from the unaudited 2014-15 Schedule of Functional Expenses) and divide by the year end per pupil count. (Integers Only. No dollar signs or commas).

Line 1: Total Expenditures	13048159
Line 2: Year End Per Pupil Count	792
Line 3: Divide Line 1 by Line 2	16471

2. Administrative Expenditures per Child

To calculate 'Administrative Expenditures per Child' take the <u>relevant portion</u> from the 'personnel services cost' <u>row</u> and the 'management and general' <u>column</u> (from the unaudited 2014-15 Schedule of Functional Expenses) and <u>divide by</u> the year end per pupil count. The relevant portion that must be included in this calculation is defined as follows:

Administrative Expenditures: Administration and management of the charter school includes the activities and personnel of the offices of the chief school officers, the treasurer, the finance or business offices, the purchasing unit, the employee personnel offices, the records management offices, or a public information and services offices. It also includes those administrative and management services provided by other organizations or corporations on behalf of the charter school for which the charter school pays a fee or other compensation.

Please note the following:

- Do not include the FTE of personnel dedicated to administration of the instructional programs.
- Do not include Employee Benefit costs or expenditures in the above calculations.
- A template for the Schedule of Functional Expenses is provided on page 20 of the 2014-15 Annual Report Guidelines to assist schools identify the categories of expenses needed to compute the two per pupil calculations. This template does not need to be completed or submitted on August 1st as it will be submitted November 1st as part of the audited financial statements. Therefore schools should use unaudited amounts for these per pupil calculations. (See the 2014-15 Annual Report Guidelines in "Resources" area of your portal task page).

To calculate 'Administrative Expenditures per Child' take the relevant portion from the 'personnel services cost' <u>row</u> and the 'management and general' <u>column</u> (from the 2014-15 Schedule of Functional Expenses) and <u>divide by</u> the year end per pupil count. (Integers Only. No dollar signs or commas).

Line 1: Relevant Personnel Services Cost (Row)	767676
Line 2: Management and General Cost (Column)	501985
Line 3: Sum of Line 1 and Line 2	1269661
Line 4: Year End Per Pupil Count	792
Line 5: Divide Line 3 by the Year End Per Pupil Count	1603

Thank you.

Enrollment and Retention Targets

Harlem Village Academy is committed to serving students with disabilities, English language learners and students who are eligible to participate in the federal free and reduced priced lunch program, and has developed specific strategies to attract and retain these students.

Enrollment

The school has used and anticipates using in the future the following strategies to attract high-needs students:

- Mailing fliers and postcards to prospective parents in languages other than English, particularly Spanish
- Targeting mailings at zip codes with high concentrations of students eligible for free or reduced lunch and English Language Learners
- Developing relationships with programs such as Head Start, the Children's Aid Society and other schools and organizations that serve high-needs populations
- Attending community fairs that attract high-needs populations
- Conducting open houses in languages other than English
- Conducting open houses focused on the Special Education services offered by the school
- Posting fliers in buildings frequented by high-needs populations
- Soliciting referrals from parents of English language learners currently enrolled at HVA

In addition, the school sets aside the first 30% of its seats for students eligible for free or reduced lunch.

HVA has maintained very low student attrition with a preventive and comprehensive approach. Our teachers and principals developed strategies together, executed them effectively, and produced results. The school anticipates using the same strategies moving forward, including:

- Overall Family Relationships and Communications. Take steps to further develop positive family relationships, such as
 - o Pot luck dinners during the first week of school
 - Positive phone calls home during the first week of school
 - Chatting with parents outside during arrival and dismissal even when not officially on duty
 - When parents become frustrated and want to leave because of how hard it is for their child to adjust to the higher behavioral and/or academic standards, five teachers will call the parent to convince them to stay
 - Improved the quality and increased the quantity of summer home visits that take place after students are accepted in the lottery but before the school year begins.
 Increased the specificity of our expectations.

- **New Student Acclimation.** Strategies to help students who have a hard time adjusting to our higher behavior standards, include:
 - Throughout September, teachers observe each other's classrooms during their free periods all day, then meet every evening to debrief about their students and devise strategies to improve behavior and habits
 - o Identify students who will struggle with behavior as follows:
 - Interview the students during orientation teachers developed a 20-question interview protocol focused on behavior
 - Teachers intensively co-observe in classrooms throughout the day during the first month of school
 - Principals put students in strategic situations in the first week of the school year, and observe them closely
 - Provide intensive support to students on a daily basis, coaching them in how to change their behavior habits and insisting that they do so
 - Increase communication early in the year by teachers and deans with new parents of students who are struggling with behavior. Follow-up calls daily during September regarding student behavior, progress, and to build the relationship with the families so that we're on the same team working together to help the child successfully meet the higher behavior standards
 - Provide advice to parents regarding how they can reinforce our behavior expectations at home, e.g. respectful speech, actions and gestures, etc.
- **Academic Supports** Strategies to maximize the number of students who are promoted to the next each year grade include:
 - o Added a special education teacher focused on 5th grade only
 - Focus the school's staffing, scheduling and budget on our reading program to provide more instructional time and smaller class sizes
 - Conduct running records frequently, so reading teachers get to know each new student individually, early in the year
 - Ensure adequate quantity and quality of tutoring and SGI (Small Group Instruction)
 - Commit to the low as well as the lowest students by spending more time tutoring both groups during SGI, lunch, after school, and Saturday
